The College of Arts and Sciences embodies the liberal arts: the natural sciences and mathematics, the social sciences, and the humanities. Students augment their knowledge in all three areas by exploring the interconnections among them.

Study of the liberal arts opens to students the vast scope and excitement of human intellectual and cultural achievement. It enlarges the student’s vision and enriches the student’s life. Study of arts and sciences prepares students for life-long learning and vocational success. It also prepares them for a life of effective civic participation as informed and critical citizens of a diverse global society.

In essence, an Arts and Sciences education fosters the ability to think and learn independently. Arts and Sciences graduates are well prepared to meet future technological and cultural transformations.

Undergraduate Programs in Arts and Sciences

The University of Kentucky grants the following degrees in the College of Arts and Sciences:

- Bachelor of Arts
- Bachelor of Science

Students pursuing the Bachelor of Arts or the Bachelor of Science select from these majors: anthropology, biology, chemistry, classics, economics, English, foreign language and international economics, French, geography, geology, German, history, Latin American studies, linguistics, mathematical economics, mathematics, philosophy, physics, political science, psychology, Russian studies, sociology, Spanish, and topical studies. For more information on degree programs, visit: www.as.uky.edu/Admin/.

ADMISSION

Admission requirements are the same as those of the University, except for the topical studies major. Prospective students should visit the college Web site at: www.as.uky.edu/Admin/.

“...the past few years have taught me that the College of Arts and Sciences is the core of academic life as it provides students with knowledge and training in critical thinking and reasoning, which are necessary skills needed to undertake leadership positions in society. A liberal arts education has taught me to think rationally and creatively, communicate clearly, gather and interpret data, and given me the ability to engage the arguments of others with understanding and respect. These skills and intellectual attributes, which are developed in the College of Arts and Sciences, form the foundation for a lifetime of learning and success.”

– Caitlin Cousins
Major in Psychology

“The true value of an Arts and Sciences education is not in the diploma itself. It is when you realize that because of your education you appreciate both the philosophy and physics of the world. The pursuit of the intellectual that was cultivated in the Arts and Sciences will be both a lasting reminder and a continuing catalyst in our search of knowledge.”

– Monica Hobson
Major in Political Science

PROGRAMS AND SERVICES

Academic Advising

Academic advising in the College of Arts and Sciences is provided by professional advisors, graduate students and selected faculty in the department of the student’s major during advising conferences and throughout the year. A&S students who have a freshman or sophomore status see a professional advisor located in the A&S Advising Center on the second floor of the Patterson Office Tower. Advising appointments may be made at: www.as.uky.edu/advising/sasy/.

Arts and Sciences juniors and seniors should contact the department of their major and request an advisor. However, the A&S professional advisors located in the A&S Advising Center on the second floor of the Patterson Office Tower are available for all A&S students needing authoritative information about University or College requirements.

Arts and Sciences freshmen and sophomores on academic probation will have a STOP placed on their record. All A&S students on probation are expected to meet with an Arts and Sciences professional advisor located in the A&S Advising Center on the second floor of Patterson Office Tower at the beginning of each semester and before the last day to withdraw from classes. Questions concerning these meetings should be addressed to the A&S Advising Center at (859) 257-8712.

All Arts and Sciences students are expected to familiarize themselves with the degree requirements and keep track of requirements.

The University has an online degree audit system called APEX (www.uky.edu/degreqaudit/). Students are expected to view their personalized degree audit prior to any advising session where scheduling for classes will be discussed.

Routine questions concerning USP, college major and minor requirements, grade-point average, repeat or bankruptcy options, transient student forms, credit overload requests, transfer credit equivalencies, forms required for graduation, and changing majors should be addressed to the staff in the A&S Advising Center, 257 Patterson Office Tower, (859) 257-8712; or www.as.uky.edu/Admin/. All forms, except the Application for Degree, are located at this Web site.

Dean’s List

A student who completes at least 12 credits of “letter” grades with a 3.60 or higher grade-point average with no “I” grades listed for the fall or spring semester will be named to the Dean’s List in the College of Arts and Sciences. CLEP, AP, special exam, remedial course work (MA 108R) and Independent Study credits are excluded. The student’s cumulative grade-point average is not considered; only the grade-point average for that particular semester is relevant.

Commencement and Departmental Honors

Commencement honors are determined by University standards. A full explanation of these honors can be found in the Academic
Requirements section of this Bulletin (page 71). Please note that if a student has not completed at least 90 hours in the University of Kentucky system, but has completed at least 60 hours, the student is eligible for commencement honors, but is placed to a 0.2 point higher standard. If the student has completed at least 60 hours, the student is not eligible for commencement honors. Commencement honors are indicated on the student’s final transcript and announced at the College Baccalaureate Recognition Ceremony.

Departments in the College of Arts & Sciences award departmental honors to their outstanding graduates. The standards for departmental honors are not collectively established by the College, but determined by each department. For details on departmental honors, see Guide to A&S Departmental Honors Requirements on page 99. Address questions to the department awarding honors. Departmental honors are indicated on the student’s final transcript.

Scholarships

For information on general scholarships in the College of Arts and Sciences, contact Cindy Iten, Director of A&S Advising, 257 Patterson Office Tower, (859) 257-8712, or www.as.uky.edu/Admin. Students interested in scholarships in a specific major should contact the individual department.

College Policy on Learning Disabilities

The College of Arts and Sciences anticipates that virtually all of its students will satisfy all of its requirements. However, any student who believes that he or she can show evidence – by diagnostic testing and/or psychological evaluation – that he or she has a learning disability which warrants course substitution of any specific college requirement may request such an exception from the Assistant Dean of Student Affairs in the College. Students should begin their inquiries and/or discussions in the UK Disability Resource Center, 102 Alumni Gym.

Readmission After a Two-Year Absence

In accordance with the University Senate rules which allow the dean of each college to determine which degree requirements a returning student shall follow, students should note the following: Students enrolling in the College of Arts and Sciences after an absence from the University of Kentucky system of two or more years will be expected to satisfy the university, college, graduation, and department requirements in effect at the time of readmission.

Students with extenuating circumstances may petition the Assistant Dean of Student Affairs for permission to continue under the degree requirements that were in effect for them during their previous enrollment in the UK system.

ACADEMIC SUSPENSION AND REINSTATEMENT

The College of Arts and Sciences follows the general University rules for academic suspension and reinstatement, which are outlined in the Academic Requirements section of this Bulletin. Students placed on academic suspension must be reinstated by the college in which they plan to enroll before applying for readmission to the university. Students planning to pursue a degree program in the College of Arts and Sciences should arrange for reinstatement proceedings before May 15 for any fall semester reinstatement, or October 1 for any spring semester reinstatement by calling A&S Student Services, (859) 257-8712. Students who fail to request reinstatement prior to these deadlines will normally not be considered for reinstatement until the subsequent semester.

A student who has been suspended for a second time from the University of Kentucky will usually not be considered for reinstatement by the College of Arts and Sciences until two years have passed since the date of the second suspension.

THE BACHELOR OF ARTS AND BACHELOR OF SCIENCE DEGREES

Students must complete four areas of requirements to obtain a UK Arts and Sciences degree. The four areas are: University Studies Program (USP); major requirements; college requirements; and university graduation requirements. The following information outlines the specific degree requirements for the B.A. and the B.S. in Arts and Sciences. Please read them carefully and also note the specific differences in each degree program.

The B.S. degree requires three hours in college disciplinary requirements for the natural sciences, social sciences and humanities beyond those required for the University Studies Program and requires 60 hours of physical, biological and/or mathematical sciences.

The B.A. degree requires six hours in college disciplinary requirements for the natural sciences, social sciences and humanities beyond those required for the University Studies Program and requires 39 hours in course work numbered at or above the 300 level.

College Requirements for a Bachelor of Arts Degree

It is important to review the “NOTES” section that immediately follows the “College Requirements for a Bachelor of Science Degree” section.

To receive the Bachelor of Arts degree, students must:
1. Complete the University Studies program (USP).
2. Complete the following college requirements:
   a. Foreign Language Requirement. Students must satisfy one of the following options:
      1. satisfy the third and fourth semester of a college-level sequence in one language (including sign language) by successfully completing each semester course, or by demonstrating equivalent competency on a departmentally approved placement exam; or
      2. successfully complete three college-level semester courses in one language and two college-level semester courses in a second language (two college-level semester courses are considered equal to two years of a foreign language in secondary school while no other equivalences are given for more years of foreign language as indicated on transcripts), or demonstrate equivalent competency on a departmentally approved placement exam (all options include sign language); or

3. attain the Undergraduate German Studies Certificate (contact the Department of Modern and Classical Languages, Literatures and Cultures for more information);

Courses taken to satisfy options 1, 2 or 3 above may not be taken pass/fail; or

4. To demonstrate your proficiency in a language not taught at UK, contact the Office of International Affairs with regard to taking a proficiency exam. You are responsible for any costs related to testing. All A&S students are encouraged to take a foreign language placement exam at the time of their initial enrollment at UK or during their advising conference; or

5. If you have a specific language-learning disability that is certified through the UK Disability Resource Center, you may petition the College for a substitution of course work in lieu of completing the language courses normally taken for the foreign language requirement; or

6. International students, excluding native speakers of English, automatically fulfill this requirement; or

7. International students who graduated from a U.S. high school and are unable to provide proficiency exam results may petition the Assistant Dean for a waiver of the College foreign language requirement; students must provide official documentation establishing that English is their second language.

When appropriate, courses used to satisfy b through d below also can be used to satisfy the USP Cross-Cultural and Electives requirements:

b. Students must take six college hours in disciplines in the natural sciences.

c. Students must take six college hours in disciplines in the social sciences.

d. Students must take six college hours in disciplines in the humanities.

3. Complete at least 120 credit hours in courses acceptable to the College of Arts and Sciences.

4. Complete at least 90 credit hours in Arts and Sciences courses.

5. Complete at least 39 credit hours in courses numbered at or above the 300 level.

6. Complete at least six credit hours of premajor courses in the departmental major. This is not required for the Topical Studies Major or the Foreign Language and Interna-

</tbody>
</table>
7. Complete at least 42 credit hours within the major and courses outside the major (excluding premajor course work). At least 24 of these hours must be at or above the 300 level.
8. Complete at least one course in disciplines from the natural sciences or social sciences that includes some laboratory or field experience. (See the description of the College Laboratory or Field Experience Requirement which follows.)
9. Attain an overall grade-point average of at least 2.0.

10. Attain a grade-point average of at least 2.0 in all major requirements courses (including all premajor courses).

11. Complete a minimum of six credit hours of free electives. These college electives cannot be counted towards University Studies Program or Arts and Sciences major requirements.

12. Complete University graduation requirements: Inference Requirement, University Writing Requirement (which includes the First Year Writing Requirement and the Graduation Writing Requirement), and the residence requirement.

†See College Core Requirements for B.A. and B.S. Degrees following the next section.

College Requirements for a Bachelor of Science Degree

It is important to review the “NOTES” section that immediately follows the “College Requirements for a Bachelor of Science Degree” section.

To receive the Bachelor of Science degree, students must:

1. Complete the University Studies program (USP) requirements.†
2. Complete the following college requirements:
   a. Foreign Language Requirement. Students must satisfy one of the following options:
      1. satisfy the third and fourth semester of a college-level sequence in one language (including sign language) by successfully completing each semester course, or by demonstrating equivalent competency on a departmentally approved placement exam; or
      2. successfully complete three college-level semester courses in one language and two college-level semester courses in a second language (two college-level semester courses are considered equal to two years of a foreign language in secondary school while no other equivalencies are given for more years of foreign language as indicated on transcripts), or demonstrate equivalent competency on a departmentally approved placement exam (all options include sign language); or
   3. attain the Undergraduate German Studies Certificate (contact the Department of Modern and Classical Languages, Literatures and Cultures for more information);
   
   Courses taken to satisfy options 1, 2 or 3 above may not be taken pass/fail; or

4. To demonstrate your proficiency in a language not taught at UK, contact the Office of International Affairs with regard to taking a proficiency exam. You are responsible for any costs related to testing. All A&S students are encouraged to take a foreign language placement exam at the time of their initial enrollment at UK, or during their advising conference; or

5. If you have a specific language-learning disability that is certified through the UK Disability Resource Center, you may petition the College for a substitution of course work in lieu of completing the language courses normally taken for the foreign language requirement; or

6. International students, excluding native speakers of English, automatically fulfill this requirement; or

7. International students who graduated from a U.S. high school and are unable to provide proficiency exam results may petition the Assistant Dean for a waiver of the College foreign language requirement; students must provide official documentation establishing that English is their second language.

When appropriate, courses used to satisfy b through d below also can be used to satisfy the USP Cross-Cultural and Electives requirements.†

b. Students must take three college hours in disciplines in the natural sciences.†
   c. Students must take three college hours in disciplines in the social sciences.†
   d. Students must take three college hours in disciplines in the humanities.

3. Complete at least 120 credit hours in courses acceptable to the College of Arts and Sciences.‡
4. Complete at least 90 credit hours in Arts and Sciences courses.³
5. Complete at least 60 credit hours in the physical, biological and/or mathematical sciences.³
6. Complete at least six credit hours of premajors courses in the departmental major. This is not required for the Topical Studies Major or the Foreign Language and International Economics Major.
7. Complete at least 42 credit hours within the major and courses outside the major (excluding premajor course work). At least 24 of these hours must be at or above the 300 level.
8. Complete at least one course in disciplines from the natural sciences or social sciences that includes some laboratory or field experience. (See the description of the College Laboratory or Field Experience Requirement which follows.)
9. Attain an overall grade-point average of at least 2.0.
10. Attain a grade-point average of at least 2.0 in all major requirements courses (including all premajor requirements).
11. Complete a minimum of six credit hours of free electives. These college electives cannot be counted towards University Studies Program or any other Arts and Sciences major or college requirements.
12. Complete University graduation requirements: Inference Requirement, University Writing Requirement (which includes the First Year Writing Requirement and the Graduation Writing Requirement), and the residence requirement.

†See College Core Requirements for B.A. and B.S. Degrees following the next section.

