HOW TO USE THIS BULLETIN

The information in this bulletin is current at the time of publication. If you are pursuing a degree, you are obligated to fulfill the requirements as they are listed in the bulletin for the semester in which you enroll in that program.

If the requirements change after you have enrolled in the program, you have the option of fulfilling either the old or new requirements. If you elect to fulfill the old requirements and find that necessary courses have been eliminated or substantially revised, you may substitute other courses with the approval of the dean of the college. If the revision is required by an external accreditation certification body, and this body submits a written statement to the University that the accreditation of a program or certification of its graduates is in jeopardy unless students fulfill the new requirements, the option of fulfilling the old requirements shall not apply.

If your study in the program or the University is interrupted for more than two semesters, your college dean will decide which program requirements must be fulfilled.

Find out more about the University of Kentucky at: www.uky.edu.

Information about the Kentucky Community & Technical College System is available at: www.kctcs.edu/.

COMPLIANCE WITH REGULATIONS

The University of Kentucky complies with the federal and state constitutions, and all applicable federal and state laws, regarding nondiscrimination. The University provides equal opportunities for qualified students in all aspects of University operations, and does not discriminate on the basis of race, color, national origin, ethnic origin, religion, creed, age, physical or mental disability, veteran status, uniformed service, political belief, sex, sexual orientation, gender identity, gender expression, pregnancy, marital status, genetic information, social or economic status, or whether the person is a smoker or nonsmoker, as long as the person complies with University policy concerning smoking. Compliance with the Title IX of the Educational Amendments of 1972, which prohibits sex discrimination, and with Title VI of the Civil Rights Act of 1964 is coordinated by the Equal Opportunity Office, Main Bldg., University of Kentucky, Lexington, KY 40506-0032, 859-257-8927.

Efforts to comply with the laws and regulations applicable to people with disabilities are also coordinated by the Office of Institutional Equity and Equal Opportunity, as required by Section 504 of the Rehabilitation Act of 1973, and the Americans with Disabilities Act of 1990.

Questions concerning compliance with regulations may be directed to UK’s Office of Institutional Equity and Equal Opportunity, or to the Director of the Office for Civil Rights, U.S. Department of Education, Washington, D.C.

Qualified students with disabilities should contact the associate dean and director of the Disability Resource Center at (859) 257-2754 to request reasonable accommodation.

The University is in compliance with the Drug-Free Workplace Act of 1988 and the Drug-Free Schools and Communities Act Amendment of 1989. Questions may be directed to the Vice President for Student Affairs or the Office of the Associate Vice President for Human Resources.

Information on the employment and earnings of public postsecondary education institution graduates in Kentucky is available at: https://kcews.ky.gov/Reports/PSFeedBack/PSFR14_UniversityofKentucky.pdf

Questions about admission to the University should be directed to the appropriate admissions office.

OFFICE FOR INSTITUTIONAL DIVERSITY

The University of Kentucky prepares students for meaningful and responsible engagement within and across diverse communities. Through its own example, the University strives to improve the climate for diversity throughout Kentucky, a commitment given special importance and emphasis in the 2015-2020 UK Strategic Plan. The composite effect of work with students enables them to develop a more enlightened worldview; attain a deeper understanding of and commitment to authentic democratic values and social justice; embrace a greater commitment to service and leadership; exhibit greater cultural knowledge and competence; and facilitate Kentucky’s success in the global economy.

The Office for Institutional Diversity has a primary responsibility to uphold the University’s commitment to embracing diversity and inclusion and promoting increased knowledge of diversity and its significance as a fundamental value of the campus community. Of equal importance is its mission to enhance academic support services to ensure the academic success and personal development of all students, especially those students from backgrounds that have been historically marginalized on the University campus.

The Office for Institutional Diversity works collaboratively where all students, faculty, and staff live or work in an environment of openness and acceptance, and in which people of all backgrounds, identities, and perspectives can feel secure and welcome.

University of Kentucky is accredited by the Southern Association of Colleges and Schools Commission on Colleges to award associate, baccalaureate, masters, and doctorate degrees. Contact the Commission on Colleges at 1866 Southern Lane, Decatur, Georgia 30033-4097, call 404-679-4500, or online at www.sacsoc.org for questions about the accreditation of University of Kentucky.
OAK RIDGE ASSOCIATED UNIVERSITIES (ORAU)

Since 1946, students and faculty of the University of Kentucky have benefited from its membership in Oak Ridge Associated Universities (ORAU). ORAU is a consortium of over 100 colleges and universities and a contractor for the U.S. Department of Energy (DOE) located in Oak Ridge, Tennessee. ORAU works with its member institutions to help their students and faculty gain access to federal research facilities throughout the country; to keep its members informed about opportunities for fellowship, scholarship, and research appointments; and to organize research alliances among its members.

Through the Oak Ridge Institute for Science and Education (ORISE), the DOE facility that ORAU operates, undergraduates, graduates, postgraduates, as well as faculty enjoy access to a multitude of opportunities for study and research. Students can participate in programs covering a wide variety of disciplines including business, earth sciences, epidemiology, engineering, physics, geological sciences, pharmacology, ocean sciences, biomedical sciences, nuclear chemistry, and mathematics. Appointment and program length range from one month to four years. Many of these programs are especially designed to increase the numbers of underrepresented minority students pursuing degrees in science- and engineering-related disciplines. A comprehensive listing of these programs and other opportunities, their disciplines, and details on locations and benefits can be found in the ORISE Catalog of Education and Training Programs, which is available at www.orau.gov/orise/educ.htm, or by calling either of the contacts below.

ORAU’s Office of Partnership Development seeks opportunities for partnerships and alliances among ORAU’s members, private industry, and major federal facilities. Activities include faculty development programs, such as the Ralph E. Powe Junior Faculty Enhancement Awards, the Visiting Industrial Scholars Program, consortium research funding initiatives, faculty research and support programs as well as services to chief research officers.

For more information about ORAU and its programs, contact:

Lisa A. Cassis
Vice President for Research
ORAU Councilor for University of Kentucky

Monnie E. Champion
ORAU Corporate Secretary (865-576-3306); or
Visit the ORAU Home Page at: www.orau.org
NOTIFICATION OF RIGHTS UNDER FERPA FOR POSTSECONDARY INSTITUTIONS

www.uky.edu/Registrar/ferpa.html

The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their education records. They are:

(1) The right to inspect and review the student’s education records within 45 days of the day the University receives a request for access. Students should submit to the registrar, dean, head of the academic department, or other appropriate official, written requests that identify the record(s) they wish to inspect. The University official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the University official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.

(2) The right to request the amendment of the student’s education records that the student believes is inaccurate. Students may ask the University to amend a record that they believe is inaccurate. They should write the University official responsible for the record, clearly identifying the part of the record they want changed, and specify why it is inaccurate. If the University decides not to amend the record as requested by the student, the University will notify the student of the decision and advise the student of his or her right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

(3) The right to consent to disclosures of personally identifiable information contained in the student’s education records, except to the extent that FERPA authorizes disclosure without consent. One exception which permits disclosure without consent is disclosure to school officials with legitimate educational interests. A school official is a person employed by the University in an administrative, supervisory, academic or research, or support staff position (including law enforcement unit personnel and health staff); a person or company with whom the University has contracted (such as an attorney, auditor, or collection agent); a person serving on the Board of Trustees; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.

Upon request, the University discloses education records without consent to officials of another school in which a student seeks or intends to enroll. [Note: FERPA requires an institution to make a reasonable attempt to notify the student of the records request unless the institution states in its annual notification that it intends to forward records on request.]

(4) The right to file a complaint with the U.S. Department of Education concerning alleged failures by the University of Kentucky to comply with the requirements of FERPA. The name and address of the office that administers FERPA is: Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue, SW, Washington, D.C., 20202-4605.

The University may release information without the student’s consent where the information is classified as “Directory information.” The following categories of information have been designated by the University as directory information: name, address, telephone listing, email address, photograph, place of birth, major field of study, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, degrees and awards received, full-time/partial-time status*, and the most recent previous educational institution attended by the student.

Direct questions concerning this law and the University’s policy concerning release of academic information to the Student Records Office, (859) 257-7157. Students who do not wish such information released without their consent should notify the Student Records Office in writing. For complete information on (1) adding and removing a privacy flag to prevent the release of directory information; (2) the definition of education records; (3) the types of directory information that may be made available without the student’s consent; and (4) the annual FERPA notification deadline for prevention of release of directory information, please visit: www.uky.edu/Registrar/obligation-privacy.

*For a description of full-time and part-time status, see Notes 2 and 3 under “Tuition and Fees” on page 30.

ANNUAL DISCLOSURE STATEMENT

Student Right-to-Know Act (P.L. 101-542)

University of Kentucky

2016-2017

Section 103 of the Student Right-to-Know and Campus Security Act of 1990 (Public Law 101-542) as amended by the Higher Education Technical Amendments of 1991 (Public Law 102-26) requires public disclosure of relevant graduation rate information for students enrolled in colleges and universities receiving federal financial assistance annually beginning July 1, 1993. The following statement is the University of Kentucky’s official disclosure statement in accordance with the requirements of P.L. 101-542 Section 103 for the 2016-2017 academic year.

Graduation Rate of Entering Freshmen

The graduation rate for all students entering the University of Kentucky as first-time freshmen during the 2009-2010 academic year* was 61.3 percent. This graduation rate represents the percentage of students entering the University of Kentucky as first-time (i.e., new) full-time degree-seeking freshmen during the 2009 Summer and Fall terms who subsequently were awarded baccalaureate degrees by the University of Kentucky within six calendar years (i.e., through August 2015). This rate was calculated under definitions and procedures established by the National Collegiate Athletic Association (NCAA), and reported to the NCAA on the University’s 2015 Graduation Rate Disclosure Form in March 2016.

Final regulations and guidelines for the calculation, reporting, and disclosure of graduation rate information required under the Student Right-to-Know Act have not yet been issued by the Department of Education. Definitions of the entering student cohort in the Department of Education’s proposed regulations (Federal Register, July 10, 1992) and the NCAA Graduation Rate Disclosure Form differ slightly. However, the University has determined that the graduation rate information in the annual NCAA report is substantially comparable to the information required under the Student Right-to-Know Act, and is reporting that information at this time pending release of final federal regulations.

March 2016

*The information to be disclosed by July 1 of each year is “the graduation rate for the most recent cohort of entering students that all have had an opportunity to complete or graduate from their respective programs” in the specified completion period (which for the University of Kentucky is six years). The most recent entering cohort meeting this requirement is the 2009-2010 freshman class.
2016-2017 Calendar

2016 Fall Semester

December 1, 2015 – Tuesday - Early action deadline for freshmen applying for Fall 2016
February 1 – Monday - Deadline for submission of all application materials, College of Medicine, for the 2016 Fall Semester
February 1 – Monday - Deadline for submission of all application materials for the School of Interiors
February 15 – Monday - Regular decision deadline for freshman applicants. Applicants for the 2016 Fall Semester by this date who meet selective admission criteria will be offered general admission; applicants after this date or deferred decision candidates will be considered on a space-available basis only.
February 15 – Monday - Priority filing deadline for the 2016-2017 academic year for financial aid for entering freshmen
February 28 – Sunday - Last day for filing an application for an August 2017 undergraduate degree online in myUK
March 1 – Tuesday - Deadline for all applicants to the College of Design
March 15 – Tuesday - Priority filing deadline for the 2016-2017 academic year for financial aid for continuing and transfer students
March 15 – Tuesday - Deadline for international applications to be accepted to The Graduate School for the 2016 Fall Semester
April 1 – Friday - Deadline for NAAB Architecture transfer applicants
April 15 – Friday - Deadline for applying with college deans for reinstatement after a second academic suspension for the 2016 Fall Semester
May 1 – Sunday - Enrollment deposit due for freshmen entering in Fall 2016
May 15 – Sunday - Deadline for students to schedule an appointment for reinstatement in all colleges for the 2016 Fall Semester
May 15 – Sunday - Deadline for undergraduate international applicants to submit 2016 Fall Semester application
June 15 – Wednesday - Earliest date to submit application for regular and Early Decision Program admission, College of Medicine, for the 2017 Fall Semester
June 18–September 17 – Saturday through Saturday - Approved time period to apply online in myUK for a December 2016 degree from the Graduate School
June 20–July 15 – Monday through Friday - “see blue” U Orientation and Registration for new freshmen, transfers, and readmitted students enrolling for the 2016 Fall Semester
June 30 – Tuesday - Last day for filing an application for a December 2016 undergraduate degree online in myUK
July 1 – Friday - Final deadline for submission of all required documents to the Office of Admissions for undergraduate admission, excluding freshmen for the 2016 Fall Semester, who will be considered on a space-available basis
July 15 – Friday - Deadline for applying for admission to the Graduate School for the 2016 Fall Semester
July 15–August 13 – Friday through Saturday - Add/Drop for registered students
August 1 – Monday - Deadline for application for Early Decision Program, College of Medicine, for the 2017 Fall
August 3 – Wednesday - Last day for students in the Employee Educational Program registered through August 3 to submit EEP form to Human Resource Services to confirm 2016 registration and tuition waiver
August 16-22 – Tuesday through Monday - Registration for new program graduate students
August 16-22 – Tuesday through Monday - Fall registration for new undergraduate and new program graduate students who entered the University in either the 2016 Four-Week Intersession or Eight-Week Summer Session
August 17 – Wednesday - “see blue” U Orientation and Registration for new freshmen and transfer students who have been cleared for admission but did not priority register, including registration for Evening and Weekend
August 18 – Thursday - “see blue” U Orientation and Registration for new international students who have been cleared for admission but did not priority register
August 18-22 – Tuesday through Monday - Fall registration for new post-baccalaureate students admitted for the Four-Week Intersession, Eight-Week Summer Session or Fall Semester
August 19-27 – Friday through Saturday - K Week for all new undergraduate students
August 22 – Monday - Payment deadline of registration fees and/or housing and dining fees – if total amount due is not paid as indicated on the account statement, a late payment fee of 1.25 percent of the amount past due will be assessed
August 22-23 – Monday and Tuesday - Opening-of-term add/drop for registered students
August 22-26 – Monday through Friday - Approved time period for students to change academic majors (note: please check with college for admission deadline)
August 23 – Tuesday - Last day a student may officially drop a course or cancel registration with the University Registrar for a full refund of fees
August 23 – Tuesday - “see blue” U Orientation and Registration for readmission and non-degree students who have been cleared for admission but did not priority register including registration for Evening and Weekend
August 24 – Wednesday - First day of classes
August 24-30 – Wednesday through Tuesday - Late registration for returning students who did not priority register and new applicants cleared late for admission. A late fee is assessed students who register late.
August 30 – Tuesday - Last day to add a class for the 2016 Fall Semester
August 30 – Tuesday - Last day to officially withdraw from the University or reduce course load and receive an 80 percent refund
August 30 – Tuesday - Last day for students in the Employee Educational Program who registered and/or changed schedules after August 3 to submit EEP form to Human Resource Services to confirm 2016 Fall Semester registration and tuition waiver
September 5 – Monday - Labor Day – Academic Holiday
September 14 – Wednesday - Last day to drop a course without it appearing on the student’s transcript

Check the Academic Calendars for any calendar changes that may have been approved after the publication of this Bulletin.
**2016-2017 Calendar**

**September 20 – Tuesday** - Last day for doctoral candidates for a December degree to submit a Notification of Intent to schedule a final examination in The Graduate School

**September 20 – Tuesday** - Last day to apply for a December 2016 degree in the Graduate School

**September 21 – Wednesday** - Last day to officially withdraw from the University or reduce course load and receive a 50 percent refund

**September 22 – Thursday** - Deadline for submission of application and all required documents to the Office of Undergraduate Admission and University Registrar for change of residency status for 2016 Fall Semester

**September 26-November 23 – Monday through Wednesday** - Students are prohibited from changing majors

**October 10-21 – Monday through Friday** - Midterm Grading window is open. The mid-term grading window will close at midnight on October 21.

**October 15 – Saturday** - Deadline for submission of application and all required documents to the Office of Admissions for undergraduate applicants planning to attend November “see blue” U Orientation (including registration for spring classes)

**October 17 – Monday** - Midterm of 2016 Fall Semester

**October 31 – Monday** - Deadline for completed AMCAS application, College of Medicine, for the 2017 Fall Semester

**November 4 – Friday** - Last day to withdraw from the University or reduce course load. Students can withdraw or reduce course load after this date only for “urgent non-academic reasons.”

**November 8 – Tuesday** - Presidential election day - Academic Holiday

**November 10 – Thursday** - Last day candidates for a December 2016 degree can schedule a final examination in the Graduate School

**November 18 – Friday** - 2017 Spring Semester “see blue” U Orientation for new and readmitted undergraduate students

**November 23-26 – Wednesday through Saturday** - Thanksgiving - Academic Holidays

**November 28-December 19 – Monday through Monday** - Add/Drop for registered students for the 2017 Spring Semester

**November 30 – Wednesday** - Last day for filing an application for a May 2017 undergraduate degree online in myUK

**December 1 – Thursday** - Deadline for submission of application and receipt of all materials for admission, readmission or transfer to the College of Law for the 2017 Spring Semester

**December 1 – Thursday** - Last day candidates for a December 2016 degree can sit for a final examination

**December 5 – Monday** - Deadline for applying for admission to the Graduate School for the 2017 Spring Semester

**December 5-19 – Monday through Friday** - Midterm Grading window is open. The final deadline for submission of grades online in the grading portal is midnight, December 19.

**December 7 – Wednesday** - Last day for students in the Employee Program registered through December 7 to submit EEP form to Human Resource Services to confirm 2017 Spring Semester registration and tuition waiver

**December 9 – Friday** - Last day of classes

**December 9 – Friday** - Last day for candidates to submit thesis/dissertation for formal review to the Graduate School

**December 12-16 – Monday through Friday** - Final Examinations

**December 16 – Friday** - End of 2016 Fall Semester

**December 16 – Friday** - Last day for candidates for a December 2016 degree to have thesis/dissertation accepted by the Graduate School

**December 16 – Friday** - December Commencement

---

**Winter Intersession 2016-2017**

**October 15, 2016 – Saturday** - Priority deadline for admission to the Winter Intersession

**October 31-November 22, 2016 – Monday through Tuesday** - Priority registration for Winter Intersession

**November 18, 2016 – Friday** - Winter Intersession registration for newly-admitted students

**December 8, 2016 – Thursday** - Deadline for admission to the Winter Intersession

**December 16, 2016 – Friday** - Last day a student may drop a course or cancel registration with the University Registrar for a full refund of fees

**December 19, 2016 – Monday** - First day of class

**December 19, 2016 – Monday** - Last day to add a class for the 2016-2017 Winter Intersession

**December 19, 2016 – Monday** - Last day to officially withdraw from the University or reduce course load and receive a 50 percent refund

**December 22, 2016 – Thursday** - Payment deadline of registration fees and/or housing and dining fees – if total amount due is not paid as indicated on the account statement, a late payment fee of 1.25 percent of the amount past due will be assessed

**December 25-January 1 - Sunday through Sunday** - Academic Holidays

**January 2, 2017 – Monday** - Last day to officially withdraw from the University or reduce course load and receive a 50 percent refund

**January 2, 2017 – Monday** - Last day to drop a course without it appearing on the student’s transcript

**January 2, 2017 – Monday** - Last day to change a grading option (pass/fail to letter grade or letter grade to pass/fail; credit to audit or audit to credit)

**January 4, 2017 – Wednesday** - Last day to withdraw from the University or reduce course load. Students can withdraw or reduce course load after this date only for urgent non-academic reasons.

**January 10, 2017 – Tuesday** - Final Examinations

**January 10, 2017 – Tuesday** - End of 2016-2017 Winter Intersession

**January 13, 2017 – Friday** - Final deadline for submission of grades to the Registrar’s Office by 12 p.m.

---

**2017 Spring Semester**

**February 15, 2016 – Monday** - Priority filing deadline for the 2016-2017 academic year for financial aid for entering freshmen

**March 15, 2016 – Tuesday** - Priority filing deadline for the 2016-2017 academic year for financial aid for continuing and transfer students

**August 15, 2016 – Monday** - Deadline for international applications to be accepted to The Graduate School for the 2017 Spring Semester

**September 15, 2016 – Thursday** - Deadline for applying with college deans for reinstatement after a second academic suspension for the 2017 Spring Semester

**September 18-February 20 – Sunday through Monday** - Approved time period to apply online for a May 2017 degree from the Graduate School

**October 1, 2016 – Saturday** - Deadline for students to schedule an appointment for reinstatement in all colleges for the 2017 Spring Semester

       Ends 7/7/17
June 19 – Monday - 4th Year Professional Students begin Rotation Block 2
       Ends 7/28/17
July 24 – Monday - 2nd Year Professional Students begin Rotation Block C
       Ends 8/18/17
August 18 – Friday - End of Spring Term
A Message from President Eli Capilouto

In February 1865, amid the still smoldering embers of the Civil War, John Bryan Bowman advocated for a public university in Lexington. Though located in the Bluegrass, the Agriculture and Mechanical College of Kentucky University would go on to serve the better interests of the entire Commonwealth. It was a profound idea that a university had the ability to change people’s lives through unmatched higher education, innovative research and discovery, and outreach that uplifts and heals communities and the people it serves.

Today, the University of Kentucky is pioneering new ways to carry out its mission to our students, faculty, staff, alumni and friends, and the people of the Commonwealth of Kentucky. It is the idea that we have been charged to lead as our state’s flagship through a multi-faceted mission of education, research, service and health care.

We are blessed with a strong faculty core that supports more than 200 academic programs spread across 17 colleges, professional schools and the UK Library system. The UK Core, the institution’s innovative undergraduate curriculum, is providing students with a comprehensive education that will prepare them for lives of leadership, meaning and purpose. The University is deeply intent on building upon our previous work with creative and direct approaches to further enhancing and expanding student success.

On campus, we have undertaken an innovative effort to restore and rebuild our residential communities. We are engaged in a public/private partnership with Memphis-based EdR to create living-learning spaces for our students to discover and collaborate in a way that enhances the overall college experience. By 2017, we will add more than 6,800 modern residence hall beds in 14 new facilities on our campus – among the largest growth periods in the institution’s history. Included in this purposeful expansion are more than 200 technology-rich academic learning spaces to enhance the college experience.

Our endeavor to build a campus that supports a new century of promise includes several capital projects vital to the long-term future of the institution: the renovation and expansion of the Gatton College of Business and Economics, a new Academic Science Building, a renovated Commonwealth Stadium and Nutter Training Center, a dramatic renewal of the student center, the continued fit-out of Chandler Hospital, a new home for the School of Art and Visual Studies, and a new multi-disciplinary medical sciences research building.

Each project will be financed through a mix of private philanthropy, creative partnerships, clinical revenue, state support and institutional resources. Most notable is the generosity of our donors who will completely finance a new Gatton College and the bold partnership with UK Athletics – one of the few self-sustaining programs in the nation – which will pay for two-thirds of the Academic Science Building.

Our capital priorities are a critical component of our future, but our campus is more than bricks and mortar – it is the faculty, staff and administrators who open doors of opportunity for our students and the programs that comprise the comprehensive college experience we offer.

The new spaces we are creating, in addition to the renewal of our dining facilities, foster a rewarding sense of community across our campus. Our goal is to create places where students build friendships, learn with and from faculty mentors, and colleagues collaborate on the next great idea.

The University’s wide variety of academic opportunities are complemented by exciting co-curricular activities that add richly to what our students learn inside the classroom and encourage them to actively participate as part of a global community. We emphasize our outreach and service missions to better prepare our future generation for a world that never stops evolving.
The University

The University of Kentucky has a vibrant fine arts program and is a cultural hub for arts engagement in the Commonwealth. UK English professor and director of the African American and Africana Studies Program, Frank X Walker, was named the 2013-14 Kentucky Poet Laureate, UK’s fourth professor to hold this honor, as well as the youngest and first African American to be named to the prestigious position. Student performers in the UK Symphony Orchestra played alongside the world’s best musicians in the Boston Pops tribute concert for the 75th Anniversary of Keeneland Race Course. The School of Music’s Opera Program and Symphony travel across Kentucky performing at middle and high schools. UK alumnus Reginald Smith, Jr. earned one of the five winning spots in the Metropolitan Opera National Council Auditions in 2015. Professor Ebony Patterson’s provocative work is in the spotlight in galleries from Lexington to New York City and beyond.

Over the last several years, the College of Design has become a major resource for communities looking to redevelop resources in creative ways to address the economic challenges they face. Recently, faculty and student architects have helped repurpose houseboat manufacturing facilities in southeast Kentucky to build energy efficient residences for families in the region. Additionally, a group of faculty and students are utilizing these innovative energy efficient homes to help Kentucky communities like Johnson County and West Liberty recover and rebuild after devastation caused by natural disasters.

Closer to home, UK faculty and staff researchers commercialize their ideas and designs through the business modeling process and into burgeoning small businesses. In addition to attracting venture capital for start-up companies, UK faculty and staff lend their intellectual expertise to national and multinational companies located in Lexington. UK’s 735-acre Coldstream Research Campus is home to more than 2,250 employees and 56 companies in the biotech, pharmaceutical, equine health and service industries, including the global headquarters and regional offices for Tempur Sealy, A&W Restaurants, and Hewlett-Packard.

In countless ways, the University of Kentucky endures as a modern flagship, land-grant research institution, emboldened anew by an enduring and timeless commitment to improve our state, region, nation and global community.

It is a vision that has been a steadfast commitment throughout our history. It is a promise that will guide us in the future.

Sincerely,

Eli Capilouto
President

University of Kentucky – The Commonwealth’s Flagship Institution

The innovation, creativity, quality teaching and uplifting service under way at the University of Kentucky touch the lives of people throughout the state, the nation and the world. This is the covenant we honor through ground-breaking research, community outreach, intellectually rigorous education and technological advances that contribute to the betterment of the Commonwealth while also fostering a cultural quality of life through our museums, libraries and special events.

Founded in 1865 as a land-grant institution adjacent to downtown Lexington, UK is nestled in the scenic heart of the beautiful Bluegrass Region of Kentucky. From its early beginnings, with only 190 students and 10 professors, UK’s campus now covers more than 918 acres and is home to more than 30,000 students and approximately 14,500 employees, including more than 2,300 full-time faculty, and operates an annual budget of more than $3.0 billion. UK is one of eight universities in the United States that has colleges of agriculture, engineering, medicine and pharmacy on a single campus, leading to groundbreaking discoveries and unique interdisciplinary collaboration. The state’s flagship university consists of 17 academic and professional colleges where students can choose from more than 200 majors and degree programs at the undergraduate and graduate levels. The colleges are Agriculture, Food and Environment; Arts and Sciences; Business and Economics; Communication and Information; Dentistry; Design; Education; Engineering; Fine Arts; the Graduate School; Health Sciences; Law; Medicine; Nursing; Pharmacy; Public Health; and Social Work. Supporting and emboldening our scholarly community is a comprehensive research library system made up of nine facilities, including the world-class William T. Young library.

The student body is diverse, representing more than 100 countries, every state in the nation, and all 120 Kentucky counties. The University continues to attract the best and brightest from Kentucky and beyond. At 25.5, the average ACT score for first-year students is more than four points above the national average. Several hundred students participated in the Governor’s Scholars Program or the Governor’s School for the Arts; and the University enrolled more than 400 National Merit, National Achievement and National Hispanic Scholars in the last four years. UK students compete successfully for prestigious scholarships and awards, such as the Fulbright, Astronaut, Truman, Goldwater, Marshall, Udall and Gates. UK had its 15th and 16th Astronaut Scholars named in 2013-14. Additionally, UK has had 13 Truman Scholars since the program started, as well as 18 Goldwater Scholars since 1990. In the 2014-15 academic year, UK had its 5th Marshall Scholar, and two Gates Cambridge Scholars have been named in the past seven years. This past year, three students received the National Science Foundation Graduate Research Fellowship.

Since his arrival, President Eli Capilouto has set forth an ambitious agenda to honor our covenant with Kentucky as a modern, land-grant and flagship research university lighting the path toward a brighter tomorrow. By focusing on student success; academic excellence; infrastructure growth and improvement; creating opportunities for innovative teaching and learning; fostering a robust research and creative scholarship enterprise; providing life-saving subspecialty care; empowering communities through service and outreach; and encouraging a transparent and shared dialogue about institutional priorities; the University of Kentucky will ensure a new century of promise for the people we impact.

The University

“The University of Kentucky has a broad range of resources centered on a single campus in the heart of the Bluegrass,” Capilouto says. “Our wide array of programs allows us to excel in multidisciplinary studies and fosters an environment of cooperative engagement across all colleges, programs and research endeavors. Because of the lives we touch and teach, we remain anchored in our mission to Kentucky – to educate, innovate and serve. To be sure, our complex, multi-faceted mission looks different today in many ways than it did in 1865. However, our sense of responsibility to our communities on campus and across the region is resolute. The mission has evolved and grown. The vision of service to our Commonwealth and the world beyond remains the same. They remain our compass – the soul of the University of Kentucky.”

In the last several years, UK has received nearly 100 national rankings for excellence in academics, research, health care and economic development. Five programs are ranked at the top of their respective fields. U.S. News and World Report ranks several of UK’s graduate programs among the nation’s best: the Martin School of Public Policy and Administration is ranked second in the category of public finance and budgeting, and the College of Pharmacy is ranked fifth. The University of Kentucky earned 28 Top 10 rankings and 50 Top 25 rankings over the last several years.

The College of Arts and Sciences, Department of Hispanic Studies and doctoral program in Clinical Psychology have both received top honors for faculty productivity and scholarly activity. UK’s premier professional opera training program was named one of the top programs in the nation by the Tucker Foundation. The Institute for the Theory and Practice of International Relations named the Patterson School of Diplomacy and International Commerce among the top 20 master’s degree programs in international affairs in the world. In the last few years, the College of Public Health (overall); the Gatton College of Business and Economics, Ph.D. in business administration; the College of Health Sciences, Physical Therapy program; the College of Medicine, Ph.D. in physiology; and the College of Nursing (overall) have been ranked in the Top 25
in their respective fields. In addition, a study published in the Southern Economic Journal ranked the Gatton College of Business and Economics’ Department of Economics 19th among public institutions in the U.S., and Gatton’s Masters in Accountancy program has among the highest passage rates on the CPA exam. The College of Agriculture, Food and Environment – the foundation of our land-grant mission – boasts the nation’s third largest Cooperative Extension Service, and UK’s College of Law has been ranked a top 10 best buy.

In 2007, the University of Kentucky became the 16th American public university – 31st of both public and private – that successfully completed campaigns of more than $1 billion. Moreover, the University was the first institution to reach this milestone in its first-ever billion-dollar capital campaign. Following the campaign, the University initiated a campus-wide review of all college, UK HealthCare, athletics and special program development efforts. As a result, UK is at its highest level of fundraising success.

With its well-manicured landscape and landmark buildings, UK’s campus also offers great facilities that advance the scholarship of its students and the research endeavors of its faculty. At the heart of the campus is the iconic William T. Young Library, the most visible of several facilities that comprise UK Libraries. The stately architecture features a 93-foot-tall rotunda and a dramatic five-floor atrium allowing natural light to pour in from skylights. UK Libraries is among the world’s leading research libraries with a broad scope of advanced technology that offers students, faculty, staff and Kentucky residents special access to current information online in addition to printed resources.

To match the scope, scale and grandeur of William T. Young Library, the University of Kentucky has recently engaged in an effort to revitalize student living and learning spaces. UK’s public/private partnership with EdR will yield more than 6,800 modern beds and more than 200 active learning spaces in 14 buildings by 2016 – a $459 million investment made by our partners. The total project scope has the potential to create nearly 9,000 modern living spaces by 2018.

- Johnson Hall and Central Hall opened in fall 2013;
- Woodland Glen I & II, Haggin Hall and Champions Court I & II opened in fall 2014;
- Woodland Glen III, IV, & V opened in fall 2015;
- Limestone Park I & II are scheduled to open in fall 2016;
- University Flats and Lewis Hall are scheduled to open in fall 2017.

Over the last four years, the University approved the construction of more than $1.8 billion in infrastructure to bolster the long-term health and success of the institution. In addition to the aforementioned residential housing projects, UK is investing:

- $65 million to renovate and expand the Gatton College of Business and Economics with the support of generous donors and friends.
- $110 million in a new Academic Science Building that will define cutting-edge, interdisciplinary education and research that spans an array of scientific fields. UK Athletics is funding nearly two-thirds of this modern learning and research space – an unprecedented move in American higher education and NCAA athletics.
- $120 million to enhance Commonwealth Stadium and $45 million to renovate and expand the Nutter Training and Recruiting Center; financed completely by self-generated revenue from UK Athletics.
- $20 million invested in the College of Fine Arts, including a new home for the School of Art and Visual Studies.
- $150 million to continue the fit-out of UK HealthCare’s Chandler Hospital; financed with clinical revenue.
- $201 million to renovate and expand the student center and create a modern facility for the campus and community; financed with the support of donors and friends of the institution.

- Legislative authorization for up to $65 million to dramatically renew – in partnership with the state and donors – the College of Law.
- A $265 million multi-disciplinary health science research facility; financed by the state and institution.

Research at the University of Kentucky is a dynamic enterprise encompassing traditional scholarship, the humanities, health care and emerging fields and technologies. UK’s research enterprise received approximately $285 million in external grants and contracts in 2015, resulting in an annual direct and indirect economic impact of $581 million, more than 8,000 jobs and $21.3 million generated in local and state taxes.

With more than 50 research centers and institutes, UK researchers are discovering new knowledge, providing a rich training ground for current students and the next generation of researchers, advancing the economic growth of the Commonwealth of Kentucky, and exploring art and creativity of diverse cultures. After working for more than 10 years on unlocking an ancient piece of history, faculty in the UK Department of Computer Science will “virtually” unroll 2,000-year-old Herculaneum scrolls buried by volcanic eruption in AD 79. The discovery – made possible by first-of-its-kind software – could have profound impacts on history and literature from the Classical era.

Several centers excel in the services offered to the public. The Gluck Equine Research Center is one of only three facilities of its kind in the world, conducting research into diseases of the horse. The Center for Applied Energy Research (CAER) is pursuing groundbreaking innovation across the energy disciplines. CAER staff are pioneering new ways to sustainably utilize Kentucky natural resources through carbon-capture algae technology, biomass/coal to liquid products and the opening of UK’s first LEED-certified research lab to support the development of Kentucky’s growing alternative energy industry. The College of Education’s P20 Innovation Lab is reforming Kentucky classrooms by implementing 21st century learning techniques derived from pedagogical research, preparing new teachers and providing additional training for school and district leadership.

Among the brightest examples of UK’s investment in transformative research is the Markey Cancer Center. As a center of excellence and distinction at UK, Markey’s robust research and clinical enterprise is the cornerstone of our commitment to Kentucky – fundamental to our success in uplifting lives through our endeavors and improving the general health and welfare of our state – burdened by the nation’s highest rate of cancer deaths per 100,000 people. In 2013, Markey earned the prestigious National Cancer Institute designation (NCI) – one of 68 nationally and the only one in Kentucky.

Because UK is one of the few universities in the country with a research and teaching campus and a medical center in one central location, multidisciplinary research is particularly strong. Through the collaborative efforts of nearly 200 faculty and staff across 12 departments and colleges, the University of Kentucky was awarded a $20 million Clinical Translational Sciences Award (CTSA) from the National Institutes of Health (NIH). As one of only 60 institutions with this research distinction, UK was awarded the CTSA for its potential in moving research and discovery in the lab into practical field and community applications. The CTSA and NCI are part of a trifecta of federal research grants that includes an Alzheimer’s Disease Center. UK is one of only 22 universities in the country to hold all three premier grants from NIH.

Established in 1957, the medical center at UK is one of the nation’s finest academic medical centers and includes the University’s clinical enterprise, UK HealthCare. The 569-bed UK Albert B. Chandler Hospital and Kentucky Children’s Hospital, along with 256 beds at UK Good Samaritan Hospital, are supported by a growing faculty and staff providing the most advanced subspecialty care for the most critically injured and ill patients throughout the Commonwealth and beyond. Over the last several years, the number of patients served by the medical enterprise has increased from roughly 19,000 discharges to more than 36,000 discharges in 2015.

UK Chandler Hospital includes the only Level 1 Trauma Center for both adult and pediatric patients in Central and Eastern Kentucky. In addition, the dramatic
growth of UK HealthCare’s clinic enterprise has created more than 5,000 additional high-paying jobs over the last several years. While our new patient care pavilion is the leading healthcare facility for advanced medical procedures in the region, our talented physicians consult with and travel to our network of affiliate hospitals so Kentucky citizens can receive the best healthcare available close to their home and never need to leave the Bluegrass for complex subspecialty care.

The University has demonstrated its commitment to partnerships with business and other institutions of higher learning. In Lexington, UK is shaping a better relationship with the community by directly engaging with businesses, local government and civic service organizations. As a $3.4 billion university, UK is the region’s largest employer, providing more than 12,500 full-time jobs and more than $90 million in state and local payroll taxes.

UK’s reach extends far beyond the borders of Fayette County. As an anchor institution for the Bluegrass Economic Advanced Movement, UK’s College of Engineering and graduates of our institution are a critical component of growing an advanced manufacturing economy in Central Kentucky. UK is also part of the Bluegrass Higher Education Consortium, a collection of postsecondary institutions working together to advance the cause of learning. And we work collaboratively with other institutions to establish joint degree programs and improve the pipeline of students transferring between colleges and universities.

UK’s agenda remains committed to accelerating the University’s movement toward academic excellence in all areas and gain worldwide recognition for its outstanding academic programs, its commitment to students, its investment in pioneering research and discovery, its success in building a diverse community and its engagement with the larger society. It’s all part of the University’s mission as a 21st century flagship and land grant research university. From its first Nobel Laureate to cutting-edge work in addressing health disparities, and from the artistic wonders that stir souls to our scientific creativity that inspires minds, UK seeks a brighter future through the contributions of our faculty, staff, students and alumni.
UK’s Distinguished Alumni

2015 UK Alumni Association Hall of Distinguished Alumni Honors

The UK Alumni Association Hall of Distinguished Alumni was established in 1965 in celebration of the university’s centennial year. Every five years the UK Alumni Association recognizes a select group of outstanding alumni and honors them with induction into the UK Alumni Association Hall of Distinguished Alumni. This honor acknowledges UK alumni who deserve recognition for personal and professional endeavors and community leadership. This year there were 23 recipients inducted making the overall total of 306 inductees into the UK Alumni Association Hall of Distinguished Alumni. For a complete list of UK Alumni Association Hall of Distinguished recipients, visit: www.ukalumni.net/hoda

The 2015 inductees are:

Joyce Hamilton Berry ’67, ’70 – College of Education
Amy L. Bondurant ’73 – College of Communication & Information
Stephen B. Bright ’71 – College of Arts & Sciences; ’74 – College of Law
Timothy A. Byers ’81 – College of Engineering
Jennifer Burcham Coffman ’69 – College of Arts & Sciences; ’71 – College of Communication & Information, ’78 – College of Law
L. Berkley Davis Jr. ’66, ’70, ’72 – College of Engineering
Brady J. Deaton ‘66 – College of Agriculture, Food and Environment; ’68 – Graduate School
Thomas B. Deen ’51 – College of Engineering
Holloway Fields Jr.* ’51 – College of Engineering
Ernest Lee Fletcher ’74 – College of Engineering; ’84 – College of Medicine
John R. Guthrie ’63 – College of Communication & Information
Ardis D. Hoven ’66 – College of Arts & Sciences; ’70 – College of Medicine
Robert Milton Huffaker ’57 – College of Arts & Sciences
Terence Hunt ’67 – College of Communication & Information
Howard L. Lewis ’70 – Gatton College of Business & Economics
Thomas W. Lewis ’71 – College of Engineering
James W. May Jr. ’65 – College of Arts & Sciences
W. Rodney McMullen ’81, ’82 – Gatton College of Business & Economics
Jeffrey P. Okeson ’72 – College of Dentistry
Beverly Moore Eaves Perdue ’69 – College of Arts & Sciences
Peter Perlman ’59 – College of Arts & Sciences; ’62 – College of Law
Theodore Strickland ’66, ’80 – College of Education
Richard E. Whitt* ’70 – College of Communication & Information

*Deceased
ADMISSION PHILOSOPHY

The Office of Undergraduate Admission and University Registrar supports the mission of the University of Kentucky. Consistent with the University’s mission of research, service and teaching, the university seeks to enroll and retain an academically talented student body that enriches the learning community and is representative of the diverse society it serves. The following admission policies reflect this philosophy.

GENERAL INFORMATION

The Director of Undergraduate Admission and University Registrar authorizes the admission of all undergraduate students to the University. Students should direct all admissions inquiries to:

Office of Undergraduate Admission and University Registrar
100 W. D. Funkhouser Building
University of Kentucky
Lexington, KY 40506-0054
(859) 257-2000
www.applyuk.com

Undergraduates at UK enroll in one of thirteen colleges. Each college is supervised by an academic dean and is usually made up of several academic departments that offer different major fields of study.

The general University admission requirements and procedures for freshmen and transfer students are outlined below. All applicants should be aware that certain colleges and some programs within colleges have additional admission standards and criteria beyond those for general University admission. Refer to Special Application Dates and Procedures on page 22 for information on deadlines and procedures for particular colleges and programs. Detailed information on admission criteria is provided in the college sections of this Bulletin.

The University provides equal opportunities for qualified students in all aspects of University operations, and does not discriminate on the basis of race, color, national origin, ethnic origin, religion, creed, age, physical or mental disability, veteran status, uniformed service, political belief, sex, sexual orientation, gender identity, gender expression, pregnancy, marital status, genetic information, social or economic status, or whether the person is a smoker or nonsmoker, as long as the person complies with the University policy concerning smoking.

FRESHMAN ADMISSION TO THE UNIVERSITY

The University of Kentucky subscribes to a selective admission policy. Admission for freshman applicants is based on a holistic review including high school grades, national college admission test results, successful completion of pre-college curriculum, essay and academic letter of recommendation. Applicants may submit official scores from either the ACT Assessment or the SAT I. Official test scores must be sent directly from ACT or SAT (College Board) testing headquarters.

MINIMUM ELIGIBILITY REQUIREMENT – All students who have completed the pre-college curriculum (see below) as prescribed by the Council on Postsecondary Education and have a 2.0 high school grade-point average are encouraged to apply to the freshman class at UK. Enrollment in the freshman class is limited. Within the limits of space availability, the Office of Undergraduate Admission and University Registrar will endeavor to accommodate all eligible applicants. However, the number of freshman applications far exceeds the number of spaces available in the entering class. For this reason, the selective

All applicants should be aware that some programs have application procedures and deadlines which differ from those for general University admission. Applicants should refer to Special Application Dates and Procedures on page 22 for information on deadlines and procedures for selective admissions colleges and programs.

*International students – see pages 20-21.
and competitive admission requirements often exceed the minimum eligibility requirement.

**SELECTIVE ADMISSION** – The University of Kentucky has a selective admission policy. A faculty committee of the University Senate establishes the academic criteria. A holistic review is based on factors including cumulative high school grade-point average, completion of the pre-college curriculum, ACT or SAT I score results, essay, special talents and abilities and academic letter of recommendation. Applicants are offered admission on a competitive basis, with those meeting the University’s selective admission criteria receiving first offers.

**DEFERRED DECISIONS** – Freshman applicants who have completed the pre-college curriculum, but do not have the requisite grade-point average, test scores or both for selective admission, may have their admission decisions deferred. A portion of the freshman class may be admitted from this group of applicants. If, after the application deadline, spaces in the class remain to be filled, admission will be offered to deferred-decision applicants on a competitive basis. Admission will be offered first to those applicants with the strongest records and offers will continue until the class is filled.

Strength of record is a relative term and refers to an applicant’s record in comparison with those of all other freshman applicants. Strength of record may be determined by a number of different factors beyond selective admission criteria. While grades and test scores are important in this assessment, course selection, senior year schedule, honors and Advanced Placement courses, extracurricular and leadership activities and a student’s potential to benefit from or contribute to the learning community may also be considered. The overriding concern will always be for the student’s potential to be successful in meeting the academic expectations at the University.

**Special Admission Colleges and Programs**
Some colleges and programs within colleges at UK have admission standards and criteria that are higher than those for general admission to the University. Also, some programs have deadlines and application procedures that differ from those for general University admission. Refer to Special Application Dates and Procedures on page 22 for information on procedures and deadlines for special admission programs. Detailed information on admission criteria is provided in the college sections of this Bulletin.

**Matriculation Into a Degree-Granting College**
All undergraduate degrees are conferred by the college offering the program of study (major). Upon admission to the University of Kentucky, all students will be enrolled either in a specific college or as undeclared students in Undergraduate Studies. With the help of academic advisors, students in Undergraduate Studies will work to select a major and gain access to one of the University’s colleges.

**APPLICATION PROCEDURES FOR FRESHMEN**
Prospective freshmen are strongly encouraged to submit applications to the Office of Undergraduate Admission and University Registrar early in their senior year. While the deadline for application is February 15, early application can have a positive impact on housing, financial aid, institutionally administered merit-based scholarships, privately funded scholarships and other ancillary areas. All freshman applicants should submit the following:

1. the application form for undergraduate admission;
2. a non-refundable application processing fee;
3. official high school transcript;
4. official test scores from either the ACT or the SAT I. “Official” scores are reported directly from the testing agency to the Office of Undergraduate Admission and University Registrar. Test scores appearing on the high school transcript are not considered “official” reports; and
5. academic letter of recommendation.

High school students are strongly encouraged to take the ACT or SAT I late in their junior year and again early in their senior year. When registering for the test, please request scores to be sent to UK. It is a mistake to withhold test scores as this can cause added expense and possible delay in the processing of the application. Please request scores from all test administrations so that the Office of Undergraduate Admission and University Registrar can work with the complete test history. High school guidance counselors can provide students with registration forms, information about registration deadlines, test dates and locations.

**High School Students with Exceptional Ability**
Through UK’s Exceptional Ability program, highly motivated students may enroll in classes at UK before they graduate from high school. Exceptional high school students may be offered admission to UK after a thorough evaluation of their academic record. Students seeking such consideration must submit an application form, official scores from the ACT Assessment or SAT I, an official high school transcript and a letter from their high school principal or guidance counselor stating the benefit to the student of entering college prior to high school completion.

**High School Equivalency Certificates**
The University considers admission from freshman applicants who are not high school graduates but who present a valid High School Equivalency Certificate and General Education Development test scores. Applicants must also take the

---

**Pre-College Curriculum**
Incoming freshmen should have the high school preparation necessary for academic success at the college level. To be eligible for consideration at UK under the policy outlined above, an applicant must have successfully completed the following high school courses as a minimum:

<table>
<thead>
<tr>
<th>Subject</th>
<th>Credits</th>

</tr>
</tbody>
</table>

**Electives – 7 credits**
Recommended strongly: one or more courses that develop computer literacy

Additionally, high school students are encouraged to complete at least one year of mathematics beyond Algebra II.

A total of 24 credits or more must be completed in high school. Applicants should contact the Office of Undergraduate Admission and University Registrar for information concerning exceptions to this policy.
Admission and University Registrar:
Registrar. Applicants must submit the following to the Office of Undergraduate Admission and University Registrar from the testing agency.

TRANSFER ADMISSION TO THE UNIVERSITY
Students at other colleges or universities, including community colleges, are eligible to transfer to UK if they:

1. would have been selectively admitted to UK when they entered the first institution attended provided they have a cumulative grade-point average of 2.0 or better for all college-level work attempted. Applicants must also have a cumulative grade-point average of 2.0 or better for all college-level work attempted at the last institution attended, provided at least 12 credit hours (or the equivalent thereof) was attempted there.

2. would not have been selectively admitted to UK but have completed 24 semester hours or more and achieved a cumulative grade-point average of 2.0 or better for all college and university work attempted. Applicants must also have a cumulative grade-point average of 2.0 or better for all work attempted at the last institution attended.

Please note that grade-point averages are computed by the Office of Undergraduate Admission and University Registrar and reflect the grade and credit for each course attempted, regardless of the practice of the offering institution of waiving the low grade for a repeated course.

Refer to the University Calendar on page 4 for general University admission deadlines.

Special Admission Colleges and Programs
Some colleges and programs within colleges at UK have additional admission standards and criteria beyond those for general admission to the University. Also, some programs have deadlines and application procedures that differ from those for general University admission. Refer to Special Application Dates and Procedures on page 22 for information on procedures and deadlines for special admission programs. Detailed information on admission criteria is provided in the college sections of this Bulletin.

APPLICATION PROCEDURES FOR TRANSFER STUDENTS
Transfer applicants from other colleges and universities should request an application packet from the Office of Undergraduate Admission and University Registrar. Applicants must submit the following to the Office of Undergraduate Admission and University Registrar:

1. an application for admission;
2. an official transcript from each college or university attended, containing a complete record of all courses completed at the time of application;
3. a roster of the courses in which the student is currently enrolled;
4. a final official transcript of any additional work completed before entering the University; and
5. a non-refundable application processing fee.

Refer to Special Application Dates and Procedures on page 22 for admissions process information. Candidates tentatively admitted at the time of application should be aware that the University will cancel the admission and/or the early registration of an applicant whose final official record, after completion of a current semester, shows ineligibility because of suspension, dismissal, or a drop in grade-point average below the required 2.0.

TRANSFER OF CREDIT
General Transfer Policies
Students transferring to UK are required to submit official transcripts from all previously attended institutions as part of the admissions process. Send transcripts to this address:

Office of Undergraduate Admission and University Registrar
100 W.D. Funkhouser Building
Lexington, KY 40506-0054

- Credits earned at a fully accredited institution may be transferred to UK and applied toward a degree. A fully accredited institution is one in good standing and a member of one of the six regional academic accrediting associations.
- Transfer credit below the 100 level is considered remedial work and will not be accepted toward a UK degree.
- UK does not accept transfer grades toward the UK grade-point average. A UK grade-point average is established after the first term of classes. However, all transfer grades in all courses are included and counted in the admissions process.
- A minimum grade of D- is required for a course to be accepted by UK. Colleges and departments may require a higher grade in order for the course to apply toward degree requirements. Refer to the major sheets at www.uky.edu/registrar/major-sheets to determine the specific requirements for each major.
- The transferability of course credit earned at two-year institutions is limited to a total of 67 semester hours, regardless of the total number of hours earned.
- All work from any four year regionally accredited institution is posted to the UK transcript except for remedial work.
- Regardless of the number of hours accepted for transfer, all candidates for an undergraduate degree must complete 30 of their last 36 hours toward their degree at UK.

Kentucky General Education Transfer Policy
The General Education Transfer Policy facilitates the transfer of credits earned in general education requirements for students moving from one Kentucky public college or university to another Kentucky public college or university. Under this agreement, a student may satisfy the general education discipline requirements at their current college and have that requirement completion accepted at the university or college to which they may transfer.

Students that are “Fully Certified” are considered to have completed UK’s baccalaureate general education requirements known as the UK Core. Students may also transfer to UK and be Category Certified in up to 5 areas. Students who are Category Certified in each of the 5 areas will be considered “Fully Certified” at UK. The five categories are:

1. Arts and Humanities (AH)
2. Written Communication (WC) and Oral Communication (OC)
3. Natural Sciences (NS), plus Science Lab (SL)
4. Quantitative Reasoning (QR)
5. Social and Behavioral Sciences (SB)

The sending institution will indicate, either on the transcript or as an attachment to the transcript, whether the student is Fully Certified, Core Certified, or Category Certified in general education, or if they have completed any of the coded general education courses (i.e., AH, NS, OC, QR, SB, SL, and WC) at their institution.

Fully Certified – All general education requirements are completed (AA and AS degrees guarantee full certification.)
Readmission

Applications for readmission should be submitted to the Office of Undergraduate Admission and University Registrar, along with:

1. Official transcripts from all colleges and universities attended since leaving UK; and
2. A non-refundable application processing fee.

In order to be eligible for readmission, former UK students must have been in good standing at the time they left the University. Those who have been enrolled elsewhere must be eligible as transfer students on the basis of grade-point average and be in good standing at the institution most recently attended. Students under suspension from UK are not eligible for readmission, regardless of their status at another institution, until they have been reinstated to the University. If the suspension is for academic reasons, reinstatement should be requested from the dean of the college in which they intend to enroll by the stated deadline. If the suspension is nonacademic, reinstatement should be requested from the appropriate University official. Reinstated students also must file an application for readmission in the Office of Undergraduate Admission and University Registrar by the stated deadline.

Readmission candidates should submit an application as early as possible. This allows the Office of Undergraduate Admission and University Registrar adequate time to prepare the necessary forms for registration. Refer to the University Calendar on page 4 for general admission deadlines. Information on selective college and program deadlines and procedures appears at the end of this section.

Nondegree Students

The goal of the University of Kentucky policy for nondegree students is to provide appropriate access to academic courses for students desiring to continue their education without seeking a degree. Although degree-seeking students should have top priority with respect to University resources, the University does wish to provide access to these resources on a space-available basis to nondegree seeking students. This policy will provide reasonable access to a broader range of students without unnecessarily limiting University resources for degree-seeking students.

Nondegree status affords an opportunity for individuals to pursue lifelong learning without the structure of degree-seeking status and is consistent with the educational mission of the University.

Most nondegree students are considered “Lifelong Learners” and include the following groups: Donovan Scholars, students who have already earned degrees and non-traditional students who wish to begin their studies as nondegree students in order to be considered for degree-seeking status later. Other students eligible to enter the University in a nondegree status include visiting students from other colleges and universities, high school students of exceptional ability, and other students in special circumstances as determined by the Director of Admission. (See information about visiting students and high school students with exceptional ability earlier in this section.)

Rules Governing Admission of Nondegree Seeking Students

To be admitted as a nondegree student, an applicant must meet the following criteria:

1. The high school class of a nondegree applicant must have graduated at least two years prior to the applicant’s anticipated semester of enrollment, unless the applicant will be on active military duty during his/her tenure as a nondegree student.
2. Applicants who have been denied admission as degree-seeking students may not in turn be enrolled as nondegree seeking students.
3. Former University degree-seeking students generally will not be enrolled as nondegree students without having earned an undergraduate degree.
4. University students under academic or disciplinary suspension may not be enrolled as nondegree students.
5. Students currently under suspension at other institutions may not be enrolled as nondegree students at UK. Failure to disclose a current suspension may result in forfeiture of eligibility for future enrollment.
6. Students are strongly encouraged to submit transcripts of high school or prior colleges at the time of admission in order to facilitate advising about appropriate course work.

Rules Governing Enrollment of Nondegree Seeking Students

1. Nondegree students must meet course prerequisites or obtain the consent of the instructor to enroll in a course.
2. No student may continue to enroll as a nondegree student after earning 24 semester hours in this status without the special permission of the dean of the college in which the student is registered. Students who wish to continue course work are encouraged to apply for admission as a degree-seeking student.
3. Credit earned as a nondegree student will be evaluated for applicability toward a degree by the dean of the college in which the student will be enrolled. Most colleges provide administrative oversight of their
Transient applicants must submit to the Office of Undergraduate Admission and admissions requirements as transfer students. His or her sponsoring institution. Transient students must meet the same who intends to earn credit at UK that will be applied to degree requirements at Undergraduate Admission and University Registrar:

Auditors

An auditor is a student who enrolls in a course but receives no grade or credit. Students in this category should indicate auditing status on their application for admission.

Aurors are charged the same tuition as students receiving credit. Auditors cannot change to credit status after the beginning of class work, and cannot be considered for admission to earn credit unless they are admitted to a degree program in the University as a regular student. To do this, the auditor must file the required documents by the deadline for a subsequent semester. Advisors will be assigned to these students.

All nondegree students who wish to continue after their first semester are expected to participate in priority registration for the following semester.

Nondegree students may apply for degree-seeking status after meeting regular University and program admission criteria. Applicants who earned fewer than 24 semester credit hours at UK must meet the University’s standards for elective admission as first-time freshmen. Applicants who have earned 24 or more semester hours will be considered transfer students for admission purposes and transfer of credit policies will apply.

The dean of the college the degree-seeking student enrolls in determines how credit earned as a nondegree student is applied toward a degree.

Nondegree students applying for degree-seeking status must submit to the Office of Undergraduate Admission and University Registrar:

1. an application for admission;
2. a non-refundable application processing fee;
3. official scores from the ACT or SAT (if fewer than 24 semester hours earned); and
4. official transcripts from all previously attended institutions.

Refer to the University Calendar on page 4 for general admission deadlines.

Auditors

An auditor is a student who enrolls in a course but receives no grade or credit. Students in this category should indicate auditing status on their application for admission.

Auditors are charged the same tuition as students receiving credit. Auditors cannot change to credit status after the beginning of class work, and cannot be considered for admission to earn credit unless they are admitted to a degree program in the University as a regular student. To do this, the auditor must file the required documents by the deadline for a subsequent semester. Advisors will be assigned to these students.

All nondegree students who wish to continue after their first semester are expected to participate in priority registration for the following semester.

Nondegree students may apply for degree-seeking status after meeting regular University and program admission criteria. Applicants who earned fewer than 24 semester credit hours at UK must meet the University’s standards for elective admission as first-time freshmen. Applicants who have earned 24 or more semester hours will be considered transfer students for admission purposes and transfer of credit policies will apply.

The dean of the college the degree-seeking student enrolls in determines how credit earned as a nondegree student is applied toward a degree.

Nondegree students applying for degree-seeking status must submit to the Office of Undergraduate Admission and University Registrar:

1. an application for admission;
2. a non-refundable application processing fee;
3. official scores from the ACT or SAT (if fewer than 24 semester hours earned); and
4. official transcripts from all previously attended institutions.

Refer to the University Calendar on page 4 for general admission deadlines.

Audit

An auditor is a student who enrolls in a course but receives no grade or credit. Students in this category should indicate auditing status on their application for admission.

Auditors are charged the same tuition as students receiving credit. Auditors cannot change to credit status after the beginning of class work, and cannot be considered for admission to earn credit unless they are admitted to a degree program in the University as a regular student. To do this, the auditor must file the required documents by the deadline for a subsequent semester. Advisors will be assigned to these students.

All nondegree students who wish to continue after their first semester are expected to participate in priority registration for the following semester.

Nondegree students may apply for degree-seeking status after meeting regular University and program admission criteria. Applicants who earned fewer than 24 semester credit hours at UK must meet the University’s standards for elective admission as first-time freshmen. Applicants who have earned 24 or more semester hours will be considered transfer students for admission purposes and transfer of credit policies will apply.

The dean of the college the degree-seeking student enrolls in determines how credit earned as a nondegree student is applied toward a degree.

Nondegree students applying for degree-seeking status must submit to the Office of Undergraduate Admission and University Registrar:

1. an application for admission;
2. a non-refundable application processing fee;
3. official scores from the ACT or SAT (if fewer than 24 semester hours earned); and
4. official transcripts from all previously attended institutions.

Refer to the University Calendar on page 4 for general admission deadlines.

Transient Students

A transient student is a visiting nondegree student from another institution who intends to earn credit at UK that will be applied to degree requirements at his or her sponsoring institution. Transient students must meet the same admissions requirements as transfer students.

Transient applicants must submit to the Office of Undergraduate Admission and University Registrar:

1. an application for admission;
2. an official transcript or letter of good standing certifying grade-point average from the applicant’s sponsoring institution; and
3. a non-refundable application processing fee.

Refer to the University Calendar on page 4 for general admission deadlines.

UK Students As Transients at Other Schools

UK students may earn a limited amount of credit toward a baccalaureate degree at another college or university, provided they have prior approval from their dean and advisor, and provided the other school is fully accredited and the course work meets the University specifications for credit acceptance. The student should consult with an advisor or dean before enrolling at another institution. Students enrolled at other institutions at the same time they are enrolled at UK must have the specific approval of the appropriate dean. Students are responsible for determining whether transfer course work is acceptable and how it applies to the degree program. The University Senate has established certain conditions for accepting credit earned at other schools; therefore, improper enrollment at other institutions will result in the loss of the credit earned there.

A University student who enrolls elsewhere for only a summer session between a spring enrollment at UK and the following fall semester does not need to reapply for admission for the fall semester. The student must arrange for transcripts of transfer work to be sent to the Office of Undergraduate Admission and University Registrar immediately following the summer session.

International Applicants

UK is authorized under federal law to enroll qualified nonimmigrant international applicants.

International applicants should apply and submit all required documents by May 15 for fall semester admission, October 15 for spring semester admission, and March 1 for summer session admission. International applicants must submit to the Office of Undergraduate Admission and University Registrar:

1. an international application for admission;
2. a non-refundable application processing fee.
3. a sponsor guarantee form;
4. *bank statement;
5. **official academic transcripts and English-translated course descriptions of all college-level work completed;
6. ***TOEFL/IELTS/English proficiency;
7. ACT or SAT results for freshmen applicants wishing to apply for academic scholarships; and,
8. additional information may be requested by admission officer.

Admission is competitive and preference is given to applicants who are best qualified academically. All documents relating to academic records, financial ability, and competency in the English language must be received before permission to enroll and the proper immigration form can be issued. All documents must be official or certified as such.

Undergraduate international applicants who are otherwise admissible, but who have not yet demonstrated English proficiency, may be conditionally admitted to the University of Kentucky. Conditionally admitted students will be academically admitted to UK as full-time degree-seeking undergraduates upon demonstration of English proficiency as defined below.

Students enrolled in Level 5 or Level 6 of CESL course work may, upon meeting criteria set forth by the CESL program, enroll for one semester as non-degree seeking students in a pre-matriculation bridge program (half-time enrollment in non-credit CESL course work and 6-8 hours of credit-bearing undergraduate course work), constituting full-time enrollment in English preparation for immigration purposes. Completion of the bridge program with grades of A or B in all classes will constitute demonstration of English proficiency for full
First-year students admitted for fall attend a two-day orientation. These orientations allow students more time to meet UK faculty, staff, and students. Participants get the chance to meet with their academic advisors, take placement exams, and register for classes.

Students receive complete information about the “see blue.” U Orientation after they are admitted. Freshmen must confirm a “see blue.” U Orientation and pay the enrollment deposits by May 1 to hold a space in the class.

**Merit Weekends**

The University invites academically talented students and their parents and guests to attend special two-day orientation events called Merit Weekends. Admitted students who have met various academic standards are invited to attend this event. The Merit Weekend program replaces the need to attend a summer “see blue.” U Orientation and assures participants a higher priority in class selection. Merit Weekends are usually held in early spring.

**K Week**

New students ease their transition to campus life through participation in K Week. This welcome week begins the weekend before fall classes start and offers a variety of academic, informational, and social programs and activities. Some events, such as Big Blue U, the New Student Induction Ceremony, and college meetings, familiarize students with University community expectations and opportunities. Other activities, such as K Team meetings and We Are UK, give students the opportunity to meet new people and become engaged with campus life. UK FUSION, a day of service throughout Lexington, encourages students to form important connections with other new students, student leaders, faculty, and staff while making a positive impact on the city. Students receive detailed information about K Week during the summer. Small new students are expected to attend. K Week includes special programming for transfer students as well. K Week is coordinated through the Office of New Student and Family Programs. For more information, visit: www.uky.edu/KWeek

**COMMON READING EXPERIENCE**

The University of Kentucky’s Common Reading Experience brings new students together for a shared reading experience that introduces them to academic discourse and engages the entire UK community in a common intellectual experience through year-long programming. New students read a book selected for their cohort the summer before their first semester on campus. Students then join a community of scholars during K Week, where they participate in small-group discussions about the book with other new and upper-class students. The entire UK community is invited to attend and participate in events coordinated around the book’s themes, topics, and issues. All students, faculty, and staff are encouraged to connect with one another through this shared intellectual experience, which allows for critical reflection on the book and the collegiate experience.

**UK 101, ACADEMIC ORIENTATION COURSE**

UK 101 is an academic orientation course for first-year students that significantly promotes a successful transition to college life. The class is taught by a faculty or staff member and an upper-class student. Topics addressed in the course include academic expectations, learning strategies, information literacy, academic integrity, campus resources, campus involvement, and wellness.

**UK 201, TRANSFER ORIENTATION COURSE**

UK 201 is a pass-fail orientation course that aids transfer students in transitioning to academic life at UK. The class is taught by a faculty or staff member and an upper-class student. Topics addressed in the course include academic advising, career planning, campus involvement, and other issues specifically geared to transfer students.

QUESTIONS CONCERNING ADMISSION DECISIONS

All applicants to the University of Kentucky have the right to question or appeal admission decisions. Applicants desiring to appeal a decision should contact the Office of Undergraduate Admission and University Registrar to obtain information on the appeal process as well as deadlines.

**ORIENTATION TO UK**

New freshmen and transfer students are oriented to the University in two steps. The first step is attending a “see blue.” U Orientation. This informative event offers students and parents the opportunity to learn more about the University, student life and residence hall living. Participants attend sessions on academic expectations as well as student service departments from around campus. Students also meet with an academic advisor, plan their schedules, and register for classes.

For complete details about

http://esl.as.uky.edu

The Office of Undergraduate Admission and University Registrar may require additional documents in order to process an application.

**Official transcript from each institution attended (high school, college or university). Applicants from non-English speaking countries must provide an official literal English translation of their official school records. Students who wish to transfer credit to UK should submit course descriptions, course syllabi, and any other materials that can help determine course equivalencies. It is recommended that applicants additionally have their transcripts evaluated by a professional evaluation agency, such as World Education Services.

Students whose native language is other than English must score at least 527 (paper and pen), 197 (computer-based), or 71 (IBT) on the Test of English as a Foreign Language (TOEFL) to be eligible for general admission to UK. Students may also satisfy the requirement by providing an IELTS score of 6 or better. “Native language” is defined as an individual’s first acquired language and the language of educational instruction. The TOEFL requirement may be waived for students who present an official transcript of satisfactory English work taken at an accredited American college, or a college in another country where English is the native language.

The Test of English as a Foreign Language (TOEFL) is offered by the Educational Testing Service and may be taken at various test centers throughout the world. Applicants must take the test early enough to ensure that the results are reported to the University by the required deadlines.

For students with marginal scores on the Test of English as a Foreign Language (TOEFL) or International English Language Testing System (IELTS), the Center for English as a Second Language at UK offers an intensive English program. Successful completion of this program satisfies English language proficiency for admission to UK; however, other conditions for admission must still be met, as outlined above. For complete details about the program, visit http://esl.as.uky.edu

The Office of Undergraduate Admission and University Registrar may require additional documents in order to process an application.

†Law school applications are processed through the Law School Admission Council (LSAC), online at: www.lsac.org.
FEES ARE SUBJECT TO CHANGE WITHOUT NOTICE AND INCREASES MAY BE NECESSARY IN SUBSEQUENT YEARS.

FEE PAYMENT POLICY
You become financially obligated to the University of Kentucky when you register for classes. This financial obligation can only be adjusted if you add/drop hours or officially withdraw from the University. It is your responsibility to comply with the policy and schedule for paying registration fees.

A student with unpaid tuition/fees who subsequently leaves or officially withdraws from school will be held liable for a percentage of those fees and will be declared delinquent subject to the penalties imposed by the institution for financial delinquency.

Students who late register will be assessed a $40 late registration fee.

Monthly Account Statements
Account statements will be created at the end of each month itemizing that month’s new charges and credits. The University must receive the total amount due (less estimated aid) on or before the due date indicated on the account statement. If full payment is not received by the due date, a late payment fee of 1.5 percent of the amount due will be assessed.

Late Registration Fee
All continuing students are expected to priority register each semester for the next semester. New students are assigned a specific date for registration. Any student who registers after the regular registration period will be charged a late registration fee of $40.

Auditors
All auditors are charged the same fees they would pay for credit.

Internship Courses
Students taking internship courses (e.g., courses numbered 399) must register for the course during the term the internship is taken and pay all required semester fees. In no case shall students be allowed to defer registration and payment for summer internships to the following fall semester.

Zero-Credit Courses
Some University courses are offered for 0 credit hours. The fees for these courses are based on the number of hours per week the course meets, so that the cost of a 0-credit course which meets one hour per week is the same as the cost of a 1-credit course for a student in a particular classification (i.e., resident, nonresident, graduate, undergraduate). Zero-credit courses are counted as part of the student load for fee payment purposes and for purposes of issuing ID cards.

There is no fee for a course numbered 749, or 769, if the student is approved to take the 769 course for 0 credit hours. In a few departments zero-credit courses are actually laboratories which are a required part of another course. They are numbered separately for scheduling purposes, but no additional fee is charged.

Financial Delinquency
The University of Kentucky expects students to be responsible in their financial obligations to the University or any department or division thereof. The University assesses student fees for various services, fines, and materials. Students are to be properly notified of amounts to be paid and designated payment due dates. After unsuccessful collection efforts by the department or division, the student is classified delinquent and the following may occur: financial holds, class cancellations, late fees, collection agency efforts, and denial of access to student services.

FINANCIAL OMBUD SERVICES
The Financial Ombud provides a neutral and confidential setting for current and prospective students and their parents to discuss difficult or unusual financial problems affecting tuition and fee payment. The Financial Ombud resolves problems, counsels, and makes recommendations and referrals as needed.

The Office of the Financial Ombud Services is open from 8 A.M. to 4:30 P.M. and is located in 6 Funkhouser Building. For information, questions, or appointments, email: financialombud@lsv.uky.edu

HEALTH CARE
For the regular fall and spring semesters, payment of the mandatory health fee by full-time students entitles them to medical and behavioral health care at University Health Service. Part-time students may pay the health fee or use the Health Service on a fee-for-service basis. The health fee is voluntary for all students for the summer sessions. Students are strongly advised to have health insurance to cover medical expenses incurred beyond those covered by the health fee. For more information on the health fee or the services provided, call (859) 323-5823; or visit us on the Web at: www.ukhealthcare.uky.edu/uhs

WILDCARD STUDENT ID
All students admitted to the University (both full-time and part-time) are expected to obtain a WildCard student ID. This is a permanent card, which becomes valid each semester when fees are paid. The cost of the first WildCard is $15. Payment may be made with cash, check, Plus Account, Visa or MasterCard. The following information will help you understand your responsibility and how to fully utilize your WildCard ID. For additional information, visit our website at: www.uky.edu/UKID

• Your WildCard ID is the official identification for class attendance and tests, the Student Employment office, and student elections.

• Stop at a circulation desk at any campus library to activate the library barcode number and you can use your WildCard to check out books and materials. Students must have their WildCard student ID card to enter the William T. Young Library between 10 P.M. and 6 A.M.

• The Plus Account is an optional debit program for University of Kentucky students. A Plus Account is automatically open and accessed as a feature of your WildCard student ID. The Plus Account is extremely flexible and widely used on campus and off campus for dining, bookstores, printing, copying, prescriptions, and much more. Residence Hall laundry and campus printing may only be accessed using a Plus Account.

• When you live in a residence hall, the WildCard ID will access your Dining and Flex Accounts. Off-campus students may also purchase a Dining Plan.

• The WildCard is your “key” if you live in a residence hall.

• The WildCard is your “key” if you live in a residence hall.
use your WildCard at University Health Services to pay for services not covered by the health fee, like vaccinations, medical equipment, or prescriptions in the student health pharmacy. Visit: www.ukhealthcare.uky.edu/uhs/ for more information.

• Use your WildCard ID at the Singletary Center for the Arts, the Ticket Center and the Cat’s Den in the Student Center.

• Pick up football and basketball tickets and use your WildCard ID for entry to other UK campus events.

• You must have your WildCard for access to the Johnson Center, the Lancaster Aquatic Center, and to check out equipment.

• Use your WildCard to open an account at the UK Federal Credit Union.

If you lose your WildCard ID, report the loss immediately to the WildCard ID Office at (859) 257-1378, Bowman’s Den (next to the Singletary Center for the Arts), or the Plus Account office at (859) 257-6159. You can also cancel your card online at: www.uky.edu/plusaccount. Any financial charges/transactions made with this card are the responsibility of the student. If you lose your WildCard ID, the fee for a new card is $30. A replacement ID may be obtained for $15 (if you have your current ID and turn it in). Payment may be made with cash, check, Plus Account, Visa or MasterCard. The WildCard ID is the property of the University of Kentucky and must be surrendered upon request of authorized officials of the University.

PERSONAL EXPENSES (not payable to the University)

Books and Supplies. Range from $350-$500 up, depending on the student’s major field of study and schedule of classes for the semester. Students may use their Plus Accounts (including Financial Aid Book Vouchers) for purchases at the University of Kentucky Bookstore, Kennedy Book Store, Johnny Print, and Joseph-Beth Booksellers. Plus Account deposits may be made at the following locations: online at www.uky.edu/plusaccount; $20 minimum; $2 convenience fee; The Plus Account Office ($20 minimum, no fee) at (859) 257-6159, between 8 a.m. and 5 p.m., Monday through Friday; Student Account Services ($20 minimum, no fee); or DART machines in campus computing labs (cash only, any whole dollar amount, no fee). For more information about Plus Accounts, call (859) 257-6159.

Laundry. UK’s washers and dryers are equipped with a unique laundry system called WaveRider. WaveRider is a wireless credit/debit card payment and account management system. WaveRider allows for a secure method of accepting MasterCard or Visa card payments for doing laundry or via preloaded funds by scanning the machine QR codes; WaveRider is secure and PCI compliant.

To start a machine, users swipe their MasterCard or Visa credit or debit card or scan the machine QR code. Students who may not have a debit/credit card or preloaded funds may purchase a MasterCard or Visa debit/credit card at the UK Bookstore, grocery or convenience stores. All washers and dryers are tagged with usage directions and each laundry room has laundry instructions and information posted.

To set up a WaveVision Laundry Status account, visit: www.mywavevision.com. Or download the WaveRider Laundry App for free by visiting the App Store or Google Play and search for “WaveRider Laundry”. By downloading the Laundry App students will:

• set up a user account;

• be able to preload funds onto their account for use as payment at the washer and dryer via the QR code on the machines.

Once the WaveRider Laundry application has been downloaded or an account set up via WaveVision Laundry Status, students may:

• see how many machines are available before visiting the laundry room;

• see how much time is left on machines that are currently running;

• swipe their MasterCard or Visa credit or debit card or scan QR code to start the machines;

• monitor washer and dryer cycles from their room with the Laundry Status feature;

• receive an email or text message once washer and dryer loads are finished

NOTE: All laundry rooms are equipped with High Efficiency (HE) washing machines; please be sure to use HE detergent.

WITHDRAWAL FROM THE UNIVERSITY

You may cancel your registration before the first day of class by using myUK. See below for dropping a class with a W grade.

All students, including degree seeking, non-degree seeking, and visiting students, who wish to leave the university during a term (fall, spring or summer) must formally withdraw.

There are five methods of withdrawing from the University of Kentucky:

1. withdrawing in person at the Registrar’s Office in 10 Funkhouser Building;

2. requesting withdrawal from course work via UK email account;

3. requesting withdrawal from course work via fax;

4. mailing your withdrawal request to the Registrar’s Office; and

5. drop or withdraw from all courses using myUK (available prior to the first day of fall/spring classes; available through the first day of summer sessions).

In person: A student is required to come to 10 Funkhouser Building between 8 a.m. and 4:30 p.m., Monday through Friday and complete an Authorization to Withdraw card. Additional signatures may be required depending upon the student’s enrollment status. The date noted on the Authorization to Withdraw card will serve as the student’s official withdrawal date.

Email/Fax request: There are circumstances in which a student cannot physically appear to withdraw. For these cases, the Registrar’s Office will accept an emailed (from the student’s UK email account) or faxed request for withdrawal. The date of the email/fax will serve as the official date of the withdrawal. The fax number is (859) 257-7160.

The information needed for the fax request is:

• full name

• student number

• list of courses

• term

• date

• signature (not required if emailed from the student’s UK email account)

• phone number

Mail request: The student may mail a written request for withdrawal to the Registrar’s Office. The address is:

Student Records
10 Funkhouser Building
University of Kentucky
Lexington, KY 40506-0054

The postmark will serve as the official date of the withdrawal. Information for withdrawal via mail is identical to that of the fax request.

NOTE: After the last official day to withdraw from a term, the student must start the withdrawal process beginning with the dean of the student’s college. (Senate Rule, V.1.8.3). A student should contact his/her college’s student services office for more details concerning this process.
REFUND and FEE LIABILITY POLICY

Tuition refunds or outstanding fee liabilities for students who officially withdraw through the Registrar’s Office, or who change their status from full-time to part-time or further reduce their part-time status through Add/Drop, will be made according to the following schedule. All dates are those designated in the official University Calendar.

After last day to officially withdraw per University Calendar – No Refund

Refunds are based solely on the date of withdrawal, regardless of whether students attend any class(es). As required under section 484B of the Higher Education Act (HEA), to assure recovery of federal financial aid funds, a special refund schedule applies to those students receiving Title IV financial assistance who withdraw (officially or unofficially) during the academic term.

For questions concerning fee payment procedures and tuition refunds, contact Student Account Services, 18 Funkhouser Building, (859) 257-3406.

DINING COSTS 2016-2017

UK Dining offers six dining plans to students living on campus during 2016-17. These dining plans range from seven meals per week to unlimited servings per week. Up to 4 meals can be used per day, with up to 2 residential meals in a meal period or 1 residential meal and a Wildcat Deal. For more information, see “Dining Services” on page 42.

Fees are subject to change without notice.
NOTES

1 Rates include mandatory student fees. Students taking all courses at off-campus locations (including distance learning courses) outside of Fayette County and its contiguous counties may have mandatory fees waived. However, if a student who is eligible for this waiver wants to participate in any activity supported by these fees, the student must pay the total mandatory fees. Pursuant to the Memorandum of Agreement with the Kentucky Community and Technical College System, students enrolled at the Bluegrass Community and Technical College have the opportunity to selectively choose services from the list of mandatory fees. Students enrolled in programs within the colleges of Dentistry, Health Sciences, Medicine, Nursing, Pharmacy, and Public Health will be assessed the Student Health Mandatory Fee regardless of the location of courses.

2 The full-time rate is charged to undergraduate students enrolled for 12 credit hours or more; graduate and professional doctoral students enrolled for 9 credit hours or more; and law students enrolled for 10 credit hours or more.

3 Students enrolled part-time are charged on a per-credit hour basis. Students considered full-time for financial aid and reporting purposes, but with less than full-time credit hours, (i.e., graduate students in residency status) will be assessed on a per-credit hour basis.

4 Lower-division undergraduate students (freshmen and sophomores) enrolled in the UK College of Engineering Extended Campus Program – Paducah are assessed tuition and fees based upon the West Kentucky Community and Technical College’s tuition and fee rates. Upper-division undergraduate students (juniors and seniors) are assessed the applicable UK rates. Students enrolled in this program and residing in select contiguous counties in Illinois (Massac, Alexander and Pulaski) are also eligible for the applicable Kentucky resident rates.

5 Half-time tuition and fee rates for 2016-17 of $16,758.00 for resident students and $33,436.00 for non-resident students are established for those dental students who have been approved by the Dean of the College of Dentistry to have a reduced curriculum load.

6 Half-time tuition and fee rates for 2016-17 of $14,368.00 for resident students and $25,483.00 for non-resident students are established for those pharmacy students who have been approved by the Dean of the College of Pharmacy to have a reduced curriculum load.

7 The College of Medicine tuition and mandatory fee rates are ‘locked in’ for each entering class cohort. The rates do not change while students are enrolled in the program. Reduced curriculum tuition and fee rates for 2016-17 of $19,601.00 for resident students and $33,674.00 for non-resident students is established for those medical students who have been approved by the College of Medicine Student Progress and Promotion Committee to have a reduced curriculum load.

8 Students enrolled in only online distance learning courses during the fall and spring semesters will be charged the Kentucky resident rate regardless of residency status. Students enrolled in undergraduate online distance learning courses during intersessions (e.g. summer and winter terms) will be charged based on their residency status.

9 Beginning in Summer 2016, the Master of Business Administration rates for new students are based on the program duration selected by the student at the time of enrollment. The rates reflect the total price of the program, including tuition and mandatory fees. Separate program fees will not be assessed. The rates will be assessed in installments throughout the duration of the program. Tuition for the one-year program will be assessed in three installments (Summer, Fall, and Spring semesters) and mandatory fees will be assessed in two installments (Fall and Spring semesters). Tuition and mandatory fees for the two-year and three-year programs will be assessed in four and six installments (Fall and Spring semesters), accordingly.

10 The UK-UofL Joint Executive Master in Business Administration rate is assessed to resident and non-resident students and reflects the total price of the program; including tuition, mandatory fees, and the program fee. The rate will be apportioned to each institution.

11 The “Master, Professional” tuition and mandatory fee rates are assessed to students enrolled in the following programs:
   - Master of Arts in Diplomacy and International Commerce
   - Master of Arts in Teaching World Languages
   - Master of Arts in Teaching English as a Second Language
   - Master of Fine Arts in Creative Writing (effective Fall 2016)
   - Master of Digital Mapping
   - Master of Science in Applied Statistics

12 The “Master, Professional Health” tuition and mandatory fee rates are assessed to students enrolled in the following programs:
   - Master of Science in Health Physics
   - Master of Science in Physician Assistant Studies
   - Master of Science in Radiological Medical Physics

13 Unless otherwise publicized, students enrolled in annual or fall programs will be assessed the program’s tuition and mandatory fees semi-annually for all terms within the same academic year. Rates are effective as of July.

14 The “Professional Practice Doctoral” tuition and mandatory fee rates are assessed to students enrolled in applicable programs in the following colleges:
   - Nursing
   - Public Health

15 The President, or his delegate, may interpret the application of these rates on an individual student basis in case of unusual circumstances.
2016-2017 MANDATORY FEE ASSESSMENT POLICY

Full-Time Students
Full-time students are assessed 16 different mandatory activity/service fees at fixed amounts for fall and spring semesters.

Activity Fees
Athletics ................................................................. $13.00
Diversity .................................................................... $6.00
Environmental Stewardship ........................................... $3.50
International Study Abroad .............................................. $6.75
Johnson Center ............................................................ $80.00
Kentucky Kernel ............................................................. $1.00
Student Activities ........................................................ $16.25
Student Center ............................................................. $125.25
Student Center Renovation ............................................ $60.00
Student Government Association .................................... $11.00
Student Government Association
Student Fee Allocation Committee ................................... $12.50
Student Health ............................................................ $175.00
Student Involvement ................................................... $27.25
Student Services ........................................................ $13.50
Technology .................................................................. $99.00
WRFL Student Radio .................................................... $5.50
Total ........................................................................ $655.50

Mandatory Fees for Annual Programs*
*Medicine, Pharmacy, Dentistry, Master in Business Administration (One-Year), Master of Science in Applied Economics (full-time), Master of Science in Finance (full-time), and Doctorate in Physical Therapy students are assessed an annualized health fee.

Fee Categories and Full-time Credit Hours
Undergraduate ......................................................... 12 or more credit hours
Graduate ................................................................. 9 or more credit hours
Ph.D. in Public Health
Ph.D. in Nursing
Ph.D. in Physical Therapy
M.A. in Diplomacy and International Commerce
M.B.A. Evening
M.S. in Physician Assistant Studies
M.S. in Health Physics
M.S. in Radiological Medical Physics
Law ................................................................. 10 or more credit hours
Pharmacy ................................................................. 12 or more credit hours
Dentistry ................................................................. 1 or more credit hours
M.B.A. Day
Dentistry
Ph.D. in Physical Therapy (Annualized Tuition)

Exceptions
• Students with all classes in counties not contiguous to Fayette County (i.e. outside of Fayette, Bourbon, Clark, Jessamine, Madison, Scott and Woodford counties). Specific groups traditionally include Education Abroad, Rural Health and Paducah Engineering students.
• Students with full-time for financial aid and reporting purposes, but with less than full-time credit hours; i.e., graduate students in residency status (zero or two hours credit).

Part-Time Students
*Part-time students are assessed 6 different mandatory activity/service fees on a per credit hour basis with a 10 credit hour cap for any semester.
*Part-time students may purchase the Student Health Fee (optional).
*Part-time students may purchase the entire suite of activity fees to obtain all services available to full-time students for fall and spring semesters (optional).

Activity Fees
Johnson Center ............................................................ $7.70
Student Center ............................................................ $12.50
Student Center Renovation ........................................... $5.50
Student Government Association Student Fee Allocation Committee ....................................... $1.00
Student Involvement ................................................... $2.60
Student Services ....................................................... $1.30
Technology ............................................................... $9.90
Total ........................................................................ $40.50

Fee Categories and Part-time Credit Hours
Undergraduate ......................................................... less than 12 credit hours
Graduate ................................................................. less than 9 credit hours
Ph.D. in Public Health
Ph.D. in Nursing
Ph.D. in Physical Therapy
M.A. in Diplomacy and International Commerce
M.B.A. Evening
M.S. in Physician Assistant Studies
M.S. in Health Physics
M.S. in Radiological Medical Physics
Law ................................................................. less than 10 credit hours
Pharmacy ................................................................. less than 12 credit hours

Exceptions
• Students with all classes in counties not contiguous to Fayette County (i.e. outside of Fayette, Bourbon, Clark, Jessamine, Madison, Scott and Woodford counties). Specific groups traditionally include Education Abroad, Rural Health and Paducah Engineering students.
• Students with all distance learning classes (if they meet the above condition).

Fees are subject to change without notice.
Applicants for University financial aid are given equal consideration, without regard to race, color, religion, sex, marital status, beliefs, age, national origin, sexual orientation, gender identity, gender expression, or disability.

The University of Kentucky offers three types of financial aid to students:

1. Financial aid based on financial need is awarded to undergraduate and graduate students by the Office of Student Financial Aid and Scholarships.
2. Direct unsubsidized loans not based on financial need are available to students through the Office of Student Financial Aid and Scholarships.
3. Financial aid based on academic merit is awarded by the Academic Scholarship Office, as well as by certain academic departments and colleges.

Each year the amount of funds requested by eligible applicants falls short of the resources available. The Office of Student Financial Aid and Scholarships bases its decisions on a) financial need, and b) the date of application. Students should apply as early as possible. Entering freshmen should apply by February 15. Transfer and continuing students should apply by March 15. Undergraduate Kentucky residents are encouraged to apply as soon as possible after January 1 to increase the likelihood of receiving very limited KY College Access Program (CAP) Grant funds that are typically exhausted the first week of February. Eligible students who apply after these dates will receive assistance, but will receive less because some funds will already be exhausted. Students should not enroll in classes with the intent of obtaining financial aid after the semester is underway.

Graduate students should consult The Graduate School Bulletin for information about assistanships and fellowships.

For more information on financial aid, contact:

Office of Student Financial Aid and Scholarships
127 Funkhouser Building
University of Kentucky
Lexington, KY 40506-0054
(859) 257-3172
www.uky.edu/financialaid/

APPLYING FOR FINANCIAL ASSISTANCE

Entering Freshmen
Apply early. Applicants should apply by completing and submitting the Free Application for Federal Student Aid (FAFSA) at: www.fafsa.ed.gov as soon as possible after January 1. A FAFSA on the Web Worksheet is also available at this site to assist applicants in completing the online form. Applicants who are unable to file online can obtain a paper copy of the FAFSA by calling 1-800-433-3243. Submit the online or paper FAFSA, designating UK to receive the analysis. UK’s federal school code is 001989.

A student must enroll in a degree program at UK in order to be awarded financial aid. The Office of Student Financial Aid and Scholarships informs students of financial aid decisions in mid to late March (or as soon thereafter as possible). Financial aid is credited directly to the student’s University account at the beginning of each semester.

When the amount of financial aid credits exceeds the student’s billed charges, a residual (refund) check for the difference will be mailed to the student, or direct deposited for students who have signed up for this service.

Federal regulations require a number of applicants to verify the information they report. Be as accurate as possible when filling out financial aid forms. Since some of the application deals with income, plan to prepare income tax returns early. (If you have not completed income tax returns, you may use estimated figures in order to meet the February 15 priority date. You must update your information when your tax returns are completed.) FAFSA filers are strongly encouraged to use the IRS Data Retrieval Tool within the online FAFSA application to authorize transfer of tax data required for the FAFSA directly from the IRS. This tool is available approximately two weeks after tax forms have been filed with the IRS. Using this tool will decrease the likelihood of the student’s FAFSA application being selected for verification. Changes in federal regulations and methodology for determining financial need may produce results which differ from year to year. Students selected for verification will be contacted by KHEAA Verify. All verification documentation must be submitted to KHEAA Verify.

Nondegree Students
Individuals admitted by the Office of Undergraduate Admission or by the Graduate School as nondegree students generally do not qualify for financial assistance. Nondegree students must make an appointment to see a financial aid counselor to discuss their eligibility to apply for assistance. Nondegree students who receive and accept a financial aid award without appropriate clearance by their financial aid counselor will be required to repay any funds credited towards billed charges or released in a refund check. Students whose status changes to nondegree after the start of the term must notify their financial aid counselor and in most cases will be required to repay all funds disbursed during the term.

Continuing Students and Transfer Students
Continuing students and transfer students must reapply for financial aid (including scholarships) each year by submitting the Free Application for Federal Student Aid (FAFSA). This is required in order to track changes in student or family resources that could affect the amount of an award. To reapply for the 2017-2018 academic year, students should complete and submit the FAFSA at: www.fafsa.ed.gov as soon as possible after October 1 and preferably before March 15. The application deadline has been moved forward for 2017-2018 by presidential order. A FAFSA on the Web Worksheet is also available at this site to assist applicants in completing the online form. Undergraduate Kentucky residents are encouraged to apply as soon as possible after January 1 to increase the likelihood of receiving very limited KY College Access Program (CAP) Grant funds that are typically exhausted the first week of February. Applicants who are unable to file online can obtain a paper copy of the FAFSA by calling 1-800-433-3243. Submit the online or paper FAFSA, designating UK to receive the analysis. UK’s federal school code is 001989. Completing the FAFSA is also the first step in applying for a Federal Direct Stafford Loan.

The Office of Student Financial Aid and Scholarships informs students of financial aid decisions in early June (or as soon thereafter as possible).

Medical and Dental Students
Medical students apply for financial aid through the Office of Education, College of Medicine, 800 Rose Street, room MN-104J, (859) 257-1652. Dental students apply in the Office of Student Affairs, D-155 A. B. Chandler Medical Center, (859) 323-5280.
CONTINUED ELIGIBILITY FOR
STUDENT FINANCIAL AID

Federal regulations mandate that all students be required to make measurable progress toward a degree in order to receive financial assistance through Title IV federal financial aid grant, loan and work programs. The University of Kentucky has adopted the following standards of satisfactory academic progress in order to comply with this federal requirement. These standards are for financial aid purposes only and neither replace nor override University of Kentucky academic policies. Under normal circumstances, satisfactory academic progress will be evaluated once each year at the end of the spring semester.

Minimum Credit Hour Completion Ratio: All undergraduate and graduate students will be required to complete at least two-thirds (67 percent) of all cumulative credits attempted as expressed by the number of cumulative hours successfully completed divided by the number of cumulative hours attempted, with the result rounded up to the nearest whole percent. For example: A student who attempts thirty (30) credit hours during an academic year must earn at least twenty (20) of those hours before he or she is considered to be making satisfactory academic progress for financial aid purposes. Credit Hours Attempted include all hours for which a student is registered as of the end of the add period during the first week of classes. Transfer credits hours that will be applied toward a student’s degree at the University of Kentucky will be counted toward the maximum number of attempted hours in the completion ratio calculation. Credit Hours Earned would be grades of A, B, C, D, or pass; unearned credit would be grades of F, W, I, or Incomplete. Transfer credits hours that will be applied toward a student’s degree at the University of Kentucky will be counted toward the maximum number of earned hours in the completion ratio calculation. Hours for courses with grades of ‘incomplete’ (I) will not be counted as hours earned until the credit is received, but will be counted as hours attempted.

Cumulative Grade-Point Average: In addition to the ‘minimum credit hour completion ratio’ requirement indicated above, all financial aid students must maintain a cumulative grade-point average (GPA) that is consistent with the institution’s requirements for graduation. Specifically, the student must earn at least a 2.0 cumulative grade-point average to be eligible for student financial aid. Note: GPA calculations are based only on hours attempted at the University of Kentucky: this is the official GPA as calculated by the Registrar.

Maximum Time Financial Aid May Be Received: Each student has a maximum time frame during which they can receive financial aid. To remain eligible for financial aid at the University of Kentucky, students must complete their degree program requirements within 150 percent of the published length of their degree program. All attempted hours are counted, including transfer hours, whether or not financial aid was received, or whether or not the course work was successfully completed.

An undergraduate student enrolled at the University of Kentucky should be able to complete his or her program of study in no more than one hundred and twenty (120) credits of academic work, including any transfer credits. Therefore, a University of Kentucky undergraduate student typically may not receive federal financial aid after attempting more than one hundred and twenty (120) credit hours. The maximum time frame for students enrolled in programs of study requiring completion of more or less than forty-eight credits will be 150 percent of the credits required, e.g., programs requiring 50 credits will have a 75 credit maximum.

Students in Law, Physical Therapy, Pharmacy, and Physician Assistant programs are considered eligible as long as they are in good standing with their program requirements.

Failure to Complete Enrolled Courses: A student who enrolls at the University of Kentucky and fails to earn any credit for two consecutive terms, i.e., receives a 0.0 term GPA, or withdraws from all courses two consecutive terms (i.e., fall and spring semesters) is not eligible for future financial aid without an approved SAP appeal.

Special Grading Options and Situations: Repeat courses taken during the year will automatically be considered in the following spring review for progress. Note that a repeat option replaces only the credit hours earned for GPA calculation; all attempts at a course are calculated in total hours attempted and in the completion ratio calculation. Academic Bankruptcy will delete an early academic record from the University of Kentucky GPA but does not remove the attempted hours from the total cumulative hours nor from the completion ratio calculation. Audited classes, credits earned through CLEP testing, or noncredit courses are not considered in determining satisfactory academic progress. Hours earned on a “pass-fail” basis or paid through a consortium agreement and accepted by the University of Kentucky will be used in determining satisfactory academic progress. Credits assigned to developmental (remedial) courses will be counted in calculating hours attempted; however, these courses are not used in calculating the grade-point average (GPA).

Re-establishing Satisfactory Academic Progress: Students who have failed to meet one or more of the Satisfactory Academic Progress requirements are not eligible for financial aid; however, eligibility may be regained if the student enrolls at UK at his or her own expense in a subsequent term or terms and meets the standards according to the cumulative credit hours completion ratio and cumulative grade-point average (see Sections A and B). Note: Once the maximum time limit has been exceeded, then aid eligibility ends, even if the student is in compliance with the other two standards.

Right of Appeal: Federal regulations allow for certain situations in which the Office of Student Financial Aid and Scholarships may waive the standards. Appeals will be considered if a student’s failure to meet the Satisfactory Academic Progress standards is due to extenuating circumstances beyond his or her control, which have since been resolved, and which will not affect future academic performance. Detailed information about the appeal process and deadlines for submission can be found at: www.uky.edu/financialaid/rap and will be included in the student’s written notification of failure to maintain satisfactory progress.

Transfer Credits: As stated above, transfer credits hours that will be applied toward a student’s degree at a University of Kentucky will be counted (a) toward the maximum number of attempted hours allowed to be eligible for financial aid (i.e., usually 180 credit hours for undergraduate students) and (b) in the credit hour completion ratio. Transfer hours are not counted in the calculation of a student’s UK GPA. Note: If the student must take additional credits as a result of transferring from another institution, the student must submit a written appeal to the Assistant Director of Financial Aid. If the appeal is approved, the student may continue on financial aid.

Evaluation of Financial Aid Eligibility: Standards of Academic Progress are applied once each year at the end of the spring semester. At that point, a student’s entire academic history at the university (even for periods he/she did not receive
Financial Aid, Awards, and Benefits

Financial aid will be subject to the above quantitative and qualitative standards. Currently enrolled students with a FAFSA record who do not meet the Standards of Academic Progress will be notified by mail. Other students who do not meet the Standards of Academic Progress will be notified by mail at the time UK receives the student aid application (FAFSA) data. The student may make a written appeal or re-establish his or her eligibility by attending UK at his or her own expense to make up for any deficits. It is the student’s responsibility to monitor his academic progress and to be aware of the requirements of his program, so that the degree can be completed within the time allowed by Federal regulations.

Summer School: Any credit hours earned during the four- and eight-week summer sessions will be included in the annual evaluation made at the end of the following spring term.

Notification: A summary of the criteria for maintaining satisfactory progress shall be included with a student’s paper Financial Aid Notification (FAN) and is also part of the Terms and Conditions of Awards the student must agree to when the student views and accepts his or her financial aid awards via the myUK portal. All students denied financial aid for failure to maintain satisfactory progress shall be notified in writing and furnished a copy of the entire satisfactory progress policy statement.

GRANTS

A grant is a financial aid award that does not require repayment. Students can apply for all of the grant programs described below by completing the Free Application for Federal Student Aid (FAFSA).

Federal Pell Grants
The Federal Pell Grant Program provides grants to eligible undergraduate students working on their first baccalaureate degree. Federal Pell Grants currently range in value from $598 to $5,815 per school year and are based upon the student’s enrollment status and the financial circumstances of the family and applicant. All students are subject to a lifetime maximum of 12 full-time equivalent semesters of Pell Grant eligibility.

The U.S. Department of Education determines eligibility according to financial need. Applicants will receive a Student Aid Report (SAR) four to six weeks after applying. Students who provide an email address on the FAFSA will receive SAR information via email.

Supplemental Educational Opportunity Grants (SEOG)
The Higher Education Act of 1980 provides Federal Supplemental Educational Opportunity Grants for undergraduate students who need financial aid to enter or remain in college. SEOG recipients must be eligible to receive a Pell Grant and have exceptional financial need. The average SEOG award at the University is $600. Larger awards are generally not possible, since there are more eligible applicants than available funds.

Teach Grant Program
The Teacher Education Assistance for College and Higher Education (TEACH) Grant Program provides grants of up to $4,000 per year to students who intend to teach in a public or private elementary or secondary school that serves students from low-income families. In exchange for receiving a TEACH Grant, the student must agree to serve as a full-time teacher in a high-need field in a public or private elementary or secondary school that serves low-income families. A TEACH Grant recipient must teach at least four academic years within eight calendar years of completing the program of study for which the student received a TEACH Grant. Important: If the student fails to complete this service obligation, all amounts of the TEACH Grants received will be converted to a Federal Direct Unsubsidized Stafford Loan which must then be repaid to the U.S. Department of Education. The student will be charged interest from the date the grant(s) was disbursed. To receive a TEACH Grant the student must: complete the Free Application for Federal Student Aid (FAFSA), although the student does not have to demonstrate financial need; be a U.S. citizen or eligible non-citizen; be enrolled as an undergraduate, post-baccalaureate, or graduate student in a postsecondary educational institution that has chosen to participate in the TEACH Grant Program; be enrolled in course work that is necessary to begin a career in teaching or plan to complete such course work. Such course work may include subject area courses (e.g., math courses for a student who intends to be a math teacher); meet certain academic achievement requirements (generally, scoring above the 75th percentile on a college admissions test or maintaining a cumulative GPA of at least 3.25); and sign a TEACH Grant Agreement to Serve.

College Access Program (CAP) Grants for Kentucky Residents
The CAP Grant Program is administered by the Kentucky Higher Education Assistance Authority. CAP Grants are one-year monetary awards based on financial need. They may be renewed for a total of eight semesters if financial need is established. The current amount of the grant is $1,900 annually for full-time attendance. Recipients must be enrolled at least half-time. Awards are prorated for less than full-time attendance.

To be eligible for a CAP Grant, a student must be an undergraduate, a U.S. citizen or permanent resident, a Kentucky resident, have an eligible expected family contribution (EFC), and must be enrolled at an eligible institution located within the Commonwealth of Kentucky.

For more information, contact KHEAA, P.O. Box 798, Frankfort, KY 40602; or visit their website at: www.kheaa.com.

Kentucky Educational Excellence Scholarships (KEES)
The Kentucky Educational Excellence Scholarship Program (KEES) was established by the Kentucky General Assembly in 1998 and is administered by the Kentucky Higher Education Assistance Authority (KHEAA). KEES Scholarships are available to students who graduate from a Kentucky high school at the end of the 1998-99 academic year and beyond. Kentucky residents who meet the eligibility criteria can earn up to $2,500 per year. The amount of the scholarship is based on the student’s high school performance and ACT scores. Students will generally be eligible to receive the scholarship for a maximum of eight academic terms in an undergraduate program.

To receive the full award, students must be enrolled full-time. Students enrolling less than full-time (but at least half-time) will receive a proportionate award.

Renewal amounts will be determined as follows: if your cumulative GPA is at least 3.0, your full award will be renewed; if your cumulative GPA is a 2.5 to 2.99, your full award will be renewed only if you have completed enough hours to be certified as on track to graduate by the University’s financial aid office; if your cumulative GPA is a 2.5 to 2.99, you have not earned enough hours to be considered on track to graduate, but you were enrolled full-time during the prior year, your award amount will be reduced by 50 percent; if your cumulative GPA is a 2.5 to 2.99 and you were enrolled less than full-time during the prior year and are not considered on track to graduate by the University’s financial aid office or your cumulative GPA was below a 2.5, you will become ineligible until you meet one of the standards above at the end of the next academic year.

Students will be considered on track to graduate according to the following criteria: the student has earned 48 credit hours at the end of 4 terms of enrollment; 72 credit hours at the end of 6 terms of enrollment; 120 credits at the end of 8 terms of enrollment. In determining a student’s on track to graduate status, enrollment in only the fall and spring terms will be included in the number of terms of enrollment. On track to graduate status will be determined at the end of each spring term. Any hours earned during a summer period will be included in the number of credits earned at the end of the following spring term.

Eligible students will receive official notification of their KEES award from KHEAA. The student’s enrollment must be verified prior to disbursement of the award. Therefore, funds will not be available until four weeks after the start of the semester. For more information, contact KHEAA, P.O. Box 798, Frankfort, KY 40602; or visit their Web site at: www.kheaa.com.
LOANS

Loans generally supplement a student’s savings, earnings, or other financial assistance. Loan funds generally are not adequate to cover all expenses. When possible, loans are combined with other types of financial assistance to reduce the amount a student must borrow.

Federal Perkins Loans

A student must demonstrate financial need to be eligible for a Federal Perkins Loan. The amount of loan is determined by the Office of Student Financial Aid and Scholarships based on the student’s need and resources. The aggregate loan limits for Federal Perkins Loans are as follows: $11,000 for undergraduate students who have not completed 2 years; $27,500 for all other undergraduate students; $60,000 for graduate students (includes loans borrowed at the undergraduate level). The amount awarded depends on the date of application, financial need, and other financial aid received. Payment is not required while the borrower is enrolled as a half-time student. Interests begin to accrue at a rate of 5 percent per year at the beginning of the ninth month after the borrower ceases to be a half-time student. In this context, “half-time” is defined as half a normal load or a minimum of six hours for undergraduate students or five hours for graduate students.

Health Professions Student Loans (HPSL)
Students in the Colleges of Dentistry and Pharmacy are eligible for Federal Health Professions Student Loans. Funds for the HPSL program are cooperative loan funds made available on the same basis as the Federal Perkins Loan Program described above.

The law requires that borrowers be enrolled as full-time students in good standing in the Colleges of Dentistry or Pharmacy and be in need of a loan to continue their professional education. Parental information must be reported on the FAFSA even if the student is considered independent. If required, the student must be registered with the Selective Service Administration.

The amount a student may borrow annually may not exceed the student’s cost of attendance. Repayment of principal and interest begins one year after the student ceases full-time study, and must be completed within ten years. HPSL Loans carry a fixed interest rate of 5 percent.

Primary Care Loan (PCL) Program
The Primary Care Loan Program (PCL) assists students in the College of Medicine who intend to engage in primary care residency and/or practice upon graduation. Primary care health care is defined as family medicine, general internal medicine, general pediatrics, preventive medicine, or osteopathic general practice.

Eligibility requirements for PCL are the same as those for HPSL, except recipients must agree to enter and complete a residency program in Primary Care within 4 years following completion of residency training; and practice in primary care until the loan is repaid in full (10 years with extension at the discretion of the school). Based on compliance, the interest rate is 5 percent (paid by the federal government) during in-school and approved deferment periods. When a borrower fails to comply with the service obligation, the balance due on the loan involved will be immediately recomputed from the date of issuance using the annual rate of 2 percent greater than the rate the student would pay if compliant.

Interests will not be charged while the student is enrolled in school at least half-time, during a grace period, or during authorized periods of deferment. Interests will begin to accrue when the student enters repayment. Repayment begins six months after the borrower leaves school.

Students must complete a Free Application for Federal Student Aid (FAFSA) to apply for a Subsidized Federal Direct Stafford Loan.

Apply early. Allow a minimum of 4 to 6 weeks for the loan to be processed.

Unsubsidized Federal Direct Stafford Loans
The Unsubsidized Federal Direct Stafford Loan program is open to undergraduate and graduate students who may not qualify for subsidized Federal Direct Stafford Loans or to graduate students who may qualify for only partial subsidized Federal Direct Stafford Loans. Undergraduate borrowers may receive both subsidized and unsubsidized Federal Direct Stafford Loans totaling up to the applicable Stafford limit, if they do not qualify for the full amount.
permitted under the subsidized Federal Direct Stafford Loan Program. For undergraduate students, this includes eligibility to borrow up to an additional $2,000 in unsubsidized Federal Direct Loan funds. Independent undergraduate students, dependent undergraduate students whose parents cannot borrow a PLUS Loan, and graduate students have increased loan eligibility.

Unsubsidized Federal Direct Stafford Loans have the same terms and conditions as Subsidized Federal Direct Stafford Loans. Effective for loans first disbursed on or after July 1, 2014, the interest rate is 4.29 percent for undergraduate and 5.84 percent for graduate student borrowers. Rates are set each year. The borrower is responsible for interest that accrues while the borrower is in school. Borrowers pay an origination fee of 1.068 percent. The fee is withheld from the loan when the funds are disbursed.

Short-term Loans
Students are eligible to receive short-term, interest-free loans for a documented emergency. A $1 service fee is charged for each loan.

Up to four working days are required to process a short-term loan application. Short-term loans are not available during the first three weeks of a semester or immediately preceding the close of a semester. Only students who have paid their tuition and are in good financial standing with the University are eligible. Contact the Office of Student Financial Aid and Scholarships for more information.

THE FEDERAL WORK-STUDY (FWS) PROGRAM
The Federal Work-Study Program (FWS) provides job opportunities for students with need. FWS is usually combined with other kinds of financial aid, and preference is given to students with the greatest financial need. Students should indicate their interest in FWS on the FAFSA.

A student must demonstrate financial need to be eligible and must be enrolled at least half-time during the academic year. Students who are not enrolled for the summer sessions may be eligible to work full-time during the summer. Students who work full-time in the summer are obligated to save from their earnings for their fall semester expenses. Summer work-study applications are available in the Office of Student Financial Aid and Scholarships and on the office's Web site after March 1.

Students are limited in how much they can earn on the FWS Program. Students are not permitted to earn more than the amount specified on their Notice of Award. Pay rates range from $7.25 to $10.85 per hour, based on factors such as campus, year in school, and job duties and responsibilities. Although referred to as a work-study job, students are NOT paid to study and must be engaged in work activities during all hours for which they receive an hourly wage.

SCHOLARSHIPS
Scholarship programs based primarily on financial need are administered by the Office of Student Financial Aid and Scholarships. Students with substantial financial need should read the preceding information and contact the Office of Student Financial Aid and Scholarships.

Scholarship programs based primarily on academic merit are administered through the Office of Academic Scholarships, including academic and competitive awards for first-time incoming freshmen, current UK students, and transfer students.

For academic scholarship consideration, first-time incoming freshmen must be admitted to UK and have qualifying test score and GPA on file with the Office of Undergraduate Admission prior to December 1. For more information and to view scholarships offered, please visit our website: www.uky.edu/financialaid/scholarships

The University of Kentucky also provides a competitive scholarship program for higher valued scholarships, for first-time incoming freshmen. The awards include the Otis A. Singletary Scholarship, Presidential Scholarship, and Commonwealth Scholarship. To apply, students must complete the competitive academic scholarship section of the undergraduate admission application by December 1. Students must be admitted to UK and have qualifying test score and GPA on file with the Office of Undergraduate Admission by the December 1 deadline. Early application is strongly encouraged.

The Office of Academic Scholarships also offers special first-time incoming freshmen academic scholarships to National Merit/Hispanic Scholar Finalists, Kentucky Governor’s Scholars, and Kentucky Governor’s School for the Arts Alumni. For more information, please visit our website or see our contact information below.

Currently enrolled UK students, not already receiving a four-year academic scholarship, who have demonstrated high academic achievement, may apply for an Academic Excellence Scholarship. Applications are available during the spring semester and awards are made for the upcoming school year. Students must be full-time and achieve a minimum 3.50 cumulative GPA to apply. Awards are competitive and the deadline to apply is April 15.

Transfer students currently enrolled full-time at an accredited institution who will be transferring to the UK main campus for the fall semester may be considered for academic scholarships. To be eligible, applicants must have completed a minimum of 24 semester hours and be enrolled full-time at an accredited institution for the spring semester. Students must be admitted to UK and have a final spring transcript on file with the Office of Undergraduate Admission by June 1. For more information and to view scholarships offered, please visit our website: www.uky.edu/financialaid/scholarships

Many academic departments and colleges have funds of their own that are granted to deserving students. For more information, check with the individual college or department of interest.

William C. Parker Scholarship Program
The University of Kentucky has a mission and commitment to aggressively recruit and retain students from all segments of society, including African American, American Indian, Asian or Pacific Islander, Hispanic, and Alaskan Native students. Factors which are considered in the holistic evaluation of William C. Parker scholarship applications include test scores, grades, an essay, leadership experience, extracurricular activities, awards and recognition, community service and contribution to diversity.

The William C. Parker Scholarship Program is available for incoming freshmen, transfer, and continuing students. Students may receive only one award through the William C. Parker Scholarship Program.

For more information concerning the William C. Parker Scholarship Program, contact:

Asia Payne
Director
William C. Parker Scholarship Program
128 Funkhouser Building
Lexington, KY 40506-0054
(859) 323-6334

LEGACY TUITION PROGRAM
The University of Kentucky offers partial tuition awards to eligible non-resident undergraduate children of UK graduates. An eligible student is defined as a child whose mother, father, or step-parent has earned a bachelor, graduate, doctorate, or professional degree from the University of Kentucky, whose parent or step-parent is a member of the UK Alumni Association, and who would normally be subject to non-resident tuition rates. New first-time freshmen will be eligible
for the Legacy Tuition Program for a total of eight semesters. Transfer students are eligible through the equivalent of their eighth semester of undergraduate study. Semesters of prior college enrollment at other institutions are considered in the total eight semesters. Automatic renewal each semester is contingent upon the student’s full-time enrollment on the UK main campus while maintaining a good academic standing and the qualifying parent’s active membership in the UK Alumni Association. Eligibility for continued enrollment in the program will be verified each semester. Students are required to complete the Legacy Tuition Program application in order to receive the benefits.

Students who participate in cooperative education programs or who participate in Study Abroad programs should contact the Office of Academic Scholarships for information regarding eligibility during these semesters. Student athletes should contact the Athletics Office to ensure compliance with NCAA regulations.

HUMAN RESOURCES STUDENT EMPLOYMENT

Human Resources Student Employment is a free referral service for UK students who are seeking part-time employment during the school year and part-time or full-time employment during academic breaks. Both on-campus and off-campus jobs in various fields with assorted required skills, pay rates, and flexible schedules are usually available.

To be considered for jobs available through HR Student Employment, UK students first complete an application through the Integrated Employment System (IES). Next, UK students can search the IES for available jobs and submit their application for specific jobs. After submitting an application, students who meet the minimum qualifications for specific jobs will receive an email with instructions to visit Scovell Hall for a screening interview and possible referral. Casual, walk-in interviews are conducted Monday through Friday between 12:30 P.M. and 4 P.M. by appointment.

