HOW TO USE THIS BULLETIN

The information in this bulletin is current at the time of publication. If you are pursuing a degree, you are obligated to fulfill the requirements as they are listed in the bulletin for the semester in which you enroll in that program.

If the requirements change after you have enrolled in the program, you have the option of fulfilling either the old or new requirements. If you elect to fulfill the old requirements and find that necessary courses have been eliminated or substantially revised, you may substitute other courses with the approval of the dean of the college. If the revision is required by an external accreditation certification body, and this body submits a written statement to the University that the accreditation of a program or certification of its graduates is in jeopardy unless students fulfill the new requirements, the option of fulfilling the old requirements shall not apply.

If your study in the program or the University is interrupted for more than two semesters, your college dean will decide which program requirements must be fulfilled.

COMPLIANCE WITH REGULATIONS

The University of Kentucky is committed to a policy of providing educational opportunities to all qualified students regardless of economic or social status and will not discriminate on the basis of race, color, ethnic origin, national origin, creed, religion, political belief, sex, sexual orientation, marital status, age, veteran status, or physical or mental disability. Compliance with Title IX of the Educational Amendments of 1972, which prohibits sex discrimination, and with Title VI of the Civil Rights Act of 1964 is coordinated by the Office of Institutional Equity and Equal Opportunity, 13 Main Building, University of Kentucky, Lexington, KY 40506-0032, (859) 257-8927.

Efforts to comply with the laws and regulations applicable to people with disabilities are also coordinated by the Office of Institutional Equity and Equal Opportunity, as required by Section 504 of the Rehabilitation Act of 1973, and the Americans with Disabilities Act of 1990.

Questions concerning compliance with regulations may be directed to UK’s Office of Institutional Equity and Equal Opportunity, or to the Director of the Office for Civil Rights, U.S. Department of Education, Washington, D.C.

Qualified students with disabilities should contact the associate dean and director of the Disability Resource Center at (859) 257-2754 to request reasonable accommodation.

The University is in compliance with the Drug-Free Workplace Act of 1988 and the Drug-Free Schools and Communities Act Amendment of 1989. Questions may be directed to the Vice President for Student Affairs or the Office of the Associate Vice President for Human Resources.

Questions about admission to the University should be directed to the appropriate admissions office.

OAK RIDGE ASSOCIATED UNIVERSITIES (ORAU)

Since 1946, students and faculty of the University of Kentucky have benefited from its membership in Oak Ridge Associated Universities (ORAU). ORAU is a consortium of 100 colleges and universities and a contractor for the U.S. Department of Energy (DOE) located in Oak Ridge, Tennessee. ORAU works with its member institutions to help their students and faculty gain access to federal research facilities throughout the country; to keep its members informed about opportunities for fellowship, scholarship, and research appointments; and to organize research alliances among its members.

Through the Oak Ridge Institute for Science and Education (ORISE), the DOE facility that ORAU operates, undergraduates, graduates, postgraduates, as well as faculty enjoy access to a multitude of opportunities for study and research. Students can participate in programs covering a wide variety of disciplines including business, earth sciences, epidemiology, engineering, physics, geological sciences, pharmacology, ocean sciences, biomedical sciences, nuclear chemistry, and mathematics. Appointment and program length range from one month to four years. Many of these programs are especially designed to increase the numbers of underrepresented minority students pursuing degrees in science- and engineering-related disciplines. A comprehensive listing of these programs and other opportunities, their disciplines, and details on locations and benefits can be found in the ORISE Catalog of Education and Training Programs, which is available at www.orau.gov/orise/educ.htm, or by calling either of the contacts below.

ORAU’s Office of Partnership Development seeks opportunities for partnerships and alliances among ORAU’s members, private industry, and major federal facilities. Activities include faculty development programs, such as the Ralph E. Powe Junior Faculty Enhancement Awards, the Visiting Industrial Scholars Program, consortium research funding initiatives, faculty research and support programs as well as services to chief research officers.

For more information about ORAU and its programs, contact:

James W. Tracy
Vice President for Research
ORAU Councillor for University of Kentucky

Monnie E. Champion
ORAU Corporate Secretary (865-576-3306); or
Visit the ORAU Home Page at: www.orau.org
STATEMENT OF VISION, MISSION AND VALUES
Adopted by the University Board of Trustees

MISSION
The University of Kentucky is a public, land grant university dedicated to improving people’s lives through excellence in education, research and creative work, service, and health care. As Kentucky’s flagship institution, the University plays a critical leadership role by promoting diversity, inclusion, economic development, and human well-being.

VISION
The University of Kentucky will be one of the nation’s 20 best public research universities.

VALUES
The University of Kentucky is guided by its core values:
  • Integrity
  • Excellence
  • Mutual Respect and Human Dignity
  • Diversity and Inclusion
  • Academic Freedom
  • Shared Governance
  • Work-life Sensitivity
  • Civic Engagement
  • Social Responsibility

The University of Kentucky is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools to award baccalaureate, masters, doctorate, and professional degrees. Contact the Commission on Colleges at 1866 Southern Lane, Decatur, Georgia 30033-4097 or call 404-679-4500 for questions about the accreditation of the University of Kentucky.

An Equal Opportunity University
The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their education records. They are:

1. The right to inspect and review the student’s education records within 45 days of the day the University receives a request for access. Students should submit written requests that identify the record(s) they wish to inspect. The University official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the University official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.

2. The right to request the amendment of the student’s education records that the student believes is inaccurate. Students may ask the University to amend a record that they believe is inaccurate. They should write the University official responsible for the record, clearly identify the part of the record they want changed, and specify why it is inaccurate. If the University decides not to amend the record as requested by the student, the University will notify the student of the decision and advise the student of his or her right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

3. The right to consent to disclosures of personally identifiable information contained in the student’s education records, except to the extent that FERPA authorizes disclosure without consent. One exception which permits disclosure without consent is disclosure to school officials with legitimate educational interests. A school official is a person employed by the University in an administrative, supervisory, academic or research, or support staff position (including law enforcement unit personnel and health staff); a person or company with whom the University has contracted (such as an attorney, auditor, or collection agent); a person serving on the Board of Trustees; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.

Upon request, the University discloses education records without consent to officials of another school in which a student seeks or intends to enroll. [Note: FERPA requires an institution to make a reasonable attempt to notify the student of the records request unless the institution states in its annual notification that it intends to forward records on request.]

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the University of Kentucky to comply with the requirements of FERPA. The name and address of the office that administers FERPA is: Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue, SW, Washington, D.C., 20202-4605.

The Family Right-to-Know and Campus Security Act of 1990 (Public Law 101-542) requires public disclosure of relevant graduation rate information for students enrolled in colleges and universities receiving federal financial assistance annually beginning July 1, 1993. The following statement is the University of Kentucky’s official disclosure statement in accordance with the requirements of P.L. 101-542 Section 103 for the 2011-2012 academic year.

**Graduation Rate of Entering Freshmen**

The graduation rate for all students entering the University of Kentucky as first-time freshmen during the 2004-2005 academic year* was 58.2 percent. This graduation rate represents the percentage of students entering the University of Kentucky as first-time (i.e., new) full-time degree-seeking freshmen during the 2004 Summer and Fall terms who subsequently were awarded baccalaureate degrees by the University of Kentucky within six calendar years (i.e., through August 2010). This rate was calculated under definitions and procedures established by the National Collegiate Athletic Association (NCAA), and reported to the NCAA on the University’s 2010 Graduation Rate Disclosure Form in March 2011.

Final regulations and guidelines for the calculation, reporting, and disclosure of graduation rate information required under the Student Right-to-Know Act have not yet been issued by the Department of Education. Definitions of the entering student cohort in the Department of Education’s proposed regulations (Federal Register, July 10, 1992) and the NCAA Graduation Rate Disclosure Form differ slightly. However, the University has determined that the graduation rate information in the annual NCAA report is substantially comparable to the information required under the Student Right-to-Know Act, and is reporting that information at this time pending release of final federal regulations.

March 2011

*The information to be disclosed by July 1 of each year is “the graduation rate for the most recent cohort of entering students that all have had an opportunity to complete or graduate from their respective programs” in the specified completion period (which for the University of Kentucky is six years). The most recent entering cohort meeting this requirement is the 2004-2005 freshman class.
2011 -2012 Calendar

Check the Academic Calendars for any calendar changes that may have been approved after the publication of this Bulletin.

2011 Fall Semester

February 1 – Tuesday - Deadline for submission of all application materials, College of Medicine, for the 2011 Fall Semester
February 1 – Tuesday - Deadline for submission of all application materials for the School of Interior Design
February 15 – Tuesday - Priority deadline for freshman applicants seeking admission to the Fall Semester
February 15 – Tuesday - Priority filing deadline for the 2011-2012 academic year for financial aid for entering freshmen
February 28 – Monday - Last day for filing an application for an August 2011 undergraduate degree online in myUK
March 1 – Tuesday - Deadline for all applicants to the School of Architecture (College of Design)
March 15 – Tuesday - Deadline for international applications to be submitted to the Graduate School for the 2011 fall semester
March 15 – Tuesday - Priority filing deadline for the 2011-2012 academic year for financial aid for continuing and transfer students
March 28-April 19 – Monday through Tuesday - Priority Registration for Fall 2011
April 1 – Friday - Deadline for NAAB Architecture transfer applicants
April 15 – Friday - Deadline for applying with college deans for reinstatement after a second academic suspension for the 2011 Fall Semester
April 23-June 9 – Saturday through Thursday - Add/Drop for registered students
May 13 – Friday - Deadline for students to schedule an appointment for reinstatement in all colleges for the 2011 fall semester
May 15 – Sunday - Deadline for undergraduate international applicants to submit 2011 Fall Semester application
June 15 – Wednesday - Earliest date to submit application for regular and Early Decision Program admission, College of Medicine, for the 2012 Fall Semester
June 20-July 14 – Monday-Thursday - Summer Advising Conferences for new freshmen, transfer, students, and readmitted students enrolling for the 2011 Fall Semester
June 27-September 20 – Monday-Tuesday - Approved time period to apply online in myUK for a December 2011 degree from the Graduate School
June 30 – Thursday-Last day for filing an application for a December 2011 undergraduate degree online in myUK
July 15-August 20 – Friday through Saturday - Add/Drop for registered students
July 22 – Friday - Deadline for applying for admission to the Graduate School for the 2011 Fall Semester
August 1 – Monday - Final deadline for submission of all required documents to the Office of Admissions for undergraduate admission, for the 2011 Fall Semester, excluding freshmen who will be considered on a space-available basis
August 1 – Monday - Deadline for application for Early Decision Program, College of Medicine, for the 2012 Fall Semester

August 3 – Wednesday - Last day for students in the Employee Educational Program registered through August 3 to submit EEP form to Human Resource Services to confirm 2011 Fall Semester registration and tuition waiver
August 15 – Monday - Deadline for international applications to be submitted to the Graduate School for the 2012 spring semester
August 16-22 – Tuesday through Monday - Fall registration for students who entered the University in either the 2011 Four-Week Intersession or Eight-Week Summer Session
August 16-22 – Tuesday through Monday - Registration for new program graduate students
August 18-22 – Thursday through Monday - Fall registration for new post-baccalaureate students admitted for the First Summer Session, Second Summer Session or Fall Semester
August 19 – Friday - Advising Conference and Registration for new international students
August 19-27 – Friday through Saturday - K-Week for all new undergraduate students
August 22 – Monday - Advising Conference and Registration for new freshmen and transfer students including registration for Evening and Weekend
August 22-23 – Monday-Tuesday - Opening-of-term add/drop for registered students
August 23 – Tuesday - Advising Conference and Registration for new baccalaureate students admitted for the First Summer Session, Second Summer Session or Fall Semester
August 24-30 – Wednesday through Tuesday - Late registration for any calendar changes that may have been approved after the publication of this Bulletin.
August 24 – Wednesday - First day of classes
August 29-30 – Wednesday through Thursday - Summer Advising Conferences for returning students who did not priority register and new applicants cleared late for admission. A late fee is assessed students who register during this time period.
August 30 – Tuesday - Last day to add a class for the 2011 Fall Semester
August 30 – Tuesday - Last day to officially withdraw from the University or reduce course load and receive an 80 percent refund
August 30 – Tuesday - Last day for students in the Employee Educational Program who registered and/or changed schedules after August 3 to submit EEP form to Human Resource Services to confirm 2011 Fall Semester registration and tuition waiver
September 5 – Monday - Labor Day – Academic Holiday
September 14 – Wednesday - Last day to drop a course without it appearing on the student’s transcript
September 14 – Wednesday - Last day to change grading option (pass/fail to letter grade or letter grade to pass/fail; credit to audit or audit to credit)
September 21 – Wednesday - Last day to officially withdraw from the University or reduce course load and receive a 50 percent refund
2011-2012 Calendar

September 22 – Thursday - Deadline for submission of application and all required documents to the Office of Undergraduate Admission and University Registrar for change of residency status for 2011 Fall Semester

October 3-November 23 – Monday through Wednesday - Students are prohibited from changing academic majors

October 6 – Thursday - Last day for doctoral candidates for a December degree to submit a Notification of Intent to schedule a final examination in The Graduate School

October 10-21 – Monday through Friday - Midterm grading window is open. The mid-term grading window will close at midnight on October 21.

October 15 – Saturday - Deadline for submission of application and all required documents to the Office of Admissions for undergraduate applicants planning to attend November Advising Conference (including registration for spring classes)

October 17 – Monday - Midterm of 2011 Fall Semester

October 31-November 22 – Monday through Tuesday - Priority registration for the 2012 Spring Semester

November 1 – Tuesday - Deadline for completed AMCAS application, College of Medicine, for the 2012 Fall Semester

November 4 – Friday - Last day to withdraw from the University or reduce course load. Students can withdraw or reduce course load after this date only for urgent non-academic reasons.

November 17 – Thursday - Last day for candidates for a December degree to schedule a final examination in The Graduate School

November 18 – Friday - 2012 Spring Semester Advising Conference for new and readmitted undergraduate students

November 23-26 – Wednesday through Saturday - Thanksgiving – Academic Holidays

November 30 – Wednesday-Last day for filing an application for a May 2012 undergraduate degree online in myUK

November 30-December 19 – Wednesday through Monday - Add/Drop for registered students for the 2012 Spring Semester

December 1 – Thursday - Deadline for submission of application and receipt of all materials for admission, readmission or transfer to the College of Law for the 2012 Spring Semester

December 1 – Thursday - Application deadline for undergraduate admission to the Spring 2012 term

December 1 – Thursday - Last day for candidates for a December graduate degree to sit for a final examination

December 5 – Monday - Deadline for applying for admission to the Graduate School for the 2012 Spring Semester

December 5-19 – Monday through Monday - Final grading window is open. The final deadline for submission of grades online in the grading portal is midnight, December 19.

December 7 – Wednesday - Last day for students in the Employee Educational Program registered through December 7 to submit EEP form to Human Resource Services to confirm 2012 Spring Semester registration and tuition waiver

December 9 – Friday - Last day of classes

December 12-16 – Monday through Friday - Final Examinations

December 16 – Friday - Last day for candidates for a December degree to submit a thesis/dissertation to The Graduate School

December 16 – Friday - End of 2011 Fall Semester

December 16 – Friday - December Commencement

These dates are under review and are subject to change.

2011-2012 Winter Intersession

October 15, 2011 – Saturday - Priority deadline for admission to the Winter Intersession

October 31-November 22, 2011 – Monday through Tuesday - Priority registration for the 2011-12 Winter Intersession

November 18, 2011 – Friday - Winter Intersession registration for newly-admitted students

December 16, 2011 – Friday - Deadline for admission to the Winter Intersession

December 16, 2011 – Friday - Last day a student may drop a course or cancel registration with the University Registrar for a full refund of fees

December 19, 2011 – Monday - First day of class

December 19, 2011 – Monday - Last day to add a class for the 2011-2012 Winter Intersession

December 19, 2011 – Monday - Last day to officially withdraw from the University or reduce course load and receive an 80 percent refund

December 23, 2011 – Friday - Last day to officially withdraw from the University or reduce course load and receive a 50 percent refund

December 23, 2011 – Friday - Last day to drop a course without it appearing on the student’s transcript

December 23, 2011 – Friday - Last day to change a grading option (pass/fail to letter grade or letter grade to pass/fail; credit to audit or audit to credit)

December 26-30, 2011 – Monday through Friday - Academic Holidays

January 4, 2012 – Wednesday - Last day to withdraw from the University or reduce course load. Students can withdraw or reduce course load after this date only for urgent non-academic reasons.

January 10, 2012 – Tuesday - Final Examinations

January 10, 2012 – Tuesday - End of 2011-2012 Winter Intersession

January 13, 2012 – Friday - Final deadline for submission of grades to the Registrar’s Office by 12 noon

2012 Spring Semester

February 15, 2011 – Tuesday - Priority filing deadline for the 2011-2012 academic year for financial aid for entering freshman

March 15, 2011 – Tuesday - Priority filing deadline for the 2011-2012 academic year for financial aid for continuing and transfer students

August 15, 2011 – Monday - Deadline for international applications to be submitted to The Graduate School for the 2012 Spring Semester

September 15, 2011 – Thursday - Deadline for applying with college deans for reinstatement after a second academic suspension for the 2012 Spring Semester

September 21, 2011-February 20, 2012 – Wednesday through Monday - Approved time period to apply online in myUK for a May 2012 degree from the Graduate School

October 1, 2011 – Saturday - Deadline for students to schedule an appointment for reinstatement in all colleges for the 2012 spring semester

October 15, 2011 – Saturday - Deadline for submission of application and all 2011 required documents to the Office of Admissions for undergraduate applicants planning to attend November Advising Conference (including registration for spring classes)

October 15, 2011 – Saturday - Deadline for undergraduate international applicants to submit 2012 Spring Semester application

November 18, 2011 – Friday - 2012 Spring Semester Advising Conference for new and readmitted undergraduate students

November 30, 2011 – Wednesday - Last day for filing an application for a May 2012 undergraduate degree online in myUK

November 30-December 19 – Wednesday through Monday - Add/Drop for registered students for the 2012 Spring Semester

December 1, 2011 – Saturday - Final deadline for submission of grades to the Graduate School for the 2012 Spring Semester

December 19, 2011 – Monday - Last day to officially withdraw from the University or reduce course load and receive a 50 percent refund

December 19, 2011 – Monday - Last day to add a class for the 2011-2012 Winter Intersession

December 23, 2011 – Friday - Last day to officially withdraw from the University or reduce course load and receive an 80 percent refund

December 23, 2011 – Friday - Last day to drop a course without it appearing on the student’s transcript

December 23, 2011 – Friday - Last day to change a grading option (pass/fail to letter grade or letter grade to pass/fail; credit to audit or audit to credit)

December 26-30, 2011 – Monday through Friday - Academic Holidays

January 4, 2012 – Wednesday - Last day to withdraw from the University or reduce course load. Students can withdraw or reduce course load after this date only for urgent non-academic reasons.

January 10, 2012 – Tuesday - Final Examinations

January 10, 2012 – Tuesday - End of 2011-2012 Winter Intersession

January 13, 2012 – Friday - Final deadline for submission of grades to the Registrar’s Office by 12 noon

2012 Spring Semester

February 15, 2011 – Tuesday - Priority filing deadline for the 2011-2012 academic year for financial aid for entering freshman

March 15, 2011 – Tuesday - Priority filing deadline for the 2011-2012 academic year for financial aid for continuing and transfer students

August 15, 2011 – Monday - Deadline for international applications to be submitted to The Graduate School for the 2012 Spring Semester

September 15, 2011 – Thursday - Deadline for applying with college deans for reinstatement after a second academic suspension for the 2012 Spring Semester

September 21, 2011-February 20, 2012 – Wednesday through Monday - Approved time period to apply online in myUK for a May 2012 degree from the Graduate School

</table>
May 9 – Wednesday - Last day for students in the Employee Educational Program to submit EEP form to Human Resource Services for tuition waiver for the 2012 First summer session

May 14 – Monday - Last day to drop a course without it appearing on the student’s transcript

May 14 – Monday - Last day to change grading option (pass/fail to letter grade or letter grade to pass/fail; credit to audit or audit to credit

May 15 – Tuesday - Last day to officially withdraw from the University or reduce course load and receive a 50 percent refund

May 16-June 6 – Wednesday through Wednesday – Second summer session registration and add/drop for students who entered the University in the 2012 first summer session

May 21 – Monday - Midterm of 2012 Four-Week Intersession

May 22 – Tuesday - Payment deadline of registration fees and/or housing and dining fees – if total amount due is not paid as indicated on the account statement, a late payment fee of 1.25 percent of the amount past due will be assessed

May 23 – Wednesday - Last day to withdraw from the University or reduce course load. Students can withdraw or reduce course load after this date only for “urgent non-academic reasons.”

May 28 – Monday - Memorial Day – Academic Holiday

May 28-June 8 – Monday through Friday - Final grading window is open. The final deadline for submission of grades online in the grading portal is midnight, June 8.

May 30 – Wednesday - Last day for doctoral candidates for an August degree to submit a Notification of Intent to schedule a final examination in The Graduate School

June 5 – Tuesday - Final Examinations

June 5 – Tuesday - End of 2012 Four-Week Intersession

June 6 – Wednesday - Deadline for submission of application and all required documents to the Office of Undergraduate Admission and University Registrar for change of residency status for the Four-Week and the Eight-Week Summer Sessions.

*These dates are under review and are subject to change.

2012 Eight-Week – Second Summer Session

February 28 – Tuesday - Last day for filing an application for an August 2012 undergraduate degree online in myUK

March 15 – Thursday - Priority filing deadline for financial aid for the Four-Week and/or the Eight-Week Summer term(s)

May 1-June 7 – Tuesday through Thursday - Eight-Week Summer Session registration and add/drop continue for students enrolled in the 2012 Spring Semester

May 7 – Monday - Deadline for applying for admission to the Graduate School for the 2012 Eight-Week Summer Session

May 15 – Tuesday - Final deadline for submission of application and all required documents to the Office of Admissions for undergraduate admission for the 2012 Eight-Week Summer Session

May 16-30 – Wednesday through Wednesday – Eight-Week registration and add/drop for students who entered the University in the 2012 Four-Week Intersession

May 30 – Wednesday - Last day for doctoral candidates for an August degree to submit a Notification of Intent to schedule a final examination in The Graduate School

June 5-6 – Tuesday and Wednesday – Registration for new graduate students

June 6 – Wednesday - Advising Conference and Registration for new and readmitted students including registration for Evening and Weekend

June 6 – Wednesday - Deadline for submission of application and all required documents to the Office of Undergraduate Admission and University Registrar for change of residency status for the Eight-Week Summer Session

June 7 – Thursday - Last day a student may officially drop a course or cancel registration with the University Registrar for a full refund of fees

June 7 – Thursday - First day of classes

June 7-8 – Thursday through Friday - Late registration for returning students not already registered and new applicants cleared late for admission. A late fee is assessed students who register late.

June 8 – Friday - Last day to enter an organized class for the 2012 Eight-Week Summer Session

June 8 – Friday - Last day to officially withdraw from the University or reduce course load and receive an 80 percent refund

June 8 – Friday - Last day for students in the Employee Educational Program to submit EEP form to Human Resource Services for tuition waiver for the 2012 Eight-Week Summer Session

June 15 – Friday - Deadline for international applications to be submitted to The Graduate School for the 2012 Spring Semester

June 18 – Monday - Last day to drop a course without it appearing on the student’s transcript

June 18 – Monday - Last day to change grading option (pass/fail to letter grade or letter grade to pass/fail; credit to audit or audit to credit

June 18-July 20 – Monday-Friday - Summer Advising Conferences for new freshmen, Community College transfers, advanced standing (transfer) students, auditors, non-degree and readmitted students enrolling for the 2012 Fall Semester

June 21 – Thursday - Last day to officially withdraw from the University or reduce course load and receive a 50 percent refund

June 22 – Friday - Payment deadline of registration fees and/or housing and dining fees – if total amount due is not paid as indicated on the account statement, a late payment fee of 1.25 percent of the amount past due will be assessed

June 30 – Saturday - End of College of Pharmacy 15-Week Summer Term

Fall 2011

August 22 – Monday - Payment deadline of registration fees and/or housing and dining fees – if total amount due is not paid as indicated on the account statement late payment fee of 1.25 percent of the amount past due will be assessed.
August 23 – Tuesday - Class work begins
August 23 – Tuesday - Add/Drop
August 23 – Tuesday - Last day a student may officially drop a course or cancel registration with the University Registrar for a full refund of fees
August 24 – Wednesday - Add/Drop
August 30 – Tuesday - Last day to add a class for the 2011 fall semester
August 30 – Tuesday - Last day to officially withdraw from the University or reduce course load and receive an 80 percent refund
September 5 – Monday - Labor Day – Academic Holiday
September 6 – Tuesday - Monday Classes Meet
September 14 – Wednesday - Last day to change grading option (credit to audit or audit to credit)
September 14 – Wednesday - Last day to drop a course without it appearing on student’s transcript
September 21 – Wednesday - Last day to officially withdraw from the University or reduce course schedule and receive a 50 percent refund
September 22 – Thursday - Last day to file an application for a December degree
September 22 – Thursday - Deadline to apply for Kentucky residency for this semester
October 11 – Tuesday - Last day to withdraw from a course – Students may withdraw after this date only upon petition to the Dean’s office specifying “reasons relating to extended illness or equivalent distress.”
October 31-November 22 – Monday through Tuesday - Priority Registration for the 2012 Spring Semester
November 23-26 – Wednesday through Saturday - Thanksgiving Holidays – Academic Holidays
December 2 – Friday - End of class work
December 3-5 – Saturday through Monday - Law Examination Reading Period
December 6-17 – Tuesday through Saturday - Law Final Examination Period
December 17 – Saturday - End of 2011 Fall Semester

Spring 2012

January 9 – Monday - Add/Drop
January 9 – Monday - Class work begins
January 10 – Tuesday - Add/Drop
January 10 – Tuesday - Last day a student may officially drop a course or cancel registration with the University Registrar for a full refund of fees
January 16 – Monday - Martin Luther King Birthday – Academic Holiday
January 18 – Wednesday - Last day to add a class for the 2012 Spring Semester
January 22 – Sunday - Payment deadline of registration fees and/or housing and dining fees – if total amount due is not paid as indicated on the account statement, a late payment fee of 1.25 percent of the amount past due will be assessed
February 1 – Wednesday - Last day to change grading option (credit to audit or audit to credit)
February 1 – Wednesday - Last day to drop a course without it appearing on student’s transcript
February 8 – Wednesday - Last day to officially withdraw from the University or reduce course schedule and receive a 50 percent refund
February 9 – Thursday - Last day to file an application for a May degree
February 9 – Thursday - Deadline to apply for Kentucky residency for this semester
February 24 – Friday – Last day to withdraw from a course – Students may withdraw after this date only upon petition to the Dean’s office specifying “reasons relating to extended illness or equivalent distress.”
March 1 – Thursday - Last day for submission of application for admission for 2012 Fall Semester
March 12-17 – Monday through Saturday - Spring Vacation – Academic Holidays
March 26-April 17 – Monday through Tuesday - Priority Registration for the 2012 Summer Session and 2012 Fall Semester
April 20 – Friday - End of class work
April 21-23 – Saturday through Monday - Law Examination Reading Period
April 24-May 5 – Tuesday through Saturday - Law Final Examination Period
May 4 – Friday - Law Commencement
May 5 – Saturday - End of 2012 Spring Semester

Summer 2012

June 7 – Thursday - Class work begins
June 7 – Thursday - Last day a student may officially drop a course or cancel registration with the University Registrar for a full refund of fees
June 8 – Friday - Last day to officially withdraw from the University or reduce course load and receive an 80 percent refund
June 8 – Friday - Last day to enter an organized class for the 2012 eight week summer session
June 18 – Monday - Last day to change grading option (credit to audit or audit to credit)
June 18 – Monday - Last day to drop a course without it appearing on student’s transcript
June 21 – Thursday - Last day to officially withdraw from the University or reduce course schedule and receive a 50 percent refund
June 22 – Friday - Last day to file an application for an August degree
July 4 – Wednesday - Independence Day – Academic Holiday
July 5 – Tuesday - Last day to withdraw from a course – Students may withdraw after this date only upon petition to the Dean’s office specifying “reasons relating to extended illness or equivalent distress.”
July 27 – Friday - End of class work
July 28-29 – Saturday-Sunday Law - Examination Reading Period
July 30-August 2 – Monday through Thursday - Law Final Examination Period
August 2 – Thursday - End of 2012 Summer Session

College of Medicine

Academic Calendar

Fall 2011

July 28-29 – Thursday-Friday - Third-year general orientation
August 1 – Monday - Fourth-year rotations begin
August 1 – Monday - Last day for fourth-year students to withdraw from the College of Medicine for a full refund of tuition and fees
August 1 – Monday - First-year orientation begins
August 1 – Monday - Last day for first-year students to withdraw from the College of Medicine for a full refund of tuition and fees
August 1 – Monday - Third-year students begin rotations
August 1 – Monday - Last day for third-year students to withdraw from the College of Medicine for a full refund of tuition and fees
August 8 – Monday - Last day for first, third, and fourth-year students to withdraw from the College of Medicine and receive an 80 percent refund
August 8 – Second-year students begin classes
August 8 – Monday - Last day for second-year students to withdraw from the College of Medicine and receive an 80 percent refund

College of Law

Academic Calendar
August 22 – Monday - Tuition deadline for all students
September 5 – Monday - First and second-year students – Labor Day Holiday
September 21 – Wednesday - Last day to withdraw from the College of Medicine and receive a 50 percent refund
November 1 – Last day for candidates applying to the College of Medicine to submit their application to AMCAS
November 23-27 – Wednesday-Sunday - First and second-year students – Thanksgiving Holiday
December 17 – Saturday - Winter Break begins

Spring 2012
January 3 – Tuesday - All students register and return to class
January 3 – Tuesday - Last day to withdraw from the College of Medicine and receive a full refund
January 9 – Monday - Last day to withdraw from the College of Medicine and receive an 80 percent refund
January 15 – Last day for candidates applying to the College of Medicine to submit their supplemental application materials
January 16 – Monday - First and second year students – Martin Luther King Jr.’s Birthday Holiday
January 22 – Sunday - Tuition deadline for all students
February 8 – Wednesday - Last day to withdraw from the College of Medicine and receive a 50 percent refund
February 27-March 2 – Monday-Friday - Spring Break for first-year students
March 12-16 – Monday-Friday - Spring Break for second-year students
April 26-27 – Thursday-Friday - Mini Break for first-year students
May 4 – Friday - End of academic year for second-year students
May 11 – Friday - End of academic year for fourth-year students
May 12 – Saturday - College of Medicine Graduation
May 28 – Monday - Memorial Day Holiday for first-year students
June 29 – Friday - End of academic year for first-year students
June 30 – Monday - Special graduation date
July 13 – Friday - End of academic year for third-year students
July 14, 16-20, 23-25 – CPX Exam

College of Dentistry Academic Calendar

DMD, Orofacial Pain, Orthodontics, Pediatric Dentistry, and Periodontics Programs

Fall 2011
June 13 – Monday - Academic Year Begins for 4th Year DMD Students (Externship)
July 1 – Friday - Pediatric Dentistry Residency Begins for New 1st Years and 1st Years Promoted to 2nd Year
July 4 – Monday - Independence Day – Academic Holiday
July 5 – Tuesday - Academic Year Begins for Orofacial Pain and 1st Year Periodontics Students
July 25 – Monday - Academic Year Begins for 2nd and 3rd Year Periodontics Students
August 1 – Monday - Academic Year Begins for 1st, 2nd, and 3rd Year DMD Students
August 1 – Monday - Academic Year Begins for 1st Year Orthodontics Students, 1st Years Promoted to 2nd Year, 2nd Years Promoted to 3rd Year
August 1 – Monday - Last day a 1st, 2nd, and 3rd Year DMD Student can officially withdraw from the College of Dentistry for a full refund for the current term

August 8 – Monday - Clinical Year Begins for 4th Year DMD Students
August 8 – Monday - Last day a 4th Year DMD student can officially withdraw from the College of Dentistry for a full refund for the current term
August 8 – Monday - Last day a 1st, 2nd, and 3rd Year DMD Student can officially withdraw from the College of Dentistry and receive an 80 percent refund for the current term
August 15 – Monday - Last day a 4th Year DMD student can officially withdraw from the College of Dentistry and receive an 80 percent refund for the current term
August 29 – Monday - Last day a 1st, 2nd, and 3rd Year DMD student can officially withdraw from the College of Dentistry and receive a 50 percent refund for the current term
September 5 – Monday - Labor Day – Academic Holiday
September 6 – Tuesday - Last day a 4th Year DMD student can officially withdraw from the College of Dentistry and receive a 50 percent refund for the current term
November 24, 25 – Thursday & Friday - Thanksgiving Holidays – Academic Holidays
December 16 – Friday - Winter Break Begins After Last Class or Clinic for DMD, Orthodontics, and Periodontics Students
December 19-30 – Winter Break Begins for 2nd Year Pediatric Dentistry Residents
December 23 – Friday - Winter Break Begins After Last Class or Clinic for Orofacial Pain Students
December – 1st Year Pediatric Dentistry Residents May Use Bonus Days for Winter Break if Clinic Is Covered Adequately

Spring 2012
January 3 – Tuesday - Classes/Clinics Resume for All Students/Residents: DMD, Orofacial Pain, Orthodontic, Pediatric Dentistry and Periodontics Programs
January 3 – Tuesday - Last day a DMD student can officially withdraw from the College of Dentistry and receive full refund for the current term
January 10 – Last day a DMD student can officially withdraw from the College of Dentistry and receive an 80 percent refund for the current term
January 16 – Monday - Martin Luther King, Jr. Birthday Observed – Academic Holiday
February 1 – Wednesday - Last day a DMD student can officially withdraw from the College of Dentistry and receive a 50 percent refund for the current term
April 2-6 – Spring Break for DMD, Orthodontics and Periodontics Students
April 25-27 – Spring Break for Orofacial Pain Students (National Conference)
May 4 – Friday - Academic Year Ends for Graduating DMD Students
May 6 – Sunday - University Commencement
College of Dentistry Hooding Ceremony
May 25 – Friday - Academic Year Ends for 3rd Year Graduating Orthodontics Students
May 28 – Monday - Memorial Day – Academic Holiday
June 8 – Friday - Academic Year Ends for 3rd Year DMD Students
June 15 – Friday - Academic Year Ends for 2nd Year DMD Students
June 25-July 6 – Summer Break for 1st and 2nd Year Orthodontics Students
June 29 – Friday - Academic Year Ends for 1st Year DMD, Orofacial Pain and 1st, 2nd, and 3rd Year Periodontics Students
June 30 – Saturday - Last Day of Residency for 2nd Year Pediatric Dentistry Residents
July 2-20 – Summer Break for 2nd and 3rd Year Periodontics Students
A Message from President Eli Capilouto

In 1997, the Kentucky General Assembly charged the University of Kentucky with a mandate to become a Top 20 public research university. It was the correct course of action then and remains the correct course of action today. States with Top 20 research institutions have healthier citizens, a highly education workforce, lower crime rates, and lower Medicaid costs than the national average. In order to maximize the benefit of our noble pursuit, we must balance our mandate with a commitment to our land-grant mission and the people of Kentucky.

UK Healthcare has reached a phenomenal capacity to serve the Commonwealth through our state-of-the-art patient care pavilion and emergency room, advanced biomedical and biological research, and a network of affiliate healthcare agencies throughout Kentucky. UK Healthcare’s passion for people and our vision for a medical campus of the future have inspired leading physicians and researchers from across the United States to join us in our effort. Since their arrival, they have balanced a research agenda with outreach trips to our affiliate hospitals so Kentucky families can receive quality healthcare at home and travel to Lexington only for advanced, life-saving medical procedures.

Our outreach and service extend beyond our healthcare enterprise. The UK School of Music’s Opera Program and Symphony travel across Kentucky performing at middle and high schools. Secondary students in rural communities do not have the same exposure to the arts as those living in metropolitan areas. More often than not, our outreach program is the only access a student has to any arts program, let alone one of nationally renowned caliber.

The Martin School of Public Policy and Administration, recently ranked a top Ph.D. program in Public Administration by the National Research Council, is helping the state maximize its research capacity. Faculty from the Martin School have engaged in a series of presentations regarding Kentucky tax revenue policies and expenditure habits with state policy makers in the Legislative Research Commission and the State Budget Office. The series has been a mutually beneficial dialogue as Martin School’s expertise aids Kentucky in addressing many of the new realities states face in the changing economy.

Over the last several years, the UK College of Design has become a major resource for communities looking to redevelop areas in creative ways to address the economic challenges they face. The Kentucky River Cities project grew from a single project in Henderson to include one in Paducah and one in Louisville. Design students are working closely with local leaders to address ways they can repurpose defunct infrastructure.

Closer to home, UK’s Office of Commercialization and Economic Development assists faculty and staff researchers as they move their ideas and designs through the business modeling process and into burgeoning small businesses. Recently, the Lexington Venture Club assessed the success rate of a number of start-up companies benefiting from angel investment funds and venture capital. Eighty-eight early-stage companies that participated in the survey (39 of which were UK affiliated) successfully leveraged $64 million in capital into $94 million in high-tech entrepreneurial revenue for Lexington and the Bluegrass Region.

We are blessed with a strong faculty core who support over 200 academic programs spread across 16 colleges and professional schools. While we relish in a wide variety of curricular opportunities, UK offers exciting extra-curricular activities that complement what our students learn inside the classroom and encourage them to actively participate in the broader Lexington community.

The University of Kentucky emphasizes our outreach and service mission while balancing the preparation of a future generation for a world that never stops evolving. I encourage you to take a closer look at all UK has to offer.

Sincerely,
Eli Capilouto

President
The University of Kentucky – 
A Place to Dream and Succeed

The innovation, creativity, quality teaching, and service under way at the University of Kentucky touch the lives of people throughout the state, the nation, and the world.

UK accomplishes this achievement through groundbreaking research, community outreach, and technological advances that contribute to the betterment of the Commonwealth while also fostering a cultural quality of life through our museums, libraries, and special events.

Founded in 1865 as a land-grant institution adjacent to downtown Lexington, UK is nestled in the scenic heart of the beautiful Bluegrass Region of Kentucky. From its early beginnings, with only 190 students and 10 professors, UK’s campus now covers more than 716 acres and is home to 28,000 students and 13,500 employees.

UK is one of only seven universities in the U.S. that has programs in agriculture, engineering, medicine, and pharmacy on a single campus, leading to groundbreaking discoveries and unique interdisciplinary collaboration. The state’s flagship university consists of 16 academic and professional colleges where students can choose from some 200 majors and degree programs. The colleges are Agriculture, Arts and Sciences, Business and Economics, Communications and Information Studies, Dentistry, Design, Education, Engineering, Fine Arts, Health Sciences, Law, Medicine, Nursing, Pharmacy, Public Health, and Social Work.

The student body is diverse, representing 115 countries, every state in the nation, and every Kentucky county. The University continues to attract the best and brightest from Kentucky and beyond. The average ACT score for first-year students is four points above the national average. UK students compete successfully for prestigious scholarships and awards, such as the Fulbright, Truman, Goldwater, Marshall, Udall and Gates. UK had its 13th Truman Scholar named in 2008, and has had two Gates Cambridge Scholars in the past three years (Andrew Lynch of Whitley County, Kentucky – 2008; and Lesley Mann of McLean County, Kentucky – 2010).

Since 1997, the University has pursued an ambitious mandate of becoming a Top 20 public research university while balancing its important mission as a land-grant institution by serving the people of Kentucky. UK President Eli Capilouto has embraced this goal in a way that promises an impact on every Kentucky resident.

“The University of Kentucky has a diverse set of campus resources centered in Lexington. Our wide array of programs allows us to excel in interdisciplinary studies and fosters an environment of cooperative engagement across all colleges, programs, and research endeavors,” Capilouto says. “We do a great disservice to the people of Kentucky if we dream too little dreams. We need to leverage our resource base to move Kentucky forward into a knowledge-based economy. The University of Kentucky, as the Commonwealth’s flagship institution, is called to improve the general welfare of our citizenry, and we are uniquely positioned to make that future a reality for the people of Kentucky.”

UK boasts over 80 national rankings for academic excellence. U.S. News & World Report ranked several of UK’s graduate programs among the nation’s best. The Martin School of Public Policy and Administration is ranked 4th in the category of public finance and budgeting and the College of Pharmacy is ranked 5th. The College of Medicine’s Family Medicine program is 17th and its Rural Health program is 18th. The Institute for the Theory and Practice of International Relations named the Patterson School of Diplomacy and International Commerce the 16th strongest master’s degree program in the nation.
programs in international affairs in the world. The College of Health Sciences’ Physician Assistant program was ranked 25th and its Physical Therapy graduate program is ranked 35th; the College of Social Work’s master’s program is 36th; and the College of Law is ranked among the top 50 public institutions. In addition, a study published in the Southern Economic Journal ranks the Gatton College of Business and Economics’ Department of Economics 19th among public institutions in the U.S. U.S. News & World Report ranked the College of Engineering’s undergraduate program 51st among the nation’s public schools that offer a doctorate in engineering.

In 2007, the University of Kentucky became the nation’s first university to raise a billion dollars in its first-ever capital campaign. Reaching its fundraising goal a full nine months ahead of schedule, UK became the 31st American university – both public and private – that successfully completed campaigns of $1 billion-plus. Following the campaign, the University initiated a campus-wide review of all college, UK Healthcare, athletics and special program development efforts. The review is leading to significant changes in areas of staff performance and metrics, predictive modeling of donor prospects, new recognition and endowment levels, and strategies to create a culture of philanthropy among faculty, staff, alumni, friends, and students. As a result, UK is at its highest level of fund-raising success. Total dollars are up over 20 percent and number of donors by 12 percent as we near the end of the first fiscal year after the review.

With its well-manicured landscape and landmark buildings, UK’s campus also offers great facilities that advance the scholarship of its students and the research endeavors of its faculty. At the heart of the campus is the iconic William T. Young Library, the most visible of the more than one dozen facilities that comprise UK Libraries. The stately architecture features a 93-foot-tall rotunda and a dramatic five-floor atrium allowing natural light to pour in from skylights. With the largest book endowment of all public universities in the U.S., UK Libraries is among the world’s leading research libraries. Its broad scope of advanced technology offers students, faculty, staff, and Kentucky residents special access to current information online in addition to printed resources.

Research at the University of Kentucky is a dynamic enterprise encompassing both traditional scholarship and emerging technologies, and UK’s research faculty, staff, and students are establishing UK as one of the nation’s most prolific public research universities. UK research expenditures were nearly $368 million last year. During last fiscal year, research grants and contracts from out-of-state sources resulted in a nearly $350 million contribution to the state’s economy, accounting for more than 8,800 jobs and $182.9 million in personal income.

With more than 50 research centers and institutes, UK researchers are discovering new knowledge, providing a rich training ground for current students (the next generation of Kentucky researchers), and advancing the economic growth of the Commonwealth of Kentucky. Several centers excel in the services offered to the public. The Gluck Equine Research Center is one of only three facilities of its kind in the world, conducting research into diseases of the horse. And the Center for Applied Energy Research conducts groundbreaking research across the energy disciplines.

Because UK is one of the few universities in the country with a research and teaching campus and a medical center in one central location, multidisciplinary research is particularly strong. The Advanced Science and Technology Commercialization Center (ASTeCC) in the heart of campus provides lab space for faculty who represent a variety of colleges and departments and is a hub for multidisciplinary research collaboration and commercialization. UK researchers engage in projects with professors at other public and private institutions across Kentucky, in other states, and abroad.

The UK Chandler Medical Center was established in 1957 and is one of the nation’s finest academic medical centers. The faculty, students, and staff of our dynamic Medical Center take pride in achieving excellence in education, patient care, research, and community service. The 473-bed UK Chandler Hospital and Kentucky Children’s Hospital are supported by a growing faculty and staff. The University recently completed construction of a new $532 million patient care pavilion at UK Chandler Hospital, which serves as a cornerstone for the Commonwealth’s Medical Campus of the Future. UK Healthcare serves a unique role in the Commonwealth, as the only Level 1 Trauma Center in Central and Eastern Kentucky. While our new patient care pavilion is the leading healthcare facility for advanced medical procedures in the region, our talented physicians consult with and travel to our network of affiliate hospitals so Kentucky citizens can receive the best healthcare available at home. UK Chandler Hospital and Kentucky Children’s Hospital care for the most critically injured and ill patients in this half of Kentucky.

UK has demonstrated its commitment to partnerships with business and other institutions of higher learning. In Lexington, UK is shaping a better relationship with the community by becoming more active in life throughout the city, especially downtown.

But UK contributes far beyond the borders of Fayette County. UK researchers are dedicated to conducting the type of research that will make an impact on Kentucky families. UK is working to help alleviate some of the nagging issues that have held Kentucky back through its Commonwealth Collaboratives initiative. This effort provides incentives to senior researchers to focus their time and talent on solving some of Kentucky’s most pressing problems. UK faculty and researchers are leading efforts to improve educational, social, and economic conditions in all 120 Kentucky counties.

UK’s agenda aims to accelerate the University’s movement toward academic excellence in all areas and gain worldwide recognition for its outstanding academic programs, its commitment to undergraduates, its success in building a diverse community, and its engagement with the larger society. It’s all part of the University’s strategy to help position Kentucky as a leader in American prosperity.
UK’s Distinguished Alumni

2010 Hall of Distinguished Alumni Honors

The UK Alumni Association Hall of Distinguished Alumni was established in 1965 in celebration of the University’s centennial year. Every five years the UK Alumni Association recognizes a select group of outstanding alumni and honors them with induction into the Hall of Distinguished Alumni. This honor acknowledges UK alumni who deserve recognition for personal and professional endeavors and community leadership. For a complete list of past Hall of Distinguished Alumni recipients and a nomination form for 2015, visit: www.ukalumni.net/hoda.

The 2010 inductees are:

Mira L. Ball, ’56 – Education
Virginia M. Bell, ’82 – Social Work
Deane B. Blazie, ’68 – Engineering
John H. Campbell, ’69, ’71 – Business and Economics
Joseph W. Craft III, ’72 – Business and Economics; ’76 – Law
Mark E. Davis, ’77, ’78, ’81 – Engineering
John W. Egerton, ’58, ’61 – Arts and Sciences
Mark E. Hay, ’74 – Arts and Sciences
Susan Jackson Keig, ’40 – Fine Arts
Paul E. Patton, ’59 – Engineering

Barbara L. Rice, ’62 – Agriculture/Home Economics
Sharon Porter Robinson, ’66 – Arts and Sciences; ’76, ’79 – Education
James E. Rogers Jr., ’70 – Business and Economics; ’74 – Law
Wimberly C. Royster, ’48, ’52 – Arts and Sciences
Vivian Carol Shipley, ’64 – Communications and Information Studies; ’67 – Arts and Sciences
Elizabeth R. Smith Jr. (deceased), ’48 – Arts and Sciences; ’50 – Law
Reese S. Terry Jr., ’64, ’66 – Engineering
Harriet Drury Van Meter (deceased), ’56, ’62 – Arts and Sciences

ADMISSION PHILOSOPHY

The Office of Undergraduate Admission and University Registrar supports the mission of the University of Kentucky. Consistent with the University’s mission of research, service and teaching, the university seeks to enroll and retain an academically talented student body that enriches the learning community and is representative of the diverse society it serves. The following admission policies reflect this philosophy.

GENERAL INFORMATION

The Director of Undergraduate Admission and University Registrar authorizes the admission of all undergraduate students to the University. Students should direct all admissions inquiries to:

Office of Undergraduate Admission
and University Registrar
100 W. D. Funkhouser Building
University of Kentucky
Lexington, KY 40506-0054
(859) 257-2000
www.applyuk.com

Undergraduates at UK enroll in one of twelve colleges. Each college is supervised by an academic dean and is usually made up of several academic departments that offer different major fields of study.

The general University admission requirements and procedures for freshmen and transfer students are outlined below. All applicants should be aware that certain colleges and some programs within colleges have additional admission standards and criteria beyond those for general University admission. Refer to Special Application Dates and Procedures on page 20 for information on deadlines and procedures for particular colleges and programs. Detailed information on admission criteria is provided in the college sections of this Bulletin.

The University of Kentucky provides educational opportunities to all qualified students regardless of economic or social status. The University does not discriminate on the basis of race, color, religion, sex, marital status, beliefs, age, national origin, sexual orientation, or physical or mental disability.

FRESHMAN ADMISSION TO THE UNIVERSITY

The University of Kentucky subscribes to a selective admission policy. Admission for freshman applicants is based on: a) high school grades; b) national college admission test results; and c) successful completion of the required pre-college curriculum. Applicants may submit official scores from either the ACT Assessment or the SAT I: Reasoning Test. Official test scores must be sent directly from ACT or SAT testing headquarters.

MINIMUM ELIGIBILITY REQUIREMENT – All students who have completed the pre-college curriculum (see below) as prescribed by the Council on Postsecondary Education and have a 2.0 high school grade-point average are encouraged to apply to the freshman class at UK. Enrollment in the freshman class is limited. Within the limits of space availability, the Office of Undergraduate Admission and University Registrar will endeavor to accommodate all eligible applicants. However, the number of freshman applications far exceeds the number of spaces available in the entering class. For this reason, the selective and competitive admission requirements often exceed the minimum eligibility requirement.

SELECTIVE ADMISSION – Selective admission criteria are established by faculty committee. Freshman applicants who have completed the pre-college curriculum and present grade-point averages and official test scores from either the ACT or SAT meeting the selective criteria are offered admission.

DEFERRED DECISIONS – Freshman applicants who have completed the pre-college curriculum, but do not have the requisite grade-point average, test scores or both for selective admission, may have their admission decisions deferred. A portion of the freshman class may be admitted from this group of applicants. If, after the application deadline, spaces in the class remain to be filled, admission will be offered to deferred-decision applicants on a competitive basis. Admission will be offered first to those applicants with the strongest records and offers will continue until the class is filled.

Strength of record is a relative term and refers to an applicant’s record in comparison with those of all other freshman applicants. Strength of record may be determined by a number of different factors beyond selective admission criteria. While grades and test scores are important in this assessment, course selection, senior year schedule, honors and Advanced Placement courses, extracurricular and leadership activities and a student’s potential to benefit from or contribute to the learning community may also be considered. The overriding concern will always be for the student’s potential to be successful in meeting the academic expectations at the University.

Important Admission Deadlines*

February 15 Freshman application deadline for fall term. Freshman applicants who apply by this date are given full consideration for admission and Advising Conferences. Applications received after this date will be considered on a space-available basis.

May 1 Summer Advising Conference deadline. All prospective students planning to attend a Summer Advising Conference (including registration for fall classes) should have transcripts and other required documents submitted to the Office of Undergraduate Admission. Students must also confirm their advising conference date by May 1.

August 1 Credentials deadline for undergraduates entering in the fall term. For freshmen, this usually means a final high school transcript. For transfer students, final college transcripts are due. Failure to meet this deadline may result in a registration hold on the student’s record.

All applicants should be aware that some programs have application procedures and deadlines which differ from those for general University admission. Applicants should refer to Special Application Dates and Procedures at the end of this section for information on deadlines and procedures for selective admissions colleges and programs.

*International students – see page 17.
Pre-College Curriculum
Incoming freshman should have the high school preparation necessary for academic success at the college level. To be eligible for consideration at UK under the policy outlined above, an applicant must have successfully completed the following high school courses as a minimum:

**English/Language Arts – 4 credits**
- English I, II, III, IV

**Mathematics – 3 credits**
- Algebra I, Algebra II and Geometry (or more rigorous courses in mathematics)

**Science – 3 credits**
- Biology I, Chemistry I, Physics I or life science, physical science, and earth/space science (at least one lab course)

**Social Studies – 3 credits**
- From U.S. History, Economics, Government, World Geography and World Civilization (or comparable courses)

**Foreign Language – 2 credits**
- Two credits in the same foreign language or demonstrated competency

**Health – 1/2 credit**

**Physical Education – 1/2 credit**

**History and Appreciation of Visual, Performing Arts – 1 credit**
- History and appreciation of visual and performing arts or another arts course that incorporates such content

**Electives – 7 credits**
- Recommended strongly: one or more courses that develop computer literacy

Additionally, high school students are encouraged to complete at least one year of mathematics beyond Algebra II.

A total of 24 credits or more must be completed in high school.

Applicants should contact the Office of Undergraduate Admission and University Registrar for information concerning exceptions to this policy.

Special Admission Colleges and Programs
Some colleges and programs within colleges at UK have admission standards and criteria that are higher than those for general admission to the University. Also, some programs have deadlines and application procedures that differ from those for general University admission. Refer to Special Application Dates and Procedures on page 20 for information on procedures and deadlines for special admission programs. Detailed information on admission criteria is provided in the college sections of this Bulletin.

Matriculation Into a Degree-Granting College
All undergraduate degrees are conferred by the college offering the program of study (major). Upon admission to the University of Kentucky, all students will be enrolled either in a specific college or as undeclared students in Undergraduate Studies. With the help of academic advisors, students in Undergraduate Studies will work to select a major and gain access to one of the University’s colleges.

APPLICATION PROCEDURES FOR FRESHMEN
Prospective freshmen are strongly encouraged to submit applications to the Office of Undergraduate Admission and University Registrar early in their senior year. While the deadline for application is February 15, early application can have a positive impact on housing, financial aid, institution-administered merit-based scholarships, privately funded scholarships and other ancillary areas. All freshman applicants should submit the following:

1. the application form for undergraduate admission;
2. a non-refundable application processing fee;
3. official high school transcript; and
4. official test scores from either the American College Test (ACT) or the SAT I: Reasoning Test. “Official” scores are reported directly from the testing agency to the Office of Undergraduate Admission and University Registrar. Test scores appearing on the high school transcript are not considered “official” reports.

High school students are strongly encouraged to take the ACT or SAT I late in their junior year and again early in their senior year. When registering for the test, please request scores to be sent to UK. It is a mistake to withhold test scores as this can cause added expense and possible delay in the processing of the application. Please request scores from all test administrations so that the Office of Undergraduate Admission and University Registrar can work with the complete test history. High school guidance counselors can provide students with registration forms, information about registration deadlines, test dates and locations.

High School Students with Exceptional Ability
Through UK’s Exceptional Ability program, highly motivated students can enroll in classes at UK before they graduate from high school. Exceptional high school students may be offered admission to UK after a thorough evaluation of their academic record. Students seeking such consideration must submit an application form, official scores from the ACT Assessment or SAT I: Reasoning Test, an official high school transcript and a letter from their high school principal or guidance counselor stating the benefit to the student of entering college prior to high school completion.

High School Equivalency Certificates
The University considers admission from freshman applicants who are not high school graduates but who present a valid High School Equivalency Certificate and General Education Development test scores. Applicants must also take the ACT Assessment (or SAT I: Reasoning Test) and have the results sent directly to the Office of Undergraduate Admission and University Registrar from the testing agency.

TRANSFER ADMISSION TO THE UNIVERSITY
Students at other colleges or universities, including community colleges, are eligible to transfer to UK if they:

1. would have been selectively admitted to UK when they entered the first institution attended provided they have a cumulative grade-point average of 2.0 or better for all college-level work attempted. Applicants must also have a cumulative grade-point average of 2.0 or better for all college-level work attempted at the last institution attended, provided at least 12 credit hours (or the equivalent thereof) was attempted there.

or

2. would not have been selectively admitted to UK but have completed 24 semester hours or more and achieved a cumulative grade-point average of 2.0 or better for all college and university work attempted. Applicants must also have a cumulative grade-point average of 2.0 or better for all work attempted at the last institution attended.

Please note that grade-point averages are computed by the Office of Undergraduate Admission and University Registrar and reflect the grade and credit for each course attempted, regardless of the practice of the offering institution of waiving the low grade for a repeated course.
Undergraduate Admission

Refer to the University Calendar on page 4 for general University admission deadlines.

Special Admission Colleges and Programs
Some colleges and programs within colleges at UK have additional admission standards and criteria beyond those for general admission to the University. Also, some programs have deadlines and application procedures that differ from those for general University admission. Refer to Special Application Dates and Procedures on page 20 for information on procedures and deadlines for special admission programs. Detailed information on admission criteria is provided in the college sections of this Bulletin.

APPLICATION PROCEDURES FOR TRANSFER STUDENTS
Transfer applicants from other colleges and universities should request an application packet from the Office of Undergraduate Admission and University Registrar. Applicants must submit the following to the Office of Undergraduate Admission and University Registrar:
1. an application for admission;
2. an official transcript from each college or university attended, containing a complete record of all courses completed at the time of application;
3. a roster of the courses in which the student is currently enrolled;
4. a final official transcript of any additional work completed before entering the University; and
5. a non-refundable application processing fee.

Refer to Special Application Dates and Procedures on page 20 for admissions process information. Candidates tentatively admitted at the time of application should be aware that the University will cancel the admission and/or the early registration of an applicant whose final official record, after completion of a current semester, shows ineligibility because of suspension, dismissal, or a drop in grade-point average below the required 2.0.

TRANSFER OF CREDIT
Kentucky Postsecondary Education Transfer Policy
The General Education Transfer Policy facilitates the transfer of credits earned in general education and twelve hours of course work in a major for students moving from one Kentucky public college or university to another Kentucky public college or university. The general education core transfer component reflects the distribution of discipline areas universally included in university-wide lower division general education requirements for the baccalaureate degree. Under this agreement, a student may satisfy the general education discipline requirements at their current college and have that requirement completion accepted at the university or college to which they may transfer. In addition, the Baccalaureate Program Transfer Frameworks identify 12 hours of course work in a major which may be successfully transferred. Each framework represents a specific guide to the exact courses a student needs; therefore, students who plan to transfer from one public institution to another to complete their Baccalaureate degree should work closely with their advisor to take full advantage of the Policy. For more specific information about the Policy, contact the Registrar’s Office, 12 Funkhouser Building, (859) 257-9532.

Credit Earned at Kentucky Community and Technical Colleges and Other Institutions
The University accepts collegiate-level degree credits earned at a fully accredited college or university. “Fully accredited” means that the institution is a member in good standing of one of the six regional academic accrediting associations. Transfer work from institutions outside the United States is evaluated on an individual basis from the official transcripts and course syllabi.