NOTES
1. See the University Studies Program section of this Bulletin for a detailed explanation of the requirements. With regard to the A&S departments which provide an alternate route for satisfying the USP Oral Communication Requirement, please use the following guide:

   Aerospace Studies – AFS 311, 313, 411, 413 (complete all)
   Anthropology – COM 199 plus ANT 582
   Chemistry – COM 199 plus CHE 572 (taken twice in separate semesters)
   Economics – COM 199 plus ECO 499
   German – GER 206 plus GER 307
   Military Science – AMS 301, 302, 341, 342 (complete all)
   Russian and Eastern Studies – COM 199 plus RUS 499

2. a. 001-099 courses, or courses followed by an “R” designation cannot be counted as credit towards a bachelor’s degree.
    b. Physical education one-hour service courses (KHP) are acceptable as electives only and may count toward the total 120 minimum hours needed to graduate. Only one successful completion of multiple completions of the same KHP course will count.
    c. A maximum of 16 semester credit hours earned in military science (AMS) and aerospace studies (AFS) are acceptable towards fulfilling both the College 90-hour and 120-hour requirement for the B.A. or B.S. degree. AMS/HIS 320 is not included in this 16 hour limit.
    d. A maximum of 12 semester credit hours earned in experiential education and internship courses (EXP 396, departmental 399 courses) will be accepted. For ANT 399, SOC 399 and SPA 399, a maximum of 15 semester credit hours can be earned. See Experiential Education and Internship Course section within the Arts and Sciences section of the Bulletin.
    
   e. All courses offered by the College of Arts and Sciences are acceptable with the exception of MA 108R.
    f. Courses transferred from other institutions and judged by the Assistant Dean of Student Affairs to be equivalent or comparable to Arts and Sciences courses are acceptable.
    g. Usually the College will apply only six hours of technical course work taken at any institution.
    h. The student is permitted to elect and count toward graduation courses in other colleges within the University of Kentucky or their equivalent from other institutions, not to exceed 30 hours. Hours taken in the other colleges at UK gained during the junior and senior years may, if at the 200-level or above, be counted towards the major requirements with approval from the faculty advisor and the assistant dean for student services.
    i. A maximum of 30 semester credit hours taken through UK’s Independent Study Program.
    j. Courses with an “S” grade designation or a “place holder” designation such as ISP (Study Abroad, 1 credit hour) or NSR (National Student Exchange, 1 credit hour) cannot be counted as credit toward a bachelor’s degree.
3. Courses classified as Arts and Sciences courses for purposes of the 90-hour requirement include all courses offered by the College of Arts and Sciences; all art history courses; all courses in music and theatre appreciation and ART 100 plus the history of music and theatre; ARC 820, ARC 822; KHP 290; all economics courses; all undergraduate courses in the Department of Computer Sciences (CS); all undergraduate courses in the Department of Communication (COM); and all American Sign Language courses officially transferred to the student’s UK record.

4. CHE 230, 231, 232, 233 and ARC 820 and 822 will count towards the 39 credit hours in courses numbered at or above the 360 level needed for degree requirements. Please note that courses numbered 800-899 cannot be counted as 300-level and above for the purpose of completing the 39 hours needed for the degree, with the exception of ARC 820 and 822.

5. The following courses will count toward the required 60 credit hours in the physical, biological and/or mathematical sciences hours for the Bachelor of Science degree: all courses listed under the USP Natural Sciences area; all courses with the following prefixes: AC, ANT, APP, GEO, GWS, PS, PSY, SOC.

6. The following courses may also be used to satisfy the Arts and Sciences College requirement for course work within the discipline of social sciences:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>AAS 200, 235, 328, 336, 417G, 432, 471</td>
<td>Anthropology – ANI 541, 585</td>
</tr>
<tr>
<td>ENG 101, 102, 201, 202, 442, 443</td>
<td>Political Science – PSY 372</td>
</tr>
<tr>
<td>CHI 101, 102, 201, 202</td>
<td>Psychology – PSY 100, 215</td>

<td>Sociology – SOC 302, 303</td>
</tr>
</tbody>
</table>

When appropriate, other upper level courses may be used to satisfy this requirement by petition.

**MAJOR REQUIREMENTS**

A major in the College of Arts and Sciences is composed of premajor courses (except Foreign Language and International Economics and Topical Studies majors) and a 42-hour program referred to as the “major requirements.” Each department has specified the requirements for their majors, which includes a minimum of 18 hours of 200-level and above courses in that department, with the provision that this minimum may be set at 15 hours by a department with approval of the Arts and Sciences Educational Policy Committee and the Undergraduate Council if there are special reasons for a lower minimum. Specific requirements for each departmental major are listed in this Bulletin under each department heading and are outlined in APEX (the electronic degree audit system).

General requirements are as follows:

1. A premajor of at least 6 credits in the department required, except for Topical Studies Majors and Foreign Language and International Economics Majors.

2. A total of 42 credits is required in the major requirements, excluding the premajor courses.

3. 100-level courses may not be counted in the major requirements except in the area of premajor.

4. Courses electively taken pass-fail may not be listed.

5. At least 24 credits must be in courses at the 300 level or above.

6. In addition to premajor requirements, a minimum of 18 credits in a department is required for a major.

7. At least 14 credits for the major requirements must be outside the major department.

8. An overall grade-point average of at least 2.0 in all courses listed for the major requirements, including all premajor courses. This includes all grade attempts except those used for which repeat options or academic bankruptcy has been approved.

Students are expected to review and understand all degree requirements listed on the University’s online degree audit system, APEX. Students who have taken courses (200 level or above) outside the college should talk with their faculty advisor to see if these courses are applicable to their major requirements.

**Topical Studies Majors**

Students who have multiple interests or interests which do not fall into departmental areas may select a topic for concentration instead of a departmental major. Topical Studies offers academic flexibility and allows students to cut across departmental and college lines in constructing meaningful and imaginative programs. Courses in several departments
might be selected to pursue special interests—Asian studies, for instance. Other examples might be African American studies, human studies, and gender and women’s studies.

Each topical studies major is designed and directed by the student in consultation with a faculty advisor in the general area of study, and in consultation with the topical studies advisor in the A&S Advising Center and an Arts and Sciences Associate Dean.

Topical Studies is the only selective admission program in the College of Arts and Sciences. The student must have a cumulative UK grade-point standing of at least 2.5 to be accepted to Topical Studies. The specific requirements of the topical studies major are that the student must meet University and College requirements, must enroll in and complete at least 30 credit hours after formal admission, and complete the 42-hour major requirements (see preceding section entitled “Major Requirements”). Except for electives, all of the student’s work must be related to the topic. Additionally, in the senior year, the student must complete a comprehensive paper or project that serves to integrate his or her topical studies field. Frequently, it is advantageous to begin writing this paper or project in the context of an independent work course or a seminar, with the instructor’s approval. The paper or project proposal must be approved by the faculty advisor, an Arts and Sciences Associate Dean, and the Topical Studies advisor before significant work has begun on the project. Students must submit the final paper or project for review and approval no later than eight weeks before finals during the semester the student intends to graduate. The paper should be submitted to the Topical Studies advisor no later than six weeks before the final exam week during the semester the student intends to graduate. Departmental honors for topical studies majors are determined by the Associate Dean and the Topical Studies advisor. To be eligible for departmental honors, a student must have a cumulative GPA of at least 3.6 and a final paper or project that has been judged to be outstanding.

For more information, contact the Arts and Sciences Topical Studies advisor in the A&S Advising Center (257 Patterson Office Tower); or visit the Topical Studies major Web site at: www.as.uky.edu/Admin/.

A Second Major
A student may obtain a second major by meeting all requirements in two departments. Major work in one department can, if there is a generic relationship, serve as the outside field in the second major, and vice versa. The student must indicate his or her second major to the A&S Advising Center, 257 Patterson Office Tower. He or she must have an advisor in both departments. If one of the majors is in another college, the student is still required to know the list of requirements from the other college. The student who completes requirements for a second major will receive only one degree, but his or her transcript and diploma will reflect the two majors.

For information on second majors (not the same as second degrees), consult the Academic Requirements section of this Bulletin.

A Second Bachelor’s Degree
A student may obtain a second bachelor’s degree by completing all university requirements for one degree; by completing all the major requirements of both degrees; and by completing all college requirements of both degrees. Courses taken towards fulfilling one degree may also count towards fulfilling parallel requirements in the other, but the total credits in the two degree programs must be at least 144 hours. Major work in one department can, if there is a generic relationship, serve as the outside field in the second major and vice versa. The student must indicate his/her double degree in his/her primary college. If both degrees are in Arts and Sciences, he or she must have an advisor in both departments. The student may elect to receive the degrees simultaneously, if college and departmental requirements can be met simultaneously. For information regarding double degrees (not the same as double majors), consult the Academic Requirements section of this Bulletin. Students are expected to be knowledgeable of requirements for any major in Arts and Sciences by checking the University’s online degree audit system, APEX.

Minors
The College of Arts and Sciences does not require minors. However, students can earn a minor in the following disciplines in the college:

- anthropology
- biological sciences
- chemistry
- classical civilization
- economics
- English
- French
- geography
- geology
- German
- Greek
- history
- Latin
- Latin American studies
- linguistics
- mathematics
- philosophy
- physics
- political science
- psychology
- Russian
- sociology
- Spanish
- statistics

Interdisciplinary minors are also available in:

- African American studies
- American studies
- Appalachian studies
- cognitive science
- environmental studies
- gender and women’s studies
- Indian culture
- Islamic studies
- Japan studies
- Judaic studies

Minors can only be awarded in conjunction with a UK undergraduate degree. Additionally, students cannot pursue a minor in the same discipline as their major. This includes the area of concentration for a Topical Studies Major and Foreign Language and International Economics Major.

For more information about choosing or declaring a minor, students should contact the department where the minor is offered and consult the departmental section of this Bulletin. To officially declare a minor, students must complete a Declaration of Minor form (www.as.uky.edu/Admin/) with the faculty advisor in the department where the minor is offered and take the completed form to the A&S Advising Center, 257 Patterson Office Tower.

Awarded minors appear on the student’s final transcript but not on their diploma.

The Preparation of Teachers
Any Arts and Sciences student intending to seek teaching certification should so indicate to his or her faculty advisor. The student should also contact the College of Education, 166 Taylor Education Building. As soon as the student has determined to seek certification he or she is assigned an advisor both in the College of Education and in the major department in the College of Arts and Sciences.

Students seeking certification should be sure to familiarize themselves with the requirements of both colleges. The sooner and the more thoroughly this is done, the greater the advantage to the student.

INFORMATION ON COURSES
Transfer of Kentucky Community and Technical College System (KCTCS) Courses
The college will usually apply up to six hours of technical course work taken at any accredited institution including KCTCS. Beyond these six credit hours, courses will be evaluated on an individual basis and as it applies to the student’s baccalaureate degree program.

Independent Work Courses
A junior or senior may, with prior approval of his or her faculty advisor and the instructor who would direct the work, register for an independent work course in his or her major department. Normally, a cumulative GPA of 3.0 in the major is required. In exceptional circumstances a nonmajor or topical studies major may be permitted to enroll in a departmental independent work course. Such a course is characterized by special assignments for study, regular conferences, reports, and usually involves preparation of a paper. The instructor in each case must file with the department evidence of the nature of the work achieved. Credit for such
courses may be granted to undergraduates to an amount of not more than 12 hours.

**Experiential Education and Internship Courses**

The College of Arts and Sciences accepts experiential education and internship courses (such as EXP 396, departmental 399 courses,) on a pass-fail basis only, regardless of which college is offering the courses. A total of 12 credit hours in these courses may be counted toward the 120 credit hours required for graduation. For ANT 399, SOC 399 and SPA 399, a maximum of 15 semester credit hours can be earned. However, College of Arts and Sciences majors may only earn a maximum of six credit hours of experiential education credit (EXP) in one semester.

**ROTC Program**

A maximum of 16 semester credit hours earned in American Military Studies and Air Force Studies courses will be accepted towards fulfilling the 90 hours of A&S courses required and the 120 minimum number of hours needed for graduation with a baccalaureate degree in the College of Arts and Sciences, even though students typically enroll for more than 16 semester credit hours of AMS and AFS course work. However, credit received from taking AMS/HIS 520, American Military History, can apply in addition to the 16 credit hour limit earned in AMS or AFS course work. Additionally, AMS 350 (1 credit hour) can only be counted for a maximum of 4 credit hours. Please note that a maximum of one credit hour of KHP 107 will count toward degree requirements, regardless how many credits are earned.

**Aerospace Studies (Air Force ROTC)**

The Department of Aerospace Studies provides a campus education program through which qualified students can simultaneously earn a degree in aerospace studies and a college degree. Faculty members are experienced, active duty Air Force officers with advanced degrees.

**Admission to the Program**

Non-scholarship freshmen and sophomores may register for Air Force Studies (AFS) courses without incurring a military commitment.

Non-scholarship freshmen and sophomores who are members of the Air Force Reserve Officer Training Corps or are eligible to pursue a commission as determined by the Professor of the Air Force ROTC program, a qualified student may concurrently earn a commission as an active duty Air Force Second Lieutenant while completing requirements for a degree. A student may enroll in any Air Force ROTC course at the same time that registration for other undergraduate courses is accomplished.

**AFROTC Curriculum**

The AFROTC curriculum consists of both academic classes and leadership laboratory or seminar classes. The General Military Course (GMC) is a two-year course normally taken during the freshman and sophomore years. The Professional Officer Course (POC) is a two-year course normally taken during the junior and senior years. Along with academic classes each semester the GMC and POC also take leadership laboratory classes.

In the GMC, there are four academic classes (AFS 111, AFS 113, AFS 211, and AFS 213). These cover two main themes—the development of air power and the contemporary Air Force in the context of the U.S. military organization. The GMC academic classes are open to any student.

In the POC, there are four academic classes (AFS 311, AFS 313, AFS 411, and AFS 413). These cover Air Force management and leadership and American defense policy. Entry into the POC is competitive and is based on Air Force Officer Qualifying Test scores, grade-point averages, and evaluation by the Professor of Aerospace Studies. Only physically qualified students in good academic standing may compete for entry into the POC.