Students can access the Online Employment System and other information at the HR Student Employment website at: www.uky.edu/HR/studentjobs. Feel free to call us at (859) 257-8894.

SPECIAL AWARDS

The Herman L. Donovan Fellowship for Older Adults

The Donovan Fellowship, named in honor of the late Herman L. Donovan, University President from 1941-1956, is open to persons who are 65 years of age or older who live in Kentucky. Tuition is waived for Donovan Fellows. Students may work toward an undergraduate or graduate degree, audit classes for the joy of learning, or take individual courses for credit. The program is available at the Lexington campus. Fellows are responsible for books, supplies, parking, and applicable taxes. Due to space limitations, classes are rarely available for instruction in music and voice. All state-supported institutions of higher learning in Kentucky offer tuition-free classes for persons 65 years of age or older.

For more information, contact Sharye Davis at (859) 257-2657; or email: Sharye.Davis@uky.edu.

Osher Lifelong Learning Institute (OLLI) at UK, Lexington and Morehead

Members of the OLLI at UK participate in intellectual, social, and cultural programs which characterize the university setting. Educational and enrichment courses and events are offered for adults 50 years of age and older at each of our locations in Lexington and Morehead. Courses are held in community locations and are offered in a variety of formats including: weekly courses, one day intensives, lecture series and shared interest groups. Courses are taught in the following topics: history and government, culture and travel, languages, literature and writing, health and wellness, science and environment, and the visual and performing arts. The annual membership fee is $25; course fees vary.

For more information, contact the OLLI at UK at (859) 257-2656; toll free at (866) 602-5862; or email: Teresa.Hager@uky.edu.

Oswald Research and Creativity Program

The Oswald Research and Creativity Program began in 1964 with the express purpose of encouraging research and creative activities by undergraduate students at UK. The objectives of the program are: (1) to stimulate creative work by undergraduate students, and (2) to recognize individuals who demonstrate outstanding achievement. This recognition emphasizes the importance the University places upon academic excellence.

The program has categories in Biological Sciences, Design (including but not limited to, architecture, landscape architecture, and interior design), Fine Arts, Humanities/Creative, Humanities/Critical Research, Physical and Engineering Sciences, and Social Sciences. In the science categories and the Humanities/ Critical Research category, students generally submit research papers done for class or as an independent research project. For the Humanities/Creative category, students submit short stories, original plays, or poetry. The Fine Arts category is appropriate for musical compositions, paintings, sculpture, visuals, films, or photographic essays. Up to 21 works of art, creative compositions, and serious research papers are recognized by the program each year. This competition is unique to the University and provides an excellent opportunity for undergraduates to test their skills and to see their academic work in a serious, professional light.

Awards are given in each category: $350 for first, $200 for second place, and an Honorable Mention certificate. The Associate Provost for Undergraduate Education presents the awards and a certificate to each winner at a luncheon held each December. Any undergraduate (full- or part-time, enrolled for either semester in the current academic year) who does not already have a baccalaureate degree is eligible to enter.

For information, contact the Office of Undergraduate Research, 211 Funkhouser Building, (859) 257-0049; www.uky.edu/UGResearch.

Undergraduate Summer Research and Creativity Fellowships

One of the strengths of research institutions like the University of Kentucky is the opportunity they provide for undergraduates to be involved in research and creative projects. Engagement in educational activities outside the classroom is key element in the learning process. Faculty members in many fields welcome the opportunity to share their expertise and assist students with research projects. Each year, the Office of Undergraduate Research supports numerous independent research and creativity projects. Awardse receive up to $2,000 to support these activities during the summer months. Awards are given out at the end of the spring semester. Undergraduate students in all academic areas are eligible to compete for these fellowships.

For information and applications, contact the Office of Undergraduate Research, 211 Funkhouser Building, (859) 257-0049; or visit us at: www.uky.edu/UGResearch.
Financial Aid, Awards, and Benefits

Other Awards Programs
Many academic departments at UK give special awards and prizes to students each year. Generally, special awards are cash prizes and are given on the basis of academic achievement or outstanding scholarship.

VETERANS BENEFITS

Benefits for Veterans and Eligible Dependents
Federal and state benefit programs for veterans and eligible dependents are coordinated through Veteran Services, located in 10 Funkhouser Building.

Veterans or eligible dependents (widow, wife of totally and permanently disabled veteran, child of deceased or totally and permanently disabled veteran) should report to the Veteran Services office during priority registration or on the Advising Conference date and pick up information about enrolling for benefits.

Students who have already applied for federal or state benefit programs should bring certificates showing entitlement or eligibility.

Students who depend on these benefits to meet their living expenses should bring enough money to cover expenses for at least eight weeks while the first benefit check is processed.

For further information on V.A. educational benefit programs, contact the St. Louis VA Regional Office, P.O. Box 66830, St. Louis, MO 63166-6630, (888) 442-4551.

Children of Kentucky War Veterans

Tuition Waiver Program
Under the provisions of KRS 164.505, 164.507, and 164.515 certain children and spouses of Kentucky war veterans are eligible for assistance from the Commonwealth of Kentucky. All persons eligible under this program must meet admissions requirements and submit all necessary documents establishing eligibility under the program to the Student Records Office, 10 Funkhouser Building.

Generally, children of Kentuckians who were killed in military action or who were permanently and totally disabled in wartime military service are eligible to have their tuition waived. This waiver does not cover special fees or additional fees that are charged for certain courses.

For additional information on the provisions of KRS 164.505, 164.507, and 164.515, contact the Kentucky Department of Veterans Affairs, Room 123, 545 S. Third St., Louisville, KY 40202, (800) 572-6245.

ROTC FINANCIAL ASSISTANCE

Air Force ROTC Scholarships
The types of financial assistance available through Air Force ROTC are briefly described below. For further details on eligibility and requirements, contact the Department of Aerospace Studies, 203 Barker Hall, University of Kentucky, Lexington, KY, 40506-0028, (859) 257-7115; or visit https://afrotc.as.uky.edu/ for more information. Additional information is also listed in this Bulletin under Aerospace Studies.

High School Scholarship Program (HSSP). Scholarships are available to those qualified and selected students who enroll in the Air Force ROTC program. These scholarships cover tuition and laboratory fees, provide an allowance for books, and provide a graduated nontaxable subsistence allowance ranging from $300 to $500 per month. Qualified high school students can apply for four-year Air Force ROTC scholarships. Applicants for four-year scholarships are evaluated on the basis of the following criteria: a composite score on the ACT, or a composite score on the SAT; the applicant’s high school academic record; class ranking; extracurricular and athletic activities; personal interview; and ability to qualify on an Air Force medical examination. High school students who meet the basic eligibility requirements for a four-year scholarship must submit an application anytime between May 1 and December 1 of the year prior to enrollment in the program (usually the spring of their junior year into the fall of their senior year).

All selections for four-year scholarships are made at Air Force ROTC headquarters. Students meet regularly scheduled boards from September to February (which is dependent upon when they officially apply). High school students should apply online at: www.afrotc.com. For additional information, contact the Air Force ROTC detachment, 203 Barker Hall, University of Kentucky, Lexington, KY 40506-0028, or at (859) 257-7115.

In College Scholarship Program (ICSP). Scholarships are awarded to students enrolled as cadets currently in the Air Force ROTC program on a competitive basis. Depending on the particular scholarship program, selection may be made on campus by the Air Force ROTC detachment commander or at Air Force ROTC headquarters. Scholarships may be awarded for up to three and a half years of study. Students interested in these scholarships should call (859) 257-7115 for the latest information. Freshman students are not eligible for an ICSP until they have completed one full-time semester of college education. Typically freshman ICSP scholarships will be given starting spring semester of their freshman year, and students in the program could be awarded a scholarship from spring semester freshman status through spring semester sophomore status.

Furthermore, the HQ AFROTC ICSP is an in-college scholarship program available to students pursuing a degree in critical areas needed by the Air Force. These scholarships can be up to three and a half years. These scholarships are awarded on a competitive basis for those who qualify. ICSP scholarships have historically been awarded to cadets pursuing academic majors in electrical and computer engineering, nursing, and certain foreign language studies. Selections for this particular in college scholarship program are made at Air Force ROTC headquarters. Critical areas are updated every year and are subject to change without notice. For current information, call (859) 257-7115.

Information is current as of January 2016 and is subject to change.

Army ROTC Scholarships

Two-year, three-year and four-year scholarships are available through the Army Reserve Officers’ Training Corps program. These scholarships pay tuition, required university fees, $1,200 per year for textbook costs, and up to $500 per month tax-free subsistence allowance while school is in session. Scholarship recipients will be commissioned as officers at the rank of Second Lieutenant in the United States Army upon graduation. Scholarship recipients will typically incur a four-year active duty or eight-year Army Reserve (Army National Guard or U.S. Army Reserve) officers to four years for active duty officers.

Length of scholarship, application deadline, and where to apply:

1. Scholarship applications are accepted year-round. The address to request or submit an application is: Professor of Military Science, ATTN: Admissions Officer, U.S. Army ROTC, 101 Barker Hall, University of Kentucky, Lexington, KY 40506-0028; or call (859) 257-6865.

2. Four-years scholarships: Application deadline is January 1 of a student’s high school senior year. High school juniors and seniors are eligible to apply. To receive an application, contact: United States Army Cadet Command, ATTN: Army ROTC Scholarship, Fort Knox, KY 40121; or call (800) USA-ROTC; or apply online at: www.goarmy.com/rotc. All applicants are evaluated by a board that considers the following criteria: ACT/SAT scores, high school academic record, extracurricular and/or athletic activities, and personal interview.

Advance Course (last two academic years of baccalaureate degree)

All contracted cadets (committed by signing an Army ROTC contract) receive a subsistence allowance of up to $500 per month while school is in session, whether or not they are scholarship recipients. Active duty commitments range from a 90-day Officer Basic Course for Reserve (Army National Guard or U.S. Army Reserve) officers to four years for active duty officers.
To be eligible for the Advance Course, students must have completed the first two academic years of the ROTC program (Basic Course) or other training (Basic Training/AIT, JROTC experience, Leadership Training Course).

**Basic Course (first two academic years of the four-year ROTC program)**

All students are eligible and welcome to participate in military science 100- and 200-level classes **without obligation**. The Basic Course focuses on an introduction to leadership, tasks common to all soldiers, and adventure training.

**Cadet Initial Entry Training and Cadet Leaders Course**

These camps are held during the summer lasting four weeks and each pays the student approximately $900.

Cadet Initial Entry Training Course is held at Fort Knox, Kentucky, and is attended by students who wish to participate in the Advanced Course. Completion of training qualifies students to enter the Advanced Course and compete for a two or two and a half year scholarships.

Cadet Leaders Course is held at Fort Knox, Kentucky, and is a requirement of the Advanced Course for commissioning. Normally, students attend this Camp between the junior and senior years.

**Simultaneous Membership Program**

This program is open to students in the Advanced Course. It enables them to remain a member of, or join a local Army National Guard unit or U.S. Army Reserve unit as officer trainees while attending college. Pay through either of these units is based on that of a Sergeant. See the admissions officer or call your local National Guard/Army Reserve recruiter for details. Simultaneous Membership Program students receive tuition assistance, Montgomery GI Bill, Kicker, plus over $1,200 per month while serving in the Army Reserves.
Living Accommodations

APPLYING FOR HOUSING

It is recommended that students apply to Campus Housing as soon as they are accepted to UK. It is important to note that applying for admission to the University and applying for housing and the Living Learning Program (LLP) are separate processes.

On-campus housing will be provided for those who meet all University of Kentucky and Campus Housing qualifications and deadlines.

Questions regarding the housing application should be directed to Campus Housing, which processes housing applications, assigns students to residence hall rooms, and notifies students of assignments (see Contact Information at the end of this section).

LIVING ON CAMPUS

The University of Kentucky has 8 traditional and 15 premium residence halls designed in several different room types, including four-person suites, 2-bedroom suites, and 4-bedroom suites. The residence halls on campus house over 6,600 undergraduate students.

The residential setting at UK is intended to contribute to a student’s education by providing a living/learning environment. There are several living learning communities within undergraduate housing. For more information about each living-learning community, visit the Living Learning Program website at: www.uky.edu/housing

UK’s residence halls are the foundation upon which a solid college experience is built. Many current students believe that living in a residence hall is the best way to make friends, meet new people, and become involved in campus life. Studies on UK’s campus indicate that students who live on campus, particularly those in living-learning communities, tend to have higher grade-point averages than students living off campus.

UK’s residence halls are staffed with professionally trained personnel, including full-time resident directors, hall directors, and resident advisors who live on each floor. The hall director and resident advisors assist in creating a safe, inclusive environment, helping students in their academic efforts, planning social and educational programs, and developing hall governments. Residents are encouraged to participate both within the hall and in the campus community.

All on-campus undergraduate residents are represented by the Resident Student Association, a group whose goal is to improve residence hall life by planning and directing social, educational and recreational programs, and by providing a unified voice for residents. The Resident Student Association is a member of the National Association of College and University Residence Halls (NACURAH, INC.), enabling interested residents to attend regional and national leadership conferences.

Room Assignments

Room assignments are determined by the date the completed housing application and housing contract are submitted to the Undergraduate Housing Assignments Office. Living Learning Program participants are assigned to the residence hall(s) that houses their program.

If housing demand exceeds capacity, students may be placed on standby for housing until a permanent room assignment can be made. Each year, a number of housing recipients do not come to school, or come but do not stay, creating vacancies.

Roommates

Students may request roommates of the same gender on the housing application. Two students who wish to share a room must indicate each other as their preferred roommate and request the same room types and area of campus. Living Learning Program participants will be expected to room with another student in the same living-learning community.

RESIDENCE HALLS

UK’s residence halls have many attractive features. Housing rates include utilities, cable television, computer network connection and furniture. All residence halls are staffed by hall directors and resident advisors. Each front desk has a staff member monitoring the lobby area 24/7. Security cameras are placed in many areas of the halls. Residence halls provide convenient access to laundry facilities, game and television rooms, vending machines, lounges, and study rooms. Dining facilities are close to all areas of campus. Smoking and other tobacco products are not allowed on UK’s campus. UK Housing policies and procedures apply to all residents who sign a contract and live in one of the residence halls or Greek facilities managed by the University.

UK’s campus covers many acres. Students and faculty refer to the three major areas of campus as north campus, central campus, and south campus. UK’s residence halls are located in all three areas.

Students should read about each hall and learn about the facilities and the various living-learning communities available.

North Campus

The north campus consists of four residence halls: Roselle Hall, Champions Court I, Champions Court II, and Wildcat Coal Lodge. North campus halls are close to Blazer Cafe, the UK Bookstore, many classrooms, Memorial Coliseum, Rupp Arena, downtown and many eclectic shops and restaurants.

Central Campus

Central I, Central II, Haggan, Woodland Glen I, Woodland Glen II, Woodland Glen III, Woodland Glen IV, and Woodland Glen V make up the central campus. These halls are considered centrally located because they are close to the Fresh Food Company at The 90, many classroom buildings, as well as the William T. Young Library and UK Hospital.

South Campus

The south campus is comprised of the Kirwan-Blanding Complex, plus three premium residence halls—Baldwin, Smith, and Ingels. These communities are located near the Fresh Food Company at The 90, William T. Young Library, the E. J. Nutter Field House and Training Facility, the Hilary J. Boone Tennis Center, Lancaster Aquatic Center, Cliff Hagan Stadium, Bernard Johnson Student Recreation Center, and Commonwealth Stadium.

Office of Residence Life

The mission of the Office of Residence Life is to create inclusive residential communities that promote student learning and personal growth. In order to promote student learning and personal growth, the Office of Residence Life has identified five core values which must be incorporated into all residential communities. These are:

- Safety
- Inclusion
- Service
- Civility
- Academic Achievement
The Office of Residence Life hires and supervises the staff that live and work in the facilities, including Hall Directors, House Directors, Resident Advisors, Office Assistants and Desk Clerks. Each of these staff members receives extensive training in the management of undergraduate housing facilities and can be a valuable resource in meeting any need that a student might have.

The Office of Residence Life also coordinates all the Living-Learning Communities and Residential Colleges on campus. These communities offer students the opportunity to interact more with faculty and access resources related to their academic or other interests.

For general questions about the Living-Learning Program or the Office of Residence Life, please contact:

Office of Residence Life
537 Patterson Office Tower
University of Kentucky

www.uky.edu/housing/

RATES

The cost for living in UK Housing is listed in the Fees section of this Bulletin.

Rate Changes

Rates are subject to change at any time before the beginning of the academic year, upon action by the Board of Trustees. Rates are normally established in May for the succeeding academic year.

Apply Online

Apply by logging into myUK using your Link Blue credentials. Select “Undergraduate Housing” on the “Student Services > myinfo” tab.

Cancellations

Applicants must cancel the housing application in person, by fax, by letter, or by email to the Undergraduate Housing Assignments Office at: ukhousing@email.uky.edu

New students who choose to cancel their Housing and Dining application will be charged according to the following schedule:

- $0 for cancelling prior to June 15
- 20 percent of the traditional hall rate for the fall semester for cancelling from June 16 - July 1
- 25 percent of the traditional hall rate for the fall semester for cancelling by July 2 - August 1
- 50 percent of the assigned housing rate for the fall semester plus the prorated charge for each day from the fall move in date to the date on which the student has provided written cancellation notification for cancelling by September 1. This rate also applies to students who apply for on-campus housing and then never move in to the housing facilities – no shows
- Full housing and dining charges (at assigned hall and plan rates) for cancelling after September 1

After the Semester Begins

If a student withdraws from the University during the semester, the student is charged the daily rate for the time which they were in the residence hall. Students are also charged the weekly rate for the dining plan which they are on or actual usage of that plan, whichever is greater.

Between Semesters

There is no penalty for withdrawing from the University between terms. The student is released from their Housing Contract because they are no longer eligible to live in Undergraduate Housing. Students are charged the daily rate for the room assignment and dining plan which they are in until they have withdrawn from all classes and properly checked out of UK Housing.

Liquidating (offered for Spring Semester ONLY)

The Housing Contract is for the entire academic year, fall and spring semesters. Students who remain enrolled and wish to leave UK Housing between semesters may choose to cancel their Contract for a significant financial penalty. Details of the cancellation policy are available online at: www.uky.edu/housing/.

For more information about UK Housing, contact:

GRADUATE AND FAMILY HOUSING

The University provides living options for full-time graduate students, professional students, non-traditional undergraduate students and a limited number of options for staff and faculty. Student families can apply for two-bedroom apartments in Shawneetown or Greg Page. One-bedroom and efficiency apartments are available in Shawneetown for student families or single students.

Commonwealth Village one-bedroom and efficiency apartments are available to single students.

Efficiency, one-bedroom and two-bedroom apartments are available at 625 S. Limestone. A limited number of two-bedroom townhomes are available at 633 Maxwelton Court. These options are primarily reserved for single students. Campus-adjacent housing is available for undergraduate, graduate, and professional students, as well as staff and faculty.

Furniture is provided in Commonwealth Village, Greg Page, and Shawneetown only. (Furnishings do not include microwaves, linens, or household essentials.)

The rent rate in these units includes the cost of utilities, basic cable television service, and Internet connectivity. Laundry facilities are available in all these communities. Furniture is not provided in the properties located at 625 S. Limestone, 633 Maxwelton Court or the campus-adjacent options. Some appliances may be provided. Basic utilities are provided at 625 S. Limestone and 633 Maxwelton Court. Internet and cable television are not provided.

For more information and to access our application, please visit us at: www.uky.edu/housing/ and then choose “Graduate & Family” or contact our office at:

UK DINING

UK Dining is about more than just food. It’s an experience. It’s a community. It’s a place to meet friends, to unwind, to celebrate, and even to study. When you dine on campus you’re sure to eat well and be well-nourished so you can excel in your classes. And if there’s ever anything the dining team can do to make your experience better, just ask. State-of-the-art facilities, restaurants you know and love, and people that care about what you eat are all on campus at the University of Kentucky. Let’s eat.

Commitment to Nutrition

UK Dining is committed to providing you a broad selection of great tasting, nutritious food and beverages. UK Dining offers an on-site dietitian who is available for consultations. Email contactukdining@lsv.uky.edu to schedule a meeting. The menus are created by experienced chefs who have a passion for food, and recipes feature fresh fruits, vegetables, whole grains, lean proteins, and low or nonfat dairy options. Visit the “Eat Well” section of the dining Web site to find a pocket Vegan and Vegetarian Guide, and a Dietitian’s Pick brochure. UK Dining also recognizes and accommodates special dietary needs in a personalized, sensitive manner, including developing a step-by-step guide: Your Guide to Managing Food Allergies & Celiac Disease, available on the dining Web site.

Restaurants

The University of Kentucky features two large, all-you-care-to-eat restaurants where students utilize the “meals” from their meal plan. North campus and the academic neighborhood are closest to Blazer Dining, a campus favorite with traditional and cutting-edge selections. Central and south campus are closest to Fresh Food Company at The 90, a state-of-the-art facility with an open kitchen design and an innovative menu prepared right in front of you. Across campus UK Dining provides so many options that you know and love like Chick-fil-A, Starbucks, Panda Express, Taco Bell, local favorites Aqua Sushi and Common Grounds, Wildcat Pantry convenience stores, and much more. What you see in every restaurant is a host of people that care about how your day is going and want to make sure you get a great meal. They’re here because of you.

Meal Plans

Every student, whether you live on campus, walk to campus, or drive to campus has the benefit of saving money to get great food with a meal plan. All students living in a residence hall must choose a meal plan as part of the fall 2016-spring 2017 housing contract (All-Access, Blue 14, Flexible 100, White 10, and Basic 7). All students living off campus can choose any of the traditional meal plans or plans created especially for their varied needs. A full list is available on the “Meal Plans” page of the dining Web site: www.uky.campusdish.com. Students can get advice on how best to utilize their plan and map out locations close to their classes by visiting the UK Dining Center on the top floor of The 90.

Meal plans include both “meals” and “Flex Dollars” –

• Meals: When a meal plan you receive credit for all-you-care-to-eat meals at Blazer Dining and Fresh Food Company. This is where many students will eat the majority of their meals.
  • To use a meal at one of these locations, simply present your WildCard ID to the cashier upon entering the restaurant.
  • Each time you swipe your card a meal will be deducted from your remaining meals.
  • Meals are reserved for the account holder. Some meal plans offer “guest meals” that can be used to treat friends, family, or even yourself.

• Wildcat Deals: When a meal is used at a location other than Blazer Dining or Fresh Food Company it is referred to as a Wildcat Deal.
  • Wildcat Deals are offered as a convenience and allow you to exchange a “meal” for a designated combo meal at a participating retail venue.

Flex Dollars: Flex Dollars supplement your meals and are included in each meal plan. Flex Dollars work just like a debit card and may be used at all UK Dining locations.

• Flex Dollars are not taxed at the time of your purchase.
• Flex Dollars can be added anytime in the semester and there is no fee to add Flex Dollars.
• Unused Flex Dollars will carry forward from fall to spring for students enrolled in the spring semester.

Meal plans are for the academic year. You will be automatically billed each semester. You will begin the spring semester on the same meal plan that you have at the end of the fall semester. Unused Weekly Meals cannot be refunded, accumulated, or carried over for the next week. Unused Block Meals cannot be refunded or carried over to the next semester. All Flex Dollars are non-refundable, non-transferable and expire at the end of the spring semester.

Meal plans save time and are less stressful. With a meal plan you don’t have to worry about preparing your own food. There isn’t the hassle of shopping, cooking, and cleaning after every meal. We’ve got you covered. When you don’t have to worry and are well-fed from a meal plan, you’re better nourished and have more energy. We want you to succeed at UK by offering a plan that fits your needs best.

For more information about UK Dining, please contact:

UK Dining Center
The 90, Second Floor
Phone: (859) 257-2220
email: contactukdining@lsv.uky.edu
www.uky.campusdish.com

STUDENT PARKING AND TRANSPORTATION OPTIONS

When parking on campus, students must purchase and properly display a University of Kentucky parking permit. Permit control signs at the entrance to each parking lot display the type of permit required and the hours when the lot is controlled for permits. Student permit types include residential, commuter, periphery (Stadium) and evening; permit sales will begin in summer 2016, with an exact date to be announced on www.uky.edu/pts.

The University of Kentucky has a robust and growing alternative transportation network that all students are encouraged to use, regardless of whether they choose to bring a personal vehicle to campus. In fact, less than half of students bring a vehicle to campus, a decision from which everyone benefits – our campus, our community and our environment. With a variety of car-free options readily available, it is easy to access campus and explore Lexington without a personal vehicle.

Parents and students can access information on topics related to parking, permit application, motorist assistance, bicycle parking, bus routes and schedules, and FAQs online at www.uky.edu/pts. Additionally, students can conveniently register for and renew permits, check their license plate number for unpaid citations, and pay and appeal citations online. Check online for hours of operation and for information on satellite locations.

Periodically, Parking and Transportation Services sends vital information on campus parking and transportation to parents and students who subscribe to Parking-e-News and Bicycle e-News, the department’s email newsletters. Stay informed by signing up for Parking-e-News and Bicycle-e-News at: www.uky.edu/pts.
Guest Parking
Family and friends visiting campus during the week may pay to park in the Sports Center Garage (PS #7, near Kirwan-Blanding), in the South Limestone Garage (PS #5, next to Kennedy’s Wildcat Den), or at parking meters. Guests or the students they are visiting may also stop by Parking and Transportation Services, located in the Press Avenue Garage (PS #6), at the corner of Press and Virginia Avenues, to obtain a temporary parking pass. After hours and on weekends, visitors can also park in lots not controlled for permits. A permit control sign at the entrance to each parking lot displays the hours when the lot is being controlled for permits.

Campus Buses and Shuttle Routes
Over 40,000 people come to the University of Kentucky campus each day, and the free campus shuttle system helps them get around campus. All campus buses are equipped with wheelchair lifts, and most have bicycle racks.

All areas of campus are less than a 5 minute walk from a bus stop, providing easy access in either direction so that students and employees arrive at their destinations faster than it would take to walk the same distance. Buses serve stops every 7-10 minutes, with more frequent service during peak arrival times.

When the University is open but classes are not in session, campus transit will continue to operate with a reduced number of buses.

All campus routes – as well as the Red Mile (Lextran 15) service frequently used by the campus community – are viewable real-time on Transloc, UK’s GPS-based bus locating system. You can access Transloc at: http://uky.transloc.com/ and via the free Transloc Rider Android, iPhone and Blackberry apps.

Route and schedule information is available at: www.uky.edu/pts/buses-and-shuttles.

Late Night Bus Service
Buses traverse campus throughout the day, but as night approaches, UK’s bus service becomes increasingly important from a safety perspective. Nighttime campus bus service operates until 5 A.M., Monday through Friday, and until midnight on Sunday. For information about late night bus service options, visit: www.uky.edu/pts/buses-and-shuttles.

Lexington Bus Service
Students ride all Lextran city routes FREE through the BluPass program. This allows students to commute to and from campus, run errands and go shopping. Students simply need to show their Wildcard ID to the bus driver on any of Lextran’s routes. For more information on Lextran routes and schedules, visit: www.lextran.com. For more information on BluPass, visit: www.uky.edu/pts/alternative-transportation_blupass

Football Game Day Parking Relocation
Vehicles parked at Commonwealth Stadium and in the Sports Center Drive Lots must be removed from any stadium parking lot before 7 A.M. on the day of a home football game. No parking is permitted on University Drive after 7 A.M. on days of home football games. Failure to move any vehicle from the stadium parking lots could result in a citation and impoundment at the owner's expense.

Vehicles may be moved to most E lots after 3:30 P.M. on Friday and should be returned to Commonwealth Stadium by 5 A.M. on Monday. For specific lot relocation information, refer to the Football Game Day Parking map located at: www.uky.edu/pts/parking-info_football-game-day-parking

Campus Shuttle to Blue Grass Airport
Parking and Transportation offers free shuttles to Blue Grass Airport at the start of Thanksgiving, Winter, and Spring Breaks with daily pick-up times of 6 A.M., 8 A.M., 10 A.M., noon, 2 P.M., 4 P.M. and 6 P.M. Students must make their own arrangements back to campus at the conclusion of the break. For more information, visit: www.uky.edu/pts

Motorcycles, Mopeds and Scooters on Campus
Students riding scooters, mopeds and motorcycles are required to obtain a parking permit from Parking and Transportation Services and to utilize the motorcycle parking areas on campus. These areas are conveniently located throughout campus and are marked by the presence of signage, green lines or both. There are also moped-only parking racks located behind Memorial Hall and between Funkhouser and ASTECC.

Students are not authorized to park scooters, motorcycle and mopeds at bicycle racks or in any area not listed above. This policy is designed to encourage safe operating and parking procedures for these vehicles and free up bicycle parking areas for bicycle-only parking.

Additionally, students are not permitted to operate scooters, motorcycles and mopeds on sidewalks, bike paths or lawns.

Bicycle Parking and Registration
The University of Kentucky recognizes bicycles as vehicles and encourages bicycling as a mode of transportation. In an effort to provide the campus community with a safe, secure, and efficient cycling environment, the University requires bicyclists to observe established regulations for operating and parking bicycles on campus and strongly encourages cyclists to obtain and display a bicycle permit, available at no charge. Visit www.uky.edu/pts for more information.

Bicycles may only be parked at bicycle racks, located at all residence halls, classroom buildings, and throughout campus. This means that bicycles may not be parked on benches, railings, trees or anything other than a bike rack. Parking at locations that are not bike racks poses a number of safety issues, and bikes parked in such a manner may be cited or impounded.

All Lextran and some campus buses are equipped with bicycle racks for your convenience.

Bicycling on Campus and Beyond
Biking as a mode of transportation has a number of advantages: it’s good for you and the environment, saves you money and is often faster than other ways of getting around. The University of Kentucky is committed to educating its community about safe bicycling practices and improving bicycle facilities on campus through the Bicycle Advisory Committee. To learn more about these efforts and about upcoming BAC events, visit: www.uky.edu/pts/BAC

Here is a list of campus and community bike resources to help you get started on two wheels:

- Parking and Transportation Services’ Bike Info: www.uky.edu/pts/alternative-transportation_bicycle-information
- Wildcat Wheels Bike Library: www.sustainability.uky.edu/wwbl
- Campus Bicycle Route Map: http://maps.uky.edu/printablemaps/BicycleMap_11x17.pdf
- Lexington Bicycle Route Map: www.sustainability.uky.edu/transportationresources
- State Bike-Related Traffic Laws: www.lrc.state.ky.us/kar/601/014/020.htm

PTS Ride Home Express
PTS offers an alternative travel option for students and employees in visiting a variety of destinations during academic breaks. The PTS Ride Home Express operates at the start and end of Thanksgiving, Winter and Spring Breaks. For more information, visit: www.uky.edu/pts/buses-and-shuttles_ride-home-express
Living Accommodations

Off-Peak Permits
Parking on campus does require a valid University permit until 7:30 P.M. in most instances. However, as a rule of thumb, any valid permit can be used in most Employee (E) lots after 3:30 P.M. Refer to the permit control sign at the entrance to each parking lot for specifics. Students who choose to operate a vehicle on campus during evening hours as a safety measure, and don’t have another valid University parking permit, may consider the off-peak parking permit as an option. This permit is offered at a reduced rate compared to other student permits, and is valid in most campus lots after 3:30 P.M.

Motorist Assistance
Parking and Transportation Services has developed a motorist assistance program for students and employees who have valid parking permits, which includes free on-campus battery jump-start service 24 hours a day, seven days a week. Additionally, the University offers other motorist assistance services at a discounted rate to valid UK parking permit holders. For more information, visit: www.uky.edu/pts/help-and-resources_motorist-assistance

Otis A. Singletary Center for the Arts
Located on the corner of Rose Street and Euclid Avenue, the Singletary Center for the Arts serves as the primary performance facility for the University, as well as for many community and regional events. The Center includes a 1500-seat Concert Hall and a 400-seat Recital Hall, both designed for acoustical excellence. The Singletary Center opened in the fall of 1979 and has hosted an average of 400 events annually, with 123,000 patrons attending each year. In addition to presenting almost 175 annual performances by the School of Music faculty and students.

The Singletary Center is also the primary performance venue of the community arts organizations, such as the Lexington Philharmonic Orchestra, the Central Kentucky Youth Orchestra, and the Chamber Music Society of Central Kentucky. In addition, the Center houses the Gallery at the President’s Room, which showcases regional, local, and student art exhibits. Admission to the Gallery is free.

The Center offers discounts and/or free admission to numerous programs for students, faculty and staff with a valid UK ID. For more information, visit online at: www.singletarycenter.com. For ticket information, call the Singletary Center Ticket Office at (859) 257-4929. The ticket office is open 10 A.M. to 5 p.m. Monday through Friday, and 12 p.m. to 5 p.m. on Saturday if there is a ticketed performance.

Singletary Signature Series
The Singletary Center for the Arts at the College of Fine Arts presents and hosts artistic, cultural and educational events for the University community, Lexington community and the Commonwealth of Kentucky. The Singletary Signature Series offers audiences the highest standards of artistic excellence usually found in major metropolitan art centers. Each year, the series features international and national acts ranging from jazz to rock, dance to opera, and classical to modern.

Past performers include Trombone Shorty, Denyce Graves, Savion Glover, Mark O’Connor, the B-52s, Chris Isaak, Itzhak Perlman, Boyz II Men, WYnton Marsalis and Emmylou Harris.

Don’t miss the opportunity to see some of the world’s best performers right here on UK’s campus. Ticket prices are based on seating location.

For more information about the Singletary Signature Series and other concerts at the Singletary Center, call (859) 257-4929; or check out the web site at: www.singletarycenter.com

Theatre and Dance
The UK Department of Theatre and Dance at the College of Fine Arts produces a dynamic variety of performances each season, inspired by its dedication to artistic excellence and professionalism. Housed in the historic Guignol Theatre on Rose Street, season repertoire features innovative reinvention of classics, original work developed by students and faculty, and new plays by emerging voices in the American Theatre. Additionally, the department presents an annual dance concert featuring dance minors and a musical theatre production featuring exceptional students in the Musical Theatre Certificate. All performances are open to the Lexington as well as the UK campus community. For more information on auditions and other theatre activities, visit: finearts.uky.edu/theatre

UK School of Music Concerts
The School of Music at the College of Fine Arts presents a variety of recitals and concerts throughout the year by faculty and students. Student organizations include the Symphony Orchestra, the Wind Symphony, the Concert Band, the Choristers and Chorale, the UK Jazz Ensemble, the Percussion Ensemble, the Trombone Choir, Men’s Chorus, Women’s Choir, Opera Theatre, and acoustic vocal groups Paws and Listen and the AcoUSTiKats.

Faculty recitals, faculty ensemble concerts, and concerts by student organizations are usually free to students, faculty, staff, and to the community. For a complete listing, visit: finearts.uky.edu/music

Chamber Music Society of Central Kentucky
The Chamber Music Society of Central Kentucky offers a series of concerts featuring outstanding chamber music ensembles of national and international reputation. Most performances are held on campus at the Singletary Center for the Arts. Tickets are available individually or by subscription. For ticket information, call (859) 257-4929.

Lexington Philharmonic Orchestra
The Lexington Philharmonic Orchestra is conducted by Scott Terrell and performs regularly in the Concert Hall of the Singletary Center for the Arts. The orchestra plays a varied repertoire and features outstanding guest soloists at each concert. Tickets are available individually or by subscription. For ticket information, call (859) 233-4226.

Martin Luther King Jr. Cultural Center
Established on the University of Kentucky campus in 1987 as the Martin Luther King Jr. Cultural Center, this much-visited campus venue has been a vital resource, providing year-round programs and activities that have focused on the importance of cultural awareness and cross-cultural understanding. The center offers a relaxed and affirming atmosphere that enhances the recruitment and retention of students from diverse backgrounds. Now in its third decade of operation, the center has evolved into an education resource facility where all students, as well as faculty and staff of the university can engage each other through cross-cultural exploration and intellectual exchange.

Increasingly, research has shown a vitally positive link between intercultural engagement and student success. As a result, the King Center has sharpened its focus on diversity education and increased its support of the academic enterprise. In addition to cultural/educational programs consisting of lectures, concerts, artistic performances, film/video screenings and workshops, faculty involvement in the center has increased through the establishment of the Scholar-in-Residence (SiR). During his/her two-year assignment, the faculty SiR helps to situate many center programs and activities within the academic/intellectual realm, and engages students, faculty and staff in meaningful exploration and intellectual discourse. Check the King Center website for programs and scheduling details at: www.uky.edu/MLKC/

Mission
The mission of the King Center is threefold: (1) to advance the university’s strategic goal of achieving a more diverse and inclusive campus environment, (2) to support increased retention of undergraduate students who are generally underrepresented in the student body, and (3) to enhance student achievement by helping students to have a more engaged, productive and fulfilling undergraduate experience. To these ends, our goals are to foster intercultural competence, promote respect and passion for the pursuit of quality education, and to help prepare students for productive and responsible engagement in a global society.
Values

It is a truism that education transcends the traditional classroom setting and takes place whenever and wherever individuals engage each other sincerely and open-mindedly in earnest pursuit of knowledge and deeper understanding. King Center programs and activities support this educational process through embrace of certain values, which include the following.

- **Truth and Integrity**: We seek truth and promote honesty and integrity in every manner of engagement, in information we disseminate, and in daily interactions.
- **Creativity and Resourcefulness**: We search continually for fresh ideas and innovative ways of designing and implementing programs, and in making full and productive use of valuable resources.
- **Respect and Acceptance**: People of different perspectives, experiences, and world outlook enrich the UK campus and the living/learning experience. King Center programs and activities embrace these differences with respect as we celebrate the enormous diversity of the human experience.

University Art Galleries

The gallery in the Bolivar Art Center, the home of the School of Art and Visual Studies, houses B.A. and B.F.A. senior exhibitions as well as juried shows. The Pence Hall Gallery, under the direction of the College of Design, combines exhibits of architectural interest featuring painting, drawing and sculpture. For more information, visit the School of Art and Visual Studies site at the College of Fine Arts at: finearts.uky.edu/art

The University of Kentucky Art Museum

The University of Kentucky Art Museum is an encyclopedic museum that promotes the understanding and appreciation of visual art from a range of cultures and historical periods. We present significant temporary exhibitions, lectures, and educational programs throughout the year, and selections from our permanent collection of more than 4,800 works are always on view. This includes paintings, sculptures, drawings, photographs, and functional objects by some of the world’s most renowned artists, including Ansel Adams, Milton Avery, Romare Bearden, Alexander Calder, Albrecht Dürer, Louise Nevelson, Pablo Picasso, Robert Rauschenberg, Louis Comfort Tiffany, and Andy Warhol.

The Art Museum is accredited by the American Alliance of Museums. Prearranged group and class tours led by Museum volunteers or staff are encouraged. The Museum offers students training opportunities for work-study and internships as well as a Museum Studies course in partnership with the College of Fine Arts. For more information, visit our Web site at: finearts.uky.edu/Art-Museum. The Art Museum, located in the Singletary Center for the Arts at the corner of Rose Street and Euclid Avenue, is open 10 A.M. to 5 P.M. Tuesday through Thursday; 10 A.M. to 8 P.M. on Friday; and noon to 5 P.M. on Saturday and Sunday. Admission is free. The Museum is closed on Mondays.

William S. Webb Museum of Anthropology

The William S. Webb Museum of Anthropology is the major curation facility for archaeological collections in the state. The Museum was founded in 1931 by William S. Webb, and houses many unique collections recovered from archaeological excavations all across the Commonwealth. Every year we welcome researchers from all parts of the world who come to study, photograph and interpret the material remains representing 12,000 years of Native American life in Kentucky, and the last 200 years or so of the Commonwealth. The museum library contains approximately 9,000 volumes on Kentucky prehistorical and historical archaeology. Researchers are welcome to apply to the Museum for collections access.
Student Services and Activities

DEAN OF STUDENTS OFFICE
The University of Kentucky Dean of Students Office provides both administrative and educational services that support the personal and academic success of students. The office provides extracurricular, non-academic educational programs and also collaborates with academic units to provide support for students in reaching their educational goals.

Office of Student Conduct
The Office of Student Conduct is committed to promoting a safe, healthy, student-centered, and inclusive community where students can learn, grow, and develop. The goals of the student conduct system are to:

- Promote personal responsibility and peer accountability.
- Encourage students to consider the impact of their actions on themselves, their peers, and the greater community.
- Empower students to address any conflict that may arise in a safe, respectful, and socially conscious manner.
- Collaborate with faculty, staff, students, and the campus community with regard to student conduct matters.
- Educate the campus community about student rights and responsibilities related to the University Code of Student Conduct.

The Code of Student Conduct (“the Code”) at the University of Kentucky is established to promote and protect the core mission and values of the University. By maintaining the Code, the University affirms the rights, protections, and expectations of students regarding their behavior as members of the University community. Students enrolled at the University of Kentucky are expected to conduct themselves according to federal, state, and local laws, and promote an educational environment that supports the University’s mission and values. When incidents of potential misconduct occur, students are afforded a fair, educational, and consistent student conduct process. The student conduct process is designed to be a learning experience that facilitates responsible conduct and positive citizenship among the University and greater community.

For further information about the student conduct process, visit: www.uky.edu/studentconduct

Community of Concern
The Community of Concern Team is a part of the University’s commitment to proactively address issues of concern involving our students and/or employees. Our paramount concern is maintaining the safety of all members of the University community. The Community of Concern team seeks to enhance the well-being and safety of the University’s students and employees by:

- providing a centralized point of contact for persons who develop a concern about the welfare of an individual;
- taking appropriate action by referring individuals to the resources that can provide the support/assistance needed to safely maintain successful relationship to the University; and
- providing training and education to the University community.

More information is available on the COC Web site at: www.uky.edu/coc/

Fraternities and Sororities
The University of Kentucky hosts 28 national fraternities and 21 national sororities. The undergraduate members are primarily responsible for operating these groups, with the assistance of a house director, local alumni and University advisors. The advisors are concerned with all areas of fraternity and sorority operations – recruitment, pledging, scholarships, housing, finance, leadership, personal growth and University involvement.

Sororities affiliated with the National Pan-Hellenic Council hold a formal recruitment period the week prior to school opening in the fall. This is followed by open membership selection throughout the year for candidates to fill available vacancies.

Fraternities affiliated with the North American Interfraternity Conference host a recruitment week at the beginning of both the fall and spring semesters. Open recruitment takes place throughout the remainder of the school year.

Sororities and fraternities affiliated with the National Pan-Hellenic Council and United Greek Coalition will announce individually their membership intake process during the semester. Both councils host events each semester to promote membership opportunities.

Sororities and fraternities at the University of Kentucky follow the dictates of The Code of Student Conduct which prohibits student organizations from discriminating against any person due to race, color, or religious affiliation or belief.

The governing bodies for Greek life are the Interfraternity Council, National Pan-Hellenic Council, Panhellenic Council, and United Greek Coalition, comprised of representatives from each group on campus.

The Office of Fraternity and Sorority Affairs is located in 575 Patterson Office Tower. For more information, call (859) 257-3151; or, access the fraternity and sorority Web site at: www.uky.edu/StudentAffairs/Greek

UK Parent and Family Association
The UK Parent and Family Association (UKPFA) believes that student success is enhanced by well-informed parents and families. The UKPFA invites all parents and families of UK undergraduate students to join its membership. Membership benefits include receiving publications such as the Insider’s Guide handbook for families of new UK students and the Cat Chat email newsletter. The UKPFA coordinates events for students and families during K Week and Family Weekend. The Parent and Family Association is coordinated through the Office of New Student and Family Programs. The staff members are happy to assist parents and family members with questions and concerns related to their students and UK. For more information on the Parent and Family Association, including how to join and more detailed membership benefits, visit: www.uky.edu/parents

K Book
The K Book new student handbook eases the transition of new students to the University of Kentucky by addressing topics related to institutional history and traditions, student life, academic life, athletics, campus resources, and life in Lexington. The K Book is distributed to most new students during “see blue.” U Orientation; new students participating in Merit Weekend or starting during either summer term receive theirs by mail. The K Book is written every year by a group of current students, providing a peer perspective on life as a UK student. The K Book is coordinated through the Office of New Student and Family Programs and UK Public Relations and Marketing. For more information on the K Book, visit: www.uky.edu/KBook

Office of Wellness Initiatives for Student Empowerment
The mission of the Office of Wellness Initiatives for Student Empowerment (WISE) is to provide knowledge and information that empower University of Kentucky students and community youth to make safer and healthier lifestyle choices for holistic wellness. Subjects covered include alcohol and drug abuse prevention, financial wellness, hazing prevention, and general wellness. Grounded in the Social-Ecological Model of Prevention and the 9 Dimensions of Wellness, the unit offers a variety of resources and programs that empower students to make responsible decisions and healthy behaviors.

---

47
Student Services and Activities

Two of the office’s most recognized programs are AlcoholEdu and the Student Wellness Ambassadors. AlcoholEdu is an online alcohol education program that is mandatory for all transfer and first-year students who are under 21 years of age and U.S. citizens or residents. Students must complete Part One of this program before arriving to campus.

The Student Wellness Ambassadors (SWA) are peer educators who represent our office’s mission by providing UK students and community youth with various workshops, educational programs, and campus-wide events. Students involved in the SWA also serve as role models of inside- and outside-the-classroom success for aspiring college students. For more information, call (859) 257-9687; or visit: www.uky.edu/Substance

Off-Campus Student Services

The Office of Off-Campus Student Services (OCSS) provides support and services to students who choose not to live in University residential facilities. OCSS creates resources, programs, and solutions that assist off-campus students in developing and maintaining positive connections with the University, the neighborhoods in which they live, and the greater Lexington community.

Primarily, OCSS focuses on:

- **Skill development, student independence, and good citizenship.** Services, resources, and programs promote an understanding of the rights and responsibilities that accompany living and working within the greater Lexington community.

- **Community outreach and partnerships.** The office works as both a student advocate and a University and city liaison in order to improve relations between students and the city, permanent residents in areas where students rent property, landlords, and other parties.

- **Services related to off-campus housing.** The office provides resources to help students make informed decisions about off-campus housing while advocating, promoting, and encouraging attention to life-safety issues.

Religious Affairs

While the University does not directly sponsor religious activities, it both welcomes and supports the diverse religious traditions and organizations on campus. A member of the Dean of Students staff assists religious groups through the Religious Advisors Staff, an organization of campus ministers and religion-based student organizations. Information about the different Religious Advisors Staff groups is available at: www.ukfaith.org. A list of student religious organizations is available at: http://getinvolved.uky.edu/so/findorg

For additional information, contact the University Liaison, Office of Student Involvement, Blazer Hall, (859) 257-3110.

Disability Resource Center

The mission of the Disability Resource Center is to provide and coordinate services that will allow students with disabilities equal access to the University’s educational, social, and cultural opportunities. Services are tailored to meet the needs of individual students based on their specific disabilities and are designed to assist students in developing the skills necessary to advocate for their individual learning and living needs. The services provided through the Disability Resource Center include, but are not limited to, determining needed accommodations, consulting about strategies, coordinating student services, assisting with campus and housing accommodation arrangements, and providing information about other available campus resources that may be of benefit to the student with a disability. The office registers all on campus emotional and medical and chronic health disorders, learning disabilities, attention deficit/hyperactivity disorder (ADHD), communication disorders, and other neurological or psychological disorders (i.e., seizure disorders, migraines, depression or anxiety disorders, brain injuries, etc.). Students with temporary disabilities include those who are recovering from surgery or who are being treated for temporary medical conditions (sprained ankle, broken leg, etc.). All students must provide current documentation of their disability and the need for accommodations before services can be provided.

In order to receive accommodations, students with disabilities are required to self-identify by registering with the Disability Resource Center. Eligibility for accommodations is based on proof of the disability and the need for accommodations. This will usually be in the form of a medical statement or report, or a psychological evaluation, or other related assessment from a qualified professional in the relevant field (such as a medical doctor, psychologist, psychiatrist, etc.). For further information about documentation guidelines, please check our Web site at: www.uky.edu/StudentAffairs/DisabilityResourceCenter/

Students are encouraged to contact the Disability Resource Center to set up an appointment or obtain further information. For additional information, visit online at: www.uky.edu/StudentAffairs/DisabilityResourceCenter/

UNIVERSITY HEALTH SERVICE

University Health Service (UHS) offers confidential, affordable and accessible health care for students. UHS has physicians who are board certified in family practice, internal medicine, emergency medicine, psychiatry, med-peds occupational, and sports medicine. Additionally, our nurse practitioners have certification in family medicine, women’s health, and psychiatry.

Eligibility

The health fee is your ticket to access UK’s University Health Service. The health fee is one of the mandatory fees assessed to full-time students. Part-time and BCTC students may opt into the health fee or be seen on a fee-for-service basis. For details and deadlines, visit: http://ukhealthcare.uky.edu/uhf/

Health Fee vs. Optional Health Coverage Plan

The health fee is not intended to replace health insurance. Students should have health insurance coverage for issues beyond the health fee such as diagnostic testing (X-rays, most laboratory tests), hospitalization, surgical procedures, specialist referrals, and prescriptions.

Student Health Plan

UK offers a school-sponsored student health insurance plan which is customized to work with the care provided by UHS/UK HealthCare and cover the additional items mentioned above.

UK has on-campus insurance coordinators to educate students about the plan and to help students become effective consumers of insurance and health care. For more information, email: StudentHealthPlan@email.uky.edu; or call our insurance coordinator at (859) 218-3208.

Services Covered by the Health Fee

- Unlimited office visits for:
  - Injury or illness
  - Allergy injections
  - Well-patient physical exams
  - Women’s care (gynecology)
  - Observation room care
  - Phone information nurse
  - On-call physician for emergency after hours
  - Limited medications
  - Behavioral Health office visits

Campus Outreach

- Certified health education staff
- Student peer health educators
- Information and resources about nutrition, quitting tobacco and sexual health

Health and Wellness Programs and Events

- Health screenings
- Flu shot clinics
• Love Your Body Week
• Safer Sex Week
• Tobacco Free Tailgate
• National Nutrition Month
• Programs in residence halls, sororities, fraternities and academic classes

Promoting and Achieving Wellness for Students (PAWS)
The PAWS Team includes staff certified health educators and student peer health educators. Its aim is to provide inclusive, innovative, evidence-based health promotion programs and resources that promote optimal physical, mental, and social health.

Student Health Advisory Council (SHAC)
The Student Health Advisory Council is comprised of students who work to improve and promote the quality and delivery of health care for all UK students. SHAC student members study and advise the University Health Service on issues such as the student health fee, insurance, policies, services and health education programs. For more information, email: SHACatUK@gmail.com

Location
Student Health is located in the University Health Service Building at 830 South Limestone, between Kentucky Clinic and the Charles T. Wethington Building.

Hours
When classes are in session, Student Health is open Monday through Friday from 8 A.M. to 6 P.M. and on Saturday from 9 A.M. to 11 A.M. During the summer and on the day prior to and when classes are not in session, we’re open Monday through Friday from 8 A.M. to 4:30 P.M.

Appointments
Appointments are required and can be made online via Link Blue/myUK or by calling the Appointment Line: (859) 323-APPT (2778) or Behavioral Health Clinic (859) 323-5511.

For more information, contact:
General Information – (859) 323-5823
Phone Information Nurse (PIN) – (859) 323-INFO (4636)
On Call (for emergencies) – (859) 323-5321
www.ukhealthcare.edu/uh

CAMPUS RECREATION
The Department of Campus Recreation offers wholesome physical activities and sports programs for students, faculty and staff. Activities include intramural sports, club sports, outdoor pursuits and adventure trips, leisure recreation, and fitness programs.

Bernard Johnson Student Recreation Center
The Bernard Johnson Student Recreation Center is an 87,000 square-foot state-of-the-art facility. The Center has the latest in equipment and amenities. Major spaces include basketball courts, racquetball courts, a fitness center, aerobics studios, a climbing wall and more. All students are encouraged to visit the Center and make positive, healthy use of leisure time.

Lancaster Aquatic Center
Lancaster Aquatic Center is available for recreational swimming during open hours. For information, call (859) 257-7946.

Intramural Sports
The Intramural Sports program provides competition between students at UK. Individual, dual, and team sports events are available. Teams are organized into the following divisions: residence halls, fraternities, sororities, independents, and faculty and staff.

Club Sports
The Club Sports program provides opportunities for UK students, faculty, and staff who desire a more in-depth sports experience than is provided in the Intramural and/or open recreation program. For a list of current club sports, contact the Department of Campus Recreation at (859) 257-3928.

Adventure Trips
The Outdoor Pursuits program offers a variety of adventure trips for UK students, faculty, and staff. The trips vary from day hiking in the beautiful wild regions of Kentucky, to a weekend of whitewater rafting in West Virginia, to snow skiing at one of the regional spots close to Lexington.

For More Information
For more information about recreational programs or facilities, contact the Department of Campus Recreation, 177 Johnson Center, (859) 257-3928. Visit us on the Web at: www.uky.edu/campusrec/

STUDENT CENTER
Having finished the 75th anniversary celebrations in 2014, the Student Center is poised for a bright future! Services provided in the Student Center have been conveniently relocated during the expansion and renovation of the new, highly anticipated, state of the art Student Center, which will become the benchmark worldwide.

For activities, programming and other services, the Cats Den Underground is a premier recreational space located in the lower level of Blazer Hall where students can enjoy video games, TV, wireless laptops and nightly entertainment such as the Comedy Caravan, concerts, trivia nights and recreational tournaments. The Cats Den Underground is equipped with table tennis, billiards, video game stations and a snack bar with free popcorn.

The Late Night Film Series, a student-run cinema, will be showing the latest Hollywood blockbusters every Thursday and student favorites every Friday at 10 P.M. in Memorial Hall free of charge for students, staff, faculty and their guests. The film series also runs specialty movies such as foreign films, documentaries, cult classics and more on select days during the week.

Those interested in being active on campus can visit the Martin Luther King Jr. Center, Center for Student Involvement or Student Government Association offices located on the third floor of Blazer Hall.

Bowman’s Den, located next to the Singletary Center, is your location to purchase a ticket to an upcoming UK event at the Ticket Center, which has full Ticketmaster services. Bowman’s Den also houses the WildCard ID Office, a University of Kentucky Federal Credit Union branch, Plus Account and UK Dining (all retail offerings including Starbucks, Panda Express, Greens to Go, Chick-fil-A, Subway, etc.).

The official UK Bookstore is now conveniently located near Champions Court I & II residence halls on Lexington Ave, behind the Craft Center /Memorial Coliseum. It’s never been easier to order books or grab the latest UK apparel to support the Cats in Memorial Coliseum and campus wide.

The Student Center’s professional and staff staff aims to provide an atmosphere of social and intellectual interaction in an informal setting. There are many opportunities for students to gain experience in management, marketing, customer service, events and public relations through employment with the Student Center.

For more information or to reserve a room, call the Director’s Office at (859) 257-5781 or visit the Student Center Web site at: www.uky.edu/studentcenter

Be sure to stay updated with the Student Center Renovation Project by visiting: www.uky.edu/studentcenter/renovation

STUDENT INVOLVEMENT
The mission of the Office of Student Involvement (OSI) is to inspire students to explore the opportunities at UK through connecting with new people, experiences, and interests in an effort to make a real-world impact. The OSI is comprised of the Center for Community Outreach, Homecoming Coalition, Leadership Exchange, Student Activities Board, Student Government Association, and WRFL. Services also include a ticket office and passport facility. OSI supports over 500 registered student organizations including academic, club sports, cultural, fine arts, hobbies and interests, political, professional, recreational, religious, service. The Office of Student Involvement encourages students to get involved and make the most out of their college experience.
The Office of Student Involvement connects students to their passions and strengths, as well as, providing leadership development that helps students build and enhance the skills employers are looking for. Not only will students build lifelong friendships by getting involved, they also build a better future! For more information about student organizations and campus activities, contact the Office of Student Involvement, third floor of Blazer Hall, (859) 257-8867, follow us on Twitter at: @ukgetinvolved, or visit getinvolved.uky.edu

Center for Community Outreach
The UK Center for Community Outreach (UK CCO) is the largest student-run organization on campus, as well as the university’s volunteer office. By living their motto “Do Good. Start Here.” on a daily basis, the UK CCO organizes strong, direct service events and educational events for both the UK campus and the Lexington community.

Opportunities for community engagement include individual and group projects in the areas of hunger and homelessness, animal welfare, children and education, local empowerment, elderly companionship, global issues, and rural poverty. Service events range from one-day events, like FUSION, the largest one-day service project in Kentucky, to regular volunteering through UK Service Corps, to year-long fundraising efforts through DanceBlue, to two week service-immersion experiences through UK Alternative Service Breaks. Other programs in the UK CCO include Big Blue Pantry, UK Mountain Cats, National Hunger and Homelessness Awareness Week (NHHAW), Martin Luther King, Jr. Wildcats for Service, Young at Heart, Beyond the Blue, and Promoting Animal Welfare and Services (PAWS). Each program has its own specific social justice issue and extended leadership teams that provide multiple leadership opportunities to students.

Students who are interested in volunteering with the UK CCO can attend the yearly Volunteer Fair, held at the beginning of the fall semester. Or, log on to uky.volunteermatch.org to access volunteer opportunities posted by the UK CCO or other local organizations. Students can also find the UK CCO online at ukcco.org, email volunteer@ukcco.org. Follow us on Twitter and Instagram at @ukcco. Or stop by our office in 361 Blazer Hall between 9 A.M. and 5 P.M.

ACADEMIC OMBUD SERVICES
The Academic Ombud helps resolve academic disputes between students and faculty or administration. When students are unable to resolve grievances or complaints through usual means, the ombud may be able to expedite the process or advise the student about the proper procedures to follow. Problems include, but are not limited to, admission/registration problems, violation of students’ academic rights, unfair teaching and grading practices, and cheating and plagiarism. All cases are held in strict confidence.

The Office of Academic Ombud Services is open from 8 A.M. to 4:30 P.M. and is located in 109 Bradley Hall. For information, questions, or appointments, call (859) 257-3737.

FINANCIAL OMBUD SERVICES
The Financial Ombud provides a neutral and confidential setting for current and prospective students and their parents to discuss difficult or unusual financial problems affecting tuition and fee payment. The Financial Ombud resolves problems, counsels, and makes recommendations and referrals as needed.

The Office of the Financial Ombud Services is open from 8 A.M. to 4:30 P.M. and is located in 6 Funkhouser Building. For information, questions, or appointments, email: financialombud@bsv.uky.edu

ATHLETICS
The University of Kentucky sponsors a total of 22 athletic teams in men’s and women’s sports and is a member of the National Collegiate Athletic Association and the Southeastern Conference. The University fields representative teams in a variety of varsity sports: basketball, football, baseball, tennis, golf, track, cross-country, soccer, swimming, and rifle for men; and basketball, golf, gymnastics, rifle, soccer, swimming, tennis, track, cross-country, softball, and volleyball for women. These various teams provide wholesome entertainment for the student body, faculty, staff, alumni, and general public. Students interested in joining a team should contact the head coach’s office in the sport of interest.

The Athletics Department helps support the band and cheerleaders; provides athletic scholarships for approximately 400 students; and provides grants to the University of Kentucky for academic scholarships and the new Academic Science Building.

For information about tickets to athletic events, visit: www.ukathletics.com

UK INTERNATIONAL CENTER
The University of Kentucky International Center (UKIC) leads internationalization efforts at the University of Kentucky. Associate Provost for Internationalization, Dr. Susan Carvalho, leads UKIC with the support of the International Advisory Council, a group of faculty and administrators representing each of the University’s 16 colleges plus other key academic units. Visit UKIC’s website for more information: www.uky.edu/international

Located in Bradley Hall in the center of UK’s campus, UKIC comprises the following units:

International Partnerships & Research
UKIC serves as a resource center for the University’s vital international linkages by supporting the development of agreements and partnerships with universities, foreign governments, NGOs, and U.S. government agencies abroad; promoting the involvement of UK faculty members, staff, and students in international grants, research, development projects, and related activities; and facilitating access to international funding opportunities. To learn more, visit: www.uky.edu/international/research

UK Education Abroad (EA)
Education Abroad is the University’s comprehensive resource for study abroad, research abroad, intern abroad, teach abroad, service-learning abroad and other educational experiences worldwide. Education Abroad provides academically sound international experiences for all students that promote intercultural competence, disciplinary scholarship, and language acquisition. EA also oversees student exchange programs with partner institutions, facilitates faculty-directed programs and partners with affiliate providers to offer a diverse portfolio of education abroad programs. For more information, call (859) 257-4067; or visit: www.uky.edu/international/educationabroad

International Student and Scholars Services (ISSS)
ISSS provides leadership and expertise in the advising and immigration needs of more than 2000 international students and 500 international faculty, staff and exchange visitors. ISSS also administers university compliance with evolving federal regulations, supports the university and its medical center by managing global student and scholar interactions, and facilitates the well-being of all international students, faculty, staff, and scholars. For additional information, call (859) 323-2121; or visit: www.uky.edu/international/ISSS

International Student Recruitment
In close partnership with Undergraduate Enrollment Management, the Center for English as a Second Language, and the Graduate School, UKIC recruits a growing number of international students to UK each year. UKIC’s International Enrollment Manager, Audra Ryder, attends education fairs around the globe, develops online marketing strategies, works with government sponsored programs, and personally meets with potential students and their families in countries such as India, China, and Oman.
Confucius Institute
Established in 2010, the Confucius Institute at the University of Kentucky is a center for Chinese language, culture, art, and business. A gateway to China for the university and the Commonwealth, the Confucius Institute serves as the conduit for UK’s China initiatives, facilitating a range of China exchange programs across the campus and beyond. In addition, the Institute works to strengthen China Studies within the university, while at the same time providing leadership and support for Chinese language programs in Kentucky’s K-12 classrooms, and forging important community relationships through Chinese cultural outreach to people in the Commonwealth. The Institute was awarded the 2012 and 2014 Confucius Institute of the Year. To learn more, call (859) 257-4523; or visit: www.uky.edu/international/confucius_institute

UK Office of China Initiatives
Under the leadership of Dr. Huajing Maske as its Executive Director, the UK Office of China Initiatives (UKOCI) provides leadership in developing and facilitating connections with China both at the university level and across the Commonwealth. To this end, the UKOCI links China-related opportunities to UK’s strategic plan; provides support to Chinese students and scholars during their time at UK and beyond; assists in advancing research and scholarship about China; maintains and expands UK’s China presence and collaborations; and works with colleges to strategize their recruitment efforts of Chinese students via UK’s partner universities in China. To learn more, visit: www.uky.edu/international/ChinaOffice

Global Health Initiative
UK’s Global Health Initiative is focused on advancing research, educational programs, and service learning for our faculty and students, with the goal of improving the health of people throughout the world and promoting health equity. The Global Health Initiative is directed by Samuel C. Matheny, MD, MPH, Assistant Provost for Global Health Initiatives. To learn more visit: www.uky.edu/international/global_health_program

Under the Global Health Initiative, Shoulder to Shoulder Global is an organization which incorporates other academic and community partners and seeks to improve the health and well-being of impoverished and underserved communities globally. The initial focus of STSG has been in Santo Domingo, Ecuador, with its year-round health clinic. While providing primary care for this community, STSG also works with the community to improve education, public health, access to safe water, and to improve economic opportunities. STSG seeks to provide and promote educational, service and research opportunities for all partners involved. To learn more, visit: www.uky.edu/international/shoulder_to_shoulder

International Health and Security Services (IHSS)
IHSS, the newest unit of the UK International Center, manages UK’s international travel medical insurance and evacuation policy, and oversees risk management issues related to international travel. Working closely with Education Abroad and the UKJC Marketing and Communications Manager, IHSS monitors news outlets and government resources to identify current events and threats that may have implications for the safety and well-being of students on EA programs, and works with EA to ensure that students stay informed. Additionally, IHSS is responsible for outlining the appropriate unit-level and institutional responses to a variety of emergency situations abroad. To learn more visit: ihss.uky.edu

OFFICE FOR INSTITUTIONAL DIVERSITY
The University of Kentucky prepares students for meaningful and responsible engagement within and across diverse communities. Through its own example and engagement, the University strives to improve the climate for diversity throughout Kentucky, a commitment given special importance and emphasis by shared history. The composite effect of work with students in classrooms, residence halls, offices, laboratories, clinics, libraries, and public places should be to enable them to develop a more enlightened worldview; attain a deeper understanding of and commitment to authentic democratic values and social justice; embrace a greater commitment to service and leadership for the common good; exhibit greater cultural knowledge and competence; and facilitate Kentucky’s success in the global economy.

The Office for Institutional Diversity has a primary responsibility to advance the University’s commitment to embracing difference and promoting increased knowledge of diversity and its significance as a fundamental value of the campus community. Of equal importance is its mission to enhance academic support services to help ensure the academic success and personal development of all students, but especially those students from backgrounds that have been historically underrepresented on the University campus.

Martin Luther King Jr. Cultural Center
Established on the University of Kentucky campus in 1987 as the Martin Luther King Jr. Cultural Center, this much-visited campus venue has been a vital resource, providing year-round programs and activities that have focused on the importance of cultural awareness and cross-cultural understanding. The Center offers a relaxed and affirming atmosphere that enhances the recruitment and retention of students from diverse backgrounds. Now in its third decade of operation, the Center has evolved into an education resource facility where all students, as well as faculty and staff of the university can engage each other through cross-cultural exploration and intellectual exchange.

Increasingly, research has shown a vitally positive link between intercultural engagement and student success. As a result, the King Center has sharpened its focus on diversity education and increased its support of the academic enterprise. In addition to cultural/educational programs consisting of lectures, concerts, artistic performances, film/video screenings and workshops, faculty involvement in the center has increased through the establishment of the Scholar-in-Residence (SiR). During his/her two-year assignment, the faculty SiR helps to situate many center programs and activities within the academic/intellectual realm, and engages students, faculty and staff in meaningful exploration and intellectual discourse. Check the King Center website for programs and scheduling details at: www.uky.edu/mlkc

Mission
The mission of the King Center is threefold: (1) to advance the university’s strategic goal of achieving a more diverse and inclusive campus environment, (2) to support increased retention of undergraduate students who are generally underrepresented in the student body, and (3) to enhance student achievement by helping students to have a more engaged, productive and fulfilling undergraduate experience. To these ends, our goals are to foster intercultural competence, promote respect and passion for the pursuit of quality education, and to help prepare students for productive and responsible engagement in a global society.

Values
It is a truism that education transcends the traditional classroom setting and takes place whenever and wherever individuals engage each other sincerely and open-mindedly in earnest pursuit of knowledge and deeper understanding. MLK Center programs and activities support this educational process through embrace of certain values, which include the following:

• Truth and Integrity: We seek truth and promote honesty and integrity in every manner of engagement, in information we disseminate, and in daily interactions.

• Creativity and Resourcefulness: We search continually for fresh ideas and innovative ways of designing and implementing programs, and in making full and productive use of valuable resources.

• Respect and Acceptance: People of different perspectives, experiences, and world outlook enrich the UK campus and the living/learning experience. King Center programs and activities embrace these differences with respect as we celebrate the enormous diversity of the human experience.
Center for Academic Resources and Enrichment Services (CARES)
The Center for Academic Resources and Enrichment Services offers academic support services and enrichment opportunities that enhance the student’s undergraduate experience. The overall program goals are to increase the retention and graduation rates of students traditionally underrepresented in post-secondary education, including African American, Latino, and Native American students and students receiving the William C. Parker Scholarship.

The Center’s services and programs include tutoring, study groups, academic planning and monitoring, career exploration and networking opportunities, personal development workshops, graduate school information and preparation, and the Freshman Summer Program (FSP), a six-week academic enrichment program.

For additional information, call (859) 323-6347 or stop by CARES at 104 McVey Hall. Visit us online at: www.uky.edu/Diversity/CARES/, follow us on Twitter @UK_CARES, or Like Us on Facebook.

Student Support Services
Student Support Services (SSS) is a federally-funded TRIO program designed to provide comprehensive academic support to improve academic performance and increase retention and graduation rates. Participation in SSS requires that a student be a U.S. citizen and at least one of the following: (1) first-generation college—neither parent has a baccalaureate degree; (2) low income—according to federal guidelines; and (3) have a documented disability. When a student has been accepted into the program, all program services are free. Services offered include: individual and group tutoring (in any subject), academic planning, personal counseling, peer mentoring, career counseling, financial aid information, study skills instruction, writing assistance, graduate school preparation, technology assistance, cultural/social activities, and limited computers, calculators, and a small resource library for check-out and on-site use.

Students interested in becoming a part of the SSS program should stop by the office at 6 Alumni Gym to pick up an application; call (859) 257-9797 to request an application be mailed to you, or for additional information; or visit our website at: www.uky.edu/Diversity/SSS/

Health Colleges Institutional Diversity
As part of the network of the Office of Institutional Diversity, this office works towards promoting collaboration among administration, faculty, staff and students in earnest pursuit of UK’s diversity goals. The mission is to sustain and nurture a diverse, caring and inclusive environment for all students to achieve academic excellence. To help accomplish this vital goal, the Health Center Student Diversity Services office serves to facilitate the recruitment, retention and professional development of underrepresented students in the professional healthcare programs of Dentistry, Health Sciences, Medicine, Nursing, Pharmacy and Public Health. Throughout the year, programs, workshops and activities are planned to provide leadership on diversity issues, exposure to professional experiences and academic support to students seeking admission as well as to those already enrolled in a health professions degree. The overall goal is to help students to welcome different points of view and belief systems while examining and refining their own so that they become a more culturally competent healthcare provider.

University of Kentucky Counseling Center: Consultation and Psychological Services
The UK Counseling Center: Consultation and Psychological Services (UKCC) has a staff of trained psychologists and counselors whose primary function is to help UK students with personal concerns, career decision-making, and support for academic success. Individual counseling is available to assist students with concerns such as adjustment to college life, relationship difficulties, career exploration/decision-making, feelings of depression or anxiety, low self-esteem, life transitions, alcohol/substance use, problems in the family, and/ or long-standing behavioral patterns such as procrastination. In addition, counseling groups led by trained therapists are organized each semester and address personal growth issues, interpersonal skills, and a variety of other topics. All discussions are confidential. Individual assessment and inventories related to personality and career interests may be used to aid in self-understanding. Testing is available only upon referral by a Center staff clinician.

The Counseling Center maintains an active outreach program, offering workshops and lectures to students, faculty, staff and community audiences on a variety of college life and mental health topics. The professional staff is also available to faculty, staff and departments for consultations regarding students, personnel or programs. There is no charge for consultations or outreach presentations.

Counseling Center services are available free of charge to students paying for at least six credit hours at the University of Kentucky during the current semester. To be eligible for our services in the summer, you must meet two criteria: be enrolled at UK during the previous spring semester and preregistered for the upcoming fall semester. Additionally, students enrolled for either summer session will be eligible for Center services. Students enrolled in graduate and professional programs at the University of Kentucky are also eligible.

Limitations for Treatment
The Counseling Center offers an initial assessment to all students eligible for services. However, the Counseling Center does not have adequate resources to treat all types of psychological problems. Certain students will require more specialized or comprehensive treatment than we can offer. Those individuals will be referred to other treatment resources following an evaluation.

To access Counseling Center services, students can walk in or call. Walk-in appointments for initial assessments are from 9 A.M. to 3 P.M., Monday through Friday. Students may also call to make an appointment or inquire about services at (859) 257-8701 between 8 A.M. and 4:30 P.M., Monday through Friday. Referral from another campus agency is not necessary. The Counseling Center is located in 106 Frazee Hall, on Administration Drive across South Limestone from Parking Structure #5.

The James W. Stuckert Career Center
The Stuckert Career Center (SCC) is a comprehensive and centralized career center for undergraduate students enrolled at the University of Kentucky. The SCC’s programs are designed to help students, faculty and employers integrate occupational and employment information into educational experiences, extracurricular activities and work. SCC staff members work with students from their first-year experience through degree completion and beyond, helping them define goals, explore career possibilities, and obtain employment related to their education and interests. The SCC collaborates with Undergraduate Studies and Advising Centers across campus to assist students who need to select or change their major as well as explore career options.

Through individual appointments, drop-in sessions, and group workshops, students are assisted with self-assessment interests, life/work values, personality preference, skills and decision-making styles), career exploration, internships and shadowing experiences, résumé writing, interviewing preparation and practice, job search strategies, networking with potential employers, researching salary information, and preparing for a successful transition from campus to the professional world.

Students are encouraged to explore careers first-hand by participating in employer informational interviews and in shadowing/observational opportunities. These experiences provide ways that students can connect with career professionals to learn more about careers of interest and develop ongoing contacts with professionals in their field of interest.

To participate in field-based experiential learning opportunities for relevant professional experience, students may apply for internships and gain academic credit, or may elect to participate in noncredit positions if employers are in compliance with US labor laws. While working with business organizations, non-profit agencies, or in other settings pertinent to a student’s academic major and career goals, these experiences better prepare students to be more competitive as graduate/professional school applicants and job candidates upon
The James W. Stuckert Career Center is also home to the Katherine Kemper Career Library, a 1,400 square-foot reference area which houses information in electronic and print formats and several computer stations to assist students in their career development and job searches. The SCC offers many career search and career assessment software programs: CandidCareers, CareerShift, Vault, Sigi-3 and InterviewStream. All are available when students register for WildcatCareerLink, the SCC’s Web-based platform for students and alumni seeking 24/7 career services.

The Stuckert Career Center offers employer information sessions and networking receptions throughout the year as students begin speaking internships and full-time, career-related employment. Students registered with WildcatCareerLink, have access to thousands of job/internship opportunities. Students may also apply for interviews on campus with employers. For detailed information about all programs and services visit: www.uky.edu/careercenter/

UK students may schedule an appointment by calling (859) 257-2746. Drop-in hours are available to discuss quick questions with career staff members.

The Office of Undergraduate Research
The Office of Undergraduate Research provides coordination, leadership and support for the many programs at the University of Kentucky designed to promote undergraduate research, scholarship, and creativity. The office is the starting point for any undergraduate student desiring to include mentored research in their undergraduate experience. Our website will familiarize mentors and students alike with the many and varied opportunities provided by the office, and by related programs and activities both on and off campus, focused on undergraduate research and undergraduate student excellence. A prominent service orchestrated by the Office of Undergraduate Research is the pairing of faculty mentors with undergraduate protégés to create a formalized, meaningful research experience across disciplines. Others services and opportunities include:

• Pairing of undergraduate protégés with faculty mentors to create a formalized, meaningful scholarly or research experience
• Research travel funding for students accepted to present at national conferences/meetings
• Summer Research and Creativity Fellowships
• Publication opportunities for undergraduates (Kaleidoscope)
• SPUR, a student organization that promotes undergraduate research and related opportunities to fellow students
• Annual Showcase of Undergraduate Scholars
• Posters-at-the-Capitol (presentation opportunity to State Legislatures)
• Undergraduate Research Abroad Scholarship
• Oswald Research and Creativity Competition
• Buck 4 Brains Program

For more information, contact the Office of Undergraduate Research at (859) 257-0049; visit us at: www.uky.edu/UGResearch; or email us at: ugresearch@uky.edu.

Violence Intervention and Prevention (VIP) Center
The VIP Center provides students, staff, and faculty the tools, support, and opportunities to shape a violence-free campus through the design and delivery of innovative and inclusive programming and services. All students are encouraged to become certified active bystanders by participating in our nationally-recognized Green Dot Training and educational programs, which equip students with the knowledge and skills to create a safe and violence-free culture at UK. The Center also provides support, referrals, resources, and advocacy for victims of violence and their loved ones. Faculty, staff, and students are invited to contact the VIP Center for additional information or services.

The VIP Center is available Monday through Friday 8:30 A.M. to 5 P.M.

Adult Student Services – Undergraduate Admission
Adult Student Services assists individuals starting or returning to college after several years and current adult students enrolled at the University of Kentucky.

Our goal is to offer programs, scholarships, workshops, advocacy and support to adults. Students with questions can go to the Office of Undergraduate Admission, 100 Funkhouser, or contact the Office using the information below. All scholarship information is available in the Office of Academic Scholarships.

For more information or questions:

Adult Student Services – Undergraduate Admission
100 Funkhouser Building
University of Kentucky
Lexington, KY 40506-0054
(859) 257-2000
Toll-Free: 1-866-900-4685
Fax: (859) 257-9594

TRANSFER CENTER
The Transfer Center serves as a hub of information for the undergraduate transfer student population at UK. The Transfer Center staff collaborates with other on-campus units to provide the necessary resources for successful progress toward graduation. Our motto, “Start There, Finish Here” represents the University of Kentucky’s commitment to helping each transfer student with their transition and goal of earning a UK degree.

Students can utilize the Transfer Center to:

• Discuss transfer course equivalencies prior to admission
• Resolve specific transfer related issues by connecting with a UK staff member
• Discuss transfer planning strategies prior to enrolling at UK

For more information, contact us at:

Transfer Center
11 Funkhouser Building
Lexington, KY 40506-0054
(859) 218-1724
email: UKTransfer@uky.edu
www.uky.edu/Transfer

Hours: Monday - Friday, 8 A.M. to 4:30 P.M.

TRANSCRIPT SERVICES
Before you order a transcript, please read the following:

Financial Holds
If you have a financial delinquency, the University will not process your transcript request until the delinquency has been cleared. If you have a hold, we will notify you and provide the contact information for you to clear the hold.
Ordering Transcripts

The University of Kentucky provides three options for ordering transcripts:

1. Online – By Credit Card
The University of Kentucky uses the National Student Clearinghouse to process online transcript requests. This service is available 24 hours a day, 7 days a week, allows you to track your order, and ensures the security of your information and payment. Please note: if you have attachments that need to be sent with your transcript, email transcripts@uky.edu for further instructions.

To order and pay online, go to www.getmytranscript.com and select “Order College Transcripts”.

2. In Person
You may request transcripts at the Registrar’s Office, 10 Funkhouser Building, Monday through Friday, 8 A.M. to 4:30 P.M. If you attended UK prior to 1988, these requests may take longer to process because your records are on microfilm. For all others, we can normally process your request immediately. Please bring the following with you:

- Picture ID
- $10.00 per transcript, payable by cash, check, money order or credit card
- Please note: the University is closed most holidays and during the break between Christmas and New Years. If you need to request a transcript when the University is closed, you may order online (see #1 above).

Pick Up by Person Other Than Student
The University will not release a transcript to another individual unless we receive a signed statement from the student providing the complete name of the individual who will pick up the transcript. This individual must also bring a picture ID when they come to pick up the transcript.

3. By Mail
To order by mail, go to: www.uky.edu/registrar/sites/www.uky.edu.registrar/files/transcript14.pdf and print the form. Complete the information, sign the request and mail to the address listed on the form. Do not fax the request. Submitting requests without adequate information will cause a delay in processing. Please be sure to include a check or money order made payable to the University of Kentucky for each transcript ordered. The cost is $10.00 per transcript. If you wish to pay by credit card, you may order online (see #1 above).

Special Mailing and Electronic Transcripts
For information and instructions on special mailing options, view the Transcript site at: www.uky.edu/Registrar/Transcripts.htm

We are not responsible for delays in delivery by the Post Office. Prices are subject to change by the USPS.

To Check the Status of a Transcript Request
If you ordered your transcript online, you may track your request online at nsclc.org using the tracking number you received in your confirmation email.

To track a transcript ordered by mail, email: transcripts@uky.edu.

Other Transcripts

Transcripts from the Colleges of Medicine or Dentistry
Transcripts for professional programs in the Colleges of Medicine and Dentistry must be ordered directly from those colleges. For information, see:

College of Medicine:
www.mc.uky.edu/meded/student_affairs/Alumni.asp

College of Dentistry:
www.mc.uky.edu/dentistry/alumni/transreq.html

Community College or Fort Knox Records
Students who have attended any of the Kentucky community colleges (KCTCS) should contact the college they attended, even if the college was part of the University of Kentucky at the time they attended.

The University maintains the academic records for students who attended Northern Community College through 1972. Students who attended after 1972 should contact Northern Kentucky University for their records.

The University maintains the academic records for students who attended Fort Knox through 1988. Students who attended after that time should contact Elizabethtown Community and Technical College.

The mission of academic advisors, both faculty and professional, is to:

**Academic Advising Mission Statement**
The mission of academic advisors, both faculty and professional, is to:

- assist students in taking responsibility for developing meaningful education plans compatible with their potential and their career and life goals;
- help students formulate important questions about the nature and direction of their education and assist them in finding answers to those questions;
- assist students in acquiring accurate and timely information regarding academic policies, procedures, and requirements;
- facilitate the successful transition of prospective, continuing and nontraditional students to the academic and campus environment.

As students progress through their academic programs, their advising needs change. At the University of Kentucky, academic advisors help students meet these changing needs. Faculty advisors are key to understanding the nature of the academic program and how it can address student interests and goals. Professional advisors maintain up-to-date information on university requirements, academic policies, procedures, and deadlines; they also provide guidance for the exploratory student. Support offices such as the Counseling Center, Student Support Services, the Career Center, and the Office for Institutional Diversity can help students refine their academic interests and goals. Students should refer to specific college, school, and departmental advising materials for details on specific advising programs.

**Academic Advising**

**ACADEMIC ADVISING**

Academic advising is an integral part of undergraduate education at the University of Kentucky. The goal of all academic advising is to assist students in taking responsibility for developing meaningful educational plans compatible with their potential and their career and life goals. Advising is more than the imparting of specialized information; it includes helping students formulate important questions about the nature and direction of their education and helping them find answers to those questions. Advisors will confer with students about course schedules and educational experiences, but students themselves are responsible for their academic program and for making progress toward an academic degree.

As students progress through their academic programs, their advising needs change. At the University of Kentucky, academic advisors help students meet these changing needs. Faculty advisors are key to understanding the nature of the academic program and how it can address student interests and goals. Professional advisors maintain up-to-date information on university requirements, academic policies, procedures, and deadlines; they also provide guidance for the exploratory student. Support offices such as the Counseling Center, Student Support Services, the Career Center, and the Office for Institutional Diversity can help students refine their academic interests and goals. Students should refer to specific college, school, and departmental advising materials for details on specific advising programs.

**Undergraduate Studies**

Undergraduate Studies, 109 Miller Hall, provides a home for students who are exploring majors at the University of Kentucky. The professional academic advisors in Undergraduate Studies also contribute to the university’s recruitment efforts, assist students with their transition to the university and between colleges, and provide general academic advising to students from across campus. Undergraduate Studies houses the university’s prelaw and premed advising, Academic Preparation Program advising, National Student Exchange, and transfer student services.

Students may enter Undergraduate Studies because there are many areas that interest them, they are considering a pre-professional field and have not selected an undergraduate major, or they wish to explore their options. Time as an Undergraduate Studies student provides an opportunity to investigate UK’s majors while fulfilling the UK Core requirements. Students can remain in Undergraduate Studies until they have earned 60 credit hours.

Academic advisors in Undergraduate Studies work individually with their assigned students to help them clarify their academic and professional goals, realistically assess their capabilities and options, develop appropriate degree plans, connect with campus resources, and declare a major of interest. Advisors also make referrals to student support services on campus for career interest testing, personal counseling, tutoring, and assistance with study skills. Visit Undergraduate Studies online at [www.uky.edu/US](http://www.uky.edu/US) or call (859) 257-3383.

**Transfer Students**

Students interested in transferring to the University of Kentucky can utilize the services of Undergraduate Studies, which serves as a focal point for information concerning programs, resources, and services available to aid the transfer student’s entry and continued success at the University of Kentucky. Advisors are available to answer questions about the transfer process, discuss course equivalencies, and provide both preadmission and general academic advising. UK’s transfer advisor is housed in Undergraduate Studies and divides her time between Miller Hall on UK’s campus and Bluegrass Community and Technical College’s Transfer Center on the Cooper Campus. Contact Sara Price at (859) 257-4428 at UK; (859) 246-6587 at BCTC; or email TransferAdvising@uky.edu.

Within the advising system at the University of Kentucky, both students and advisors have responsibilities.

**Students are responsible for:**

- **a.** knowing the requirements of their particular academic program; selecting courses that meet those requirements in an appropriate time frame; and monitoring their progress toward graduation;
- **b.** consulting with appropriate advisors designated to handle the kind of questions or concerns they have;
- **c.** scheduling and keeping academic advising appointments in a timely manner throughout their academic career, so as to avoid seeking advising only during busy registration periods; and
- **d.** being prepared for advising sessions.

**Advisors are responsible for:**

- **a.** helping students clarify their options, goals and potential, and understand themselves better;
- **b.** helping students understand the nature and purpose of a college education;
- **c.** providing accurate information about educational options, requirements, policies and procedures; and
- **d.** helping students plan educational programs and monitor and evaluate their educational progress.
National Student Exchange
Students attending the University of Kentucky can also attend one of over 200 colleges and universities in the United States and its territories while paying UK tuition and fees through the National Student Exchange (NSE). Students can visit for an academic year or a semester. Likewise, students attending other participating colleges and universities may visit UK. For more information about NSE, visit www.uky.edu/US/nse.html and contact Sarah Montgomery at (859) 257-3044 or nse@uky.edu.

Major Advising
Students who have declared a major are advised by either a faculty member or professional advisor in their college. These advisors, with their in-depth knowledge of a particular field, can provide guidance toward completing degree requirements as well as information regarding careers and long-term educational goals. It is important for students, as soon as they declare a major, to contact their college and request assignment to an advisor.

Pre-Professional Advising
Pre-Law and Pre-Med are not majors at the University of Kentucky, and preprofessional students may choose any undergraduate major based on their interests and strengths. Undergraduate Studies provides campus-wide advising for both prospective and current students considering professional programs in law, medicine, dentistry, podiatry, and optometry. Students are encouraged to contact Undergraduate Studies, 109 Miller Hall, at (859) 257-3383 to be assigned to a Pre-Law or Pre-Med advisor who will support them throughout their undergraduate career in selecting courses, connecting with curricular and co-curricular opportunities, and applying to professional schools. The College of Arts & Sciences, 202 Patterson Office Tower, (859) 257-8712, also offers preprofessional advising for its students.

Pre-Law Study
While a broad, liberal arts education is generally considered to be an excellent preparation for law school, no fixed, comprehensive prelaw curriculum is prescribed by any American law school. In general, prelaw students should develop rigorous study habits; become skilled in clear and logical communication; and select courses that enhance critical reading, writing, and analytical skills.

Law schools do not require or expect a particular undergraduate degree program. Students are advised to consider majors aligned with their interests, strengths, and potential career choices.

Students also are encouraged to explore the websites of law schools in which they are interested and to familiarize themselves with admissions standards at those schools. Almost all law schools require students to take the Law School Admission Test (LSAT). Additional information is available from the Law School Admission Council, www.lsac.org. Another valuable resource is the current ABA-LSAC Official Guide to ABA-Approved Law Schools, published and prepared by the Law School Admission Council and the American Bar Association. This yearly publication and information on the law and lawyers, Pre-Law preparation, applying to law schools, the study of law, and most American law schools is available at: www.lsac.org.

Students interested in law school should meet with a Pre-Law advisor at least once a year while pursuing their undergraduate curriculum, attend prelaw information sessions, visit the prelaw Web site at www.uky.edu/US/pre-law, and subscribe to the prelaw listserv. For additional information, contact a prelaw advisor at pre-law@uky.edu.

Pre-Medical Study
Students are free to choose any major while pursuing their undergraduate degree and fulfilling Pre-Medical requirements. When selecting a major, students should consider subjects they find interesting and challenging, and those in which they perform best. Medical schools do not require a specific major to enter the professional program, but they do have minimum entrance requirements. Most students accepted to medical school earn a bachelor’s degree while satisfying Pre-Med requirements.

Currently the minimum requirements for medical school are:
- 2 semesters of college English or intensive writing courses
- 2 semesters of biology with labs
- 2 semesters of general chemistry with labs
- 2 semesters of organic chemistry with labs
- 2 semesters of physics with labs

Some medical schools have additional requirements beyond the minimum. Check specific medical schools for admissions requirements.

In addition, students are encouraged to take course work in areas such as anatomy, biochemistry, cell biology, calculus, genetics, histology, immunology, microbiology, physiology, psychology, sociology, and statistics.

Students interested in medical school should meet with a premedical advisor at least once a year while pursuing their undergraduate curriculum, attend Pre-Medical information sessions, visit the Pre-Medical Web site at www.uky.edu/US/pre-med, and subscribe to the Pre-Med listserv. For additional information, contact a Pre-Med advisor at pre-med@uky.edu.

Pre-Dental Study
Students are free to choose any major while pursuing their undergraduate degree and fulfilling preprofessional requirements. When selecting a major, students should consider subjects they find interesting and challenging, and those in which they perform best. Dental schools do not require a specific major to enter the professional program, but they do have minimum entrance requirements. Most students accepted to dental school earn a bachelor’s degree while satisfying preprofessional requirements.

Currently the minimum requirements for entering dental school in the state of Kentucky are:
- 2 semesters of college English or intensive writing courses
- 2 semesters of biology with labs*
- 2 semesters of general chemistry with labs
- 2 semesters of organic chemistry with labs
- 1 semester of physics with labs
- 1 semester of microbiology (required by the University of Kentucky College of Dentistry and recommended by the University of Louisville School of Dentistry)
- 1 semester of Biochemistry (required by the University of Kentucky College of Dentistry and highly recommended by the University of Louisville School of Dentistry)

*The University of Louisville School of Dentistry has additional biology requirements.

Other dental schools in the country may have different prerequisite courses. Check specific dental schools for admissions requirements.

In addition, students are encouraged to take course work in areas such as anatomy, biochemistry, cell biology, calculus, genetics, histology, immunology, physiology, psychology, and statistics.

Students interested in dental school should meet with a Pre-Dental advisor at least once a year while pursuing their undergraduate curriculum, attend Pre-Dental information sessions, visit the Pre-Dental Web site at www.uky.edu/US/pre-dent, and subscribe to the Pre-Dent listserv.

Pre-Optometry Study
Students are free to choose any major while pursuing their undergraduate degree and fulfilling Pre-Optometry requirements. When selecting a major, students should consider subjects they find interesting and challenging, and those in which they perform best. Optometry schools do not require a specific major to enter the professional program, but they do have minimum entrance requirements. Most students accepted to optometry school earn a bachelor’s degree while satisfying Pre-Optometry requirements.
Although the Commonwealth of Kentucky does not have an optometry school, contract seats are available to legal Kentuckian residents at the University of Alabama, Indiana University, and Southern College of Optometry through the Southern Regional Education Board (SREB). Students accepted for the SREB contract program are exempt from the out-of-state tuition. Students are competitively selected by the optometry school to receive a contract seat. Kentucky residency and acceptance into the Doctor of Optometry program does not guarantee a contract seat. Contract availability is subject to change as state legislatures annually review budget expenditures. For the number of contract seats available and more information, contact the specific optometry school.

Pre-Optometry requirements differ but generally include:

- 2 semesters of general chemistry with labs
- 2 semesters of English
- 1 or 2 semesters of mathematics
- 1 or 2 semesters of general biology or zoology with labs
- 1 semester of microbiology with lab
- 2 semesters of general physics with labs
- 1 or 2 semesters of organic chemistry
- 2 semesters of statistics
- 1 or 2 semesters of psychology

Some schools may also require biochemistry, anatomy, and physiology. Check individual optometry schools for specific course requirements.

Students interested in optometry school should meet with a Pre-Optometry advisor at least once a year while pursuing their undergraduate curriculum, attend Pre-Optometry information sessions, visit the Pre-Optometry Web site at www.uky.edu/US/pre-op, and subscribe to the Pre-Med listserv.

**Prepharmacy Study**

In spring 2014 the UK College of Pharmacy revised its prerequisite courses for first-time freshmen entering college in fall 2014 or after. The equivalent of two years (70 semester credit hours) of college-level liberal arts and basic sciences is the minimum requirement for admission to the professional program. The minimum course requirements for admission to UK’s College of Pharmacy are:

- 2 semesters of English*
- 1 semester of introductory biology (with laboratory) (BIO 148) and (BIO 155)
- 1 semester of microbiology (with laboratory) (BIO 208 or BIO 308) and (BIO 209)
- 1 semester of mathematics (Calculus I) or the combination of 1 semester of college algebra and 1 semester of elementary calculus (MA 113 or MA 137) or (MA 109 and MA 123)
- 1 semester of any of the following: principles of microeconomics, principles of macroeconomics, financial accounting, corporate finance (ECO 201, ECO 202, ACC 201, or FIN 300)
- 1 semester of human anatomy (ANA 209)
- 1 semester of elementary physiology (PGY 206)
- 2 semesters of general chemistry (with labs) (CHE 105, CHE 111, CHE 107, CHE 113)
- 2 semesters of organic chemistry (with labs) (CHE 230, CHE 231, CHE 232, CHE 233)
- 1 semester of statistics (BST 330, STA 291 or STA 296)

Students must complete sufficient electives to raise the total hours, including prerequisites, to 70 or more semester hours.

*English requirement for students interested in pharmacy: University of Kentucky students must take courses which satisfy the Composition and Communications I & II requirements. Non-UK students: two semesters of English writing/composition and one semester of basic public speaking will suffice. For questions about this requirement, contact the Prepharmacy Advisor at pharmacyinfo@lsv.uky.edu.

Prepharmacy courses should be completed by the end of the spring semester prior to the desired fall enrollment, with at least one semester completed in a lecture and lab in organic chemistry, and either anatomy or microbiology by the end of the fall semester prior to the application deadline.

Students are encouraged to take elective courses that satisfy their major requirements. Highly recommended electives include biochemistry, genetics, and physics. Other electives to consider: courses required by major; UK Core courses; PharmD Dual Degree prerequisites (if needed); medical terminology; healthcare-related courses; undergraduate courses in Human Health Sciences (HHS), Public Health (CPH), Clinical Leadership and Management (CLM).

Admission to the college is competitive, based on a holistic review of the application, grade-point average, PCAT scores and interview.

For more information, contact the College of Pharmacy at:

**Pre-Podiatry Study**

Students are free to choose any major while pursuing their undergraduate degree and fulfilling Pre-Podiatry requirements. When selecting a major, students should consider subjects they find interesting and challenging, and those in which they perform best. Podiatry schools do not require a specific major to enter the professional program, but they do have minimum entrance requirements. Most students accepted to podiatry school earn a bachelor’s degree while satisfying prepodiatry requirements.

Currently the minimum requirements for Pre-Podiatry school are:

- 2 semesters of college English or intensive writing courses
- 2 semesters of biology with labs
- 2 semesters of general chemistry with labs
- 2 semesters of organic chemistry with labs
- 2 semesters of physics with labs

In addition, students are encouraged to take course work in areas such as anatomy, biochemistry, cell biology, calculus, genetics, histology, immunology, microbiology, physiology, psychology, and statistics.

Students interested in podiatry school should meet with a Pre-Podiatry advisor at least once a year while pursuing their undergraduate curriculum, attend Pre-Podiatry information sessions, and subscribe to the Pre-Med listserv.

University of Kentucky Libraries offers students academic services across campus. Students may use any library branch location no matter what their college or major. Using their Wildcard student ID and LinkBlue account, students can check out books, access online databases, and do research in the library or anywhere their laptop computer may take them. Knowledgeable staff members are ready to help students find information in person or via email, chat, or phone. For more information, visit: http://libraries.uky.edu/index.php

UK Libraries employs several hundred students each year in a variety of different jobs. No experience is required for most positions, and schedules are flexible. For more information, visit the Student Employment site at: www.uky.edu/HR/studentjobs/

Here are a few services offered at William T. Young Library, as well as many of the branch libraries across campus:
- Late study hours (Young Library is open overnight five days a week).
- Librarians and search tools to find information for papers and projects.
- Study rooms and group study areas.
- Videos to check out or watch in the library.
- Help from the Writing Center and Presentation U (basement of Young Library).
- Access newspapers and periodicals from across the state, nation, and world.
- Work on video and interactive projects in the Media Depot.
- Use computer labs including PCs and Apple computers.
- Starbucks is at Young Library, for all your coffee needs.
- Check out a laptop for use in the library.
Special Academic Programs

THE ACADEMIC COMMON MARKET
The Academic Common Market allows non-resident students to pay in-state tuition rates while studying selected academic programs that are not available in their home states. The list of programs included in the Academic Common Market is revised periodically to reflect the changing needs and offerings of participating states. For more information, visit: www.sreb.org. The 16 states that participate in the Academic Common Market are Alabama, Arkansas, Delaware, Florida, Georgia, Kentucky, Louisiana, Maryland, Mississippi, North Carolina, Oklahoma, South Carolina, Tennessee, Texas, Virginia, and West Virginia. For more information, contact the Academic Common Market Institutional Coordinator, 100 Funkhouser Building, University of Kentucky, Lexington, KY 40506-0054, (859) 257-2356.

ACCELERATED PROGRAMS
The University of Kentucky has a broad policy for accelerated programs. Among the opportunities available are special programs for high school students and a variety of credit-by-examination programs. Many students use these opportunities to earn degrees in less time. Others prefer to use the time gained to explore areas outside their majors or to do more work in their major fields.

Accelerated Programs for High School Students
High school students interested in earning college credit while still in high school should inquire about admission before graduating from high school. The High School Exceptional Ability program is described in greater detail in the Undergraduate Admission section of this Bulletin.

Credit-by-Examination Programs
UK students may earn degree credit by successfully completing examinations described below.

Advanced Placement Program (AP)
The University of Kentucky recognizes examinations of the College Board Advanced Placement Program offered by high schools throughout the nation. Currently, UK ranks among the top 100 schools in the U.S. for receipt of AP test score results. A high school senior who wishes to have AP scores evaluated for academic credit or placement should have the results sent to the Office of Undergraduate Admission and University Registrar. UK’s code is 1837.

Students who receive Advanced Placement credit for a course may apply this credit the same way credit earned by passing a course is applied. UK does not recognize College Board SAT II Subject Tests for placement or credit purposes.

Academic departments have designated the current policy (see chart on pages 69-71) for students who score 3 or higher on the Advanced Placement examinations.

Please note that the University of Kentucky awards Advanced Placement credit based on the score of the exam that is in effect during the academic year that the student enrolls in UK. Students should refer to the AP chart in the Bulletin they received when they were admitted for the appropriate score.

UK does not award duplicate credit in the event that a student repeats an exam or if the credit awarded is the same for two or more exams. In the event a student takes the same exam more than once, credit is awarded for the best score only.

For more information on UK’s Advanced Placement policy, contact:
Office of Undergraduate Admission and University Registrar
100 W. D. Funkhouser Building
University of Kentucky
Lexington, KY 40506-0054
(859) 257-2000

College Level Examination Program (CLEP)
UK participates in the national testing program of The College Board. CLEP Examinations cover specific material common to courses at many universities.

Credit for University courses is awarded to students who obtain the listed scores on the appropriate Examinations, as listed in the “Policy Guide for CLEP Examinations” on pages 72-73.

The Registrar’s Office is responsible for all official posting of credit to a student’s record. For information regarding the CLEP program and posting of credit, contact the Registrar’s Office at (859) 257-7157. For information on CLEP exams in general, visit the College Board website at: www.collegeboard.com/clep/

International Baccalaureate Program (IB)
The University of Kentucky recognizes course credit earned through the International Baccalaureate (IB) Program offered by high schools throughout the world.

Generally, course credit is awarded for scores of 5, 6, or 7 on either the Standard Level exam or the Higher Level exam. Please refer to the chart on pages 74-75 for the actual course credit policy in each subject.

Any student desiring credit must request an IB transcript to be sent to the University. Course credit awarded through the IB program will apply toward degree requirements just as if the course had been taken on campus, except that there will not be a specific letter grade associated with the course. Instead, a designation of CR – credit – will be awarded and the grade-point average will not be affected.

In some cases, as noted on the chart on pages 74-75, additional curriculum information must be supplied by the student’s high school before credit will be awarded.

For more information, contact the Registrar’s Office at (859) 257-7157. For information on the IB Program in general, visit the IB website at: www.ibo.org

Special Departmental Examinations
Undergraduate students requesting a special examination must apply in writing to the chairperson of the department that offers the course. Graduate students should apply to the director of graduate studies in the department offering the course. Applicants should include evidence that they are reasonably prepared for the examination.

These examinations are prepared and administered by the offering department, and are usually equivalent to a final examination. Students must be enrolled in good standing at UK. The examinations are offered without charge.

Almost any course offered at the University is available for credit by special examination, regardless of whether a student has audited the course, is currently enrolled in it, or has studied it independently. Please note, most elementary and intermediate foreign language courses are not available on the basis of a special examination.

More information about special examination credit appears in the Academic Requirements section of this Bulletin.
EGR 198: Project Lead The Way.
Credit: 1.0-6.0 (variable)

This course will be graded on a pass/fail basis.
This course grants college credit to Project Lead the Way Pathway to Engineering graduates from PLTW Certified high schools. University of Kentucky Engineering students may earn one college credit for each of the PLTW Pathway to Engineering courses [IED, POE, DE, CIM, CSE, CEA, ES, AE] completed while enrolled in secondary school(s), up to a maximum of six UK College of Engineering credits. These three of these credits maybe used in approved engineering majors as support electives. Additional credits past three can be used to fulfill free electives in approved engineering majors.

Criteria to obtain the credit include:

- Graduation from a PLTW Certified secondary school
- Completing each PLTW course with an average of B
- Scoring in the 6th Stanine or above on the End-of-Course (EOC) PLTW exam
- Enrolling in the UK College of Engineering
- Paying any designated University of Kentucky tuition and fees

Process to obtain the credit:

- PLTW Affiliate Director receives documentation for request for credit from engineering student
- PLTW Teacher, Administrator, or Counselor submits required data to the PLTW Affiliate Director
- On approval Affiliate Director sends information to student on number of credits received
- Engineering student enrolls in appropriate EGR 198 course to receive credit during the semester

Prereq: Enrollment in the College of Engineering.

National College Credit Recommendation Service (NCCRS)

Students may be eligible to receive credit for extra-institutional learning. The American Council on Education through its National College Credit Recommendation Service (NCCRS) has evaluated over 2,000 courses sponsored by over 140 corporations, organizations, and agencies drawn from business, industry, and government. On the basis of the NCCRS evaluations, the University has established guidelines for awarding credit for college-level courses. The University recognizes these recommendations as appropriate credit for meeting degree requirements.

The University’s colleges and departments determine the amount of credit that will apply to a student’s curriculum.

Information on the NCCRS appears in The National Guide to Educational Credit for Training Programs. For more information, contact the Office of Undergraduate Admission.

Evaluation of Military Credit

Military Credit is awarded following the procedures below:

I. Procedures

A. The student must submit a letter requesting evaluation, along with the necessary supportive documentation, to the Office of Admission.

B. The letter should specify the types of educational experiences the student wishes to have evaluated.
   1. Military Schools should be listed by:
      Name of school
      Location
      Name of course

   2. Military Occupational Specialties (MOS) should be listed by:
      MOS Title
      MOS evaluation score and date of evaluation
      Period of time MOS was held as a primary duty assignment
      How MOS was awarded (School Attendance, OJT, etc.)

II. Documentation

A. Official documentation is necessary to support the awarding of any credit based on military service. The supportive documentation required is as follows:
   1. Computerized transcript from the Army/American Council on Education Registry (request forms are available in the Office of Undergraduate Admission)
   2. Copies of Course Completion Certificates
   3. Enlisted Evaluation Data Report reflecting competency in any MOS submitted for evaluation
   4. DD Form 214 (Report of Transfer or Discharge) if no longer on Active Duty

B. Required documentation may be obtained as follows:
   1. Active Duty Personnel: Custodian of individual’s personnel records, Military installation to which assigned
   2. Retired Army Personnel or Reserve Personnel: US Army Reserve Component & Administration Center (TAGO) 9700 Page Boulevard, St. Louis, Missouri 63132
   3. Discharged Personnel (Veterans): General Services Administration National Personnel Records Center (Military Personnel Records) 9700 Page Boulevard St. Louis, Missouri 63132
   4. Discharged Personnel Now Members of Army National Guard: National Guard unit to which assigned

III. Awarding of Credit

Credit is evaluated using the ACE Guide for evaluation of military credit (Army, Navy, Air Force, Coast Guard). ACE guide recommends hours to be awarded based on the length and content of each course.

Evaluations are typed on appropriate form.

A. Credit will be awarded on the student’s official academic transcript.

B. No credit will be awarded based on a Military Occupational Specialty (MOS) which has not been held as a primary duty assignment for a minimum duration of one (1) year or more.

C. Copies of the Evaluation are forwarded to the college dean’s office and to Student Records Office.

D. One copy of the evaluation is maintained in the Office of Undergraduate Admission and University Registrar.

E. Each college determines how awarded hours may be used in the degree program.
THE CHELLENGREN STUDENT FELLOWS PROGRAM AND THE GAINES FELLOWSHIP PROGRAM

The Chellgren Student Fellows Program is designed to provide experiences for outstanding sophomores at UK. The program offers students opportunities to go beyond classroom instruction in order to help them cultivate extraordinary academic achievement. These programs are explicitly intended to help high-achieving undergraduates attain levels of accomplishment that will enable them to compete successfully for prestigious awards—such as the Rhodes, Marshall, and Truman Scholarships—and gain admittance into the very best graduate and professional programs.

The John R. and Joan B. Gaines Fellowship in the Humanities is awarded to a select number of upper-level students. Gaines Fellows are mentored by UK faculty in a jury project (junior year), then a thesis project (senior year).

THE LEWIS HONORS COLLEGE

The Lewis Honors College at the University of Kentucky offers specialized, interdisciplinary, seminar style classes consisting of 15-20 students, as well as departmental Honors section classes, which accelerate common undergraduate education course offerings such as biology, chemistry, and calculus. The flexibility of the required curriculum in order to earn the Lewis Honors College graduation designation allows students to select classes from a variety of course offerings that best suit his or her individual interests and needs. Lewis Honors College students satisfy six credit hours of required Lewis Honors College experiences through opportunities like service learning, education abroad, and/or internship programs. Students complete their Lewis Honors College curriculum through engagement in a capstone project, the guidelines for which are inclusive of most major course work, but require preapproval by the program.

Lewis Honors College participation at the University of Kentucky allows students priority registration, dedicated advising, and access to the Lewis Honors College Living Learning Community. The class discussions demand active participation and involvement, and are led by full-time faculty members. The Lewis Honors College encourages students’ interest in other divisions of excellence such as the Chellgren Center for Undergraduate Excellence and the Gaines Center for the Humanities, among others. The Lewis Honors College typically looks for a 28 ACT (1270 SAT) and at least a 3.5 GPA from applicants; however, it primarily identifies self-motivated, eager students through the essay question responses, class rigor, and extracurricular participation.

THE UNIVERSITY SCHOLARS PROGRAM

The University Scholars program offers students the opportunity and challenge of integrating their undergraduate and graduate or professional courses of study into a single, continuous program leading to both a baccalaureate and master’s degree. The student’s particular requirements will determine the amount of time needed to complete the program; however, the program can normally be completed in less time than that required in a conventional program.

Admission to the Program

Applicants for the University Scholars program must meet the following admissions requirements:

1. The applicant must have senior standing (completed at least 90 hours of course work) and have completed all UK Core requirements.
2. Students should apply at the end of their junior year.
3. The master’s program should be in the field of the undergraduate major.
4. Applicants must have an undergraduate grade-point average of 3.5 or above in their major field and 3.2 or above overall.
5. Follow the current application procedures for the Graduate School, subject to the above conditions. Admission decisions will be made by the Graduate Dean or his/her appointee.

Degree Requirements and Curriculum

Students in the University Scholars program must meet these requirements:

1. The total number of credit hours completed for the combined program may be twelve (12) fewer than the total required for both the bachelor’s and master’s, or bachelor’s and graduate doctoral degrees. (The requirements for the bachelor’s degree are unchanged.)
2. Students should take no more than 16 credit hours per semester, unless they have express permission from the appropriate director of graduate studies and the Dean of The Graduate School.
3. Students must complete at least 36 hours of graduate level courses in the combined program, 15 credit hours of which must be in the 600 level or above for a Plan B master’s degree. Students pursuing Plan A must complete at least 30 hours of graduate level courses in the combined program of which 12 credit hours must be at the 600 level or above. (Consult The Graduate School Bulletin for detailed information concerning Plan A and Plan B for master’s degrees.)
4. Students must have an undergraduate and a graduate advisor. A jointly planned program must be prepared for each student.
5. In order to participate in the University Scholars program, a department must submit to The Graduate School a plan and illustrative examples of typical programs.

DONOVAN SCHOLARS PROGRAM AND Osher Lifelong Learning Institute at UK

The University of Kentucky has a long-standing interest in individuals of or nearing retirement age. In 1962, the Board of Trustees established the Council on Aging to serve as the focal point for programs for older persons. The Council is an integral part of the College of Public Health.

The Herman L. Donovan Fellowship for Older Adults

The Donovan Fellowship, named in honor of the late Herman L. Donovan, University President from 1941-1956, is open to persons who are 65 years of age or older who live in Kentucky. Tuition is waived for Donovan Fellows. Students may work toward an undergraduate or graduate degree, audit classes for the joy of learning, or take individual courses for credit. The program is available at the Lexington campus. Fellows are responsible for books, supplies, parking and applicable taxes. Due to space limitations, classes rarely are available for instruction in music and voice. All state-supported institutions of higher learning in Kentucky offer tuition-free classes for persons 65 years of age or older.

For more information, contact Sharye Davis at (859) 257-2657; or email: Sharye.Davis@uky.edu.

Osher Lifelong Learning Institute (OLLI) at UK, Lexington and Morehead

Members of the OLLI at UK participate in intellectual, social, and cultural programs which characterize the university setting. Educational and enrichment courses and events are offered for adults 50 years of age and older at each of our locations in Lexington and Morehead. Learning opportunities are held in community locations and are offered in a variety of formats including: weekly courses, one day intensives, lecture series and shared interest groups. Courses are taught in the following topics: history and government, culture and travel, languages, literature and writing, health and wellness, science and environment, and the visual and performing arts. The annual membership fee is $25; course fees vary.
For more information, contact the OLLI at UK at (859) 257-2656; toll free at (866) 602-5862; or email: Teresa.Hager@uky.edu

ACADEMIC PREPARATION AND PLACEMENT PROGRAM

The UK Academic Preparation and Placement (APP) program is designed to identify student needs and provide resources tailored to support students’ academic success at UK.

Placement Testing
Placement testing at UK is offered FREE of charge for all admitted students.

Math
Placement testing in mathematics is required for all students with ACT Math under 30 (SAT Math under 440/GED Math under 165). The University of Kentucky uses the ALEKS math placement test to ensure students’ proper course enrollment in mathematics courses to meet UK Core and to prepare for their major program of study.

English
UK Placement tests in Reading and Writing are also available to assess students’ skills in these areas and assist advisors in recommending courses. Placement testing in reading and writing is not required.

English as a Second Language
UK Placement tests in Reading, Writing, Speaking, and Listening are available for international students who have an ACT math sub-score below 19 (SAT math below 460) and an ALEKS score below 30 will be automatically registered in UK095 APP for Quantitative Reasoning or UK096 APP for College Algebra at the recommendation of their college advisor. This transitional course is designed as self-paced supplemental instruction for students to master math concepts. Students work directly with a math learning specialist and peer educator in a classroom setting twice a week with an additional open drop-in lab to complete required hours of out-of-class work. Students may continue working in UK095 for as long as needed until students complete mastery of the required topics to place into credit bearing college math courses (an additional ALEKS placement test is required prior to placement in credit bearing UK math courses).

UK120 APP Reading
Students who have an ACT reading sub-score below 20 (SAT critical reading below 470) will be automatically registered in UK120 APP for Reading. (A Reading Placement exam is available for students who wish to test out of UK120. Students may register for a testing session by visiting www.uky.edu/AE/ and clicking on ‘Placement Testing’). UK120 is a proactive co-requisite course designed to enhance students’ mastery of critical college reading concepts and strategies while including multiple points of intervention and access to resources in support of students’ regular course work in the UK Core. UK120 is a one-credit course that meets once a week with additional open drop-in hours for academic coaching. Trained learning specialists guide the workshops in support of academic success and are available for inside and outside of classroom support.