The Office of Undergraduate Admission and University Registrar generally determines the transferability of completed course work. Then, the dean of the college in which the student enrolls will determine how the transferred course work applies toward degree requirements. When the student attends the Advising Conference, an advisor will explain how the transfer work has been applied. However, students may wish to consult individual departments in advance, so they may become familiar with degree requirements in their prospective program.

The transferability of course credit earned at two-year institutions is limited to a total of 67 semester hours.

Transfer applicants should note that regardless of the number of transfer hours the University may accept, all candidates for a bachelor’s degree must complete 30 of the last 36 hours of their program at UK.
OTHER CATEGORIES OF ADMISSION

Readmission

Former University students who have not been enrolled for one semester or more, and who are in good standing are required to apply for readmission.

Applications for readmission should be submitted to the Office of Undergraduate Admission and University Registrar, along with:

1. official transcripts from all colleges and universities attended since leaving UK; and
2. a non-refundable application processing fee.

In order to be eligible for readmission, former UK students must have been in good standing at the time they left the University. Those who have been enrolled elsewhere must be eligible as transfer students on the basis of grade-point average and be in good standing at the institution most recently attended. Students under suspension from UK are not eligible for readmission, regardless of their status at another institution, until they have been reinstated to the University. If the suspension is for academic reasons, reinstatement should be requested from the dean of the college in which they intend to enroll by the stated deadline; if the suspension is nonacademic, reinstatement should be requested from the appropriate University official.

Reinstated students also must file an application for readmission in the Office of Undergraduate Admission and University Registrar by the stated deadline.

Readmission candidates should submit an application as early as possible. This allows the Office of Undergraduate Admission and University Registrar adequate time to prepare the necessary forms for registration. Refer to the University Calendar on page 4 for general admission deadlines. Information on selective college and program deadlines and procedures appears at the end of this section.

Nondegree Students

The goal of the University of Kentucky policy for nondegree students is to provide appropriate access to academic courses for students desiring to continue their education without seeking a degree. Although degree-seeking students should have top priority with respect to University resources, the University does wish to provide access to these resources on a space-available basis to nondegree seeking students. This policy will provide reasonable access to a broader range of students without unnecessarily limiting University resources for degree-seeking students.

Nondegree status affords an opportunity for individuals to pursue lifelong learning without the structure of degree-seeking status and is consistent with the educational mission of the University.

Most nondegree students are considered “Lifelong Learners” and include the following groups: Donovan Scholars, students who have already earned degrees and non-traditional students who wish to begin their studies as nondegree students in order to be considered for degree-seeking status later. Other students eligible to enter the University in a nondegree status include visiting students from other colleges and universities, high school students of exceptional ability, and other students in special circumstances as determined by the Director of Admission. (See information about visiting students and high school students with exceptional ability earlier in this section.)

Rules Governing Admission of Nondegree Seeking Students

To be admitted as a nondegree student, an applicant must meet the following criteria:

1. The high school class of a nondegree applicant must have graduated at least two years prior to the applicant’s anticipated semester of enrollment, unless the applicant will be on active military duty during his/her tenure as a nondegree student.
2. Applicants who have been denied admission as degree-seeking students may not in turn be enrolled as nondegree seeking students.
3. Former University degree-seeking students generally will not be enrolled as nondegree students without having earned an undergraduate degree.
4. University students under academic or disciplinary suspension may not be enrolled as nondegree students.
5. Students currently under suspension at other institutions may not be enrolled as nondegree students at UK. Failure to disclose a current suspension may result in forfeiture of eligibility for future enrollment.
6. Students are strongly encouraged to submit transcripts of high school or prior colleges at the time of admission in order to facilitate advising about appropriate course work.

Rules Governing Enrollment of Nondegree Seeking Students

1. Nondegree students must meet course prerequisites or obtain the consent of the instructor to enroll in a course.
2. No student may continue to enroll as a nondegree student after earning 24 semester hours in this status without the special permission of the dean of the college in which the student is registered. Students who wish to continue course work are encouraged to apply for admission as a degree-seeking student.
3. Credit earned as a nondegree student will be evaluated for applicability toward a degree by the dean of the college in which the student will be enrolled. Most colleges provide administrative oversight of their nondegree students. Nondegree students whose registration status does not reflect affiliation with a particular college will come under the purview of the Dean of Undergraduate Studies. Successful completion of course work as a nondegree student does not ensure admission as a degree-seeking student. No graduate or professional credit is awarded for courses taken while a student is enrolled as an undergraduate nondegree student.

Procedures

1. Nondegree students who wish to take day classes must meet regular admission deadlines for each term. They are encouraged to participate in academic advising each semester. Advisors will be assigned to these students.
2. All nondegree students who wish to continue after their first semester are expected to participate in priority registration for the following semester.

Nondegree students may apply for degree-seeking status after meeting regular University and program admission criteria. Applicants who earned fewer than 24 semester credit hours at UK must meet the University’s standards for selective admission as first-time freshmen. Applicants who have earned 24 or more semester hours will be considered transfer students for admission purposes and transfer of credit policies will apply.

The dean of the college the degree-seeking student enrolls in determines how credit earned as a nondegree student is applied toward a degree.

Nondegree students applying for degree-seeking status must submit to the Office of Undergraduate Admission and University Registrar:

1. an application for admission;
2. a non-refundable application processing fee;
3. official scores from the ACT or SAT (if fewer than 24 semester hours earned); and
4. official transcripts from all previously attended institutions.

Refer to the University Calendar on page 4 for general admission deadlines.
Undergraduate Admission

Auditors
An auditor is a student who enrolls in a course but receives no grade or credit. Students in this category should indicate auditing status on their application for admission.

Auditors are charged the same tuition as students receiving credit. Auditors cannot change to credit status after the beginning of class work, and cannot be considered for admission to earn credit unless they are admitted to a degree program in the University as a regular student. To do this, the auditor must file the required documents by the deadline for a subsequent semester. A student under academic or disciplinary suspension may not enroll as an auditor.

Students who wish to apply as auditors must submit to the Office of Undergraduate Admission and University Registrar:
1. an application for admission; and
2. a non-refundable application processing fee.

Refer to the University Calendar on page 4 for general admission deadlines.

Transient Students
A transient student is a visiting nondegree student from another institution who intends to earn credit at UK that will be applied to degree requirements at his or her sponsoring institution. Transient students must meet the same admissions requirements as transfer students.

Transient applicants must submit to the Office of Undergraduate Admission and University Registrar:
1. an application for admission;
2. an official transcript or letter of good standing certifying grade-point average from the applicant’s sponsoring institution; and
3. a non-refundable application processing fee.

Refer to the University Calendar on page 4 for general admission deadlines.

UK Students As Transients at Other Schools
UK students may earn a limited amount of credit toward a baccalaureate degree at another college or university, provided they have prior approval from their dean and advisor, and provided the other school is fully accredited and the course work meets the University specifications for credit acceptance. The student should consult with an advisor or dean before enrolling at another institution. Students enrolled at other institutions at the same time they are enrolled at UK must have the specific approval of the appropriate dean. Students are responsible for determining whether transfer course work is acceptable and how it applies to the degree program. The University Senate has established certain conditions for accepting credit earned at other schools; therefore, improper enrollment at other institutions will result in the loss of the credit earned there.

A University student who enrolls elsewhere for only a summer session between a spring enrollment at UK and the following fall semester does not need to reapply for admission for the fall semester. The student must arrange for transcripts of transfer work to be sent to the Office of Undergraduate Admission and University Registrar immediately following the summer session.

International Applicants
UK is authorized under federal law to enroll qualified nonimmigrant international applicants.

International applicants should apply and submit all required documents by May 15 for fall semester admission, October 15 for spring semester admission, and March 1 for summer session admission. International applicants must submit to the Office of Undergraduate Admission and University Registrar:
1. an international application for admission;
2. a non-refundable application processing fee;
3. a sponsor guarantee form;
4. *bank statement;
5. **official academic transcripts and English-translated course descriptions of all college-level work completed;
6. ***TOEFL/English Proficiency;
7. ACT or SAT results for freshmen applicants wishing to apply for academic scholarships; and,
8. additional information may be requested by admission officer.

Admission is competitive and preference is given to applicants who are best qualified academically. All documents relating to academic records, financial ability, and competency in the English language must be received before permission to enroll and the proper immigration form can be issued. All documents must be official or certified as such.

*All international applicants must show proof of at least $29,860 for the first academic year. This amount covers present tuition, fees, health insurance, books and living expenses from the fall semester through the spring semester. This amount also includes room and board expenses for summer. Evidence of financial support may include bank letters verifying personal and family assets, government or private scholarships. An authorized bank official must sign the guarantee. All documents must be originals (faxes and photocopies are not accepted), dated and have appropriate seals and/or be notarized as official. Fees are subject to change at any time.

All international applicants are required to have university-approved health insurance.

**Official transcript from each institution attended (high school, college or university). Applicants from non-English speaking countries must provide an official literal English translation of their official school records. Students who wish to transfer credit to UK should submit course descriptions, course syllabi, and any other materials that can help determine course equivalencies. It is recommended that applicants additionally have their transcripts evaluated by a professional evaluation agency, such as World Education Services.

***Students whose native language is other than English must score at least 527 (paper and pen), 197 (computer-based), or 71 (iBT) on the Test of English as a Foreign Language (TOEFL) to be eligible for general admission to UK. “Native language” is defined as an individual’s first acquired language and the language of educational instruction. The TOEFL requirement may be waived for students who present an official transcript of satisfactory English work taken at an accredited American college, or a college in another country where English is the native language.

The Test of English as a Foreign Language (TOEFL) is offered by the Educational Testing Service and may be taken at various test centers throughout the world. Applicants must take the test early enough to ensure that the results are reported to the University by the required deadlines.

For students with marginal scores on the Test of English as a Foreign Language (TOEFL), the English Department at UK offers an intensive program in English as a Second Language, designed to improve both oral and written skills. Completion of this program does not guarantee undergraduate admission. For complete details about the program, write to: Center for English as a Second Language, English Department, 1235 Patterson Office Tower, University of Kentucky, Lexington, KY 40506-0027, (859) 257-7003.

The Office of Undergraduate Admission and University Registrar may require additional documents in order to process an application.
QUESTIONS CONCERNING ADMISSION DECISIONS

All applicants to the University of Kentucky have the right to question or appeal admission decisions. Applicants desiring to appeal a decision should contact the Office of Undergraduate Admission and University Registrar to obtain information on the appeal process as well as deadlines.

ADVISING CONFERENCES

New freshmen and transfer students are oriented to the University in two steps. The first step is the Advising Conference, part of orientation at UK for more than three decades. The informative conferences offer students and parents the opportunity to learn more about the University, student life and residence hall living. Participants attend sessions on academic expectations, University Health Service, student activities and organizations, student computing services, and many other student services. Students also meet with an academic advisor, plan their schedules, and register for classes.

First-year students admitted for fall attend a two-day conference. These popular conferences allow students more time to meet UK faculty, staff, and students. Participants get the chance to meet with their academic advisors, take placement exams, and register for classes.

Students receive complete information about the Advising Conference after they are admitted. Freshmen must confirm an Advising Conference date by May 1 to hold a space in the class.

Merit Weekends

The University invites academically talented students and their parents and guests to attend special two-day advising conferences called Merit Weekends. Admitted students who have met various academic standards are invited to attend this event. The Merit Weekend program replaces the Summer Advising Conference and assures participants a higher priority in class selection. Merit Weekends are usually held in early spring. Freshmen must confirm an Advising Conference date by May 1 to hold a space in the class.

K WEEK

New students ease their transition to campus life through participation in K Week. This welcome week program begins the weekend before classes start during the fall semester and offers a variety of social activities, academic programs, and information sessions. Some activities, such as Big Blue U, We Are UK, library tours, and college meetings, familiarize students with community expectations and opportunities. Other activities such as Campus Ruckus and other parties challenge students to expand their circle of friends and get involved on campus. UK FUSION, a city-wide day of community service, encourages students to form important connections with other new students, student leaders, faculty, and staff.

Students receive detailed information about K Week during the summer. All new students are expected to attend. K Week includes special programs for transfer students.

K Week is coordinated through the Office of New Student and Parent Programs. For more information, visit: www.uky.edu/KWeek.

UK 101, ACADEMIC ORIENTATION COURSE

UK 101 is a one-credit-hour, ten-and-a-half week orientation course offered to first-year students. Former students overwhelmingly recommend this class to first-year students.

This course is designed to introduce first-year students to the intellectual life of the University and to help them:

1. Articulate the purpose and nature of a college education at a research university.
2. Articulate UK’s expectations of its students.
3. Gain an appreciation of the University’s mission, history, and traditions.
4. Develop skills for achieving academic success such as study strategies and library research skills.
5. Increase awareness and use of campus resources.
6. Reflect on personal and social issues (e.g., alcohol, diversity) that first-year students often face in a college environment.
7. Become involved in the total life of the University of Kentucky.
8. Form beneficial relationships with students, faculty, and staff.

**Professional Program Applicants** (Students who have completed 64 hours or more at UK or other accredited colleges or universities)
- Application, Transcript(s), Other required credentials
  - January 1

† Law school applications are processed in the College of Law. Send applications to College of Law, 209 Law Building, University of Kentucky, Lexington, KY 40506-0048.
Financial Delinquency

The University of Kentucky expects students to be responsible in their financial obligations to the University or any department or division thereof. The University assesses student fees for various services, fines, and materials. Students are to be properly notified of amounts to be paid and designated payment due dates. After unsuccessful collection efforts by the department or division, the student is classified delinquent and the following may occur: financial holds, class cancellations, late fees, collection agency efforts, and denial of access to student services.

FINANCIAL OMBUD SERVICES

The Financial Ombud provides a neutral and confidential setting for current and prospective students and their parents to discuss difficult or unusual financial problems affecting tuition and fee payment. The Financial Ombud resolves problems, counsels, and makes recommendations and referrals as needed.

The Office of the Financial Ombud Services is open from 8 A.M. to 4:30 P.M. and is located in 18 Funkhouser Building. For information, questions, or appointments, call (859) 257-3406.

HEALTH CARE

For the regular fall and spring semesters, payment of the mandatory health fee by full-time students entitles them to medical and behavioral health care at University Health Service. Part-time students may pay the health fee or use the Health Service on a fee-for-service basis. The health fee is voluntary for all students for the summer sessions. Students are strongly advised to purchase health insurance to cover medical expenses incurred beyond those covered by the health fee. For more information on the health fee or the services provided, call (859) 323-5823; or visit us on the Web at: www.ukhealthcare.uky.edu/uhs.

WILDCARD STUDENT ID

All students admitted to the University (both full-time and part-time) are expected to obtain a WildCard student ID. This is a permanent card, which becomes valid each semester when fees are paid. The cost of the first WildCard is $15. Payment may be made with cash, check, PlusAccount, Visa or MasterCard. The following information will help you understand your responsibility and how to fully utilize your WildCard ID. For additional information, visit our Web site at: www.uky.edu/UKID.

- Your WildCard ID is the official identification for class attendance and tests, the Student Employment office, and student elections.
- Stop at a circulation desk at any campus library to activate the library barcode number and you can use your WildCard to check out books and materials. Students must have their WildCard student ID card to enter the William T. Young Library between 10 P.M. and 6 A.M.
- The Plus Account is an optional debit program for University of Kentucky students. A Plus Account is automatically open and accessed as a feature of your WildCard student ID. The Plus Account is extremely flexible and widely used on campus and off campus for dining, laundry, bookstores, printing, copying, prescriptions, and much more. Residence Hall laundry and campus printing may only be accessed using a Plus Account.
• When you live in a residence hall, the WildCard ID will access your Dining and Flex Accounts. Off-campus students may also purchase a Dining Plan.
• The WildCard is your “key” if you live in a residence hall.
• Use your WildCard at University Health Service to pay for services not covered by the health fee, like vaccinations, medical equipment, or prescriptions in the student health pharmacy. Visit: www.ukhealthcare.uky.edu/uhs/ for more information.
• Use your WildCard ID at the Student Center Ticket Office, Singletary Center for the Arts and the Cat’s Den in the Student Center.
• Pick up football and basketball tickets and use your WildCard ID for entry to other UK campus events.
• You must have your WildCard for access to the Johnson Center, the Lancaster Aquatic Center, and to check out equipment.
• Use your WildCard to open an account at the UK Federal Credit Union.

If you lose your WildCard ID, report the loss immediately to the WildCard U.K.I.D. Center at (859) 257-1378 or the Dining & Plus Account Office at (859) 257-6159. You can also cancel your card online at: www.uky.edu/plusaccount. Any financial charges/transactions made with this card are the responsibility of the student. A replacement ID may be obtained for $20 in 107 Student Center. Payment may be made with cash, check, Plus Account, Visa or MasterCard. The WildCard ID is the property of the University of Kentucky and must be surrendered upon request of authorized officials of the University.

PERSONAL EXPENSES (not payable to the University)

Books and Supplies. Range from $350 up, depending on the student’s major field of study and schedule of classes for the semester. Students may use their Plus Accounts (including Financial Aid Book Vouchers) for purchases at the University of Kentucky Bookstore, Kennedy Book Store, Wildcat Textbooks, and ecampus.com’s Lexington retail stores. Plus Account deposits may be made at the following locations: online at www.uky.edu/PlusAccount ($20 minimum; $2 convenience fee); the Dining & Plus Account Office ($20 minimum); Student Account Services ($20 minimum); or DART machines in campus computing labs (any whole dollar amount). For more information about Plus Accounts, call (859) 257-6159.

Laundry. For students living in the residence halls, laundry facilities for personal items are provided. Local cost for this laundry service is comparable to that in any city. Students activate the laundry machines using Plus Accounts. Plus Account deposits may be made at the following locations: online at www.uky.edu/PlusAccount ($20 minimum; $2 convenience fee); the Dining & Plus Account Office ($20 minimum); Student Account Services ($20 minimum); or DART machines in campus computing labs (any whole dollar amount). For more information about Plus Accounts, call (859) 257-6159.

WITHDRAWAL FROM THE UNIVERSITY

You may cancel your registration before the first day of class by using myUK. See below for dropping a class with a W grade.

All students, including degree seeking, non-degree seeking, and visiting students, who wish to leave the university during a term (fall, spring or summer) must formally withdraw.

There are four methods of withdrawing from the University of Kentucky:

1. withdrawing in person at the Registrar’s Office in 10 Funkhouser Building;
2. requesting withdrawal from course work via fax;
3. mailing your withdrawal request to the Registrar’s Office; and
4. drop or withdraw from all courses using myUK.

In person: A student is required to come to 10 Funkhouser Building between 8 A.M. and 4:30 P.M., Monday through Friday and complete an Authorization to Withdraw card. Additional signatures may be required depending upon the student’s enrollment status. The date noted on the Authorization to Withdraw card will serve as the student’s official withdrawal date.

Fax request: There are circumstances in which a student cannot physically appear to withdraw. For these cases, the Registrar’s Office will accept a faxed request for withdrawal. The date of the fax will serve as the official date of the withdrawal. The fax number is (859) 257-7160.

Mail request: The student may mail a written request for withdrawal to the Registrar’s Office. The address is:

Student Records
10 Funkhouser Building
University of Kentucky
Lexington, KY 40506-0054

The postmark will serve as the official date of the withdrawal. Information for withdrawal via mail is identical to that of the fax request.

NOTE: After the last official day to withdraw from a term, the student must start the withdrawal process beginning with the dean of the student’s college. (Senate Rule, V.1.8.3). A student should contact his/her college’s student services office for more details concerning this process.
**REFUND and FEE LIABILITY POLICY**

Tuition refunds or outstanding fee liabilities for students who officially withdraw through the Registrar’s Office, or who change their status from full-time to part-time or further reduce their part-time status through Add/Drop, will be made according to the following schedule. All dates are those designated in the official University Calendar.

**After last day to officially withdraw per University Calendar – No Refund**

Refunds are based solely on the date of withdrawal, regardless of whether students attend any class(es). As required under section 484B of the Higher Education Act (HEA), to assure recovery of federal financial aid funds, a special refund schedule applies to those students receiving Title IV financial assistance who withdraw (officially or unofficially) during the academic term.

A student not paying tuition fees and subsequently leaving or officially withdrawing from school will be held liable for one-half of those fees. In the case of nonpayment, he or she will be declared delinquent subject to the penalties imposed by the institution for financial delinquency.

Questions concerning fee payment procedures may be directed to the Financial Ombud, 18 Funkhouser Building, (859) 257-3406. Questions concerning tuition refunds may be directed to the Registrar’s Office, Funkhouser Building, (859) 257-8729.
## TUITION AND FEES
### 2011-2012

Please note: Some courses require additional fees for lab, materials, etc. that are not listed below. Go to: [www.uky.edu/Registrar/docs/feesched2.pdf](http://www.uky.edu/Registrar/docs/feesched2.pdf) for the complete list as included in the University’s 2011-2012 operating budget approved by the Board of Trustees.

Undergraduate students will be charged an additional **$52** per credit hour for each engineering course.

Undergraduate students who have declared a premajor or major in Interior Design, or a major in Architecture will be charged a program fee of **$200** per semester (fall and spring).

Students will be charged an additional **$27** per credit hour for all undergraduate Business and Economics courses, with the exception of ECO 101 and ECO 201.

Undergraduate Engineering students enrolled in the collaborative Chemical Engineering or Mechanical Engineering programs between Murray State, West Kentucky Community and Technical College (WKCTC), and the University of Kentucky will be charged tuition at the WKCTC tuition rate for all Paducah-based courses until such time Engineering status is attained. At such time students in this program reach Engineering status, tuition for Paducah-based courses will be billed at the University of Kentucky rate.

¹ The full-time rate is charged to undergraduate and pharmacy students enrolled for 12 credit hours or more, graduate and professional doctoral students enrolled for 9 hours or more, and law students enrolled for 10 hours or more.

² Students enrolled part-time and in intersessions (e.g., summer and winter terms) are charged on a per-credit hour basis. Students considered full-time for financial aid and reporting purposes, but with less than full-time credit hours (i.e., graduate students in residency status enrolled for zero or two credit hours) will be assessed on a per-credit hour basis.

³ ANNUAL TUITION. Beginning with Fall 2007, the College of Medicine tuition and mandatory fee rates are ‘locked in’ for each entering class cohort. The rates will not change while students are enrolled in the program. A half-time 2011-2012 tuition and fee rate of $16,544.00 for resident students and $29,867.00 for non-residents is established for those medical students who have been approved by the College of Medicine Student Progress and Promotion Committee to take a reduced curriculum load.

⁴ ANNUAL TUITION. A half-time 2011-2012 tuition and fee rate of $14,019 for resident students and $27,994 for non-resident students is established for those dental students who have been approved by the Dean of the College of Dentistry to take a reduced curriculum load.

Fees are subject to change without notice.

### Dining Plans

Dining Services offers a variety of plans to accommodate different schedules and eating habits.

The minimum plan costs $1,121 each semester and includes five meals per week with $300 Flex Dollars. Optional plans include $300 in Flex Dollars per semester. Flex Dollars may be used as “cash” at all dining venues. The Block Plan includes 130 meals that can be used any time during the semester.

For more information, see “Dining Services” on pages 37-38.

---

**Fees are subject to change without notice.**
Applicants for University financial aid are given equal consideration, regardless of race, color, religion, sex, marital status, beliefs, age, national origin, sexual orientation, or disability.

The University of Kentucky offers three types of financial aid to students:

1. Financial aid based on financial need is awarded to undergraduate and graduate students by the Office of Student Financial Aid.
2. Direct unsubsidized loans not based on financial need are available to students through the Office of Student Financial Aid.
3. Financial aid based on academic merit is awarded by the Academic Scholarship Office, as well as by certain academic departments and colleges.

Graduate students should consult The Graduate School Bulletin for information about assistantships and fellowships.

Each year the amount of funds requested by eligible applicants falls short of the resources available. The Office of Student Financial Aid bases its decisions on a) financial need, and b) the date of application. Students should apply as early as possible. Entering freshmen should apply by March 15. Transfer and continuing students should apply by March 15. Eligible students who apply after these dates will receive assistance, but will receive less because some funds will already be exhausted. Students should not enroll in classes with the intent of obtaining financial aid after the semester is underway.

For more information on financial aid, contact:

Office of Student Financial Aid
127 Funkhouser Building
University of Kentucky
Lexington, KY 40506-0054
(859) 257-3172

Applying for Financial Assistance

Entering Freshmen

Applicants should request financial aid forms from their high school or apply online at: www.fafsa.ed.gov. Online application is recommended.

Apply early. Application material for the fall semester is available in January.

Follow the procedure listed below:

Submit the online or paper Free Application for Federal Student Aid (FAFSA) no later than February 15, designating UK to receive the analysis. UK’s federal school code is 001989.

A student must enroll in a degree program at UK in order to be awarded financial aid. The Office of Student Financial Aid informs students of financial aid decisions in mid to late March (or as soon thereafter as possible). Financial aid is credited directly to the student’s University account at the beginning of each semester.

Aid recipients should plan to have enough money for initial expenses for books, meals, and incidentals for the first three weeks of the semester until their aid is processed. When the amount of financial aid credits exceed the student’s billed charges, a residual (refund) check for the difference will be mailed to the student, or direct deposited for students who have signed up for this service.

Federal regulations require a number of applicants to verify the information they report. Be as accurate as possible when filling out financial aid forms. Since some of the application deals with income, plan to prepare income tax returns early. (If you have not completed income tax returns, you may use estimated figures in order to meet the February 15 priority date. You must update your information when your tax returns are completed.) Changes in federal regulations and methodology for determining financial need may produce results which differ from year to year.

Nondegree Students

Individuals admitted by the Office of Undergraduate Admission or by the Graduate School as nondegree students generally do not qualify for financial assistance. Nondegree students must make an appointment to see a financial aid counselor to discuss their eligibility to apply for assistance. Nondegree students who receive and accept a financial aid award without appropriate clearance by their financial aid counselor will be required to repay any funds credited towards billed charges or released in a refund check. Students whose status changes to nondegree after the start of the term must notify their financial aid counselor and in most cases will be required to repay all funds disbursed during the term.

Continuing Students and Transfer Students

Continuing students and transfer students must reapply for financial aid (including scholarships) each year by submitting the Free Application for Federal Student Aid (FAFSA). This is required in order to track changes in student or family resources that could affect the amount of an award. Contact the Office of Student Financial Aid for application materials or apply online at: www.fafsa.ed.gov. The FAFSA must be completed and submitted to the
federal processor as early as possible, preferably before March 15. Completing a FAFSA is also the first step in applying for a Federal Direct Stafford Loan.

The Office of Student Financial Aid informs students of financial aid decisions in June (or as soon thereafter as possible).

### Medical and Dental Students

Medical students apply for financial aid through the Office of Education, College of Medicine, 138 Leader Avenue, (859) 257-1652. Dental students apply in the Office of Student Affairs, D-155 A. B. Chandler Medical Center, (859) 323-5280.

### CONTINUED ELIGIBILITY FOR STUDENT FINANCIAL AID

Students must maintain satisfactory academic progress toward a degree to continue receiving financial aid. Students will be required to complete two-thirds (67 percent) of all cumulative credits attempted during their career at the University of Kentucky as expressed by the number of cumulative hours successfully completed divided by the number of cumulative hours attempted (with the result rounded up to the nearest whole percent). In addition to this credit-hour requirement, all financial aid students must maintain a cumulative grade-point average (GPA) that is consistent with the institution’s requirements for graduation. Therefore, after two academic years of attendance students must have earned a cumulative “C” average or 2.0 GPA in order to remain eligible for financial aid. (Note: Students who meet the above standards but have been placed on academic probation by the Registrar’s Office will automatically be placed on financial aid probation. Students in this category can continue to receive financial aid for up to one year. Students who have not been removed from academic probation at the end of one year will lose their eligibility for federal financial aid funding.) Satisfactory academic progress will be evaluated once each year at the end of the spring term. Students who fail to maintain satisfactory academic progress may reestablish their eligibility by enrolling at their own expense in a subsequent semester and meeting the standards according to the cumulative credit hours attempted/completed and cumulative grade-point averages stated above. Contact the Office of Student Financial Aid for details on maintaining and reestablishing satisfactory progress.

Audited classes, credits earned through CLEP testing, or non-credit courses are not considered in determining satisfactory academic progress. Hours for courses with grades of incomplete (I) will not be counted as hours earned until the credit is received, but will be counted as hours attempted. Hours earned on a pass-fail basis or paid through a consortium agreement, however, will be used in determining satisfactory academic progress. Credits assigned to developmental (remedial) courses will be counted in calculating hours attempted; however, these courses are not used in calculating the grade-point average. Repeat courses taken during the year will automatically be considered in the following spring review for progress.

Federal regulations limit the number of cumulative credit hours for which a student can receive federal financial aid funds. An undergraduate student enrolled at the University of Kentucky should be able to complete his or her program of study in no more than 120 credits of academic work, including any transfer credits. Therefore, an undergraduate student typically may not receive federal financial aid after attempting 180 credit hours. The maximum time frame for students enrolled in programs of study requiring completion of more than 120 credits will be 150 percent of the credits required (e.g., programs requiring 130 credits will have a 195 credit maximum). A graduate student enrolled at the University of Kentucky should be able to complete his or her program of study in no more than 48 credits of academic work, including any transfer credits. Therefore, a graduate student typically may not receive federal financial aid after attempting 72 credit hours. The maximum time frame for graduate students enrolled in programs of study requiring completion of more or less than 48 credits will be 150 percent of the credits required (e.g., programs requiring 50 credits will have a 75 credit maximum).

### Grants

A grant is a financial aid award that does not require repayment. Students can apply for all of the grant programs described below by completing the Free Application for Federal Student Aid (FAFSA).

#### Federal Pell Grants

The federally funded Federal Pell Grant Program provides grants to eligible undergraduate students working on their first baccalaureate degree. Federal Pell Grants currently range in value from $555 to $5,550 per school year and are based upon the student’s enrollment status and the financial circumstances of the family and applicant.

The U.S. Department of Education determines eligibility according to financial need. Applicants will receive a Student Aid Report (SAR) four to six weeks after applying. Students who provide an e-mail address on the FAFSA will receive SAR information via e-mail.

#### Supplemental Educational Opportunity Grants (SEOG)

The Higher Education Act of 1980 provides Federal Supplemental Educational Opportunity Grants for undergraduate students who need financial aid to enter or remain in college. The average SEOG award at the University is $600. Larger awards are generally not possible, since there are more eligible applicants than available funds.

#### Teach Grant Program

Through the College Cost Reduction and Access Act of 2007, Congress created the Teacher Education Assistance for College and Higher Education (TEACH) Grant Program that provides grants of up to $4,000 per year to students who intend to teach in a public or private elementary or secondary school that serves students from low-income families. In exchange for receiving a TEACH Grant, you must agree to serve as a full-time teacher in a high-need field in a public or private elementary or secondary school that serves low-income. As a recipient of a TEACH Grant, you must teach at least four academic years within eight calendar years of completing the program of study for which you received a TEACH Grant. Important: If you fail to complete this service obligation, all amounts of the TEACH Grants that you received will be converted to a Federal Direct Unsubsidized Stafford Loan. You must then repay this loan to the U.S. Department of Education. You will be charged interest from the date the grant(s) was disbursed. To receive a TEACH Grant you must: complete the Free Application for Federal Student Aid (FAFSA), although you do not have to demonstrate financial need; be a U.S. citizen or eligible non-citizen; be enrolled as an undergraduate, post-baccalaureate, or graduate student in a postsecondary educational institution that has chosen to participate in the TEACH Grant Program; be enrolled in course work that is necessary to begin a career in teaching or plan to complete such course work. Such course work may include subject area courses (e.g., math courses for a student who intends to be a math teacher); meet certain academic achievement requirements (generally, scoring above the 75th percentile on a college admissions test or maintaining a cumulative GPA of at least 3.25); and sign a TEACH Grant Agreement to Serve.

#### Kentucky College Access Program Grants (KCAP)

The KCAP Grant Program was established by the Kentucky General Assembly in 1974 and is administered by the Kentucky Higher Education Assistance Authority. KCAP Grants are one-year monetary awards based on financial need. They may be renewed for a total of eight semesters if financial need is established. The current amount of the grant is $1,900 annually for full-time attendance.

To be eligible for a KCAP Grant, a student must be an undergraduate, a U.S. citizen or permanent resident, a Kentucky resident, have an eligible expected family contribution (EFC), and must be enrolled at an eligible institution located within the Commonwealth of Kentucky.
KHEAA also offers assistance to students pursuing careers in education who plan to teach science or mathematics or who are Kentucky high school graduates with outstanding academic records. For more information, contact KHEAA, 1050 U.S. 127 South, Frankfort, KY 40601; or visit their Web site at: www.kheaa.com.

Kentucky Educational Excellence Scholarships (KEES)
The Kentucky Educational Excellence Scholarship Program (KEES) was established by the Kentucky General Assembly in 1998 and is administered by the Kentucky Higher Education Assistance Authority (KHEAA). KEES Scholarships are available to students who graduate from a Kentucky high school at the end of the 1998-99 academic year and beyond. Kentucky residents who meet the eligibility criteria can earn up to $2,500 per year. The amount of the scholarship is based on the student’s high school performance and ACT scores. Students will generally be eligible to receive the scholarship for a maximum of eight academic terms in an undergraduate program. For most programs of study, the scholarship must be used within five years of high school graduation.

To receive the full award, students must be enrolled full-time. Students enrolling less than full-time (but at least half-time) will receive a proportionate award.

The KEES renewal requirements now differ for some students, depending on when the student first enrolled at an eligible institution and received funds. Please see the information below to review the renewal requirements that apply to you.

Renewal amounts for students who received KEES prior to the 2009-2010 academic year will be determined as follows: if your cumulative GPA is at least 3.0, your full award will be renewed; if your cumulative GPA is at least 2.5 but below 3.0, your award amount will be reduced by 50 percent; if your cumulative GPA is below 2.5, you will become ineligible until you raise your cumulative GPA to at least 2.5 at the end of the next academic year.

Renewal amounts for students who first enrolled and received KEES during the 2009-2010 academic year or later will be determined as follows: if your cumulative GPA is at least 3.0, your full award will be renewed; if your cumulative GPA is at least 2.5 but below 3.0, your full award will be renewed only if you have completed enough hours to be certified as on track to graduate by the University’s financial aid office; if your cumulative GPA is at least 2.5 but below 3.0, you have not earned enough hours to be considered on track to graduate, but you were enrolled full-time during the prior year, your award amount will be reduced by 50 percent; if your cumulative GPA is below 2.5 and you were enrolled less than full-time and are not considered on track to graduate by the University’s financial aid office, you will become ineligible until you meet one of the standards above at the end of the next academic year.

Students will be considered on track to graduate according to the following criteria: the student has earned 48 credit hours at the end of 4 terms of enrollment; 72 credit hours at the end of 6 terms of enrollment; 120 credits at the end of 8 terms of enrollment; 145 credits at the end of 10 terms for student pursing a degree in Landscape Architecture only. In determining a student’s on track to graduate status, enrollment in only the fall and spring terms will be included in the number of terms of enrollment. On track to graduate status will be determined at the end of each spring term. Any hours earned during a summer period will be included in the number of credits earned at the end of the following spring term.

Eligible students will receive official notification of their KEES award from KHEAA. The student’s enrollment must be verified prior to disbursement of the award. Therefore, funds will not be available until four weeks after the start of the semester. For more information, contact KHEAA at 1050 U.S. 127 South, Frankfort, KY 40601; or visit their Web site at: www.kheaa.com.

Assistant Loans
Loans generally supplement a student’s savings, earnings, or other financial assistance. Loan funds generally are not adequate to cover all expenses. When possible, loans are combined with other types of financial assistance to reduce the amount a student must borrow.

Federal Perkins Loans
Perkins Loans are made available on a fund-matching basis between the University and the federal government.

A student must demonstrate financial need to be eligible for a Perkins Loan. The amount of loan is determined by the Office of Student Financial Aid based on the needs and resources of the student and available funds. Annual loan limits are $5,500 for each year of undergraduate study and $8,000 for each year of graduate or professional study. The aggregate loan over a number of years cannot exceed $27,500 for undergraduates and $60,000 for graduate and professional students.

Payment is not required while the borrower is enrolled as a half-time student. Interest begins to accrue at a rate of 5 percent per year at the beginning of the ninth month after the borrower ceases to be a half-time student. In this context, “half-time” is defined as half a normal load or a minimum of six hours for undergraduate students or five hours for graduate students.

Health Professions Student Loans (HPSL)
Students in the Colleges of Dentistry and Pharmacy are eligible for Federal Health Professions Student Loans. Funds for the HPSL program are cooperative loan funds made available on the same basis as the Federal Perkins Loan Program described above.

The law requires that borrowers be enrolled as full-time students in good standing in the Colleges of Dentistry or Pharmacy and be in need of a loan to continue their professional education. Parental information must be reported on the FAFSA even if the student is considered independent. If required, the student must be registered with the Selective Service Administration.

The amount a student may borrow annually may not exceed the student’s cost of attendance. Repayment of principal and interest begins one year after the student ceases full-time study, and must be completed within ten years. HPSL Loans carry a fixed interest rate of 5 percent.

Primary Care Loan (PCL) Program
The Primary Care Loan Program (PCL) assists students in the College of Medicine who intend to engage in primary care residency and/or practice upon graduation. Primary health care is defined as family medicine, general internal medicine, general pediatrics, preventive medicine, or osteopathic general practice.

Eligibility requirements for PCL are the same as those for HPSL, except that a recipient must commit to a three-year primary care residency and must practice in primary care until the loan is paid in full. Students who fail to fulfill this obligation must repay their PCL loans within three years from the date of their failure to comply, and for loans made prior to November 13, 1998 must repay interest at 12 percent, computed from the date the loans were issued, and compounded annually. For loans made on or after November 13, 1998, the annual interest rate is 18 percent beginning with the date of noncompliance.

The amount a student may borrow annually may not exceed the student’s cost of attendance. Interest and repayment provisions are identical to those in the HPSL Program.

Federal Direct PLUS Loans and Graduate/Professional Federal Direct PLUS Loans
Parents can borrow a Federal Direct PLUS Loan to help pay their child’s educational expenses if the student is a dependent undergraduate student enrolled at least half-time in an eligible program. The student for whom the parent is borrowing the PLUS Loan must complete the Free Application for

Financial Aid, Awards, and Benefits
Federal Student Aid (FAFSA) and the University of Kentucky financial aid office must have determined the student’s maximum eligibility for Direct Subsidized and Unsubsidized Stafford Loans. The parent borrower must also have an acceptable credit history. Both the student and the parents must also meet other general eligibility requirements for federal student financial aid. The yearly limit for a PLUS Loan is equal to the student’s cost of attendance minus any other financial aid received.

Graduate/Professional students enrolled at least half-time in an eligible program can borrow a Federal Direct Grad PLUS Loan to help meet their educational expenses. The yearly limit for a Grad PLUS Loan is equal to the student’s cost of attendance minus any other financial aid received.

To apply for a Federal Direct PLUS Loan or a Grad PLUS Loan go to www.studentloans.gov. The interest rate for PLUS and Grad PLUS Loans is 7.9 percent. Interest is charged on a PLUS/Grad PLUS Loan from the date of the first disbursement until the loan is paid in full. A 4 percent origination fee is charged on all PLUS/Grad PLUS Loans. However, borrowers will receive a 1.5 percent origination fee rebate resulting in a net cost to the borrower of 2.5 percent.

Subsidized Federal Direct Stafford Loans
The University of Kentucky participates in the Federal Direct Stafford Loan Program through an agreement with the U.S. Department of Education. The University receives loan funds directly from the Department of Education and disburses them to eligible students. Undergraduate students with a freshman classification may borrow up to $3,500 per academic year. Students with a sophomore classification may borrow up to $4,500 per academic year. Students with a junior, senior, or fifth-year classification may borrow up to $5,500 per academic year. Graduate students may borrow up to $8,500 per academic year. The amount of the loan may not exceed the cost of attendance or the cost of attendance less other aid received minus family contribution, whichever is less.

The interest rate for undergraduate subsidized Federal Direct Stafford Loans is fixed at 3.4 percent for loans first disbursed between July 1, 2011 and June 30, 2012. The interest rate for graduate subsidized Federal Direct Stafford Loans is fixed at 6.8 percent for loans first disbursed on or after July 1, 2006. Borrowers pay an origination fee of 1.0 percent. The fee is withheld from the loan when the funds are disbursed. Under current law, students will receive an up-front interest rebate of 0.5 percent of the loan amount borrowed resulting in a net cost of 0.5 percent.

Interest will not be charged while the student is enrolled in school at least half-time, during a grace period, or during authorized periods of deferment. Interest will begin to accrue when the student enters repayment. Repayment begins six months after the borrower leaves school.

Students must complete a Free Application for Federal Student Aid (FAFSA) to apply for a Subsidized Federal Direct Stafford Loan.

Apply early. Allow a minimum of 4 to 6 weeks for the loan to be processed.

Unsubsidized Federal Direct Stafford Loans
The Unsubsidized Federal Direct Stafford Loan program is open to students who may not qualify for subsidized Federal Direct Stafford Loans or who may qualify for only partial subsidized Federal Direct Stafford Loans. Borrowers may receive both subsidized and unsubsidized Federal Direct Stafford Loans totaling up to the applicable Stafford limit, if they do not qualify for the full amount permitted under the subsidized Federal Direct Stafford Loan Program. For undergraduate students, this includes eligibility to borrow up to an additional $2,000 in unsubsidized Federal Direct Loan funds. Independent undergraduate students, dependent undergraduate students whose parents cannot borrow a PLUS Loan, and graduate students have increased loan eligibility.

Unsubsidized Federal Direct Stafford Loans have the same terms and conditions as Subsidized Federal Direct Stafford Loans with the exception of (1) an interest rate of 6.8 percent for undergraduate student borrowers and (2) the borrower is responsible for interest that accrues while the borrower is in school.

Borrowers pay an origination fee of 1.5 percent. The fee is withheld from the loan when the funds are disbursed. Under current law, students will receive an up-front interest rebate of 1.0 percent of the loan amount borrowed resulting in a net cost of 0.5 percent.

Short-term Loans
Students are eligible to receive short-term, interest-free loans for a documented emergency. A $1 service fee is charged for each loan.

Up to four working days are required to process a short-term loan application. Short-term loans are not available during the first three weeks of a semester or immediately preceding the close of a semester. Only students who have paid their tuition and are in good financial standing with the University are eligible. Contact the Office of Student Financial Aid for more information.

THE FEDERAL WORK-STUDY PROGRAM (FWS)
The Federal Work-Study Program (FWS) provides jobs for financially needy students. Work-study assistance is usually combined with other kinds of financial aid, and preference is given to students with the greatest financial need.

A student must demonstrate financial need to be eligible and must be enrolled at least half-time during the academic year. Students who are not enrolled for the summer sessions may be eligible to work full-time during the summer. Students who work full-time in the summer are obligated to save from their earnings for their fall semester expenses. Summer work-study applications are available in the Office of Student Financial Aid after March 1.

Students are limited in how much they can earn on the FWS Program. Students are not permitted to earn more than the amount specified on their Notice of Award. Pay rates range from $7.25 to $10.85 per hour, based on factors such as campus, year in school, and job duties and responsibilities. Although referred to as a work-study job, students are NOT paid to study and must be engaged in work activities during all hours for which they receive an hourly wage.

SCHOLARSHIPS
Scholarship programs based primarily on academic merit are administered through the Office of Academic Scholarships, including automatic and competitive awards for first-time incoming freshmen, current UK students, and transfer students.

The following scholarships will be awarded automatically to eligible first-time incoming freshmen students, provided the student is admitted and has the qualifying test score and unweighted GPA on file with the Office of Undergraduate Admission by March 1. Minimum test score requirements are based on the composite or total score from one test date. Combined scores, also known as a superscore, from two or more tests will not be considered.

Flagship Scholarship – Incoming freshmen whose highest ACT score is 26-27 or SAT (Math + Reading) is 1170-1240, and achieve a 3.30 unweighted high school GPA on a 4.0 scale, will automatically be offered a Flagship Scholarship. The Flagship Scholarship provides $1,500 for in-state students ($3,000 for non-resident students) during the freshman year and is non-renewable. No application is required.

Provost Scholarship – Incoming freshmen whose minimum ACT score is 28 or SAT (Math + Reading) is 1250, and achieve a 3.30 unweighted high school GPA on a 4.0 scale, will automatically be offered a Provost
Scholarship. The Provost Scholarship provides $1,500 per year for in-state students ($3,000 per year for non-resident students), for up to four years of undergraduate study. No application is required.

The University of Kentucky also provides a competitive scholarship application for higher valued scholarships, for first-time incoming freshmen students with a minimum test score of 31 ACT or 1360 SAT (Math + Reading) and minimum unweighted GPA of 3.75 on a 4.0 scale. Minimum test score requirements are based on the composite or total score from one test date. Combined scores, also known as a superscore, from two or more tests will not be considered. The deadline to apply for competitive scholarships is January 15. In addition to the scholarship application, students applying for competitive scholarships must have qualifying test scores and high school transcript on file with the Office of Undergraduate Admission by January 15.

The Office of Academic Scholarships also offers special first-time incoming freshmen academic scholarships to National Merit/Achievement Finalists, Kentucky Governor’s Scholarship, and Governor’s School for the Arts freshmen academic scholarships to National Merit/Achievement Finalists, Kentucky Governor’s Scholarship, and Governor’s School for the Arts Alumni. For more information, please visit our Web site or see our contact information below.

Currently enrolled UK students, not already receiving a four-year academic scholarship, who have demonstrated high academic achievement, may apply for an Academic Excellence Scholarship. Applications are available during the spring semester and awards are made for the upcoming school year. Students must be full-time and achieve a minimum 3.50 cumulative GPA to apply. Awards are competitive and the deadline to apply is April 15.

Transfer students currently enrolled full-time at an accredited institution who will be transferring to the UK main campus for the fall semester may apply for academic scholarships. To be eligible for these Trustees Scholarships, applicants must have completed a minimum of 24 semester hours and be enrolled full-time at an accredited institution for the spring semester. A minimum 3.30 cumulative GPA is required. Awards are competitive and a limited number of higher level scholarships are awarded to students transferring to UK from the state’s community and technical colleges who have completed an associate degree or the second half of the arts and science degree and transfer with a 3.50 cumulative GPA. Students must submit a separate Trustees Scholarship Application to the Office of Academic Scholarships by May 15.

Many academic departments and colleges have funds of their own that are granted to deserving students. For more information, check with the individual college or department of interest.

William C. Parker Scholarship Program
The University of Kentucky has a mission and commitment to aggressively recruit and retain students from all segments of society, including African American, American Indian, Asian or Pacific Islander, Hispanic, and Alaskan Native students. Factors which are considered in the holistic evaluation of William C. Parker scholarship applications include test scores, grades, an essay, leadership experience, extracurricular activities, awards and recognition, community service and contribution to diversity.

The William C. Parker Scholarship Program is available for incoming freshmen, transfer, and continuing students. Students may receive only one award through the William C. Parker Scholarship Program.

For more information concerning the William C. Parker Scholarship Program, contact:

HUMAN RESOURCES STUDENT EMPLOYMENT
Human Resources Student Employment is a free referral service for UK students who are seeking part-time employment during the school year and part-time or full-time employment during academic breaks. Both on-campus and off-campus jobs in various fields with assorted required skills, pay rates, and flexible schedules are usually available.

To be considered for jobs available through HR Student Employment, UK students first complete an application through the Online Employment System (OES). Next, UK students can search the OES for available jobs and submit their application for specific jobs. After submitting an application, students who meet the minimum qualifications for specific jobs will receive an e-mail with instructions to visit Scovell Hall for a screening interview and possible referral. Casual, walk-in interviews are conducted Monday through Friday between 12:30 P.M. and 4 P.M. or by appointment.

Students can access the Online Employment System and other useful information at the HR Student Employment Web site at: www.uky.edu/HR/studentjobs/. Feel free to call us at (859) 257-9542 or (859) 257-8894.

LEGACY TUITION PROGRAM
The University of Kentucky offers partial tuition awards to eligible non-resident undergraduate children of UK graduates. An eligible student is defined as a child whose mother, father, or step-parent has earned a bachelor, graduate, doctorate, or professional degree from the University of Kentucky, whose parent or step-parent is a member of the UK Alumni Association, and who would normally be subject to non-resident tuition rates. New first-time freshmen will be eligible for the Legacy Tuition Program for a total of eight semesters. Transfer students are eligible through the equivalent of their eighth semester of undergraduate study. Semesters of prior college enrollment at other institutions are considered in the total eight semesters. Automatic renewal each semester is contingent upon the student’s full-time enrollment on the UK main campus while maintaining a good academic standing and the qualifying parent’s active membership in the UK Alumni Association. Eligibility for continued enrollment in the program will be verified each semester. Students are required to complete the Legacy Tuition Program application in order to receive the benefits.

Students who participate in cooperative education programs or who participate in Study Abroad programs should contact the Office of Academic Scholarships for information regarding eligibility during these semesters. Student athletes should contact the Athletics Office to ensure compliance with NCAA regulations.

Application Deadlines
Fall - March 1
Spring - December 1

SPECIAL AWARDS

The Herman L. Donovan Fellowship for Older Adults

The Donovan Fellowship, named in honor of the late Herman L. Donovan, University President from 1941-1956, is open to persons who are 65 years of age or older who live in Kentucky. Tuition is waived for Donovan Fellows. Students may work toward an undergraduate or graduate degree, audit classes for the joy of learning, or take individual courses for credit. The program is available at the Lexington campus. Fellows are responsible for books, supplies, parking and applicable taxes. Due to space limitations, classes rarely are available for instruction in music and voice. All state-supported institutions of higher learning in Kentucky offer tuition-free classes for persons 65 years of age or older.

For more information, contact Sharye Davis at (859) 257-2657; or e-mail: Sharye.Davis@uky.edu.

Osher Lifelong Learning Institute (OLLI) at UK in Lexington, Morehead and Somerset

Members of the OLLI at UK participate in intellectual, social, and cultural programs which characterize the university setting. Educational and enrichment courses and events are offered for adults 50 years of age and older at each of our three locations in Lexington, Morehead and Somerset. Courses are held in community locations and are offered in a variety of formats including: weekly courses, one day intensives, lectures series and special interest groups. Courses are taught in the following topic areas: culture and travel, languages, health and wellness, history and government, science and environment, and the visual and performing arts. The semester membership fee is $10; courses typically cost $10 each (additional fees may apply).

For more information, contact the OLLI at UK at (859) 257-2656; toll free at (866) 602-5862; or e-mail: Teresa.Hager@uky.edu.

Oswald Research and Creativity Program

The Oswald Research and Creativity Program began in 1964 with the express purpose of encouraging research and creative activities by undergraduate students at UK.

The objectives of the program are: (1) to stimulate creative work by undergraduate students, and (2) to recognize individuals who demonstrate outstanding achievement. This recognition emphasizes the importance the University places upon academic excellence.

The program has categories in Biological Sciences, Design (including architecture, landscape architecture, interior design), Fine Arts, Humanities/ Creative, Humanities/Critical Research, Physical and Engineering Sciences, and Social Sciences. In the science categories and the Humanities/Critical Research category, students generally submit research papers done for class or on their own. For the Humanities/Creative category, students submit short stories, original plays, or poetry. The Fine Arts category is appropriate for musical compositions, paintings, sculpture, videos/films, or photographic essays. Many fine works of art and serious research papers are recognized by the program each year. This competition is unique to the University and provides an excellent opportunity for undergraduates to test their skills and to see their academic work in a serious, professional light.

Awards are $350 for first place in each category, $200 for second place. The Associate Provost for Undergraduate Education presents the awards and a certificate to each winner at the Annual Showcase of Undergraduate Scholars held each spring.

Any undergraduate (full- or part-time, enrolled for either semester) who does not already have a baccalaureate degree is eligible to enter. For information and applications, contact the Office of eUreKa!, 115 Bowman Hall, (859) 257-6420.

Undergraduate Summer Research and Creativity Grants

One of the strengths of research institutions like the University of Kentucky is the opportunity they provide for undergraduates to be involved in research and creative projects. Engagement in educational activities outside the classroom is a key element in the learning process. Faculty members in many fields welcome the opportunity to share their expertise and assist students with research projects. Each year, the Office of Undergraduate Research supports numerous independent research and creativity projects. Awardees receive up to $2,000 to support these activities during the summer months. Awards are given out at the end of the spring semester. Undergraduate students in all academic areas are eligible to compete for these grants.

For information and applications, contact the Office of Undergraduate Research, 115 Bowman Hall, (859) 257-8734; or visit us at: www.uky.edu/ugresearch.

Other Awards Programs

Many academic departments at UK give special awards and prizes to students each year. Generally, special awards are cash prizes and are given on the basis of academic achievement or outstanding scholarship.

VETERANS BENEFITS

Benefits for Veterans and Eligible Dependents

Federal and state benefit programs for veterans and eligible dependents are coordinated through Veteran Services, located in 10 Funkhouser Building.

Veterans or eligible dependents (widow, wife of totally and permanently disabled veteran, child of deceased or totally and permanently disabled veteran) should report to the Veteran Services office during priority registration or on the Advising Conference date and pick up information about enrolling for benefits.

Students who have already applied for federal or state benefit programs should bring certificates showing entitlement or eligibility.

Students who depend on these benefits to meet their living expenses should bring enough money to cover expenses for at least eight weeks while the first benefit check is processed.

For further information on V.A. educational benefit programs, contact the St. Louis VA Regional Office, P.O. Box 66830, St. Louis, MO 63166-6830, (888) 442-4551.

Children of Kentucky War Veterans Tuition Waiver Program

Under the provisions of KRS 164.505, 164.507, and 164.515 certain children and spouses of Kentucky war veterans are eligible for assistance from the Commonwealth of Kentucky. All persons eligible under this program must meet admissions requirements and submit all necessary documents establishing eligibility under the program to the Student Records Office, 10 Funkhouser Building, (859) 257-8725.

Generally, children of Kentuckians who were killed in military action or who were permanently and totally disabled in wartime military services are eligible to have their tuition waived. This waiver does not cover special fees or additional fees that are charged for certain courses.

For additional information on the provisions of KRS 164.505, 164.507, and 164.515, contact the Kentucky Department of Veterans Affairs, Room 123, 545 S. Third St., Louisville, KY 40202.
ROTC FINANCIAL ASSISTANCE

Army ROTC Scholarships

Two-year, three-year and four-year scholarships are available through the Army Reserve Officers’ Training Corps program. These scholarships pay tuition, required university fees, $1,200 per year for textbook costs, and $300+ per month tax-free subsistence allowance while school is in session. Scholarship recipients will be commissioned as officers at the rank of Second Lieutenant in the United States Army upon graduation. Scholarship recipients will typically incur a four-year active duty commitment. Guaranteed Reserve Forces Duty Scholarships are also available.

Length of scholarship, application deadline, and where to apply:

1. Scholarship applications are accepted year-round. The address to request or submit an application is: Professor of Military Science, ATTN: Admissions Officer, U.S. Army ROTC, 101 Barker Hall, University of Kentucky, Lexington, KY 40506-0028; or call (859) 257-6865.

2. Four-year scholarships: Application deadline is January 1 of a student’s high school senior year. High school juniors and seniors are eligible to apply. To receive an application, contact: United States Army Cadet Command, ATTN: Army ROTC Scholarship, Fort Monroe, VA 23651-1052; or call 1 (800) USA-ROTC; or apply online at: www.goarmy.com/rotc. Applications can also be obtained from: Professor of Military Science, ATTN: Admissions Officer, U.S. Army ROTC, 101 Barker Hall, University of Kentucky, Lexington, KY 40506-0028; or call (859) 257-6865. All applicants are evaluated by a board that considers the following criteria: ACT/SAT scores, high school academic record, extracurricular and/or athletic activities, and personal interview.

Advance Program (last two academic years of baccalaureate degree)

All contracted cadets (committed by signing an Army ROTC contract) receive a subsistence allowance of $450+ per month while school is in session, whether or not they are scholarship recipients. Active duty commitments range from a 90-day Officer Basic Course for Reserve (Army National Guard or U.S. Army Reserve) officers to four years for active duty commitments. Normally, students attend this Camp between the junior and senior years.

Basic Program (first two academic years of the four-year ROTC program)

All students are eligible and welcome to participate in military science 100- and 200-level classes without obligation. The Basic Program focuses on an introduction to the Army, tasks common to all soldiers, and adventure training.

Leadership Training Course and Leadership Development Assessment Course

These camps are held during the summer lasting five weeks and each pays the student approximately $700. Leadership Training Course is held at Fort Knox, Kentucky, and is attended by students who wish to participate in the Advanced Program. Completion of training qualifies students to enter the Advance Program and compete for a two year scholarship. Leadership Development Assessment Course is held at Fort Lewis, Washington, and is a requirement of the Advance Program for commissioning. Normally, students attend this Camp between the junior and senior years.

Simultaneous Membership Program

This program is open to students in the Advance Program. It enables them to remain a member of, or join a local Army National Guard unit or U.S. Army Reserve unit as officer trainees while attending college. Pay through either of these units is based on that of a Sergeant E5. See the admissions officer or call your local National Guard/Army Reserve recruiter for details. Students who attend or have attended Basic Training/AIT are eligible to receive 100 percent paid tuition reimbursement, Montgomery GI Bill, Kicker, plus over $1,100 per month while serving in the Kentucky Army National Guard.

Air Force ROTC Scholarships

The types of financial assistance available through Air Force ROTC are briefly described below. For further details on eligibility and requirements, contact the Department of Aerospace Studies, 203 Barker Hall, University of Kentucky, Lexington, KY, 40506-0028, (859) 257-7115; or visit www.uky.edu/AS/Aerospace for more information. Additional information is also listed in this Bulletin under Aerospace Studies.

High School Scholarship Program (HSSP). Scholarships are available to those qualified and selected students who enroll in the Air Force ROTC program. These scholarships cover tuition and laboratory fees, provide an allowance for books, and provide a graduated nontaxable subsistence allowance ranging from $300 to $500 per month. Qualified high school students can apply for four-year Air Force ROTC scholarships. Applicants for four-year scholarships are evaluated on the basis of the following criteria: a composite score on the American College Test (ACT), or a composite score on the Scholastic Aptitude Test (SAT); the applicant’s high school academic record; class ranking; extracurricular and athletic activities; personal interview; and ability to qualify on an Air Force medical examination.