Students enrolled as cadets in the two-year or four-year program are involved once a week in one class or more of field training and are paid for their time there. Cadets receive travel pay to and from field training and are paid for their time there.

**Requirements**

An academic major in aerospace studies is not offered. However, by successfully completing either the two-year or the four-year Air Force ROTC program, a qualified student may concurrently earn a commission as an active duty Air Force Second Lieutenant while completing requirements for a degree. A student may enroll in any Air Force ROTC course at the same time that registration for other undergraduate courses is accomplished.

**Scholarships**

Students interested in AFROTC scholarships should refer to the Student Financial Aid, Awards, and Benefits section of this Bulletin or call (859) 257-7115. Information is current as of February 2006 and is subject to change.

**ANTHROPOLOGY**

The Department of Anthropology offers opportunities to learn about the diverse people of today’s world, as well as about their biological and cultural origins. This area of study deals with ecology, society, biology, culture, and language, among other aspects of human life. In addition, anthropologists study history and evolution in both a cultural and biological framework.

Anthropology provides an excellent foundation for careers in a variety of professions and occupations, including community health, public health policy, medicine and health services, planning and community development, international relations and development, private business, government, law, journalism, museum work, and university teaching and research.

Students can major or minor in anthropology. The major is structured to provide the student with a broad overview of the major subdisciplines: cultural anthropology, physical anthropology, and archaeology. It also allows sufficient flexibility for a student to concentrate on a specific area of interest.

Visit our Web site at: www.uky.edu/AS/Anthropology.

**Bachelor of Arts with a major in ANTHROPOLOGY**

120 hours (minimum)

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the major requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Arts degree on pages 98-100.

nication Requirement.

Bachelor of Science with a major in
ANTHROPOLOGY

120 hours (minimum)

Any student earning a Bachelor of Science (BS) degree must complete a minimum of 60
hours in natural, physical, mathematical, and computer science. Please note: courses with
an ANT prefix are generally not accepted towards fulfilling this 60-hour requirement.
Therefore, be sure to keep this requirement in mind as you choose your course work for the
requirements in the major. See the complete description of College requirements for a Bach-
elor of Science degree, including a specific listing of courses applicable to the 60-hour
requirement, on page 100.

nication Requirement.

Minor in Anthropology
Students must complete a total of 21 hours of course
work:

Preminor Courses (9 hours)
Students must take ANT 220, 230, 240.

Additional Courses (12 hours)*
Students must take four ANT courses from at least two
subdisciplines. Two courses must be at the 200 level
or above and two courses must be at the 300 level or above.
*ANT 350, 399, 580, 581 and other ANT courses not
listed here may be used to fulfill the Additional Courses
requirement with the consent of the Director of Undergradu-
ate Studies.

Courses taken to meet a requirement in one area
cannot be used to meet a requirement in another area
of the minor.
BIOLOGY

To address the breadth and depth essential to educating biologists, the biology major is structured to include both a broad foundation through core courses and opportunity for specialization within a biological subfield through biology electives. The major is designed to prepare the student for a post-baccalaureate profession in biology, for advanced professional training in the health sciences, or for graduate study in basic and applied areas of the biological sciences.

Bachelor of Arts with a major in BIOLOGY

128 hours (minimum)

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the major requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Arts degree on pages 98-100.

Other Course Work Required for the Major

From the Major Department:
To be chosen from 200+ level BIO courses (excluding BIO 208) or the list below. Two courses must contain a laboratory component. Six hours of Independent Research (395) from biological sciences departments may be counted here; however, only BIO 395 is accepted for honors in biology. Note that ANA 209, BIO 208, and PGY 206 cannot be used for this requirement .

A&S 300, 500 (when offered by the Department of Biology)

ABT 301, 395, 460, 461, 495
ANA 395, 511, 512
ANT 332
ASC 364, 376, 395
BCH 395, 401G, 503, 517
BIO – all 200+ level courses except BIO 208
ENT 300, 310, 320, 395, 402, 460, 461, 561, 562, 564, 568
FOR 315, 340, 375, 402, 410
FSC 530
GLY 401G
MI 494G, 595, 598
NRC 320, 395, 420G, 450G, 455G
PGY 412G, 502, 560, 590
PPA 395, 400G, 503
PSY 312, 456, 459, 552, 558, 565
STA 281, 291, 292, 503, 570, 580 (Generally only one statistics course is accepted. Other STA courses may be accepted at the discretion of your advisor, and this may depend upon the area of biology in which you choose to specialize.)
TOX 508, 509, 560
VS 395

From Outside the Major Department
Choose either CHE 230/231/232 or
or
CHE 231/236 and BCH 401G .................. 8
Choose either PHY 211/213 or
or
PHY 231/232/241/242 .................. 10

Other Major hours: .............................. 34

Total Minimum Hours
Required for Degree .......................... 122

*Course used towards completion of a USP or College Requirement.

Minor in Biological Sciences
A minimum of 21 semester hours is required for the minor in biological sciences, to be distributed as follows:

Preminor Requirements
BIO 150 Principles of Biology I .................. 3
BIO 151 Principles of Biology Laboratory I ...... 2
BIO 152 Principles of Biology II .................. 3
BIO 153 Principles of Biology Laboratory II ...... 2

Minor Requirements
Two courses from the following list:
BIO 304 Principles of Genetics .................. 4
BIO 315 Introduction to Cell Biology .............. 3
BIO 325 Introductory Ecology .................. 4
*BIO 350 Animal Physiology .................. 4
or
BIO 430G Plant Physiology .................. 3
or
BIO 476G General Microbial Physiology ......... 4

*Biology minors with strong interests in plants may substitute BIO 430G for BIO 350 with advisor’s approval.

Minor Electives
Approved BIO or other courses at the 200 level or higher. Up to three hours of BIO 395, Research in Biology, may be counted here.

CHEMISTRY

The Department of Chemistry offers a program leading to the Bachelor of Science degree for students who intend to become professional chemists or do graduate work in chemistry. A Bachelor of Arts degree is available for students who want greater flexibility in the selection of courses in other fields of science in addition to basic education in chemistry. The B.A. program is designed particularly for students planning to enter the professional health fields, to teach in secondary schools, or to work in such varied areas as technical service, patent law, or ecology. The department also offers a Master of Science and the Ph.D.

Bachelor of Arts with a major in CHEMISTRY

120 hours (minimum)

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the major requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. Please also note that the Organic Chemistry Sequence (CHE 230/231/232/233) will count towards completion of this requirement. See the complete description of College requirements for a Bachelor of Arts degree on pages 98-100.

Bachelor of Science with a major in CHEMISTRY

120 hours (minimum)

Any student earning a Bachelor of Science (BS) degree must complete a minimum of 60 hours in natural, physical, mathematical, and computer science. See the complete description of College requirements for a Bachelor of Science degree, including a specific listing of courses applicable to the 60-hour requirement, on page 100.

University Studies Program Requirements
I. Math (completed by Premajor Requirement) .......................... 3
II. Foreign Language* (placement exam recommended) .............. 0-8
   University Studies ............................................................ 5
   University Studies ............................................................ 3

Junior Year

First Semester  Hours  
CHE 440G Introductory Physical Chemistry .................. 3
Foreign Language I ......................................................... 4
University Studies .......................................................... 6
Major Field Option* ....................................................... 3

Second Semester  
CHE 441G Physical Chemistry Laboratory .................... 2
CHE 572 Seminar .......................................................... 1
Foreign Language III ..................................................... 4
University Studies .......................................................... 6
Major Field Option* ....................................................... 3

Senior Year

First Semester  Hours  
Free Elective (A&S) ...................................................... 3
Foreign Language IV ....................................................... 3
Major Field Option* ....................................................... 6
University Studies .......................................................... 3

Second Semester  
CHE 572 Seminar .......................................................... 1
Major Field Options* ..................................................... 6
Foreign Language IV ....................................................... 3
Electives .......................................................... 6

*Major field options (21 credits) must be chosen from courses at the 300- to 500-level with the prefixes CHE, ANA, BCH, BIO, CME, CS, GLY, MA, MI, MISE, PAT, PGY, PHA, PHR, PHY, PM, RM or STA. Credit will not be given for both BCH 401G and CHE 550 or CHE 552. Other courses may be approved as Major Field Options by the Undergraduate Program Committee. At least 5 of these hours must be in CHE courses; at least 4 of the 21 credits must be taken in non-CHE courses. Students working towards teaching accreditation may count six credits in courses taken at or above the 300-level in the College of Education. Six credits of CHE 395 are recommended for students having a minimum 3.0 GPA in chemistry courses. Oral and written reports are required from CHE 395 students during their final semester of registration in CHE 395. A maximum of nine credits in undergraduate research or reading courses may be counted; such courses require approval of the Undergraduate Program Committee if the courses do not carry the CHE prefix.

Any foreign language sequence satisfying the College of Arts and Sciences requirement in foreign languages may be taken. German is recommended.

Electives

Choose electives to lead to the minimum total of 120 hours required for graduation.

Total Minimum Hours

Required for Degree .................................................. 120

Any language may be used to satisfy the USP and College Foreign Language requirements – German is recommended.

Curriculum for B.S. in Chemistry

Freshman Year

First Semester  Hours  
CHE 105 General College Chemistry I ......................... 3
ENG 108 Writing: An Accelerated Foundational Course ....... 4
MA 113 Calculus I ......................................................... 4
University Studies .......................................................... 6

Second Semester  
CHE 107 General College Chemistry II ......................... 3
CHE 115 General Chemistry Laboratory ....................... 3
MA 114 Calculus II ......................................................... 4

B.A. or B.S. with a major in CLASSICS

The requirements for the B.A. and B.S. with a major in Classics are listed in this A&S section under Modern and Classical Languages, Literatures and Cultures.

ECONOMICS

The Department of Economics offers theoretical and applied courses in diverse areas including microeconomics, macroeconomics, labor, money and banking, international economics, public economics, and industrial organization. It provides an opportunity for the student to pursue his or her interests within the framework of a liberal arts education.

The department offers programs leading to different undergraduate degrees – a Bachelor of Science in the Gatton College of Business and Economics, a Bachelor of Arts and a Bachelor of Science with a major in economics in the College of Arts and Sciences, a Bachelor of Arts and a Bachelor of Science with a major in foreign language and international economics, and a Bachelor of Arts and a Bachelor of Science with a major in mathematical economics. The distinctions among these degrees lie primarily in the required supporting courses in the various programs. (Foreign language and international economics majors and mathematical economics majors should refer directly to that section of the Bulletin.)

Bachelor of Arts with a major in ECONOMICS

120 hours (minimum)

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the major requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Arts degree on pages 98-100.

University Studies Program Requirements

I. Math (completed by Premajor Requirements)
II. Foreign Language (placement exam recommended) ........................... 0-8
III. Inference–Logic (completed by Premajor Requirements) ..................... 4
IV. Written Communication ............................................................... 0-4
V. Oral Communication* .................................................................... 1
VI. Natural Sciences ........................................................................... 6
VII. Social Sciences (partially completed by Premajor Requirements) ....... 3
VIII. Humanities .................................................................................. 6
IX. Cross-Cultural (choose a 300+ level Humanities course) .................. 3
X. Electives (choose six hours of Natural Sciences) .............................. 3

Total Minimum Hours Required for Degree ......................................... 120

Graduation Writing Requirement

After attaining sophomore status, students must complete a Graduation Writing Requirement course. See “University Writing Requirement” on page 70 of this Bulletin.

Graduation Writing Requirement Hours: ........................................ 3

College Requirements

I. Foreign Language (placement exam recommended) ............................ 0-8
II. Disciplinary Requirements

Other Course Work Required for the Major

From the Major Department:
Choose 9-15 hours of 300+ level economics courses .......................... 9-15

From Outside the Major Department:
Choose 15-21 hours outside Economics at the 200+ level, with at least six hours in two different departments. These courses are generally chosen from the following departments: Anthropology, Computer Science, History, Mathematics, Philosophy, Political Science, Psychology, Sociology, Statistics, or courses offered by the College of Business and Economics. 200+ level courses used to satisfy USP and College Requirements can also be counted here .................................................................................................................. 15-21

Other Major hours: ............................................................................. 30

Electives

Choose electives to lead to the minimum total of 120 hours required for graduation .................................................. 4

Bachelor of Science with a major in ECONOMICS

120 hours (minimum)

Any student earning a Bachelor of Science (BS) degree must complete a minimum of 60 hours in natural, physical, mathematical, and computer science. Please note: courses with a prefix of ECO are generally not accepted towards fulfilling this 60-hour requirement. Therefore, be sure to keep this 60-hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Science degree, including a specific listing of courses applicable to the 60-hour requirement, on page 100.

*Course used towards completion of a USP or College Requirement.

ENGLISH

The Department of English offers a wide variety of courses in English and American literature as well as in comparative literature, linguistics, folklore, film, creative writing, and composition. Undergraduate majors may also choose a curriculum that leads to a teaching certificate.

Both majors and nonmajors will find many courses that offer opportunities to deepen their acquaintance with their own culture and its heritage, to enlarge their understanding of the human condition, and to develop their capacity to use and appreciate their own language.
**College of Arts and Sciences**

**Minor in English**

The minor consists of a total of 18 hours, of which at least 12 hours must be at or above the 300 level. The hours are to be distributed as follows:

1. Two of the following courses (six hours):
   - ENG 331 Survey of British Literature I
   - ENG 332 Survey of British Literature II
   - ENG 334 Survey of American Literature I
   - ENG 335 Survey of American Literature II
2. One course in Shakespeare (three hours)
3. Three more courses (nine hours) selected from the department’s offerings (excluding all 100-level courses and ENG 203, 204, 205, 261, 262).

**FOREIGN LANGUAGES AND INTERNATIONAL ECONOMICS**

The University of Kentucky offers a joint major that combines foreign language proficiency with training in economics to prepare students for employment in enterprises doing business internationally. The program prepares students to succeed after graduation by combining high-quality classroom instruction with practical in-country learning opportunities. The program provides preparation for participation in internships and exchange programs and builds foundation for a future career in international business, or degrees in international law, an MBA in international business, or the Patterson School of International Diplomacy.