UK130 APP Writing Workshop
Students who have an ACT English sub-score below 18 (SAT writing below 430) will be automatically registered in UK130 APP Writing Workshop. (A Writing Placement exam is available for students who wish to test out of UK130 and be eligible in their first semester for WRD/CIS110). Students may register for a testing session by visiting www.uky.edu/AE/ and clicking on ‘Placement Testing’). This transitional writing workshop is designed to coach students to master critical college analytical writing concepts while including multiple points of intervention and access to resources in support of students’ regular course work. Workshops are held twice a week and earn one hour of academic credit. Trained learning specialists guide the workshops in support of academic success and are available for inside and outside of classroom support.

UK095 APP for Quantitative Reasoning & UK096 APP for College Algebra
Students who have an ACT math sub-score below 19 (SAT math below 460) and an ALEKS score below 30 will be automatically registered in UK095 APP for Quantitative Reasoning or UK096 APP for College Algebra at the recommendation of their college advisor. This transitional course is designed as self-paced supplemental instruction for students to master math concepts. Students work directly with a math learning specialist and peer educator in a classroom setting twice a week with an additional open drop-in lab to complete required hours of out-of-class work. Students may continue working in UK095 for as long as needed until students complete mastery of the required topics to place into credit bearing college math courses (an additional ALEKS placement test is required prior to placement in credit bearing UK math courses).

CESL100/CESL110/CESL120/CESL130 English Language for International Students
International students who have an ACT reading subscore below 20 (SAT critical reading below 470), or an ACT English subscore below 18 (SAT writing below 430), a TOEFL score below 100, or any TOEFL sub-score below 20, will be automatically registered for English Language Testing upon arrival. Based on the results of those tests, students may be required to enroll in supplemental courses in English, for academic credit, to be taken during their first year as fully enrolled students. Completion of this “ESL APP coursework” may be required before admission to particular academic colleges and/or majors, and additional college specific or major-specific requirements may apply.
### Placement for Composition and Communication Courses

Students entering UK must meet basic skills in the UK Core. The placement information outlined below plays an important role in determining specific options for meeting these requirements. Please carefully read the placement information below to determine which placement exam(s) or other exam(s) you may benefit from taking.

#### UNIVERSITY COMPOSITION AND COMMUNICATION REQUIREMENT

All students must fulfill the University Composition and Communication Requirement. See “Composition and Communication Requirements” in the Graduation Requirements section of this Bulletin for more information.

### CHEMISTRY 105

Proficiency in chemistry and biology are options in the Natural, Physical and Mathematical Sciences requirement of the UK Core. If you plan to major in science, nursing, engineering, or a health profession, chemistry and biology may be important parts of your first year at UK. A strong math background is essential for success in chemistry, and a strong chemistry background is essential for success in biology. The chart below can help you determine what level of science you’re eligible to take.

## Special Academic Programs

### English Literature and Composition
- **Score**: 3 or 4
- **Credit Assembly**: ENG 1--
- **Credit Statement**: 3 credit hours for Departmental Elective Credit at the 100 level with a grade of CR.
- **UK Core Area**: Does not satisfy any portion of the Composition and Communication requirement.

### Environmental Science
- **Score**: 3 - 5
- **Credit Assembly**: EES 110
- **Credit Statement**: 3 credit hours for EES 110 with a grade of CR.
- **UK Core Area**: Natural/Physical/Mathematical Sciences

### European History
- **Score**: 3 - 5
- **Credit Assembly**: HIS 104, 105
- **Credit Statement**: 3 credit hours each for HIS 104, 105 with a grade of CR.
- **UK Core Area**: Humanities; Global Dynamics

### French Language and Culture
- **Score**: 3 - 4
- **Credit Assembly**: FR 202, 214
- **Credit Statement**: 3 credit hours each for FR 202, 214 with a grade of CR.
- **Score**: 5
- **Credit Assembly**: FR 311, 350
- **Credit Statement**: 3 credit hours each for FR 311, 350 with a grade of CR.

### German Language and Culture
- **Score**: 3
- **Credit Assembly**: GER 201
- **Credit Statement**: 3 credit hours for GER 201 with a grade of CR.
- **Score**: 4
- **Credit Assembly**: GER 201, 202
- **Credit Statement**: 3 credit hours each for GER 201, 202 with a grade of CR.
- **Score**: 5
- **Credit Assembly**: GER 201, 202, 307
- **Credit Statement**: 3 credit hours each for GER 201, 202, 307 with a grade of CR.

### Government and Politics, Comparative
- **Score**: 3 - 5
- **Credit Assembly**: PS 210
- **Credit Statement**: 3 credit hours for PS 210 with a grade of CR.
- **UK Core Area**: Global Dynamics

### Government and Politics, U.S.
- **Score**: 3 - 5
- **Credit Assembly**: PS 101
- **Credit Statement**: 3 credit hours for PS 101 with a grade of CR.
- **UK Core Area**: Citizenship—USA

### Human Geography
- **Score**: 3 - 5
- **Credit Assembly**: GEO 172
- **Credit Statement**: 3 credit hours for GEO 172 with a grade of CR.
- **UK Core Area**: Social Sciences

### Italian Language and Culture
- **Score**: 3
- **Credit Assembly**: ITA 201
- **Credit Statement**: 3 credit hours for ITA 201 with a grade of CR.
- **Score**: 4 - 5
- **Credit Assembly**: ITA 201, 202
- **Credit Statement**: 3 credit hours each for ITA 201, 202 with a grade of CR.

### Japanese Language and Culture
- **Score**: 3
- **Credit Assembly**: JPN 201
- **Credit Statement**: 4 credit hours for JPN 201 with a grade of CR.
- **Score**: 4
- **Credit Assembly**: JPN 201, 202
- **Credit Statement**: 4 credit hours each for JPN 201, 202 with a grade of CR.
- **Score**: 5
- **Credit Assembly**: JPN 201, 202, 301
- **Credit Statement**: 4 credit hours each for JPN 201, 202 and 3 credit hours for JPN 301 with a grade of CR.

### Latin – Vergil
- **Score**: 3
- **Credit Assembly**: CLA 101, 102
- **Credit Statement**: 4 credit hours each for CLA 101, 102 with a grade of CR.
- **Score**: 4
- **Credit Assembly**: CLA 201, 202
- **Credit Statement**: 3 credit hours each for CLA 201, 202 with a grade of CR.
- **Score**: 5
- **Credit Assembly**: CLA 201, 202, 302
- **Credit Statement**: 3 credit hours each for CLA 201, 202, 302 with a grade of CR.

*Credit will be replaced with 3 credit hours in the appropriate media course upon successful completion of a portfolio review. Please contact the Director of Undergraduate Studies for the School of Art and Visual Studies to schedule your review.

Note: For history majors, the premajor requirement is met with either SL or HL.
Academic Requirements

Certain conditions concerning the number and level of courses required, the patterns they must follow, the amount of time to be spent as a full-time student, grades and conduct have been established by the University Senate for all University of Kentucky students who are pursuing a degree. Those which relate to academic requirements are listed below. Others will be found in the University Senate Rules, pertinent portions of which are printed in the booklet Student Rights and Responsibilities, which is available to all students through the Dean of Students Office.

STUDENT LOAD

With the exceptions noted below, the maximum load to be carried during any semester by an undergraduate student (including courses taken on an audit basis) shall be 19 credit hours.

The maximum allowable load to be carried during any summer term/session for undergraduate students (including residence or audit courses) shall be 9 credit hours in the eight-week summer session and 4 credits in the four-week term, but under no circumstances no more than 13 credits during the summer term and summer session.

Students may be enrolled in a maximum of nine credit hours of classes meeting concurrently during an eight-week session. For this purpose, a course meeting for a four-week period during the eight-week session must be counted double. Thus a student may enroll in two consecutive four-week (three credit hours) classes plus one eight-week class, or as many as three eight-week (three credit hours) classes. A student would not, however, be able to enroll in two four-week (three credit hour) classes meeting concurrently.

A student may be permitted by the dean of his or her college to carry such extra credit hours as in the dean’s judgment, based upon the student’s past performance, the student can complete successfully.

A student on academic probation shall take no more than fifteen (15) credit hours in a semester, three (3) credit hours in a four-week term, or seven (7) credit hours in a six- or eight-week session. This rule may be waived by written permission from the student’s academic dean or the dean’s designee. The waiver and the rationale for the waiver must be documented in the student’s record maintained by the college.

Students in the combined Bachelor’s/Master’s or Bachelor’s/Graduate Doctoral degree program (University Scholars Program) shall not take more than 16 credit hours per semester. Permission to exceed that number is subject to approval by the Director of Graduate Studies and the Dean of the Graduate School.

The professional colleges and the Graduate School may set lower maximum loads which are consistent with their degree requirements.

The maximum allowable load to be carried during any summer term for graduate students is 9 credit hours in the eight-week summer session and 4 credit hours in the four-week term. The maximum load for graduate students in any combination of the four- and eight-week sessions/terms is 12 credit hours.

A student may be registered simultaneously at the University of Kentucky and at another institution only with the approval of the dean of the college in which the student is registered at the University of Kentucky, the credit hours obtained at the other institution being considered part of the student’s maximum load. If the simultaneous registration has not been authorized, the transfer of credit from the other institution may be denied.

CLASSIFICATION

Any undergraduate student shall be classified by the Registrar as a freshman if fewer than 30 hours have been completed, as a sophomore upon completion of 30 credit hours; as a junior upon completion of 60 credit hours; and as a senior upon completion of 90 credit hours.

A Law student shall be classified as a second-year student upon completion of 24 credit hours and as a third-year student upon completion of 53 credit hours. However, a Law student is not classified as a second-year student until that student has been in residence at least two semesters, nor as a third-year student until that student has been in residence at least three semesters.

A Pharmacy student shall be classified as a second-year student upon completion of 28 credit hours and as a third-year student upon completion of 56 credit hours.

Credit granted by examination is included in determining a student’s classification.

GENERAL GRADING SYSTEM

The general grading system uses a series of letters, to which are assigned grade-point values. The system is based neither on an absolute numerical system nor on a distribution curve, but on the following descriptions:

Grade A represents exceptionally high achievement as a result of aptitude, effort, and intellectual initiative. It is valued at four (4) quality points for each credit hour.

Grade B represents a high achievement as a result of ability and effort. It is valued at three (3) quality points for each credit hour.

Grade C represents satisfactory achievement for undergraduates; represents unsatisfactory achievement for graduate students and is the minimum passing grade for which credit is conferred. It is valued at two (2) quality points for each credit hour.

Grade D represents unsatisfactory achievement for undergraduates and is the minimum grade for which credit is conferred; the grade is not to be used for graduate students. It is valued at one (1) quality point for each credit hour.

Grade E represents unsatisfactory performance and failure in the course. It is valued at zero (0) quality points and zero (0) credit hours. A student receiving this grade can obtain credit in the course only by repeating the entire work of the course in class, or by special examination in accordance with the procedures outlined under Special Examinations. In rare cases in which undue hardship is involved in repeating the work in class, the dean of the college in which the student is enrolled may approve repeating the work by correspondence.

Grade F represents a passing grade in a course taken on a Pass/Fail basis. It may also be assigned by the University Appeals Board in cases involving a violation of student academic rights. Credit hours successfully completed under this grade will count towards graduation but will not be used in calculating grade-point averages.

Grade P represents completion of a course attended on an audit basis. It is valued at zero (0) quality points and zero (0) credit hours.

Grade AU represents a completion of a course attended on an audit basis. It is valued at zero (0) quality points and zero (0) credit hours.

Grade CR is a grade assigned to AP or CLEP scores indicating that credit has been assigned for a course. Credit hours will count towards graduation but will not be used in calculating grade-point averages.
A grade of I must be replaced by a regular final letter grade not later than 12 months from the end of the academic term in which the I grade was awarded or prior to the student’s graduation, whichever occurs first. The Registrar’s Office shall notify the Instructor of Record at least two months prior to expiration of the allowable period. The Instructor of Record can extend the allowable period for up to an additional 12 months by completing a grade assignment form. If the Instructor of Record is not available, the department chair or dean of the college in which the course is offered may complete a grade assignment form to extend the allowable period for up to 12 months. In the event the grade of I is not replaced by a regular final letter grade within the allowable period, the Registrar shall change the I grade to a grade of E on the student’s permanent academic record and adjust the student’s GPA accordingly. In the event that an I becomes an E, the Instructor of Record may submit a grade assignment form to replace the E within 12 months from the time the E was assigned. A graduate who had an I grade on his or her academic record at the time of graduation (and which grade was subsequently changed to an E by the Registrar) may be allowed a maximum of 12 months following the end of the semester, term or session in which the course was taken to satisfactorily complete the course and receive a grade change.

Each department is responsible for recording information for each incomplete, specifying:

1. the student name and student number;
2. the course and section number, hours of credit, semester, year, Instructor of Record;
3. the work to be completed and basis for grading;
4. the time frame for completing the incomplete (not exceeding 12 months); and
5. documentation that the student has been advised of the conditions for removing the incomplete.

This information shall be filed with the department chair or chair’s designee. It is preferable that the information be signed and dated both by the student and the Instructor of Record. A standard form is available at the University Senate Web site, but each department is welcome to create its own form and scheme for recording this information.

The Instructor of Record shall provide a completed copy of this record to the student and the department chair at the time the I grade is reported. The term student in this context excludes only students in the Graduate School and the Colleges of Medicine and Dentistry.

Grade IP represents satisfactory work in progress in courses carrying no academic credit. It is valued at zero (0) quality points and zero (0) credit hours. The grade IP may be recorded for students in zero-credit courses of research, independent work, or seminar-type, if at the end of a semester the student, because of the nature or size of the project, has been unable to complete the course. The project must be substantially continuous in its progress. When the work is completed, a final grade will be substituted for the IP. This grade may not be conferred to a student who has done unsatisfactory work or to one who has failed to do a reasonable amount of work.

Grade N represents a temporary grade to be submitted for students who have been entered by the Registrar into official class rolls but have never attended class and who have not officially withdrawn. The Registrar shall remove their names from the official class roll and the student’s enrollment in the class shall not be recorded in the student’s official academic record. (As a temporary mark, N carries no credit hours or quality points).

Grade S represents a final grade in courses carrying no academic credit or in courses used for residency credit or dissertation/thesis credit. It is valued at zero (0) quality points.

Grade SI represents an interim grade in credit-bearing seminars, independent work courses, or research courses if these courses extend beyond the normal limits of a semester or summer term. This grade signifies that both the quality and quantity of the student’s academic work were satisfactory during the applicable term. All SI grades must be replaced by a regular final letter grade prior to the Qualifying Examination or Final Examination for doctoral students or prior to graduation in all other cases. As a temporary mark, SI carries no credit hours or quality points.

Grade UI represents an interim grade in credit-bearing seminars, independent work courses, or research courses if these courses extend beyond the normal limits of a semester or summer term. This grade signifies that the quality or the quantity of the student’s academic work was unsatisfactory during the applicable term. All UI grades must be replaced by a regular final letter grade prior to the Qualifying Examination or Final Examination for doctoral students or prior to graduation in all other cases. As a temporary mark, UI carries no credit hours or quality points.

Grade UN represents a final grade in courses carrying no academic credit, in graduate residence courses, or as an interim grade in specific types of courses for which a student has done unsatisfactory work or has failed to do a reasonable amount of work. It is valued at zero (0) quality points and zero (0) credit hours.

Grade XE represents failure in a course due to an academic offense. It is valued at zero (0) quality points and zero (0) credit hours. The repeat option may not be exercised for any course in which the grade of XE was received. A grade of XE normally may not be changed to a W by retroactive withdrawal, except upon appeal to the University Appeals Board as prescribed by University Senate Rules.

Grade XF represents failure in a course taken on a Pass/Fail basis due to an academic offense. It is valued at zero (0) quality points and zero (0) credit hours. The repeat option may not be exercised for any course in which the grade of XF was received. A grade of XF may not be changed to a W by retroactive withdrawal, except upon appeal to the University Appeals Board as prescribed by University Senate Rules.

Grade W denotes withdrawal from class. It may be assigned by the University Appeals Board in cases involving a violation of student academic rights. It is valued at zero (0) quality points and zero (0) credit hours.

Grade X. Reenrollment recommended (developmental courses only). It has no value in computing grade point average.

Grade Z. The grade Z means that the student has made significant progress but needs and deserves more time to achieve a passing level. The student should re-enroll in the course in order to continue advancement to a level of competence set for the course. Re-enroll grades may be assigned only for development courses numbered 000-099.

Official Withdrawal from a Course: Any student may withdraw from any class (except for those used to meet the Writing Requirement) during the withdrawal period which is defined as the period prior to and including the:

a. end of the eleventh week for fall or spring semester;
b. third day of the fifth week for eight-week summer session/term;
c. second day of the third week for four-week summer session/term.

Students who withdraw during the first three (3) weeks of the course in the fall or spring semester (or a proportionate amount of time in the summer term/session or other courses of less than a full semester’s duration) shall be removed from the class roll, and no grade or record of enrollment shall appear on the student’s transcript. Such withdrawal is also known as “dropping a course.” Students who withdraw during the remaining portion of the withdrawal period will receive a grade of W which will appear on their transcripts.
A student may withdraw from a class or from the University after the withdrawal period but through the last day of the semester/session/term upon approval by the dean of the student’s college of a petition certifying urgent nonacademic reasons including but not limited to:

- illness or injury of the student;
- serious personal or family problems;
- serious financial difficulties; or
- having excused absences in excess of one-fifth of the class contact hours in a course where attendance is required or is a criterion for a grade.

Before acting on such a petition, the dean will consult with the Instructor of Record of the class. The dean may not delegate the authority to approve or deny a petition to withdraw to the University Registrar or to any other agency external to his or her college. If such a petition is approved by the dean of the student’s college, the dean shall inform in writing the Instructor of Record of the class of his/her action, and the student shall be assigned a grade of W.

**Unilateral removal for failure to attend first two class periods.** Students who miss the first two class periods of a course without notifying the department of their intention to attend may be reported by the department to the dean who shall remove the students from the class roll and notify the Registrar that the student has been removed from the class roll. The Registrar will inform such students that they have been removed. The students will have no record of the class appear on their transcripts.

**Withdrawal to Enter Military Service:** Students who withdraw (and within ten (10) days enter the Armed Services either mandatorily or voluntarily) after completing the twelfth week of the semester, the third week of the four week summer term, or the sixth week of the 8 week summer session, or later, shall be entitled to receive full credit and residence for the course. The grade report shall be that attained in the course up to the time of withdrawal. If, with the credit and residence time granted, the student has fulfilled all requirements for a degree, the student shall be recommended for that degree by the University Senate. If a comprehensive course examination is required for graduation, this requirement shall be waived.

**Retroactive Withdrawal:** Typically, a student may withdraw from a given semester only if the withdrawal is from all classes. A grade of E, XE, or XF assigned as a result of an academic offense may be changed to a W only by a petition to the University Appeals Board and only after a retroactive withdrawal for the semester in which the grade was assigned is granted. The student must demonstrate that the hardships enumerated in the request for the Retroactive Withdrawal also resulted in the academic offense in a manner that the student’s culpability was severely diminished as a result.

Requests for retroactive withdrawals shall be made of the Dean of the college in which the student was enrolled at the time the classes were taken. The complete request shall be made before the student has graduated and not later than two calendar years from the last day of class for the semester for which the withdrawal is requested, unless the Senate Retroactive Withdrawal Appeals Committee votes to waive the two year limit. The fully complete request shall be submitted in writing to the University Senate Retroactive Withdrawal Application that includes a form on which an instructor can offer feedback, along with the documentation required by the University Senate as described on that form. Retroactive withdrawals may be granted only when the student has demonstrated satisfactory evidence that the student has incurred:

- a serious injury or illness;
- serious personal or family problems;
- serious financial difficulties; or
- permanent disability verified by the Disability Resource Center and diagnosed after the semester for which the withdrawal is requested.

**Audit.** Students who register for an audit do so for reasons other than fulfilling explicit requirements. They must come to individual agreements with the instructor as to what responsibilities they will be expected to perform. Normally, students who audit would be expected to do the readings and attend class; they may be required to enter more fully into the class work. In any case, they will receive no credit hours or grades. Any change from audit to credit or credit to audit by a student regularly enrolled in a college must be accomplished within three (3) weeks from the beginning of classes in the fall or spring semester (or a proportionate amount of time in the summer term/session or other courses of less than a full semester’s duration). No credit can be conferred for a class audited nor is a student permitted to take an examination for credit except for the special examinations described on page 78 under “Special Examinations”.

A student who initially enrolls in a class as an auditor must attend at least 80 percent of the classes in the course (excluding excused absences). If a student changes her or his enrollment from credit to audit, s/he must attend at least 80 percent of the remaining classes (excluding excused absences). If an auditor fails to attend the requisite number of classes, the Instructor of Record may request that the Dean of the instructor’s college award a grade of W for that course and the Dean shall report the grade to the Registrar. No instructor is authorized to admit anyone as an auditor to any classes unless the auditor has registered as such.

**Repeat Option**

An undergraduate student has the option to repeat once as many as three different completed courses (including special exams as described on page 82) with the only one being credit hours, and quality points for the second completion used in computing the student’s academic standing and credit for graduation. The limit of three repeat options holds for a student’s entire undergraduate career (including when academic bankruptcy is exercised as described on page 84), no matter how many degrees or programs are attempted. A student may not use the repeat option when retaking a course on a Pass/Fail basis if the course was originally taken for a letter grade.

A student exercising the repeat option must consult the student’s advisor and must notify the Office of the Registrar. A student may exercise the repeat option at any time prior to graduation and must be enrolled at UK. If a student officially withdraws from the second attempt, then the grade, credit hours, and quality points for the first completion constitute the grade in that course for official purposes. Permission to attempt again the same course may only be granted by the Instructor of Record and the dean of the college in which the student is enrolled. (Note: The repeat option cannot be used to raise the student’s standing for admission to the University of Kentucky Graduate School.)

The repeat option may be exercised only the second time a student takes a course for a letter grade, not a subsequent time (excluding audits).

The repeat option shall not be exercised for any course in which the grade of XE or XF was received.

**Pass/Fail Option**

Undergraduate students above the freshman level and not on academic probation may select a maximum of four (4) elective courses, with certain restrictions, to be taken on a Pass/Fail basis. Students in the Lewis Honors College above the freshman level may, with advance written approval of the Director of the Lewis Honors College, select additional elective courses to be taken on a Pass/Fail basis. Credit hours successfully completed under this option shall count toward graduation but shall not be used in calculating GPA.

Courses taken on a Pass/Fail basis (including transfer courses) shall be limited to those considered as elective in the student’s program and such other courses or types of courses as might be specifically approved by the Senate Council for a college or department. Prerequisites for such courses may be waived with the consent of the Instructor of Record. Students are expected to participate fully in these courses and to take all examinations. Any student may change his or her grading option (Pass/Fail to letter grade or letter grade to Pass/Fail; credit to audit or audit to credit within three (3) weeks from the beginning of classes in the fall or spring semester (or a proportionate amount of time in the summer term/session or other courses of less than a full semester’s duration). After such time, a student may not change his or her grading option without the express approval of the student’s academic dean or the dean’s designee. The waiver and the rationale for the waiver must be documented in the student’s record in the college.
 Courses offered only on a Pass/Fail basis shall not be included in the maximum number of elective courses which a student may take under these provisions. The Instructor of Record shall not be notified by the Office of the University Registrar or by another office of the University of those students who are taking the course Pass/Fail. The Instructor of Record shall submit a regular letter grade to the Registrar’s Office which will take the appropriate action to change the grade into Pass/Fail grading track for records. Neither a grade of P nor a grade of F shall be taken into consideration in calculating a student’s GPA, except as described in Senate Rule 5.1.2.1.

Giving a P/F credit for AP tests and for CLEP tests does not mean that students may elect to take a required course for P/F. If the student elects to take the course he or she must get a letter grade to satisfy the UK Core requirements.

**Temporary Notations**

**Course in Progress.** Three dashes (---) appear in a grade report prepared during the term in which the student is enrolled in the course. It is to be replaced by a final grade. The Registrar shall notify all unit or program heads at the end of each semester regarding “Course in Progress” notations (---) in all courses offered by that unit or program. The unit or program head shall have six weeks from the date of notification by the Registrar to assign a grade in the course. If no change is made by the unit or program head, the “Course in Progress” notation (---) will be replaced with a “Missing Grade” notation (**).

**Missing Grades.** Three asterisks (***) appear in a grade report when no grade has been reported to the Registrar. The Registrar shall notify all unit or program heads at the end of each semester or term regarding all “Missing Grade” notations (***) in all courses offered by that unit or program. If a missing grade notation can be replaced with a grade, it should be done as promptly as possible.

**Procedures for Changing Temporary Notations.** The unit or program head will consult, if possible, with the Instructor of Record for the course when assigning a grade. The Registrar shall notify the student at the student’s address of record of any assignment of a grade. Appeals shall be taken to the Academic Ombud.

**Grade-Point Average (GPA)**

GPA is the ratio of the number of quality points gained to the number of credit hours (whether earned or not) in courses for which the grades A, B, C, D, or E were conferred, excluding grades in developmental or remedial courses.

If a student repeats a course in which a grade of B or better has been received, any subsequent grades of B or better and credit hours earned for those courses (if any) shall be ignored in computing the student’s grade-point average, unless the repeat option has been exercised according to Rule 5.3.1.1. A student does not repeat a course within the meaning of this rule if he or she only repeats the same course number where there are multiple topics, subtitles, independent study, or other courses allowed by the student’s program using a common course number.

Credit hours are considered as earned only if a grade of A, B, C, D, P, or S was conferred.

**EXCEPTIONS TO THE GRADING SYSTEM**

**Design and Landscape Architecture**

Students enrolled in courses numbered 800 or higher in the College of Design or the Program in Landscape Architecture in the College of Agriculture, Food and Environment shall be conferred the following grades with the respective quality point values indicated:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Quality Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>4.0</td>
</tr>
<tr>
<td>A-</td>
<td>3.7</td>
</tr>
<tr>
<td>B</td>
<td>3.3</td>
</tr>
<tr>
<td>B-</td>
<td>3.0</td>
</tr>
<tr>
<td>C</td>
<td>2.3</td>
</tr>
<tr>
<td>C-</td>
<td>2.0</td>
</tr>
<tr>
<td>D</td>
<td>1.3</td>
</tr>
<tr>
<td>D-</td>
<td>1.7</td>
</tr>
</tbody>
</table>

The use of the plus-minus system does not change any college or university GPA requirement, nor the method by which GPAs are computed, nor the interpretations of other grades awarded, such as F, I, P, W, and S.

All students enrolled in courses using the plus/minus grading system will have the appropriate point value calculated into their GPA regardless of their college of origin.

For all studio work in the School of Architecture, the minimum passing grade from level to level in the studio sequence shall be a grade of C.

In the Program in Landscape Architecture, students must earn a C grade or better in major design studios in order to advance to the next level in the curriculum.

**College of Dentistry**

An A, B+ or a B is within the expected range of performance. A C is a marginal level of performance. To remain in good academic standing and to graduate, a student must maintain a grade-point average (GPA) of 2.75 or more. Student performance will be reported to the University Registrar’s Office as follows:

- A represents exceptionally high level of performance; four (4) quality points are awarded to each credit hour.
- B+ represents a high level of performance; three and one-half (3.5) quality points are awarded for each credit hour.
- B represents the minimum expected level of performance; three (3) quality points are awarded for each credit hour.
- C represents a marginal level of performance; two (2) quality points are awarded for each credit hour.
- D represents an unacceptable level of performance; zero (0) quality points are awarded for each credit hour.
- F represents a passing grade in courses taken on a Pass/Fail basis. It is not used in GPA calculations.

I – incomplete – course objectives have not been completed during the allotted course time due to circumstances usually beyond the student’s control. An I grade shall be conferred only when there is a reasonable possibility that a passing grade will result when work is completed. An I must be replaced by another grade within 12 months or before graduation, whichever occurs sooner. After this period, an I grade will automatically convert to an E or an F grade as appropriate.

W – withdrawn – this grade will be awarded to a student who withdraws from a course or from the college. It shall be awarded only after recommendation by the Academic Performance Committee and approval by the dean.

**College of Law**

The College of Law uses a special letter grading system in which the following grades are conferred with the respective quality point values indicated:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Quality Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>A+</td>
<td>4.3</td>
</tr>
<tr>
<td>A</td>
<td>4.0</td>
</tr>
<tr>
<td>A-</td>
<td>3.7</td>
</tr>
<tr>
<td>B+</td>
<td>3.3</td>
</tr>
<tr>
<td>B</td>
<td>3.0</td>
</tr>
<tr>
<td>B-</td>
<td>2.7</td>
</tr>
<tr>
<td>C+</td>
<td>2.3</td>
</tr>
<tr>
<td>C</td>
<td>2.0</td>
</tr>
<tr>
<td>C-</td>
<td>1.7</td>
</tr>
<tr>
<td>D+</td>
<td>1.3</td>
</tr>
<tr>
<td>D</td>
<td>1.0</td>
</tr>
<tr>
<td>D-</td>
<td>0.7</td>
</tr>
</tbody>
</table>

A student’s academic grade record is expressed as a grade-point average computed by multiplying the semester hours of credit for each course by the quality point value of the grade received in the course. These products are added together, and the sum is divided by the total semester hours attempted. The grade-point average thus derived is the basis for each student’s academic status as indicated in the published rules and policies of the College of Law Faculty.

Selected College of Law courses are graded on a Pass/Fail basis, and law students enrolled in courses enrolled in graduate school courses for which the College of Law grants credit toward graduation are treated by the College of Law as Pass/Fail courses. A failing grade (F) in any Pass/Fail course in the College of Law or any graduate school course in which a student in the College of Law enrolls for credit toward graduation from the College of Law will be taken into account at a quality point value of zero (0) in computing the student’s grade-point average.
Pass/Fail Policy for College of Law

Students in the College of Law are bound by the following:

a. No more than 6 hours of graduate courses outside of the College of Law, graded on a Pass/Fail basis, shall be counted.

b. No more than 6 hours of courses in the College of Law that are offered only on a Pass/Fail basis shall be counted.

c. No more than 9 of the total number of Pass/Fail credit hours, whether earned for graduate school courses under (a) or for College of Law courses offered only on a Pass/Fail basis under (b), shall be counted.

d. No more than one graduate school course outside the College of Law, graded on a Pass/Fail basis, may be credited in any one semester.

Students in joint degree programs may only take up to six Pass/Fail course credit hours in the law school courses and may take no courses outside the College of Law for credit toward the J.D. other than pursuant to the applicable joint degree program.

College of Medicine

All professional program (MD degree) courses in the College of Medicine will determine a minimum level of competency. Courses taken for grade will reflect student performance with a numeric value of three significant digits between 70.0%-100% for those students achieving minimum competency. The course performance will be valued at the achieved numeric performance for each credit hour. Students failing to achieve minimum competency may receive one of the grades below. For courses taken on a pass/fail basis, the achievement of minimum competency will be the only determination.

Class rank will be determined by multiplying the numeric value assigned for each course by the total number of credit hours for that course and normalizing by the sum of all courses taken for grade. The numeric average is reported to three significant digits. Pass/Fail courses will not contribute to determination of class rank.

F represents failure to achieve minimum competency and unacceptable performance in a pass/fail course.

P represents achievement of minimum competency and a passing grade in a course taken on a pass/fail basis.

W denotes withdrawal from the college or from an elective course. W must be approved or recommended by the Student Progress and Promotion Committee. Withdrawal from a required course is not permitted, except when a student withdraws from the college. A student may withdraw from an elective and the W will remain on the record.

I represents incomplete work at the time grades are submitted for courses. It is conferred only when there is a reasonable possibility that the student can demonstrate a minimum level of competency upon completion of the work. All I grades in required courses must be replaced by a passing grade before a student can be promoted to a subsequent year. If a student later withdraws from the college, an outstanding ‘I’ grade can revert to a W grade at the discretion of the Student Progress and Promotion Committee.

College of Pharmacy – Experiential Course Work

Grades in all experiential course work in the professional curriculum (i.e., Introductory Pharmacy Practice Experiences, IPPE I and IPPE II; and Advanced Pharmacy Practice Experiences, APPE) are assigned on the following basis:

PH – Pass with Honors. Represents exceptionally high achievement in all course requirements as a result of aptitude, effort and intellectual initiative. Credit hours under this grade will count towards graduation, but will not be used in calculating grade-point averages.

P – Pass. Represents high achievement as a result of ability and effort and reflects student competence in all course requirements. Credit hours under this grade will count towards graduation, but will not be used in calculating grade-point averages.

F – Fail. Represents a marginal or unsatisfactory level of achievement in any of the course requirements. Credit hours under this grade will not count towards graduation but will be used in calculating grade-point averages.

OTHER REGULATIONS

Definition of a Major

A major is a primary area of study defined by a set of course and/or credit hour requirements within specified disciplines. Within degree programs, majors may be further defined by requirements in an area of emphasis (also known as an “option”).

Undergraduate Major Requirements

Students at the University of Kentucky who have not chosen a major or been admitted to a selective admissions college and who have earned at least 45 credit hours should meet regularly with an advisor who will help the student to choose a major or seek admission to a selective admissions college. Students at the University of Kentucky who have not chosen a major or been admitted to a selective admissions college and who have earned at least 60 credit hours will not be permitted to register for classes, except registration will be permitted for the following students if they have earned no more than 75 credit hours:

1. Students lacking specific courses to gain admission to a college or to declare a particular major who have a written commitment from the college of their choice to accept them upon successful completion of specified courses;

2. Students who have been dropped from a college for academic reasons, or who have been readmitted or transferred to the University of Kentucky.

This rule may be waived by the dean of the college in which the student is currently enrolled or into which the student wishes to transfer or be readmitted.

Language Limitations for Foreign Students

Students whose native language is other than English and who have had formal instruction in schools of their own country shall not be permitted to take elementary, intermediate or conversation courses or examinations for credit in that language.

Late Registration

After the sixth day of classes for a 15-week semester term or a proportionate number of days for shorter terms as determined and published by the Registrar, no student may register for an organized class without written permission from the student’s academic dean (or dean’s designee) and the course instructor. The college in which the course is listed may require additional approval. The waiver and the rationale for the waiver must be documented in the student’s record in the college.

The Registrar may set a later date for final registration in classes that do not start on the first day of a semester or a summer session, or for the registration of a group of students who were not present at the regular registration time.

Participation in Intercollegiate Athletics

The University accepts the eligibility rules for intercollegiate athletics as set up by the Southeastern Conference, National Collegiate Athletics Association, Region II, the Association of Intercollegiate Athletics for Women, and the Kentucky Women’s Intercollegiate Conference.

Attendance and Completion of Assignments

For each course in which the student is enrolled, the student shall be expected to carry out all required work including laboratories and studios, and to take all examinations at the class period designated by the instructor.

Each instructor shall determine the policy regarding completion of assigned work, attendance in class, absences at announced or unannounced examinations, and excused absences in excess of one-fifth of class contact hours. This policy shall be presented in writing to each class at its first or second meeting. Students’ failure to comply with the announced policy may result in appropriate reductions in grade as determined by the Instructor of Record.
Excused Absences
A student shall not be penalized for an excused absence. The following are defined as excused absences:

A. Significant illness of the student or serious illness of a member of the student’s household (permanent or campus) or immediate family. The Instructor of Record shall have the right to request appropriate verification.

B. The death of a member of the student’s household (permanent or campus) or immediate family. The Instructor of Record shall have the right to request appropriate verification. For the purpose of this rule, immediate family is defined as spouse or child or parent (guardian) or sibling (all of the previous include steps, halves and in-laws of the same relationship); and grandchild or grandparent.

C. Trips for members of student organizations sponsored by an educational unit, trips for University classes, and trips for participation in intercollegiate athletic events, including club sports registered with the university as well as varsity sports. When feasible, the student must notify the Instructor of Record prior to the occurrence of such absences, but in no case shall such notification occur more than one week after the absence. Instructors of Record may request formal notification from appropriate university personnel to document the student’s participation in such trips.

D. Major Religious Holidays. Students are responsible for notifying the Instructor of Record in writing of anticipated absences due to their observance of such holidays. Faculty shall give students the opportunity to make up work (typically, exams or assignments) when students notify them that religious observances prevent the students from doing their work at its scheduled time. Faculty should indicate in their syllabus how much advance notice they require from a student requesting an accommodation. Faculty shall use their judgment as to whether the observance in question is important enough to warrant an accommodation, although the presumption should be in favor of a student’s request. The Offices of Institutional Diversity, the Dean of Students, and the Ombud are available for consultation.

(For additional information on excused absences due to the observance of major religious holidays; visit: www.uky.edu/Ombud/ForStudents_ReligiousHolidays.php)

E. Any other circumstance which the Instructor of Record finds reasonable cause for absence.

Students missing any graded work due to an excused absence bear the responsibility of informing the Instructor of Record about their excused absence within one week following the period of the excused absence (except when prior notification is required), and of making up the missed work. The Instructor of Record shall give the student an opportunity to make up the work and/or the exams missed due to an excused absence, and shall do so, if feasible, during the semester in which the absence occurred.

The instructor shall provide the student with an opportunity to make up the graded work (e.g., quiz, exam, homework, etc.) and may not simply calculate the student’s grade on the basis of the other course requirements, unless the student agrees in writing.

If an attendance policy is not stated in the course syllabus and attendance is not a criterion for a grade in a course, then the Instructor of Record shall not take any account of a student’s excused or unexcused absence from class when assigning a grade.

If the course syllabus defines either policies that require class attendance or a grading standard that determines a student’s grade based in part on class attendance, the following rules apply:

1. Excused Absences: If a student has excused absences in excess of one-fifth of the class contact hours for that course (participation activities for online courses, as defined above in “Attendance and Completion of Assignments”), the student shall have the right to receive a W, or the Instructor of Record may award an I for the course if the student declines to receive a W.

2. Unexcused Absences: The Instructor of Record shall define any course policy relating to unexcused absences in the course syllabus. If a policy is not stated in the course syllabus or the policy does not allow for a penalty to the student, the Instructor of Record shall not penalize the student for any unexcused absences.

With respect to nonattendance for reason of an employment-related schedule conflict, the student who is a UK employee has exactly the same standing as a student who is working for some other employer.

Dead Week
1. The last week of instruction of a regular semester is termed “Dead Week.” This term also refers to the last three days of instruction of a summer session, a summer term and a winter intersession.

2. In cases of “Take Home” final examinations, students shall not be required to return the completed examination before the regularly scheduled examination period for that course.

3. No written examinations, including final examinations, may be scheduled during Dead Week.

4. No quizzes may be given during Dead Week.

5. No project/lab practicals/paper/presentation deadlines or oral/listening examinations may be scheduled to fall during Dead Week unless it was scheduled in the syllabus AND the course has no final examination (or assignment that acts as a final examination) scheduled during Finals Week. A course with a lab component may schedule the lab practical of the course during Dead Week if the lab portion does not also require a Final Examination during Finals Week.

6. Make-up exams and quizzes are allowed during Dead Week; these are exempt from the restrictions stated in 3, 4, and 5 above.

7. Class participation and attendance grades are permitted during Dead Week.

Final Examinations
If a final examination is given, it is to be administered during the examination period as scheduled by the Registrar for the semesters of the regular school year. These examination periods utilize the last five days of each semester, and are preceded by a study day or weekend on which no classes or examinations for weekday classes are scheduled. Final examinations for weekend classes will be administered the weekend before this five day period and need not be preceded by a study day.

Final examinations, where appropriate, are administered during the last class day of the intersession and the summer session/term.

Final examinations may be given at times other than the regularly scheduled times in the following instances:

Faculty: In the case of conflicts or undue hardship for an individual instructor, a final examination may be rescheduled at another time during the final examination period upon the recommendation of the chair of the department and with the concurrence of the dean of the college.

Students: Any student with more than two final examinations scheduled on any one date is entitled to have the examination for the class with the highest catalog number rescheduled at another time during the final examination period. In case this highest number is shared by more than one course, the one whose departmental prefix is first alphabetically will be rescheduled. The option to reschedule must be exercised in writing to the appropriate Instructor of Record or his/her designee two weeks prior to the last class meeting.

If a conflict is created by rescheduling of an examination, the student is entitled to take the rescheduled examination at another time during the final examination period. In the case of undue hardship for an individual student, a final examination may be rescheduled by the instructor.
Academic Requirements

Common Examinations
A student enrolled in a course where a common exam is scheduled may also enroll in a class scheduled in the time slot of the common exam.

If a student has a course scheduled at the same time as a common exam and the student has given written notice of the conflict to the instructor at least two weeks prior to the common exam, the student shall be entitled to an excused absence from the conflicting common examination.

Common Examinations Scheduled for the Same Time
Any student for whom two examinations have been scheduled for the same time shall be entitled to have the examination for the class with the highest catalog number rescheduled. In case both classes have the same number, the one whose departmental prefix is first alphabetically will be rescheduled. The option to reschedule must be exercised in writing to the appropriate instructor two weeks prior to the scheduled exam.

Special Examinations
Any full-time or part-time student enrolled in the University, and in good academic standing, has the right to request a special examination for credit in many courses offered (check with the offering department), regardless of whether the student has audited the course, is currently enrolled in it, or has studied for it independently. Please note, most elementary and intermediate foreign language courses are not available on the basis of a special examination.

Application for a special examination must be made in writing. (Students should obtain application forms in the Registrar’s Office.) Undergraduates should address requests to the chair of the department in which the course is given, or to the office of the educational unit responsible; graduate students, to the Director of Graduate Studies in the department in which the course is given. Approval of requests from undergraduate students rests with the department chair; from graduate students, with the Dean of the Graduate School, acting upon recommendation of the Director of Graduate Studies.

The request for special examination may be denied by the department chair or the office of the educational unit responsible; or the Dean of the Graduate School acting upon recommendation of the Director of Graduate Studies, if it is decided that the student has not furnished evidence that he or she is reasonably prepared to take the examination, or that the course is of such a nature that credit by examination is inappropriate. (The fact that a student has failed the course within the last semester may be regarded as evidence that the student is unprepared to take a special examination.)

The examiner designated by the educational unit may schedule the examination at his or her convenience, but must offer it within a reasonable time after the student has submitted his or her request.

The examiner shall inform the Registrar of the student’s grade in the course. A student currently enrolled in the class who successfully completes a special examination will be formally removed from the official roll by the Registrar, unless the student is dissatisfied with the results, in which case he or she may continue in the course and be graded in the usual manner. The examiner then may or may not include the results of the special examination in computing the final grade.

Credit earned by special examination may be counted as residence credit by the dean of the student’s college. The limits on maximum loads are waived in cases where the excess is due to special examination credits.

The student, with the educational administrator’s consent, may take the special examination on a Pass/Fail basis, including any course not otherwise available under the Pass/Fail option. Credit derived in this manner does not reduce the number of courses permitted under the Pass/Fail rules.

ACADEMIC REQUIREMENTS AND EXPECTATIONS

Grade Appeals
If a student believes that he or she has been graded unfairly on a particular paper, test, or other assignment, or if the student believes that his or her final course grade is unfair, the student is expected to share those concerns with the instructor of the course and/or the chair of the department where the course is taught. If the student’s issues are not resolved in conversation with the instructor and department chair, the student may contact the Office of the Academic Ombud at (859) 257-3737 or Ombud@uky.edu. The Academic Ombud will discuss the matter with the student to assess the merit of the complaint. If the Academic Ombud agrees that the claim has merit, the Ombud, with the student’s permission, will contact the instructor and attempt to resolve or mediate the dispute.

If a student’s grade dispute involves a final grade and the Ombud cannot resolve the issue informally, a student is entitled to have the University Appeals Board hear the complaint. That body is the only University entity that can modify a grade. If a student wishes to file an appeal with the University Appeals Board, the student will be asked by the Ombud to prepare a written appeal. The Ombud will also approach the instructor for his or her perspective. If the Ombud determines that the appeal has merit, the matter will be sent to the University Appeals Board for a hearing. If the Ombud determines that the case does not have merit, the student will be notified in writing and will then have 30 days to appeal to the University Appeals Board directly, requesting that a hearing be granted. It is important to know that there is a 180 day statute of limitations for grade appeals. The Academic Ombud is empowered to hear only those grievances directed to the Office of the Academic Ombud within 180 days subsequent to the conclusion of the academic term in which the problem occurred.

Course Syllabus
The course syllabus is the first indicator of an instructor’s expectations. The syllabus contains a detailed description of both course content and assignments. It functions as an academic “contract” between an instructor and the students in his or her class. It must be provided to students free of charge and distributed to students on the first or second meeting of the class. A course syllabus may be posted electronically, although it must be available online by the first class meeting of the semester and the syllabus must remain available electronically for the entire semester.

The syllabus must provide relevant details about regularly scheduled office hours during which students may seek consultation and advice. It must also provide information about all course-related policies, such as the instructor’s policy on attendance or make-up exams.

Academic Integrity
Students are expected to pursue their studies with steadfast commitment to intellectual honesty and personal integrity. The University defines as an academic offense any act of plagiarism, cheating, or falsification or misuse of academic records.

Plagiarism. All academic work, written or otherwise, submitted by students to their instructors or other academic supervisors, is expected to be the result of their own thought, research, or self-expression. In cases where students feel unsure about a question of plagiarism involving their work, they are obliged to consult their instructors on the matter before submission.

Cheating. Cheating is defined by its general usage. It includes, but is not limited to, the wrongfully giving, taking, or presenting any information or material by a student with the intent of aiding himself/herself or another on any academic work which is considered in any way in the determination of the final grade.

Falsification or Misuse of Academic Records. Maintaining the integrity, accuracy, and appropriate privacy of student academic records is an essential administrative function of the University and a basic protection of all students. Accordingly, the actual or attempted falsification, theft, misrepresentation or other alteration or misuse of any official academic record of the University, specifically including knowingly having unauthorized access to such records or the unauthorized disclosure of information contained in such records, is a serious academic offense. As used in this context, “academic record” includes all paper and electronic versions of the partial or complete permanent academic record, all official and unofficial academic transcripts, application documents and admission credentials, and all academic record transaction documents.

All incidents of cheating and plagiarism are taken very seriously at the University
of Kentucky, and there are specific policies and procedures in place to prosecute them. A student accused of an academic conduct offense may not withdraw from the class in which the academic conduct violation is alleged to have occurred.

If a student is formally accused of and found responsible for an academic offense, the individual will be informed in writing and given 10 days to appeal the ruling by contacting the Office of the Academic Ombud. Penalties for academic offenses range from a zero on the assignment (for a first offense) to suspension or expulsion. A record of an academic offense for which a student is found responsible will be filed in the University Registrar’s Office, and in some cases may be recorded on the offending student’s transcript. A student charged with an academic offense may contact the Office of the Academic Ombud for an explanation of the procedural steps in cases involving academic offenses, including the processes for appealing one’s responsibility or the severity of the sanction being imposed.

Students shall have the right to attend classes, to pursue their academic programs, and to participate in University functions during the consideration of any appeal.

**Academic Rights of Students**

Students attending the University of Kentucky are afforded a set of academic rights. A summary of those academic rights is found below. The comprehensive source for the academic rights of students is found in the University Senate Rules (click here to go to Senate Rules). Any issue regarding an interpretation of those academic rights will be determined finally by the language in the Senate Rules, not this summary. A student who believes his or her academic rights have been violated should contact the Office of the Academic Ombud.

Students have the right to expect that:

- all instructors will provide students with a written class syllabus by the first or second class meeting outlining the nature of the course content, the activities to be evaluated, and the grading practice to be followed.
- all instructors will permit students to express reasoned contrary opinions in their courses without being penalized.
- all instructors will award grades based only upon fair and just evaluation measured by the standards outlined in the syllabus. Grades will never be based on “irrelevant considerations,” such as sex, sexual orientation, race, ethnic origin, religion, age, etc.
- a student’s academic records will be kept confidential and access will be authorized by University personnel for official use only.

A student who believes that his or her academic rights have been violated is encouraged to talk with the instructor or the chair of the department where the course is taught. The student may also contact the Office of the Academic Ombud for assistance in addressing those concerns.

**Religious Observances**

The University strives to create an environment where students of all different religious views are welcome. If a student needs to miss class in order to fulfill a bona fide religious observance or practice, he or she should inform the instructor, who will treat it as an excused absence. If the religious observance or practice makes it difficult or impossible for a student to take an exam or to complete a graded assignment by the scheduled due date, the student’s instructor, if given sufficient notice, will give the student the opportunity to make up the work. Instructors will note in their syllabi how much notice they will give the student in the next term and have a cumulative GPA of 2.0 or higher will be removed from probation.

3. If the student has completed all the academic and procedural requirements for the degree while still maintaining an overall GPA of 2.0 or higher (or the minimum GPA established by a specific college), the degree shall be awarded and the student placed in good standing.

4. The Summer Session and Summer Term are considered two separate academic terms and are subject to the same probation and suspension provisions as Spring and Fall.

**Removal from Probation**

Except as provided for by specific college probation policy, an undergraduate student may be removed from probation by the dean of the college when the student on scholastic probation has earned 90 semester hours (senior standing), and at the end of a semester or session has a cumulative grade-point standing of 2.0.

**Academic Suspension**

Students are suspended if:

1. They fail to earn a 2.0 term GPA for any term while on probation;
2. They have three consecutive UK terms in which their cumulative GPA remains below 2.0;
   or
3. Their GPA is below 0.6 after their first term, if the semester’s GPA is based on at least 9 hours of grades, A, B, C, D or E.
Notwithstanding the provisions above, in the case of a student eligible for suspension, the dean of the student’s college may continue a student on academic probation if the individual case so justifies with notification to the Director of Undergraduate Studies.

**General Rules Pertaining to Students Under Academic Suspension**

A student academically suspended from the University may not enroll in any courses offered by the University nor take any special examination for University credit.

A student academically suspended from the University a second time shall not be readmitted to the University except in unusual circumstances and only upon recommendation of the dean of the college in which the student plans to enroll and approval of the University Senate Council.

Once reported to the Registrar, an academic suspension may be rescinded by the dean only in the event of an error in the determination of the student’s eligibility for suspension, an official grade change that alters the student’s suspension eligibility, or exceptional circumstances.

**Reinstatement**

After they have remained out of the University for at least a semester and a summer session (a semester for students academically suspended at the end of a summer session), students who have been academically suspended may only be reinstated by the dean of the college in which they plan to enroll when they present evidence that they are capable of performing at the level required to prevent being suspended a second time. After being reinstated, students must apply for readmission to the University.

**General Rules for Reinstated Students**

A student who has been academically suspended shall, upon reinstatement, be placed on scholastic probation and be subject to final academic suspension from the University if:

1. They acquire any additional deficit during any semester or session while on academic probation;
2. They have failed to meet the requirements for removal from academic probation by the end of the third semester following the reinstatement.

Once reinstated students have been removed from scholastic probation, they will be subject to the same conditions for subsequent academic suspension as students who have not previously been academically suspended.

**Readmission After Two or More Years (Academic Bankruptcy)**

Undergraduate students who have been readmitted through the usual channels after an interruption of two or more continuous years, and who have completed at least one semester or 12 hours with a GPA of 2.0 or better, beginning with the semester of readmission, may choose to have none of their previous University course work counted toward graduation and in the computation of their GPAs. Enrollment for a semester, when terminated by a withdrawal before completion of the semester (grades all Ws), in the two years preceding readmission is not an interruption. Under this circumstance, a student cannot invoke the academic bankruptcy rule.

In addition, the dean of the student’s college may permit such a readmitted student who has elected not to count past work to receive credit for selected courses without including those grades in the computation of the student’s GPA (cumulate or otherwise).

Part-time as well as full-time students can take advantage of the academic bankruptcy rule. Students need not have been originally suspended from the University to qualify for this option.

In calculating the 2.0 GPA, a student must have taken all of the 12 hours necessary to apply for bankruptcy for a letter grade. Course numbers ending with a suffix of R, if taken for a letter grade, shall count toward the 12-hour minimum of eligibility for bankruptcy under this rule.

If a student has completed a degree and re-enrolls, he/she may not apply the academic bankruptcy rule to courses taken for the degree already completed.

The Academic Bankruptcy option may be used only once.

**SPECIFIC PROBATION AND SUSPENSION POLICIES FOR INDIVIDUAL COLLEGES**

**College of Design**

A student may be placed on probation in the College of Design or suspended from the College of Design, but not necessarily the University, according to the College of Design standards that follow.

A student enrolled in the College of Design who is placed on college probation may continue with studies in the college and university subject to general University regulations concerning academic standing. A student enrolled in the College of Design who is suspended from the college may not take classes offered in the College of Design until reinstated. A student who is suspended from the College of Design may take classes outside the college subject to general University regulations concerning academic standing.

A grade of C or higher is required to advance to the next level of studio in the College of Design. A grade below C in an architectural design studio is considered unacceptable for majors in the College of Design. A student who earns a grade below C in a design studio will be placed on College probation. This probation will be removed when the student earns a grade of C or higher in the same studio.

A student will be suspended from the college for:

1. failing to earn a grade of C or higher in a particular architectural design studio for the second time or
2. failing to earn a grade of C or higher in a particular design studio in its first or second offering after the semester in which the student earned a grade below C in that studio, provided the student remains in the University, except that students are not required to enroll in summer sessions or
3. failing to earn a grade of C or higher in any design studio while the student is on University probation for two or more consecutive semesters.

Provision 3 does not apply to first year architectural design students.

College of Design rules on probation and suspension may be waived by the Dean of the College of Design under extraordinary circumstances, with notification to the Faculty.

A student who has been suspended from the College of Design may petition the Dean for reinstatement after a period of no less than 12 months.

**College of Engineering**

**Probation and Academic Suspension**

The following rules apply to the College of Engineering.

1. Any engineering student who has completed two or more semesters at UK and who fails to maintain a cumulative UK GPA of 2.0 or higher will be suspended from the College of Engineering and will not be readmitted until this GPA is 2.0 or higher.
2. Any student enrolled in the College of Engineering who earns a UK GPA of less than 2.0 in any semester will be placed on academic probation.
3. Any student on academic probation who fails to earn a 2.0 or higher semester GPA will be suspended from the College of Engineering and will not be readmitted until he or she has obtained a semester GPA of 2.0 or higher for one semester and the student’s cumulative UK GPA is 2.0 or higher.
4. Students who are suspended twice from the College of Engineering will not be readmitted.
The Graduate School

When graduate students have completed 12 or more semester hours of graduate course work with an average of less than 3.0, they will be placed on academic probation. Students will have one semester to remove the scholastic probation by attaining a cumulative 3.0 average in graduate course work. If the probation is not removed, the student will be dismissed from The Graduate School.

A student who has been dismissed from The Graduate School for these reasons may reapply for admission to The Graduate School after two semesters or one semester and the eight-week summer term.

Exceptions to this policy can be made only by the Graduate Dean.

With the approval of the Graduate Dean, a student may repeat a graduate course and count only the second grade as part of the graduate grade-point average. This action will be initiated by petition of the Director of Graduate Studies and may be done only once in a particular degree program or in post-baccalaureate status.

College of Health Sciences

Undergraduate Program Probation

A College of Health Sciences (CHS) student is placed on CHS probation if the student earns a grade-point average (GPA) of less than 2.0 in any given term (semester), even if the student’s cumulative UK GPA is 2.0 or higher. Students on CHS probation are required to meet with their academic advisor and develop a remediation plan.

There are two possible scenarios for the student placed under probation/remediation:

Scenario 1: The student successfully completes the remediation plan, earning a semester GPA of 2.0 or higher and earns at least a grade of C (2.0) in each course required for the major (pre-requisite courses and major courses). At this point, the student is removed from CHS probation and regains good standing status in the College.

Scenario 2: The student does not successfully complete the remediation plan and fails to meet any or all requirements for removal of probation.

Undergraduate Program Suspension

A CHS student may be suspended for any of the following reasons:

1. The student fails to successfully complete a probationary remediation plan.
2. The student earns a GPA of less than 2.0 in any given semester and has a cumulative UK GPA below 2.0, including the first semester at the University of Kentucky.
3. The student earns less than a 1.5 GPA in any semester.

In all cases, the suspended student will be required to select a new major outside of the CHS.

Note: If a student admitted to a selective admissions program fails to meet the programs academic standards, the programs policies for probation and suspension, if more stringent, supersede the College’s Academic Probation and Suspension policy.

Removal from Suspension

A student suspended from the College of Health Sciences may petition for re-admittance only if he/she has obtained a cumulative GPA in accordance with the respective program’s admission standards (see list below) and completed all pre-requisite courses and major courses with a C or better. Students who fail a major course and are placed on suspension must petition the program to repeat the major course while on suspension. Students have the opportunity to use the three repeat options that the University allows in order to facilitate the improved GPA required and individual course grades. In accordance with the University policy, courses may only be repeated one time. Any additional retakes will not count if the second attempt does not result in the C or better needed for a prerequisite or major course.

Program GPA minimum

It is important to note that our college has high admissions standards for each of our selective admissions programs. Thus, this is taken into consideration when making readmission decisions in the College of Health Sciences.

Student Affairs Academic Standing Sub-Committee

An Academic Standing Committee will be formed and comprised of a representative from each of the undergraduate programs, the Assistant Dean of Student Affairs, Academic Affairs Chairperson, and an academic advisor. The Assistant Dean of Student Affairs will serve as the chair of this committee. The Academic Standing Committee will meet regarding suspension and probationary status once a semester after final grades are posted. The committee will convene to hear appeals at least twice a year and more often as needed.

Appeals

Students who are placed on suspension may appeal their status to the College of Health Sciences Student Affairs Academic Standing Sub-Committee. The student must submit documentation regarding any circumstances that influenced their academic performance for review by the committee. This includes, but is not limited to, a personal statement explaining their situation and how they plan to rectify this in the future. Students are welcome to submit letters of support from individuals who have knowledge about their situation and can provide insight into how the student is addressing the issue(s).

All appeals must be submitted electronically by January 10 or July 1 to the Office of Student Affairs. While students are in the appeals process, he/she may maintain their current major in the College of Health Sciences.

PROFESSIONAL COLLEGES

NOTE: All students in the professional colleges are subject to the rights, rules and regulations governing University of Kentucky students in all matters not specifically covered in the these rules.

College of Dentistry

The following academic disciplinary policies for students in the professional dental educational program are initiated upon unsatisfactory academic performance.

Academic Probation

Placement on Probation. A student will be placed on probation immediately after any of the following has occurred:

1. The student has completed any academic year with a grade-point average (GPA) for the academic year less than 2.75 or
2. The student has received a failing (F or F) final course grade; or
3. The student has failed Part 1 of the National Dental Board Examination, or
4. The student has been placed in a modified curriculum, or
5. The student has been reinstated after suspension.

Methods and Procedures:

Limitation on the Use of Probation. The Academic Performance Committee (APC) shall place a student on probation only if, based on the student’s performance in the College of Dentistry’s course work (including but not limited to grades, attendance, motivation, work ethic, and professionalism), it has determined that the student has the potential of meeting graduation requirements...
after addressing academic shortcomings and receiving counseling to address issues that may be contributing to the academic problems.

**Duration of Probation.** The duration of probation shall be established by the APC. The following rules for establishing the minimum duration of probation shall apply:

1. In the case of probation for a low GPA, the minimum duration of probation shall be one academic term following the academic year in which the low GPA occurred.
2. In the case of a failing grade, the minimum duration of probation shall begin the day a failing grade is reported to the registrar and continue at least one academic term after the term in which a passing grade in the course has been achieved.
3. In the case of a failed Part 1 NBDE, probation shall begin the day the failure is reported to the Office of Academic Affairs. Retaking and passing the failed NBDE before a deadline to be set by the APC shall be among the terms of probation. The minimum duration of probation shall be at least until the end of the term in which the retake of the NBDE is passed.
4. In the case of a student who has been placed in a modified curriculum, the minimum duration of probation shall be the entire period in which a student is enrolled in a modified curriculum and at least one academic year after the student has been allowed to resume in the College’s regular curriculum.
5. In the case of a student who has been suspended, the minimum duration of probation shall be at least one academic year after the student has been readmitted after suspension.

**Terms of probation.** The terms of probation will be established by the APC. The terms of probation may also include required activities to help the student prepare to pass Part 1 of the NBDE. The APC may decide to include in the terms that during probation the student is ineligible for certain curricular or extracurricular College activities, within parameters established by higher University rules and regulations. Policies for the terms of probation, including those for a modified curriculum arising from academic suspension of clinical privileges, shall be as elaborated in the College Academic Policies.

**Notification of Probation.** Probation is triggered automatically by the situations listed in the Policy Statement, not by decision of the APC. The student shall be notified by letter of the date when the probation began. This letter shall explain the student’s status and inform him or her that the terms of probation and minimum duration of probation will be established by the APC the next time it meets.

When an APC places a student on probation or affirms an automatic probation, its Chair shall notify the student by a letter with verified receipt of the terms of probation, including the minimum conditions that must normally be fulfilled before the APC will consider removal from probation.

**Academic Suspension**

**Placement on Academic Suspension.** The Academic Performance Committee (APC) shall in the absence of extraordinary circumstances suspend a student if any of the following is true AND, in judgment of the APC, she or he is likely to be helped by experiences exclusively outside of the College. The student has:

1. Failed to Part 1 of the National Board Dental Examination a fourth time or
2. Failed to meet the terms of a modified curriculum or suspension or
3. Become eligible for either a modified curriculum or suspension and has been previously placed in a modified curriculum or suspended or
4. Failed to be reinstated in the regular College curriculum after being placed on a modified curriculum within the maximum time allowed by the APC or
5. Failed to be reinstated to the College after being suspended within the maximum time allowed by the APC or

**Methods and Procedures:**

**Limitation on the Use of Suspension.** The Academic Performance Committee shall suspend a student only if, based on the student’s performance in the College of Dentistry’s course work (including, but not limited to grades, attendance, motivation, work ethic, and professionalism), it has determined the student has the potential of meeting graduation requirements after addressing academic shortcomings and receiving counseling to address issues that may be contributing to the academic problems.

**Deadline to Notify Student of Suspension.** Except under extraordinary circumstances, the APC shall notify the student that he or she is being suspended within 15 working days of the date when a triggering condition occurs (a failing grade is turned into the registrar, the Office of Academic Affairs is notified of a failed NBDE, etc.).

**Terms of Suspension.** The APC shall recommend to the Dean the terms for consideration of reinstatement following suspension. If the APC determines the student might benefit from additional course work or other remediation experiences available outside the College, it shall specify the particular course work and/or the particular customized experiences the student must complete prior to consideration of reinstatement. Terms for reinstatement shall include grades of B or better in courses and evidence of completion of any specially designed curriculum offered outside the College. A student who has been suspended because of a third failure of Part 1 of the NBDE must pass this exam to be eligible for reinstatement. The terms of suspension must include the maximum time within which the student must gain readmission.

**Notification of Suspension.** The student shall be notified by a letter with verified receipt from the Chair of the APC of the terms of suspension, including the minimum conditions that must normally be fulfilled before the Dean will consider reinstatement of the student in the regular College curriculum. The letter must include notification of the student’s right to appeal and a summary of the procedures for appealing the decision.

**Appeal.** A suspended student may appeal this decision. The appeal request must be made in writing to the Dean within five working days of receipt of notification of suspension, as elaborated by the College Academic Policies for the program.

**Reinstatement following suspension.** When the student has demonstrated he or she can perform at the level required to graduate from the College, and has met the terms of readmission recommended by the APC, the Dean may readmit him or her. However, granting a request for reinstatement is not automatic. Procedures for considering and granting reinstatement shall be elaborated by the College Academic Policies for the program.

**Consequences of Failure to Gain Reinstatement.** If a student who has been suspended for a third failure of Part 1 of the NBDE does not pass the Boards within two months of the date when he or she is first eligible to retake the exam after the third failure, that student shall be dismissed. A student who has not been reinstated within the maximum time allowed by the APC shall be dismissed and will no longer be eligible for reinstatement.

**Responsible Agent.** The Academic Performance Committee.

**Dismissal**

**Placement in Dismissal Status.** The Academic Performance Committee (APC) shall in the absence of extraordinary circumstances dismiss a student if the student has:

1. Failed to Part 1 of the National Board Dental Examination a fourth time or
2. Failed to meet the terms of a modified curriculum or suspension or
3. Become eligible for either a modified curriculum or suspension and has been previously placed in a modified curriculum or suspended or
4. Failed to be reinstated in the regular College curriculum after being placed on a modified curriculum within the maximum time allowed by the APC or
5. Failed to be reinstated to the College after being suspended within the maximum time allowed by the APC or
6. Failed to retake Part 1 the NBDE within two months of being eligible to retake it when on a modified curriculum or when under suspension for a third failure of the exam or
7. Failed to convince the APC, based on the student’s performance in the College of Dentistry’s course work (including, but not limited to grades, attendance, motivation, work ethic, and professionalism), that she or he has the potential of meeting graduation requirements.

Reinstatement following dismissal. The dismissed student shall not be reinstated.

Methods and Procedures:
Deadline to Notify Student of Dismissal. Except under extraordinary circumstances, the APC shall notify the student that he or she is being dismissed within 15 working days of the date when a triggering condition occurs (e.g., a failing grade is turned into the registrar, the Office of Academic Affairs is notified of a failure of Part 1 of the NBDE, etc.).

Notification. The student shall be notified of the decision to dismiss by a letter with verified receipt from the Dean. The letter must include notification of the student’s right to appeal and a summary of the procedures for appealing the decision.

Appeal. A dismissed student may appeal this decision. The appeal request must be made in writing to the Dean within 5 working days of receipt of notification of dismissal (see Academic Disciplinary Policy for the program, “Appeal Procedures”).

College of Law

1. All students in the College of Law must maintain a satisfactory cumulative GPA or be dropped from the college for poor scholarship. Any student who earns a GPA below 1.5 for his or her first semester of law study may be suspended by the Dean on recommendation of the Law Faculty Academic Status Committee for poor scholarship. Any student who fails to earn a 2.0 cumulative grade-point average at the end of the first two semesters will automatically be suspended for poor scholarship. In addition, any student whose cumulative GPA falls below a 2.0 at the end of any subsequent semester will also be suspended from the college.

2. Any student who earns a grade of E in a required course must reregister for the course and complete all its requirements thereof. When such a required course is retaken or when a student elects to repeat an elective course in which the student has earned a failing grade, both the initial and subsequent grade will be reflected on the student’s record and counted in the computation of class standing, subject to readmission standards below.

3. Any student dropped for poor scholarship may petition the Law Faculty Academic Status Committee for readmission. A recommendation to the Dean for readmission is within the discretion of the Academic Status Committee; however, in most cases, the following policies will guide the Committee: a student suspended after the first semester will be required to petition the full Law Faculty for readmission; in the case of students suspended at the end of the second semester, a student with a cumulative GPA of 1.90 and above will normally be readmitted, a student with a cumulative GPA of 1.70 to 1.89 may be readmitted but will be carefully scrutinized, and a student with a cumulative GPA below 1.70 will normally not be readmitted; any student dropped at the end of the third semester or thereafter will be subject to case-by-case analysis.

4. Any student who is readmitted after being dropped at the end of the second semester and who fails to raise his or her cumulative GPA to 2.0 by the end of the third semester will be readmitted again at that time only if he or she has made material progress toward raising his or her cumulative GPA to 2.0. Material progress at a minimum shall mean obtaining a 2.0 GPA for the semester. Moreover, such a student must raise his or her cumulative GPA to 2.0 by the end of the fourth semester. In addition to the foregoing academic standards for readmission, the Academic Progress Committee may impose additional academic standards in individual cases, and in any case may impose other reasonable conditions of readmission including, but not limited to, limitation of outside work, specification of schedule of study (including specification of particular courses and limitation of hours), and the limitation of extracurricular activities. The Academic Progress Committee with the approval of the full Law Faculty may also require the repetition of courses either with or without substitution of the grades earned in the courses retaken. Failure to comply with the requirements and conditions of readmission will be suspended again from the College of Law, in which case he or she will not be readmitted without approval of the University Senate Council upon the recommendation of the Dean following action by the full Law Faculty. Any student aggrieved at any time by recommendation of the Academic Status Committee may petition the full Law Faculty for review.

5. A student who is required by the Academic Status Committee to repeat 14 or more hours of the freshman curriculum in his or her third and fourth semester will be considered as enrolled in his or her first and second semesters.

6. A student who has once been suspended for poor scholarship and who fails to have a 2.0 cumulative GPA at the end of the semester or summer session in which he or she completes the 90th hour of course work will not be allowed to graduate from the College of Law. Such student will not be allowed to enroll in additional hours of course work in an attempt to achieve a 2.0 cumulative GPA.

Withdrawal and Readmission

1. First-year students are expected to complete their first year of law study without interruption. If a student withdraws from the college and University during his or her first year of law study, readmission is not automatic. If a student withdraws during the first semester of law study, application for readmission will be referred to the Admissions Committee; if a first-year student withdraws during the second semester, application for readmission will be referred to the Academic Status Committee; provided that in either of the above withdrawal situations, the Dean’s designee may grant a special leave of absence for the balance of the academic year for reasons relating to extended illness or equivalent distress.

2. After completion of all required first-year courses, a student who withdraws from the College of Law and the University is subject to the rules stated herein regarding readmission after a leave of absence and grades for students who withdraw. To officially withdraw from the College of Law, a student must obtain from Registrar’s Office a withdrawal card; this must be signed by the Dean of the College of Law or the Dean’s designee. If a student plans to complete a semester, but not reenroll for the subsequent semester, he or she must give the Dean’s designee written notice of such intention.

3. If a student withdraws from the college and University or does not continue enrollment and has complied with paragraph 2 of this rule, the student will routinely be readmitted to the college provided that the student is in good standing and the absence was not longer than two semesters plus one summer term. No student will be readmitted pursuant to this paragraph more than once.

4. A student who intends to remain away from the college for more than 2 semesters plus one summer term must request permission for a Leave of Absence. These requests are not routinely granted and will be referred to the Academic Status Committee for recommendation to the Dean.

5. Readmission for students who are not entitled to readmission pursuant to paragraphs 1-4 of this rule is not automatic. Applications for such readmission will be referred to the Academic Status Committee for a recommendation to the Dean. The Academic Status Committee may consider relevant facts and circumstances, including the length of time out of the college and reasons for the absence. The Academic Status Committee and Dean will normally not approve readmission for any student who has been away from the college for six regular semesters.
Limitation on Pass/fail Units Creditable for College of Law Students

1. No more than 6 hours of graduate courses outside of the College of Law, graded on a Pass/Fail basis, shall be counted.
2. No more than 6 hours of courses in the law school that are offered only on a Pass/Fail basis shall be counted.
3. No more than 9 of the total number of Pass/Fail credit hours, whether earned under 1. (above) or under 2. (above) shall be counted.
4. No more than one graduate course outside the College of Law, graded on a Pass/Fail basis, may be credited in any one semester.

Students in joint degree programs may only take up to six Pass/Fail course credit hours in the College of Law and may take no courses outside the College of Law for credit toward the J.D. other than pursuant to the applicable joint degree program.

College of Pharmacy

Academic Performance, Progress and Guidelines

The Academic Performance Committees (APC) are charged with monitoring students’ progress through the curriculum. The Committees regularly review (during and at the end of each semester) the performance of each student based on course grades and on written comments on each student’s performance, both of which are shared with the student and are part of the record. The APC for students in a particular year will consist of the course directors and laboratory instructors for that academic year plus a standing core of the faculty. The APC will recommend an action appropriate to the particular student standing and record, i.e., proceed to the next series of courses, promotion to the next year, graduation, probation, probation with remedial action, removal from probation, academic leave, suspension, dismissal, or other action. Recommendations for graduation are made through the dean for approval by the Faculty. All other recommendations are to the Dean. Students must be promoted to the next year standing by action of the APC. Promotion is not automatic, but must be earned based on appropriate performance and satisfactory completion of coursework. The APC may also recommend other remedies including but not limited to adjustment of academic load, repetition of curriculum segments and participation in counseling sessions. Although the APC considers the overall record of the student in making decisions, the APC will rely heavily on the following:

All students must maintain a minimum Pharmacy GPA of 2.0 and earn a minimum grade of C in each course taken during the time they are students in the College of Pharmacy. This includes all course work, including PHR and non-PHR electives, which comprise the first through fourth professional years of the Pharmacy program.

Further:

1. Any student with a GPA less than 2.0 in a single semester or with a cumulative GPA less than 2.0 will be placed on probation or may be suspended from the College.
2. Students who fail to earn a minimum of C in any one course may be placed on probation. The APC will determine the level of remediation required.
3. Students who fail to earn a minimum grade of C in two courses will be placed on probation and remediation may be required. The APC will determine the level of remediation required.
4. Students who fail to earn a minimum of C in three or more courses will be suspended from the College of Pharmacy, regardless of GPA.
5. A failure in a Pass/Fail course will be considered a grade less than C.
6. Students who satisfactorily complete the remediation requirements for probation will be removed from probation.
7. Students who are on probation and fail to meet the requirements for remediation or fail to meet the requirements needed to remove them from probation.
8. Students eligible for probation on a second occasion may be suspended from the College.

Probation

Students who are on academic probation may not be allowed:

1. To serve as officers or committee members in any campus organization.
2. To participate in any University extracurricular activities or in the activities of any University organization if the participation involves the expenditures of any appreciable amount of time.
3. To be employed by the University.

Students on probation may have a restricted academic schedule as dictated by the APC. Students placed on probation must meet the requirements dictated by the APC before being removed from probation.

Suspension

Students suspended from the college may petition the APC for reconsideration of their case and for permission to re-take College of Pharmacy courses to correct their academic deficiencies. That permission may or may not be granted by the APC. If a student is allowed to re-take required College of Pharmacy courses, and the academic deficiencies have been satisfactorily addressed, these students may re-enter the College of Pharmacy but will do so on probation status. If the student is judged after two semesters to be performing satisfactorily by the APC while taking normal academic course loads, their probation status may be removed by the College Faculty.

Special Considerations

1. Because of the demands of the Doctor of Pharmacy curriculum upon acceptance to the program of study students are expected to devote their energies to the academic program. The college actively discourages employment while courses are in session and cannot take outside employment or activities into account when scheduling classes, examinations, reviews, field trips or individual course functions or special projects.
2. Due to curricular requirements course functions and/or examinations outside the normal Monday through Friday, 8 a.m. to 5 p.m. business hours time frame will occur.
3. Clinical responsibilities include evening and weekend work.
4. All College of Pharmacy students are subject to the rights, rules and regulations governing University students in all matters not specifically covered in College of Pharmacy documents.

All Undergraduate and Professional Colleges

Each student has access to rules that deal with scholastic probation, academic suspension, and reinstatement through the printed class schedule, this Bulletin, and Student Rights and Responsibilities.
Graduation Requirements

GRADUATION REQUIREMENTS

To be eligible for any undergraduate, graduate or professional degree, a student must have completed the requirements as approved by the University Senate, except that curriculum substitutions may be made by the college affected if not inconsistent with these rules. Curriculum requirements must include, in addition to specified credits, a specified grade-point average both overall and in the student’s major which may in no case be less than 2.0. Every baccalaureate degree program must include five divisions or components: (1) UK Core, (2) premajor or preprofessional, (3) general college requirements (if any), (4) major or professional, and (5) free electives.

To be eligible for an undergraduate degree, a student must file an application with the dean of the college from which the undergraduate degree is to be awarded: by November 30 for degrees to be awarded the following May, by February 28 for degrees to be awarded the following August, and by June 30 for degrees to be awarded the following December.

Composition and Communication Requirements

Students must complete the Composition and Communication I and the Composition and Communication II requirements:

Composition and Communication I

In this course, students are introduced to the process of writing, speaking, and visually representing their own ideas and the ideas of others; they also practice basic interpersonal communication skills and the ability to communicate with multiple audiences.

To fulfill the Composition and Communication I requirement, complete one of the following:

- CIS 110 Composition and Communication I
- WRD 110 Composition and Communication I
- CIS 112 Accelerated Composition and Communication II (CIS)
- WRD 112 Accelerated Composition and Communication II (WRD)

Composition and Communication II

In this course, students research public controversies and work in teams to analyze and argue for a solution to these controversies in oral, written, and visual/digital forms for multiple audiences.

To fulfill the Composition and Communication II requirement, complete one of the following:

- CIS 111 Composition and Communication II
- WRD 111 Composition and Communication II
- CIS 112 Accelerated Composition and Communication II (CIS)
- WRD 112 Accelerated Composition and Communication II (WRD)

Transfer Students

Transfer students may fulfill the Composition and Communication requirements by completing one of the following:

- Become Category Certified in the communications category under GETA (General Education Transfer Agreement) before transferring.
- Complete transfer courses equated to UK’s ENG 101, ENG 102, and one of the following: COM 252, COM 281 or COM 287.
- Complete an A.A. or A.S. degree from an institution accredited by one of the six organizations recognized by the U.S. Department of Education and the Council for Higher Education Accreditation.

Graduation Composition and Communication Requirement

The Graduation Composition and Communication Requirement (GCCR) replaces the Graduation Writing Requirement (GWR). The GCCR is intended to vertically integrate learning outcome #2 of the UK Core (students will demonstrate competent written, oral, and visual communication skills both as producers and consumers of information) into upper-division majors across the university.

The GCCR is designed to extend and improve education in multimodal composition and communication. Improved vertical integration under the new GCCR will carry this emphasis on composition and communication from the lower level of the UK Core into the upper levels of individual majors and programs.

Beginning fall 2014, every incoming student completing a Bachelors program at UK will be required to fulfill the GCCR. Every undergraduate degree-granting program and major will be required to fulfill the stipulations of the GCCR by assuring a clear path to its completion for their majors.

To complete the Graduation Composition and Communication Requirement, students must:

- Complete the Composition I and Composition II Requirement;
- Attain sophomore status (30+ hours); and
- Complete an approved course or series of courses. Note that some of these courses may only be taken by students in the major; check with your advisor to verify.

GCCCR Required Courses by Major

Accounting – CIS 300
Agricultural and Medical Biotechnology – ABT 201 + ABT 301
Agricultural Economics – AEC 306
Analytics – CIS 300
Animal Sciences – WRD 203 or WRD 204
Anthropology – ANT 582
Architecture – ARC 252 + ARC 314
Art Education – EPE 301
Art History and Visual Studies – A-H 555
Art Studio, B.A. – ART 301
Art Studio, B.F.A. – ART 301
Arts Administration – AAD 450
Biology – BIO 350 + BIO 425; BIO 425 + BIO 430G; or WRD 204
Biosystems Engineering – WRD 204
Career and Technical Education – AED/FCS 583
Chemical Engineering – WRD 204
Chemistry – CHE 372 + CHE 472
Civil Engineering – WRD 204
Clinical Leadership and Management – CLM 595
Communication – COM 252 + COM 351; or COM 252 + COM 326
Communication Sciences and Disorders – CSD 402 + CSD 481 + CSD 591
Community and Leadership Development – CLD 305 + CLD 497
Computer Engineering – CPE 490
Computer Science – CS 499
Dietetics – DHN 374
Early Elementary Education – EPE 301
Graduation Requirements

Economics (Arts and Sciences) – ECO 499
Economics (Business and Economics) – CIS 300
Electrical Engineering – EE 490
English – ENG 330
Environmental and Sustainability Studies – ENS 400
Equine Science and Management – WRD 203 or WRD 204
Family Sciences – FAM 357 + FAM 360 + FAM 390
Finance – CIS 300
Food Science – WRD 203
Foreign Language and International Economics – MCL/SPA 300
Forestry – FOR 400 + FOR 400
Gender and Women’s Studies – GWS 599
Geography – GEO 499
Geological Sciences – EES 235 + EES 461
Health Promotion – TBA
Health, Society, and Populations – HSP 499
History – HIS 499
Horticulture, Plant and Soil Sciences – PLS 490
Hospitality Management and Tourism – RTM 425
Human Health Sciences – HHS/CLM 350 + HHS 453
Human Nutrition – DHN 474 + DHN 475
Information Communication Technology – ICT 300
Integrated Strategic Communication – ISC 491 + ISC Portfolio
Interdisciplinary Early Childhood Education – EDS 530
Interior Design – ID 234
International Studies – INT 495
Journalism – JOU 330 + JOU Portfolio
Kinesiology – KHP 300
Landscape Architecture – LA 222 + LA 223
Linguistics – LIN 222
Management – CIS 300
Marketing – CIS 300
Materials Engineering – MSE 407
Mathematical Economics – ECO 491G
Mathematics – MA 391
Mechanical Engineering – WRD 204
Media Arts and Studies – MAS 300 + JAT 399
Medical Laboratory Science – MLS 463 + MLS 470
Merchandising, Apparel and Textiles – RTM 425
Middle Level Education – EPE 301
Mining Engineering – MNG 371
Modern and Classical Languages, Literatures and Cultures (all tracks) – MCL 495
Music – MUS 304 + MUS 305
Music Education – EPE 301
Music Performance – MUS 304 + MUS 305
Natural Resources and Environmental Science – NRE 395 or NRE 399
Nursing, Four-Year B.S.N. – NUR 200 + NUR 310 + NUR 413
Nursing, R.N. to B.S.N. – NUR 350 + NUR 413
Nursing, Second Degree B.S.N. – no GCCR requirement
Philosophy – PHI 350
Physics – PHY 435 (for B.A.) or PHY 535 (for B.S.)
Political Science – WRD 304
Psychology – one of the following: PSY 427, PSY 430, PSY 440, PSY 450, PSY 456, PSY 460, PSY 552
Public Health – CPH 470
Secondary English Education – EPE 301
Secondary Social Studies Education – EPE 301
Secondary STEM Education – EPE 301
Social Work – SW 470
Sociology – SOC 302
Spanish – SPA 323
Special Education, Learning and Behavior Disorders – EDS 529
Special Education, Moderate and Severe Disabilities – EDS 530
Sustainable Agriculture – SAG 201
Theatre – TA 383
Topical Studies – Any approved A&S course or sequence of courses that satisfies the GCCR requirement for any A&S major; please consult with the Arts & Sciences Dean of Undergraduate Programs.
Writing, Rhetoric and Digital Studies – WRD 430

The Graduation Composition and Communication Requirement is overseen and assessed by the GCCR Advisory Committee. For questions regarding fulfillment of the Requirement, please consult the Director of Undergraduate Studies and/or Chair of the appropriate major or program. Also please consult the GCCR website at www.uky.edu/UGE/Writing/ for information and contacts.

Change in Program Requirements

When requirements for an undergraduate degree program are changed after a student has enrolled in it, the student has the option of fulfilling either the old or the new requirements.

In fulfilling the old requirements, if a student finds that necessary courses have been eliminated or substantially revised, he or she may substitute other courses with the approval of the dean of the college. In this eventuality, however, the student shall not be forced to comply with the new requirements.

However, if a student interrupts work in the program or the University for more than two semesters, then the dean of the college shall determine which requirements the student shall fulfill.

If the curriculum revision is required by an external accreditation or certification body, and this body submits a written statement to the University that the accreditation of a program or certification of its graduates is in jeopardy unless students fulfill the new requirements, the option of fulfilling the old requirements shall not apply.

When The Graduate School or degree program requirements are changed after a student has begun a course of study, the student shall have the option of fulfilling either the old or new requirements.

If the student elects to fulfill the old requirements but finds that necessary resources (e.g., courses, instruction in particular skills) are no longer available, the student may make reasonable substitutes with the approval of The Graduate School Dean upon recommendation of the Director of Graduate Studies. In the event that a student interrupts work on a graduate degree (i.e., is not enrolled) for one calendar year or more, The Graduate School Dean shall determine, upon recommendation of the Director of Graduate Studies, whether the old requirements or the new requirements shall apply. In the event a student has not completed the requirements for the graduate degree five years after the effective date of a change in degree requirements, the new requirements shall apply unless determined otherwise by The Graduate School Dean.

The colleges offering professional degrees (Law, Medicine, Dentistry, Pharmacy) reserve the right to change curriculum requirements provided the program change has gone through the University’s approval process. Any such change in curriculum, however, shall not result in a longer tenure for students enrolled in the program who are making satisfactory academic progress.

Residence Requirements

Residence – a requirement for a degree which specifies the minimum period during which a student must be registered on the main campus – is intended to provide an adequate contact with the University and its faculty for each student who is awarded a degree.

For an undergraduate degree, (a) at least 25 percent of the credits presented for a degree; (b) not less than 30 credit hours; and (c) a minimum of 30 of the last 36 credits presented for the degree must be taken from the University.
Courses taken elsewhere with credit transfer to UK, courses taken through the UK International Center (except for courses taught by UK faculty), credits achieved by examination, credits earned via CLEP (the College Level Examination Program), and courses taken through the National Student Exchange do not count toward the 25 percent requirement.

Any request for waiver by veterans of any of the above requirements, or a request by other students for a waiver of requirement (b) or (c), must be presented for approval to the dean of the student’s college. Students who wish to satisfy the above requirement with credit earned through such methods as independent study by correspondence, special examination, CLEP, and other methods which limit the opportunity for active exchange between students and instructors must have the prior approval of their department chair and college dean.

Courses taken through the UK International Center and through the National Exchange Student programs are considered as courses taken at UK for purposes of both the residence requirement and for graduates to be conferred commencement honors at the time of award of their degrees.

Credit by Correspondence and Examination
No more than 30 credit hours of the total required for an undergraduate degree may be gained by correspondence. No more than one-third of the requirements for a major may be gained by correspondence.

No credit will be conferred in The Graduate School or in the professional colleges for courses done by correspondence.

No more than half of the credit toward an undergraduate degree may be earned by any combination of CLEP Examinations, PEP Examinations, National College Credit Recommendation Service courses, Special Departmental Examinations, Advanced Placement Examinations and IB Examinations.

Application for Degrees
To be eligible for an undergraduate degree, a student must file an application to graduate with the dean of the college from which the undergraduate degree is to be awarded by November 30 for degrees to be awarded the following May; by February 28 for degrees to be awarded the following August; and by June 30 for degrees to be awarded the following December.

Commencement Honors
Students who attain a grade-point average of 3.8 or higher for at least three years (90 hours) of work at the University (excepting correspondence study) shall be graduated “Summa Cum Laude.”

Students who attain a grade-point average of 3.6 or higher for at least three years (90 hours) of work at the University (excepting correspondence study) shall be graduated “Magna Cum Laude.”

Students who attain a grade-point average of 3.4 or higher for at least three years (90 hours) of work at the University (excepting correspondence study) shall be graduated “Cum Laude.”

Students with a minimum of two (60 hours) but less than three years (90 hours) of work at the University will receive the appropriate commencement honors if they attain a grade-point average of 0.2 greater than those specified for three years of residence work.

The bachelor’s degree with honors in a student’s major or a degree with honors from a professional college will be conferred upon a student whom the faculty of the student’s department, or college, in the case of a professional college, and the dean of the student’s college recommend receive the degree. A student may be required to complete work in addition to that required for the bachelor’s or professional degree to receive a degree with honors.

The degree with honors from a professional college is based solely upon work done in the professional college.

All students in the Lewis Honors College of the University who do not have a grade-point standing of 3.5 or better but are in the top 10 percent of their college’s class are eligible to graduate in the Honors program if they satisfy the other requirements and have approval of the Lewis Honors College Director.
UNDERGRADUATE CERTIFICATE PROGRAMS AT UK

The University of Kentucky’s undergraduate certificate programs offer our students a convenient and flexible way to earn credentials for career advancement. All are cross-disciplinary clusters of courses integrated in a way that identifies a set of skills or knowledge that carry college credit and is applied to a student’s undergraduate degree program. Students may declare their intent to complete a certificate program at any time. To do so they should contact the Student Services or Advising Office where their primary major is housed, but they are not required to see an advisor before adding the certificate. This is the same process a student would follow to add a minor or second program of study to their record.

Certificates at UK are only awarded to students who successfully complete (or have completed) a baccalaureate degree. Ideally, a certificate can show a potential employer or graduate program’s faculty a specific expertise that a UK graduate brings with them to their new career.

A certificate program at UK must be at least 12 hours but rarely exceeds 24 credit hours. It is typically constructed to be flexible and respond quickly to emerging and cutting edge fields. Unlike the usual minor attached to a baccalaureate program, certificate programs must include at least two different academic disciplines and students are expected to have experiences that do not fit “traditional” academic models. All UK certificate programs must require students to:

- be in good academic standing upon admission to the certificate program;
- take at least 12 credit hours taken for a letter grade; at least 12 credits at 200-level or above and a minimum of 6 credit hours at 300-level or above;
- take no more than 9 credits in a certificate program that are used to satisfy requirements for the student’s bachelor’s degree, minor, or another certificate (exclusive of free or unrestricted electives);
- earn a C or better in each required certificate course;
- take courses in at least two disciplines, with a minimum of three credits to be completed in a second discipline;
- work with the designated Faculty Director to assure that the individual certificate curriculum is appropriate.

All certificate programs are assessed upon the fifth year of its duration. If a certificate is suspended or terminated, students currently enrolled shall have a reasonable period of time, not to exceed three years, to complete the requirements for the certificate.

UK undergraduate certificate programs listed by academic home:

**College of Agriculture, Food and Environment**

**Distillation, Wine and Brewing Studies**

The Undergraduate Certificate in Distillation, Wine and Brewing Studies (DWBS) is inclusive of students from all departments and colleges at UK. The Departments of Animal and Food Sciences; Biosystems and Agricultural Engineering; Chemistry; Chemical and Materials Engineering; History; Horticulture, Plant and Soil Sciences; Retailing and Tourism Management; and Writing, Rhetoric and Digital Studies are all engaged in DWBS. Three key student learning outcomes comprise the DWBS and are accomplished through a cluster of courses.

**Faculty Director:** Dr. Seth DeBolt, Department of Horticulture.

Details and requirements for the DWBS Certificate are listed in the College of Agriculture, Food and Environment section in this Bulletin.

**College of Arts and Sciences**

**Appalachian Studies**

Students in any college may earn the Undergraduate Certificate in Appalachian Studies. The Certificate is interdisciplinary (requiring course work in at least two colleges) and combines critical analysis with experiential education in the Appalachian region. The course work and practicum are tailored for each student in consultation with the program director to make the interdisciplinary certificate relevant to the student’s major, interests, and career plans.

**Faculty Director:** Dr. Shauna Scott, Director, Appalachian Studies and Appalachian Center, (859) 281-6928.

Details and requirements for the Appalachian Studies Certificate are listed in the College of Arts and Sciences section of this Bulletin.

**Peace Studies**

The purpose of the Peace Studies program is to develop students with increased interests and understanding of issues of peace and justice from individual to global levels; to provide them with basic skills in peaceful communication, nonviolent and transformative conflict resolution; and to help them develop peaceful and cooperative cultures. The Peace Studies program will empower students to understand and reduce conflict at multiple levels, and will provide them with conflict resolution skills that are increasingly valued by employers, graduate programs, and are much needed in our communities.

**Faculty Director:** Dr. Clayton Thyne, Department of Political Science.

Details and requirements for the Peace Studies Certificate are listed in the College of Arts and Sciences section in this Bulletin.

**Gatton College of Business and Economics**

**Global Scholars**

The Certificate in Global Scholars gives students who have successfully completed the Global Scholars Program the recognition of this accomplishment on their transcripts. This program is designed to prepare those students accepted into the College for careers in international business.

**Faculty Director:** Dr. Scott Kelley, Department of Marketing and Supply Chain.

Details and requirements for the Global Scholars Certificate are listed in the College of Business and Economics section of this Bulletin.

**College of Communication and Information**

**Directing Forensics**

*PLEASE NOTE: The College of Communications & Information has suspended admissions to the Directing Forensics certificate program for the 2016-17 academic year.*

The Division of Instructional Communication and Research offers an undergraduate certificate that will prepare students to teach and coach competitive forensics at the middle school, high
Communication and Information

Faculty Director: Dr. Will Buntin, Department of Information Science.

Details and requirements for the Directing Forensics Certificate are listed in the College of Communication and Information section of this Bulletin.

Health Communication

The Health Communication Undergraduate Certificate is designed to give students an enhanced education in communication skills critical to health-related professions, beyond what would normally be received from the UK Core. Upon completion of the Certificate students will be able to determine how communication impacts the major contributors for disease prevention and control as well as how to identify and analyze communication strategies that are most effective for health promotion and wellness.

Faculty Director: Dr. Kelly McAninch, Department of Communication.

Details and requirements for the Health Communication Certificate are listed in the College of Communication and Information section of this Bulletin.

Innovation and Entrepreneurial Thinking

The Certificate program in Innovation and Entrepreneurial Thinking is designed to provide a coherent, integrated approach to helping ambitious undergraduate students develop and document the skills needed to become a successful innovator and entrepreneurial thinker. The Certificate is multi-disciplinary but is hosted by the College of Communication and Information and includes four courses (12 credit hours) completed over a one- to two-year period. Courses include a mix of topics such as communication and leadership, two elective courses on innovation and entrepreneurial thinking from participating colleges, and a required capstone course (EXP 455) involving a project with the iNET entrepreneur-in-residence.

Faculty Director: Dr. Kimberly A. Parker, School of Journalism and Telecommunications.

Details and requirements for the Innovation and Entrepreneurial Thinking Certificate are listed in the College of Communication and Information section of this Bulletin.

College of Education

Leadership Studies

The Undergraduate Certificate in Leadership Studies will allow students to demonstrate their preparedness to lead, live, and work in an interconnected and interdependent global community. Students will improve their understanding of leadership and develop the skills needed to lead in their particular field through a series of courses designed to provide a rich leadership focus.

Faculty Director: Dr. Maria Cahill, Assistant Professor, School of Information Sciences (College of Communication and Information) who holds a joint appointment in the Department of Educational Leadership Studies in the College of Education; and, Dr. Kris Ricketts, Community and Leadership Development (College of Agriculture, Food and Environment).

Details and requirements for the Leadership Studies Certificate are listed in the College of Education section of this Bulletin.

College of Engineering

Power and Energy

This Certificate in Power and Energy gives students the recognition of competency in the power and energy field. Successful completers of this Certificate will have an understanding of global energy issues, knowledge of electric power in an area that best fits their particular discipline (focusing particularly in power generation, transmission and distribution, or economics and public policy).

Faculty Director: Dr. Joseph Sottile, Department of Mining Engineering.

Details and requirements for the Power and Energy Certificate are listed in the College of Engineering section of this Bulletin.

College of Fine Arts

Musical Theatre Certificate for Voice Majors

These two interdisciplinary Certificates are offered jointly by the Department of Theatre and Dance and the School of Music. They will provide an opportunity for students in both units to gain knowledge in an area of study that includes acting, dance, voice and musical theatre techniques. Successful completers of this Certificate will be able to synthesize acting, singing and dancing in a musical theatre performance.

Faculty Co-Directors for the Musical Theatre Certificate for Voice Majors: Dr. Nancy Jones, Department of Theatre, and Dr. Noemi Lugo, Department of Voice in the School of Music.

Details and requirements for the Musical Theatre Certificate for Voice Majors and the Musical Theatre Certificate for Voice Majors are listed in the College of Fine Arts section of this Bulletin.

College of Health Sciences

Clinical Healthcare Management

Successful completion of the Certificate in Clinical Healthcare Management will demonstrate that the graduate is prepared to function successfully in a clinical leadership and management role in a health care institution. The program is useful for any currently enrolled UK student interested in obtaining clinical management skills; in addition, the program is useful for practicing clinical professionals (non-degree-seeking) such as nurses, physicians, dentists, physician assistants, physical therapists, respiratory therapists and other interested in enhancing their management skills.

Faculty Director: Dr. Ray Hill, Division of Clinical Leadership and Management within the Department of Clinical Sciences.

Details and requirements for the Clinical Healthcare Management Certificate are listed in the College of Health Sciences section of this Bulletin.

Nutrition for Human Performance

This certificate is hosted in the Human Health Sciences department and is co-located with the Departments of Dietetics and Human Nutrition and Kinesiology and Health Promotion. It is ideal for students who are pre-medicine, pre-physical therapy, or pre-physician assistant studies – and for those who have earned or are currently pursuing undergraduate degrees in nutrition (DHN), kinesiology (KHP), and human health sciences (HHS). This certificate provides a unique opportunity to provide students with a better understanding and appreciation for how nutrition impacts athletic performance and the role of diet and exercise in disease prevention.

Certificate Director: Dr. D. Travis Thomas, Assistant Professor, Clinical Nutrition, Department of Clinical Sciences (College of Health Sciences); and, Faculty Co-Directors: Dr. Tammy J. Stephenson, Assistant Professor, Department of Dietetics and Human Nutrition, School of Human Environmental Sciences (College of Agriculture, Food and Environment); and, Dr. Mark Abel, Associate Professor, Kinesiology and Health Promotion (College of Education).

Details and requirements for the Nutrition for Human Performance are listed in the College of Health Sciences section of this Bulletin.
Research in Health Sciences

The Office of Research in the College of Health Sciences in collaboration with The Departments of Rehabilitation Sciences and Clinical Sciences offers an undergraduate certificate in Undergraduate Research in Health Sciences. This certificate will enhance the educational goals of any University of Kentucky student interested in obtaining experience in health-related research to benefit the pursuit of a health care career.

Faculty Director: Dr. Gilson Capilouto, Department of Rehabilitation Sciences.

Details and requirements for the Research in Health Sciences Certificate are listed in the College of Health Sciences section of this Bulletin.

Undergraduate Certificates

(Notethe Dean of Undergraduate Studies is the Associate Provost for Undergraduate Education)

Global Studies

The Certificate in Global Studies is designed to show collaboration across all the undergraduate colleges in creating a focus for students’ scholarly work in international settings. Successful completers of this interdisciplinary Certificate have demonstrated their preparedness to live and work in a global community. There are four components: globally focused course work, second language coursework, credit-bearing education abroad experience, and co-curricular programming.

Faculty Director: Monica Blackmun Visonà, Administrative Associate, Undergraduate Education.

Details and requirements for the Global Scholars Certificate are listed below.

Undergraduate Certificate in Global Studies

Visit the Global Studies Web site at: www.uky.edu/UGE/global-studies

Participation in the Undergraduate Certificate of Global Studies at the University of Kentucky demonstrates your commitment to participating in a global community. Study at home, study abroad; do language; be part of the international community, at home, and overseas.

CGP recognizes your international experience, language study, your globally focused coursework, and, through co-curricular programming, your international engagement.

The Certificate of Global Studies will allow students to demonstrate their preparedness to live and work in a global community. By taking a series of courses with an international focus that amplifies the global dimension of their majors, by engaging in a credit-bearing education abroad experience, by enhancing their experience with a second language, and by participating in internationally-focused co-curricular activities, students will expand their view of the world and their place in it, and their perspectives on their own societies at home.

As the workplace seeks employees who can work in international or multicultural teams, and as participation in U.S. society increasingly demands the skills of global citizenship, our students will benefit from an additional degree credential, alongside their major(s) and/or minor(s), that demonstrates their dedication to and experience with global perspectives. Having this Certificate on the transcript will also show that the students are interested in the international facets of their academic and/or pre-professional training, which will be attractive to potential graduate programs or employers.

The structure of the Certificate of Global Studies offers an academic credential as well as a coherently planned academic core, for students who otherwise might simply take a smattering of international courses or participate in some type of isolated international experience. At the heart of the Certificate is the required Education Abroad experience (study abroad, internship, research abroad), but the Certificate’s structure is designed to make that experience integral to the undergraduate program of study. A coherent program in which the time abroad is both preceded and followed by appropriate opportunities for reflection, and bolstered by rigorous academic course work, will enhance the impact of the international experience. Research has demonstrated that one advantage of education abroad is that, when appropriately designed, it can move students from dependent to independent learners, and can help them to acquire interpersonal and intercultural competence.

This Certificate facilitates development of both objective and subjective intercultural experience. It will appeal to a wide range of students. It is intended to encourage study abroad and cross-cultural experiences, and facilitate and credential that experience. Students in semester-long study abroad experiences as well as those students undertaking international programs during an 8-week summer period, a 4-week term abroad, or even a 1- or 2-week “study tour” will benefit by study in situ. The Undergraduate Certificate in Global Studies offers a curriculum and co-curriculum to bolster the learning that takes place abroad. Students gain both interpersonal and intercultural competence and are able to credential it (by enrolling in a defined certificate course of study).

In the Certificate curriculum, the skills that are acquired during the student’s experience abroad is reinforced by course work that situates that experience in both academic and preprofessional growth, beyond that which is in the major or minor course of study. If the course work takes place before the program abroad, the student will be more receptive to the experience, better prepared to cope with cultural differences, and more educated about socio-historical contexts. If the course work takes place after the student’s return, it offers opportunities for reflection and enrichment of the lessons learned abroad. In either case, the experiential learning in the international context goes hand-in-hand with course work that has an intercultural and global focus. The Certificate curriculum is designed to be feasible across the array of UK academic majors. If the student already has selected a major with an international focus, the Certificate’s additional course work and required component abroad will extend and deepen that curriculum. And if the student has a major that does not have a visible and discrete international focus, the Certificate structure offers the student a context within which to understand the major from an internationally aware perspective.

Global Studies Curriculum

The Certificate of Global Studies curricula are as follows:

- A minimum of 12 credits of course work taken for a letter grade.
- At least 12 credits must be 200 level or above, and a minimum of 6 credits must be at the 300-level or above.
- The student must complete a three-credit breadth component. The breadth component requires that a student take courses in at least two disciplines, with a minimum of three credits to be completed in a second discipline.
- Student must earn a C or better in each required certificate course to receive the certificate.
- Certificates will only be awarded to students who successfully complete a degree, or have completed a four-year degree.
- No more than nine credits taken for a certificate can be used to satisfy the requirements for the student’s bachelor’s degree, a minor, or another certificate, exclusive of free or unrestricted electives.

The Undergraduate Certificate in Global Studies has four interlocking components: 1) globally focused course work, 2) second language course work, 3) credit-bearing education abroad component, and 4) co-curricular programming.

Globally Focused Course Work

Students must enroll in 12 hours of globally focused course work at the 200 level or above, in conformity with UK requirements for undergraduate certificates. As noted above at least 12 credits must be 200 level or above, and a minimum of 6 credits must be at the 300-level or above. “Globally focused course work” is satisfied as follows:
requirement; students must travel to a non-U.S. credit hour. Internationally oriented experiences this requirement in one of two ways: international experience. Students may satisfy student awareness and interaction within the facilities, they provide the tools for expanded ability enriches the international experience; fur- courses taken at UK provide linguistic compe- required for all undergraduates. All language second language is required at a level beyond that student as a global scholar, experience with a Service-learning based programs.

Second Language Course Work
For an academic credential that certifies a student as a global scholar, experience with a second language is required at a level beyond that required for all undergraduates. All language courses taken at UK provide linguistic competence and sophistication beyond what is provided in high school or by other means. The language ability enriches the international experience; further, because UK language courses incorporate significant cultural materials and exercise analytical facilities, they provide the tools for expanded student awareness and interaction within the international experience. Students may satisfy this requirement in one of two ways:

- Complete the third semester of a language sequence (e.g. level 201), or the proficiency equivalent thereof;
- Enroll in a language not previously studied in high school, at the first-semester level or above, or demonstrate the proficiency equivalent thereof.

Credit-Bearing Education Abroad
Students will participate in an education abroad experience that involves at least one academic credit hour. Internationally oriented experiences undertaken within the U.S. will not satisfy this requirement; students must travel to a non-U.S. region to fulfill the requirement. Examples might include, but are not limited to:

- Education abroad programs facilitated by UK faculty or select customized programs offered in conjunction with Education Abroad at UK;
- University-wide or departmental education abroad exchange programs;
- Education abroad programs facilitated through UK consortia;
- Education abroad programs hosted by international institutions in which UK students are directly enrolled; and
- Education Abroad programs facilitated by third-party providers and other internship/service-learning based programs.

Co-Curricular Programming
Successful completers of the Certificate of Global Studies will have participated in at least two approved co-curricular activities with an international focus after returning to the U.S. from education abroad. These co-curricular activities may include lectures, performances, workshops, volunteer work, or conferences. Some of the qualifying events at UK are listed on the Web site of the International Center, or students may hear of others from professors, friends, and organizations located both on and off campus. To find if an activity can be used for this requirement, contact the Certificate of Global Studies Director.

After the Director has approved an activity as the co-curricular event, students will write a reflective essay placing their responses within the context of the other experiences gained while earning the Certificate of Global Studies (including education abroad, language learning, and coursework). Note: Descriptions of courses, study abroad, and language acquisition in your essay will be compared to those recorded on your transcript.

When both of the essays have been reviewed and accepted as complete by the Certificate of Global Studies Director, a staff member in Undergraduate Education will review your transcript and make sure that you have met all of the other requirements and send students’ names to the Registrar for certification of completion. Contact Lauren James (lauren.james@uky.edu) for more information about the timing and process for certification.

Undergraduate Certificate in Universal Design
The Certificate in Universal Design is designed to give students a foundation in the principles of universal design and its application across disciplines. The Certificate will create a focus for students’ scholarly work in developing environments that maximize the engagement of all community members, including people with disabilities. Universal design creates environments and resources that are useable by people across the lifespan. Universal design utilizes a broad set of strategies that promote inclusion and participation of all, particularly people with disabilities, within a diverse world. Universal design creates environments and resources that are useable by people across the lifespan. Universal design utilizes a broad set of strategies that promote inclusion and participation of all, particularly people with disabilities, within a diverse world. Universal design grew from the Architectural Barriers Act, the Rehabilitation Act, the Education for All Handicapped Children Act, and the Americans with Disabilities Act. The Higher Education Opportunities Act furthered the reach of Universal Design through definition of Universal Design for Learning, or UDL, that provides flexibility in education in information presentation, student engagement and demonstration of knowledge.

The Certificate will provide academic recognition for participating in 12 hours of course work. This Certificate shows that the student has attained competency in universal design. Utilizing universal design ensures that the needs of the widest range of possible users are considered at the outset. The principles of universal design are applicable across environments and to programs and learning across the lifespan. Students in this Certificate will: 1) demonstrate mastery of basic principles of universal design and accessibility (includes knowledge of accessibility mapping, methods of implementing universal design in the environment, and ways of relating various designs as universal design); and 2) employ the basic principles of universal design and accessibility techniques, including identification of barriers to accessibility, possible solutions and the long-term benefit of solutions. Students will be able to analyze the use of universal design in eliminating barriers in environments.

Universal design implications impact any disciplines that interact with people across the lifespan and the communities in which they live. The Certificate is applicable to undergraduates across colleges, and therefore is best housed within Undergraduate Education. This Certificate utilizes new courses from the Human Development Institute (HDI) along with an elective that may come from within the student’s own academic unit. As such, the Certificate will emphasize and make meaningful elements from within the students’ own major. The content has been successful in Discovery Seminar Program (DSP) courses which are no longer available at UK. The courses comprising the Certificate offer a unique cross-disciplinary opportunity for students. By not affiliating with an existing degree program, the cross-section of students will effectively shape the direction of the Certificate with each incoming cohort.

A primary concern to students completing their course of study and entering the workforce is access to the programs, products, and environments in which we interact. Increasingly, students are seeking experiential opportunities to have an impact in their campus community and to work with diverse populations. It is vital for students to learn the value of multiple perspectives in order to approach new endeavors with critical thoughtfulness. We see this at the Human Development Institute through our Graduate Certificate in Developmental Disabilities and in ongoing student interest in projects around creating a more inclusive campus. Students from across colleges come together, informally or through course projects, to participate in accessibility mapping of campus and develop a greater understanding of universal design and the importance of issues around access for all. The courses within the Certificate for Universal Design will enable students to further build upon the UK Core competencies and utilize a broad set of universal design strategies that will prepare them for productive careers and meaningful participation in their communities with an enriched understanding of diversity. Students will be able to link their own course of study to their
Undergraduate Certificates

certificate participation. For example, a communications student may take a practicum in captioning, while a geography student’s practicum could focus on conducting surveys of universal design elements used in small businesses on a particular Lexington street. Students will have the opportunity to work in group projects that result in scholarly papers, presentations and posters. These collaborations will be interdisciplinary and represent a variety of departments. The ability to have multiple semesters to work through complex issues is a strength of the certificate format, as opposed to a single course. Students will be engaged through the Certificates experiential activities and will ultimately have an enhanced understanding of the dynamic and multi-faceted nature of the communities in which they live and work.

Admissions Criteria

Students currently enrolled as undergraduates or post-baccalaureates may apply to participate in the Certificate. Students must be in good academic standing with the University. Students must be enrolled in or have completed HDI 350 to apply. The Faculty of Record will review applications and consider GPA, major, and student essay.

Core Courses

HDI 350 Universal Design: Applications in the Built, Virtual, and Learning Environments ........................................ 3
HDI 400 Universal Design Practicum ..................................... 3
HDI 500 Universal Design Practicum II: Advanced Techniques ........................................ 3

Elective Courses

Choose one of the following courses:
EDS 517 Assistive Technology in Special Education .......... 3
ID 234 Environmental Theory ......................................... 3
Any other course approved by Certificate Director .......... 3

Total Credit Hours: ........................................ 12

Faculty Director: Dr. Kathleen Sheppard-Jones, director of the Human Development Institute (HDI), and adjunct professor in the Department of Early Childhood, Special Education and Rehabilitation Counseling, College of Education.
The UK Core – General Education Requirements

The University of Kentucky’s general education program—the UK Core—is foundational to a university education at the University of Kentucky. A university education is more than simply learning a set of skills in a specific area in preparation for a job or career. A university education is designed to broaden the students’ understanding of themselves, of the world we live in, of their role in our global society, and of the ideals and aspirations that have motivated human thought and action throughout the ages. It must help individuals effectively put into action their acquired knowledge, to provide the bases for critical thinking and problem solving, and to develop life-long learning habits.

The UK Core is composed of the equivalent of 30 credit hours in 10 course areas that address four broad learning outcomes. Depending on choice of major or courses, some students may take more than 30 credit hours to complete the UK Core.

The UK Core Learning Outcomes

The UK Core curriculum is based on a comprehensive set of student learning outcomes that all students are expected to be able to demonstrate upon completion of a baccalaureate degree at the University of Kentucky. All UK Core courses are designed to meet one or more of the following learning outcomes:

I. Students will demonstrate an understanding of and ability to employ the processes of intellectual inquiry. [12 credit hours]

Students will be able to identify multiple dimensions of a good question (i.e., interesting, analytical, problematic, complex, important, genuine, researchable); determine when additional information is needed, find credible information efficiently using a variety of reference sources, and judge the quality of information as informed by rigorously developed evidence; explore multiple and complex answers to questions/issues/problems within and across the four broad knowledge areas: arts and creativity, humanities, social and behavioral sciences, and natural/physical/mathematical sciences; evaluate theses and conclusions in light of credible evidence; explore the ethical implications of differing approaches, methodologies or conclusions; and develop potential solutions to problems based on sound evidence and reasoning. Students will take four 3-credit courses, one in each of the four broad knowledge areas defined above.

II. Students will demonstrate competent written, oral, and visual communication skills both as producers and consumers of information. [6 credit hours]

Students will demonstrate the ability to construct intelligible messages using sound evidence and reasoning that are appropriate for different rhetorical situations (audiences and purposes) and deliver those messages effectively in written, oral, and visual form. Students will also demonstrate the ability to competently critique (analyze, interpret, and evaluate) written, oral, and visual messages conveyed in a variety of communication contexts. Students will take one 3-hour course focusing on the development of effective writing skills, and one 3-hour integrated communications course focusing on oral and visual communication skills, along with continued development of written communication skills.

III. Students will demonstrate an understanding of and ability to employ methods of quantitative reasoning. [6 credit hours]

Students will (a) demonstrate how fundamental elements of mathematical, logical and statistical knowledge are applied to solve real-world problems; and (b) explain the sense in which an important source of uncertainty in many everyday decisions is addressed by statistical science, and appraise the efficacy of statistical arguments that are reported for general consumption. Students will take one 3-hour course on the application of mathematical, logical and statistical methods, and one 3-hour course devoted to a conceptual and practical understanding of statistical inferential reasoning.