High school students who meet the basic eligibility requirements for a four-year scholarship must submit an application by December 1 of the year prior to enrollment in the program (usually the senior year in high school). All selections for four-year scholarships are made at Air Force ROTC headquarters. Critical areas are updated every year and are subject to change without notice. For current information, contact the Air Force ROTC detachment commander or at Air Force ROTC headquarters. Scholarships may be awarded for up to three and a half years. The types of financial assistance available through Air Force ROTC are briefly described below. For further details on eligibility and requirements, contact the Department of Aerospace Studies, 203 Barker Hall, University of Kentucky, Lexington, KY, 40506-0028, (859) 257-7115.

In College Scholarship Program. Scholarships are awarded to students enrolled as cadets in the Air Force ROTC program on a competitive basis. Depending on the particular scholarship program, selection may be made on campus by the Air Force ROTC detachment commander or at Air Force ROTC headquarters. Scholarships may be awarded for up to three and a half years of study. Students interested in these scholarships should call (859) 257-7115 for the latest information. Furthermore, the express scholarship program is an in college scholarship program available to students pursuing a degree in a critical areas needed by the Air Force. These scholarships can be up to three and a half years. Express scholarships are also awarded on a competitive basis for those who qualify. Express scholarships have historically been awarded to cadets pursuing academic majors in electrical and computer engineering, nursing, and certain foreign language studies. Selections for the express scholarship program are made at Air Force ROTC headquarters. Critical areas are updated every year and are subject to change without notice. For current information, contact (859) 257-7115.

Information is current as of January 2011 and is subject to change.
Living Accommodations

APPLYING FOR HOUSING

The University’s Campus Housing Office processes housing applications, assigns residence hall rooms, and notifies students of assignments.

It is important to note that applying for admission to the University and applying for University housing are two separate processes. Acceptance for one does not guarantee acceptance for the other. Also, applying for housing does not guarantee that you will be assigned housing. Usually, beginning freshmen who apply for housing prior to May 1 can be reasonably sure that housing will be available when they enter school the following fall.

Many students are disappointed when they do not obtain a University housing assignment due to late submission of the housing application. It is recommended that students apply for housing as soon as they are accepted to UK.

LIVING ON CAMPUS

The University of Kentucky has 16 traditional residence halls and four premium residence halls designed as semi-suites, providing single and double occupancy rooms for 5,000 students, about one-fourth of the student population.

The residential setting at UK is intended to contribute to a student’s education by providing a living/learning environment. There are several living learning communities within undergraduate housing. For more information about each living-learning community, visit the Student Affairs Website at: www.uky.edu/StudentAffairs/ResidenceLife/LivingLearning.html.

UK’s residence halls are the foundation upon which a solid college experience is built. Many current students believe that living in a residence hall is the best way to make friends, meet new people, and become involved in campus life. Studies indicate that overall, students who live on campus tend to have higher grade-point averages than students living off campus.

UK’s residence halls are staffed with professionally trained personnel, including resident advisors who live on each floor. The hall director and resident advisors assist in planning a variety of programs and in developing hall governments. Residents are encouraged to participate both within the hall and in the campus community.

All on-campus undergraduate residents are represented by the Resident Student Association, a group whose goal is to improve residence hall life by planning and directing social, educational and recreational programs, and by providing a unified voice for residents. The Resident Student Association is a member of the National Association of College and University Residence Halls (NACURAH, INC.), enabling interested residents to attend regional and national leadership conferences.

Room Assignments

Room assignments are determined by the date the completed housing application and housing contract are both received in the Campus Housing Office.

If housing demand exceeds capacity, students may be placed on a waiting list for housing until a permanent room assignment can be made. Each year, a number of housing recipients do not come to school, or come but do not stay, creating vacancies.

Roommates

Students may request roommates of the same gender on the housing application. Two students who wish to share a room must indicate each other as the preferred roommate, request the same residence halls, and submit applications at the same time.

RESIDENCE HALLS

UK’s residence halls have many attractive features. Housing rates include utilities, cable television, computer network connection and furniture. All residence halls are staffed by hall directors and resident advisors. Each front desk has a staff member monitoring the lobby area 24/7. Closed-circuit television systems are placed in many areas of the halls. Residence halls provide convenient access to laundry facilities, game and television rooms, vending machines, lounges, and study rooms. Dining facilities are close to all areas of campus. Smoking is not allowed on UK’s campus. UK Housing policies and procedures apply to all residents who sign a contract and live in one of the residence halls or Greek facilities managed by the University.

UK’s campus covers many acres. Students and faculty refer to the three major areas of campus as “north neighborhood,” “central neighborhood” and “south neighborhood.” UK’s residence halls are located in all three areas. Students should read about each hall and learn about the facilities and the various living-learning communities available.

North Neighborhood

The north neighborhood consists of five residence halls: Holmes, Keeneland, Patterson, Blazer, and North Hall. North neighborhood includes a dining facility and a convenience store within Blazer Hall. North neighborhood halls are close to many classrooms, Memorial Coliseum, Rupp Arena, downtown and many eclectic shops and restaurants.

Central Neighborhood

Donovan Hall and Haggan Hall are single-gender halls and make up the central neighborhood. These halls are considered centrally located because they are close to many classroom buildings, as well as the William T. Young Library and UK Hospital. The Underground Fitness Center is located in the lower level of Donovan Hall.

South Neighborhood

The south neighborhood is comprised of the Kirwan-Blanding Complex, plus three premium residence halls – Baldwin, Smith, and Ingels. These communities are located near the William T. Young Library, the E.J. Nutter Field House and Training Facility, the Hilary J. Boone Tennis Center, Lancaster Aquatic Center, Cliff Hagan Stadium, Bernard Johnson Student Recreation Center, and Commonwealth Stadium.

Women’s Residence Halls

Blazer Hall, located in the north campus neighborhood, is home to 186 women. This air-conditioned residence hall has a dining facility and convenience store located on the first floor. The visitation policy is 24-weekend.

Donovan Hall, located in the central campus neighborhood, houses 338 women. The hall is carpeted and the bunk beds can be converted to twin beds. In addition, the furniture may be rearranged. Donovan is home to the Underground Fitness Center. The visitation policy is 24-weekend.
Living Accommodations

Men’s Residence Halls

Haggin Hall, which houses 556 men, is located in the central campus neighborhood. Two dining facilities are located near Haggin: K-Lair Grill and OVID’s, located in the William T. Young Library. Haggin has a central lounge and recreation room and is completely air-conditioned and carpeted. This facility has a large study room. Haggin is also next door to the Underground Fitness Center. The visitation policy is 24-weekend.

Kirwan I, part of the Kirwan-Blanding Complex in the south campus neighborhood, houses 167 men, is air-conditioned, and is fully carpeted. Guests of the opposite gender have standard visitation.

Co-Ed Ed Residence Halls

In co-ed residence halls, men and women are assigned to separate floors in each hall and do not share common bathroom facilities. In the premium residence halls and Keeneland Hall, men and women are assigned to separate wings, and each pair of rooms shares a bathroom in a suite-style arrangement. Students are encouraged to consult with their parents prior to making their application for any residence hall.

Blanding Tower and Kirwan Tower are part of the Kirwan-Blanding Complex in the south campus neighborhood. The two towers are air-conditioned and carpeted and house 610 students each. The visitation policy for both towers is 24-weekend.

Blanding I, a three-story hall in the Kirwan-Blanding Complex, south campus neighborhood, is home to 167 co-ed students. It has a 24-weekend visitation policy.

Blanding II, a three-story hall in the Kirwan-Blanding Complex, south campus neighborhood, is home to 167 co-ed students. Blanding II has a 24-7 visitation policy.

Blanding III, located in the Kirwan-Blanding Complex, south campus neighborhood, is home to 164 residents and has a 24-7 visitation policy.

Blanding IV, a three-story hall in the Kirwan-Blanding Complex, south campus neighborhood, is home to 167 co-ed students. It has a 24-weekend visitation policy.

Holmes Hall, a four-story building in the north campus neighborhood, houses 304 students. A vending area, laundry room and study area are located on the ground floor. Rooms are carpeted and contain sinks. Holmes has modular furniture. The visitation policy is 24-weekend.

Keeneland Hall, located in the north campus neighborhood, houses 306 students and has air-conditioned rooms arranged as semi-suites (double rooms connected by a full bath). The hall also has a formal reception area and corridor study rooms. Keeneland has a 24-7 visitation policy. Keeneland is home to the A&S Wired Community. This community is offered to incoming first-year students who are interested in community service and leadership.

Kirwan II is UK’s Wellness Hall. It is equipped with a weight room and offers special programming for students who are especially health conscious. Kirwan II has a 24-7 visitation policy. It is home to 165 residents.

Kirwan III, a three-story hall in the Kirwan-Blanding Complex, south campus neighborhood, is home to 167 students. Kirwan III has a 24-7 visitation policy.

Kirwan IV, a three-story hall in the Kirwan-Blanding Complex, south campus neighborhood, is home to 167 co-ed students. It has a 24-weekend visitation policy.

Patterson Hall, affiliated with the Honors Program Community, is located in the north campus neighborhood. Patterson is the oldest residence hall on campus. Patterson has been renovated, has modular furniture and is air-conditioned. Patterson is home to 136 residents and has a 24-7 visitation policy.

North Hall, located on the corner of Martin Luther King Jr. Boulevard and Euclid Avenue in the north campus neighborhood, is home to the Arts Residential College. Arts Residential College participants will usually be in a related academic major. The program provides speakers and performers from the community and also encourages students to participate in community outings to local arts performances. In addition, students may take advantage of regular cabaret and open-mike events in the hall’s common area. Practice rooms and studio spaces for music and art students are also available. North Hall is a nine-month hall that is open during academic breaks. North Hall is home to 144 students. It has a 24-weekend visitation policy.

Baldwin Hall, located behind Kirwan III on south campus, is home to 174 co-ed residents including the Agriculture Residential College. Women and men are assigned to rooms on alternating wings. Each of the premium halls on campus has classrooms and disability-accessible rooms throughout. The spacious, semi-suite style bedrooms have a sink in each room, interchangeable furniture, and a full bathroom between each room. Baldwin Hall has a 24-weekend visitation policy.

Ingels Hall, located behind Kirwan IV on south campus, is home to the Engineering Residential College. This hall has semi-suite style bedrooms where two students in each room share a full bathroom between each room. The furniture in these rooms is interchangeable. The visitation policy is 24-weekend.

Smith Hall, located directly behind Kirwan II on south campus, is a nine-month hall open during academic recesses. Smith Hall is home to the Global Village and Global Scholars Community. This is a living-learning community designed to build cross-cultural friendship and understanding. This community is made up of students from the U.S. and many other countries. Students live together and share cultural perspectives from around the world through the experiences of daily life and specialized programs. First-year students enroll in courses that have an international focus. Smith Hall houses 174 co-ed residents. It features two main entrances that open into a spacious lobby. There are balconies and classrooms in each of the premium campus halls and each hall offers semi-suite style, two double-occupancy rooms joined by a bathroom. Disability-accessible rooms are available throughout all the premium halls on campus. The furniture in all the premium halls is modular. Smith Hall has a 24-weekend visitation policy.

Max Kade German House is a small community of students living together in a house on Maxwell Street. Students become immersed in German language and culture. Students who wish to live at Kade German House must specifically apply through the German Department. For more information, contact Professor Ted Fiedler at tfiedler@uky.edu; or Azhar Swanson at (859) 257-3761.

Office of Residence Life

The mission of the Office of Residence Life is to create inclusive residential communities that promote student learning and personal growth. In order to promote student learning and personal growth, the Office of Residence Life has identified five core values which must be incorporated into all residential communities. These are:

- Safety
- Inclusion
- Service
- Civility
- Academic Achievement

The Office of Residence Life hires and supervises the staff that live and work in the facilities, including hall directors, house directors, resident advisors, office assistants and desk clerks. Each of these staff members receives extensive training in the management of undergraduate housing facilities and can be a valuable resource in meeting any need that a student might have.

RATES

The cost for living in University Housing is listed in the Fees section of this Bulletin.
Rate Changes
Rates are subject to change at any time before the beginning of the academic year, upon action by the Board of Trustees. Rates are normally established in May for the succeeding academic year.

Apply
The rental agreement must accompany the housing application. Mail the application to the address below or fax to (859) 257-6453:

UK Campus Housing
125 Funkhouser Building
University of Kentucky
Lexington, KY 40506-0054

Cancellations
Applicants must cancel the housing application in person, by fax, by letter, or by e-mail to the University Housing Assignment Office. Students who choose to cancel their Housing and Dining application will be charged:

- $0 for cancelling prior to May 1
- $50 for cancelling by June 1
- 20 percent of fall housing charges for cancelling by July 1
- 25 percent of fall housing charges for cancelling by August 1
- 50 percent of fall housing charges plus daily prorated usage for cancelling by September 1 – this includes students who apply for housing and never move in
- Full housing charges for cancelling after September 1

After the Semester Begins
If a student withdraws from the University during the semester, the student is charged the daily rate for the time which they were in the residence hall. Students are also charged the weekly rate for the dining plan which they are on or actual usage of that plan, whichever is greater.

Between Semesters
There is no penalty for withdrawing from the University before terms. The student is released from their Housing Rental Agreement because they are no longer eligible to live in Undergraduate Housing. Students are charged the daily rate for the room assignment and dining plan which they are in until they have withdrawn from all classes and properly checked out of Campus Housing.

Liquidating (offered for Spring Semester ONLY)
The Rental Agreement is for the entire academic year, fall and spring semesters. Students who remain enrolled and wish to leave Campus Housing between semesters may choose to liquidate their rental agreement for a significant financial penalty. Details of the Liquidation Policy are available online at: www.uky.edu/Housing.

GRADUATE AND FAMILY HOUSING

The University provides apartment housing options for full-time graduate students, professional students, and non-traditional undergraduate students. Student families can apply for two bedroom apartments in Shawnee-town or Greg Page. One bedroom and efficiency apartments are available in Cooperstown and Shawnee-town for student families or single students. Commonwealth Village one bedroom and efficiency apartments are available to single students. Rose Lane efficiency apartments are available for single students with reservation priority given to veterans of the U.S. armed forces.

Furniture is provided in all apartments. (Furnishings do not include microwaves, linens, or household essentials.) The rent rate includes the cost of utilities, basic cable television service, and Internet connectivity. Laundry facilities are available.

For more information and to access our application, please visit our Web site: www.uky.edu/housing and choose “Graduate & Family”. Or feel free to contact our office:

DINING SERVICES

Dining Services in Focus
University of Kentucky Dining Services offers a variety of dining plans to fit your lifestyle with easy access to a variety of food options that are easy on your budget. Your dining plan lets you eat what, when, and where you want. Our facilities are conveniently located all across campus so it’s easy to join your friends for coffee, a meal, or a late evening snack. We offer convenience, variety, and value.

Focus on Dining Plans
College can be challenging but eating should be easy so we do all the work. No planning, no shopping, no cooking, and no dishes. Every resident hall student has a dining plan and students not living in a residence hall can have a dining plan or the Big Blue Community Plan that gives them a way to budget and save money. Eating on campus is easier and healthier than off campus.

Students who have dining plans have meals and flex dollars.

Meals – specific number per week or semester. Weekly plans have a set number of meals that are only available for the week. The block plan offers a set number of meals that are available for the semester.

Flex Dollars – work like a debit card using your Student ID and can be used at all campus dining locations. Every purchase made with Flex Dollars saves 10 percent and money can be added to this account as needed.

Students living off campus can choose a dining plan or the Big Blue Community Plan. The Big Blue Community Plans is a Flex Dollar account that saves 10 percent and money can be added to this account as needed.

Dining plans are great way to budget, save money, and eat on campus. For more information on Dining Plans, visit: www.uky.edu/diningservices.

Focus on Nutrition
Professional chefs and nutritionists oversee the development of our menu and grab ‘n’ go items. Fresh milk, meat, produce, and fruits are purchased from local farms that follow the market guidelines of the Department of Agriculture’s Kentucky Proud program, including hormone-free, pesticide
Living Accommodations

free, and without artificial flavors or preservatives. Trans-fat-free oils, low salt, and baked items provide healthier options.

We also offer professional menu consultations for students with special diet restrictions, allergies, or other food-related issues. Students who are ill can have a special comfort meal delivered to their residence hall.

Focus on Convenience

Restaurants and convenience stores are located across campus. All-you-care-to-eat restaurants and convenience stores are located in north and south residence hall complexes; popular franchise locations operate in the Student Center; central campus has restaurants in Patterson Office Tower, Erikson Hall, William T. Young Library, and near Nutter Field; and other locations are near the Chandler Medical Center.

Students also have the option to eat in or grab 'n go at our locations. Carry out is available in all of our restaurants, including all-you-care-to-eat.

Focus on Hours

Our hours of operation include having restaurants open during holidays as well as when the University’s schedule changes due to weather. Changes to the hours of operation at our locations are announced on our Web site and through social media.

Focus on Perks

Dining Services continuously brings new and exciting tastes to campus. In addition, throughout the academic year, we offer theme dinners and special events which feature regional favorites and authentic ethnic dishes from around the world. Low-fat and vegetarian items are also available daily at all campus dining locations. Students can join the Member’s Perks Club and our social networks for more special offers and advance notice of special events.

Focus on Information

Our commitment to education goes beyond the kitchen. Each location has informational pamphlets on a variety of nutritional subjects and we partner with other campus organizations for special programs on understanding portions and nutritional guidelines.

The site www.uky.edu/diningservices offers guidelines for students living off campus to help them stock a kitchen, and plan and create basic meals.

For more information about UK Dining Services, call (859) 257-6161.

Scan the Q Code using a Q Reader application on your smart phone to link to information on the Dining Plans:

STUDENT PARKING AND CAMPUS BUS SERVICE

Students can access information on topics related to parking, permit application, motorist assistance, bicycle parking, bus schedules, and review our FAQs on the Web at: www.uky.edu/Parking. Students can also subscribe to Parking E-News and Bike E-News on this Web site to receive up-to-date parking and transportation and bicycle news and information, respectively, via e-mail. For questions or for information not found on the Web site, call Parking Services at (859) 257-5757 or (800) 441-0555, or Transportation Services at (859) 257-7202 or (859) 257-6362. Students can also follow parking and transit news at: www.twitter.com/UKParking and on 1700 AM (WQKH 253).

Parking

When parking on campus, students should purchase and properly display a University of Kentucky parking permit. Application information may be found online at: www.uky.edu/Parking. The temporary convenience of illegal parking is rarely worth the hassle and expense of paying fines and/or vehicle impoundment. All R and C student lots require a valid permit by the Monday before classes begin on Wednesday. Bus service is provided from the K lots to Central Campus. Permit control signs at the entrance to each parking lot display the hours when the lot is controlled for permits. In many lots across campus, signs designate reserved spaces, which are controlled for valid permits during the hours indicated. Reserved parking includes spaces reserved for residence hall directors and people with disabilities.

Renewing Permits

Students holding C (commuter) permits from the 2010-2011 academic year, and who qualify for the same permit, may renew permits May 1 through May 31. Students residing in campus residence halls may apply for R permits as soon as they receive their housing assignment, beginning May 1, until the supply of R permits is exhausted. Other eligible students may apply for permits for the 2011-2012 academic year from June 1 through July 31, or until the supply of permits is exhausted. Any student who cannot obtain a C or R permit may obtain a K permit to park at Commonwealth Stadium. Freshmen and sophomores who commute are eligible only for K permits, while those who live on campus may apply for a K permit if the desired R permit is sold out. After August 1, applications for K permits will be accepted only online or by mail until August 31, 2011. Permits purchased after August 31, 2011 must be purchased at Parking Services, located in Parking Structure #6, at the intersection of Press Avenue and Virginia Avenue.

Parking for Students with Disabilities

Parking privileges will be granted to qualified students upon completion, acceptance, and approval of an application. The Disability Resource Center, 2 Alumni Gym, (859) 257-2754, will assist students with disabilities with the application process. Office hours are 8 A.M. to 5 P.M., Monday through Friday.

Home Football Game Day Parking

Vehicles parked at Commonwealth Stadium and adjacent lots must be removed before 9 A.M. on days of home football games. This includes the K, E, and C areas in the Stadium’s Red, Green and Blue Lots, as well as the K and/or E lots next to Greg Page. Also, no parking is permitted on University Drive after 7 A.M. on days of home football games. Failure to remove your vehicle from these areas could result in impoundment and/or a citation. Vehicles may be moved to any E lot (except C2/E lot, Parking Structure #1, Parking Structure #7 and University Drive) after 3:30 P.M. on Friday, and should be returned to Commonwealth Stadium by 5 A.M. on Monday. Vehicles may not be moved to R lots on football game weekends.

Guest Parking

Family and friends visiting campus during the week may pay to park in Parking Structure #7 (near the Kirwan-Blanding Complex), in Parking Structure #5 (next to Kennedy Book Store), or at pay parking meters. Guests may also stop by Parking Services, located in Parking Structure #6 (721 Press Avenue), at the corner of Press and Virginia Avenues to obtain a temporary parking pass. After hours and on weekends, visitors can park in lots not controlled for permits. A permit control sign at the entrance to each parking lot displays the hours when the lot is being controlled for permits.

Short-Term Parking

Parking meters are available to allow temporary parking for visitors, employees and students. Parking meters are located near the UK Bookstore, Funkhouser Building, Seaton Center and behind Memorial Coliseum. UK parking meters have time limits of either 45 minutes or three hours displayed on the meter post and on the tag inside the meter. The intent of 45-minute
meters is to provide short-term parking; they are not intended for students attending class. In addition, certain meters are reserved for specific uses. These meters are identified by signs attached to the meter posts or posted at the entrance to the parking lot.

Avoiding Parking Citations and Keeping Vehicles Safe:
- be sure to read and understand the information provided with the permit;
- do not park in fire lanes (red curbs), service areas (yellow and white stripes), loading zones (black and yellow stripes), or reserved spaces;
- do not share the permit with anyone else;
- report lost or stolen permits promptly to Parking and Transportation Services;
- do not assume that because other cars are parked illegally you may do so;
- do not park in violation, (e.g., yellow lines and fire lanes) with hazard lights flashing;
- do not leave notes in vehicles for parking control officers; and
- keep vehicles locked at all times.

AlterNetRides
An online ride sharing service connects UK faculty, staff, students, and guests who wish to coordinate carpools, and, in the process, save gas and money and decrease their impact on the environment. The service can also be used to find rides home for the weekend or in the event of a vehicle breakdown.

Users are able to search for those with similar transportation needs by time of day, frequency, and location. By communicating through the AlterNetRides Web site, personal information such as e-mail address and phone number remain confidential unless the user chooses to share them with another rider.

For more information, visit: www.uky.edu/pts/alternative-transportation_ride-matching-information.

Campus Bus Service
Students do not pay a fare when riding the LexTran campus buses and the Campus Area Transit System (CATS) shuttle buses; support for these bus services comes from parking permit fees. All LexTran and CATS buses are equipped with wheelchair lifts, and most have bicycle racks. With the exception of the Summer/Break Route, all LexTran and campus routes operate during the fall and spring semesters when UK is in official session.

All students and their guests may ride the LexTran campus buses between central campus, residence halls, and Commonwealth Stadium between 7 A.M. and 6:15 P.M., Monday through Friday. LexTran bus service begins on Wednesday at the start of classes in August and January, and operates on weekdays. The LexTran campus buses run about five minutes apart during peak hours for classes, and about ten minutes apart during off-peak hours.

The University provides additional day and night routes for those areas of campus not served by LexTran. The Red and Blue day routes operate Monday through Friday between 7 A.M. and 6 P.M., with stops every 15 minutes. The Yellow night route operates Monday through Thursday, with stops every 15 minutes between 6 P.M. and 10 P.M., and every 30 minutes between 10 P.M. and midnight. The Green night route operates Friday and Saturday nights, with stops every 30 minutes between 7 P.M. and 3 A.M.

On-demand night service is available for students who need transportation around campus. Students may telephone the driver directly at (859) 221-RIDE (7433) to make pick-up requests. The bus driver will make every effort to accommodate reasonable requests. Calls must be received at least 30 minutes prior to the end of on-demand service. The schedule for on-demand service is as follows:

<table>
<thead>
<tr>
<th>Day</th>
<th>Time</th>
</tr>
</thead>
<tbody>
<tr>
<td>Sunday</td>
<td>7 P.M. - midnight</td>
</tr>
<tr>
<td>Monday-Thursday</td>
<td>midnight - 5 A.M.</td>
</tr>
</tbody>
</table>

When the University is open but classes are not in session, the Summer/Break route operates Monday through Friday, from 7:30 A.M. to 5:30 P.M. with stops every 30 minutes.

Lexington Bus Service
Students who live off campus may find riding a LexTran city bus to and from campus is more convenient and less expensive than parking on campus. LexTran offers the Class Pass, a student pass providing unlimited LexTran rides throughout the city. Class Passes are $75 for the school year or $50 per semester (prices subject to change). For the convenience of students, Class Passes are available for sale at each of the PTS offices. For more information on the Class Pass, LexTran routes and schedules, visit LexTran’s Web site at: www.lextran.com or call (859) 255-7756.

Bicycle Parking and Registration
The University of Kentucky recognizes the bicycle as a vehicle and encourages bicycling as a mode of transportation. In an effort to provide the campus community with a safe, secure, and efficient cycling environment, the University requires that all bikes used on campus be registered, and that bicyclists observe established regulations for operating and parking bicycles on campus. Visit: www.uky.edu/Parking for more information.

Bike racks are located in front of most residence halls and classroom buildings, totaling nearly 2,800 bicycle spaces on campus. Bicycle racks should be used at all times; do not chain bikes to benches, trees, handrails or telephone poles. As with cars, bikes can be impounded if they are parked in violation.

All LexTran and some CATS buses are equipped with bicycle racks for your convenience.

PTS Car Sharing
Don’t have a car? Use ours. The PTS car sharing program offers short-term, low-cost car rental to anyone age 18 and older. For just $8-$10 per hour, members of the campus community can choose from a wide variety of Smartway-certified green vehicles with GPS navigation. The cost includes fuel, insurance and maintenance. Cars are located around campus in high traffic areas; car sharing spaces are reserved 24 hours a day. Car sharing is a great option for those who don’t have cars on campus, those who regularly use alternative transportation, and those who want to avoid wear and tear on their vehicle. Visit: www.uky.edu/pts/alternative-transportation_car-sharing-information for more details and to sign up.

PTS Ride Home Express
PTS offers an alternative travel option for students and employees in visiting a variety of destinations during academic breaks. The PTS Ride Home Express operates at the start and end of Thanksgiving, Winter, and Spring Breaks. The PTS Ride Home Express will provide reliable, comfortable, and affordable transportation to and from hometowns or break destinations during the three major academic breaks. The program offers significantly cheaper fares than airlines and faster travel times than other major bus companies. In the event that the minimum number of riders is not met, routes or stops along the routes may be eliminated.

Round-trip fares for the PTS Ride Home Express begin at just $49, with prices varying based on the final destination. For more information, visit: www.uky.edu/pts/buses-and-shuttles_ride-home-express.
Otis A. Singletary Center for the Arts
Located on the corner of Rose Street and Euclid Avenue, the Singletary Center for the Arts serves as the primary performance facility for the University, as well as for many community and regional events. The Center includes a 1500-seat Concert Hall and a 400-seat Recital Hall, both designed for acoustical excellence.

The Singletary Center opened in the fall of 1979 and has hosted an average of 400 events annually, with 123,000 patrons attending each year. In addition to presenting almost 175 annual performances by the School of Music faculty and students, the Center presents two concert series: the Corner on Classics Series and the Turning the Corner Series.

The Singletary Center is also the primary performance venue of the community arts organizations, such as the Lexington Philharmonic Orchestra, the Central Kentucky Youth Orchestra, the Chamber Music Society of Central Kentucky, and the Lexington Men’s and Women’s Choruses. In addition, the Center houses the Gallery at the President’s Room, which showcases regional, local, and student art exhibits. Admission to the Gallery is free.

The Center offers discounts and/or free admission to numerous programs for students, faculty and staff with a valid UK ID. For more information, call (859) 257-1706; or visit online at: www.uky.edu/SCFA. For ticket information, call the Singletary Center Ticket Office at (859) 257-4929. To buy tickets online, visit: www.singletarytickets.com. The ticket office is open 10 A.M. to 5 P.M. Monday through Thursday, 10 A.M. to 6 P.M. on Friday, and 12 P.M. to 5 P.M. on Saturday if there is a ticketed performance.

Singletary Signature Series
For 28 years, the Singletary Center for the Arts has provided students with the best of the classical music world. The Singletary Signature Series, sponsored by the Singletary Center and the College of Fine Arts, offers audiences the highest standards of artistic excellence usually found in major metropolitan art centers. Each year, the series features five classical concerts by world-renowned musicians. Past performers include the Canadian Brass, the King’s Singers, the Moscow State Radio Symphony Orchestra with Navah Perlman, Denyce Graves, Savion Glover, and Mark O’Connor.

Don’t miss the opportunity to see some of the world’s best performers right here on UK’s campus. Ticket prices are based on seating location.

For more information about the Singletary Signature Series, performers, tickets and dates, call (859) 257-4929; or check out the Web site at: www.uky.edu/SCFA.

Theatre
The UK Department of Theatre produces a dynamic season of plays and performances each season, inspired by its global curriculum and dedication to artistic excellence and professionalism. Housed in the historic Guignol Theatre on Rose Street, season repertoire features innovative reinvention of classics, original work developed by students and faculty, and new plays by emerging voices in the American Theatre. All performances are open to the Lexington as well as the UK campus community. For more information on auditions and other theatre activities, visit: www.uky.edu/finearts/theatre.

University Concerts
The School of Music sponsors a variety of recitals and concerts throughout the year by faculty and students. Student organizations include the Symphony Orchestra, the Wind Ensemble, Symphonic Band, the Concert Band, the University Choristers and Chorale, the UK Jazz Ensembles, the Percussion Ensemble, the Trombone Choir, Men’s Chorus, Women’s Choir, the Tuba Ensemble, Opera Theatre, Mega-Sax, Paws and Listen, and the AcoUstiKats.

Faculty recitals, faculty ensemble concerts, and concerts by student organizations are usually free to students, faculty, staff, and to the community.

Chamber Music Society of Central Kentucky
The Chamber Music Society of Central Kentucky offers a series of concerts featuring outstanding chamber music ensembles of national and international reputation. Most performances are held on campus at the Singletary Center for the Arts. Tickets are available individually or by subscription. For ticket information, call (859) 257-4929.

Lexington Philharmonic Orchestra
The Lexington Philharmonic Orchestra is conducted by Scott Terrell and performs regularly in the Concert Hall of the Singletary Center for the Arts. The orchestra plays a varied repertoire and features outstanding guest soloists at each concert. Tickets are available individually or by subscription. For ticket information, call (859) 233-4226.
Martin Luther King, Jr. Cultural Center

Since its establishment in 1987, the Martin Luther King, Jr. Cultural Center (MLKCC) has been a vital cultural/educational resource center on the University of Kentucky campus. Through its year-round calendar of programs and activities, the Center promotes the vital importance of cultural awareness and cross-cultural understanding. MLKCC-sponsored programs such as lectures, concerts, theatrical and dance performances, film and video, exhibits and workshops have broadened the university experience for thousands of students, faculty, staff, and members of the broader community. For more information, visit: www.uky.edu/MLKCC.

Mission

The mission of the MLKCC is to help advance the university’s goal of achieving a genuinely diverse, inclusive campus environment which supports the development of students who are prepared to contribute to a highly complex, multicultural, global society. Our aim is to foster a richer understanding and appreciation for the cultural heritage of African American and Latino peoples of America while showing how diversity intersects, overlaps, and complements the cultures of all people.

Values

Education should strive to transcend what is learned in the conventional classroom setting. Learning and development are also achieved through our various social, cultural and interpersonal interactions. In all of its initiatives, programs, activities and sponsored events, the MLKCC values:

- Truth and Integrity: We seek the truth and promote honesty and integrity in all matters, from the information that we disseminate to the way that we transact our day-to-day business.
- Creativity and Resourcefulness: Our constant search for fresh ideas and innovative ways of doing things enables us to make full and productive use of available resources.
- Respect and Acceptance: The MLKCC is enriched by people who have different perspectives, experiences and worldviews. We respect these differences and strive to embrace them as we celebrate the vast diversity of the human experience.

The Martin Luther King, Jr. Cultural Center is located in 133 Student Center, across from the UK Bookstore. The Center is open Monday through Friday. For more information, call (859) 257-4130 or visit the MLKCC Web site at: www.uky.edu/MLKCC.

University Art Galleries

The University has four main art galleries. The Department of Art sponsors The Tuska Gallery, the main exhibition space of the Tuska Center for Contemporary Art, located in the Fine Arts Building. The Tuska Center brings to campus a series of exhibitions of cutting-edge, provocative art in traditional and experimental media of regional and national importance. The gallery was dedicated to the late John Tuska, University of Kentucky faculty emeritus, in 1996. The Raymond Barnhart Gallery in the Reynolds Building houses B.A. and B.F.A. senior exhibitions as well as juried shows. The Barnhart is home to the Department’s annual Open Studio held the first Friday in December. The Raymond Barnhart Gallery in the Student Center is run by a student board and features work by local, regional, and national artists in a variety of media. The Pence Hall Gallery, under the direction of the College of Design, combines exhibits of architectural interest featuring painting, drawing and sculpture.

The Art Museum at the University of Kentucky

The Art Museum at the University of Kentucky, accredited by the American Association of Museums, is Lexington’s premiere art museum with an encyclopedic collection of more than 4,500 objects. Areas of strength include Italian Baroque and American Abstract Expressionist painting, photographs, prints, American and French art glass, decorative arts, and regional art. Non-Western objects include Iranian, pre-Columbian, and African works.

The Museum serves both a regional and national audience with a variety of permanent collection exhibitions as well as traveling exhibitions and educational programs. Prearranged group and class tours led by museum volunteers or staff are encouraged. The Museum offers students training opportunities for work-study and internships as well as a Museum Studies course in partnership with the Art Department. For more information, visit our Web site at: www.uky.edu/ArtMuseum.

The Art Museum, located in the Singletary Center for the Arts at the corner of Rose Street and Euclid Avenue, is open noon to 5 P.M. Tuesday through Sunday, and noon to 8 P.M. on Friday. The Museum is closed on Mondays and University holidays. Admission to the permanent collection exhibitions is always free, and admission to special exhibitions is free for all students and UK faculty, staff, and alumni.

William S. Webb Museum of Anthropology

The William S. Webb Museum of Anthropology is the major curation facility for archaeological collections in the state. The Museum was founded in 1931 by William S. Webb, and houses many unique collections recovered from archaeological excavations all across the Commonwealth. Every year we welcome researchers from all parts of the world who come to study, photograph and interpret the material remains representing 12,000 years of Native American life in Kentucky, and the last 200 years or so of the Commonwealth. The museum library contains approximately 9,000 volumes on Kentucky prehistorical and historical archaeology. Researchers are welcome to apply to the Museum for collections access.
The University of Kentucky Libraries offer students many academic services at more than a dozen library locations across campus. Students may use any library, regardless of major. Once your student ID is validated at a campus library, you can use it to check out materials at any location and access library resources online. All our libraries share access to the catalog and databases of electronic journals and articles. Knowledgeable staff members are ready to help you find the information you need in person or via e-mail, chat, or phone.

In addition, you can do library research from home, renew items online, and access course reserves at the most convenient library location. Check out the library’s Web site and the numerous online resources available at: www.uky.edu/libraries.

The library employs several hundred students each year in a variety of different jobs. No experience is required and schedules can be early or late according to your needs. You can find an employment application at the Student Employment site: www.uky.edu/HR/studentjobs/.

A few things you can do at Young Library:

- Study late
- Get information resources for your paper or project
- Reserve a room to study with friends
- Check out a video or watch it in the library
- Get help writing your papers at the Writing Center
- Create a group study space with whiteboards and mobile furniture
- Read a newspaper from anywhere in Kentucky
- Edit a video on a Mac
- Take a food and drink break
- Check out a laptop for use in the library
Student Services and Activities

DEAN OF STUDENTS OFFICE

The University of Kentucky Dean of Students Office provides both administrative and educational services that support the personal and academic success of students. The office provides extracurricular, non-academic educational programs and also collaborates with academic units to provide support for students in reaching their educational goals.

University Discipline

University of Kentucky students are citizens of both the University community and the city of Lexington. While the University is a place where the search for truth is carried on through free inquiry, it is not a sanctuary for those who seek freedom from moral, social and legal obligations. As residents of Lexington, students have the same rights and responsibilities as other citizens, both on and off campus.

Students are subject to institutional disciplinary procedures when offenses are committed against the University or our community of scholars. The Code of Student Conduct, adopted by the Board of Trustees, revised July 1, 2010, sets rules for student behavior that are consistent with the goals and purposes of this academic institution and establishes procedures that insure equality and fairness in dealing with all students.

Part 1 of the Code of Student Conduct states the rules, procedures, rights and responsibilities governing non-academic relationships between the University and students enrolled at the University. The Code defines prohibited behavior and specifies the disciplinary process. The Code also states the sanctions that can be imposed when a student or student organization is found responsible for a violation.

A document entitled Student Rights and Responsibilities includes the student code and can be accessed in its entirety at: www.uky.edu/studentaffairs/code.

Fraternities and Sororities

The University of Kentucky hosts 25 national fraternities and 20 national sororities. The undergraduate members are primarily responsible for operating these groups, with the assistance of a house director, local alumni and University advisors. The advisors are concerned with all areas of fraternity and sorority operations – recruitment, pledging, scholarships, housing, finance, leadership, personal growth and University involvement.

Sororities affiliated with the National Panhellenic Council hold a formal recruitment period the week prior to school opening in the fall. This is followed by open membership selection throughout the year for candidates to fill available vacancies.

Fraternities affiliated with the North American Interfraternity Conference host a recruitment week at the beginning of both the fall and spring semesters. Open recruitment takes place throughout the remainder of the school year.

Sororities and fraternities affiliated with the National Pan-Hellenic Council will announce individually their membership intake process during the semester. Pledging is not a prerequisite for membership.

Sororities and fraternities at the University of Kentucky follow the dictates of The Code of Student Conduct which prohibits student organizations from discriminating against any person due to race, color, or religious affirmation or belief.

The governing bodies for Greek life are the Interfraternity Council, the Panhellenic Council and National Pan-Hellenic Council comprised of representatives from each group on campus. The Inter-Greek Programming Assembly coordinates Greek service activities, Greek Week, and chapter recognition.

The Office of Fraternity and Sorority Affairs, the Interfraternity Council, the Panhellenic Council and the National Pan-Hellenic Council are located in 575 Patterson Office Tower. For more information, call (859) 257-3151; or, access the fraternity and sorority Web site at: www.uky.edu/StudentAffairs/Greek.

University Health Service

The University has a comprehensive health care program for all University of Kentucky students. Located in the University Health Service Building on South Limestone next to the Wethington Building, University Health Service provides outpatient medical and behavioral health services. The Health Service provides consultation and treatment for illnesses and injuries, incorporating a broad range of primary care and preventive medicine disciplines. The Student Behavioral Health Clinic recognizes that emotional and psychological health are important factors in a student’s ability to perform well academically and adjust socially. It offers evaluation, brief crisis intervention, and medication management to UK students. Student health records are strictly confidential and may be released only as permitted by applicable state and federal law.

The regular semester clinic hours are 8 A.M. to 6 P.M., Monday through Friday; and 9 A.M. to 11 A.M. on Saturday (fall and spring semesters). Summer hours and hours when school is not in session are 8 A.M. to 4:30 P.M. After hours, urgent care is available at the UK Chandler or UK Good Samaritan Emergency Rooms or local urgent treatment centers. The health fee does not cover the cost of any after-hours care. Any accumulated charges are the patient’s responsibility.

Payment of the mandatory health fee by full-time students entitles them to use the services provided by the Health Service during the regular fall and spring semester for reduced or no cost. Part-time students may use the health service on a fee-for-service basis or may pay a semester health fee. The summer health fee is voluntary for all students and must be pre-paid by the published deadline. Summer students may also choose to be seen on a fee-for-service basis.

University Health Service does not cover the expense of referrals, hospitalization, after-hours care, surgical, radiology, and most laboratory services. University Health Service and other UK HealthCare programs assume

University of Kentucky 2011-2012 Undergraduate Bulletin 45
Student Services and Activities

no responsibility or liability for medical expenses incurred by students beyond those covered by University Health Service. It is highly recommended that all students carry health insurance. (NOTE: All international students are required to have university-approved health insurance.) For more information about health insurance, contact University Health Service, University of Kentucky, 830 South Limestone, Lexington, KY, 40536-0582, (859) 218-3208. Immunizations required or recommended by federal and state agencies, CDC, and ACHA are also required/recommended for UK students. Please see the UHS Web site for more details.

For questions or further information, call (859) 323-5823; or visit University Health Service on the Web at: www.ukhealthcare.uky.edu/uhs.

Religious Affairs

While the University does not directly sponsor religious activities, it both welcomes and supports the diverse religious traditions and organizations on campus. A member of the Dean of Students staff assists religious groups through the Religious Advisors Staff, an organization of campus ministers and religion-based student organizations. The Religious Advisors Staff includes the following: Athletes in Action, Bahá’í Association, Baptist Campus Ministry, Campus Crusade for Christ, Catholic Newman Center, Chi Alpha Christian Fellowship, Christian Student Fellowship, Church of Christ/CATS for Christ, Disciples of Christ, Graduate Christian Fellowship, Inter-Varsity Christian Fellowship, Jewish Student Organization/ Hillel Foundation, Lutheran & Episcopal Campus Ministry, Muslim Student Association, Orthodox Christian Student Association, Presbyterian Campus Ministry, Reformed University Fellowship, and United Methodist Center Wesley Foundation.

For more information or a list of the student organizations, contact the University Liaison, Dean of Students Office, 2 Alumni Gym, (859) 257-2754.

UK Parent Association

The UK Parent Association believes that students’ success is enhanced by well-informed parents and families. The Parent Association invites all parents and guardians of UK undergraduate students to join its membership. Membership benefits include receiving publications such as the Insider’s Guide handbook for families of new UK students, the Family Focus print newsletter, and the Cat Chat e-mail newsletter. The Parent Association coordinates events for students and families during K Week and Family Weekend.

The Parent Association is coordinated through the Office of New Student and Parent Programs. The NSPP staff is happy to assist parents and family members with questions and concerns related to their students and UK. For more information on the Parent Association, including how to join and more detailed membership benefits, visit: www.uky.edu/parents.

Office of Substance Education and Responsibility

The mission of the Office of Substance Education and Responsibility is to empower the University of Kentucky and Lexington communities to make healthier and safer lifestyle choices in the areas of alcohol, drugs, and mental wellness. We offer a variety of resources and programs that encourage responsible decision making and thought processes. Two of the office’s most recognized programs are AlcoholEdU and Student Wellness Ambassadors. AlcoholEdU is an online alcohol education program that is mandatory for all non-transfer, first-year students who are under 21 years of age. Students must complete Part One of this program before arriving to campus. Student Wellness Ambassadors is a peer education organization that shares the same mission of the office. The Ambassadors educate their UK peers and serve as mentors to youth in the community. For more information, visit: www.uky.edu/StudentAffairs/HealthAlcohol and www.q-authority.org or call (859) 257-9687.

Disability Resource Center

The mission of the Disability Resource Center is to provide and coordinate services that will allow students with disabilities equal access to the University’s educational, social, and cultural opportunities. Students with temporary disabilities, documented physical or learning disabilities, or who want to learn more about disability concerns may receive assistance and support from this office. Services are tailored to meet the needs of individual students based on their specific disabilities. The services provided through the Disability Resource Center include, but are not limited to, determining needed classroom and exam accommodations, providing priority advance registration, assigning sign language interpreters, screening applicants for disability parking permits, assisting with campus arrangements, and providing information about other available campus resources.

Students with permanent disabilities include individuals with physical conditions, medical disorders, learning disabilities, attention deficit/hyperactivity disorder, and other psychological disorders. Students with temporary disabilities include those who are recovering from surgery or who are being treated for temporary medical conditions (sprained ankle, broken leg, etc.). All students must provide current documentation of their disability and the need for accommodations before services can be provided.

Students with cognitive disabilities frequently request classroom and exam accommodations. Eligibility for these accommodations is based on current documentation of the disability that validates the need for the requested services. A current psychological assessment using comprehensive adult cognitive measures (i.e., WAIS-III, WJ-Cognitive) and comprehensive achievement measures (i.e., WJ-Achievement, WIAT) is required for all students with learning disabilities. The psychological report must provide educational history, functional limitations, fully disclosed standard scores and percentiles for all normed measures, and need for accommodations.

Students with ADHD or other psychological disorders must provide current medical or psychological documentation of their diagnosis that confirms their educational history, functional limitations, and need for accommodations.

All students with disabilities are urged to register with the Disability Resource Center and obtain information about the various types of assistance available to them. The office is located in 2 Alumni Gym. For more information, call (859) 257-2754 (voice/TDD); or visit online at: www.uky.edu/DRC/.

CAMPUS RECREATION

The Department of Campus Recreation offers wholesome physical activities and sports programs for students, faculty and staff. Activities include intramural sports, club sports, outdoor pursuits and adventure trips, leisure recreation, and fitness programs.

Bernard Johnson Student Recreation Center

The Bernard Johnson Student Recreation Center is an 87,000 square-foot state-of-the-art facility. The Center has the latest in equipment and amenities. Major spaces include basketball courts, racquetball courts, a fitness center, aerobics studios, a climbing wall and more. All students are encouraged to visit the Center and make positive, healthy use of leisure time.

Lancaster Aquatic Center

Lancaster Aquatic Center is available for recreational swimming during open hours. For information, call (859) 257-7946.

Intramural Sports

The Intramural Sports program provides competition between students at UK. Individual, dual, and team sports events are available. Teams are organized into the following divisions: residence halls, fraternities, sororities, independents, and faculty and staff.
Club Sports
The Club Sports program provides opportunities for UK students, faculty, and staff who desire a more in-depth sports experience than is provided in the Intramural and/or open recreation program. For a list of current club sports, contact the Department of Campus Recreation at (859) 257-3928.

Adventure Trips
The Outdoor Pursuits program offers a variety of adventure trips for UK students, faculty, and staff. The trips vary from day hiking in the beautiful wild regions of Kentucky, to a weekend of whitewater rafting in West Virginia, to snow skiing at one of the regional spots close to Lexington.

For More Information
For more information about recreational programs or facilities, contact the Department of Campus Recreation, 177 Johnson Center, (859) 257-3928. Visit us on the Web at: www.uky.edu/StudentAffairs/CampusRec.

STUDENT CENTER
The University of Kentucky Student Center is the “living room” of campus. Students are welcome to watch their favorite television program in the Cats Den, eat at one of our many dining venues, or just study in a relaxing atmosphere. Students, faculty and staff are also invited to check their e-mail on one of the available wireless laptops available in the Cats Den. Or enjoy sipping a cup of coffee at Starbucks. The Cats Den plays host weekly to the Comedy Caravan featuring national touring comedians, and offers many leisure, entertainment and recreational opportunities. Each year the Student Center hosts over 8,200 events with well over a million visitors. Come be a part of your Student Center.

Those interested in becoming active on campus can visit the Center for Student Involvement, Office of Student Involvement, or inquire about becoming a member of Student Government in the SGA office. Want to purchase a ticket to an upcoming concert or UK event? The Student Center is also the location of the official UK Bookstore and is home to one of the branches of the University of Kentucky Federal Credit Union.

Our professional and student staff aims to provide an atmosphere of social and intellectual interaction in an informal setting. There are many opportunities for students to gain experience in management, and marketing, as service representatives, and in public relations through employment opportunities at the Student Center. For more information or to reserve a room, call the Director’s Office at (859) 257-5781.

Student Organizations
Student organizations are created as a result of student interest and serve the needs of a variety of students. Many provide programs that supplement the classroom experience and extend into areas of community service. All provide learning opportunities and leadership training for participating students and help to create lasting friendships for those involved.

There are over 425 registered student organizations on the UK campus. These include multicultural, governmental, political, honors and leadership organizations, recognition societies, social fraternities and sororities, club sports, departmental/professional organizations and special interest groups like the Black Student Union, Military Veterans of America, Non-Traditional Student Organization and the OUTsource. There are also numerous student organizations that focus on the religious, recreational, community service, media and international needs of students.

For more information about student organizations and campus activities, contact the Center for Student Involvement, 106 Student Center, (859) 257-1109 or visit: getinvolved.uky.edu.

Leadership Development
The Division of Student Affairs sponsors a variety of leadership programs to complement the academic experience. The Emerging Leader Institute provides first- and second-year students the opportunity to develop leadership skills and expand their understanding of the principles of leadership. Course components include structured experiences in effective communication, ethical decision making, applied leadership styles, empowering others, visioning and project planning, and developing mentor relationships. The institutes are selective in admission and participating students earn academic credit. Applications and course schedules for the institute are available in the Center for Student Involvement (106 Student Center) and online at: getinvolved.uky.edu/Leadership/ELI/welcome.htm or getinvolved.uky.edu.

The University Leadership Summit is a year-long leadership experience for outstanding student leaders at UK. This prestigious program starts with a three-day leadership conference in September and continues throughout the year with a series of monthly leadership summits and a year-long leadership project. Participating in Summit will build unity among campus leaders, create a collaborative campus climate, provide basic leadership training, and increase Wildcat pride. More about the University Summit is available online at: getinvolved.uky.edu/Leadership/Summit/index.html. In order to participate in Summit, students must be nominated by a member of the UK faculty, staff, or current Summit Peer Facilitators.

The Leadership Resource Center has been established to support and enhance the student leadership development programs of UK. All UK students, faculty and staff who are interested in learning more about leadership may check out these reference materials by presenting their UKID cards. The Center houses material resources such as books, videos, workshops, tips, etc., that focus on leadership development issues including leadership skills; leadership theory; recruiting and motivating group members; leadership and gender; service; ethics; and personal development, just to name a few.

In addition, freshmen at UK can get a head start in leadership development by applying for the Leadership Development Program (LDP). Coordinated and facilitated through Student Government, the LDP attempts to build future leaders for the University as it helps participants get involved from the moment they set foot on campus. The Program brings together 40 selected freshmen from throughout campus, and meetings are held bi-weekly throughout the year. Each meeting focuses on a different leadership development topic, including networking, communication, ethics and diversity, just to name a few. Each semester, students also collaborate to complete a community leadership project.

Every year, the Office of Student Involvement hosts the annual Honors and Recognition Awards Program. This campus tradition seeks to recognize the best and brightest students from all across campus through various scholarships, departmental, campus, and community awards.

Established in 2008, The Peer Resource Team (PRT) is a student leadership group who seeks to engage students and unite the campus community. They strive to promote involvement, encourage collaboration between organizations, and educate students about available resources. PRT students reach out to their peers by offering programs, one-on-one consulting, and by helping facilitate involvement sessions with UK 101 classes.

Leadership development at the University of Kentucky continues to grow, and we encourage all students, faculty and staff to learn more by visiting: getinvolved.uky.edu/Leadership/; or by contacting the Office of Student Involvement at (859) 257-1099 or (859) 257-8867.

Center for Community Outreach
The UK Center for Community Outreach (CCO) is a student-run program that joins groups of students who are interested in enhancing their community, as well as their college experiences, by volunteering. With a student team and advisory staff, UK’s Center for Community Outreach hosts a number of regular service events. These events include small- to medium-
group projects in the areas of health and wellness, outdoor excursions, elderly companionship, hunger and homelessness, and youth activities. In addition, the CCO offers large-scale service projects. UK FUSION is a one-day service project that includes hundreds of students and staff members volunteering at over 90 community agencies in the Lexington area. UK Dance Blue is a 24-hour dance marathon hosted by the CCO to benefit the Pediatric Oncology Unit at University Hospital. Students who are interested in volunteering on an individual basis can attend the Center for Community Outreach’s Volunteer Fair, which occurs during the fall semester. Community agencies from Lexington and beyond send representatives to inform students about their agencies and volunteer opportunities. For more information, stop by 106C Student Center (in the Center for Student Involvement), call the CCO at (859) 257-9385, or visit: www.ukcco.org.

**ACADEMIC OMBUD SERVICES**
The Academic Ombud helps resolve academic disputes between students and faculty or administration. When students are unable to resolve grievances or complaints through usual means, the ombud may be able to expedite the process or advise the student about the proper procedures to follow. Problems include, but are not limited to, violation of students’ academic rights, unfair teaching and grading practices, cheating and plagiarism, and discrimination and harassment. All cases are held in strict confidence.

The Office of Academic Ombud Services is open from 8 A.M. to 4:30 P.M. and is located in 109 Bradley Hall. For information, questions, or appointments, call (859) 257-3737.

**FINANCIAL OMBUD SERVICES**
The Financial Ombud provides a neutral and confidential setting for current and prospective students and their parents to discuss difficult or unusual financial problems affecting tuition and fee payment. The Financial Ombud resolves problems, counsels, and makes recommendations and referrals as needed.

The Office of the Financial Ombud Services is open from 8 A.M. to 4:30 P.M. and is located in 18 Funkhouser Building. For information, questions, or appointments, call (859) 257-3406.

**ATHLETICS**
The University of Kentucky sponsors 22 athletic teams in both men’s and women’s sports and is a member of the National Collegiate Athletic Association and the Southeastern Conference. The University fields representative teams in a variety of varsity sports: basketball, football, baseball, tennis, golf, track, cross-country, soccer, swimming, and rifle for men; and basketball, golf, gymnastics, rifle, soccer, swimming, tennis, track, cross-country, softball, and volleyball for women. These various teams provide wholesome entertainment for the student body, faculty, staff, alumni, and general public. Students interested in joining a team should contact the head coach’s office in the sport of interest.

The Athletics Association helps support the band, cheerleaders, and the Student Athletic Committee; aids the Kentucky High School Athletic Association by supplying facilities for district, regional and state tournaments in all sports; provides athletic scholarships for approximately 370 student athletes; and provides grants to the University of Kentucky for academic scholarships.

**OFFICE OF INTERNATIONAL AFFAIRS**
The Office of International Affairs (OIA) supports the University’s global vision by providing leadership, raising awareness, facilitating the pursuit of international education and encouraging global collaborations for the University community and the Commonwealth.

**Education Abroad at UK**
Education Abroad at UK supports students interested in earning UK credit through study abroad, international internships and service learning. Edu-

**International Student & Scholar Services**
International Student & Scholar Services (ISSS) provides a variety of resources for international students and scholars at UK. Services include immigration assistance, orientation activities and guidance related to non-academic concerns and cross-cultural programming for both domestic and international students. Immigration specialists also assist academic departments with the hiring and retention of international personnel and faculty. Moreover, ISSS works with residence life on programming for the Smith Hall Global Village Living-Learning Community and coordinates Lexington’s International Hospitality Program. For additional information, call (859) 257-4067, ext. 237.

**Community Relations**
The Community Relations unit of the Office of International Affairs focuses on outreach, supporting UK’s commitment to the Commonwealth of Kentucky. The Community Relations team gives presentations to and provides resources for K-12 students and teachers. They facilitate interaction with UK’s international students and the Lexington community, particularly in schools. They also field requests for translators, resources and international programming and serve as UK’s liaison to Kentucky-Ecuador Partners of the Americas and the United States Peace Corps. For details, call (859) 257-4067, ext. 248.

**UK Asia Center**
The UK Asia Center is an interdisciplinary unit that works with all colleges and the Graduate School at UK – as well as state agencies and communities across the Commonwealth – to foster a broader understanding of Asia. The Center provides leadership and coordination for Asian Studies at UK, develops new education abroad opportunities and scholarships for undergraduates to study in Asia, sponsors numerous events about Asia that are open to the public (lectures, concerts, film screenings), and holds professional development seminars for K-12 teachers. To learn more, call (859) 257-7858.

**UK Confucius Institute**
Established in 2010, the UK Confucius Institute is a center for Chinese language, culture and art that is committed to providing educational and cultural exchange between China and the Commonwealth of Kentucky. Operating in cooperation with UK’s partner institution, Shanghai University, it provides leadership and support for Chinese language training and programs in K-12 classrooms and on the UK campus and works closely with Education Abroad at UK, as well as UK’s various colleges, to strengthen faculty and student exchange programs and Chinese studies programs. The institute is also a resource for the Lexington community. Classes in conversational Chinese, business Chinese and Chinese art and culture are available. Additional services include training for K-12 Chinese language teachers and summer camps for youth. For more information, call (859) 257-4607 or visit: www.uky.edu/confucius.

OFFICE OF INSTITUTIONAL DIVERSITY

The University of Kentucky prepares students for meaningful and responsible engagement within and across diverse communities. Through its own example and engagement, the University strives to improve the climate for diversity throughout Kentucky, a commitment given special importance and emphasis by shared history. The composite effect of work with students in classrooms, residence halls, offices, laboratories, clinics, libraries, and public places should be to enable them to develop a more enlightened worldview; attain a deeper understanding of and commitment to authentic democratic values and social justice; embrace a greater commitment to service and leadership for the common good; exhibit greater cultural knowledge and competence; and facilitate Kentucky’s success in the global economy.

The Office of Institutional Diversity has a primary responsibility to advance the University’s commitment to embracing difference and promoting increased knowledge of diversity and its significance as a fundamental value of the campus community. Of equal importance is its mission to provide academic support services to help ensure the academic success and personal development of all students, but especially those students from backgrounds that have been historically underrepresented on the University campus.

Martin Luther King, Jr. Cultural Center

The Martin Luther King, Jr. Cultural Center has a long, illustrious history on the UK campus. Since its establishment in 1987, the King Cultural Center has been a vital cultural/educational resource on the UK campus. The center offers a relaxed but affirming atmosphere designed to enhance the recruitment and retention of students from diverse backgrounds. Now in its third decade of operation, the center has evolved into a cultural and educational resource facility where all students of the university can come together to be enriched through cross-cultural exchange and diverse cultural experiences.

The essence of the center is its annual calendar of high quality cultural/educational programs consisting of lectures, concerts, theatrical and dance performances, film and video screenings, as well as exhibits and workshops. These programs have enriched the university experience for thousands of students, faculty, staff and members of the greater community. For more information, visit: www.uky.edu/MLKCC.

Center for Academic Resources and Enrichment Services (CARES)

CARES offers academic support services and enrichment opportunities that enhance the student’s undergraduate experience. The overall program goals are to increase the retention and graduation rates of students traditionally underrepresented in post-secondary education, including African American, Latino, and Native American students.