For further information and advising, contact the undergraduate advisor in the Department of Economics at 859-257-7380 or economics@uky.edu or visit http://www.economics.uky.edu.

**Bachelor of Arts with a major in FOREIGN LANGUAGE AND INTERNATIONAL ECONOMICS: FRENCH**

120 hours (minimum)

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the major requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Arts degree on pages 98-100.

Required for Degree ............................................ 120

*Course used towards completion of a USP Requirement.

*COM 199 + ECO 499 satisfy the Oral Communication Requirement.

B.A. or B.S. with a major in FRENCH

The requirements for the B.A. and B.S. with a major in French are listed in this A&S section under Modern and Classical Languages, Literatures and Cultures.

GEOGRAPHY

Geography analyzes and explains the location and interrelationships between human and physical features of the earth’s environment. Geographers also examine how and why features and their locations change over time, with particular interest in the many impacts of these changes on both people and natural settings. Geography is, therefore, both a social and a physical science. Because its fundamental subject matter is people and their environments, the discipline serves as an effective bridge between the physical and cultural worlds.

Majors in geography build solid academic foundations that draw from and integrate areas of study from the social and behavioral sciences, humanities, computer science and graphic communication, and the natural sciences. With developed analytical, critical thinking, and communication skills, geography is particularly useful for students wishing to enter
such careers as economic development, environmental management, international trade, transportation analysis and planning, diplomacy, government administration from local to federal levels, market analysis, urban and regional planning, research, teaching, cartography, Geographic Information Systems (GIS), and private business.

The Department of Geography has developed detailed major concentration tracks in three areas: earth environmental systems (physical geography), human geography, and geographic information techniques. For more information, contact the Department of Geography at (859) 257-2931, or on the Web at: www.uky.edu/AS/Geography/.

**Bachelor of Arts with a major in GEOGRAPHY**

120 hours (minimum)

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the major requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Arts degree on pages 98-100.

**University Studies Program Requirements**

I. Math .................................................. 0-3
II. Foreign Language (placement exam recommended) ................. 0-8
III. Inference–Logic ........................................ 3-6
IV. Written Communication ..................................... 0-4
V. Oral Communication ..................................... 3
VI. Natural Sciences (partially completed by Premajor Requirement) .............. 3
VII. Social Sciences (partially completed by Premajor Requirement) .............. 3
VIII. Humanities ............................................. 6
IX. Cross-Cultural (can be completed by Premajor Requirement) ................ 6
X. Electives (choose 300+ level Humanities courses) ................................. 6

**Graduation Writing Requirement**

After attaining sophomore status, students must complete a Graduation Writing Requirement course. See “University Writing Requirement” on page 70 of this Bulletin.

**Graduation Writing Requirement Hours:** ... 3

**College Requirements**

I. Foreign Language (placement exam recommended) ................. 0-8
II. Disciplinary Requirements
   a. Natural Science ........................................ 6
   b. Social Science (completed by Major Requirements) ............. 6
   c. Humanities (completed by USP Elective Requirement) .......................... 6
III. Laboratory or Field Work ........................................... 1
IV. Electives ...................................................................... 6

**Premajor Requirements**

*GEO 130 Earth’s Physical Environment ................................ 3
*GEO 152 Regional Geography of the World or
*GEO 160 Lands and Peoples of the Non-Western World .......................... 3

*GEO 172 Human Geography ......................................... 3
**Premajor hours:** .................................................. 9

*Course may be used towards fulfilling the University Studies Program requirements.

**Major Requirements**

**Major Core Requirements**

GEO 300 Geographic Research .................................... 3
GEO 305 Elements of Cartography ................................ 3
GEO 310 Quantitative Techniques in Geography ............ 3
**Major Core hours:** .................................................. 9

**Other Course Work Required for the Major**

From the Major Department:

**Breadth Requirements** ........................................... 6

Choose one regional geography course and one thematic geography course at the 300+ level.

**Geography Concentration Tracks** ................................ 12

Choose at least 12 hours of geography courses to include no more than six hours of GEO 560 (Independent Work in Geography) and GEO 480 (Internship in Geography) from one of the following tracks:

**Track 1: Earth Environmental Systems (Physical Geography)**

This concentration emphasizes the earth’s physical environment, including soils and landscapes; fluvial and other hydrologic systems; weather and climate; and vegetation and animal life. Emphasis is on (a) the pattern of spatial variation these regimes exhibit; (b) the physical processes that underpin their historical and spatial development; and (c) the interactions between these regimes and human activity. Topical areas reflecting physical-human interactions include identification and analysis of pollution, mitigation of natural hazards, and the outcomes of environmental management strategies.

The Department strongly recommends that students in the Earth Environmental Systems Concentration pursue a Bachelor of Science degree.

**Track 2: Human Geography (HG)**

Human Geography focuses on the identification, description, and analysis of: (a) human spatial behavior and cognition; (b) social, economic, and political processes as they are manifest locally and globally; and (c) the cultural impress of human activity on the landscape. Within these areas, students can focus on the socio-psychological aspects of space and place, including cultural differences in ways of knowing the world. They will learn about the processes that produce local-to-global distinctiveness in key problem areas including: poverty, injustice, and hunger; illness, disability, and human rights; and unequal access to natural resources, education, health, and safety. Students will also find an opportunity to learn how human practices and broader processes affect both our natural and built environments. Finally, students will learn practical tools to contribute to better world through their research, or professional participation in civil society, the private sector, or government agencies. The HG Track permits students to specialize in a particular region of interest, including East, South, Southwest (Middle East), and Southeast Asia, Europe, the Caribbean, and the United States, especially Appalachia and the South.

With the advice and consent of a faculty advisor, select from courses offered within the Department and other Departments, corresponding to a particular focus in HG.

**Track 3: Geographic Information Techniques (GIT)**

The Geographic Information Techniques Concentration is concerned with all aspects of geographical information/data, including identification of data sources, collection, storage/retrieval, manipulation, analysis, and visualization. The GIT Concentration encompasses geographical information science (GIS), cartography, remote sensing, and spatial analysis.

**From Outside the Major Department**

Choose 15 hours outside Geography at the 300+ level. 200+ level courses used to satisfy USP and College Requirements can also be counted here ................. 15

**Major hours:** .................................................. 42

**Electives**

Choose electives to lead to the minimum total of 120 hours required for graduation ................. 4

**Total Minimum Hours Required for Degree** ................. 120

*Course may be used towards completion of a USP Requirement.

**Bachelor of Science with a major in GEOGRAPHY**

120 hours (minimum)

Any student earning a Bachelor of Science (BS) degree must complete a minimum of 60 hours in natural, physical, mathematical, and computer science. Please note: courses with a GEO prefix are generally not accepted towards fulfilling this 60-hour requirement. Therefore, be sure to keep this requirement in mind as you choose your course work for the requirements in the major. See the complete description of College Requirements for a Bachelor of Science degree, including a specific listing of courses applicable to the 60-hour requirement, on page 100.

Major Core hours: ........................................... 9

Other Course Work Required for the Major
From the Major Department:
Breadth Requirements ............................................. 6
Choose one regional geography course and one thematic geography course at the 300+ level.

Geography Concentration Tracks ................................ 12
Choose at least 12 hours of geography courses to include no more than six hours of GEO 560 (Independent Work in Geography) and GEO 480 (Internship in Geography) from one of the following tracks:

Track 1: Earth Environmental Systems
(Physical Geography)
This concentration emphasizes the earth’s physical environment, including soils and landscapes; fluvial and other hydrosystems; weather and climate; and vegetation and animal life. Emphasis is on (a) the pattern of spatial variation these regimes exhibit; (b) the physical processes that underpin their historical and spatial development; and (c) the interactions between these regimes and human activity. Topical areas reflecting physical-human interactions include identification and analysis of pollution, mitigation of natural hazards, and the outcomes of environmental management strategies.
*GEO 210 Pollution, Hazards and Environmental Management .... 3
GEO 251 Weather and Climate ................................. 3
GEO 351 Physical Landscapes .................................. 3
*GEO 4410 Fluvial Forms and Processes ................. 3
*Or other Physical Geography, GIS, Remote Sensing, Computer Cartography courses.

Track 2: Human Geography (HG)
Human Geography focuses on the identification, description, and analysis of human processes related to the physical environment, including (a) human spatial behavior and cognition; (b) social, economic, and political processes as they are manifest locally and globally; and (c) the cultural imprint of human activity on the landscape. Within these areas, students can focus on the socio-psychological aspects of space and place, including cultural differences in ways of knowing the world. They will learn about the processes that produce local-to-global distinctiveness in key problem areas including: poverty, injustice, and hunger; illness, disability, and disease; patriarchy, racism, and homophobia; and unequal access to natural resources, education, health, and safety. Students will also find an opportunity to learn how human practices and broader processes affect both our natural and built environments. Finally, students will learn practical tools to contribute to better world through their research, or professional participation in civil society, the private sector, or government agencies. The HG Track permits students to specialize in a particular region of interest, including East, South, Southwest (Middle East), and Southeast Asia, Europe, the Caribbean, and the United States, especially Appalachia and the South.

With the advice and consent of a faculty advisor, select courses offered within the Department and other Departments, corresponding to a particular focus in HG.

From Outside the Major Department
Choose 15 hours outside Geography at the 200+ level. Courses used to satisfy USP and College Requirements can also be counted here ....................... 15

Major hours: ............................................. 42

Electives
Choose electives to lead to the minimum total of 120 hours required for graduation .......................................... 10

Total Minimum Hours Required for Degree .............................. 120
^Course used towards completion of a USP Requirement.

Minor in Geography
The minor in geography requires a minimum of 21 hours taken within the department. Students must complete courses as follows:
1. GEO 130 Earth’s Physical Environment ...................... 3
2. GEO 172 Human Geography .................................... 3
3. GEO 152 Regional Geography of the World
or
GEO 160 Lands and Peoples of the Non-Western World ........................ 3
4. GEO 300 Geographic Research
or
GEO 305 Elements of Cartography
or
GEO 310 Quantitative Techniques in Geography ............................................. 3
5. Three additional hours at the 200 level or above.

GEOLOGY
The earth and environmental sciences encompass a variety of types of studies of our planet, including considerations of composition, structure, prehistoric life, internal and surficial processes, and history. These studies have applications in the discovery and use of mineral resources, fuels, and water; in protection of the environment; and in planning for the impact of natural hazards (earthquakes, landslides, etc.) on societal development. Students undertake the study of earth and environmental sciences in the classroom, laboratory, and field.

Students in earth and environmental sciences earn the Bachelor of Science or Bachelor of Arts degree with a major in Geology. The B.S. program is designed for students who plan a career as a professional geologist or who plan to attend graduate school. The B.A. program is designed for students planning a career in government policy relating to earth science and environmental issues, earth-science education, business (environmental consulting), environmental law, or environmental medicine.

Bachelor of Arts with a major in GEOLGY

120 hours (minimum)

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are gener-
ally completed by the major requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Arts degree on pages 98-100.

Teacher Certification Requirements

The requirements for teacher certification in secondary foreign languages are outlined in the College of Education section of this Bulletin.

Minor in Spanish

The minor in Spanish requires a total of 21 hours based on the following distribution:

1. SPA 202 or SPA 242 or equivalent .......................... 3
2. SPA 210 .......................... 3
3. SPA 211 .......................... 4
4. Beyond the first six-semester sequence, twelve additional hours which must be taken at the 300 level or above. (At least one course, three hours, must be taken in Spanish or Spanish-American literature.)

Note: No courses taken in translation may be counted toward the minor in Spanish.

HISTORY

The Department of History’s program seeks to expand understanding of human experience and enable students to learn about their world in light of its past. The department offers a wide range of courses. These courses, an essential part of a liberal arts education, are also designed to train students to be teachers of history and professional historians. Faculty and students in the department participate in many of the University’s interdisciplinary programs such as African American studies, women’s studies, Latin American studies, and Asian studies.

Bachelor of Arts with a major in HISTORY

120 hours (minimum)

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the major requirements.
However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Arts degree on pages 98-100.

Choose electives to lead to the minimum total of 120 hours required for graduation. 

**Total Minimum Hours Required for Degree ............................................. 120**

*Course used towards completion of a USP Requirement.

**Minor in History**

A minor in history provides training in critical thinking and expression and a valuable perspective on the varieties of civilizations and modes of human behavior. The minor requires a minimum of 18 hours, to be distributed as follows:

1. A six-hour sequential introduction to the history of a civilization or a nation. This may be selected from:
   - HIS 104/105 History of Europe
   - HIS 106/107 Western Culture: Science and Technology I and II
   - HIS 108/109 History of the United States
   - HIS 202/203 History of the British People
   - HIS 229/230 The Ancient World
   - HIS 247/248 History of Islam and Middle East Peoples
   - HIS 295/296 East Asia
   - HIS 370/371 Middle Ages
   - HIS 385/386 History of Russia

2. Twelve hours of course work at or above the 300 level, at least six hours of which must be at or above the 400 level. No more than 12 of the 18 hours required may be in any one of the subfields of American history, European history, or history of the non-Western world.
Latin American Studies

The Latin American Studies program provides an integrated, interdisciplinary approach to the study of a geographic and cultural region. The core course (LAS 201), the senior course in directed research, and careful faculty supervision are essential components of the degree program. Students choose, however, from a variety of courses in anthropology, economics, geography, history, political science, the Spanish language and Spanish American literature.

Bachelor of Arts with a major in Latin American Studies

120 hours (minimum)

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the major requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Arts degree on pages 98-100.

Minor in Latin American Studies

The minor in Latin American Studies provides instructional and broad exposure to the society and culture of Latin America. The minor requires a minimum of 18 credit hours to be distributed as follows:

1. LAS 201 Introduction to Latin America ............... 3
2. plus one of the following courses:
LINGUISTICS

Linguistics is an interdisciplinary program combining resources from English, anthropology, psychology, philosophy, computer science, and the foreign languages, to develop an understanding of the nature and implications of human language. The Linguistics program provides solid foundations in phonological and grammatical analysis, as well as opportunities to investigate the social, cultural, psychological, and physical aspects of language use.