IV. Students will demonstrate an understanding of the complexities of citizenship and the process for making informed choices as engaged citizens in a diverse, multilingual world. [6 credit hours]

Students will recognize historical and cultural differences arising from issues such as ethnicity, gender, language, nationality, race, religion, sexuality, and socioeconomic class; students will demonstrate a basic understanding of how these differences influence issues of social justice, both within the U.S. and globally; students will recognize and evaluate the ethical dilemmas, conflicts, and trade-offs involved in personal and collective decision making. Students will take two courses, each with a topical or regional focus. The first course will include critical analysis of diversity issues as they relate to the contemporary United States. The second will be a non-US based course that includes critical analysis of local-to-global dynamics as they relate to the contemporary world. In addition, each course must address at least 2 of these 4 topics: societal and institutional change over time; civic engagement; cross-national/comparative issues; power and resistance.

The Curricular Framework and Relationship to the Learning Outcomes

Students must take one course from each of the areas listed below in order to complete the UK Core. A course taken to satisfy a requirement in one area of the UK Core cannot be used to satisfy a requirement in another area, even if a specific course is present in more than one area (e.g., some courses are designed to meet the learning outcomes in more than one area).
I. Intellectual Inquiry in Arts and Creativity

Courses in this area are hands-on courses that allow students to engage actively with the creative process. Students will define and distinguish different approaches to creativity, demonstrate the ability to critically analyze work produced by other students, and evaluate results of their own creative endeavors. In general education, a focus on creativity adds to the vitality and relevance of learning and will translate into graduates who are better prepared to face the challenges of a dynamic society.

To fulfill the Arts and Creativity requirement, complete one of the following:

- ENG 130 Literary Encounters
- ENG 168 All That Speak of Jazz: An Intellectual Inquiry Into Jazz and Democracy
- GEO 109 Digital Mapping
- HON 252 Honors in Arts and Creativity (Subtitle required)
- ICT 200 Information Literacy and Critical Thinking
- IS 200 Information Literacy and Critical Thinking
- LA 111 Living on the Right Side of the Brain
- MCL 311 The World of Autobiography
- ME 411 ME Capstone Design I
- MNG 592 Mine Design Project II
- MUS 123 Beginning Classroom Guitar
- MUS 130 Performing World Music (Subtitle required)
- MUS 200 Music for Living
- MUS 222 Creativity and Innovation in Rock Music
- PHI 315 Philosophy and Science Fiction
- PLS 240 Introduction to Social Psychology
- TA 110 Theatre: An Introduction
- TA 120 The Creative Process in Acting
- TA 150 Creativity and the Art of Design and Production
- TA 220 Shakespeare Page to Stage
- TA 370 Staging History
- TAD 140 Introduction to Dance
- WRD 312 Introduction to Documentary

*The UK Core is designed to provide the equivalent of 30 credit hours. Some courses in the UK Core require more than three credits, resulting in more than 30 credits in some cases. Please consult your advisor for a complete list of options.
II. Intellectual Inquiry in the Humanities

These courses develop students’ skills in interpretation and analysis of creations of the human intellect such as art and literature (including folklore, popular culture, film and digital media), philosophical and religious contemplation and argumentation, language systems, and historical narratives. In these courses, students gain the ability not only to analyze the works themselves but to evaluate competing interpretations of such works.

To fulfill the Humanities requirement, complete one of the following:

- A-H 101 Introduction to Visual Studies
- A-H 105 World Art Before 1400
- A-H 106 Renaissance to Modern Art
- A-H 334 Reframing Renaissance Art
- AAS 253 History of Pre-Colonial Africa
- AAS 254 History of Colonial and Post-Colonial Africa
- AAS 264 Introduction to Black Writers
- AIS 228 Islamic Civilization
- AIS 320 Modern Arabic Literature and Film in Translation
- AIS 345 Islamic Mysticism
- ARC 314 History and Theory III: 20th Century and Contemporary Architecture
- CHI 330 Introduction to Chinese Culture, Pre-Modern to 1840
- CHI 331 Introduction to Chinese Culture, 1840 to Present
- CLA 135 Greek and Roman Mythology
- CLA 191 Christianity, Culture, and Society: A Historical Introduction
- CLA 229 The Ancient Near East and Greece to the Death of Alexander the Great
- CLA 230 The Hellenistic World and Rome to the Death of Constantine
- CPH 309 Health, History, and Human Diversity
- ENG 142 Global Shakespeare
- ENG 201 Literature, Technology, and Culture
- ENG 191 Literature and the Arts of Citizenship
- ENG 209 The Structure and Use of English
- ENG 230 Introduction to Literature (Subtitle required)
- ENG 260 Introduction to Black Writers
- ENG 280 Introduction to Film
- ENG 290 Introduction to Women’s Literature
- EPE 350 Town and Gown in Fact and Fiction: Campus and Community as Local History
- FR 103 French Cinema
- FR 205 The French Graphic Novel
- FR 225 French Film Noir
- GER 103 Fairy Tales in European Context
- GER 105 German Film Today
- GWS 201 Gender and Popular Culture
- GWS 309 Health, History, and Human Diversity
- HIS 104 A History of Europe Through the Mid-Seventeenth Century
- HIS 105 A History of Europe from the Mid-Seventeenth Century to the Present
- HIS 108 History of the United States Through 1876
- HIS 109 History of the United States Since 1877
- HIS 112 The Making of Modern Kentucky
- HIS 119 War and Society, 1350-1914
- HIS 121 War and Society, 1914-1945
- HIS 130 Drugs and Alcohol in Western Civilization, 1492 to the Present
- HIS 191 A History of World Religions (Subtitle required)
- HIS 202 History of the British People to the Restoration
- HIS 203 History of the British People Since the Restoration
- HIS 229 The Ancient Near East and Greece to the Death of Alexander the Great
- HIS 230 The Hellenistic World and Rome to the Death of Constantine
- HIS 253 History of Pre-Colonial Africa
- HIS 254 History of Colonial and Post-Colonial Africa
- HIS 256 East Asia Since 1600
- HON 151 Honors in Humanities (Subtitle required)
- ID 161 History and Theory of Interior Environments I
- ID 162 History and Theory of Interior Environments II
- ITA 363 Introduction to Folklore and Mythology
- ITA 360 Global Horror
- ITA 369 Catastrophes and Calamities in the Greco-Roman World and Afterwards
- MUS 100 Introduction to Music
- PHI 100 Introduction to Philosophy: Knowledge and Reality
- PHI 260 History of Philosophy I: From Greek Beginnings to the Middle Ages
- PHI 270 History of Philosophy II: From the Renaissance to the Present Era
- PHI 310 Philosophy of Human Nature
- PHI 317 Existentialist Thought and Literature
- PHI 380 Death, Dying and the Quality of Life
- RUS 275 Russian Film
- RUS 371 Russian Culture 900-1900
- RUS 371 Russian Culture 1900-Present
- SPA 262 Hispanic Literatures in Translation (Subtitle required)
- SPA 330 Spanish and Globalization
- SPA 371 Latin American Cinema (Subtitle required)
- SPA 372 Spanish Cinema (Subtitle required)
- TA 385 World Theatre I
- TA 386 World Theatre II
- TA 388 History of the American Musical
- WRD 210 Social Media: Theory, Culture, Politics, Practice
- WRD 320 Rhetorical Theory and History

* Architecture students only.
IV. Intellectual Inquiry in the Social Sciences

These courses promote an understanding of the relationships between individuals and society and how scholars have come to understand these relationships using conceptual models and processes of inquiry. Through a discipline-based study of social problems or themes, students will learn to critically evaluate the variety of social situations with which they may be confronted in their everyday lives.

To fulfill the Social Sciences Requirement, complete one of the following:

- AIS 430 Islam in America
- ANT 101 What Makes Us Human? Intro to Anthropology
- ANT 102 Archaeology: Mysteries and Controversies
- ANT 103 Sports, Culture, and Society
- ANT 335 Religion in Everyday Life
- ANT 339 Human Rights in Global Perspective
- CLD 102 The Dynamics of Rural Social Life
- COM 101 Introduction to Communications
- COM 311 Taking Control of Your Health: Patient-Provider Communication
- COM 313 Interpersonal Communication in Close Relationships
- COM 314 The Dark Side of Interpersonal Communication and Relationships
- COMM 317 Communication in Family and Marital Relationships
- CPH 201 Introduction to Public Health
- CPH202 Public Health Through Popular Film
- CPH203 Sexual Health
- ECO 101 Contemporary Economic Issues
- EGR 120 Technology: Blessing or Curse
- EPE 174 Theories of College Student Success
- EPE 374 Theories of College Student Development and Mentoring
- GEO 172 Human Geography
- GWS 200 Sex and Power
- HON 251 Honors in Social Sciences (Subtitle required)
- HP 101 Historic Preservation: How the Past Informs the Future
- ICT 150 Experience ICT
- MCL 135 Vampires: Evolution of a Sexy Monster
- MCL 270 Introduction to Folklore and Mythology
- PCE 201 Introduction to Peace Studies
- PS 230 Introduction to International Relations
- PSY 100 Introduction to Psychology
- RUS 370 Russian Folklore (in English)
- SOC 101 Introduction to Sociology
- UKC 131 SS Inquiry: Subtitle required
- UKC 330 SS Inquiry Upper Division: Subtitle required

* Students may not receive credit for both SOC 101 and CLD 102.

---

\*CHE 105 and 111 are paired courses. To earn UK Core credit, both courses must be completed. CHE 111 may be taken concurrently with CHE 105 or after CHE 105 has been completed. Students must sign up for them separately.

* CHE 109 and CHE 110 are equivalent to CHE 105. To earn UK Core credit, students must complete CHE 109, CHE 110 and CHE 111. Students must sign up for them separately.

** PHY 231 and 241 are paired courses. To earn UK Core credit, both PHY 231 and PHY 241 must be completed. They may be taken in either order and students must sign up for them separately.

Courses listed in blue type are being offered in fall 2016.
V. Composition and Communication I

In this course, students are introduced to the process of writing, speaking, and visually representing their own ideas and the ideas of others; they also practice basic interpersonal communication skills and the ability to communicate with multiple audiences.

To fulfill the Composition and Communication I requirement, complete one of the following:

- CIS 110 Composition and Communication I
- CIS 112 Accelerated Composition and Communication II (CIS)
- WRD 110 Composition and Communication I
- WRD 112 Accelerated Composition and Communication II (WRD)

Placement in CIS/WRD 112 – Students who have a score of 32 or above on the English component of the ACT; a score of 720 or above on SAT I Verbal; or a standard score of 4 or 5 on the AP English Language Exam receive placement in CIS/WRD 112. No credit for CIS/WRD 110/111 is awarded.

VI. Composition and Communication II

In this course, students research public controversies and work in teams to analyze and argue for a solution to these controversies in oral, written, and visual/digital forms for multiple audiences.

To fulfill the Composition and Communication II requirement, complete one of the following:

- CIS 111 Composition and Communication II
- CIS 112 Accelerated Composition and Communication II (CIS)
- CIS 184 Communicating Arguments
- WRD 111 Composition and Communication II
- WRD 112 Accelerated Composition and Communication II (WRD)

Placement in CIS/WRD 112 – Students who have a score of 32 or above on the English component of the ACT; a score of 720 or above on SAT I Verbal; or a standard score of 4 or 5 on the AP English Language Exam receive placement in CIS/WRD 112. No credit for CIS/WRD 110/111 is awarded.

VII. Quantitative Foundations

These courses are concerned with the application of mathematical concepts and skills to solve real-world problems. In order to perform effectively as professionals and citizens, students must become competent in reading and using quantitative data, in understanding quantitative evidence and in applying basic quantitative skills to the solution of real-life problems.

NOTE: Students must have demonstrated basic proficiency in math skills as determined by a minimum Math ACT of 19 or the appropriate math placement test to take these courses.

To fulfill the Quantitative Foundations requirement, complete one of the following:

- CS 261 Social Networks: Methods and Tools
- EES 151 Earth Dynamics
- EES 155 Earthquakes and Quantitative Reasoning
- EES 185 Quantifying the Bluegrass Water Supply
- FOR 200 Basics of Geospatial Technology
- MA 111 Introduction to Contemporary Mathematics
- MA 113 Calculus I
- MA 123 Elementary Calculus and Its Applications
- MA 137 Calculus I With Life Science Applications
- PHI 120 Introductory Logic

Courses listed in blue type are being offered in fall 2016.
VIII. Statistical Inferential Reasoning

These courses will encourage students to evaluate claims based on statistical principles by providing an understanding of the conceptual and practical applications of statistical reasoning and thinking. Students will receive an introduction to the science of statistics, and while students will be expected to reason with statistical ideas and make sense of statistical information, computations are not the focus.

To fulfill the Statistical Inferential Reasoning requirement, complete one of the following:

<table>

* PSY 215 and 216 are paired courses and are restricted to Psychology majors and minors. To earn UK Core credit, both PSY 215 and PSY 216 must be completed. They may be taken in either order and students must sign up for them separately.

IX. Community, Culture and Citizenship in the USA

These courses promote a student’s understanding of historical, societal, and cultural differences, such as those arising from race, ethnicity, gender, sexuality, language, nationality, religion, political and ethical perspectives, and socioeconomic class; engage students in grappling with conflicts, compromises, and/or ethical dilemmas stemming from the complex and diverse cultural contexts of US communities; and foster effective and responsible participation in a diverse community or society in the United States.

To fulfill the Community, Culture and Citizenship in the USA requirement, complete one of the following:

* GEN 100 is for College of Agriculture students only.
X. Global Dynamics

These courses equip students to participate in a diverse, multiethnic, multilingual world community. Toward this end, students consider issues of equality, ethical dilemmas, global trends, social change, and civic engagement in the context of local cultures outside the U.S.

To fulfill the Global Dynamics requirement, complete one of the following:

Foreign Language Requirement

Foreign language is no longer explicitly required as part of the new UK General Education, the UK Core. However, foreign language proficiency is still an expectation for students who enter UK, and is still considered to be an important part of the students’ educational background.

Any first-time freshman or transfer student must demonstrate that they have completed two high school credits in a single foreign language, or two semesters at the postsecondary level. A student who has not completed the high school foreign language requirement will be required to take a two-semester sequence in one foreign language at the University of Kentucky prior to graduation.
The research, teaching, extension, and regulatory functions of the College of Agriculture, Food and Environment are combined into a coordinated, mutually supporting program of undergraduate and graduate education. Teaching in this college is closely related to the other functions thus providing the student with a unique opportunity to broaden his or her background in the areas of research and application of scientific findings to stakeholders.

Degrees and preprofessional programs in the college encompass the entire range of the food, fiber, and agricultural system from farm production and marketing, manufacturing, processing and fabrication through nutrition, hospitality management, and consumer, community, and family sciences.

The School of Human Environmental Sciences is part of the College of Agriculture, Food and Environment. Degree requirements and information pertaining to these programs are listed beginning on page 120.

Admission

All students planning to study any phase of agriculture, food or environment, including pre-veterinary medicine, are admitted directly into the College of Agriculture, Food and Environment. Application for admission is made through the Office of Undergraduate Admissions.

Students interested in the Landscape Architecture program must meet all requirements for admission to the University. In addition, enrollment in the landscape architecture program is determined by a selective admission procedure. Applicants are selected on a competitive basis as determined by potential success in the program.

Students must apply for the Coordinated Program in Dietetics by February 1 prior to potential admission to year three in the Dietetics Program. For additional information, see page 121.

Accreditation

The undergraduate Forestry program at the University of Kentucky is accredited by the Society of American Foresters. The Landscape Architecture program is accredited by the American Society of Landscape Architects and meets all the requirements for licensing of landscape architects in Kentucky and other states. The Food Science program is accredited by the Institute of Food Technologists.

Accreditations for the School of Human Environmental Sciences are listed on page 120 of this Bulletin.

Undergraduate Programs in Agriculture, Food and Environment

The University of Kentucky grants the following degrees in the College of Agriculture, Food and Environment:

- Bachelor of Science in Agriculture
- Bachelor of Science in Agricultural and Medical Biotechnology
- Bachelor of Science in Agricultural Economics
- Bachelor of Science in Animal Sciences
- Bachelor of Science in Career and Technical Education
- Bachelor of Science in Community and Leadership Development
- Bachelor of Science in Dietetics
- Bachelor of Science in Equine Science and Management
- Bachelor of Science in Family Sciences
- Bachelor of Science in Food Science
- Bachelor of Science in Forestry
- Bachelor of Science in Horticulture, Plant and Soil Sciences
- Bachelor of Science in Hospitality Management and Tourism
- Bachelor of Science in Human Nutrition
- Bachelor of Science in Landscape Architecture
- Bachelor of Science in Merchandising, Apparel and Textiles
- Bachelor of Science in Natural Resources and Environmental Science

Information and degree requirements for each program follows. Students may obtain additional information on programs and recommended plans of study from the Office of Academic Programs Advising Resource Centers.

SPECIAL APPLICATION DEADLINE FOR SCHOOL OF HUMAN ENVIRONMENTAL SCIENCES

Coordinated Program in Dietetics

Upper division program applicants (students who have 71 semester hours of lower division courses) – special application, transcript(s), and recommendations are due by:

- February 1 For fall entry to
  Coordinated Program

The college offers minors in agricultural economics, community and leadership development, animal sciences, entomology, family sciences, pest management, plant and soil science, and sustainable agriculture.

The college offers an undergraduate certificate in Distillation, Wine and Brewing Studies.

Students majoring in biosystems engineering are enrolled in the College of Engineering. Degree requirements and curriculum are listed in the College of Engineering section of this Bulletin.

See page 121 of this Bulletin for the list of degree requirements for majors in the School of Human Environmental Sciences.

Undeclared Majors

Students who are interested in the College of Agriculture, Food and Environment but are undecided about a major should work closely with an advisor in the college who will assist them in selecting courses that will fulfill general requirements while exploring the various areas of study in agriculture, food and environment.

Scholarships and Financial Aid

The College of Agriculture, Food and Environment offers scholarship awards to students on the basis of academic accomplishment and involvement in extracurricular activities. Many of the departments in the college employ students in laboratories, greenhouses, barns, and field work in connection with the college’s research programs in agriculture. Information about scholarships and work opportunities is available in the Office of Academic Programs.

Freshman scholarship applications are due January 15. Upperclass and transfer scholarship applications are due April 1. For more information go to:

http://academics.ca.uky.edu/scholarships
Academic Advising

Students in the College of Agriculture, Food and Environment are advised by selected faculty or academic coordinators in the department of the student’s major. Each student’s academic record is maintained in the Office of Academic Programs Advising Resource Centers in N8 Ag. Science Center or 112 Erikson Hall. Students needing assistance selecting an advisor or general information about academics may go to either of the Office of Academic Programs Advising Resource Centers.

Inquiries about programs or majors within the College of Agriculture, Food and Environment may be directed to:

**College of Agriculture, Food and Environment**

**Office of Academic Programs**

N6 Ag. Science Building – North

University of Kentucky

Lexington, KY 40546-0091

(859) 257-3468 or (859) 257-3469

**Dean’s List**

A student who completes at least 12 credits of “letter” grades with a 3.50 or higher grade-point average with no I grades listed for the fall or spring semester will be named to the Dean’s List in the College of Agriculture, Food and Environment. CLEP, AP, special exam and Independent Study credits are excluded. The student’s cumulative grade-point average is not considered; only the grade-point average for that particular semester is relevant. Exceptional circumstances including fewer than 12 credits will be considered for inclusion on the Dean’s List; students should submit a petition to either Advising Resource Center in 112 Erikson Hall or N8 Ag Science Center.

Graduate Work

The College of Agriculture, Food and Environment offers the Master of Science degree in the following areas: Agricultural Economics, Animal and Food Sciences, Biosystems and Agricultural Engineering, Community and Leadership Development, Entomology, Family Sciences, Forestry, Integrated Plant and Soil Science, Nutrition and Food Systems, Plant Pathology, Retailing and Tourism Management, and Veterinary Science.

Doctor of Philosophy degrees are offered in the following areas: Agricultural Economics, Animal and Food Sciences, Biosystems and Agricultural Engineering, Entomology, Family Sciences, Integrated Plant and Soil Science, Plant Pathology, and Veterinary Science. For more information, visit the Graduate School Web site at: www.research.uky.edu/gs/.

### MINIMUM REQUIREMENTS FOR GRADUATION

**NOTE:** The following graduation requirements do not apply to degree programs in the School of Human Environmental Sciences; those requirements are described in the corresponding section of this Bulletin. Except where noted in specific degree programs, all students pursuing a Bachelor of Science degree in the College of Agriculture, Food and Environment must complete:

1. the UK Core and University graduation requirements;
2. GEN 100: Issues in Agriculture, Food and Environment is required for all first semester Freshmen. Students who transfer into the College and have already completed the UK Core U.S. Citizenship requirement are not required to take GEN 100;
3. a minimum of 120 credit hours with at least a 2.0 grade-point average. Some programs require more than the minimum 120 credit hours and have other grade-point average requirements. Remedial courses may not be counted toward the total hours required for the degree;
4. an Agriculture Major with a minimum of 24 hours including 3 hours in a 400-level capstone course;
5. a core of specialty or professional support courses outside the major department totaling at least 18 hours at the 200 level or above; and
6. a minimum of 45 credit hours from upper division courses (300 and above).

**B.S. in Agriculture with a major in INDIVIDUALIZED PROGRAMS**

Individualized program opportunities have been developed to assist students with academic goals that cross several disciplines. Students pursuing the Bachelor of Science in Agriculture may pursue an individualized program in agriculture such as Entomology, Modern Agronomic Crop Production, Sustainable Agriculture or Technical Systems Management.

The procedure for entering an individualized program is as follows:

1. Each student must apply to the Associate Dean for Instruction. The student will receive an explanation of the program and its objectives, and the possible risks involved, including prospective employment and acceptance for advanced graduate degree work.
2. Students who continue their interest in the individualized program develop, with the assistance of an advisor, the plan which they propose to follow.
3. This plan must be submitted to the Associate Dean for consideration and possible approval.
4. Approval of the student’s program by the Associate Dean will admit the student to the individualized program option.

For more information, contact:

**College of Agriculture, Food and Environment**

**Office of Academic Programs**

N6 Ag. Science Building – North

University of Kentucky

Lexington, KY 40546-0091

(859) 257-3468 or (859) 257-3469

**BACHELOR OF SCIENCE IN AGRICULTURAL AND MEDICAL BIOTECHNOLOGY**

Agricultural and medical biotechnology encompasses cellular and molecular approaches to the manipulation and improvement of agricultural plants, animals and microorganisms, and the control of agricultural pests and diseases. The primary purpose of the baccalaureate degree program in Agricultural and Medical Biotechnology is to train students in modern cellular and molecular biology and genetic engineering. Students will be provided with a firm foundation in the principles of genetics and molecular biology of both prokaryotic and eukaryotic organisms. Each student will then specialize in an area appropriate to his or her interest and career objectives, including: microbiological, fungal, plant, insect and mammalian biotechnology.

Graduates will be prepared to assume government, university, and industry positions with research and technology applications to agriculture and food production. Employment opportunities include research scientists, laboratory technicians or managers in university, government, industrial, or clinical laboratories using biotechnological tools for research and production. Examples of research areas include: gene cloning, construction of novel pest and disease resistance genes, development of new immunological and nucleic acid types of diagnostic probes for plant and animal disease, genetic engineering of microorganisms for the production of important pharmaceutical agents, and development of new bioengineered strains of microorganisms for fermentation and food production services. Students will also be prepared to enter graduate programs in agriculture, molecular biology, and the biological sciences.

**Graduation Requirements**

To earn a Bachelor of Science in Agricultural and Medical Biotechnology the student must complete 128 semester hours with at least a 2.0 grade-point standing. A minimum of 45 credit hours must be from upper division courses (300 and above). Remedial courses may not be counted toward the total hours required for the degree. In addition to the UK Core requirements, students must complete college, premajor, major, and specialty support requirements, including an independent research project relevant to the student’s interest in biotechnology.
# College of Agriculture, Food and Environment

## UK Core Requirements

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

| I. Intellectual Inquiry in Arts and Creativity |  |
| Choose one course from approved list | 3 |

| II. Intellectual Inquiry in the Humanities |  |
| Choose one course from approved list | 3 |

| III. Intellectual Inquiry in the Social Sciences |  |
| Choose one course from approved list | 3 |

| IV. Intellectual Inquiry in the Natural, Physical, and Mathematical Sciences |  |
| CHE 105 General College Chemistry | 4 |
| CHE 111 Laboratory to Accompany General Chemistry I | 1 |

| V. Composition and Communication I |  |
| CIS/WRD 110 Composition and Communication I | 3 |

| VI. Composition and Communication II |  |
| CIS/WRD 111 Composition and Communication II | 3 |

| VII. Quantitative Foundations |  |
| MA 123 Elementary Calculus and Its Applications | 3 |
| or MA 113 Calculus I |  |
| or MA 137 Calculus I |  |
| With Life Science Applications | 4 |

| VIII. Statistical Inferential Reasoning |  |
| STA 296 Statistical Methods and Motivations | 3 |

## Major Requirements

### Hours

| ABT 101 Introduction to Biotechnology | 1 |
| ABT 201 Scientific Method in Biotechnology | 1 |
| ABT 301 Writing and Presentations in the Life Sciences | 2 |
| BIOC 208 Principles of Microbiology | 3 |
| BIOC 209 Principles of Microbiology Laboratory | 2 |
| BCH 401G Fundamentals of Biochemistry | 3 |
| ABT 120 Genetics and Society | 3 |
| or BIOC 304 Principles of Genetics | 3-4 |
| ABT 460 Introduction to Molecular Genetics | 3 |
| ABT 461 Introduction to Population Genetics | 3 |
| STA 296 Statistical Methods and Motivations | 3 |
| or BST 330 Statistical Thinking for Population Health | 3 |
| ABT 395 Independent Study in Biotechnology | 4 |
| or ABT 399 Experiential Learning in Biotechnology | 3 |
| All students are expected to undertake an independent study project in an area of their interest for a minimum of 3 credit hours. This requirement can be met by a research project or an internship that is agreed upon by a student’s advisor and approved by the Biotechnology Coordinating Committee prior to initiation of the project. Both written and oral reports are required when the project is completed. | **Subtotal: Major hours** | **34-35** |

### Specialty Support

Students must take a minimum of 21 credit hours of specialty support courses including at least one of the courses listed below. A number of the courses listed here may have additional prerequisites. Additional specialty support courses will be selected according to the student’s area of interest with approval of the academic advisor.

| ASC 364 Reproductive Physiology of Farm Animals | 4 |
| BIO 315 Introduction to Cell Biology | 4 |
| BIO 350 Animal Physiology | 4 |
| BIO/PGY 502 Principles of Systems, Cellular and Molecular Physiology | 5 |

| **Subtotal: Specialty Support hours** | **21** |

## Electives

Electives should be selected to complete the 128 hours required for graduation.

| **Subtotal: Electives** | **minimum of 4** |

| **TOTAL HOURS:** | **128** |

### BACHELOR OF SCIENCE IN AGRICULTURAL ECONOMICS

The Agricultural Economics program enables graduates to pursue careers in agribusiness and food industries, international marketing and trade, or farm management and production. Opportunities are also available in public policy for agriculture and rural America and environmental economics. These career opportunities may be found in both the private and public sectors. Economic theory is applied to problems concerning the production, marketing, and distribution of agricultural and food products and also to public policy and natural resource and environmental issues facing rural communities.

Agricultural Economics students choose one of the following options:

- **Option A: Agricultural Economics**
- **Option B: Agribusiness Management and Food Marketing**

### Graduation Requirements

To earn the Bachelor of Science in Agricultural Economics, the student must have a minimum of 120 credit hours with at least a 2.0 grade-point average in one of the two program options. A student must earn a minimum grade of C in each of the four agricultural economics courses required in the major. A minimum of 45 credit hours must be from upper division courses (300 and above). Remedial courses may not be counted toward the total hours required for the degree. In addition to UK Core requirements, students must complete college, departmental and support requirements.

## UK Core Requirements

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

| I. Intellectual Inquiry in Arts and Creativity | Choose one course from approved list | 3 |

| II. Intellectual Inquiry in the Humanities | Choose one course from approved list | 3 |

| III. Intellectual Inquiry in the Social Sciences |  |
| Choose one course from approved list | 3 |

| IV. Intellectual Inquiry in the Natural, Physical, and Mathematical Sciences |  |
| MA 123 Elementary Calculus and Its Applications | 3 |
| or MA 113 Calculus I |  |
| or MA 137 Calculus I With Life Science Applications | 4 |

AEC 306 Technical Communication in Economics ................................. 2

Graduation Composition and Communication Requirement hours (GCCR) ....... 2

OPTIONS

Option A – Agricultural Economics
This option provides a program of study for students interested in careers in rural public policy analysis, rural economic development, natural resource and environmental economics, cooperative extension, or a more individualized program.

Premajor Requirements Hours
ECO 201 Principles of Economics I ............................................. 3
ECO 202 Principles of Economics II ............................................. 3
MA 113 Calculus I .................................................................. 4
OR
MA 123 Elementary Calculus and Its Applications .......................... 4
MA 162 Finite Mathematics and Its Applications ......................... 7
STA 296 Statistical Methods and Motivations .................................... 3
ECO 391 Economic and Business Statistics ...................................... 3
Subtotal: Premajor hours .......................................................... 16-19

Major Requirements Hours
Notes: Students must have a C or higher in ECO 201 to enroll in the core classes and a C or higher in ECO 201 and MA 123 to enroll in AEC 303. Students must receive a grade of C or better in each of the following four agricultural economics courses required for graduation:
AEC 302 Agricultural Management Principles ............................... 4
AEC 303 Microeconomic Concepts in Agricultural Economics .......... 3
AEC 305 Food and Agricultural Marketing Principles ..................... 3
AEC 306 Technical Communication in Economics ............................. 2
AEC 409 Quantitative Methods and Price Analysis ............................ 3
plus, after completing AEC 302 or AEC 303 or AEC 305:
AEC 301 Career Readiness for Agricultural Economics .................. 1
plus one of the following:
AEC 395 Independent Research in Agricultural Economics ............ 1
AEC 396 International Studies in Agricultural Economics ................. 1
AEC 399 Experiential Learning in Agricultural Economics ............... 1-3
plus 12 additional hours in the major (at least 3 hours at 400+ level) .... 12
Subtotal: Major hours .................................................................. 31

Specialty Support Hours
ACC 201 Financial Accounting I .................................................. 3
ACC 202 Managerial Uses of Accounting Information ..................... 3
plus 15 additional hours of courses at the 200 level or higher to fulfill the student’s area of interest and selected with advisor’s approval from the following departments: ACC, AEN, AN, ASC, BAE, COM, CS, ECO, ENT, FIN, FOR, MA, MGT, MKT, PLS, PS, PSY, SOC, VS .................. 15
Subtotal: Specialty Support hours ............................................. 21

Electives
Electives should be selected by the student to lead to the minimum total of 120 hours required for graduation.

Subtotal: Electives ........................................................................ 20

TOTAL HOURS: .................................................. 120

Option B – Agribusiness Management and Food Marketing
A student in this option should be qualified for careers in marketing, sales, and management of farms or firms involved in production, financing, processing, marketing and distribution of food and agricultural products, depending on the electives chosen.

Premajor Requirements Hours
CS 101 Introduction to Computing I ............................................... 3
ECO 201 Principles of Economics I ............................................... 3
ECO 202 Principles of Economics II ............................................. 3
MA 113 Calculus I .................................................................. 4
OR
MA 123 Elementary Calculus and Its Applications .......................... 4
MA 162 Finite Mathematics and Its Applications ......................... 7
STA 296 Statistical Methods and Motivations .................................... 3
ECO 391 Economic and Business Statistics ...................................... 3
Subtotal: Premajor hours .................................................. 19-22

Major Requirements Hours
Notes: Students must have a C or higher in ECO 201 to enroll in the core classes and a C or higher in ECO 201 and MA 123 to enroll in AEC 303. Students must receive a grade of C or better in each of the following four agricultural economics courses required for graduation:
AEC 302 Agricultural Management Principles ............................... 4
AEC 303 Microeconomic Concepts in Agricultural Economics .......... 3
AEC 305 Food and Agricultural Marketing Principles ..................... 3
AEC 306 Technical Communication in Economics ............................. 2
AEC 422 Agribusiness Management ............................................... 3
plus, after completing AEC 302 or AEC 303 or AEC 305:
AEC 301 Career Readiness for Agricultural Economics .................. 1
plus one of the following:
AEC 395 Independent Research in Agricultural Economics ............ 1
AEC 396 International Studies in Agricultural Economics ................. 1
AEC 399 Experiential Learning in Agricultural Economics ............... 1-3
plus 12 additional hours in the major (at least 3 hours at 400+ level) .... 12
Subtotal: Major hours .................................................................. 31

Specialty Support Hours
ACC 201 Financial Accounting I .................................................. 3
ACC 202 Managerial Uses of Accounting Information ..................... 3
plus completion of the requirements of the business minor, plus 3 additional hours of courses at the 200 level or higher selected with advisor’s approval from the following departments: ACC, AEN, AN, ASC, BAE, COM, CS, ECO, ENT, FIN, FOR, MA, MGT, MKT, PLS, PS, PSY, SOC, VS .................. 15
Subtotal: Specialty Support hours ............................................. 21

Electives
Electives should be selected by the student to lead to the minimum total of 120 hours required for graduation.

Subtotal: Electives .................................................. minimum of 14
TOTAL HOURS: .................................................. 120

BACHELOR OF SCIENCE IN ANIMAL SCIENCES

Animals have many important roles in human societies including the provision of food and fiber, draft power, recreational and athletic activities, and companionship. In addition, animals and their interactions with humans have environmental consequences. Processing, preservation, and quality of animal-derived foods significantly affect human health and economics. Animal Sciences involves studying and applying the basic principles of nutrition, reproduction, and genetics to the production and management of animals including horses, dairy and beef cattle, sheep, swine, poultry, and other domesticated species. Additional course work provides information on production and handling of animal-derived foods.

No one program fits all Animal Sciences students. Students come from varied backgrounds and their interests range from livestock and poultry production and management to marketing and public relations; from public education and extension to graduate training in research and teaching and veterinary medicine. No matter what species you have an interest in, the Animal Sciences major will allow you to combine your interest with your desire for an exciting and rewarding career.

As an Animal Sciences major, students have the opportunity to pursue specific interests by selecting one of three study options: Animal Industry, Food Industry or Pre-Professional. The Animal Industry option is for those students interested in animal production and management and allows specialization in one of three areas: livestock, equine, or dairy. The Food Industry option is designed to provide an emphasis on aspects of food processing, chemistry, and safety. The Pre-Professional option is a rigorous study program for students with interests in veterinary sciences, human medicine, and graduate research. Students must consult the pre-professional advisor or graduate school advisor of the university to which they intend on applying for additional or specific requirements.

Career Opportunities
To keep pace with the food, fiber, and recreation requirements of a growing world population, Animal Sciences graduates are needed in the livestock industry and closely related fields. The Animal Sciences major offers considerable flexibility in fulfilling specific career objectives, whether you are interested in working directly with livestock or indirectly in closely related areas such as agribusiness, research, government, or education.

Graduation Requirements
To earn the Bachelor of Science in Animal Sciences, the student must have a minimum of 120 credit hours with at least a 2.0 grade-point standing. A minimum of 45 credit hours must be from upper division courses (300 and above). Remedial courses may not be counted toward the total
hours required for the degree. In addition to UK Core requirements, students must complete college, departmental and specialty support requirements. Each student must complete the following:

**UK Core Requirements**
See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

*Students must consult the pre-professional advisor or graduate school advisor of the university to which they will apply for additional or specific requirements.

**Subtotal: Specialty Support** ......................... 18-22

**Electives**

Electives should be selected to complete the 120 hours required for graduation.

**Subtotal: Electives** ............................. minimum of 18

**TOTAL HOURS:** .................................................. 120

**BACHELOR OF SCIENCE IN BIOSYSTEMS ENGINEERING**

Biosystems engineering provides an essential link between the biological sciences and the engineering profession. This linkage is essential for the development of production and processing systems involving biological materials that preserve our natural resource base. Students have the latitude to develop an area of specialization relating to bioenvironmental engineering, food and bioprocessing, machine systems, or controlled environment engineering. The curriculum is also ideal preparation for those students wanting to pursue a graduate or professional degree in biomedical engineering or veterinary medicine through pre-biomedical engineering and pre-veterinary medicine options.

The degree requirements and curriculum are listed in the College of Engineering section of this Bulletin.
BACHELOR OF SCIENCE IN CAREER AND TECHNICAL EDUCATION

Students pursuing a degree in Career and Technical Education complete courses in education and agriculture. Graduates with this degree pursue careers in both formal and informal education of agriculture. Formal education opportunities include teaching in the middle school or high school classroom. Informal education opportunities include working in Extension and the public or private sectors of industry. In addition to receiving the degree, graduates attain Rank III teaching certification in Agricultural Education.

Teacher Certification

Besides receiving the B.S. in Career and Technical Education, students completing the requirements obtain a letter of endorsement to teach agricultural education.

Requirements for teacher certification are as follows:

You must be admitted to the teacher education program (TEP) after you have completed, or complete during the semester in which you apply, 60 semester hours of course work and AED/FCS 110 Introduction to Career and Technical Education and have at least a 2.75 grade-point standing (on a 4.0 scale). See a full description of “Admission, Retention, and Completion” from Teacher Education Programs” in the College of Education section of this Bulletin.

Applicants are evaluated on an interview, recommendations, scholastic achievement, demonstrated skills, and professional commitment and goals. A student’s progress is continuously monitored, assessed, and reviewed throughout the teacher education program as described in the Teacher Education Programs section of this Bulletin. You must successfully complete assessment items and portfolio items as required. Further, you must successfully complete the Principles of Learning and Teaching Exam and a professional exam, scoring above cutoff scores specified by the State Board of Education for each exam. After completing these exams, students hired by Kentucky schools will complete a one-year paid internship as a first-year teacher and will be evaluated at least three times by a three-person committee before certification is completed.

Note: Because graduation and teacher certification requirements change frequently, students should obtain more complete information from their advisors.

Graduation Requirements

To earn the Bachelor of Science in Career and Technical Education, the student must have a minimum of 120 credit hours with at least a 2.75 grade-point average (required for Teacher Certification). A minimum of 45 credit hours must be from upper division courses (300 level and above). Remedial courses may not be counted toward the total hours required for the degree.

Students must complete the following:

UK Core Requirements

See the UK Core section of this Bulletin for the complete UK core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

Specialty Support Requirements

Students must complete one additional agricultural economics course, one additional animal sciences course, one additional agricultural engineering course, two additional plant and soil sciences courses, and three additional courses in the College of Agriculture, Food and Environment in consultation with your advisor.

Subtotal: Specialty Support .............................................. 24

Other agriculture majors can also qualify to teach agricultural education provided they meet current certification requirements.

Electives

Electives should be selected by the student to lead to the minimum total of 120 hours required for graduation.

Subtotal: Electives ........................................... minimum of 7

Total Minimum Hours for Program .......................... 120

BACHELOR OF SCIENCE IN COMMUNITY AND LEADERSHIP DEVELOPMENT

Community and Leadership Development is an interdisciplinary social science major. It provides students with the knowledge and skills to integrate communications, sociology, journalism, and community development theories and apply them to real-world situations involving local communities and agricultural organizations.

The major focuses on such skills as written and oral communication; strategic problem solving; critical thinking; understanding of group, organizational, and community dynamics; and ethical decision making.

Graduation Requirements

To earn the Bachelor of Science in Community and Leadership Development, the student must have a minimum of 120 credit hours with at least a 2.0 grade-point average. A minimum of 45 credit hours must be from upper division courses (300 level and above). Remedial courses may not be counted toward the total hours required for the degree.

Students must complete the following:

UK Core Requirements

See the UK Core section of this Bulletin for the complete UK core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

The UK Core courses listed below are recommended by the College to fulfill each area.
I. Intellectual Inquiry in Arts and Creativity
Choose one of the following:
- A-S 245 Introduction to Web Design
- A-S 280 Introduction to Photographic Literacy
- LA 111 Living on the Right Side of the Brain .......... 3

II. Intellectual Inquiry in the Humanities
Choose one of the following:
- EGR 201 Literature, Technology, and Culture
- ENG 230 Introduction to Literature (Subtitle required)
- ENG 264 Introduction to Black Writers
- GWS 201 Gender and Popular Culture
- HIS 112 The Making of Modern Kentucky
- MCL 100 The World of Language ....................... 3

III. Intellectual Inquiry in the Social Sciences
CLD 102 The Dynamics of Rural Social Life .......... 3

IV. Intellectual Inquiry in the Natural, Physical, and Mathematical Sciences
Choose one of the following:
- PLS 104 Plants, Soils, and People: A Science Perspective
- BIO 102 Human Ecology
- GEO 135 Global Climate Change
- EES 120 Sustainable Planet: The Geology of Natural Resources ........ 3

V. Composition and Communication I
CIS/WRD 110 Composition and Communication I .... 3

plus other CLD courses such as CLD 360, CLD 401, CLD 517, CLD 534.

Subtotal: Major Requirements .......... 36

Specialty Support Requirements
Depending on the student’s area of interest and subject to his/her academic advisor’s approval, he/she will complete an additional 6 hours of courses in the College of Agriculture, Food and Environment and 12 hours in related areas at the 200 level or higher.

Subtotal: Option Specialty Support .......... 18

Electives
Electives should be selected by the student to lead to the minimum total of 120 hours required for graduation.

Subtotal: Electives minimum of 23
Total Minimum Hours for Program .......... 120

BACHELOR OF SCIENCE IN EQUINE SCIENCE AND MANAGEMENT

The horse industry is a dynamic industry that encompasses not only the breeding, raising and training of horses but also the development of activities for the use of the horse in sports and recreation. The industry has a significant economic impact across the U.S. and world-wide.

Equine science and management involves the study and application of science and business concepts to the horse industry. Additional course work supports learning in areas that aid in breeding and raising horses and marketing the industry. Students come from varied equine backgrounds but have a common interest in the horse. Regardless of which breed of horse or activity focus students have, equine science and management majors will have the opportunity to combine their interest in the horse with a desire to become active participants in the horse industry.

Students in equine science and management considering a career in veterinary medicine or graduate research can meet those goals in the degree program as well. Interested students need to consult with an advisor to ensure all specific academic requirements are met.

Career Opportunities
The horse industry is continually changing. Equine science and management graduates are needed in all aspects of the industry including production, business management and other related support industries.

Graduation Requirements
To earn the Bachelor of Science in Equine Science and Management, the student must have a minimum of 120 credit hours with at least a 2.0 grade-point average. A minimum of 45 credit hours must be from upper division courses (300 level and above). Remedial courses may not be counted toward the total hours required for the degree.

Students must complete the following:

UK Core Requirements
See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

#### Equine Business

Students will learn skills related to marketing, operations, and management of equine businesses. This will prepare students for careers as farm managers as well as business managers for equine enterprises, breed associations, and sales associations. This area also introduces them to the diversity of the equine industry through courses in equine law, sales, career, event planning, marketing, and human resources.

**Subtotal: emphasis hours: 21**

*When offered under a subtitle with a focus on equine marketing.

### Specialty Support Requirement

The student will choose, in consultation with an advisor, at least 18 hours of courses at the 200 level or above that will strengthen the program in an area of importance to the student. To aid in developing this area of study, a list of suggested courses is available from your advisor. The list includes courses in agricultural economics, animal sciences, community and leadership development, marketing, management, finance, plant and soil sciences plus other areas of study at UK.

**Subtotal: Specialty Support: 18**

### Electives

Electives should be selected by the student to lead to the minimum total of 120 hours required for graduation.

**Subtotal: Electives: minimum of 6**

**Total Minimum Hours for Program: 120**

---

**BACHELOR OF SCIENCE IN FOOD SCIENCE**

Food science is the study of the transformation of biological materials into food products acceptable for human consumption. This requires studying diverse scientific disciplines related to food, including chemistry, engineering, microbiology, biochemistry, toxicology, and management; and effectively applying the industrial and practical aspects to product development, food processing, preservation, and marketing. The program is administered by the Department of Animal and Food Sciences and offers training in the basic sciences and in the fundamentals of food science.

Career opportunities in food industries include: management, research and development of new food products and ingredients, process supervision, quality control, procurement, distribution, sales, and merchandising. Positions include sales and services in allied industries; consulting and trade association activities; and promotional and educational services. Governmental agencies employ food scientists whose work is directed towards research, regulatory control, and the development of food standards.

### Graduation Requirements

To earn the Bachelor of Science in Food Science, the student must complete a minimum of 128 semester hours with at least 45 hours from courses at the 300 level and above. A 2.0 grade-point standing (on a 4.0 scale) is necessary and remedial courses may not be counted toward the total hours required for the degree.
The Food Science program meets the requirements for accreditation by the Institute of Food Technologists and the National Organization of Food Science Professionals. Each student must complete the following:

**UK Core Requirements**

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

**BACHELOR OF SCIENCE IN FORESTRY**

NOTE: At the time of publication, the B.S. in Forestry program below had been provisionally approved by the Senate.

Pending approval by the Southern Association of Colleges and Schools Commission on Colleges.

Kentucky boasts many forested areas with famous reputations, such as Natural Bridge, Red River Gorge, Daniel Boone National Forest, and Robinson Forest. Robinson Forest is one of the largest research and educational forests in the eastern United States. It is managed by the Department of Forestry, and as a forestry student at the University of Kentucky all of its resources will be available to you as a unique outdoor laboratory.

The missions of the Department of Forestry are to identify and address the challenges and opportunities facing sustained management of our renewable natural resources, including forests, soils, water, and wildlife. These missions involve three interrelated functions: research, extension, and education. The research goal of the department is to obtain basic and applied information leading to wise and effective management of our natural resources. Forestry extension seeks to inform land owners and the general public about forest stewardship. Forestry education prepares students for careers as forestry and natural resource professionals. The objectives of the required courses in the forestry curriculum are to educate and train students in the communication, managerial, scientific, processing, and administrative skills and principles related to the stewardship and utilization of renewable natural resources. Accomplishment of these objectives will ensure a continuing supply of entry-level professionals for Kentucky and the nation.

The undergraduate (B.S.) program leading to the professional degree in forestry is accredited by the Society of American Foresters (SAF). SAF is the specialized accrediting body recognized by the Commission on Recognition of Postsecondary Accreditation as the accrediting agency for forestry in the United States. Additionally, you may become certified by The Wildlife Society if you choose appropriate elective courses.

**Career Opportunities**

Forestry graduates are employed as professional foresters in private forest industries and organizations, consulting companies, and public agencies, including the U.S. Forest Service, Soil Conservation Service, and state, county, or urban forestry programs. Graduates are also qualified to be research technicians in government, university, and private laboratories, or may continue their studies in specialized graduate programs.

The inclusion in the curriculum of management and processing principles makes UK forestry graduates attractive to the forest products industry; graduates are often employed as technical specialists, managers, and marketing and wood procurement personnel.

**Graduation Requirements**

To earn the Bachelor of Science in Forestry, the student must complete a minimum of 121 semester hours. A 2.0 grade-point standing (on a 4.0 scale) is necessary and remedial courses may not be counted toward the total hours required for the degree.

Students will complete a field semester in the spring of their junior year. Throughout the spring field semester, students will visit numerous sites to see different ecosystems in the region. Students will periodically return to one site, or sample property, that will be used for in-depth analysis to show integration and application of field semester concepts.
The curriculum consists of UK Core requirements, preprofessional, professional, and specialty support components. Preprofessional, professional, and specialty support courses provide the skills and understanding to manage forest resources. Electives, chosen with the assistance of your advisor, strengthen your knowledge of basic principles in areas of special interest to you.

UK Core Requirements
See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

BACHELOR OF SCIENCE IN HORTICULTURE, PLANT AND SOIL SCIENCES

The Horticulture, Plant and Soil Sciences degree program is designed to provide students with the knowledge and skills needed for a career in the production and management of plants and soils for food, fiber, forage, oil, recreation, landscaping and the enhancement of the human environment. Graduates have the technical and scientific skills as well as the communication, computational, leadership, and interpersonal capabilities necessary to function effectively as professionals. Careers are as diverse as they are challenging. Each Option prepares graduates for specific professional opportunities.

Options
Students pursuing a Horticulture, Plant and Soil Sciences degree may choose from the following Options:

- Horticulture Enterprise Management
- Turfgrass Science
- Crops and Livestock
- Crop, Soil and Horticulture Science

Graduation Requirements
Students must complete a minimum of 120 semester credit hours with at least 45 credit hours from courses at the 300 level or above. A 2.0 grade-point standing (on a 4.0 scale) is necessary and remedial courses may not be counted toward the total hours required for the degree. In addition to the UK Core and college requirements, students must select an Option with the assistance of an advisor and fulfill the area’s program requirements.

UK Core Requirements
See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

Specialty Support Requirements

CHE 226 Analytical Chemistry
CHE 236 Survey of Organic Chemistry

Subtotal: Specialty Support ................................ 18

The profession of landscape architecture has grown out of the tradition of the great garden designers of Italy, France, England, and China to encompass the art and science of design, planning, and management of the land. The science of landscape architecture is concerned with the conservation and management of natural resources. The art of landscape architecture is concerned with the creation of more enjoyable, comfortable, and safe outdoor areas where human use requires adaptation of the natural environment.

This four-year professional program is accredited by the American Society of Landscape Architects and meets all the requirements for licensing of landscape architects in Kentucky and other states. Landscape architecture employment opportunities may be found in the designing of urban communities, plazas, university campuses, institu-
tional grounds, parks and recreational areas, commercial and industrial sites, and residential communities, as well as in the areas of historic preservation, regional planning, and mine reclamation.

Admission Requirements

Admission to the University of Kentucky and to the College of Agriculture, Food and Environment does not guarantee admission to the Landscape Architecture program. All applicants must be reviewed by the Landscape Architecture Program Chairperson. The number of applicants ultimately admitted is determined by the resources available to provide high-quality instruction. Applicants will be reviewed on a comparative basis. Determination of acceptability into the program is based on the following.

Entering freshmen and transfer students from degree programs other than Landscape Architecture must:

1. submit a formal application to the Undergraduate Admissions Office indicating Landscape Architecture as your major;
2. meet the minimum criteria for admission or readmission to the University as specified in this Bulletin (The Landscape Architecture program requires a minimum of a 2.0 grade-point average on a 4.0 scale for eligibility to transfer into the program); and
3. successfully complete the aptitude testing designated by the Landscape Architecture program.

If a student transferring from another degree program has a background in related design fields, he or she may submit available work, such as a portfolio or other work examples, as an indication of potential success.

Transfer students from degree programs in Landscape Architecture at other accredited institutions must:

1. submit a formal application to the Office of Undergraduate Admissions indicating Landscape Architecture as your major;
2. meet the minimum criteria for admission to the University as specified in this Bulletin (The Landscape Architecture program requires a minimum of a 2.0 grade-point average on a 4.0 scale for eligibility to transfer into the program); and
3. submit a portfolio for review which, combined with an evaluation of courses completed, will determine acceptance into the program as well as the level to which the student will be accepted.

Graduation Requirements

To earn a Bachelor of Science degree in Landscape Architecture, the student must have completed 129 semester hours with at least a 2.0 grade-point average. Remedial courses may not be counted toward the total hours required for graduation. In addition to satisfying the UK Core requirements, each student must complete pre-major, professional, and specialty support requirements. The Landscape Architecture program policy requires a student to achieve a C grade or better in major design studios in order to advance to the next level.

UK Core Requirements

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

I. Intellectual Inquiry in Arts and Creativity
LA 111 Living on the Right Side of the Brain ................. 3

II. Intellectual Inquiry in the Humanities
Choose one course from approved list ............................ 3

III. Intellectual Inquiry in the Social Sciences
Choose one course from approved list ............................ 3

IV. Intellectual Inquiry in the Natural, Physical, and Mathematical Sciences
Choose one course from approved list ............................ 3

V. Composition and Communication I
CIS/WRD 110 Composition and Communication I .......... 3

VI. Composition and Communication II
CIS/WRD 111 Composition and Communication II .......... 3

VII. Quantitative Foundations
Choose one course from approved list ............................ 3

VIII. Statistical Inferential Reasoning
STA 210 Making Sense of Uncertainty: An Introduction to Statistical Reasoning .................. 3

IX. Community, Culture and Citizenship in the USA
Choose one course from approved list ............................ 3

X. Global Dynamics
Choose one course from approved list ............................ 3

LA 490 Capstone and Professional Practice Seminar .... 2

Students must complete 9 hours from the following list of Topical Studies courses:
LA 262 Graphics II .................................................. 3
LA 305 Design Theories in Landscape Architecture ....... 3
LA 307 Cultural Landscape Preservation ....................... 3
LA 308 Regional Land Use Planning Systems ............... 3
LA 345 Design with Plants ........................................... 3
LA 355 Introductory Geospatial Applications for Land Analysis ........................................... 3
LA 395 Independent Study in Landscape Architecture ........ 1-6
LA 397 Special Topics in Landscape Architecture (Subtitle required) .................................................. 3
LA 457 Contemporary Regional Land Use Planning Applications ........................................... 3
LA 462 Digital Representation II ..................................... 3
LA 556 Contemporary Geospatial Applications for Land Analysis ........................................... 3

Subtotal: Major hours .......................................... 79

Specialty Support Requirements

PLS 239 Introduction to Plant Identification ................ 3
PLS 320 Woody Horticultural Plants ............................ 4
PLS 366 Fundamentals of Soil Science ......................... 4

One course in ecology from the following or other ecology-focused courses approved by Director of Undergraduate Studies:
FOR 340 Forest Ecology ........................................... 4
FOR 435 Conservation Biology .................................... 3
GEO 530 Biogeography and Conservation .................. 3

Select one additional course from the 300-500 series with advisor assistance ........................................... 3

Subtotal: Specialty Support .... minimum of 17

Electives

Electives should be selected by the student to lead to the minimum total of 129 hours required for graduation. Electives may be chosen from the Landscape Architecture Topical Studies or other university courses at any level.

Subtotal: Electives ................................................. 129

TOTAL HOURS: .................................................. 129

BACHELOR OF SCIENCE IN NATURAL RESOURCES AND ENVIRONMENTAL SCIENCE

The program in Natural Resources and Environmental Science is designed to provide students with the knowledge and skills needed for a career in the rapidly growing fields of environmental science, natural resource management, and environmental policy. With global climate change and an inter-connected world economy, the conservation and management of our natural resources and sustainability of our natural environment is becoming an issue for all societies. This curriculum provides students with exposure to a broad array of disciplines that are essential in approaching issues of natural resources, environmental quality, and environmental sustainability. Experiential learning is a key component in the curriculum. As a result, graduates have the capacity to integrate perspectives and diverse bodies of knowledge in dealing with environmental resource management problems.
All students in the program take a common core of major requirements which is designed to provide exposure to technical and socioeconomic dimensions of natural resource management and policy. Important components of the core requirements are a required three-week summer camp, a pre-professional internship or research experience, and a senior capstone course that is problem-based. In addition to the core requirements, all students must complete nine hours of course work in both an Analytical Skill Development Area (ASD) and an Environmental System Emphasis Area (ESEA). This allows students to match analytical skills to an area of particular interest in conservation biology, natural resource planning, environmental soil science, water resources, forestry, wildlife management, agricultural sustainability, geological processes, or related areas. Courses completed for the ASD and ESEA are selected from a list of choices in each area. Students are required to complete an off-campus internship or a research experience that is related to their ESEA and/or ASD. NRES majors have completed internships in several foreign countries, although most are conducted within the U.S. with organizations such as the National Park Service, the U.S. Forest Service, with local nature preserves, an Alaskan salmon recovery program, a national laboratory, environmental consulting firms, private corporations, and both state and local governments. All seniors apply their course work and experiential learning to the senior capstone course which focuses on a well-defined natural resource issue, requires group collaboration and problem-solving, and involves actual stakeholders.

Graduates of the Natural Resources and Environmental Science degree program move on to graduate work or careers. Many graduates continue their studies in Masters or Ph.D. programs or go on to law school. Most graduates begin careers as aspiring environmental professionals in both the public and private sector. Additional employment opportunities exist in environmental education, journalism, and work with nonprofit organizations which have environmental concerns.

Graduation Requirements
To earn a Bachelor of Science in Natural Resources and Environmental Science, a student must complete at least 120 semester hours of credit with at least a 2.0 cumulative grade-point average. A minimum of 45 credits must be from upper division courses (300-level and above). Remedial courses may not be counted toward the total degree hours. In addition to the UK Core requirements, students must complete College requirements, premajor and major requirements, and complete an internship or research experience. With advisor approval, students select and Analytical Skill Development and an Environmental System Emphasis Area which focuses course work in a student’s area of interest.

**UK Core Requirements**

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

**Analytical Skill Development (ASD) and Environmental System Emphasis Areas (ESEA)**

Students must select one area within Analytical Skill Development and one Environmental System Emphasis Area and complete nine hours of course work in each area from the list of courses provided below. Students must select from the courses listed under each ASD and ESEA but may request one (1) substitute course per ASD and ESEA, subject to approval by both their academic advisor and the DUS. For the 18 hours of ASD and ESEA course work, all classes must be 200-level or above and at least twelve (12) credit hours must be in 300-level or above courses. Classes taken to complete the ASD requirement may not count towards the ESEA course requirement and vice versa. Research experiences, internships, or apprenticeships cannot be used to satisfy the ASD and ESEA requirements, including individualized options.

**Analytical Skill Development Areas**

1. **Economic and Policy Analysis**
   - AEC 309 International Agriculture, World Food Needs and U.S. Trade in Agricultural Products 3
   - AEC 483 Regional Economics 3
   - AEC 532 Agricultural and Food Policy 3
   - AEC/NRE 545 Resource and Environmental Economics 3
   - CLD/SOC 360 Environmental Sociology 3
   - FOR 320 Forest Valuation and Economics 3
   - FOR 400 Human Dimensions of Forestry and Natural Resources 3
**2. Field and Laboratory Analysis of Ecosystems**

- BIO/NRE 240G Taxonomy of Vascular Plants
- ENT 300 General Entomology
- ENT/FOR 402 Forest Entomology
- FOR 219 Dendrology
- FOR 250 Statistics and Measurements I
- PLS 396 Soil Judging
- PLS/NRE 455G Wetland Delineation
- PLS 573 Soil Morphology and Classification
- PLS 597 Special Topics in Plant and Soil Science

(Subtitle required) .......................................................... 3

**3. Geospatial Analysis**

- BAE 538 GIS Applications for Water Resources
- FOR 200 Basics of Geospatial Technology
- FOR 330 GIS and Spatial Analysis
- GEO 309 Introduction to GIS
- GEO 409 Advanced GIS
- GEO 415 Map Interpretation
- LA/NRE 556 Contemporary Geospatial Applications for Land Analysis

**4. Environmental Education**

*NRE 390 Special Topics in Natural Resources and Environmental Science

- CLD 230 Intropersonal Leadership
- CLD/SOC 360 Environmental Sociology
- AED/FCU 583 Designing Curriculum and Assessment in Career and Technical Education
- EDP 202 Human Development and Learning

*For the environmental education ASD, students must take NRE 390 Special Topics in Natural Resources and Environmental Science.

**5. Individualized Analytical Skill Development**

With advisor approval, a student may submit a request for an individualized ASD. The written proposal must include a memo explaining the rationale, a list of proposed courses for the ASD, an explanation of how those courses meet the intent of the ASD, and a copy of the student’s Plan of Study which includes the proposed course work. The written proposal must be submitted to the DUS for Steering Committee approval.

**Environmental System Emphasis Areas**

1. **Conservation Biology**
   - Hours
   - BIO/PLS 210 The Life Processes of Plants
   - BIO 325 Ecology
   - BIO 375 Behavioral Ecology and Sociobiology
   - BIO/NRE 420G Taxonomy of Vascular Plants
   - BIO/GEO 530 Biogeography and Conservation
   - FOR 219 Dendrology
   - FOR 370 Wildlife Biology and Management

2. **Forestry**
   - FOR 219 Dendrology
   - FOR 350 Silviculture
   - FOR 320 Forest Valuation and Economics
   - FOR 400 Human Dimensions of Forestry and Natural Resources
   - FOR 402 Forest Entomology
   - FOR 425 Forest Management

*For the Forestry ESE, students must take FOR 219 and FOR 350.

3. **Human Dimensions and Natural Resource Planning**
   - BIO/GEO 530 Biogeography and Conservation
   - CLD/SOC 340 Community Interaction
   - CLD/SOC 360 Environmental Sociology
   - CLD/SOC 420 Sociology of Communities
   - CLD/SOC 440 Community Processes and Communication
   - FOR 400 Human Dimensions of Forestry and Natural Resources
   - FOR 470 Interepdendent Natural Resource Issues
   - GEO 285 Introduction to Planning
   - GEO 485G Urban Planning and Sustainability
   - GEO 490G American Landscapes
   - GEO 531 Landscape Ecology
   - LA 308 Regional Land Use Planning Systems
   - LA 457 Contemporary Regional Land Use Planning Applications

4. **Environmental Soil Science**
   - PLS 396 Soil Judging
   - PLS/NRE 450G Biogeochemistry
   - PLS/NRE 455G Wetland Delineation
   - PLS 468G Soil Use and Management
   - PLS/NRE 470G Soil Nutrient Management
   - PLS 566 Soil Microbiology
   - PLS 573 Soil Morphology and Classification
   - PLS 575 Soil Physics

5. **Water Resources**
   - AEN 460G Biometeorology
   - BAE 532C/542 Introduction to Stream Restoration
   - BAE 538 GIS Applications for Water Resources
   - BIO/GEO 530 Biogeography and Conservation
   - CHE 565 Environmental Chemistry
   - EES 530 Low Temperature Geochemistry
   - EES 585 Hydrogeology
   - GEO 230 Weather and Climate
   - GEO 451G Fluvial Forms and Processes
   - PLS/NRE 450G Biogeochemistry
   - PLS/NRE 455G Wetland Delineation
   - PLS 573 Soil Morphology and Classification
   - PLS 575 Soil Physics

6. **Wildlife Management**
   - BIO/ENT 300 General Entomology
   - BIO 304 Principles of Genetics
   - BIO 325 Ecology
   - BIO 350 Animal Physiology
   - ASC 325 Animal Physiology
   - BIO 375 Behavioral Ecology and Sociobiology
   - BIO 559 Ornithology
   - FOR 370 Wildlife Biology and Management
   - PLS/NRE 455G Wetland Delineation

7. **Global Sustainable Food Systems**
   - AEC 309 International Agriculture, World Food Needs and U.S. Trade in Agricultural Products
   - CLD/SOC 360 Environmental Sociology
   - ECO 410 Current Issues in Economics
   - ENT 310 Insect Pests of Field Crops
   - PLS 404 Integrated Weed Management
   - SAG 201 Cultural Perspectives on Sustainability
   - SAG/PDS 386 Plant Production Systems
   - SAG 390 Agroecology

8. **Earth Systems Science**
   - EES 230 Fundamentals of Geology I
   - EES 235 Fundamentals of Geology II
   - EES 323 Field Work in Regional Geology

- EES 360 Mineralogy
- EES 420G Structural Geology
- EES 450G Sedimentary Geology
- EES 461 Igneous and Metamorphic Petrology
- EES 530 Low Temperature Geochemistry
- EES 550 Fundamental Geophysics
- EES 585 Hydrogeology
- GEO 331 Global Environmental Change
- GEO 351 Physical Landscapes
- GEO 451G Fluvial Forms and Processes
- PLS 450G Biogeochemistry

9. **Individualized System Emphasis Area**
   - With advisor approval, a student may submit a request for an individualized ESEA. The written proposal must include a memo explaining the rationale, a list of proposed courses for the ESEA, an explanation of how those courses meet the intent of the ESEA, and a copy of the student’s Plan of Study which includes the proposed course work. The written proposal must be submitted to the DUS for Steering Committee approval.

**Subtotal: Analytical Skill Development**

**Subtotal: Electives** ................. 7-9

**TOTAL HOURS: ............................................ 120**

**MINORS IN AGRICULTURE, FOOD AND ENVIRONMENT**

**Minor in Agricultural Economics**

**Preprofessional Requirement**

- Hours
- ECO 201 Principles of Economics I

**Minor Requirements**

- Two courses selected from:
  - AEC 302 Agricultural Management Principles
  - AEC 303 Microeconomic Concepts in Agricultural Economics
  - AEC 305 Food and Agricultural Marketing Principles

In addition, students should select 9 hours from other agricultural economics courses. A maximum of 3 credit hours from AEC 312, 313, 314, 315, or 341 may be credited to the minor. AEC 399 may not be included.

**Minor in Animal Sciences**

**Prerequisites**

- Note that several classes in both Group A and Group B have prerequisites beyond ASC 101. These are indicated in parenthesis following the courses below. Students taking the minor are responsible for satisfying the prerequisites.

**Minor Requirements**

- Hours
- ASC 101 Domestic Animal Biology
- ASC 102 Introduction to Livestock and Poultry Production

- Additional Core Work

At least 9 credit hours must be selected from the list that follows (Groups A and B). At least one course must be selected from Group A and one course from Group B.
The minor in Community and Leadership Development requires 22 hours as follows:

**Preminor Requirements**

<table>
<thead>
<tr>
<th>Course / Title</th>
<th>Hours</th>

Total Undergraduate Certificate in Distilling, Wine and Brewing Studies: 4
Distilling, Wine and Brewing Studies

The Certificate in Distilling, Wine and Brewing Studies curricula are as follows:

- A minimum of 12 credits of course work taken for a letter grade.
- At least 12 credits must be 200 level or above, and a minimum of 6 credits must be at the 300-level or above.
- The student must complete a 3-credit breadth component. The breadth component requires that a student take courses in at least two colleges, with a minimum of three credits to be completed in a discipline other than the student’s major.
- Student must earn a C or better in each required certificate course to receive the certificate.
- Certificates will only be awarded to students who successfully complete a degree, or have completed a four-year degree.
- No more than 9 credits taken for a certificate can be used to satisfy the requirements for the student’s bachelor’s degree, a minor, or another certificate, exclusive of free or unrestricted electives.

PRE-VETERINARY MEDICINE (Non-Degree)

Students interested in becoming veterinarians may enroll in the College of Agriculture, Food and Environment at the University of Kentucky and complete their requirements for admission to veterinary school. Most students completing a science-based degree program (e.g., Animal Science, Agricultural Biotechnology, etc.) can complete pre-vet requirements at the same time.

Although the Commonwealth of Kentucky does not have a school of veterinary medicine, it is a participating member of the Southern Regional Education Board plan, under which legal Kentucky residents may attend the Auburn University School of Veterinary Medicine. Each year 38 qualified Kentucky students are chosen from Kentucky to enter the Auburn program. There is also a plan whereby three legal Kentucky residents may be accepted by the Tuskegee University School of Veterinary Medicine each year.

Admission is on a competitive basis with the final selection being made by a committee from each of the veterinary schools.

Pre-veterinary studies is not a degree program, but a pre-professional curriculum. It is strongly recommended that all pre-veterinary students choose a degree goal early in their college career. Although it is possible to complete pre-vet requirements in three years, the majority of students accepted to veterinary school have a B.S. or B.A. degree.

An overall grade-point average of 2.50 (on a 4.0 basis) is required prior to consideration for
admission to Auburn; 2.70 is required for Tuskegee. Due to the high level of competition for admission to any veterinary school, a student should maintain at least a 3.0 academic standing on all college work. The average overall GPA for students accepted to veterinary schools is approximately 3.50. All required courses must have a grade of C or greater.

Most US veterinary schools use the Veterinary Medical College Application Service (VMCAS) application.

The following is a list of courses for Auburn College of Veterinary Medicine requirements. However, some changes in the pre-veterinary curriculum may go into effect during the school year. The student has the responsibility to work closely with his or her pre-veterinary advisor in making certain that all requirements are met for consideration for acceptance.

All advanced placement credit for required courses must have prior approval by Dr. Dwyer. Auburn does not accept correspondence credit for required courses, except for Animal Nutrition.

Auburn's Pre-Veterinary Curriculum

*Consult advisor.
**Students should contact a UK pre-veterinary advisor regarding alternative courses.
***Check with pre-veterinary advisor for alternative courses.
****Science electives must be two of the following courses: BIO 304, BIO 350 or ASC 323, BIO 351, BIO 342, ASC 364, BIO 561 or BIO 563, BIO 529, PHY 211.

The student has the responsibility to work closely with his or her pre-veterinary advisor in making certain that all requirements are met for consideration for acceptance.

All pre-veterinary students who enter veterinary school without obtaining an Animal Science degree and petition UK for one later must fulfill the departmental requirements for an Animal Science degree. In order to be eligible for the B.S. in Animal Sciences, students must have completed all UK Core courses, all college requirements and all of the required core courses and production courses required in the Animal Sciences degree program.

SCHOOL OF HUMAN ENVIRONMENTAL SCIENCES

Human Environmental Sciences provides science-based programs concerned with the interactions of individuals and families within multiple environmental contexts, including social, cultural, economic, and political. The specialized areas of study prepare graduates for professional roles through academic work, practicum or field experience, and research with a focus on improving quality of life for individuals and families throughout their lifespan.

There are three departments in the School of Human Environmental Sciences - Dietetics and Human Nutrition; Family Sciences; and Retailing and Tourism Management. Each department offers both undergraduate and graduate study.

Undergraduate Programs in Human Environmental Sciences

The University of Kentucky grants the following degrees in the School of Human Environmental Sciences:

- Bachelor of Science in Dietetics
- Bachelor of Science in Family Sciences
- Bachelor of Science in Hospitality Management and Tourism
- Bachelor of Science in Human Nutrition
- Bachelor of Science in Merchandising, Apparel and Textiles

Minor Offered

The following minor is available:

- Family Sciences

Accreditations and Approvals

All undergraduate programs in the School of Human Environmental Sciences are accredited by the American Association of Family and Consumer Sciences. Additionally, all programs and facilities which can be accredited or approved have achieved that recognition:

- Didactic and Coordinated Programs in Dietetics are both accredited by the Accreditation Council for Education in Nutrition and Dietetics (ACEND)
- The Masters Specialization in Couple and Family Therapy (M.S. in Family Sciences) is accredited by the Commission on Accreditation for Couple and Family Therapy Education (COACFTE). The program includes course work and clinical practicum required for licensure.

Unique Features of the School Facilities and Services

The School oversees the Research Center for Families and Children and the Family Center. The Family Center is a learning laboratory for students who provide services to students, staff, and community members. The Department of Retailing and Tourism Management oversees the Betty D. Eastin Costume Collection and the Textiles Qualification Research Laboratory. The Department of Family Sciences includes two research labs. The Family Interaction Research Lab (FIRL) features equipment to measure family interactions, including psychological arousal and electrical brain activity. The Family Social Science Research Center includes equipment to complete random digit dialing research. The Department of Dietetics and Human Nutrition operates the Lemon Tree Restaurant and the Nutritional Assessment Laboratory.

Scholarships

Over fifty scholarships are awarded each year to undergraduate and graduate students enrolled in the School of Human Environmental Sciences. Information about scholarships is available from the Advising Resource Office, 112 Erikson Hall, and the College of Agriculture, Food and Environment Scholarship Office, N-6 Ag Science Building.

Advising

All students are assigned an advisor during their first semester in a program in the School of Human Environmental Sciences. For more information about programs or advising, contact:
The Department of Dietetics and Human Nutrition provides sound undergraduate and graduate programs in foods and nutrition, and is concerned with research and extension services. The department offers the Bachelor of Science in Dietetics and the Bachelor of Science in Human Nutrition. A post-baccalaureate dietetic internship is also offered. Visit us on the Web at: http://dhn-hes.ca.uky.edu/

**ADMISSION POLICY**

Admission to the University is sufficient for lower-division admission to the human nutrition and dietetics majors. However, lower-level admission to the majors or any admission to the University does not guarantee upper-division admission to either of the degree programs in the Department of Dietetics and Human Nutrition. In general, admission depends upon the qualifications and preparation of applicants, as well as the availability of resources for maintaining quality instruction.

Upper-division admission to the human nutrition or dietetics degree programs is necessary in order to be granted a baccalaureate degree from the Department of Dietetics and Human Nutrition. Students who have attained a 2.8 or higher grade-point average in the premajor component required for all students in the Department of Dietetics and Human Nutrition will be assured admission.

To be considered for upper-division admission to either the human nutrition or dietetics undergraduate programs, an applicant must fulfill the following requirements:

1. Enrollment in the University of Kentucky. (Students are considered for acceptance by the Department only after acceptance by the University of Kentucky.);
2. Completion of the premajor component (premajor courses include: CHE 105, CHE 107, CHE 111, CHE 113, BIO 148, DHN 212, and DHN 241) required for all students within the Department of Dietetics and Human Nutrition with a minimum premajor course work grade-point average of 2.8.*
3. Submission of an application form to the Department of Dietetics and Human Nutrition Academic Coordinator.

*A student can repeat a premajor course to meet this GPA requirement. If a student repeats the course as one of their three University-accepted repeat options only the repeat grade will be factored into the premajor course work GPA. If a student repeats the course outside of the University-accepted repeat options then the course grades will be averaged and then factored into the premajor course work GPA.

Applications from students outside the University of Kentucky seeking admission to the Human Nutrition or Dietetics degree programs, whether for upper-division or lower-division status, must be received by the University Admissions Office no later than April 15 (first summer session); May 15 (second summer session); August 1 (fall semester); and December 1 (spring semester).

Students enrolled in other UK programs on campus should apply for admission prior to the priority registration period. (The appropriate deadlines are listed in the University calendar for approved times to change major.)

Lower-division students enrolled in the Department of Dietetics and Human Nutrition should apply for upper-division admission to the Human Nutrition Program or Didactic Program in Dietetics during the semester they are completing the premajor course work. The application for upper-division admission should be made before the priority registration period for the upcoming semester.

**APPEAL PROCESS**

Students with a GPA below 2.8 and who have completed all premajor requirements may appeal for admission into the human nutrition or dietetic programs. If the Appeals Committee feels that there is persuasive evidence that personal, academic or professional circumstances have affected a student’s grades and the student shows promise for successful completion of a degree in the Department of Dietetics and Human Nutrition, acceptance may be granted. Materials and information necessary for the appeals process will be available in the School of Human Environmental Science Advising Resource Center. The deadline for submission of the appeals is generally 45 days prior to the beginning of the semester; however, appeals materials are not accepted for the first summer session.

**BACHELOR OF SCIENCE IN DIETETICS WITH A MAJOR IN DIETETICS**

Dietetics prepares professionals who are recognized for expertise in food and nutrition. Graduates of the University of Kentucky Dietetics Program are prepared to apply to an accredited Dietetic Internship program to become Registered Dietitians to function as entry level professionals with opportunities for practice in medical nutrition therapy, community dietetics, food systems management, and/or the business of dietetics. Becoming a registered dietitian involves a combination of academic preparation, including a minimum of a baccalaureate degree, and supervised practice component and successfully passing the registration examination for dietitians.

The UK DHN Dietetics Program offers two options to earn a bachelor’s degree in dietetics. Option A is the Didactic Program in Dietetics (DPD) and Option B is the Coordinated Program in Dietetics (CP). Both options lead to the Bachelor of Science in Dietetics and fulfill the foundation knowledge and/or competencies established by the Accreditation Council for Education in Nutrition and Dietetics, ACEND, the accrediting agency for the Academy of Nutrition and Dietetics, AND. The DPD and the CP are both fully accredited by ACEND. Option B, CP, is a selective admission program to which students must apply prior to beginning the major course work in the third year of the dietetics program.

Option A, designated as the Didactic Program in Dietetics, DPD, focuses on the foundation knowledge requirements provided by the academic component of dietitian education. A student must be a declared dietetics major in the Department of Dietetics and Human Nutrition to complete the DPD. Students must attain a cumulative grade-point average of 2.4 or above to progress into course work designated as major requirements.

Successful completion of the DPD curriculum enables graduates to apply to a ACEND-accredited supervised practice program, SPP, in a post-baccalaureate Dietetic Internship.

Upon successful completion of the Dietetic Internship the individual is eligible to sit for the national registry exam administered by the Commission on Dietetic Registration, CDR, the credentialing agency of the AND, which grants use of the nationally recognized credential “RD” Registered Dietitian.

Graduates of the UK DHN Option A may apply for placement in the Dietetic Internship program offered by the Department of Dietetics and Human Nutrition, School of Human Environmental Sciences, or any other ACEND-accredited dietetic internship outside the department. Students must consider the highly competitive scenario in competing for acceptance into a Dietetic Internship.

Option B, designated as the Coordinated Program in Dietetics, CP, provides the foundation knowledge requirements provided by the academic component of dietitian education (see DPD above) and an ACEND-accredited supervised practice component. Students who have completed the premajor requirements and are interested in the Coordinated Program to attain the academic preparation and supervised practice program through the UK DHN Dietetics Program may apply for admission to Option B, the CP. Option B requires three additional semesters of didactic course work in the major requirements prior to beginning the 1,200 hour supervised practice program. Students in the CP must successfully complete the didactic and supervised practice component to receive the B.S. in Dietetics degree.
The ACEND-accredited CP is a selective admission program. Admission to the University of Kentucky DHN Dietetics Program does not guarantee admission to the Coordinated Program, CP. A limited number of students who have completed the required preprofessional courses will be admitted on the basis of cumulative grade-point average, potential qualities for becoming a successful dietitian, leadership potential and professional involvement and commitment.

The application deadline for the UK DHN CP is February 1, prior to potential fall admission in Year Three of the Dietetics Program. Year Three of the Dietetics Program is the beginning of the Major Requirements for completion of course work. Program application materials should include an application form, a letter of professional goals and qualifications, three letters of reference, and record of academic performance.

The CP Admissions Committee considers grade-point average, letter of application, work experience, honors and extracurricular activities and letters of recommendation. Students who apply to the UK DHN CP will be granted an interview where the applicant’s goals, communication skills, knowledge of the profession, and organizational and leadership skills are evaluated.

Successful CP applicants will be notified of provisional acceptance into the CP before UK’s priority registration dates for the ensuing fall semester. Final acceptance depends on successful completion of the work in progress at the time of the application and throughout the remaining didactic component prior to beginning the supervised practice component of the undergraduate dietetics program.

Transfer students are urged to contact the Advising Resource Office, 112 Erikson Hall, for a preliminary evaluation of credits well in advance of the application date. Year Three of the Dietetics Program is the beginning of the Major Requirements for completion of course work. CP applicants must be a declared major in the UK DHN dietetics program or if a transfer student, indicate intent to declare dietetics as their major. Students accepted into the CP must be majors in the UK DHN dietetics program. Successful completion of Option B, the UK DHN CP, results in the Bachelor of Science in Dietetics degree. Graduates of Option B are eligible to sit for the national registry exam administered by the Commission on Dietetic Registration, CDR, the credentialing agency of the AND, which grants use of the nationally recognized credential “RD” Registered Dietitian.

The UK DHN ACEND-accredited Dietetic Internship, DI, selects competitive students who have completed a Didactic Program in Dietetics at UK or other ACEND-accredited institutions. Qualified graduates compete for a limited number of positions in the UK DHN DI. For information regarding the UK DHN Dietetic Internship, the application and/or screening procedures, please contact:

**Director, Dietetic Internship Program**

University of Kentucky
Lexington, KY 40506-0054

**Degree Requirements**

Each student must complete the following:

1. Complete UK Core requirements.
2. Complete the School requirements listed below.
3. Complete 128 credit hours with a minimum grade-point average of 2.0.
4. Complete the required curriculum in the major program.

**School Requirements**

HES 100 An Introduction to Professions in Human Environmental Sciences ............ 1
FAM 352 Issues in Family Sciences ............ 3

**Subtotal: School required hours** ............ 4

**UK Core Requirements**

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

I. Intellectual Inquiry in Arts and Creativity

Choose one course from approved list ............................ 3

II. Intellectual Inquiry in the Humanities

Choose one course from approved list ............................ 3

III. Intellectual Inquiry in the Social Sciences

PSY 100 Introduction to Psychology
or

### BACHELOR OF SCIENCE IN HUMAN NUTRITION with a major in Human Nutrition

The Bachelor of Science in Human Nutrition offers appropriate preparation for further study in nutritional sciences and health-related sciences, particularly public health, pharmacy, medicine, dentistry, physical therapy, physician assistant school, optometry, and nutrition research.

Each student must complete the following:

1. Complete UK Core requirements.
2. Complete the School requirements listed below.
3. Complete 120 credit hours with a minimum grade-point average of 2.0.

### DEPARTMENT OF FAMILY SCIENCES

The Department of Family Sciences is committed to offering quality programs for students preparing to work with individuals and families in various settings including schools, private and public social agencies, and business. The focus is on enhancing the quality of life for families. Undergraduate programming is at an applied level using an interdisciplinary approach from the perspectives of individual and family development, family resource management, and family systems.

The department offers a major in family sciences. Students in the family sciences major earn the degree Bachelor of Science in Family Sciences. A minor in family sciences is available.

Family sciences prepares students to work with individuals and families in unique ways. Positions include coordinators of community education and outreach, crisis management, residential care, family financial management, research and planning, and social service workers. Students completing the program are eligible to apply to become certified family life educators through the National Council on Family Relations. Contact the Department of Family Sciences, 315 Funk-
BACHELOR OF SCIENCE IN FAMILY SCIENCES

Each student must complete the following:
1. Complete UK Core requirements.
2. Complete the School requirements listed below.
3. Complete 120 credit hours with a minimum grade-point average of 2.0.
4. Complete the required curriculum in the major program.

Professional Support
In addition to the major requirements, each student in consultation with his or her academic advisor will select a minimum of 18-21 credits in course work in a university-recognized minor. At least 12 of these hours must be at the 300 level or above. A minor is a structured group of courses that leads to considerable knowledge and understanding of a subject. Suggested minors include Psychology, Sociology, Gender and Women’s Studies, Anthropology, Economics, Political Science, Appalachian Studies, Business, Communication, Health Promotion, Human Nutrition, Community and Leadership Development, etc.

Students must contact the department responsible for the minor program for guidance and advising.

Subtotal: Professional Support hours ................................................. 18-21

Electives
Electives at the 300 level or above to reach 120 credits including sufficient credits to reach 45 hours at the 300 level or above. Work with an advisor to select additional FAM classes if available.

TOTAL HOURS: ................................................. 120

Minor in Family Sciences

Any student interested in a minor in family sciences should file an application with the student’s college prior to entering the program.

Minor Requirements
FAM 251 Personal and Family Finance ................................................. 3
FAM 254 Life Course Human Development ................................................. 3
FAM 352 Issues in Family Sciences ................................................. 3
Plus 12 additional hours in family sciences with at least 6 hours at the 300-level or above.

DEPARTMENT OF RETAILING AND TOURISM MANAGEMENT

The Department of Retailing and Tourism Management is committed to excellence in teaching, service and research resulting from innovative interdisciplinary education with a global, product, and consumer focus. Students build competencies for outstanding business and customer service in retail and hospitality organizations in a changing society. Opportunities are provided for experiential education through industry-related work experiences, internships, study tours, and exchange programs. Graduates are prepared for careers in the merchandising, hospitality and tourism industries in the developing experience economy. The department offers the Bachelor of Science in Hospitality Management and the Bachelor of Science in Merchandising, Apparel and Textiles.

Visit us on the Web at:
http://rtm-hes.ca.uky.edu/

BACHELOR OF SCIENCE IN HOSPITALITY MANAGEMENT AND TOURISM

The Hospitality Management and Tourism program focuses on the specialized knowledge needed for careers in the hospitality industry. The degree develops graduates who are consumer and technology-focused within the service industry. Course work integrates hospitality marketing strategies, communications and financial management through a curriculum focused on management of facilities and operations that provide hospitality services to the public.

The curriculum challenges students to exercise an integration of creativity and business components for various tourism services such as, Food & Beverage, Lodging, Attractions, Convention and Meeting Planning, Non-Profit Management, and Special Event Coordinating. The hospitality and tourism industries are rapidly growing; as the United States’ second largest employer, a degree in Hospitality Management and Tourism provides many career opportunities for graduates.

Internships are a required component of the program, which can lead to permanent professional placement. The internship provides students with first-hand experience in hospitality and tourism related fields, allowing them to exercise classroom knowledge in a real-world setting. Visit us at:
http://rtm-hes.ca.uky.edu/content/bachelor-science-hospitality-management-and-tourism

Entrance Requirement

The minimum grade-point average for entrance of all students into the Hospitality Management and Tourism program is 2.30.
### Progression Requirement
In addition, students must have completed the following premajor courses with a grade of C or better in order to progress to courses which are major requirements:

<table>
<thead>
<tr>
<th>Course</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>CS 101, ACC 201, ACC 202, ECO 201, ECO 202, HMT 120, HMT 210, DHN 241, and HMT 270.</td>
<td>3</td>
</tr>
</tbody>
</table>

### Graduation Requirement
Students must fulfill all prerequisites and achieve a grade of C or better in all DHN and HMT courses which are major requirements.

Each student must complete the following:

1. Complete UK Core requirements.
2. Complete the School requirements listed below.
3. Complete 120 credit hours with a minimum grade-point average of 2.0.
4. Complete the required curriculum in the major program.

### School Requirements

## College of Agriculture, Food and Environment

**BACHELOR OF SCIENCE IN MERCHANDISING, APPAREL, AND TEXTILES**

The Merchandising, Apparel, and Textiles program blends creativity with business components to develop graduates who are consumer and technology focused. Students study concepts and develop skills necessary for understanding market trends, retail strategies, and industry structures that facilitate the development, sourcing, marketing, and merchandising of consumer goods and services in the domestic and international marketplace.

The curriculum challenges students to exercise resourceful thinking in business operations, merchandising strategies, and the interrelationships of people, technology, and materials. Course work is designed to match industry expectations and intended to provide students with the knowledge and experience they will need to understand trends and applications in the merchandising, apparel, and textiles industries.

Internships are a required component of the program, which can lead to permanent professional placement. The internship provides students with first-hand experience in merchandising, apparel, and textiles related fields, allowing them to exercise classroom knowledge in a real-world setting. Visit us at: [http://rtm-hes.ca.uky.edu/content/bachelor-science-merchandising-apparel-and-textiles](http://rtm-hes.ca.uky.edu/content/bachelor-science-merchandising-apparel-and-textiles)

Each student must complete the following:

1. Complete UK Core requirements.
2. Complete the School requirements listed below.
3. Complete 120 credit hours with a minimum grade-point average of 2.0.
4. Complete the required curriculum in the major program.

The College of Arts and Sciences embodies the liberal arts: the natural sciences and mathematics, the social sciences, and the humanities. Students augment their knowledge in all three areas by exploring the interconnections among them.

Study of the liberal arts opens to students the vast scope and excitement of human intellectual and cultural achievement. It enlarges the student’s vision and enriches the student’s life. Study of arts and sciences prepares students for life-long learning and vocational success. It also prepares them for a life of effective civic participation as informed and critical citizens of a diverse global society.

In essence, an Arts and Sciences education fosters the ability to think and learn independently. Arts and Sciences graduates are well prepared to meet future technological and cultural transformations.

Undergraduate Programs in Arts and Sciences

The University of Kentucky grants the following degree in the College of Arts and Sciences:

- Bachelor of Arts
- Bachelor of Science

Students pursuing the Bachelor of Arts or the Bachelor of Science select from these majors: anthropology; biology; chemistry; economics; English; foreign language and international economics; geography; geological sciences; history; international studies; linguistics; mathematical economics; mathematics; modern and classical languages, literatures and cultures (with tracks in Arabic and Islamic studies, Chinese studies; classical and topical studies. The College also offers a Bachelor of Arts with these majors: environmental and sustainable studies; gender and women’s studies; health, society, and populations; and Spanish; and a Bachelor of Science with a major in Neuroscience.

For more information on degree programs, visit: www.as.uky.edu/

Undergraduate Certificates in Arts and Sciences

The University of Kentucky grants the following undergraduate certificates in the College of Arts and Sciences:

- Appalachian Studies
- Peace Studies

Information and requirements for these certificates are listed at the end of this section.

ADMISSION

Admission requirements are the same as those of the University, except for the topical studies major. Prospective students should see the college Web site: www.as.uky.edu/.

PROGRAMS AND SERVICES

Academic Advising

Academic advising in the College of Arts and Sciences is provided by professional advisors, faculty, and graduate students beginning with new student advising conferences all the way through to graduation. All Arts and Sciences students are assigned an academic advisor after enrollment. Students and advisors will work as partners to help the student meet their academic goals.

All currently enrolled primary A&S majors have an assigned professional academic advisor or faculty advisor. All Arts and Sciences freshmen have an advising hold placed on their record requiring the student to meet with their A&S academic advisor prior to registration each semester. All students are encouraged to meet with their A&S advisor at least once each semester.

Students experiencing academic difficulty (academic probation) will be required to meet with their academic advisor at the beginning of each semester and before the last day to withdraw from classes. For more information concerning these meetings, contact the Arts and Sciences Advising Center at (859) 257-8712.

All Arts and Sciences students are expected to familiarize themselves with the degree requirements and keep track of requirements. The University has an online degree audit system called APEX (myuk.uky.edu/irj/portal). Students are expected to view their personalized degree audit prior to any advising session where scheduling for classes will be discussed. Routine questions concerning UK Core, college, major and minor requirements, grade-point average, repeat or bankruptcy options, transient student forms, credit overload requests, transfer credit equivalencies, forms required for graduation, and changing majors should be addressed to the student’s academic advisor.

For more information or to schedule an appointment with an advisor, visit www.as.uky.edu/advising

Dean’s List

A student who completes at least 12 credits of “letter” grades with a 3.60 or higher grade-point average with no I grades listed for the fall or spring semester will be named to the Dean’s List in the College of Arts and Sciences. CLEP, AP, special exam and Independent Study credits are excluded. The student’s cumulative grade-point average is not considered; only the grade-point average for that particular semester is relevant. Exceptional circumstances including fewer than 12 credits will be considered for inclusion on the Dean’s List; students should submit a petition to the A&S Advising Center, 311 Patterson Office Tower.

Commencement and Departmental Honors

Commencement honors are determined by University standards. A full explanation of these honors can be found in the Graduation Requirements section of this Bulletin. Please note that if a student has not completed at least 90 hours at the University of Kentucky, but has completed at least 60 hours at the University of Kentucky, the student is eligible for commencement honors, but is held to a 0.2 point higher standard. If the student has not completed at least 60 hours, the student is not eligible for commencement honors. Commencement honors are indicated on the student’s final transcript.

Departments in the College of Arts & Sciences award departmental honors to their outstanding graduates. The standards for departmental honors are not collectively established by the College, but determined by each department. For details on departmental honors, see “Guide to A&S Departmental Honors Requirements” on pages 128-129. Address questions to the department awarding honors. Departmental honors are indicated on the student’s final transcript.

Scholarships

For information on general scholarships in the College, contact the A&S Advising Center, 311 Patterson Office Tower, (859) 257-8712, or www.as.uky.edu/scholarships. Students interested in scholarships in a specific major should contact the individual department.

</table>
College Policy on Learning Disabilities

The College of Arts and Sciences anticipates that virtually all of its students will satisfy all of its requirements. However, any student who believes that he or she can show evidence – by diagnostic testing and/or psychological evaluation – that he or she has a learning disability which warrants course substitution of any specific college requirement may request such an exception from the College. Students should begin their inquiries and/or discussions in the UK Disability Resource Center, 102 Alumni Gym.

Readmission After a Two-Year Absence

In accordance with the University Senate rules which allow the dean of each college to determine which degree requirements a returning student shall follow, students should note the following: Students enrolling in the College of Arts and Sciences after an absence from the University of Kentucky of two or more years will be expected to satisfy the university, college, graduation, and department requirements in effect at the time of readmission.

Students with extenuating circumstances may petition the College for permission to continue under the degree requirements that were in effect during their previous enrollment in the UK system.

ACADEMIC SUSPENSION AND REINSTATEMENT

The College of Arts and Sciences follows the general University rules for academic suspension and reinstatement, which are outlined in the Academic Requirements section of this Bulletin. Students placed on academic suspension must be reinstated by the college in which they plan to enroll before applying for readmission to the university. Students planning to pursue a degree program in the College of Arts and Sciences should arrange for reinstatement proceedings before May 15 for any fall semester reinstatement, or October 1 for any spring semester reinstatement by calling the A&S Advising Center, (859) 257-8712. Students who fail to request reinstatement prior to these deadlines will normally not be considered for reinstatement until the subsequent semester.

A student who has been suspended for a second time from the University of Kentucky will usually not be considered for reinstatement by the College of Arts and Sciences until two years have passed since the date of the second suspension.

THE BACHELOR OF ARTS AND BACHELOR OF SCIENCE DEGREE

Students must complete four areas of requirements to obtain a UK Arts and Sciences degree. The four areas are: UK Core; major requirements; college requirements; and university graduation requirements. The following information outlines the specific degree requirements for the B.A. and the B.S. in Arts and Sciences. Please read them carefully and also note the specific differences in each degree program.

The B.S. degree requires three hours in college disciplinary requirements for the natural sciences, social sciences and humanities beyond those required for the UK Core and requires 60 hours of physical, biological and/or mathematical sciences.

The B.A. degree requires six hours in college disciplinary requirements for the natural sciences, social sciences and humanities beyond those required for the UK Core and requires 39 hours in course work numbered at or above the 300 level.

College Requirements for a Bachelor of Arts Degree

It is important to review the “NOTES” section that immediately follows the “College Requirements for a Bachelor of Science Degree” section.

To receive the Bachelor of Arts degree, students must:
1. Complete the UK Core requirements.†
2. Complete the following college requirements:
   a. Foreign Language Requirement. Students must satisfy one of the following options (all options include American Sign Language). All A&S students are encouraged to take a foreign language placement exam at the time of their initial enrollment at UK or during their advising conference:
      i. satisfy the third and fourth semester of a college-level sequence in one language by successfully completing each semester course, or by demonstrating equivalent competency on a departmentally approved placement exam; or
      ii. successfully complete three college-level semester courses in one language and two college-level semester courses in a second language. (Two or more years of a foreign language in secondary school, as indicated on transcripts, are considered equal to two college-level semester courses); or demonstrate equivalent competency on a departmentally approved placement exam; or
   Courses taken to satisfy options i or ii above may not be taken pass/fail or audit; or
   iii. To demonstrate your proficiency in a language not taught at UK, contact the Office of International Affairs with regard to taking a proficiency exam. You are responsible for any costs related to testing; or
   iv. If you have a specific language-learning disability that is certified through the UK Disability Resource Center, you may petition the College for a substitution of course work in lieu of completing the language courses normally taken for the foreign language requirement; or
   v. International students, excluding native speakers of English, automatically fulfill this requirement; or
   vi. International students who graduated from a U.S. high school and are unable to provide proficiency exam results may petition the College for a waiver of the College foreign language requirement; students must provide official documentation establishing that English is their second language.

   b. Students must take six college hours in disciplines in the natural sciences.†
   c. Students must take six college hours in disciplines in the social sciences.†
   d. Students must take six college hours in disciplines in the humanities.
   e. Complete at least 120 credit hours in courses acceptable to the College of Arts and Sciences.†
   f. Complete at least 90 credit hours in Arts and Sciences courses.†
   g. Complete at least 39 credit hours in courses numbered at or above the 300 level.†
   h. Complete at least 39 credit hours within the major. At least 24 of these hours must be at or above the 300 level.
   i. Complete at least one course that includes some laboratory or field experience. (See the description of the College Laboratory or Field Experience Requirement which follows.)
   j. Attain an overall grade-point average of at least 2.0.
   k. Attain a grade-point average of at least 2.0 in all major requirements courses (including all premajor courses).
   l. Complete a minimum of six credit hours of free electives. These college electives cannot be counted towards UK Core or Arts and Sciences major requirements.
   m. Complete University graduation requirements, the Graduation Writing Requirement, and the residence requirement.

†See College Core Requirements for B.A. and B.S. Degree following the next section.
a. Foreign Language Requirement. Students must satisfy one of the following options (all options include American Sign Language). All A&S students are encouraged to take a foreign language placement exam at the time of their initial enrollment at UK or during their advising conference:
  i. satisfy the third and fourth semester of a college-level sequence in one language by successfully completing each semester course, or by demonstrating equivalent competency on a departmentally approved placement exam; or
  ii. successfully complete three college-level semester courses in one language and two college-level semester courses in a second language. (Two or more years of a foreign language in secondary school, as indicated on transcripts, are considered equal to two college-level semester courses); or demonstrate equivalent competency on a departmentally approved placement exam; or
Courses taken to satisfy options i or ii above may not be taken pass/fail or audit; or
  iii. To demonstrate your proficiency in a language not taught at UK, contact the Office of International Affairs with regard to taking a proficiency exam. You are responsible for any costs related to testing; or
  iv. If you have a specific language-learning disability that is certified through the UK Disability Resource Center, you may petition the College for a substitution of course work in lieu of completing the language courses normally taken for the foreign language requirement; or
  v. International students, excluding native speakers of English, automatically fulfill this requirement; or
  vi. International students who graduated from a U.S. high school and are unable to provide proficiency exam results may petition the College for a waiver of the College foreign language requirement; students must provide official documentation establishing that English is their second language.

b. Students must take three college hours in disciplines in the natural sciences.†
c. Students must take three college hours in disciplines in the social sciences.‡
d. Students must take three college hours in disciplines in the humanities.
3. Complete at least 120 credit hours in courses acceptable to the College of Arts and Sciences.²
4. Complete at least 90 credit hours in Arts and Sciences courses.³
5. Complete at least 60 credit hours in the physical, biological and/or mathematical sciences.⁴
6. Complete at least 39 credit hours within the major. At least 24 of these hours must be at or above the 300 level.
7. Complete at least one course that includes some laboratory or field experience. (See the description of the College Laboratory or Field Experience Requirement which follows.)
8. Attain an overall grade-point average of at least 2.0.
9. Attain a grade-point average of at least 2.0 in all major requirements courses (including all premajor requirements).
10. Complete a minimum of six credit hours of free electives. These college electives cannot be counted towards UK Core or any other Arts and Sciences major or college requirements.
11. Complete University graduation requirements, the Graduation Writing Requirement, and the residence requirement.

†See College Core Requirements for B.A. and B.S. Degree following the next section.

NOTES
1. See the UK Core section of this Bulletin for a detailed explanation of the requirements.
2. a. 001-099 courses, or courses followed by an “R” designation cannot be counted as credit towards a bachelor’s degree.
b. Physical education one-hour service courses (KHP) are acceptable as electives only and may count toward the total 120 minimum hours needed to graduate. Only one successful completion of multiple completions of the same KHP course will count.
c. A maximum of 16 semester credit hours earned in military science (AMS) and aerospace studies (AFS) are acceptable towards fulfilling both the College 90-hour and 120-hour requirement for the B.A. or B.S. degree. AMS/HIS 320 is not included in this 16 hour limit.
d. A maximum of 12 semester credit hours earned in experiential education and internship courses (EXP 396, departmental 399 courses) will be accepted. For ANT 399, SOC 399 and SPA 399, a maximum of 15 semester credit hours can be earned. See Experiential Education and Internship Course section within the Arts and Sciences section of the Bulletin.
e. All courses offered by the College of Arts and Sciences are acceptable with the exception of MA 108R.
f. Courses transferred from other institutions and judged by the College to be equivalent or comparable to Arts and Sciences courses are acceptable.
g. Usually the College will apply only six hours of technical course work taken at any institution.
h. The student is permitted to elect and count toward graduation courses in other colleges within the University of Kentucky or their equivalent from other institutions, not to exceed 30 hours. Hours taken in the other colleges at UK gained during the junior and senior years may, if at the 200-level or above, be counted towards the major requirements with approval from the Director of Undergraduate Studies/Program Director and the College.
i. Courses with an “S” grade designation or a “place holder” designation such asNSE (National Student Exchange) for 1 credit hour cannot be counted as credit toward a bachelor’s degree in Arts & Sciences. EAP 599, 1 credit hour, can count towards the A&S “hours” requirements for the degree.
3. Courses classified as Arts and Sciences courses for purposes of the 90-hour requirement include all courses offered by the College of Arts and Sciences; all art history courses; all courses in music and theatre appreciation and ART 100 plus the history of music and theatre; TAD 370; all economics courses; all undergraduate courses in the Department of Computer Sciences (CS); all undergraduate courses in the Department of Communication (COM); and all American Sign Language courses officially transferred to the student’s UK record.
4. CHE 230, 231, 232 and 233 will count towards the 39 credit hours in courses numbered at or above the 300 level needed for degree requirements. Please note that courses numbered 400-899 cannot be counted as 300-level and above for the purpose of completing the 39 hours needed for the degree.
5. The following courses will count toward the required 60 credit hours in the physical, biological and/or mathematical sciences hours for the Bachelor of Science degree: all courses with a MA prefix (except MA 108R); all anatomy courses; all physiology courses; all biochemistry courses; all statistics courses; all computer science courses; DHIN 101; ECO 391; GEO 130, GEO 230, GEO 351, GEO 451G, and GEO 530; PHI 120 and PHI 320; PSY 215, PSY 216, PSY 312, PSY 456, and PSY 565; and ANT 230, 332, and 333.

College Core Requirements for B.A. and B.S. Degree

To satisfy the Arts and Sciences college core requirement, students must complete three (for a B.S.) or six (for a B.A.) college hours in each of three areas – natural sciences, social sciences, and humanities – not counting any courses taken to fulfill the requirements of UK Core.

Students may also use other Arts and Sciences courses to satisfy the college core requirement if these courses have been approved to fulfill parallel inquiry areas in the UK Core.

Natural Sciences

Students cannot double dip courses to satisfy the Arts and Sciences core requirement that students complete in each of the three areas – natural sciences, social sciences, and humanities. A course used to satisfy the natural sciences requirement may not be used to satisfy the social sciences or humanities requirement.

1. All courses offered by Arts and Sciences departments or programs within the disciplines of the natural sciences including courses with the following departmental prefixes: AST, BIO, CHE, EES, PHY.
2. The following courses may also be used to satisfy the Arts and Sciences College requirement for course work within the discipline of natural sciences. However, if used to count as a Natural Science they cannot also be used for any other Social Science requirement.
   ANA 209
   ANT 230, 332, 333, 335
   CGS 500
   DHIN 101
   ENS 200, 400
   ENST 110, 300
   GEO 130, 135, 230, 351, 451G, 530
   PGS 406
   PLS 104
   PSY 312, 393, 456, 459, 565

Students who take courses fulfilling the Natural, Physical, and Mathematical Sciences UK Core requirement that exceed the credit hours needed for the requirement itself may apply the excess to this college core requirement, accumulating credit hours until the minimum has been fulfilled. This option applies to all Arts and Sciences students regardless of where the course work was completed (e.g., main campus or transfer credit).
College of Arts and Sciences

Social Sciences

Students cannot double dip courses to satisfy the Arts and Sciences core requirement that students complete in each of the three areas – natural sciences, social sciences, and humanities. A course used to satisfy the social sciences requirement may not be used to satisfy the natural sciences or humanities requirement.

1. All courses offered by Arts and Sciences departments or programs within the disciplines of the social sciences including courses with the following departmental prefixes: ANT, APP, ECO, GEO, GWS, IAS, PS, PSY, SOC if content is designated as a social science; also, see #3 below.

2. The following courses may also be used to satisfy the Arts and Sciences College requirement for course work within the discipline of social sciences:
   - AAS 200, 235, 326, 328, 336, 417G, 432, 471
   - ANT 515
   - ANT/LIN 516
   - ANT/LIN 519
   - ANT/PJP 321
   - CGS 500
   - ENS 200, 400
   - GEO/PJP 334
   - GEO/PJP 551

3. The following courses may NOT be used in the social sciences area: GWS 201, PSY 459.

Humanities

Students cannot double dip courses to satisfy the Arts and Sciences core requirement that students complete in each of the three areas – natural sciences, social sciences, and humanities. A course used to satisfy the humanities requirement may not be used to satisfy the natural sciences or social science requirement.

1. Excluding the courses listed below, all courses offered by Arts and Sciences departments or programs within the disciplines of the humanities, including courses with the following prefixes: A-H, AAS, CLA, ENG, FR, GER, HIS, JPN, LAS, LIN, MCL, PHI, RS, RUS, SPA, and HON courses designated as humanities. Note exceptions in #2 and #3 below.

2. The following courses may NOT be used in the humanities area:
   - AAS 200, 235, 326, 328, 336, 417G, 432, 471
   - AIS 101, 102, 201, 202, 442, 443
   - CHI 101, 102, 201, 202
   - CLA 101, 102, 131, 151, 152, 201, 202, 251, 252
   - ENG 102, 207, 405, 407, 507, 509
   - FR 101, 102, 110, 201, 202, 204, 307, 310, 507, 553, 570
   - GER 101, 102, 201, 202, 205, 206, 211, 212, 307, 308, 310, 507, 553, 612
   - HIS 101, 102, 201, 202
   - ITA 101, 102, 201, 202
   - JPN 101, 102, 201, 202, 301, 302, 401, 402, JPN/GE 334, JPN/GE 551
   - LIN 520, 521
   - PHI 250, 320
   - PS 417G, 471
   - RUS 101, 102, 201, 202, 301, 302, 401, 404, 501, 502
   - SPA 011, 101, 102, 103, 105, 201, 202, 203, 205, 210, 211, 215, 302, 313, 413, 451, 501, 506, 553
   - WRD 203, 204, 205, 306

3. The following courses may also be used to satisfy the Arts and Sciences College requirement for course work within the discipline of humanities:
   - AMS 201
   - ANT 515, 516, 519
   - ART 100
   - CGS 500
   - GWS 201, 506
   - MUS 203, 222, 301, 302, 303, 325

College Laboratory or Field Experience Requirement

The college requires its students to complete at least one course that includes some laboratory or field experience. In such courses the external world is observed in a controlled manner using systematic techniques and methods. A substantial portion of the course must include data collection, data analysis, and hypothesis testing under supervised conditions. The approved courses for the laboratory requirement are:

- Natural Sciences
  - Biology – BIO 111, 155, 209
  - Chemistry – CHE 111, 113
- Earth and Environmental Sciences – EES 160, 220
- Physics – PHY 211, 213, 241, 242

Social and Behavioral Sciences

- Anthropology – ANT 230, 541, 585
- Geography – GEO 406
- Political Science – PS 372
- Psychology – PSY 100, 215
- Sociology – SOC 302, 303

When appropriate, other upper level courses may be used to satisfy this requirement by petition.

MAJOR REQUIREMENTS

A major concentration in the College of Arts and Sciences consists of at least a 39-credit-hour program, referred to as the “major requirements.” Each department or program has specified the requirements for their majors, as listed in this Bulletin under each relevant heading and as outlined in APEX (the electronic degree audit system) at: myuk.uky.edu/irj/portal.

Aside from any exceptions explicitly approved by the Arts and Sciences Educational Policy Committee and the Undergraduate Council, however, major requirements must conform to the following restrictions:

1. A total of 39 credits is required in the major requirements.
2. Courses electively taken pass-fail will not count toward UK Core, major/minor, or College requirements.
3. At least 24 credits must be in courses at the 300 level or above.
4. A minimum of 18 credits in a department, taken at the 200 level or above, is required for a major.
5. An overall grade-point average of at least 2.0 in all courses listed for the major requirements.
A Second Major
A student may obtain a second major by meeting all requirements in two departments. Major work in one department can, if there is a generic relationship, serve as the outside field in the second major, and vice versa. However, the International Studies major allows a maximum of 15 hours of course work to overlap between two majors. The student must indicate his or her second major to the A&S Advising Center, 311 Patterson Office Tower. He or she must have an advisor in both departments. If one of the majors is in another college, the student is still required to know the list of requirements from the other college. The student who completes requirements for a second major will receive only one degree, but his or her transcript and diploma will reflect the two majors.

For information on second majors (not the same as second degree), consult the Graduation Requirements section of this Bulletin.

A Second Bachelor’s Degree
A student may obtain a second bachelor’s degree by completing all university requirements for one degree; by completing all the major requirements of both degree; and by completing all college requirements of both degree. Courses taken towards fulfilling one degree may also count towards fulfilling requirements in the other, but the total credits in the two degree programs must be at least 144 hours. Major work in one department can, if there is a generic relationship, serve as the outside field in the second major and vice versa. However, the International Studies major allows a maximum of 15 hours of course work to overlap between two majors. The student must indicate his/her double degree in his/her primary college. The student may elect to receive the degree simultaneously, if college and departmental requirements can be met simultaneously. For information regarding double degree (not the same as double majors), consult the Graduation Requirements section of this Bulletin. Students are expected to be knowledgeable of requirements for any major in Arts and Sciences by checking the University’s online degree audit system, APEX.

Minors
The College of Arts and Sciences does not require minors. However, students can earn a minor in the following disciplines in the college:

- anthropology
- biological sciences
- chemistry
- creative writing
- criminology
- economics
- English
- gender and women’s studies
- geography
- geology
- history
- international studies
- linguistics
- mapping and GIS
- mathematics
- microbiology
- modern and classical languages, literatures and cultures
- neuroscience
- philosophy
- physics
- political science
- professional and technical writing
- psychology
- sociology
- Spanish
- statistics
- writing, rhetoric and digital studies

Interdisciplinary minors are also available in:
- African American studies
- American studies
- Appalachian studies
- cognitive science
- environmental studies
- Indian culture
- Jewish studies
- Latin American, Caribbean, and Latino studies

Minors can only be awarded in conjunction with a UK undergraduate degree. Additionally, students cannot pursue a minor in the same discipline as their major. This includes the area of concentration for a Topical Studies major and International Studies major.

For more information about choosing or declaring a minor, please review the requirements in APEX at: myuk.uky.edu/irj/portal; contact the department where the minor is offered; and/or consult the departmental section of this Bulletin. To officially declare a minor, students must complete a Declaration/Change of Major or Minor form in the A&S Advising Center, 311 Patterson Office Tower.

Awarded minors appear on the student’s final transcript but not on their diploma.

The Preparation of Teachers
Any Arts and Sciences student intending to seek teaching certification should so indicate to his or her academic advisor. The student should also contact the College of Education, 166 Taylor Education Building. As soon as the student has determined to seek certification he or she is assigned an advisor both in the College of Education and in the major department in the College of Arts and Sciences.

Students seeking certification should be sure to familiarize themselves with the requirements of both colleges. The sooner and the more thoroughly this is done, the greater the advantage to the student.

INFORMATION ON COURSES

Transfer of Kentucky Community and Technical College System (KCTCS) Courses
The college will usually apply up to 6 hours of technical course work taken at any accredited institution including KCTCS. Beyond these 6 credit hours, courses will be evaluated on an individual basis and as it applies to the student’s baccalaureate degree program.

Independent Work Courses
A junior or senior may, with prior approval of his or her faculty advisor and the instructor who would direct the work, register for an independent work course in his or her major department. Normally, a cumulative GPA of 3.0 in the major is required. In exceptional circumstances a nonmajor or topical studies major may be permitted to enroll in a departmental independent work course. Such a course is characterized by special assignments for study, regular conferences, reports, and usually involves preparation of a paper. The instructor in each case must file with the department evidence of the nature of the work achieved. Credit for such courses may be granted to undergraduates to an amount of not more than 12 hours.

Experiential Education and Internship Courses
The College of Arts and Sciences accepts experiential education and internship courses (such as EXP 396, departmental 399 courses,) on a pass-fail basis only, regardless of which college is offering the courses. A total of 12 credit hours in these courses may be counted toward the 120 credit hours required for graduation. For ANT 399 and SPA 399, a maximum of 15 semester credit hours can be earned. However, College of Arts and Sciences majors may only earn a maximum of six credit hours of experiential education credit (EXP) in one semester.