The Center’s services and programs include tutoring, study groups, academic planning and monitoring, career exploration and networking opportunities, personal development workshops, graduate school information and preparation, the Freshman Summer Program (FSP), a six-week academic enrichment program, and help with personal issues.

For additional information, call (859) 323-6347, stop by CARES at 600 South Limestone Street, or visit us at: www.uky.edu/Diversity.

Student Support Services

Student Support Services (SSS) is a federally-funded TRIO program designed to provide comprehensive academic support to improve academic performance and increase retention and graduation rates. Participation in SSS requires that a student be a U.S. citizen and at least one of the following: (1) first-generation college – neither parent has a baccalaureate degree; (2) low income – according to federal guidelines; and (3) have a documented disability. When a student has been accepted into the program, all program services are free. Services offered include: individual and group tutoring (in any subject), academic planning, personal counseling, peer mentoring, career counseling, financial aid information, study skills instruction, writing assistance, graduate school preparation, technology assistance, cultural/social activities, and limited computers, calculators, and a small resource library for check-out and on-site use.

Students interested in becoming a part of the SSS program should stop by the office at 6 Alumni Gym to pick up an application; or call (859) 257-9797 to request an application be mailed to you, or for additional information.

Minority College Awareness Program

The Governor’s Minority College Awareness Program at the University of Kentucky is comprised of several early intervention components focused on preparing African American and other underrepresented students for success in postsecondary education institutions. In addition to the component that meets at UK, components are also hosted at Winburn Middle School (RAP – Realizing Academic Potential) and YMCA Black Achievers Program/7th and 8th Grade Education Enhancement Cluster that meets at Lexington Traditional Magnet School.

Each component integrates a primary focus on mathematics with other disciplines such as science, African American history, language arts and communications. Student participants are identified for MCAP based upon referrals from schools, churches, parents and other sources. Parents are required to support their children through transportation and participation in parent workshops, seminars and other open house activities. For more information, contact the director at (859) 257-4098.

Health Colleges Institutional Diversity

As part of the network of the Office of Institutional Diversity, this office works towards promoting collaboration among administration, faculty, staff and students in earnest pursuit of UK’s diversity goals. The mission is to sustain and nurture a diverse, caring and inclusive environment for all students to achieve academic excellence. To help accomplish this vital goal, the Health Center Student Diversity Services office serves to facilitate the recruitment, retention and professional development of underrepresented students in the professional healthcare programs of Dentistry, Health Sciences, Medicine, Nursing, Pharmacy and Public Health. Throughout the year, programs, workshops and activities are planned to provide leadership on diversity issues, exposure to professional experiences and academic support to students seeking admission as well as to those already enrolled in a health professions degree. The overall goal is to help students to welcome different points of view and belief systems while examining and refining their own so that they become a more culturally competent healthcare provider.

PROFESSIONAL SERVICES

University of Kentucky Counseling Center Consultation and Psychological Services

The UK Counseling Center (UKCC) has a staff of trained psychologists and counselors whose primary function is to help UK students with personal concerns, career decision-making, and support for academic success. Individual counseling is available to assist students with concerns such as adjustment to college life, relationship difficulties, career exploration/decision-making, feelings of depression or anxiety, low self-esteem, life transitions, alcohol/substance use, problems in the family, and/or long-standing behavioral patterns such as procrastination. In addition, counseling groups led by trained therapists are organized each semester and address personal growth issues, interpersonal skills, and a variety of other topics. All interviews are confidential. Individual assessment and inventories related to personality and career interests may be used to aid in self-understanding. Testing is available only upon referral by a Center staff clinician.

The Counseling Center maintains an active outreach program, offering workshops and lectures to students, faculty and staff on a variety of college life and mental health topics. The professional staff is also available to faculty, staff and departments for consultations regarding students, personnel or programs. There is no charge for consultations or outreach presentations.
Students begin seeking full-time, career-related employment. The Stuckert Career Center offers a variety of career fairs, employer networking receptions and阀

The James W. Stuckert Career Center
The Stuckert Career Center is a comprehensive and centralized career center for all students enrolled at the University of Kentucky. The Center’s programs are designed to help students, faculty and employers integrate occupational and employment information into educational experiences, extracurricular activities and work. Staff members work with students from their first-year experience through degree completion and beyond, helping them define goals, explore career possibilities, and obtain employment related to their education and interests.

Through individual appointments and group workshops, students are assisted with assessment of individual interests, life/work values, skills and decision-making styles; career exploration; identifying part- and full-time job vacancies, internships and shadowing experiences; resume writing; interviewing preparation and practice; job search strategies; networking with potential employers; researching salary information; and preparing for a successful transition from campus to the community.

Students are encouraged to explore careers first-hand by participating in the UK Alumni Career Network. Shadowing gives students the opportunity to follow working professionals for all, or part, of a day to learn more about careers of interest. These relationships allow students to develop on-going contacts with professionals in their fields of interest.

Adult Student Services assists individuals starting or returning to college after several years and current adult students enrolled at the University of Kentucky.

The Office of Undergraduate Research provides coordination, leadership and support for the many programs at the University of Kentucky designed to promote undergraduate research, scholarship, and creativity. The Office is the starting point for any undergraduate student desiring to include mentored research in their undergraduate experience. Our Web site will familiarize mentors and students alike with the many and varied opportunities provided by the office, and by related programs and activities on campus and beyond focused on undergraduate research and undergraduate student excellence. A prominent service orchestrated by the Office of Undergraduate Research is the pairing of faculty mentors with undergraduate protégés to create a formalized, meaningful research experience. Others services and opportunities include:

- UGRP – Pairing of undergraduate protégés with faculty mentors to create a formalized, meaningful research experience
- Research travel funding for students accepted to present at national conferences/meetings
- Summer Research and Creativity Grants
- Publication opportunities (Kaleidoscope)
- SPUR (Student Organization)
- Annual Showcase of Undergraduate Scholars
- Posters-at-the-Capitol (Presentation opportunity to State Legislatures)
- National Conference on Undergraduate Research (NCUR) (www.ncur.org/)

For more opportunities, visit us at: www.uky.edu/UGResearch.

For more information, contact the Office of Undergraduate Research at (859) 257-8734 or e-mail: ugresearch@uky.edu.
TRANSCRIPT SERVICES

Before you order a transcript, please read the following:

Financial Holds
If you have a financial delinquency, the University will not process your transcript request until the delinquency has been cleared. If you have a hold, we will notify you and provide the contact information for you to clear the hold.

Ordering Transcripts

The University of Kentucky provides three options for ordering transcripts:

1. Online – By Credit Card
   The University of Kentucky uses the National Student Clearinghouse to process online transcript requests. This service is available 24 hours a day, 7 days a week, allows you to track your order, and ensures the security of your information and payment. Please note: if you have attachments that need to be sent with your transcript, e-mail transcripts@uky.edu for further instructions.

   To order and pay online, go to www.getmytranscripts.com and select “Order College Transcripts”.

2. In Person
   You may request transcripts at the Registrar’s Office, 10 Funkhouser Building, Monday through Friday, 8 A.M. to 4:30 P.M. If you attended UK prior to 1988, these requests may take longer to process because your records are on microfilm. For all others, we can normally process your request immediately. Please bring the following with you:
   - Picture ID
   - $10.00 per transcript, payable by cash, check, money order or credit card
   - Please note: the University is closed most holidays and during the break between Christmas and New Years. If you need to request a transcript when the University is closed, you may order online (see #1 above).

Pick Up by Person Other Than Student

The University will not release a transcript to another individual unless we receive a signed statement from the student providing the complete name of the individual who will pick up the transcript. This individual must also bring a picture ID when they come to pick up the transcript.

3. By Mail
   To order by mail, go to: www.uky.edu/Registrar/docs/transc01.pdf and print the form. Complete the information, sign the request and mail to the address listed on the form. Do not fax the request. Submitting requests without adequate information will cause a delay in processing. Please be sure to include a check or money order made payable to the University of Kentucky for each transcript ordered. The cost is $10.00 per transcript. If you wish to pay by credit card, you may order online (see #1 above).

Special Mailing

If you are requesting your transcript to be mailed, the normal delivery is through First Class mail. Transcripts are produced 1-2 days after receipt of your order. If you require special handling, we offer Priority Mail or Express Mail service. If you need one of these services, please check the box on your order form. Please note that U.S. postal rates were accurate at the time of printing and are subject to change.

International Mailing

NORMAL OPTION: International Priority Mail – $11.45
   Once your transcript request is received in our office, the transcript will be mailed within 2-3 business days. Requests for transcripts for work completed prior to Fall 1988 may take longer to produce as this information is on microfilm.

RUSH OPTION: International Express Mail – $26.95
   Requests for special delivery received by noon will be processed the same day. Requests received after 12:00 p.m. will be processed the following work day. Rush Express Mail option is express overnight delivery to most locations. We must have a complete street address or P.O. Box, city, state and zip code and telephone number for overnight service. We use the USPS flat rate delivery at a cost of $26.95.

To Check the Status of a Transcript Request

If you ordered your transcript online, you may track your request online at nslc.org using the tracking number you received in your confirmation e-mail.

To track a transcript ordered by mail, e-mail transcripts@uky.edu.

Other Transcripts

Transcripts from the Colleges of Medicine or Dentistry

Transcripts for professional programs in the Colleges of Medicine and Dentistry must be ordered directly from those colleges. For information, see:

   College of Medicine: www.mc.uky.edu/meded/student_affairs/Alumni.asp

   College of Dentistry: www.mc.uky.edu/dentistry/alumni/transreq.html

Community College or Fort Knox Records

Students who have attended any of the Kentucky community colleges (KCTCS) should contact the college they attended, even if the college was part of the University of Kentucky at the time they attended.

The University maintains the academic records for students who attended Northern Community College through 1972. Students who attended after 1972 should contact Northern Kentucky University for their records.

The University maintains the academic records for students who attended Fort Knox through 1988. Students who attended after that time should contact Elizabethtown Community and Technical College.

ACADEMIC ADVISING

Academic advising is an integral part of undergraduate education at the University of Kentucky. The goal of all academic advising is to assist students in taking responsibility for developing meaningful educational plans compatible with their potential and their career and life goals. Advising is more than the imparting of specialized information; it includes helping students formulate important questions about the nature and direction of their education and helping them find answers to those questions. Advisors will confer with students about course schedules and educational experiences, but students themselves are responsible for their academic program and for making progress toward an academic degree.

As students progress through their academic programs, their advising needs change. At the University of Kentucky, academic advisors help students meet these changing needs. Faculty advisors are key to understanding the nature of the academic program and how it can address student interests and goals. Professional advisors maintain up-to-date information on university requirements, academic policies, procedures, and deadlines; they can also provide guidance for the exploring student. Support offices such as Undergraduate Studies, the Counseling Center, Student Support Services, the Career Center, and the Office of Institutional Diversity can help students refine their academic interests and goals. Students should refer to specific college, school, and departmental advising materials for details on specific advising programs.

Some students have not selected a specific major. The majority of these students enter the university in Undergraduate Studies and are advised by professional advisors housed in Undergraduate Studies until they declare a major.

Academic Advising Mission Statement
The mission of academic advisors, both faculty and professional, is to:

- assist students in taking responsibility for developing meaningful education plans compatible with their potential and their career and life goals;
- help students formulate important questions about the nature and direction of their education and assist them in finding answers to those questions;
- assist students in acquiring accurate and timely information regarding academic policies, procedures, and requirements;
- facilitate the successful transition of prospective, continuing and nontraditional students to the academic and campus environment.

Undergraduate Studies
Undergraduate Studies, 109 Miller Hall, is a comprehensive advising office of professional advisors and home to exploratory students; pre-professional students interested in pre-law, pre-med, pre-optometry, pre-dental, and other health professions; National Student Exchange; resources for students in academic transition; and advising for students interested in transferring to the University of Kentucky.

One-fourth to one-third of all freshmen and many transfer students enter the University of Kentucky as Undergraduate Studies students because there are many areas that interest them, they are considering a pre-professional field and have not selected an undergraduate major, or they wish to explore their options. Time as an Undergraduate Studies student provides an opportunity to investigate UK’s majors while fulfilling the UK Core requirements. Students can remain in Undergraduate Studies until they have earned 60 credit hours.

Advisors in Undergraduate Studies work individually with students to help them clarify their professional goals, realistically assess their capabilities and limitations, explore majors of interest, and choose courses appropriate to those areas of study. Advisors also make referrals to student support services on campus for career interest testing, personal counseling, tutoring, and assistance with study skills. The aim is to support students in making informed decisions about careers and choice of major, and to facilitate the process of entering that major. Visit Undergraduate Studies online at www.uky.edu/US or call (859) 257-3383.

Students interested in transferring to the University of Kentucky can utilize the services of Undergraduate Studies, which serves as a focal point for information concerning programs, resources, and services available to aid the transfer student’s entry and continued success at the University of Kentucky. Advisors are available to answer questions about the transfer process, discuss course equivalencies, and provide pre-admission advising. A dedicated transfer advisor is housed at Bluegrass Community and Technical College’s Transfer Center on the Cooper Campus. Contact this advisor at (859) 246-6348 or call Undergraduate Studies at (859) 257-3383.

Students attending the University of Kentucky can also attend one of over 180 colleges and universities in the United States and its territories while paying UK tuition and fees through the National Student Exchange (NSE).
Students can visit for an academic year or a semester. Likewise, students attending other participating colleges and universities may visit UK. For more information about NSE, visit www.nse.org and contact Kelly Crume at (859) 257-3044 or kelly.crume@uky.edu.

**Academic Advising**

Students who have declared a major are advised by either a faculty member or professional advisor in that department. These advisors, with their in-depth knowledge of a particular field, can provide guidance toward completing degree requirements as well as information regarding careers and/or long-term educational goals. It is important for the student, as soon as he/she declares a major, to contact the department office and request assignment to an advisor.

**Pre-Professional Advising**

**Pre-Law Study**

While a broad, liberal arts education is generally considered to be an excellent preparation for law school, no fixed, comprehensive pre-law curriculum is prescribed by any American law school. In general, pre-law students should develop rigorous study habits; become skilled in clear and logical communication; and select courses that enhance critical reading, writing, and analytical skills.

Law schools do not require or expect a particular undergraduate degree program. Students are advised to consider majors aligned with their interests, strengths, and potential career choices.

Students also are encouraged to explore the Web sites of law schools in which they are interested and to familiarize themselves with admissions standards at those schools. Almost all law schools require students to take the Law School Admission Test (LSAT). Additional information is available from the Law School Admission Council, www.lsac.org. Another valuable resource is the current Official Guide to U.S. Law Schools, published and prepared by the Law School Admission Council and the Association of American Law Schools. This yearly publication, found at www.lsac.org, contains information on the law and lawyers, pre-law preparation, applying to law schools, the study of law, and most American law schools.

At the University of Kentucky, Undergraduate Studies provides advising regarding pre-law preparation and the application and admission process. Students considering law school can contact a pre-law advisor in Undergraduate Studies.

**Pre-Medical Study**

Students are free to choose any major while pursuing their undergraduate degree and fulfilling pre-medical requirements. When selecting a major, students should consider subjects they find interesting and challenging, and those in which they perform best. Medical schools do not require a specific major to enter the professional program, but they do have minimum entrance requirements. Most students accepted to medical school earn a bachelor’s degree while satisfying pre-medical requirements.

Currently the minimum requirements for entering dental school in the state of Kentucky are:

- 2 semesters of college English or intensive writing courses
- 2 semesters of biology with labs*
- 2 semesters of general chemistry with labs
- 2 semesters of organic chemistry with labs
- 1 semester of physics with labs

*The University of Louisville Dental School has additional biology requirements.

Other dental schools in the country may have different prerequisite courses. Check specific dental schools for admissions requirements.

In addition, students are encouraged to take course work in areas such as anatomy, biochemistry, cell biology, calculus, genetics, histology, immunology, microbiology, physiology, psychology, and statistics.

Students interested in dental school should meet with a pre-dental advisor at least once a year while pursuing their undergraduate curriculum, attend pre-dental information sessions, visit the pre-dental Web site, and subscribe to the pre-med listserv.

**Pre-Optometry Study**

Students are free to choose any major while pursuing their undergraduate degree and fulfilling pre-optometry requirements. When selecting a major, students should consider subjects they find interesting and challenging, and those in which they perform best. Optometry schools do not require a specific major to enter the professional program, but they do have minimum entrance requirements. Most students accepted to optometry school earn a bachelor’s degree while satisfying pre-optometry requirements.

Although the Commonwealth of Kentucky does not have an optometry school, contract seats are available to legal Kentucky residents at the University of Alabama, Indiana University, and Southern College of Optometry through the Southern Regional Education Board (SREB). Students accepted for the SREB contract program are exempt from the out-of-state tuition. Students are competitively selected by the optometry school to receive a contract seat. Kentucky residency and acceptance into
the Doctor of Optometry program does not guarantee a contract seat. Contract availability is subject to change as state legislatures annually review budget expenditures. For the number of contract seats available and more information, contact the specific optometry school.

Pre-optometry requirements differ but generally include:
- 2 semesters of general chemistry with labs
- 2 semesters of English
- 1 or 2 semesters of mathematics
- 1 or 2 semesters of general biology or zoology with labs
- 1 semester of microbiology with lab
- 2 semesters of general physics with labs
- 1 or 2 semesters of organic chemistry
- 2 semesters of statistics
- 1 or 2 semesters of psychology

Some schools may also require biochemistry, anatomy, and physiology. Check individual optometry schools for specific course requirements.

Students interested in optometry school should meet with a pre-optometry advisor at least once a year while pursuing their undergraduate curriculum, attend pre-optometry information sessions, visit the pre-optometry Web site, and subscribe to the pre-med listserv.

Pre-Pharmacy Study
The equivalent of two years (70 semester credit hours) of college-level liberal arts and basic sciences is the minimum requirement for admission to the professional program. The minimum course requirements for admission to UK’s College of Pharmacy are:

- 2 semesters of English*
- 1 semester of animal biology (with laboratory) (BIO 152) and (BIO 153 or BIO 151)
- 1 semester of microbiology (with laboratory) (BIO 208 or BIO 308) and (BIO 209)
- 1 semester of mathematics (Calculus I) or the combination of 1 semester of college algebra and 1 semester of elementary calculus (MA 113) or (MA 109 and MA 123)
- 1 semester of principles of microeconomics (ECO 201)
- 2 semesters of algebra-based physics (PHY 211 and PHY 213)
- 1 semester of human anatomy (ANA 209)
- 2 semesters of general chemistry (with labs) including qualitative analysis (CHE 105, CHE 111, CHE 107, CHE 113)
- 2 semesters of organic chemistry (with labs) (CHE 230, CHE 231, CHE 232, CHE 233)
- 1 semester of statistics (STA 291)

Plus, sufficient electives to raise the total hours of credit to at least 70.

*English requirement for UK and Non-UK students interested in pharmacy: University of Kentucky students must complete the WRD/CIS requirement beginning Fall 2011. Non-UK Students: two semesters of English writing/composition will suffice. For questions about this requirement, contact the Pre-Pharmacy Advisor at pharmacyinfo@lsv.uky.edu.

Pre-pharmacy courses should be completed by the end of the spring semester prior to the desired fall enrollment, with one semester completed in a lecture and lab in organic chemistry, physics and either anatomy or microbiology by the end of the fall semester prior to the application deadline.

Students are encouraged to take elective courses that satisfy their major requirements. Electives to consider are biochemistry, physiology, logic, health care ethics, general psychology, interpersonal communication, public speaking, medical terminology, and genetics.

Admission to the college is competitive, based on a holistic review of the application, grade-point average, PCAT scores and interview.

For more information, contact the College of Pharmacy at:

University of Kentucky  
College of Pharmacy  
Academic and Student Affairs  
114 BioPharm Complex  
Lexington, KY 40536-0596  
(859) 323-6163  
http://pharmacy.mc.uky.edu

Pre-Podiatry Study
Students are free to choose any major while pursuing their undergraduate degree and fulfilling pre-podiatry requirements. When selecting a major, students should consider subjects they find interesting and challenging, and those in which they perform best. Podiatry schools do not require a specific major to enter the professional program, but they do have minimum entrance requirements. Most students accepted to podiatry school earn a bachelor’s degree while satisfying pre-podiatry requirements.

Currently the minimum requirements for podiatry school are:

- 2 semesters of college English or intensive writing courses
- 2 semesters of biology with labs
- 2 semesters of general chemistry with labs
- 2 semesters of organic chemistry with labs
- 2 semesters of physics with labs

In addition, students are encouraged to take course work in areas such as anatomy, biochemistry, cell biology, calculus, genetics, histology, immunology, microbiology, physiology, psychology, and statistics.

Students interested in podiatry school should meet with a pre-podiatry advisor at least once a year while pursuing their undergraduate curriculum, attend pre-podiatry information sessions, visit the pre-podiatry Web site, and subscribe to the pre-med listserv.
Special Academic Programs

THE ACADEMIC COMMON MARKET
The Academic Common Market allows non-resident students to pay in-state tuition rates while studying selected academic programs that are not available in their home states. The list of programs included in the Academic Common Market is revised periodically to reflect the changing needs and offerings of participating states. For more information, visit: www.sreb.org. The 16 states that participate in the Academic Common Market are Alabama, Arkansas, Delaware, Florida, Georgia, Kentucky, Louisiana, Maryland, Mississippi, North Carolina, Oklahoma, South Carolina, Tennessee, Texas, Virginia, and West Virginia. For more information, contact the Academic Common Market Institutional Coordinator, 100 Funkhouser Building, University of Kentucky, Lexington, KY 40506-0054, (859) 257-3256.

ACCELERATED PROGRAMS
The University of Kentucky has a broad policy for accelerated programs. Among the opportunities available are special programs for high school students and a variety of credit-by-examination programs. Many students use these opportunities to earn degrees in less time. Others prefer to use the time gained to explore areas outside their majors or to do more work in their major fields.

Accelerated Programs for High School Students
High school students interested in earning college credit while still in high school should inquire about admission before graduating from high school. The High School Exceptional Ability program is described in greater detail in the Undergraduate Admission section of this Bulletin.

Credit-by-Examination Programs
UK students may earn degree credit by successfully completing examinations described below.

Proficiency Examination Program (PEP)
The Proficiency Examination Program (PEP) of The American College Testing Program prepares tests in arts and sciences, business, criminal justice, education, and nursing. PEP tests may be recognized as appropriate credit for meeting degree requirements. Working with the Office of Undergraduate Admission and University Registrar, colleges and departments determine appropriate cutoff scores, as applicable. The academic departments also determine the amount of the awarded credit that will apply to the curricular requirements in each academic major.

For more information on PEP tests, contact the Counseling & Testing Center at (859) 257-8701.

Advanced Placement Program (AP)
The University of Kentucky recognizes examinations of the College Board Advanced Placement Program offered by high schools throughout the nation. Currently, UK ranks among the top 100 schools in the U.S. for receipt of AP test score results. A high school senior who wishes to have AP scores evaluated for academic credit or placement should have the results sent to the Office of Undergraduate Admission and University Registrar. UK’s code is 1837.

Students who receive Advanced Placement credit for a course may apply this credit the same way credit earned by passing a course is applied. UK does not recognize College Board SAT II Subject Tests for placement or credit purposes.

Academic departments have designated the current policy (see chart on pages 64-65) for students who score 3 or higher on the Advanced Placement examinations.

Please note that the University of Kentucky awards Advanced Placement credit based on the score of the exam that is in effect during the academic year that the student enrolls in UK. Students should refer to the AP chart in the Bulletin they received when they were admitted for the appropriate score.

UK does not award duplicate credit in the event that a student repeats an exam or if the credit award is the same for two or more exams. In the event a student takes the same exam more than once, credit is awarded for the best score only.

For more information on UK’s Advanced Placement policy, contact:
Office of Undergraduate Admission and University Registrar
10 W. D. Funkhouser Building
University of Kentucky
Lexington, KY 40506-0054
(859) 257-2000

College Level Examination Program (CLEP)
UK participates in the national testing program of The College Board. CLEP Examinations cover specific material common to courses at many universities.

Credit for University courses is awarded to students who obtain the listed scores on the appropriate Examinations, as listed in the “Policy Guide for CLEP Examinations” on page 66.

The Registrar’s Office is responsible for all official posting of credit to a student’s record. For information regarding the CLEP program and posting of credit, call the Registrar’s Office at (859) 257-8729. For information on CLEP exams in general, visit the College Board Web site at: www.collegeboard.com/clep/.

International Baccalaureate Program (IB)
The University of Kentucky recognizes course credit earned through the International Baccalaureate (IB) Program offered by high schools throughout the world.

Generally, course credit is awarded for scores of 5, 6, or 7 on either the Standard Level exam or the Higher Level exam. Please refer to the chart on pages 62-63 for the actual course credit policy in each subject.

Any student desiring credit must request an IB transcript to be sent to the University. Course credit awarded through the IB program will apply toward degree requirements just as if the course had been taken on campus, except that there will not be a specific letter grade associated with the course. Instead, a designation of CR – credit – will be awarded and the grade-point average will not be affected.

In some cases, as noted on the chart on pages 62-63, additional curriculum information must be supplied by the student’s high school before credit will be awarded.

For more information, contact Brian Troyer at (859) 257-2744; or at: bctroy2@uky.edu.
Special Departmental Examinations

Undergraduate students requesting a special examination must apply in writing to the chairperson of the department that offers the course. Graduate students should apply to the director of graduate studies in the department offering the course. Applicants should include evidence that they are reasonably prepared for the examination.

These examinations are prepared and administered by the offering department, and are usually equivalent to a final examination. Students must be enrolled in good standing at UK. The examinations are offered without charge.

Almost any course offered at the University is available for credit by special examination, regardless of whether a student has audited the course, is currently enrolled in it, or has studied it independently. Please note, most elementary and intermediate foreign language courses are not available on the basis of a special examination.

More information about special examination credit appears in the Academic Requirements section of this Bulletin.

English Examination: Students who have a standard score of 32 or above on the English section of the ACT Assessment or 700 or above on the SAT I Verbal score will receive exemption from WRD 110; students who have a standard score of 3-5 on the AP English Language exam will receive credit (grade of CR) for WRD 110. There is no exemption by CLEP. Scores of 3-5 on the AP English Literature exam or the equivalent on the IB exam will receive 3 units of credit for ENG 110, which does not satisfy either condition of the UK Core Composition & Communication requirements.

Program on Noncollegiate-Sponsored Instruction (PONSI)

Students, particularly those 25 years of age and older, may be eligible to receive credit for extra-institutional learning. The American Council on Education through its Program on Noncollegiate-Sponsored Instruction (PONSI) has evaluated over 2,000 courses sponsored by over 140 corporations, organizations, and agencies drawn from business, industry, and government. On the basis of PONSI evaluations, the University has established guidelines for awarding credit for college-level courses. The University recognizes these recommendations as appropriate credit for meeting degree requirements.

The University’s colleges and departments determine the amount of credit that will apply to a student’s curriculum.

Information on PONSI appears in The National Guide to Educational Credit for Training Programs. For more information, contact the Office of Undergraduate Admission.

Evaluation of Military Credit

Military Credit is awarded following the procedures below:

I. Procedures

A. The student must submit a letter requesting evaluation, along with the necessary supportive documentation, to the Office of Admission.

B. The letter should specify the types of educational experiences the student wishes to have evaluated.

1. Military Schools should be listed by:
   - Name of school
   - Location
   - Name of course
   - Length of course in weeks
   - Date course began
   - Date course completed

2. Military Occupational Specialties (MOS) should be listed by:
   - Complete MOS designation
   - MOS Title
   - Period of time MOS was held as a primary duty assignment
   - How MOS was awarded (School Attendance, OJT, etc.)
   - MOS evaluation score and date of evaluation

II. Documentation

A. Official documentation is necessary to support the awarding of any credit based on military service. The supportive documentation required is as follows:

1. Computerized transcript from the Army/American Council on Education Registry (request forms are available in the Office of Undergraduate Admission)
2. Copies of Course Completion Certificates
3. Enlisted Evaluation Data Report reflecting competency in any MOS submitted for evaluation
4. DD Form 214 (Report of Transfer or Discharge) if no longer on Active Duty

B. Required documentation may be obtained as follows:

1. Active Duty Personnel: Custodian of individual’s personnel records, Military installation to which assigned
2. Retired Army Personnel or Reserve Personnel: US Army Reserve Component & Administration Center (TAGO)
   - 9700 Page Boulevard
   - St. Louis, Missouri 63132
3. Discharged Personnel (Veterans):
   - General Services Administration
   - National Personnel Records Center (Military Personnel Records)
   - 9700 Page Boulevard
   - St. Louis, Missouri 63132
4. Discharged Personnel Now Members of Army National Guard:
   - National Guard unit to which assigned

III. Awarding of Credit

Credit is evaluated using the ACE Guide for evaluation of military credit (Army, Navy, Air Force, Coast Guard). ACE guide recommends hours to be awarded based on the length and content of each course. Evaluations are typed on appropriate form.

A. Credit will be awarded on the student’s official academic transcript.

B. No credit will be awarded based on a Military Occupational Specialty (MOS) which has not been held as a primary duty assignment for a minimum duration of one (1) year or more.

C. Copies of the Evaluation are forwarded to the college dean’s office and to Student Records Office.

D. One copy of the evaluation is maintained in the Office of Undergraduate Admission and University Registrar.

E. Each college determines how awarded hours may be used in the degree program.
THE HONORS PROGRAM

The University of Kentucky Honors Program offers outstanding students, especially those interested in developing independent and critical thinking, a special community and a special identity within the framework of the larger institution. The Honors Program is an important part of the University’s commitment to academic excellence in undergraduate education.

The Honors curriculum includes seminars in the student’s choice of tracks in two areas: Western Cultural Heritage and World Food Issues. Juniors and seniors in the Honors Program enroll in the Honors Proseminars or in special travel-abroad courses, which vary each semester and explore different multidisciplinary topics or countries. Upperclass students also complete an independent project of research or artistic expression in Honors or in their majors.

The Honors Program, its curriculum, and special features are described in detail in the Honors Program section of this Bulletin.

THE UNIVERSITY SCHOLARS PROGRAM

The University Scholars program offers students the opportunity and challenge of integrating their undergraduate and graduate or professional courses of study into a single, continuous program leading to both a baccalaureate and master’s degree. The student’s particular requirements will determine the amount of time needed to complete the program; however, the program can normally be completed in less time than that required in a conventional program.

Admission to the Program

Applicants for the University Scholars program must meet the following admissions requirements:

1. The applicant must have senior standing (completed at least 90 hours of course work) and have completed all UK Core requirements.

2. Students should apply at the end of their junior year.

3. The master’s program should be in the field of the undergraduate major.

4. Applicants must have an undergraduate grade-point average of 3.5 or above in their major field and 3.2 or above overall.

5. Follow the current application procedures for the Graduate School, subject to the above conditions. Admission decisions will be made by the Graduate Dean or his/her appointee.

Degree Requirements and Curriculum

Students in the University Scholars program must meet these requirements:

1. The total number of credit hours completed for the combined program may be twelve (12) fewer than the total required for both the bachelor’s and master’s degrees. (The requirements for the bachelor’s degree are unchanged.)

2. Students should take no more than 16 credit hours per semester, unless they have express permission from the appropriate director of graduate studies and the Dean of The Graduate School.

3. Students must complete at least 36 hours of graduate level courses in the combined program, 15 credit hours of which must be in the 600 level or above for a Plan B master’s degree. Students pursuing Plan A must complete at least 30 hours of graduate level courses in the combined program of which 12 credit hours must be at the 600 level or above. (Consult The Graduate School Bulletin for detailed information concerning Plan A and Plan B for master’s degrees.)

4. Students must have an undergraduate and a graduate advisor. A jointly planned program must be prepared for each student.

5. In order to participate in the University Scholars program, a department must submit to The Graduate School a plan and illustrative examples of typical programs.

DONOVAN SCHOLARS PROGRAM AND Osher Lifelong Learning Institute at UK

The University of Kentucky has a long-standing interest in individuals of or nearing retirement age. In 1962, the Board of Trustees established the Council on Aging to serve as the focal point for programs for older persons. The Council is an integral part of the College of Public Health.

The Herman L. Donovan Fellowship for Older Adults

The Donovan Fellowship, named in honor of the late Herman L. Donovan, University President from 1941-1956, is open to persons who are 65 years of age or older who live in Kentucky. Tuition is waived for Donovan Fellows. Students may work toward an undergraduate or graduate degree, audit classes for the joy of learning, or take individual courses for credit. The program is available at the Lexington campus. Fellows are responsible for books, supplies, parking and applicable taxes. Due to space limitations, classes rarely are available for instruction in music and voice. All state-supported institutions of higher learning in Kentucky offer tuition-free classes for persons 65 years of age or older.

For more information, contact Sharye Davis at (859) 257-2657; or e-mail: Sharye.Davis@uky.edu.

Osher Lifelong Learning Institute (OLLI) at UK in Lexington, Morehead and Somerset

Members of the OLLI at UK participate in intellectual, social, and cultural programs which characterize the university setting. Educational and enrichment courses and events are offered for adults 50 years of age and older at each of our three locations in Lexington, Morehead and Somerset. Courses are held in community locations and are offered in a variety of formats including: weekly courses, one day intensives, lectures series and special interest groups. Courses are taught in the following topic areas: culture and travel, languages, health and wellness, history and government, science and environment, and the visual and performing arts. The semester membership fee is $10; courses typically cost $10 each (additional fees may apply).

For more information, contact the OLLI at UK at (859) 257-2656; toll free at (866) 602-5862; or e-mail: Teresa.Hager@uky.edu.

ACADEMIC PREP PROGRAM (APP)

The UK Academic Prep Program (APP) is designed to enhance students’ academic experiences at UK and provide resources tailored to support individual students’ academic success. The UK APP for student success provides a comprehensive continuum of support once students begin their UK academic career. Upon becoming participants in the APP, students will have access to the APP workshops in support of academic success throughout their studies at UK.

As participants in the UK APP for student success:

• First-year students will begin their career at UK in Undergraduate Studies.
• First-year students will be registered into UK 101 during their first semester.
• Based on placement testing scores, students will be registered in the APP for reading, writing, and/or math workshop(s) as appropriate to supplement their regular academic course work.
• Students will be encouraged to participate in Academic Enhancement’s Peer Tutoring Program and Individual Academic Consultations, and referred to a range of resources that support student success.

Placement Testing

Placement testing will be used to help demonstrate students’ academic preparation in one or more subject areas in which they do not currently meet the minimum requirement. Placement testing is offered free of charge by UK Academic Enhancement. Students may learn more and register for a testing session by visiting www.uky.edu/UGS/study and clicking on Placement Testing. In order to register for testing, students will need their official UK ID number. Results from placement tests are used by University of Kentucky academic advisors to ensure students’ proper course enrollment. Scores will also determine the resources and individualized supplemental instruction designed for students to enhance their academic success at UK.

UK Has an APP for Reading

Students who have an ACT reading subscore of 19 or below (SAT 460 or below) will be automatically registered in the APP for Reading. This proactive supplemental workshop is designed to enhance students’ mastery of critical college reading concepts and strategies while including multiple points of intervention and access to resources in support of students’ regular coursework. Workshops are held twice a week and earn one hour of academic credit. Trained learning specialists in The Study guide the workshops in support of academic success. Students may opt to participate in the APP for Reading workshops for as long as they choose during their undergraduate career.

UK Has an APP for Writing

Students who have an ACT English subscore of 17 or below (SAT 440 or below) will be automatically registered in the APP for Writing. This supplemental writing workshop is designed to coach students to master critical college analytical writing concepts while including multiple points of intervention and access to resources in support of students’ regular coursework. Workshops are held twice a week and earn one hour of academic credit. Trained learning specialists in The Study guide the workshops in support of academic success. Students are encouraged to take advantage of this free resource for as long and often as they choose.

UK Has an APP for Math

Students who have an ACT math subscore of 18 or below (or SAT 450 or below) will be automatically registered in the APP for Math. This workshop is designed as an individualized, self-paced supplemental instruction for students to master math concepts while including multiple points of intervention and access to resources in support of students’ regular coursework. Workshops are held twice a week with an additional open drop-in lab. Trained learning specialists and math educators in The Study guide the workshops in support of academic success for as long as needed until students place into credit bearing college math courses.
### Placement Information for Writing and Chemistry Courses

Students entering UK must meet basic skills in the UK Core. The placement information outlined below plays an important role in determining specific options for meeting these requirements. Please carefully read the placement information below to determine which placement exam(s) or other exam(s) you may benefit from taking.

#### UNIVERSITY WRITING REQUIREMENT

All students must fulfill the University Writing Requirement. See “University Writing Requirement” in the Graduation Requirements section of this Bulletin for more information. **Note:** Honors Program students satisfy both portions of the Writing Requirement through the Honors curriculum.

#### CHEMISTRY 105

Proficiency in chemistry and biology are options in the Natural, Physical and Mathematical Sciences requirement of the UK Core. If you plan to major in science, nursing, engineering, or a health profession, chemistry and biology may be important parts of your first year at UK. A strong math background is essential for success in chemistry, and a strong chemistry background is essential for success in biology. The chart below can help you determine what level of science you’re eligible to take.

**If your ACT Math Score is:**

Placement Information for Mathematics and Biology Courses

These prerequisites are in effect and will be applied to all students. Students should see their advisor before enrolling in any courses. A math placement test is required for all students with a Math ACT score of 26 or below or a Math SAT of 610 or below.

### MATHEMATICS

The chart below will help determine the math course for which you are eligible.

#### If your ACT Math Score is:

<table>
<thead>
<tr>
<th>Score Range</th>
<th>COMPASS math placement test required</th>
<th>Enrollment permitted in</th>
</tr>
</thead>
<tbody>
<tr>
<td>Less than or equal to 18 (Math SAT: less than or equal to 450)</td>

*Any subscore of 4 or 5 will earn credit towards music theory requirements for a major or minor in music as follows:
  – A score of 4 on the written subscore (no aural stimulus) will earn 2 hours credit, equivalent to MUS 171, plus placement into MUS 173.
  – A score of 5 on the written subscore will earn 4 hours credit, equivalent to MUS 171 and MUS 173, plus placement into MUS 271.
  – A score of 4 on the aural subscore (with aural stimulus) will earn 2 hours credit, equivalent to MUS 170, plus placement into MUS 172.
  – A score of 5 on the aural subscore (with aural stimulus) will earn 4 hours credit, equivalent to MUS 170 and MUS 172, plus placement into MUS 270.

**Upon presentation of documentation of appropriate laboratory experience, credit will also be given for the laboratories associated with these courses, PHY 241, 242 respectively.

NOTE: Courses in bold are approved for the UK Core curriculum effective June 10, 2011.

For additional information on credits awarded for CLEP examinations, contact the Registrar’s Office, 10 Funkhouser Building, (859) 257-8729. For information on CLEP exams in general, visit the College Board Web site at: [www.collegeboard.com/clep](http://www.collegeboard.com/clep).

**NOTE:** Courses in bold are approved for the UK Core curriculum effective June 10, 2011.
**Academic Requirements**

Certain conditions concerning the number and level of courses required, the patterns they must follow, the amount of time to be spent as a full-time student, grades and conduct have been established by the University Senate for all University of Kentucky students who are pursuing a degree. Those which relate to academic requirements are listed below. Others will be found in the University Senate Rules, pertinent portions of which are printed in the booklet *Student Rights and Responsibilities*, which is available to all students through the Dean of Students Office.

**STUDENT LOAD**

With the exceptions noted below, the maximum load to be carried during any semester by an undergraduate student (including residence and correspondence courses and to courses taken on an audit basis) shall be 19 credit hours.

The maximum allowable load to be carried during any summer term/session for undergraduate students (including residence, correspondence or audit courses) shall be 9 credit hours in the eight-week summer session and 4 credits in the four-week term, but under no circumstances no more than 13 credits during the summer term and summer session.

Students may be enrolled in a maximum of nine credit hours of classes meeting concurrently during an eight week session. For this purpose, a course meeting for a four-week period during the eight-week session must be counted double. Thus a student may enroll in two consecutive four-week (three credit hours) classes plus one eight week class, or as many as three eight week (three credit hour) classes. A student would not, however, be able to enroll in two four-week (three credit hour) classes meeting concurrently.

A student may be permitted by the dean of his or her college to carry such extra credit hours as in the dean’s judgment, based upon the student’s past performance, the student can complete successfully.

A student on academic probation shall take no more than fifteen (15) credit hours in a semester, three (3) credit hours in a four-week term, or seven (7) credit hours in a six- or eight-week session. This rule may be waived by written permission from the student’s academic dean or the dean’s designee. The waiver and the rationale for the waiver must be documented in the student’s record maintained by the college.

Students in the combined Bachelor’s/Master’s degree program (University Scholars) shall not take more than 16 credit hours per semester. Permission to exceed that number is subject to approval by the Director of Graduate Studies and the Dean of The Graduate School.

The professional colleges and The Graduate School may set lower maximum loads which are consistent with their degree requirements.

The maximum allowable load to be carried during any summer term for graduate students is 9 credit hours in the eight-week summer session and 4 credit hours in the four-week term. The maximum load for graduate students in any combination of the four- and eight-week sessions/terms is 12 credit hours.

A student may be registered simultaneously at the University of Kentucky and at another institution only with the approval of the dean of the college in which the student is registered at the University of Kentucky, the credit hours obtained at the other institution being considered a part of the student’s maximum load. If the simultaneous registration has not been authorized, the transfer of credit from the other institution may be denied.

**CLASSIFICATION**

Any undergraduate student shall be classified by the Registrar as a freshman if less than 30 hours have been completed; as a sophomore upon completion of 30 credit hours; as a junior upon completion of 60 credit hours; and as a senior upon completion of 90 credit hours.

A Law student is classified as a second-year student upon completion of 24 credit hours and as a third-year student upon completion of 53 credit hours. However, a Law student is not classified as a second-year student until that student has been in residence for at least two semesters, nor as a third-year student until that student has been in residence for at least three semesters.

A pharmacy student is classified as a second-year student upon completion of 28 credit hours and as a third-year student upon completion of 56 credit hours.

Credit granted by examination is included in determining a student’s classification.

**GENERAL GRADING SYSTEM**

The general grading system uses a series of letters, to which are assigned grade-point values. The system is based neither on an absolute numerical system nor on a distribution curve, but on the following descriptions:

**Grade A** represents exceptionally high achievement as a result of aptitude, effort, and intellectual initiative. It is valued at four (4) quality points for each credit hour.

**Grade B** represents a high achievement as a result of ability and effort. It is valued at three (3) quality points for each credit hour.

**Grade C** represents satisfactory achievement for undergraduates; represents unsatisfactory achievement for graduate students and is the minimum passing grade for which credit is conferred. It is valued at two (2) quality points for each credit hour.

**Grade D** represents unsatisfactory achievement for undergraduates and is the minimum grade for which credit is conferred; the grade is not to be used for graduate students. It is valued at one (1) quality point for each credit hour.

**Grade E** represents unsatisfactory performance and failure in the course. It is valued at zero (0) quality points and zero (0) credit hours. A student receiving this grade can obtain credit in the course only by repeating the entire work of the course in class, or by special examination in accordance with the procedures outlined under Special Examinations. In rare cases in which undue hardship is involved in repeating the work in class, the dean of the college in which the student is enrolled may approve repeating the work by correspondence.

**Grade P** represents a passing grade in a course taken on a Pass/Fail basis. It may also be assigned by the University Appeals Board in cases involving a violation of student academic rights. Credit hours successfully completed under this grade will count towards graduation but will not be used in calculating grade-point averages.

**Grade F** represents failure in a course taken on a Pass/Fail basis. It is valued at zero (0) quality points and zero (0) credit hours.

**Grade AU** represents a completion of a course attended on an audit basis. It is valued at zero (0) quality points and zero (0) credit hours.
**Academic Requirements**

**Grade CR** is a grade assigned to AP or CLEP scores indicating that credit has been assigned for a course. Credit hours will count towards graduation but will not be used in calculating grade-point averages.

**Grade I**—incomplete—means that part of the regularly assigned work of the course remains undone. It shall be conferred only when there is a reasonable possibility that the student can complete the work within the allowable period of time for removal of an I grade and that a passing grade will result from completion of the work. Except under exceptional circumstances, the student shall initiate the request for the I grade. An I grade shall not be conferred when the student’s reason for incompleteness is unsatisfactory to the Instructor of Record.

A grade of I must be replaced by a regular final letter grade not later than 12 months from the end of the academic term in which the I grade was awarded or prior to the student’s graduation, whichever occurs first. The Registrar’s Office shall notify the Instructor of Record at least two months prior to expiration of the allowable period. The Instructor of Record can extend the allowable period for up to an additional 12 months by completing a grade assignment form. If the Instructor of Record is not available, the department chair or dean of the college in which the course is offered may complete a grade assignment form to extend the allowable period for up to 12 months. In the event the grade of I is not replaced by a regular final letter grade within the allowable period, the Registrar shall change the I grade to a grade of E on the student’s permanent academic record and adjust the student’s GPA accordingly. In the event that an I becomes an E, the Instructor of Record may submit a grade assignment form to replace the E within 12 months from the time the E was assigned. A graduate who had an I grade on his or her academic record at the time of graduation (and which grade was subsequently changed to an E by the Registrar) may be allowed a maximum of 12 months following the end of the semester, term or session in which the course was taken to satisfactorily complete the course and receive a grade change.

For each I grade assigned, the Instructor of Record shall complete an appropriate file record on a standard form provided by the Registrar, which shall include the following: (a) the name of the student; (b) the course number and hours of credit; (c) semester and year of enrollment; (d) signature of the Instructor of Record; (e) a brief statement of the reason(s) for recording the incomplete; (f) specific instructions on how alternate grades on the work to be completed will affect the final grade; (g) the specific time requirement (not to exceed 12 months) set by the Instructor of Record for removal of the I grade and consequences of not removing the I grade; and (h) signature of the student, if feasible.

The Instructor of Record shall provide a completed copy of this record to the student and the department chair at the time the I grade is reported. The term **student** in this context excludes only students in the Graduate School and the Colleges of Medicine and Dentistry.

**Grade IP** represents satisfactory work in progress in courses carrying no academic credit. It is valued at zero (0) quality points and zero (0) credit hours. The grade IP may be recorded for students in zero-credit courses of research, independent work, or seminar-type, if at the end of a semester the student, because of the nature or size of the project, has been unable to complete the course. The project must be substantially continuous in its progress. When the work is completed, a final grade will be substituted for the IP. This grade may not be conferred to a student who has done unsatisfactory work or to one who has failed to do a reasonable amount of work.

**Grade N** represents a temporary grade to be submitted for students who have been entered by the Registrar into official class rolls but have never attended class and who have not officially withdrawn. The Registrar shall remove their names from the official class roll and the student’s enrollment in the class shall not be recorded in the student’s official academic record. (As a temporary mark, N carries no credit hours or quality points).

**Grade S** represents a final grade in courses carrying no academic credit or in courses used for residency credit or dissertation/thesis credit. It is valued at zero (0) quality points.

**Grade UI** represents an interim grade in credit-bearing seminars, independent work courses, or research courses if these courses extend beyond the normal limits of a semester or summer term. This grade signifies that the quality or the quantity of the student’s academic work was unsatisfactory during the applicable term. All UI grades must be replaced by a regular final letter grade prior to the Qualifying Examination or Final Examination for doctoral students or prior to graduation in all other cases. As a temporary mark, UI carries no credit hours or quality points.

**Grade SI** represents an interim grade in credit-bearing seminars, independent work courses, or research courses if these courses extend beyond the normal limits of a semester or summer term. This grade signifies that both the quality and quantity of the student’s academic work were satisfactory during the applicable term. All SI grades must be replaced by a regular final letter grade prior to the Qualifying Examination or Final Examination for doctoral students or prior to graduation in all other cases. As a temporary mark, SI carries no credit hours or quality points.

**Grade UN** represents a final grade in courses carrying no academic credit, in graduate residence courses, or as an interim grade in specific types of courses for which a student has done unsatisfactory work or has failed to do a reasonable amount of work. It is valued at zero (0) quality points and zero (0) credit hours.

**Grade XE** represents failure in a course due to an academic offense. It is valued at zero (0) quality points and zero (0) credit hours. The repeat option may not be exercised for any course in which the grade of XE was received. A grade of XE normally may not be changed to a W by retroactive withdrawal, except upon appeal to the University Appeals Board as prescribed by University Senate Rules.

**Grade XF** represents failure in a course taken on a Pass/Fail basis due to an academic offense. It is valued at zero (0) quality points and zero (0) credit hours. The repeat option may not be exercised for any course in which the grade of XF was received. A grade of XF may not be changed to a W by retroactive withdrawal, except upon appeal to the University Appeals Board as prescribed by University Senate Rules.

**Grade W** denotes withdrawal from class. It may be assigned by the University Appeals Board in cases involving a violation of student academic rights. It is valued at zero (0) quality points and zero (0) credit hours.

**Grade X**. Reenrollment recommended (developmental courses only). It has no value in computing grade point average.

**Grade Z**. The grade Z means that the student has made significant progress but needs and deserves more time to achieve a passing level. The student should re-enroll in the course in order to continue advancement to a level of competence set for the course. Re-enrollment grades may be assigned only for development courses numbered 000-099.

**Official Withdrawal from a Course:** Any student may withdraw from any class (except for those used to meet the Writing Requirement) during the withdrawal period which is defined as the period prior to and including the:

- end of the eleventh week for fall or spring semester;
- third day of the fifth week for eight-week summer session/term;
- second day of the third week for four-week summer session/term.

Students who withdraw during the first three (3) weeks of the course in the fall or spring semester (or a proportionate amount of time in the summer term/session or other courses of less than a full semester’s duration) shall be removed from the class roll, and no grade or record of enrollment shall appear on the student’s transcript. Such withdrawal is also known as “dropping a course.” Students who withdraw during the remaining portion of the withdrawal period will receive a grade of W which will appear on their transcripts.

A student may withdraw from a class or from the University during the latter half of the semester/session/term upon approval by the dean of the
student’s college of a petition certifying urgent nonacademic reasons including but not limited to: illness or injury of the student; serious personal or family problems; serious financial difficulties; or having excused absences in excess of one-fifth of the class contact hours in a course where attendance is required or is a criterion for a grade.

Before acting on such a petition, the dean will consult with the Instructor of Record of the class. The dean may not delegate the authority to approve or deny a petition to withdraw to the University Registrar or to any other agency external to his or her college. If such a petition is approved by the dean of the student’s college, the dean shall inform in writing the Instructor of Record of the class of his/her action, and the student shall be assigned a grade of W.

Unilateral removal for failure to attend first two class periods. Students who miss the first two class periods of a course without notifying the department of their intention to attend may be reported by the department to the dean who shall remove the students from the class roll and notify the Registrar. The Registrar will inform such students that they have been removed. The students will have no record of the class appear on their transcripts.

Withdrawal to Enter Military Service: Students who withdraw (and within ten (10) days enter the Armed Services either mandatorily or voluntarily) after completing the twelfth week of the semester, the third week of the four week summer term, or the sixth week of the 8 week summer session, or later, shall be entitled to receive full credit and residence for the course. The grade report shall be that attained in the course up to the time of withdrawal. If, with the credit and residence time granted, the student has fulfilled all requirements for a degree, the student shall be recommended for that degree by the University Senate. If a comprehensive course examination is required for graduation, this requirement shall be waived.

Retroactive Withdrawal: Typically, a student may withdraw from a given semester only if the withdrawal is from all classes. A grade of E, XE, or XF assigned as a result of an academic offense may be changed to a W only by a petition to the University Appeals Board and only after a retroactive withdrawal for the semester in which the grade was assigned is granted. The student must demonstrate that the hardships enumerated in the request for the Retroactive Withdrawal also resulted in the academic offense in a manner that the student’s culpability was severely diminished as a result.

Requests for retroactive withdrawals shall be made of the Dean of the college in which the student was enrolled at the time the classes were taken. The complete request shall be made before the student has graduated and no later than two calendar years from the last day of class for the semester for which the withdrawal is requested. This fully complete request shall be submitted using the University Senate Retroactive Withdrawal Application that includes a form on which an instructor can offer feedback, along with the documentation required by the University Senate as described on that form. Retroactive withdrawals may be granted only when the student has demonstrated satisfactory evidence that the student has incurred: (a) a serious injury or illness; (b) serious personal or family problems; (c) serious financial difficulties; or (d) permanent disability verified by the Disability Resource Center and diagnosed after the semester for which the withdrawal is requested.

Pass/Fail Option

Undergraduate students above the freshman level and not on academic probation may select a maximum of four (4) elective courses, with certain restrictions, to be taken on a Pass/Fail basis. Students in the Honors Program above the freshman level may, with advance written approval of the Director of the Honors Program, select additional elective courses to be taken on a Pass/Fail basis. Credit hours successfully completed under this option shall count toward graduation but shall not be used in calculating GPA.

Courses taken on a Pass/Fail basis (including transfer courses) shall be limited to those considered as elective in the student’s program and such other courses or types of courses as might be specifically approved by the Senate Council for a college or department. Prerequisites for such courses may be waived with the consent of the Instructor of Record. Students are expected to participate fully in the course and take all examinations. Students may change their grading option (Pass/Fail to letter grade or letter grade to Pass/Fail; credit to audit or audit to credit within three (3) weeks from the beginning of classes in the fall or spring semester or a proportionate amount of time in the summer term/session or other courses of less than a full semester’s duration). After such time, a student may not change his or her grading option without the written approval of the student’s academic dean.

Repeat Option

An undergraduate student has the option to repeat once as many as three different completed courses (including special exams as described on page 73) with only the grade, credit hours, and quality points for the second completion in computing the student’s academic standing and credit for graduation. The limit of three repeat options holds for a student’s entire undergraduate career (including when academic bankruptcy is exercised as described on page 74), no matter how many degrees or programs are attempted. A student may not use the repeat option when retaking a course on a Pass/Fail basis if the course was originally taken for a letter grade.

A student may exercise a repeat option using a correspondence course taken at the University of Kentucky (UK). For students previously matriculated at UK but who are now enrolled solely in UK correspondence courses, the repeat option may be applied for and approved by the Dean of University Extension, in coordination with the student’s prior UK college. For students whose sole UK enrollments have been in UK correspondence course work, the repeat option may be applied for and administered through the Dean of University Extension.

A student exercising the repeat option must consult the student’s advisor and must notify the Office of the Registrar. A student may exercise the repeat option at any time prior to graduation and must be enrolled at UK.

If a student officially withdraws from the second attempt, then the grade, credit hours, and quality points for the first completion constitute the grade in that course for official purposes. Permission to attempt again the same course may only be granted by the Instructor of Record and the dean of the college in which the student is enrolled. (Note: The repeat option cannot be used to raise the student’s standing for admission to the University of Kentucky Graduate School.)

The repeat option may be exercised only the second time a student takes a course for a letter grade, not a subsequent time (excluding audits).

The repeat option shall not be exercised for any course in which the grade of XE or XF was received.

Pass/Fail Option

Undergraduate students above the freshman level and not on academic probation may select a maximum of four (4) elective courses, with certain restrictions, to be taken on a Pass/Fail basis. Students in the Honors Program above the freshman level may, with advance written approval of the Director of the Honors Program, select additional elective courses to be taken on a Pass/Fail basis. Credit hours successfully completed under this option shall count toward graduation but shall not be used in calculating GPA.

Courses taken on a Pass/Fail basis (including transfer courses) shall be limited to those considered as elective in the student’s program and such other courses or types of courses as might be specifically approved by the Senate Council for a college or department. Prerequisites for such courses may be waived with the consent of the Instructor of Record. Students are expected to participate fully in the course and take all examinations. Students may change their grading option (Pass/Fail to letter grade or letter grade to Pass/Fail; credit to audit or audit to credit within three (3) weeks from the beginning of classes in the fall or spring semester or a proportionate amount of time in the summer term/session or other courses of less than a full semester’s duration). After such time, a student may not change his or her grading option without the written approval of the student’s academic dean.
or the dean’s designee. The waiver and the rationale for the waiver must be
documented in the student’s record maintained by the college.

Courses offered only on a Pass/Fail basis shall not be included in the
maximum number of elective courses which a student may take under these
provisions.

The Instructor of Record shall not be notified by the Registrar’s Office or
by another office of the University of those students who are taking the
course Pass/Fail. The Instructor of Record shall submit a regular letter grade
to the Registrar’s Office which will take the appropriate action to change
the grade into Pass/Fail grading track for records. Neither a grade of P nor
a grade of F shall be taken into consideration in calculating a student’s GPA,
except as described in Senate Rule 5.1.2.1.

Giving a P/F credit for AP tests and for CLEP tests does not mean that
students may elect to take a required course for P/F. If the student elects to
take the course he or she must get a letter grade to satisfy the UK Core
requirements.

Temporary Notations

Course in Progress. Three dashes (---) appear in a grade report prepared
during the term in which the student is enrolled in the course. It is to be
replaced by a final grade. The Registrar shall notify all unit or program heads
at the end of each semester regarding “Course in Progress” notations (---)
in all courses offered by that unit or program. The unit or program head shall
have six weeks from the date of notification by the Registrar to assign a grade
in the course. If no change is made by the unit or program head, the “Course
in Progress” notation (---) will be replaced with a “Missing Grade” notation
(***).

Missing Grades. Three asterisks (***) appear in a grade report when no
grade has been reported to the Registrar. The Registrar shall notify all unit
or program heads at the end of each semester or term regarding all “Missing
Grade” notations (***), in all courses offered by that unit or program. If a
missing grade notation can be replaced with a grade, it should be done as
promptly as possible.

Procedures for Changing Temporary Notations. The unit or program
head will consult, if possible, with the Instructor of Record for the course
when assigning a grade. The Registrar shall notify the student at the student’s
address of record of any assignment of a grade. Appeals shall be taken to
the Academic Ombud.

Grade Point Average (GPA)

GPA is the ratio of the number of quality points gained to the number of
credit hours (whether earned or not) in courses for which the grades A, B,
C, D, or E were conferred, excluding grades in developmental or remedial
courses.

If a student repeats a course in which a grade of B or better has been received,
any subsequent grades of B or better and credit hours earned for those
courses (if any) shall be ignored in computing the student’s grade-point
average, unless the repeat option has been exercised according to Rule
5.3.1.1. A student does not repeat a course within the meaning of this rule
if he or she only repeats the same course number where there are multiple
topics, subtitles, independent study, or other courses allowed by the
student’s program using a common course number.