Bachelor of Arts with a major in LINGUISTICS

120 hours (minimum)

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the major requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Arts degree on pages 98-100.

Minor in Linguistics

The minor in linguistics requires 18 hours of course work to be selected as follows:

1. ENG/LIN 211
2. ENG/LIN 212

Major Area Courses (6 hours):

Choose from: LIN 318, ENG/LIN 515, ENG/LIN 516, ENG/LIN 512, EDC/ENG/LIN 513.

To make up the total of 18 hours, choose two courses from among the remaining LIN courses, including any of those listed above.
MATHEMATICAL ECONOMICS

The mathematical economics major offers students a degree program that combines mathematics, statistics, and economics. In today’s increasingly complicated international business world, a strong preparation in the fundamentals of both economics and mathematics is crucial to success. This degree program is designed to prepare a student to go directly into the business world with skills that are in high demand, or to go on to graduate study in economics or finance. A degree in mathematical economics would, for example, prepare a student for the beginning of a career in operations research or actuarial science.

In many ways, the mathematical economics program parallels the engineering philosophy. It combines the quantitative methods of mathematics with an applied science in order to solve real problems. As an example, operations research is used to optimize costs for extremely complicated systems such as airline scheduling. A major problem in business and economics is decision making under uncertainty. Efficient inventory control for large national retail chains can mean the difference between success and failure. A business will improve its bottom line if it can effectively control cost of inventory under the uncertainty of consumer demand. The solution of control problems of this type requires knowledge of relatively sophisticated mathematics and statistics as well as knowledge of basic economic principles.

There is currently a serious shortage of individuals who have sufficient training in mathematics and statistics as well as an understanding of business and economics. Companies that employ operations research analysts or actuaries cannot fill their positions. Mathematical economics and related areas have often been referred to as engineering for the service sector or “financial engineering.” With the ever increasing importance of the service sector in our economy, the math-econ degree will prove to be a valuable asset. The program will give the student an opportunity to study a fascinating collection of ideas and it will also provide the student with very marketable skills.

Bachelor of Arts with a major in MATHEMATICAL ECONOMICS

120 hours (minimum)

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the major requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Arts degree on pages 98-100.

*Course used towards completion of a USP Requirement.

Bachelor of Science with a major in MATHEMATICAL ECONOMICS

120 hours (minimum)

Any student earning a Bachelor of Science (BS) degree must complete a minimum of 60 hours in natural, physical, mathematical, and computer science. Please note: courses with an ECO prefix are generally not accepted towards fulfilling this 60-hour requirement. Therefore, be sure to keep this requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Science degree, including a specific listing of courses applicable to the 60-hour requirement, on page 100.

Other Course Work Required for the Major

For the Mathematics Component: Choose one of the following sequences: MA 416G and MA 417G, MA 417G and MA 472G, or STA 524 and STA 525 .......................... 6

For the Economics Component: Choose one of the following sequences: MA 416G and MA 417G, MA 417G and MA 472G, or STA 524 and STA 525 .......................... 6

For the Statistics Component: Choose STA 291 or a higher level statistics course .......................... 3

Other Major hours: ............................................ 18

Electives

Choose electives to meet the minimum total of 120 hours required for graduation ............................................ 9

*COM 199 + ECO 499 satisfy the Oral Communication Requirement.
MATHEMATICS

The department offers two programs leading to the B.A. or B.S. degree. Students may major in mathematics by completing the requirements for either: Option A, Mathematics or Option B, Mathematical Sciences.

The mathematics option consists of courses offered solely by the department of mathematics and is intended for those who wish to follow a traditional mathematics career path. The mathematical sciences option consists of courses offered by the departments of computer science, mathematics and statistics, and is intended for those who opt for a career that requires the application of mathematics. The requirements for these programs are outlined below.

Bachelor of Arts with a major in MATHEMATICS

121 hours (minimum)

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the major requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Arts degree on pages 98-100.

Major Requirements

Other Course Work Required for the Major

From the Major Department:

Choose 18 hours of 300+ level mathematics courses. One of the following sequences, or a substitute approved by the Director of Undergraduate Studies, must be included: MA 351/352, MA 361/362, MA 471G/472G, MA 481G/483G, CS/MA 321/422, CS/MA 416G and MA/STA 417G, MA 433G/485G; at least two of the following must be included (they can also count as the sequence if appropriate): MA 351, 352, 361, 362, 471G, 472G. May not include MA 322 ......... 18

Other Major hours: ...................................................... 14

OPTION A - Mathematics

Premajor Requirements

Other Course Work Required for the Major

From the Major Department:

Choose 18 hours of 300+ level mathematics courses. One of the following sequences, or a substitute approved by the Director of Undergraduate Studies, must be included: MA 351/352, MA 361/362, MA 471G/472G, MA 481G/483G, CS/MA 321/422, CS/MA 416G and MA/STA 417G, MA 433G/485G; at least two of the following must be included (they can also count as the sequence if appropriate): MA 351, 352, 361, 362, 471G, 472G. May not include MA 322 ......... 18

Other Major hours: ...................................................... 14

Mathematics Cooperative Education

Qualified students who major in mathematics may participate in the Mathematical Sciences Cooperative Education Program which provides the opportunity for alternate semesters of academic study and full-time employment in business or industry. Guidelines and application forms are available in the Engineering/Math Sciences Co-op Program Office, 320 Robotics Building.

Minor in Mathematics

Students who minor in mathematics must complete the following:
1. MA 113/114 Calculus I and II and ................. 8
2. MA 213 Calculus III .............................................. 4 or equivalent
3. MA 322 Matrix Algebra and Its Applications ... 3 or equivalent
4. Math 415 and STA 417G, or an approved substitute
5. Six additional hours of mathematics courses numbered greater than 213. Possible courses include: MA 214, MA 261, MA 320, MA 321, MA 330, MA 341, MA 351, MA 361, or any 400 level math course.

MILITARY SCIENCE AND LEADERSHIP

(As of 1988)

The Army Reserve Officers' Training Program at the University of Kentucky is open to both men and women and follows a general military science curriculum that is normally completed in four years but which may be completed in two years. An academic major in military science is not offered. The program's primary objective is to commission the future leadership of the line branches of the Active Army, Army National Guard, and U.S. Army Reserve.

Scholarships

Students interested in Army ROTC scholarships should contact their local ROTC office for more information. ROTC scholarships are available for students who meet the basic eligibility requirements.

Academic Program

Successful completion of 20 credit hours of military science courses while simultaneously completing undergraduate or graduate degree requirements qualifies a student to be commissioned as a Second Lieutenant in the U.S. Army. Required program courses are: AMS 101, AMS 102, AMS 211, AMS 212, AMS 301, AMS 302, AMS 341, AMS 342, an approved military history course, a computer science course, and continuous enrollment (or participation) in ROTC program. Also, cadets attend a five-week National Advance Leadership Course, usually in the summer between the junior and senior years.

An alternative two-year program is available for students with at least two academic years remaining until graduation and who have not completed the AMS 100- and AMS 200-level courses. This program is particularly suited to community college students transferring to the University, or students who did not participate in the Basic Program during their freshman and sophomore years. Students should contact the Professor of Military Science about the five-week summer Leadership Training Course conducted each summer at Fort Knox, Kentucky. Successful completion of the camp enables students to take AMS 300-level courses and complete the precommission program in two years.

In certain cases, veterans or students who have completed Army basic training are also eligible to complete the program in two years. Members of the Army National Guard or U.S. Army Reserve may also directly enroll in the National Advance Leadership Training Camp and participate in the Simultaneous Membership Program (SMP).

The Basic Course: (100 and 200 level) are orientational and deal with the Army’s role in the U.S. government. American military history, small unit organizations/operations, military geography/map reading and some adventure training are also addressed. No military obligation is incurred by completion of the courses.

The Advanced Course: (300 level) focus on leadership, management, and command/staff responsibilities within military organizations. All upper division Army ROTC students receive $450+ per month tax-free subsistence pay during the academic year. During the summer, students receive about $700 while attending camp.

Leadership Development (laboratory) periods, held weekly during the academic year, and on one Saturday per semester, focus on adventure-type training (e.g., orienteering, rappelling, survival training, and basic marksmanship). These activities are offered, subject to availability of equipment and facilities, to provide an opportunity to develop leadership, organizational abilities, and confidence.

Professional development and enrichment opportunities are also available through ROTC-sponsored university organizations—the Pershing Rifles and Kentucky Rangers.

Army ROTC incorporates the dimension of leadership into the academic curriculum and...
College of Arts and Sciences

MODERN AND CLASSICAL LANGUAGES, LITERATURES AND CULTURES

The Department of Modern and Classical Languages, Literatures and Cultures is comprised of the Divisions of Classics, French and Italian, German Studies, and Russian and Eastern Studies.

CLASSICS

The Division of Classics offers a Bachelor of Arts and a Bachelor of Science degree in Classics. The division teaches a broad range of courses in the languages, literature, history, art, and thought of the Greco-Roman world. Classics majors take both a common core of courses and a group of courses in one of three optional areas: Greek, Latin, or Classical Civilization. Students in all three options complete the specific University Studies requirements. The minimum requirements for graduation with departmental honors in Classics are an overall grade-point average of 3.55 and the completion of a 300+ level course in Greek or Latin with a grade of B. Access the division’s Web site at www.uky.edu/AS/Classics/ for more information.

Bachelor of Arts with a major in CLASSICS

120 hours (minimum)

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the major requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Arts degree on pages 98-100.

CLA 201/202 or CLA 251/252 .......
Latin/Greek Option .................................................. 12
Choose four language courses, in the area of study, at the 300-level or above.

Classical Civilization Option .................................... 12
Choose four courses, in the area of study, at the 300-level or above.

From Outside the Major Department

Choose 15 hours outside Classics at the 300+ level. 200+ level courses used to satisfy USP and College Requirements can also be counted here. Courses are typically selected from such areas of study as biblical literature, linguistics, old-world anthropology, and classical and medieval art, history, and philosophy. .......................... 15

Other Major hours: ...................................................... 33

Explanation of Major Requirements

At the discretion of the student’s advisor, other courses may be substituted for the courses listed as Major Core Requirements. These courses must be either CLA courses or non-CLA courses that deal with the classical world. The acceptable non-CLA courses are normally in the areas of history, philosophy and art history.

The Major requirements in Classics are fully satisfied if a student has:
1. Completed the Premajor requirement.
2. Completed 18 hours in 200+ CLA and acceptable non-CLA courses.
3. Completed 14 hours in 200+ courses outside the field of Classics that appropriately complement the Classics courses.
4. Completed 10 additional hours in 200+ courses in the areas of either Classics or the non-Classics complementary discipline(s).

1. Completed the Premajor Requirement.
2. Completed 18 hours in 200+ CLA and acceptable non-CLA courses.
3. Completed 14 hours in 200+ courses outside the field of Classics that appropriately complement the Classics courses.
4. Completed 10 additional hours in 200+ courses in the areas of either Classics or the non-Classics complementary discipline(s):
5. Accumulated 24 hours in 300+ courses among the courses used to satisfy items 2, 3, and 4 above.

Electives

Choose electives to lead to the minimum total of 120 hours required for graduation ................................................. 18

Total Minimum Hours

Required for Degree .............................. 120

*Course used towards completion of a USP or College Requirement.

Teacher Certification Requirements

Students who wish to teach Latin in secondary school must also meet the certification requirements outlined in the College of Education section of this Bulletin.

Minor Requirements

The requirements for a classics minor are 18 credit hours, at least six of which must be at the 300 level or above, earned from among the following courses:

1. Greek and Latin courses at any level.
2. Non-language courses taught by the division that are numbered 200 or higher.

All courses may be chosen from category 1, all from category 2, or the two categories may be combined in any manner, as long as students earn the requisite 18 credit hours.

FRENCH AND ITALIAN

As a branch of the liberal arts curriculum, the Division of French and Italian has as one of its fundamental aims to broaden and deepen the student’s acquaintance with the French- and Italian-speaking worlds through the medium of their language and literature.

Bachelor of Arts with a major in FRENCH

120 hours (minimum)

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the major requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Arts degree on pages 98-100.

Graduation Writing Requirement

After attaining sophomore status, students must complete a Graduation Writing Requirement course. See “University Writing Requirement” on page 70 of this Bulletin.

Graduation Writing Requirement Hours: .... 3
**College Requirements**

I. Foreign Language (completed by Premajor Requirement)
   - 3

II. Disciplinary Requirements
   - a. Natural Science (completed by USP Elective Requirement)  
   - b. Social Science (completed by USP Cross-Cultural Requirement)  
   - c. Humanities (completed by Major Requirements)

III. Laboratory or Field Work ................................. 1

IV. Electives .................................................... 6

**College Requirement hours:** ......................... 7

**Premajor Requirements**

*FR 204 French Culture: Readings and Conversation .......................... 3
FR 304 Intermediate French Literature I ........................................... 3
FR 305 Intermediate French Literature II ........................................ 3

**Premajor hours:** ........................................... 9

**Major Requirements**

Major Core hours:

FREN 300 Intermediate French Composition .......................... 3
FR 312 French Conversation I ..................................................... 3
FR 306 Intermediate French Composition ................................. 3

**Major Core hours:** ........................................... 12

**Other Course Work Required for the Major**

From the Major Department:

French Options ................................................... 9

Option 1 – Language/Culture: FR 310, FR 406, and one additional FR course at the 300+ level (excluding FR 300, FR 553, and courses in translation)

Option 2 – Literature/Culture: choose three French literature courses at the 400+ level

Option 3 – French Topical Studies: choose nine hours with the Director of Undergraduate Studies to create an individual program for special needs or interests

French Electives .................................................. 0-6

From Outside the Major Department

Choose 14-20 hours outside French at the 200+ level. Courses are generally selected from the following areas: anthropology, architecture, art history, economics, English, German, Greek, geography, history, Italian, Japanese, Latin, linguistics, music history, philosophy, political science, religious studies, Russian, sociology, Spanish, theatre, or other disciplines approved by the Director of Undergraduate Studies ............................... 14-20

**Other Major hours:** ....................................... 29

**Electives**

Choose electives to lead to the minimum total of 120 hours required for graduation ........................................... 17

**Total Minimum Hours Required for Degree** ............ 120

*Course used towards completion of a USP Requirement.