ROTC Program
A maximum of 16 semester credit hours earned in American Military Studies and Air Force Studies courses will be accepted towards fulfilling the 90 hours of A&S courses required and the 120 minimum number of hours needed for graduation with a baccalaureate degree in the College of Arts and Sciences, even though students typically enroll for more than 16 semester credit hours of AMS and AFS course work. However, credit received from taking AMS/HIS 320, American Military History, can apply in addition to the 16 credit hour limit earned in AMS or AFS course work. Additionally, AMS 350 (1 credit hour) can only be counted for a maximum of 4 credit hours.
AEROSPACE STUDIES  
(Air Force ROTC)

The Department of Aerospace Studies provides a campus education program through which qualified students can simultaneously earn an Air Force commission and a college degree. Faculty members are experienced, active duty Air Force officers with advanced degree.

Admission to the Program
- Non-scholarship freshmen and sophomores may register for Air Force Studies (AFS) courses without incurring a military commitment.
- Students with a minimum of five semesters of school remaining in a graduate or undergraduate status may qualify for Air Force ROTC. For more information, call (859) 257-7115.

Requirements
An academic major in aerospace studies is not offered. However, by successfully completing the Air Force ROTC program, a qualified student may concurrently earn a commission as an active duty Air Force Second Lieutenant while completing requirements for a degree. Students may enroll in some Aerospace Studies courses without joining the Air Force ROTC cadet corps. For more information, call (859) 257-7115.

AFROTC Curriculum
The AFROTC curriculum consists of both academic classes and leadership laboratory or seminar classes.
- The General Military Course (GMC) is a two-year course normally taken during the freshman and sophomore years.
- The Professional Officer Course (POC) is a two-year course normally taken during the junior and senior years. Along with academic classes each semester, all cadets also take leadership laboratory classes.

In the GMC, there are four academic classes:

**Freshman Semesters**
- AFS 111 offered in fall semesters
- AFS 113 offered in spring semesters

**Sophomore Semesters**
- AFS 211 offered in fall semesters
- AFS 213 offered in spring semesters

These cover two main themes – the development of air power and the contemporary Air Force in the context of the U.S. military organization. The GMC academic classes are open to any UK student.

In the POC, there are four academic classes:

**Junior Semesters**
- AFS 311 offered in fall semesters
- AFS 313 offered in spring semesters

**Senior Semesters**
- AFS 411 offered in fall semesters
- AFS 413 offered in spring semesters

These cover Air Force management and leadership and national security studies.

**Note:** Entry into the POC years is competitive and is based on:
- Air Force Officer Qualifying Test scores
- Grade-point average
- Evaluation by the AFROTC Detachment Commander
- Only physically qualified students in good academic standing may compete for entry into the POC.
- Typically, these courses are for those cadets who have already completed the courses in the GMC, but the courses are open to any UK student.

Students enrolled as cadets are required to be involved once a week in a 1-credit-hour course in the cadet corps training program designed to simulate a typical Air Force organization and its associated functions. This course is known as Leadership Laboratory. A cadet (only), UK students taking the courses electively are not required to take Leadership Laboratory but are also welcome, but cadets only are required to take all of the Leadership Laboratories each semester (fall and spring only) concurrent with their AFS courses listed above. Please call (859) 257-7115 for further inquiries on the matter.

GMC Years

**Freshman Semesters**
- AFS 112 fall semesters
- AFS 114 spring semesters

**Sophomore Semesters**
- AFS 212 fall semesters
- AFS 214 spring semesters

**POC Years**

**Junior Semesters**
- AFS 312 fall semesters
- AFS 314 spring semesters

**Senior Semesters**
- AFS 412 fall semesters
- AFS 414 spring semesters

The leadership laboratories are largely cadet-planned and conducted under the concept that they provide leadership training experiences that will improve the cadets’ capabilities as Air Force officers. This also involves three hours of physical training each week. Leadership laboratory is open to students who are members of the Air Force Reserve Officer Training Corps or are eligible to pursue a commission as determined by the Air Force ROTC Detachment Commander.

Field Training
Field training is offered at Maxwell Air Force Base in Alabama. Students receive officer training and leadership development with other students. Simultaneously, the Air Force has an opportunity to evaluate each student as a potential member of its officer corps. Field training courses include cadet orientation, survival training, officer training, aircraft and aircrew orientation, physical training, organizational and functional aspects of an Air Force base, career orientation, small arms familiarization, first aid, and other supplemental training.

Scholarships
Students interested in AFROTC scholarships should refer to the Student Financial Aid, Awards, and Benefits section of this Bulletin or call (859) 257-7115. Information is subject to change.

ANTHROPOLOGY

The Department of Anthropology offers opportunities to learn about the diverse people of today’s world, as well as about their biological and cultural origins. This area of study deals with ecology, society, biology, culture, and language, among other aspects of human life. In addition, anthropologists study history and evolution in both a cultural and biological framework.

Anthropology provides an excellent foundation for careers in a variety of professions and occupations, including community health, public health policy, medicine and health services, planning and community development, international relations and development, private business, government, law, journalism, museum work, and university teaching and research.

Students can major or minor in anthropology. The major is structured to provide the student with a broad overview of the major subdisciplines: cultural anthropology, physical anthropology and archaeology. It also allows sufficient flexibility for a student to concentrate on a specific area of interest.

Visit our Web site at: http://anthropology.as.uky.edu/

Bachelor of Arts with a major in ANTHROPOLOGY

120 hours (minimum)

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the Major Requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Arts degree on page 130.
UK Core Requirements
See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

I. Intellectual Inquiry in Arts and Creativity
Choose one course from approved list .................. 3

II. Intellectual Inquiry in the Humanities
Choose one course from approved list .................. 3

III. Intellectual Inquiry in the Social Sciences
ANT 101 What Makes Us Human? Intro to Anthropology or ANT 102 Archaeology: Mysteress and Controversies or One course from approved list .................. 3

IV. Intellectual Inquiry in the Natural, Physical, and Mathematical Sciences
Choose one course from approved list .................. 3

V. Composition and Communication I
CIS/WRD 110 Composition and Communication I ........ 3

VI. Composition and Communication II
CIS/WRD 111 Composition and Communication II .......... 3

VII. Quantitative Foundations
Choose one course from approved list .................. 3

VIII. Statistical Inferential Reasoning
Choose one course from approved list .................. 3

IX. Community, Culture, and Citizenship in the USA
ANT 221 Native People of North America or One course from approved list .................. 3

X. Global Dynamics
One of the following:
ANT 160 Cultural Diversity in the Modern World ANT 222 Middle East Cultures ANT 225 Culture, Environment and Global Issues ANT 241 Origins of Old World Civilization ANT 242 Origins of New World Civilization ANT 311 Anthropology of Globalization ANT 321 Introduction to Japanese Culture, Meiji (1868) to Present ANT 329 Cultures and Societies of Eurasia and Eastern Europe: Socialism and Post-Socialist Change or One course from approved list .................. 3

*Course used towards completion of a UK Core Requirement.
**BIOLOGY**

To address the breadth and depth essential to educating biologists, the biology major is structured to include both a broad foundation through core courses and opportunity for specialization within a biological subfield through biology electives. The major is designed to prepare the student for a post-baccalaureate profession in biology, for advanced professional training in the health sciences, or for graduate study in basic and applied areas of the biological sciences.

**Bachelor of Arts with a major in BIOLOGY**

120 hours (minimum)

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the Major Requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Arts degree on page 130.

**UK Core Requirements**

See the **UK Core** section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

I. **Intellectual Inquiry in Arts and Creativity**

Choose one course from approved list …………. 3

II. **Intellectual Inquiry in the Humanities**

Choose one course from approved list …………. 3

III. **Intellectual Inquiry in the Social Sciences**

Choose one course from approved list …………. 3

IV. **Intellectual Inquiry in the Natural, Physical, and Mathematical Sciences**

CHE 105 General College Chemistry I …………. 4

CHE 111 Laboratory to Accompany General Chemistry I …………. 1

V. **Composition and Communication I**

CIS/WRD 110 Composition and Communication I …………. 3

VI. **Composition and Communication II**

CIS/WRD 111 Composition and Communication II …………. 3

VII. **Quantitative Foundations**

MA 137 Calculus I With Life Science Applications or MA 113 Calculus I or MA 123 Elementary Calculus and its Applications …………. 4

VIII. **Statistical Inferential Reasoning**

STA 296 Statistical Methods and Motivations …………. 3

IX. **Community, Culture and Citizenship in the USA**

Choose one course from approved list …………. 3

X. **Global Dynamics**

Choose one course from approved list …………. 3

UK core hours: …………. 33

**Graduation Composition and Communication Requirement (GCCR)**

Choose one of three options:

1. BIO 425 Biology Seminar (Subtitle required) and BIO 350 Animal Physiology 5
2. BIO 425 Biology Seminar (Subtitle required) and BIO 430G Plant Physiology 5
3. WRD 204 Technical Writing 3

**Graduation Composition and Communication Requirement hours (GCCR):** 3-5

**College Requirements**

Humansities – two courses 6

Social Science – two courses 6

Third and fourth semesters of language 6

Free Electives 6

Lab or Field Experience – *satisfied by major Graduation Writing Requirement* (choose any GWR Humanities 300-level course; this will also count as one of the two Humanities courses in the College Requirements)

**UK Core and College hours:** 57 (45)

**Premajor Requirements**

BIO 146 Introductory Biology I 3

BIO 152 Principles of Biology II 3

BIO 155 Laboratory for Introductory Biology I or BIO 198 Scholars Biology Research 1-2

†CHE 105 General College Chemistry I 4

CHE 111 Laboratory to Accompany General Chemistry I 1

CHE 107 General College Chemistry II 3

CHE 113 Laboratory to Accompany General Chemistry II 2

MA 137 Calculus I With Life Science Applications or MA 113 Calculus I or MA 123 Elementary Calculus and its Applications 4

Free Elective 0-1

**Premajor hours:** 21

†The CHE 105 requirement can be satisfied with CHE 109 and CHE 110.

**Major Requirements**

Minimum major requirement for graduation is 54 credit hours in courses as detailed below. The minimum GPA of all major and premajor courses must be at least 2.0.

First Tier Core

BIO 303 Introduction to Evolution 4

BIO 304 Principles of Genetics 4

Second Tier Core

To be taken after completion of First Tier Core.

Choose two of the following to complete 8 hours:

BIO 350 Animal Physiology or BIO 430G Plant Physiology 4

BIO 315 Introduction to Cell Biology 4

BIO 325 Ecology 4

plus:

STA 296 Statistical Methods and Motivations 3

BIO 425 Biology Seminar (Subtitle required) or BIO 499 Biology Research Seminar 1

Core hours: 20

Other Course Work Required for the Major

From Outside the **Major Department**

CHE 236/231 Survey of Organic Chemistry/ Organic Chemistry Laboratory I or CHE 230/231 Organic Chemistry I/Laboratory 4

or

*PHY 211 General Physics or ††PHY 151 Introduction to Physics 3-5

††PHY 151 is not accepted for admission into Medical, Dental or Pharmacy School. Check with your advisor before choosing a physics course.

Other Major hours: 7-9

**OPTIONS**

Complete one of the following options. Students cannot mix and match requirements from the two options. An option must be completed in its entirety.

**Option A – Minor Option**

**NOTE:** 14 of these hours must be at the 300-level or above.

Complete the requirements for any minor other than the biology minor …………. 18-21

**Biography Electives** …………. 4-9

**Biography Electives – A maximum of 3 credits of independent research course work may be used in this section.**

If students double-dip major and minor requirements, additional biology electives must be taken to meet the graduation requirement of 54 hours for the B.A. in Biology.

**Total Hours Option A:** 25-27

**Option B – Topical Focus Option**

**NOTE:** 14 of these hours must be at the 300-level or above.

Complete a 12 credit hour sequence of courses with a topical focus. At least 6 of these hours must be at the 300-level or above …………. 12

**NOTE:** Students who have multiple interests or interests that do not fall into the requirements for a minor offered at the University of Kentucky may select a 12 credit hour sequence of courses with a topical focus. Courses in several disciplines and in the various interdisciplinary programs may be combined to pursue the topical focus. Students interested in pursuing Option B must have the 12 credit hour sequence of courses APPROVED IN ADVANCE by the Director of Undergraduate Studies, Department of Biology. Students must submit an **Approval of Topical Focus Form** to the Director of Undergraduate Studies.

**Topical Focus Option:** …………. 13-15

**Biology Electives – A maximum of 6 credits of independent research course work may be used in this section.**

**Total Hours Option B:** 25-27
Acceptable biology electives from outside the Department.

Hours to be chosen from 300+ level BIO courses or the list below. Note: ANA 209, BIO 208, BIO 209 and PGY 206 CANNOT be used for this requirement. A maximum of 1 credit hour of seminar course work (for example BIO 425, BIO 426, BIO 427) may be counted within this elective requirement.

Acceptable upper-level electives for the B.A. in Biology:
BIO 3XX, BIO 4XX, BIO 5XX, BIO 6XX (BIO 208 and BIO 209 CANNOT be used to satisfy the upper-level requirement for the B.A., B.S. or minor in Biology.

A&S 300, 500 (acceptable as upper-level credit only when offered by the Department of Biology)

ABT 460
ANA 511*, 512*, 516* (some other anatomy courses at the 500-level are accepted, but are usually restricted to professional students)

ANT 332
ASC 364, 378
BCH 401G
EES 401G
ENT 310, 320, 402, 460, 561, 564, 568
FOR 340*, 402*
FSC 530*
MI 494G, 595*, 598
NRE 320, 420G*, 450G, 455G
PGY 412G, 560, 590/PGY 412G is acceptable as an elective for upper-level biology credit but does not substitute for BIO 350 or BIO 430G)

PLS 320*, 330*, 332*, 366, 450G, 502, 566, 567*
PPA 4000*
PSY 456, 459, 552, 565
STA 570, 580 (Biology usually accepts only one of these courses for each student. Other STA courses may be accepted at the discretion of your advisor, and this may depend upon the area of biology in which you choose to specialize.)

TOX 509

Other courses may be accepted at the discretion of the Director of Undergraduate Studies in the Department of Biology.

*Lab courses that satisfy upper-level lab requirement.

Total Minimum Hours Required for Degree 120

Bachelor of Science with a major in BIOLOGY

120 hours (minimum)

Any student earning a Bachelor of Science (BS) degree must complete a minimum of 60 hours in natural, physical, mathematical, and computer science. See the complete description of College requirements for a Bachelor of Science degree, including a specific listing of courses applicable to the 60-hour requirement, on pages 130-131.

UK Core Requirements

See the UK Core section of this Bulletin for the complete UK core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK core requirements.

I. Intellectual Inquiry in Arts and Creativity
Choose one course from approved list 3

II. Intellectual Inquiry in the Humanities
Choose one course from approved list 3

III. Intellectual Inquiry in the Social Sciences
Choose one course from approved list 3

IV. Intellectual Inquiry in the Natural, Physical, and Mathematical Sciences

V. Composition and Communication I
Choose one course from approved list 3

VI. Composition and Communication II
Choose one course from approved list 3

VII. Quantitative Foundations

MA 113 Calculus I
or
MA 137 Calculus I With Life Science Applications 4

VIII. Statistical Inference and Reasoning

STA 296 Statistical Methods and Motivations 3

IX. Community, Culture and Citizenship in the USA
Choose one course from approved list 3

X. Global Dynamics
Choose one course from approved list 3

UK Core hours: 33

Graduation Composition and Communication Requirement (GCCCR)
Choose one of three options:
1. BIO 425 Biology Seminar (Subtitle required)
   and
   BIO 350 Animal Physiology 5
2. BIO 425 Biology Seminar (Subtitle required)
   and
   BIO 430G Plant Physiology 5
3. WRD 204 Technical Writing 3

Graduation Composition and Communication Requirement hours (GCCCR) 3-5

College Requirements

Humanities – one course 3
Social Science – one course 3
Third and fourth semesters of language 6
Free Electives 6
Lab or Field Experience – satisfied by major

Graduation Writing Requirement (choose any GWR Humanities 300-level course; this will also count as one of the two Humanities courses in the College Requirements)

General Education and College requirements: 49 (39)

Premajor Requirements

BIO 148 Introductory Biology I 3
BIO 152 Principles of Biology II 3
BIO 155 Laboratory for Introductory Biology I or
BIO 198 Scholars Biology Research 1-2

CHE 105 General College Chemistry I 4
CHE 111 Laboratory to Accompany General Chemistry I 1
CHE 107 General College Chemistry II 3
CHE 113 Laboratory to Accompany General Chemistry II 2

MA 137/138 Calculus I/II With Life Science Applications or
MA 113/114 Calculus I/II 8

Premajor hours: 25-26

The CHE 105 requirement can be satisfied with CHE 109 and CHE 110.

Major Requirements

Minimum major requirement for graduation is 56 credit hours in courses not open to freshmen. The minimum GPA of all major and premajor courses must be at least 2.0.

Major Core

First Tier Core

BIO 303 Introduction to Evolution 4
BIO 304 Principles of Genetics 4

Second Tier Core

To be taken after completion of First Tier Core.

BIO 315 Introduction to Cell Biology 4
BIO 325 Ecology 4
BIO 350 Animal Physiology or
BIO 430G Plant Physiology 4
STA 296 Statistical Methods and Motivations 3
BIO 425 Biology Seminar (Subtitle required) or
BIO 499 Biology Research Seminar 1

Core hours: 24

Biological Electives

Choose 15 hours of acceptable biology electives 15
15 hours to be chosen from 300+ level BIO courses (excluding BIO 208) or the list below. One course must have lab, one of which may be BIO 395. A maximum of 6 hours of Independent Research course work from biological sciences departments may be counted within the 15 hour requirement.

NOTE: ANA 209, BIO 208, BIO 209 and PGY 206 CANNOT be used for this requirement. A maximum of 1 credit hour of seminar course work (ex. BIO 425, BIO 426, BIO 427) may be counted within the 15 hour requirement.

Other Major hours: 32

Acceptable upper-level electives for the B.S. in Biology:

BIO 3XX, BIO 4XX, BIO 5XX, BIO 6XX (BIO 208 and BIO 209 CANNOT be used to satisfy the upper-level requirement for the B.A., B.S. or minor in Biology.

A&S 300, 500 (acceptable as upper-level credit only when offered by the Department of Biology)

ABT 460
ANA 511*, 512*, 516* (some other anatomy courses at the 500-level are accepted, but are usually restricted to professional students)

ANT 332
ASC 364, 378
BCH 401G
Minor in Microbiology

The minor in Microbiology consists of a total of 19 hours as follows:

**Minor Requirements**
- BIO 308 General Microbiology ........................................... 3
- BIO 309 Microbiology Laboratory .................................... 1
- BCH 401G Fundamentals of Biochemistry
- or BIO 315 Introduction to Cell Biology
- or CHE 550 Biological Chemistry I
- or CHE 552 Biological Chemistry II ................................. 3-4

One course from the following:
- BIO/MI 494G Immunobiology ........................................... 3
- BIO/MI 495G Bacterial Pathogenesis ................................. 3
- BIO/MI 582 Virology ...................................................... 3

If more than one course is taken from this list, the additional course(s) would count as an elective for the minor.

**Minor Electives**
- Select 7 or 8 hours of electives (to make a total of 19 hours for the minor) from:
  - BIO 395 Research in Biology – up to 6 credits
  - BIO/MI 582 Virology ...................................................... 3
  - CHE 580 Topics in Chemistry ......................................... 3

Other microbiology-related courses at the 300-level or above, and other STA courses, may be used as electives for the minor, at the discretion of the Director of Undergraduate Studies in the Department of Biology.

Minor in Neuroscience

The minor in Neuroscience requires 18 hours of course work to include:

**Minor Prerequisites**
- BIO 152 Principles of Biology II or equivalent .................. 3

**Minor Requirement**
- One of the following:
  - BIO 302 Introduction to Neuroscience
  - PSY 312 Brain and Behavior ........................................... 3

**Minor Electives**
- Choose 12 credits from the following courses:
  - ANA 605 Neurobiology of CNS Injury and Repair ........... 3
  - BIO 625 Introduction to Functional MRI ............................ 1
  - ANA 780 Special Topics in Neurobiology ........................ 1-3
  - BIO 395 Research in Biology – up to 6 credits
  - BIO 350 Biology of Sleep and Circadian Rhythms .......... 3
  - BIO 535 Comparative Neurobiology and Behavior .......... 3
  - BIO 638 Developmental Neurobiology ............................ 3
  - BIO 650 Animal Physiology Laboratory .......................... 2
  - CGS 500 Cognitive Science in Theory and Practice .......... 3
  - CHE 580 Topics in Chemistry ........................................... 1-3
  - PSY 459 Neuropharmacology: Drugs and Behavior .......... 3

Other neuroscience-related courses at the 200-level or above, as approved by DUS in Biology

**Total Hours:** 18

**Bachelor of Arts with a major in CHEMISTRY**

122 hours (minimum)

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the Major Requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. Please also note that the Organic Chemistry Sequence (CHE 230/231/232/233) will count towards completion of this requirement. See the complete description of College requirements for a Bachelor of Arts degree on page 130.

**UK Core Requirements**

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

1. Intellectual Inquiry in Arts and Creativity

Choose one course from approved list ............................... 3
Other Course Work Required for the Major
Chemistry Major Field Options
Choose 21 hours at the 300-500 level with a prefix of ANA, BCH, BIO, CHE, CME, CS, EES, MA, MI, MSE, PAT, POY, PHA, PHR, PHY, PM, RM, or STA. Credit will not be given for both BCH 401G and CHE 550 or CHE 552. At least 5 of these hours must be in CHE courses; at least 4 hours must be taken outside CHE. Up to 9 hours of CHE 395 are recommended for students having a minimum GPA of 3.0 in CHE courses. Other courses may be approved by the Undergraduate Program Committee. Students working towards teaching accreditation may count 6 hours taken at the 300+ level from the College of Education. A maximum of 9 hours in undergraduate research or reading courses may be counted; such courses require approval of the Undergraduate Program Committee if the courses do not carry the CHE prefix.

From the Physics Department
PHY 211/213 General Physics or
PHY 231/232 General University Physics and
PHY 241/242 General University Physics Laboratory

Other Major hours: ........................................ 21

Total Minimum Hours Required for Degree: .................. 122

*Any language may be used to satisfy the College Foreign Language requirements – German is recommended.
*Course used towards completion of a UK Core Requirement.

123 hours (minimum)

Any student earning a Bachelor of Science (BS) degree must complete a minimum of 60 hours in natural, physical, mathematical, and computer science. See the complete description of College requirements for a Bachelor of Science degree, including a specific listing of courses applicable to the 60-hour requirement, on pages 130-131.

UK Core Requirements

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

I. Intellectual Inquiry in the Humanities

*Any foreign language sequence satisfying the College of Arts and Sciences requirement in foreign languages may be taken. German is recommended.

Certification Requirements
The B.S. degree is certified by the American Chemical Society.

Minor in Chemistry
The minor in Chemistry requires the following:
MA 113 Calculus I or 4
MA 132 Calculus for the Life Sciences 3
MA 144 Calculus II 4
PHY 211/213 General Physics or 10
PHY 231/241 General University Physics and Laboratory 5
PHY 232/242 General University Physics and Laboratory 5
CHE 105/107 General College Chemistry I and II 7
CHE 111/113 Laboratory to Accompany General Chemistry I and II 3
CHE 226 Analytical Chemistry 3
CHE 230/231 Organic Chemistry I and Laboratory 4
CHE 232/233 Organic Chemistry II and Laboratory II 4
CHE 4406 Introductory Physical Chemistry or 4
CHE 4466 Physical Chemistry for Engineers 3

EARTH AND ENVIRONMENTAL SCIENCES

The earth and environmental sciences encompass a wide variety of studies of our planet, including the study of its composition, structure, prehistoric life, internal and surficial processes, and history. These studies have important implications for understanding how our planet functions, as well as for understanding the interactions between humans and their environment. The discipline includes numerous applications in the discovery and use of mineral, energy, and water resources; in the protection and restoration of the environment; and in planning for the impacts of natural hazards (earthquakes, landslides, etc.) and climate change on global societal development. Students undertake the study of earth and environmental sciences in the classroom, laboratory, and field.
Students in earth and environmental sciences earn the Bachelor of Science or Bachelor of Arts degree with a major in Geological Sciences. The B.S. program is designed for students who plan a career as a professional geologist or who plan to attend graduate school. The B.A. program is designed for students planning a career in public policy relating to earth science and environmental issues, earth-science education, business (environmental consulting), environmental law, or environmental medicine.

Bachelor of Arts with a major in GEOLOGICAL SCIENCES

120 hours (minimum)
Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the Major Requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Arts degree on page 130.

UK Core Requirements
See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

Bachelor of Science with a major in ECONOMICS

120 hours (minimum)

Any student earning a Bachelor of Science (BS) degree must complete a minimum of 60 hours in natural, physical, mathematical, and computer science. Please note: courses with a prefix of ECO are generally not accepted towards fulfilling this 60-hour requirement. Therefore, be sure to keep this 60-hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Science degree, including a specific listing of courses applicable to the 60-hour requirement, on pages 130-131.

UK Core Requirements

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

Major Requirements
Major Core Requirements
ENG Historical Survey Requirement .............................................. 6
Majors must take two Historical Survey courses of their choice. Historical Surveys can be taken in any combination and any order. Courses fulfilling the Historical Survey Requirement include:
ENG 241 Survey of British Literature I ........................................... 3
ENG 242 Survey of British Literature II ......................................... 3
ENG 251 Survey of American Literature I ...................................... 3
ENG 252 Survey of American Literature II ................................. 3
ENG 265 Survey of African-American Literature I ....................... 3
ENG 266 Survey of African-American Literature II ..................... 3

ENG 330 Text and Context
(Subtitle required) ........................................................................... 3
Majors must complete this core course after completing the premajor requirements and before going on to 400+ level courses in the major. ENG 330 fulfills the Graduation Writing Requirement.
ENG Early Period Requirement ............................. 0-3
Majors must take at least one Early Period ENG course of their choice. This requirement will NOT be waived.
Courses fulfilling the Early Period Requirement include:
ENG 241 Survey of British Literature I ................. 3
ENG 251 Survey of American Literature I ............. 3
ENG 341 Chaucer and His Contemporaries ............ 3
ENG 342 Shakespeare ........................................... 3
ENG 343 Renaissance Drama and Society ............. 3
ENG 518 Advanced History of the English Language 3
ENG 519 Introduction to Old English .................... 3
Other Electives
To fulfill the ENG Imaginative Writing Option, students must complete the following:
• ENG 207 Beginning Workshop in Imaginative Writing (Subtitle required) ............ 3
• ENG 407 Intermediate Workshop in Imaginative Writing (Subtitle required) ............ 3
• ENG 507 Advanced Workshop in Imaginative Writing (Subtitle required) taken twice under two different subtitles ............ 6
• submission of a portfolio for evaluation by the Imaginative Writing staff six weeks prior to graduation.
Bachelor of Science with a major in ENGLISH

120 hours (minimum)
Any student earning a Bachelor of Science (BS) degree must complete a minimum of 60 hours in natural, physical, mathematical, and computer science. Courses with an ENG prefix are generally not accepted towards fulfilling this 60-hour requirement. Therefore, be sure to keep this requirement in mind as you choose your course work for the requirements in the major. For the ENG B.S. in particular, majors are allowed to apply an additional 9 hours of elective course work towards the science requirement. See the complete description of College requirements for a Bachelor of Science degree, including a specific listing of courses applicable to the 60-hour requirement, on pages 130-131.

ENG Historical Survey Requirement ................. 6
Majors must take two Historical Surveys of their choice. Historical Surveys can be taken in any combination and any order. Courses fulfilling the Historical Survey Requirement include:
ENG 241 Survey of British Literature I ................. 3
ENG 242 Survey of British Literature II ................. 3
ENG 251 Survey of American Literature I ............ 3
ENG 252 Survey of American Literature II ............ 3
ENG 265 Survey of African-American Literature I ...... 3
ENG 266 Survey of African-American Literature II .... 3
ENG 460G Studies in African-American Literature (Subtitle required) .................... 3
ENG 470G Comparative and Transnational Studies in Literature (Subtitle required) .......... 3
ENG 490G Studies in Literature and Gender (Subtitle required) .................... 3
any other course designated as a Diversity course at the 200-500 level ............................. 3
Major Core hours: ............................................. 9-15
Other Course Work Required for the Major
From the Major Department:
Majors must take an additional seven courses in ENG (Major Electives) primarily at the 300-level and above. Of these required seven courses:
• two courses must be at the 400-level, of which one must be above ENG 407 (i.e., not ENG 401, 405, or 407);
• two courses maximum may be counted from additional Historical Surveys (surveys cannot be double-counted for the Historical Survey Requirement and for the total ENG course requirement);
• two courses maximum may be counted from among ENG 207, ENG 221, ENG 260, ENG 280, and ENG 290.
All additional courses must be at the 300-500 level in ENG. Majors should fulfill the Early Period and Diversity Requirements from among these courses if they have not been already satisfied (e.g., by survey classes or ENG 330) ............ 21
Total minimum ENG course hours (excluding premajor) .................... 39-42
From Outside the Major Department
For the English B.A. degree, 9 additional hours at the 200+ level outside English are required in allied departments and programs in Arts, Humanities, Social Sciences, and Education. Applicable departments and programs include (by prefix): A&S, AIS, ANT, APP, CHL, CLA, EDC, EDU, EPE, GER, GWS, HIS, HISI, HNM, HON, IAS, ITA, JOU, JPN, LAS, LIN, MAS, MCL, PHI, PS, SPA, ST, WRD
Total Major hours: ............................................. 39-42
Other Electives
Choose electives and other courses to lead to the minimum total of 120 hours required for graduation.
Total Minimum Hours Required for Degree .................... 120
Imaginative Writing Option — B.A.
12 total hours within the ENG program

in Literature (Subtitle required) .........................3
ENG 490G Studies in Literature and Gender
(Subtitle required) ................................................3
any other course designated as a Diversity course at the
200-500 level .........................................................3

**Major hours:** .....................................................9-15

---

**Minor in Creative Writing**

The minor in Creative Writing consists of a total of
18 hours, of which at least 9 hours must be at
or above the 300 level, distributed as follows:

**Minor Requirements**

One ENG Historical Survey course:
ENG 241 Survey of British Literature I
ENG 242 Survey of British Literature II
ENG 251 Survey of American Literature I
ENG 252 Survey of American Literature II
ENG 265 Survey of African-American Literature I
ENG 266 Survey of African-American Literature II

ENG 207 Beginning Workshop in Imaginative
Writing (Subtitle required) ..............................3
ENG 407 Intermediate Workshop in Imaginative
Writing (Subtitle required) ..............................3
plus one additional Creative Writing course:
ENG 107 Writing Craft: Introduction to Creative Writing
ENG 207 Beginning Workshop in Imaginative Writing
(Subtitle required)
ENG 407 Intermediate Workshop in Imaginative Writing
ENG 507 Advanced Workshop in Imaginative Writing

**Minor Electives**

Two non-Creative Writing ENG courses ..............6

---

**Minor in English**

The minor in English requires 19 hours of
course work to include:

Any one ENG Historical Survey course:
ENG 241 Survey of British Literature I ..................3
ENG 242 Survey of British Literature II ..................3
ENG 251 Survey of American Literature I ............3
ENG 252 Survey of American Literature II ............3
ENG 265 Survey of African-American Literature I ....3
ENG 266 Survey of African-American Literature II ....3

One core course:
ENG 330 Text and Context (Subtitle required) ........3

Four more ENG courses, with a maximum of one 100-level
course and a minimum of two 300+ level courses ......12
Combinations may include:
1. any one 100-level ENG course plus one 200-level
   ENG introductory course (e.g. ENG 230, ENG 260,
   ENG 280, ENG 290) or a 300+ level ENG course,
   plus any two ENG courses at the 300+ level;
2. any two 200-level ENG introductory courses, plus
   any two ENG courses at the 300+ level;
3. any one 200-level ENG introductory course, plus
   any three ENG courses at the 300+ level;
4. any four ENG courses at the 300+ level.

AREAS OF EXPERTISE
Students must take five courses (15 credits) in one Area of 
Expertise, two in another Area (6 credits), and one in a 
third Area (3 credits)

Area 1 – Economics
A sustainable balance must be made between economic gain 
and protection of natural resources. Governments must 
determine policy and institute laws to provide the necessary 
protection of natural resources, and provide the guidelines for 
any development. This Area will provide the students with 
training in the interconnectedness of economics, policy and 
development. The students will have the freedom to select 
courses suited to their career goals. For example, students 
looking towards a career in business may select courses 
related to economics and those planning to go to Law School 
may focus on policy courses.

*ECO 201 is required for Area 1.

Area 2 – Environment
This area will build upon the fundamental natural science 
knowledge obtained in ENS 202 and the subjects taken to 
fulfill the A&S requirements. Students will be able to select 
courses spanning a wide range of environmental subjects 
in order to focus on a subject of their specific interest. For 
example, this Area could be used to observe how societies 
have influenced the natural world from historic to modern 
times, the impact of development on ecology, and how 
climate change today compares to changes that occurred in 
the past.

Area 3 – Society
This Area explores the way that human society interacts with 
the environment. “Coupled human-natural systems” are a 
primary driver of environmental change, and also a key source 
of solutions to environmental problems. This Area will build 
students’ knowledge of the mutually influencing human-

FOREIGN LANGUAGE AND INTERNATIONAL ECONOMICS
The Foreign Language and International Economics (FLIE) major combines economics with proficiency in a non-English language and prepares students for a future in government, international relations, law, research, multinational corporations, and local industries who conduct business internationally. Economists are able to interpret and forecast general economic conditions, estimate trends, analyze data, and use economic theory to help their organization operate more efficiently. Combine those skills with the ability to communicate effectively in another language, and opportunities abound.

In the FLIE major, students take a minimum of nine economics courses and seven to ten intermediate and advanced courses in one of the following languages: Arabic, Chinese, French, German, Italian, Japanese, Russian, or Spanish.

Bachelor of Arts with a major in FOREIGN LANGUAGE AND INTERNATIONAL ECONOMICS

120 hours (minimum)
Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the Major Requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Arts degree on page 130.

UK Core Requirements
See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

GENDER AND WOMEN’S STUDIES

The Department in Gender and Women’s Studies offers an interdisciplinary curriculum which focuses on the study of gender as an aspect of everyday life, as well as on the political and cultural experiences and contributions of women across the world and through time. Majors in GWS have gone on to become artists, activists, to study law, medicine, social work, and to pursue academic careers.

Bachelor of Arts with a major in GENDER AND WOMEN’S STUDIES

120 hours (minimum)

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the Major Requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Arts degree on page 130.

UK Core Requirements

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

Other Course Work Required for the Major

Students must complete at least 27 credit hours of the major through upper-division course work (12 credit hours of core courses, 15 credit hours of electives).

From Outside the Major Department

Choose 12 hours outside GWS at the 300+ level. 200+ level courses used to satisfy College requirements can also be counted here.

Other Major hours: ............................................. 12

Total Minimum Hours Required for Degree ................. 120

*Course used towards completion of a UK Core Requirement.
Minor in Gender and Women’s Studies

The minor in Gender and Women’s Studies requires 18 hours of course work to include:

- GWS 200 Sex and Power ........................................... 3
- GWS 201 Gender and Popular Culture ......................... 3
- GWS 250 Social Movements ....................................... 3
- GWS 340 History of Feminist Thought to 1975 ............... 3
- GWS 350 Introduction to Feminist Theorizing .............. 3

Plus an additional 9 hours of electives to be selected with the approval of the Director of Undergraduate Studies in the Department of Gender and Women’s Studies.

Courses used for the Gender and Women’s Studies topical major, minor or graduate certificate must be taught by a Gender and Women’s Studies Affiliated Faculty.

For further information, contact the department manager, Gender and Women’s Studies, 112 Breckinridge Hall, (859) 257-1388.

GEOGRAPHY

Geography analyzes and explains the location of and interrelationships between human and physical features of the earth’s environment. Geographers also examine how and why features and their locations change over time, with particular interest in the many impacts of these changes on both people and natural settings. Geography is, therefore, both a social and a physical science. Because its fundamental subject matter is people and their environments, the discipline serves as an effective bridge between the physical and cultural worlds.

Majors in geography build solid academic foundations that draw from and interrelate areas of study from the social and behavioral sciences, humanities, computer science and graphic communication, and the natural sciences. With developed analytical, critical thinking, and communication skills, geography is particularly useful for students wishing to enter such careers as economic development, environmental management, international trade, transportation analysis and planning, diplomacy, government administration from local to federal levels, market analysis, urban and regional planning, research, teaching, cartography, Geographic Information Systems (GIS), and private business.

The Department of Geography has developed detailed major concentration tracks in seven areas: environmental geography, physical geography, urban geography and planning, GIS focus, human geography, international studies, and design your own geography major. For more information, contact the Department of Geography at (859) 257-2931, or on the Web at: www.uky.edu/AS/Geography/.

GEO 305 Elements of Cartography ....................................... 3

GEO 310 Quantitative Techniques in Geography .................... 3

GEO 311 Qualitative Methods in Geography ......................... 3

GEO 409 Advanced GIS ............................................. 3

Methods hours: ...................................................... 3

Other Course Work Required for the Major

Geography Tracks ...................................................... 18

Choose at least 18 hours of additional geography courses to include: no more than 3 hours of 100-level courses; no more than 6 hours of GEO 560 and GEO 399; a minimum of 3 hours of 400+ level courses (not including GEO 409, 406, or 499). The following focus areas represent specializations within Geography and are provided as guidelines. Most students will find it useful to concentrate their 18 hours within these focus areas, but this is not a requirement. On completion of 15 hours within any focus area, the Geography Department will award a certificate of completion of studies in the area of specialization. Consult with your advisor in making selections of courses.

College of Arts and Sciences

GIS Focus

Suggested Courses:
- GEO 109 Digital Mapping
- GEO 164 iWorlds: Global Information Geographies
- GEO 409 Advanced GIS
- GEO 309 Workshop in Geospatial Technologies
- GEO 419 Introduction to Remote Sensing
- GEO 305 Elements of Cartography
- GEO 506 Introduction to Computer Cartography
- GEO 505 Practicum in Cartography
- GEO 310 Quantitative Techniques in Geography
- GEO 415 Map Interpretation
- GEO 365 Special Topics in Geography

Human Geography Option

Suggested Courses:
- GEO 161 Global Inequalities
- GEO 240 Geography and Gender
- GEO 260 Geographies of Development in the Global South
- GEO 422 Urban Geography
- GEO 442G Political Geography
- GEO 455 Globalization and the Changing World Economy
- GEO 475G Medical Geography
- GEO 490G American Landscapes
- GEO 544 Human Population Dynamics
- GEO 545 Transportation Geography
- GEO 546 Tourism and Recreation Geography

International Studies Option

Suggested Courses:
- GEO 163 Global Conflicts
- GEO 221 Immigrant America: A Geographic Perspective
- GEO 222 Cities of the World
- GEO 255 Geography of the Global Economy
- GEO 326 Geography of Europe
- GEO 328 Geography of the Middle East and North Africa
- GEO 329 Geography of the Former Soviet Union
- GEO 331 Global Environmental Change
- GEO 334 Environment, Society and Economy of Japan
- GEO 546 Tourism and Recreation Geography

Design Your Own Geography Major Option

Total Minimum Hours

Required for Degree ...................................... 120

Bachelor of Science with a major in GEOGRAPHY

120 hours (minimum)

Any student earning a Bachelor of Science (BS) degree must complete a minimum of 60 hours in natural, physical, mathematical, and computer science. Please note: courses with a GEO prefix are generally not accepted towards fulfilling this 60-hour requirement. Therefore, be sure to keep this requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Science degree, including a specific listing of courses applicable to the 60-hour requirement, on pages 130-131.

UK Core Requirements

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

Design Your Own Geography Major Option

Any Geography courses fulfilling the requirements for the major.

Major hours: .........................................................39

Electives
Choose electives to lead to the minimum total of 120 hours required for graduation. .................................4

Total Minimum Hours Required for Degree ..................120

Minor in Geography

The minor in Geography requires a minimum of 18 hours, 15 of which must be in courses at the 200- level, taken within the department as follows:

The courses below are suggested courses; all GEO courses count toward the minor.

K-12 Teaching and Administration
Take 6 for 18 credit hours:
GEO 172 Human Geography .......................................3
GEO 130 Earth’s Physical Environment .........................3
GEO 200 Orientation to Geography ................................3
GEO 220 U.S. Cities .................................................3
GEO 222 Cities of the World ......................................3
GEO 320-365 Regional Geography Courses ....................3
GEO 452G World Geography for Teachers ......................3
GEO 430G Physical Geography for Teachers ....................3

Geosciences
Take 6 for 18 credit hours:
GEO 130 Earth’s Physical Environment .........................3
GEO 230 Weather and Climate ...................................3
GEO 331 Global Environmental Change ..........................3
GEO 351 Physical Landscapes ......................................3
GEO 451G Fluvial Forms and Processes ..........................3
GEO 530 Biogeography and Conservation .......................3
GEO 531 Landscape Ecology .......................................3

Social Sciences and Humanities
Take 6 for 18 credit hours:
GEO 160 Lands and Peoples of the Non-Western World 3
GEO 161 Global Inequalities .................................3
GEO 162 Introduction to Global Environmental Issues ....3
GEO 163 Global Conflicts ...........................................3
GEO 164 iWorlds: Global Information Geographies ..........3
GEO 165 Globalization and the Changing World Economy 3
GEO 415 Map Interpretation .......................................3
GEO 422 Urban Geography ........................................3
GEO 442G Political Geography ..................................3
GEO 470G America’s Cultural Geographies ....................3

Environmental Studies
Take 6 for 18 credit hours:
GEO 162 Introduction to Global Environmental Issues ....3
GEO 130 Earth’s Physical Environment .........................3
GEO 230 Weather and Climate ...................................3
GEO 231 Environment and Development ........................3
GEO 235 Environmental Management and Policy ..........3
GEO 351 Physical Landscapes ......................................3
GEO 431 Political Ecology .........................................3
GEO 530 Biogeography and Conservation .......................3
GEO 531 Landscape Ecology .......................................3
GEO 546 Tourism and Recreation Geography .................3
GEO 550 Sustainable Resource Development
and Environmental Management ................................3
GEO 585 Aging and Environment ..................................3

Economic Geography
Take 6 for 18 credit hours:
GEO 161 Global Inequalities .................................3
GEO 164 iWorlds: Global Information Geographies ..........3
GEO 172 Human Geography .......................................3
GEO 255 Geography of the Global Economy ....................3
GEO 260 Geographies of Development
in the Global South ................................................3
GEO 320-365 Regional Geography Courses ....................3
GEO 455 Globalization and the Changing World Economy 3
GEO 546 Transportation Geography ..............................3
GEO 546 Tourism and Recreation Geography .................3
GEO 551 Japanese Multinational Corporations ................3

Medical and Health Geography
Take 6 for 18 credit hours:
GEO 172 Human Geography .......................................3
GEO 261 Global Dynamics of Health and Disease .............3
GEO 309 Introduction to GIS ......................................3
GEO 320-365 Regional Geography Courses ....................3
GEO 422 Urban Geography ........................................3
GEO 475G Medical Geography ....................................3
GEO 585 Aging and Environment ..................................3

Urban Planning and Urban Studies
Take 6 for 18 credit hours:
GEO 161 Global Inequalities .................................3
GEO 164 iWorlds: Global Information Geographies ..........3
GEO 172 Human Geography .......................................3
GEO 220 U.S. Cities .................................................3
GEO 222 Cities of the World ......................................3
GEO 235 Environmental Management and Policy ..........3
GEO 285 Introduction to Planning ..............................3
GEO 309 Introduction to GIS ......................................3
GEO 422 Urban Geography ........................................3
GEO 455 Globalization and the Changing World Economy 3
GEO 485G Urban Planning and Sustainability ...............3
GEO 550 Sustainable Resource Development
and Environmental Management ................................3

Minor in Mapping and GIS

The minor in Mapping and GIS requires 18 hours as follows:

Introduction to Digital Mapping (3 hours)
GEO 109 Digital Mapping .........................................3
GEO 164 iWorlds: Global Information Geographies ........3

GIS Theories and Methods (6 hours)
GEO 309 Introduction to GIS ......................................3
GEO 409 Advanced GIS ...........................................3

GIS Design and Application (9 hours)
Complete three of the following:
GEO 305 Elements of Cartography ................................3
GEO 399 Internship in Geography .............................3
GEO 415 Map Interpretation .......................................3
GEO 419 Introduction to Remote Sensing .......................3
GEO 505 Practicum in Cartography .............................3
GEO 506 Introduction to Computer Cartography .............3
GEO 509 Workshop in Geospatial Technologies .............3
GEO 560 Independent Work in Geography ....................3
GEO 565 Topics in Geography ....................................3

*With approval of DUS for GIS/Mapping related internships or independent study.

Geography majors can also minor in Mapping and GIS, but no more than 6 credits can be used to cover both major and minor requirements.

HEALTH, SOCIETY, AND POPULATIONS

The undergraduate program in Health, Society, and Populations (HSP) focuses on understanding health outcomes and their unequal distribution as a product of multiple interacting influences, including health care, behaviors, environmental conditions, genetic and biological factors, and social and cultural characteristics of groups and individuals. The B.A. in HSP provides graduates with a broad liberal-arts education in addition to a concentration on social science based approaches to population health. Students may further specialize in three areas: Global Health, Health Ecologies, and Social Inequalities in Health and Illness. HSP students will obtain fundamental knowledge of the complex relationship that exists among the global economy, societal problems and needs, and
the distribution of health and illness, in addition to providing students the opportunity to develop critical thinking, communication, and independent study skills necessary for many entry-level career opportunities in city, state and federal government, nonprofit organizations and in the public and private health sectors.

Bachelor of Arts with a major in HEALTH, SOCIETY, AND POPULATIONS

120 hours (minimum)

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the Major Requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Arts degree on page 130.

UK Core Requirements

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

I. Intellectual Inquiry in Arts and Creativity
Choose one course from approved list ........................................................................3

II. Intellectual Inquiry in the Humanities
Choose one course from approved list .......................................................................3

III. Intellectual Inquiry in the Social Sciences
Recommended:
PSY 100 Introduction to Psychology .................................................................4

IV. Intellectual Inquiry in the Natural, Physical, and Mathematical Sciences
Choose one course from approved list .....................................................................3

V. Composition and Communication I
CIS/WRD 110 Composition and Communication I ..............................................3

VI. Composition and Communication II
CIS/WRD 111 Composition and Communication II ..............................................3

VII. Quantitative Foundations
Recommended – one of the following:
MA 111 Introduction to Contemporary Mathematics ........................................3
MA 113 Calculus I .................................................................................................4
MA 123 Elementary Calculus and Its Applications ................................................4
MA 137 Calculus I with Life Science Applications ...............................................4
MA 111, 113, 122, 137 recommended.

Writing
(3 hours):
WRD 205 Writing and Rhetoric (Subtitle required) see HSP advisor for appropriate subtitles ..................................................3

Science
Choose one BIO course and one from any of the remaining science electives (6 hours):
ANA 109 Anatomy and Physiology for Nursing I ........................................4
ANA 110 Anatomy and Physiology for Nursing II ...........................................4
*ANA 209 Principles of Human Anatomy .........................................................3
*BIO 102 Human Ecology ..................................................................................3
*BIO 103 Basic Ideas of Biology .................................................................3
*BIO 148 Introductory Biology I ......................................................................3
*BIO 208 Principles of Microbiology ............................................................3
*CHE 104 Introductory General Chemistry ....................................................3
*CHE 108 Introduction to Inorganic, Organic, and Biochemistry without Laboratory .................................................................3
*PGY 206 Elementary Physiology .................................................................3

Social Science Approaches to Health
(9 hours):
Required
HSP/SOC 255 Medicine, Health, and Society ................................................3
plus two of the following:
*ANT 429 Survey of Medical Anthropology ..................................................3
*GEO 475G Medical Geography .................................................................3
*PSY 223 Developmental Psychology ..........................................................3
SOC 355 Sociology of Health and Illness .........................................................3

Topics in Society and Health
(12 hours):
For a total of four additional courses, choose any remaining courses from the Social Science Approaches to Health category above, or from the following list. Students must choose courses from at least two different disciplines:
*ANT 225 Culture, Environment and Global Issues ........................................3

Graduation Composition and Communication Requirement (GCCR)
HSP 499 Health, Society and Populations Capstone (Subtitle required) .................3

Graduation Composition and Communication Requirement hours (GCCR) ...............3

College Requirements

I. Foreign Language
(placement test recommended) ...........................................................................6-14

II. Disciplinary Requirements
a. Natural Science
   (may be satisfied by major requirements) ..................................................0-6
b. Social Science
   (may be satisfied by major requirements) ..................................................0-6
c. Humanities ....................................................................................................6

III. Laboratory or Field Work
(PSY 100 recommended) ................................................................................1-3

IV. Electives
College Requirement hours: ..............................................................................19-29

Major Requirements

Hours
Major courses that also fulfill the A&S College requirements are marked with “*”; major courses that also fulfill UK Core areas are marked with “†”; 24 credit hours within the major must be at the 300+ level.

Statistics
Choose one of the following (3 hours):
STA 296 Statistical Methods and Motivations ..................................................3
*SOC 303 Quantitative Social Analysis ...........................................................3
*GEO 309 Introduction to GIS ........................................................................3

Math
Choose one of the following (3-4 hours):
MA 109 College Algebra ......................................................................................3
†MA 111 Introduction to Contemporary Mathematics ......................................3
†MA 113 Calculus I ...............................................................................................4
†MA 123 Elementary Calculus and Its Applications .........................................4
†MA 137 Calculus I with Life Science Applications .........................................4
MA 111, 113, 122, 137 recommended.

VIII. Statistical Inferential Reasoning
Choose one course from approved list ..................................................................3

IX. Community, Culture and Citizenship in the USA
Choose one course from approved list ...............................................................3

X. Global Dynamics
Choose one course from approved list ..................................................................3

UK Core hours: .................................................................................................30-32

University of Kentucky 2016-2017 Undergraduate Bulletin / 156

HISPANIC STUDIES

The Department of Hispanic Studies aims to develop students’ Spanish language skills, to deepen their understanding of Spanish-speaking cultures and literatures domestically and abroad, to sharpen their critical thinking, and to heighten their awareness of their role as local and global citizens in a pluralistic society. The department offers a major with three specialty options and a minor in Spanish.
Bachelor of Arts with a major in **SPANISH**

120 hours (minimum)

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the Major Requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Arts degree on page 130.

**UK Core Requirements**

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

University of Kentucky
2016-2017 Undergraduate Bulletin

158
HISTORY

History is the study of the most important and exciting events that have ever occurred, providing students with a wide ranging introduction to modern societies, cultures, and global events. The Department of History’s program provides rigorous instruction in critical thinking, writing, and composition. And as one of the broadest and most diverse disciplines in academia, history provides students with connections to numerous other programs and opportunities across campus. History majors develop research and presentation skills that are highly transferable to any career, including those in public policy, law, government, education, public relations, healthcare, journalism, publishing, sales, and marketing, among others.

Bachelor of Arts with a major in HISTORY

120 hours (minimum)

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the Major Requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Arts degree on page 130.

UK Core Requirements

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

I. Intellectual Inquiry in Arts and Creativity

Choose one course from approved list ........................... 3

II. Intellectual Inquiry in the Humanities

Choose one course from approved list ........................... 3

III. Intellectual Inquiry in the Social Sciences

Choose one course from approved list ........................... 3

IV. Intellectual Inquiry in the Natural, Physical, and Mathematical Sciences

Minor in History

A minor in History provides training in critical thinking and expression and a valuable perspective on the varieties of civilizations and modes of human behavior, complementing coursework in numerous other disciplines, including the humanities, the social sciences, and the natural and applied sciences.

The minor in History requires a minimum of 18 hours of course work to include:

1. A 6-hour sequential introduction to the history of a civilization or a nation. This may be selected from:
   - HIS 104/105 A History of Europe through the Mid-Seventeenth Century/A History of Europe from the Mid-Seventeenth Century to the Present
   - HIS 106/107 Western Culture: Science and Technology I/ Western Culture: Science and Technology II
   - HIS 108/109 History of the United States Through 1876/ History of the United States Since 1877
   - HIS 202/203 History of the British People to the Restoration/History of the British People Since the Restoration
   - HIS 229/230 The Ancient Near East and Greece to the Death of Alexander the Great/The Hellenistic World and Rome to the Death of Constantine
   - HIS 295/296 East Asia to 1800/ East Asia Since 1600
   - HIS 370/371 Early Middle Ages/Later Middle Ages
   - HIS 385/386 History of Russia to 1825/History of Russia Since 1825

2. 12 hours of course work at or above the 300 level; at least 6 hours of which must be at or above the 400 level. No more than 12 of the 18 hours required may be in any one of the subfields of American history, European history, or history of the non-Western world.

International Studies

International Studies is an interdisciplinary program that encourages students to explore global issues in disciplines such as anthropology, economics, history, political science, geography, foreign languages, English and the arts. Students will choose course work focused around a central theme and geographical region. Cultural knowledge will be developed further through expanded foreign language study. The program culminates in a capstone senior project. Study abroad is highly encouraged, although not required, for the International Studies major.

A degree in International Studies will prepare students for careers in business, government, non-government organizations, philanthropic agencies, or the arts. The major also prepares students for graduate study in the humanities, social sciences, international affairs, law, public health and communications.

Bachelor of Arts with a major in INTERNATIONAL STUDIES

120 hours (minimum)

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the Major Requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. Bachelor of Science with a major in INTERNATIONAL STUDIES

120 hours (minimum)

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the Major Requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Science degree, including a specific listing of courses applicable to the 60-hour requirement, on pages 130-131.

UK Core Requirements

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

I. Intellectual Inquiry in Arts and Creativity
Choose one course from approved list ................................... 3

II. Intellectual Inquiry in the Humanities
Choose one course from approved list ................................... 3

III. Intellectual Inquiry in the Social Sciences
Choose one course from approved list ................................... 3

IV. Intellectual Inquiry in the Natural, Physical, and Mathematical Sciences
Choose one course from approved list ................................... 3

V. Composition and Communication 1
CIS/WRD 110 Composition and Communication I .................. 3

VI. Composition and Communication II
CIS/WRD 111 Composition and Communication II .................. 3

VII. Quantitative Foundations
Choose one course from approved list ................................... 3

VIII. Statistical Inferential Reasoning
Choose one course from approved list ................................... 3

IX. Community, Culture and Citizenship in the USA
Choose one course from approved list ................................... 3

X. Global Dynamics
Choose one course from approved list ................................... 3

UK Core hours: ................................................................. 30

Graduation Composition and Communication Requirement (GCCR)

for verification prior to taking the course.
Linguistics

Linguistics is an interdisciplinary program combining resources from English, anthropology, psychology, philosophy, computer science, and the foreign languages, to develop an understanding of the nature and implications of human language. The Linguistics program provides solid foundations in phonological and grammatical analysis, as well as opportunities to investigate the social, cultural, psychological, and physical aspects of language use.

Bachelor of Arts with a major in LINGUISTICS

120 hours (minimum)

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the Major Requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Arts degree on page 130.

UK Core Requirements

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

I. Intellectual Inquiry in the Social Sciences

Choose one course from approved list ........................................ 3

II. Intellectual Inquiry in the Humanities

Choose one course from approved list ........................................ 3

III. Intellectual Inquiry in the Natural, Physical, and Mathematical Sciences

Choose one course from approved list ........................................ 3

IV. Electives

Choose one ANT or SOC course from approved list .... 3

College Requirements

I. Foreign Language (completed by Premajor Requirements)

II. Disciplinary Requirements

a. Natural Science .................................................. 6
b. Social Science .................................................. 6
c. Humanities (completed by Major Requirements) .......................... 1

III. Laboratory or Field Work ........................................ 1

IV. Electives ......................................................... 6

Bachelor of Science with a major in LINGUISTICS

120 hours (minimum)

Any student earning a Bachelor of Science (BS) degree must complete a minimum of 60 hours in natural, physical, mathematical, and computer science. Please note: courses with an LIN prefix are generally not accepted towards fulfilling this 60-hour requirement. Therefore, be sure to keep this requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Science degree, including a specific listing of courses applicable to the 60-hour requirement, on pages 130-131.

UK Core Requirements

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also
fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

I. Intellectual Inquiry in Arts and Creativity
Choose one course from approved list ...................... 3

II. Intellectual Inquiry in the Humanities
Choose one course from approved list ...................... 3

III. Intellectual Inquiry in the Social Sciences
Choose one course from approved list ...................... 3

IV. Intellectual Inquiry in the Natural, Physical, and Mathematical Sciences
Choose one course from approved list ...................... 3

College Requirement hours: ....................... 13

Premajor Requirements
Complete the third and fourth semesters of a foreign language (or the equivalent) ...................... 6-8

Premajor hours: .............................................. 6-8

Major Requirements

Major Core Requirements
LIN 221 Introduction to Linguistics I:
Theoretical Foundations and Analysis ....................... 3
LIN 222 Introduction to Linguistics II:
Language in Context ........................................... 3

plus four major area courses:
LIN 500 Phonetics ............................................. 3
LIN 505 Linguistic Morphology .............................. 3
LIN 512 Analysis of English Syntax ........................ 3
LIN 515 Phonological Analysis .............................. 3

plus 15 additional hours of LIN courses of which six (6) or more must be at the 500 level and distinct from the major area courses .................................................. 15

Major Core hours: ............................................ 33

Other Course Work Required for the Major
For the Related Component:
Choose 15 hours of additional courses relevant to the major chosen from the fields of anthropology, computer science, modern and classical languages, Hispanic studies, mathematics, psychology, philosophy or courses approved by the Director of the Program ........................................ 15

Other Major hours: ............................................ 15

Electives
Choose electives to lead to the minimum total of 120 hours required for graduation ....................... 12

Total Minimum Hours Required for Degree ................................ 120

Minor in Linguistics

The minor in Linguistics requires 18 hours of course work to include:
LIN 221 Introduction to Linguistics I:
Theoretical Foundations and Analysis ........................ 3
LIN 222 Introduction to Linguistics II:
Language in Context ........................................... 3

Choose one phonetics/phonology course:
LIN 500 Phonetics or LIN 515 Phonological Analysis ........................ 3

Choose one morphosyntactic/semantic course:
LIN 512 Analysis of English Syntax LIN 505 Linguistic Morphology LIN 509 Formal Semantics or LIN 516 Grammatical Typology ........................................... 3

Choose two other LIN courses at 300 level or above .... 6

Mathematical Economics

The mathematical economics major offers students a degree program that combines mathematics, statistics, and economics. In today’s increasingly complicated international business world, a strong preparation in the fundamentals of both economics and mathematics is crucial to success. This degree program is designed to prepare a student to go directly into the business world with skills that are in high demand, or to go on to graduate study in economics or finance. A degree in mathematical economics would, for example, prepare a student for the beginning of a career in operations research or actuarial science.

In many ways, the mathematical economics program parallels the engineering philosophy. It combines the quantitative methods of mathematics with an applied science in order to solve real problems. As an example, operations research is used to optimize costs for extremely complicated systems such as airline scheduling. A major problem in business and economics is decision making under uncertainty. Efficient inventory control for large national retail chains can mean the difference between success and failure. A business will improve its bottom line if it can effectively control cost of inventory under the uncertainty of consumer demand. The solution of control problems of this type requires knowledge of relatively sophisticated mathematics and statistics as well as knowledge of basic economic principles.

There is currently a serious shortage of individuals who have sufficient training in mathematics and statistics as well as an understanding of business and economics. Companies that employ operations research analysts or actuaries cannot fill their positions. Mathematical economics and related areas have often been referred to as engineering for the service sector or “financial engineering.” With the ever increasing importance of the service sector in our economy, the math-econ degree will prove to be a valuable asset. The program will give the student an opportunity to study a fascinating collection of ideas and it will also provide the student with very marketable skills.

Bachelor of Arts with a major in Mathematical Economics

120 hours (minimum)
Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the Major Requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Arts degree on page 130.

UK Core Requirements
See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

MATHEMATICS

The department offers two programs leading to the B.A. or B.S. degree. Students may major in mathematics by completing the requirements for either: Option A, Mathematics or Option B, Mathematical Sciences.

The mathematics option consists of courses offered solely by the department of mathematics and is intended for those who wish to follow a traditional mathematics career path. The mathematical sciences option consists of courses offered by the departments of computer science, mathematics and statistics, and is intended for those who opt for a career that requires the application of mathematics. The requirements for these programs are outlined below.

Bachelor of Arts with a major in MATHEMATICS

120 hours (minimum)
Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the Major Requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Arts degree on page 130.

Mathematics Cooperative Education

Qualified students who major in mathematics may participate in the Mathematics Sciences Cooperative Education Program which provides the opportunity for alternate semesters of academic study and full-time employment in business or industry. Guidelines and application forms are available in the Engineering/Math Sciences Co-Op Program Office, 320 Robotics Building.

Minor in Mathematics

The minor in Mathematics requires 21 hours of course work to include:

1. MA 113/114 Calculus I and II and .................. 8
2. MA 213 Calculus III ............................................. 4 or equivalent
3. MA 322 Matrix Algebra and Its Applications .... 3 or equivalent

3. 6 additional hours of mathematics courses numbered greater than 213. Possible courses include: MA 214, MA 261, MA 320, MA 321, MA 330, MA 341, MA 351, MA 361, or any 400 level math course.

MILITARY SCIENCE AND LEADERSHIP
(Amy Officer Commissioning)

The Army Reserve Officers’ Training Program at the University of Kentucky is open to both men and women and follows a general military science curriculum that is normally completed in four years but which may be completed in two years. An academic major in military science is not offered. The program’s primary objective is to commission the future leadership of the Active Army, Army National Guard, and U.S. Army Reserve.

Scholarships

Students interested in Army ROTC scholarships should contact the Army ROTC Admissions Officer at (859) 257-6865; or visit 101 Barker Hall on campus. Additionally, students should refer to the Student Financial Aid, Awards, and Benefits section of this Bulletin.

Academic Program

Required program courses are: AMS 101, AMS 102, AMS 211, AMS 212, AMS 301, AMS 302, AMS 341, AMS 342, an approved military history course (AMS 320), and continuous enrollment (or participation) in KHP 107 and AMS 250 or 350 once contracted in the ROTC program. Also, cadets attend a five-week Leadership Development Assessment Course, usually in the summer between the junior and senior years in Fort Knox, KY.

An alternative two-year program is available for students with at least two academic years remaining until graduation and who have not completed the AMS 100- and AMS 200-level courses. Students should contact the Professor of Military Science about the four-week summer Leadership Training Course conducted each summer at Fort Knox, Kentucky. Successful completion of the camp enables students to take AMS 300-level courses and complete the program in two years.

In certain cases, veterans or students who have completed Army basic training are also eligible to complete the program in two years. Members of the Army National Guard or U.S. Army Reserve may also directly enroll in the Leadership Development Assessment Course and participate in the Simultaneous Membership Program (SMP).

The Basic Course: (100 and 200 level) are orientational and deal with the Army’s role in the U.S. government. American military history, small unit organizations/operations, military geography/map reading and some adventure training are also addressed. No military obligation is incurred by completion of the courses.

The Advanced Course: (300 level) focus on leadership, management, and command/staff responsibilities within military organizations. All upper division Army ROTC students receive up to $500 per month tax-free subsistence pay during the academic year. During the summer, students receive about $900 while attending Camp.

Leadership Lab periods, held weekly during the academic year, and on one Saturday per semester, focus on adventure-type training (e.g., orienteering, rappelling, survival training, and basic marksmanship). These activities are offered, subject to availability of equipment and facilities, to provide an opportunity to develop leadership, organizational abilities, and confidence.

Professional development and enrichment opportunities are also available through ROTC-sponsored university organizations—the Pershing Rifles and Kentucky Rangers.
Army ROTC incorporates the dimension of leadership into the academic curriculum and provides training and experience that can be valuable in any profession. For more information, contact the Professor of Military Science, ATTN: Admissions Officer, U.S. Army ROTC, 101 Barker Hall, University of Kentucky, Lexington, KY 40506-0028; or call (859) 257-6865. Visit the Web site at: http://armyrotc.as.uky.edu/

MODERN AND CLASSICAL LANGUAGES, LITERATURES AND CULTURES

The Department of Modern and Classical Languages, Literatures and Cultures is comprised of tracks in Arabic and Islamic Studies, Chinese Studies, Classics, Folklore and Mythology, French and Francophone Studies, German Studies, Hebrew and Jewish Studies, Italian Studies, Japan Studies and Russian Studies.

Bachelor of Arts with a major in MODERN AND CLASSICAL LANGUAGES, LITERATURES AND CULTURES

120 hours (minimum)

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the Major Requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Arts degree on page 130.

Minor in Modern and Classical Languages, Literatures and Cultures

The minor in Modern and Classical Languages, Literatures and Cultures requires a minimum of 18 hours of course work. Students choose one of nine options (fields of concentration) from: Chinese Studies, Classics, Folklore and Mythology, French and Francophone Studies, German Studies, Islamic Studies, Italian, Japan Studies and Russian Studies.

MCL / Chinese Studies

Core Requirements
All students must complete a minimum 6 credits from among the following courses:

- CHI 301 Advanced Intermediate Chinese I .......................... 3
- CHI 302 Advanced Intermediate Chinese II .......................... 3
- CHI 330 Introduction to Chinese Culture
  Pre-Modern to 1840 ................................................. 3
- CHI 331 Introduction to Chinese Culture, 1840 to Present .................. 3

Total Core hours .................................................. 6

Elective Requirements
In addition, students must take at least 12 additional credits from the following for a total of 18 credits. (Please note that courses on the core course list above NOT used to satisfy the Core Requirements may be used to satisfy the Elective Requirements):

- CHI 320 Gender Politics in Chinese Literature ......................................... 3
- CHI 321 Introduction to Contemporary Chinese Film ...................................... 3
- CHI 322 Self and Society in Chinese Culture .................................................. 3
- MCL 100 The World of Language .................................................................. 3
- MCL 200 Global Literacy .............................................................................. 3
- MCL 375 Language Study Abroad or
  MCL 376 Cultural Studies Abroad or
  other Study Abroad courses approved by the Director of Undergraduate Studies .......................... 1-3

Total Elective hours .................................................. 12

MCL / Classics

Core Requirements
The requirements for a Classics minor are 18 credit hours, at least 6 of which must be at the 300 level or above, earned from among the following courses:

1. Greek and Latin courses at any level
2. Non-language CLA courses at the 200 level or higher
All courses may be chosen from category 1, all from category 2, or the two categories may be combined in any manner, as long as students earn the requisite 18 credit hours. MCL 100, MCL 200, MCL 375 and MCL 376 may count toward the MCL/Classics minor.

MCL / Folklore and Mythology

Core Requirements
MCL 270 Introduction to Folklore and Mythology ............................................. 3
CLA 135 Greek and Roman Mythology ......................................................... 3
or
CLA 100 Ancient Stories in Modern Films ...................................................... 3
GER 103 Fairy Tales in European Context ...................................................... 3

Total Core hours .................................................. 9

* Approved for the minor when the topic of the course is appropriate as determined by the minor advisor.

MCL / French and Francophone Studies

Core Requirements
FR 204 Introduction to French and Francophone Studies .................................. 3
FR 214 France Today ........................................................................... 3
or
FR 215 Visual Cultures ............................................................................ 3

Total Core hours .................................................. 6

College of Arts and Sciences
Elective Requirements
Choose 12 hours from:
FR courses 300+ level, excluding FR 553 and courses taught in English.

Total Hours Required: .................................................. 18

NEUROSCIENCE
The Bachelor of Science degree program in Neuroscience provides undergraduate students with an opportunity to engage in the in-depth study of neuroscience from a uniquely interdisciplinary perspective. Students receive extensive exposure to fundamental and applied aspects of neuroscience through classroom and laboratory-based interactions with faculty members and research staff from several departments housed in the College of Arts and Sciences and Medicine,
including Biology, Anatomy, and Neurobiology, and Psychology. The scope of training spans the entirety of key topics in neuroscience and includes examination of biological systems ranging from cellular/molecular neuroscience; neurophysiology; neuroanatomy; and integrated neuroscience including behavior.

**Bachelor of Science with a major in NEUROSCIENCE**

120 hours (minimum)

Any student earning a Bachelor of Science (BS) degree must complete a minimum of 60 hours in natural, physical, mathematical, and computer science. See the complete description of College requirements for a Bachelor of Science degree, including a specific listing of courses applicable to the 60-hour requirement, on pages 130-131.

UK Core Requirements

See the UK Core section of this Bulletin for the complete UK core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

Guided Elective hours: ................................................. 12-14

**Electives**

Choose electives to lead to the minimum total of 120 hours required for graduation ........................................... 6

Total Minimum Hours

Required for Degree .................................................. 120

**Fulfills the Graduation Composition and Communication requirement.**

**PHILOSOPHY**

Philosophy encourages critical and systematic inquiry into fundamental questions of right and wrong, truth and falsehood, the meaning of life, and the nature of reality, knowledge, and society. More than any other discipline, philosophy explores the core issues of the Western intellectual tradition. With its emphasis on reason and argumentation, a philosophy major is an excellent preparation for a career in law or business.

**Bachelor of Arts with a major in PHILOSOPHY**

120 hours (minimum)

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the Major Requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Arts degree on page 130.

UK Core Requirements

See the UK Core section of this Bulletin for the complete UK core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

I. Intellectual Inquiry in Arts and Creativity

Choose one course from approved list ............................3

II. Intellectual Inquiry in the Humanities

Bachelor of Science with a major in
PHILOSOPHY

120 hours (minimum)

Any student earning a Bachelor of Science (BS) degree must complete a minimum of 60 hours in natural, physical, mathematical, and computer science. Please note: courses with a PHI prefix are generally not accepted towards fulfilling this 60-hour requirement. Therefore, be sure to keep this requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Science degree, including a specific listing of courses applicable to the 60-hour requirement, on pages 130-131.

UK Core Requirements
See the UK Core section of this Bulletin for the complete UK core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

Minor in Philosophy

The minor in Philosophy requires a minimum of 18 hours of course work to include:

a. No more than two 100-level courses
b. At least one course in logic (PHI 120, PHI 320, or PHI 520)
c. At least one course in the history of philosophy (PHI 260, PHI 270, or any course from Group A of the undergraduate curriculum)
d. At least three courses (9 hours) at the 300 level or above, excluding PHI 320 and PHI 399.

University of Kentucky 2016-2017 Undergraduate Bulletin 180
PHYSICS AND ASTRONOMY

The Department of Physics and Astronomy helps many students acquire a general understanding and appreciation of physics and astronomy. In the liberal arts tradition, the undergraduate curriculum is complete and flexible enough to allow a graduate with a major in physics to pursue a variety of careers. Many of our graduates continue their studies with graduate work in physics or other areas.

For the student interested in combining the study of physics with studies in other areas, the department can assist in the planning of an individual curriculum which meets both the minimum requirements of the Physics program and the student’s needs and interests. Such planning is of particular value to students intending to pursue careers in engineering, computer science, applied physics, medicine, radiology, biophysics, law, meteorology, oceanography, geophysics, environmental sciences, management, or the teaching of physics and/or physical science at the junior and senior high school levels. By working closely with an advisor, the student with special interests can take advantage of opportunities to take several other courses from one or more departments outside physics, or double major in physics and another area. For a description of suggested curricula, visit our Web site at: [www.pa.uky.edu/undergrad/curricula.html](http://www.pa.uky.edu/undergrad/curricula.html)

Bachelor of Arts with a major in PHYSICS

120 hours (minimum)

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the Major Requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for the Bachelor of Arts degree on page 130.

Suggested Curriculum for B.A. in Physics

As you plan your physics studies, please note that upper division physics courses, PHY 3XX and all higher numbered courses, are offered only once per year in the semester indicated on the suggested curricula. For example, PHY 306 and PHY 361 are offered in the spring semester only. This suggested curriculum minimally meets the requirements for the B.A. in Physics.

PHYS 241 General University Physics Laboratory OR

PHYS 211 General Physics .................................................. 5

PHYS 232 General University Physics and

PHYS 242 General University Physics Laboratory OR

University of Kentucky 2016-2017 Undergraduate Bulletin
Astronomy Concentration

For students with an interest in astronomy, the Department offers the B.S. degree in physics with a concentration in astronomy. Among the Major Requirements, AST/PHY 591 Astrophysics I—Stars and AST/PHY 592, Astrophysics II—Galaxies and Interstellar Material are strongly recommended as courses within the area of concentration. AST 395, Independent Work in Astronomy, may be substituted for one of the laboratory courses of Requirement Three, subject to the work being done in astronomy and astrophysics. Students are encouraged, though not required, to enroll in AST 191, The Solar System, and AST 192, Stars, Galaxies and the Universe.

POLITICAL SCIENCE

The undergraduate program in Political Science allows students to pursue course work in four disciplinary fields:

• American Politics—define the American political system, including the high-demand subfield of judicial politics and legal studies; study of the institutions, behavioral patterns, and public policies that define the American political system;

• Comparative Politics—study of the institutions, policies, and mass behaviors observed in political systems outside the United States, usually explored through comparison within or across regions of the world;

• International Relations—study of the international system as a whole, as well as of the actors (such as nation-states, corporations, and international organizations) who participate in shaping diplomatic, military, and economic outcomes within that system; and

• Theory/Methodology—study of the values, concepts, and analytical methods that shape how people evaluate political life.

Degree recipients take introductory course work in each of these four areas, then pursue advanced studies in one or more of the fields as determined by their interests and/or career goals.

In addition to conveying information about politics and government—necessary background for pursuing graduate work in political science and related fields—Political Science courses at UK are designed to provide students with a broad liberal arts education. Graduates leave the program having cultivated their analytical abilities and having exercised their written and spoken communication skills. Such disciplinary training leads to a wide variety of careers, many of which have no direct political or governmental connection, but is particularly helpful in preparing students for careers such as law, policy analysis, governmental administration, diplomatic service, journalism, lobbying, and other sorts of political activity.

Currently the department offers two degree: a Bachelor of Arts and a Bachelor of Science. Most majors choose to pursue the B.A. The primary difference is that B.A. students must complete a minimum of 39 hours at the 300+ level, a requirement that students can fulfill using courses already needed for the major. Earning the B.S. degree, on the other hand, requires completing a minimum of 60 hours in natural, physical, mathematical, and computer sciences. Little of that course work fulfills other degree requirements.

Bachelor of Arts with a major in POLITICAL SCIENCE

120 hours (minimum)

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the Major Requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College Requirements for a Bachelor of Arts degree on page 130.

UK Core Requirements

See the UK Core section of this Bulletin for the complete UK core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

Field Three—International Relations

Field Four—Theory/Methodology

PS 240 Introduction to Political Theory

or

PS 372 Introduction to Political Analysis

Premajor/Intro hours

Major/Core Requirements

After being introduced to each undergraduate field, Political Science majors must take an additional 39 hours of course work that combines both (1) courses within the discipline and (2) courses covering topics related to the discipline but offered by other programs. These 39 hours, of which 24 must be at the 300+ level, are divided as follows.

Disciplinary Courses

Students must take 18 additional credit hours of political science course work, of which at least 15 hours must be at the 300+ level. Note that PS 399 may not be counted toward this requirement. Eligible courses span all four undergraduate fields:

Field One—American Politics

General American Politics Courses

Courses on American Law and Courts

Field Two—Comparative Politics

Field Three—International Relations

Field Four—Theory/Methodology

PS 240 or 372, 441G, 442G, 545, 572

Note: PS 391, 395, 490, and 492 also meet this disciplinary requirement, although the fields will vary depending on the topic.

Other Courses

Choose 6 hours of PS courses (including 1-6 hours of PS 399) or approved courses from outside political science (see list below)

183
College of Arts and Sciences

From Outside the Major Department
Choose 15 hours outside political science from the list below. You must take at least 6 hours from one department and 6 hours from another department. Special topics courses and other offerings related to the concentration may be substituted, subject to the approval of the Director of Undergraduate Studies.

AAS 200, 420 (also acceptable are AAS courses cross-listed with courses eligible to serve as Major Requirements)

Major/Core Requirements
After being introduced to each undergraduate field, Political Science majors must take an additional 39 hours of course work that combines both (1) courses within the discipline and (2) courses covering topics related to the discipline but offered by other programs. These 39 hours, of which 24 must be at the 300+ level, are divided as follows.

Disciplinary Courses
Students must take 18 additional credit hours of political science course work, of which at least 15 hours must be at the 300+ level. Note that PS 399 may not be counted toward this requirement. Eligible courses span all four undergraduate fields:

Field One – American Politics
General American Politics Courses
Courses on American Law and Courts

Field Two – Comparative Politics

Field Three – International Relations

Field Four – Theory/Methodology
PS 240 or 372, 441G, 442G, 545, 572

Note: PS 391, 395, 490, and 492 also meet this disciplinary requirement, although the fields will vary depending on the topic.

AAS 200, 420 (also acceptable are AAS courses cross-listed with courses eligible to serve as Major Requirements)

Bachelor of Science with a major in
POLITICAL SCIENCE

120 hours (minimum)
Any student earning a Bachelor of Science (BS) degree must complete a minimum of 60 hours in natural, physical, mathematical, and computer science. Please note: courses with a PS prefix are not accepted towards fulfilling this 60-hour requirement. Therefore, be sure to keep this requirement in mind as you choose your course work for the major. See the complete description of College requirements for a Bachelor of Science degree, including a specific listing of courses applicable to the 60-hour requirement, on pages 130-131.

UK Core Requirements
See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

I. Intellectual Inquiry in Arts and Creativity
Choose one course from approved list ....................... 3

II. Intellectual Inquiry in the Humanities
Choose one course from approved list ....................... 3

III. Intellectual Inquiry in the Social Sciences

PSYCHOLOGY
The undergraduate curriculum in psychology includes courses in the major content areas of psychology. The program provides course work emphasizing the fundamental concepts and techniques of this basic behavioral science. In addition to course work, the program provides for experience in conducting and analyzing laboratory and field research.

Bachelor of Arts with a major in PSYCHOLOGY
120 hours (minimum)
Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 200+ level. These hours are generally completed by the Major Requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Arts degree on page 130.

UK Core Requirements
See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

SOCIOPY

Sociology emphasizes the study of human behavior and social processes. The discipline provides excellent preparation for careers in a variety of occupations and professions including planning and community development, law, public relations and advertising, personnel administration, private business and government administration, health and human services, family relations, criminal justice fields, and others.

Students may major or minor in sociology. The department offers a Bachelor of Arts and a Bachelor of Science through the College of Arts and Sciences. Students may also complete a second major or minor in sociology even though they are enrolled in other colleges. In addition, students seeking certification in social studies education at the secondary level through the College of Education may also emphasize sociology in their programs.

Courses offered by the department cover a wide range of topics and issues. Areas such as social inequalities, work, organizations, economy, globalization, family, community, environment, crime, law and deviance comprise a large part of the curriculum. Students may also pursue special

readings courses and experiential education placements or internships through the department.
Major Core Requirements

Minor in Criminology

The minor in Criminology requires 18 hours as follows:

Minor Prerequisite
SOC 235 Inequalities in Society .......................... 3

Minor Requirements
SOC 302 Sociological Research Methods or one of the following courses:
PSY 215 Experimental Psychology
PS 372 Introduction to Political Analysis
ANT 302 Ethnographic Methods: Doing Anthropology
SW 450 Social Work Research
COM 365 Introduction to Communication

Research Methods .......................... 3-4

plus:
SOC 339 Introduction to Criminology .......................... 3

Minor Electives

9 hours from the following courses, 3 which must be at the 400-level:
*SOC 350 Topics in Sociology (Subtitle required) .......................... 3
SOC 438 Cross-National Crime .......................... 3
*SOC 439 Topics in Crime, Law and Deviance (Subtitle required) .......................... 3

To complete the 9 hours, students may take one course from the following:
PS 360 Politics of Law and Courts .......................... 3
PS 415G Comparative Judicial Politics .......................... 3
PS 437G Dynamics of International Law .......................... 3
PS 463G Judicial Politics .......................... 3
PS 465G Constitutional Law .......................... 3
GWS 430 Gender, Power and Violence .......................... 3
PS 331 The Psychology of Adjustment .......................... 3
PS 333 Abnormal Psychology .......................... 3
PSY 534 Child Pathopsychotherapy .......................... 3
SW 512 Social Work in the Criminal Justice System .......................... 3
SW 580 Topical Seminar in Social Work .......................... 1-4
SW 505 Child Welfare Services .......................... 2-3
SW 571 Social Work and the Law .......................... 3
COM 314 The Dark Side of Interpersonal Communication and Relationships .......................... 3

*The subtitle for this course must directly relate to criminology.

Minor in Sociology

The minor in Sociology requires 21 hours of course work to include:

Prerequisites
SOC 101 Introduction to Sociology or
CLD 102 The Dynamics of Rural Social Life .......................... 3

and
Any other 100- or 200-level sociology course .......................... 3

Preminor hours: ............................................ 6

Minor Requirements
Students complete an additional 15 hours in sociology, at least 3 of which must be at the 400 level or above and must include one of the following six-hour blocks:
SOC 302 and SOC 303 (or PSY 216) or
SOC 304 and SOC 305 or
SOC 302 and SOC 304

STATISTICS

The Department of Statistics at the University of Kentucky is concerned with three essential functions: teaching, research, and consulting in statistics.

The department does not offer an undergraduate degree, but students may elect to include statistics as part of a topical major or to minor in statistics. The program in mathematical sciences also includes several statistics courses. The Mas-
ter of Science and the Doctor of Philosophy degree are offered.

Research is being actively pursued in statistical theory and methods, both parametric and nonparametric, linear models, inference, stochastic processes, applied probability, and biostatistics.

Consultation on statistical analysis and interpretation of data is provided to researchers on and off the campus. Particular attention is paid to the consulting needs of graduate students.

Minor in Statistics

The minor in statistics is aimed specifically at social and life science students, as well as students in the traditional mathematical sciences. A minimum of 16 hours of course work is required to complete the minor, as follows:

Complete one of the following:
STA 291 Statistical Methods
STA 296 Statistical Methods and Motivations
STA 321 Basic Statistical Theory I
STA 525 Introductory Statistical Inference ................. 3

Complete one of the following:
STA 281 Probability and Statistics
Using Interactive Computer Techniques
STA 320 Introductory Probability
STA 524 Probability ................................................ 3

plus
STA 570 Basic Statistical Analysis ............................ 4

Complete one additional STA course approved by the Director of Undergraduate Studies ............. 3 - 4

Complete one course from the student’s area approved by the Director of Undergraduate Studies ........ 3-4

Total Hours .......................................................... 16-18

WRITING, RHETORIC, AND DIGITAL STUDIES

The major in Writing, Rhetoric, and Digital Studies focuses on the humanistic study of writing and rhetoric in its various genres, contexts (social, historical, political), and media (print and digital, textual and visual). Students in the program study rhetoric and composition theory, practice writing in various forms (including professional and technical writing), and consider the emerging dynamics of digital composition.

The major prepares students to enter publishing, business, industry, or non-profit organizations. Students focusing on writing in digital environments may find employment with multimedia firms or web design organizations. For those interested in graduate work, the major prepares students to enter English education, rhetoric and composition, professional writing, and law.

The major in Writing, Rhetoric, and Digital Studies is grounded in the foundational idea that writing and rhetoric are important not only for professional success, but also for the development of an informed, engaged citizenry.

Bachelor of Arts with a major in WRITING, RHETORIC, AND DIGITAL STUDIES

120 hours (minimum)

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the Major Requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Arts degree on page 130.

UK Core Requirements

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

BACHELOR OF LIBERAL STUDIES

NOTE: At the time of publication, the Bachelor of Liberal Studies had been approved by the Board of Trustees. The program is awaiting final approval from the Council on Postsecondary Education.

A Bachelor of Liberal Studies degree allows students to design individualized programs of study in the humanities, social sciences, and natural and mathematical sciences; to develop a breadth of knowledge reflective of a true liberal arts education; to develop critical thinking and writing skills; and to apply problem-solving strategies. By taking an interdisciplinary perspective, students will learn to integrate and synthesize a breadth of knowledge across disciplinary boundaries, and apply that knowledge to a diverse, multicultural society. Students will learn to work effectively to solve complex problems using solid research methodologies and ethics, and to communicate effectively in both written and oral formats. To graduate with a BLS degree, students will complete numerous upper-division courses, complete a capstone writing course in which they synthesize and evaluate their previous coursework, and submit a final portfolio of previous work.
The minor centers on two interdisciplinary seminars on selected topics in American studies. Students electing the minor are also encouraged to take a range of elective courses to complement their major. The minor in American Studies prepares students for further graduate or professional training, or for work in education, government, or business.

The minor requires 18 hours of study as follows:

1. IAS 301 Topics in American Culture
2. IAS 401 Perspectives in American Culture
3. Four additional courses (12 hours) from the following list of approved courses. No more than two courses (or 6 hours) may be taken in any one discipline:

**Art History:**  A-H 342

**Anthropology:**  ANT 221, ANT 342, ANT 470G, ANT 527, ANT 534

**English:**  ENG 310, ENG 480G

**Geography:**  GEO 320, GEO 321, GEO 322, GEO 490G

**History:**  HIS 260, HIS 261, HIS 265, HIS 350, HIS 351, HIS 460, HIS 461, HIS 463, HIS 464, HIS 465, HIS 466, HIS 467, HIS 572, HIS 573, HIS 574, HIS 575, HIS 576, HIS 577, HIS 578, HIS 579, HIS 580, HIS 584, HIS 585, HIS 586

**Linguistics:**  LIN 317

**Music:**  MUS 206, MUS 222, MUS 300, MUS 301, MUS 506

**Philosophy:**  PHI 514

**Sociology:**  SOC 340, SOC 534

For further information, contact: Director Pearl James, avdool2@uky.edu; 1227 Patterson Office Tower 0027, (859) 257-6978.

**Appalachian Studies**

This minor offers the student with serious interests in Appalachian regional studies an opportunity to pursue a minor concentration to complement a major in one of the university’s professional or liberal arts programs. This interdisciplinary program enables students to comprehend more fully the history, health, social structure, environment, and culture of the region – its people, its challenges, and its future.

The minor in Appalachian Studies requires 18 hours of course work to include the following:

1. APP 200 Introduction to Appalachian Studies
2. Choose 15 hours of Appalachian Studies courses. These courses must be chosen from the list below, or current courses listed on the Web site approved by the Director of Appalachian Studies:

   **APP 300 Topics in Appalachian Studies**

   **APP 395 Independent Study**

   **APP 399 Practicum**

   **GEO 365 Special Topics in Regional Geography**

   **HIS 579 History of the New South**

   **HIS 580 History of Appalachia**

MUS 301 Appalachian Music

PS 456G Appalachian Politics

SOC 343 Political Sociology (if appropriate)

SOC 554 Sociology of Appalachia

SOC 735 Topical Seminar in Social Inequalities (if appropriate)

Note: Introduction to Appalachian Studies (APP 200) is strongly recommended. Individually arranged courses in independent study and experiential education may be counted toward the minor if approved by the Appalachian Studies Program Director. Special Topics courses offered by the various departments may also be counted, if appropriate.

For more information, contact: Appalachian Studies Director Shauna Scott, shauna.scott@uky.edu; Room 204, 624 Maxwell Court, 0347; (859) 257-6882.

http://appalachiancenter.as.uky.edu/
Environmental Studies

Environmental considerations permeate almost every facet of modern life, and concern for “the environment” is practically universal as we approach the twenty-first century. The minor in Environmental Studies is designed to provide students with the opportunity to become conversant in a range of environmental topics, whether as private citizens in their daily lives or as professional members of corporate, government, legal, medical, and educational circles.

The minor draws on topics and perspectives from the natural and physical sciences, the social sciences, and the humanities to underscore the interdisciplinary nature of environmental issues and problems. Students taking the minor are encouraged to integrate the program with their major study focus in order to gain a competitive advantage in grappling with environmental topics.

The minor in Environmental Studies requires 21 hours of course work including the following:

- ENS 201 Environmental and Sustainability Studies I: Humanities and Social Sciences ...............3
- ENS 202 Environmental and Sustainability Studies II: Natural Science and Policy .........................3
- PHL 336 Environmental Ethics .........................3
- ENG 425 Environmental Writing .........................3
- plus 3 credit hours from each of the ENS Areas of Expertise: Economics, Environment, Society ..............................9

Economics

Environment

Society

Alternative elective courses may be approved by the Environmental Studies Program Director.

For further information, contact: Director David Atwood, datwood@uky.edu; 1457 Patterson Office Tower 0027, (859) 257-1994.

http://idp.as.uky.edu/idp-environmental-studies

Indian Culture

This minor is designed to allow students to develop a more profound understanding of Indian culture. The curriculum is strongly interdisciplinary, encompassing courses in linguistics, anthropology, English, geography, mathematics, philosophy, political science, and sociology.

Students completing the minor will possess: (1) a well-rounded, multidisciplinary understanding of the culture and geography of India and of contemporary Indian society and politics; and (2) a high degree of preparedness to pursue careers in business or teaching that require knowledge of Indian society and its traditions.

The minor in Indian Culture requires 18 hours of course work, as follows:

- 12 hours of courses on India from anthropology, English, geography, linguistics, mathematics, philosophy, political science, sociology, and independent studies in India. Students choose from the following courses:
  - ANT 327 Culture and Societies of India and South Asia .........................3
  - GEO 330 Geography of the Indian Subcontinent .........................3
  - GEO 365 Special Topics in Regional Geography (Subtitle required)  3

- GEO 565 Topics in Geography .........................3

-JWS 302 Gender Across the World (Subtitle required) .........................3
- LIN 395 Independent Work .........................3
- MA 330 History of Mathematics .........................3
- MUS 330 Music in the World (Subtitle required) .........................3
- PHI 343 Indian Philosophy .........................3
- PS 420G Governments and Politics of South Asia .........................3
- SOC 380 Globalization: A Cross-Cultural Perspective .........................3
- TA 584 Asian Theatre (Subtitle required) .........................3

*The subtitle for this course must directly relate to the field of Indian culture.

Students in the Indian Culture minor program will be encouraged to participate in a study program in India in the course of their undergraduate education.

For more information, contact: Professor Paul Karan, 817 Patterson Office Tower, (859) 257-6953; ppkaran@uky.edu

http://mcl.as.uky.edu/jewish-studies

Jewish Studies

The interdisciplinary minor in Jewish Studies provides students with the opportunity to become acquainted with the culture, language, literature, religion, history, and philosophy of the Jewish people from antiquity to the present. For more information, visit:

mcl.as.uky.edu/jewish-studies

The minor in Jewish Studies requires 18 hours of course work as follows:

1. Required Courses

- HJS 324 Jewish Thought and Culture I: From Ancient Israel to the Middle Ages .........................3
- HJS 325 Jewish Thought and Culture II: From the Expulsion from Spain to the Present .........................3

2. Elective Courses

- HJS 101 Elementary Hebrew .........................4
- HJS 102 Elementary Hebrew .........................4
- HJS 201 Intermediate Hebrew .........................3
- HJS 202 Intermediate Hebrew .........................3
- HJS 226 The Jewish Experience in America .........................3
- HJS 327 Women in Judaism .........................3
- HJS 495 Independent Study in Judaic Studies .........................3
- PHI 504 Islamic and Jewish Philosophy and the Classical Tradition .........................3
- CLA 390 Backgrounds to and Early History of Christianity to 150 CE .........................3
- HJS 330 A History of Western Religious Thought I (Subtitle required) .........................3
- HJS 333 The Holocaust .........................3
- HJS 425 Topics in Judaic Studies (Subtitle required) .........................3

And other courses with significant Judaic studies content, as approved by the Director, to a maximum of 6 credit hours.

For further information, contact: Director Janice Fernheimer, jfernheimer@uky.edu; 1457 Patterson Office Tower 0027, (859) 257-1994.

http://mcl.as.uky.edu/jewish-studies
Latin American, Caribbean, and Latino Studies

The minor in Latin American, Caribbean, and Latino Studies provides instruction and broad exposure to the society and culture of Latin America. The minor requires a minimum of 18 credit hours to be distributed as follows:

Preminor Requirement
1. LAS 201 Introduction to Latin America ...............3

Minor Requirements
Complete 3 credit hours of language instruction in Spanish, Portuguese, or French (above the 200 level) or an indigenous language spoken in Latin America; and complete 12 credit hours of approved courses across at least three of the following disciplines: anthropology, Hispanic studies, history, Latin American studies, linguistics, geography, political science, sociology, and writing, rhetoric and digital studies. All courses need to have at least 75 percent Latin American, Caribbean or Latino content. Other courses, including independent studies and education abroad courses, may be counted with the approval from the LACLAS Director.

List of approved courses usually taught by affiliate faculty:
- ANT 320 Andean Civilization ........................................3
- ANT 324 Contemporary Latin American Cultures ...........3
- ANG 328 The Ancient Maya ........................................3
- GEO 324 Geography of Central and South America and the Caribbean ........................................3
- HIS 206 History of Colonial Latin America, 1492 to 1810 ........................................3
- HIS 207 History of Latin America, 1810 to Present ..........3
- HIS 208 History of the Atlantic World ..........................3
- HIS 562 Modern Mexico ............................................3
- HIS 563 The History of Women in Latin America ...........3
- HIS 564 History of Brazil ............................................3
- LAS 395 Independent Work in Latin American Studies ......3
- PS 426G Latin American Government and Politics ........3
- PS 538 Conflict and Cooperation in Latin American Relations ........................................3
- *SOC 350 Topics in Sociology (Subtitle required) ...........3
- *SOC 432 Race and Ethnic Relations ............................3
- SPA 314 Civilization of Spanish America .....................3
- SPA 322 Literature, Life and Thought of Spanish America ........................................3
- SPA 332 Spanish and Latin American Business Environments ........................................3
- SPA 438G Literature of Social Protest in Spanish America ........................................3
- *SPA 474 Topics in Hispanic Studies (Subtitle required) ....3
*Course subtitle must focus on Latin American, Caribbean and/ or Latino studies.

For more information, consult the Director of Latin American Studies. http://lacls.as.uky.edu/

UNDERGRADUATE CERTIFICATES

The University of Kentucky grants the following undergraduate certificates in the College of Arts and Sciences:
- Appalachian Studies
- Peace Studies

Undergraduate Certificate in Appalachian Studies

Students in any college may earn the Undergraduate Certificate in Appalachian Studies. The certificate is interdisciplinary (requiring course work in at least two colleges) and combines critical analysis with experiential education in the Appalachian region. The course work and practicum are tailored for each student in consultation with the program director to make the interdisciplinary certificate relevant to the student’s major, interests, and career plans.

A student planning a health science career might choose a practicum with the UK Center for Excellence in Rural Health in Hazard, Ky., for example, and a student interested in sustainable agriculture or elementary education might do a practicum with Green Forests Work, a reforestation and public education program in central Appalachia. The Appalachian Studies faculty spans ten colleges at UK and there are diverse courses available each semester to students enrolled in the certificate program.

The 12-hour certificate program focuses on understanding the Appalachian region, particularly Appalachian Kentucky, in historical, social/cultural, physical, and comparative context. All students must: 1) complete APP 200, Introduction to Appalachian Studies (which also satisfies the UK Core requirement in U.S. citizenship); 2) to satisfy an Appalachian engagement requirement (either through APP 399, the Appalachian Studies Practicum course, or a relevant internship, service-learning course, or practicum in another program); and 3) to complete a capstone project either through APP 399, the Appalachian Studies Practicum, or a course approved as the capstone experience by the Appalachian Studies Program Director.

Remaining courses may be chosen from the Appalachia-related course listings published on the Appalachian Studies Web site each term, or a student may propose additional courses with a rationale accepted by the Appalachian Studies Program Director. **Course work for the undergraduate certificate must be taken from within at least two colleges at UK.** This requirement is a significant offering of this certificate program, given the Appalachian Center and Appalachian Studies Program’s service to the entire university community. The purpose of the requirement is to encourage students to explore curricular possibilities outside the college in which their major is administratively housed, in a program of study truly committed to interdisciplinary perspectives.

Examples of Programs of Study

Here are three examples of programs of study for students successfully completing the Appalachian Studies undergraduate certificate:

- APP 200 Introduction to Appalachian Studies ..............3
- APP 399 Practicum ..................................................1-6
- JOU 485 Community Journalism ................................3
- CLD 340 Community Interaction ................................3
- This student could satisfy the engagement requirement through APP 399 at UK’s Robinson Center for Appalachian Resource Sustainability in Breathitt County on youth agricultural entrepreneurship, and satisfy the capstone requirement through a paper for Community Interaction on participatory evaluation of a proposed economic development project in Appalachia.
- APP 200 Introduction to Appalachian Studies ..............3
- MUS 301 Appalachian Music ......................................3
- *ENG 450G Studies in American Literature (Subtitle required) ........................................3
- APP 399 Practicum ..................................................1-6
*ENG 450G subtitle must focus on some aspect of Appalachian literature.

This student could satisfy the engagement requirement and the capstone experience together by creating and implementing a program on the multicultural history of the banjo for students at a 4-H camp in the Appalachian region.

- APP 200 Introduction to Appalachian Studies ..............3
- EES 385 Hydrology and Water Resources ....................3
- FOR 460 Forest Hydrology and Watershed Management ..........3
- APP 399 Practicum ..................................................1-6
This student could satisfy the engagement requirement by serving as an Appalachian Center intern for the KY Riverkeeper, helping to create a waterways trail, and satisfy the capstone experience requirement through drafting a management plan for a forest in the Appalachian region.

Appalachian Studies Curriculum

The Certificate in Appalachian Studies curriculum are as follows:
- A minimum of 12 credits of course work taken for a letter grade.
- At least 12 credits must be 200 level or above, and a minimum of 6 credits must be at the 300-level or above.
- The student must complete a 3-credit breadth component. The breadth component requires that a student take courses in at least two colleges, with a minimum of three credits to be completed in a discipline other than the student’s major.
- Student must earn a C or better in each required certificate course to receive the certificate.
- Certificates will only be awarded to students who successfully complete a degree, or have completed a four-year degree.
- No more than 9 credits taken for a certificate can be used to satisfy the requirements for the student’s bachelor’s degree, a minor, or another certificate, exclusive of free or unrestricted electives.
For more information, contact: Appalachian Studies Director Shaunna Scott, shaunna.scott@uky.edu; Room 204, 624 Maxwelton Court, 0347; (859) 257-6882. https://appalachiancenter.as.uky.edu

**Undergraduate Certificate in Peace Studies**

The purpose of the Peace Studies program is to develop students with increased interests and understanding of issues of peace and justice from individual to global levels; to provide them with basic skills in peaceful communication, nonviolent and transformative conflict resolution; and to help them develop peaceful and cooperative cultures. The Peace Studies program will empower students to understand and reduce conflict at multiple levels, and will provide them with conflict resolution skills that are increasingly valued by employers, graduate programs, and are much needed in our communities.

A Peace Studies certificate offers a valuable credential and an appealing focus for students in many disciplines. While UK offers a plethora of courses relevant to Peace Studies, this is the single program that brings these elements into a coherent peacemaking focus. Because Peace Studies is inherently interdisciplinary, it can create an important context that may be missed when courses are completed within the framework of a single discipline. Students in Peace Studies will be better prepared to take advantage of co-curricular opportunities at UK. Many avenues also exist for fruitful synergy between the Peace Studies program and a student’s major and minor fields.

**Program Requirements**

The Peace Studies certificate is designed to be easily combined with a broad array of majors and minors across UK’s colleges and departments, and will increase a student’s credit hours needed for graduation only under rare circumstances. The Peace Studies program requires 12 credit hours. Six of the 12 required hours come from Peace Studies courses. These include the ‘portal’ course, PCE 201, which introduces students to Peace Studies, and the capstone course, PCE 410, which concludes the program.

**Peace Studies Courses**

*PCE 201 Introduction to Peace Studies .................. 3
**PCE 410 Peace Studies Capstone Seminar ................ 3

*Meets UK Core requirement for Inquiry in the Social Sciences
**Meets UK Core requirement for Citizenship-Global Dynamics

**Peace Studies Electives**

Peace Studies electives are selected from existing courses in the University catalog and reflect both different departments and colleges. They are grouped into four Focus Areas:

**Focus Area I: Peacebuilding .......................... 0-6**
Addresses systems and infrastructure needed to create more peaceful societies.

**Focus Area II: Peacemaking .......................... 0-6**
Addresses leadership skills, skills for resolving and transforming conflict.

**Focus Area III: Promoting Understanding, Cooperation, and Development ........................................ 0-6**
Addresses cross cultural issues, international organizations, economic and social development.

**Focus Area IV: Addressing Global and Regional Pressures ......................................................... 0-6**
Addresses problems of population, scarcity, trade, sustainability, ecosystems, climate, and immigration.
Information and requirements for the Global Scholars certificate are listed on page 199.

**ADMISSION POLICY**

Admission to the University is sufficient for lower-division admission to the Gatton College of Business and Economics for students with less than a junior standing. However, lower-division admission to the college or any admission to the University does not guarantee upper-division admission to one of the degree programs in the Gatton College of Business and Economics. In general, admission depends upon the qualifications and preparation of the applicants, as well as the availability of the resources for maintaining quality instruction.

Upper-division admission into a degree program is necessary in order to be granted a baccalaureate degree from the Gatton College of Business and Economics. Students who have attained a 3.0 or higher cumulative grade-point average overall and in the premajor component required of all students in the Gatton College of Business and Economics and have completed 60 semester hours of college-level credit will be assured admission.

Annually the Gatton College of Business and Economics will review the admission requirements and determine the cumulative grade-point average (Annual Admission GPA), if any, that would be acceptable below the 3.0 standard. The Annual Admission GPA (both overall and in the premajor component) will be no lower than 2.5 (see “Appeal Process” below for special circumstances). This GPA will be made available in the Undergraduate Resource Center of the Gatton College of Business and Economics by October 15 of each year. This GPA will be effective the following May 1 for any student applying for upper-division admission to the Gatton College of Business and Economics, regardless of the time of his/her enrollment in the University.

To be considered for upper-division admission to any of the undergraduate degree programs offered by the Gatton College of Business and Economics, an applicant must fulfill the following requirements:

1. Enrollment in the University of Kentucky. (Students are considered for acceptance by the college only after acceptance by the University of Kentucky.)
2. Completion of 60 semester hours with a minimum cumulative grade-point average of 3.0 or the current Annual Admission GPA, whichever is lower;
3. Completion of the premajor component required of all students within the Gatton College of Business and Economics with a minimum grade-point average of 3.0 or the minimum current Annual Admission GPA, whichever is lower. (The courses meeting the premajor requirements are listed under “Graduation Requirements” below);
4. Submission of an application form to the Gatton College of Business and Economics. The application is available on the Web at: gatton.uky.edu/

Applications from students outside the University of Kentucky seeking admission to the Gatton College of Business and Economics, whether for upper-division or lower-division status, must be received by the Office of Undergraduate Admissions by the approved deadlines. These deadlines are listed on page 16 in the Undergraduate Admission section of this Bulletin.

Students enrolled in other UK colleges on campus should apply for admission prior to the priority registration period. (The appropriate deadlines are listed in the University calendar for approved times to change major).

Lower-division students in the Gatton College of Business and Economics should apply for upper-division admission to the college during the semester they are completing the premajor course work. The application for upper-division admission should be made before the priority registration period for the upcoming semester.

Lower-division students in the college who are missing no more than two premajor courses will be permitted to complete these courses simultaneously with enrollment in restricted course work if they are otherwise eligible. Eligibility is determined by attainment of junior standing and the minimum cumulative and premajor grade-point standings. This privilege will be granted for one semester only.

Students not admitted to an upper-division program in the Gatton College of Business and Economics should be aware that others may be given preference for enrollment in the restricted upper-division courses offered by the Gatton College of Business and Economics.
Enrollment in restricted Business and Economics courses numbered 300 or above will be limited to:

1. Upper-division Business and Economics students;
2. Lower-division Business and Economics students who are missing no more than two premajor courses and are otherwise eligible for upper-division status. (This privilege will be granted for one semester only);
3. Non-Business and Economics students who are registered for specific programs requiring Business and Economics courses;
4. Other students or categories of students with specific permission of the department offering the course.

In the event of capacity limitations, enrollment preference would be made in the above order.

For applicants from non-English speaking countries, see the information on “International Students” in the Undergraduate Admission section of this Bulletin.

**Appeal Process**

Students with a GPA below the Annual Admission GPA and who have completed all premajor requirements may appeal for admission into the Gatton College of Business and Economics. If the Appeals Committee feels that there is persuasive evidence that personal, academic or professional circumstances have affected a student’s grades and that the student shows promise for successful completion of a degree in the Gatton College of Business and Economics, acceptance may be granted. Materials, deadlines, and information necessary for the appeals process are available in the Undergraduate Resource Center in 144 Gatton College of Business & Economics Building.

**Dean’s List**

Students who have a term grade-point average of 3.6 or greater will appear on the Dean’s List.

**Probation and Academic Suspension**

The following rules apply to students in the Gatton College of Business and Economics.

1. No student with a cumulative GPA of less than 2.0 will be enrolled in the Gatton College of Business and Economics. Any student who fails to maintain a cumulative GPA of 2.0 will be suspended from the Gatton College of Business and Economics and will not be readmitted until this GPA is 2.0 or greater. No probationary notice will be given.

2. Any student enrolled in the Gatton College of Business and Economics who achieves a GPA of less than 2.0 in any semester will be placed on probation.

3. Any student on probation who fails to achieve a 2.0 semester GPA will be dropped from the Gatton College of Business and Economics and will not be readmitted until he or she has obtained a semester GPA of 2.0 or greater for one semester and the student’s cumulative GPA is 2.0 or greater.

4. Students who are suspended twice from the Gatton College of Business and Economics will not be readmitted.

**Scholarships**

The Gatton College of Business and Economics awards scholarships to first year and returning students based upon merit as well as need. A small number of scholarships are available to first year students based upon merit. Most upper-division scholarships require application in the spring. The application is available at: http://mygatton.uky.edu

**DIVISIONS**

**VON ALLMEN SCHOOL OF ACCOUNTANCY**

The faculty in the Von Allmen School of Accountancy is committed to providing the best possible educational experience for students. The faculty has both breadth and depth of training and experience in public accounting, industry, government and regulated industries, and previous classroom experience.

**DEPARTMENT OF ECONOMICS**

The Department of Economics provides theoretical and applied courses in widely diverse areas including urban problems, labor, monetary economics, international economics, comparative economic systems, and economic history.

**DEPARTMENT OF FINANCE AND QUANTITATIVE METHODS**

**Finance**

The Finance major offers a variety of courses, both to students who concentrate their studies in finance and to those who desire additional knowledge in various financial areas. Such areas include financial management, security analysis and portfolio management, capital market theory, banking and institutions, and real estate.

**Analytics**

NOTE: The Gatton College of Business and Economics has suspended admissions to the B.B.A. in Analytics for the 2016-2017 academic year.

This degree program focuses on Business Analytics, which involves an organization’s integrated use of technological and quantitative methods to process data and gain insights in the course of making decisions. The objective of Business Analytics is to help an organization reach decisions leading to actions that yield strong performance and sustained competitiveness in the context of today’s turbulent, fast-paced, global business environment. The major covers application areas such as information systems, operations, and supply chain management.

**DEPARTMENT OF MANAGEMENT**

The faculty in the Department of Management brings extensive academic and practical experience to the classroom. Course offerings cover an array of management areas such as human resources, organizational behavior, and strategic management policy.

**DEPARTMENT OF MARKETING AND SUPPLY CHAIN**

The faculty in the Department of Marketing and Supply Chain has extensive experience in industry and government and includes individuals with interests and training in all areas of marketing. Aspects of marketing such as research, retailing, promotion, personal selling and strategy are covered in marketing course work.

**GRADUATION REQUIREMENTS**

All students in the Gatton College of Business and Economics must fulfill the UK Core requirements as outlined in the UK Core section of this Bulletin, the premajor requirements, the college core requirements, and major requirements. Additionally, students must fulfill the College requirements listed below.

**College Requirements**

To graduate from the Gatton College of Business and Economics, a student must have a total of 120 credit hours (exclusive of lower division military science courses, physical education service courses, remedial courses, and performance-type courses) with a 2.0 grade-point standing. Students are required to earn at least 50 percent of their business credit hours required for the business degree at the University of Kentucky. A minimum GPA of 2.00 is required in all courses taken at the University of Kentucky used to satisfy the college core. Additionally, a minimum GPA of 2.00 is required in all courses taken at the University of Kentucky used to satisfy upper division departmental requirements.

Students must complete CIS 300, Strategic Business and Professional Communication (W). CIS 300 fulfills the Graduation Composition and Communication Requirement (GCCR).

Each student’s undergraduate curriculum must include at least 60 earned credit hours of courses outside the Gatton College of Business and Economics. Up to nine semester hours of economics and up to six semester hours of statistics may be counted toward the number of earned credit hours outside the Gatton College of Business and Economics.
UK Core Requirements
See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

I. Intellectual Inquiry in Arts and Creativity
Choose one course from approved list ........................................ 3

II. Intellectual Inquiry in the Humanities
Choose one course from approved list ........................................ 3

III. Intellectual Inquiry in the Social Sciences
Choose one course from approved list ........................................ 3

**STA 296 fulfills the UK Core Statistical Inferential Reasoning requirement.

College Core Hours
The college core, a total of 18 credit hours, consists of the following courses:

MKT 300 Marketing Management ............................................ 3
FIN 300 Corporation Finance ................................................ 3
MGT 301 Business Management ............................................. 3
MGT 340 Ethical and Regulatory Environment ............................ 3
AN 300 Analyzing Business Operations .................................... 3
ECO 391 Economic and Business Statistics ............................... 3

Subtotal: College Core hours .............................................. 18

Electives
Each of the degree programs affords the student considerable opportunity and freedom of choice to take elective courses. The number of electives will vary depending on the student and their major. Each student must meet the general minimum hours for graduation. Students pursuing a second degree must have a minimum of 144 hours. Military science (lower division), music performance, and KHP activity courses do not count for electives. A maximum of six hours of technical courses can be counted for electives. A total of four electives may be taken on a pass/fail basis if they are not being used for any other type of requirement, nor taught through the student’s major department(s).

Policy on Experiential Education
Gatton College of Business and Economics’ faculty work with the Graham Office of Career Management to provide students with the opportunity to intern in a business-related field. The College allows a student to apply toward graduation up to six credit hours (pass/fail option only) of EXP 396/internship credit earned at the University of Kentucky. The maximum credit hours each semester that can be applied toward graduation for EXP 396/internship credit is three. Credits earned for other internship courses throughout the University are included in the three hours per semester and the six hour maximum for graduation credit. For further information, visit: gatton.uky.edu/career

Advising
The Undergraduate Resource Center (144 Gatton College of Business and Economics Building) coordinates the academic advising of business students. The staff of the Undergraduate Resource Center can assist with general information, admission decisions, and the applicability of credit toward degree requirements.

### MINORS

**NOTE:** In addition to completing the minor requirements, students must complete at least six hours in each minor with courses that are not counted for any other academic program in the College.

**Minor Residency Requirement**  
At least half of all upper division classes used to complete each minor must be earned from the Gatton College.

### Minor in Economics

| ECO 201 Principles of Economics I                        | 3     |
| ECO 202 Principles of Economics II                       | 3     |

| at the 300-level or above                                 |     |
| Students must take at least 6 hours of upper-division classes from the Gatton College. | 50 percent of the upper-division requirement for a minor). |

### Minor in Business

**NOTE:** This minor is not available to students pursuing a major in the Gatton College of Business and Economics. **Students should note that some courses in the minor have CS 101 or B&E 105 as a prerequisite. Further, MA 113 (or MA 123) is a prerequisite for STA 296, a preminor requirement. STA 296 is a prerequisite for FIN 300, a minor requirement. Students who choose AN 300 must complete all the business premajor requirements.**

Students wishing to complete a minor in Business must complete the following:
The Global Scholars Program is a four-year honors program for high-achieving, highly-motivated business students who have a passion for leadership and international business. Every Global Scholar will study abroad for at least one semester and complete a Minor in International Business. The Program’s mission is to develop perspective business professionals well-equipped to confront challenges of a global environment through specialized curriculum and co-curricular activities designed to enhance any Gatton major. Through successful completion of the Program, students should accomplish the following goals:

- Develop an appreciation of a global business perspective
- Develop the ability to communicate and work effectively in diverse teams
- Gain knowledge and exposure to international business practices and environments
- Galvanize leadership and professional skills through scholastic rigor and community engagement

In pursuit of these goals, the Global Scholars Program values:
- Academic excellence
- Self-discovery and creativity
- Professionalism
- Teamwork
- Diversity of opinion, ethnicity, culture, and experience

For more information about the Global Scholars program, visit: www.uky.edu/academy/honors-global-scholars

Academic Curriculum
Global Scholars cohorted classes are required. Global Scholars students should schedule other course work and extracurricular activities around these required classes.