Credit hours are considered as earned only if a grade of A, B, C, D, P, or S
was conferred.

EXCEPTIONS TO THE GRADING SYSTEM

College of Law

The College of Law uses a special letter grading system in which the
following grades are conferred with the respective quality point values
indicated:

- A+ 4.3
- B+ 3.3
- C+ 2.3
- D+ 1.3
- E 0
- A 4.0
- B 3.0
- C 2.0
- D 1.0
- A- 3.7
- B- 2.7
- C- 1.7
- D- 0.7

A student’s academic grade record is expressed as a grade-point average
computed by multiplying the semester hours of credit for each course by
the quality point value of the grade received in the course. These products
are added together, and the sum is divided by the total semester hours
attempted. The grade-point average thus derived is the basis for each
student’s academic status as indicated in the published rules and policies of
the College of Law Faculty.

Selected College of Law courses are graded on a pass/fail basis, and law
students enrolled in courses offered by The Graduate School for which the
College of Law grants credit toward graduation are treated by the College
of Law as pass/fail courses. A failing grade (F) in any pass/fail course in the
College of Law or any graduate school course in which a student in the College
of Law enrolls for credit toward graduation from the College of Law will be
taken into account at a quality point value of zero (0) in computing the
student’s grade-point average.

Pass/Fail Policy for College of Law

Students in the College of Law are bound by the following:

a. No more than six hours of graduate courses outside of the College
   of Law, graded on a pass/fail basis, shall be counted.

b. No more than six hours of courses in the College of Law that are
   offered only on a pass/fail basis shall be counted.

c. No more than nine of the total number of pass/fail credit hours,
   whether earned for graduate school courses under (a) or for College
   of Law courses offered only on a pass/fail basis under (b), shall be
   counted.

d. No more than one graduate school course outside the College of Law,
   graded on a pass/fail basis, may be credited in any one semester.

Students in joint degree programs may only take up to six pass/fail course
credit hours in the law school courses and may take no courses outside the
College of Law for credit toward the J.D. other than pursuant to the
applicable joint degree program.

College of Dentistry

An A, B+ or a B is within the expected range of performance. A C is a marginal
level of performance. To remain in good academic standing and to graduate,
the student must maintain a grade-point average (GPA) of 2.75 or more.
Student performance will be reported to the University Registrar’s Office
as follows:

A represents exceptionally high level of performance; four (4) quality points
are awarded to each credit hour.

B+ represents a high level of performance; three and one-half (3.5) quality
points are awarded for each credit hour.

B represents the minimum expected level of performance; three (3) quality
points are awarded for each credit hour.

C represents a marginal level of performance; two (2) quality points are
awarded for each credit hour.

E represents an unacceptable level of performance; zero (0) quality points
are awarded for each credit hour.

P represents a passing grade in courses taken on a pass/fail basis. It is not
used in GPA calculations.

F represents an unacceptable level of performance in courses taught on a
pass/fail basis. It is not used in GPA calculations.
I – incomplete – course objectives have not been completed during the allotted course time due to circumstances usually beyond the student’s control. An I grade shall be conferred only when there is a reasonable possibility that a passing grade will result when work is completed. An I must be replaced by another grade within 12 months or before graduation, whichever occurs sooner. After this period, an I grade will automatically convert to an E or an F grade as appropriate.

W – withdrawn – this grade will be awarded to a student who withdraws from a course or from the college. It shall be awarded only after recommendation by the Academic Performance Committee and approval by the dean.

College of Medicine
All professional program (MD degree) courses in the College of Medicine will determine a minimum level of competency. Courses taken for grade will reflect student performance with a numeric value of three significant digits between 0.700 and 1.00 (70.0%-100%) for those students achieving minimum competency. The course performance will be valued at the achieved numeric performance for each credit hour. Students failing to achieve minimum competency will receive one of the grades below. For courses taken on a pass/fail basis, the achievement of minimum competency will be the only determination.

Class rank will be determined by multiplying the numeric value assigned for each course by the total number of credit hours for that course and summing all courses taken for grade. Pass/Fail courses will not contribute to determination of class rank.

E represents failure to achieve minimum competency and unacceptable performance in a numerically graded or pass/fail course. It is valued at zero (0) quality points for each credit hour.

P represents achievement of minimum competency and a passing grade in a course taken on a pass/fail basis. It is not used in quality point calculations.

W denotes withdrawal from the college or from an elective course. W must be approved or recommended by the Student Progress and Promotion Committee. Withdrawal from a required course is not permitted, except when a student withdraws from the college. A student may withdraw from an elective and the W will remain on the record.

U represents unsatisfactory performance in a specific area of course requirements. It is conferred instead of an E grade when evidence exists that the student might earn a passing grade (0.700 or above) upon completion of make-up work. In the interim the U will be valued between 0.600 and 0.699 depending on student performance for each credit hour. The temporary grade must be replaced with a permanent grade before the student can be promoted to the next year of the curriculum. The quality point calculation will then utilize the numeric grade conferred after the make-up. Failure to satisfactorily make up the work will result in the assignment of an E grade as described above.

I represents incomplete work at the time grades are submitted for courses. It is conferred only when there is a reasonable possibility that a grade of C or better will be earned upon completion of the work. All I grades in required courses must be replaced by a passing grade before a student can be promoted to a subsequent year. If a student later withdraws from the College, an outstanding ‘I’ grade can revert to a W grade at the discretion of the Student Progress and Promotion Committee.

Design and Landscape Architecture
Students enrolled in courses numbered 800 or higher in the College of Design or the Program in Landscape Architecture in the College of Agriculture shall be conferred the following grades with the respective quality point value indicated:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Quality Point Value</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>4.0</td>
</tr>
<tr>
<td>A-</td>
<td>3.7</td>
</tr>
<tr>

<td>1.0</td>
</tr>
<tr>
<td>E</td>
<td>0</td>
</tr>
</tbody>
</table>

The use of the plus-minus system does not change any college or university GPA requirement, nor the method by which GPAs are computed, nor the interpretations of other grades awarded, such as F, I, P, W, and S.

All students enrolled in courses using the plus/minus grading system will have the appropriate point value calculated into their GPA regardless of their college of origin.

For all studio work in the School of Architecture, the minimum passing grade from level to level in the studio sequence shall be a grade of C.

In the Program in Landscape Architecture, students must earn a C grade or better in major design studios in order to advance to the next level in the curriculum.

OTHER REGULATIONS

Definition of a Major
A major is a primary area of study defined by a set of course and/or credit hour requirements within specified disciplines. Within degree programs, majors may be further defined by requirements in an area of emphasis (also known as an “option”).

Undergraduate Major Requirements
Students at the University of Kentucky who have not chosen a major or been admitted to a selective admissions college and who have earned at least 45 credit hours should meet regularly with an advisor who will help the student to choose a major or seek admission to a selective admissions college. Students at the University of Kentucky who have not chosen a major or been admitted to a selective admissions college and who have earned at least 60 credit hours will not be permitted to register for classes, except registration will be permitted for the following students if they have earned no more than 75 credit hours:

1. Students lacking specific courses to gain admission to a college or to declare a particular major who have a written commitment from the college of their choice to accept them upon successful completion of specified courses;

2. Students who have been dropped from a college for academic reasons, or who have been readmitted or transferred to the University of Kentucky.

This rule may be waived by the dean of the college in which the student is currently enrolled or into which the student wishes to transfer or be readmitted.

Language Limitations for Foreign Students
Students whose native language is other than English and who have had formal instruction in schools of their own country shall not be permitted to take elementary, intermediate or conversation courses or examinations for credit in that language.

Late Registration
After the sixth day of classes for a 15-week semester term or a proportionate number of days for shorter terms as determined and published by the Registrar, no student may register for an organized class without written permission from the student’s academic dean (or dean’s designee) and the course instructor. The college in which the course is listed may require additional approval. The waiver and the rationale for the waiver must be documented in the student’s record in the college.

The Registrar may set a later date for final registration in classes that do not start on the first day of a semester or a summer session, or for the registration of a group of students who were not present at the regular registration time.
Participation in Intercollegiate Athletics
The University accepts the eligibility rules for intercollegiate athletics as set up by the Southeastern Conference, National Collegiate Athletics Association, Region II, the Association of Intercollegiate Athletics for Women, and the Kentucky Women’s Intercollegiate Conference.

Attendance and Completion of Assignments
For each course in which the student is enrolled, the student shall be expected to carry out all required work including laboratories and studios, and to take all examinations at the class period designated by the instructor.

Each instructor shall determine the policy regarding completion of assigned work, attendance in class, absences at announced or unannounced examinations, and excused absences in excess of one-fifth of class contact hours. This policy shall be presented in writing to each class at its first or second meeting. Students’ failure to comply with the announced policy may result in appropriate reductions in grade as determined by the Instructor of Record.

Excused Absences
A student shall not be penalized for an excused absence. The following are defined as excused absences:

1. Significant illness of the student or serious illness of a member of the student’s household (permanent or campus) or immediate family. The Instructor of Record shall have the right to request appropriate verification.

2. The death of a member of the student’s household (permanent or campus) or immediate family. The Instructor of Record shall have the right to request appropriate verification. For the purpose of this rule, immediate family is defined as spouse or child or parent (guardian) or sibling (all of the previous include steps, halves and in-laws of the same relationship); and grandchild or grandparent.

3. Trips for members of student organizations sponsored by an educational unit, trips for University classes, and trips for participation in intercollegiate athletic events, including club sports registered with the university as well as varsity sports. When feasible, the student must notify the Instructor of Record prior to the occurrence of such absences, but in no case shall such notification occur more than one week after the absence. Instructors of Record may request formal notification from appropriate University personnel to document the student’s participation in such trips.

4. Major Religious Holidays. Students are responsible for notifying the Instructor of Record in writing of anticipated absences due to their observance of such holidays no later than the last day for adding a class.

5. Any other circumstance which the Instructor of Record finds reasonable cause for absence.

Students missing any graded work due to an excused absence bear the responsibility of informing the Instructor of Record about their excused absence within one week following the period of the excused absence (except where prior notification is required), and of making up the missed work. The Instructor of Record shall give the student an opportunity to make up the work and/or the exams missed due to an excused absence, and shall do so, if feasible, during the semester in which the absence occurred. The student shall be given the opportunity to make up exams missed due to an excused absence during the semester in which the absence occurred, if feasible. In those instances where the nature of the course is such that classroom participation by the student is essential for evaluation, the instructor shall, if feasible, give the student an opportunity to make up the work missed during the semester in which the absence occurred.

If attendance is required by the class policies elaborated in the syllabus or serves as a criterion for a grade in a course, and if a student has excused absences in excess of one-fifth of the class contact hours for that course, a student shall have the right to petition for a W, and the Instructor of Record may require the student to petition for a W or take an I in the course.

Dead Week
1. The last week of instruction of a regular semester is termed “Dead Week.” This term also refers to the last three days of instruction of a summer session and a summer term.

2. In cases of “Take Home” final examinations, students shall not be required to return the completed examination before the regularly scheduled examination period for that course.

3. No written examinations, including final examinations, may be scheduled during Dead Week.

4. No quizzes may be given during Dead Week.

5. No project/lab practical/paper/presentation deadlines or oral/listening examinations may be scheduled to fall during Dead Week unless it was scheduled in the syllabus AND the course has no final examination (or assignment that acts as a final examination) scheduled during Finals Week. A course with a lab component may schedule the lab practical of the course during Dead Week if the lab portion does not also require a Final Examination during Finals Week.

6. Make-up exams and quizzes are allowed during Dead Week; these are exempt from the restrictions stated in 3, 4, and 5 above.

7. Class participation and attendance grades are permitted during Dead Week.

Final Examinations
If a final examination is given, it is to be administered during the examination period as scheduled by the Registrar for the semesters of the regular school year. These examination periods utilize the last five days of each semester, and are preceded by a study day or weekend on which no classes or examinations are scheduled.

Final examinations, where appropriate, are administered during the last class day of the intersession and the summer session/term.

Final examinations may be given at times other than the regularly scheduled times in the following instances:

Faculty: In the case of conflicts or undue hardship for an individual instructor, a final examination may be rescheduled at another time during the final examination period upon the recommendation of the chairperson of the department and with the concurrence of the dean of the college.

Students: Any student with more than two final examinations scheduled on any one date is entitled to have the examination for the class with the highest catalog number rescheduled at another time during the final examination period. In case this highest number is shared by more than one course, the one whose departmental prefix is first alphabetically will be rescheduled. The option to reschedule must be exercised in writing to the appropriate Instructor of Record or his/her designee two weeks prior to the last class meeting.

If a conflict is created by rescheduling of an examination, the student is entitled to take the rescheduled examination at another time during the final examination period. In the case of undue hardship for an individual student, a final examination may be rescheduled by the instructor.
Common Examinations
A student enrolled in a course where a common exam is scheduled may also enroll in a class scheduled in the time slot of the common exam.

If a student has a course scheduled at the same time as a common exam and the student has given written notice of the conflict to the instructor at least two weeks prior to the common exam, the student shall be entitled to an excused absence from the conflicting common examination.

Common Examinations Scheduled for the Same Time
Any student for whom two examinations have been scheduled for the same time shall be entitled to have the examination for the class with the highest catalog number rescheduled. In case both classes have the same number, the one whose departmental prefix is first alphabetically will be rescheduled. The option to reschedule must be exercised in writing to the appropriate instructor two weeks prior to the scheduled exam.

Special Examinations
Any full-time or part-time student enrolled in the University, and in good academic standing, has the right to request a special examination for credit in many courses offered (check with the offering department), regardless of whether the student has audited the course, is currently enrolled in it, or has studied for it independently. Please note, most elementary and intermediate foreign language courses are not available on the basis of a special examination.

Application for a special examination must be made in writing. (Students should obtain application forms in the Registrar’s Office.) Undergraduates should address requests to the chair of the department in which the course is given, or to the office of the educational unit responsible; graduate students, to the director of graduate studies in the department in which the course is given. Approval of requests from undergraduate students rests with the department chairperson; from graduate students, with the Dean of The Graduate School, acting upon recommendation of the director of graduate studies.

The request for special examination may be denied by the department chair or the office of the educational unit responsible, or the Dean of The Graduate School, acting upon recommendation of the director of graduate studies, if it is decided that the student has not furnished evidence that he or she is reasonably prepared to take the examination, or that the course is of such a nature that credit by examination is inappropriate. (The fact that a student has failed the course within the last semester may be regarded as evidence that the student is unprepared to take a special examination.)

The examiner designated by the educational unit may schedule the examination at his or her convenience, but must offer it within a reasonable time after the student has submitted his or her request.

The examiner shall inform the Registrar of the student’s grade in the course. A student currently enrolled in the class who successfully completes a special examination will be formally removed from the official roll by the Registrar, unless the student is dissatisfied with the results, in which case he or she may continue in the course and be graded in the usual manner. The examiner then may or may not include the results of the special examination in computing the final grade.

Credit earned by special examination may be counted as residence credit by the dean of the student’s college. The limits on maximum loads are waived in cases where the excess is due to special examination credits.

The student, with the educational administrator’s consent, may take the special examination on a Pass/Fail basis, including any course not otherwise available under the Pass/Fail option. Credit derived in this manner does not reduce the number of courses permitted under the Pass/Fail rules.

SCHOLASTIC PROBATION, ACADEMIC SUSPENSION AND REINSTATEMENT

General Regulations for Undergraduate Students

Academic Probation and Suspension
The academic probation and suspension standards that are used to determine a student’s academic standing University-wide are based on grade-point average.

Individual colleges may establish policies regarding academic probation and suspension with regard to a student’s academic standing within the college in addition to the University-wide policies prescribed in Senate Rule 5.3.1. If a college establishes such a policy, the policy must be approved by the University Senate and made available in writing to the students.

A student suspended from a college or program may transfer to another college or program which has a 2.0 grade-point average admission requirement for transfer students, even if the student has a GPA lower than 2.0, provided he or she is not subject to the provisions for suspension from the University. However, the student must meet all other admission criteria established by the college or program. If the student would have been placed on academic probation by the college to which he or she is transferring had he or she been previously enrolled in that college, then the college may place the student on probation at the time of admission.

Academic Probation
Students are placed on probation if:

1. Their cumulative Grade Point Average (GPA) falls below 2.0. Students on probation for this reason who achieve a cumulative 2.0 GPA or higher shall be removed from probation.
2. They have two consecutive UK academic terms with term GPAs below 2.0 regardless of their cumulative GPA. Students who achieve a 2.0 or better in the next term and have a cumulative GPA of 2.0 or higher will be removed from probation.
3. If the student has completed all the academic and procedural requirements for the degree while still maintaining an overall GPA of 2.0 or higher (or the minimum GPA established by a specific college), the degree shall be awarded and the student placed in good standing.
4. The Summer Session and Summer Term are considered two separate academic terms and are subject to the same probation and suspension provisions as Spring and Fall.

Removal from Probation

Except as provided for by specific college probation policy, an undergraduate student may be removed from probation by the dean of the college when the student on scholastic probation has earned 90 semester hours (senior standing), and at the end of a semester or session has a cumulative grade-point standing of 2.0.

Academic Suspension
Students are suspended if:

1. They fail to earn a 2.0 term GPA for any term while on probation;
2. They have three consecutive UK terms in which their cumulative GPA remains below 2.0;
3. Their GPA is below 0.6 after their first term, if the semester’s GPA is based on at least 9 hours of grades, A, B, C, D, or E.

Notwithstanding the provisions above, in the case of a student eligible for suspension, the dean of the student’s college may continue a student on academic probation if the individual case so justifies with notification to the Director of Undergraduate Studies.
General Rules Pertaining to Students Under Academic Suspension

A student academically suspended from the University may not enroll in any courses (including courses taken through the Office of Independent Study) offered by the University nor take any special examination for University credit. Students already enrolled in correspondence course(s) will be allowed to complete the course work upon notification of his/her suspension.

A student academically suspended from the University a second time shall not be readmitted to the University except in unusual circumstances and then only upon recommendation of the dean of the college in which the student plans to enroll and approval of the University Senate Council.

Once reported to the Registrar, an academic suspension may be rescinded by the dean only in the event of an error in the determination of the student’s eligibility for suspension, an official grade change that alters the student’s suspension eligibility, or exceptional circumstances.

Reinstatement

After they have remained out of the University for at least a semester and a summer session (a semester for students academically suspended at the end of a summer session), students who have been academically suspended may only be reinstated by the dean of the college in which they plan to enroll when they present evidence that they are capable of performing at the level required to prevent being suspended a second time. After being reinstated, students must apply for readmission to the University.

General Rules for Reinstated Students

A student who has been academically suspended shall, upon reinstatement, be placed on scholastic probation and be subject to final academic suspension from the University if:

- The student acquires any additional deficit during any semester or session while on academic probation;
- The student has failed to meet the requirements for removal from academic probation by the end of the third semester following the reinstatement.

Once reinstated students have been removed from scholastic probation, they will be subject to the same conditions for subsequent academic suspension as students who have not previously been academically suspended.

Readmission After Two or More Years (Academic Bankruptcy)

Undergraduate students who have been readmitted through the usual channels after an interruption of two or more continuous years, and who have completed at least one semester or 12 hours with a GPA of 2.0 or better, beginning with the semester of readmission, may choose to have none of their previous University course work counted toward graduation and in the computation of their GPAs. Enrollment for a semester, when terminated by a withdrawal before completion of the semester (grades all Ws), in the two years preceding readmission is not an interruption. Under this circumstance, a student cannot invoke the academic bankruptcy rule.

In addition, the dean of the student’s college may permit such a readmitted student who has elected not to count past work to receive credit for selected courses without including those grades in the computation of the student’s GPA (cumulate or otherwise).

Part-time as well as full-time students can take advantage of the academic bankruptcy rule. Students need not have been originally suspended from the University to qualify for this option.

In calculating the 2.0 GPA, a student must have taken all of the 12 hours necessary to apply for bankruptcy for a letter grade. Course numbers ending with a suffix of R, if taken for a letter grade, shall count toward the 12-hour minimum of eligibility for bankruptcy under this rule.

If a student has completed a degree and re-enrolls, he/she may not apply the academic bankruptcy rule to courses taken for the degree already completed.

The Academic Bankruptcy option may be used only once.

SPECIFIC PROBATION AND SUSPENSION POLICIES FOR INDIVIDUAL COLLEGES

College of Design

A student may be placed on probation in the College of Design or suspended from the College of Design, but not necessarily the University, according to the College of Design standards that follow.

A student enrolled in the College of Design who is placed on college probation may continue with studies in the college and university subject to general University regulations concerning academic standing. A student enrolled in the College of Design who is suspended from the college may not take classes offered in the College of Design until reinstated. A student who is suspended from the College of Design may take classes outside the college subject to general University regulations concerning academic standing.

A grade of C or higher is required to advance to the next level of studio in the College of Design. A grade below C in an architectural design studio is considered unacceptable for majors in the College of Design. A student who earns a grade below C in a design studio will be placed on College probation. This probation will be removed when the student earns a grade of C or higher in the same studio.

A student will be suspended from the college for:

1. failing to earn a grade of C or higher in a particular architectural design studio for the second time or
2. failing to earn a grade of C or higher in a particular design studio in its first or second offering after the student earned a grade below C in that studio, provided the student remains in the University, except that students are not required to enroll in summer sessions or
3. failing to earn a grade of C or higher in any design studio while the student is on University probation for two or more consecutive semesters.

Provision 3 does not apply to first year architectural design students.

College of Design rules on probation and suspension may be waived by the Dean of the College of Design under extraordinary circumstances, with notification to the Faculty.

A student who has been suspended from the College of Design may petition the Dean for reinstatement after a period of no less than 12 months.

College of Engineering

Probation and Academic Suspension

The following rules apply to the College of Engineering.

1. Any engineering student who has completed two or more semesters at UK and who fails to maintain a cumulative UK GPA of 2.0 or higher will be suspended from the College of Engineering and will not be readmitted until this GPA is 2.0 or higher.
2. Any student enrolled in the College of Engineering who earns a UK GPA of less than 2.0 in any semester will be placed on academic probation.
3. Any student on academic probation who fails to earn a 2.0 or higher semester GPA will be suspended from the College of Engineering and will not be readmitted until he or she has obtained a semester GPA of 2.0 or higher for one semester and the student’s cumulative UK GPA is 2.0 or higher.
College of Health Sciences

Probation and Suspension Policy for Professional Program Students

The following standards apply to Health Sciences students in professional programs:

Professional Program Probation

A student will be placed on professional program probation when:

1. the semester grade-point average falls below 2.0 in courses required by the professional program, or
2. a failing grade is earned in any course required by the professional program.

Removal from Professional Program Probation

A student may satisfy the deficiency warranting probation and will be removed from professional program probation when:

1. in the semester following professional program probation, a 2.0 or above semester grade-point average is achieved in courses required by the professional program, and
2. a passing grade is earned in any previously failed courses required by the professional program.

Professional Program Suspension

A student will be suspended from the professional program when:

1. a 2.0 semester grade-point average in courses required by the professional program is not earned either at the end of the probationary semester, or in any subsequent semester, or
2. a course required by the professional program is failed a second time, or
3. two courses required by the professional program are failed, unless alternative action is recommended by the Program Director and approved by the Dean of the College of Health Sciences.

Clinical Laboratory Sciences

The following standards apply to undergraduate students in the Clinical Laboratory Science Professional Program (CLS):

Student Progress

Students admitted to the Clinical Laboratory Sciences (CLS) program may advance into the senior year and/or clinical rotation of the CLS program of study on the condition that each has

1. at least a grade-point average of 2.0 on all course work; and
2. has earned a minimum grade of C (2.0) in every course with the CLS prefix.

Undergraduate Professional Program Probation

Regardless of academic standing in the University, a student shall be placed on probation where the student:

1. earns a semester GPA less than 2.0 in all courses required by the CLS program, or
2. earns a grade less than C (2.0) for any course having the CLS prefix.

Removal from Undergraduate Professional Program Probation

A student will be removed from probation when:

1. in the semester following probation, the student earns a semester GPA of at least 2.0 in courses required by the CLS program, and
2. the student earns at least a grade of C (2.0) in any course with a CLS prefix in which previously the student earned a grade below C.

Undergraduate Professional Program Suspension

A student shall be suspended when the student:

1. earns less than a semester GPA of 2.0 in courses required by the CLS program at the end of the first probationary period or in any subsequent semester, or
2. earns less than a C in a course with a CLS prefix for the second time, or
3. earns less than a C in any two courses required in the CLS Program.

Removal from Undergraduate Professional Program Suspension

A student may be reinstated into the CLS program when the student meets the requirements for readmission as determined by the CLS Admissions and Progression Committee. These requirements will be communicated to the student at the time of suspension.

The Graduate School

When graduate students have completed 12 or more semester hours of graduate course work with an average of less than 3.0, they will be placed on academic probation. Students will have one semester to remove the scholastic probation by attaining a cumulative 3.0 average in graduate course work. If the probation is not removed, the student will be dismissed from The Graduate School.

A student who has been dismissed from The Graduate School for these reasons may reapply for admission to The Graduate School after two semesters or one semester and the eight-week summer term.

Exceptions to this policy can be made only by the Graduate Dean.

With the approval of the Graduate Dean, a student may repeat a graduate course and count only the second grade as part of the graduate grade-point average. This action will be initiated by petition of the Director of Graduate Studies and may be done only once in a particular degree program or in post-baccalaureate status.

PROFESSIONAL COLLEGES

NOTE: All students in the professional colleges are subject to the rights, rules and regulations governing University of Kentucky students in all matters not specifically covered in the these rules.

College of Dentistry

The following academic disciplinary policies for students in the professional dental educational program are initiated upon unsatisfactory academic performance.

Academic Probation

Placement on Probation. A student will be placed on probation if he or she has:

a. a grade-point average (GPA) for the academic year less than 2.75;

b. received a failing grade (E or F); or,

c. failed any section of either Part 1 or Part 2 of the National Dental Board Examination.

Terms of Probation. The terms of probation will be established by the Academic Performance Committee (APC). The duration of probation will be at least one semester. Passing a course that has been failed is a condition of all probations. Additional terms of probation may be established by the APC. Students on probation may be ineligible for certain curricular or extracurricular college activities.
**Academic Requirements**

If a student has failed the National Dental Board Examination, taking the examination the next time it is offered and passing it shall be among the terms of probation. The terms shall also include required activities to help the student prepare to pass the examination.

**Removal from Probation.** A student will be removed from probation by the Academic Performance Committee when he or she has at least a cumulative 2.75 GPA, has at least a 2.75 GPA in the current academic year, has passed any failed course, and has satisfied the terms of probation in the judgment of the Academic Performance Committee.

**Academic Suspension**

**Placement on Academic Suspension.** The Academic Performance Committee (APC) shall recommend to the Dean that a student be suspended if two conditions exist. The first condition is that the student has:

a. received two or more failing (E or F) grades;

b. received a failing grade (E or F) while on probation;

c. failed to meet the terms of probation; or,

d. after the second year of the curriculum, achieved a cumulative GPA of less than 2.75.

The second condition is that, based on the available evidence, the APC has determined that the student is capable of completing the curriculum after receiving counseling and/or completing work outside the College. The committee’s recommendation shall include a description of any circumstances the Dean should consider in reaching a decision. It shall also include suggestions on what the student needs to accomplish to be considered for reinstatement.

**Second Failure of Any Section of Part 1 of the National Dental Board Examination.** If a student fails the National Dental Board Examination a second time, the APC shall recommend to the Dean that the student be suspended. The APC recommendation will include a description of any circumstances the Dean should consider in reaching a decision. It shall also include suggestions on what the student needs to accomplish to be considered for reinstatement.

**Review.** A student subject to suspension may ask the Dean for a review. Review procedures shall be determined by the Dean.

**Reinstatement Following Suspension.** A suspended student may not be reinstated before one semester has passed from the date of suspension. When the student demonstrates that he or she can perform at the level required to graduate from the College, the Dean may reinstate him or her. A reinstated student will be placed on probation, subject to terms recommended by the APC and approved by the Dean.

A student who has been suspended because of a second failure of any section of Part 1 of the National Dental Board Examination shall not be readmitted unless she or he takes and passes the examination.

**Dismissal**

**Placement in Dismissal Status.** The APC shall recommend to the Dean that a student be dismissed if two conditions exist. The first condition is that the student:

a. received two or more failing (E or F) grades;

b. received a failing grade (E or F) while on probation;

c. failed to meet the terms of probation; and,

d. after the second year of the curriculum, achieved a cumulative GPA of less than 2.75.

The second condition is that, based on the available evidence, the APC has determined that the student is not academically capable of completing the curriculum or is otherwise unsuitable for dentistry for reasons that include, but are not limited to: unacceptable personal hygiene, the inability to establish rapport with patients, the inability to work effectively with other health care team members, undependability, or lack of integrity, initiative or interest. The APC recommendation shall include a description of any circumstances the Dean should consider in reaching a decision.

**Previously Suspended Students.** If a student is subject to suspension and has been previously suspended, the APC shall recommend that he or she be dismissed.

**Review.** A student subject to dismissal may ask the Dean for a review. Review procedures shall be determined by the Dean.

**Reinstatement Following Dismissal.** The dismissed student shall not be reinstated.

**Promotion**

Students will be promoted when they have successfully completed all courses in an academic year.

**Methods and Procedures.** Promotion of first, second or third year students:

a. All courses in an academic year must be completed with a grade of C or higher (or P, in the case of pass/fail courses) before promotion.

b. Promotion shall usually occur no later than 15 working days after the last day of scheduled classes in each academic year.

c. If a lack of resources or facilities at the University prevents a student from being able to complete a basic science course requirement prior to the beginning of the next academic year, permission may be granted by the APC, in consultation with the Instructor of Record, to complete an equivalent course either at the University or another accredited institution at a prescribed level of performance.

**Graduation**

A student shall be eligible for graduation when passing all courses and meeting all of these applicable requirements:

a. a student has at least a 2.75 cumulative GPA;

b. a student has passed Parts 1 and 2 of the National Dental Board Examination;

c. a student has taken and passed a clinical mock board examination;

d. advanced standing students must complete the curriculum within one year following the time period agreed to at admission;

e. all terms of probation have been satisfied; and,

f. all patient responsibilities and other obligations to the College of Dentistry or the University have been satisfied.

**College of Law**

1. All students in the College of Law must maintain a satisfactory cumulative GPA or be dropped from the college for poor scholarship. Any student who earns a GPA below 1.5 for his or her first semester of law study may be suspended by the Dean on recommendation of the Law Faculty Academic Status Committee for poor scholarship. Any student who fails to earn a 2.0 cumulative grade-point average at the end of the first two semesters will automatically be suspended for poor scholarship. In addition, any student whose cumulative GPA falls below a 2.0 at the end of any subsequent semester will also be suspended from the college.

2. Any student who earns a grade of E in a required course must reregister for the course and complete all its requirements thereof. When such a required course is retaken or when a student elects to repeat an elective course in which the student has earned a failing grade, both the initial and subsequent grade will be reflected on the student’s record and counted in the computation of class standing, subject to readmission standards below.
3. Any student dropped for poor scholarship may petition the Law Faculty Academic Status Committee for readmission. A recommendation to the Dean for readmission is within the discretion of the Academic Status Committee; however, in most cases, the following policies will guide the Committee: a student suspended after the first semester will be required to petition the full Law Faculty for readmission; in the case of students suspended at the end of the second semester, a student with a cumulative GPA of 1.90 and above will normally be readmitted, a student with a cumulative GPA of 1.70 to 1.89 may be readmitted but will be carefully scrutinized, and a student with a cumulative GPA below 1.70 will normally not be readmitted; any student dropped at the end of the third semester or thereafter will be subject to case-by-case analysis.

4. Any student who is readmitted after being dropped at the end of the second semester and who fails to raise his or her cumulative GPA to 2.0 by the end of the third semester will be readmitted again at that time only if he or she has made material progress toward raising his or her cumulative GPA to 2.0. Material progress at a minimum shall mean obtaining a 2.0 GPA for the semester. Moreover, such a student must raise his or her cumulative GPA to 2.0 by the end of the fourth semester. In addition to the foregoing academic standards for readmission, the Academic Progress Committee may impose additional academic standards in individual cases, and in any case may impose other reasonable conditions of readmission including, but not limited to, limitation of outside work, specification of schedule of study (including specification of particular courses and limitation of hours), and the limitation of extracurricular activities. The Academic Progress Committee with the approval of the full Law Faculty may also require the repetition of courses either with or without substitution of the grades earned in the courses retaken. Failure to comply with the requirements and conditions of readmission will be suspended again from the College of Law, in which case he or she will not be readmitted without approval of the University Senate Council upon the recommendation of the Dean following action by the full Law Faculty. Any student aggrieved at any time by recommendation of the Academic Status Committee may petition the full Law Faculty for review.

5. A student who is required by the Academic Status Committee to repeat 14 or more hours of the freshman curriculum in his or her third and fourth semester will be considered as enrolled in his or her first and second semesters.

6. A student who has once been suspended for poor scholarship and who fails to have a 2.0 cumulative GPA at the end of the semester or summer session in which he or she completes the 90th hour of course work will not be allowed to graduate from the College of Law. Such student will not be allowed to enroll in additional hours of course work in an attempt to achieve a 2.0 cumulative GPA.

Withdrawal and Readmission

1. First-year students are expected to complete their first year of law study without interruption. If a student withdraws from the college and University during his or her first year of law study, readmission is not automatic. If a student withdraws during the first semester of law study, application for readmission will be referred to the Admissions Committee; if a first-year student withdraws during the second semester, application for readmission will be referred to the Academic Status Committee; provided that in either of the above withdrawal situations, the Dean’s designee may grant a special leave of absence for the balance of the academic year for reasons relating to extended illness or equivalent distress.

2. After completion of all required first-year courses, a student who withdraws from the College of Law and the University is subject to the rules stated herein regarding readmission after a leave of absence and grades for students who withdraw. To officially withdraw from the College of Law, a student must obtain from Registrar’s Office a withdrawal card; this card must be signed by the Dean of the College of Law or the Dean’s designee. If a student plans to complete a semester, but not reenroll for the subsequent semester, he or she must give the Dean’s designee written notice of such intention.

3. If a student withdraws from the college and University or does not continue enrollment and has complied with paragraph 2 of this rule, the student will normally not be readmitted; any student dropped at the end of the second semester and who fails to raise his or her cumulative GPA to 2.0 at the end of the second semester, a student with a cumulative GPA of 1.90 or above will normally be readmitted, a student with a cumulative GPA of 1.70 to 1.89 may be readmitted but will be carefully scrutinized, and a student with a cumulative GPA below 1.70 will normally not be readmitted; any student dropped at the end of the third semester or thereafter will be subject to case-by-case analysis.

4. A student who intends to remain away from the college for more than 2 semesters plus one summer term must request permission for a Leave of Absence. These requests are not routinely granted and will be referred to the Academic Status Committee for recommendation to the Dean.

5. Readmission for students who are not entitled to readmission pursuant to paragraphs 1-4 of this rule is not automatic. Applications for such readmission will be referred to the Academic Status Committee for a recommendation to the Dean. The Academic Status Committee may consider all relevant facts and circumstances, including the length of time out of the college and reasons for the absence. The Academic Status Committee and Dean will normally not approve readmission for any student who has been away from the college for six regular semesters. Reasonable conditions, including the repetition of courses for no credit, may be imposed if readmission is approved.

6. A second-year student, a third-year student, or a first-year student with special permission of the Dean’s designee may withdraw from any course or seminar within the first half of a semester or summer session. To withdraw from a course or seminar within the first half of a semester or summer session, the student must submit a completed course withdrawal card to the Dean’s designee. A student may withdraw from a course or seminar during the last half of a semester or summer session only on a petition certifying reasons relating to extended illness or equivalent distress. This petition must be approved by the instructor and the Dean’s designee.

Limitation on Pass/fail Units Creditable for College of Law Students

1. No more than 6 hours of graduate courses outside of the College of Law, graded on a pass/fail basis, shall be counted.

2. No more than 6 hours of courses in the law school that are offered only on a pass/fail basis shall be counted.

3. No more than 9 of the total number of pass/fail credit hours, whether earned under 1. (above) or under 2. (above) shall be counted.

4. No more than one graduate course outside the College of Law, graded on a pass/fail basis, may be credited in any one semester.

Students in joint degree programs may only take up to six pass/fail course credit hours in the College of Law courses and may take no courses outside the College of Law for credit toward the J.D. other than pursuant to the applicable joint degree program.
College of Pharmacy

Academic Performance, Progress and Guidelines

The Academic Performance Committees (APC) are charged with monitoring students’ progress through the curriculum. The Committees regularly review (during and at the end of each semester) the performance of each student based on course grades and on written comments on each student’s performance, both of which are shared with the student and are part of the student record. The APC for students in a particular year will consist of the course directors and laboratory instructors for that academic year plus a standing core of faculty. The APC will recommend an action appropriate to the particular student standing and record, i.e., proceed to the next series of courses, promotion to the next year, graduation, probation, probation with remedial action, removal from probation, academic leave, suspension, dismissal, or other action. Recommendations for graduation are made through the dean for approval by the Faculty. All other recommendations are to the Dean. Students must be promoted to subsequent year standing by action of the APC. Promotion is not automatic, but must be earned based on appropriate performance and satisfactory completion of course work. The APC may also recommend other remedies including but not limited to adjustment of academic load, repetition of curriculum segments and participation in counseling sessions. Although the APC considers the overall record of the student in making decisions, the APC will rely heavily on the following:

All students must maintain a minimum Pharmacy GPA of 2.0 and earn a minimum grade of C in each course taken during the time they are students in the College of Pharmacy. This includes all course work, including PHR and non-PHR electives, which comprise the first through fourth professional years of the Pharmacy program.

Further:

1. Any student with a GPA less than 2.0 in a single semester or with a cumulative GPA less than 2.0 will be placed on probation or may be suspended from the College.
2. Students who fail to earn a minimum of C in any one course may be placed on probation. The APC will determine the level of remediation required.
3. Students who fail to earn a minimum grade of C in two courses will be placed on probation and remediation may be required. The APC will determine the level of remediation required.
4. Students who fail to earn a minimum of C in three or more courses will be suspended from the College of Pharmacy, regardless of GPA.
5. A failure in a pass/fail course will be considered a grade less than C.
6. Students who satisfactorily complete the remediation requirements for probation will be removed from probation.
7. Students who are on probation and fail to meet the requirements for remediation or fail to meet the requirements needed to remove them from probation.
8. Students eligible for probation on a second occasion may be suspended from the College.

Probation

Students who are on academic probation may not be allowed:

1. To serve as officers or committee members in any campus organization.
2. To participate in any University extracurricular activities or in the activities of any University organization if the participation involves the expenditures of any appreciable amount of time.
3. To be employed by the University.

Students on probation may have a restricted academic schedule as dictated by the APC. Students placed on probation must meet the requirements dictated by the APC before being removed from probation.

Suspension

Students suspended from the college may petition the APC for reconsideration of their case and for permission to re-take College of Pharmacy courses to correct their academic deficiencies. That permission may or may not be granted by the APC. If a student is allowed to re-take required College of Pharmacy courses, and the academic deficiencies have been satisfactorily addressed, these students may re-enter the College of Pharmacy but will do so on probation status. If the student is judged after 2 semesters to be performing satisfactorily by the APC while taking normal academic course loads, their probation status may be removed by the College Faculty.

Special Considerations

1. Because of the demands of the Doctor of Pharmacy curriculum upon acceptance to the program of study students are expected to devote their energies to the academic program. The college actively discourages employment while courses are in session and cannot take outside employment or activities into account when scheduling classes, examinations, reviews, field trips or individual course functions or special projects.
2. Due to curricular requirements course functions and/or examinations outside the normal Monday through Friday, 8 A.M. to 5 P.M. business hours time frame will occur.
3. Clinical responsibilities include evening and weekend work.
4. All College of Pharmacy students are subject to the rights, rules and regulations governing University students in all matters not specifically covered in College of Pharmacy documents.

All Undergraduate and Professional Colleges

Each student has access to rules that deal with scholastic probation, academic suspension, and reinstatement through the printed class schedule, this Bulletin, and Student Rights and Responsibilities.
Graduation Requirements

GRADUATION REQUIREMENTS

To be eligible for any degree, a student must have completed the requirements as approved by the University Senate, except that curriculum substitutions may be made by the college affected if not inconsistent with these rules. Curriculum requirements must include, in addition to specified credits, a specified grade-point average both overall and in the student’s major which may in no case be less than 2.0. Every baccalaureate degree program must include five divisions or components: (1) UK Core, (2) premajor or preprofessional, (3) general college requirements (if any), (4) major or professional, and (5) free electives.

To be eligible for an undergraduate degree, a student must file an application with the dean of the college from which the undergraduate degree is to be awarded: by November 30 for degrees to be awarded the following May, by February 28 for degrees to be awarded the following August, and by June 30 for degrees to be awarded the following December.

NOTE: The Inference Requirement information below is being revised and will be posted shortly.

Inference Requirement

Each baccalaureate student must satisfy one of the following:

1. Any calculus course, or
2. STA 200 Statistics: A Force In Human Judgment, PLUS PHI 120 Introductory Logic, OR PHI 320 Symbolic Logic, or
3. the equivalent of one of the above.

NOTE: The University Writing Requirement information below is being revised and will be posted shortly.

University Writing Requirement

The University requires demonstrated competency in writing. The University Writing Requirement is a two-tiered requirement consisting of (1) the First Year Writing Requirement and (2) the Graduation Writing Requirement.

To complete the First Year Writing Requirement, students must complete either:

1. ENG 104 Writing: An Accelerated Foundational Course.
   Full-time students must enroll in ENG 104 in either the fall or spring semester of their first year. They may drop the course during the first year, but beginning in their third semester, students enrolled in ENG 104 are not allowed to drop the course, and will be required to register for the course each semester until they have completed the First Year Writing Requirement.
2. Score 32 or above on the English component of the ACT; score 700 or above on SAT I Verbal; or score 4 or 5 on the Advance Placement (AP) English Language Exam.

Students who have earned credit for ENG 101 or equivalent, and students with a score of 3 on the AP English Language Exam may select either ENG 102 or ENG 104 (recommended) to complete the First Year Writing Requirement.

The Graduation Writing Requirement establishes the minimum criteria for University of Kentucky undergraduate degrees. Individual majors may have additional writing requirements.

To complete the Graduation Writing Requirement, students must:

- Complete the First Year Writing Requirement;
- Attain sophomore status (30+ hours); and
- Complete an approved course or series of courses in the major, or complete one writing-intensive course from among the following:
  - ENG 230 Introduction to Literature
  - ENG 231 Literature and Genre
  - ENG 232 Literature and Place
  - ENG 233 Literature and Identities
  - ENG 234 Introduction to Women’s Literature
  - ENG 261 Survey of Western Literature from the Greeks Through the Renaissance
  - ENG 262 Survey of Western Literature from 1660 to the Present
  - ENG 264 Major Black Writers
  - ENG 270 The Old Testament as Literature
  - ENG 271 The New Testament as Literature
  - ENG 281 Introduction to Film
  - WRD 203 Business Writing

Any other course on the Semester List of Approved Writing-Intensive Courses, published in the Schedule of Classes.

Students in some programs complete the Graduation Writing Requirement with courses required in the major. Also, some courses are approved to fulfill this requirement on a semester-by-semester basis. Consult with your advisor about courses that may be used to fulfill the Graduation Writing Requirement. Also, the Writing Initiative Office maintains a list of alternate courses that satisfy the Graduation Writing Requirement. Call (859) 257-4831; or visit the Writing Initiative Web site at: www.uky.edu/UGS/WritingInitiative/ for the most recent list of approved courses.

NOTE: Honors Program students satisfy both the First Year Writing Requirement and the Graduation Writing Requirement through that curriculum.

Change in Program Requirements

When requirements for an undergraduate degree program are changed after a student has enrolled in it, the student has the option of fulfilling either the old or the new requirements.

In fulfilling the old requirements, if a student finds that necessary courses have been eliminated or substantially revised, he or she may substitute other courses with the approval of the dean of the college. In this eventuality, however, the student shall not be forced to comply with the new requirements.

However, if a student interrupts work in the program or the University for more than two semesters, then the dean of the college shall determine which requirements the student shall fulfill.

If the curriculum revision is required by an external accreditation or certification body, and this body submits a written statement to the University that the accreditation of a program or certification of its graduates
is in jeopardy unless students fulfill the new requirements, the option of fulfilling the old requirements shall not apply.

When The Graduate School or degree program requirements are changed after a student has begun a course of study, the student shall have the option of fulfilling either the old or new requirements.

If the student elects to fulfill the old requirements but finds that necessary resources (e.g., courses, instruction in particular skills) are no longer available, the student may make reasonable substitutes with the approval of The Graduate School Dean upon recommendation of the Director of Graduate Studies.

In the event that a student interrupts work on a graduate degree (i.e., is not enrolled) for one calendar year or more, The Graduate School Dean shall determine, upon recommendation of the Director of Graduate Studies, whether the old requirements or the new requirements shall apply. In the event a student has not completed the requirements for the graduate degree five years after the effective date of a change in degree requirements, the new requirements shall apply unless determined otherwise by The Graduate School Dean.

The colleges offering professional degrees (Law, Medicine, Dentistry, Pharmacy) reserve the right to change curriculum requirements provided the program change has gone through the University’s approval process. Any such change in curriculum, however, shall not result in a longer tenure for students enrolled in the program who are making satisfactory academic progress.

Residence Requirement
Residence – a requirement for a degree which specifies the minimum period during which a student must be registered on the main campus – is intended to provide an adequate contact with the University and its faculty for each student who is awarded a degree.

For an undergraduate degree, regardless of the length of time the student has attended the University, a minimum of 30 of the last 36 credits presented for the degree must be taken from the University. Requests for waiver of this requirement for veterans or other students must be approved by the dean of the student’s college.

Courses taken under the Study Abroad and National Exchange Student programs (and for which students pay their tuition to the University of Kentucky) are considered as courses taken at UK for purposes of both the residency requirement and for graduates to be conferred commencement honors at the time of award of their degrees.

Credit by Correspondence and Examination
No more than 30 credit hours of the total required for an undergraduate degree may be gained by correspondence. No more than one-third of the requirements for a major may be gained by correspondence. No credit will be conferred in The Graduate School or in the professional colleges for courses done by correspondence.

No more than half of the credit toward an undergraduate degree may be earned by any combination of CLEP Examinations, PEP Examinations, PONSI courses, Special Departmental Examinations, and Advanced Placement Examinations.

Undergraduate Application for Degrees
To be eligible for an undergraduate degree, a student must file an application with the dean of the college from which the undergraduate degree is to be awarded: by November 30 for degrees to be awarded the following May, by February 28 for degrees to be awarded the following August, and by June 30 for degrees to be awarded the following December.

Commencement Honors
Students who attain a grade-point average of 3.8 or higher for at least three years (90 hours) of work at the University (excluding correspondence study) shall be graduated “Summa Cum Laude.”

Students who attain a grade-point average of 3.6 or higher for at least three years (90 hours) of work at the University (excepting correspondence study) shall be graduated “Magna Cum Laude.”

Students who attain a grade-point average of 3.4 or higher for at least three years (90 hours) of work at the University (excepting correspondence study) shall be graduated “Cum Laude.”

Students with a minimum of two (60 hours) but less than three years (90 hours) of work at the University will receive the appropriate commencement honors if they attain a grade-point average of 0.2 greater than those specified for three years of residence work.

The bachelor’s degree with honors in a student’s major or a degree with honors from a professional college will be conferred upon a student whom the faculty of the student’s department, or college, in the case of a professional college, and the dean of the student’s college recommend receive the degree. A student may be required to complete work in addition to that required for the bachelor’s or professional degree to receive a degree with honors.

The degree with honors from a professional college is based solely upon work done in the professional college.

All students in the Honors program of the University who do not have a grade-point standing of 3.5 or better but are in the top 10 percent of their college’s class are eligible to graduate in the Honors program if they satisfy the other requirements and have approval of the Honors Program Director.

Work done in the Kentucky Community and Technical College System shall not be counted as work at the University of Kentucky in calculating the grade-point average for honors.

A Double Major
An undergraduate student earns a double major when he or she completes all university, college, and departmental requirements in one department—the Primary Major—and all departmental requirements in a second department—the Secondary Major. If there is a generic relationship, work in the Primary Major may be applicable to the Secondary Major. The student must indicate the double major to the Registrar and to the student records office in his or her college(s). The student must have an advisor in each major. The student who completes the requirements for a double major receives a degree from the college of his or her Primary Major and has the successful completion of the Secondary Major entered on his or her transcript. A Secondary Major may be completed after the degree for the Primary Major has been awarded. A double major does not result in an additional degree.

Concurrent enrollment for degree purposes in more than one graduate program is permitted only with the approval of the student’s graduate advisor(s), Directors of Graduate Studies in the programs, and the Dean of The Graduate School.

Subsequent to the receipt of a doctoral degree, a student is not eligible to receive a master’s degree based on the work which led to the doctorate.

Additional Bachelor’s Degrees
A student is eligible to qualify for additional Bachelor’s degrees in different majors. The student must complete all university, college, and departmental requirements for all degrees. Courses taken towards fulfilling one degree may also count towards fulfilling parallel requirements in another degree, but the student must complete at least 24 additional hours for each degree. The student may elect to receive the degrees simultaneously if college and departmental requirements can be met simultaneously.

A Second Master’s Degree
A student may receive two master’s degrees. However, simultaneous enrollment in two or more programs and the granting of two or more master’s degrees at the same time is not permitted, unless approved by the student’s advisors and the Directors of Graduate Studies in the programs.
The University Scholars Program
The University Scholars program enables gifted and highly motivated students to integrate their undergraduate and graduate or professional courses of study into a single, continuous program leading to both a baccalaureate and master’s degree. The admissions requirements for the University Scholars program and the curricular requirements are outlined in the Special Academic Programs section of this Bulletin.

Academic Minors
Many departments have designed academic minors for the convenience of undergraduate students. A minor is a structured group of courses that leads to considerable knowledge and understanding of a subject, although with less depth than a major. Some employers consider minors desirable, and the corresponding major requirements at the University may stipulate a minor. Some students choose to complement their major program with a minor in a related field or even in an entirely different field of interest. The minors that are available are described with the departmental listings and major programs in this Bulletin. Students interested in pursuing an academic minor should contact their college dean’s office and the department responsible for the minor program for guidance and advising. Please note that undergraduate students can only complete a minor in addition to and as a complement to a major. The University does not award stand-alone minors.
Interdisciplinary Programs

The College of Arts and Sciences offers students the opportunity to pursue studies in programs that are administered jointly by several departments within the College. Students may choose from several majors and/or minors or create a self-designed program that fulfills their individual educational requirements.

African American Studies

The African American Studies program seeks to promote the interest and knowledge of the African diaspora experience through quality teaching and research. Multidisciplinary in scope, African American Studies offers a selection of courses in English, history, geography, political science, sociology, philosophy, religion, and language. Courses affiliated with the Program are listed each fall and spring semester in the University Schedule of Classes under the AAS prefix.

African American Studies Minor

By completing 21 hours of course work students can earn a minor in African American Studies. This minor offers a cultural, historical, and literary base that can strengthen any major in the Humanities or the Social Sciences. For additional information on the minor, see the listing in the College of Arts and Sciences section of this Bulletin.

Visit the African American Studies Web site at: www.uky.edu/AS/AASRP/.

American Studies

American studies draws together diverse disciplines to examine the historical and contemporary forms and issues of our national life. The program in American Studies takes as its field of study any peoples, cultural expressions and social institutions, however or whenever identified as “American.” Program curricula link faculty, courses, and students across a range of humanities, arts, and social science departments.

American Studies Minor

The minor centers on two interdisciplinary seminars on selected topics in American studies. Students electing the minor are also encouraged to take a range of elective courses to complement their major. The minor in American Studies prepares students for further graduate or professional training, or for work in education, government, or business. For additional information on the minor, see the listing in the College of Arts and Sciences section of this Bulletin.

Visit the American Studies Web site at: www.uky.edu/AS/AmericanCulture/.

Appalachian Studies

The Appalachian Studies minor offers students with serious interests in Appalachian regional studies an opportunity to pursue a minor concentration to complement a major in one of the University’s professional or liberal arts programs. This interdisciplinary program enables students to comprehend more fully the history, social structure, and culture of the region – its people, its problems, and its future. The Appalachian Studies Program Director serves as faculty advisor to undergraduate minors and as faculty sponsor of the Appalachian Student Council, an organization for students with an interest in or ties to the Appalachian region.

Faculty and students interested in Appalachian Studies work in cooperation with the Appalachian Center, which was created in 1977, to fulfill the University’s research and service missions in this region. For additional information on the minor, see the listing in the College of Arts and Sciences section of this Bulletin.

For more information, contact Dr. Ron Pen, (859) 257-8183; or e-mail: rapen01@uky.edu. Visit the Appalachian Studies Web site at: http://as17.as.uky.edu/academics/departments_programs/IDP/IDP/Appalachian/Pages/default.aspx.

Cognitive Science

Cognitive Science is an interdisciplinary field of study focusing on the mind as an intelligent (information-processing) system. Arising from Noam Chomsky’s seminal criticisms of Behaviorism in the 1950s, Cognitive Science has come to include such disparate disciplines as linguistics, computer science (artificial intelligence, knowledge representation, theory of computation and computational complexity, algorithms), psychology (concepts; memory; reasoning; developmental and cognitive psychology), biology (evolutionary theory; neurobiology), anatomy, neuroscience, the behavioral sciences, and philosophy (language, mind, and logic). The Cognitive Science program at UK offers an undergraduate minor, enabling students to study the mind in an interdisciplinary way. For additional information about the minor, see the listing in the College of Arts and Sciences section of this Bulletin.

For more information, visit the Cognitive Science Web site at: www.as.uky.edu/academics/departments_programs/CognitiveScience; or contact Philipp J. Kraemer, Interim Director, (859) 257-1958.

Committee on Social Theory

Social theory considers the full range of our social practices, not only the taken-for-grantedness of our social institutions and cultural conditions but also the hidden aspects of our daily lives. Social theory is, as sociologist Charles Lemert puts it, a basic survival skill. It embraces substantive questions about the composition, structure and development of social phenomena, as well as the epistemological conditions that inform our ability to comprehend them. Today, it is one of the most significant and fast-growing concerns in the humanities and the social sciences. It brings together scholars from a multitude of disciplines in investigations of such topics as the social construction of individuals in contemporary and historical contexts, the nature of the political, the structure of agency, the cultural and economic processes associated with globalization, and the constitution of public space and civil society.

Because many social theoretical issues refuse containment within extant disciplinary demarcations, they are best studied within a multidisciplinary framework. The Committee on Social Theory formed in 1989 to facilitate such theoretical teaching and research projects across disciplinary and college boundaries at the University of Kentucky. The program fosters practical communication through a range of pedagogical and research projects between the humanities and social sciences. The Committee on Social Theory’s events assist faculty and students in testing their own disciplinary understandings and enhancing their own empirical and archival research by building transdisciplinary dialogues. Today, the Committee includes some 50 faculty associates, spanning fourteen departments and five schools, and offers students and faculty an innovative opportunity to pursue social thought in a bracingly interdisciplinary dialogue. Its activities form a unique and exciting environment where students and faculty study the expanding and increasingly important field of social theory and cultural studies.

Visit the Committee on Social Theory Web site at: www.as.uky.edu/academics/departments_programs/SocialTheory/SocialTheory.
Environmental Studies

Environmental considerations permeate almost every facet of modern life, and concern for “the environment” is practically universal as we approach the twenty-first century. The minor in Environmental Studies is designed to provide students with the opportunity to become conversant in a range of environmental topics, whether as private citizens in their daily lives or as professional members of corporate, government, legal, medical, and educational circles.

Environmental Studies Minor

The minor draws on topics and perspectives from the natural and physical sciences, the social sciences, and the humanities to underscore the interdisciplinary nature of environmental issues and problems. Students taking the minor are encouraged to integrate the program with their major study focus in order to gain a competitive advantage in grappling with environmental topics. For additional information on the minor, see the listing in the College of Arts and Sciences section of this Bulletin.

Visit the Environmental Studies Web site at: www.as.uky.edu/academics/departments_programs/EnvironmentalStudies/Pages/default.aspx.

Indian Culture

The minor in Indian Culture is designed to allow students to develop a more profound understanding of Indian culture. The curriculum is strongly interdisciplinary, encompassing courses in linguistics, anthropology, English, geography, mathematics, philosophy, political science, and sociology.

Students completing the minor will possess (1) an ability to read Sanskrit (vital for comprehending Indian culture); (2) a well-rounded, multidisciplinary understanding of the culture and geography of India and of contemporary Indian society and politics; and (3) a high degree of preparedness to pursue careers in business or teaching that require knowledge of Indian society and its traditions. For additional information on the minor, see the listing in the College of Arts and Sciences section of this Bulletin. For further information, contact Professor Gregory Stump (English and Linguistics), 1253 Patterson Office Tower, (859) 257-1184; Professor Paul Karan (Geography), 1439 Patterson Office Tower, (859) 257-6953; or Professor Avinash Sathaye (Mathematics), 703 Patterson Office Tower, (859) 257-8832.

Islamic Studies

The interdisciplinary minor in Islamic Studies will provide the opportunity to study the culture, language, literature, religion, history and philosophy of Muslim peoples throughout the world from antiquity to the present. Students will acquire a rounded understanding of Islamic culture, the ability to interpret information and news from the Middle East and elsewhere in an independent way, with understanding of the issues from the perspective of the Muslim countries, and will be prepared to pursue careers that require a knowledge of Islamic civilization. For additional information on the minor, see the listing in the College of Arts and Sciences section of this Bulletin.
Interdisciplinary Programs

Japan Studies

The Japan Studies program supports a community of Japan area specialists who teach and pursue research in the University’s various departments (geography, history, English, political science, Russian and Eastern studies, sociology) and professional schools (architecture and communications). In addition to teaching and research responsibilities, the faculty lecture to outside groups, write extensively for both scholarly journals and popular media, author books on Japan, and participate in national professional associations. The program responds to and fosters growing American interest (particularly in Kentucky) in Japan.

The emphasis of the program is on social sciences and humanities, including Japanese cultural geography, history, languages and literature, films, society, and environment. In this sense the Japanese Studies program at the University of Kentucky is unique and has been well received nationally as well as by our students as reflected in growing enrollment figures.