**Teacher Certification Requirements**

The requirements for teacher certification in secondary foreign languages are outlined in the College of Education section of this Bulletin.

**Minor in French**

The minor in French consists of a minimum of 18 hours in French language and literature courses beyond FR 202 and excluding FR 553 and literature courses in translation.

FR 203 Elementary French Conversation and Composition .......................... 3
FR 204 French Culture: Readings and Conversation .......................... 3

**GERMAN STUDIES**

The primary aims of the Division of German Studies are to help students develop their German language skills and gain an understanding of the literature and culture of the German-speaking countries. Students majoring in German earn the Bachelor of Arts or Bachelor of Science degree. For more information, visit the Division of German Studies on the Web at: www.uky.edu/AS/German/.

**Bachelor of Arts with a major in GERMAN**

120 hours (minimum)

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the major requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Arts degree on pages 98-100.

Major Core Requirements

*GER 307 Intermediate German Composition and Conversation I ........................................... 3
GER 308 Intermediate German Composition and Conversation II ........................................... 3
GER 311 Introduction to German Literature: Themes .................................................. 3
GER 312 Introduction to German Literature: Popular Forms ........................................... 3

**Major Core hours:** ........................................... 12

**Other Course Work Required for the Major**

From the Major Department ........................................... 12-15

Choose 12-15 hours of German courses to be selected from GER 310, 315, 317, 319, 352, 361, 415G, 416G, and 420G and 507; upon consultation with the advisor, certain 500-level courses may be substituted for two of these; GER 415G, 416G and 420G may be repeated once.

From Outside the Major Department

Choose 15-18 hours outside German at the 300+ level from the following areas: anthropology, art history, comparative literature, economics, English, French, geography, history, Italian, Japanese, Latin, linguistics, music, philosophy, political science, religious studies, Russian, sociology, Spanish, theatre, and women’s studies. 200+ level courses used to satisfy USP and College requirements can also be counted here ............ 15-18

**Other Major hours:** ....................................... 30

**Electives**

Choose electives to lead to the minimum total of 120 hours required for graduation ............................... 19

**Total Minimum Hours Required for Degree** ............ 120

*Course used towards completion of a USP Requirement.

**Bachelor of Science with a major in GERMAN**

120 hours (minimum)

Any student earning a Bachelor of Science (BS) degree must complete a minimum of 60 hours in natural, physical, mathematical, and computer science. Please note: courses with a GER prefix are generally not accepted towards fulfilling this 60-hour requirement. Therefore, be sure to keep this requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Science degree, including a specific listing of courses applicable to the 60-hour requirement, on page 100.

Required for Degree .................. 120

*Course used towards completion of a USP Requirement.

*GER 206 + GER 307 satisfy the Oral Communication Requirement.

Teacher Certification Requirements

The requirements for teacher certification in secondary foreign language teaching are outlined in the College of Education section of this Bulletin.

Minor in German

The minor in German Studies consists of a minimum of 19 hours in German language, culture, and literature courses in addition to the proficiency level gained by completion of GER 202. This level may be documented either by completing the relevant sequence of courses or by placement exam.

Required courses include:

GER 205 Reading and Writing Practice ........ 2
GER 206 Oral Practice .................................. 2

and Course work at the 300 level or above, including GER 307/308 ............. 15

RUSSIAN AND EASTERN STUDIES

The Division of Russian and Eastern Studies offers language courses in Arabic, Chinese, Hebrew, Japanese and Russian, as well as related literature and culture courses.

Russian and Eastern Studies

The Division of Russian and Eastern Studies offers an undergraduate major in Russian Studies. The program is designed to produce an integrated knowledge of Russian language, literature, culture, history, politics, and society. This interdisciplinary major provides the broadest possible base for further study of the former Soviet Union.

Bachelor of Arts with a major in Russian Studies

120 hours (minimum)

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the major requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Arts degree on pages 98-100.

University Studies Program Requirements

I. Math .................................................. 0-3
II. Foreign Language (completed by Premajor Requirement)
III. Inference–Logic ..................................... 3-6
IV. Written Communication ......................... 0-4
V. Oral Communication (partially completed by Major Requirement) .................. 1
VI. Natural Sciences ..................................... 6
VII. Social Sciences ...................................... 6
VIII. Humanities (completed by Major Requirements)
IX. Cross-Cultural (completed by Premajor Requirement)
X. Electives (choose two Natural Science courses) .... 6

USP hours: ........................................ 25-35

Graduation Writing Requirement

RUS 499, required in the Major Core Requirements, satisfies the Graduation Writing Requirement.

Graduation Writing Requirement Hours: ... 3

College Requirements

I. Foreign Language (completed by Premajor Requirement)
II. Disciplinary Requirements
   a. Natural Science (completed by USP Elective Requirement)
   b. Social Science (partially completed by Major Requirement) .................. 3
   c. Humanities (completed by Major Requirements)

III. Laboratory or Field Work ................. 1
IV. Electives ........................................ 6

College Requirement hours: .................. 10

Premajor Requirements

*RUS 202 Intermediate Russian ................. 4
*RUS 270 Russian Culture 900-1900 or
*RUS 271 Russian Culture 1900-Present .... 3

Premajor hours: .................................. 7

Major Requirements

Major Core Requirements

*RUS 385 History of Russia to 1825 ................. 3
*RUS 386 History of Russia Since 1825 ................. 3
*RUS 380 Nineteenth Century Russian Literature (in English) .................. 3
RUS 381 Russian Literature 1900-Present (in English) .................. 3
RUS 301 Advanced Intermediate Russian I .............. 3
RUS 302 Advanced Intermediate Russian II ............. 3
RUS 403 Advanced Russian I .................. 3
RUS 404 Advanced Russian II .................. 3
*RUS 499 Russian Studies Capstone Seminar (Subtitle required) .................. 3

Major Core hours: ......................... 27

Other Course Work Required for the Major

From the Major Department:

Language Elective .................................. 3
Choose from RUS 501, RUS 502, RUS 520, or RUS 530

Related Elective .................................. 3
Choose from RUS 370, RUS 375, RUS 395, RUS 400G, RUS 405G, RUS 463, or RUS 495G

From Outside the Major Department ............. 9
Choose 9 hours at the 300+ level related to Russian Area Studies, but not from the major department. Three of these hours must be chosen from one of the following courses: ECO 465G, GEO 329, PS 391, or PS 429G

Other Major hours: ......................... 15

Electives

Choose electives to lead to the minimum total of 120 hours required for graduation .................. 23

Total Minimum Hours

Required for Degree .................. 120

*Course used towards completion of a USP Requirement.

*COM 199 + RUS 499 satisfy the Oral Communication Requirement.

Bachelor of Science with a major in Russian Studies

120 hours (minimum)

Any student earning a Bachelor of Science (BS) degree must complete a minimum of 60 hours in natural, physical, mathematical, and computer science. Please note: courses with RUS and HIS prefixes are generally not accepted towards fulfilling this 60-hour requirement. Therefore, be sure to keep this requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Science degree, including a specific listing of courses applicable to the 60-hour requirement, on page 100.

University Studies Program Requirements

I. Math .................................................. 0-3
II. Foreign Language (completed by Premajor Requirement)
Minor in Russian
The minor in Russian consists of a minimum of 18 hours beyond second-year proficiency in Russian language (RUS 202) distributed as follows:
1. 6 hours of Russian language courses at the 300 level or above
2. 12 hours of additional course work in designated Russian area studies courses, of which at least 9 hours must be in RUS courses.

Note: RUS 395. Independent Work in Russian, may not be used for the minor.

PHILOSOPHY
Philosophy encourages critical and systematic inquiry into fundamental questions of right and wrong, truth and falsehood, the meaning of life, and the nature of reality, knowledge, and society. More than any other discipline, philosophy explores the core issues of the Western intellectual tradition. With its emphasis on reason and argumentation, philosophy major is an excellent preparation for a career in law or business.

Bachelor of Arts with a major in PHILOSOPHY
120 hours (minimum)
Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the major requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Arts degree on pages 98-100.

University Studies Program Requirements
I. Math ......................................................... 0-3
II. Foreign Language (placement exam recommended) ........................................... 0-3
III. Inference–Logic (partially completed by Major Requirement) .......................... 0-3
IV. Written Communication ........................................ 0-4
V. Oral Communication ......................................... 0-3
VI. Natural Sciences ........................................... 0-6
VII. Social Sciences ............................................ 0-6
VIII. Humanities (completed by Major Requirements) ........................................... 0-6
IX. Cross-Cultural (choose a 300+ level Social Science course) .................................. 0-3
X. Electives (choose two Natural Science courses) ........................................... 0-12

Graduation Writing Requirement
After attaining sophomore status, students must complete a Graduation Writing Requirement course. See “University Writing Requirement” on page 70 of this Bulletin.

Graduation Writing Requirement Hours: .................. 3

Total Minimum Hours Required for Degree ........................................ 120

Electives
Choose electives to lead to the minimum total of 120 hours required for graduation. .................................................. 0-120

Bachelor of Science with a major in PHILOSOPHY
120 hours (minimum)
Any student earning a Bachelor of Science (BS) degree must complete a minimum of 60 hours in natural, physical, mathematical, and computer science. Please note: courses with a PHI prefix are generally not accepted towards fulfilling this 60-hour requirement. Therefore, be sure to keep this requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Science degree, including a specific listing of courses applicable to the 60-hour requirement, on page 100.

University Studies Program Requirements
I. Math ......................................................... 0-3
II. Foreign Language (placement exam recommended) ........................................... 0-3
III. Inference–Logic (partially completed by Major Requirement) .......................... 0-3
IV. Disciplinary Requirement
a. Natural Science (completed by USP Elective Requirement) .................................. 0-3
b. Social Science (partially completed by USP Cross-
Minor in Philosophy
The minor in philosophy requires a minimum of 18 hours of course work to include the following:

a. No more than two 100-level courses
b. At least one course in logic (PHI 120, PHI 320, or PHI 520)
c. At least one course in the history of philosophy (PHI 260, PHI 270, or any course from Group A of the undergraduate curriculum)
d. At least three courses (nine hours) at the 300 level or above, excluding PHI 320 and PHI 399.

PHYSICS AND ASTRONOMY

The Department of Physics and Astronomy helps many students acquire a general understanding and appreciation of physics and astronomy. In the liberal arts tradition, the undergraduate curriculum is complete and flexible enough to allow a graduate with a major in physics to pursue a variety of careers. Many of our graduates continue their studies with graduate work in physics or other areas.

For the student interested in combining the study of physics with studies in other areas, the department can assist in the planning of an individual curriculum which meets both the minimum requirements of the Physics program and the student's needs and interests. Such planning is of particular value to students intending to pursue careers in engineering, computer science, applied physics, medicine, radiation medicine, biophysics, law, meteorology, oceanography, geophysics, environmental sciences, management, or the teaching of physics and/or physical science at the junior and senior high school levels. By working closely with an advisor, the student with special interests can take advantage of opportunities to take several other courses from one or more departments outside physics, or double major in physics and another area. For a description of suggested curricula, visit our Web site at: www.pa.uky.edu/undergrad/curricula.html.

Bachelor of Arts with a major in Physics

121 hours (minimum)
Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the major requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for the Bachelor of Arts degree on pages 98-100.

University Studies Program Requirements
I. Math (completed by Premajor Requirement)
II. Foreign Language (placement exam recommended) ........................................ 0-8
III. Inference–Logic (completed by Premajor Requirement)
IV. Written Communication ........................................................................... 0-4
VI. Natural Sciences (completed by Premajor Requirement)
VII. Social Sciences ....................................................................................... 6
VIII. Humanities (completed by Premajor Requirement) ....... 3
IX. Cross-Cultural (choose a 300+ level Social Science course) ................. 6
USP hours: ........................................................................................................... 24-36

Graduation Writing Requirement
After attaining sophomore status, students must complete a Graduation Writing Requirement course. See “University Writing Requirement” on page 70 of this Bulletin.

Graduation Writing Requirement Hours: ..................................... 3

College Requirements
I. Foreign Language (placement exam recommended) ........................................ 0-8
II. Disciplinary Requirements
  a. Natural Science (completed by USP Elective Requirement)
  b. Social Science (completed by USP Cross-Cultural Requirement)
  c. Humanities (completed by Major Requirements)
III. Laboratory or Field Work .......................................................... 6
IV. Electives ......................................................................................... 6

College Requirement hours: .................................................. 7-13

Premajor Requirements
*PHI 260 History of Philosophy I: from Greek Beginnings to the Middle Ages ....... 3
*PHI 270 History of Philosophy II: from the Renaissance to the Present Era .......... 3
Premajor hours: ....................................................................................... 6

Major Core Requirements
*PHI 320 Symbolic Logic I ........................................................................... 3
PHI 331 Ethics
or
PHI 335 The Individual and Society .............................................................. 3
PHI 351 Metaphysics and Epistemology ....................................................... 3

Major Core hours: ..................................................................................... 9

Other Course Work Required for the Major
From the Major Department: Choose 15 hours of PHI 500+ level courses with at least one course from each group below ........................................... 15
Group A: PHI 503, 504, 506, 509, 513, 514, 515, 516, 517
Group B: PHI 519, 530, 531, 535, 537, 540, 545, 592
Group C: PHI 520, 550, 560, 561, 562, 565, 570, 575

Choose 3 hours from any of the group courses listed above or the following: PHI 305, 310, 317, 330, 335, 337, 340, 343, 350, 361 ................................................................. 3

From Outside the Major Department
Choose 18 hours at the 300+ level; up to 4 hours may come from Philosophy courses ......................................................... 18

Other Major hours: .................................................................................... 36

Electives
Choose electives to lead to the minimum total of 120 hours required for graduation ................................................................. 9

Total Minimum Hours
Required for Degree .......................................................... 120

*Course used towards completion of a USP Requirement.