Freshman Year
**Fall Semester**
- UK 101 Academic Orientation .................. 1-2
- B&E 120 Leadership in the Global Marketplace 3

**Spring Semester**
- B&E 122 The Challenge of Leadership .......... 1
- ECO 201 Principles of Economics 1 ............... 3
- ACC 201 Financial Accounting 1 ................. 3

- MGT 309 Introduction to International Business .. 3
- FIN 423 International Finance ....................... 3
- MKT 435 International Marketing ................. 3

Total additional International Business Minor hours ........................................... 12

Academic Standards
Global Scholars students are held to higher standards. Students earning a 3.4 UK cumulative grade-point average (GPA) are in good academic standing within the Global Scholars Program. Students earning less than the expected 3.4 cumulative GPA are still in good academic standing if they meet the minimum standards outlined below:

**GPA Requirements**

- End of First Year: 3.0 cumulative UK GPA
- End of Second Year: 3.2 cumulative UK GPA
- End of Third Year through Graduation: 3.4 cumulative UK GPA

Students who earn less than a 3.0 term GPA during their first semester will automatically be placed on probation. Sophomores and Juniors can also be placed on probation if their term and/or cumulative GPA is below the minimum standard and are not demonstrating progress towards the 3.4 cumulative UK GPA.

Global Scholar students must also meet the general academic standards of Gatton College, e.g., a 2.8 premajor GPA is required for upper-division College course work. All standards of the University of Kentucky, such as academic honesty and integrity, must also be upheld. Should a student fail to meet any of these standards, this may warrant immediate expulsion from the Global Scholars Program. In some cases, the student in question may be eligible for Global Scholars Program probation.

**GRADUATE PROGRAMS**

The Gatton College of Business and Economics offers the following graduate degrees through the Graduate School at UK: (1) Master of Science in Accounting, (2) Master of Business Administration, (3) Ph.D. in Business Administration, (4) Master of Science in Economics, and (5) Ph.D. in Economics. Additional information may be obtained from the Associate Dean for Faculty, Research, and Administration, Gatton College of Business and Economics, and from The Graduate School Bulletin.
The College of Communication and Information consists of the Department of Communication, the Department of Integrated Strategic Communication, the School of Journalism and Media, and the School of Information Science. The Department of Communication educates its students in interpersonal, small group, mass, health and organizational communication, and communication theory and research. Graduates pursue a variety of career paths in areas such as corporate communication, health communication, personnel, education, media, and government. The Department of Integrated Strategic Communication prepares students for careers as professionals in the allied areas of advertising, public relations, and direct response communication. The journalism area within the School of Journalism and Media educates its students for professional careers in the media as writers, editors, and broadcasters. The media arts and studies area within the School of Journalism and Media educates its students in telecommunication technology, management, programming, research, audio-video production, and the societal consequences of electronic media. The School of Information Science provides students with the basic knowledge and skills required to function effectively in beginning professional positions in various types of libraries and information-providing agencies.

Accreditation

Majors in the School of Journalism and Media have national accreditation from the Accrediting Council on Education in Journalism and Mass Communications (ACEJMC).

Undergraduate Programs in Communication and Information

The University of Kentucky grants the following degrees in the College of Communication and Information:

- Bachelor of Arts
- Bachelor of Science

Students pursuing either the Bachelor of Arts or the Bachelor of Science select from these majors: communication, information communication technology, integrated strategic communication, journalism, and media arts and studies. Students may also select a minor in communication, a minor in information studies, a minor in journalism studies, and a minor in media arts and studies. Students may not double-major within the School of Journalism and Media; students majoring in integrated strategic communication or journalism may not minor in media arts and studies. Students majoring in integrated strategic communication or media arts and studies may not minor in journalism studies. University requirements for a double major stipulate that each major be in a separate department (see the Graduation Requirements section of this Bulletin). No student may take more than 48 hours within the School to complete a degree.

Undergraduate Certificates in Communication and Information

The University of Kentucky grants the following undergraduate certificates in the College of Communication and Information:

- Health Communication
- Innovation and Entrepreneurial Thinking

Information and requirements for the certificate are listed on page 207.

Scholarships and Financial Aid

The College of Communication and Information has several opportunities for students to obtain scholarship funding. The college awards four scholarships to incoming freshmen and two scholarships each to rising juniors and seniors each academic year. The School of Journalism and Media awards nearly $45,000 in aid from various scholarship funds annually. The Department of Communication also has funding available for students. Generally, the deadline for scholarship applications is early in the spring semester to award funding for the following academic year. For specific information on scholarships, contact the department office, the Office of Student Services in 105 Grehan Building.

ADMISSION POLICY

Admission to the University is sufficient for admission to the College of Communication and Information as a premajor or major. However, admission as a premajor does not guarantee admission as a major in one of the degree programs in the College of Communication and Information. In general, admission as a major depends upon the qualifications and preparation of the applicant, as well as the availability of resources for maintaining quality instruction. Additionally, depending on the timing of admission into the major program, students may not have access to major classes until subsequent semesters.

Upper-division admission into a degree program is necessary in order to be granted a baccalaureate degree from the College of Communication and Information.

Transfer Students

The School of Journalism and Media is accredited by the Accrediting Council on Education in Journalism and Mass Communication (ACEJMC). Under ACEJMC guidelines, no more than 12 hours of journalism and mass communications courses from a student’s previous institution(s) may be counted toward a degree in journalism, integrated strategic communication or media arts and studies at the University of Kentucky.

Admission to Degree Programs

In order to be admitted to any of the four undergraduate majors (communication, integrated strategic communication, journalism, and media arts and studies) offered by the College of Communication and Information, an applicant must fulfill the following requirements:

1. Enrollment in the University of Kentucky (Students are considered for acceptance by the college only after acceptance by the University.);
2. Completion of 30 semester hours of course work;
3. Minimum of 2.0 cumulative grade-point average;
4. Completion of premajor requirements of the program to which application is made;
5. Completion of UK Core areas I, II, III, IV, V, VI, VII and VIII; and
6. Submission of an application form.

No student will be allowed to test out of any requirement as a premajor or major.
or Telecommunication course. A student taking a similar course from another institution would still be allowed credit should the course meet criteria similar to the University of Kentucky course.

Students meeting these requirements will be designated as majors or as students with upper-division standing in the program to which admission is granted. Any student not meeting one or more of these requirements may be granted premajor status.

In the admission considerations, when personal, academic, professional, or intellectual circumstances tend to discount lower academic scores, admission may be granted if there is other persuasive evidence of both the capability and motivation to undertake successfully a program in the College of Communication and Information.

Annually, the College of Communication and Information faculty will review the minimum standards required for admission to the college. Any change in requirements will be implemented at the beginning of the academic year (fall semester) and will be in effect for the entire academic year. If the standards are to be changed, the Dean of the College of Communication and Information will submit the proposed change by February 1 to the University Senate Council for approval, with prior circulation to the University deans and directors.

Admissions Process

Applications from students outside the University of Kentucky seeking admission to the College of Communication and Information, whether for lower-division or upper-division status, must be received by the University of Kentucky Admissions Office no later than April 1 (for summer sessions), August 1 (for fall semester) and December 1 (for spring semester).

Students enrolled in other UK colleges on campus may apply for admission during the first week of fall and spring semesters, or prior to the priority registration period. The appropriate deadlines are listed in the University calendar as approved times to change majors.

Each applicant bears the responsibility to see that the application contains all the requested materials.

Enrollment in Upper Division Courses

Enrollment in College of Communication and Information courses numbered 300-399 will be limited in order of priority to:

1. majors and minors in College of Communication and Information degree programs;
2. non-College of Communication and Information students who are registered for specific programs requiring College of Communication and Information courses;
3. other students or categories of students with the express permission of the department offering the course (departments may choose to declare certain courses as open enrollment courses).

GRADUATION REQUIREMENTS

To earn either the Bachelor of Arts or the Bachelor of Science degree in the College of Communication and Information, each student must (1) complete 120 hours of course work (excluding courses lower than the 100 level, courses with an R designation, physical education service courses, and/or EXP 396 credits) with a grade-point average of at least 2.0 and (2) complete at least 42 hours in upper division courses (300 or above). No more than 60 hours may be taken within the college.

Other requirements include UK Core, premajor requirements, field of concentration (24-27 hours of major work and 15-18 hours of cognate courses earned outside the college as defined by the units), and a minimum of six hours of free electives.

Bachelor of Arts

Degree Requirements

Students who pursue the B.A. within the College of Communication and Information must fulfill the following requirements.

UK Core: Students must complete all areas of the UK Core program. (See UK Core section in this Bulletin for a detailed explanation of requirements.)

College B.A. Requirements

1. Language. Complete one of the following sequences:
   Option A: Successful completion of the fourth college semester of one foreign language. (Note: This may be accomplished by scoring at this level on a placement test for previous work in the foreign language.)
   Option B: Complete a set of two courses dealing with the nature and structure of language, language behavior, or comparative languages. This set shall be comprised of one course from Group I below, and one course from Group II. (Courses counted as meeting this option may not be counted in the major or field of concentration.)

   Group I: LIN 211.
   Group II: ENGLIN 209, ENGLIN 210, ENGLIN 212, ENG/ LIN 310, LIN 317, LIN 318, ANT/LIN 325, LIN 331, ENG/ LIN 512, ANT/LIN 515, ANT/LIN 516, LIN 517, ANT/LIN 519.

2. Statistics: STA 210

Major Requirements

Students must complete the departmental requirements for one of the four majors (communication, integrated strategic communication, journalism, and media arts and studies).

Subtotal: College B.A. Hours ...................... 9-17

Bachelor of Science Degree Requirements

Students who pursue the B.S. within the College of Communication and Information must fulfill the following requirements:

UK Core: Students must complete all areas of the UK Core program. (See UK Core section in this Bulletin for a detailed explanation of requirements.)

College B.S. Requirements

1. Mathematics, statistics and computer science: Complete 9 credits in mathematics and/or computer sciences beyond the UK Core requirement. At least 3 hours must be in statistics.

2. Science Courses. Complete a minimum of 60 hours of science courses, with not more than 12 hours within the College of Communication and Information. These courses must be approved by an advisor in the College of Communication and Information and may be from the areas of mathematics, statistics, computer science, physical sciences, biological sciences, social and behavioral sciences, as well as from appropriate professional fields.

Subtotal: College B.S. Hours ...................... 60

Academic Advising

Premajor (freshman and sophomore) advising in the College of Communication and Information is under the jurisdiction of the Office of Student Services, 107 Grehan Building. Premajor advisors are Cathy Hunt, Director of Student Services, and a freshmen advisor. All can be reached at (859) 257-4839.

During advance registration periods, the college will advise premajors through individual advising sessions with college and department staff. Between advance registration periods, including registration at the beginning of each term, one faculty or staff member from each academic unit will be available to advise premajors.

When students are admitted to the upper-division of the college, they are assigned a faculty advisor from their major program.

B.S. or B.A. with a major in COMMUNICATION

The major in communication provides students with the knowledge and skills necessary to design, manage, and evaluate communication processes involving individuals, groups, and the public. Graduates develop strong oral, written, and interpersonal communication skills as well as an advanced ability to analyze and critique messages, behaviors, and media.

Majors typically plan their upper-division course work around four identified career paths: business and organizational communication, digital and mass communication, health care communication, and human communication. Students also can tailor their own unique program of study to meet specific needs. Careful planning with the student’s advisor is necessary.

Communication majors are encouraged to participate in educational activities beyond regular course offerings. The department has an excellent internship program which offers the opportunity for work with employers in corporate, government, and public service agencies. In addition, students may elect to do independent study work with individual faculty on special topics or projects. All majors are encouraged to participate in a variety of student organizations providing extra-curricular activities designed to enhance the academic experience and career opportunities. For students who qualify, the department sponsors an Honors Society.
### Degree Requirements
Each student completes the following:

#### College Requirements
See “College B.A. Requirements” or “College B.S. Requirements” on page 201.

#### UK Core Requirements
See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

  - COM 312 Learning Intercultural Communication Through Media and Film .................................. 3

**Note:** 9 or more credits of upper-division COM courses will continue to be required at the 400 or 500 level.

#### Cognate Area
Courses in sociology, political science, journalism and telecommunications, marketing and management are often chosen for this cognate.

### Human Communication

**Required:**
- Minimum 21 credits in upper-division COM courses, 9 of which must be at the 400 or 500 level. Minimum 15 credits at the 325 level and above in COGNATE.

#### Cognate Area
Courses in sociology, psychology, behavioral science, philosophy, journalism and telecommunications, marketing and management are often chosen for this cognate.

### Minor in Communication

Any student wishing to minor in Communication must meet college selective admission requirements (45 credits completed, 24 credits in UK Core courses, COM 101 and have a 2.0 cumulative grade-point average). The student must file an application for the minor in the Department of Communication Office and have approval from the department chair for COM courses selected to complete the minor.

1. COM 101 Introduction to Communications .................. 3
2. COM 287 Persuasive Speaking ................................... 3
3. Two courses (6 hours) from the following:
   - COM 256 Mass Media and Mass Culture ............................. 3
   - COM 252 Introduction to Interpersonal Communication ............. 3
   - COM 281 Communication in Small Groups ............................ 3
   - COM 325 Introduction to Organizational Communication ............. 3
4. Two courses (6 hours) from the following:
   - COM 311 Taking Control of Your Health: Patient-Provider Communication .................. 3
   - COM 312 Learning Intercultural Communication Through Media and Film .................. 3
   - COM 313 Interpersonal Communication in Close Relationships .......... 3
   - COM 314 The Dark Side of Interpersonal Communication and Relationships .......... 3
   - COM 315 Understanding Workplace Communication in a Diverse U.S. Society .......................... 3

### B.S. or B.A. with a major in INTEGRATED STRATEGIC COMMUNICATION

The Integrated Strategic Communication major offers students professional preparation for careers in the allied areas of advertising, public relations, and direct response communication. Through course work, students develop conceptual command of these allied areas and also build expertise in one area through the PATH option they select. The major stresses a strategic approach to communication initiatives and is designed to build analytical and critical thinking skills as well as writing and presentation skills.
ISC graduates enjoy highly diverse career destinations. Agencies specializing in advertising, public relations, and direct response along with the media and communication technology industries, corporations, nonprofit organizations, and regulatory/consumer protection agencies need employees who have the skills developed by the ISC graduate.

ISC students are encouraged to expand their course work with activities unique to the major. Grehan Associates is a student-run full-service communications agency where students meet clients’ advertising, public relations, and direct response needs. The American Advertising Federation and Public Relations Student Society of America chapters offer both leadership and networking opportunities. A dynamic, professionally-oriented internship program insures that students gain hands-on experience with communications, government, or nonprofit agencies or with corporations or the media. Students are also encouraged to work with The Kentuckian, the Kernel, WRFL and WUKY.

Minor

MKT 300 Marketing Management ...

A 300+ level course in the Department of Philosophy dealing with social or professional ethics, such as PHI 332. Students must complete a minor offered through UK, with the exception of minors in Journalism Studies or Media Arts and Studies.

TOTAL HOURS: minimum of 120

Note: Of a student’s total course work for a bachelor’s degree, 72 of the 120 hours required for graduation must be in courses other than professional media-based communications.

B.S. or B.A. with a major in JOURNALISM

The journalism major prepares students for leadership roles in rapidly changing media by requiring a strong core of journalism courses within the rich context of a liberal arts education. Courses are designed to foster analytical and critical thinking skills and to teach students to communicate effectively with a mass audience.

Founded in 1914, the journalism program has full national accreditation by the Accrediting Council on Education in Journalism and Mass Communications. Alumni include Pulitzer Prize winners, Nieman fellows and nationally known journalists.

Journalism majors learn about media law, ethics and history, and about the media’s role in an increasingly diverse society. The program emphasizes hands-on learning. Students select either a print or electronic emphasis in their professional skills courses. Majors choosing a print emphasis have the opportunity to write for a daily newspaper. Students who select the electronic track gain on-air experience at the university radio station and report, anchor, videotape and produce a newscast aired on a local cable channel.

Graduates are prepared for jobs as reporters and editors for print, broadcast and online media, and for positions as assignment editors, producers, managing editors, publishers and new media entrepreneurs. Courses are also offered for students interested in specialized careers such as sports reporting, business writing, arts criticism or graphic design.

All majors are encouraged to supplement their course work with media experience at the Kentuckian, the independent daily student newspaper; the Kentuckian, the student yearbook; WUKY, the university’s public radio station, or WRFL, the student-run radio station. In addition, students are expected to take advantage of the school’s internship program.

plus six hours of 300-level or above electives in the School .................. 6

**Broadcast/Multimedia Path hours** .................................................. 15

**Subtotal: Major hours** ................................................................. 39

**Required Minor**

Students must complete a minor from any college at the University of Kentucky.

**Portfolio**

Portfolio required for graduation.

**TOTAL HOURS:** minimum of 120

**Note:** Of a student’s total course work for a bachelor’s degree, 72 of the 120 hours required for graduation must be in courses other than professional media-based communications.

**Minor in Journalism Studies**

The minor in Journalism Studies requires a minimum of 18 hours of course work to include:

**Minor Prerequisites**
JOU 101 Introduction to Journalism ...................................................... 3
JOU 204 Writing for the Mass Media ..................................................... 3

**Minor Requirements**
JOU 455 Mass Media and Diversity (Subtitle required) .......................... 3
JOU 531 Media Law ............................................................................. 3

**Minor Electives**
Select from the following for a total of 6 credits:
JOU 415 Design and Layout (Subtitle required) ...................................... 1
JOU 497 Special Topics in Journalism (Subtitle required) .......................... 3
JOU 532 Ethics of Journalism and Mass Communication .......................... 3
JOU 535 History of Journalism ............................................................. 3
JOU 541 The First Amendment, Internet, and Society .......................... 3

*May be repeated to a maximum of 3 credits under different subtitles.*

**B.S. or B.A. with a major in MEDIA ARTS AND STUDIES**

The media arts and studies major offers students a liberal arts program covering a range of issues related to electronic mass communication and personal communication. In addition, students interested in message production or telecommunication management can opt to integrate selected professional or skills-based courses into their program of study.

Socio-cultural media courses address the historical, political, and social aspects of telecommunications. Media industry courses examine organizational, economic, and/or technological dimensions of telecommunications systems and the interrelations among these factors. These courses may center on mass communication issues, interactive communication issues, or both.

Media production courses cover the traditional telecommunications areas of audio and video production and the more recent developments in multimedia and Web page design and production.

All media arts and studies majors will take advantage of the experiential learning opportunity provided by a formal internship. The School of Journalism and Media has an excellent internship program which offers the opportunity to work with a wide variety of employers, including companies oriented to the provision of voice, data, and/or video products and services. In addition, students may pursue special interests in media arts and studies through independent study with any of the media arts and studies professors.

**Degree Requirements**

Each student completes the following:

**College Requirements**

See “College B.A. Requirements” or “College B.S. Requirements” on page 201.

**UK Core Requirements**

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

**I. Intellectual Inquiry in Arts and Creativity**
Choose one course from approved list ................................................. 3

**II. Intellectual Inquiry in the Humanities**
Choose one course from approved list ................................................. 3

**III. Intellectual Inquiry in the Social Sciences**

#### Minor

Students must complete a minor offered through UK, with the exception of minors in Journalism Studies or Media Arts and Studies.

**Subtotal: Major hours** 36

**TOTAL HOURS:** minimum of 120

**Note:** Of a student’s total course work for a bachelor’s degree, 72 of the 120 hours required for graduation must be in courses other than professional media-based communications.

†At the time of publication, this course had not received formal approval.

---

### Minor in Media Arts and Studies

Any student wishing to minor in media arts and studies should file an application with the School of Journalism and Media after meeting the following requirements:

- Complete either MAS 101 or MAS 201
- Complete 45 hours of university course work with a cumulative grade-point average of 2.0

Students cannot register for upper-level media arts and studies courses until they have met the above requirements and have been accepted into the media arts and studies minor program. After a student has been accepted as a minor, he or she will be assigned a faculty advisor.

The minor in Media Arts and Studies requires a minimum of 18 hours course work to include:

1. MAS 101 Introduction to Media and Culture or MAS 201 Communication Technologies and Society
2. 3 credits from social-cultural media studies group of courses: MAS 319, †MAS 323, MAS 420, MAS 505, MAS 520, MAS 530, MAS 540, MAS 555, MAS 560, MAS 590.
3. 3 credits from media industry group of courses: †MAS 335, MAS 355, MAS 425, MAS 435, MAS 482, MAS 490, MAS 535.
4. 9 additional credits from upper-division MAS courses: MAS 300, MAS 310, MAS 312, MAS 319, MAS 322, †MAS 323, †MAS 335, MAS 355, MAS 390, MAS 403, MAS 412, MAS 420, MAS 422, MAS 425, MAS 432, MAS 435, MAS 482, MAS 490, MAS 505, MAS 520, MAS 530, MAS 535, MAS 540, MAS 555, MAS 560, MAS 590.

**Note:** Students should recognize that most upper-division media arts and studies courses have specific prerequisite courses that must be taken and plan their programs accordingly.

---

### M.S. in LIBRARY SCIENCE

The School of Information Science began in 1933 as the Department of Library Science within the College of Arts and Sciences. Sixty years later, in 1993, the College of Library and Information Science merged with the College of Communications to form the College of Communications and Information Studies. The college consists of the School of Information Science, the Department of Communication, the Department of Integrated Strategic Communication, and the School of Journalism and Media. The school offers one of approximately 50 master’s programs in library and information science in the United States and Canada that are accredited by the American Library Association.

The School of Information Science provides students with the basic knowledge and skills required to function effectively in beginning professional positions in various types of libraries and information-providing agencies. It contributes to the advancement of both the theory and practice of librarianship through systematic and continuing research and publication and provides continuing public service to individuals, libraries, professional organizations and related institutions to the end of promoting effective and efficient information services.

The School of Information Science maintains flexibility and openness to change through the participation of faculty, students, and administration in the decision-making process. The student body of about 220 has its own organization, LISSO, the Library and Information Science Student Organization, which represents students in school deliberations. Students may sit on committees and share in the development of the school. The student organization participates in orientation programs, publishes a blog, and sponsors social activities throughout the year. The diversity of the students, in terms of geography and interests and backgrounds, helps to create an atmosphere in which change and improvement in the program can take place.

The libraries of the University, William T. Young, M. I. King and the branch libraries, constitute the major “laboratory” facility for library and information science students. They are supplemented by other libraries in the area including those at the Lexington Theological Seminary, the Veterans Administration Medical Center, the Lexington Public Library, several nearby public libraries and the State Department for Libraries and Archives in Frankfort.

### Accreditation

The master’s program in library and information science is accredited by the American Library Association.

### Graduate Program in Library and Information Science

The University of Kentucky grants the following degree in the School of Information Science:

- Master of Science in Library Science

### ADMISSION REQUIREMENTS AND PROCEDURES FOR GRADUATE STUDY

For complete information on the M.S.L.S. degree program and admissions procedures, consult The Graduate School Bulletin and the School of Information Science Bulletin. The former can be found at www.rgs.uky.edu/gs/ and the latter can be found at: http://cis.uky.edu/ls/

### Admission

The admissions philosophy of the school is to admit students who are capable of satisfactory academic performance and who show promise of being able to function as competent and effective librarians and information managers. A basic requirement for admission is an undergraduate degree in any discipline (from an accredited institution) with a grade-point average of at least 3.0 on a 4.0 scale. In addition the applicant should present Graduate Record Examination scores, (a) on the General Test taken before October 1, 2002, of 450 or higher on the verbal section and of 400 or higher on the quantitative section or on the analytical section; (b) on the General Test taken on or after October 1, 2002, of 450 or higher on the verbal section and of 400 or higher on the quantitative section or 4.0 on the analytical writing section.

While these admission standards are important, the school does try to remain flexible to account for individual developmental differences and strengths.

There are no specific library science prerequi-
sites for admission into the School of Information Science. Students are urged not to take a minor in library science as undergraduates but to concentrate on other subject area majors and minors and obtain a broad liberal arts background. Electives in computer science are often very helpful.

Application must be made both to the School of Information Science and The Graduate School. For information about applying to The Graduate School, go to: www.gradschool.uky.edu/ProspectiveStudents/prospective.html. For information about applying to the School of Information Science, go to: http://cis.uky.edu/lis/. An applicant to the school must submit all materials by the deadlines set by the school, which are included with the information at Admissions. Applicants may enter the program in the spring, fall or summer. Send questions or inquiries to: ukslis@uky.edu.

Previous students must apply for readmission if they were not enrolled during the semester prior to that for which admittance is sought.

Financial Aid

Financial aid and scholarship information specific to library and information science is limited to graduate students and is too detailed and changes too often to warrant inclusion in this Bulletin. Information is available on the school’s Web site.

Advising

Upon admission to the master’s program, students are assigned a faculty advisor. Advisor assignments are based, when possible, on student interest and preference.

UNDERGRADUATE PROGRAMS

B.A. or B.S. with a major in INFORMATION COMMUNICATION TECHNOLOGY

The Information Communication Technology (ICT) program is designed to educate students to assume leadership roles where the application of information technology (IT) is concerned, with the ultimate goal of connecting people, organizations, and communities to enhance their ability to succeed. The program focuses on providing students with the knowledge and skills needed to effectively apply, use, and manage technology when solving problems specifically related to information and communication. It provides a human and organizational focus on technology—teaching students how to be effective users of technology, as opposed to teaching students how to program in C++.

In general, the ICT program focuses on the intersection of technology, the people who use that technology, the policies and regulations governing or affecting use of that technology, and the community or environment in which that technology is used, in order to facilitate communicating information in meaningful ways.

Degree Requirements

Each student completes the following:

**College Requirements**

See “College B.A. Requirements” or “College B.S. Requirements” on page 201.

**UK Core Requirements**

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

---
The Health Communication Certificate is a joint program of the Department of Communication, the College of Public Health, and the College of Kinesiology and Health Promotion for undergraduate students.

The certificate is designed to give students an enhanced education in communication skills critical to health-related professions, beyond what would normally be received from the UK Core. Upon completion of the certificate students will be able to determine how communication impacts the major contributors for disease prevention and control as well as how to identify and analyze communication strategies that are most effective for health promotion and wellness.

The Certificate in Health Communication is feasibly combined with a broad array of majors across UK’s colleges including the College of Public Health, the College of Education, the College of Arts and Sciences, but particularly the College of Communication and Information and the College of Health Sciences.

**Health Communication Certificate Standards**

In order to remain in good standing in the program, students must have a 2.0 overall GPA at the end of their first year, and a 2.0 in certificate classes to graduate from the certificate. Students are also required to take three core classes as requirements for the certificate program, as well as program electives.

- Courses taken within three years prior to admission to the certificate can be used in the certificate.
- Certificates will only be awarded to students who successfully complete a Bachelor’s degree, or have completed a four-year degree.
- The certificate requires 15 hours and a minimum of 12 credits of course work in the certificate must be taken for a letter grade.
  - The certificate requires 9 core hours of credit (2 communication core and 1 public health core) courses be completed.
  - No more than 9 credits taken for a certificate can be used to satisfy the requirements for the student’s major or minor, or another certificate, exclusive of free or unrestricted electives.
  - The Director approves the individual certificate curriculum for each student and informs the Registrar when the certificate is complete and may be awarded.
  - The awarded certificate to be posted on the student’s official transcript.

**Health Communication Curriculum**

**Certificate Core Classes**

**Communication Core**

- COM 311 Taking Control of Your Health: Patient-Provider Communication .................. 3
- COM 471 Introduction to Health Communication .................................................. 3

**Public Health Core**

- Students must take at least one course from the following courses outside of Communication:
  - CPH 202 Public Health Through Popular Film .............. 3
  - CPH 440 Foundations of Health Behavior .............................. 3

**Electives**

In addition to meeting the Communication and Public Health Core requirements, students must take two additional electives from:

- COM 287 Persuasive Speaking ................................................................. 3
- COM 482 Studies in Persuasion ................................................................... 3
- COM 454 Honors Seminar in Communication (Subtitle required) .................... 3
- *COM 525 Advanced Issues in Organizational Communication (Subtitle required) .................. 3
- COM 535 Risk and Crisis Communication .................................................. 3
- CPH 310 Disease Detectives: Epidemiology in Action ....................... 3
- COM 571 Interpersonal Communication ................................. 3
- COM 572 Health Communication Campaigns and Communities ................. 3
- CJT/LIS 629 Introduction to Medical Informatics .......................... 3
- CPH 202 Public Health Through Popular Film ................................. 3
- CPH 310 Disease Detectives: Epidemiology in Action ....................... 3
- CPH 440 Foundations of Health Behavior ................................. 3
- KHP 230 Human Health and Wellness ........................................ 3

*Total required hours: ........................................................................... 15

*When offered with the subtitle Communication in Healthcare Organizations.

For more information, contact Faculty Director Dr. Donald Helme at don.helme@uky.edu

**Undergraduate Certificate in Innovation and Entrepreneurial Thinking**

The certificate program in Innovation and Entrepreneurial Thinking is designed to provide a coherent, integrated approach to helping ambitious undergraduate students develop and document the skills needed to become a successful innovator and entrepreneurial thinker. The certificate is multi-disciplinary but is hosted by the College of Communication and Information and includes four courses (12 credit hours) completed over a one- to two-year period. Courses include a mix of topics such as communication and leadership, two elective courses on innovation and entrepreneurial thinking from participating colleges, and a required capstone course (EXP 455) involving a project with the iNET entrepreneur-in-residence.

The undergraduate certificate also provides robust learning and teaching opportunities that will lead to enhanced employment and enterprise creation opportunities for University of Kentucky students. Additional outcomes include campus-wide college and department collaboration as well as potential revenue generation.

**Innovation and Entrepreneurial Thinking Curriculum**

The Certificate of Innovation and Entrepreneurial Thinking curricula are as follows:

- A minimum of 12 credits of course work taken for a letter grade.
- At least 12 credits must be 200 level or above, and a minimum of 6 credits must be at the 300-level or above.
- No more than 9 credits taken for a certificate can be used to satisfy the requirements for the student’s bachelor’s degree, a minor, or another certificate, exclusive of free or unrestricted electives.
- Certificates will only be awarded to students who successfully complete a degree, or have completed a four-year degree.
- The student must complete a three-credit breadth component. The breadth component requires that a student take courses in at least two disciplines, with a minimum of three credits to be completed in a second discipline.
- Student must earn a C or better in each required certificate course to receive the certificate.

**Certificate Core Classes**

**Required:**

- COM 381 Communication, Leadership, and Entrepreneurship ........................................ 3
- EXP 455 Capstone Experience in Innovation and Entrepreneurship ........................................ 3

**Electives:**

- plus two 200-level or above elective courses (6 hours) that focus on an innovation and entrepreneurial thinking with the approval of the iNET Academic Certificate Director. Current electives include:
  - AAD 310 Marketing for the Arts ................................................................. 3
  - *COM 591 Special Topics in Communication (Subtitle required) .................. 3
  - *EDU 300 Special Course .................................................................. 3
  - JOU 430 Media Management and Entrepreneurship .......................... 3

*When offered under a subtitle relevant to Innovation and Entrepreneurial Thinking.
The College of Dentistry offers the Doctor of Dental Medicine (D.M.D.) degree and six post-doctoral programs. The mission of the College of Dentistry is to improve oral health and general health through teaching, research, and service. The mission is supported by collaborative engagement and by networking with community and academic partners to promote oral health literacy and reduce health disparities within Kentucky and beyond.

The College educates health professionals to become active citizens leaders who are conscious of their personal and professional responsibilities in a global society. The College values diversity within its community, which includes diversity of thought and experience, in order to promote a humanistic approach to education, patient care, and community service. The College of Dentistry and all of its programs are accredited by the Commission on Dental Accreditation of the American Dental Association.

For further information on the D.M.D. and post-doctoral programs, refer to the College of Dentistry Bulletin at: dentistry.uky.edu/

Admission – Doctor of Dental Medicine (D.M.D.)

The College of Dentistry seeks to enroll individuals whose academic preparation, personal qualities, and other qualifications suggest that they will experience success in the curriculum and afterwards in the dental profession. Currently, the College admits 40 Kentucky residents and 25 nonresidents into its four-year curriculum leading to the Doctor of Dental Medicine (D.M.D.) degree.

The University of Kentucky College of Dentistry will consider for admission any applicant who demonstrates the ability to perform or learn to perform the skills listed in the College’s Technical Standards policy. The College’s Academic Performance Committee will monitor each student’s demonstration of such knowledge and skills; specific standards are included in the College Bulletin and Student Handbook. Applicants are not required to disclose the nature of their disability(ies) to the Admissions Committee; any applicant with questions about these technical standards is strongly encouraged to discuss the issue with the Admissions Committee Chair before the interview. Upon the request of an applicant or a student, reasonable accommodations will be provided. The ability to meet the following standards is a requirement for admission to the University of Kentucky College of Dentistry.

Predental Preparation

Prospective applicants are encouraged to contact the Office of Admissions and Student Affairs early in their undergraduate careers for guidance on admission requirements. The College desires applicants who have the requisite academic preparation to meet the challenges of a rigorous curriculum. In addition to earning a bachelor’s degree, these individuals should complete courses in both science and non-science subject areas to increase their likelihood of success in the dental program. Although many applicants each year major in the biological and natural sciences, students who pursue studies in other majors also are invited to apply for admission. The criteria considered by the Admissions Committee includes the quality of the applicant’s pre-professional preparation, Dental Admission Test (DAT) scores, knowledge of and exposure to the dental profession, letters of recommendation, a commitment to service and other relevant factors. Timing is always an important element in the application process. The College will work with students to advise them on ways to become competitive applicants. For more information, call (859) 323-6071.

Application Process

The University of Kentucky College of Dentistry is a member of AADSAS (American Association of Dental Schools Application Service). Candidates for admission are encouraged to apply early to receive the strongest consideration. The AADSAS electronic application becomes available in early June. To apply and obtain further information about the AADSAS application, visit: www.adea.org/

Letters of Evaluation

Two letters should come from science faculty members. The third letter should come from a dental practitioner that the candidate has shadowed. A preprofessional committee evaluation of a candidate may be substituted for the three letters. Applicants must forward the letters to AADSAS when they submit their packets; hardcopy letters of evaluation sent to the Office of Admissions and Student Affairs will not be connected to the application.

Dental Admission Test

Every applicant must take the Dental Admission Test (DAT). The DAT scores are considered, along with a candidate’s academic record and other criteria, in the admissions decision. The exam is offered nationwide by computer through Prometric Testing Centers. The DAT results should not be more than three years old and the highest set of scores will be used. Information on the DAT is available by contacting the American Dental Association at: www.aeda.org/

Direct questions regarding admission or arranging a visit to the college to:

Office of Admissions and Student Affairs
College of Dentistry
M-134 Chandler Medical Center

The College uses a “rolling admissions system” whereby applicants are interviewed beginning late August, the first offers of admission are made on December 1, and the Admissions Committee continues to interview applicants until the class is filled. The membership of the entering first-year class is usually confirmed by early February. Candidates who apply early in the admissions cycle are at a distinct advantage over those who wait much later to submit their AADSAS application and other credentials. The Office of Admissions and Student Affairs can provide applicants information and sound advice to ensure that they complete the process in a timely way.
The College of Design at the University of Kentucky has a world-renowned following of industry leaders and practitioners who have either lent their experience as faculty or served indirectly as supporters of the College’s mission. This legacy affirms the college’s place among well-respected design schools, who lead in creating the next generation of designers.

With hands-on experience and a faculty collectively engaged, students in one of the many programs offered at the college graduate with an accelerated vision of how they participate in the continued advancement of the design industry. Undergraduates also have the opportunity to participate in the college’s creative scholarship and research. Emerging areas of interdisciplinary research utilize the field of design in solving global challenges in the fields of medicine, health care, energy, sustainability and education; these, in addition to more traditional design areas of rural, urban and cultural landscapes; building design and construction; interiors; and historic preservation.

Degree Programs in Design
The University of Kentucky grants the following degrees in the College of Design:

- Bachelor of Arts in Architecture
- Bachelor of Arts in Interior Design
- Master of Architecture
- Master of Arts in Interior Design
- Master of Historic Preservation

SCHOOL OF ARCHITECTURE
The College of Design School of Architecture at the University of Kentucky offers a four-year undergraduate program – the only accredited architecture program in Kentucky – leading to a Bachelor of Arts in Architecture. This degree combines a broad liberal arts education with a foundation in the theory and practice of architecture. With a rich history of industry-renowned faculty and alumni designing internationally, the School of Architecture prepares students for a myriad of professional opportunities.

The architecture studio is the foundation of the program. Studios provide a social and curricular framework for the architecture student. Representational skills such as drawing, model making, and computer modeling are practiced rigorously as essential skills for design. In addition to the design studio, students study building technology, materials and structural systems, digital fabrication techniques, the history, theory, and criticism of architecture, and the ethical and professional principles of a successful architecture practice. Students also learn contemporary processes such as prototyping to solve problems, and innovate new solutions. Prototypes, three-dimensional physical models, are created with digital design and fabrication tools and technologies such as CNC milling, 3-D printing, and laser-cutting. Prototypes can be created quickly allowing students to propose solutions, examine results, redefine problems, and propose new solutions. In the School of Architecture, prototyping has come to define a new model of design research in which the focus is not so much on the creation of a final design but rather on the creation of design knowledge itself.

The School of Architecture’s Master of Architecture degree is fully accredited by the National Architectural Accrediting Board (NAAB). The four-year bachelor’s degree in architecture qualifies students for careers in architectural offices, building construction, development and public agencies. To become a licensed architect in Kentucky and other states, the graduate must complete a two-year Master of Architecture program. Both degree programs are offered at the University of Kentucky.

Accreditation
In the United States, most state registration boards require a degree from an accredited professional degree program as a prerequisite for licensure. The National Architectural Accrediting Board (NAAB), which is the sole agency authorized to accredit U.S. professional degree programs in architecture, recognizes three types of degrees: the Bachelor of Architecture, Master of Architecture, and Doctor of Architecture. A program may be granted a 6-year, 3-year, or 2-year term of accreditation, depending on the extent of its conformance with established educational standards.

Doctor of Architecture and Master of Architecture degree programs may consist of a pre-professional undergraduate degree and a professional graduate degree that, when earned sequentially, constitute an accredited professional education. However, the pre-professional degree is not, by itself, recognized as an accredited degree.

APPLICATION DEADLINES FOR COLLEGE OF DESIGN

**School of Architecture**

**Early Action Track**
To be considered for scholarships and early admission –
- **Incoming Freshmen and Transfer Students** – December 1
- **Regular Decision Track**
- **Incoming Freshmen and Transfer Students** – February 15

**Graduate Students** – January 15

**School of Interiors**

**Planning / Strategy / Design**

**Early Action Track**
To be considered for scholarships and early admission –
- **Incoming Freshmen** – December 1
- **Regular Decision Track**
- **Incoming Freshmen** – February 15
- **Transfer Students** – March 1
- **Transfer Students from CIDA Interiors Programs** – May 1
- **Graduate Students** – March 1

The University of Kentucky School of Architecture offers the following NAAB accredited degree program:
- **Master of Architecture (pre-professional degree + 48 graduate credits)**

**Preprofessional Degree**
- **Bachelor of Arts in Architecture (120 undergraduate credits)**

**Admissions Procedures**

The School of Architecture is a selective admissions program; all applicants are required to apply to the University of Kentucky at [www.uky.edu/Admission](http://www.uky.edu/Admission) as well as complete...
and submit the creative exercises found in slideroom at www.ukcod.slideroom.com in order to be considered for admittance into the program; this secondary application to the School of Architecture will include a series of design and writing exercises. The application is also online at: www.uky.edu/design/index.php/info/category/admissions. The application must be completed and submitted by December 1, 2016, to the College of Design School of Architecture to be considered for scholarship and early notification of admittance to the program. The deadline for Regular Decision Track is February 15, 2017.

Freshman candidates are required to file a University application, with necessary supporting documents, with the Office of Undergraduate Admission and University Registrar by February 15 for Fall Semester admission.

Candidates will be admitted in order of priority on the basis of the following criteria:

1. The indication of general academic performance as reflected by the cumulative college grade-point average, and the indications of specific interests and aptitudes as reflected by grades in certain critical disciplines (e.g., art history, art studio, foreign languages, freehand drawing, history of ideas, mathematics, philosophy, social history).

As a rule, the minimum academic standard acceptable to the Admission Committee will be a cumulative grade-point average of 2.0 on a 4.0 scale, or an average of C in all previous college work. However, if the Architecture Admission Committee finds clear indications of probable success in architecture from its review of the further evidence pertaining to a candidate who does not meet these minimum criteria, an exception may be made to this rule. Any such exception would require formal recommendation of the School of Architecture Admission Committee and approval of the Director of Admissions.

2. The probability of success in a professional program in architecture as predicted by “The Architecture Admission Portfolio.” Any applicant who is successful on “The Architecture Admission Portfolio” but who has a university grade-point average of less than 2.0 will not be accepted to begin work in the School of Architecture. However, a one-year deferment of admission may be granted pending grade improvement to at least 2.0. This requirement may be waived by the School of Architecture Program Director under extraordinary circumstances.

3. Other indications of their aptitude and motivation as may be available (e.g., a portfolio of work, references, experiences in building construction or related fields).

4. Comparative measures of their aptitude and motivation derived by the Architecture Admission Committee from supplementary tests (e.g., a home project assignment) and, in certain cases of indecision, and circumstances permitting, personal interviews.

The portfolio requirement will be sent out upon completion of a School of Architecture application, in the first week of November.

The Architecture Admission Portfolio is due on or before February 1.

Transfer candidates from educational programs other than those in architecture will be required to observe the same application dead-

Transfer candidates from NAAB accredited degree programs in architecture are required to file application with the Office of Undergraduate Admission and University Registrar by April 1 for Fall Semester admission. Please note that this deadline is earlier than those for application to the University in general.

Candidates will be considered in order of priority on the basis of the following criteria:

1. The indication of general academic success and success in a professional program in architecture as reflected by the cumulative college grade-point average, and indications of specific aptitude and skill development as reflected by grades in architecture or environmental design courses.

As a rule, the minimum academic standard acceptable to the Admission Committee will be a cumulative grade-point average of 2.0 on a 4.0 scale, or a C average in all previous college work. However, if the Architecture Admission Committee finds clear indications of probable success in architecture from its review of the further evidence pertaining to a candidate who does not meet these minimum criteria, an exception may be made to this rule. Any such exception would require formal recommendation of the School of Architecture Admission Committee and approval of the Director of Architecture.

2. The probability of success in a professional program in architecture as predicted by a review of their portfolio of work in architecture. The portfolio should be brought or mailed, together with return postage and mailing labels directly to:

School of Architecture Admission Committee
College of Design
122 Pence Hall
University of Kentucky
Lexington, KY 40506-0041

3. A review of at least three letters of reference addressed to the Architecture Admission Committee from referees such as previous other teachers, architectural practitioners or related professionals for whom the candidate may have worked.

The candidate’s portfolio and letters of reference should be received by the committee by April 1 for Fall Semester admission.

4. In cases of indecision, and circumstances permitting, personal interview. Based on
the above criteria, the Admissions Committee will determine entering placement in the program. This placement may be at a level lower than the applicant had achieved at his or her previous institution.

**Master of Architecture Candidates**

Master of Architecture candidates from the University of Kentucky and other NAAB accredited degree programs are required to file a University application with the Graduate School with supporting documents by January 15. In addition, a School of Architecture application is due on the same date.

Candidates will be admitted in order of priority on the basis of the following criteria:

1. A potential for academic achievement as indicated by college GPA and national college admission test score (GRE);
2. A portfolio of undergraduate work; and,

**Scholarships**

The College of Design offers merit-based scholarships to undergraduate students. There is no application required to be eligible for scholarships; all students are automatically considered. Thanks to the generosity of our alumni and friends, more than $75,000 in scholarships are awarded to our students each year.

All graduate applicants are automatically considered for merit-based scholarships. Approximately $200,000 in merit-based scholarships, awards, and stipends are awarded to College of Design graduate students every year. Scholarships and awards can range from $9,000 to full tuition. Because financial resources are limited, applicants are encouraged to seek out other sources of funding. To learn more about graduate scholarships, visit the Graduate School Web site: www.research.uky.edu/gs/StudentFunding/fellowships.html

**Advising**

Advising in the School of Architecture is conducted through meetings with Student Services staff. The Student Services staff has knowledge of the College’s programs and is ready to help students navigate and build their educational plans.

**CURRICULUM**

The University’s UK Core requirements complement the architecture course work. This program comprises liberal arts and science courses required of all students at the University of Kentucky.

The School of Architecture in the College of Design administers the program curriculum, and the University of Kentucky Board of Trustees grants degrees. The curriculum consists of 48 credits for the graduate degree for a total of 168 credits in six years.

**SCHOOL OF INTERIORS**

**Planning / Strategy / Design**

The School of Interiors provides engaging opportunities for students to acquire background in systems planning and strategic thinking through the design of interior environments. As the only accredited program in Kentucky within a research-based institution and a college of design, students immerse in a process-driven approach to design in an environment that fosters interdisciplinary study within a collaborative community.

Graduates of the program practice across the United States and have been recognized at the highest level of the profession. Through studio, classroom and real-world assignments, students specializing in interior spaces learn to solve complex organizational problems associated with work, place, experience and performance. These professional skills prepare students to handle the aesthetic and technical aspects of projects, communicate with clients, and manage business and logistical requirements.

Students interact with regional, national and international design professionals through shadowing, education abroad, lectures by noted speakers, field experiences and other activities sponsored by the College. Graduates from the School of Interiors begin their careers in a variety of settings including interior design firms, architecture firms, corporations and public institutions. Students may also pursue graduate post-professional education to cultivate an interior environment design specialization.

**Accreditation**

The School of Interiors is a professional degree program accredited by the Council for Interior Design Accreditation (CIDA). This accreditation ensures professional training for entry into the practice of interior design and the educational foundation that will allow for professional testing (NCIDQ), certification or licensure at the individual state level.

**BACHELOR OF ARTS IN INTERIOR DESIGN**

In addition to UK Core requirements, students in the School of Interiors must complete the following:
- 81 credit hours of major requirements
- 18 credit hours of professional support electives
- 3 hours of free electives
- electives required to meet minimum credit hour standard for graduation.

**UNDERGRADUATE ADMISSION PROCEDURES**

**Admission into the Major**

Students must be admitted both to the University of Kentucky and by secondary application to the School of Interiors. The School of Interiors is a selective admissions program; all applicants are required to apply to the University of Kentucky at www.uky.edu/Admission as well as complete and submit the creative exercises found in slideroom at www.ukcod.slideroom.com in order to be considered for admittance into the program; this secondary application to the School of Interiors will include a series of design and writing exercises. Application must be completed and submitted by December 1, 2016, to the College of Design School of Interiors to be considered for scholarship and early notification of admittance to the program. The deadline for Regular Decision Track is February 15, 2017.

**Freshman Candidates**

1. File a University application with the Office of Undergraduate Admission and the University Registrar by February 15 for fall admission in the year that the student wants to begin the program. For fall admission, applicants must register for and take the ACT or SAT on or before the December test date.

2. Apply for admission to the School of Interiors. The Major Admission Application Form and requirements are available at: www.uky.edu/design/index.php/info/category/admissions/

3. Submit an exercise as required by the Major Admission Application Form. The submission will require applicants to express in both written and visual format the rationale for their interest in the study of interiors.

4. The Major Admission Application Form with the design exercise must be received in the year the student wants to begin the program.

Application should be sent to:
Admissions, College of Design  
School of Interiors  
112 Pence Hall  
University of Kentucky  
Lexington, KY 40506-0041

**Transfer Students Without Design Credit**

Transfer candidates from educational programs other than interiors will be required to observe the same application process and deadlines as outlined for freshmen. Please note that the deadline is earlier than that for general admission of transfer students to the University.

**Major Admission Selection Process**

Candidates will be admitted to the major in order of priority based on demonstrated potential for academic achievement at the freshman level as indicated by high school grade-point average, ACT/SAT scores, and their response to the required secondary application. Additional consideration will be given to the student’s demonstrated participation in extracurricular, service, or work activities that show evidence for potential development of characteristics that will assist them in succeeding in the profession. Acceptance will be on a comparative and competitive basis. Notification of acceptance in the major will permit registration into the first-year studio, ID 121, fall semester of the same year.

**Transfer Students With Design Credit**

Students who have university credit in design course work from an accredited professional program (CIDA, NAAB, etc.) who wish to transfer into the School of Interiors must make application for admission to the major. The application process includes:

1. File a University application with the Office of Undergraduate Admission and the University Registrar to be received by March 1 for fall admission. Request an official
transcript of college course work to be received by University of Kentucky Admissions by April 1. Please note that this deadline is earlier than those for application to the University in general.

2. Submit a portfolio of student work completed in the university from which they are transferring. If the applicant wants the portfolio returned, the portfolio should be submitted with return packaging and mailing labels provided. The School will return the portfolio by C.O.D.

3. The Admission Application Form, portfolio and transcript should be in one package, submitted no later than May 1 for fall term admission in the same year, and delivered to:

Admissions, College of Design
School of Interiors
112 Pence Hall
University of Kentucky
Lexington, KY 40506-0041

Transfer Admission Selection Process

Admission into the School of Interiors will be dependent upon the applicant’s qualifications and preparation, the indication of general overall academic success (GPA), success in the Major requirements, and probability of success in a professional program as predicted by a review of the work submitted in the portfolio of student work. Since the number of students admitted will be limited, applicants will be examined on a comparative and competitive basis. Candidates will be admitted in order of priority. Admission for a specific semester will not be deferred.

Education Abroad, Internships, Undergraduate Research

The School of Interiors faculty encourages each student to fully engage in curricular and co-curricular activities to round out his/her design education, including opportunities to take courses abroad, through internships and shadowing experiences, and through undergraduate research projects with a faculty member mentor. All of these experiences indicate to potential employers the value of the young designer upon graduation.

Scholarships

The College of Design offers merit- and need-based scholarships to undergraduate students after their first year in the program. The process for distribution of these scholarships follows a schedule established by the College of Design. Because financial resources are limited, the School encourages applicants to seek other sources of funding.

Advising

Student Services staff provides academic advising to students in the School of Interiors. In addition, School leaders and Student Services staff conduct group advising, and School faculty serve as mentors to students to ensure that students proceed through the program in a timely manner and discover pathways to professional practice.

CURRICULUM

The University’s UK Core requirements – liberal arts and science courses required of all students at the University of Kentucky – complement course work in the major. The curriculum conforms to the following outline:

UK Core Requirements

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

I. Intellectual Inquiry in Arts and Creativity

Choose one course from approved list .......................... 3

II. Intellectual Inquiry in the Humanities

ID 161 History and Theory of Interior Environments I .................. 3

Professional Support Electives

Understanding people, their environments, key cultural issues, and design strategies from different disciplines represent a diversity of approaches for education for students in the School of Interiors. Alongside studio courses, lecture and lab courses, and the UK Core, these professional support electives indicate a pathway toward breadth in a student’s education.

During the course of study, each student will enroll in 18 credit hours from the following four categories:

1. workplace related topics
2. global and cultural issues
3. sustainability, environmental and wellness concerns
4. multi-disciplinary design strategies

A student must achieve a total of 18 credit hours of professional support electives.

A student must take at least one course in each category.

A student may take multiple courses in a single category to help build expertise in a given area of study or to focus credits toward an academic minor.

A student may petition the Director of the School of Interiors in writing to have any course that does not appear on the list of approved courses as part of professional support electives.

Courses taken to fulfill UK Core requirements may not be used to fulfill professional support requirements.

Mary John O’Hair, Ed.D., is Dean of the College of Education.

Professional education programs at the University of Kentucky are guided by the theme, Research and Reflection for Learning and Leading. The vision of the unit is to become one of the nation’s best public professional education units with emphasis on research, reflection, learning, and leading in service to the Commonwealth, the nation, and the world.

The professional education unit “endeavors to expand the knowledge of teaching and learning processes across a broad educational spectrum. The unit fosters a culture of reflective practice and inquiry within a diverse community of students, faculty, and staff. As part of a research-extensive university, the unit advances knowledge through research. As part of a land-grant institution, the unit prepares professionals for a variety of roles in educational settings and community agencies and provides leadership in the improvement of the education, health, and well-being of citizens in the Commonwealth, the nation, and the world.”

Ninety-eight percent of unit faculty members have attained the highest degrees possible in their fields. The unit provides candidates with access to state-of-the-art technology. Each building is equipped with computer laboratories and “smart” classrooms to keep candidates and faculty in pace with the latest technological advances in education. In addition to preparing excellent teachers and school leaders, graduates have gone on to excel in numerous other professional fields.

**Educator Preparation at UK**

The educator preparation unit of the University of Kentucky includes programs in the colleges of Arts and Sciences, Agriculture, Food and Environment, Arts and Sciences, Communication and Information, Education, Fine Arts, Health Sciences, and Social Work that prepare professionals for careers in public education. The dean of the College of Education is the chief educator preparation officer for the UK educator preparation unit.

The theme of the educator preparation unit is Research and Reflection for Learning and Leading. The vision of the unit is to become one of the nation’s best public professional education units with emphasis on research, reflection, learning, and leading.

The mission for the UK educator preparation unit is as follows: the Educator Preparation Unit at the University of Kentucky endeavors to expand the knowledge of teaching and learning processes across a broad educational spectrum. The unit fosters a culture of reflective practice and inquiry within a diverse community of students, faculty, and staff. As part of a research-extensive university, the unit prepares professionals for a variety of roles in educational settings and community agencies and provides leadership in the improvement of the education, health, and well-being of citizens in the Commonwealth, the nation, and the world.

**Accreditation**

The Professional Education Unit for the University of Kentucky is accredited by the National Council for Accreditation of Teacher Education (NCATE), and all professional educator programs are approved by the Kentucky Education Professional Standards Board (EPSB).

**Relationship with the Kentucky EPSB**

All University of Kentucky educator preparation programs, initial or advanced, have been approved by the Kentucky Education Professional Standards Board (EPSB), in accordance with Kentucky statutes and regulations. In addition to overseeing all educator preparation programs approved for operation in Kentucky, the EPSB also issues, renewes and revokes all Kentucky educator licenses (certificates). Kentucky educator certification regulations are updated in an ongoing basis. For the most up-to-date information about educator certification, refer to the EPSB Web site at: www.kyepsb.net/

**Financial Aid/Scholarships**

The College of Education awards scholarships to both undergraduate and graduate students. Information and application forms are available in 166 Taylor Education Building. The deadline for scholarship applications is February 15. Graduate students should also contact the Director of Graduate Studies in their department for information about any targeted scholarship funds. The College of Education also administers the Kentucky Minority Educator Recruitment and Retention scholarship program (MERR) for the Kentucky Department of Education. Minority students applying for MERR funds must be Kentucky residents. MERR forms are available in 166 Taylor Education Building. Kentucky residents who are enrolled in a teacher certification program may also apply for funds from the Kentucky Higher Education Assistance Authority Teacher Scholarship program (KHEAA). Students applying for funds through the KHEAA teacher scholarship program must include a completed FAFSA need analysis data form with their applications. Funds are awarded first to students fully admitted to a teacher education program, in order of the greatest financial need. Both KHEAA and MERR teacher scholarship awards are forgivable on a semester by semester basis when the candidate teaches in Kentucky public schools. Award recipients who do not teach in Kentucky public schools must pay back the awards, with interest.

**Undergraduate Programs in Education**

The University of Kentucky grants the following degrees in the College of Education:

- Bachelor of Arts in Education
- Bachelor of Science in Education

Students pursuing one of the following majors earn a Bachelor of Arts in Education degree: early elementary education, middle level education, secondary education, or special education (learning and behavior disorders). Students selecting a major in secondary education must specialize in one of the following: English or social studies.

Students pursuing health promotion, kinesiology (teacher certification or exercise science), special education (interdisciplinary early childhood education and moderate and severe disabilites) and STEM education earn the Bachelor of Science in Education degree.

Persons holding a bachelor’s degree from a regionially accredited institution, with a minimum overall GPA of at least 2.75, or a 3.0 in their last 30 hours of the degree, may pursue initial educator preparation at the undergraduate level by following any of the certification programs described in this Bulletin. If these persons also wish to earn a UK bachelor’s degree, all UK degree requirements must be met. All educator preparation students at the University of Kentucky are expected to meet the requirements for “Admission, Retention and Completion from Teacher Education Programs” as described below.

**Undergraduate Certificate in Education**

The University of Kentucky grants the following undergraduate certificate in the College of Education:

- Leadership Studies

Information and requirements for the certificate are listed on page 240.
Graduate Programs in Education

Graduate Degrees and Certificates

The University of Kentucky offers the following graduate degrees for education:

- Master of Arts in Education
- Master of Science (Kinesiology and Health Promotion)
- Master of Science in Education
- Master of Science in Education (Interdisciplinary Early Childhood Education)
- Doctor of Education (Ed.D.)
- Doctor of Philosophy (Ph.D.)
- Interdisciplinary Doctor of Philosophy (Ph.D. in Education Sciences)
- Rank II (32 hour) and Rank I (30 hour) Programs in Professional Education

Graduate Programs Leading to Advanced Educator Licensure

The University of Kentucky offers graduate programs leading to advanced educator licensure in Literacy, Computer Science in Instructional Systems Design, Library Science, School Psychology, and School Leadership. Approved Teacher Leader programs at the master’s level are also available in Special Education, Interdisciplinary Early Childhood Education, and Educational Leadership.

UK Graduate Certificates

The University of Kentucky offers graduate certificates in Assistive and Rehabilitation Counseling, Rehabilitation Counseling, International Higher Education, School Technology and Leadership, and Distance Education.

Graduate Programs Leading to Initial Educator Licensure

The following graduate level initial educator certification programs are available at the University of Kentucky: 1) graduate alternative certification program leading to certification in moderate/severe disabilities, grades P-12; 2) graduate level alternative certification program leading to initial certification in World Languages: Chinese, Japanese, French, German, Russian, Spanish, 3) master of arts in education with initial certification in secondary education, grades 8-12, English, mathematics, science (biology, chemistry, earth science, or physics), social studies; 4) Master of Science in Career and Technical education with initial certification, grades 5-12 (option in agriculture education); 5) master of science in communication disorders with initial certification, grades P-12; 6) certification program in school psychology, grades P-12; and 7) master of arts in teaching world languages (with options in Chinese, Japanese, French, German, Latin, Russian, and Spanish), grades P-12.; 8) graduate program leading to initial certification in Learning and Behavior Disorders; 9) graduate program leading to initial certification in Interdisciplinary Early Childhood Education; and 10) Master of Science in Library Science leading to certification as a School Media Librarian.

For more information about programs, please visit the College of Education Web site at: http://education.uky.edu/

Graduate Alternative Certification Programs Leading to Initial Educator Licensure

Graduate Alternative Certification Programs leading to initial educator licensure are offered in the area of Moderate and Severe Disabilities P-12. Students who wish to enroll in a Graduate Alternative Certification Program must be employed in one of the participating school districts, and must meet the College of Education Admission, Retention and Completion standards, and the standards of the UK Graduate School. Graduate Alternative Certification Programs are three-year programs, including the Kentucky Teacher Internship Program. Additional alternative certification programs are under development and may become available at any time. Contact the Office of the Associate Dean for Academic and Student Services for more information.

Special Facilities and Services

The Education Library provides a wide range of education materials, with over 400 journals and 100,000 books, plus children’s literature and Kentucky state-approved textbook collections. In addition, major education databases are available through the library’s Web site at: http://libraries.uky.edu/edu

The College’s newly-formed Kentucky P20 Innovation Lab: A Partnership for Next Generation Learning gives students the chance to be part of transforming education to energize and empower today’s students, who were born into a digital age. The Innovation Lab charges college students to play an active role in creating pathways that will lead to a love of learning for generations to come.

The Center for Educator Preparation Information Systems provides database and information system support for the College of Education. In addition, persons associated with the center engage in projects to make information systems technology more accessible to educator preparation programs nationally and in the Commonwealth.

The Instructional Technology Center provides media services to students, faculty, and programs of the College of Education. Services include computer classrooms, computer hardware and software support, presentation technology, circulation of nonprint teaching materials and audiovisual equipment; a materials preparation laboratory; graphic, photographic, and recorded media; and facilities for working with films and electronic media. The staff is available to assist with a wide range of technology-related activities.

The mission of the Office of Student Engagement, Equity and Diversity is to enhance the academic experience of College of Education students through the development and management of co-curricular activities. The office partners with different units within the College of Education with the following goals: maintain a supportive and inclusive environment for College of Education students from the time of their enrollment through graduation; intellectually connect and engage students with all aspects of the College’s programs and initiatives, the Lexington community, and beyond; create a vibrant community of discipline-specific student organizations that can provide all students with mentoring and support in their pursuit of professional careers and certificates; develop multiple paths for students to follow in pursuing personal, educational, leadership and professional growth; and provide opportunities for all students to participate in, experience and embrace diversity. All programs and activities supported by the Office of Student Engagement, Equity and Diversity are geared towards success of all students, regardless of race, nationality, gender, sexual orientation, geographical location, religion, and disability.

The mission of the Institute for Educational Research is to support faculty in identifying significant education and policy issues; encouraging individual, collaborative and interdisciplinary inquiry; locating external funding sources; preparing grant proposals and providing post-award management services.

The Office of Higher Education Research and Development conducts research on questions on higher education that are important to Kentucky. Research results are shared with the Council on Postsecondary Education and other institutions in Kentucky.

The Biodynamics Laboratory is a multidisciplinary facility housed in the Center for Biomedical Engineering. Faculty and students from Kinesiology and Health Promotion, Biomedical Engineering, Sports Medicine, Athletic Training, Minimally Invasive Surgery, and other related fields use high-speed videography, electromyography, and force measures to understand human movement.

The Pediatrics Exercise Physiology (PEP) Laboratory is one of only a handful of facilities in the world designed specifically to serve the needs of pediatrics patients. The PEP-Lab will provide a state of the art facility and resources for testing, physical training, and analysis of pediatric populations for research and clinical investigations.

The UK Body Composition Core Laboratory (BCCL) is a human-based laboratory facility specifically designed to provide state-of-the-art body composition analysis for research and clinical investigations.

The Collaborative Center for Literacy Development (CCLD), 120 Quinton Court, Suite 200, was established by the Kentucky General Assembly in 1998 to make available training in literacy for educators and to promote literacy development. The Center focuses on six require-
and others, as well as from school systems, to provide supervised training for graduate students in school psychology at the University of Kentucky to assist children, adolescents, college students, and adult learners with psychological and educational concerns. The clinic is also organized as a training facility for advanced-level masters and doctoral students who are supervised by licensed psychologists. Fees for the CPS Clinic operate on a sliding scale to allow high-need, low-income families with a limited ability to pay to enroll in courses requiring Teacher Education Program admittance.

ADMISSION, RETENTION AND COMPLETION FROM TEACHER EDUCATION PROGRAMS

Changes in Rules Governing Admission to Teacher Education Programs

Starting in fall 2012, the rules for admission to all teacher education programs in Kentucky have changed. All candidates for admission to any initial teacher education program are required to show an overall GPA of at least 2.75, or a 3.0 GPA in the last 30 hours taken (semester inclusive). Also, all candidates for admission to any initial teacher education program will need to demonstrate successful completion of the PRAXIS I (PPST) exams in reading, writing, and mathematics. Graduate students may substitue passing scores on the GRE for admission to teacher education.

A student must be admitted, retained in, and successfully complete a state-approved teacher education program in order to receive a teaching certificate. The components of an approved teacher preparation program include: 1) an earned bachelor’s degree from a regionally accredited institution of higher education, 2) completion of approved teaching subject matter field(s), 3) successful completion of state mandated testing, 4) completion of a teacher preparation program, including student teaching, and 5) verification by program faculty that all applicable standards have been met.

The College of Education Certification Program, the College of Education Director of Academic Services and Teacher Certification, and the University Registrar are charged with the responsibility to monitor a student’s progress through the teacher preparation program, and to recommend to the Kentucky Education Professional Standards Board (EPSB) that a successful candidate be awarded a state teaching certificate.

SECTION 2: Continuous Assessment

1. A candidate’s progress through all educator preparation programs is continuously monitored, assessed, and reviewed. In addition to typical evaluation processes that occur as part of their coursework and clinical experience placements, candidates will be assessed a minimum of three times during their program by representatives of their respective program faculty.

2. The candidate assessments will occur upon entry into the educator preparation program, at a midpoint in the program (no later than the semester prior to the final clinical experience, e.g., student teaching), and as candidates exit the program following the final clinical experience, e.g., student teaching. Assessments will include, but are not limited to: (a) appropriate scores on approved standardized tests, (b) review of grades via inspection of transcript, (c) personal and professional skills assessed during interviews with program faculty, (d) artifacts submitted by the candidate that demonstrate their ability to attain of standards, (e) continued adherence to the KY Professional Code of Ethics, and (f) documentation of the following skills: critical thinking, communication, creativity, and collaboration.

3. Professional Growth Plan (PGP): Following admission to an educator preparation program, if problems have been identified at any assessment point, program faculty will prepare a professional growth plan for the candidate which addresses the problems, identifies the scheme to implement the professional growth plan, and provides feedback and direction to the candidate.

Section 2A: First Continuous Assessment Point – Admission to Educator Preparation Programs

1. A candidate’s progress through all educator preparation programs is continuously monitored, assessed, and reviewed. The first continuous assessment point is admission to educator preparation (TEP). In addition to the general requirements for
admission to educator preparation (TEP) listed below, candidates should carefully review the specific requirements of their individual programs.

2. Candidates for admission to educator preparation (TEP) must have completed at least 30 semester hours, or, if pursuing state teacher certification as a certification-only student or a graduate student, must have earned a bachelor’s degree from a regionally accredited institution of higher education.

3. Candidates for admission to educator preparation (TEP) must demonstrate academic achievement by earning a minimum overall GPA of 2.75, or a GPA of at least 3.0 in the final semesters which include the last 30 hours of coursework. Candidates seeking admission to a graduate-level educator preparation program must also satisfy UK Graduate School admission standards. The UK Graduate School requires an overall UG GPA of 2.75 as a minimum for unconditional admission to graduate programs. And, if the candidate has completed any graduate course work, a minimum graduate GPA of 3.0 is required. Candidates intending to use the “GPA of at least 3.0 on the final 30 hours option” should consult with their program’s Director of Graduate Studies for additional information. The UG GPA is taken directly from the transcript showing award of the undergraduate degree.

4. Candidates for admission to educator preparation (TEP) must certify their knowledge of the Kentucky Professional Code of Ethics and must sign a state mandated character and fitness review.

5. Candidates for admission to educator preparation (TEP) must demonstrate aptitude for teaching by presenting three letters of recommendation from individuals who can attest to the candidate’s potential success in teaching.

6. Candidates for admission to educator preparation (TEP) must demonstrate that they have reviewed and understand dispositions for teaching. At UK, these dispositions are encoded in the UK Functional Skills and Dispositions Standards Set. The UK Functional Skills and Dispositions are listed below:

   a. The candidate communicates appropriately and effectively
   b. The candidate demonstrates constructive attitudes
   c. The candidate demonstrates ability to conceptualize key subject matter ideas and relationships
   d. The candidate interacts appropriately and effectively with diverse groups of colleagues, administrators, students, and parents in educational settings
   e. The candidate demonstrates a commitment to professional ethics and behavior

7. Candidates must present artifacts that demonstrate their ability to meet standards. In addition to items specified by the candidate’s program faculty, the candidate must provide documentation of the following skills:

   a. Critical Thinking,
   b. Communication,
   c. Creativity, and
   d. Collaboration.

8. For those programs requiring educator preparation-related courses as a prerequisite for admission to educator preparation (TEP), candidates must complete these courses with a grade of C or better.

9. Candidates must undergo a formal interview with their educator preparation program faculty in which they will have the opportunity to discuss the artifacts that demonstrate their ability to meet standards, and engage in a dialog concerning their qualifications for admission to educator preparation (TEP).

Section 2B: Testing Requirements for Admission to Educator Preparation Programs (TEP)

1. All candidates for admission to a teacher education program at UK must demonstrate successful completion of the following pre-professional skills assessments of basic knowledge administered by the Educational Testing Service with the corresponding minimum scores:

   a. The Praxis® Core Academic Skills for Educators: Mathematics test, with a minimum score of 150
   b. The Praxis® Core Academic Skills for Educators: Reading test, with a minimum score of 156
   c. The Praxis® Core Academic Skills for Educators: Writing test, with a minimum score of 162

2. Candidates for admission to a graduate level initial teacher education program (TEP) may demonstrate basic skills in the following manner:

   a. Completion of the Praxis® Core Academic Skills for Educators tests: as in 1) a-c; or
   b. Successful completion of the Graduate Record Exam (GRE) with the following corresponding scores:

      i) Required minimum GRE scores for tests taken prior to August 1, 2011

         (1) Verbal with a minimum score of 450
         (2) Quantitative with a minimum score of 490
         (3) Analytical Writing with minimum score of 4.0

      ii) Required minimum GRE scores for tests taken on or after August 1, 2011

         (1) Verbal with a minimum score of 150
         (2) Quantitative with a minimum score of 143
         (3) Analytical Writing with minimum score of 4.0

3. Recency Requirements for Testing: Candidates using the GRE must present GRE scores that are no older than five years. Candidates using the Praxis® Core Academic Skills for Educators (CORE) must present scores no older than 10 years. These recency requirements, adopted by the Kentucky Education Professional Standards Board correspond to the rules of the Educational Testing Service.

Section 2C: Second Assessment Point – Retention of Candidates in Educator Preparation Programs

1. The progress of candidates who have been admitted to an educator preparation program is continuously monitored. A retention review may be conducted at any time by the educator preparation program faculty, but is required no later than the semester prior to the final clinical experience, e.g., student teaching. In addition to the general requirements for the retention review listed below, candidates should continue to carefully review the specific requirements of their individual programs.

2. If at the time of admission to educator preparation (TEP), a professional growth plan was prepared for the candidate, progress on implementing the professional growth plan will be reviewed, and the plan will be updated as necessary.

3. Some of the items which are monitored in the retention review are:

   a. Whether a candidate continues to earn grades of C or better in professional education classes;
b. Whether a candidate continues to maintain a 2.75 minimum GPA overall, or a minimum 3.0 GPA in the final semesters, including the last 30 hours;

c. Whether a candidate has demonstrated improved competence with the skills of communication, critical thinking, creativity, and collaboration;

d. Whether a candidate has demonstrated improved competence with the College of Education Functional Skills and Dispositions;

e. Whether a candidate continues to demonstrate adherence to the EPSB Professional Code of Ethics;

f. Whether adequate progress is being made toward meeting all required standards; and

g. Whether adequate progress is being made toward completing subject matter coursework requirements for the candidate’s chosen educator preparation program. If a review of the candidate’s subject matter coursework identifies any problem areas, a professional growth plan will be developed to address the problems. Or, if the candidate already has a professional growth plan, it will be amended to include attention to subject matter coursework problems. (See Section 2, item 3)

4. Continued progress through the educator preparation program will be contingent on the results of the midpoint retention review. Following a retention review, candidates may be continued in good standing in the program, cautioned about identified problems which have been included in the professional growth plan, placed on probation in the program, or dropped from the program.

a. If a candidate is placed on probation in the educator preparation program following a retention review, the time and conditions of the next review will be identified and communicated to the candidate by the Director of Academic Services and Teacher Certification.

b. If a candidate is dropped from the educator preparation program following a retention review, the Director of Academic Services and Teacher Certification will notify the candidate of this action. Candidates who have been dropped from an educator preparation program following a retention review may take no further professional education coursework in the program. (See Section 7, Appeals for additional information)

5. Admission to the Final Clinical Experience, e.g., Student Teaching. Admission to the final clinical experience, e.g., student teaching, requires a successful retention review and recommendation by the program faculty that the candidate be allowed to student teach.

6. State Mandated Examinations for Teacher Certification. The Kentucky Education Professional Standards Board (EPSB) requires that all applicants for a state teaching certificate present passing scores on the appropriate required PRAXIS 2 examinations. Although taking and passing the Kentucky mandated PRAXIS 2 examinations is not a requirement for completion of an educator preparation program at UK, candidates are encouraged to complete the required state-mandated examinations prior to beginning student teaching so that the process of applying for and receiving a state teaching certificate can proceed in a timely manner. Candidates are encouraged to consult with their program faculties for advice on when to take the required PRAXIS 2 examinations.

SECTION 3. GPA Rules for Educator Preparation Programs That Lead to a State Teaching Certificate

Section 3A: GPA Rules for Admission to an Undergraduate Educator Preparation Program

Admission to an undergraduate educator preparation program shall require the following: A cumulative grade-point average of 2.75 on a 4.0 scale or a grade-point average of at least 3.00 on a 4.0 scale in the final semesters that include the last thirty (30) hours of credit completed. These will be taken directly from the most recent original transcripts supplied by the candidate.

Section 3B: GPA Rules for Admission to a Graduate Level Educator Preparation Program

Admission to a graduate level educator preparation program shall require the following: A bachelor’s degree or advanced degree awarded by a regionally accredited college or university with a cumulative grade-point average of 2.75 on a 4.0 scale.

OR a grade-point average of at least 3.00 on a 4.0 scale in the final semesters that include the last thirty (30) hours of either undergraduate or graduate credit completed. This information will be taken directly from the most recent original transcript(s) supplied by the candidate. Candidates intending to use this “3.0 minimum GPA” in the final semesters that include the last 30 hours of coursework” option should consult with their program faculty chair and the departmental Director of Graduate Studies concerning the use of this option for gaining admission to the UK Graduate School.

Section 3C: Rules for Using of the “Final Semesters That Include the Last 30 Hours of Credit” Option

If the candidate uses the “final semesters that include the last 30 hours of credit” option, the following procedure shall be used to calculate the last 30 hour GPA. The completed quality hours and quality points for each of the final terms that include the last 30 hours of credit shall be identified. The last 30 hours GPA shall be calculated using the statistics from the entire terms encompassing the last 30 hours. This means that in some instances, the number of hours used to calculate the last 30 hours GPA will be greater than 30.

Section 3D: GPA Rules for Retention and Completion

Candidates must maintain a minimum overall GPA of at least 2.75 for retention in the program. Candidates who used the “final semesters that include the last 30 hours of credit” rule for
admission to the program may continue to calculate whether a 3.0 minimum GPA is being maintained at the time of the retention review (normally the two semesters prior to student teaching). Candidates who do not meet this requirement may not student teach.

Candidates must maintain a minimum overall GPA of at least 2.75 for completion of an educator preparation program. Candidates who used the “final semesters that include the last 30 hours of credit” rule for admission to the program may continue to calculate whether a 3.0 minimum GPA is being maintained at the time of the final completion review. Candidates who do not meet this requirement will not be considered to have completed the program, and may not be recommended for a state teaching certificate.

Section 3E: The Rule of “No Grade Less Than C in Professional Education Courses”

Candidates may have no grade less than C in any course defined in the program as being a part of the professional education component. Any professional education grades less than C must be retaken prior to the final clinical experience, e.g., student teaching.

Section 3F: Special GPA Rule Requiring a 2.75 GPA in Program Sub Areas

Some programs require that candidates earn and maintain a 2.75 GPA in the majors, minors, support areas, and professional education course sequences as specified in the program curriculum description as approved by the UK Senate. The application of this rule means that candidates must demonstrate these 2.75 GPAs at the time of admission, retention, and completion of the program.

Programs that the use of this special GPA rule are as follows:

- All STEM educator preparation programs, e.g., Mathematics Education, Science Education (all areas) and Computer Science Education.

SECTION 4: Standards and Standards Sets in UK Educator Preparation Programs

Section 4A: All UK Educator Preparation Programs Are Standards-based

All UK educator preparation programs are standards-based, requiring candidates to meet these standards before completing the program. Candidates are assessed on these standards at the three continuous assessment points: admission to educator preparation (TEP), prior to final practicum experiences e.g., student teaching, and at the program completion.

Section 4B: There Are Three UK Required Core Standards Sets

There are three core standards sets required for completion of all UK educator preparation programs. They are:

- Interdisciplinary Early Childhood Education Standards (IECE), or Kentucky Teacher Standards (whichever is appropriate for the candidate’s program.)
- College of Education Functional Skills and Dispositions
- College of Education Technology Standards

Section 4C: Discipline (Subject) Specific Standards Also Required

In addition to these three core standards sets, each candidate must demonstrate mastery of the subject specific standards set(s) associated with their individual program.

SECTION 5: Policies on Clinical Experiences, Including the Final Clinical Experience, e.g., Student Teaching

Section 5A: General Policy on Intensive Clinical Experiences

The University of Kentucky College of Education is committed to preparing candidates for the teaching profession who are effective, reflective leaders and decision makers. To that end, and in order to meet state teacher certification regulations and national accreditation requirements, educator preparation candidates complete an array of carefully planned clinical experiences. These experiences are systematically integrated into the educator preparation program curriculum. In order to ensure high quality experiences, the College has established a network of clinical sites where candidates complete clinical placements. These sites are part of the university’s extended campus known as the university clinical/field network. Sites are selected at the program level (i.e., by the program faculty that governs the curriculum for the particular educator preparation program). Selection decisions are made using specific criteria that are directly linked to program goals, accreditation standards, and certification requirements. All candidates are expected to complete their intensive clinical experiences, e.g., practica and the final clinical experience, e.g., student teaching in these approved clinical sites.

Section 5B: General Rules for the Final Clinical Experience, e.g., Student Teaching

A student may enroll in student teaching in one of the educator preparation programs provided he or she has:

- been admitted to and retained in an educator preparation program;
- maintained a grade-point standing of at least 2.75 overall or a minimum 3.0 GPA in the final terms that include the last 30 hours of coursework;
- completed all professional education courses except the final clinical experience, e.g., student teaching;
- completed a minimum of 75 percent of the required subject matter courses;
- applied and been accepted for the final clinical experience, e.g., student teaching two semesters prior to the one in which student teaching is to be done;
- completed the required national and state criminal background check with no criminal background identified;
- been accepted by the school system and supervising teacher where he or she plans to do the final clinical experience, e.g., student teaching;
- scheduled no more than 3 hours of college work to be carried during the final clinical experience, e.g., student teaching with no classes scheduled to interfere with the student teaching assignment; and
- presented evidence of having had a specified physical examination.

SECTION 6: Code of Ethics and Character and Fitness Reviews

All students seeking admission to, retention in, or completion of a UK educator preparation program must complete a state mandated character and fitness review. In addition, students with records of misconduct beyond simple traffic violations must provide complete documentation of this misconduct, utilizing written procedures available in the office of Academic Services and Teacher Certification. Records of misconduct will be available for use by program faculties in making decisions about admission, retention, and completion of the program. Students must also complete any state-mandated background checks, which may include a national check of FBI records.

By Kentucky statute, persons with records of serious legal misconduct are ineligible for student teaching, state teacher certification, or employment in the public schools. Students are responsible for completing all required background check procedures in a timely manner so that decisions about their movement through the program may be made.

SECTION 7: Appeals

1. The progress of all candidates in educator preparation programs is continuously reviewed and assessed at least three times: at the points of admission, retention, and completion of program. Candidates who are denied admission to an educator preparation program, not retained in the program, or denied completion of the program may appeal the decision of the program faculty. There are two grounds on which a candidate may appeal an unfavorable continuous assessment review: 1) a candidate may appeal if s/he has clear evidence that his/her rights to equal opportunity or due process were violated during the re-
view process (i.e., evidence of discrimina-
tion on the basis of race, gender, sexual
orientation, age, etc.) or 2) a candidate
may appeal if there is new and substantial
evidence pertaining to his/her review that
was not available for Program Faculty
consideration at the time the candidate
applied and/or was reviewed (test scores
were late or missing; transcripts were
inaccurate, etc.). These are the only two
grounds on which an appeal may be filed.

2. Any candidate considering an appeal of a
program faculty decision at any of the
required Continuous Assessment Review
points is encouraged to first meet with
the program faculty chair to discuss the pro-
gram faculty’s decision and to review
grounds for the appeal.

3. If an appeal is to be made, candidates must
request reconsideration of the program
faculty’s decision within 15 business days
of the date on the letter notifying the
candidate of an unfavorable continuous
assessment review. The request for re-
consideration must clearly state the grounds
on which the appeal is made and demon-
strate that one of the two conditions for
appeal applies. Written requests should be
presented to the program faculty chair,
who will call a meeting of the program
faculty to review the original decision. The
program faculty chair will notify the Direc-
tor of Academic Services and Teacher
Certification of the faculty’s decision, and
the Director will notify the candidate in
writing.

4. If the program faculty does not alter its
initial decision, the candidate may use the
same procedures and appeal to the Ap-
peals Sub-committee of the Program Fac-
ulty Chairs Committee. Candidates wish-
ing to appeal to the Program Faculty Chairs
Appeals Sub-committee must present their
request for sub-committee review to the
Associate Dean for Academic and Stu-
dent Services. The Associate Dean will
assemble the necessary materials, call the
sub-committee together to hear the ap-
peal, and inform the candidate of the
committee’s decision. The program fac-
culty chairperson for the applicant’s pro-
gram may not serve as a member of the
Appeals Sub-committee that hears the
case. The Associate Dean will notify the
Director of Academic Services and
Teacher Certification of the decision of
the appeals sub-committee so that student
records may be updated. For purposes of
admission, retention, or completion of edu-
cator preparation programs, the decision
of the Appeals Sub-committee of the Pro-
gram Faculty Chairs Committee is final.

5. This policy addresses all faculty continu-
ous assessment reviews of a candidate’s
progress through an educator preparation
program, including admission to the pro-
gram, retention reviews of progress through
the program, and the final review for
completion of the program.

Interdisciplinary Early Childhood Education
Birth to Primary Standards (IECE)

1. Designs/plans instruction
2. Creates/maintains environments
3. Implements instruction
4. Assesses and communicates learning re-
sults
5. Reflects/evaluates professional practices
6. Collaborates with colleagues/families/others
7. Engages in professional development
8. Supports families
9. Demonstrates implementation of technol-
gy

Kentucky Teacher Standards (KTS)

1. The teacher demonstrates a current and
sufficient academic knowledge of certi-
fied content areas to develop student
knowledge and performance in those ar-
eas.
2. The teacher designs/plans instruction that
develops student abilities to use communi-
cation skills, apply core concepts, become
self-sufficient individuals, become respon-
sible team members, think and solve prob-
lems, and integrate knowledge.
3. The teacher creates a learning climate
that supports the development of student
abilities to use communication skills, apply
core concepts, become self-sufficient indi-
viduals, become responsible team mem-
bers, think and solve problems, and inte-
grate knowledge.
4. The teacher introduces/implements/man-
gages instruction that develops student abili-
ties to use communication skills, apply
core concepts, become self-sufficient indi-
viduals, become responsible team mem-
bers, think and solve problems, and inte-
grate knowledge.
5. The teacher assesses learning and com-
municates results to students and others
with respect to student abilities to use
communication skills, apply core concepts,
become self-sufficient individuals, become
responsible team members, think and solve
problems, and integrate knowledge.
6. The teacher uses technology to support
instruction; access and manipulate data;
enhance professional growth and produc-
tivity; communicate and collaborate with
colleagues, parents, and the community;
and conduct research.
7. The teacher reflects on and evaluates
specific teaching/learning situations and/
or programs.
8. The teacher collaborates with colleagues,
parents, and other agencies to design,
implement, and support learning programs
that develop student abilities to use com-
munication skills, apply core concepts,
become self-sufficient individuals, become
responsible team members, think and solve
problems, and integrate knowledge.
9. The teacher evaluates his/her overall per-
formance with respect to modeling and
teaching Kentucky’s learning goals, re-
fines the skills and processes necessary,
and implements a professional develop-
ment plan.
10. The teacher provides professional lead-
ership within the school, community, and
education profession to improve student
learning and well-being.

College of Education Skills and Dispositions

1. Communicates appropriately and effec-
tively
2. Demonstrates constructive attitudes
3. Demonstrates ability to conceptualize key
subject matter ideas and relationships
4. Interacts appropriately and effectively with
diverse groups of colleagues, administra-
tors, students, and parents in educational
settings
5. Demonstrates a commitment to profes-
ional ethics and behavior

College of Education Technology Standards

1. Integrates media and technology into in-
struction
2. Utilizes multiple technology applications
to support student learning
3. Selects appropriate technology to enhance
instruction
4. Integrates student use of technology into
instruction
5. Addresses special learning needs through
technology
6. Promotes ethical and legal use of technol-
gy disciplines

Applying for Kentucky Educator Licenses

The University of Kentucky offers programs
for most initial and advanced professional educa-
tor licenses (certificates) issued by the Kentucky
Education Professional Standards Board (EPSB).
EPSB license requirements are subject to change
by the EPSB at any time.

UK candidates for Kentucky professional edu-
cator licenses must submit all required application
materials to Academic Services and Teacher
Certification, 166 Taylor Education Building, Lex-
ington, KY 40506-0001. Recommendations to
the EPSB that an educator license be issued are
based upon a final audit of all program completion
requirements.
GRADUATION REQUIREMENTS

To graduate from the College of Education, a student must: 1) complete all specific program requirements as listed in this Bulletin; and 2) meet all requirements of the College of Education admission/retention/completion policy.

Because most students are pursuing both a UK degree and a state educator license (certificate), it is extremely important that advisors are consulted frequently to be sure that the best selection of courses is made to meet both requirements.

Undergraduate Advising

Undergraduate advising is coordinated through Academic Services and Teacher Certification, 166 Taylor Education Building.

DEPARTMENTS IN THE COLLEGE OF EDUCATION

Curriculum and Instruction

The Department of Curriculum and Instruction offers both undergraduate and graduate programs. Undergraduate programs prepare teachers for elementary, middle school, and secondary levels. Graduate programs include: advanced degrees in teaching at elementary, middle, and secondary levels; preparation for teaching at the college/university level; and preparation for instructional design roles in business and industry.

Educational, School, and Counseling Psychology

The Department of Educational, School, and Counseling Psychology offers course work leading to provisional and standard certification and licensure in the Commonwealth of Kentucky, by the Education Professional Standards Board and the Kentucky Board of Psychology, respectively. The UK counseling and school psychology doctoral programs are fully accredited by the American Psychological Association (APA), and the doctoral and specialist degree programs in school psychology are approved by the National Association of School Psychologists (NASP) and the National Council for the Accreditation of Teacher Education (NCATE).

Educational Leadership Studies

The Department of Educational Leadership Studies seeks to improve the quality of educational organizations through improved training and competence of leaders. The department is particularly mindful of its obligation to supply the needs of Kentucky for high quality leaders across a range of P20 organizations. Programs are offered at the Masters, Education Specialist, and Doctoral levels to meet a wide range of educational leadership needs as well as to meet specific requirements for a graduate certificate in school technology leadership, teacher leader endorsement, and certification for principals, supervisors of instruction, and superintendents of schools.

Educational Policy Studies and Evaluation

The Department of Educational Policy Studies and Evaluation provides a unique opportunity for students who wish to develop the knowledge, judgment, and research skill required to address educational issues with flexibility and imagination. Students are offered the resources of historical, sociological, philosophical, and comparative analysis; knowledge of current educational issues; expertise in evaluation research; and the opportunity to learn skills necessary to evaluate the significance of studies that bear on policy. The department offers advanced degrees only.

Kinesiology and Health Promotion

The Department of Kinesiology and Health Promotion (KHP) offers undergraduate courses and degree programs in physical and health promotion education or exercise science. Students are encouraged to take one 1-credit physical education class each semester during the first two years of college.

The KHP Life Fitness program offers beginning instruction in both individual and team activities. In this program students have the opportunity to learn individual and team sports skills and/or improve their level of fitness. Currently 32 different courses are offered each year and over 1,200 students participate in the program. The classes are taught by members of the KHP Department and Department Graduate Teaching Assistants who possess expertise in the areas of health and physical education. Individual skill instruction is available in weight training, conditioning and fitness, golf, racquet sports, gymnastics, swimming, scuba diving, aerobic running and swimming, and dancing. Instruction in such team activities as basketball, soccer, volleyball, and softball is also available. In addition, intermediate and advanced courses in many of the activities are offered.

The kinesiology program is designed for students interested in teaching as well those interested in the application of knowledge and skills in kinesiology and health promotion in commercial settings. Students desiring teacher certification will complete one or more of the programs in kinesiology and health promotion described in this Bulletin. The department also offers a non-teacher certification kinesiology program in exercise science that many students pursue to prepare them for graduate programs within the medical and health field such as Physical or Occupational Therapy, Medical or Physician Assistant, Pharmacy, and also Dentistry.

The purpose of health promotion is to promote quality of life for all people. This area of study is interdisciplinary, extending into biology, psychology, sociology, and medicine. Health promotion generally focuses on the whole individual, including social and emotional dimensions, not just the physical. The primary focus of course work in health promotion is on teacher certification. Opportunities for health educators exist in community agencies, adult fitness programs, and health education programs in industry and business. The department offers a minor in health promotion that does not lead to teacher certification.

Early Childhood, Special Education, and Rehabilitation Counseling

The Department of Early Childhood, Special Education, and Rehabilitation Counseling offers three different initial certification programs at the undergraduate level: (1) interdisciplinary early childhood education; (2) learning and behavior disorders; and (3) moderate/severe disabilities.

The department offers graduate level programs leading to initial educator certification in learning and behavior disorders, moderate/severe disabilities, and interdisciplinary early childhood education. Students may also pursue the masters degree in rehabilitation counseling, and graduate advanced preparation in a variety of special education topics.

STEM Education

The Department of Science, Technology, Engineering, and Mathematics (STEM) Education offers undergraduate degrees in Secondary Mathematics Education and Secondary Science Education. The department also offers a Masters of Science degree in STEM Education. Our mission is to engage in scholarship, teaching, and service that is innovative and contributes to improving the quality of P20 science, technology, engineering, and mathematics education in the Commonwealth, the nation, and the world.

DEGREE PROGRAMS IN THE COLLEGE OF EDUCATION

B.A. in Education with a major in

EARLY ELEMENTARY EDUCATION

Requirements for Program

The Early Elementary Education Program is aligned with the New Teacher Standards of the Kentucky Education Professional Standards Board, and the national standards for elementary education approved by the National Council for the Accreditation of Teacher Education.

The model for the early elementary education program presumes a collaborative relationship between school and university personnel focused on ensuring a high level of individual attention to the mentoring and socialization of teacher candidates. The faculty recognizes that this is a labor-intensive process, requiring sustained time and effort by all parties. Work in early elementary education must be guided by two principles: first, a commitment to continuous improvement based on reflection, evaluation, and on-going research; second, a commitment to peer collaboration as a source of professional growth for teacher candidates as well as school and university faculty.
Continuous Assessment

1. Admission to the program is based on a selective admission process that generally occurs after students have completed at least 45 hours of university course work. All students are expected to meet the standards and rules for Admission, Retention and Completion from the Teacher Education Program as set forth in the section “Admission, Retention and Completion from Teacher Education Programs.”

2. Assessment at the Point of Entry to the Early Elementary Education Program. At the point of entry students must present an admission portfolio which includes the following: a) a “best piece” sample of writing which demonstrates ability to research a topic in some depth; b) evidence of multicultural/cross-cultural experience with written reflection on the experience; c) evidence of having completed 30 hours of community service with early elementary age children, including a written reflection on the experience; and, d) a written autobiography. Also at the time of entry, students will be required to complete an on-demand writing task.

3. On-Going Assessment: Assessment During the Professional Introduction Semester. Assessment of progress in the Professional Introduction semester includes assessment strategies specific to individual courses, but also includes an overall “Professional Introduction Portfolio.” This portfolio is intended to be an extension of the admissions portfolio, adding the following exhibits: a) philosophy of education statement (this will be modified as candidates move through the program); b) “best piece” samples from course work that show evidence of content knowledge, pedagogical content knowledge, and effective practice (given the students’ level of experience); and c) evidence of competence in instructional applications of technology and systems of information management.

4. Assessment of Progress in the Professional Block. This includes assessment strategies specific to individual methods courses that confirm content as well as pedagogical knowledge. It also includes some additional assessments. At the beginning of the semester, students’ Professional Introduction Portfolios are reviewed and placement needs are discussed. Once the semester begins, students are observed throughout the semester by their supervisor and are assessed using an observation form which directly reflects the New Teacher Standards. Students also submit videotapes of themselves teaching and an analysis of these as well as other lessons they have taught. The supervisors provide feedback on these lessons as well. The faculty also reviews students’ Professional Development Plans. Each student develops a Professional Development Plan (PDP) in cooperation with UK faculty and school-based faculty. The PDP includes reflections on the student’s strengths and areas that need further work. This document serves as a planning tool for student teaching. Students also continue the development of their teaching portfolio, adding information that demonstrates competence on tasks related to the New Teacher Standards for each Professional Block course.

Statement on Student Teaching

Students in the early elementary education program complete 16-18 weeks of student teaching, concentrating on the ages in grades P-5. (See the section on “Student Teaching” above for additional information on student teaching.)

UK Core Requirements

See the UK Core section of this Bulletin for the complete UK core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

College of Education

B.S. in Education with a major in HEATH PROMOTION
(teacher certification program)

Requirements for Program

The Department of Kinesiology and Health Promotion offers undergraduate courses and degree programs in kinesiology (physical education) and health promotion. These programs support the UK educator preparation unit's theme of Research and Reflection for Learning and Leading. The process of reflective decision-making is imbedded in the departmental philosophy that students learn best through experiencing. The Health Promotion Program is guided by the standards of the American Association of Health Education (AAHE) and the Kentucky New Teacher Standards.

The health promotion program ensures an understanding of and knowledge about the structure of the health promotion discipline through the content and methodology courses in sexuality education, drug education, human health and wellness, nutrition, and program planning in health education. The purpose of health promotion is to promote quality of life for all people. This area of study is interdisciplinary, extending into biology, psychology, sociology, and medicine. Health promotion generally focuses on the whole individual, including social and emotional dimensions, not just the physical.

The B.S. in Health Promotion requires completion of the following: (1) the UK Core requirements; (2) specified course work in Program Related Studies and Professional Education; (3) specified course work in Program and Health Promotion. These programs support the UK Core requirements. Students who are majoring in Health Promotion will enroll in:

UK Core Requirements

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

TOTAL HOURS ...................... 120-129
B.S. in Education with a major in HEALTH PROMOTION
(Non-Teaching Certification Program)

Requirements for Program

The Department of Kinesiology and Health Promotion offers undergraduate courses and degree programs in kinesiology (exercise science and physical education) and health promotion. The health promotion program includes two tracks (health promotion non-teaching certification and health promotion teaching certification).

Students with the degree in Health Promotion non-teaching certification will be eligible to take the Certified Health Education Specialist (CHES) exam, apply to graduate schools in health related areas of study, seek employment in hospitals, health departments, worksite wellness, state or national agencies and organizations, or other similar settings.

Health promotion is the process of enabling people to increase control over, and to improve, their health. It moves beyond a focus on individual behavior towards a wide range of social and environmental interventions. The purpose of health promotion is to promote quality of life for all people. This area of study is interdisciplinary, extending into biology, psychology, sociology, and medicine. Health promotion generally focuses on the whole individual, including social and emotional dimensions, not just the physical. The Health Promotion track 2 is guided by the standards of the National Commission for Health Education Credentialing (NCHEC).

The B.S. in Education with a major in Health Promotion (non-teaching certification) requires completion of the following: (1) the UK Core requirements; (2) specified course work in Program Related Studies and Health Promotion course requirements; (3) practicum internship hours; and (4) completion of a university-approved minor.

Probation, Dismissal and Reinstatement Policy

An undergraduate health promotion major may be dismissed from the College of Education Kinesiology and Health Promotion Department for failure to make satisfactory progress. In the KHP program, the college continuously monitors the progress of all KHP students. Consistent with University regulations and the College of Education, requirements are that KHP programs have policies for terminating a student’s enrollment for reasons of academic and professional performance.

The following rules apply in the College of Education, Kinesiology and Health Promotion Department, Health Promotion major (non-teaching certification).

Academic Performance

1. All students in the health promotion track 2 will enter the major with lower-division standing.

2. Students must take KHP 230, ANA 209 and PGY 206 or ANA 109 and ANA 110, and BIO 103 to be admitted to upper division standing.

3. At 45 hours, students will have to have taken the courses listed above and have an overall 2.2 grade-point average (GPA) to be admitted to upper division standing.

4. For students in the nonteaching health promotion major (track 2), these courses will be restricted to those who have upper division standing: KHP 325, 330, 420G, 520, 509, and 590. Students who are enrolled in the minor in health promotion and students taking these courses as electives will still be allowed to enroll in the courses.

5. Students will fill out a brief application form to gain upper division status and turn this form in to their advisor. KHP advisors in the College of Education will assume responsibility to review students’ transcripts to determine if students should gain upper division status.

6. A 3-person appeals committee of Health Promotion faculty will be established to determine standards for accepting students who may have extenuating circumstances and to review appeals.

7. Once admitted to upper division status, students will be required to maintain a 2.2 GPA. Should their GPA drop below a 2.2, they would have one semester to bring their GPA up to a 2.2. If that does not occur, the student will no longer be in the program.

8. After admittance to the program, students must not only maintain a 2.2 GPA, they must continue to exhibit desirable professional characteristics to remain in the program. Students who demonstrate a lack of commitment, effort, professional behavior, and knowledge may be removed from the program until these characteristics are demonstrated.

UK Core Requirements

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

Students must take one free elective.
Minor (18-21 hours)
One or more university approved minors (18-21 hours).

Note: University approved minors outside the College of Education must be planned with an advisor in the appropriate college.

TOTAL HOURS ........................................ 120-126

B.S. in Education with a major in INTERDISCIPLINARY EARLY CHILDHOOD EDUCATION

Requirements for Program
Early Childhood Education is an interdisciplinary program which will prepare educators to work with children birth through age five, in public pre-primary classes and non-public institutions including day care, private preschool, and private kindergarten. The program is approved by the Kentucky Education Professional Standards Board to prepare graduates to seek a state teaching certificate in Interdisciplinary Early Childhood Education.

The faculty of the Interdisciplinary Early Childhood Education program are associated with the Department of Early Childhood, Special Education, and Rehabilitation Counseling. The faculty believe that teaching young children involves viewing children holistically, using structured behavioral approaches. They recognize that viewing children holistically requires considering all of the various settings of children’s environment (e.g., home, school, and neighborhood) as well as the reciprocal relationship between any two of the following variables: the immediate context the child is active in, the individual child, and all aspects of the child’s environment (including people). In the Interdisciplinary Early Childhood Education program, students will learn to apply behavioral principles for purposes of developing curricula, assessing child behavior, planning, implementing, and monitoring interventions, and assisting families. The program is guided by the standards of the National Association for the Education of Young Children, and the Division of Early Childhood of the Council For Exceptional Children.

To receive the B.S. degree in Education with a major in Interdisciplinary Early Childhood Education, students must: (1) complete the UK Core requirements; (2) complete the premajor requirements; and (3) complete requirements for the Interdisciplinary Early Childhood Education major, including required student teaching experiences and other practica. To be state-certified, candidates must also successfully complete all state-mandated testing requirements.

Continuous Assessment
1. All students in the interdisciplinary early childhood education program are expected to meet the standards and rules for Admission, Retention, and Exit from Teacher Education Programs as set forth in the section “Admission, Retention, and Completion from Teacher Education Programs”.

2. Assessment at the Point of Entry to the IEC Program. The admission process provides the first point for formal assessment of the competencies outlined in the Initial Certification Program Folio for the program. Students who apply for admission must (a) meet the requirements for admission to the Teacher Education Program, and (b) be able to articulate their philosophy of teaching and document their experiences with young children in an initial portfolio and an interview.

3. On-going Assessment. Once a student is admitted to the program, he/she meets with an advisor to plan the remainder of the program. Prior to the student teaching semester, the student must present a portfolio that documents his/her progress toward meeting program competencies.

4. Completion Assessment. At the exit assessment, students must document that they have met all program competencies through a final review of their portfolio and the successful completion of student teaching in an appropriate school placement for young children with and without disabilities.

Statement on Student Teaching
Student teaching in the Interdisciplinary Early Childhood Education program is 16-18 weeks. Students will enroll in:

IEC 411 Student Teaching in Interdisciplinary Early Childhood Education ........................................ 12

Degree Requirements
Students in Interdisciplinary Early Childhood Education must complete the following:

1. Complete the UK Core requirements.

2. Complete all degree requirements.

3. Complete the required curriculum in the major program.

4. All students majoring in Interdisciplinary Early Childhood Education must apply and be admitted to the professional Teacher Education Program in order to complete the program.

UK Core Requirements
See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

All students in Interdisciplinary Early Childhood Education must apply, and be admitted to, and be retained in a Teacher Education Program (TEP), and complete a state approved university teacher training program in Early Childhood Education to be able to apply for certification. Students who are interested in certification in Early Childhood Education need to meet with a certification officer in the College of Education prior to completing 60 semester hours to discuss state certification and TEP requirements. A minimum 2.75 cumulative GPA is required to be eligible to apply for admission to TEP. TEP applications will be reviewed for students who have completed, or will complete during the semester in which they apply, 60 semester hours, including EDP 202, EDS 375, IEC 255, and IEC 256 with a grade of C or better.

major in either kinesiology or health promotion only, must pick up a university-approved minor, and are only certified to teach in the single discipline selected.

Continuous Assessment
1. All students in the kinesiology program are expected to meet the standards and rules for Admission, Retention, and Exit from Teacher Education Programs as set forth in the section “Admission, Retention and Completion from Teacher Education Programs”.

2. The kinesiology program stimulates higher performance goals for high-performing students by offering several modes of performance. Examples are: (a) skills in performing physical activities; (b) skills in writing and oral presentations in theory courses; (c) computer technological skills in some courses; and (d) leadership skills demonstrated by high-performing students who serve as class leaders, peer tutors, and/or assistant instructors.

3. After admittance to the program, students not only must maintain a 2.75 cumulative GPA, they must continue to exhibit desirable professional characteristics to remain in the program. Students who demonstrate a lack of commitment, effort, professional behavior, knowledge, or teaching skills may be removed from the program until these characteristics are demonstrated.

Statement on Student Teaching
Students who are majoring only in kinesiology will enroll in:
KHP 369 Student Teaching in Physical Education 12

Students who are completing a major in both kinesiology and health promotion will enroll in:
KHP 369 Student Teaching in Physical Education 6
KHP 371 Student Teaching in Health Education 6

In this situation, student teaching time will be divided between the high school, middle school, and elementary grades, with student teaching supervision occurring cooperatively between the kinesiology and health promotion faculty.

UK Core Requirements
See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

TOTAL HOURS .................................................................. 120
B.A. in Education with a major in LEARNING AND BEHAVIOR DISORDERS (LBD)

Requirements for Program

The learning and behavior disorders (LBD) program supports the UK educator preparation unit’s theme of Research and Reflection for Learning and Leading. Special education teachers are prepared to assess, plan, and teach based on what they learn from their students and to conduct continuous self-reflection in order to improve their teaching. The standards and competencies on which the LBD program is based are those prescribed by The Council for Exceptional Children and The Kentucky New Teacher Standards.

The B.A. program in Learning and Behavior Disorders, P-12, prepares students to teach individuals with disabilities (including learning disabilities, emotional/behavioral disorders, mild mental disabilities, other health impaired, and physical disabilities) in primary through twelfth grades.

Advising early in the B.A. program is essential in order to complete the requirements in a timely fashion.

Continuous Assessment

1. All students in the LBD program are expected to meet the standards and rules for Admission, Retention and Completion from the Teacher Education Program (TEP) as set forth in the section “Admission, Retention and Completion from Teacher Education Programs”.

2. Assessment at the Point of Entry to the LBD Program. The admission process provides the first point for formal assessment of the competencies outlined in the LBD program. Students applying for admission must: (a) meet the requirements for TEP admission; (b) have successfully completed a special education survey course (EDS 375) and practicum (EDS 357); (c) be able to articulate, orally and in writing, their philosophy of teaching and their experiences with persons with disabilities; and (d) prepare an acceptable extemporaneous writing sample. Entry level assessments will be conducted by program faculty representatives through analysis of transcripts, and portfolio entries, as well as performance in practica courses.

4. Completion Assessment. At the exit assessment, students must document that they have met all program competencies. Exit assessments will be conducted by program faculty representatives through a formal analysis of transcripts, student portfolios, and student teaching evaluations. In addition, to be eligible for a Kentucky teaching certificate, each student must earn passing scores on the required PRAXIS exams.

Statement on Student Teaching

Student teaching in the LBD program is 16-18 weeks in LBD classrooms. Students split this time evenly between an elementary school placement and a secondary (middle school or high school) placement.

Special Education/LBD Certification (P-12)

B.A. in Education with a major in MIDDLE LEVEL EDUCATION

Program Description

The Middle Level Teacher Education Program supports the UK educator preparation unit’s theme of Research and Reflection for Learning and Leading. The program emphasizes the development of professionally trained specialists in teaching early adolescents. As such, the program models team teaching and collaborative learning. Active learning experiences are emphasized, as are real-world connections. Throughout the program, students are encouraged to consider their present position and make plans for improvement. Students are urged to gather data continuously
and to use this data in planning effective instruction. Students are required to provide questions for reflection when writing lessons they do not teach and to provide reflective summaries as part of lesson plans which are delivered to students. Students are provided time and resources to revise and improve curricular materials they develop within the program. Students assess their own progress through the program’s curriculum, preparing them for the continuous self-assessment required of practicing professionals.

To receive the B.A. degree in Middle Level Education, students must: (1) complete the UK Core requirements; (2) complete all required program-related studies and the professional education course sequence; and (3) complete the content area requirements in each of two areas of specialization. Available content specialization areas are: English and Communication, Mathematics, Science, and Social Studies.

Continuous Assessment

1. All middle level education students are expected to meet the standards and rules for Admission, Retention and Completion from Teacher Education Programs as set forth in the section “Admission, Retention and Completion from Teacher Education Programs”.

2. Assessment at the Point of Entry to the Middle School Program. The admission process provides the first point for formal assessment of the competencies outlined by the standards documents which guide the middle level education program. Basic skills standards must be met and students must be making satisfactory progress towards professional and content area proficiency in order for students to win admission.

3. On-going Assessment. Once a student is admitted to the program, he/she meets with an advisor to plan the remainder of the program. The focus of this initial advising session is to begin a professional development plan which ensures that all standards will be met by program completion.

4. Completion Assessment. At the completion assessment, students must show competency in all relevant standard areas. This is done through a final review of the eligibility portfolio, review of information provided by the cooperating teacher and university supervisor, and documentation of remediation of any weaknesses noted at the formal review in the methods semester.

Statement on Student Teaching

Middle level certification requires students to be certifiable in two academic subject areas, which requires two student teaching placements spread across the final two semesters: 6 hours in the second-to-last semester, and 9 hours in the final semester. Students seeking Middle Level certification will register for:

- EDC 549 Student Teaching in the Middle School ………… 15

UK Core Requirements

The National Middle School Association (NMSA) describes six broad areas of competence for middle grades teachers. These are: (1) early adolescent development, (2) middle grades curriculum, (3) middle grades instruction, (4) middle grades school organization, (5) families and community relations, and (6) middle grades teaching roles. With the support of a liberal arts foundation provided by the UK Core requirements and the content area knowledge provided by the requirements detailed above, the professional education requirements of the program endeavor to provide a firm foundation in each of these six areas.

- *EDC 446 Applications of Teaching Middle Level Social Studies …………………… 3
- *EDC 537 Advanced Applications of Teaching Writing …………………… 3
- *SEM 448 Applications of Teaching Middle Level Science …………………… 3
- EDC 520 Assessment and Accountability in Middle Level Education …………………… 3
- EDC 549 Middle Level Student Teaching …………………… 3-15

*A total of four courses — two in each of the two selected content areas — must be completed from this group.

Content Area Courses (18-27 hours)

Students wishing to become certified in middle level (grades 5-9) must select two of the following content areas of specialization. Course requirements, particularly in the areas of English and Communication and Mathematics, have been prioritized to reflect prerequisite knowledge. Students should plan course work in these areas with the assistance of an advisor.

English and Communication (24 hours)

- EDC/ENG 509 Composition for Teachers …………………… 3
- ENG 230 Introduction to Literature (Subtitle required) …………………… 3
- ENG 330 Text and Context (Subtitle required) …………………… 3
- ENG 251 Survey of American Literature I …………………… 3
- ENG 252 Survey of American Literature II …………………… 3
- LIS 514 Literature and Related Media …………………… 3
- LIN 211 Introduction to the Study of Language …………………… 3
- LIN 317 Language and Society (Subtitle required) …………………… 3

Mathematics (25 hours)

The requirements for students choosing mathematics as a content area of specialization are based on standards developed by the National Council of Teachers of Mathematics, KERA Goals and Academic Expectations, and the Core Content for Assessment. The NCTM standards for middle grades include four common threads (reasoning, communication, problem solving, and connections) as well as content area standards of number, computation and estimation, probability, statistics, algebra, geometry, and measurement. Kentucky’s Goals and Academic Expectations and the Core Content for Assessment focus mathematics instruction on seven core areas: number, mathematical procedures, mathematical structure, measurement, space and dimensionality, change, and data.

Required
- MA 201 Mathematics for Elementary Teachers …………………… 3
- MA 202 Mathematics for Elementary Teachers …………………… 3
- MA 308 Mathematical Problem Solving …………………… 3

For Middle School Teachers …………………… 3
- MA 241 Geometry for Middle School Teachers …………………… 3
- MA 162 Finite Mathematics and Its Applications …………………… 3
- STA 206 Statistical Methods and Motivations …………………… 3
- MA 113 Calculus I …………………… 3
- MA 261 Introduction to Number Theory …………………… 3
The content area preparation required for students in the middle school education program is based on the standards adopted by the National Science Teacher’s Association as well as Kentucky’s Core Content for Science Assessment and the New Teacher Standards. It is important that science teachers have strong content preparation in the sciences. This is needed to communicate modes of scientific inquiry, select appropriate learning experiences, guide students in their early scientific efforts, and help students apply scientific knowledge and skills in their daily lives.

**CHE 101 Molecular Science for Citizens** ............... 3
**CHE 105 General College Chemistry I** .................. 4
**CHE 111 Laboratory to Accompany General Chemistry I** .................................................. 1
**EES 160 Geology for Teachers** ............................ 3
**EES 150 Earthquakes and Volcanoes** ....................... 3
**PHY 160 Physics and Astronomy for Teachers** ............ 3

**B.S. in Education with major in MODERATE/SEVERE DISABILITIES Requirements for Program**
The moderate and severe disabilities (MSD) program supports the UK educator preparation unit’s theme of Research and Reflection for Learning and Leading. Special education teachers are prepared to assess, plan, and teach based on what they learn from their students and to conduct continuous self-reflection in order to improve their teaching. The standards and competencies on which the MSD program is based are those prescribed by The Council for Exceptional Children and The Kentucky New Teacher Standards.