Japan Studies Minor

The Japan Studies minor complements existing majors and prepares students with the skills that are required to work with Japan given its integral place in international business. Students will also become well-versed in the culture and geography of Japan, its history, arts, and environment. This background will prepare students for Japan-related careers in the United States and abroad. For additional information on the minor, see the listing in the College of Arts and Sciences section of this Bulletin.

Topical Major in Japan Studies

The topical major was created for students whose interests cut across traditional departmental and college lines and who want to be on the “cutting edge” of today’s job market. It allows students to satisfy a niche that could not be fulfilled in any of the college’s traditional departments. For additional information, see the listing on topical majors in the College of Arts and Sciences section of this Bulletin.

Visit the Japan Studies Web site at: http://as17.as.uky.edu/academics/departments_programs/MCLLC/MCLLC/Japan/Pages/default.aspx.

Jewish Studies

The interdisciplinary minor in Jewish Studies at the University of Kentucky provides students with the opportunity to become acquainted with the culture, language, literature, religion, history, and philosophy of the Jewish people from antiquity to the present. For additional information on the minor, see the listing in the College of Arts and Sciences section of this Bulletin.

Visit the Jewish Studies Web site at: www.uky.edu/AS/JudaicStudies/

Latin American Studies

Latin American Studies is an interdisciplinary program bringing together scholars in the arts, humanities, social and environmental sciences who wish to understand Latin America as a major world region that continues to contribute unique and original understandings to the global community. By Latin America, we include South America, the Caribbean and North America. We are particularly focused on Latin American peoples, including those residents in the contemporary United States. Latin American Studies scholars celebrate diversity, recognizing the signal contributions of indigenous (first) peoples, African diaspora, European immigrants, women and other diverse communities. As such, Latin American scholars have developed such important intellectual contributions as dependency theory, magical realism, and critiques of ‘ecological neocolonialism’ among others.

Latin American Studies Minor

Through an interdisciplinary approach, students pursuing a minor in Latin American Studies select from courses in anthropology, geography, history, and Spanish language, among others, in order to gain a cultural and geographic understanding of a specific region. Students also conduct senior research and interact heavily with faculty members.

For additional information on Latin American Studies, see the listing in the College of Arts and Sciences section of this Bulletin.

Linguistics

Linguistics is an interdisciplinary program combining resources from English, anthropology, psychology, philosophy, computer science, and the foreign languages, to develop an understanding of the nature and implications of human language. The Linguistics program provides solid foundations in phonological and grammatical analysis, as well as opportunities to investigate the social, cultural, psychological, and physical aspects of language use.

Linguistics Major

The Linguistics program offers an undergraduate major that includes courses in linguistics and related courses cross-listed with a variety of departments. Linguistics students frequently graduate with a double major in linguistics and one of the related departments, such as the foreign languages. For additional information on the major, see the listing in the College of Arts and Sciences section of this Bulletin.

Linguistics Minor

The Linguistics program also offers an undergraduate minor that includes 18 hours of course work in linguistics and related courses in a variety of departments. As part of the linguistics major or minor, students may elect to complete the sequence of courses focusing on Teaching English as a Second language; this track within linguistics can open up a variety of avenues for English teaching positions in the U.S. and abroad. For additional information on the minor, see the listing in the College of Arts and Sciences section of this Bulletin.

Visit the Linguistics Program Web site at: www.as.uky.edu/linguistics/.
The UK Core – General Education Requirements

The University of Kentucky’s general education program – the UK Core – is foundational to a university education at the University of Kentucky. A university education is more than simply learning a set of skills in a specific area in preparation for a job or career. A university education is designed to broaden the students’ understanding of themselves, of the world we live in, of their role in our global society, and of the ideals and aspirations that have motivated human thought and action throughout the ages. It must help individuals effectively put into action their acquired knowledge, to provide the bases for critical thinking and problem solving, and to develop life-long learning habits.

The UK Core is composed of the equivalent of 30 credit hours in 10 course areas that address four broad learning outcomes. Depending on choice of major or courses, some students may take more than 30 credit hours to complete the UK Core.

The UK Core Learning Outcomes

The UK Core curriculum is based on a comprehensive set of student learning outcomes that all students are expected to be able to demonstrate upon completion of a baccalaureate degree at the University of Kentucky. All UK Core courses are designed to meet one or more of the following learning outcomes:

I. Students will demonstrate an understanding of and ability to employ the processes of intellectual inquiry. [12 credit hours]

II. Students will demonstrate competent written, oral, and visual communication skills both as producers and consumers of information. [6 credit hours]

III. Students will demonstrate an understanding of and ability to employ methods of quantitative reasoning. [6 credit hours]

IV. Students will demonstrate an understanding of the complexities of citizenship and the process for making informed choices as engaged citizens in a diverse, multilingual world. [6 credit hours]

The Curricular Framework and Relationship to the Learning Outcomes

Students must take one course from each of the areas listed below in order to complete the UK Core. A course taken to satisfy a requirement in one area of the UK Core cannot be used to satisfy a requirement in another area, even if a specific course is present in more than one area (e.g., some courses are designed to meet the learning outcomes in more than one area).

UK Core Credit-Hour Total* .................................................................................................. 30

*The UK Core is designed to provide the equivalent of 30 credit hours. Some courses in the UK Core require more than three credits, resulting in more than 30 credits in some cases.

NOTE: At the time of publication, more courses were still being approved for many areas. In addition to the courses listed below, there may also be experimental UK Core courses listed under the prefix UKC. To check the most up-to-date list, go to: http://academics.uky.edu/UGE/GenEdCourses/Lists/Course%20List/AllItemsg.aspx.
Please consult your advisor for a complete list of options.

I. Intellectual Inquiry in Arts and Creativity

Courses in this area are hands-on courses that allow students to engage actively with the creative process. Students will define and distinguish different approaches to creativity, demonstrate the ability to critically analyze work produced by other students, and evaluate results of their own creative endeavors. In general education, a focus on creativity adds to the vitality and relevance of learning and will translate into graduates who are better prepared to face the challenges of a dynamic society.

To fulfill the Creativity and the Arts requirement, complete one of the following:

<table>
<thead>
<tr>

</table>

*Chemical Engineering students only.

II. Intellectual Inquiry in the Humanities

These courses develop students’ skills in interpretation and analysis of creations of the human intellect such as art and literature (including folklore, popular culture, film and digital media), philosophical and religious contemplation and argumentation, language systems, and historical narratives. In these courses, students gain the ability not only to analyze the works themselves but to evaluate competing interpretations of such works.

To fulfill the Humanities requirement, complete one of the following:

*Architecture students only.
III. Intellectual Inquiry in the Social Sciences

These courses promote an understanding of the relationships between individuals and society and how scholars have come to understand these relationships using conceptual models and processes of inquiry. Through a discipline-based study of social problems or themes, students will learn to critically evaluate the variety of social situations with which they may be confronted in their everyday lives.

To fulfill the Social Sciences Requirement, complete one of the following:

ANT 101 Introduction to Anthropology
ANT 102 Archaeology: Mysteries and Controversies
CLD 102* The Dynamics of Rural Social Life
CPH 201 Introduction to Public Health
ECO 101 Contemporary Economic Issues
GWS 200 Introduction to Gender and Women’s Studies in the Social Sciences
PS 235 World Politics
PSY 100 Introduction to Psychology
SOC 101* Introduction to Sociology

*Students may not receive credit for both SOC 101 and CLD 102.

IV. Intellectual Inquiry in the Natural, Physical and Mathematical Sciences

These courses engage students in the fundamental processes of science through the exploration of an area in science. Students will be expected to use their knowledge of scientific concepts to formulate predictions, collect and analyze data, and construct explanations for the questions posed.

To fulfill the Natural, Physical and Mathematical Sciences requirement, complete one of the following:

ANT 230 Introduction to Biological Anthropology
AST 191 The Solar System
BIO 102 Human Ecology
BIO 103 Basic Ideas of Biology
CHE 105* General College Chemistry I
CHE 111* Laboratory to Accompany General Chemistry I
ENT 110 Insect Biology
GEO 130 Earth’s Physical Environment
GEO 135 Global Climate Change
GLY 110 Endangered Planet: An Introduction to Environmental Geology
GLY 120 Sustainable Planet: The Geology of Natural Resources
PHY 120 How Things Work
PHY 211 General Physics
PHY 231** General University Physics
PHY 241** General University Physics Laboratory
PLS 104 Plants, Soils, and People: A Science Perspective

*CHE 105 and 111 are paired courses. To earn UK Core credit, both courses must be completed. CHE 111 may be taken concurrently with CHE 105 or after CHE 105 has been completed. Students must sign up for them separately.

**PHY 231 and 241 are paired courses. To earn UK Core credit, both PHY 231 and PHY 241 must be completed. They may be taken in either order and students must sign up for them separately.

V. Composition and Communication I

In this course, students are introduced to the process of writing, speaking, and visually representing their own ideas and the ideas of others; they also practice basic interpersonal communication skills and the ability to communicate with multiple audiences.

To fulfill the Composition and Communication I requirement, complete one of the following:

• score of 32 or above on the English component of the ACT
• score of 700 or above on SAT I Verbal
• score of 3, 4 or 5 on the AP English Language Exam
• CIS 110 Composition and Communication I
• WRD 110 Composition and Communication I

VI. Composition and Communication II

In this course, students research public controversies and work in teams to analyze and argue for a solution to these controversies in oral, written, and visual/digital forms for multiple audiences.

To fulfill the Composition and Communication II requirement, complete one of the following:

• CIS 111 Composition and Communication II
• WRD 111 Composition and Communication II
VII. Quantitative Foundations

These courses are concerned with the application of mathematical concepts and skills to solve real-world problems. In order to perform effectively as professionals and citizens, students must become competent in reading and using quantitative data, in understanding quantitative evidence and in applying basic quantitative skills to the solution of real-life problems.

To fulfill the Quantitative Foundations requirement, complete one of the following:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>GLY 151</td>
<td>Dynamic Earth</td>
</tr>
<tr>
<td>GLY 185</td>
<td>Quantifying the Bluegrass Water Supply</td>
</tr>
<tr>
<td>MA 111</td>
<td>Introduction to Contemporary Mathematics</td>
</tr>
<tr>
<td>MA 123</td>
<td>Elementary Calculus and Its Applications</td>
</tr>
<tr>
<td>MA 113</td>
<td>Calculus I</td>
</tr>
<tr>
<td>MA 137</td>
<td>Calculus I With Life Science Applications</td>
</tr>
<tr>
<td>PHI 120</td>
<td>Introductory Logic</td>
</tr>
</tbody>
</table>

**NOTE:** Students must have demonstrated basic proficiency in math skills as determined by a minimum Math ACT of 19 or the appropriate math placement test to take these courses.

VIII. Statistical Inferential Reasoning

These courses will encourage students to evaluate claims based on statistical principles by providing an understanding of the conceptual and practical applications of statistical reasoning and thinking. Students will receive an introduction to the science of statistics, and while students will be expected to reason with statistical ideas and make sense of statistical information, computations are not the focus.

To fulfill the Statistical Inferential Reasoning requirement, complete one of the following:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>STA 210</td>
<td>Making Sense of Uncertainty: An Introduction to Statistical Reasoning</td>
</tr>
<tr>

<td>Experimental Psychology</td>
</tr>
<tr>
<td>PSY 216*</td>
<td>Applications of Statistics in Psychology</td>
</tr>
</tbody>
</table>

*PSY 215 and 216 are paired courses and are restricted to Psychology majors and minors. To earn UK Core credit, both PSY 215 and PSY 216 must be completed. They may be taken in either order and students must sign up for them separately.

IX. Community, Culture and Citizenship in the USA

These courses promote a student’s understanding of historical, societal, and cultural differences, such as those arising from race, ethnicity, gender, sexuality, language, nationality, religion, political and ethical perspectives, and socioeconomic class; engage students in grappling with conflicts, compromises, and/or ethical dilemmas stemming from the complex and diverse cultural contexts of US communities; and foster effective and responsible participation in a diverse community or society in the United States.

To fulfill the Community, Culture and Citizenship in the USA requirement, complete one of the following:

<table>
<thead>
<tr>

*GEN 100 is for College of Agriculture students only.

– continued –
X. Global Dynamics

These courses equip students to participate in a diverse, multiethnic, multilingual world community. Toward this end, students consider issues of equality, ethical dilemmas, global trends, social change, and civic engagement in the context of local cultures outside the U.S.

To fulfill the Global Dynamics requirement, complete one of the following:

<table>

Foreign Language Requirement

Foreign language is no longer explicitly required as part of the new UK General Education, the UK Core. However, foreign language proficiency is still an expectation for students who enter UK, and is still considered to be an important part of the students’ educational background.

Any first-time freshman or transfer student must demonstrate that they have completed two high school credits in a single foreign language, or two semesters at the postsecondary level. A student who has not completed the high school foreign language requirement will be required to take a two-semester sequence in one foreign language at the University of Kentucky prior to graduation.
College of Agriculture and School of Human Environmental Sciences

M. Scott Smith, Ph.D., is Dean and Director of the College of Agriculture; Nancy M. Cox, Ph.D., is Associate Dean for Research; Jimmy C. Henning, Ph.D., is Associate Dean for Extension; Larry D. Jones, Ph.D., is Associate Dean for Academic Programs.

The research, teaching, extension, and regulatory functions of the College of Agriculture are combined into a coordinated, mutually supporting program of undergraduate and graduate education. Teaching in this college is closely related to the other functions thus providing the student with a unique opportunity to broaden his or her background in the areas of research and application of scientific findings to stakeholders.

Degree and study programs in the college run the entire range of the food, fiber, and agricultural system from farm production and marketing, manufacturing, processing and fabrication through nutrition, hospitality management, and consumer, community, and family studies.

On July 1, 2003, the School of Human Environmental Sciences joined the College of Agriculture. Degree requirements and information pertaining to these programs are listed beginning on page 105.

Admission

All students planning to study any phase of agriculture or human environmental sciences, including pre-veterinary medicine, are admitted directly into the College of Agriculture. Application for admission is made through the Office of Undergraduate Admissions.

Students interested in the Landscape Architecture program must meet all requirements for admission to the University. In addition, enrollment in the landscape architecture program is determined by a selective admission procedure. Applicants are selected on a competitive basis as determined by potential success in the program.

Accreditation

The undergraduate Forestry program at the University of Kentucky is accredited by the Society of American Foresters. The Landscape Architecture program is accredited by the American Society of Landscape Architects and meets all the requirements for licensing of landscape architects in Kentucky and other states. The Food Science program is accredited by the Institute of Food Technologists.

Accreditations for the School of Human Environmental Sciences are listed on page 105 of this Bulletin.

Undergraduate Programs in Agriculture

The University of Kentucky grants the following degrees in the College of Agriculture:

- Bachelor of Science in Agriculture
- Bachelor of Science in Agricultural Biotechnology
- Bachelor of Science in Agricultural Economics
- Bachelor of Science in Animal Sciences
- Bachelor of Science in Career and Technical Education
- Bachelor of Science in Community Communications and Leadership Development
- Bachelor of Science in Equine Science and Management
- Bachelor of Science in Food Science
- Bachelor of Science in Forestry
- Bachelor of Science in Horticulture, Plant and Soil Sciences
- Bachelor of Science in Landscape Architecture
- Bachelor of Science in Natural Resources and Environmental Science

Information on each major program (pre-major, major, and specialty support course requirements) follows. Students may obtain additional information on programs and recommended plans of study from the Associate Dean for Academic Programs.

Also available to students are minors in agricultural community communications and leadership development, economics, animal sciences, entomology, food science, pest management, plant and soil science, and rural sociology.*

Students majoring in biosystems engineering are enrolled in the College of Engineering. Degree requirements and curriculum are listed in the College of Engineering section of this Bulletin.

See page 105 of this Bulletin for the list of degrees offered through the School of Human Environmental Sciences.

*At the time of publication, the minor in rural sociology was in the process of being suspended. Consult your advisor for more information.

SPECIAL APPLICATION DEADLINE FOR SCHOOL OF HUMAN ENVIRONMENTAL SCIENCES

Coordinated Program in Dietetics Upper division program applicants (students who have 71 semester hours of lower division courses – special application, transcript(s), and recommendations are due by:

| Fall | Feb. 1 |

Undeclared Majors

Students who are interested in the College of Agriculture or School of Human Environmental Sciences but are undecided about a major should work closely with advisors in the College of Agriculture. With careful course selection, students can work toward fulfilling general requirements while exploring the various areas of study in agriculture, natural resources, and human environmental sciences.

Scholarships and Financial Aid

The College of Agriculture offers scholarship awards to students on the basis of academic accomplishment and involvement in extracurricular activities. Many of the departments in the college employ students in laboratories, greenhouses, barns, and field work in connection with the research program in agriculture. Information about scholarships and work opportunities is available in the Office of Academic Programs.

Academic Advising

Students in the College of Agriculture are advised by selected faculty in the department of the student’s major. Each student’s academic plan and records is maintained in the Office of Academic Programs, N6 Ag. Science Building – North, and in the Advising Resource Office, School of Human Environmental Sciences, 112 Erikson Hall. Students needing assistance selecting an advisor or general information about academics may come to the Office of Academic Programs or the School of Human Environmental Sciences Advising Resource Office.

Inquiries about programs or majors within the College of Agriculture may be directed to:
The procedure for entering an individualized program is as follows:

1. Each student must apply to the Associate Dean for Academic Programs. The student will receive an explanation of the program and its objectives, and the possible risks involved, including prospective employment and acceptance for advanced graduate degree work.

2. Students who continue their interest in the individualized program develop, with the assistance of an advisor, the plan which they propose to follow.

3. This plan must be submitted to the Associate Dean for consideration and possible approval.

4. Approval of the student’s program by the Associate Dean will admit the student to the individual program option.

For more information, contact:
Office of Academic Programs
N6 Ag. Science Building – North
University of Kentucky
Lexington, KY 40546-0091
(859) 257-3468 or (859) 257-3469

MINIMUM REQUIREMENTS FOR GRADUATION

NOTE: The following graduation requirements do not apply to degree programs in the School of Human Environmental Sciences; those requirements are described in the corresponding section of this Bulletin. Except where noted in specific degree programs, all students pursuing a Bachelor of Science degree in the College of Agriculture must complete:

1. the UK Core and University graduation requirements;
2. GEN 100: Issues in Agriculture, except for students who enter the College after having already completed the U.S. Citizenship requirement of the UK Core;*
3. a minimum of 120 credit hours with at least a 2.0 grade-point average. Some programs require more than the minimum 120 credit hours and have other grade-point average requirements. Remedial courses may not be counted toward the total hours required for the degree;
4. an Agriculture Major with a minimum of 24 hours including 3 hours in a 400-level capstone course;
5. a core of specialty or professional support courses outside the major department totaling at least 18 hours at the 200 level or above; and
6. a minimum of 45 credit hours from upper division courses (300 and above).

*Provisionally approved; formal approval expected in Fall 2011.

B.S. in Agriculture with a major in INDIVIDUALIZED PROGRAMS

Individualized program opportunities have been developed to assist students with academic goals that cross several disciplines. Students pursuing the Bachelor of Science in Agriculture may pursue an individualized program in agriculture such as Entomology.

Graduation Requirements

To earn a Bachelor of Science in Agricultural Biotechnology the student must complete 132 semester hours with at least a 2.0 grade-point standing. A minimum of 45 credit hours must be from upper division courses (300 and above). Remedial courses may not be counted toward the total hours required for the degree. In addition to the UK Core requirements, students must complete college, premajor, major, and specialty support requirements, including an independent research project relevant to the student’s interest in biotechnology.

Plan of Study

As an agricultural biotechnology major you are required to develop an acceptable Plan of Study during your sophomore year for your junior and senior years. The plan must be signed by your advisor and returned to the Office of Academic Programs.

If you are an upper division transfer student (from another university or from another UK college or department) then you will submit your plan during the first semester you are enrolled in the program.

Consult your academic advisor in developing your Plan of Study.

BACHELOR OF SCIENCE IN AGRICULTURAL ECONOMICS

The Agricultural Economics program enables graduates to pursue careers in agribusiness and food industries, international marketing and trade, or farm management and production. Opportunities are also available in public policy for agriculture and rural America and environmental economics. These career opportunities may be found in both the private and public sectors. Economic theory is applied to problems concerning the production, marketing, and distribution of agricultural and food products and also to public policy and natural resource and environmental issues facing rural communities.

Agricultural Economics students choose one of two options – Option A: Agricultural Economics, and Option B: Agribusiness Management and Food Marketing.

Graduation Requirements
To earn the Bachelor of Science in Agricultural Economics, the student must have a minimum of 120 credit hours with at least a 2.0 grade-point average in one of the two program options. A student must earn a minimum grade of C in each of the four agricultural economics courses required in the major. A minimum of 45 credit hours must be from upper division courses (300 and above). Remedial courses may not be counted toward the total hours required for the degree. In addition to UK Core requirements, students must complete college, departmental and support requirements.

Plan of Study
As an agricultural economics major you are required to develop an acceptable Plan of Study in your chosen area of emphasis for your junior and senior years. The plan must be signed by your advisor and returned to the Office of Academic Programs.

If you are an upper division transfer student (from another university or from another UK college or department) then you will submit your plan for approval during the first semester you are enrolled in the department.

Consult your academic advisor in developing your Plan of Study.

**BACHELOR OF SCIENCE IN ANIMAL SCIENCES**

Animals have many important roles in human societies including the provision of food and fiber, draft power, recreational and athletic activities, and companionship. In addition, animals and their interactions with humans have environmental consequences. Processing, preservation, and quality of animal-derived foods significantly affect human health and economics. Animal Sciences involves studying and applying the basic principles of nutrition, reproduction, and genetics to the production and management of animals including horses, dairy and beef cattle, sheep, swine, poultry, and other domesticated species. Additional course work provides information on production and handling of animal-derived foods.

No one program fits all Animal Sciences students. Students come from varied backgrounds and their interests range from livestock and poultry production and management to marketing and public relations; from public education and extension to graduate training in research and teaching and veterinary medicine. No matter what species you have an interest in, the Animal Sciences major will allow you to combine your interest with your desire for an exciting and rewarding career.

As an Animal Sciences major, students have the opportunity to pursue specific interests by selecting one of three study options: Animal Industry, Food Industry or Pre-Professional. The Animal Industry option is for those students interested in animal production and management and allows specialization in one of three areas: livestock, equine, or dairy. The Food Industry option is designed to provide an emphasis on aspects of food processing, chemistry, and safety. The Pre-Professional option is a rigorous study program for students with interests in veterinary sciences, human medicine, and graduate research. Students must consult the pre-professional advisor or graduate school advisor of the university to which they intend on applying for additional or specific requirements.

**Career Opportunities**

To keep pace with the food, fiber, and recreation requirements of a growing world population, Animal Sciences graduates are needed in the livestock industry and closely related fields. The Animal Sciences major offers considerable flexibility in fulfilling specific career objectives, whether you are interested in working directly with livestock or indirectly in closely related areas such as agribusiness, research, government, or education.

**Graduation Requirements**

To earn the Bachelor of Science in Animal Sciences, the student must have a minimum of 120 credit hours with at least a 2.0 grade-point standing. A minimum of 45 credit hours must be from upper division courses (300 and above). Remedial courses may not be counted toward the total hours required for the degree. In addition to UK Core requirements, students must complete college, departmental and specialty support requirements.

**Plan of Study**

As an animal sciences major you are required to develop an acceptable Plan of Study during your sophomore year for your junior and senior years. The plan must be signed by your advisor and returned to the Office of Academic Programs.

If you are an upper division transfer student (from another university or from another UK college or department) then you will submit your plan during the first semester you are enrolled in the program. Consult your academic advisor in developing your Plan of Study.

Each student must complete the following:

AS 205 Livestock, People and Their Interactions .......... 1
ASC 101 Domestic Animal Biology ............................... 3
MA 113 Calculus I .................................................... 3-4

Subtotal: Option A Hours .................. 0-5

Option B: Food Industry

Students fulfilling the Major Requirements are eligible for the Food Industry Option by taking certain required Specialty Support Courses (see below). Students must consult the pre-professional advisor or graduate school advisor of the university to which they intend on applying for additional or specific requirements.

Specialty Support

Animal Industry Option

CHE 230 Organic Chemistry I or
CHE 236 Survey of Organic Chemistry .................. 3

Depending on the student’s area of interest and subject to the advisor’s approval, additional courses at the 200-level or above may be selected from biochemistry, biology, chemistry, physics, statistics, or any agriculture-related area other than Animal Sciences .............................................. 15

Food Industry Option

CHE 230 Organic Chemistry I or
CHE 236 Survey of Organic Chemistry .................. 3
FSC 304 Animal Derived Foods ................................. 5

Depending on the student’s area of interest and subject to the advisor’s approval, additional courses at the 200-level or above may be selected from biochemistry, biology, chemistry, physics, statistics, or any agriculture-related area other than Animal Sciences .............................................. 12

Pre-Professional Option

BIO 304 Principles of Genetics or
ABT/ENT 360 Genetics ......................................... 3-4

CHE 230/231 Organic Chemistry and Laboratory I .......... 5
CHE 232/233 Organic Chemistry and Laboratory II ....... 5

PHY 211 General Physics ........................................ 5
PHY 213 General Physics ........................................ 5

*Students must consult the pre-professional advisor or graduate school advisor of the university to which they will apply for additional or specific requirements.

Subtotal: Specialty Support .................. 18-24

Electives

Electives should be selected to complete the 120 hours required for graduation.

Subtotal: Electives .......................... minimum of 19

TOTAL HOURS: .................................................. 120

BACHELOR OF SCIENCE IN BIOSYSTEMS ENGINEERING

The Biosystems Engineering curriculum is administered jointly by the College of Agriculture and the College of Engineering. Biosystems Engineering provides an essential link between the biological sciences and the engineering profession. This linkage is necessary for the development of food and fiber production and processing systems which preserve our natural resource base. Students in the biosystems engineering program can pursue one of four areas of specialization: Bioenvironmental Engineering, Food and Bioprocess Engineering, Machine Systems Automation Engineering, and Thermal Environmental Engineering.

The degree requirements and curriculum are listed in the College of Engineering section of this Bulletin.

BACHELOR OF SCIENCE IN CAREER AND TECHNICAL EDUCATION

The Career and Technical Education degree involves Agricultural Education and Family and Consumer Sciences. Students take courses in technical education and professional content.

Graduates of this degree pursue careers in both formal and informal education of agriculture or family and consumer sciences. Formal education opportunities include teaching in the middle school or high school classroom. Informal education opportunities include working in Extension and the public or private sectors of industry.

Students choose one of two options – Option A: Agricultural Education; or Option B: Family and Consumer Sciences Education. In addition to receiving the degree, graduates also attain Rank III teaching certification in Agricultural Education (Option A) or a Rank III teaching certification in Family and Consumer Sciences Education (Option B).

Both options lead to the Bachelor of Science in Career and Technical Education.

Teacher Certification

Besides receiving the B.S. in Career and Technical Education, students completing the requirements obtain a letter of endorsement to teach agricultural family and consumer sciences education.

Requirements for teacher certification are as follows:

You must be admitted to the teacher education program (TEP) after you have completed, or
complete during the semester in which you apply, 60 semester hours of course work and AED/FCS 110 Introduction to Career and Technical Education and have at least a 2.5 grade-point standing (on a 4.0 scale). See a full description of “Admission, Retention, and Exit from Teacher Education Programs” on pages 187-188 of this Bulletin.

Applicants are evaluated on an interview, recommendations, scholastic achievement, demonstrated skills, and professional commitment and goals. A student’s progress is continuously monitored, assessed, and reviewed throughout the teacher education program as described in the Teacher Education Programs section of this Bulletin. You must successfully complete assessment items and portfolio items as required. Further, you must successfully complete the Principles of Learning and Teaching Exam and a professional exam, scoring above cutoff scores specified by the State Board of Education for each exam. After completing these exams, students hired by Kentucky schools will complete a one-year paid internship as a first-year teacher and will be evaluated at least three times by a three-person committee before certification is completed.

Note: Because graduation and teacher certification requirements change frequently, students should obtain more complete information from their advisors.

Graduation Requirements

To earn the Bachelor of Science in Career and Technical Education, the student must have a minimum of 120 credit hours with at least a 2.5 grade-point average (required for Teacher Certification). A minimum of 45 credit hours must be from upper division courses (300 level and above). Remedial courses may not be counted toward the total hours required for the degree.

Plan of Study

As a career and technical education major you are required to develop an acceptable Plan of Study during your sophomore year for your junior and senior years. The plan must be signed by your advisor and returned to the Office of Academic Programs.

If you are an upper division transfer student (from another university or from another UK college or department) then you will submit your plan during the first semester you are enrolled in the program.

Students must complete the following:

College Required Hours

Agricultural Education option students complete the following:

GEN 100 Issues in Agriculture .................................... 3
Family and Consumer Sciences Education option students complete the following:

HES 100 An Introduction to Professions in Human Environmental Sciences ........................................ 1
HES 400 Concepts in Human Environmental Sciences: Integration and Application ........................... 2
Subtotal: College Required Hours ......................... 3

UK Core Requirements

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

Oral Communication for Family and Consumer Sciences Education Option

COM 181 Basic Public Speaking or
COM 252 Introduction to Interpersonal Communication .................................................. 3

Subtotal: Major-Required Hours ..................... 36-39

In addition to the Major Requirements, students choose one of two options.

OPTIONS

Option A: Agricultural Education

Option Requirements

AEC 302 Agricultural Management Principles ................. 4
ASC 101 Domestic Animal Biology ................................ 3
ASC 102 Applications of Animal Science ......................... 3
CLD 102 The Dynamics of Rural Social Life (or other Social Science elective) .......................... 3
ECO 201 Principles of Economics I ................................... 3
PLS 210 The Life Processes of Plants

Subtotal: Option A Hours ......................... 26-27

*ECO 201 is a prerequisite for AEC 302.

**PLS 366 Fundamentals of Soil Science ............................. 4

Specialty Support Requirements

Students must complete one additional agricultural economics course, one additional animal sciences course, one additional agricultural engineering course, two additional plant and soil sciences courses, and three additional courses in the College of Agriculture in consultation with your advisor.

Subtotal: Option A Specialty Support ........... 24

Other agriculture majors can also qualify to teach agricultural education provided they meet current certification requirements.

Option B: Family and Consumer Sciences Education

Option Requirements

FAM 251 Personal and Family Finance ......................... 3
FAM 252 Introduction to Family Science ......................... 3
FAM 253 Human Sexuality: Development, Behavior and Attitudes .................................................. 3
IEC 255 Child Development .......................................... 3
IEC 256 Guidance Strategies for Working with Young Children .................................................. 3
FCS 330 Design Issues for Family and Consumer Sciences Educators ............................................. 3
MAT 120 Textiles for Consumers ..................................... 3
NFS 101 Human Nutrition and Wellness ......................... 3
NFS 241 Food Service Sanitation ...................................... 1
NFS 302 Principles of Food Preparation ......................... 3
PSY 100 Introduction to Psychology ................................ 4

Subtotal: Option B Hours ......................... 32

Specialty Support Requirements

In consultation with your advisor, select five courses from the following list:

CLD 401 Principles of Cooperative Extension .................. 3
FAM 360 Introduction to Family Intervention: Working with Families and Individuals ....................... 3
FAM 473 Family Life Education ...................................... 3
FAM 544 Cultural Diversity in American Children and Families .................................................. 3
FAM 553 Parent-Child Relationships Across the Lifecycle .................................................. 3
FAM 554 Working with Parents ....................................... 3
FAM 563 Families, Legislation and Public Policy ................ 3

Subtotal: Option B Specialty Support ........... 15

Electives

Electives should be selected by the student to lead to the minimum requirement of 120 hours required for graduation.

Subtotal: Electives ................................ minimum of 7

Total Minimum Hours for Program .................. 120
BACHELOR OF SCIENCE IN COMMUNITY COMMUNICATIONS AND LEadership Development

Community Communications and Leadership Development is an interdisciplinary social science major. It provides students with the knowledge and skills to integrate communications, sociology, journalism, and community development theories and apply them to real-world situations involving local communities and cultural organizations.

The major focuses on such skills as written and oral communication; critical thinking; understanding of group, organizational, and community dynamics; and ethical decision making.

The agricultural communications option is a writing-based curriculum that prepares graduates for careers as communications professionals with agricultural and community-based media outlets and organizations. The public service and leadership option prepares graduates for leadership positions in public and private organizations or government agencies. Students in both options are encouraged to participate in internship opportunities.

Graduation Requirements

To earn the Bachelor of Science in Community Communications and Leadership Development, the student must have a minimum of 120 credit hours with at least a 2.0 grade-point average. A minimum of 45 credit hours must be from upper division courses (300 level and above). Remedial courses may not be counted toward the total hours required for the degree.

Plan of Study

As a community communications and leadership development major you are required to develop an acceptable Plan of Study during your sophomore year for your junior and senior years. The plan must be signed by your advisor and returned to the Office of the Associate Dean for Academic Programs.

If you are an upper division transfer student (from another university or from another UK college or department) then you will submit your plan during the first semester you are enrolled in the program.

Students must complete the following:

**College Required Hours**

- GEN 100 Issues in Agriculture ........................................... 3
- Subtotal: College Required Hours ................................. 3

**UK Core Requirements**

See the UK Core section of this Bulletin for the complete UK core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

BACHELOR OF SCIENCE IN EQUINE SCIENCE AND MANAGEMENT

The horse industry is a dynamic industry that encompasses not only the breeding, raising and training of horses but also the development of activities for the use of the horse in sports and recreation. The industry has a significant economic impact across the U.S. and world-wide.

Equine science and management involves the study and application of science and business concepts to the horse industry. Additional course work supports learning in areas that aid in breeding and raising horses and marketing the industry. Students come from varied equine backgrounds but have a common interest in the horse. Regardless of which breed of horse or activity focus students have, equine science and management majors will have the opportunity to combine their interest in the horse with a desire to become active participants in the horse industry by selecting either the equine science option or the equine management option.

The equine science option is for students who have a primary interest in horse production. The equine management option is designed for students who are interested in the business aspect of the horse industry. Students in equine science and management considering a career in veterinary medicine or graduate research can meet those goals in the degree program as well. Interested students need to consult with an advisor to ensure all specific academic requirements are met.
Career Opportunities
The horse industry is continually changing. Equine science and management graduates are needed in all aspects of the industry including production, business management and other related support industries.

Graduation Requirements
To earn the Bachelor of Science in Equine Science and Management, the student must have a minimum of 120 credit hours with at least a 2.0 grade-point average. A minimum of 45 credit hours must be from upper division courses (300 level and above). Remedial courses may not be counted toward the total hours required for the degree.

Plan of Study
As an equine science and management major you are required to develop an acceptable Plan of Study during your sophomore year for your junior and senior years. The plan must be signed by your advisor and returned to the Office of the Associate Dean for Academic Programs.

If you are an upper division transfer student (from another university or from another UK college or department) then you will submit your plan during the first semester you are enrolled in the program.

Students must complete the following:

College Required Hours
GEN 100 Issues in Agriculture ........................................ 3

Subtotal: College Required Hours ................................ 3

UK Core Requirements
See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

The student will choose, in consultation with an advisor, at least 18 hours of courses at the 200 level or above that will strengthen the program in an area of importance to the student. To aid in developing this area of study, a list of suggested courses is available to advisors. The list includes courses in animal sciences, plant and soil sciences, biosystems and agricultural engineering, agricultural economics plus other areas of study at UK.

Subtotal: Option B Specialty Support ................................ 18

Electives
Electives should be selected by the student to lead to the minimum total of 120 hours required for graduation

Subtotal: Electives ................................................. minimum of 4

Total Minimum Hours for Program ................................ 120

College of Agriculture and School of Human Environmental Sciences
**BACHELOR OF SCIENCE IN FOOD SCIENCE**

Food science is the study of the transformation of biological materials into food products acceptable for human consumption. This requires studying diverse scientific disciplines related to food, including chemistry, engineering, microbiology, biochemistry, toxicology, and management; and effectively applying the industrial and practical aspects to product development, food processing, preservation, and marketing. The program is administered by the Department of Animal and Food Sciences and offers training in the basic sciences and in the fundamentals of food science.

Career opportunities in food industries include: management, research and development of new food products and ingredients, process supervision, quality control, procurement, distribution, sales, and merchandising. Positions include sales and services in allied industries; consulting and trade association activities; and promotional and educational services. Governmental agencies employ food scientists whose work is directed towards research, regulatory control, and the development of food standards.

**Graduation Requirements**

To earn the Bachelor of Science in Food Science, the student must complete a minimum of 128 semester hours with at least 45 hours from courses at the 300 level and above. A 2.0 grade-point standing (on a 4.0 scale) is necessary and remedial courses may not be counted toward the total hours required for the degree.

The Food Science program meets the requirements for accreditation by the Institute of Food Technologists and the National Organization of Food Science Professionals.

**Plan of Study**

As a food science major you are required to develop an acceptable **Plan of Study** during your sophomore year for your junior and senior years. The plan must be signed by your advisor and returned to the Office of Academic Programs.

If you are an upper division transfer student (from another university or from another UK college or department) then you will submit your plan during the first semester you are enrolled in the program.

Consult your academic advisor in developing your Plan of Study.

Each student must complete the following:

**College Required Hours**

GEN 100 Issues in Agriculture ..................................... 3

**Subtotal: College Required Hours** ................................ 3

**UK Core Requirements**

See the **UK Core section** of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

**Subtotal: Electives** ..................................................... minimum of 15

**TOTAL HOURS:** ................................................................. 128

**BACHELOR OF SCIENCE IN FORESTRY**

Kentucky boasts many forested areas with famous reputations, such as Natural Bridge, Red River Gorge, Daniel Boone National Forest, and Robinson Forest. Robinson Forest is one of the largest research and educational forests in the eastern United States. It is managed by the Department of Forestry, and as a forestry student at the University of Kentucky all of its resources will be available to you as a unique outdoor laboratory.

The missions of the Department of Forestry are to identify and address the challenges and opportunities facing sustained management of our renewable natural resources, including forests, soils, water, and wildlife. These missions involve three interrelated functions: research, extension, and education. The research goal of the department is to obtain basic and applied information leading to wise and effective management of our natural resources. Forestry extension seeks to inform land owners and the general public about forest stewardship. Forestry education prepares students for careers as forestry and natural resource professionals. The objectives of the required courses in the forestry curriculum are to educate and train students in the communication, managerial, scientific, processing, and administrative skills and principles related to the stewardship and utilization of renewable natural resources. Accomplishment of these objectives will ensure a continuing supply of entry-level professionals for Kentucky and the nation.

The undergraduate (B.S.) program leading to the professional degree in forestry is accredited by the Society of American Foresters (SAF). SAF is the specialized accrediting body recognized by the Commission on Recognition of Postsecondary Accreditation as the accrediting agency for forestry in the United States. Additionally, you may become certified by The Wildlife Society if you choose appropriate elective courses.

**Career Opportunities**

Forestry graduates are employed as professional foresters in private forest industries and organizations, consulting companies, and public...
agencies, including the U.S. Forest Service, Soil Conservation Service, and state, county, or urban forestry programs. Graduates are also qualified to be research technicians in government, university, and private laboratories, or may continue their studies in specialized graduate programs.

The inclusion in the curriculum of management and processing principles makes UK forestry graduates attractive to the forest products industry; graduates are often employed as technical specialists, managers, and marketing and wood procurement personnel.

Graduation Requirements

To earn the Bachelor of Science in Forestry, the student must complete a minimum of 121 semester hours. Eight of these hours are earned while attending a Summer Camp between the third and fourth academic years. A 2.0 grade-point standing (on a 4.0 scale) is necessary and remedial courses may not be counted toward the total hours required for the degree.

Students will complete a field semester in the spring of their junior year. Throughout the spring field semester, students will visit numerous sites to see different ecosystems in the region. Students will periodically return to one site, or sample property, that will be used for in-depth analysis to show integration and application of field semester concepts.

The curriculum consists of UK Core requirements, preprofessional, professional, and specialty support components. Preprofessional, professional, and specialty support courses provide the skills and understanding to manage forest resources. Electives, chosen with the assistance of your advisor, strengthen your knowledge of basic principles in areas of special interest to you.

UK Core Requirements

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

BACHELOR OF SCIENCE IN HORTICULTURE, PLANT AND SOIL SCIENCES

The Horticulture, Plant and Soil Sciences degree program is designed to provide students with the knowledge and skills needed for a career in the production and management of plants and soils for food, fiber, forage, oil, recreation, landscaping and the enhancement of the human environment. Graduates have the technical and scientific skills as well as the communication, computational, leadership, and interpersonal capabilities necessary to function effectively as professionals. Careers are as diverse as they are challenging. Each Option prepares graduates for specific professional opportunities.

Options

Students pursuing a Horticulture, Plant and Soil Sciences degree may choose from the following Options:
- Horticulture Enterprise Management
- Turfgrass Science
- Crops and Livestock
- Crop, Soil and Horticulture Science

Graduation Requirements

Students must complete a minimum of 120 semester credit hours with at least 45 credit hours from courses at the 300 level or above. A 2.0 grade-point standing (on a 4.0 scale) is necessary and remedial courses may not be counted toward the total hours required for the degree. In addition to the UK Core and college requirements, students must select an Option with the assistance of an advisor and fulfill the area’s program requirements.

Plan of Study

As a horticulture, plant and soil sciences major you are required to develop an acceptable Plan of Study during your sophomore year for your junior and senior years. The plan must be signed by your advisor and returned to the Office of Academic Programs.

If you are an upper division transfer student (from another university or from another UK college or department) then you will submit your plan during the first semester you are enrolled in the program.

Consult your academic advisor in developing your Plan of Study.

College Required Hours

GEN 100 Issues in Agriculture ........................................... 3

Subtotal: College Required Hours ................................ 3

UK Core Requirements

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

I. Intellectual Inquiry in Arts and Creativity
Choose one course from approved list ....................... 3

II. Intellectual Inquiry in the Humanities
Choose one course from approved list ....................... 3

III. Intellectual Inquiry in the Social Sciences
Choose one course from approved list ....................... 3

IV. Intellectual Inquiry in the Natural, Physical, and Mathematical Sciences
BIO 103 Basic Ideas of Biology ........................................... 3

V. Composition and Communication I
CIS/WRD 110 Composition and Communication I ....... 3

VI. Composition and Communication II
CIS/WRD 111 Composition and Communication II ....... 3

VII. Quantitative Foundations
Choose one course from approved list ....................... 3

VIII. Statistical Inferential Reasoning
Recommended:
STA 210 Making Sense of Uncertainty:
An Introduction to Statistical Reasoning ................... 3

IX. Community, Culture and Citizenship in the USA
GEN 100 Issues in Agriculture ........................................... 3

X. Global Dynamics

TOTAL HOURS: ................................................. 120
The profession of landscape architecture has grown out of the tradition of the great garden designers of Italy, France, England, and China to encompass the art and science of design, planning, and management of the land. The science of landscape architecture is concerned with the conservation and management of natural resources. The art of landscape architecture is concerned with the creation of more enjoyable, comfortable, and safe outdoor areas where human use requires adaptation of the natural environment.

This five-year professional program is accredited by the American Society of Landscape Architects and meets all the requirements for licensing of landscape architects in Kentucky and other states. Landscape architecture employment opportunities may be found in the designing of urban communities, plazas, university campuses, institutional grounds, parks and recreational areas, commercial and industrial sites, and residential communities, as well as in the areas of historic preservation, regional planning, and mine reclamation.

Admission Requirements

Admission to the University of Kentucky and to the College of Agriculture does not guarantee admission to the Landscape Architecture program. All applicants must be reviewed by the Landscape Architecture Program Chairperson. The number of applicants ultimately admitted is determined by the resources available to provide high quality instruction. Applicants will be reviewed on a comparative basis. Determination of acceptability into the program is based on the following.

Entering freshmen and transfer students from degree programs other than Landscape Architecture must:

1. submit a formal application to the Undergraduate Admissions Office indicating Landscape Architecture as your major;
2. meet the minimum criteria for admission to the University as specified in this Bulletin (The Landscape Architecture program requires a minimum of a 2.0 grade-point average on a 4.0 scale for eligibility to transfer into the program); and
3. submit a portfolio for review which, combined with an evaluation of courses completed, will determine acceptance into the program as well as the level to which the student will be accepted.

Graduation Requirements

To earn a Bachelor of Science degree in Landscape Architecture, the student must have 145 semester hours with at least a 2.0 grade-point average (on a 4.0 scale). Remedial courses may not be counted toward the total hours required for graduation. In addition to satisfying the UK Core requirements, each student must complete premajor, professional, and specialty support requirements. The Landscape Architecture program policy requires a student to achieve a C grade or better in major design studios in order to advance to the next level.

UK Core Requirements

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

I. Intellectual Inquiry in Arts and Creativity

The program in Natural Resources and Environmental Science is designed to provide students with the knowledge and skills needed for a career in the rapidly growing fields of environmental science and policy. As the world population grows, and as nations are drawn closer together through technology and trade, the conservation and management of natural resources will become increasingly important to the sustained well-being of all societies. The curriculum provides students with exposure to a broad array of key disciplines involved with natural resources. As a result, graduates have the capacity to integrate different perspectives and diverse bodies of knowledge in dealing with real resource management problems.

All students in the program share a common core of major requirements. This core is designed to provide the student with broad exposure to the technical and socioeconomic dimensions of natural resources and their management. Important components of this core of courses are a required three-week summer camp after the sophomore or junior year and a required internship or research experience. In addition to this core, all students must develop a Concentration Area consisting of at least 18 hours of course work. This Concentration Area allows the student to focus the degree on an area of interest in the technical or policy oriented aspects of natural resource management. These courses must be chosen in consultation with the academic advisor and must be approved by the advisor and the NRES Steering Committee as part of the plan of study for the student.

Graduates of the Natural Resources and Environmental Science degree program are employed as professionals in both the public and private sectors. Industries which have an impact upon the environment maintain a staff of environmental scientists and technicians to ensure compliance with the standards of our society. Government agencies employ broadly trained natural resource scientists to serve in regulatory or management functions for the resources in their jurisdiction. Additional employment opportunities exist in environmental journalism and education, and with the many nonprofit organizations which have environmental concerns. In addition, students in either option are well prepared for graduate programs dealing with resource and environmental issues and in traditional academic disciplines.

**Graduation Requirements**

To earn a Bachelor of Science in Natural Resources and Environmental Science, the student must complete at least 120 semester hours with at least a 2.0 grade-point average. A minimum of 45 credit hours must be from upper division courses (300 and above). Remedial courses may be counted toward the total hours required for the degree. In addition to the UK Core requirements, the student must complete college, premajor, major and concentration requirements, including an internship or research experience. The student will construct their concentration area with the approval of a faculty advisor in the area of interest.

**Plan of Study**

As a Natural Resources and Environmental Science major, you are required to work with your advisor to develop a complete Plan of Study during your sophomore year for your junior and senior years. The plan will be signed by your advisor, approved by the NRES Steering Committee, and placed in your file in the Office of the Associate Dean for Academic Programs. If you are an upper division transfer student (from another university or from another UK college or department) then you will submit your plan during the first semester you are enrolled in the program.

**UK Core Requirements**

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core Areas. Students should work closely with their advisor to complete the UK Core requirements.

*May be used to satisfy the University Writing Requirement.

**NRE 320 is a three-week summer camp field data collection experience. The student will attend this camp after the sophomore or junior year. This camp exposes the student to a wide range of natural resource techniques and concepts, including aquatic ecology, soil and plant sciences, wildlife and forestry, and waste management.

*All students must complete either an internship (NRE 399) or a supervised research project (NRE 395). This requirement is designed to give the student real world exposure to natural resource work in their area of interest.

**Subtotal: Major Hours**

102
Analytical Skill Development and Environmental System Emphasis Areas

Students must take nine hours in one of four Analytical Skill Development Areas and nine hours in one of seven Environmental System Emphasis Areas. A total of seven hours of 300-level and above courses must be completed between the Analytical Skill Development section and the Environmental System Emphasis Area. Depending on the student’s interest and career goals they will select from a list of courses in specific topic areas. Courses taken to complete the Analytical Skill Development section may not count towards the Environmental System Emphasis Area and vice versa.

*A written proposal must be submitted by a student with an advisor’s approval to the NRES Steering Committee for an Individualized System Emphasis Area. Potential topics may include renewable energy, sustainability, or outdoor recreation. The student’s proposal should also include an explanation of how the Experiential Learning requirement will be coordinated with the Emphasis Area.

Subtotal: Analytical Skill Development and Environmental System Emphasis Areas ........................................... 18

Electives
Free elective courses should be selected by the student to lead to the minimum total of 120 hours required for graduation.

Subtotal: Electives ......................................................... minimum of 11

TOTAL HOURS: ................................................................ 120

MINORS IN AGRICULTURE

Minor in Agricultural Economics

Preprofessional Requirement Hours
ECO 201 Principles of Economics I .................................. 3

Minor Requirements
Two courses selected from:
AEC 302 Agricultural Management Principles .................. 4
AEC 303 Microeconomic Concepts in Agricultural Economics ........................................... 3
AEC 305 Food and Agricultural Marketing Principles .............. 3

In addition, students should select nine hours from other agricultural economics courses. A maximum of three credit hours from AEC 311, 312, 313, 314, 315, or 341 may be credited to the minor. AEC 399 may not be included.

Minor in Animal Sciences

Prerequisites
Note that several classes in both Group A and Group B have prerequisites beyond ASC 101. These are indicated in parenthesis following the courses below. Students taking the minor are responsible for satisfying the prerequisites.

Minor Requirements Hours
ASC 101 Domestic Animal Biology ................................. 3
ASC 102 Applications of Animal Science ......................... 3

Additional Course Work
At least 9 credit hours must be selected from the list that follows (Groups A and B). At least one course must be selected from Group A and one course from Group B.

Group A
ASC 300 Meat Science .................................................. 3
ASC 325 Animal Physiology (BIO 152 and CHE 107/113) .......... 3
ASC 362 Animal Genetics .............................................. 4
ASC 364 Reproductive Physiology of Farm Animals (CHE 230 or 236) .......... 4
ASC 378 Animal Nutrition and Feeding (CHE 230 or 236) .......... 4

Group B
ASC 340 Sheep Production ............................................ 2
ASC 404 Sheep Science (ASC 300, 362, 364) ..................... 4
ASC 406 Beef Cattle Science (ASC 300, 362, 364) ............... 4
ASC 408G Swine Production (ASC 378) .......................... 2
### Minor in Entomology

**Preminor Requirement**  
Two semesters of introductory biology  

**Minor Requirements**  
- Required:  
  - ENT 300 General Entomology  
  - ENT 310 Insect Pests of Field Crops  
  - ENT 320 Horticultural Entomology  
  - ENT 340 Livestock Entomology  
  - ENT 360 Genetics  
  - ENT 395 Independent Work  
  - ENT 402 Forest Entomology  
  - ENT 530 Integrated Pest Management  
  - ENT 561 Insects Affecting Human and Animal Health  
  - ENT 563 Parasitology  
  - ENT 564 Insect Taxonomy  
  - ENT 568 Insect Behavior  
  - ENT 574 Advanced Applied Entomology

### Minor in Food Science

**Required Courses**  
- FSC 355 Food Analysis  
- FSC 434G Food Chemistry  
- FSC 530 Food Microbiology  
- FSC 536 Advanced Food Technology  
- FSC 538 Food Fermentation and Thermal Processing

**Elective Courses**  
Two of the following:  
- FSC 306 Introduction to Food Processing  
- AEN 340 Principles of Food Engineering  
- FSC 535 Food Analysis* or  
- FSC 434G Food Chemistry*  
- FSC 536 Advanced Food Technology* or  
- FSC 538 Food Fermentation and Thermal Processing*  
  *if not taken as one of the required courses.

### Minor in Pest Management

**Prerequisite**  
One course from the following:  
- ASC 320, 404G, 406, 408G, 420G  
- PLS 352, 386, 402, 408, 412, 515, 520, 525, 556  

**Minor Requirements**  
- ENT 300 General Entomology  
- PLS 404 Integrated Weed Management  
- PPA 400G Principles of Plant Pathology

### Minor in Sustainable Agriculture

The minor in Sustainable Agriculture requires 21 to 23 hours as follows:

**Minor Prerequisite**  
EFO 201 Principles of Economics  

**Minor Requirements**  
- Required:  
  - SAG 101 Introduction to Sustainable Agriculture  
  - SAG 201 Cultural Perspectives on Sustainability  
  - SAG 397 Apprenticeship in Sustainable Agriculture  
  - Select one from:  
    - GEO 235 Environmental Management and Policy  
    - GLY 210 Habitable Planet: Evolution of the Earth System  
    - PLS 366 Fundamentals of Soil Science

**Additional requirements** for both Auburn and Tuskegee.

---

**Pre-Veterinary Medicine**

Students interested in becoming veterinarians may enroll in the College of Agriculture at the University of Kentucky and complete their requirements for admission to veterinary school. Although the Commonwealth of Kentucky does not have a school of veterinary medicine, it is a participating member of the Southern Regional Education Board plan, under which legal Kentucky residents may attend the Auburn University School of Veterinary Medicine. Each year 34 students are chosen from Kentucky to enter the Auburn program.

There is also a plan whereby two legal Kentucky residents may be accepted by the Tuskegee University School of Veterinary Medicine each year.

Under both of the above programs the students selected are exempt from the out-of-state tuition that would normally apply to a Kentucky resident. Admission is on a competitive basis with the final selection being made by a committee from each of the veterinary schools. Pre-veterinary studies is not a degree program, but a pre-professional curriculum. It is strongly recommended that all pre-veterinary students choose a degree goal early in their college career. Although it is possible to complete pre-vet requirements in three years, the majority of students accepted to Auburn have a B.S. or B.A. degree.

An overall grade-point average of 2.50 (on a 4.0 basis) is required prior to consideration for admission to Auburn; 2.70 is required for Tuskegee. Due to the high level of competition for admission to any veterinary school, a student should maintain at least a 3.0 academic standing on all college work. The average overall GPA for students accepted to veterinary schools is approximately 3.45. The student must have completed all of the required courses by June 15 of the year of possible acceptance. Courses in certain advanced sciences must be taken within six years of entry to Auburn. All required courses must have a grade of “C” or greater.

Auburn applicants can use the Veterinary Medical College Application Service (VMCAS) application, available at: [www.vcas.org](http://www.vcas.org). The deadline for Auburn applications is October 1. Auburn requires the General Aptitude portion of the Graduate Record Examination (GRE). Tuskegee requires a separate application form and the GRE, taken within three years of application. Additional forms are required for both schools; forms are available from Dr. Dwyer after June 1.

The following curriculum is designed to meet the requirements for both Auburn and Tuskegee.
However, some changes in the pre-veterinary curriculum may go into effect during the school year. The student has the responsibility to work closely with his or her pre-veterinary advisor in making certain that all requirements are met for consideration for acceptance.

All CLEP and advanced placement credit for required courses must have prior approval by Dr. Dwyer. Auburn does not accept correspondence credit for required courses, except for Animal Nutrition.

SCHOOL OF HUMAN ENVIRONMENTAL SCIENCES

Human Environmental Sciences provides science-based programs concerned with the interactions of individuals and families within multiple environmental contexts, including social, cultural, economic, and political. The specialized areas of study prepare graduates for professional roles through academic work, practicum or field experience, and research with a focus on improving quality of life for individuals and families throughout the lifespan.

There are three departments in the School of Human Environmental Sciences – Family Sciences; Merchandising, Apparel and Textiles; and Nutrition and Food Science. Each department offers both undergraduate and graduate study.

Undergraduate Programs in Human Environmental Sciences

The University of Kentucky grants the following degrees in the School of Human Environmental Sciences:

- Bachelor of Science in Career and Technical Education (see pages 94-95).
- Bachelor of Science in Dietetics
- Bachelor of Science in Family Sciences
- Bachelor of Science in Hospitality Management
- Bachelor of Science in Human Nutrition
- Bachelor of Science in Merchandising, Apparel and Textiles

Minor Offered

The following minor is available:

- Family Science

Accreditations and Approvals

All undergraduate programs in the School of Human Environmental Sciences are accredited by the American Association of Family and Consumer Sciences.

Additionally, all programs and facilities which can be accredited or approved have achieved that recognition.
DEPARTMENT OF FAMILY SCIENCES

The Department of Family Sciences is committed to offering quality programs for students preparing to work with individuals and families in various settings including schools, private and public social agencies, and business. The focus is on enhancing the quality of life for families. Undergraduate programming is at an applied level using an interdisciplinary approach from the perspectives of individual and family development, family resource management, and family systems.

The department offers a major in family sciences. (The College also offers a Bachelor of Science in Career and Technical Education with an option in Family and Consumer Sciences Education; see pages 94-95.) Students in the family sciences major earn the degree Bachelor of Science in Family Sciences. A minor in family science is available.

Family sciences prepares students to work with individuals and families in unique ways. Positions include coordinators of community education and outreach, crisis management, residential care, family financial management, research and planning, and social service workers. Students completing the program are eligible to apply to become certified family life educators through the National Council on Family Relations. Contact the Department of Family Sciences, 315 Funkhouser Building, (859) 257-7750, for more information about this optional credential.

Visit us on the Web at: www.ca.uky.edu/hes/?p=2.

BACHELOR OF SCIENCE IN FAMILY SCIENCES

Each student must complete the following:
1. Complete UK core requirements.
2. Complete the School requirements listed below.
3. Complete 120 credit hours with a minimum grade-point average of 2.0.
4. Complete the required curriculum in the major program.

Subtotal: Major Hours 27

Professional Support

In addition to the major requirements, each student in consultation with his or her academic advisor will select a minimum of 18-21 credits in course work in a university-recognized minor. At least 12 of these hours must be at the 300 level or above. A minor is a structured group of courses that leads to considerable knowledge and understanding of a subject. Suggested minors include Psychology, Sociology, Gender and Women’s Studies, Anthropology, Economics, Political Science, Appalachian Studies, Business, Communication, Health Promotion, Human Nutrition, Community and Leadership Development, etc.

Students must contact the department responsible for the minor program for guidance and advising.

Subtotal: Professional Support Hours 18-21

Electives

Electives at the 300 level or above to reach 120 credits including sufficient credits to reach 45 hours at the 300 level or above. Work with an advisor to select additional FAM classes if available.