French or German is highly recommended to complete the USP and College foreign language requirements. Greek is recommended if the student plans to concentrate on ancient philosophy. Latin is recommended if the student plans to concentrate on medieval philosophy.
**Suggested Curriculum for B.A. in Physics**

As you plan your physics studies, please note that upper division physics courses, PHY 3XX and all higher numbered courses, are offered once per year in the semester indicated on the suggested curricula. For example, PHY 306 and PHY 361 are offered in the spring semester only.

*A total of 14 credit hours in math, computer science, chemistry, engineering or other areas related to physics but outside the department must be completed to satisfy the college requirement. A total of 42 hours in physics and related areas must be taken to satisfy the major requirement.*

**The Bachelor of Arts requires the completion of six additional hours in humanities and social sciences beyond those required for University Studies. It also requires the completion of 39 hours at or above the 300 level.**

### Bachelor of Science with a major in PHYSICS

**120 hours (minimum)**

Any student earning a Bachelor of Science (BS) degree must complete a minimum of 60 hours in natural, physical, mathematical, and computer science. See the complete description of College requirements for a Bachelor of Science degree, including a specific listing of courses applicable to the 60-hour requirement, on page 100.

#### University Studies Program Requirements

**I. Math (completed by Premajor Requirement)**

**II. Foreign Language (placement exam recommended)**

**III. Inference-Logic (completed by Premajor Requirement)**

**IV. Written Communication**

**VI. Natural Sciences (completed by Premajor Requirement)**

**VII. Social Sciences**

**VIII. Humanities**

**IX. Cross-Cultural (choose a Social Science course)**

**X. Electives (choose a Humanities course)**

**USP hours:** 21-33

#### Graduation Writing Requirement

After attaining sophomore status, students must complete a Graduation Writing Requirement course. See “University Writing Requirement” on page 70 of this Bulletin.

**Graduation Writing Requirement Hours:** 3

### College Requirements

**I. Foreign Language (placement exam recommended)**

**II. Disciplinary Requirements**

- a. Natural Science (completed by Premajor Requirement)
- b. Social Science (completed by USP Cross-Cultural Requirement)
- c. Humanities (completed by USP Elective Requirement)

**III. Laboratory or Field Work (completed by Premajor Requirement)**

**IV. Electives**

**College requirement hours:** 6-14

#### Premajor Requirements

**PHYS 23/232/241/242 General University Physics and Laboratory 10 or with permission of the Director of Undergraduate Studies:**

**Studies:**

- **PHYS 211/213 General Physics** (10)
- **PHYS 228 Optics, Relativity and Thermal Physics**
- **CHE 105 General College Chemistry I**
- **CHE 107 General College Chemistry II**
- **MA 113 Calculus I**
- **MA 114 Calculus II**

**Premajor hours:** 27

---

### Major Requirements

**Major Core Requirements**

- **PHY 306 Theoretical Methods of Physics**
- **PHY 335 Data Analysis for Physicists**
- **PHY 361 Principles of Modern Physics**
- **PHY 404G Mechanics**
- **PHY 416G/417G Electricity and Magnetism**
- **PHY 520 Introduction to Quantum Mechanics**
- **PHY 535(2) Experimental Physics: Advanced Physics Laboratory**
- **MA 213 Calculus III**
- **MA 214 Calculus IV**

**Major Core hours:** 28

#### Other Course Work Required for the Major

From the Major Department:

Choose one of the following: **PHY 522, 524, 554, 555, 556, 591, 592**

Choose two lab courses from the following: **AST/PHY 395, PHY 402G, 422, 555(1)**

From Outside the Major Department

Choose seven hours outside Physics at the 200+ level. Courses are generally chosen from computer science, engineering, mathematics, or statistics. 200+ level courses used to satisfy USP and College requirements can also be counted here.

**Other Major hours:** 7

### Total Minimum Hours Required for Degree

**120**

*Course used towards completion of a USP Requirement.*

---

**Suggested Curriculum for B.S. in Physics**

(ONLY: Students who have completed calculus or chemistry should visit our Web site at: www.pa.uky.edu/undergrad/curricula.html for suggested curriculum.)

As you plan your physics studies, please note that upper division physics courses, PHY 3XX and all higher numbered courses, are offered once per year in the semester indicated on the suggested curricula. For example, PHY 306 and PHY 361 are offered in the spring semester only.

POLITICAL SCIENCE

The undergraduate program in Political Science allows students to pursue course work in four disciplinary fields:

• American Politics – study of the institutions, behavioral patterns, and public policies that combine to define the American political system;

• Comparative Politics – study of the institutions, policies, and mass behaviors observed in political systems outside the United States, usually explored through comparison within or across regions of the world;

• International Relations – study of the international system as a whole, as well as of the actors (such as nation-states, corporations, and international organizations) who participate in shaping diplomatic, military, and economic outcomes within that system;

• Theory/Methodology – study of the values, concepts, and analytical methods that shape how people evaluate political life.

Degree recipients take introductory course work in each of these four areas, then pursue advanced studies in one or more of the fields as determined by their interests and/or career goals.

In addition to conveying information about politics and government necessary background for pursuing graduate work in political science and related fields – Political Science courses at UK are designed to provide students with a broad liberal arts education. Graduates leave the program having cultivated their analytical abilities and having exercised their written and spoken communication skills. Such disciplinary training is particularly helpful in preparing students for careers such as law, policy analysis, governmental administration, diplomatic service, journalism, lobbying, and other sorts of political activity.

Currently the department offers two degrees: a Bachelor of Arts and a Bachelor of Science. Most majors choose to pursue the B.A. The primary difference is that B.A. students must complete a minimum of 39 hours at the 300+ level, a requirement that students can fulfill using course work already needed for the major requirements except for CS 115 which may be counted.

Minor in Physics

For students with an interest in astronomy, this department offers the B.S. degree in physics with a concentration in astronomy. Among the major requirements, AST/PHY 591 Astrophysics I – Stars and AST/PHY 592, Astrophysics II – Galaxies and Interstellar Material are strongly recommended as courses within the area of concentration. AST 395, Independent Work in Astronomy, may be substituted for one of the laboratory courses of Requirement Three, subject to the work being done in astronomy and astrophysics. Students are encouraged, though not required, to enroll in AST 191, The Solar System, and AST 192, Stars, Galaxies and the Universe.

Astronomy Concentration

Bachelor of Arts with a major in

POLITICAL SCIENCE

120 hours (minimum)

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the major requirements. However, keep this requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Arts degree on pages 98-100.

1. Math ........................................................................... 0-3
2. II. Foreign Language (placement exam recommended) ........................................... 0-8
3. III. Inference–Logic .................................................. 3-6
4. IV. Written Communication ........................................... 0-4
5. VI. Natural Sciences .................................................... 6
6. VII. Social Sciences (partially completed by Premajor Requirement) .......................... 3
7. VIII. Humanities .......................................................... 6
8. IX. Cross-Cultural (may be completed by Major Requirements) ................................... 6
9. USP hours: ................................................................. 27-45
10. College Writing Requirement

After attaining sophomore status, students must complete a Graduation Writing Requirement course. See “University Writing Requirement” on page 70 of this Bulletin.

Graduation Writing Requirement Hours: .... 3

College Requirements

I. Foreign Language (placement exam recommended) ........................................... 0-8
II. Disciplinary Requirements
a. Natural Science (completed by USP Elective requirement)

b. Social Science (completed by Premajor Requirement)

c. Humanities (choose 300+ level courses) ........................................... 6
III. Laboratory or Field Work (completed by PS 372) ........................................... 6
IV. Electives ........................................................................... 6

College Requirement hours: ............ 12-20

Premajor/Introductory Requirements

Field One – American Politics

PS 101 American Government ........................................... 3

Field Two – Comparative Politics

PS 210 Introduction to Comparative Politics or

Field Three – International Relations

PS 235 World Politics .................................................... 3

Field Four – Theory/Methodology

PS 240 Introduction to Political Theory or

PS 372 Introduction to Political Analysis ........................................... 3

Premajor/Intro: hours .................................................... 12

Major/Core Requirements

After being introduced to each undergraduate field, Political Science majors must take an additional 39 hours of course work that combines both (1) courses within the discipline and (2) courses covering topics related to the discipline but offered by other programs. These 39 hours, of which 24 must be at the 300+ level, are divided as follows.

Disciplinary Courses

Students must take 18 additional credit hours of political science course work, of which at least 15 hours must be at the 300+ level. Note that PS 399 may not be counted toward this requirement. Eligible courses span all four undergraduate fields:

Field One – American Politics

General American Politics Courses

Field Two – Comparative Politics

Courses on American Law and Courts

Field Three – International Relations

Field Four – Theory/Methodology

PS 240 or 372, 441G, 442G, 545

Note: PS 391, 395, 490, and 492 also meet this disciplinary requirement, although the fields will vary depending on the topic.
From Outside the Major Department
Choose 15 hours outside political science from the list above. You must take at least 6 hours from two different departments. Special topics courses and other offerings related to the concentration may be substituted, subject to the approval of the Director of Undergraduate Studies ......................................................... 15

AAS 200, 420 (also acceptable are AAS courses cross-listed with courses eligible to serve as Major Requirements)

Therefore, be sure to keep this requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Science degree, including a specific listing of courses applicable to the 60-hour requirement, on page 100.
The minor in psychology requires a minimum of 20 hours to include the following:

1. **Prerequisite courses**
   - PSY 100 Introduction to Psychology ................................................. 4
   - PSY 215 Experimental Psychology .................................................. 4

2. **All of the following courses:**
   - PSY 311 Learning and Cognition ....................................................... 3
   - PSY 312 Brain and Behavior ............................................................. 3
   - PSY 313 Personality and Individual Differences .................................. 3
   - PSY 314 Social Psychology and Cultural Processes .............................. 3

**Bachelor of Arts with a major in RUSSIAN STUDIES**

The requirements for the B.A. and B.S. with a major in Russian Studies are listed under in this A&S section under Modern and Classical Languages, Literatures, and Cultures.

**SOCIOLGY**

Sociology emphasizes the study of human behavior and basic social processes. The discipline provides excellent preparation for careers in a variety of occupations and professions including planning and community development, law, public relations and advertising, personnel administration, private business and government administration, health and human services, family relations, criminal justice fields, and others.

Students may major or minor in sociology. The department offers a Bachelor of Arts and a Bachelor of Science through the College of Arts and Sciences. Students may also complete a second major or minor in sociology even though they are enrolled in other colleges. In addition, students seeking certification in social studies education at the secondary level through the College of Education may also emphasize sociology in their programs.

Courses offered by the department cover a wide range of topics and issues. Areas such as social inequalities, work, organizations, economy, globalization, family, community, environment, crime, law and deviance comprise a large part of the curriculum. Students may also pursue special readings courses and experiential education placements or internships through the department.

**Bachelor of Arts with a major in SOCIOLOGY**

120 hours (minimum)

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the major requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Arts degree on pages 98-100.

**University Studies Program Requirements**

I. **Math**
   - Calculus I ................................................................. 3
   - Calculus II ............................................................... 3
   - Calculus III ............................................................ 3

II. **Foreign Language**
   - Placement examination (recommended) ........................................... 0-8

*Course used towards completion of a USP Requirement.
The Department of Statistics at the University of Kentucky is concerned with three essential functions: teaching, research, and consulting in statistics.

The department does not offer an undergraduate degree, but students may elect to include statistics as part of a topical major or to minor in statistics. The program in mathematical sciences also includes several statistics courses. The Master of Science and the Doctor of Philosophy degrees are offered.

Research is being actively pursued in statistical theory and methods, both parametric and nonparametric, linear models, inference, stochastic processes, applied probability, and bio-statistics.

Consultation on statistical analysis and interpretation of data is provided to research workers on and off the campus. Particular attention is paid to the consulting needs of graduate students.

Minor in Statistics

The minor in statistics is aimed specifically at social and life science students, as well as students in the traditional mathematical sciences. A minimum of 17 hours of course work is required to complete the minor, as follows:

Track 1

STA 291 Statistical Method ..................................... 3
STA 295 The Art and Practice of Probability ........... 3
STA 322 Statistical Methods in Nonparametric Inference and Survey Sampling .................. 4
STA 422 Basic Statistical Theory II ......................... 4

Note: One relevant course from the student's area (3 credit hours) may be taken in any one discipline:

STA 596 Independent Study

Track 2

STA 320 Introductory Probability .......................... 3
STA 321 Basic Statistical Theory I .......................... 3
STA 322 Statistical Methods in Nonparametric Inference and Survey Sampling .................. 4
STA 422 Basic Statistical Theory II ......................... 4

plus one relevant course from the student's area (3 credit hours) to be approved by the Department of Statistics.

American Studies

American studies draws together diverse disciplines to examine the historical and contemporary forms and issues of our national life. The program in American Studies takes as its field of study any peoples, cultural expressions and social institutions, however or whenever identified as "American." Program curricula link faculty, courses, and students across a range of humanities, arts, and social science departments.

The minor centers on two interdisciplinary seminars on selected topics in American studies. Students electing the minor are also encouraged to take a range of elective courses to complement their major. The minor in American Studies prepares students for further graduate or professional training, or for work in education, government, or business.

The minor requires 18 hours of study as follows:

1. AC 301 Topics in American Culture
2. AC 401 Perspectives in American Culture
3. Four additional courses (12 hours) from the following list of approved courses. No more than two courses (or six hours) may be taken in any one discipline:

Art History: A-H 342
Anthropology: ANT 221, ANT 342, ANT 470G, ANT 527, ANT 534
English: ENG 310, ENG 480G
Geography: GEO 400, GEO 427, GEO 428, GEO 430G
History: HIS 260, HIS 261, HIS 265, HIS 350, HIS 351, HIS 460, HIS 461, HIS 463, HIS 464, HIS 465, HIS 467, HIS 572, HIS 573, HIS 574, HIS 575, HIS 576, HIS 577, HIS 578, HIS 579, HIS 580, HIS 581, HIS 582, HIS 584, HIS 585, HIS 586, HIS 596
Music: MUS 206, MUS 222, MUS 300, MUS 301, MUS 506
Philosophy: PHI 514
Sociology: SOC 340, SOC 534
Theatre: TA 382

NOTE: Courses in English and history are strongly recommended.