The B.S. in Education program in Moderate/Severe Disabilities (MSD) requires completion of: (1) the UK Core requirements; (2) specified course work in Related Studies and Professional Education; and (3) specified course work in the special education and MSD area of specialization. Students graduating from the certification program obtain a single Kentucky teacher certificate in MSD (grades P-12). Graduates are qualified to teach in classes for students with functional mental disabilities (grades P-12). It is possible to complete this certificate program in four years. In addition to the undergraduate program, an initial certificate in MSD (grades P-12) is offered at the graduate level (See the University of Kentucky Graduate School Bulletin).

**Continuous Assessment**
1. All students in the MSD program are expected to meet the standards and rules for Admission, Retention and Completion from Teacher Education Programs as set forth in the section “Admission, Retention and Completion from Teacher Education Programs”.

2. **Assessment at the Point of Entry to the MSD Program.** The admission process provides the first point for formal assessment of the competencies outlined in the Initial Certification Program Folio for the program. Students who apply for admission must: (a) meet the requirement for admission to the Teacher Education Program; (b) have successfully completed a special education survey course and practicum (EDS 375 and EDS 357 respectively); and (c) be able to articulate their philosophy of teaching and document their experiences with persons with disabilities in an initial portfolio and an entrance interview.

3. **On-going Assessment.** Once a student is admitted to the program, he/she meets with an advisor to plan the remainder of the program. Prior to the student teaching semester, the student must present a portfolio that documents his/her progress toward meeting program competencies in the courses completed.

4. **Completion Assessment.** At the completion assessment, students must document that they have met all program competencies through a final review of their portfolio and the successful completion of student teaching in a public school placement for students with MSD.

**Statement on Student Teaching**
Student teaching in the MSD program is 16-18 weeks and consists of eight to nine weeks in an elementary placement and eight to nine weeks in a middle or secondary placement for students with MSD.

**UK Core Requirements**
See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

TOTAL HOURS .................................................. 120

B.A. in Education with a major in SECONDARY EDUCATION
Option: English Education

Requirements for Program

This B.A. includes completion of an approved plan in the academic specialty teaching of English.

No teacher certification is awarded with the B.A. Students desiring to go on to Master’s with Initial Certification must apply to the Graduate School and apply to the Secondary English Program Faculty in the spring of their senior year.

To receive the B.A. degree, students must: (1) complete the UK Core requirements; (2) complete the requirements for secondary English education; (3) major course work, support area, and related studies; and (4) complete 100 hours of fieldwork with adolescents through the required three hour course:

EDC 362 Field Experiences in Secondary Education ........ 3

In 1996, the National Council of Teachers of English and the International Reading Association published Standards for the English Language Arts. This document identified six English language arts: reading, writing, speaking, listening, viewing, and visually representing. In addition, it presented an expanded definition of literacy, which reflects the ways technology and society have changed and will continue to change the ways in which we use language to communicate and to think. In order to prepare students for this changing demands of today and tomorrow, English language arts education will need to address many different types and uses of language, including those that have traditionally been given limited attention in the curriculum. One such example is spoken language. Being literate in this day and age means being active, critical, and creative users not only of print and spoken language but also of the visual language of film, television, photography and other media. Therefore, the content model should reflect these changing literacies and the ways they are changing. The English education program prepares its pre-service teachers with such a model so that their students will succeed as effective language learners and users, equipped with the skills they need to become critically literate citizens, workers, members of society, and lifelong learners.

Continuous Assessment

1. Because certification occurs through the Masters in Education including certification (MIC), students should be aware that they will need to be formally admitted to the MIC program. Admission/Retention/Completion regulations for all teacher certification programs are specified in the section “Admission, Retention and Completion from Teacher Education Programs”.

2. Oral and written communication skills of applicants for the MIC program in English Education will be assessed at the time of the interview, and through the entrance portfolio.

3. At the time of application to the English Education program at the Master’s degree level, applicants are evaluated according to the following criteria: grade-point average, quality of work in the subject content area, Graduate Record Examination scores, graded and on-site writing tasks, verbal communication, quality of references, commitment to teaching, social awareness, educational experiences with diverse learners 14-18 years old, and multicultural experiences.

Statement on Student Teaching

There is no student teaching required for completion of the Secondary English Education major. Student teaching occurs as part of the Masters in Education with initial certification.

UK Core Requirements

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

**B.A. in Education with a major in SECONDARY EDUCATION**

**Science Education (Biology, Physics, Chemistry, or Earth Science)**

**NOTE:** This major is no longer taking students. Earth Science, Physics and Chemistry will be pursued as options (along with Computer Science and Mathematics) within the STEM Education major.

**Requirements for Program**

This B.A. includes completion of an approved plan in the academic specialty teaching of Secondary Physical Science or Biological Science.

**No teacher certification is awarded with the B.A.**

Students desiring to go on to Masters with initial certification must apply to The Graduate School and apply to the Secondary Science Program Faculty in the spring of their senior year.

To receive the B.A. degree, students must: (1) complete the UK Core requirements, and Program Related Studies; (2) complete one of the Secondary Science Education plans; and (3) complete 100 hours of fieldwork with adolescents through the required 3 hour course:

**EDC 362 Field Experiences in Secondary Education** .......... 3

The Secondary Science Education program addresses the content area requirements of Kentucky’s New Teacher Standards, National Research Council’s National Science Education Standards, and the National Science Teachers Association Guidelines. The program encourages the understanding and development of major concepts within a specialty area as well as an understanding of the interconnectedness of the sciences. Students are encouraged to apply mathematics to investigations of science, including analyses of data. It is intended that students relate the concepts of science to contemporary, historical, technological and societal issues. As future science teachers, students will need to locate resources, design and conduct inquiry-based and open-ended investigations, interpret findings, communicate results and make judgments based upon evidence. Specifically, the program encourages the teaching of science through a problem-solving, inquiry-based approach.

**Continuous Assessment**

1. Because certification occurs through the Masters in Education including certification (MIC), students should be aware that they will need to be formally admitted to the MIC program. Admission/Retention/Exit regulations for all teacher certification programs are specified in the section “Admission, Retention and Completion from Teacher Education Programs”.

2. Oral and written communication skills of applicants for the MIC program in second-year science education will be assessed at the time of the interview, and through the entrance portfolio.

3. Admission to the Masters in Education with certification is competitive. At the time of application to the science education program, applicants will be evaluated on the basis of GPA, GRE scores, graded and on-site writing tasks, verbal communication, quality of references, commitment to teaching, social awareness, educational experiences with diverse learners, 14-18 year olds, and multicultural experiences, and quality of work in the sciences.

**Statement on Student Teaching**

There is no student teaching required for completion of the secondary science education major. Student teaching occurs as part of the Masters in Education with initial certification.
UK Core Requirements

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

Majors and Minors (54-72 hours)

Plans for Majors, Minors, and Supporting Subjects

Candidates may choose to be certified in one of two science areas, (1) biological science, or (2) physical science. Biological science candidates must have a biological science major for secondary education and follow one of the biological science plans. Physical science candidates must have a chemistry major for secondary education, earth science major for secondary education, physical science major for secondary education, or physics major for secondary education and follow one of the physical science plans.

Plans for Biological Science Candidates

Plan 1
Major (33 hours in biological science) plus: (A) a supporting non-certifiable minor of (21 hours) in mathematics, OR (B) a supporting non-certifiable minor in one of the other sciences. The science fields from which the minor may be chosen include chemistry, earth science, and physics.

Plan 2
Major (33 hours in biological science) with two 12-hour supporting subjects. The 12-hour blocks of support-subjects may be chosen from two of the following fields: chemistry, earth science, physics, or mathematics.

Plan 3
Major (33 hours in biological science) and four supporting subjects. Students selecting Plan 3 will complete a major in biology and take a total of 24 semester hours from chemistry, earth science, physics, and mathematics, with a minimum of three semester hours in each field.

Plans for Physical Science Candidates

Plan 1
Major (33 hours in either chemistry, earth science, or physics) plus: (A) a supporting non-certifiable minor of (21 hours) in mathematics, OR (B) a supporting minor in one of the other sciences. The science fields from which the minor may be chosen include biology (non-certifiable), chemistry, earth science, and physics, and mathematics (non-certifiable).

Plan 2
Major (33 hours in either chemistry, earth science, or physics) with two 12-hour supporting subjects. The 12-hour blocks of support-subjects may be chosen from two of the following fields: biology, chemistry, earth science, physics, or mathematics. Courses from the major may not be applied to the support-subjects requirement.

Plan 3
Major (33 hours in either chemistry, earth science, or physics) and four supporting subjects. Students selecting Plan 3 will complete a total of 24 semester hours from biology, chemistry, earth science, physics, and mathematics, with a minimum of three semester hours in each field. Courses from the major may not be applied to the support-subjects requirement.

Plan 4
Students will complete a physical science for secondary education major. The physical science major consists of 21 hour minors in chemistry, earth science, and physics. Minors from each field must be included in the physical science major.

Major Requirements

All majors for secondary science education require a minimum of 33 hours.

Biological Science Major for Secondary Education (33 hours)

Recommended Courses in Major

Additional courses selected with aid of advisor.
Required for Major

AST 191 The Solar System ........................................... 3
GEO 130 Earth’s Physical Environment or GEO 230 Weather and Climate ........................................... 3
EES 220 Principles of Physical Geology ......................... 4
EES 230 Fundamentals of Geology I ............................... 3
EES 235 Fundamentals of Geology II .............................. 3
EES 360 Mineralogy or EES 401G Invertebrate Paleobiology and Evolution ............................................ 3-4

Recommended for Major

The following list contains courses that are normally applied to the major.

AST 192 Stars, Galaxies and the Universe .......................... 3
EES 360 Mineralogy (if not taken above) ............................ 4
EES 401G Invertebrate Paleobiology and Evolution (if not taken above) .................................................. 3
EES 341 Landforms ....................................................... 4
PLS 366 Fundamentals of Soil Science .............................. 4
Oceanography course (if transferred from another university) ................................................................. 3

Earth Science electives to be selected with the aid of advisor.

*Note: Students should note that earth science is generally taught in Kentucky at the eighth grade level. In many states it is taught at the ninth grade level; therefore, secondary OR middle school certification could be required. You must decide the level of certification that fits your needs. If you plan to teach in Kentucky, you may want to follow either of the following options: 1) obtain science certification through the middle school program or 2) obtain earth science certification through the secondary education program. Currently, the Kentucky Department of Education is allowing secondary science teachers to teach science in the 7th and 8th grades without having middle school certification. The option for secondary certification provides more extensive content preparation in earth science.

Physics Major for Secondary Education

(33 hours)

Required Support Courses

CHE 105 General College Chemistry I ............................. 4
CHE 107 General College Chemistry II ............................ 3
CHE 111 Laboratory to Accompany Chemistry I .................. 1
CHE 113 Laboratory to Accompany General Chemistry II ........ 2
MA 113 Calculus I ....................................................... 4
MA 114 Calculus II ....................................................... 4
EES 220 Principles of Physical Geology ............................ 4
BIO 150 Principles of Biology I ...................................... 3
BIO 151 Principles of Biology Laboratory I ........................ 3
CHE 226 Analytical Chemistry ....................................... 3-4
CHE 233 Organic Chemistry Laboratory II ...................... 1
BCH 401G Fundamentals of Biochemistry ....................... 3

Recommended Support Courses

MA 213 Calculus III ...................................................... 4
*MA 214 Calculus IV .................................................... 3

*Note mathematics requirements for upper-level physics courses.

Required for Major

PHY 231/232 General University Physics ...................... 5
PHY 241/242 General University Physics Laboratory .............. 5
PHY 361 Principles of Modern Physics ............................ 3
PHY electives (chosen with aid of advisor)

Recommended for Major

AST 191 The Solar System or PHY 151 Introduction to Physics ................................................... 3
AST 192 Stars, Galaxies and the Universe or PHY 152 Introduction to Physics ........................................ 3

*Note: A maximum of 9 hours of astronomy may be counted toward the 33 hour physics requirement. A student may not count both the AST 191, 192 and PHY 151, 152 sequences toward the physics major for secondary education. If PHY 151 and PHY 152 are applied to the major, they must be completed prior to taking the PHY 231, 241, 232, 242 sequence.

MINOR REQUIREMENTS

A minor in one of the sciences or mathematics is required for Plans I of the biological science and physical science certification areas. See plans for details. Students are not certified to teach in a minor area. However, physical science for secondary education majors are certified to teach chemistry, earth science, and physics. All minors for secondary education require a minimum of 21 hours.

Biological Science Minor for Secondary Education (21 hours)

Required Support Courses

CHE 105 General College Chemistry I ............................. 4
CHE 107 General College Chemistry II ............................ 3
CHE 111 Laboratory to Accompany General Chemistry I ........ 3
CHE 113 Laboratory to Accompany General Chemistry II ........ 2

Required for Minor

BIO 150 Principles of Biology I .......................... 3
BIO 151 Principles of Biology Laboratory I ........................ 2
BIO 152 Principles of Biology II .................................. 3
BIO 153 Principles of Biology Laboratory II ........................ 2
BIO 325 Ecology ......................................................... 4
BIO 304 Principles of Genetics or ABT 360 Genetics .................. 3-4

Recommended for Minor

Additional courses selected with aid of advisor.

Chemistry Minor for Secondary Education

Required for Minor

CHE 105 General College Chemistry I ............................. 4
CHE 107 General College Chemistry II ............................ 3
CHE 111 Laboratory to Accompany General Chemistry I ........ 3
CHE 113 Laboratory to Accompany General Chemistry II ........ 2

Recommended for Minor

CHE 230 Organic Chemistry I .................................. 3
CHE 231 Organic Chemistry Laboratory I .......................... 1
CHE 232 Organic Chemistry II .................................. 3
CHE 233 Organic Chemistry Laboratory II .......................... 1
CHE 226 Analytical Chemistry ....................................... 3-4
or BCH 401G Fundamentals of Biochemistry ....................... 3

Additional courses selected with aid of advisor.

Earth Science Minor for Secondary Education

Required for Minor

AST 191 The Solar System ........................................... 3
GEO 130 Earth’s Physical Environment or GEO 230 Weather and Climate ........................................... 3
EES 220 Principles of Physical Geology ............................ 4
EES 230 Fundamentals of Geology I .................................. 3
EES 235 Fundamentals of Geology II .................................. 3
EES 360 Mineralogy or EES 401G Invertebrate Paleobiology and Evolution ............................................ 3-4

Recommended for Minor

The following list contains courses that are normally applied to the minor.

AST 192 Stars, Galaxies and the Universe .......................... 3
EES 360 Mineralogy (if not taken above) ............................ 4
EES 401G Invertebrate Paleobiology and Evolution (if not taken above) .................................................. 3
EES 341 Landforms ....................................................... 4
PLS 366 Fundamentals of Soil Science .............................. 4
Oceanography course (if transferred from another university) ................................................................. 3

Mathematics Minor for Secondary Education

Required for Minor

MA 113 Calculus I ....................................................... 4
MA 114 Calculus II ....................................................... 4
MA 213 Calculus III ....................................................... 4

Recommended for Minor

Additional courses chosen with aid of advisor. In most cases courses will be selected from the following list.

MA 341 Topics in Geometry .................................. 3
MA 310 Mathematical Problem Solving for Teachers .......... 3
MA 261 Introduction to Number Theory .......................... 3
MA 320 Introductory Probability .................................... 3
MA 322 Matrix Algebra and Its Applications .................... 3
MA 330 History of Mathematics .................................... 3
MA 214 Calculus IV ..................................................... 3

Physics Minor for Secondary Education

Required Support Course

MA 113 Calculus I ....................................................... 4

Recommended Support Courses

CHE 105 General College Chemistry I ............................. 4
CHE 107 General College Chemistry II ............................ 3
CHE 111 Laboratory to Accompany General Chemistry I ........ 3
CHE 113 Laboratory to Accompany General Chemistry II ........ 2
MA 114 Calculus II ....................................................... 4

Note mathematics requirements for taking upper-level physics courses.

Required for Minor

PHY 231/232 General University Physics ...................... 10
or PHY 231/232 General University Physics Laboratory .......... 10
PHY 361 Principles of Modern Physics .................................... 3

Recommended for Minor

AST 191 The Solar System or PHY 151 Introduction to Physics ................................................... 3
AST 192 Stars, Galaxies and the Universe or PHY 152 Introduction to Physics ........................................ 3

*Note: A maximum of 6 hours of astronomy may be counted toward the 21 hour physics requirement. A student may not count both the AST 191, 192 and PHY 151, 152 sequences toward the minor. If PHY 151 and PHY 152 are applied to the major, they must be completed prior to taking the PHY 231, 241, 232, 242 sequence.

Electives

Electives for 120 total credit hours chosen with the help of an advisor.

TOTAL HOURS .................................................................. 120
Social Studies Education Program Faculty in the Graduate School and apply to the Secondary Master's with Initial Certification must apply to Continuous Assessment social studies teaching.

Students should consider experiences such as study abroad (from local to global) affairs and service. Students need breadth and depth. Students are strongly urged to take nine hours in two of the subjects in their support area.

Statement on Student Teaching

There is no student teaching required for completion of the secondary social studies education major. Student teaching occurs as part of the Masters in Education with certification.

UK Core Requirements

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

I. Intellectual Inquiry in Arts and Creativity
Choose one course from approved list

II. Intellectual Inquiry in the Humanities
Choose one course from approved list

III. Intellectual Inquiry in the Social Sciences
Choose one course from approved list

IV. Intellectual Inquiry in the Natural, Physical, and Mathematical Sciences
Choose one course from approved list

V. Composition and Communication I
CIS/WRD 110 Composition and Communication I

VI. Composition and Communication II
CIS/WRD 111 Composition and Communication II

VII. Quantitative Foundations
Choose one course from approved list

VIII. Statistical Inferential Reasoning
Choose one course from approved list

IX. Community, Culture and Citizenship in the USA
Choose one course from approved list

X. Global Dynamics
Choose one course from approved list

UK Core hours

Graduation Composition and Communication Requirement (GCCR)
EPE 301 Education in American Culture
Graduation Composition and Communication Requirement hours (GCCR)

Program Related Studies (3 hours)
EDC 362 Field Experiences in Secondary Education

Option: Social Studies Education

Requirements for Program

This B.A. includes completion of an approved plan in the academic specialty teaching social studies. No teacher certification is awarded with the B.A. Students desiring to go on to Master’s with Initial Certification must apply to the Graduate School and apply to the Secondary Social Studies Education Program Faculty in the spring of their senior year.

To receive the B.A. degree, students must: (1) complete the UK Core requirements; (2) complete one of the secondary social studies education plans; and (3) complete 100 hours of fieldwork with adolescents through the required 3 hour course:

EDC 362 Field Experiences in Secondary Education

Following completion of the secondary social studies major, students will demonstrate the following: (1) a reflective understanding of American society, its past and contemporary situation, and its place in the larger world; (2) an ability to apply social science concepts and use inquiry and interpretive skills; (3) a historical perspective; (4) a multicultural and global perspective; and (5) an ability to learn from participation in the community (from local to global) affairs and service. Students should consider experiences such as study abroad and internships in government and social agencies, as well as course work, in preparation for social studies teaching.

Continuous Assessment

1. Because certification occurs through the Masters in Education including certification (MIC), students should be aware that they will need to be formally admitted to the MIC program. Admission/Retention/Completion regulations for all teacher certification programs are specified in the section “Admission, Retention and Completion from Teacher Education Programs”.

2. Oral and written communication skills of applicants for the MIC program in social studies education will be assessed at the time of the interview, and through the entrance portfolio.

3. Admission to the Masters in Education with initial certification is competitive; completion of the Bachelors in Secondary Social Studies Education does not guarantee admission to the Masters in Education with certification program.

   a. Students are reminded that they will be teaching about the whole world; somewhere in the 66 hours they should have at least one course about each world region.

   b. Students also need to be prepared to teach U.S. history from an interdisciplinary perspective and a multicultural perspective.

   c. Students need breadth and depth. Students are strongly urged to take nine hours in two of the subjects in their support area.

History Major for Secondary Education (36 hours)

Required (18 hours)

HIS 104 A History of Europe Through the Mid-Seventeenth Century
HIS 105 A History of Europe From the Mid-Seventeenth Century to the Present
HIS 109 History of the United States Since 1877
HIS 499 Senior Seminar for History Majors

Twelve of the other 18 credits must be history courses numbered 300 to 599. There must be some chronological diversity, with at least 6 hours of U.S. history above the 100 level and at least 9 hours in history of other regions of the world, which will give the student the broad background necessary to teach World Civilization.

History Minor for Secondary Education (21 hours)

Required (12 hours)

HIS 104 A History of Europe Through the Mid-Seventeenth Century
HIS 105 A History of Europe From the Mid-Seventeenth Century to the Present
HIS 109 History of the United States Since 1877

Plus 9 hours which will give students a broad preparation for teaching U.S. History and World Civilization. At least 6 hours should be at the 300 level or above.

Anthropology Major for Secondary Education (33 hours)

Required (6 hours)

ANT 302 Ethnographic Methods:
Doing Anthropology

Option 1 – Regional Specialization (6 hours)

Two courses from the same culture area, one ethnology and one culture history.

Ethnology courses are: ANT 221, 324, 428G, 431G, 534.

Culture history courses are: ANT 241, 242, 320, 322, 342, 555.

Option 2 – Cross-Cultural Comparison (6 hours)

Two ethnology courses, each representing a contrasting area.

Ethnology courses are: ANT 221, 428G, 431G, 534.

Subdisciplinary Breadth (6 hours)

One course in archaeology and one in physical anthropology.

Senior Tutorial Seminar

ANT 582 Senior Integrative Seminar
Anthropology Minor for Secondary Education (21 hours)

Required (6 hours)
ANT 220 Introduction to Cultural Anthropology .......... 3
ANT 230 Introduction to Biological Anthropology .......... 3

Select one course from each of the four areas and one elective (15 hours)

1. Archaeology
ANT 240 Introduction to Archaeology ...................... 3
ANT 242 Origins of New World Civilization .............. 3
ANT 320 Andean Civilization ...................................................... 3
ANT 322 Ancient Mexican Civilizations .................... 3

2. Area Studies
ANT 221 Native People of North America .................. 3
ANT 324 Contemporary Latin American Cultures .......... 3
ANT 326 People and Cultures of Sub-Saharan AfricaARIANT 327 Culture and Societies of India and South Asia.................. 3
ANT 428G Contemporary Cultures and Societies in Southeast Asia .................. 3

3. Physical Anthropology
ANT 332 Human Evolution ...................................................... 3
ANT 333 Contemporary Human Variation .................... 3

4. Social and Cultural Anthropology
ANT 301 History of Anthropological Theory ............... 3
ANT 338 Economic Anthropology ...................................................... 3
ANT 401 Gender Roles in Cross-Cultural Perspective .................. 3
ANT 433 Social Organization ...................................................... 3
ANT 525 Applied Anthropology ...................................................... 3
ANT 526 Psychological Anthropology ......................... 3
ANT 532 Anthropology of the State .......................... 3

Economics Major for Secondary Education (30 hours)

Required (12 hours)
ECO 201 Principles of Economics I .............................. 3
ECO 202 Principles of Economics II ............................ 3
ECO 401 Intermediate Macroeconomic Theory ............ 3
ECO 402 Intermediate Macroeconomic Theory ............ 3

For breadth, select five from the following list and, for depth, ECO 499, Seminar in Economics (Subtitle required) for 3 credits (18 hours)

ECO 412 Monetary Economics ............................................. 3
ECO 463 Analysis of Business Conditions .................. 3
ECO 465G Comparative Economic Systems .................. 3
ECO 467 American Economic History ......................... 3
ECO 471 International Trade ..................................................... 3
ECO 474G Economic Development ................................. 3
ECO 477 Labor Economics ...................................................... 3
ECO 479 Public Economics ...................................................... 3
ECO 499 Seminar in Economics (Subtitle required) .... 3

Economics Minor for Secondary Education (21 hours)

Required (6 hours)
ECO 201 Principles of Economics I .............................. 3
ECO 202 Principles of Economics II ............................ 3

Select for breadth any five of the courses listed for the major, excluding ECO 401 and 402 (15 hours)

Geography Major for Secondary Education (36 hours)

GEO 130 Earth’s Physical Environment ..................... 3
GEO 172 Human Geography ...................................................... 3
GEO 152 Regional Geography of the World or
GEO 160 Lands and Peoples of the Non-Western World ....... 3
GEO 300 Geographic Research .................................................. 3
GEO 305 Elements of Cartography .......................................... 3
GEO 310 Quantitative Techniques in Geography .......... 3

For breadth take at least one regional course and one thematic course in geography numbered at the 300 level or above (6 hours)

Core Requirements
Select a minimum of 12 hours of courses within geography numbered at the 200 level or above (12 hours)

Geography Minor for Secondary Education (21 hours)

GEO 130 Earth’s Physical Environment ..................... 3
GEO 172 Human Geography ...................................................... 3
GEO 152 Regional Geography of the World or
GEO 160 Lands and Peoples of the Non-Western World ....... 3
GEO 300 Geographic Research .................................................. 3
GEO 305 Elements of Cartography .......................................... 3
GEO 310 Quantitative Techniques in Geography .......... 3

Nine additional hours in geography at the 200 level or above (9 hours)

Political Science Major for Secondary Education (30 hours)

Required
PS 101 American Government ............................................. 3
Select two (6 hours)
PS 210 Introduction to Comparative Politics ............... 3
PS 230 Introduction to International Relations ............. 3
PS 240 Introduction to Political Theory ....................... 3
PS 372 Introduction to Political Analysis ....................... 3

Plus a minimum of 21 additional semester hours, of which at least 15 must be at the 300 level or above. In order to expose the student to the various subfields of political science, the combination of courses selected must include at least one course in each of the subfields 1, 2, and 3 below, as well as one course in another subfield (21 hours)

1. Theory and Methodology
PS 240 Introduction to Political Theory ....................... 3
PS 372 Introduction to Political Analysis ....................... 3
PS 441G Early Political Theory ................................................ 3
PS 442G Modern Political Theory ............................................. 3
PS 545 American Political Thought ............................ 3

2. Comparative Government
PS 210 Introduction to Comparative Politics ............... 3
PS 411G Comparative Government– Parliamentary Democracies I .......................... 3
PS 412G Comparative Government– Parliamentary Democracies II .......................... 3
PS 417G Survey of Sub-Saharan Politics ...................... 3
PS 419G The Governments and Politics of Eastern Asia .......................... 3
PS 427G East European Politics .................................................. 3
PS 428G Latin American Government and Politics ........ 3
PS 429G Government and Politics in Russia and the Post-Soviet States .................. 3

3. International Relations
PS 235 World Politics ...................................................... 3
PS 411G National Security Policy ............................................. 3
PS 433G Politics of International Economic Relations .... 3
PS 436G International Organization ............................................. 3
PS 437G Dynamics of International Law .......................... 3
PS 439G Special Topics in International Relations (Subtitle required) .................. 3
PS 538 Conflict and Cooperation in Latin American Relations .................................................. 3

4. Political Process
PS 470G American Political Parties ............................................. 3
PS 472G Political Campaigns and Elections .................. 3
PS 473G Public Opinion ...................................................... 3
PS 474G Political Psychology .................................................. 3
PS 475G Politics and the Mass Media ................................. 3
PS 476G Legislative Process .................................................. 3
PS 479 Women and Politics .................................................. 3
PS 480G Government and the Economy ......................... 3
PS 484G The American Presidency ............................................. 3
PS 571 Interest Groups ...................................................... 3

5. Public Administration
PS 489G The Analysis of Public Policy ......................... 3
PS 580 The Budgetary Process .................................................. 3

6. Public Law and Judicial Behavior
PS 461G Civil Liberties ...................................................... 3
PS 465G Judicial Politics ...................................................... 3
PS 465G Constitutional Law .................................................. 3

7. State and Local Government
PS 456G Appalachian Politics ............................................. 3
PS 458 American State and Local Government ............ 3
PS 557 Kentucky Government and Politics .................. 3

Note: The subfield designation for PS 391, PS 395, and PS 492 varies with the topic covered. Check with the department for current offerings relevant to social studies.

Political Science Minor for Secondary Education (21 hours)

Required
PS 101 American Government ............................................. 3
Select two (6 hours)
PS 210 Introduction to Comparative Politics ............... 3
PS 230 Introduction to International Relations ............. 3
PS 240 Introduction to Political Theory ....................... 3
PS 372 Introduction to Political Analysis ....................... 3

Twelve additional hours, of which at least 9 must be at the 300 level or above.

Breadth requirement: same as for major; select one course each from subfields listed for the major (12 hours)

Psychology Major for Secondary Education (30 hours)

Required (13 hours)
PSY 100 Introduction to Psychology ............................................. 4
PSY 313 Personality and Individual Differences ............ 3
PSY 314 Social Psychology and Cultural Processes ........ 3
PSY 333 Abnormal Psychology .................................................. 3
Select one (3 hours)
PSY 331 The Psychology of Adjustment ....................... 3
PSY 448 Applied Social Psychology ................................. 3
PSY 449 Interpersonal Processes ............................................. 3

Select one (4 hours)
PSY 215 Experimental Psychology ............................................. 4
PSY 430 Research in Personality ............................................. 4
PSY 440 Research in Social Psychology .......................... 4
PSY 460 Processes of Psychological Development ........ 4

The remaining hours are elective (10 hours)
Psychology Minor for Secondary Education (19-20 hours)

The required courses are the same as for the major (13 hours)

**Select one (3 hours)**

PSY 331 The Psychology of Adjustment ................. 3
PSY 448 Applied Social Psychology ...................... 3
PSY 449 Interpersonal Processes ............................ 3

**Select one (3-4 hours)**

PSY 215 Experimental Psychology .......................... 4
PSY 311 Learning and Cognition ............................ 3
PSY 312 Brain and Behavior .................................. 3
PSY 430 Research in Personality ............................ 4
PSY 440 Research in Social Psychology .................... 4
PSY 460 Processes of Psychological Development ....... 4

Sociology Major for Secondary Education (30 hours)

**Required** (6 hours)

SOC 101 Introduction to Sociology ............................. 3
One additional SOC course chosen in consultation with your academic advisor .......................... 3

**Select one (6 hours)**

SOC 302 Sociological Research Methods and
SOC 303 Quantitative Sociological Analysis ............. 6
OR
SOC 304 Classical Sociological Theory ........................ 6
SOC 305 Contemporary Sociological Theory ............ 6
Electives ..................................................................... 18

At least 6 of the remaining 18 hours must be at the 300 level or higher.

Sociology Minor for Secondary Education (21 hours)

**Required** (6 hours)

SOC 101 Introduction to Sociology ............................. 3
One additional SOC course chosen in consultation with your academic advisor .......................... 3

**Select one (6 hours)**

SOC 302 Sociological Research Methods and
SOC 303 Quantitative Sociological Analysis ............. 6
OR
SOC 304 Classical Sociological Theory ........................ 6
SOC 305 Contemporary Sociological Theory ............ 6
Electives ..................................................................... 9

At least 6 of the 9 hours must be at the 300 level or higher.

Electives

Electives for 120 total credit hours chosen with the help of an advisor.

**TOTAL HOURS** .................................................. 120

Mathematics Major

Mathematics Core Courses
CS 115 Introduction to Computer Programming .................. 3
*MA 113 Calculus I ................................................... 4
*MA 114 Calculus II .................................................. 4
*MA 213 Calculus III .................................................. 4
*MA 261 Introduction to Number Theory ............................. 3
MA 322 Matrix Algebra and Its Applications ....................... 3

Mathematics Sequence
Choose one. May substitute a different sequence with prior faculty approval (6 hours minimum):
MA 351 Elementary Topology I ..................................... 3
and
MA 352 Elementary Topology Algebra II .......................... 3
OR
MA 361 Elementary Modern Algebra I ................................ 3
and
MA 362 Elementary Modern Algebra II .............................. 3
OR
MA 471G Advanced Calculus I ........................................ 3
and
MA 472G Advanced Calculus II ...................................... 3

Required Mathematics Electives
Courses at the 300 level or above with exception of MA 241; 12 hours minimum:
MA 310 Mathematical Problem Solving for Teachers .......... 3
MA/STA 320 Introductory Probability .................................. 3
MA 330 History of Mathematics ...................................... 3
MA 341 Topology in Geometry ........................................ 3

Optional Courses
MA 214 Calculus IV (recommended for AP Calculus) ......... 3
MA 471G Advanced Calculus I (recommended for MA/MS in Mathematics) .................. 3

Mathematics Major hours ................................................. 39
*Eligible to meet a UK Core requirement.
*Required for TEP Application.

Physics Major
*CHE 105 General College Chemistry I ............................. 4
*CHE 107 General College Chemistry II ........................... 3
*PHY 231 General University Physics ................................ 4
PHY 252 General University Physics .................................. 4
PHY 228 Optics, Relativity and Thermal Physics ............... 3
PHY 306 Theoretical Methods of Physics .......................... 3
PHY 335 Data Analysis for Physicists .............................. 1
PHY 361 Principles of Modern Physics .............................. 3
PHY 401G Special Topics in Physics ................................. 3
and
Astronomy for Elementary, Middle School and High School Teachers .................................................. 3
PHY 460G Hands-On Physics for Middle School and High School Teachers (taken twice for a total of 4 hours) .................................................. 4
AST 310 Topics in Astronomy and Astrophysics
(Subtitle required) ..................................................... 3
*MA 113 Calculus I ................................................... 4
*MA 114 Calculus II .................................................. 4
*MA 213 Calculus III .................................................. 4

Physics Major hours ..................................................... 47
*Eligible to meet a UK Core requirement.
*Required for TEP Application.

Free Elective
Select 3 hours of your choice. You may not double count these courses with your major content course requirements or UK Core requirements or your STEM content support courses. All courses should be approved by advisor prior to taking.

STEM Content Support Courses
Take up to 120 hours required for graduation. Select from each area of interest – you must choose at least 3 hours from Engineering unless you are a computer science major.
You may not double count these courses with your major content course requirements or UK Core requirements. This list is not inclusive. All courses should be approved by advisor prior to taking. SEM 575 is required for mathematics and computer science majors. It is highly encouraged for other majors.

Mathematics/Statistics
FIN 350 Personal Investing and Financial Planning .............. 3
STA 291 Statistical Methods ........................................... 3
STA 281 Probability and Statistics ................................. 3
Using Interactive Computer Techniques ............................. 4
STA 292 Descriptive Statistics ........................................ 3
MA 501/502 Seminar in Selected Topics ............................ 3
OR/STA 524 Probability .................................................. 3
EDC/EDP/EPE 522 Psychological and Educational Tests and Measurements .............................................. 3
SEM 575 See Blue Mathematics Clinic (required for Math Certification) ................................................. 3

Engineering
**ME 599 Topics in Mechanical Engineering
(Subtitle required) ....................................................... 3
EGR 101 Introduction to Engineering ............................... 4
**EGR 199 Topics in Engineering: Title to Be Assigned ........ 3
**EGR 199 Topics in Engineering: Title to Be Assigned ........ 3

Technology
CS 115 Introduction to Computer Programming .................. 3
MAS 201 Communication Technologies and Society ............. 3
INF 401G Informatics Fundamentals ................................ 3
EDC 543 Digital Game Based Learning and Instruction ....... 3
EDC 544 Use and Integration of Instructional Media ............ 3
CS 215 Introduction to Program Design, Abstraction, and Problem Solving .................................................. 4
CS 221 First Course in Computer Science
for Engineers ................................................................ 2
CS 316 Web Programming .............................................. 2

Science
CHE 105 General College Chemistry I ............................. 4
CHE 111 Laboratory to Accompany General Chemistry I ....... 3
BIO 150 Principles of Biology I ....................................... 3
BIO 151 Principles of Biology Laboratory I ....................... 2
PHY 231 General University Physics .................................. 4
PHY 241 General University Physics Laboratory ............... 1
EES 220 Principles of Physical Geology ......................... 3

**The subtitle for this course must directly relate to STEM content. Check with your advisor for verification prior to taking the course.
Minimum 120 credit hours required for graduation and Rank III certification.

TOTAL HOURS ......................................................... 120

Additional course needed to gain certification in in Mathematics (grades 8-12):
MA 341 Topics in Geometry ............................................. 3

Computer Science Premajor
and Major hours ......................................................... 67-70
*Eligible to meet a UK Core requirement.
*Required for TEP Application.

Computer Science Endorsement Only
(and add on to any content major)
Leads to endorsement in Computer Science (grades 8-12):
†MA 113 Calculus I ................................................... 4
MA 114 Calculus II .................................................... 4
CS 100 The Computer Science Profession ........................... 1
CS 115 Introduction to Computer Programming ................. 3
CS 215 Introduction to Program Design, Abstraction, and Problem Solving Techniques ......................... 4
CS 216 Introduction to Software Engineering ..................... 3
CS 275 Discrete Mathematics .................................... 4
EE 280 Design of Logic Circuits .................................... 3
CS 315 Algorithm Design and Analysis ........................... 3
CS/EE 380 Computer Organization .................................. 3

Computer Science Electives
Complete 15 hours of electives, with at least one course from each group below:

at least one of the following courses (3 hours):
CS 316 Web Programming ............................................ 3
CS 335 Graphics and Multimedia .................................... 3
CS 405G Introduction to Database Systems ....................... 3

at least one of the following courses (3 hours):
CS 470G Introduction to Operating Systems ...................... 3
CS 471G Networking and Distributed Operating Systems ....... 3
CS 441G Compilers for Algorithmic Languages ................ 3
CS 450G Fundamentals of Programming Languages .......... 3

at least one of the following courses (3 hours):
CS 375 Logic and Theory of Computing .......................... 3
CS 321 Introduction to Numerical Methods ....................... 3
CS 463G Introduction to Artificial Intelligence ............... 3

Computer Science Endorsement Only hours ....................... 46
*Eligible to meet a UK Core requirement.

Earth Science Major

Earth Science Major hours ................................................ 54
*Eligible to meet a UK Core requirement.
*Required for TEP Application.

University of Kentucky 2016-2017 Undergraduate Bulletin 239
The Undergraduate Certificate in Leadership Studies will allow students to demonstrate their preparedness to lead, live, and work in an interconnected and interdependent global community. Students will improve their understanding of leadership and develop the skills needed to lead in their particular field through a series of courses designed to provide a rich leadership focus.

The modern workplace demands employees who understand the foundations of leadership, can navigate organizational change, value community leadership and relationships, and who embrace ethics, diversity, and an international understanding. Students who participate in this Undergraduate Certificate in Leadership Studies will master these skills and benefit from an additional degree credential, that alongside their major(s) and/or minor(s) demonstrates their dedication to and experiences with leadership.

The structure of the Undergraduate Certificate in Leadership Studies offers a coherently planned academic core for students who otherwise might take very few courses that have an explicit focus on leadership. The core of the Certificate consists of four distinct pillars that are complimentary to a student’s major(s) and/or minor(s) demonstrates their dedication to and experiences with leadership.

The modern workplace demands employees who understand the foundations of leadership, can navigate organizational change, value community leadership and relationships, and who embrace ethics, diversity, and an international understanding. Students who participate in this Undergraduate Certificate in Leadership Studies will master these skills and benefit from an additional degree credential, that alongside their major(s) and/or minor(s) demonstrates their dedication to and experiences with leadership.

The structure of the Undergraduate Certificate in Leadership Studies offers a coherently planned academic core for students who otherwise might take very few courses that have an explicit focus on leadership. The core of the Certificate consists of four distinct pillars that are complimentary to a variety of existing undergraduate programs and are reflected throughout the content of course work in the following ways:

- Understanding core concepts about leadership
- Fostering team and organizational leadership
- Embracing community leadership
- Focusing on intercultural communication skills

Leadership Studies Program of Study

The program consists of 18 credits of undergraduate study in leadership. Students will take one course from each of the four pillars and two additional elective leadership courses.

Leadership Foundations (3 credits)
CLD/EDL 402 Principles of Leadership ........................................... 3
CLD 230 Intrapersonal Leadership ............................................. 3

Organizational Change (3 credits)
EDL 571 Design Thinking in Education ........................................ 3
CLD 530 Fundamentals of Organizational Leadership ....................... 3

Community Leadership and Relationships (3 credits)
CLD 430 Leading in Communities: Vision, Action, and Change ............ 3
CLD/EDL 404 Contemporary Leadership Applications ......................... 3
CLD 260 Community Portraits .................................................. 3
CLD 330 Interpersonal Skills for Tomorrow’s Leaders ......................... 3

Ethics, Diversity, and International Understanding (3 credits)
CLD 470 Topics in Leadership (Subtitle required) ......................... 3
CLD/EDL 403 Leadership and Communication .............................. 3
Any university-approved study abroad experience

Electives (6 credits)
Any course in the above pillars not already counted
Any approved study abroad experience (can only count 3 credits for certificate)

Approved courses include but are not limited to:
AMS 301 Leadership and Management I ........................................ 3
AMS 341 Leadership and Management II .................................... 3
AMS 395 Independent Study in Leadership ................................... 1-2
COM 252 Introduction to Interpersonal Communication .................... 3
COM 261 Communication in Small Groups .................................... 3
COM 255 Introduction to Organizational Communication ................... 3
MGT 410 Analysis of Organizational Behavior ................................ 3
MGT 520 Survey of Human Resource Management .......................... 3
*UK 100 University Course (Title to be assigned) ........................... 1-3

*To be taken only when subtitle is Emerging Leadership Institute.

Other Vital Elements
At least 12 credit hours must be taken for a letter grade
At least 12 credits at 200-level or above and a minimum of 6 credit hours at 300-level or above
Students must earn a C or better in each required certificate course
At least one course needs to be taken in each discipline (EDL or CLD)

No more than 9 credits in the certificate are used to satisfy requirements for the student’s bachelor’s degree, minor, or another certificate (exclusive of free or unrestricted electives)

For questions regarding this program, contact Program Director Dr. Jayson W. Richardson at jayson.richardson@uky.edu, or (859) 379-9097.
The College of Engineering offers programs leading to undergraduate and graduate degrees in computer science and/or the following engineering disciplines—biomedical, chemical, civil, computer, electrical, materials, mechanical, and mining. Graduate training in biomedical engineering is also offered through the College of Engineering. The College also offers a highly multidisciplinary master of science in manufacturing systems engineering to address the growing need for enhancing manufacturing productivity and quality.

Creative accomplishment in the career of an engineer or computer scientist depends upon an education that stresses major ideas and fundamental concepts of engineering rather than specific technologies. The academic programs in engineering provide a sound background in the mathematical, physical, and engineering sciences blended with the social sciences and humanities to ensure both a thorough education in engineering and a liberal education. Such an approach provides the best preparation for the engineer or computer scientist who must envisage and develop the technologies of the future and deal with scientific advances at present unknown.

The various curricula in the College of Engineering are broad, so that no student is limited to a narrow field of specialized knowledge but receives sufficient technical depth to provide a sound preparation for a professional career.

The College of Engineering produces over 600 graduates per year. Among the alumni of the College of Engineering are those who have distinguished themselves in the major fields of industry, government and education.

Concern for the individual is a most important feature of education in the College of Engineering. Close faculty-student relationships are a meaningful part of the educational process. The faculty, in addition to their duties related to instruction and research, serve as advisors to the student in the preparation of the academic program best matched to the student’s needs and intellectual capabilities.

Accreditation and Program Assessment

The undergraduate programs in Biosystems Engineering, Chemical Engineering, Civil Engineering, Computer Engineering, Electrical Engineering, Materials Engineering, Mechanical Engineering and Mining Engineering are accredited by the Engineering Accreditation Commission of ABET, www.abet.org

In addition, the University of Kentucky is accredited by the Southern Association of Colleges and Schools (SACS), and therefore all degree programs and certificates including those in the College of Engineering are governed by the rules associated with that accrediting body. All programs are assessed periodically based on achievement of their self-proclaimed student learning outcomes and the results are used in the improvement of those programs and certificates.

Undergraduate Certificate in Engineering

The University of Kentucky grants the following undergraduate certificate in the College of Engineering:

- Power and Energy

Information and requirements for this certificate are listed after the Bachelor of Science in Electrical Engineering.

Undergraduate Programs in Engineering

The University of Kentucky grants the following degrees in the College of Engineering:

- Bachelor of Science in Biosystems Engineering
- Bachelor of Science in Chemical Engineering
- Bachelor of Science in Civil Engineering
- Bachelor of Science in Computer Engineering
- Bachelor of Science in Computer Science
- Bachelor of Science in Electrical Engineering
- Bachelor of Science in Materials Engineering
- Bachelor of Science in Mechanical Engineering
- Bachelor of Science in Mining Engineering

While these are the official degrees granted at the bachelor’s level in the college, the prospective student is encouraged to study the wide variety of options available through technical electives, some of which are listed following the degree requirements of each department. Technical electives are included in each curriculum to allow the student to apply the fundamentals of a particular discipline to an area of special interest during the senior year.

Students in any department interested in biomedical engineering may make special arrangements to include a limited amount of such studies in the undergraduate program. In addition, students have the option to pursue a biomedical engineering minor as described on page 244. Biomedical engineering is primarily the application of engineering principles to the solution of medical problems.

Students in a number of our engineering programs have the option to complete pre-medical requirements while pursuing the engineering degree. Interested students should contact their academic advisor.

In response to industry requests, the College of Engineering and the Gatton College of Business and Economics have joined to offer a coordinated Bachelor of Science in Engineering and Masters of Business Administration. The MBA will be taken during a student’s fifth year of study beginning in the summer and finishing the following spring semester. In addition, students in the program will be required to complete a study abroad program designed specifically for the engineering/business student. This program will be conducted immediately upon completion of the MBA course requirements and the majority of costs will be paid by the program. Students earning a 3.25 or better GPA and having completed their junior year will be identified and will receive a letter accepting them to apply for the program. Admission is highly competitive and is limited based upon the financial resources available. Selection is based on past academic performance, communication skills, and commitment to the program.

For engineering students interested in manufacturing, the University offers a dual-degree program. This program allows students pursuing a B.S. in Electrical Engineering or Mechanical Engineering to concurrently enroll in the M.S. in Manufacturing Systems Engineering. The BSEE/MSMSE or BSME/MSMSE dual-degree programs can be completed in five years. Students in the program are strongly encouraged to be Co-op students or to do industry internships to supplement their course work with industry experience. During their junior year, students should apply to the Graduate School for admittance into the dual-degree program.
College of Engineering

Graduate programs in the engineering fields of study are listed in The Graduate School section of this Bulletin.

ADMISSION POLICY

The minimum entry requirement for admission into the College of Engineering is:

- ACT math score of 23 or higher, or the SAT equivalent.

Four alternative admission routes include:

1. 3 or above on the Calculus AB portion of the Advanced Placement Exam;
2. Eligibility to enter MA 110 based on the UK Math Department Placement Exam;
3. Completion of the equivalent of MA 110 with a grade of C or higher;
4. Completion of the equivalent of MA 109 and MA 110/112 with a grade of C or higher.

Additionally, students must meet the minimum Kentucky statewide academic readiness requirements for Reading and Writing to be admitted to the College of Engineering:

- Reading: Students must have an ACT Reading subscore of 20 or above (or SAT subscore of 470 or above in Critical Reading);
- English/Writing: Students must have an ACT English subscore of 18 or above (or SAT of 430 or above in Writing).

International Students

Freshmen:

International freshman applicants must have both the minimum ACT/SAT scores, and must obtain a Test of English as a Foreign Language (TOEFL) score of 100 or above with no subscore under 20; or an International English Language Testing System (IELTS) score of 7.5 with no subscore under 6.0.

Transfer:

In addition to the alternative routes listed above, international transfer applicants must obtain a Test of English as a Foreign Language (TOEFL) score of 71 or above; an International English Language Testing System (IELTS) score of 6.0; or completion of the first and second English composition classes (e.g., ENG 101 and 102) from another US college, i.e., institution upon review. Students who successfully complete UK’s English as a Second Language (ESL) program must retake the TOEFL and earn a minimum score of 71, or the IELTS and earn a score of 6.0.

First-Year Engineering Program

All newly admitted students will be considered undeclared for their first two semesters as part of the First-Year Engineering Program. During this first year, they will have the opportunity to participate in hands-on engineering activities and explore all the engineering and computer science disciplines. Students will choose a major during registration in the second semester. Transfer students will have the option to declare their major upon admission to the college.

Upon declaring their major, students will be designated as pre-major until they meet engineering standing requirements. Every student must be admitted to engineering standing in a specific program for at least the final semester before graduation.

Engineering Standing Admission

Admission to engineering standing in a degree program is necessary in order to be granted a baccalaureate degree in engineering or computer science. Specific departmental requirements for admission to engineering standing are noted below. The same criteria are applied to transfer students with the equivalence of courses determined by the Director of Undergraduate Studies. A student must apply to the specific department for admission to engineering standing. Note: The cumulative grade-point average includes all listed college-level work taken at the University of Kentucky or elsewhere.

Students can request qualification for engineering standing after completing the required set of standing courses in the first three semesters of the published curriculum in their chosen program. Each program can specify its engineering standing requirements, but no program may specify a GPA higher than 2.50 for engineering standing.

Requirements by a program for engineering standing may include many items, such as courses counted in the first three semesters, repeat options allowed, number of applications for engineering standing allowed, restrictions on taking upper-level courses, minimum course grades, etc. A student should refer to the UK Bulletin and the undergraduate advisor in their program of choice to identify the specific requirements.

Biosystems Engineering: Completion of a minimum of 35 semester hours acceptable towards the degree in biosystems engineering with a minimum cumulative grade-point average of 2.50. Completion of CIS/WRD 110, MA 113, MA 114, MA 213, CHE 105 and PHY 231 with a minimum cumulative GPA of 2.50 in these courses. University repeat options may be utilized as appropriate. Students who do not meet these GPA requirements may request consideration based upon departmental review if the first two GPAs are 2.25 or greater and they receive a C or better in both EE 211 and EE 282.

Chemical Engineering: Completion of the following courses with a grade-point average of at least 2.50: EGR 101, CS 215, CS 275, CIS/WRD 110, MA 113, MA 114, PHY 231, PHY 241.

Computer Science: Completion of the following courses with a grade-point average of at least 2.50: CIS/WRD 110, CS 215, CS 275, CIS/WRD 110, MA 113, MA 114, PHY 231, PHY 241.

Electrical Engineering: Completion of a minimum of 35 semester hours acceptable towards the degree in electrical engineering with a minimum cumulative grade-point average of 2.50. Completion of MA 113, MA 114, MA 213, PHY 231, CHE 105, and CIS/WRD 110 with a minimum cumulative GPA of 2.50 in these courses. Completion of EE 211 and EE 282 with passing grades. University repeat options may be utilized as appropriate. Students who do not meet these GPA requirements may request consideration based upon departmental review if the first two GPAs are 2.25 or greater and they receive a C or better in both EE 211 and EE 282.

Materials Engineering: Completion of CHE 105, CHE 107, CHE 111, CHE 113, MA 113, MA 114, MA 213, PHY 231, PHY 241, CIS/WRD 110 with a minimum cumulative grade-point average of 2.50 in these courses. Completion of MSE 201 with a grade of C or better. University repeat options may be applied as appropriate.

Mechanical Engineering: To earn engineering standing, mechanical engineering students must have completed at least 35 semester credit hours applicable to the degree program with a minimum cumulative GPA of 2.50. In addition, completion of EGR 101, EGR 102, EGR 103, CIS/WRD 110 and CIS/WRD 111 (or transfer equivalent courses), CHE 105, MA 113, MA 114, MA 213, PHY 231 and PHY 241 with a minimum cumulative GPA of 2.50 in these courses. While a student may exercise up to three official University of Kentucky Repeat Options to improve his/her cumulative grade-point average, only one can be used for the subset of classes listed above for the purpose of calculating engineering standing. Written request for exception to the allowed number of repeats should be submitted to the Director of Undergraduate Studies.
**MINIMUM REQUIREMENTS FOR GRADUATION**

**NOTE:** The following graduation requirements apply to engineering programs only. Separate graduation requirements currently apply to the Computer Science program as described in the corresponding section.

To be awarded a Bachelor of Science degree in any field of engineering, a student must:

1. complete the University and College requirements relating to writing and the UK Core.
2. complete a minimum of 128 hours, exclusive of those earned in freshman college algebra and freshman college trigonometry, with a cumulative standing of not less than 2.0 on a 4.0 scale. In all departments the course requirements exceed this 128 hour minimum.
3. be admitted to engineering standing in an engineering program for at least the final semester, and complete the requirements of that program.
4. complete a minimum of 24 credit hours of departmental courses at or above the 300 level.
5. complete all departmental courses and technical electives with a cumulative standing of 2.0 or higher.
6. complete any additional departmental graduation requirements that may be listed below.

**Additional Departmental Graduation Requirements**

In the B.S. program in Civil Engineering, the student must earn a C or better in each CE prefix course, except that a maximum of one D is permitted in a CE prefix course numbered 400 or higher. In addition, a C or better must be earned in EM 302.

In the Mining Engineering Department, the student must have earned a grade of C or better in the following courses that are valuable for safe operation of mines: MNG 341, Mine Ventilation; MNG 551, Rock Mechanics; MNG 591, Mine Design Project I; and MNG 592, Mine Design Project II.

**Second Bachelor’s Degree Requirements**

A student who has earned a bachelor’s degree in the College of Engineering may earn a second bachelor’s degree by meeting the following three conditions on the work applicable to the second degree:

1. The student must have been admitted to engineering standing in the program leading to the second degree at least for the final semester, or equivalent terms, prior to the completion of the degree requirements, and...
must be enrolled as a student in that degree program during the final semester or term.
2. The student must complete a minimum of 15 credit hours of departmentally approved courses at or above the 300 level.
3. To earn a second degree, a student must complete all degree requirements in that program.

ACADEMIC ADVISING
Sophomores, juniors, and seniors are advised jointly by faculty and professional staff in the department of the student’s major. Professional staff provide academic advising and support services to entering freshman students through the Freshman Advising Center.

It is the students’ responsibility to satisfy University and College requirements with consultation from their advisor.

PROBATION AND ACADEMIC SUSPENSION
Students should refer to the Academic Requirements section of this Bulletin for information concerning the College of Engineering’s probation and academic suspension rules.

Minor in Biomedical Engineering

The minor in Biomedical Engineering requires:

a) a minimum of 18 hours of course work; b) a GPA of 2.5 in these courses; and c) no grade lower than a C in any BME course. At the discretion of the BME department chair (or designee), a limited number of equivalent course substitutions (i.e., 6 credit hours) may count toward the requirements for this minor. At least 12 credits must have the BME prefix.

Required Course
BME 301 Fundamentals of Biomedical Engineering .......... 3

Elective Courses
*Select five from among the following:
BME 395 Independent Research in Biomedical Engineering ........................................ 1-6
BME 405 Introduction to Biomedical Signal Processing .............................................. 3
BME 472 Human Biomechanics .............................................. 3
BME 485 Fundamentals of Biofluid Mechanics ..................... 3
BME 488 Introduction to Biomaterials ............................................. 3
BME 508 Cell Mechanics and Mechatronics ..................... 3
BME 515 Modeling of Physiological Systems ............ 3
BME 530 Biomedical Instrumentation ......................... 3
BME 540 Mechanical Modeling of Human Motion ........... 3
BME 579 Neural Engineering: Merging Engineering with Neuroscience .......... 3
BME 580 Introduction to Biomedical Imaging .................... 3
BME 481G Topics in Biomedical Engineering ................. 3
BME 599 Topics in Biomedical Engineering
(Subtitle required) .................................................. 3

*Up to 6 credit hours of independent research (e.g., BME 395) or special topics courses (e.g., BME 481G or BME 599) may count as electives.

Degree Requirements

Each student must complete the following:

UK Core Requirements

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

I. Intellectual Inquiry in Arts and Creativity

### BACHELOR OF SCIENCE IN CHEMICAL ENGINEERING

A foundation in mathematics, chemistry, and physics is required for the study of chemical engineering. Fundamental principles related to the transformation of matter and energy are developed in subjects including thermodynamics, fluid flow, separations, heat and mass transfer, reactor design, and chemical process design. Undergraduate electives are available in biopharmaceutical engineering, energy and fuels, environmental engineering, and materials engineering and nanotechnology. A program is also available to fulfill pre-medical requirements simultaneously with requirements for the B.S. in chemical engineering.

The educational objectives of the chemical engineering program state that graduates will:

- Excel in their chosen career pathways, as practicing chemical engineers or through the pursuit of advanced technical or professional degrees.
- Impact their profession through effective leadership, communication, teamwork, and through creative problem solving to address global and societal issues.
- Apply their engineering training to contribute to the health, safety, environmental and economic well-being of their communities.
- Seek out continuing education, professional development and career advancement opportunities.

### Degree Requirements

The following curriculum meets requirements for the B.S. in chemical engineering, provided the student satisfies the graduation requirements listed earlier.

Each student must complete the following:

#### UK Core Requirements

See the **UK Core** section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

1. Intellectual Inquiry in Arts and Creativity
   - EGR 101 Engineering Exploration I § Δ | 1 |
   - EGR 103 Engineering Exploration II Δ | 2 |

2. Intellectual Inquiry in the Humanities
   - Choose one course from approved list | 3 |

3. Intellectual Inquiry in the Social Sciences
   - Choose one course from approved list | 3 |

4. Intellectual Inquiry in the Natural, Physical, and Mathematical Sciences
   - CHE 105 General College Chemistry I | 4 |
   - CHE 111 Laboratory to Accompany General Chemistry I | 1 |

5. Composition and Communication I
   - CIS/WRD 110 Composition and Communication I | 3 |

6. Composition and Communication II
   - CIS/WRD 111 Composition and Communication II | 3 |

7. Quantitative Foundations
   - MA 113 Calculus I | 4 |

8. Statistical Inferential Reasoning
   - STA 381 Engineering Statistics – A Conceptual Approach | 3 |

9. Community, Culture and Citizenship in the USA
   - Choose one course from approved list | 3 |

10. Global Dynamics
    - Choose one course from approved list | 3 |

11. UK Core hours | 33 |

#### Graduation Composition and Communication Requirement (GCCR)

CME 456 Chemical Engineering Process Design II .......... 4
CME 462 Process Control ............................................ 3
STA 381 Engineering Statistics – A Conceptual Approach ... 3

Subtotal: Major hours ............................................. 60

In addition to the premajor and major requirements, students must complete the following:

Engineeing/Science Electives .............................. 3

Totaling three or more credit hours for each course. Students must select four courses, as follows:

1. One chemical engineering elective: (CME 395*, 404G, 505, 515, 542, 554, 556, 580, 599)
2. One science/math elective (totaling 3 or more credit hours**) that is not a more elementary version of a required course.
   b. Chemistry (CHE 226, 250, 510 and above)
   c. Biology (BIO 148 and above)
   d. Physics (PHY 241 and above)
   e. Other courses by approval of Director of Undergraduate Studies
3. One engineering elective (level 300 and above) that does not significantly duplicate content in a core chemical engineering course (e.g., ME 330) or a CME elective (CME 395 and above).
4. One chemical engineering elective (CME 395 and above) or one engineering elective (level 300 and above) or one science/math elective as described above.

*CME 395 (3 credits) can be used to satisfy only one elective requirement.

** Students may combine multiple qualifying courses that total 3 credits (e.g. pre-medical students may wish to combine PHY 241, 242 and CHE 233).

Subtotal: Engineering/Science Electives: ........................... 12

Supportive Elective
The supportive elective can be any course that carries college credit and is not a more elementary version of a required course. The student completing 3 co-op tours (EGR 399) may count the co-op experience toward the supportive elective.

Subtotal: Supportive Elective: ........................................ 3

§ Transfer students who declare a major will take EGR 112, Engineering Exploration for Transfer Students, in place of EGR 101.

Students must complete both EGR 101 and EGR 103 to fulfill the UK Core Arts and Creativity requirement.

Based on advisor consult.

*B on Graduation Composition and Communication Requirement (GCCCR) course.

BACHELOR OF SCIENCE IN CHEMICAL ENGINEERING – PADUCAH

In addition to the program on the Lexington campus, students can pursue a B.S. degree in chemical engineering through the College’s Extended Campus Program in Paducah, Kentucky. The Paducah program uses the same curriculum as the main campus, but provides the opportunity for students to complete all B.S. degree requirements without having to relocate to Lexington.

Consistent with our Vision and Mission statements, the chemical engineering program at the University of Kentucky, including the Extended Campus in Paducah, strives to meet the following specific educational objectives:

- prepare our graduates to successfully pursue careers in engineering practice and/or academia; 
- provide a broad education as a foundation for lifelong learning; and
- equip our graduates with the ability to carry out problem-solving strategies in engineering.

The Paducah chemical engineering program collaborates with West Kentucky Community and Technical College to provide the foundational math and science courses, as well as the general studies course requirements. Murray State University faculty members teach upper-level non-engineering courses on the Paducah campus. On-site UK chemical engineering faculty members and jointly-appointed Murray engineering faculty members teach the upper-division engineering courses. Program admission, course registration, student advising and other student services all can be completed at the Paducah site.

Degree Requirements

The curriculum requirements for the B.S. degree in chemical engineering in Paducah are identical to those on the Lexington campus. Refer to those degree requirements for the Paducah degree program. Not all electives listed for the Lexington program will be available in Paducah. The student must satisfy the College graduation requirements listed earlier.
BACHELOR OF SCIENCE IN CIVIL ENGINEERING

The student of civil engineering has a broad field of study to provide a strong foundation for entry into the profession or graduate school. Major areas include construction engineering and project management, environmental engineering, geotechnical engineering, materials engineering, structural engineering, transportation engineering, and water resources engineering.

The program educational objectives for the civil engineering program reflect the mission of the Department of Civil Engineering. They are important for successful professional practice and the ability to pursue advanced degrees. Civil Engineering graduates from the University of Kentucky will:

1. Excel in Civil Engineering or a related career.
2. Create ethical and sustainable solutions.
3. Seek professional licensure.

Degree Requirements

The following curriculum meets the requirements for a B.S. in civil engineering, provided the student satisfies the graduation requirements listed earlier.

Each student must complete the following:

UK Core Requirements

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

I. Intellectual Inquiry in Arts and Creativity

§ Transfer students who declare a major will take EGR 112, Engineering Exploration for Transfer Students, in place of EGR 101.

\[\square\] Students must complete both EGR 101 and EGR 103 to fulfill the UK Core Arts and Creativity requirement.

* Based on advisor consult.

† Only if enrolled in PHY 231.

*Graduation Composition and Communication Requirement (GCCR) course.

**CE communication throughout the curriculum component.

[1] MA 220 or EM 231.

College of Engineering

409, EES 550, EES 585, MNG 551, or the other half of the Engineering Science Elective in [1]. NOTE: MA 322 is required for a math minor.

[3] CE 482 or CE 486G.

[4] Students are required to select two design electives from different areas. Choose from: CE 598, CE 531, or CE 533, CE 534, CE 549, CE 551, CE 579, CE 589. Design elective courses are typically taught once a year.

[5] Technical Electives are to be chosen from any of the courses at the 300-level or above that carry a CE prefix and in which a student is qualified to enroll, exclusive of required courses. Engineering elective courses are typically taught once a year.

[6] Supportive elective is to be chosen from any University course, excluding a more elementary version of a required course, such as precalculus mathematics or PHY 211. However, each CE area has at least one recommendation for the supportive elective. Please review the Optional Concentration section in the Civil Engineering Undergraduate Handbook. The supportive elective can be taken pass/fail.

BACHELOR OF SCIENCE IN CIVIL ENGINEERING

Joint-Degree Program Offered by Western Kentucky University (WKU) and the University of Kentucky (UK)

As part of the “Strategy for Statewide Engineering Education in Kentucky,” adopted July 17, 2000 by all the chief executive officers of Kentucky universities and endorsed by the Kentucky Council on Postsecondary Education (CPE), the vision was expressed that “access to undergraduate engineering education will expand primarily through the creation of joint programs managed by multiple postsecondary institutions.” In response, WKU and UK now jointly offer an ABET-accredited baccalaureate degree in civil engineering on the WKU campus in Bowling Green, Kentucky. By CPE definition, a joint-degree program is “a program that is mutually sponsored by two or more institutions leading to a single credential or degree, which is conferred by both or all participating institutions. All institutions share responsibility for all aspects of the program’s delivery and quality.”

The joint civil engineering program is one of only three such joint-degree programs in Kentucky; the others include a joint-degree program between WKU and UK in mechanical engineering, between WKU and the University of Louisville (UL) in electrical engineering.

The WKU/UK joint programs emphasize a project-oriented educational approach. Courses are provided by both WKU and UK faculty. Students are required to complete a minimum of 15 credit hours of engineering course work taught by UK engineering faculty. At present, the UK contribution is provided primarily by distance delivery via interactive television. The curriculum of the joint civil engineering program is under the direction of a joint program faculty, with equal representation from each participating institution.

The curriculum for entering students requires 137 credit hours, with the General Studies component based on the requirements of WKU. Students who complete the program will receive a B.S. degree conferred jointly by WKU and UK. Under the terms of the agreements between the degree-awarding institutions, WKU provides basic administrative support for students in the joint-degree program, including admission services, registration, and student financial aid. In addition, academic advising, laboratory and equipment support, and library and media resources are supplied by WKU.

The civil engineering curriculum approved within UK is listed below. The joint program faculty are responsible for on-going review of the curricular requirements.

Degree Requirements

Fall Semester
Freshman Year

CE 382 or 373 Structural Analysis .................................. 3
CE 410/411 Soil Mechanics and Lab ............................... 3/1
CE 342 Fluid Thermal Science ....................................... 4
CE 370/371 Materials of Constr and Lab ......................... 2/1
STAT 301 Probability and Statistics ............................. 3
Category F Health and Wellness Elect .......................... 1
Total ............................................................................... 18

Spring Semester
CE 316 Equipment and Methods .................................... 3
CE 331 UK - Transportation Engineering ....................... 3
ENG 300 Junior English ............................................... 3
CE 412 Foundation Engineering ...................................... 3
CE 384 Reinforced Concrete Design [1] ......................... 3
Total ............................................................................... 18

Total HOURS .......................... 137

[1] Instead of CE 384 Reinforced Concrete Design, students may take CE 482 Elementary Structural Design or CE 483 UK-Elementary Structural Design if offered.

[2] A two (2) course sequence in four different civil engineering areas is required. The curriculum already includes a two (2) course sequence in structures, geotechnical engineering, and construction. Therefore, each student must select one of their technical electives to cover an additional area such as surveying, materials, environmental engineering, hydrology, or transportation.

BACHELOR OF SCIENCE IN COMPUTER ENGINEERING

Program Educational Objectives

Computer Engineers shape the way people work, play, live and learn in the modern world and develop the infrastructure and devices people can’t imagine living without. Computer Engineering is a dynamic and rewarding field that draws upon Electrical Engineering and Computer Science. Computer Engineers solve today’s most challenging technology problems by applying their expertise in both hardware and software systems. Leveraging everything from the world’s smallest micro-controllers to the largest server farms on the planet, Computer Engineers have revolutionized modern entertainment, medicine, telecommunications, transportation, and Information Technology. Computer Engineering graduates find employment in positions requiring Computer Science, Electrical Engineering or Computer Engineering expertise, are in high demand in virtually all industries, and are among the highest compensated specialties in engineering.

The objective of the computer engineering degree program is to prepare students for success as practicing engineers engaged in life-long learning and serving in leadership roles in their chosen career path. Specifically, within five years of graduation, the computer engineering degree program will prepare graduates to:

• Establish themselves as practicing professionals meeting or exceeding the expectations of their employers.
• Continue their professional development or pursue formal education to earn advanced degrees and/or certifications.

University of Kentucky
2016-2017 Undergraduate Bulletin 248
• Demonstrate leadership in their professional endeavors and/or in their communities.

Degree Requirements
Each student must complete the following:

UK Core Requirements
See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

I. Intellectual Inquiry in Arts and Creativity
EGR 101 Engineering Exploration I § Δ 1
EGR 103 Engineering Exploration II Δ 2

II. Intellectual Inquiry in the Humanities
Choose one course from approved list .............................. 3

III. Intellectual Inquiry in the Social Sciences
Choose one course from approved list .............................. 3

IV. Intellectual Inquiry in the Natural, Physical, and Mathematical Sciences
PHY 231 General University Physics ............................. 4
PHY 241 General University Physics Laboratory .............. 1

V. Composition and Communication I
CIS/WRD 110 Composition and Communication I ............ 3

VI. Composition and Communication II
CIS/WRD 111 Composition and Communication II .......... 3

VII. Quantitative Foundations
MA 113 Calculus I ..................................................... 4

VIII. Statistical Inferential Reasoning
STA 381 Engineering Statistics – A Conceptual Approach 3

IX. Community, Culture and Citizenship in the USA
Choose one course from approved list .............................. 3

X. Global Dynamics
Choose one course from approved list .............................. 3

* Based on advisor consult.
† Only if enrolled in PHY 231.
‡ Supportive elective is to be chosen from any University courses, excluding more elementary versions of required courses, such as pre-calculus mathematics or PHY 211. CPE students are strongly encouraged to partially or completely fulfill this requirement by enrolling and participating in experiences credits such as: EGR 399 – Co-op; EAP 599 – Education Abroad; EE 391 – UG Research Experience; EE 396 – Community or Campus Experiential Learning; EGR 390 – Experiential learning in Engineering or CS, EXP 596 – Experiential Education; EGR 549 – Energy Experiences; or other experiences courses approved by the Director of Undergraduate Studies for Computer Engineering.

**CPE 480 is only taught in the spring semester. CPE 490 is only taught in the fall semester. CPE 491 is only taught in the spring semester.

***Graduation Composition and Communication Requirement (GCCR) course.

†Technical elective may be selected from upper-division engineering, mathematics, statistics, computer science, physics, or other technically-related fields excluding more elementary versions of required courses. To be selected in consultation with academic advisor. If a student wishes to use CS 499 instead of CPE 490 and CPE 491 to fulfill the GCCR and senior design requirements, the student must receive approval from the DUS to select an additional technical elective that supports the proposed CS 499 project.

‡400-level CS courses and 500-level CPE courses with emphasis in the computer engineering area and excluding EE 595. To be selected in consultation with academic advisor.

§Hardware electives are senior level courses in the CPE or EE disciplines and shall be selected from the following list and/or selected in consultation with academic advisor:

EE 582 Hardware Description Languages and Programmable Logic
CPE 584 Introduction of VLSI Design and Testing
CPE 585 Fault Tolerant Computing
CPE 586 Communication and Switching Networks

~Software electives are senior level courses in the CPE or CS disciplines and shall be selected from the following list and/or selected in consultation with academic advisor:

CS 441G Compilers for Algorithmic Languages
CS 471G Networking and Distributed Operating Systems
CS 570 Modern Operating Systems
CPE 588 Real-Time Computer Systems
**BACHELOR OF SCIENCE IN COMPUTER SCIENCE**

The computer science program prepares students to identify computational problems in all areas of modern life, to design, implement, and analyze algorithmic solutions, and to build software for a variety of applications. Through required, elective and special topics courses students are exposed to the foundations and current practices of computing and algorithms, software engineering, programming languages, operating systems, graphics and multimedia, scientific computing and numerical analysis, databases, artificial intelligence and networks. The program’s educational objective is to equip graduates to succeed in their chosen career path. Specifically, within three to five years after graduation:

- Those employed in industry or entrepreneurial endeavors will demonstrate professional advancement through expanded leadership responsibility, significant technical accomplishment, or other recognition of their contributions.
- Those who continue their formal education will achieve an advanced degree or other technical certification.

In addition, graduates will appreciate the preparation received in the program as it relates to their chosen careers, to their role as educated citizens in a global society, and to continued learning.

For more information, please visit the department Web site at: [www.cs.uky.edu](http://www.cs.uky.edu)

Minor in Computer Science

The minor in Computer Science requires a minimum of 19-20 hours of course work in CS, to include:

- CS 115 Introduction to Computer Programming
- or
- EGR 102 Fundamentals of Engineering Computing
- CS 215 Introduction to Program Design, Abstraction, and Problem Solving
- CS 216 Introduction to Software Engineering Techniques
- CS 275 Discrete Mathematics
- CS 315 Algorithm Design and Analysis

or equivalent, plus 3 additional hours of upper-division courses (300 or higher) in computer science. A GPA of at least 2.5 across these courses is required. At least 10 of the credit hours required to complete the minor must be earned at the University of Kentucky.

BACHELOR OF SCIENCE IN ELECTRICAL ENGINEERING

The electrical engineering undergraduate degree program seeks to produce graduates who are trained in the theory and practice of electrical and computer engineering and are well prepared to handle the professional and leadership challenges of their careers. The program allows students to specialize in high performance and embedded computing, microelectronics and nanotechnology, power and energy, signal processing and communications, high frequency circuits and fields, and control systems, among others.

The objective of the electrical engineering degree program is to prepare students for success as practicing engineers engaged in life-long learning and serving in leadership roles in their chosen career path. Specifically, within five years of graduation, the electrical engineering degree program will prepare graduates to:

- Establish themselves as practicing professionals meeting or exceeding the expectations of their employers.
- Continue their professional development or pursue formal education to earn advanced degrees and/or certifications.
- Demonstrate leadership in their professional endeavors and/or in their communities.

The electrical engineering undergraduate program has identified curriculum tracks as recommended groups of courses for undergraduate students interested in a particular area of electrical engineering. Each track consists of a list of three recommended electives (typically EE Technical Electives) and possibly a recommended lab elective. A student will be considered to have completed a track if these course requirements have been satisfied with a grade of C or better.

Students are not required to participate in a track. Tracks are intended for students as a guide of classes to take in a particular area. Student transcripts will not explicitly mention completion of a track. However, any student completing a track will receive an official recognition of this completion from the department.

The current set of tracks are:

- **High Frequency Circuits and Fields**
  - EE Technical Electives EE 521 and EE 522, and one of the following: EE 523, EE 525, EE 527.

Degree Requirements

Each student must complete the following:

**UK Core Requirements**

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

1. Intellectual Inquiry in Arts and Creativity
   - EGR 101 Engineering Exploration I
   - EGR 103 Engineering Exploration II

2. Intellectual Inquiry in the Humanities
   - Choose one course from approved list

3. Intellectual Inquiry in the Social Sciences
   - Choose one course from approved list

4. Intellectual Inquiry in the Natural, Physical, and Mathematical Sciences
   - PHY 231 General University Physics
   - PHY 241 General University Physics Laboratory

5. Composition and Communication I
   - CIS/WRD 110 Composition and Communication I

6. Composition and Communication II
   - CIS/WRD 111 Composition and Communication II

7. Quantitative Foundations
   - MA 113 Calculus I

8. Statistical Inference Reasoning
   - STA 210 Making Sense of Uncertainty

Graduation Composition and Communication Requirement

- EE 490 ECE Capstone Design I

University of Kentucky

2016-2017 Undergraduate Bulletin

252

Undergraduate Certificate in Power and Energy

Requirements for the Undergraduate Certificate in Power and Energy

The purpose of the Power and Energy Undergraduate Certificate is to provide students with a formalized recognition of an emphasis in power and energy as part of their undergraduate degree program. The certificate consists of a series of foundational courses, supplemented with a broad array of elective courses related to power and energy. The elective courses cover a wide variety of areas, including fundamentals, conventional and emerging technologies, smart grid systems, distributed generation, power system protection, energy storage, solar power, biofuels, and others. This certificate is an important part of the new Power and Energy Institute of Kentucky (PEIK), created through a recent grant from the US Department of Energy.
The structure of the certificate curriculum is shown below:

Certificate Curriculum

Power and Energy Undergraduate Certificate

Entrance Requirements

To be accepted into the University of Kentucky Power and Energy Undergraduate Certificate, the student must be pursuing an undergraduate degree and have completed at least 24 credits with a UK cumulative GPA of at least 2.50. A transfer student can be accepted into the certificate if he/she has completed at least 24 credits and have completed at least 24 credits with a weighted cumulative GPA from all other institutions of at least 2.50.

Exit Requirements

• The student must complete a minimum of 15 credits of course work in the certificate curriculum taken for a letter grade. Courses taken prior to admission into the certificate can be applied to the certificate.

• A minimum of 9 credits must be at, or above, the 300-level.

• The student must earn a C or better in each course used to satisfy the certificate.

• The student must complete a 3-credit breadth component. The breadth component requires that a student take courses in at least two disciplines, with a minimum of 3 credits completed in the second discipline.

• The certificate will be awarded to students who complete the certificate curriculum and also complete an undergraduate degree.

• No more than 9 credits of the Power and Energy Undergraduate Certificate can be used as required courses in the student’s major, minor, or other certificate. Courses used to satisfy the certificate can be used as electives (including technical electives) in a student’s degree program.

• Courses applied to the Power and Energy Undergraduate Certificate cannot also be applied to the Power and Energy Graduate Certificate.

• The Power and Energy Undergraduate Certificate Director must approve the certificate curriculum for each student.

Power and Energy Undergraduate Certificate Curriculum

The structure of the certificate curriculum is shown below:

Required Course (3 credits)

EGR 240 Global Energy Issues ............................... 3

Core Elective (3 credits)

Choose one of the following courses:

- EGR 540 Power Economics and Public Policy ........ 3
- EGR 542 Electric Power Generation Technologies ...... 3
- EGR 546 Electric Power System Fundamentals .......... 3

Power and Energy Electives (9 credits)

Choose three courses from the approved list of Power and Energy Electives. The selected courses must be approved by the Director of the Power and Energy Undergraduate Certificate to ensure that the selections maintain a thematic consistency and fulfill the certificate breadth requirement. A partial list of approved power and energy courses is provided below. Additional courses will be added as they are approved for the power and energy certificate curriculum.

- EGR 503 Fundamentals of Biorenewable Resource Engineering .......................................................... 3
- EGR 504 Biofuels Production and Properties ............ 3
- EBA/ME 580 Heating, Ventilating and Air Conditioning ........................................................................ 3
- CE 351 Introduction to Environmental Engineering ... 3
- CE 433 Railway Operations and Multi-Modal Transportation ................................................................ 3

#Course approval pending.

BACHELOR OF SCIENCE IN MATERIALS ENGINEERING

The materials engineer is responsible for the selection, preparation and application of existing materials and for the development of new and improved materials. Materials engineers study the relationships between atomic and/or molecular constitution, microstructure and physical properties including mechanical, thermal, electrical, and optical behavior. Classes of materials include metals, ceramics, polymers, and electronic materials.

The educational objectives of the materials engineering program state that graduates will:

• Excel in their chosen career pathways, as practicing materials engineers or through the pursuit of advanced technical or professional degrees.

• Impact their profession through effective leadership, communication, teamwork, and through creative solution strategies to address global and societal issues.

• Apply their engineering training to contribute to the health, safety, environmental and economic well-being of their communities.

• Seek out continuing education, professional development and career advancement opportunities.

Degree Requirements

The following curriculum meets requirements for the B.S. in Materials Engineering, provides the student satisfies the graduation requirements listed earlier. Each student must complete the following:

UK Core Requirements

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

I. Intellectual Inquiry in Arts and Creativity

- EGR 101 Engineering Exploration I Δ ........................... 1
- EGR 103 Engineering Exploration II Δ ......................... 2

II. Intellectual Inquiry in the Humanities

Choose one course from approved list ........................................... 3

III. Intellectual Inquiry in the Social Sciences

§ Transfer students who declare a major will take EGR 112, Engineering Exploration for Transfer Students, in place of EGR 101.

Δ Students must complete both EGR 101 and EGR 103 to fulfill the UK Core Arts and Creativity requirement.

* Based on advisor consult.

‡ Only if enrolled in PHY 231.

*Supportive elective is any university course, excluding more elementary versions of required courses, such as precalculus mathematics or PHY 211.

**Choose from the list of Technical Electives above.

***Graduation Composition and Communication Requirement (GCCR) course.

BACHELOR OF SCIENCE IN MECHANICAL ENGINEERING

The training of the mechanical engineer is the broadest among the several fields of engineering. The mechanical engineer uses the techniques of mathematics combined with a specialized knowledge of the thermal and energy sciences, solid and fluid mechanics, and the properties of materials. This information is supplemented by an understanding of manufacturing processes, the design and control of systems, and the economics of the technological community.

Our graduates will be able to apply knowledge of mathematics, science and mechanical engineering to the solution of problems, particularly in the areas of thermodynamics and energy systems; heat transfer; fluid mechanics; mechanical systems and controls; mechanical design; finite element methods and computer-aided graphics; manufacturing; instrumentation; and experimental method.

Consistent with the Vision and Mission statements of the University of Kentucky and the College of Engineering, the undergraduate program in mechanical engineering will prepare our graduates for successful practice or academic pursuits in mechanical engineering. We expect our graduates to attain the following Program Educational Objectives within a few years of graduation:

1. Our graduates will be employed in mechanical engineering in a variety of fields as professionals, or attend graduate and professional schools in their career paths.
2. Our graduates will continue their education and professional growth by supporting or participating in professional societies, licensure programs, short courses, or other professional development activities.
### Degree Requirements

Each student must complete the following:

#### UK Core Requirements

See the **UK Core** section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their academic advisor to complete the UK Core requirements.

### Mathematics Elective

Choose one course from the following:

<table>
<thead>
<tr>
<th>Course</th>
</tr>
</thead>
<tbody>
<tr>
<td>MA 320 Introductory Probability</td>
</tr>
<tr>
<td>MA 321 Introduction to Numerical Methods</td>
</tr>
<tr>
<td>MA 322 Matrix Algebra and Its Applications</td>
</tr>
<tr>
<td>MA 416G Introduction to Optimization</td>
</tr>
<tr>
<td>MA 432G Methods of Applied Mathematics I</td>
</tr>
<tr>
<td>MA 433G Introduction to Complex Variables</td>
</tr>
<tr>
<td>MA 481G Differential Equations</td>
</tr>
<tr>
<td>STA 381 Engineering Statistics – A Conceptual Approach</td>
</tr>
</tbody>
</table>

**Subtotal: Mathematics Elective 3**

### Supportive Elective

The supportive elective can be any course that carries college credit and is not a more elementary version of a required course. For example, college algebra would not be satisfactory because it is more elementary than the required calculus courses. The student completing co-op tours (EGR 399) may count the co-op experience toward the supportive elective.

**Subtotal: Supportive Elective 3**

### Technical Electives

Choose 9 hours from the following:

<table>
<thead>
<tr>
<th>Course</th>
</tr>
</thead>
<tbody>
<tr>
<td>BAE 502 Modeling of Biological Systems</td>
</tr>
<tr>
<td>BME 501 Foundations of Biomedical Engineering</td>
</tr>
</tbody>
</table>

**Subtotal: Technical Electives 9**

**Total: 153 hours**

---

*Based on advisor consult.
† Only if enrolled in PHY 231.

BACHELOR OF SCIENCE IN MECHANICAL ENGINEERING – PADUCAH

In addition to the program on the Lexington campus, students can pursue a B.S. degree in mechanical engineering through the College’s Extended Campus Program in Paducah, Kentucky. The Paducah program uses the same curriculum as the main campus, but provides the opportunity for students to complete all B.S. degree requirements without having to relocate to Lexington.

Consistent with the Vision and Mission statements of the University of Kentucky, the mechanical engineering program at the UK Extended Campus in Paducah strives to meet the following educational objectives:

The mechanical engineering program will prepare our students for successful practice or academic pursuits in mechanical engineering.

1. Our graduates will practice mechanical engineering in a variety of fields as professionals and/or be recruited to graduate and professional schools in their career paths.

2. Our graduates will communicate effectively, work in diverse teams, address the challenges of a global society, and exhibit leadership, ethics, and creativity in their work places.

3. Our graduates will value continuing education and professional growth by supporting or participating in professional societies, licensure programs, short courses, or other professional development activities.

The Paducah mechanical engineering program collaborates with West Kentucky Community and Technical College to provide the basic math and science courses, as well as the general studies course requirements. Murray State University faculty members teach upper-level non-engineering courses on the Paducah campus. On-site UK mechanical engineering faculty members and jointly-appointed Murray engineering faculty members teach the upper-division engineering courses.

Program admission, course registration, student advising and other student services all can be completed at the Paducah site.

Degree Requirements

The curriculum requirements for the B.S. degree in mechanical engineering in Paducah are identical to those on the Lexington campus. Refer to those degree requirements for the Paducah degree program. Not all the technical electives listed for the Lexington program will be available in Paducah. The student must satisfy the College graduation requirements listed earlier.

BACHELOR OF SCIENCE IN MECHANICAL ENGINEERING

Joint-Degree Program Offered by Western Kentucky University (WKU) and the University of Kentucky (UK)

As part of the "Strategy for Statewide Engineering Education in Kentucky," adopted July 17, 2000 by all the chief executive officers of Kentucky universities and endorsed by the Kentucky Council on Postsecondary Education (CPE), the vision was expressed that "access to undergraduate engineering education will expand primarily through the creation of joint programs managed by multiple postsecondary institutions." In response, WKU and UK now jointly offer an ABET-accredited baccalaureate degree in mechanical engineering on the WKU campus in Bowling Green, Kentucky. By CPE definition, a joint-degree program is "a program that is mutually sponsored by two or more institutions leading to a single credential or degree, which is conferred by both or all participating institutions. All institutions share responsibility for all aspects of the program’s delivery and quality."

The joint mechanical engineering program is one of only four such joint-degree programs in Kentucky; the others include a joint-degree program between WKU and UK in civil engineering, between WKU and the University of Louisville (UL) in electrical engineering, and between Murray State University and UL in electrical and telecommunications engineering.

The WKU/UK joint programs emphasize a project-oriented educational approach. Courses are provided by both WKU and UK faculty. Students are required to complete a minimum of 16 credit hours of engineering course work taught by UK engineering faculty. At present, the UK contribution is provided primarily by distance delivery via interactive television. The curriculum of the joint mechanical engineering program is under the direction of a joint program faculty, with equal representation from each participating institution. The curriculum for entering students requires 127.5 credit hours, with the General Studies component based on the requirements of WKU.

Students who complete the program will receive a B.S. degree conferred jointly by WKU and UK. Under the terms of the agreements between the degree-awarding institutions, WKU provides basic administrative support for students in the joint-degree program, including admission services, registration, and student financial aid. In addition, academic advising, laboratory and equipment support, and library and media resources are supplied by WKU.

The mechanical engineering curriculum of the joint program is listed below. The joint program faculty are responsible for on-going review of the curriculum requirements.

This curriculum applies to students entering in fall 2013 or later. Currently enrolled students may complete a “Request to Change or Extend Catalog Term/Year” form found on the iCAP main page.

Students are admitted as a Pre-Major in Mechanical Engineering. In order to transition from Pre-Major to Major and to graduate with a degree in Mechanical Engineering, students must satisfy the requirements below. All courses listed below must have a grade of C or better.

Written and Oral Communication
ENG 100 or equivalent credit .......................................... 3
COMM 145 or 161 or equivalent credit ............................ 3

Engineering Design
ME 176 Mech Engineering Freshman Design .................. 1

CHEM 116/106 or CHEM 120/121 .................................... 4 or 5

Engineering Science
ME 240/241 Materials and Methods of Mfg ................. 3/1
EM 221 or EM 222 Statics .............................................. 3

TOTAL HOURS .......................................................... 43-44

These Pre-Major eligibility requirements MUST be completed before enrolling ME 300 Junior Design. Check iCAP for progress towards meeting these requirements.

After satisfying the requirements to transition from Pre-Major to Major in Mechanical Engineering, the student must also earn a grade of C or better in the following courses required of the major: EM 303, ME 200, 220, 310, 330, 347, and MATH 331.

Each Mechanical Engineering student’s transcript must include at least 16 hours of credit in the major taught by UK faculty members.

UK faculty are scheduled to deliver the following courses to the ME Joint Program: EM 221, EM 313, ME 321, ME 344, ME 416, and a range of technical electives. ME 489 (fall) or 499 (spring)

Each Mechanical Engineering student must also take at least one mathematics/science elective, for a total of a minimum of 32 hours of mathematics and science beginning at MATH 136. This elective must be chosen from the following list:

ME Program Mathematics and Science Electives
PH 280 Introduction to Environmental Science               |
(For AGRI 280, CHEM 280, ENV 280, and GEOG 280)
ASTR 214 General Astronomy
BIOL 120/121 Biological Concepts: Cells Metabolism          |
and Genetics
BIOL 122/123 Biological Concepts: Evolution,                |
Diversity, and Ecology
BIOL 207/207C General Microbiology
CHEM 222/223 College Chemistry II
EGEO 121 Meteorology
GEOL 111 The Earth
GEOL 112 Earth History
PHYS 316 Computational Physics
PHYS 318 Data Acquisition Using Labview
PHYS 320 Introductory Modern Physics I
MATH 305 Introduction to Mathematical Modeling
MATH 307 Introduction to Linear Algebra
MATH 310 Introduction to Discrete Mathematics
MATH 370 Applied Techniques in Mathematics
STAT 301 Introductory Probability and Applied Statistics
Consult the WKU Undergraduate Catalog and iCAP for
category B, C, E, and F electives. Categories A and D are
covered by the plan of study shown. Review the WKU
Undergraduate Catalog for current policies concerning
the foreign language course.

BACHELOR OF SCIENCE IN MINING ENGINEERING

Mining engineering requires the broadest knowledge of sciences and other fields of engineering in its practice after graduation. The curriculum below prepares the student for a career in the field of mining.

The objectives of the undergraduate program in mining engineering take into consideration the intellectual and personal development of students so that after graduation they will be able to:

- Advance in their careers, adapting to new situations and emerging problems, through the application of general purpose engineering skills and core technical disciplines, analytical procedures, and design practices of the mining engineering profession.
- Function ethically in a variety of professional roles such as mine planner, designer, production manager, mineral processing engineer, consultant, technical support representative and regulatory specialist.
- Pursue advanced degrees in mineral-related fields and also those fields that support the mineral industries such as business and law.

- Utilize professional skills such as effective communication, teamwork, and leadership.
- Demonstrate an understanding of the critical role mining engineers play in society with respect to health, safety, and the environment in tangible ways such as achieving professional licensure.

**University of Kentucky**

2016-2017 Undergraduate Bulletin

258
The College of Fine Arts was established in September 1976 and includes the Department of Theatre and Dance, the School of Art and Visual Studies, the School of Music, the Department in Arts Administration, and the Otis A. Singletary Center for the Arts.

Accreditation
Department of Theatre and Dance
The Department of Theatre and Dance is accredited by the National Association of Schools of Theatre (NAST).

School of Art and Visual Studies
The School of Art and Visual Studies is accredited by the National Association of Schools of Art and Design (NASAD).

School of Music
The School of Music is accredited by the National Association of Schools of Music (NASM).

Undergraduate Programs in Fine Arts
The University of Kentucky grants the following degrees in the College of Fine Arts:
- Bachelor of Arts
- Bachelor of Fine Arts
- Bachelor of Music
- Bachelor of Music in Music Education
- Bachelor of Science in Digital Media and Design

Students pursuing the Bachelor of Arts may select from these majors: art education, art history and visual studies, art studio, music (successful audition required), theatre, or arts administration.

Students pursuing the Bachelor of Fine Arts select art studio. A portfolio review process is required.

Students pursuing a music degree select the Bachelor of Music with a major in music performance or the Bachelor of Music in Music Education. A successful audition is required.

The college also offers several graduate programs, which are described in The Graduate School Bulletin.

Departmental Minors
Students from any college may choose to have an interdisciplinary minor in the arts, or to minor in art history, art studio, dance, digital media and design, music (music theory and history or performance), photography, theatre, and visual studies. Requirements for these minors may be found under the departmental listings.

Undergraduate Certificates in Fine Arts
The University of Kentucky grants the following undergraduate certificates in the College of Fine Arts:
- Musical Theatre Certificate for Voice Majors
- Musical Theatre Certificate for Theatre Majors

Information and requirements for these certificates are listed on pages 268 and 270. An audition is required.

Financial Aid
School of Music
A significant number of scholarships are available from the School of Music. For further information visit: finearts.uky.edu/music/scholarships-financial-aid

Department of Theatre and Dance
A significant number of scholarships are available from the Department of Theatre and Dance. For further information and to apply online, visit the scholarships page on our Web site at: finearts.uky.edu/theatre

Requirements for the Bachelor of Arts Degree
The University and College requirements for the B.F.A. are the same as the B.A. requirements outlined above. The major requirements are outlined with other program requirements under the School of Art and Visual Studies.

Requirements for the Bachelor of Science in Digital Media and Design
The University and College requirements for the B.S. are the same as the B.A. requirements outlined above. The major requirements are outlined with other program requirements under the School of Art and Visual Studies.

Requirements for the Bachelor of Music in Music Performance and in Music Education
These requirements are outlined with other program requirements under the School of Music.

Academic Advising
Advising is conducted through formal meetings with each student every semester to review individual curricular plans and progress towards degree. Lower-division advising (freshman and sophomore standing) is conducted by professional advisors in the Office of Student Affairs, 204 Fine Arts Building. Upper-division students (junior and
College of Fine Arts

SCHOOL OF ART
AND VISUAL STUDIES

Requirements for the B.A. with a major in ART EDUCATION

Art Education majors who wish to be recommended for a state teaching certificate must complete the requirements for the major in Art Education and the requirements for admission, retention, and completion of a UK educator preparation program in the College of Education section of this Bulletin.

The Art Education Program Faculty, the College of Education Director of Academic Services and Teacher Certification, the University Registrar, and in the case of graduate level programs, the UK Graduate School Dean, are charged with the responsibility of monitoring a student’s progress through educator preparation programs. The Director of Academic Services and Teacher Certification recommends to the Kentucky Education Professional Standards Board (EPSB) that a successful candidate be awarded a state educator license (certificate).

College Requirements

Music, Theatre and/or Arts Administration .................................... 6
plus 39 hours at 300-level or above

Subtotal: College Required hours ............................................ 6

UK Core Requirements

See the UK Core section of this Bulletin for the complete
UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

I. Intellectual Inquiry in the Humanities
A-S 103 World History Before 1400 .................................. 3
A-H 106 Renaissance to Modern Art ................................ 3
A-S 001 Foundation Exhibition ........................................ 0
A-S 101 Creativity Practices in Art Studio
(taken first semester) .................................................. 1
A-S 102 Two-Dimensional Form .................................. 3
A-S 103 Three-Dimensional Form ............................. 3
A-S 130 Drawing ......................................................... 3
A-S 200 Introduction to Digital Art, Space and Time ....... 3

Subtotal: Premajor hours .................................................... 19

Premajor Foundation Exhibition

Each first-year student in the Foundation Program must participate in an annual exhibition to occur late each spring semester. Students will submit one work of their own selection from their first year’s work for the exhibition, present it professionally, and provide an accompanying artist’s statement. Participation in this exhibition is required and is tracked in A-S 001, Foundation Exhibition.

A-E 579 Arts and Humanities in Art Education................ 3
A-S 490 Senior Seminar .................................................. 1

Continuous Assessment in the Art Education Program

Students’ progress through the art education programs is continuously monitored, assessed, and reviewed. In addition to regular evaluation in conjunction with their program course work and field placements, students will be assessed three times in their art education program:

1. Teacher Education Program (TEP). Students who desire to declare an Art Education major will demonstrate their progress in the Foundations Program and commitment to advanced undergraduate study through an application to the TEP. In this application, students must demonstrate that they have earned at least 60 credit hours and meet the criteria put forth by the College of Education by filling out the College of Education TEP application form. Upon meeting those criteria, applicants then have a portfolio review and interview with art education faculty to determine entry into the program.

The TEP criteria include:

• Total academic record. A minimum overall grade-point average of 2.75 is required.
• Performance on required tests measuring proficiency in writing, reading and math.
• Record of completed preprofessional course work, experiences, and awards.

2. Mid-Level Review. No later than the semester prior to student teaching, students will demonstrate that they meet the criteria put forth by the art education faculty by submitting the materials required for review by the art education faculty.

3. Student Teaching. The final assessment is made by the two cooperating public school teachers who supervise the student, and by the observation assessments of the University student teaching supervisor.

Area of Concentration in Art

1. A-E 300 Introduction to Art Education .......................... 3
2. Two Art History courses at or above the 300 level ............ 6
3. All of the following courses:
   A-S 310 Painting I .................................................. 3
   A-S 320 Printmedia: Screenprint/Relief or
   A-S 321 Printmedia: Intaglio/Lithography ................... 3
   A-S 355 Introduction to Sculpture .............................. 3
   A-S 370 Ceramics I ............................................... 3
   A-S 331 Exploration of Human Form .......................... 3

Art Studio electives ................................................................... 6

Subtotal: Major hours .................................................. 79-81

TOTAL HOURS: minimum of 120

University of Kentucky
2016-2017 Undergraduate Bulletin

---

State Mandated Testing and the Kentucky Teacher Internship

Successful completion of the examinations required by the Kentucky Education Professional Standards Board is a precondition for the granting of a teaching license (certificate). See www.kyespb.net for the current list of PRAXIS examination requirements for P-12 Art certification.

Upon being recommended for a Kentucky Teaching License (certificate), a candidate will be issued a Kentucky Letter of Eligibility for the Kentucky Teacher Internship Program. Upon employment in a Kentucky P-12 school, the candidate will receive a one-year license to practice as a fully qualified intern Art teacher. After successfully completing the internship year, the candidate will be eligible for a regular Kentucky Professional Teaching License (certificate).

Information concerning licensure in other states is available from the Office of Academic Services and Teacher Certification in the College of Education.
This degree offers its majors a solid foundation in the art and visual cultures of Africa, Asia, and the Western tradition, with advanced courses that present differing approaches to both art history and visual studies. A major in Art History & Visual Studies provides a solid liberal arts education with a strong emphasis on skills in visual literacy, critical thinking, problem solving, and written and oral communication that are required for virtually any career path. The program also equips majors with advanced skills in visual analysis and research.

All majors are required to take a shared art history core of 15 credits. In consultation with their advisor, majors organize their upper-division coursework around one of two options: art history or visual studies.

Any student earning a Bachelor of Arts (B.A.) degree must complete a minimum of 39 hours at the 300 or above level. Depending on the option selected, at least 27 of the 39 hours are completed by the major requirements. However, students should keep this requirement in mind as they select their courses.

College Requirements

Music, Theatre and/or Arts Administration ........................................ 6
plus 39 hours at 300-level or above
Subtotal: College Required hours ................................................. 6

UK Core Requirements

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

I. Intellectual Inquiry in Arts and Creativity
Choose one:
A-S 102 Two-Dimensional Surface ........................................... 3
A-S 103 Three-Dimensional Form ............................................ 3

II. Intellectual Inquiry in the Humanities
Choose one:
A-H 101 Introduction to Visual Studies .................................... 3
A-H 105 World Art Before 1400 ............................................. 3

III. Intellectual Inquiry in the Social Sciences
Choose one course from approved list ...................................... 3

IV. Intellectual Inquiry in the Natural, Physical, and Mathematical Sciences
Choose one course from approved list ...................................... 3

V. Composition and Communication I
CIS/WRD 110 Composition and Communication I ................... 3

VI. Composition and Communication II
CIS/WRD 111 Composition and Communication II ................... 3

VII. Quantitative Foundations
Choose one course from approved list ...................................... 3

VIII. Statistical Inferential Reasoning
Choose one course from approved list ...................................... 3

IX. Community, Culture and Citizenship in the USA
A-H 360 Visual Culture of Politics ........................................... 3

X. Global Dynamics
Choose one:
A-H 304 African Art and Its Global Impact ......................... 3
A-H 311 The Arts as Soft Power: The Japanese Tea Ceremony ........... 3

UK Core hours ........................................................................... 30

Graduation Composition and Communication Requirement (GCCR)
A-H 555 Methods in Art History and Visual Studies ....... 3
Subtotal: GCCR hours ......................................................... 3

Premajor Requirements

The premajor requirements enable students to develop their abilities to observe, describe, and identify visual images, objects, and structures utilizing a shared vocabulary, and to analyze and interpret them in relation to particular cultural and historical circumstances.

All students take the following (3 credit hours):
A-H 106 Renaissance to Modern Art ............................... 3

Plus one of the following (see requirements for the Art History or Visual Studies options for majors below; 3 credit hours):
A-H 101 Introduction to Visual Studies ......................... 3
A-H 105 World Art Before 1400 ........................................ 3

Plus one of the following (3 credit hours):
A-S 102 Two-Dimensional Surface .................................. 3
A-S 103 Three-Dimensional Form .................................... 3
A-S 130 Drawing ................................................................. 3
A-S 200 Introduction to Digital Art, Space and Time ....... 3

Subtotal: Premajor hours .......................................................... 9

Major Requirements

To complete this major, students must fulfill the following:
• the shared curriculum core of Art History & Visual Studies courses (15 credit hours)
• one of two options in the major described below (33 credit hours)
• a capstone course (3 credit hours)
• electives (21 credit hours)

Shared Curriculum Core

Courses from the three shared curriculum core groups are designed to provide students with a broad knowledge of major developments in art history and visual studies. Students will develop skills in visual analysis, research methods, problem solving, and written and oral communication.

Subtotal: Shared Curriculum Core ........................................... 15

Select five courses, including at least one course from each of the following three groups:

Art & Visual Studies of Non-Western Cultures
A-H 304 African Art and Its Global Impact ......................... 3
A-H 308 Studies in African Arts (Subtitle required) ............ 3
A-H 310 Asian Art and Culture (Subtitle required) ............... 3
A-H 311 The Arts as Soft Power: The Japanese Tea Ceremony .............. 3

Art & Visual Studies of Europe Before the Modern Era
A-H 314 Ancient (Subtitle required) ................................... 3
A-H 323 Medieval (Subtitle required) ............................... 3
A-H 334 Reframing Renaissance Art ......................... 3
A-H 335 Early Modern Art & Visual Culture, 1400-1700 (Subtitle required) .............. 3

Art & Visual Studies of the Modern Era
A-H 339 Art & Visual Culture 1700-1840 (Subtitle required) .................. 3
A-H 340 Art & Visual Culture 1840-1914 (Subtitle required) .............. 3
A-H 341 20th Century (Subtitle required) .............................. 3
A-H 342 Modern American Art & Visual Studies (Subtitle required) .............. 3
A-H 350 Contemporary Art and Visual Studies (Subtitle required) .............. 3
A-H 360 Visual Culture of Politics ......................................... 3

Students may petition the College to substitute the following courses to fulfill the corresponding historical core category above when the focus of the subtitle is appropriate:
A-H 300 Topics in Art History & Visual Studies (Subtitle required) .............. 3
A-H 301 Cross-Cultural Topics in Art History & Visual Studies (Subtitle required) .............. 3

Option in the Major (select one)

Both of the options in the major assumes a sound knowledge of art history and visual studies provided by the shared curriculum core. Each requires upper-division art history courses and courses in one or more cognate disciplines. Majors will want to consult with their advisor in the Art History & Visual Studies program to select the path that best serves their future goals.

Art History Option

(33 credit hours)

This option focuses on the development of the visual arts, particularly on the histories of artworks within a broad liberal arts tradition. Students study artistic images, objects, complexes and events representing diverse cultures within a global context. It provides majors with historical, methodological, and theoretical knowledge to interpret visual forms as expressions of historical periods and cultural values.

The discipline of art history puts strong emphasis on the acquisition of skills in written and oral communication, foreign language comprehension, critical reading, and problem solving, all leading to the pursuit of independent scholarship. These are skills useful for virtually any career path, including law and international business, but specifically, this option prepares majors to pursue post-graduate studies in art history and related humanistic disciplines, leading to careers in academia, arts administration, visual resource management, museum professions, and similar fields.

Students who have selected the Art History option are required to have taken A-H 105, World Art Before 1400, which is offered as a premajor requirement option.

Foreign Language (6-7 credit hours)

Complete one of the following sequences beyond the UK foreign language requirement:

Option A: Successful completion of the fourth college semester of one foreign language, German or French recommended. (Note: This may be accomplished by scoring at this level on a placement test for previous work in the foreign language.)

Option B: Successful completion of the third college semester of one foreign language and the second college semester course of a second language. (Note: Either or both may be accomplished by scoring at the appropriate level on a placement test for previous work in the foreign languages selected.)

Option C: Demonstrate equivalent competence. Students for whom English is a second language, for instance, may use their native language to fulfill this requirement.

Upper-Division Art History & Visual Studies Courses (12 credit hours)

Select one of the following courses designed to provide students with direct experience with the art object through either a museum practicum or appropriate course offering:
A-H 399 Experiential Education in Art History & Visual Studies .............. 3
A-H 501 Museum Studies I: Introduction ................................ 3
A-H 502 Museum Studies I: Internship ............................................. 3
A-H 504 Practical Issues in Art History (Subtitle required) ...................... 3

Plus at least three Art History & Visual Studies courses at the 300 level or above, of which at least two must be from the following seminar areas. To fulfill the requirement, students must select two different seminar numbers (not the same seminar number with different sub-titles). These courses provide students with differing perspectives and approaches to the study of the visual arts. Courses may explore interdisciplinary aspects of art history and visual studies, concentrate on an in-depth study of a specialized topic or period, or provide other frameworks beyond the traditional canon.

A-H 524 Theory and Methods (Subtitle required) ............................ 3
A-H 525 Studies in Genres and Media (Subtitle required) ....................... 3
A-H 527 Interdisciplinary Approaches (Subtitle required) ..................... 3
A-H 528 Art and the Artist in Society (Subtitle required) ....................... 3
A-H 529 Topical Seminar in Art History & Visual Studies (Subtitle required) .......................................................... 3
A-H 529 Topical Seminar in Architectural Design History (Subtitle required) .......................................................... 3

Cognate Courses (15 credit hours)

Students must complete 15 hours in courses in anthropology, art studio, arts administration, art professions, classics, history, history of film, history of interior design, history of theatre, literature, music, or philosophy. Foreign language courses over and above the foreign language requirement for the art history option are also encouraged.

Capstone Course (3 credit hours)

Students will demonstrate a broad knowledge of art history and visual studies as well as skills in research and written and oral communication.

A-H 555 Methods in Art History & Visual Studies ................................ 3

Electives

In addition, students must choose 21 hours of free electives.

Subtotal: Electives .................................................. 21

TOTAL HOURS: .................................................. minimum of 120

Visual Studies Option (33 credit hours)

Ours is a visual culture. Workplaces today are visually saturated environments, our dominant pastimes are visual media; knowledge is commonly communicated visually. Visual Studies teach critical viewing to prepare us for the visually complex milieu of the 21st Century. They are broadly based, reaching fully into everyday life to deal with all aspects of culture that communicate through visual means, from paintings and film to advertising and Web sites.

This option offers majors a broad interdisciplinary selection of courses and methodologies from the arts, design, humanities, social sciences, and sciences to study the uses to which people put the visual and the place of the visual within the context of the culture as a whole. Visual studies examine production and consumption of images and events in diverse cultures and within a global context.

Students who choose this option may pursue further training leading to emerging careers in the "creative economy", especially those involved with the creation, dissemination, manipulation and retrieval of images. They may also pursue graduate work in visual studies, cultural studies, and film studies.

Students who select the Visual Studies option are required to have taken A-H 101, Introduction to Visual Studies, offered as an option for the premajor requirement.

Foreign Language

The UK foreign language requirement satisfies the Visual Studies option. The requirement states that any first-year freshman or transfer student must demonstrate that they have completed two high school credits in a single foreign language, or two semesters at the postsecondary level. A student who has not completed the high school foreign language requirement will be required to take a two-semester foreign language at UK prior to graduation.

Upper-Division Art History & Visual Studies Courses (12 credit hours)

Select four of the following. To satisfy this requirement, courses must have a different subtitle from those used to satisfy the shared curriculum core, or cognate requirements:

A-H 300 Topics in Art History & Visual Studies (Subtitle required) ...................... 3
A-H 301 Cross-Cultural Topics in Art History & Visual Studies (Subtitle required) ...................... 3
A-H 350 Contemporary Art and Visual Studies (Subtitle required) ...................... 3
A-H 360 Visual Culture of Politics .................................................. 3
A-H 399 Experiential Education in Art History & Visual Studies ...................... 3
A-H 504 Practical Issues in Art History (Subtitle required) ...................... 3
A-H 524 Theory and Methods (Subtitle required) .................................. 3
A-H 525 Studies in Genres and Media (Subtitle required) ...................... 3
A-H 526 Art and the Artist in Society (Subtitle required) ...................... 3
A-H 527 Interdisciplinary Approaches (Subtitle required) ...................... 3
A-H 528 Topical Seminar in Art History & Visual Studies (Subtitle required) ...................... 3
A-H 529 Topical Seminar in Architectural Design History (Subtitle required) ...................... 3

Cognate Courses (21 credit hours)

In consultation with their advisors, students must identify and propose courses relevant to visual studies that do not apply. At least one capstone course in Art History & Visual Studies will be offered each semester and so designated in the Schedule of Classes. A-H 555 Methods in Art History & Visual Studies, offered once each year, always serves as a capstone course. Students will demonstrate a broad knowledge of art history and visual studies as well as skills in research and written and oral communication.

Electives

In addition, students must choose 21 hours of free electives.

Subtotal: Electives .................................................. 21

TOTAL HOURS: .................................................. minimum of 120

Minor in Art History

The minor in Art History focuses on the development of the visual arts, particularly of the histories of "high" or "fine" art, within a broad liberal arts tradition. Students study artistic images, objects, and events representing diverse cultures within a global context. The minor provides students with historical, methodological, and theoretical knowledge to interpret visual forms and expressions of historical and cultural circumstances. Art history courses put strong emphasis on the acquisition of skills in critical reading, problem solving, art historical research, and written and oral communication. Students from any college may choose to minor in art history. Bear in mind that some course options may have prerequisites.

The minor requirements are as follows:

At least one course must be in non-Western Art History & Visual Studies. At least three courses must be at the 300-level or above

1. Two courses selected from the following (6 credit hours):
   A-H 101 Introduction to Visual Studies .................................. 3
   A-H 105 World Art Before 1400 ............................................. 3
   A-H 106 Renaissance to Modern Art ........................................ 3

2. One applied course in the College of Fine Arts appropriate to art history (3 credit hours). Courses in art studio, art education, as well as costume, make-up, or set design would apply.

3. Four additional Art History & Visual Studies courses (A-H prefix; 12 credit hours).
5. Three courses selected from the following:
In consultation with an Art History & Visual Studies advisor, students may identify and propose courses relevant to visual studies other than those listed below to fulfill this requirement. They must file a College of Fine Arts petition form for approval of the substitution of the alternate course with the College of Fine Arts Dean’s Office.

A-H Art History & Visual Studies – up to one additional course
A-S 200 Introduction to Digital Art, Space and Time (if not already used to fulfill #3 above) ................... 3
A-S 280 Introduction to Photographic Literacy ..... 3
A-S 345 Web Design ............................................ 3
A-S 346 Digital Video ............................................ 3
ANT 450 Symbols and Culture .............................. 3
ARC 212 History and Theory I: 15th-17th Centuries ................................................................. 3

Requirements for the B.A. with a major in ART STUDIO

The B.A. in Art Studio is a broad liberal arts degree. This is a perfect degree for students wishing to explore a wide variety of interests in and out of art studio. Students can choose a minor, double major or simply a focus on another subject area on campus. This flexible degree is available to students wishing to focus in a single medium or a combination of the following media: ceramics, digital media, drawing, fiber, painting, photography, printmedia, and sculpture.

The major in art studio must include the following:

College Requirements
Music, Theatre and/or Arts Administration ............... 6
plus 39 hours at 300-level or above

Subtotal: College Required hours ....................... 6

UK Core Requirements
See the UK Core section of this Bulletin for the complete UK core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

I. Intellectual Inquiry in Arts and Creativity
Choose one course from approved list .................... 3

II. Intellectual Inquiry in the Humanities
A-H 105 World Art Before 1400 or
A-H 106 Renaissance to Modern Art .................. 3

III. Intellectual Inquiry in the Social Sciences
Choose one course from approved list .................... 3

IV. Intellectual Inquiry in the Natural, Physical, and Mathematical Sciences
Choose one course from approved list .................... 3

V. Composition and Communication I
CIS/WRD 110 Composition and Communication I .......... 3

VI. Composition and Communication II
CIS/WRD 111 Composition and Communication II ........ 3

VII. Quantitative Foundations
Choose one course from approved list .................... 3

VIII. Statistical Inferential Reasoning
Choose one course from approved list .................... 3

IX. Community, Culture and Citizenship in the USA
Choose one course from approved list .................... 3

X. Global Dynamics
Choose one course from approved list .................... 3

UK Core hours .................................................. 30

Graduation Composition and Communication Requirement (GCCR)
ART 301 Professional Practices ............................. 3

Subtotal: GCCR hours ......................................... 3

First Year Foundation Requirements
Progression Requirement
Students must have earned at least a letter grade of C in each of the premajor foundation courses.