Subtotal: Electives 9

TOTAL HOURS: 120

Minor in Family Science

Any student interested in a minor in family science should file an application with the student’s college prior to entering the program.

Minor Requirements

Plus twelve additional hours in family science with at least six hours at the 300-level or above.

BACHELOR OF SCIENCE IN CAREER AND TECHNICAL EDUCATION

with an Option in Family and Consumer Sciences Education

The Family and Consumer Sciences Education option of the Bachelor of Science in Career and Technical Education prepares graduates for careers in teaching, extension services, adult education and related activities for consumer and family science programs. Professional education courses in teaching methods and supervised teaching in family and consumer sciences classes at the middle school and high school levels are included in the option. See further information under Career and Technical Education on pages 94-95.
DEPARTMENT OF MERCHANDISING, APPAREL, AND TEXTILES

The Department of Merchandising, Apparel, and Textiles is committed to excellence as it prepares students for merchandising, apparel, and textiles positions in an increasingly diverse and technological world. Teaching, research, and service programs support student development and contribute to the economic and social well-being of the Commonwealth, the nation, and the world. The department offers the Bachelor of Science in Merchandising, Apparel, and Textiles.

Visit us on the Web at: www.ca.uky.edu/hes/?p=3.

BACHELOR OF SCIENCE IN MERCHANDISING, APPAREL, AND TEXTILES

The Merchandising, Apparel, and Textiles program develops graduates who are consumer and technology focused with a global orientation. Students study concepts and develop skills necessary for understanding consumer and market trends, strategies, and industry structures that facilitate the development, sourcing, marketing, and merchandising of consumer goods and services in the domestic and international marketplace.

The curriculum challenges students to think creatively, to learn research and problem solving techniques, and to interact in team efforts, while gaining knowledge of the merchandising process. Students gain awareness of the interrelationships of people, technology, and materials in the dynamic social, economic, and global environment of the merchandising, apparel and textile industry. Course work includes a strong business component, interaction with professionals and field experience. Internships are a required component of the program, which can lead to permanent professional placement. Faculty encourage student participation in industry-sponsored projects related to merchandising and product development.

Each student must complete the following:

1. Complete UK Core requirements.
2. Complete the School requirements listed below.
3. Complete 120 credit hours with a minimum grade-point average of 2.0.
4. Complete the required curriculum in the major program.

School Requirements

HES 100 An Introduction to Professions in Human Environmental Sciences .................. 1
HES 400 Concepts in Human Environmental Sciences: Integration and Application .......... 2
One course in Human Environmental Sciences, outside the student’s major prefix ................... 3
Subtotal: School Required Hours ................. 6

UK Core Requirements

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

I. Intellectual Inquiry in Arts and Creativity

Choose one course from approved list .................. 3

II. Intellectual Inquiry in the Humanities

Choose one course from approved list .................. 3

III. Intellectual Inquiry in the Social Sciences

IV. Intellectual Inquiry in the Natural, Physical, and Mathematical Sciences

Choose one course from approved list .................. 3

V. Composition and Communication I

CIS/WRD 110 Composition and Communication I .......................... 3

VI. Composition and Communication II

CIS/WRD 111 Composition and Communication II .......................... 3

VII. Quantitative Foundations

Recommended:
MA 123 Elementary Calculus and its Applications or
MA 113 Calculus I ...................................................... 3-4

VIII. Statistical Inferential Reasoning

STA 210 Making Sense of Uncertainty: An Introduction to Statistical Reasoning ................. 3

IX. Community, Culture and Citizenship in the USA

Choose one course from approved list .................. 3

X. Global Dynamics

Choose one course from approved list .................. 3

UK Core Hours .............................................. 31-32

Program Entrance Requirements

The minimum grade-point average for entrance of all students into the Merchandising, Apparel and Textiles program is 2.0.

Graduation Requirements

MAT majors and transfer students must obtain or have received a C or better in ALL premajor, professional support and MAT major required courses. No letter grade of a D would be accepted in the premajor, professional support and MAT major required courses.

Premajor Requirements

Writing course (200 level or above) .................. 3
FAM 350 Consumer Issues .......................... 3
PSY 100 Introduction to Psychology .......................... 4
SOC 101 Introduction to Sociology .......................... 3
ECO 201 Principles of Economics I .......................... 3
ECO 202 Principles of Economics II .......................... 3
STA 210 Making Sense of Uncertainty: An Introduction to Statistical Reasoning .......................... 3
Subtotal: Premajor Hours ................. 22

Major Requirements

MAT 114 Introduction to Merchandising ................. 3
MAT 120 Textiles for Consumers .......................... 3
MAT 237 Aesthetic Experience in Retail .......................... 3
MAT 247 Dress and Culture .......................... 3
MAT 315 Merchandise Planning and Control .......................... 3
MAT 340 Professional Practice .......................... 3
MAT 350 Problem Solving in Merchandising .......................... 3
MAT 414 Merchandising Strategy Analysis .......................... 3
MAT 425 Economics of Merchandise Sourcing .......................... 3
MAT 470 International Merchandising ................. 3
MAT 490 Internship .......................... 6

Choose 6 credits from:
MAT 359 Special Topic in Merchandising, Apparel and Textiles (Subtitle required) ................. 3
MAT 395 Independent Study in Merchandising, Apparel and Textiles .......................... 3
MAT 480 Merchandising, Apparel and Textiles Study Tour .......................... 3
MAT 515 Specification and Evaluation of Textiles and Apparel .......................... 3
MAT 520 Textiles for Interiors .......................... 3
MAT 522 History of Textiles .......................... 3
MAT 533 History of Costume .......................... 3
MAT 547 Social and Psychological Aspects of Apparel .......................... 3
MAT 559 Special Topic in Merchandising, Apparel and Textiles (Subtitle required) ................. 3
MAT 570 Electronic Retailing (E-Tailing) ................. 3
MAT 595 Independent Study in Merchandising, Apparel and Textiles .......................... 3

Subtotal: Major Hours ................. 40

Professional Support (21 hours)

Electives should be selected to complete the minimum total of 120 hours required for graduation.

Subtotal: Minimum Elective Hours ................. 10

TOTAL HOURS ............................................ 120

DEPARTMENT OF NUTRITION AND FOOD SCIENCE

The Department of Nutrition and Food Science provides sound undergraduate and graduate programs in foods and nutrition, and is concerned with research and extension services.

The department offers the Bachelor of Science in Dietetics, the Bachelor of Science in Hospitality Management, and the Bachelor of Science in Human Nutrition. A post-baccalaureate dietetic internship is also offered.

Visit us on the Web at: www.ca.uky.edu/hes/?p=4.
BACHELOR OF SCIENCE IN DIETETICS with a major in Nutrition and Food Science

Dietetics prepares professionals who are recognized for expertise in food and nutrition. Graduates of the University of Kentucky Dietetics Program are prepared to become Registered Dietitians to function as entry level professionals with opportunities for practice in medical nutrition therapy, community dietetics, food systems management, and/or the business of dietetics. Becoming a registered dietitian involves a combination of academic preparation, including a minimum of a baccalaureate degree, and a supervised practice component.

The UK NFS Dietetics Program offers two options to earn a bachelor’s degree in dietetics. Option A is the Didactic Program in Dietetics (DPD) and Option B is the Coordinated Program in Dietetics (CP). Both options lead to the Bachelor of Science in Dietetics and fulfill the foundation knowledge and/or competencies established by the Commission on Accreditation for Dietetics Education, CADE, the accrediting agency for American Dietetic Association, ADA. The DPD and the CP are both fully accredited by CADE. Option B, CP, is a selective admission program to which students must apply prior to beginning the major course work in the third year of the dietetics program.

Option A, designated as the Didactic Program in Dietetics, DPD, focuses on the foundation knowledge requirements provided by the academic component of dietitian education. A student must meet the declared dietetics major in the Department of Nutrition and Food Science to complete the DPD. Students must attain a grade-point average of 2.4 or above to progress into course work designated as major requirements.

Successful completion of the DPD curriculum enables graduates to apply to a CADE-accredited supervised practice program, SPP, in a post-baccalaureate Dietetic Internship.

Upon successful completion of the Dietetic Internship the individual is eligible to sit for the national registry exam administered by the Commission on Dietetic Registration, CDR, the credentialing agency of the ADA, which grants use of the nationally recognized credential “RD” Registered Dietitian.

Graduates of the UK NFS Option A may apply for placement in the Dietetic Internship program offered by the Department of Nutrition and Food Science, School of Human Environmental Sciences, or any other CADE-accredited dietetic internship outside the department. Students must consider the highly competitive scenario in competing for acceptance into a Dietetic Internship.

Option B, designated as the Coordinated Program in Dietetics, CP, provides the foundation knowledge requirements provided by the academic component of dietitian education (see DPD above) and a CADE-accredited supervised practice component. Students who have completed the premajor requirements and are interested in the Coordinated Program to attain the academic preparation and supervised practice program through the UK NFS Dietetics Program may apply for admission to Option B, the CP. Option B requires three additional semesters of didactic course work in the major requirements prior to beginning the 1,200 hour supervised practice program. Students in the CP must successfully complete the didactic and supervised practice component to receive the B.S. in Dietetics degree.

The CADE-accredited CP is a selective admission program. Admission to the University of Kentucky NFS Dietetics Program does not guarantee admission to the Coordinated Program, CP. A limited number of students who have completed the required preprofessional courses will be admitted on the basis of cumulative grade-point average, potential qualities for becoming a successful dietitian, leadership potential and professional involvement and commitment.

The application deadline for the UK NFS CP is February 1, prior to potential fall admission in Year Three of the Dietetics Program. Year Three of the Dietetics Program is the beginning of the Major Requirements for completion of course work. Program application materials should include an application form, a letter of professional goals and qualifications, three letters of reference, and record of academic performance.

The CP Admissions Committee considers grade-point average, letter of application, work experience, honors and extracurricular activities and letters of recommendation. Students who apply to the UK NFS CP will be granted an interview where the applicant’s goals, communication skills, knowledge of the profession, and organizational and leadership skills are evaluated.

Successful CP applicants will be notified of provisional acceptance into the CP before UK’s priority registration dates for the ensuing fall semester. Final acceptance depends on successful completion of the work in progress at the time of the application and throughout the remaining didactic component prior to beginning the supervised practice component of the undergraduate dietetics program.

Transfer students are urged to contact the Advising Resource Office, 112 Erikson Hall, for a preliminary evaluation of credits well in advance of the application date. Year Three of the Dietetics Program is the beginning of the Major Requirements for completion of course work. CP applicants must be a declared major in the UK NFS dietetics program or if a transfer student, indicate intent to declare dietetics as their major. Students accepted into the CP must be majors in the UK NFS dietetics program.

Successful completion of Option B, the UK NFS CP, results in the Bachelor of Science in Dietetics degree. Graduates of Option B are eligible to sit for the national registry exam administered by the Commission on Dietetic Registration, CDR, the credentialing agency of the ADA, which grants use of the nationally recognized credential “RD” Registered Dietitian.

The UK NFS CADE-accredited Dietetic Internship, DI, is offered for students who have completed a Didactic Program in Dietetics at UK or other CADE-accredited institutions. Qualified graduates compete for a limited number of positions in the UK NFS DI. For information regarding the UK NFS Dietetic Internship, the application and/or screening procedures, please contact:

College of Agriculture and School of Human Environmental Sciences
Director, Dietetic Internship Program

University of Kentucky  
Lexington, KY 40506-0054

BACHELOR OF SCIENCE IN HOSPITALITY MANAGEMENT  
In the Hospitality Management and Tourism program option in Nutrition and Food Science, which leads to the B.S. in Hospitality Management, students acquire the specialized knowledge needed for careers in the hospitality industry. They also receive training in the basic functions, objectives, and techniques of management. The student is prepared for managerial positions in hotels, restaurants, non-commercial food service and tourism areas, as well as positions as purchasing agents, food service equipment specialists, food service planning specialists, and other careers.

Entrance Requirement  
The minimum grade-point average for entrance of all students into the Hospitality Management and Tourism program is 2.30.

Progression Requirement  
In addition, students must have completed the following premajor courses with a grade of C or better in order to progress to courses which are major requirements: COS 101, ACC 201, ACC 202, ECO 201, ECO 202, HMT 120, HMT 210, NFS 241, and HMT 270.

Graduation Requirement  
Students must fulfill all prerequisites and achieve a grade of C or better in all NFS and HMT courses which are major requirements.

Each student must complete the following:
1. Complete UK Core requirements.
2. Complete the School requirements listed below.
3. Complete 128 credit hours with a minimum grade-point average of 2.0.
4. Complete the required curriculum in the major program.

School Requirements  
HES 100 An Introduction to Professions in Human Environmental Sciences ............................................ 1
HES 400 Concepts in Human Environmental Sciences: Integration and Application 2
One course in Human Environmental Sciences, outside the student’s major prefix .......................... 3

Subtotal: School Required Hours ................................ 6

UK Core Requirements  
See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

I. Intellectual Inquiry in Arts and Creativity

BACHELOR OF SCIENCE IN HUMAN NUTRITION with a major in Human Nutrition

The Bachelor of Science in Human Nutrition offers appropriate preparation for further study in nutritional sciences and health-related sciences, particularly public health, pharmacy, medicine, dentistry, physical therapy, physician assistant school, optometry, and nutrition research.

Each student must complete the following:
1. Complete UK Core requirements.
2. Complete the School requirements listed below.
3. Complete 120 credit hours with a minimum grade-point average of 2.0.
4. Complete the required curriculum in the major program.

The College of Arts and Sciences embodies the liberal arts: the natural sciences and mathematics, the social sciences, and the humanities. Students augment their knowledge in all three areas by exploring the interconnections among them.

Study of the liberal arts opens to students the vast scope and excitement of human intellectual and cultural achievement. It enlarges the student’s vision and enriches the student’s life. Study of arts and sciences prepares students for life-long learning and vocational success. It also prepares them for a life of effective civic participation as informed and critical citizens of a diverse global society.

In essence, an Arts and Sciences education fosters the ability to think and learn independently. Arts and Sciences graduates are well prepared to meet future technological and cultural transformations.

Undergraduate Programs in Arts and Sciences

The University of Kentucky grants the following degrees in the College of Arts and Sciences:

- Bachelor of Arts
- Bachelor of Science

Students pursuing the Bachelor of Arts or the Bachelor of Science select from these majors: anthropology, biology, chemistry, Chinese language and literature, classics, economics, English, French, geography, geology, German, history, international studies, Japanese language and literature, linguistics, mathematical economics, mathematics, philosophy, physics, political science, psychology, Russian studies, sociology, Spanish, and topical studies. The College also offers a Bachelor of Arts in Gender and Women’s Studies.

For more information on degree programs, visit www.as.uky.edu/.

ADMISSION

Admission requirements are the same as those of the University, except for the topical studies major. Prospective students should see the college Web site: www.as.uky.edu/.

PROGRAMS AND SERVICES

Academic Advising

Academic advising in the College of Arts and Sciences is provided by professional advisors and graduate students beginning with new student advising conferences all the way through to graduation. All Arts and Sciences students are assigned an academic advisor after enrollment. Students and advisors will work as partners to help the student meet their academic goals.

All currently enrolled Arts and Sciences students have an advising hold placed on their record requiring the student to meet with their A&S academic advisor prior to registration each semester. Arts and Sciences students should schedule an advising appointment at: myuk.uky.edu/irj/portal—select myInfo and myAppointments.

Students experiencing academic difficulty (academic probation) will be required to meet with their academic advisor at the beginning of each semester and before the last day to withdraw from classes. For more information concerning these meetings, contact the Arts and Sciences Advising Center at (859) 257-8712.

All Arts and Sciences students are expected to familiarize themselves with the degree requirements and keep track of requirements. The University has an online course audit system called APEX (myuk.uky.edu/irj/portal). Students are expected to view their personalized degree audit prior to any advising session where scheduling for classes will be discussed.

Routine questions concerning UK Core, college, major and minor requirements, grade-point average, repeat or bankruptcy options, transient student forms, credit overload requests, transfer credit equivalencies, forms required for graduation, and changing majors should be addressed to the student’s academic advisor. For more information, visit www.as.uky.edu/advising.

Dean’s List

A student who completes at least 12 credits of “letter” grades with a 3.60 or higher grade-point average with no I grades listed for the fall or spring semester will be named to the Dean’s List in the College of Arts and Sciences. CLEP, AP, special exam and Independent Study credits are excluded. The student’s cumulative grade-point average is not considered; only the grade-point average for that particular semester is relevant. Exceptional circumstances including fewer than 12 credits will be considered for inclusion on the Dean’s List; students should submit a petition to the A&S Advising Center, 311 Patterson Office Tower.

Commencement and Departmental Honors

Commencement honors are determined by University standards. A full explanation of these honors can be found in the Graduation Requirements section of this Bulletin. Please note that if a student has not completed at least 90 hours at the University of Kentucky, but has completed at least 60 hours at the University of Kentucky, the student is eligible for commencement honors, but is held to a 0.2 point higher standard. If the student has not completed at least 60 hours, the student is not eligible for commencement honors. Commencement honors are indicated on the student’s final transcript.

Departments in the College of Arts & Sciences award departmental honors to their outstanding graduates. The standards for departmental honors are not collectively established by the College, but determined by each department. For details on departmental honors, see Guide to A&S Departmental Honors Requirements on page 112. Address questions to the department awarding honors. Departmental honors are indicated on the student’s final transcript.

Scholarships

For information on general scholarships in the College of Arts and Sciences, contact the A&S Advising Center, 311 Patterson Office Tower, (859) 257-8712, or www.as.uky.edu/scholarships. Students interested in scholarships in a specific major should contact the individual department.

College Policy on Learning Disabilities

The College of Arts and Sciences anticipates that virtually all of its students will satisfy all of its requirements. However, any student who believes that he or she can show evidence – by diagnostic testing and/or psychological evaluation – that he or she has a learning disability which warrants course substitution of any specific college requirement may request such an exception from the Director of Student Services in the College. Students should begin their inquiries and/or discussions in the UK Disability Resource Center, 102 Alumni Gym.
# Guide to A&S Departmental Honors Requirements

<table>
<thead>
<tr>
<th>Major</th>
<th>Cumulative GPA</th>
<th>Criteria</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Anthropology</strong></td>
<td>3.5</td>
<td>Senior honors thesis related to general issues within the topical sub-discipline; formation of a 3-person advisory committee (the DUS always serves as one of these three); a thesis defense. Normally, students enroll in ANT 581 to receive course credit for their Senior Honors Thesis preparation. (30 pages, double-spaced.)</td>
</tr>
<tr>
<td><strong>Biology</strong></td>
<td>3.5</td>
<td>6 credit hours of BIO 395, Research in Biology. A public presentation of one’s research results. Such a presentation can be a journal article, a seminar given to a diverse group, a talk or poster at a professional meeting, a thesis, or some form of public presentation approved by the Director of Undergraduate Studies in Biology.</td>
</tr>
<tr>
<td><strong>Chemistry</strong></td>
<td>3.5</td>
<td>12 hours in CHE or BCH courses (other than CHE 440G, 441G, and 572) at or above the 300 level. At least 6 of those hours must be in CHE 395. 3.5 cumulative GPA and 3.5 major GPA or above.</td>
</tr>
<tr>
<td><strong>Classics</strong></td>
<td>3.5</td>
<td>3.5 cumulative GPA or above, 3.75 GPA or above in courses taken in the major, and two 300-level courses in Greek or Latin with a grade of B or above in each.</td>
</tr>
<tr>
<td><strong>Economics</strong></td>
<td>3.2</td>
<td>3.2 cumulative GPA or above and 3.2 major GPA.</td>
</tr>
<tr>
<td><strong>English</strong></td>
<td>3.75</td>
<td>1) 3.75 cumulative GPA or above in courses taken at UK which count or could count toward the English major and premajor. 2) At least 8 such courses taken at UK (i.e., not transferred).</td>
</tr>
<tr>
<td><strong>French</strong></td>
<td>3.5</td>
<td>3.5 cumulative GPA and a major GPA of 3.75 or above.</td>
</tr>
<tr>
<td><strong>Geography</strong></td>
<td>3.5</td>
<td>3.5 cumulative GPA and major GPA of 3.5 or above.</td>
</tr>
<tr>
<td><strong>Geology</strong></td>
<td>3.5</td>
<td>3.3 cumulative GPA and senior thesis or 3.5 cumulative GPA or above.</td>
</tr>
<tr>
<td><strong>German</strong></td>
<td>3.5</td>
<td>3.5 cumulative GPA or above in all courses taken at UK and 3.75 GPA or above in courses taken in the major.</td>
</tr>
<tr>
<td><strong>Hispanic Studies</strong></td>
<td>3.5</td>
<td>3.5 cumulative GPA or above in 300-500 level Spanish courses.</td>
</tr>
<tr>
<td><strong>History</strong></td>
<td>3.5</td>
<td>minimum 3.5 cumulative GPA, 3.5 departmental GPA or above and a grade of A or B in HIS 499.</td>
</tr>
<tr>
<td><strong>International Studies</strong></td>
<td>3.5</td>
<td>minimum 3.5 cumulative GPA and 3.5 GPA in the major; completion of INT 495 with grade of A; completion of an Education Abroad experience or the International Studies Internship course; a public presentation of the student’s INT 495 or internship research results. Such a presentation can be a journal article (e.g., published in <em>Kaleidoscope</em>, the University of Kentucky <em>Journal of Undergraduate Scholarship</em>), a seminar given to a diverse group, a talk or poster at a professional meeting (e.g., in such venues as Posters at the Capitol or the Showcase of Undergraduate Scholars), or some other form of public presentation approved by the Director of International Studies.</td>
</tr>
<tr>
<td><strong>Linguistics</strong></td>
<td>3.75</td>
<td>3.75 cumulative GPA or above in courses taken at UK which count or could count toward the linguistics major and premajor. At least 8 such courses taken at UK (i.e., not transferred).</td>
</tr>
<tr>
<td><strong>Mathematical Economics</strong></td>
<td>3.2</td>
<td>3.2 cumulative GPA or above and 3.2 major GPA or above.</td>
</tr>
<tr>
<td><strong>Mathematics</strong></td>
<td>3.5</td>
<td>3.5 cumulative GPA or above.</td>
</tr>
<tr>
<td><strong>Philosophy</strong></td>
<td>3.5</td>
<td>3.5 cumulative GPA or above in PHI courses.</td>
</tr>
<tr>
<td><strong>Physics</strong></td>
<td>3.4</td>
<td>3.4 cumulative GPA or above and 3.4 major GPA or above in physics and astronomy. All students awarded department honors will have fully participated in independent study or research including the preparation of a final report; participation with a high grade in a three-credit-hour PHY 395 or participation in a summer research experience are ways of achieving this. Other factors such as citizenship, leadership in the Society of Physics Students, and other meritorious activity will be considered in the selection of seniors for graduation with honors.</td>
</tr>
<tr>
<td><strong>Political Science</strong></td>
<td>3.5</td>
<td>3.5 cumulative GPA or above, and successful completion of an honors thesis. Students normally fulfill the thesis requirement by taking PS 490, Honors in Political Science, offered during the spring semester. Should that option be unavailable, however, students might be able to arrange writing a thesis under faculty guidance as part of PS 395, the department’s Independent Study course.</td>
</tr>
<tr>
<td><strong>Psychology</strong></td>
<td>3.5</td>
<td>3.6 major GPA or above and successful completion of PSY 495 and PSY 496.</td>
</tr>
<tr>
<td><strong>Russian Studies</strong></td>
<td>3.5</td>
<td>3.5 cumulative GPA and a 3.75 major GPA or above.</td>
</tr>
<tr>
<td><strong>Sociology</strong></td>
<td>3.5</td>
<td>3.5 cumulative GPA or above.</td>
</tr>
<tr>
<td><strong>Topical</strong></td>
<td>3.6</td>
<td>3.6 cumulative GPA or above and recommendation of the Associate Dean based on the final thesis.</td>
</tr>
</tbody>
</table>
Readmission After a Two-Year Absence

In accordance with the University Senate rules which allow the dean of each college to determine which degree requirements a returning student shall follow, students should note the following: Students enrolling in the College of Arts and Sciences after an absence from the University of Kentucky system of two or more years will be expected to satisfy the university, college, graduation, and department requirements in effect at the time of readmission.

Students with extenuating circumstances may petition the Director of Student Services for permission to continue under the degree requirements that were in effect during their previous enrollment in the UK system.

ACADEMIC SUSPENSION AND REINSTATEMENT

The College of Arts and Sciences follows the general University rules for academic suspension and reinstatement, which are outlined in the Academic Requirements section of this Bulletin. Students placed on academic suspension must be reinstated by the college in which they plan to enroll before applying for readmission to the university. Students planning to pursue a degree program in the College of Arts and Sciences should arrange for reinstatement proceedings before May 15 for any fall semester reinstatement, or October 1 for any spring semester reinstatement by calling A&S Student Services, (859) 257-8712. Students who fail to request reinstatement prior to these deadlines will normally not be considered for reinstatement until the subsequent semester.

A student who has been suspended for a second time from the University of Kentucky will usually not be considered for reinstatement by the College of Arts and Sciences until two years have passed since the date of the second suspension.

THE BACHELOR OF ARTS AND BACHELOR OF SCIENCE DEGREES

Students must complete four areas of requirements to obtain a UK Arts and Sciences degree. The four areas are: UK Core; major requirements; college requirements; and university graduation requirements. The following information outlines the specific degree requirements for the B.A. and the B.S. in Arts and Sciences. Please read them carefully and also note the specific differences in each degree program.

The B.S. degree requires three hours in college disciplinary requirements for the natural sciences, social sciences and humanities beyond those required for the UK Core and requires 60 hours of physical, biological and/or mathematical sciences.

The B.A. degree requires six hours in college disciplinary requirements for the natural sciences, social sciences and humanities beyond those required for the UK Core and requires 39 hours in course work numbered at or above the 300 level.

College Requirements for a Bachelor of Arts Degree

It is important to review the “NOTES” section that immediately follows the “College Requirements for a Bachelor of Science Degree” section.

To receive the Bachelor of Arts degree, students must:
1. Complete the UK Core requirements.
2. Complete the following college requirements:
a. Foreign Language Requirement. Students must satisfy one of the following options:
   1. satisfy the third and fourth semester of a college-level sequence in one language (including sign language) by successfully completing each semester course, or by demonstrating equivalent competency on a departmentally approved placement exam; or
   2. successfully complete three college-level semester courses in one language and two college-level semester courses in a second language. (Two college-level semester courses are considered equal to two years of a foreign language in secondary school. No other equivalencies are given for more years of foreign language as indicated on transcripts), or demonstrate equivalent competency on a departmentally approved placement exam (all options include sign language); or
   3. attain the Undergraduate German Studies Certificate (contact the Department of Modern and Classical Languages, Literatures and Cultures for more information);
   Courses taken to satisfy options 1, 2 or 3 above may not be taken pass/fail or audit; or
   4. To demonstrate your proficiency in a language not taught at UK, contact the Office of International Affairs with regard to taking a proficiency exam. You are responsible for any costs related to testing. All A&S students are encouraged to take a foreign language placement exam at the time of their initial enrollment at UK or during their advising conference; or
   5. If you have a specific language-learning disability that is certified through the UK Disability Resource Center, you may petition the College for a substitution of course work in lieu of completing the language courses normally taken for the foreign language requirement; or
3. Complete a minimum of 39 college hours numbered at or above the 300 level.
6. International students, excluding native speakers of English, automatically fulfill this requirement; or
7. International students who graduated from a U.S. high school and are unable to provide proficiency exam results may petition the Director of Student Services for a waiver of the College foreign language requirement; students must provide official documentation establishing that English is their second language.

b. Students must take six college hours in disciplines in the natural sciences.

c. Students must take six college hours in disciplines in the social sciences.

d. Students must take six college hours in disciplines in the humanities.

3. Complete at least 120 credit hours in courses acceptable to the College of Arts and Sciences.
4. Complete at least 90 credit hours in Arts and Sciences courses.
5. Complete at least 39 credit hours in courses numbered at or above the 300 level.
6. Complete at least six college hours of pre-major courses in the departmental major. This is not required for the Topical Studies major or the International Studies – Foreign Language and International Economics major.
7. Complete at least 42 credit hours within the major and courses outside the major (excluding pre-major course work). At least 24 of these hours must be at or above the 300 level.
8. Complete at least one course that includes some laboratory or field experience. (See the description of the College Laboratory or Field Experience Requirement which follows.)
9. Attain an overall grade-point average of at least 2.0.
10. Attain a grade-point average of at least 2.0 in all major requirements courses (including all premajor courses).
11. Complete a minimum of six credit hours of free electives. These college electives cannot be counted towards UK Core or Arts and Sciences major requirements.
12. Complete University graduation requirements, the Graduation Writing Requirement, and the residence requirement.

College Requirements for a Bachelor of Science Degree

It is important to review the “NOTES” section that immediately follows the “College Requirements for a Bachelor of Science Degree” section.

To receive the Bachelor of Science degree, students must:
1. Complete the UK Core requirements.
2. Complete the following college requirements:
a. Foreign Language Requirement. Students must satisfy one of the following options:
1. satisfy the third and fourth semester of a college-level sequence in one language (including sign language) by successfully completing each semester course, or by demonstrating equivalent competency on a departmentally approved placement exam; or
2. successfully complete three college-level semester courses in one language and two college-level semester courses in a second language. (Two college-level semester courses are considered equal to two years of a foreign language in secondary school. No other equivalencies are given for more years of foreign language as indicated on transcripts), or demonstrate equivalent competency on a departmentally approved placement exam (all options include sign language); or
3. attain the Undergraduate German Studies Certificate (contact the Department of Modern and Classical Languages, Literatures and Cultures for more information);
Courses taken to satisfy options 1, 2 or 3 above may not be taken pass/fail or audit; or
4. To demonstrate your proficiency in a language not taught at UK, contact the Office of International Affairs with regard to taking a proficiency exam. You are responsible for any costs related to testing. All A&S students are encouraged to take a foreign language placement exam at the time of their initial enrollment at UK or during their advising conference; or
5. If you have a specific language-learning disability that is certified through the UK Disability Resource Center, you may petition the College for a substitution of course work in lieu of completing the language courses normally taken for the foreign language requirement; or
6. International students, excluding native speakers of English, automatically fulfill this requirement; or
7. International students who graduated from a U.S. high school and are unable to provide proficiency exam results may petition the Director of Student Services for a waiver of the College foreign language requirement; students must provide official documentation establishing that English is their second language.

B. Students must take three college hours in disciplines in the natural sciences.
C. Students must take three college hours in disciplines in the social sciences.
D. Students must take three college hours in disciplines in the humanities.
3. Complete at least 120 credit hours in courses acceptable to the College of Arts and Sciences.
4. Complete at least 90 credit hours in Arts and Sciences courses.
5. Complete at least 60 credit hours in the physical, biological and/or mathematical sciences.
6. Complete at least six credit hours of pre-major courses in the departmental major. This is not required for the Topical Studies major or the International Studies – Foreign Language and International Economics major.
7. Complete at least 42 credit hours within the major and courses outside the major (excluding pre-major course work). At least 24 of these hours must be at or above the 300 level.
8. Complete at least one course that includes some laboratory or field experience. (See the description of the College Laboratory or Field Experience Requirement which follows.)
9. Attain an overall grade-point average of at least 2.0.
10. Attain a grade-point average of at least 2.0 in all major requirements courses (including all pre-major requirements).
11. Complete a minimum of six credit hours of free electives. These college electives cannot be counted towards UK Core or any other Arts and Sciences major or college requirements.
12. Complete University graduation requirements, the Graduation Writing Requirement, and the residence requirement.

*See College Core Requirements for B.A. and B.S. Degrees following the next section.

NOTES
1. See the UK Core section of this Bulletin for a detailed explanation of the requirements.
2. a. 001-099 courses, or courses followed by an “R” designation cannot be counted as credit towards a bachelor’s degree.
   b. Physical education one-hour service courses (KHP) are acceptable as electives only and may count toward the total 120 minimum hours needed to graduate. Only one successful completion of multiple completions of the same KHP course will count.
   c. A maximum of 16 semester credit hours earned in military science (AMS) and aerospace studies (AFS) are acceptable towards fulfilling both the College 90-hour and 120-hour requirement for the B.A. or B.S. degree. AMS/HIS 320 is not included in this 16 hour limit.
   d. A maximum of 12 semester credit hours earned in experiential education and internship courses (EXP 396, departmental 399 courses) will be accepted. For ANT 399, SOC 399 and SPA 399, a maximum of 15 semester credit hours can be earned. See Experiential Education and Internship Course section within the Arts and Sciences section of the Bulletin.
   e. All courses offered by the College of Arts and Sciences are acceptable with the exception of MA 108R.
   f. Courses transferred from other institutions and judged by the Director of Student Services to be equivalent or comparable to Arts and Sciences courses are acceptable.
   g. Usually the College will apply only six hours of technical course work taken at any institution.
   h. The student is permitted to elect and count toward graduation courses in other colleges within the University of Kentucky or their equivalent from other institutions, not to exceed 30 hours. Hours taken in the other colleges at UK gained during the junior and senior years may, if at the 200-level or above, be counted towards the major requirements with approval from the Director of Undergraduate Studies/Program Director and the Director of Student Services.
   i. A maximum of 30 semester credit hours taken through UK’s Independent Study Program.
   j. Courses with an “S” grade designation or a “place holder” designation such as ISP (Study Abroad, 1 credit hour) or NSE (National Student Exchange, 1 credit hour) cannot be counted as credit toward a bachelor’s degree.
3. Courses classified as Arts and Sciences courses for purposes of the 90-hour requirement include all courses offered by the College of Arts and Sciences; all art history courses; all courses in music and theatre appreciation and ART 100 plus the history of music and theatre; ARC 820, ARC 822; KHP 200, all economics courses; all undergraduate courses in the Department of Computer Sciences (CS); all undergraduate courses in the Department of Communication (COM); and all American Sign Language courses officially transferred to the student’s UK record.
4. CHE 230, 231, 232, 233 and ARC 820 and 822 will count towards the 39 credit hours in courses numbered at or above the 300 level needed for degree requirements. Please note that courses numbered 800-899 cannot be counted as 300-level and above for the purpose of completing the 39 hours needed for the degree, with the exception of ARC 820 and 822.
5. The following courses will count toward the required 60 credit hours in the physical, biological and/or mathematical sciences hours for the Bachelor of Science degree: all courses with a MA prefix (except MA 108R); all anatomy courses; all physiology courses; all biochemistry courses; all statistics courses; all computer science courses; ECO 391; GEO 130, GEO 230, GEO 351, GEO 451G, and GEO 530; PHI 120 and PHI 320; NFS 101; PSY 215, PSY 216, PSY 312, PSY 456, and PSY 565; and ANT 230, 332, and 333.

College Core Requirements for B.A. and B.S. Degrees
To satisfy the Arts and Sciences college core requirement, students must complete three (for a B.A.) or six (for a B.S.) college hours in each of three areas – natural sciences, social sciences, and humanities – not counting any courses taken to fulfill the requirements of UK Core.

Students may also use other Arts and Sciences courses to satisfy the college core requirement if these courses have been approved to fulfill parallel inquiry areas in the UK Core.

Natural Sciences
1. All courses offered by Arts and Sciences departments or programs within the disciplines of the natural sciences including those with the following departmental prefixes: AST, BRO, CHE, GLY, PHY.
2. The following courses may also be used to satisfy the Arts and Sciences College requirement for course work within the discipline of natural sciences. However, if used to count as a Natural Science they cannot also be used for any Social Science requirement.
ANA 209
ANT 230, 332, 333, 353
CGS 500
ENS 200, 400
ENT 110, 300
GEO 130, 230, 351, 451G, 530
NFS 101
PGY 206
PLS 104
PSY 312, 456, 565

Students who take courses fulfilling the Natural, Physical, and Mathematical Sciences UK Core requirement that exceed the credit hours noted in the requirement itself may apply the excess to this college core requirement, accumulating credit hours until the minimum has
been fulfilled. This option applies to all Arts and Sciences students regardless of where the course work was completed (e.g., main campus or transfer credit).

**Social Sciences**

1. All courses offered by Arts and Sciences departments or programs within the disciplines of the social sciences including courses with the following departmental prefixes: AC, ANT, APP, ECO, GEO, GWS, PS, PSY, SOC if content is designated as a social science; also, see #3 below.

2. The following courses may also be used to satisfy the Arts and Sciences College requirement for course work within the discipline of social sciences:
   - ANT/LIN 319
   - ANT/ENG/LIN 515
   - ANT/ENG/LIN 516
   - ANT/JPN 321
   - CGS 500
   - ENS 200, 400
   - GEO/JPN 334
   - GEO/JPN 551

3. The following course may **NOT** be used in the social sciences area: GWS 201.

**Humanities**

1. Excluding the courses listed below, all courses offered by Arts and Sciences departments or programs within the disciplines of the humanities, including courses with the following prefixes: A-H, AAS, CLA, ENG, FR, GER, HIS, JPN, LAS, LIN, PHI, RS, RUS, SPA, and HON courses designated as humanities. Note exceptions in #2 and #3 below.

2. The following courses **may not be used** in the humanities area:
   - AIS 101, 102, 201, 202, 442, 443
   - CHI 101, 102, 201, 202
   - CLA 101, 102, 131, 151, 152, 201, 202, 251, 252
   - FR 011, 101, 102, 106, 201, 202, 203, 204, 307, 310, 507, 516, 533, 570
   - GER 011, 101, 102, 201, 202, 205, 206, 211, 212, 307, 308, 310, 507, 555, 612
   - HIS 101, 102, 201, 202
   - ITA 101, 102, 201, 202
   - JPN 101, 102, 201, 202, 301, 302, 401, 402, 405, 407, 507, 509
   - LIN 520, 521
   - PHI 120, 320
   - PS 417G, 471
   - RUS 101, 102, 201, 202, 301, 302, 403, 404, 405, 501, 502, 520, 530
   - SPA 011, 101, 102, 103, 151, 201, 202, 203, 205, 210, 211, 215, 302, 313, 413, 501, 506, 553
   - WRD 203, 204

3. The following courses may also be used to satisfy the Arts and Sciences College requirement for course work within the disciplines of humanities:
   - AMS 201
   - ART 319, 515, 516
   - ART 100
   - CGS 500
   - GWS 201, 506
   - MUS 203, 222, 301, 302, 303, 325

**College Laboratory or Field Experience Requirement**

The college requires its students to complete at least one course which includes some laboratory or field experience. In such courses the external world is observed in a controlled manner using systematic techniques and methods. A substantial portion of the course must include data collection, data analysis, and hypothetical testing under supervised conditions. The approved courses for the laboratory requirement are:

**Natural Sciences**
- Biology – BIO 111, 151, 153, 209
- Chemistry – CHE 106, 111, 113
- Physics – PHY 211, 213, 241, 242

**Social and Behavioral Sciences**
- Anthropology – ANT 541, 585
- Geography – GEO 300
- Political Science – PS 372
- Psychology – PSY 100, 215
- Sociology – SOC 302, 303

When appropriate, other upper level courses may be used to satisfy this requirement by petition.

**MAJOR REQUIREMENTS**

A major in the College of Arts and Sciences is composed of premajor courses (except International Studies – Foreign Language and International Economics majors and Topical Studies majors) and a 42-hour program referred to as the “major requirements.” Each department has specified the requirements for their majors, which includes a minimum of 18 hours of 200-level and above courses in that department, with the provision that this minimum may be set at 15 hours by a department with approval of the Arts and Sciences Educational Policy Committee and the Undergraduate Council if there are special reasons for a lower minimum. Specific requirements for each departmental major are listed in this Bulletin under each department heading and are outlined in APEX (the electronic degree audit system) at: myuk.uky.edu/irj/portal.

General requirements are as follows:  
1. A premajor of at least 6 credits in the department is required, except for Topical Studies majors and International Studies – Foreign Language and International Economics majors.
2. A total of 42 credits is required in the major requirements, excluding the premajor courses.
3. 100-level courses may not be counted in the major requirements except in the area of premajor.
4. Courses **electively** taken pass-fail will not count toward UK Core, major/minor, or College requirements.
5. At least 24 credits must be in courses at the 300 level or above.
6. In addition to premajor requirements, a minimum of 18 credits in a department is required for a major.
7. At least 14 credits for the major requirements must be **outside** the major department.
8. An overall grade-point average of at least 2.0 in all courses listed for the major requirements, including all premajor courses. This includes all grade attempts except those used for which repeat options or academic bankruptcy has been approved.

Students are expected to review and understand all degree requirements listed on the University’s online degree audit system, APEX. Students who have taken courses (200 level or above) outside the college should talk with their academic advisor to see if these courses are applicable to their major requirements.

**Topical Studies Majors**

Students who have multiple interests or interests which do not fall into departmental areas may select a topic for concentration instead of a departmental major. Topical Studies offers academic flexibility and allows students to cut across departmental and college lines in constructing meaningful and imaginative programs. Courses in several departments might be selected to pursue special interests – Asian studies, for instance. Other examples might be African American studies or human studies.

Each topical studies major is designed and directed by the student in consultation with a faculty advisor in the general area of study, and in consultation with the topical studies advisor in the A&S Advising Center and an Arts and Sciences Associate Dean.

Topical Studies is the only selective admission program in the College of Arts and Sciences. The student must have a cumulative UK grade-point standing of at least 2.5 to be accepted to Topical Studies. The specific requirements of the topical studies major are that the student must meet UK Core and College requirements, must enroll in and complete at least 30 credit hours after formal admission, and complete the 42-hour major requirements (see preceding section entitled “Major Requirements”). Except for electives, all of the student’s work must be related to the topic. Additionally, in the senior year, the student must complete a comprehensive paper or project that serves to integrate his or her topical studies field.

Frequently, it is advantageous to begin writing this paper or project in the context of an independent work course or a seminar, with the instructor’s approval. The paper or project proposal must be approved by a faculty advisor, an Arts and Sciences Associate Dean, and the Topical Studies advisor before significant work has begun on the project. Students must submit the final paper or project for review and approval no later than eight weeks before finals during the semester the student intends to graduate. The paper should be submitted to the Associate Dean no later than six weeks before the final exam week during the semester the student intends to graduate. Departmental honors for topical studies majors are determined by the Associate Dean and the Topical Studies advisor. To be eligible for departmental honors, a student must have a cumulative GPA of at least 3.6 and a final paper or project that has been judged to be outstanding.

For more information, contact the Arts and Sciences Topical Studies advisor in the A&S Advising Center (311 Patterson Office Tower);
or visit the Topical Studies major Web site at: www.as.uky.edu/topical-studies.

**A Second Major**

A student may obtain a second major by meeting all requirements in two departments. Major work in one department can, if there is a generic relationship, serve as the outside field in the second major, and vice versa. However, the International Studies major limits a maximum of 15 hours of course work from overlapping between two majors. The student must indicate his or her second major to the A&S Advising Center, 311 Patterson Office Tower. He or she must have an advisor in both departments. If one of the majors is in another college, the student is still required to know the list of requirements from the other college. The student who completes requirements for a second major will receive only one degree, but his or her transcript and diploma will reflect the two majors.

For information on second majors (not the same as second degrees), consult the Graduation Requirements section of this Bulletin.

**A Second Bachelor’s Degree**

A student may obtain a second bachelor’s degree by completing all university requirements for one degree; by completing all the major requirements of both degrees; and by completing all college requirements of both degrees. Courses taken towards fulfilling one degree may also count towards fulfilling parallel requirements in the other, but the total credits in the two degree programs must be at least 144 hours. Major work in one department can, if there is a generic relationship, serve as the outside field in the second major and vice versa. However, the International Studies major limits a maximum of 15 hours of course work from overlapping between two majors. The student must indicate his/her double degree in his/her primary college. If both degrees are in Arts and Sciences, he or she must have an advisor in both departments. The student may elect to receive the degrees simultaneously, if college and departmental requirements can be met simultaneously. For information regarding double degrees (not the same as double majors), consult the Graduation Requirements section of this Bulletin. Students are expected to be knowledgeable of requirements for any major in Arts and Sciences by checking the University’s online degree audit system, APEX.

**Minors**

The College of Arts and Sciences does not require minors. However, students can earn a minor in the following disciplines in the college:

- anthropology
- biological sciences
- chemistry
- Chinese language and literature
- classics
- economics
- English
- folklore and mythology
- French
- gender and women’s studies
- geography
- geology
- German
- history
- international studies
- linguistics
- mathematics
- philosophy
- physics
- political science
- psychology
- Russian
- sociology
- Spanish
- statistics
- Latin American studies
- Islamic studies

Minors can only be awarded in conjunction with a UK undergraduate degree. Additionally, students cannot pursue a minor in the same discipline as their major. This includes the area of concentration for a Topical Studies major and International Studies major.

For more information about choosing or declaring a minor, students should review the requirements in APEX at: myuk.uky.edu/irj/portal; contact the department where the minor is offered; and/or consult the departmental section of this Bulletin. To officially declare a minor, students must complete a Declaration/Change of Major or Minor form in the A&S Advising Center, 311 Patterson Office Tower.

Awarded minors appear on the student’s final transcript but not on their diploma.

**The Preparation of Teachers**

Any Arts and Sciences student intending to seek teaching certification should so indicate to his or her academic advisor. The student should also contact the College of Education, 166 Taylor Education Building. As soon as the student has determined to seek certification he or she is assigned an advisor both in the College of Education and in the major department in the College of Arts and Sciences.

Students seeking certification should be sure to familiarize themselves with the requirements of both colleges. The sooner and the more thoroughly this is done, the greater the advantage to the student.

**INFORMATION ON COURSES**

**Transfer of Kentucky Community and Technical College System (KCTCS) Courses**

The college will usually apply up to six hours of technical course work taken at any accredited institution including KCTCS. Beyond these six credit hours, courses will be evaluated on an individual basis and as it applies to the student's baccalaureate degree program.

**Independent Work Courses**

A junior or senior may, with prior approval of his or her faculty advisor and the instructor who would direct the work, register for an independent work course in his or her major department. Normally, a cumulative GPA of 3.0 in the major is required. In exceptional circumstances a non-major or topical studies major may be permitted to enroll in a departmental independent work course. Such a course is characterized by special assignments for study, regular conferences, reports, and usually involves preparation of a paper. The instructor in each case must file with the department evidence of the nature of the work achieved. Credit for such courses may be granted to undergraduates to an amount of not more than 12 hours.

**Experiential Education and Internship Courses**

The College of Arts and Sciences accepts experiential education and internship courses (such as EXP 396, departmental 399 courses,) on a pass-fail basis only, regardless of which college is offering the courses. A total of 12 credit hours in these courses may be counted toward the 120 credit hours required for graduation. For ANT 399 and SPA 399, a maximum of 15 semester credit hours can be earned. However, College of Arts and Sciences majors may only earn a maximum of six credit hours of experiential education credit (EXP) in one semester.

**ROTC Program**

A maximum of 16 semester credit hours earned in American Military Studies and Air Force Studies courses will be accepted towards fulfilling the 90 hours of A&S courses required and the 120 minimum number of hours needed for graduation with a baccalaureate degree in the College of Arts and Sciences, even though students typically enroll for more than 16 semester credit hours of AMS and AFS course work. However, credit received from taking AMS/HIS 320, American Military History, can apply in addition to the
AEROSPACE STUDIES (Air Force ROTC)

The Department of Aerospace Studies provides a campus education program through which qualified students can simultaneously earn an Air Force Commission and a college degree. Faculty members are experienced, active duty Air Force officers with advanced degrees.

Admission to the Program

Non-scholarship freshmen and sophomores may register for Air Force Studies (AFS) courses without incurring a military commitment. Students with a minimum of five semesters of school remaining in a graduate or undergraduate status may qualify for Air Force ROTC. For more information, call (859) 257-7115.

Requirements

An academic major in aerospace studies is not offered. However, by successfully completing the Air Force ROTC program, a qualified student may concurrently earn a commission as an active duty Air Force Second Lieutenant while completing requirements for a degree. Students may enroll in some Aerospace Studies courses without joining the Air Force ROTC cadet corps. For more information, call (859) 257-7115.

AFROTC Curriculum

The AFROTC curriculum consists of both academic classes and leadership laboratory or seminar classes. The General Military Course (GMC) is a two-year course normally taken during the freshman and sophomore years. The Professional Officer Course (POC) is a two-year course normally taken during the junior and senior years. Along with academic classes each semester, all cadets also take leadership laboratory classes.

In the GMC, there are four academic classes (AFS 111, AFS 113, AFS 211, and AFS 213). These cover two main themes—the development of air power and the contemporary Air Force in the context of the U.S. military organization. The GMC academic classes are open to any student.

In the POC, there are four academic classes (AFS 111, AFS 113, AFS 211, and AFS 213). These cover Air Force management and leadership and national security studies. Entry into the POC is competitive and is based on Air Force Officer Qualifying Test scores, grade-point average, and evaluation by the AFROTC Detachment Commander. Only physically qualified students in good academic standing may compete for entry into the POC. Typically, these courses are for those cadets who have already completed the courses in the GMC.

Students enrolled as cadets are involved once a week in a one-credit-hour course in the cadet corps training program designed to simulate a typical Air Force organization and its associated functions. This course is known as Leadership Laboratory. During a student’s GMC program, he or she will register for AFS 112, AFS 114, AFS 212 and AFS 214 respectively. A POC cadet will attend AFS 312, AFS 314, AFS 412 and AFS 414. The leadership laboratories are largely cadet-planned and conducted under the concept that they provide leadership training experiences that will improve the cadets’ capabilities as Air Force Officers. This also involves three hours of physical training each week. Leadership laboratory is open to students who are members of the Air Force Reserve Officer Training Corps or are eligible to pursue a commission as determined by the Air Force ROTC Detachment Commander.

Field Training

Field training is offered at Maxwell Air Force Base in Alabama. Students receive officer training and leadership development with other students. Simultaneously, the Air Force has an opportunity to evaluate each student as a potential member of its officer corps. Field training courses include cadet orientation, survival training, officer training, aircraft and aircrew orientation, physical training, organizational and functional aspects of an Air Force base, career orientation, small arms familiarization, first aid, and other supplemental training. Students are paid for their time at field training.

Scholarships

Students interested in AFROTC scholarships should refer to the Student Financial Aid, Awards, and Benefits section of this Bulletin or call (859) 257-7115. Information is subject to change.

ANTHROPOLOGY

The Department of Anthropology offers opportunities to learn about the diverse people of today’s world, as well as about their biological and cultural origins. This area of study deals with ecology, society, biology, culture, and language, among other aspects of human life. In addition, anthropologists study history and evolution in both a cultural and biological framework.

Anthropology provides an excellent foundation for careers in a variety of professions and occupations, including community health, public health policy, medicine and health services, planning and community development, international relations and development, private business, government, law, journalism, museum work, and university teaching and research.

Students can major or minor in anthropology. The major is structured to provide the student with a broad overview of the major subdisciplines: cultural anthropology, physical anthropology and archaeology. It also allows sufficient flexibility for a student to concentrate on a specific area of interest.

Visit our Web site at: www.uky.edu/AS/Anthropology.

Bachelor of Arts with a major in ANTHROPOLOGY

120 hours (minimum)

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the major requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Arts degree on page 113.

UK Core Requirements

See the UC Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

I. Intellectual Inquiry in the Humanities

Total Minimum Hours Required for Degree: 120

Bachelor of Science with a major in ANTHROPOLOGY

120 hours (minimum)

Any student earning a Bachelor of Science (BS) degree must complete a minimum of 60 hours in natural, physical, mathematical, and computer science. Please note: courses with an ANT prefix are generally not accepted towards fulfilling this 60-hour requirement. Therefore, be sure to keep this requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Science degree, including a specific listing of courses applicable to the 60-hour requirement, on pages 113-114.

UK Core Requirements
See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are a) recommended by the college, or b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

Graduation Writing Requirement
After attaining sophomore status, students must complete a Graduation Writing Requirement course. Please see your academic advisor for courses that meet this requirement.

Graduation Writing Requirement Hours: ....... 3

College Requirements
I. Foreign Language (placement exam recommended) ............................................................... 0-14
II. Disciplinary Requirements
   a. Natural Science (completed by Premajor Requirement) ..................................................
   b. Social Science (completed by Premajor Requirement) .....................................................
   c. Humanities ..................................................................................................................... 3
III. Laboratory or Field Work (can be completed by Major Requirement)
IV. Electives ........................................................................................................................... 6

College Requirement Hours: ....................... 9-23

Premajor Requirements
ANT 220 Introduction to Cultural Anthropology .... 3
*ANT 230 Introduction to Biological Anthropology ... 3
ANT 240 Introduction to Archaeology ................. 3

Premajor hours: ....................................................... 9

Major Requirements
Course Work Required for the Major
From the Major Department:
Regional Focus ............................................................ 6
Choose two courses from the following: ANT 221*, 241, 242*, 320, 322, 324, 342, 431G, 534, 555.

Subdisciplinary Breadth ........................................... 9
Choose three courses from at least two of the following subdisciplines:
1. Archaeology
   ANT 241, 242*, 320, 322, 342, 541, 545, 555 and 585
2. Cultural Anthropology
   ANT 338, 340, 401, 429, 433, 450, 525, 526 and 532
3. Physical Anthropology
   ANT 332, 333

NOTE: ANT 350, 399, 580, 581 and other ANT courses not listed here may be used to fulfill the Regional Focus and/or Subdisciplinary Breadth requirements with the consent of the Director of Undergraduate Studies.

From Outside the Major Department
Choose 15 hours outside Anthropology at the 300+ level. 200+ level courses used to satisfy College Requirements can also be counted here.

Subtotal: Other Major hours: ..................... 30

Major Core Requirements
ANT 301 History of Anthropological Theory ........ 3
ANT course related to student’s Focus of Concentration .........................................................
ANT 490 Anthropological Research Methods or
ANT 541 Archaeological Method and Theory or
ANT 585 Field Laboratory in Archaeological Research ............................................................ 3
ANT 582 Senior Integrative Seminar ............................................................... 3

Subtotal: Major Core Hours: ..................... 12

Electives
Choose electives to lead to the minimum total of 120 hours required for graduation .......................... 4

Total Minimum Hours Required for Degree: 120

*Course used towards completion of a UK Core Requirement.
College of Arts and Sciences

Minor in Anthropology

Students must complete a total of 21 hours of course work:

Preminor Courses (9 hours)

Students must take ANT 220, 230, 240.

Additional Courses (12 hours)*

Students must take four ANT courses from at least two subdisciplines. Two courses must be at the 200 level or above and two courses must be at the 300 level or above.

*ANT 350, 399, 580, 581 and other ANT courses not listed here may be used to fulfill the Additional Courses requirement with the consent of the Director of Undergraduate Studies.

Courses taken to meet a requirement in one area cannot be used to meet a requirement in another area of the minor.

BIOLOGY

To address the breadth and depth essential to educating biologists, the biology major is structured to include both a broad foundation through core courses and opportunity for specialization within a biological subfield through biology electives. The major is designed to prepare the student for a post-baccalaureate profession in biology, for advanced professional training in the health sciences, or for graduate study in basic and applied areas of the biological sciences.

Bachelor of Arts with a major in BIOLOGY

120 hours (minimum)

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the major requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Arts degree on page 113.

UK Core Requirements

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

I. Intellectual Inquiry in Arts and Creativity

Choose one course from approved list .......................... 3

II. Intellectual Inquiry in the Humanities

Choose one course from approved list .......................... 3

III. Intellectual Inquiry in the Social Sciences

Choose one course from approved list .......................... 3

or

*MA 123 Elementary Calculus and its Applications ................................. 3-4

Free Elective ................................................................ 0-1

Premajor hours: .................................................. 20

Major Requirements

Minimum major requirement for graduation is 55 credit hours in courses as detailed below. The minimum GPA of all major and premajor courses must be at least 2.0.

First Tier Core

BIO 303 Introduction to Evolution .......................... 4

BIO 304 Principles of Genetics ................................. 4

Second Tier Core

To be taken after completion of First Tier Core.

Choose two of the following to complete 8 hours:

BIO 350 Animal Physiology

or

BIO 430G Plant Physiology ........................................ 4

BIO 315 Introduction to Cell Biology .......................... 4

BIO 325 Ecology .................................................. 4

plus:

Statistics (any UK Core Statistical Reasoning course) ............................................. 3

BIO 425 Biology Seminar (Subtitle required)

or

BIO 499 Biology Research Seminar ................................ 1

Core hours: .................................................. 20

Other Course Work Required for the Major

From Outside the Major Department

*PHY 211 General Physics

or

*PHY 151 Introduction to Physics ................................ 3-5

*PHY 151 is not accepted for admission into Medical, Dental or Pharmacy School. Check with your advisor before choosing a physics course.

Other Major hours: ............................................ 8-10

Options

Complete one of the following options. Students cannot mix and match requirements from the two options. An option must be completed in its entirety.

Option A – Minor Option

NOTE: Fourteen of these hours must be at the 300-level or above.

Complete the requirements for any minor other than the biology minor ............................................. 18-21

**Biology Electives ............................................. 4-9

**Biology Electives – One course must have a lab, which may be BIO 395. A maximum of only 3 credits of BIO 395 may be used in this section.

If students double-dip major and minor requirements, additional biology electives must be taken to meet the graduation requirement of 55 hours for the B.A. in Biology.

Total Hours Option A ............................................ 25-27

Option B – Topical Focus Option

NOTE: Fourteen of these hours must be at the 300-level or above.

Complete a 12 credit hour sequence of courses with a topical focus. At least 6 of these hours must be at the 300-level or above ................................................................. 12

NOTE: Students who have multiple interests or interests that do not fall into the requirements for a minor offered at the University of Kentucky may select a 12 credit hour sequence of courses with a topical focus. Courses in several disciplines and in the various interdisciplinary programs may be combined to pursue the topical focus. Students interested in pursuing Option B must have the 12 credit hour sequence of courses APPROVED IN ADVANCE by the Director of Undergraduate Studies, Department of Biology. Students must submit an Approval of Topical Focus Form to the Director of Undergraduate Studies.

**Biology Electives ............................................. 13-15

**Biology Electives – One course must have a lab, which may be BIO 395. A maximum of 6 credits of BIO 395 may be used in this section.

Total Hours Option B ............................................ 25-27

Acceptable biology electives from outside the Department.