Cognitive Science

The undergraduate minor in Cognitive Science is aimed to provide undergraduates with an introduction to cognitive science as a theory of the mind as an intelligent (information-processing) system. Our objectives are to ensure that each student (a) be able to articulate, at least in broad terms, some of the assumptions that have been thought to unify the various subfields within the domain of cognitive science; (b) explore more than one discipline’s approach to matters pertaining to cognitive science; and (c) explore in some detail at least one of the five main disciplines contributing to cognitive science (biology, computer science, linguistics, philosophy, and psychology).

CGS 500 (Cognitive Science in Theory and Practice) will be run with the aim in mind of getting students to satisfy (a); and distribution requirements aim to put students in a position to satisfy (b) and (c).

To receive an undergraduate minor in Cognitive Science, the student must successfully complete 18 credit hours to be distributed as
College of Arts and Sciences

follows:
1. CGS 500 Cognitive Science in Theory and Practice ........................................ 3
2. Fifteen credits from among the following:
   *ANT 332 Human Evolution
   BIO 375 Behavioral Ecology and Sociobiology
   BIO 535 Comparative Neurobiology and Behavior
   BIO 550 Comparative Physiology
   BIO 556 Communication Biology
   COM 350 Language and Communication
   CS 375 Logic and the Theory of Computing (may not be combined with PHI 520)
   CS 463G Logic and Artificial Intelligence
   *CS 521 Computational Sciences
   CS 536 Situated Computing
   CS 575 Models of Computation (may not be combined with PHI 520)
   LIN 210 History of the English Language
   LIN 211 Introduction to Linguistics I
   LIN 212 Introduction to Linguistics II
   LIN 318 Semantics and Pragmatics
   LIN 319 Historical Linguistics
   LIN 512 Modern English Grammar
   *LING 513 Teaching English as a Second Language
   LIN 515 Phonological Analysis
   LIN 516 Grammatical Analysis
   LIN 517 Special Topics in Linguistics (Subtitle required)
   PHI 320 Symbolic Logic I
   PHI 361 Biology and Society
   PHI 520 Symbolic Logic II (may not be combined with CS 375, 575, or 675)
   PHI 560 Philosophy of Scientific Method
   PHI 565 Philosophy of Language
   PHI 575 Philosophy of Mind
   *PSY 223 Developmental Psychology
   PSY 311 Learning and Cognition
   PSY 312 Brain and Behavior
   PSY 427 Cognitive Processes
   PSY 456 Behavioral Neuroscience
   PSY 552 Animal Behavior
   PSY 562 Advanced Topics
   in Cognitive Psychology (Subtitle required)
   PSY 564 Advanced Topics in Learning (Subtitle required)
   PSY 565 Advanced Topics
   in Neuroscience (Subtitle required)
   *PSY 566 Advanced Topics
   in Social Psychology (Subtitle required)
   Of the fifteen credit hours of courses from this list, (1) at least six credit hours must be in the same core discipline, where core disciplines are biology, computer science, linguistics, philosophy, and psychology; and (2) no more than six credit hours from any single discipline will count towards satisfaction of the requirement.
   *Only by approval of the Director of Cognitive Science.
   Environmental Studies

Environmental considerations permeate almost every facet of modern life, and concern for the “environment” is practically universal as we approach the twenty-first century. The minor in Environmental Studies is designed to provide students with the opportunity to become conversant in a range of environmental topics, whether as private citizens in their daily lives or as professional members of corporate, government, legal, medical, and educational circles.

The minor draws on topics and perspectives from the natural and physical sciences, the social sciences, and the humanities to underscore the interdisciplinary nature of environmental issues and problems. Students taking the minor are encouraged to integrate the program with their major study focus in order to gain a competitive advantage in grappling with environmental topics.

The minor in Environmental Studies requires 18 hours of course work including the following:

1. ENS 200 Introduction to Environmental Studies* ........................................ 3
2. Six hours chosen from the following list of sociocultural perspectives:
   ANT 375 Ecology and Social Practice ........................................ 3
   GEO 210 Pollution, Hazards, and Environmental Management ...................... 3
   GEO 550 Sustainable Resource Development and Environmental Management ........................................ 3
   PS 391 Special Topics in Political Science (Subtitle required) ........................................ 3
   PS 456G Appalachian Politics ........................................ 3
   ENS 300 Special Topics (Subtitle required) ........................................ 3
   ENS 395 Independent Work ........................................ 3
3. Six hours chosen from the following list of science and technology perspectives:
   FOR 205 Forest and Wildland Soils and Landscapes ........................................ 4
   FOR 340 Forest Ecology ........................................................................ 3
   FOR 350 Silviculture ........................................................................ 3
   GEL 251 Weather and Climate ........................................ 3
   GEL 341 Landforms ........................................................................ 3
   GEL 585 Hydrogeology ........................................ 4
   BIO 325 Introductory Ecology ........................................................................ 4
   ENS 300 Special Topics (Subtitle required) ........................................ 3
   ENS 395 Independent Work ........................................ 3
4. ENS 400 Senior Seminar (Subtitle required)* ........................................ 3
   *ENS 200 and ENS 400 satisfy the University Studies cross-disciplinary requirement.
   At least six of the twelve elective hours must be at the 300-level or above.
   Elective courses must be drawn from outside the student’s major.

Alternative elective courses may be approved by the Environmental Studies Program Director.

For further information, contact Professor Ernest J. Yanarella, 1659 Patterson Office Tower, (859) 257-2989, e-mail: eyjana@email.uky.edu.

Gender and Women’s Studies

The Gender and Women’s Studies program assists students who wish to develop undergraduate majors in Gender and Women’s Studies under the Topical Studies major program. For more information, see “Topical Studies Majors” in the College of Arts and Sciences section of this Bulletin.

The minor in Gender and Women’s Studies provides students an opportunity to examine and integrate the contributions of established academic disciplines in understanding the historical and contemporary roles and status of women. Also, the program provides a framework for research and analyses which focus upon women’s issues. The minor requires 21 hours of course work, as outlined below:

GWS 200 Introduction to Gender and Women’s Studies in the Social Sciences ........................................ 3
GWS 201 Introduction to Gender and Women’s Studies in the Arts and Humanities ........................................ 3
GWS 350 Introduction to Feminist Theorizing ........................................ 3
GWS 399 Internship in Gender and Women’s Studies ........................................ 3
*GWS 416 Cross-Cultural Perspectives in Gender and Women’s Studies ........................................ 3

Plus an additional nine hours of electives to be selected with the approval of the Director of the Gender and Women’s Studies Program.

*GWS 416 is offered every other year; please check with the Gender and Women’s Studies Program for more information.

Courses used for the Gender and Women’s Studies topical major, minor or graduate certificate must be taught by a Gender and Women’s Studies Affiliated Faculty.

For further information, contact Professor Joan Callahan, Director of Gender and Women’s Studies, 112 Breckinridge Hall, (859) 257-1388.

Indian Culture

This minor is designed to allow students to develop a more profound understanding of Indian culture. The curriculum is strongly interdisciplinary, encompassing courses in linguistics, anthropology, English, geography, mathematics, philosophy, political science, and sociology.

Students completing the minor will possess:
1. The ability to read Sanskrit (vital for comprehending Indian culture);
2. A well-rounded, multidisciplinary understanding of the culture and geography of India and of contemporary Indian society and politics; and
3. A high degree of preparedness to pursue careers in business or teaching that require knowledge of Indian society and its traditions.

The minor in Indian Culture requires 18 hours of course work, as follows:

1. Sanskrit Language Courses (6 hours)
   LIN 520 Sanskrit I ........................................ 3
   LIN 521 Sanskrit II ........................................ 3
2. Twelve hours of courses on India from anthropology, English, geography, linguistics, mathematics, philosophy, political science, sociology, and independent studies in India. Students choose from the following courses:
   *ANT 327 Culture and Societies of India ........................................ 3
   *GEO 330 Geography of South Asia ........................................ 3
   GEO 365 Special Topics in Regional Geography (Subtitle required) ........................................ 3
   GEO 565 Topics in Geography ........................................ 3
   LIN 395 Independent Work ........................................ 3
   MA 330 History of Mathematics ........................................ 3
   *PHI 343 Asian Philosophy ........................................ 3
   *PS 420G Governments and Politics of South Asia ........................................ 3
   *SOC 380 Globalization: A Cross-Cultural Perspective ........................................ 3
   *Also satisfies the US cross-cultural requirement.

Students in the Indian Culture minor program will be encouraged to participate in a study
program in India in the course of their undergraduate education.

For further information, contact Professor Gregory Stump (English and linguistics), 1253 Patterson Office Tower, (859) 257-1184; Professor Paul Karan (geography), 1439 Patterson Office Tower, (859) 257-6953; or Professor Avinash Sathaye (mathematics), 703 Patterson Office Tower, (859) 257-8832.

Islamic Studies

The interdisciplinary minor in Islamic Studies provides the opportunity to study the culture, language, literature, religion, history and philosophy of Muslim peoples throughout the world from antiquity to the present. Students will acquire a rounded understanding of Islamic culture, the ability to interpret information and news from the Middle East and elsewhere in an independent way, with understanding of the issues from the perspective of the Muslim countries, and will be prepared to pursue careers that require a knowledge of Islamic civilization.

1. Minor Requirements (6 hours)
   - AIS 328 Islamic Civilization I ........................................ 3
   - AIS 330 Islamic Civilization II ...................................... 3

2. Minor Electives (12 hours)
   - AIS 101 Elementary Modern Standard Arabic ................... 4
   - AIS 102 Elementary Modern Standard Arabic ................... 4
   - AIS 201 Intermediate Modern Standard Arabic ................... 4
   - AIS 202 Intermediate Modern Standard Arabic ................... 4
   - HIS 247 History of Islam and Middle East Peoples, 500-1250, A.D. ........................................... 3
   - HIS 248 History of Islam and Middle East Peoples, 1250 to the Present ........................................... 3
   - AIS 331 Classical Arabic Literature (in English) ................. 3
   - AIS 338 Women and Islam ........................................... 3
   - AIS 340 Fundamentalism and Reform in Islam .................... 3
   - AIS 440 Introduction to the Quran .................................. 3
   - AIS 442 Arabic Reading I ............................................ 3
   - AIS 443 Arabic Reading II .......................................... 3
   - AIS 435 Topics in Islamic Studies: (Subtitle required) ......... 3
   - PS 391 Special Topics in Political Science (Subtitle required) ........................................... 3
   - PHI 504 Islamic and Jewish Philosophy and the Classical Tradition ........................................... 3
   - HIS 548 History of the Middle East: 1453-1920 .................. 3
   - HIS 549 History of the Middle East: 1952 to the Present .......... 3

Note: Other courses in the area may be elected with the approval of the chair of the department.

For further information, contact Professor Suleiman Darrat, 1073 Patterson Office Tower, (859) 257-7037; e-mail: sdarrat@uky.edu.

Japan Studies

The Japan Studies minor complements existing majors and prepares students with the skills that are required to work with Japan given its integral place in international business. Students will also become well-versed in the culture and geography of Japan, its history, arts, and environment. This background will prepare students for Japan-related careers in the United States and abroad.

This 23-hour program consists of (1) 14 hours of Japanese language courses, (2) 6 hours of Japanese cultural studies, and (3) 3 hours of elective courses on contemporary East Asian history, politics, and society.

The Japan Studies Program maintains a University of Kentucky Summer Field Station at Yatsushiro (Kyushu) on the campus of the IEC Kyushu International College for summer field research and instruction. Summer field seminars are offered at this site each year. Details at: www.ukyjapan.org.

1. Japanese Language Courses (14 hours)
   - JPN 101 Beginning Japanese I ................................... 4
   - JPN 102 Beginning Japanese II .................................. 4
   - JPN 201 Intermediate Japanese I ................................ 3
   - JPN 202 Intermediate Japanese II ................................ 3

2. Japanese Cultural Studies (6 hours)
   - GEO/JPN 334 Environment, Society and Economy of Japan ........................................... 3
   - JPN 283 Japanese Film ............................................. 3
   - JPN 320 Introduction to Japanese Culture, Pre-Modern to 1868 ........................................... 3
   - JPN 321 Introduction to Japanese Culture, Meiji (1868) to Present ........................................... 3

3. Contemporary East Asian History, Politics, and Society (3 hours)
   - HIS 295 East Asia to 1800 ....................................... 3
   - HIS 296 East Asia Since 1800 ...................................... 3
   - HIS 579 Westerners in East Asia, 1839 to the Present .......... 3
   - JPN 405 Seminar in Japanese and Asian Studies (Subtitle required) ........................................... 3
   - GEO/JPN 491G Japanese Landscapes ............................. 3
   - GEO/JPN 551 Japanese Multinational Corporations ............... 3

For further information, contact Professor Doug Slaymaker, Director, Japan Studies Program, (859) 257-6953 or (859) 257-3761; e-mail: nihong.uky@spamex.com.

Judaic Studies

The interdisciplinary minor in Judaic Studies provides students with the opportunity to become acquainted with the culture, language, literature, religion, history, and philosophy of the Jewish people from antiquity to the present. The minor in Judaic Studies requires 18 hours of course work as follows:

1. Required Courses
   - HJS 324 Jewish Thought and Culture I: From Ancient Israel to the Middle Ages* ........................................... 3
   - HJS 325 Jewish Thought and Culture II: From the Expulsion from Spain to the Present* ........................................... 3

2. Elective Courses
   - HJS 101 Elementary Hebrew ......................................... 4
   - HJS 102 Elementary Hebrew ......................................... 4
   - HJS 201 Intermediate Hebrew ....................................... 3
   - HJS 202 Intermediate Hebrew ....................................... 3
   - PHI 504 Islamic and Jewish Philosophy and the Classical Tradition ........................................... 3