Art Studio Foundations Hours
1. A-S 101 Creativity Practices in Art Studio (taken first semester) ........................................ 1

2. Choose one 100 level A-H course from approved list ......................................................... 3

3. A-H 106 Renaissance to Modern Art .................. 3

4. A-S 300 001 Foundation Exhibition .................. 0

5. A-S 102 Two-Dimensional Surface ................... 3

6. A-S 103 Three-Dimensional Form .................... 3

7. A-S 130 Drawing ................................................. 3

8. A-S 200 Introduction to Digital Art, Space and Time ............................................................ 3

Subtotal: Premajor hours ................................. 19

Foundation Exhibition
Each student in the Foundations Program must participate in an exhibition during the spring semester. Students will select and submit one art piece from a UK Foundations course, present it professionally, and provide an artist’s statement. Participation in this exhibition is required and is tracked in A-S 001, Foundation Exhibition.*

* A-S 001 offered spring only. Transfer students should enroll in A-S 001 the first spring semester in which they are enrolled.

Major Requirements
1. 21 credit hours of studio courses at or above the 300 level, including the Studio Core requirement (9 credit hours). To fulfill the Studio Core, students must first complete one course from each of the following categories:

STUDIO CORE

Category One Options (3 credit hours)
A-S 310 Painting I .............................................. 3
A-S 320 Printmedia: Screenprint/Relief ............... 3
A-S 321 Printmedia: Intaglio/Lithography ............ 3
A-S 330 Intermediate Drawing ......................... 3
A-S 331 Exploration of Human Form .................. 3
*A-S 350 Fiber I ................................................. 3

Category Two Options (3 credit hours)
A-S 355 Introduction to Sculpture ....................... 3
A-S 360 Introduction to Hot Metals: Fabrication .... 3
A-S 361 Introduction to Hot Metals: Casting ......... 3
A-S 370 Ceramics I ............................................ 3

Category Three Options (3 credit hours)
A-S 300 Digital Photography .............................. 3
A-S 340 Introduction to Graphic Design, Meaning and Image .................................................. 3
A-S 345 Web Design ............................................. 3
A-S 346 Digital Video ........................................... 3
A-S 347 Multimedia (Non 3D Subtitle required) .... 3
A-S 348 Circuits & Bits: Introduction to Hardware and Software Topics in Arts ..................... 3
A-S 380 Black & White Darkroom Photography .... 3

2. 3 credit hours of art studio at the 500 level

3. 6 credit hours of art history at or above the 300 level

4. A-S 490 Senior Seminar (1 credit hour; taken during the final semester of study)

5. Participation in a Graduating Seniors’ Juried Exhibition in final semester of study

Subtotal: Major hours ........................................ 31

*A-S 350: Two-Dimensional subtitle required.

Electives
Students must complete 31 hours of electives, 9 of which must be outside of art studio, in a related area; the other 22 are free electives.

Subtotal: Electives ............................................. 31

TOTAL HOURS ............................................. 120
Requirements for the B.F.A. with a major in ART STUDIO

The B.F.A. program will allow for the development of studio practice at a focused, sophisticated and pre-professional level. A student’s program of study may focus on a single medium from the following media: ceramics, digital media, drawing, fiber, painting, photography, printmedia, and sculpture, or across a wide variety of media.

Students seeking the Bachelor of Fine Arts in art studio must complete the following:

College Requirements

Music, Theatre and/or Arts Administration ............................................... 6
plus 39 hours at 300-level or above

Subtotal: College Required hours ..................................................... 6

UK Core Requirements

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

Foundation Exhibition

Each student in the Foundations Program must participate in an exhibition during the spring semester. Students will select and submit one art piece from a UK Foundations course, present it professionally, and provide an artist’s statement. Participation in this exhibition is required and is tracked in A-S 001, Foundation Exhibition.*

*A-S 001 offered spring only. Transfer students should enroll in A-S 001 the first spring semester in which they are enrolled.

Major Requirements

B.F.A. Entrance Portfolio

B.A. Art majors may apply for the B.F.A. degree no earlier than the student’s fifth semester of college art study (60 credit hour minimum). Applicants must have earned at least a letter grade of C in each of the First Year Foundation courses. The procedure to apply for entry into the Art Studio B.F.A. major consists of a mandatory portfolio review juried by Art Studio faculty. If the quality of the portfolio is not deemed sufficient, students may reapply in a later semester for admittance to the B.F.A. program.

The portfolio will be juried from actual works of art presented in a professional format. The selected works should demonstrate the student’s creative abilities and productivity, current proposed direction, and strong evidence that the student can succeed in creating a coherent body of work for a senior exhibition. Students will be present during the review to answer questions regarding formal, technical and conceptual elements of their work. In addition to the in-person review, students will submit an artist’s statement and documentation of work presented during the review.

1. See B.F.A. Guidelines for procedures governing this program
2. 2 credit hours of ART 291 B.F.A. Studio Practicum
3. At least 30 credit hours of studio courses at or above the 300 level, according to the student’s committee-approved plan of study, including the Studio Core requirement (9 credit hours). To fulfill the Studio Core, students must complete one course from each of the following categories:

STUDIO CORE

Category One Options (3 credit hours)

A-S 310 Painting I
A-S 320 Printmedia: Screenprint/Relief
A-S 321 Printmedia: Intaglio/Lithography
A-S 330 Intermediate Drawing
A-S 331 Exploration of Human Form
A-S 350 Fiber I

Category Two Options (3 credit hours)

A-S 355 Introduction to Sculpture
A-S 360 Introduction to Hot Metals: Fabrication
A-S 361 Introduction to Hot Metals: Casting
A-S 370 Ceramics I

Category Three Options (3 credit hours)

A-S 390 Digital Photography
A-S 340 Introduction to Graphic Design, Meaning and Image
A-S 345 Web Design
A-S 346 Digital Video
A-S 347 Multimedia (Non 3D Subtitle required)
A-S 348 Circuits & Bits: Introduction to Hardware and Software Topics in Arts
A-S 350 Black & White Darkroom Photography

4. At least 6 credit hours of art studio at or above the 500 level
5. At least 9 credit hours of art history at or above the 300 level
6. A-S 490 Senior Seminar (1 credit hour; taken during the final semester of study)
7. Students are required to complete a minimum of two semesters at the University of Kentucky following admission to the B.F.A. program.
9. Students must pass an exit review with their B.F.A. committee their final semester of study in order to graduate with the B.F.A. degree.

Subtotal: Major hours ................................................................ 48

A-S 350: Two-Dimensional Subtitle required.

Electives

Students must complete 14 hours of electives, 9 of which must be outside of art studio, in a related area; the other 5 are free electives.

Subtotal: Electives ........................................................................ 14

TOTAL HOURS: ........................................................................... 120

Minor in Art Studio

Students from any college may choose to minor in Art Studio. They may choose between a broad-based introduction to studio arts or a more focused concentration in a specific medium such as ceramics, drawing, intermedia, fiber, painting, photography, printmaking, or sculpture. All prospective minors should seek advice from an Art Studio faculty member.

To earn a minor in Art Studio, students must complete the following:

Hours

1. One course chosen from the list below:
   A-S 102 Two-Dimensional Surface ............................................. 3
   A-S 103 Three-Dimensional Form ............................................. 3
   A-S 130 Drawing ................................................................... 3
   A-S 200 Introduction to Digital Art, Space and Time ...................... 3
2. One course in Art History ......................................................... 3
3. At least 12 hours in studio at the 200 level or above (with a minimum of 9 hours at or above the 300 level)

Subtotal: Minor hours ................................................................. 18

Only 3 hours from courses taken to fulfill a requirement in another major or minor can be used to meet the requirements of the minor in Art Studio. Students must take at least 9 hours of classes at the 200 level or above from the UK Art Studio program.

Minor in Photography

Students from any college may choose to minor in Photography. Students select approved courses dealing with the photographic arts from the 19th century to the present. All prospective minors should seek advice from an Art Studio faculty member or advisor.
To earn a minor in Photography, students must complete the following:

1. Complete at least one of the following courses:
   - A-S 200 Introduction to Digital Art, Space and Time ........................................... 3
   - A-S 280 Introduction to Photographic Literacy ....................................................... 3
   - A-S 300 Digital Photography .................................................................................. 3
   - A-S 390 Black & White Darkroom Photography ...................................................... 3

2. Complete an additional five courses from the following list:
   - A-H 101 Introduction to Visual Studies ................................................................. 3
   - A-H 343 History of Photography ........................................................................... 3
   - A-S 200 Introduction to Digital Art, Space and Time .............................................. 3
   - A-S 280 Introduction to Photographic Literacy ....................................................... 3
   - A-S 300 Digital Photography .................................................................................. 3
   - A-S 305 Studio Lighting ......................................................................................... 3
   - A-S 345 Web Design .............................................................................................. 3
   - A-S 346 Digital Video ............................................................................................ 3
   - A-S 380 Black & White Darkroom Photography ...................................................... 3
   - A-S 381 Advanced Black & White Darkroom Photography ........................................ 3
   - A-S 384 Color Photography I .................................................................................. 3
   - A-S 385 Digital Methods for Photography ............................................................. 3
   - A-S 386 Nonsilver Photography I ............................................................................ 3
   - A-S 480 Professional Practices in Photography ....................................................... 3
   - A-S 580 Photography III .......................................................................................... 3
   - A-S 581 Photography IV .......................................................................................... 3
   - A-S 584 Color Photography II .................................................................................. 3
   - A-S 586 Nonsilver Photography II ......................................................................... 3

Subtotal: Minor hours .................................................... 18

Only 3 hours from courses taken to fulfill a requirement in another major or minor can be used to meet the requirements of the minor in Photography. Students must take at least 9 hours of classes at the 200 level or above from the UK Art Studio program.

Requirements for the B.S. with a major in DIGITAL MEDIA AND DESIGN

The B.S. degree program in Digital Media and Design offers students an intensive digital media curriculum at a pre-professional level. This degree is available to students who plan to undertake careers in practical and commercial applications of digital design and related technologies involved in the creation and use of digital imagery. Students seeking the Bachelor of Science in Digital Media and Design must complete the following:

College Requirements
Music, Theatre and/or Arts Administration ............................................. 6
plus 39 hours at 300-level or above

Subtotal: College Required hours .......... 6

UK Core Requirements
See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

I. Intellectual Inquiry in Arts and Creativity
   Choose one course from approved list .................................................. 3

II. Intellectual Inquiry in the Humanities
   Choose one:
   - A-H 105 World Art Before 1400
   - A-H 106 Renaissance to Modern Art ................................................................. 3

3. Choose any one Art History and Visual Studies courses:
   - A-H 101 Introduction to Visual Studies – recommended
   - and one additional course from approved list .................................................. 3

*Note: For students interested in sculpture and/or 3-D fabrication, A-S 103 (Three-Dimensional Form) will be required as well.

Foundation Exhibition
Each student in the Foundations Program must participate in an annual exhibition to occur late each spring semester. Students will submit one work of their own selection from the first year’s work for the exhibition, present it professionally, and provide an accompanying artist’s statement. Participation in this exhibition is required and is tracked in *A-S 001, Foundation Exhibition.

*A-S 001 offered spring only and can be taken concurrently with the last of the following four courses: A-S 102, 103, 130, 200.

Minor in Digital Media and Design

Students from any college may choose to minor in Digital Media and Design. Students select approved courses dealing with the creation of digital art and design. Prospective students should seek advice from an Art Studio faculty member or advisor.

To earn a minor in Digital Media and Design, students must complete the following:

1. A-S 200 Introduction to Digital Art, Space and Time ................................................. 3

2. Five courses chosen from:
   - A-H 101 Introduction to Visual Studies .................................................. 3
   - A-S 280 Introduction to Photographic Literacy ................................................. 3
   - A-S 300 Digital Photography .......................................................... 3
   - A-S 305 Studio Lighting .......................................................... 3

6. All music majors must pass a piano proficiency examination and should schedule, in consultation with their advisor, a suitable course each semester until this requirement is completed. Students with little or no prior piano study should normally expect to complete the piano proficiency examination by the end of four semesters of study ................................................................. 0-4

**Subtotal: Lower Division hours ............. 31-35**

**Foreign Language**

To satisfy the requirement students must: 1) satisfy a four-term sequence in one language by passing the fourth semester, or 2) pass the third semester course in one language and the second semester course in a second language, or 3) demonstrate equivalent competence.

Subtotal: Foreign Language .......... 0-19

**Upper Division Major Requirements**

1. Continuation of major musical instrument or voice performance courses above the sophomore level .................. 4
2. MUS 372 Musical Analysis .................................. 2
3. MUS 302 and 303 ...................................................... 6
5. Ensemble ......................................................... 2
6. Music courses chosen from upper division courses appropriate to the areas of music history, theory, composition, and literature .................................................. 10
7. Electives: To include 12 hours in courses related to the major but outside the School of Music. The student’s advisor must approve choice of this related work. Courses used to fulfill UK Core requirements may be used to fulfill this related work, when appropriate.

Subtotal: Upper Division hours ............. 36

**TOTAL HOURS: .................................................. 120**

**Requirements for the BACHELOR OF MUSIC with a major in Music Performance**

Admission to the Bachelor of Music program in music performance is granted only after the successful completion of an audition in the student’s performance area.

To earn a Bachelor of Music degree in music performance, a student must complete 120 credit hours and have at least a 2.0 grade-point standing. At the conclusion of the sophomore year and before continuing in music performance at the upper division level, each student must perform before the music performance faculty for approval. Each student must also present a full recital during the senior year.

Students in music performance must complete the following:

**UK Core Requirements**

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

**Requirements for the BACHELOR OF MUSIC IN MUSIC EDUCATION**

The major in music education is the joint concern of the School of Music in the College of Fine Arts and the Department of Curriculum and Instruction in the College of Education. Admission to the program is granted only after the successful completion of an audition in the student’s performance area. In addition to completing the required courses, the student must present a half-recital or the equivalent on the major instrument or in voice during or after the sixth semester of study.

Music education majors who wish to receive a teaching certificate must meet the certification requirements of the College of Education, as well as the requirements for the College of Fine Arts. To qualify for student teaching and state teacher certification, a student must be officially admitted into the Teacher Education Program. Certification also requires successful completion of the NTE/Praxis II and a one-year paid internship. Additional information on TEP, NTE/Praxis II, certification and internship is outlined in the College of Education section of this Bulletin.

**UK Core Requirements**

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

Minor in Music

Students from any college may complete a minor in Music, selecting either an emphasis in theory/history or performance. Such a minor consists of at least 18 hours of course work in music. In the theory/history emphasis, six to nine hours of music theory, six to nine hours of music history, and three hours of music performance are required. In the performance emphasis, eight hours of performance instruction, four hours of appropriate ensemble, and six hours of music history or theory are required. A successful audition is required for private performance study in the designated area (level of performance expectation is that of entering freshman music major). The course requirements are as follows:

Minor in Music: Music Theory and History
1. Music Theory (6 to 9 hours)
   Students should choose from:
   MUS 174 Theory for Non-Music Majors .......... 3
   MUS 170/171 Theory I: Elementary Aural and Written Theory ......................... 4
   (Theory placement examination or MUS 174 is a prerequisite)
   MUS 172/173 Theory I: Elementary Aural and Written Theory ......................... 4
   (MUS 170/171 are prerequisites)
2. Music History (6 to 9 hours)
   Students should choose from:
   MUS 100 Introduction to Music ..................... 3
   MUS 201 Music in Western Culture to 1700 .......... 3
   MUS 202 Music in Western Culture, 1700 to Present .... 3
   MUS 203 History of Music I ......................... 3
   MUS 206 American Music ............................ 3
   MUS 220 Symphonic Music ........................... 3
   MUS 221 Survey of Vocal Music:
      Opera, Art Song, Choral Music .................... 3
   MUS 300 History of Jazz ............................. 3
   MUS 301 Appalachian Music ........................... 3
   MUS 302 History of Music II ......................... 3
   MUS 303 History of Music III ........................ 3
   MUS 330 Music in the World (Subtitle required) .... 3
   Note: Some variation in the above courses is possible, with written approval from the Director of Undergraduate Studies, School of Music. The availability of the minor in music performance is dependent on sufficient time within the appropriate instructor’s designated teaching load.
   MUS 100 Introduction to Music .......... 3
   MUS 201 Music in Western Culture to 1700 .......... 3
   MUS 202 Music in Western Culture, 1700 to Present .... 3
   MUS 203 History of Music I ......................... 3
   MUS 206 American Music ............................ 3
   MUS 220 Symphonic Music ........................... 3
   MUS 221 Survey of Vocal Music:
      Opera, Art Song, Choral Music .................... 3
   MUS 300 History of Jazz ............................. 3
   MUS 301 Appalachian Music ........................... 3
   MUS 302 History of Music II ......................... 3
   MUS 303 History of Music III ........................ 3
   MUS 330 Music in the World (Subtitle required) .... 3

3. Performance (3 hours)
   Students may choose class or private performance instruction (1 to 2 hours) or ensemble (1 to 2 hours).

Minor in Music: Performance
1. Performance Study (12 hours)
   Performance instruction (8 hours) – four semesters, sequential enrollment in MUP courses at appropriate level; 2 hours per semester.
   Ensemble (4 hours) in appropriate ensemble.
2. Music History and Theory (6 hours)
   Courses to be chosen from the following:
   MUS 174 Theory for Non-Music Majors .......... 3
   MUS 170/171 Theory I: Elementary Aural and Written Theory ......................... 4
   (Theory placement examination or MUS 174 is a prerequisite)
   MUS 172/173 Theory I: Elementary Aural and Written Theory ......................... 4
   (MUS 170/171 are prerequisites)
   Students from any college may complete a minor in Music, selecting either an emphasis in theory/history or performance. Such a minor consists of at least 18 hours of course work in music. In the theory/history emphasis, six to nine hours of music theory, six to nine hours of music history, and three hours of music performance are required. In the performance emphasis, eight hours of performance instruction, four hours of appropriate ensemble, and six hours of music history or theory are required. A successful audition is required for private performance study in the designated area (level of performance expectation is that of entering freshman music major). The course requirements are as follows:

Undergraduate Certificates in Musical Theatre

The Department of Theatre and Dance and the School of Music in the College of Fine Arts offer an undergraduate interdisciplinary Certificate in Musical Theatre. By combining the efforts and resources of the Department of Theatre and Dance and the School of Music, students are able to take the breadth of course work necessary for a fundamental experience in musical theatre. The course work includes acting, dancing, voice, and musical theatre techniques. This certificate will provide desired course work as well as performance opportunities for undergraduate students. The course work in the certificate is designed to use the strengths of each unit and supplement them with course work from the other unit. For example, music students don’t need additional voice work, but they do need training in acting and dance in order to be educated in musical theatre. Theatre students have access to both acting and dance classes, but lack sufficient preparation in voice and music for musical theatre. The Certificate provides an interdisciplinary bridge between the two programs.

Upon completion of the Musical Theatre Certificate students will be able to:
- apply and exhibit proficiency in vocal technique within the forms and styles of the musical theatre canon
- apply and exhibit proficiency in diverse acting techniques and styles necessary for the forms and styles of musical theatre
- apply and exhibit proficiency in diverse dance techniques and styles necessary for the forms and styles of musical theatre
- synthesize acting, singing, and dancing in a musical theatre performance

Applying to the Program

Students audition in April during the spring semester to enroll and be accepted into the Certificate program. Students participate in a dance audition, and perform a short monologue and section of a song for the selection process. This process is similar to one that students can be expected to perform and compile as their audition material for any local, regional, or national musical theatre performance opportunity.

Students entering the Certificate Program must have a 3.0 GPA in their major course work.

Musical Theatre Certificate for Voice Majors

The Musical Theatre Certificate for Voice Majors provides an opportunity for theatre majors to enhance a specific set of skills and techniques required for musical theatre performance, enriching their undergraduate experience and course work in their primary degree program.

Requirements for the Musical Theatre Certificate for Voice Majors

The certificate in musical theatre for voice majors requires 15 credits, including the following:

- TA 348 Musical Theatre Technique .......... 3
- TAD 147 Beginning Musical Theatre Dance .......... 2
- TAD 347 Advanced Musical Theatre Dance .......... 2
- TAD 243 Jazz Dance II ......................... 2
- TAD 242 Ballet II .................................. 2
- TA 237 Acting: Scene Study ......................... 3

Practicum

Students complete a practicum course where skills are applied and observed:
- TA 390 Theatre Practicum
- MUC 198 Opera Production Practicum .......... 1

Total hours: .................. 15

DEPARTMENT OF THEATRE AND DANCE

Our program of study emphasizes the intersection of practice and theory and is geared toward students who are interested in theatre and dance as part of a liberal arts education. Students create a program that is unique to their interests and strengths, with freedom to choose between a wide variety of electives to complete a truly individualized course of study. Theatre courses emphasize the collaborative nature of the art form, which encompasses performance, literature, design, history, artistic community, and intellectual rigor. Dance courses enhance critical thinking and analytical skills, cooperation and teamwork, self-expression and self-esteem, organization and problem solving, and cultural literacy. They also provide integral skills for theatre and opera students who want to market themselves as versatile performers.

Requirements for the B.A. with a major in THEATRE

The major in theatre must include the following:

Minor in Theatre
Students from any college may choose to minor in Theatre. This minor requires at least 19 hours of coursework arranged as follows:

Prerequisite Hours
One theatre course chosen from the list below:
TA 110 Theatre: An Introduction ..................................................... 3
TA 120 Creativity and the Art of Acting ............................................. 3
TA 126 Acting I: Fundamentals of Acting ............................................ 3
TA 150 Creativity and the Art of Design and Production ....................... 3

When appropriate, upper level courses may be substituted with the approval of the student’s advisor and the chairperson of the Department of Theatre and Dance.

Performance/Production Experience
TA 390 Theatre Practicum .............................................................. 1

Elected Theatre Courses (15 hours)
15 credits of theatre electives of which 6 must be at the 300 level and above.

Minor in Dance
The Dance program in the Department of Theatre and Dance was launched in 2011. Classes are available in modern, musical theatre, ballet and more, as well as an Introduction to Dance course under the UK Core Arts and Creativity curriculum. The program presents one annual concert with guest choreographers (auditions are open to all UK students). This minor requires at least 21 hours of coursework to include:

Dance Minor Requirements (21 hours)
TAD 140 Introduction to Dance ..................................................... 3
TAD 141 Modern Dance I ............................................................ 2
TAD 241 Modern Dance II ........................................................... 2
TAD 244 Dance Improvisation ....................................................... 1
TAD 250 Choreography................................................................. 2
TAD 370 Dance History ............................................................... 3

Plus one additional Dance Technique Course:
TAD 142 Ballet I ................................................................. 2

or
MUC 198 Opera Production Practicum ........................ 1

Total hours: .................................................. 18

*Theatre Majors who are Voice Minors within the School of Music would be able to register for MUP 102, Applied Voice. Other Theatre Majors could enroll in MUC 155, Voice for Non-Majors unless an appropriate private voice instructor or graduate student was available.

INTERDISCIPLINARY PROGRAMS

Requirements for the B.A. with a major in ARTS ADMINISTRATION

The demand for arts administrators is strong. What was once a small niche has transformed into an industry of professionals trained to manage theatres, symphony halls, galleries, museums, community art councils, orchestras, art centers, and many other types of institutions. In fact, the nonprofit arts industry employs approximately 1.3 million individuals annually.

UK’s Arts Administration degree program is designed to teach students the concepts, technologies, and skills necessary to successfully direct an arts organization in a competitive and changing environment. The program advocates a devotion to the arts, an interest in community development and integration, a focus on contemporary and relevant arts trends, and the belief that we can create a positive change by taking skills and knowledge out of the classroom and into the world.

Admission

To be admitted into the Arts Administration Program as a major, an applicant must first:
1. be enrolled in the University of Kentucky;
2. complete 30 semester hours of course work;
3. have a minimum 2.8 cumulative grade-point average; and
4. complete premajor core requirements (AAD 150, AAD 200, AAD 250, CIS/WRD 111, completion of Quantitative Foundations in UK Core, completion of Statistical/Inferential Reasoning in UK Core with a cumulative grade-point average of 3.0 in premajor courses.

Students meeting these requirements will be accepted as majors in the program.

Students in Arts Administration must complete the following program requirements:

College Requirements

Art, Music or Theatre outside of AAD arts discipline .................. 6
plus 39 hours at 300-level or above

Subtotal: College Required hours .................. 6

UK Core Requirements

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

NOTE: Students majoring in Arts Administration may use no more than six credit hours within the Arts Administration major requirements to fulfill UK Core requirements.

**Subtotal: Major hours** .............................................. **37**

In addition to the Major Requirements, students must take 30 credits within the College of Fine Arts, outside of their Arts Administration courses. Within these 30 credits, students must complete a minor or a double major in the College of Fine Arts. Additionally, 6 credit hours must be outside of the student’s minor or double major arts discipline area.

#### Directed Electives

Nine credits chosen in consultation with the student’s academic advisor from the following areas:

1. AAD 402 Topics in Arts Administration (Subtitle required) .................................................. 3
   May be repeated to a maximum of 6 credit hours when identified by different subtitles.
2. AAD 500-level courses. At least 3 credit hours must be from 500-level AAD courses.
3. Upper division courses from the College of Business and Economics.
4. Upper division courses from the College of Communication and Information.

**Subtotal: Directed Electives** .............................................. **9**

#### Free Electives

In addition to meeting their UK Core and major requirements, students must earn 6 credits in any area(s) of their choosing.

**Subtotal: Free Electives** .............................................. **6**

**TOTAL HOURS:** .............................................. **121**

---

#### Interdisciplinary Minor in the Arts

##### For Students outside the College

Any student whose major concentration is outside the College of Fine Arts may choose to minor in the arts, an academic program that cuts across disciplinary lines. This minor requires at least 24 hours of course work to include:

##### Prerequisites (9 hours)

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>ART 100</td>
<td>Introduction to Art</td>
<td>3</td>
</tr>
<tr>
<td>MUS 100</td>
<td>Introduction to Music</td>
<td>3</td>
</tr>
</tbody>
</table>

**Note:** When appropriate, upper level courses may be substituted with the approval of the student’s advisor and the Dean of the College of Fine Arts.

##### Elected Courses (15 hours)

Of these 15 hours, students must take at least 6 hours in each of two different disciplines (art, music, or theatre).

##### Performance and/or Studio Experience

Students must have performance and/or studio experience within the college in at least one of the arts, whether or not for academic credit.

##### For Students within the College

Any student whose major emphasis lies within the College of Fine Arts may choose to minor in the arts by selecting at least 24 hours of course work in the College of Fine Arts (art, music, or theatre) outside the major. The minor must include at least nine hours of credit in each of the disciplines outside the major department or school. No more than six hours of course work used as “related work” for the major may be used toward the minor.
Eligibility

Any student enrolled at the University of Kentucky, or any student enrolled in a community college who intends to transfer to the University of Kentucky, is eligible to apply.

The Thomas D. Clark Lectureship in the Humanities

Created to bring eminent scholars and authors to the campus, the Thomas D. Clark Lectureship stipulates that the recipient will offer a public lecture and will lead a session of a special humanities seminar related to the Lecturer’s professional field of interest. Juniors and seniors, selected on the basis of written application, participate in this seminar.

The Mary C. Bingham Seminar in the Humanities

The Mary C. Bingham Seminar in the Humanities is offered every other year and is open on a competitive basis to any junior or senior in the University. Participating students are selected on the basis of written application. The seminar combines course work with a special summer field trip up to four weeks in length either in this country or abroad (four credit hours). The seminar is concerned with the comparative study of a humanities subject that benefits from site analysis (e.g., cities, landscape). Conducted by a faculty member whose proposal has been selected in competition, the seminar offers up to a $1,000 summer travel scholarship to each student participant.

Edward T. Breathitt Undergraduate Lectureship in the Humanities

The Edward T. Breathitt Lectureship is the first undergraduate lectureship established at an American university. It is named in honor of an eminent Kentuckian and an outstanding alumnus of the University of Kentucky whose interest in higher education has been exceptional.

The lectureship is awarded to an undergraduate student whose qualities of mind and spirit have been expressed eloquently on one or more of the basic characteristics that distinguish the humanities as fields of study. They are: form, value, memory.

Any university faculty member may nominate a qualified upper level student from any discipline. Each nominee must submit a two-page prospectus describing the lecture topic (to be of the candidate’s own choice) and a brief, tentative biography, as well as a personal resume and an additional letter of recommendation. The recipient receives a special award and an honorarium.

How to Apply

Students interested in any of these special educational opportunities should write or telephone:

Gaines Center for the Humanities
232 East Maxwell Street
University of Kentucky
Lexington, KY 40506-0344
(859) 257-1537
www.uky.edu/academy/gainescenter
Brian Jackson, Ph.D., is Interim Dean of the Graduate School.

The University of Kentucky began offering graduate work in 1870, and awarding degrees in 1876. The Graduate School was organized as a distinct unit in 1912.

The Graduate School is concerned with advanced study and research carried on by the faculty and students of all colleges and departments. Under it, the total graduate resources of the University are merged in order to promote the achievement of knowledge in an atmosphere of free and lively inquiry.

More information is available on the Web at: www.gradschool.uky.edu/

**GRADUATE DEGREES**

Graduate work is offered in most colleges in the University. The following advanced degrees are conferred:

- Doctor of Education
- Doctor of Musical Arts
- Doctor of Philosophy
- Master of Architecture
- Master of Arts
- Master of Arts in Education
- Master of Arts in Teaching World Languages
- Master of Arts in Interior Design
- Master of Business Administration
- Master of Education
- Master of Engineering
- Master of Fine Arts
- Master of Health Administration
- Master of Historic Preservation
- Master of Mining Engineering
- Master of Music
- Master of Public Administration
- Master of Public Financial Management
- Master of Public Health
- Master of Public Policy
- Master of Rehabilitation Counseling
- Master of Science
- Master of Science in Accounting
- Master of Science in Agriculture
- Master of Science in Athletic Training
- Master of Science in Applied Behavior Analysis
- Master of Science in Biomedical Engineering
- Master of Science in Biosystems and Agricultural Engineering
- Master of Science in Chemical Engineering
- Master of Science in Civil Engineering
- Master of Science in Clinical Research Design
- Master of Science in Communication Sciences and Disorders
- Master of Science in Community and Leadership Development
- Master of Science in Education
- Master of Science in Electrical Engineering
- Master of Science in Epidemiology
- Master of Science in Family Sciences
- Master of Science in Forestry
- Master of Science in Library Science
- Master of Science in Manufacturing Systems Engineering
- Master of Science in Materials Science and Engineering
- Master of Science in Mechanical Engineering
- Master of Science in Mining Engineering
- Master of Science in Nursing
- Master of Science in Nutrition and Food Systems
- Master of Science in Nutritional Sciences
- Master of Science in Physician Assistant Studies
- Master of Science: Professional Master in Biomedical Engineering
- Master of Science in Radiological Medical Physics
- Master of Science in Retailing and Tourism Management
- Master of Social Work
- Specialist in Education

The degree of Doctor of Philosophy is offered with major work in the following fields:

- Agricultural Economics
- Anatomy and Neurobiology
- Animal and Food Sciences
- Anthropology
- Biochemistry
- Biology
- Biomedical Engineering
- Biosystems and Agricultural Engineering
- Business Administration
- Chemical Engineering
- Chemistry
- Civil Engineering
- Clinical and Translational Sciences
- Communication
- Computer Science
- Counseling Psychology
- Early Childhood, Special Education, and Rehabilitation Counseling Economics
- Educational Psychology
- Education Sciences
- Educational Leadership Studies
- Educational Policy Studies, Measurement and Evaluation
- Electrical Engineering

English
- Entomology
- Epidemiology and Biostatistics
- Exercise Science
- Family Studies
- Gender and Women’s Studies
- Geography
- Geological Sciences
- Gerontology
- Hispanic Studies
- History
- Integrated Plant and Soil Science
- Kinesiology and Health Promotion
- Materials Science and Engineering
- Mathematics
- Mechanical Engineering
- Microbiology
- Mining Engineering
- Music
- Musical Arts
- Nursing
- Nutritional Sciences
- Pharmaceutical Sciences
- Pharmacology
- Philosophy
- Physics
- Physiology
- Plant Physiology
- Political Science
- Psychology - Clinical Psychology
- Psychology - Experimental Psychology
- Public Policy and Administration
- Rehabilitation Sciences
- Social Work
- Sociology
- Spanish
- Special Education
- Statistics
- Studies in Higher Education
- Toxicology
- Veterinary Science

The Graduate School administers two multidisciplinary Graduate Centers:

The Patterson School of Diplomacy and International Commerce offers an interdisciplinary master’s degree which can be tailored to meet the career needs of individual students. The program is especially useful for students desiring careers in any of the non-academic fields in foreign affairs such as international banking, commerce and journalism, or service with governmental agencies or international organizations. For more information see the Patterson School Web site at: www.uky.edu/PattersonSchool/
The Graduate School

The Martin School of Public Policy and Administration offers four multidisciplinary degree programs—the Master of Public Administration, the Master of Public Financial Management, the Master of Public Policy and the Ph.D. in Public Administration—and engages in research and public service activities. The disciplines represented by the School’s faculty are management, finance, economics, industrial engineering, political science, and health administration. The research and public service components of the Martin School offer the School’s faculty, staff, and graduate students the opportunity to engage in interdisciplinary research on public policy issues. For more information see the Martin School Web site at www.martin.uky.edu/

ORGANIZATION OF THE GRADUATE SCHOOL

The Graduate Faculty consists of the Dean of the Graduate School and all persons appointed thereto by the President of the University. As the chief University agency for the promotion of the ideals of graduate study, it determines the policies of the Graduate School and makes recommendations to the University Senate on such matters as require the approval of that body. All rules affecting graduate work and the inauguration of new graduate programs must be approved by the Graduate Faculty.

The Dean. The Dean of the Graduate School is charged with the administration of the policies adopted by the Graduate Faculty and the University Senate relating to graduate studies.

The Graduate Council is composed of 21 members and the Dean of the Graduate School, who serves as chair. There are 19 faculty representatives and two student representatives. Associate deans serve in a nonvoting, ex officio capacity.

The Graduate Council approves or disapproves proposals concerning courses offered for graduate credit, and advises and lends assistance to the Dean of the Graduate School in his execution of policies and regulations determined by the Graduate Faculty.

Directors of Graduate Studies. A Director of Graduate Studies is appointed for each program of graduate study. Among other duties, each director serves as advisor to students majoring in his or her area.

ADMISSION

Students seeking admission to a degree program in the Graduate School must hold a baccalaureate degree from a fully accredited institution of higher learning. An overall undergraduate grade-point average of 2.75 and 3.0 on all graduate work is required by the Graduate School. Individual departments may require higher grade-point averages.

All applicants for admission to degree programs in the Graduate School must submit official scores on the verbal, quantitative and analytical writing portions of the Graduate Record Examination, except programs with approved alternate requirements (refer to The Graduate School Bulletin for a list of programs).

Upon admission, new students must submit official transcripts directly to the Graduate School from each institution of higher learning previously attended.

International applicants must meet the requirements listed above, as well as the English proficiency requirement (refer to The Graduate School Bulletin for a list of programs).

For domestic applicants (U.S. citizens or resident aliens) the application fee is $65; for international applicants, the fee is $75.

Complete applications must be submitted no later than one month before the beginning of the term the applicant intends to begin graduate work (five months for international applicants). Students should refer to the University Calendar in the front of this Bulletin for important dates.

University Scholars Program (Combined Doctoral or Master’s/Bachelor’s Degree Program)

This program offers particularly gifted and highly motivated students the opportunity of integrating their undergraduate and graduate courses of study in a single continuous program culminating in both a baccalaureate and a master’s or doctoral degree. The total number of hours for the combined program may be as many as 12 less than the total required for the bachelor’s and the master’s or doctoral degrees separately. The requirements for the bachelor’s degree are unaffected.

Applications to the program should be submitted at the end of the student’s junior year. Applicants should have completed at least 90 credit hours of work toward the bachelor’s degree, or be eligible for senior standing in the semester they are admitted to the program. The master’s program should be in the field of the undergraduate major (there are some exceptions made), and the undergraduate grade-point average must be at least 3.50 in the applicant’s major field and 3.20 overall.

Students must register in the Graduate School for all work taken following admission to the University Scholars Program. The primary classification of University Scholars will be undergraduate until they have completed all requirements for their undergraduate degree, and undergraduate tuition rates will be applied to the 12 hours (or less) of graduate level course work designated for dual credit in this program.

Graduating Seniors as Part-Time Graduate Students

A senior at the University of Kentucky lacking no more than six credit hours for graduation and having an undergraduate grade-point average of at least 2.75 on all work attempted may register in a degree program in the Graduate School with the consent of his or her college dean, the Director of Graduate Studies, and the Dean of the Graduate School.

The total load of such a student may not exceed 12 credit hours. Graduate credit will be allowed for each credit hour of graduate work beyond the six or fewer credit hours needed to complete undergraduate requirements. Requirements for the undergraduate degree must be completed during the semester in which the student is allowed to register for part-time graduate work.

Conditional Admission

Students wishing to pursue a higher degree who are temporarily ineligible for regular graduate admission status may be recommended by the Director of Graduate Studies for conditional admission status for a maximum of one full-time semester. Students should refer to The Graduate School Bulletin for further information. Special international cohorts are considered for admission to graduate programs prior to meeting the language proficiency and GRE/GMAT requirements. If granted conditional admission, students must meet the language and GRE/GMAT requirements prior to beginning the academic program of study.

Post-Baccalaureate Graduate Students (Nondegree-Seeking Students)

Students who hold a baccalaureate degree and who wish to pursue graduate study without a degree objective may apply for admission as post-baccalaureate graduate students. An overall undergraduate grade-point average of 2.5 or better and 3.0 on all previous graduate work is required by the Graduate School for admission to post-baccalaureate status.

Advanced Degrees for Faculty Members

Members of the faculty, except those in the Community College System, having a rank higher than that of instructor may not be considered as candidates for degrees in the discipline in which they are employed and hold academic rank.
DUAL DEGREE PROGRAMS

For more information on the dual degree programs, see The Graduate School Bulletin.

JOINT AND COOPERATIVE DOCTORAL PROGRAMS
Cooperative doctoral programs in education are offered between the University of Kentucky and other state universities: Eastern Kentucky University, Morehead State University, Murray State University, and Western Kentucky University. These programs permit qualified candidates to complete approximately one year of graduate work above the master’s degree at the cooperating university, and the work of each candidate is directed by a joint faculty committee from both institutions.

Cooperative doctoral programs in musicology, physics, and higher education are offered between the University of Kentucky and the University of Louisville; a cooperative program in geology between the University of Kentucky and Eastern Kentucky University; and a cooperative program in history between the University of Kentucky and Western Kentucky University. A cooperative doctoral program in rehabilitation sciences is offered between the University of Kentucky, Eastern Kentucky University, Murray State University, and Western Kentucky University. The University of Kentucky and the University of Louisville share a joint Ph.D. program in Social Work.

For more information on joint and cooperative programs, see The Graduate School Bulletin.

INDEPENDENT STUDY PROGRAMS
Correspondence Courses
No graduate credit is given for courses taken by correspondence.

REGISTRATION AND CLASSIFICATION
All students expecting graduate credit must be enrolled in the Graduate School. Graduate students will conform to the general registration schedule of the University and may not enter later than the last allowable date set by the University Registrar.

Before registering, a graduate student must obtain his or her advisor’s approval of the proposed program.

ASSISTANTSHIPS, FELLOWSHIPS, STUDENT SUPPORT
Financial assistance is available in the form of assistantships and fellowships. An assistantship is an appointment to specified teaching or research duties. A fellowship is a non-service award made to superior students to assist in the pursuit of an advanced degree.

Assistantships
More than 1,500 teaching and research assistantships are available from departments and other units of the University. In addition to an assistantship stipend, full or partial tuition scholarships are available for most assistantship holders based on the number of hours per week in the assistantship. University-provided health insurance is offered for full-time assistants who meet the eligibility criteria.

The majority of assistantships are awarded for the academic year. Students interested in an assistantship should notify the appropriate Director of Graduate Studies by January for the next academic year. Departments make most fellowship nominations by February for the next academic year. Notification of fellowship awards generally comes from the Graduate School before April 15.

Fellowships
Non-service fellowships are available in all areas of graduate work. The majority of these fellowships include a stipend as well as a tuition scholarship and university-provided student health insurance. While many fellowships are formally awarded by the Graduate School, nominations for most fellowships are made by the program in which a student seeks to enroll.

Fellowships are awarded for the academic year. Departments make most fellowship nominations by February for the next academic year, so students interested in a fellowship are strongly urged to contact the appropriate Director of Graduate Studies no later than January 15 for the next academic year. Notification of fellowship awards generally comes from the Graduate School before April 15.

Awards are sometimes offered before an applicant is officially admitted to the Graduate School; all awards offered are contingent upon admission to the program of study nominating the student. Post-baccalaureate (nondegree) students are not eligible for fellowship consideration, or for those tuition scholarships that accompany most assistantships.

For more information on fellowships, visit: www.research.uky.edu/gs/StudentFunding/fellowship_opportunities.html

Student Support
Funds are available to doctoral students enrolled in graduate programs for travel to present research at professional meetings. The amount of the award is variable, depending on the available budget each year. Application materials and information about deadlines are available on the Web at: www.research.uky.edu/gs/StudentFunding/supportfunding.html
The College of Health Sciences is one of the six health professions colleges which, with the University Hospital, constitute the health science campus of the University of Kentucky.

The College of Health Sciences is composed of the Department of Clinical Sciences and the Department of Rehabilitation Sciences.

Today health science professionals are assuming greatly expanded and increasingly complex duties and responsibilities as essential members of the health care team. They work in a variety of delivery settings and have key responsibilities for the care and health of patients, clients, and communities. The UK College of Health Sciences, established in 1966, was among the first colleges to offer programs for students interested in these rapidly developing health professions. The college strives continually to revise its offerings in keeping with society’s evolving expectations and health care needs.

Graduate, Professional and Undergraduate Programs in Health Sciences

All students within the College of Health Sciences must adhere to the Health Care Colleges Code of Student Professional Conduct, as well as the UK Student Code of Conduct. The Health Care Colleges Code of Student Professional Conduct is available at www.uky.edu/provost/apva/Policy_Protocol/HCCSPBC.pdf

Undergraduate Programs in Health Sciences

The University of Kentucky grants the following degrees in the College of Health Sciences:

- Bachelor of Health Sciences
- Bachelor of Science

Students pursuing the Bachelor of Health Sciences select from these majors: Clinical Leadership and Management, Communication Sciences and Disorders, and Medical Laboratory Science. The College also offers a Bachelor of Science with a major in Human Health Sciences.

The College of Health Sciences offers a minor in Health Advocacy.

Undergraduate Certificate in Health Sciences

The University of Kentucky grants the following undergraduate certificates in the College of Health Sciences:

- Clinical Health Management (see page 283)
- Nutrition for Human Performance (see page 282)
- Research in Human Health Sciences (see page 281)

ADMISSIONS PROCEDURES

Baccalaureate Programs

Baccalaureate programs in the College of Health Sciences are divided into preprofessional and professional programs. A premajor program is comprised of courses prerequisite to professional program content as well as UK Core requirements. Freshman and transfer students who have initially not completed prerequisites for entrance into a professional program complete only the first step of the application process – application to the University of Kentucky. Freshman applicants to the college will be admitted into a premajor program if they meet University entrance requirements or to the human health sciences program if they are selected for admission.

A professional program is comprised of all courses and clinical experiences required for students who have applied for and have been accepted into professional programs. Consideration for admission to the college’s professional programs requires completion of prerequisite course work and completion of the professional application procedure.

Therefore, the admissions procedure for all Clinical Leadership and Management (Track A), Communication Sciences and Disorders and Medical Laboratory Science programs within the College of Health Sciences is a two-step process. Applicants must first be accepted by the University of Kentucky and second must apply for admission to a professional program approximately two semesters prior to completing prerequisites. Students applying to the Clinical Leadership Program (Track B) need only apply to the University of Kentucky. Human Health Sciences admissions procedures require students to apply for admission to the University as well as to the College of Health Sciences, either upon initial admission to the University or during the freshman or sophomore year.

This selection procedure is necessary because of the limited space in the professional years of the health sciences programs.

Requirements for the first several years (preprofessional program) may be completed at the

The College of Health Sciences offers graduate programs in the following areas: Athletic Training, Communication Sciences and Disorders, Physical Therapy, Physician Assistant Studies, and Rehabilitation Sciences.

**PROBATION AND SUSPENSION**

The probation and suspension rules for professional students in the College of Health Sciences appear under Academic Requirements in the front section of this Bulletin.

**NOTICE TO ALL APPLICANTS**

Some programs will require a period of training off-campus in community facilities outside of Lexington.

**ADMISSIONS, RECRUITMENT AND ACADEMIC ADVISING**

Academic advising is available from the College of Health Sciences. Students should report to the Office of Student Affairs to be assigned an advisor. Detailed information on each program is detailed on each program’s Web site. For academic advising, contact:

- **Rebecca Serrano**
  - Academic Advisor
  - (859) 218-0864
  - rebecca.serrano@uky.edu

- **Jimmie L. Jones**
  - Academic Advisor
  - (859) 218-0546
  - jimmie.jr2@uky.edu

- **Casey Shadix**
  - Recruiter
  - (859) 218-0573
  - casey.shadix@uky.edu

**BACCALAUREATE PROGRAMS**

**College Graduation Requirements**

To graduate with a Bachelor of Health Sciences or a Bachelor of Science degree from the College of Health Sciences, a student must (1) satisfy UK Core requirements and (2) complete a minimum of 120 semester hours, including required courses in both the preprofessional and professional programs.

**DEPARTMENT OF CLINICAL SCIENCES**

**B.H.S. with a major in CLINICAL LEADERSHIP AND MANAGEMENT**

Graduates of the Clinical Leadership and Management program earn a Bachelor of Health Sciences (B.H.S.) degree. The purpose of the program is to provide health care professionals with formal academic education and skills training needed to prepare them for leadership and management roles and responsibilities. The program offers a career ladder for professional advancement in the health sciences. Program graduates will be prepared to assume greater responsibilities at their current jobs, be better qualified for job promotions, and be positioned for graduate studies.

This program is intended for health care professionals who have an associate degree in a health related discipline (Track A) or entry level students (Track B). Historically, there have been limited educational options for associate degree trained health professionals who are interested in pursuing a baccalaureate degree in Kentucky. This degree completion program accommodates freshmen, associates or transfer students from many allied health disciplines including, but not limited to: radiological technology, respiratory therapy, dental hygiene, clinical laboratory technicians, and nursing. The program provides accessible course offerings for non-traditional students who may require part-time classes.

It is anticipated that graduates of the B.H.S. program in Clinical Leadership and Management will benefit from advanced knowledge and skills which will enhance their job/career, work environment and quality of life. Program graduates may also benefit their employers, health care facility, and patients.

For additional information, go to:

- [www.uky.edu/chs/clm](http://www.uky.edu/chs/clm)

**Application Process and Requirements**

The admissions process begins with an application to the University of Kentucky by December 1 for spring enrollment and August 1 for fall enrollment. For incoming freshmen applying for admission for Summer I or Summer II, the deadline is February 15. For transfer students and readmitted students applying for admission for Summer I, the deadline is April 15. For transfer students and readmitted students applying for admission for Summer II, the deadline is May 15. Application must also be made directly to the CLM program for Track A students. The CLM Track A program uses rolling admissions once applicants are accepted by the University as a degree seeking student. Track B entry level students may apply to the University of Kentucky for either fall or spring admission.

Academic advising and information about admissions is available from:

  - (859) 218-0573
  - casey.shadix@uky.edu
GRADE POINT AVERAGE

A total of 120 credits (including 39 program credits as listed below, UK Core and graduation requirements) are required to receive the Bachelor of Health Sciences degree from the University of Kentucky. The core curriculum of 39 credits includes:

UK Core Requirements

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

I. Intellectual Inquiry in Arts and Creativity

HHS 443 Health Information Management ........................................ 2
HHS 453 Cultural Competence in Healthcare .................................... 3
COM 471 Introduction to Health Communication ................................ 3
Students interested in health care have a variety of academic options. The Human Health Sciences (HHS) baccalaureate program was created to address the need for a well prepared health care work force. Graduates of this program will have a strong foundation in competencies necessary to deliver high quality health care in an interprofessional, dynamic environment. This program is not intended to replace traditional pathways to health care careers; instead, it is intended to offer a unique alternative for those who seek careers in health care and the health professions. Specifically, the degree offers four options for students’ interested in future graduate or professional study in Physician Assistant, Physical Therapy, Dentistry, and Pharmacy programs. This degree also prepares students for work in a variety of other fields, including mid-level management or supervision across healthcare environments, medical or pharmaceutical sales, patient navigation, and community health advocacy.

Admission

Admission into the Human Health Sciences baccalaureate program is highly competitive. The following factors will be taken into consideration as part of the admissions decision:

- high school GPA (preference given to those with an unweighted high school grade-point-average of 3.5 or higher);
- ACT or SAT scores (preference given to those with a 28 ACT or composite SAT equivalent or higher);
- service and volunteerism;
- shadowing and observation of healthcare professionals;
- cultural experiences as well as leadership roles;
- completion of program application and interview process.

The Human Health Sciences program employs a holistic admissions model in which all aforementioned values are weighed equally along with an interview experience. The program priority application deadline is December 1 of each year and will include a personal statement. A rolling admissions process shall be utilized until the cohort is filled. Interviews will be conducted to allow student finalists to demonstrate their non-academic skills.

UK Core Requirements

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

The Human Health Sciences baccalaureate program has selected specific UK Core courses that also meet major requirements. Students may choose their own UK Core approved course in areas where a specific one is not listed (e.g., Arts and Creativity, Humanities, etc.):

I. Intellectual Inquiry in Arts and Creativity

HHS 453 Cultural Competence in Healthcare ......................................... 3
Graduation Composition and Communication Requirement hours (GCCR) ........................................... 6

Required Courses for the Major

All HHS degree seeking students are required to complete ten courses totaling 30 credits. These courses provide students with comprehensive knowledge of healthcare and related issues and the initial competencies essential for the profession. Courses have a particular focus on interprofessional healthcare delivery. Strongly encouraged are HHS 101 Survey of Health Professions I, and HHS 102 Survey of Health Professions II: Shadowing Experience.

Prerequisite Courses Unique to Each Option

These courses are consistent with the prerequisite requirements for each option program (Physician Assistant, Physical Therapy, Dentistry, and Pharmacy). Students will be advised accordingly to ensure they have met the course requirements for their program of interest.

Required Core Courses – Non-HHS

These courses are intended to support students’ preparation in the sciences and better prepare them for healthcare careers or entry into professional degree programs.

Prerequisite Courses Recommended But Not Required

The Physical Therapy, Dentistry, and Pharmacy options have courses that are recommended, but not required. Students will be encouraged to take these courses, although taking these courses may extend their program. However, students completing the prerequisite recommended courses are traditionally more competitive for admission to future graduate and professional programs.

Option Related Major Requirements

The Physician Assistant and Dentistry options require an additional major course. For Physician Assistant, the course is HHS 451 Introduction to Medicine (2 credits). For Dentistry, the course is HHS 450 Introduction to Dentistry (3 credits).

Recommended Electives

Two courses, HHS 101 Introduction to the Health Sciences (1 credit) and HHS 102 Survey of Health Professions II (1 credit) are strongly recommended but not currently required. Freshmen and sophomores will be directed into these courses. In addition, several elective courses are available in the major, and students will be advised based on the option of the interest and availability in their program of study.

General Electives

The University has many courses that add to the students’ course of study. Students will be advised accordingly.

**B.H.S. with a major in MEDICAL LABORATORY SCIENCE**

The undergraduate Medical Laboratory Science (MLS), formally Clinical Laboratory Sciences (CLS) program prepares medical laboratory scientists who perform laboratory tests that aid the diagnosis, prevention, prognosis, and treatment of disease. MLS graduates are employed in a variety of healthcare settings including hospital and private laboratories, clinics, pharmaceutical companies, research institutions, the armed forces, and public health centers. In addition to performing laboratory tests, MLS graduates can serve as consultants, managers, sales and technical representatives, and educators.

The MLS Program is offered at the Lexington campus and at the Center of Excellence in Rural Health campus in Hazard, Kentucky. Within the MLS Program there are two tracks leading to a B.H.S. with a major in Medical Laboratory Science. The **Traditional Track** is for students who have completed general education courses and have met the program preprofessional requirements. (This includes transfer students and students seeking a second bachelor’s degree.) The **MLT to MLS Track** is only applicable to those who have earned an associate degree from a Medical Laboratory Technician (or Clinical Laboratory Technician) Program. (This track is offered via distance learning.)

**Traditional Track Admission**

The MLS program has selective admissions and students are admitted to the professional program on a competitive basis. Applicants must have completed all UK Core requirements and preprofessional requirements prior to entering the program. Admission is based on cumulative grade-point average (GPA) for all courses taken at institutions of higher education of 2.5 or higher on a 4.0 scale, cumulative GPA for preprofessional courses, and recommendation scores. Interviews may also be used in the admissions process. Applicants must submit an application and three recommendation forms.

The application deadline is **March 1**.

**The Curriculum**

A total of 120 credits (including 60 professional program credits, preprofessional credits, UK Core requirements and the Graduation Composition and Communication requirement credits) is required to receive the Bachelor of Health Sciences with a major in MLS degree.

**UK Core Requirements**

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

Subtotal: Professional Course hours .................... 60

In addition, students holding baccalaureate degrees in a health-related science may apply to the MLS program (fulfillment of preprofessional courses is required) and earn a second baccalaureate degree. Upon successful completion of the professional program, all students are eligible for the national certifying exam.

**MLT to MLS Track**

The MLT to MLS track (bridge) is an online program only available to those who have an associate degree from a medical laboratory technician (MLT) program.

**Admission**

Early academic advising for this track is crucial and is available from Jimmie L. Jones at: jimminie.jr2@uky.edu

The MLS Program has selective admissions and students are admitted to the professional program on a competitive basis. Applicants must have completed all UK Core requirements and preprofessional requirements prior to entering the program. Admission requirements include: cumulative grade-point average (GPA) for all courses taken at institutions of higher education of 2.5 or higher on a 4.0 scale, successful completion of all preprofessional courses, an associate degree from a MLT/CLT program, and certification (BOC preferred) or documentation of five years of work experience in a MLT position within a multidisciplinary laboratory, and current employment in a clinical laboratory that offers testing in all major disciplines. Admission is based on GPA, cumulative GPA for preprofessional courses, and recommendation scores. Interviews may also be used in the admissions process. Applicants must submit an application, three recommendation forms, official transcripts, resume, and documentation of MLT/CLT program completion.

The application deadline is **May 15**.
The Curriculum

A total of 120 credits (including 40-48 professional program credits, preprofessional credits, UK core requirements, and the Graduation Composition and Communication Requirement) is required to receive the Bachelor of Health Sciences with a major in MLS degree.

HHS 405 Epidemiology and Biostatistics .......... 3
CLM 452 Community and Institutional Planning for Health Services Delivery ................. 3

Undergraduate Research in Human Health Sciences Certificate

The Office of Research in the College of Health Sciences in collaboration with The Departments of Rehabilitation Sciences and Clinical Sciences offers an undergraduate certificate in Undergraduate Research in Human Health Sciences. This certificate will enhance the educational goals of any University of Kentucky student interested in obtaining experience in health-related research to benefit the pursuit of a health care career.

Admissions Criteria

The admissions criteria for the proposed certificate are as follows:

• a minimum second semester freshman
• 3.0 GPA
• a statement from a CHS faculty research mentor willing to work with the student
• an application submitted through the Office of Student Affairs

Before beginning, all students accepted into the certificate program will be required to:

• register with the UK Office of Undergraduate Research
• complete research ethics education as directed by their mentor

Required Courses
A total of 12-15 credit hours is required for the certificate. All required courses for the certificate must be completed with an overall GPA of 3.0 or better and each course within the certificate must be completed with at least a C or better. Courses are described below and can be adapted to accommodate students enrolled in the Honors Program as requested:

HHS 454 Research in Human Health Sciences ........................................ 6-9

This course provides an introduction to basic methods for undertaking research on issues related to health care, and within health services organizations and systems.

HHS 455 Research Experience in Human Health Sciences ............................ 6-9*

*If a student comes from another academic unit with research experience, the student can agree to have 3 credit hours count toward the 6-9 credit hours of research experience required for the certificate. In addition, students could elect to complete this requirement under the direction of different mentors as long as they demonstrate this is justified for their scientific field of interest.

Mentor/student selected course work .............. 3
(i.e. content specific to area of research) – 300 level or above

Student and mentor will collaborate to select an out-of-discipline course to meet this requirement of the certificate program. The course could come from any program on the UK campus with the caveat that the content of the course be specific to the student’s scientific field of interest. For example, a student with a major in communication sciences and disorders interested in preterm birth on family stress might take a selected course in sociology (A&S), psychology (A&S), or health care navigation (HHS). A student interested in an aspect of aging muscle might take a course in sociology (A&S), psychology (A&S), or health care navigation (HHS). A student interested in an aspect of aging muscle might take a course in sociology (A&S), psychology (A&S), and be a research mentor who would assist the student in understanding the area of research.

Student and mentor will collaborate to select an out-of-discipline course to meet this requirement of the certificate program. Undergraduate Certificate in Nutrition for Human Performance

The Nutrition for Human Performance Certificate is a 14 credit hour program combining courses from HHS, DHN and KHP. The practice area of Nutrition for Human Performance continues to grow and has sparked interest among students pursuing undergraduate degrees in not only nutrition, but also kinesiology and health promotion and human health sciences (e.g., pre-medicine, pre-physical therapy, pre-physician assistant studies). Nutrition for Human Performance focuses on the integration of nutrition and exercise to properly support physical activity, fitness, and athletic performance at all levels, from those just starting an exercise program, to elite athletes, and those recovering from injury. The Certificate in Nutrition for Human Performance also provides students with cross-disciplinary knowledge of the relationship between exercise physiology, nutrition, and overall wellness.

This certificate provides a unique opportunity to expand student knowledge in an area not traditionally, or adequately, addressed in each individual degree programs. For students in dietetics and human nutrition, the certificate would provide specialized knowledge that would immediately make graduates more competitive at securing a supervised internship and/or employment (e.g., as a Registered Dietitian Nutrition (RDN) interested in professional certification as a specialist in sports nutrition). For students in human health sciences, the certificate would provide basic knowledge to make them a more well-rounded candidate for professional school. For students in kinesiology and health promotion, the certificate would provide additional knowledge of the role of diet on health, wellness, and injury recovery.

At this time, it is not necessary to obtain a minor and, in fact, a minor is not offered at the University of Kentucky that addresses these needs. As well, there are no health-related interdisciplinary/cross-disciplinary certificate programs currently available to undergraduate students at UK and this certificate would be of interest to students in at least three colleges.

In addition, the HHS degree serves as a pre-professional undergraduate degree for students who aspire to careers in health care, such as dentistry, pharmacy, physician assistant studies and physical therapy. The program offers an interprofessional education with broad exposure to health care practices, policies and management. The Nutrition for Human Performance certificate enhances the value of the HHS degree by addressing a weakness found in many pre-health professions baccalaureate programs: absent to minimal nutrition and exercise education for healthcare professionals.

This certificate provides a unique opportunity to provide students with a better understanding and appreciation for how nutrition impacts athletic performance and the role of diet and exercise in disease prevention. Nationwide, this opportunity is not offered in most traditional pre-health profession programs (e.g., biology, chemistry) or only offered as separate entities with limited exposure (e.g., one class in kinesiology or basic nutrition).

The certificate program will be available to any student in good academic standing (minimum GPA 3.0) that has an interest obtaining undergraduate knowledge of Nutrition for Human Performance and meets all prerequisites for the required courses (GPA minimum 3.0, must have completed a 100- or 200-level basic nutrition course (e.g., DHN 101: Human Nutrition and Wellness or DHN 212: Introductory Nutrition), a 200-level physiology course (e.g., PGY 206) and be classified as a sophomore, junior, or senior undergraduate student or post-baccalaureate student. We expect a diverse group of both male and female students consistent to what is currently found in the HHS, DHN, and KHP programs.

DHN 315 Nutrition Issues in Physical Activity or KHP 240 Nutrition and Physical Fitness ............ 3
DHN students take DHN 315; KHP students take KHP 240; and HHS students choose either DHN 315 or KHP 240.
KHP 420G Physiology of Exercise ......................... 3
HHS 400G Nutrition for Physical Activity, Injury Prevention, and Rehabilitation ......................... 2
Select one:
HHS 395 Independent Study ................................ 3
DHN 591 Special Problems in Dietetics and Human Nutrition ............................................... 3
KHP 395 Independent Study in Kinesiology and Health Promotion ........................................... 3
Plus, choose from the following courses to meet the 14 credit hour minimum requirement:
HHS 402G Muscle Biology ..................................... 3
Total Hours: ................................................................. 14

DEPARTMENT OF REHABILITATION SCIENCES

B.H.S. with a major in COMMUNICATION SCIENCES AND DISORDERS

In keeping with the standards of the American Speech-Language-Hearing Association, the undergraduate program in communication sciences and disorders is considered to be a preprofessional degree program. In order to meet Kentucky licensure and American Speech-Language-Hearing Association certification requirements, it is necessary to complete the master’s degree. Students pursuing this program should plan on six years to complete both the Bachelor of Health Science and Master of Science programs.

Admission to the Professional Program

The Communication Sciences and Disorders program has selective admissions. Applicants must have completed a minimum of 42 credit hours at the time of application. Students are admitted to the professional program on a competitive basis. Admission is based on cumulative grade-point average, ACT or SAT scores, and relevant experiences. Applicants must submit a letter of application and three references. New students are admitted only for the fall semester. The application deadline is February 1.

UK Core Requirements

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

I. Intellectual Inquiry in the Arts and Creativity
Choose one course from approved list ......................... 3

II. Intellectual Inquiry in the Humanities
Choose one course from approved list ......................... 3

III. Intellectual Inquiry in the Social Sciences
PSY 100 Introduction to Psychology ........................ 4

IV. Intellectual Inquiry in the Natural, Physical, and Mathematical Sciences
BIO 102 Human Ecology or BIO 103 Basic Ideas of Biology or other BIO course from approved list .................. 3
or CHE 101 Molecular Science for Engineers ................ 3
or CHE 105 General College Chemistry I
CHE 111 Laboratory to Accompany General Chemistry I .......................................................... 5
or PHY 211 General Physics ........................................ 5
or PHY 231 General University Physics ...................... 4
or PHY 241 General University Physics Laboratory ....... 1
or other CHE or PHY course from approved list ........... 3

V. Composition and Communication I
CIS/WRD 110 Composition and Communication I ....... 3

VI. Composition and Communication II
CIS/WRD 111 Composition and Communication II .... 3

VII. Quantitative Foundations
one of the following:
MA 111 Introduction to Contemporary Mathematics
MA 113 Calculus I
MA 123 Elementary Calculus and its Applications
MA 137 Calculus I With Life Science Applications ............ 3-4

VIII. Statistical Inferential Reasoning
STA 210 Making Sense of Uncertainty:
   An Introduction to Statistical Reasoning .................. 3
or PSY 215 Experimental Psychology
or PSY 216 Applications of Statistics in Psychology .................. 8
or other STA course from approved list ......................... 3
IX. Community, Culture and Citizenship in the USA

Recommended:

EPE 301 Education in American Culture 3

X. Global Dynamics

Choose one course from approved list 3

Undergraduate Certificate in Clinical Healthcare Management

Successful completion of the certificate in Clinical Healthcare Management will demonstrate that the graduate is prepared to function successfully in a clinical leadership and management role in a health care institution. The program is useful for any currently enrolled UK student interested in obtaining clinical management skills; in addition, the program is useful for practicing clinical professionals (non-degree-seeking) such as nurses, physicians, dentists, physician assistants, physical therapists, respiratory therapists and other interested in enhancing their management skills.

Clinical Health Management Curriculum

The Certificate in Clinical Health Management curriculum is as follows:

- A minimum of 12 credits of course work taken for a letter grade.
- At least 12 credits must be 200 level or above, and a minimum of 6 credits must be at the 300-level or above.
- The student must complete a 3-credit breadth component. The breadth component requires that a student take courses in at least two disciplines, with a minimum of 3 credits to be completed in a second discipline.
- Student must earn a C or better in each required certificate course to receive the certificate.
- Certificates will only be awarded to students who successfully complete a degree, or have completed a four-year degree.
- No more than 9 credits taken for a certificate can be used to satisfy the requirements for the student’s bachelor’s degree, a minor, or another certificate, exclusive of free or unrestricted electives.

Curriculum for Currently Enrolled Students

The undergraduate certificate in clinical health management is comprised of four 3-hour courses:

CLM 241 Health and Medical Care Delivery Systems 3
CLM 351 Health Services Administration 3
CLM 355 Financial Management of Health Care Institutions 3

plus one of the following:

CLM 350 Health Policy and Politics 3
CLM 354 Health Law 3
CLM 405 Epidemiology and Biostatistics 3
CLM 444 Leadership and Human Resource Management 3
CLM 445 Quality and Productivity Improvement and Evaluation 3
CLM 452 Community and Institutional Planning for Health Services Delivery 3
CLM 353 Ethics in Healthcare 3

Curriculum for Post-Baccalaureate Students

The undergraduate certificate in clinical health management is comprised of four 3-hour courses:

CLM 351 Health Services Administration 3
CLM 355 Financial Management of Health Care Institutions 3
HHS 395 Independent Study 3

plus one of the following:

HHS 350 Health Policy and Politics 3
CLM 354 Health Law 3
CLM 405 Epidemiology and Biostatistics 3
CLM 444 Leadership and Human Resource Management 3
CLM 445 Quality and Productivity Improvement and Evaluation 3
CLM 452 Community and Institutional Planning for Health Services Delivery 3
HHS 241 Health and Medical Care Delivery Systems 3

For more information, contact Faculty Director Dr. Geza Bruckner, Division of Clinical Leadership and Management within the Department of Clinical Sciences.
Master of Science in Athletic Training

The Master of Science in Athletic Training (AT) is designed to accommodate both Board of Certification (BOC) athletic trainers and BOC “certification eligible” athletic trainers. Course work and clinical experiences are designed to develop skills necessary to conduct research and increase proficiency in sports injury prevention, treatment, and rehabilitation. It is a goal that graduates become: critical consumers of research and accepted clinical practices, advanced health care providers, and leaders in the clinical, educational, and research endeavors of the profession.

Master of Science in Communication Sciences and Disorders

The Master of Science in Communication Sciences and Disorders is designed for students seeking entry-level professional preparation in speech-language pathology. Any student without an undergraduate major or equivalent in Communication Sciences and Disorders should apply as a prerequisite student to complete the prerequisite course work. The curriculum incorporates course work and intensive clinical practicum experiences designed to prepare students to meet state licensure and national certification requirements. For further information, contact:
Anne Olson, Ph.D.
Director of Graduate Studies
Division of Communication Sciences and Disorders

Certification and the Master’s Degree

The Master of Science degree program in Communication Sciences and Disorders is accredited by the Council on Academic Accreditation of the American Speech-Language-Hearing Association.

Upon completion of the undergraduate degree and with admission to the master’s program, students complete the following courses for certification and the master’s degree.

Course Requirements Hours
CSD 621 Alternative and Augmentative Communication ................................. 3
CSD 647 Language Disorders in Developmentally Young Individuals .................... 3
CSD 648 Language Disorders in School-Age Populations ................................. 3
CSD 661 Phonological Development and Disorders........................................... 3
CSD 670 Voice Disorders .............................................................................. 3
CSD 675 Low Incidence Communication Disorders (Subtitle required) ................. 3
CSD 677 Aphasia and Related Disorders ....................................................... 3
CSD 701 Research Methods in Communication Disorders .............................. 3
CSD 710 Cognitive Communication Disorders ............................................... 3
CSD 744 Adult Swallowing and Motor Speech Disorders ............................... 3
CSD 745 Pediatric Feeding and Motor Speech Disorders .................................. 3
Total Credit Hours ....................................................................................... 30

The M.S. in Communication and Sciences Disorders consists of 30 didactic hours plus optional thesis or comprehensive examinations.

ASHA Certification

Applicants wishing to meet American Speech-Language-Hearing Association certification requirements must also complete the following additional clinical orientation, clinical practicum and clinical rotation experiences plus 1 hour of graduate-level electives, and optional 1-6 hours in thesis or comprehensive exams:
CSD 654 Clinical Orientation in Communication Disorders ............................ 3
CSD 657 Clinical Practicum in Speech-Language Pathology .............................. 6
CSD 659 Clinical Rotation in Speech-Language Pathology .............................. 21-30
Students completing the thesis option also complete the following:
CSD 748 Master’s Thesis Research .............................................................. 0
CSD 768 Residence Credit for the Master’s Degree ... 1-6

Grading

In 1992, the College of Health Sciences initiated an expansion program in physical therapy based at the Center of Excellence in Rural Health in Hazard, Kentucky. This professional program is conducted in parallel with the Lexington campus program.

For more information about the Physical Therapy Program at the Lexington campus, contact:
Physical Therapy Program
900 South Limestone Street
Room 204
University of Kentucky
Lexington, KY 40536-0200
(859) 218-0494
www.uky.edu/chs/pt

The Center of Excellence in Rural Health, Doctor of Physical Therapy

The program is designed to develop nutrition specialists, knowledgeable in the metabolic changes that occur in normal exercise and various pathophysiological states. Opportunities for specialization are available in the areas of clinical nutrition/medical nutrition therapy, wellness and sports nutrition, molecular and biomedical nutrition, and community nutrition. Clinical Nutrition is integrated with the doctoral program in the Graduate Center for Nutritional Sciences.

The courses provide the student with in-depth knowledge of the role of nutrition in metabolism, the physiology of organ systems, and the pathophysiology of specific disease states. Elective course selections provide program focus while allowing maximum flexibility to meet individual needs. A minimum of 30 credit hours of course work is required for graduation.

GRADUATE AND PROFESSIONAL PROGRAMS

Physical Therapy – Doctor of Physical Therapy

The Physical Therapy Program at the University of Kentucky offers the professional (entry level) Doctor of Physical Therapy (DPT) degree. The program is offered at the Lexington campus and at the Center of Excellence in Rural Health campus in Hazard, Kentucky. Once accepted, the PT Program requires three successful years to completion (137 course credits) and results in the awarding of the DPT.

The PT Program has selective admissions. To be eligible for application, the student must complete a bachelor’s degree prior to the start of the PT program, or complete (by no later than the end of the spring semester of application) the junior year requirements in a declared major and meet the University of Kentucky’s University Scholars Program criteria which include:
- Ninety semester hours working toward a degree;
- An overall GPA of ≥ 3.2;
- A science GPA and major course GPA of ≥ 3.5;
- A combined verbal and quantitative GRE score of 300 is recommended by the Physical Therapy Division.

For additional requirements for application, including the application form, go to: www.uky.edu/chs/pt

For more information about the Physical Therapy Program at the Lexington campus, contact:

Physical Therapy Program
900 South Limestone Street
Room 204
University of Kentucky
Lexington, KY 40536-0200
(859) 218-0494
www.uky.edu/chs/pt

For more information about the Physical Therapy program at the Hazard location, contact:
Students must satisfy admissions requirements to both the Graduate School and the Physician Assistant Studies Program. Applicants to the PAS Program must complete the Graduate Record Examination (GRE). For GRE scores received before August 2011, applicants must have achieved a minimum combined score of 900 points on Verbal and Quantitative sections of the exam. Minimum scores for the new GRE must meet the minimum academic requirements for the Graduate School. Please note that the class average for GRE scores is generally around 1140 for the old GRE and average of 153 Verbal, 151 Quantitative and 3.75 Analytical. All GRE scores must have been taken within the last five years. The UKPAS Program accepts ONLY the GRE for our program. We do not accept any substitutes (e.g., the MCAT).

The UK GRE code is R1837 and all official scores must be sent to the University of Kentucky Graduate School Office.

International students and domestic students who attended a high school in which English was not the primary language of instruction must achieve a minimum of 26 in each category on the TOEFL iBT exam. In addition to the TOEFL iBT requirement, international students must also complete the GRE.

Applicants must hold a baccalaureate degree from an accredited college or university (or have earned a baccalaureate degree by the time of entry into the program). Applicants may only have two outstanding prerequisites at the time of application. These courses must be completed by August 8, prior to the beginning of the program.

For specific information concerning admissions, visit: www.uky.edu/healthsciences/academic-programs/physician-assistant-studies/admissions

Three (3) letters of recommendation are required from people acquainted with the applicant for at least one year and familiar with his/her professional goals and must be submitted with the CASPA application packet, along with an admission essay. The UKPAS Program prefers to have one recommendation from a physician assistant or physician, one from an academic advisor or professor and one from either a PA, physician, or academic professor/advisor. The admission essay must be of graduate quality that reflects the applicant’s commitment to primary care. The applicant must be certified in Basic Life Support for Healthcare Providers by the American Heart Association and be in compliance with the Technical Standards established by the College of Health Sciences and the PAS Program.

Health care experience is required and deemed beneficial to students entering the PAS Program. Applicants are required to have a minimum of 50 hours shadowing a physician assistant in any specialty.

Master of Science in Physician Assistant Studies

The University of Kentucky, Division of Physician Assistant Studies (PAS) offers a Plan B, non-thesis, master’s degree program that is accredited by the Accreditation Review Commission on Education for the Physician Assistant (ARC-PA). The Master of Science in Physician Assistant Studies (M.S.P.A.S.) program is designed for students who wish to become Physician Assistants (PAs) and hold a baccalaureate or will have earned a baccalaureate degree by the time they enter the program. The M.S.P.A.S. program is offered in Lexington at the University of Kentucky and in Morehead, KY, located at the Center for Health Education & Research (CHER).

The goal of the M.S.P.A.S. program is to develop well-educated and highly skilled primary care PAs who will extend the physician’s effectiveness and improve access to health care. The PA functions under the supervision and responsibility of a licensed physician and is competent to elicit comprehensive health histories, perform physical examinations, interpret and evaluate diagnostic data, establish treatment plans, counsel and educate, and respond appropriately to commonly encountered emergency care situations. Physician Assistants serve in a variety of health care settings, such as primary care practices, subspecialty clinics, inpatient hospitals, and community-based clinics. The M.S.P.A.S. program also prepares graduates to be competitive for positions in clinical research, health care administration and higher education. Graduates of the program are eligible to take the Physician Assistant National Certifying Examination. After successful completion of the National Commission on Certification of Physician Assistants Exam, graduates are eligible for state certification/licensure to practice as certified PAs.

Admission Requirements

Admission to the M.S.P.A.S. program occurs annually, with a new class beginning each January. Qualified applicants must simultaneously apply to the University of Kentucky Graduate School, www.uky.edu/gs/ProspectiveStudents/Admission.html, as well as the Central Application Service for Physician Assistants (CASPA): https://caspa.liaisoncas.com/applicant-ux#/login.
Although 50 is the required minimum, typical applicants average greater than 100 shadowing hours, depending on the year of application.

Additionally, applicants must have direct patient care experience. Beginning in the 2016-2017 Admissions cycle, the minimum 1000 patient contact hour requirement will be removed. Patient contact experience will still be a requirement, however without a set amount of hours. It is highly recommended that hours be obtained in a formally trained medical discipline (as a registered nurse, certified nursing assistant, emergency technician, certified medical assistant, etc.). Lastly, volunteer hours may be in either primary and/or non-primary care settings and with various practitioners (physicians, nurse practitioners, etc.).

Due to the competitive nature and large number of students applying to the program, not all applicants who meet minimum requirements will be invited for an interview.

Please see the Web site at: www.uky.edu/healthsciences/academic-programs/physician-assistant-studies for the application deadline. Generally, the application is due in mid-summer.

For more information and dates of General Information Sessions, please visit our Web site at www.uky.edu/healthsciences/academic-programs/physician-assistant-studies. If you have questions after visiting our Web site and attending an information session, contact:

Lewis Honors College

Phil Harling, Ph.D., is Interim Dean of the Lewis Honors College.

The Lewis Honors College at UK serves an important function in the University’s commitment to excellence in undergraduate education. Through its special curriculum and related academic activities, the College provides an unusual course of instruction for outstanding, highly motivated students.

Selection of Honors Students

Because the Lewis Honors College seeks students of demonstrated high academic promise, admission to Honors is competitive. A student must complete the application form for the Lewis Honors College. Entering students ideally have an outstanding high school grade-point average (3.5 unweighted GPA or better, as demonstrated by transcript of through at least the first half of senior year) and a documented composite score of 28 or above on the ACT or 1270 or above on the SAT. The Admissions Committee considers all aspects of an applicant’s record; a student’s test scores and GPA are only two of the factors considered. The Admissions Committee also considers the academic rigor of high school courses the applicant has taken. In addition, the Admissions Committee places great weight on the strength of the application essays, as well as the evidence they provide of motivation to accept the challenges of Honors and contribute to the program.

Students whose academic performance may vary (high GPA and lower test scores, for example) or who have talents and motivation that are not reflected in standardized testing procedures are invited to make their best case for admission to the Lewis Honors College and to solicit recommendations from supportive teachers or supervisors.

Upper-division students at UK or transfer students with one semester or more of academic study at a college or university may apply to the Lewis Honors College. They submit a copy of their college transcripts along with the materials requested of first-year students. All applicants must demonstrate strong academic performance at the college level (3.0 GPA or better).

The Honors Curriculum

An Honors education at UK opens up an exciting world of inquiry, including research, education abroad, and service that will challenge students intellectually, provide access to the most creative minds at UK, and prepare participants for advanced study and to make a difference in the world upon graduation. The Honors curriculum requires six credit hours in Honors course work, participation in at least six credit hours of Honors Experiences, a Senior Capstone, and a choice of course work campus-wide to fulfill the educational goals of the Honors student. There are Honors course expectations across the academic career of the student, opportunities for residential experiences in Honors Living Learning Communities, particularly during the first year, academic flexibility, and enhanced advising and cocurricular opportunities.
Program Requirements

1. Each Honors student must complete at least 15 hours in Honors courses.

Six Credit Hours

Students choose at least two Honors courses:

- HON 151 (fulfills the Intellectual Inquiry in the Humanities)
- HON 152 (fulfills the Intellectual Inquiry in the Natural/Physical/Mathematical Sciences)
- HON 251 (fulfills the Intellectual Inquiry in the Social Sciences)
- HON 252 (fulfills the Intellectual Inquiry in the Arts and Creativity)
- or Honors courses/sections in existing UK courses

Three Credit Hours

Senior Honors Capstone:

- HON 398
- or college/departmental equivalent

Six Credit Hours

Students choose two from:

- departmental and disciplinary Honors courses and sections
- HON 301
- a graduate course that meets the needs and interests of the student*

*Program pre-approval required.

2. Each Honors student must complete one course in Composition and Communication.

Six Credit Hours

Students complete a designated section of accelerated Composition and Communication, unless they meet the UK Core Composition and Communication requirement through alternate means.

3. Each Honors student must complete 6 credit hours Honors Experiences.

Six Credit Hours

Students choose two or more experiences (may opt to do the same experience multiple times for a total of 6 credit hours):

- Education Abroad
- Service Learning or Community Outreach
- Undergraduate Research Experience (HON 352, 395, or 399, or equivalent Honors course in the major)
- alternate opportunities*

*Other activities may also qualify, such as serving as an Undergraduate Instructional Assistant in a course, or other activities agreed on in advance with the Director of the Lewis Honors College.

4. Honors students must maintain a 3.0 GPA. Probationary status will be granted to Honors students falling below this threshold who can reasonably be expected to raise their GPA back to 3.00 prior to graduation. Students who have not removed themselves from probationary status after two semesters will be required to leave the program.

SUGGESTED FOUR YEAR PLAN

First Year 9 Credit Hours

One Honors course each semester .................. 6 hours total
Honors Composition and Communication in either semester ......................... 3 hours total

Second Year 6 Credit Hours

Graduating with Honors in the Program

To graduate with a Certificate of Honors in the Lewis Honors College and have this designation on the final UK transcript and diploma, students must complete the requirements described above.

Special Opportunities

Students in the Lewis Honors College have many opportunities, both in and out of the classroom, to develop and demonstrate academic excellence. The small class size and method of instruction in Honors courses foster active learning. Informal conferences, special speakers, trips, and workshops allow students to explore topics and issues not regularly considered within University departmental offerings.

Students in the program may elect to live in Central Hall, a study and community oriented, co-ed Honors residence hall equipped with seminar rooms, active learning centers, and the Lewis Honors College advising offices.

Other social, service, and cultural activities organized by and for Honors students include the Lewis Honors College Student Advisory Council or HPSC (social and service activities), and a highly active peer mentoring program. Students may also participate in the Journal Project, for which they keep a journal during their undergraduate career, sharing the journal with a staff member, administrator, or faculty member who volunteers as an advisor.

Honors students in good standing are eligible for a number of special grants and scholarships during and at the conclusion of their undergraduate career. These include scholarships based on financial need, grants to support independent research conducted in the U.S. or abroad, scholarships to support study-travel for members of the Journal Project, the Diachun Award for students continuing studies in graduate school, and several other literary, service, and book awards.

Benefits

The greatest benefits Lewis Honors College students enjoy are intensified intellectual development and a heightened personal awareness of the individual’s place in his or her culture. A high percentage of graduates of the Lewis Honors College enter graduate or professional schools, and move on to successful careers.

How To Apply

For more information, contact:

Director, Lewis Honors College
Central Residence Hall II
361 Huguelet Avenue
University of Kentucky
Lexington, KY 40506-0079
(859) 257-3111
fax: (859) 257-6428
www.uky.edu/academy/honors/

The application deadline is December 1. Contact the Lewis Honors College for more information.
College of Law

David A. Brennen, J.D., LL.M., is Dean of the College of Law; Douglas C. Michael, J.D., Richard C. Ausness, J.D., and Susan Bybee Steele, J.D., are Associate Deans; Daniel P. Murphy, J.D., is Assistant Dean.

Since its establishment in 1908, UK Law has provided programs of legal instruction, research, and service to the Commonwealth and to the bar. The College of Law program is designed so graduates can practice their profession on a local, regional, or national level. The College is accredited by all agencies which establish standards for law schools, including the Association of American Law Schools and the American Bar Association.

The program consists of a three-year general law curriculum designed to be completed in six semesters (or in five semesters and two summer sessions). The program is designed to assist students in acquiring the skills required for the solution of modern legal problems; gaining an appreciation for and understanding of the legal, social, and political institutions on which the administration of justice rests; and preparing for the policy and ethical decisions which must be made in practicing law.

The Faculty

UK Law has a full-time faculty and staff composed of approximately 34 professors, 14 administrators, and 13 library and support personnel. They are assisted by a number of part-time and adjunct professors, as well as visiting professors.

The Library

The Alvin E. Evans Law Library contains the state’s most comprehensive print collection of primary legal materials, as well as access to a growing list of premier legal databases, including WestlawNext, Lexis Advance, Checkpoint, Making of Modern Law, and HeinOnline. In addition, there are reference services to provide students with assistance in identifying, locating, and using resources within the collection.

The Law Building

Centrally located on UK’s main campus, the College of Law is a self-contained academic unit with facilities for receiving a quality legal education. Our students benefit from having the research and instructional facilities available at a major university, as well as the amenities of a large campus.

Other Facilities and Information

Since 1913 the College has published the Kentucky Law Journal (KLJ), a quarterly periodical and the tenth oldest American law review. This journal is published by a student staff, and election to the staff is based on high academic achievement and proven ability to write and conduct research. Each issue contains articles written by prominent national scholars and notes written by KLJ members encompassing a broad range of legal topics.

The student-run Kentucky Journal of Equine, Agriculture & Natural Resources Law (KLEANRL) has been published since 1984, originally as the Journal of Mineral Law & Policy and then Journal of Natural Resources and Environmental Law, and is a multi-disciplinary journal of law, science, and policy.

Instruction in legal research and writing is available to all students, not only in required courses designed for this purpose, but also in seminars, drafting projects, and opportunities for independent study.

Practical training in trial and appellate advocacy is provided in courses like litigation skills and clinical courses, as well as the co-curricular Moot Court Board and Trial Advocacy Board. Teams representing the College compete in annual competitions.

The College operates an externship program to provide students with a variety of clinical learning experiences. In 1997, the UK Legal Clinic opened, which gives students, under the supervision of the clinic’s director, the opportunity to advise, counsel, and represent clients on a variety of civil legal matters.

REQUIREMENTS FOR ADMISSION

1. The UK Law application and $50 application fee (paid by credit card) must be submitted online through the Law School Admission Council (LSAC) at www.lsac.org.
2. Applicants must obtain a bachelor’s degree from a fully accredited institution of higher learning prior to enrollment at UK Law. However, if the applicant is a student at the University of Kentucky and is enrolled in an approved Bachelor to Law Undergraduate Education (BLUE or 3+3 program), the applicant will be considered for admission without having a bachelor’s degree at the time of enrollment. Transcript(s) should be submitted to LSAC’S Credentials Assembly Service (CAS). Be sure to provide transcripts from all institutions from which you have received credits. CAS simplifies the admissions process by providing a centralized service to submit application materials. Applicants can register for CAS and the Law School Admission Test (LSAT) at the same time.
3. Applicants must take the LSAT. Registration and information for the LSAT are available from LSAC. The Admissions Committee will view all scores, but in most cases, will consider only the highest score. UK Law requires applicants to retake the LSAT if the most recent test was more than five years before expected enrollment.
4. Applicants must submit at least two (2) letters of recommendation from those with personal knowledge of the applicant’s abilities and qualifications to study law. Letters of recommendation must be submitted through LSAC’S Letter of Recommendation and Evaluation Service.
5. Applicants must submit a personal statement in accordance with the instructions on the application. Applicants must write their statement using their own words and ideas. The personal statement will be used as a sample of their writing and for insight into their background, goals, and potential for enriching UK Law’s academic environment.

**NOTICE**

This information is preliminary and subject to change. For the most current information, please visit the College of Law’s website at www.law.uky.edu.
The Admission Process

The admission process at UK Law involves a “full-file review” of each application taking numerical, academic, and non-academic factors into account. The goal is to admit a talented and diverse student body that enhances the educational process. UK Law offers a full-time day program for entering students in the fall semester.

In measuring your academic potential, the Admissions Committee will begin with your cumulative undergraduate grade-point average (GPA) and your highest score on the LSAT. Additional academic factors that may be considered include: writing skills, trend of college grades, letters of recommendation, time between college and law school, performance of other students from your college, and course selection patterns. Nonacademic factors that the Admissions Committee may consider include: geographic and cultural diversity; achievements and leadership positions; and perseverance and accomplishment under adverse circumstances. However, your application must show evidence of your ability to succeed academically at UK Law before non-academic factors can play a role in the admission decision.

Admission of Transfer Students

To be competitive, transfer applicants should have a 2.7 or higher GPA with at least 25 credit hours of law school work. The Admissions Committee will consider the applicant’s law school record, as well as all factors the Committee considers in a first-year application.

Procedure for Application

UK Law applications and application fees must be submitted online through LSAC at www.lsac.org.

Submission Dates and Deadlines

First-year applications are accepted beginning September 1 with an application deadline of March 15. Admissions decisions are made on a rolling basis. The Admissions Committee begins its evaluation of files in November, with the majority of decisions being made between January and April. Applicants will be notified of their application status as soon as possible after their file is reviewed by the Admissions Committee.

College of Law Withdrawal Policy

All students enrolled at UK Law are expected to complete their degree requirements without interruption other than for regularly scheduled academic holidays. It is expected that students will complete all courses or seminars in which they are enrolled. Contact UK Law for complete information about rules specific to withdrawal.

PRELEGAL STUDY

If you are already in college and are thinking about law school, do not worry if your major is not typically thought of in connection with law. Law schools accept students from practically every undergraduate major there is. Choose a major you enjoy and find interesting, since you will be more likely to succeed. In addition, if you decide not to attend law school, a background in something that you enjoy will allow for more options than a typical “law school” major might.

In college as much as in high school, taking classes that require you to write papers and have them critiqued by your teachers or peers is an invaluable experience. It is also a good idea to consider taking at least one course related to logic. Having classroom experience with logic fundamentals will likely make the logical reasoning – an infamous section of the LSAT – less difficult during your LSAT preparation.

Generally, starting to plan for the LSAT in your junior year will give you plenty of time to study, take the LSAT (in June after your junior year), and have time to retake the LSAT if desired. There is a great deal of information about the LSAT on LSAC’s Web site.

In addition, it is never too early to start thinking about which faculty members you would like to ask for letters of recommendation. Letters of recommendation are a required part of many law school applications. The best letters of recommendation come from faculty who know you well, are familiar with your academic work, and can write about your performance as a student. Making an effort to get to know your professors early is not only a smart step toward law school, but will often lead to a greater understanding of the subjects they teach.

For additional information, students can find a variety of information on LSAC’s Web site as well as the LSAC Official Guide to ABA Approved Law Schools. UK undergraduate students can also visit www.uky.edu/US/pre-law for additional information on pre-professional advising.

THE DEGREE OF JURIS DOCTOR

Students admitted to UK Law are eligible for the degree of Juris Doctor (J.D.) upon completion of a minimum of three academic years (six full-time semesters or the equivalent) and 90 credit hours of courses with at least a cumulative of 2.0. All courses in the first year of law study are required, as well as a course in professional responsibility and an upper division writing course.

Because the study of law at UK is a full-time pursuit, all law students are expected to carry a full academic program (14-16 credit hours each semester). Second and third year students may work up to 20 hours per week.

To view the UK Law Viewbook, please visit: http://law.uky.edu/admissions/viewbook. For specific information about UK Law’s academics and curriculum, please visit: http://law.uky.edu/academics/academic-resources. Prospective applicants can contact UK Law Admissions at (859) 218-1699, or at uklawadmissions@uky.edu.
The College of Medicine offers a four-year curriculum leading to a degree of Doctor of Medicine (M.D.) and training for postdoctoral research fellows. The University of Kentucky Hospital offers accredited postdoctoral training for interns and residents.

A curriculum in medicine has been part of the University of Kentucky since 1960. The College of Medicine is responsible for providing its students with training in related basic sciences and with clinical experience under supervision in the University of Kentucky Hospital and other affiliated facilities.

As part of the Medical Center – which also includes the University of Kentucky Hospital and the Colleges of Dentistry, Health Sciences, Nursing, Pharmacy, and Public Health – the College of Medicine strives for programs of the highest possible quality. This means selecting the best possible student body, creating an environment which fosters learning, investigation, and clinical excellence, and acquiring and keeping talented faculty and administrative staffs.

ACADEMIC PREPARATION FOR THE STUDY OF MEDICINE

Medical science and practice involve complex relationships between physical, biological, psychological, cultural, and environmental aspects of human behavior. In the preparation for medical school, fundamental undergraduate college training in biology, chemistry, physics, and English is essential. Minimal requirements are satisfied with the equivalent of two semesters of studies in physics; two semesters in the biological sciences; four semesters in chemistry, including organic chemistry; one semester of biochemistry; and at least one year of English with emphasis on communication skills such as reading, writing, and speaking.

Courses in each of the science areas must include laboratory work. In addition, we strongly recommend that prospective applicants complete a course in cell biology, statistics, psychology, and sociology. Students are encouraged to follow special interests which they may have in philosophy, psychology, literature, social sciences, or the fine arts.

Students are urged to demonstrate a capacity for advanced work through concentrated study of at least one subject in a major area by completing courses beyond the introductory level.

Requirements for Admission

Applicants for admission to the College of Medicine, in addition to meeting general University requirements, must meet the prerequisite requirements of the College of Medicine and be accepted by the Medical College Admissions Committee. Applicants will be required to have taken the Medical College Admission Test (MCAT) and are encouraged to have completed a baccalaureate degree program at an accredited college or university.

Selection Criteria

In admitting students to the College of Medicine, the University endeavors to select students who show promise of becoming excellent future physicians. Applicants are judged on the basis of their total qualifications and in comparison with other applicants.

As a state-supported school, the College of Medicine gives preference to qualified residents of Kentucky. Although well-qualified nonresidents may apply, preference is given to candidates with Kentucky ties.

Selection from among applicants who meet the general premedical educational requirements of the College of Medicine is based on a number of criteria. A high level of academic performance at the undergraduate level is extremely important. It is recognized, however, that a meaningful evaluation of student performance must consider many factors in addition to grades. For example, exposure to the health care profession is considered essential.

Scholastic aptitude as measured by the Medical College Admission Test also is considered.

Since the practice of medicine involves the physician in continual relationships with people – with patients, and with other members of the health care team – applicants are also judged according to premedical evaluations, the degree of their participation in campus and community activities and organizations, and the personal characteristics that they demonstrate. Friendliness, warmth, compassion, integrity, and commitment are all essential traits of the physician.

Often the physician’s ability to communicate effectively will determine the degree of success in the diagnosis and management of a patient’s health problem and in other professional activities. Thus, consideration is given to the communication skills demonstrated by each applicant. Communication is a two-way process and involves the ability to listen perceptively, as well as to speak and write clearly.

Because the practice of medicine and the life of the medical student require a great investment of effort and demand both time and energy, it is essential that a prospective medical student meet the Technical Standards of the College of Medicine detailed online at https://meded.med.uky.edu/medical-school-admissions. Further, prospective applicants should be able to demonstrate that their motivation to study medicine is sufficiently strong to sustain him or her in the face of difficulties. Accepted applicants are subject to a criminal background check prior to matriculation.

Student Progress

The Student Progress and Promotion Committee is charged with monitoring student progress through the curriculum. The committee regularly reviews each student’s performance and makes recommendations on such actions as graduation, promotion, remediation, dismissal, and leaves of absence. Final authority on all matters of student progress and promotion is vested in the Dean of the College of Medicine.

Students are responsible for conforming to all rules and regulations specified by the Behavioral Standards in Patient Care, Health Science Student Professional Behavior Code, the College of Medicine Honor Code, the “Technical Standards Related to Applicant Admission and Student Performance” detailed online at http://meded.med.uky.edu/meded-technical-standards, the academic standards established in the Student Promotion rules, and the Code of Student Rights and Responsibilities for all University of Kentucky students.

Course Descriptions

Course listings for the College of Medicine may be found under the college according to departmental and area headings.

For specific information about programs in the College of Medicine, students should refer to The Graduate School Bulletin or the College of Medicine Bulletin.

Combined Medical and Graduate Studies

A medical student who wishes to work toward a combined medical and graduate degree (master’s or doctorate) may enroll both as a graduate student and as a medical student. Details of the combined degrees are available from basic science department chairpersons, the Associate Dean for Research and Basic Sciences, or the Office of Medical Education, College of Medicine.
Interim Associate Dean for Research and Scholarship.

Tom Howard, PhD, RN, CNNA, FAAN, is Associate Dean for Academic Affairs. Terry A. Lennie, PhD, RN, FAAN, is Associate Dean for PhD Studies. Thomas Kelly, PhD, is Interim Associate Dean for Research and Scholarship.

Accreditation

The College of Nursing has had continuous accreditation since 1967. The baccalaureate degree curriculum offered by the College of Nursing is accredited by the Commission on Collegiate Nursing Education and approved by the Kentucky Board of Nursing.

Undergraduate Program in Nursing

The University of Kentucky grants the following degree in the College of Nursing:

- Bachelor of Science in Nursing

ADMISSION REQUIREMENTS

The College of Nursing enrollment is composed of four-year students, associate degree nursing graduates, and diploma nursing school graduates. Admission to the University does not guarantee admission to the College of Nursing. Preference is given to Kentucky residents.

Applicants must be in a state of good health enabling them to carry out the functions of the professional nurse. Routinely, each student will be required to obtain a rubella and rubeola titers, hepatitis B immunizations, and have an annual tuberculin test or chest x-ray. (Other immunizations may be required. Check with the College of Nursing for a current list.)

The University of Kentucky will consider for admission any applicant who demonstrates the ability to perform or to learn to perform the skills listed below. Applicants are not required to disclose the nature of any disability, but an applicant with questions about these technical requirements is strongly encouraged to discuss the issue with the dean for the particular program of study. If appropriate, and upon the request of the applicant, student or faculty, reasonable accommodations for a disability will be provided.

Students must possess aptitude, abilities, and skills in five areas:

- Sensory and motor coordination and function;
- Conceptualization, integration, and quantification; and,
- Behavioral and social skills, abilities and aptitude.

Admission Criteria

Criteria for admission to the 4-year B.S.N. program include:

1. Freshman Student:
   - Students will be admitted as freshmen to a pre-nursing curriculum based on the following criteria:
     a) high school grade-point average of 3.25 (unweighted) or above on a 4.0 scale and a minimum of 22 ACT composite score, with a minimum of 19 ACT math score;
     b) meeting criteria for selective admission to the University of Kentucky (see the Undergraduate Admission section of this Bulletin for more information).

Consideration for Nursing Program will occur at the sophomore level for all students based on the following criteria:

- a) a minimum cumulative and science grade-point average of 3.0;
- b) a grade of C or better in all required pre-nursing courses;
- c) completion of the UK College of Nursing approved Medicaid Nurse Aide training program;
- d) the Internet-based TOEFL is required of all applicants whose first or primary language is other than English. Minimum cumulative score of 90; and at least minimum individual scores of 26 in speaking, 22 in listening, 20 in writing and 22 in reading.

In addition, any or all of the following information may be requested as part of the application:

- a) writing exercise based on the criteria established by the College of Nursing;
- b) two letters of reference from individuals who can assess potential for success (e.g., teacher, employer);
- c) an interview with members of the Admissions and Progression Committee, or their designees.

APPLICATION DEADLINE FOR COLLEGE OF NURSING

<table>
<thead>
<tr>
<th>Program</th>
<th>Deadline</th>

</thead>
</table>
| Traditional B.S.N. Program | March 1 for fall semester  
|                          | October 15 for spring semester  |
| Second Degree Program    | March 1 for fall semester  
|                          | August 15 for spring semester  |
| R.N.-B.S.N. Program      | May 1 for fall semester  
|                          | October 15 for spring semester  |
| D.N.P. Program           | December 15        |

Early Admission

Early provisional admission to the Professional Nursing Curriculum will be granted to graduating high school seniors who meet the criteria of a high school GPA of 3.6 or higher (unweighted). ACT composite scores of 28 or higher (or the equivalent SAT combined score). Students will be required to maintain a 3.6 GPA in each semester in their first year at UK and a 3.6 GPA in science to retain guaranteed admission to the professional level.

Students who meet the early admission requirements will be granted full admission to the Professional Nursing program in either the fall or spring of the student’s sophomore year. Students who do not meet the requirements will be considered with other applicants who meet admission criteria, following completion of program prerequisites.

2. Transfer Student:

a) for transfer students with less than 24 hours of college credit, meeting the criteria for entering freshmen and a minimum grade-point average of 3.0 on all college work attempted as computed by the Office of Admissions;

b) for transfer students with more than 24 hours of college credit, maintaining grade-point average of 3.0 on all college work attempted, and a minimum cumulative grade-

University of Kentucky 2016-2017 Undergraduate Bulletin 292
Admission

Selection of applicants is made according to the College of Nursing’s Admissions Policy. Grade point average of 2.75 in science courses, as computed by the Office of Admissions; c) for applicants whose first or primary language is not English, a minimum TOEFL score of 90, with minimum scores of 26 in speaking, 22 in listening, 20 in writing and 22 in reading; d) grades of C or better in all courses required for CON curriculum;

In addition, any or all of the following information may be requested as part of the application:

- a writing exercise based on the criteria established by the College of Nursing;
- two letters of reference from individuals who can assess potential for success (e.g., teacher, employer). Reference forms are available by calling (859) 323-5108.
- completion of an approved Medicaid Nurse Aide training program;
- an interview with members of the Admission and Progression Committee or their designees.

3. **Students will be eligible to apply for readmission to the College of Nursing after suspension from the College when they meet criteria as stated in Section 2 and b of this policy.**

4. A **student who is a registered nurse** will be considered for admission to upper-division courses in the UK Professional Nursing program based on the following criteria:

   i. **For Associate Degree Nurses:**
   
   The registered nurse with an associate degree in nursing from a college accredited by one of the six regional academic accrediting associations will be considered for admission with a minimum GPA of 2.5 on a scale of 4.0 in all course work attempted as computed by the Office of Admissions. **NOTE: R.N. licensure is required to progress to the second semester of the curriculum or prior to beginning clinical experiences.**

   ii. **For Diploma Prepared Nurses:**
   
   Registered nurses who graduate from a diploma program will be considered for admission after earning a minimum of 60 college credits from a regionally accredited college with a 2.5 minimum GPA which include:
   
   - English – 6 semester credits
   - Natural Sciences – 6 semester credits
   - Social Sciences – 6 semester credits
   - Humanities – 6 semester credits
   - Nursing* – 28 semester credits
   
   *Nursing credits may be earned from regionally accredited colleges by taking the courses or by submission of a portfolio of R.N. licensure and experience to the R.N.-B.S.N. Option Coordinator.

   All nursing courses taken in associate degree or diploma programs are considered lower-division courses and are not equivalent to upper-division courses in this program. The applicant must have at least a GPA of 2.5 on a scale of 4.0 in all college course work attempted as computed by the Office of Admissions.

   b) a statement of academic and professional goals.

   c) two letters of reference from individuals who can assess potential for success (e.g., teacher, employer).

   iii. **For Registered Nurses who received their nursing education abroad and are licensed to practice nursing in the State of Kentucky:**
   
   Registered nurses who received their nursing education abroad and are licensed to practice nursing in the State of Kentucky will be considered for admission after earning/transfering in a minimum of 60 college credits with a 2.5 minimum GPA. These courses should include:
   
   - English – 6 semester credits
   - Natural Sciences – 6 semester credits
   - Social Sciences – 6 semester credits
   - Humanities – 6 semester credits
   - Nursing* – 28 semester credits
   
   *Nursing credits may be earned from regionally accredited colleges by taking the courses or by submission of a portfolio of R.N. licensure and experience to the R.N.-B.S.N. Option Coordinator.

   All applications and transcripts for admission must be submitted to the Office of Admissions according to the deadlines listed in the box above. Transfer applicants will be evaluated for fall and spring admission, according to the deadlines listed. Those accepted for admission must notify the college within 30 days, in writing, of their intent to enroll. Late applicants will be considered for admission on a space-available basis.

   iv. **Part-Time Study**

   The traditional and Second Degree Option nursing curricula were designed with co-requisites and courses taken in sequence. Therefore, students will be admitted to these options with the expectation that they will follow the prescribed nursing curriculum. R.N. students who are working toward the completion of the B.S.N. degree on a part-time basis must plan a course of study with the appropriate College of Nursing personnel or committee and may not alter that plan without prior approval from the College of Nursing.

   Candidates for the degree who do not complete all requirements within a seven-year period (five years for R.N. students) after admission will have their records reevaluated and may be required to repeat or take selected courses.

   **Financial Aid**

   The college has scholarships designated for Nursing students. Inquiries should be directed to the Office of Student Services, College of Nursing.

   Students may also wish to pursue funds available through hospitals and other agencies that offer financial assistance in return for a work commitment.

   **Academic Advising**

   Students who are admitted to the College of Nursing are assigned to an advisor within the college. Curriculum plans are determined in the first semester of enrollment in the college and updated each semester. Questions regarding progression through the program may be directed to the Office of Student Services, College of Nursing.

   **DEGREE REQUIREMENTS**

   **BACHELOR OF SCIENCE IN NURSING**

   To obtain a Bachelor of Science in Nursing, students must satisfy the University requirements for graduation, including the UK Core requirements, and obtain a 2.0 grade-point average in nursing in the courses listed below. A grade of C or better must be attained in all courses required in the nursing curriculum in order to proceed to the next clinical course or to graduate. A minimum of 120 credit hours is required for graduation.
College of Nursing

UK Core Requirements
See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

Curriculum Policies

Students are expected to be familiar with the requirements for the degree of Bachelor of Science in Nursing and to confer with advisors in the College of Nursing when selecting courses.
Since the health needs of the nation are constantly changing, an effective curriculum requires continuous review and evaluation, which may necessitate revision of courses and requirements. Thus, there can be no guarantee that course content will be identical in each subsequent academic year. Furthermore, to continue to meet the changing emphasis in nursing education, some courses will require educational experiences for students in community facilities outside of Lexington.

SECOND DEGREE OPTION

B.S.N. PROGRAM

The College of Nursing offers the Second Degree B.S.N. (Bachelor of Science in Nursing). This option is for people who have a bachelor’s degree in a field other than nursing. It is not an accelerated B.S.N. option but a five-semester B.S.N. option.

Prerequisites for Second Degree B.S.N. Option

Students who have earned a degree in another field may apply to complete a B.S.N. The admission requirements/prerequisites include:

- a baccalaureate degree in another field;
- meet minimum GPA requirement for all college work;
- grade of C or higher in DNA 209 (Principles of Human Anatomy) or equivalent;
- grade of C or higher in PGY 206 (Elementary Physiology) or equivalent;
- grade of C or higher in CHE 103 (Chemistry for Health Professionals) or equivalent;
- grade of C or higher in PSY 100 (Introduction to Psychology) or equivalent;
- grade of C or higher in DHN 212 (Introduction to Nutrition)*;
- grade of C or higher in BIO 208 (Principles of Microbiology)*;
- grade of C or higher in BIO 103 (Basic Ideas of Biology); and
- a written statement.

*DHN 212 and BIO 208 are prerequisites to NUR 221.

It is strongly recommended that students complete the following course with a grade of C or higher before beginning the Second Degree B.S.N. Program (it is required for graduation):

- STA 210 (Making Sense of Uncertainty: An Introduction to Statistical Reasoning) or equivalent (prerequisite to NUR 310 – take in Semester I or Semester II).

By the time of enrollment in the first course, students must have also completed a CNA course and all immunizations as listed above under “Admissions Requirements.”

Graduate Study

The Doctor of Nursing Practice (D.N.P.) program is a professional clinical doctorate program which focuses on development of advanced competencies for complex practice, and research utilization for the improvement of clinical care delivery, patient outcomes, and system management. Graduates will be expert in designing, implementing, managing, and evaluating health care delivery systems and will be prepared to lead at the highest clinical and executive ranks.

There are two entry points to the D.N.P. program: the post-Master of Science in Nursing (M.S.N.) entry option for those with an awarded master’s degree in nursing that are already prepared in the role of the advanced practice nurse; and the post-Baccalaureate of Science in Nursing (B.S.N.) entry option. This option builds on the B.S.N. degree and prepares individuals for an APRN role. Both options culminate with the D.N.P. degree.

Application Deadline

Application materials are due by December 15 for fall admission. Applications received after this date will be considered if space is available. For additional requirements for application, including the application forms, go to http://www.uky.edu/nursing/

M.S.N. - D.N.P. in Nursing

Graduates of the post-M.S.N. -D.N.P. option are expected to be experts in designing, implementing, managing, and evaluating healthcare delivery systems. Simultaneously, they will know how to manage the complex balance between quality of care, access and fiscal responsibilities.

Admission Criteria

- Graduate grade-point average of 3.3 on a 4.0 grading scale
- Master’s degree in nursing from a nationally accredited program
- Goal Statement: In one to three double-spaced pages, discuss your reasons for seeking doctoral study, including your short- and long-term professional goals. Discuss a system or population you are interested in working with and identify/discuss a system or health problem in that population that you wish to study as a practice inquiry project.
- An example of scholarly written work, completed within two years of application, related to nursing that demonstrates excellent writing skills and the ability to communicate clearly and logically. Samples of scholarly work: formal research paper written in M.S.N. program; published article on a nursing issue; or paper written on nursing issue of interest to applicant
- Three references (forms provided) attesting to the applicants’ expertise in nursing or health care. Faculty prefer professional references from nursing faculty advisor if available or a nursing faculty member who knows the applicant, one from a doctorally prepared Registered Nurse, and no more than one from peer.
- Unencumbered licensure to practice in Kentucky or in the state in which clinicals will occur (prerequisite to clinical experience)
- Interview(s) with D.N.P. faculty
- A minimum of 460 clinical practice hours from a formal graduate program and certification as applicable. (Applicants who cannot demonstrate a minimum of 460 clinical hours of practice will be expected to complete clinical course work beyond the proposed curriculum.)

B.S.N. - D.N.P. in Nursing

The post-BSN entry option builds on a student’s undergraduate degree and experience as a registered nurse and prepares the individual for the advanced practice registered nurse role in a chosen specialty. Direct care specialties include: Adult-Gero Acute Care Nurse Practitioner, Adult-Gero Clinical Nurse Specialist, Pediatric Primary Care Nurse Practitioner, Psychiatric-Mental Health Nurse Practitioner (Family), Primary Care Nurse Practitioner (Adult-Gero or Family) or population/systems focus in the Populations and Organizational Leadership specialty. Students apply to and are admitted to a particular specialty. Admission decisions are made on a competitive basis by specialty.

Admission Criteria

- Undergraduate grade-point average of 3.3 on a 4.0 grading scale
- Three references (forms provided) attesting to the applicants’ expertise in nursing or health care. Faculty prefer professional references from nursing faculty advisor if available or a nursing faculty member who knows the applicant, one from a doctorally prepared Registered Nurse, and no more than one from peer.
- Personal interview(s)
- Unencumbered licensure as a registered nurse in the state in which clinicals will occur (prerequisite to clinical experience)
- Clinical nursing experience prior to the first D.N.P. clinical course
- Goal Statement: In one to three double-spaced pages, discuss your reasons for seeking doctoral study, including your short- and long-term professional goals. Discuss a system or population you are interested in working with and identify/discuss a system or health problem in that population that you wish to study as a practice inquiry project.
- An example of scholarly written work, completed within two years of application, related to nursing that demonstrates excellent writing skills and the ability to communicate clearly and logically. Samples of scholarly work: formal research paper written in B.S.N. program; published article on a nursing issue; or paper written on nursing issue of interest to applicant.

Post Graduate Certificate Option

The primary objective of this option is to prepare advanced practice registered nurses for national certification eligibility and licensure in a new or additional specialty area of practice through a formal, organized curriculum that focuses on specialty courses in the students’ area of interest. Post-Master of Science in Nursing, post-Doctor of Philosophy in Nursing and post-Doctor of Nursing Practice individuals are eligible to apply. Students enrolled in this option are assessed the professional doctoral tuition and fee rates.

Specialties Available for the Certificate Option

- Adult Gerontology Acute Care Nurse Practitioner
- Adult Gerontology Clinical Nurse Specialist*
- Psychiatric Mental Health Nurse Practitioner*
- Pediatric Acute Care Nurse Practitioner*
- Pediatric Primary Care Nurse Practitioner*
• Populations and Organizational Systems Leadership*

*The specialty course sequence for these specialties is offered every OTHER year.

Family and Adult Nurse Practitioner (primary care) are not currently available as a certificate option.

Application Deadline

Application materials are due by January 15. Applications received after this date will be considered if space is available. Admission decisions are made on a competitive basis. Requirements and forms are available at: www.uknursing.uky.edu

Admission Criteria

• Master of Science or doctoral degree in nursing. Doctoral degree preferred.
• Completed application to the UK College of Nursing Certificate Option.
• Minimum score of 550 (or 213 on computer-based test, or 79 on iBT) on Test of English as a Foreign Language (TOEFL) for all applicants whose native language is not English.
• Unencumbered registered nurse licensure in the state where clinical work will take place.
• Two references, one of which must be from your current supervisor, the other from your master’s or doctoral degree program advisor preferred, or other nursing faculty member.
• Interview(s) with graduate faculty member(s).

Admission to the certificate option is made on a competitive, space-available basis.