Other courses may be accepted at the discretion of the Director of Undergraduate Studies in the Department of Biology:

A&S 300, 500 (acceptable as upper-level credit only when offered by the Department of Biology)

ABT 460

ANA 511, 512, 516 (some other anatomy courses at the 500-level are accepted, but are usually restricted to professional students)

ANT 332

ASC 364, 378

BCH 401G

Bachelor of Science with a major in BIOLOGY

120 hours (minimum)

Any student earning a Bachelor of Science (BS) degree must complete a minimum of 60 hours in natural, physical, mathematical, and computer science. See the complete description of College requirements for a Bachelor of Science degree, including a specific listing of courses applicable to the 60-hour requirement, on pages 113-114.

UK Core Requirements

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

I. Intellectual Inquiry in Arts and Creativity
Choose one course from approved list

II. Intellectual Inquiry in the Humanities
Choose one course from approved list

III. Intellectual Inquiry in the Social Sciences
Choose one course from approved list

IV. Intellectual Inquiry in the Natural, Physical, and Mathematical Sciences

CHE 105 General College Chemistry I
CHE 111 Laboratory to Accompany General Chemistry I

V. Composition and Communication I

CIS/WRD 110 Composition and Communication I

VI. Composition and Communication II

CIS/WRD 111 Composition and Communication II

VII. Quantitative Foundations

Choose one course from approved list

VIII. Statistical Inferential Reasoning

Choose one course from approved list

IX. Community, Culture and Citizenship in the USA

*PHY 231/241 General University Physics/Laboratory
PHY 232/242 General University Physics/Laboratory

Biology Electives

Choose 15 hours of acceptable biology electives

Fifteen hours to be chosen from 200+ level BIO courses (excluding BIO 208) or the list below. Two courses must have labs, one of which may be BIO 395. A maximum of 6 credits of BIO 395 may be used as electives in this section. A total of 6 hours of Independent Research (395) from biological sciences departments may be counted within the 15 hour requirement; however, only BIO 395 is accepted for honors in biology. NOTE: ANA 209, BIO 208 and PGY 206 cannot be used for this requirement.

Other Major hours

33

Acceptable biology electives from outside the Department.

Other courses may be accepted at the discretion of the Director of Undergraduate Studies in the Department of Biology:

A&S 300, 500 (acceptable as upper-level credit only when offered by the Department of Biology)

BCH 460

ANA 511, 512, 516 (some other anatomy courses at the 500-level are accepted, but are usually restricted to professional students)

ANT 332

ASC 364, 378

BCH 401G

ENT 310, 320, 360, 402, 460, 561, 564, 566, 567 (ENT 360 is not acceptable as an upper-level elective for Biology majors.

Minor in Biological Sciences

A minimum of 21 semester hours is required for the minor in biological sciences, to be distributed as follows:

Preminor Requirements

BIO 148 Introductory Biology I
BIO 152 Principles of Biology II
BIO 155 Laboratory for Introductory Biology I

Minor Requirements

BIO 303 Introduction to Evolution
BIO 304 Principles of Genetics

Minor Electives

Approved BIO or other courses at the 200 level or above. Up to 3 hours of BIO 395, Research in Biology, may be counted here.

College of Arts and Sciences
CHEMISTRY

The Department of Chemistry offers the Bachelor of Science degree for students who intend to become professional chemists or do graduate work in chemistry or a closely related discipline. There are two options in the B.S. program: a traditional version covering all the major areas of chemistry, and an option that emphasizes biochemistry. Both degree options are certified by the American Chemical Society. A Bachelor of Arts degree program is offered as well for students who want greater flexibility in the selection of courses in other fields of science. The B.A. is designed particularly for students planning to enter the professional health fields, to teach in secondary schools, or to work in such varied areas as ecology, criminal justice, materials science, patent law, or technical service and sales. The Department also offers the Master of Science and the Doctor of Philosophy degrees.

Bachelor of Arts with a major in CHEMISTRY

122 hours (minimum)

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the major requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. Please also note that the Organic Chemistry Sequence (CHE 230/231/232/233) will count towards completion of this requirement. See the complete description of College requirements for a Bachelor of Arts degree on page 113.

UK Core Requirements

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

UK Core Hours ............................................................... 32

Graduation Writing Requirement
After attaining sophomore status, students must complete a Graduation Writing Requirement course. Please see your academic advisor for courses that meet this requirement.

Graduation Writing Requirement Hours: .... 3

College Requirements

I. Foreign Language (placement exam recommended) ................. 0-14

II. Disciplinary Requirements
a. Natural Science (completed by Major Requirements) ........... 3
b. Social Science .......................................................... 3
c. Humanities ............................................................... 3

III. Laboratory or Field Work (completed by Premajor Requirement) ....

College Requirement hours: .......................... 12-26

Premajor Requirements

*MA 113 Calculus I .......................................................... 4
MA 114 Calculus II ......................................................... 4
*CHE 105 General College Chemistry I ............................... 3
CHE 107 General College Chemistry II .............................. 3
*CHE 111 Laboratory to Accompany General Chemistry I ......................................................... 1
CHE 113 Laboratory to Accompany General Chemistry II ......................................................... 2
BIO 150 Principles of Biology I ....................................... 3
BIO 151 Principles of Biology Laboratory I .......................... 2
BIO 152 Principles of Biology II ........................................ 3
BIO 153 Principles of Biology Laboratory II ........................ 2

Premajor hours: ......................................................... 27

Major Requirements

Major Core Requirements
CHE 226 Analytical Chemistry ........................................... 3
CHE 230 Organic Chemistry I ............................................ 3
CHE 231 Organic Chemistry Laboratory I .......................... 2
CHE 232 Organic Chemistry II ........................................... 3
BIO 304 Principles of Genetics or BIO 388 General Microbiology or BIO 315 Introduction to Cell Biology ................................. 3-4
CHE 410G Inorganic Chemistry ......................................... 2
CHE 412G Inorganic Chemistry Laboratory ........................ 2
CHE 440G Introductory Physical Chemistry ......................... 4
CHE 441G Physical Chemistry Laboratory .......................... 2
CHE 522 Instrumental Analysis or CHE 532/533 Spectrometric Identification of Organic Compounds/Qualitative Organic Analysis Laboratory ......................................................... 4
CHE 550 Biological Chemistry I ......................................... 3
CHE 552 Biological Chemistry II ........................................ 3
CHE 554 Biological Chemistry Laboratory ........................... 2
CHE 572 Communication in Chemistry (two semesters) ............ 2

Major Core hours: ......................................................... 38

Other Course Work Required for the Major
From the Major Department:
Chemistry Major Field Options ........................................... 4
Major Field Options must be chosen from the following: CHE 395; or any CHE 500-level course except for those required. CHE 395 is strongly recommended for students having a minimum 3.0 GPA in chemistry courses.

From the Mathematics Department
MA 213 Calculus III ....................................................... 4

From the Physics Department
*PHY 231/232 General University Physics .......................... 8
*PHY 241/242 General University Physics Laboratory ......... 2

Other Major hours: ....................................................... 18

Electives
Choose electives to lead to the minimum total of 128 hours required for graduation.

Total Minimum Hours Required for Degree .......................... 128

*Course used towards completion of a UK Core Requirement.
Second Semester
CHE 441G Physical Chemistry Laboratory ............... 2
Major Field Option ................................................. 2
CHE 572 Communication in Chemistry .................... 1
Foreign Language** .................................................. 3
UK Core ................................................................. 3
Elective ................................................................. 3

*CHE 442G may be substituted for CHE 440G.
**Any language may be used to satisfy the College Foreign Language requirement – German is recommended.

Certification Requirements
The B.S. degree is certified by the American Chemical Society.

Minor in Chemistry
MA 113 Calculus I or ................................................. 4
MA 132 Calculus for the Life Sciences ....................... 3
MA 114 Calculus II ...................................................... 4
PHY 211/213 General Physics or ................................. 10
PHY 231/241 General University Physics and Laboratory and .......................................................... 5
PHY 232/242 General University Physics and Laboratory .......................................................... 5
CHE 105/107 General College Chemistry I and II ........ 6
CHE 111/113 Laboratory to Accompany General Chemistry I and II ............................................. 3
CHE 226 Analytical Chemistry .................................... 3
CHE 230/231 Organic Chemistry I and Laboratory I .......................................................... 5
CHE 232/233 Organic Chemistry II and Laboratory II .......................................................... 5
CHE 440G Introductory Physical Chemistry or ............ 4
CHE 446G Physical Chemistry for Engineers .......... 3

B.A. or B.S. with a major in
CHINESE LANGUAGE
AND LITERATURE
At the time of publication, a new major in Chinese Language and Literature was approved. For more information, visit the Major Sheets page at: www.uky.edu/Registrar/Major-Sheets/index.htm.

B.A. or B.S. with a major in
CLASSICS
The requirements for the B.A. and B.S. with a major in Classics are listed in this A&S section under Modern and Classical Languages, Literatures and Cultures.

EARTH AND ENVIRONMENTAL SCIENCES
The earth and environmental sciences encompass a variety of studies of our planet, including considerations of composition, structure, pre-historic life, internal and surficial processes, and history. These studies have applications in the discovery and use of mineral resources, energy sources, and water; in protection of the environment; and in planning for the impact of natural hazards (earthquakes, landslides, etc.) on societal development. Students undertake the study of earth and environmental sciences in the classroom, laboratory, and field.

Students in earth and environmental sciences earn the Bachelor of Science or Bachelor of Arts degree with a major in Geology. The B.S. program is designed for students who plan a career as a professional geologist or who plan to attend graduate school. The B.A. program is designed for students planning a career in government policy relating to earth science and environmental issues, earth-science education, business (environmental consulting), environmental law, or environmental medicine.

Bachelor of Arts with a major in GEOLOGY

120 hours (minimum)
Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the major requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Arts degree on page 113.

UK Core Requirements
See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

I. Intellectual Inquiry in Arts and Creativity

Choose one course from approved list ...................... 3

II. Intellectual Inquiry in the Humanities

Choose one course from approved list ...................... 3

III. Intellectual Inquiry in the Social Sciences

Choose one course from approved list ...................... 3

IV. Intellectual Inquiry in the Natural, Physical, and Mathematical Sciences

Choose one course from approved list ...................... 3

V. Composition and Communication I

CIS/WRD 110 Composition and Communication I ........ 3

VI. Composition and Communication II

CIS/WRD 111 Composition and Communication II ....... 3

VII. Quantitative Foundations

Choose one course from approved list ...................... 3

VIII. Statistical Inferential Reasoning

Choose one course from approved list ...................... 3

IX. Community, Culture and Citizenship in the USA

Choose one course from approved list ...................... 3

X. Global Dynamics

Choose one course from approved list ...................... 3

Other Course Work Required for the Major

From the Major Department:

Elective I ................................................................. 6

Choose six hours of GLY courses at the 400+ level, not to include GLY 495 or 496

Elective II ................................................................. 6

Choose six additional hours of 300+ GLY or related courses
**College of Arts and Sciences**

**ECONOMICS**

The Department of Economics offers theoretical and applied courses in diverse areas including microeconomics, macroeconomics, labor, money and banking, international economics, public economics, and industrial organization. It provides an opportunity for the student to pursue his or her interests within the framework of a liberal arts education.

The department offers programs leading to different undergraduate degrees – a Bachelor of Science in the Gatton College of Business and Economics, a Bachelor of Arts and a Bachelor of Science with a major in economics in the College of Arts and Sciences, and a Bachelor of Arts and a Bachelor of Science with a major in mathematical economics. The distinctions among these degrees lie primarily in the required supporting courses in the various programs. (For students wishing to major in economics through the Gatton College of Business and Economics, please refer directly to that college’s section in the Bulletin. Mathematical economics majors should refer directly to that section of the Bulletin under the College of Arts and Sciences.)

**Bachelor of Arts with a major in ECONOMICS**

**120 hours (minimum)**

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the major requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Arts degree on page 113.

**UK Core Requirements**

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

ENGLISH

The Department of English offers a wide variety of courses in English and American literature as well as in linguistics, film, creative writing, cultural studies, and composition. Undergraduate majors may also choose a curriculum that leads to a teaching certificate.

Both majors and nonmajors will find many courses that offer opportunities to deepen their acquaintance with their own culture and its heritage, to enlarge their understanding of the human condition, and to develop their capacity to use and appreciate their own language.
Bachelor of Arts with a major in ENGLISH

120 hours (minimum)
Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the major requirements. quirement.

**Currently being waived.

Minor in English

The minor consists of a total of 18 hours, of which at least
12 hours must be at or above the 300 level. The hours are to be
distributed as follows:
1. Two of the following courses (six hours):
ENG 331 Survey of British Literature I
ENG 332 Survey of British Literature II
ENG 334 Survey of American Literature I
ENG 335 Survey of American Literature II
2. One course in Shakespeare (three hours)
3. Three more courses (nine hours) selected from the
department’s offerings (excluding all 100-level courses and
ENG 205, 261, 262; WRD 203, 204).

Bachelor of Arts with a major in FRENCH

The requirements for the B.A. and B.S. with
a major in French are listed in this A&S section
under Modern and Classical Lan-
guages, Literatures and Cultures.

GENDER AND WOMEN’S STUDIES

The Department in Gender and Women’s Studies offers a range of curriculum at the
intersection of the humanities and the social sciences. This interdisciplinary curriculum focuses on the
study of gender as an aspect of everyday life, as well as on the political and cultural experiences
and contributions of women across the world and through time. Majors in GWS have gone on to
become artists, activists, to study law, medicine, social work, and to pursue academic careers.

EUROPE

Complete two of the following British literature courses:
ENG 331, 332, 334, 335. At least three of these
literature courses: ENG 334, 335, 336. At least three of these
must be chosen from the survey courses (ENG 331, 332, 334,
335).

Area Module ............................................................... 12
Complete four additional courses— at least two of which must be
from the same area module. Note that some of the listed
courses may be repeated under different subtitles.

Literature: ENG 340 (if not used in Literature Module),
481G, 482G, 483G, 484G, 485G, 570, 572

Imaginative Writing: ENG 207, 407, 507

Writing: ENG 301, 306, 401, 405, 509

Film and Media: ENG 283, 381, 382, 480G

Language Study: ENG/LIN 310, LIN/ANT 319, ENG/LIN
512, ENG/LIN/EDC 513, ENG/LIN/EDC 514, ENG/
LIN/ANT 515, ENG/LIN/ANT 516, ENG 519

Theory: ENG 486G, 487G, 488G

English Education Emphasis: ENG 264 or 483G, 509, 572,
and one additional writing module course

From Outside the Major Department
15 additional hours at the 200+ level outside English are
required (courses 300+ recommended; note that 200+ -level
courses used to satisfy College Requirements may also be
counted here). ............................................................... 15

Major hours: ............................................................... 62

Electives
Choose electives to lead to the minimum total of 120 hours
required for graduation .................................................... 6

Total Minimum Hours Required for Degree .............................................. 120

*Course used towards completion of a UK Core Re-
quirement.

**Currently being waived.

Minor in English

The minor consists of a total of 18 hours, of which at least
12 hours must be at or above the 300 level. The hours are to be
distributed as follows:
1. Two of the following courses (six hours):
ENG 331 Survey of British Literature I
ENG 332 Survey of British Literature II
ENG 334 Survey of American Literature I
ENG 335 Survey of American Literature II
2. One course in Shakespeare (three hours)
3. Three more courses (nine hours) selected from the
department’s offerings (excluding all 100-level courses and
ENG 205, 261, 262; WRD 203, 204).

Bachelor of Arts with a major in GENDER AND WOMEN’S STUDIES

120 hours (minimum)

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at
the 300+ level. These hours are generally completed by the major requirements. However,
keep this hour requirement in mind as you choose your course work for the requirements in the
major. See the complete description of College requirements for a Bachelor of Arts degree on
page 113.

UK Core Requirements

See the UK Core section of this Bulletin for the complete
UK core requirements. The courses listed below are (a)
recommended by the college, or (b) required courses that also
fulfill UK Core areas. Students should work closely with
their advisor to complete the UK Core requirements.

I. Intellectual Inquiry in Arts and Creativity
Choose one course from approved list ......................... 3

II. Intellectual Inquiry in the Humanities
Choose one course from approved list ......................... 3

III. Intellectual Inquiry in the Social Sciences
Choose one course from approved list ......................... 3

IV. Intellectual Inquiry in the Natural, Physical, and
Mathematical Sciences
Choose one course from approved list ......................... 3

V. Composition and Communication I
CIS/WRD 110 Composition and Communication I ...... 3

VI. Composition and Communication II
CIS/WRD 111 Composition and Communication II ...... 3

VII. Quantitative Foundations
Choose one course from approved list ......................... 3

VIII. Statistical Inferential Reasoning
Choose one course from approved list ......................... 3

IX. Community, Culture and Citizenship in the USA
Choose one course from approved list ......................... 3

X. Global Dynamics
Choose one course from approved list ......................... 3

UK Core Hours .................................................................. 30

Graduation Writing Requirement

After attaining sophomore status, students must complete a
Graduation Writing Requirement course. Please see your
academic advisor for courses that meet this requirement.

Graduation Writing Requirement Hours: ..................... 3

College Requirements

I. Foreign Language (placement exam
recommended) ..........................................................0-14

Total Major hours: ......................................................... 50

Other Course Work Required for the Major

Students must complete at least 27 credit hours of the major
through upper-division course work (12 credit hours of core
courses, 15 credit hours of electives).

From Outside the Major Department

Choose 12 hours outside GWS at the 300+ level. 200+ level
courses used to satisfy College requirements can also be
counted here.

Other Major hours: ....................................................... 12

Total Minimum Hours

Required for Degree ..................................................... 120

*Course used towards completion of a UK Core Re-
quirement.
Minor in Gender and Women’s Studies

The minor requires 21 hours of course work, as outlined below:

- GWS 200 Introduction to Gender and Women’s Studies in the Social Sciences or GWS 201 Introduction to Gender and Women’s Studies in the Arts and Humanities
- GWS 250 Social Movements
- GWS 340 History of Feminist Thought to 1975
- GWS 350 Introduction to Feminist Theorizing

Plus an additional nine hours of electives to be selected with the approval of the Director of Undergraduate Studies in the Department of Gender and Women’s Studies.

Courses used for the Gender and Women’s Studies topical major, minor or graduate certificate must be taught by a Gender and Women’s Studies Affiliated Faculty.

For further information, contact Betty Pasley, Administrative Assistant, Gender and Women’s Studies, 112 Breckinridge Hall, (859) 257-1388.

GEOGRAPHY

Geography analyzes and explains the location of and interrelationships between human and physical features of the earth’s environment. Geographers also examine how and why features and their locations change over time, with particular interest in the many impacts of these changes on both people and natural settings. Geography is, therefore, both a social and a physical science. Because its fundamental subject matter is people and their environments, the discipline serves as an effective bridge between the physical and cultural worlds.

Majors in geography build solid academic foundations that draw from and interrelate areas of study from the social and behavioral sciences, humanities, computer science and graphic communication, and the natural sciences. With developed analytical, critical thinking, and communication skills, geography is particularly useful for students wishing to enter such careers as economic development, environmental management, international trade, transportation analysis and planning, diplomacy, government administration from local to federal levels, market analysis, urban and regional planning, research, teaching, cartography, Geographic Information Systems (GIS), and private business.

The Department of Geography has developed detailed major concentration tracks in three areas: earth environmental systems (physical geography), human geography, and geographic information techniques. For more information, contact the Department of Geography at (859) 257-2931, or on the Web at: www.uky.edu/AS/Geography/.

Bachelor of Arts with a major in GEOGRAPHY

120 hours (minimum)

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the major requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Arts degree on page 113.

UK Core Requirements

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

*GEO 172 Human Geography

Premajor hours: 6

*Course used towards completion of a UK Core Requirement

Major Requirements

Major Core Requirements

GEO 200 Concepts and Methodology in Geography
GEO 300 Geographic Research
GEO 305 Elements of Cartography
GEO 310 Quantitative Techniques in Geography
GEO 499 Senior Research Seminar

Major Core hours: 15

Other Course Work Required for the Major

From the Major Department:

Breadth Requirements

Choose one regional geography course and one thematic geography course at the 300+ level.

Geography Concentration Tracks

Choose at least 12 hours of additional geography courses (200 level or higher) to include no more than six hours of GEO 560 (Independent Work in Geography) and GEO 399 (Internship in Geography). The following three tracks (Earth Environmental Systems, Human Geography, and Geographic Information Techniques) represent major areas within Geography and are provided as guidelines. Most students will find it useful to concentrate their 12 hours within one of the three tracks but this is not a requirement. Consult with your advisor in making these selections.

Track 1: Earth Environmental Systems

This concentration emphasizes the earth’s physical environment, including soils and landscapes; fluvial and other hydrologic systems; weather and climate; and vegetation and animal life. Emphasis is on (a) the pattern of spatial variation these regimes exhibit; (b) the physical processes that underpin their historical and spatial development; and (c) the interactions between these regimes and human activity. Topical areas reflecting physical-human interactions include identification and analysis of pollution, mitigation of natural hazards, and the outcomes of environmental management strategies.

The Department strongly recommends that students in the Earth Environmental Systems Concentration pursue a Bachelor of Science degree.

GEO 230 Weather and Climate
GEO 235 Environmental Management and Policy
GEO 351 Physical Landscapes
GEO 451G Fluvial Forms and Processes

*Or other Physical Geography, GIS, Remote Sensing, Computer Cartography courses.

Track 2: Human Geography

Human Geography focuses on the identification, description, and analysis of: (a) human spatial behavior and cognition; (b) social, economic, and political processes as they are manifest locally and globally; and (c) the cultural impress of human activity on the landscape. Within these areas, students can focus on the socio-psychological aspects of space and place, including cultural differences in ways of knowing the world. They will learn about the processes that produce local-to-global distinctiveness in key problem areas including: poverty, injustice, and hunger; illness, disability, and disease; patriarchy, racism, and homophobia; and unequal access to natural resources, education, health, and safety. Students will also find an opportunity to learn how human practices and broader processes affect both our natural and built environments. Finally, students will learn practical tools to contribute to better world through their research, or professional participation in civil society, the private sector, or government agencies. The HG Track permits students to specialize in a particular region of interest, including East, South, Southwest (Middle East), and Southeast Asia, Europe, the Caribbean, and the United States, especially Appalachia and the South.
With the advice and consent of a faculty advisor, select from courses offered within the Department and other Departments, corresponding to a particular focus in HG.

GEO 240 Geography and Gender ........................................ 3
GEO 256 Behavior in Space and Time .................................. 3
*GEO 260 Geographies of Development in the Global South  3
GEO 285 Introduction to Planning ...................................... 3

GEO 545 Transportation Geography ................................... 3
GEO 546 Tourism and Recreation Geography ...................... 3
GEO 547 Geography of Information and Communications .... 3
GEO 550 Sustainable Resource Development and Environmental Management ............................................. 3
GEO 585 Aging and Environment ....................................... 3
*Course used towards completion of a UK Core Requirement.

Track 3: Geographic Information Techniques (GIT)
The Geographic Information Techniques Concentration is concerned with all aspects of geographical information/data, including identification of data sources, collection, storage/retrieval, manipulation, analysis, and visualization. The GIT Concentration encompasses geographical information science (GIS), cartography, remote sensing, and spatial analysis.

GEO 309 Digital Geographic Data: Sources, Characteristics, Problems, and Uses ............................................ 3
GEO 399 Internship in Geography ........................................ 3
GEO 409G Geographic Information Systems and Science: Fundamentals ................................................... 3

1. SPA 202 or SPA 242 or equivalent
2. SPA 210
3. SPA 211
4. Beyond the first six-semester sequence, twelve additional hours which must be taken at the 300 level or above. (At least one course, three hours, must be taken in Spanish or Spanish-American literature.)

Note: No courses taken in translation may be counted toward the minor in Spanish.

HISTORY
The Department of History’s program seeks to expand understanding of human experience and enable students to learn about their world in light of its past. The department offers a wide range of courses. These courses, an essential part of a liberal arts education, are also designed to train students to be teachers of history and professional historians. Faculty and students in the department participate in many of the University’s interdisciplinary programs such as African American studies, women’s studies, Latin American studies, and Asian studies.

Bachelor of Arts with a major in HISTORY
120 hours (minimum)
Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the major requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Arts degree on page 113.

Other Course Work Required for the Major
From the Major Department:
Choose 24 hours to include at least six hours in pre-1789 work; at least six hours in post-1789 work; at least three hours in American history; at least three hours of European history; at least three hours in the history of Africa, Asia, Latin America, or the Middle East. At least 15 of these hours must be at the 300+ level ..................................................... 24

From Outside the Major Department
Choose 15 hours outside History at the 300+ level, or 200+ level courses used to satisfy College requirements can also be counted here. Foreign language instruction courses may
not be used to fulfill the related field requirement. Literature, civilization, and culture classes do count toward fulfilling this requirement .................................................. 15
Other Major hours: ............................................ 39

Electives
Choose electives to lead to the minimum total of 120 hours required for graduation ............................................ 4

Total Minimum Hours Required for Degree: ............................. 120
*Course used towards completion of a UK Core Requirement.

Bachelor of Science with a major in HISTERY

120 hours (minimum)
Any student earning a Bachelor of Science (BS) degree must complete a minimum of 60 hours in natural, physical, mathematical, and computer science. Please note: courses with an HIS prefix are generally not accepted towards fulfilling this 60-hour requirement. Therefore, be sure to keep this requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Science degree, including a specific listing of courses applicable to the 60-hour requirement, on pages 113-114.

UK Core Requirements
See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

I. Intellectual Inquiry in Arts and Creativity
Choose one course from approved list ............................. 3

II. Intellectual Inquiry in the Humanities
Choose one course from approved list ............................. 3

III. Intellectual Inquiry in the Social Sciences

Total Minimum Hours Required for Degree: ............................. 120
*Course used towards completion of a UK Core Requirement.

Minor in History
A minor in history provides training in critical thinking and expression and a valuable perspective on the varieties of civilizations and modes of human behavior. The minor requires a minimum of 18 hours, to be distributed as follows:

1. A six-hour sequential introduction to the history of a civilization or a nation. This may be selected from:
- HIS 104/105 History of Europe
- HIS 106/107 Western Culture: Science and Technology I and II
- HIS 108/109 History of the United States
- HIS 202/203 History of the British People
- HIS 229/230 The Ancient World
- HIS 247/248 History of Islam and Middle East Peoples
- HIS 295/296 East Asia
- HIS 370/371 Middle Ages
- HIS 385/386 History of Russia

2. Twelve hours of course work at or above the 300 level, at least six of which must be at or above the 400 level. No more than 12 of the 18 hours required may be in any one of the subfields of American history, European history, or history of the non-Western world.

INTERNATIONAL STUDIES
International Studies is an interdisciplinary program that encourages students to explore global issues in disciplines such as anthropology, economics, history, political science, geography, foreign languages, English, and the arts. Students will choose course work focused around a central theme and geographical region. Cultural knowledge will be developed further through expanded foreign language study. The program culminates in a capstone senior project. Study abroad is highly encouraged, although not required, for the International Studies major.

A degree in International Studies will prepare students for careers in business, government, non-government organizations, philanthropic agencies, or the arts. The major also prepares students for graduate study in the humanities, social sciences, international affairs, law, public health and communications.

Bachelor of Arts with a major in INTERNATIONAL STUDIES

120 hours (minimum)
Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the major requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. A complete description of College requirements for a Bachelor of Arts degree can be found on page 113.

UK Core Requirements
See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

I. Intellectual Inquiry in Arts and Creativity
Choose one course from approved list ............................. 3

II. Intellectual Inquiry in the Humanities
Choose one course from approved list ............................. 3

III. Intellectual Inquiry in the Social Sciences
Choose one course from approved list ............................. 3

Electives
Choose one course from approved list ............................. 3
Capstone Senior Project
Complete the following course:
INT 495 International Studies Research Project ........ 3

Thematic and Area Concentrations
Complete one of the following:
1. Fifteen credit hours with a thematic concentration and twelve credit hours with an area concentration ................................................. 27
2. Fifteen credit hours with an area concentration and twelve credit hours with a thematic concentration ................................................. 27
OR
3. Foreign Languages and International Economics (FLIE) ......................................................... 39-41

Thematic Concentrations
(12 -15 credit hours in one theme and from at least two departments)

International Relations
The International Relations concentration focuses on how states and institutions interact in a global environment. Sources of global conflict, international non-government organizations, international crisis resolution, and national sovereignty are examined.

University of Kentucky 2011-2012 Undergraduate Bulletin
Distribution Requirements
1. Students may not apply to their IS major more than 15 credit hours that have already been applied to another major or minor program.
2. Students must apply to their IS major at least one course from four different departments and/or academic programs.
3. Students must complete at least 24 of the major’s total credit hours at the 300 level or above.

Bachelor of Science with a major in INTERNATIONAL STUDIES

120 hours (minimum)
Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the major requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Science degree, including a specific listing of courses applicable to the 60-hour requirement, on pages 113-114.

UK Core Requirements
See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

I. Intellectual Inquiry in Arts and Creativity
Choose one course from approved list ............... 3

II. Intellectual Inquiry in the Humanities
Choose one course from approved list ............... 3

III. Intellectual Inquiry in the Social Sciences
Choose one course from approved list ............... 3

IV. Intellectual Inquiry in the Natural, Physical, and Mathematical Sciences
Choose one course from approved list ............... 3

V. Composition and Communication I
CIS/WRD 110 Composition and Communication I .... 3

VI. Composition and Communication II
CIS/WRD 111 Composition and Communication II .... 3

VII. Quantitative Foundations
Choose one course from approved list ............... 3

VIII. Statistical Inferential Reasoning
Choose one course from approved list ............... 3

IX. Community, Culture and Citizenship in the USA
Choose one course from approved list ............... 3

X. Global Dynamics
Choose one course from approved list ............... 3

UK Core Hours .......................................................... 30

Graduation Writing Requirement
After attaining sophomore status, students must complete a Graduation Writing Requirement course. Please see your academic advisor for courses that meet this requirement.

Graduation Writing Requirement Hours: .... 3

College Requirements
I. Foreign Language (placement exam recommended, completed by Major Requirements) .......... 0-14
II. Disciplinary Requirements
a. Natural Science .................................................. 6
b. Social Science (can be completed with Major Requirements) ...................................... 6
c. Humanities (can be completed with Major Requirements) ...................................... 6
III. Laboratory or Field Work ........................................ 1
IV. Electives .............................................................. 6

Subtotal: College Hours: ................................ 25-39

Major Requirements

Pathway Courses*
Complete six credit hours from the following list. Courses must be from two departments:
A-H 103 World Art .................................................... 3
ANT 130 Introduction to Comparative Religion ...... 3
ANT 160 Cultural Diversity in the Modern World .... 3
GEO 152 Regional Geography of the World ........... 3
GEO 160 Lands and Peoples of the Non-Western World .... 3
HIS 104 A History of Europe through the Mid-Seventeenth Century ......................... 3
HIS 105 A History of Europe from the Mid-Seventeenth Century to the Present ............... 3
PS 210 Introduction to Comparative Politics ......... 3
PS 212 Culture and Politics in the Third World ...... 3
PS 235 World Politics ............................................... 3
TA 171 World Theatre I ............................................. 3
*Students choosing the FLIE concentration are not required to complete the Pathway courses.

Language Competency*
Complete the fourth semester in one language AND
Two semesters in a second language .................... 6-8
OR
Two additional semesters in the same language ...... 6
*Students choosing the FLIE concentration will automatically meet the Language Competency requirement.

Capstone Senior Project
Complete the following course:
INT 495 International Studies Research Project ...... 3

Thematic and Area Concentrations

Complete one of the following:
1. Fifteen credit hours with a thematic concentration and twelve credit hours with an area concentration ............................................. 27
2. Fifteen credit hours with an area concentration and twelve credit hours with a thematic concentration ............................................. 27
OR
3. Foreign Languages and International Economics (FLIE) ........................................ 39-41

Thematic Concentrations

(12 -15 credit hours in one theme and from at least two departments)

International Relations
The International Relations concentration focuses on how states and institutions interact in a global environment. Sources of global conflict, international non-government organizations, international crisis resolution, and national sovereignty are examined.

ANT 311 Global Dreams and Local Realities in a "Flat" World ........................................ 3
ANT 532 Anthropology of the State ...................................... 3

- ECO 473G Economic Development

### Foreign Language – International Economics (FLIE)

Foreign Language – International Economics is a program of study that combines foreign language proficiency with training in economics. The FLIE major prepares students for employment in economic positions internationally.

Students who choose the FLIE concentration are not required to complete the six hour Pathways requirement. The Language Competency requirement will also be completed with FLIE courses. Students will complete the Economics Core Requirement and one of the Language Core Concentrations.

### Economics Core Requirement

- STA 291 Statistical Methods
- ECO 201 Principles of Economics I
- ECO 202 Principles of Economics II
- ECO 301 Economic and Business Statistics
- ECO 401 Intermediate Microeconomic Theory
- ECO 402 Intermediate Macroeconomic Theory
- ECO 300+ Any 300+ level ECO course

#### Plus two of the following:

- ECO 471 International Trade
- ECO 472 International Monetary Economics
- ECO 473G Economic Development

### Russian

- RUS 271 Russian Culture 1900-Present
- RUS 301 Advanced Intermediate Russian I
- RUS 302 Advanced Intermediate Russian II

### Latin America

- GEO 324 Geography of Central and South America and the Caribbean
- GEO 406G Field Studies (Subtitle required)
- HIS 206 History of Colonial Latin America, 1492-1810
- HIS 207 History of Modern Latin America, 1810 to Present
- HIS 562 Modern Mexico
- HIS 563 The History of Women in Latin America
- PS 428G Latin American Government and Politics
- PS 538 Conflict and Cooperation in Latin American Relations
- SPA 314 Civilization of Spanish America
- SPA 322 Literature, Life and Thought of Spanish America
- SPA 361 Latin American Literature in Translation (Subtitle required)
- SPA 371 Latin American Cinema (Subtitle required)
- SPA 400 Special Topics in Hispanic Literatures and Languages (Subtitle required)
- STA 371 Statistical Methods
- ECO 201 Principles of Economics I
- ECO 202 Principles of Economics II
- ECO 301 Economic and Business Statistics
- ECO 401 Intermediate Microeconomic Theory
- ECO 402 Intermediate Macroeconomic Theory
Japanese language competence, and for Japan-related career choices.

**Bachelor of Arts with a major in JAPANESE LANGUAGE AND LITERATURE**

120 hours (minimum)

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the major requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Arts degree on page 113.

**UK Core Requirements**

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

I. Intellectual Inquiry in Arts and Creativity

Choose one course from approved list ............................. 3

II. Intellectual Inquiry in the Humanities

Choose one course from approved list ............................. 3

III. Intellectual Inquiry in the Social Sciences

Choose one course from approved list ............................. 3

IV. Intellectual Inquiry in the Natural, Physical, and Mathematical Sciences

Choose one course from approved list ............................. 3

V. Composition and Communication I

CIS/WRD 110 Composition and Communication I ........... 3

VI. Composition and Communication II

CIS/WRD 111 Composition and Communication II .......... 3

VII. Quantitative Foundations

Choose one course from approved list ............................. 3

VIII. Statistical Inference Reasoning

Choose one course from approved list ............................. 3

IX. Community, Culture and Citizenship in the USA

Choose one course from approved list ............................. 3

X. Global Dynamics

Choose one course from approved list ............................. 3

**UK Core Hours ...................................................... 30**

**Graduation Writing Requirement**

After attaining sophomore status, students must complete a Graduation Writing Requirement course. Please see your academic advisor for courses that meet this requirement.

Graduation Writing Requirement Hours: ....................... 3

**College Requirements**

I. Foreign Language (completed by Premajor Requirement)

II. Disciplinary Requirements

a. Natural Science ...................................................... 6

b. Social Science ...................................................... 6
c. Humanities (completed by Major Requirements) ......... 6

IV. Electives ..................................................................... 6

**College Requirement hours: ....................... 19**

**Premajor Requirements**

JPN 201 Intermediate Japanese I ................................. 3

JPN 202 Intermediate Japanese II ............................... 3

**Subtotal: Premajor Requirements .......................... 6**

**Major Requirements**

A. Language Requirements

JPN 301 Advanced Japanese I .................................... 3

JPN 302 Advanced Japanese II .................................... 3

JPN 401 Advanced Japanese III ................................... 3

JPN 402 Advanced Japanese IV ................................... 3

**Subtotal: Language Requirements .......................... 12**

B. Interdisciplinary Core Requirements

Choose 18 hours from:

Arts, Literature, and Film

JPN 420G, JPN 421G, JPN 400G, JPN 405 and A-H 310 and/or related courses with the approval of the major advisor.

Contemporary Culture, Society, and Politics

JPN/GEO 334, JPN 430G, JPN 321 and/or related courses with the approval of the major advisor.

Geography and Economics

JPN/GEO 491G, JPN/GEO 551 and/or related courses with the approval of the major advisor.

Cultural History

HIS 295, HIS 296, JPN 320 and/or related courses with the approval of the major advisor.

**Subtotal: Interdisciplinary Core Hours: .................. 18**

C. From Outside the Major Department

Choose 14 hours outside Japanese Language and Literature at the 300+ level from the following areas: anthropology, Arabic and Islamic studies, architecture, art history, business and economics, Chinese, classics, communication, community and leadership development, education, English, French, gender and women’s studies, geography, German studies, Hispanic studies, history, international studies, journalism, library sciences, linguistics, modern and classical languages, literatures and cultures (MCL), music, philosophy, political science, religious studies, Russian studies, sociology, theater, or other disciplines approved by the major advisor. 200+ level courses used to satisfy UK Core and College requirements can also be counted here.

**Subtotal: From Outside the Major Department hours: ................. 14**

**Total Course Work Required for the Major: ................. 44**

**Electives**

Select free elective courses to lead to the minimum total of 120 hours required for graduation.

**Subtotal: Electives ............................................. 10-20**

**TOTAL HOURS: .............................................. 120**

**Bachelor of Science with a major in JAPANESE LANGUAGE AND LITERATURE**

120 hours (minimum)

Any student earning a Bachelor of Science (BS) degree must complete a minimum of 60 hours in natural, physical, mathematical, and computer science. Please note: courses with a LIN prefix are generally not accepted towards fulfilling this 60-hour requirement. Therefore, be sure to keep this requirement in mind as you
choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Science degree, including a specific listing of courses applicable to the 60-hour requirement, on pages 113-114.

**UK Core Requirements**

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

**I. Intellectual Inquiry in Arts and Creativity**
Choose one course from approved list .......................... 3

**II. Intellectual Inquiry in the Humanities**
Choose one course from approved list .......................... 3

**TOTAL HOURS:** .............................................. 120

**LINGUISTICS**

Linguistics is an interdisciplinary program combining resources from English, anthropology, psychology, philosophy, computer science, and the foreign languages, to develop an understanding of the nature and implications of human language. The Linguistics program provides solid foundations in phonological and grammatical analysis, as well as opportunities to investigate the social, cultural, psychological, and physical aspects of language use.

**Bachelor of Arts with a major in LINGUISTICS**

**120 hours (minimum)**
Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the major requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Arts degree on page 113.

**NOTE:** The B.A. in Linguistics as listed below has been provisionally approved; formal approval is expected in Fall 2011.

**UK Core Requirements**

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

**I. Intellectual Inquiry in Arts and Creativity**
Choose one course from approved list .......................... 3

**II. Intellectual Inquiry in the Humanities**
Choose one course from approved list .......................... 3

**III. Intellectual Inquiry in the Social Sciences**
Choose one course from approved list .......................... 3

**IV. Intellectual Inquiry in the Natural, Physical, and Mathematical Sciences**
Choose one course from approved list .......................... 3

**V. Composition and Communication I**
CIS/WRD 110 Composition and Communication I ........ 3

**VI. Composition and Communication II**
CIS/WRD 111 Composition and Communication II .... 3

**College Requirement hours:** ................................. 19

**Premajor Requirements**

Complete the third and fourth semesters of a foreign language (or the equivalent) ................................. 6-8

**Premajor hours:** .................................................. 6-8

**Major Requirements**

**Major Core Requirements**

**LIN 211 Introduction to Linguistics I** ....................... 3

**LIN 212 Introduction to Linguistics II** ...................... 3

**plus four major area courses:**

**LIN 500 Phonetics** ............................................ 3

**LIN 505 Linguistic Morphology** ............................... 3
MINOR IN LINGUISTICS

The minor in linguistics requires 18 hours of course work to be selected as follows:

1. ENG/LIN 211
2. ENG/LIN 212

Major Area Courses (6 hours):
Choose from: LIN 509, ENG/LIN 515, ENG/LIN 516, ENG/LIN 512, EDC/ENG/LIN 513.

To make up the total of 18 hours, choose two courses from among the remaining LIN courses, including any of those listed above.

MATHEMATICAL ECONOMICS

The mathematical economics major offers students a degree program that combines mathematics, statistics, and economics. In today’s increasingly complicated international business world, a strong preparation in the fundamentals of both economics and mathematics is crucial to success. This degree program is designed to prepare a student to go directly into the business world with skills that are in high demand, or to go on to graduate study in economics or finance. A degree in mathematical economics would, for example, prepare a student for the beginning of a career in operations research or actuarial science.

In many ways, the mathematical economics program parallels the engineering philosophy. It combines the quantitative methods of mathematics with an applied science in order to solve real problems. As an example, operations research is used to optimize costs for extremely complicated systems such as airline scheduling. A major problem in business and economics is decision making under uncertainty. Efficient inventory control for large national retail chains can mean the difference between success and failure. A business will improve its bottom line if it can effectively control cost of inventory under the uncertainty of consumer demand. The solution of control problems of this type requires knowledge of relatively sophisticated mathematics and statistics as well as knowledge of basic economic principles.

There is currently a serious shortage of individuals who have sufficient training in mathematics and statistics as well as an understanding of business and economics. Companies that employ operations research analysts or actuaries cannot fill their positions. Mathematical economics and related areas have often been referred to as engineering for the service sector or “financial engineering.” With the ever increasing importance of the service sector in our economy, the math-econ degree will prove to be a valuable asset. The program will give the student an opportunity to study a fascinating collection of ideas and it will also provide the student with very marketable skills.

**MATHEMATICS**

The department offers two programs leading to the B.A. or B.S. degree. Students may major in mathematics by completing the requirements for either: Option A, Mathematics or Option B, Mathematical Sciences.

The mathematics option consists of courses offered solely by the department of mathematics and is intended for those who wish to follow a traditional mathematics career path. The mathematical sciences option consists of courses offered by the departments of computer science, mathematics and statistics, and is intended for those who opt for a career that requires the application of mathematics. The requirements for these programs are outlined below.

### Bachelor of Arts with a major in MATHEMATICS

120 hours (minimum)

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the major requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Arts degree on page 113.

Mathematics Cooperative Education

Qualified students who major in mathematics may participate in the Mathematics Sciences Cooperative Education Program which provides the opportunity for alternate semesters of aca-
demic study and full-time employment in business or industry. Guidelines and application forms are available in the Engineering/Math Sci-
cences Co-op Program Office, 320 Robotics Building.

Minor in Mathematics

Students who minor in mathematics must complete the following:
1. MA 113/114 Calculus I and II and ...................... 8
2. MA 213 Calculus III .......................................... 4
or equivalent
3. Six additional hours of mathematics courses numbered
greater than 213. Possible courses include: MA 214, MA
261, MA 320, MA 321, MA 330, MA 341, MA 351, MA
361, or any 400 level math course.

From the Basic Program during their freshman and
sophomore years. Students should contact the
Army ROTC Admis-
sions Office at (859) 257-6865; or visit 101
Barker Hall on campus. Additionally, students
should refer to the Student Financial Aid, Awards,
and Benefits section of this Bulletin.

Academic Program

Successful completion of 20 credit hours of
military science courses while simultaneously
completing undergraduate or graduate degree
requirements qualifies a student to be commis-
sioned as a Second Lieutenant in the U.S. Army.
Required program courses are: AMS 101, AMS
102, AMS 211, AMS 212, AMS 301, AMS 302,
AMS 341, AMS 342, an approved military
history course, a computer science course, and
continuous enrollment (or participation) in KHP
and AMS 250 or 350 once contracted in the
ROTC program. Also, cadets attend a five-week
Leadership Development Assessment Course,
usually in the summer between the junior and
senior years.

An alternative two-year program is available
for students with at least two academic years
remaining until graduation and who have not
completed the AMS 100- and AMS 200-level
courses. This program is particularly suited to
community college students transferring to the
University, or students who did not participate
in the Basic Program during their freshman and
sophomore years. Students should contact the
Professor of Military Science about the five-
week summer Leadership Training Course con-
ducted each summer at Fort Knox, Kentucky.
Successful completion of the camp enables stu-
dents to take AMS 300-level courses and com-
plete the precommission program in two years.

In certain cases, veterans or students who have
completed Army basic training are also eligible
to complete the program in two years. Members of
the Army National Guard or U.S. Army Reserve
may also directly enroll in the Leadership Development Assessment Course and participate in the Simultaneous Membership Program (SMP).

The Basic Course: (100 and 200 level) are orientational and deal with the Army’s role in the U.S. government. American military history, small unit organizations/operations, military geography/map reading and some adventure training are also addressed. No military obligation is incurred by completion of the courses.

The Advanced Course: (300 level) focus on leadership, management, and command/staff responsibilities within military organizations. All upper division Army ROTC students receive $450+ per month tax-free subsistence pay during the academic year. During the summer, students receive about $700 while attending Camp.

Leadership Lab periods, held weekly during the academic year, and on one Saturday per semester, focus on adventure-type training (e.g., orienteering, rappelling, survival training, and basic marksmanship). These activities are offered, subject to availability of equipment and facilities, to provide an opportunity to develop leadership, organizational abilities, and confidence.

Professional development and enrichment opportunities are also available through ROTC-sponsored university organizations – the Pershing Rifles and Kentucky Rangers.

Army ROTC incorporates the dimension of leadership into the academic curriculum and provides training and experience that can be valuable in any profession.

For more information, contact the Professor of Military Science, ATTN: Admissions Officer, U.S. Army ROTC, 101 Barker Hall, University of Kentucky, Lexington, KY 40506-0028; or call (859) 257-6864. Visit the Web site at: www.uky.edu/armyrotc/.

MODERN AND CLASSICAL LANGUAGES, LITERATURES AND CULTURES

The Department of Modern and Classical Languages, Literatures and Cultures is comprised of the Divisions of Classics, French and Italian, German Studies, and Russian and Eastern Studies.

CLASSICS

The Division of Classics offers a Bachelor of Arts and a Bachelor of Science degree in Classics. The division teaches a broad range of courses in the languages, literature, history, art, and thought of the Greco-Roman world. The minimum requirements for graduation with departmental honors in Classics are an overall grade-point average of 3.55 and the completion of two 300 level courses in Greek or Latin with grades of B. Access the division’s Web site at: www.uky.edu/AS/Classics/ for more information.

---

Bachelor of Arts with a major in CLASSICS

120 hours (minimum)

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the major requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Arts degree on page 113.

UK Core Requirements

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

Premajor Requirements

CLA 101 and 102 Elementary Latin or equivalent

OR

CLA 151 and 152 Elementary Greek or equivalent .................. 8

Premajor hours: ................................................. 8

Major Requirements

Courses Within Classics

Complete study of Latin to at least the level of CLA 202 or Greek to at least the level of CLA 252 or the equivalent. Complete 18 hours in courses at the 200 level or above with a CLA prefix or cross-listed CLA. (CLA 201/202 and CLA 251/252 contribute to this total.)

Classics Courses hours: .................................... 18

Courses Outside of Classics

Complete 15 hours in courses appropriate to the field of study at the 200 level or above not prefixed CLA (courses cross-listed CLA also fulfill this requirement). A wide variety of courses are accepted; these are determined for each student in consultation with the Director of Undergraduate Studies.

Non-Classics Courses hours: ................. 15

Additional Courses (Electic)

Complete an additional 9 hours in courses at the 200 level or above either inside or outside Classics.

Additional Courses hours: ......................... 9

Upper Level Requirement

At least 15 hours in the major must be in courses at the 300 level or above with either a CLA prefix, or with specific Classics content as determined by the Director of Undergraduate Studies. Of the 42 required major hours, at least 24 hours must be in courses at the 300 level or above.

Major hours: .................................................. 42

Explanation of Major Requirements

At the discretion of the student’s advisor, other courses may be substituted for the courses listed as Courses Within Classics. These courses must be either CLA courses or non-CLA courses that deal with the classical world. The acceptable non-CLA courses are normally in the areas of history, philosophy and art history.

The Major requirements in Classics are fully satisfied if a student has:

1. Completed the Premajor Requirement.
2. Completed either CLA 202 (Intermediate Latin) or CLA 252 (Intermediate Greek).
3. Completed 15 hours in 300+ CLA and acceptable non-CLA courses.
4. Completed 15 hours in 200+ courses outside the field of Classics that appropriately complement the Classics courses.
5. Completed 9 additional hours in 200+ courses in the area of either Classics or complementary disciplines.
6. Accumulated 24 hours in 300+ courses among the courses used to satisfy items 3, 4, and 5 above.

Electives

Choose electives to lead to the minimum total of 120 hours required for graduation ............................................. 15

Total Minimum Hours Required for Degree ............. 120
Bachelor of Science with a major in
CLASSICS

120 hours (minimum)

Any student earning a Bachelor of Science (BS) degree must complete a minimum of 60 hours in natural, physical, mathematical, and computer science. Please note: courses with a CLA prefix are generally not accepted towards fulfilling this 60-hour requirement. Therefore, be sure to keep this requirement in mind as you choose your course work for the requirements in the major. See the complete description of College Requirements for a Bachelor of Science degree, including a specific listing of courses applicable to the 60-hour requirement, on pages 113-114.

Minor in Classics

The requirements for a classics minor are 18 credit hours, at least six of which must be at the 300 level or above, earned from among the following courses:
1. Greek and Latin courses at any level.
2. Non-language courses taught by the division that are equivalent.

College of Arts and Sciences

FRENCH

French and Francophone literature and culture have influenced in crucial ways the formation of European, American, African and Caribbean thought and society. The UK Bachelor of Arts and Bachelor of Science degrees in French situate students at the intersection of these cultures through exploration of their diverse literary, linguistic, social and philosophical traditions. The larger mission of this major is to prepare students to live and work in a global environment in which expert knowledge of other languages and cultures have become indispensable tools for success. For more information, visit the Division of French and Italian website: www.as.uky.edu/french.

Minor in German

The minor in German Studies consists of a minimum of 18 hours in German language, culture, and literature courses in addition to the proficiency level gained by completion of GER 202. This level may be documented either by completing the relevant sequence of courses or by placement exam.

Required courses include:
GER 206 Spoken Communication .................. 3
and
Course work at the 300 level or above, including GER 307/308 .......................... 15

RUSSIAN AND EASTERN STUDIES

The Division of Russian and Eastern Studies offers language courses in Arabic, Chinese, Hebrew, Japanese and Russian, as well as related literature and culture courses.

Russian and Eastern Studies

The Division of Russian and Eastern Studies offers an undergraduate major in Russian Studies. The program is designed to produce an integrated knowledge of Russian language, literature, culture, history, politics, and society. This interdisciplinary major provides the broadest possible base for further study of the former Soviet Union.

Bachelor of Arts with a major in RUSSIAN STUDIES

120 hours (minimum)

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the major requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Arts degree on page 113.

UK Core Requirements

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

Total Minimum Hours Required for Degree 120  
*Course used towards completion of a UK Core Requirement.

Minor in Russian  
The minor in Russian consists of a minimum of 18 hours beyond second-year proficiency in Russian language (RUS 202) distributed as follows:

1. 6 hours of Russian language courses at the 300 level or above

and  
2. 12 hours of additional course work in designated Russian area studies courses, of which at least 9 hours must be in RUS courses.

Note: RUS 395, Independent Work in Russian, may not be used for the minor.

Minor in Folklore and Mythology  
The minor in folklore and mythology requires a minimum of 18 hours (plus 6 preminor) to include the following:

1. Minor Prerequisites  
   CLA 100 Ancient Stories in Modern Films  
or  
   CLA 135 Greek and Roman Mythology  
   GER 103 Fairy Tales in European Context 3

2. Minor Requirements  
   CLA 331 Gender and Sexuality in Antiquity  
or  
   CLA 382 Greek and Roman Religion  
   GER 263 African and Caribbean Literature and Culture of French Expression in Translation (Subtitle required)  
   FR 263 African and Caribbean Literature and Culture (Subtitle required)  
   MCL 270 Introduction to Folklore and Mythology  
   RUS 370 Russian Folklore (in English) 3

3. Minor Electives  
   Three hours in elective courses in a variety of disciplines taken from a list provided by the advisor.

   Students in this minor must satisfy the current A&S Language Requirement, regardless of their college. The minor is not restricted to A&S majors.

PHILOSOPHY  
Philosophy encourages critical and systematic inquiry into fundamental questions of right and wrong, truth and falsehood, the meaning of life, and the nature of reality, knowledge, and society. More than any other discipline, philosophy explores the core issues of the Western intellectual tradition. With its emphasis on reason and argumentation, a philosophy major is an excellent preparation for a career in law or business.

Bachelor of Arts with a major in PHILOSOPHY  
120 hours (minimum)  
Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the major requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Arts degree on page 113.

UK Core Requirements  
See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

French or German is highly recommended to complete the College foreign language requirements. Greek is recommended if the student plans to concentrate on ancient philosophy. Latin is recommended if the student plans to concentrate on medieval philosophy.

Minor in Philosophy

The minor in philosophy requires a minimum of 18 hours of course work to include the following:

a. No more than two 100-level courses
b. At least one course in logic (PHI 120, PHI 320, or PHI 520)
c. At least one course in the history of philosophy (PHI 260, PHI 270, or any course from Group A of the undergraduate curriculum)
d. At least three courses (nine hours) at the 300 level or above, excluding PHI 320 and PHI 399.

PHYSICS AND ASTRONOMY

The Department of Physics and Astronomy helps many students acquire a general understanding and appreciation of physics and astronomy. In the liberal arts tradition, the undergraduate curriculum is complete and flexible enough to allow a graduate with a major in physics to pursue a variety of careers. Many of our graduates continue their studies with graduate work in physics or other areas.

For the student interested in combining the study of physics with studies in other areas, the department can assist in the planning of an individual curriculum which meets both the minimum requirements of the Physics program and the student’s needs and interests. Such planning is of particular value to students intending to pursue careers in engineering, computer science, applied physics, medicine, radiation medicine, biophysics, law, meteorology, oceanography, geophysics, environmental sciences, management, or the teaching of physics and/or physical science at the junior and senior high school levels. By working closely with an advisor, the student with special interests can take advantage of opportunities to take several other courses from one or more departments outside physics, or double major in physics and another area. For a description of suggested curricula, visit our Web site at: www.pa.uky.edu/undergrad/curricula.html.

Bachelor of Arts with a major in PHYSICS

120 hours (minimum)

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the major requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for the Bachelor of Arts degree on page 113.

Suggested Curriculum for B.A. in Physics
As you plan your physics studies, please note that upper division physics courses, PHY 3XX and all higher numbered courses, are offered once per year in the semester indicated on the suggested curricula. For example, PHY 306 and PHY 361 are offered in the spring semester only. This suggested curriculum minimally meets the requirements for the B.A. in Physics.

Bachelor of Science with a major in PHYSICS

120 hours (minimum)

Any student earning a Bachelor of Science (BS) degree must complete a minimum of 60 hours in natural, physical, mathematical, and computer science. See the complete description of College requirements for a Bachelor of Science degree, including a specific listing of courses applicable to the 60-hour requirement, on pages 113-114.

UK Core Requirements
See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

Astronomy Concentration
For students with an interest in astronomy, the Department offers the B.S. degree in physics with a concentration in astronomy. Among the major requirements, AST/PHY 591 Astrophysics I – Stars and AST/PHY 592, Astrophysics II – Galaxies and Interstellar Material are strongly recommended as courses within the area of concentration. AST 395, Independent Work in Astronomy, may be substituted for one of the laboratory courses of Requirement Three, subject to the work being done in astronomy and astrophysics. Students are encouraged, though not required, to enroll in AST 191, The Solar System, and AST 192, Stars, Galaxies and the Universe.

Polarization Science
The undergraduate program in Political Science allows students to pursue course work in four disciplinary fields:
• American Politics – study of the institutions, behavioral patterns, and public policies that define the American political system;
• Comparative Politics – study of the institutions, policies, and mass behaviors observed in political systems outside the United States, usually explored through comparison within or across regions of the world;
• International Relations – study of the international system as a whole, as well as of the actors (such as nation-states, corporations, and international organizations) who participate in shaping diplomatic, military, and economic outcomes within that system;
• Theory/Methodology – study of the values, concepts, and analytical methods that shape how people evaluate political life.
Degree recipients take introductory course work in each of these four areas, then pursue advanced studies in one or more of the fields as determined by their interests and/or career goals.

In addition to conveying information about politics and government—necessary background for pursuing graduate work in political science and related fields—Political Science courses at UK are designed to provide students with a broad liberal arts education. Graduates leave the program having cultivated their analytical abilities and having exercised their written and spoken communication skills. Such disciplinary training is particularly helpful in preparing students for careers such as law, policy analysis, governmental administration, diplomatic service, journalism, lobbying, and other sorts of political activity.

Currently the department offers two degrees: a Bachelor of Arts and a Bachelor of Science. Most majors choose to pursue the B.A. The primary difference is that B.A. students must complete a minimum of 39 hours at the 300+ level, a requirement that students can fulfilling courses already needed for the major. Earning the B.S. degree, on the other hand, requires completing a minimum of 60 hours in natural, physical, mathematical, and computer sciences. Little of that course work fulfills other degree requirements.

Bachelor of Arts with a major in POLITICAL SCIENCE

120 hours (minimum)

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the major requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Arts degree on page 113.

UK Core Requirements

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

   PS 240 Introduction to Political Theory
   or
   PS 372 Introduction to Political Analysis .................... 3

Premajor/Intro hours: ..................................... 12

Major/Core Requirements

After being introduced to each undergraduate field, Political Science majors must take an additional 39 hours of course work that combines both (1) courses within the discipline and (2) courses covering topics related to the discipline but offered by other programs. These 39 hours, of which 24 must be at the 300+ level, are divided as follows.

Disciplinary Courses

Students must take 15 additional credit hours of political science course work, of which at least 15 must be at the 300+ level. Note that PS 399 may not be counted toward this requirement. Eligible courses span all four undergraduate fields:

Field One – American Politics
   General American Politics Courses
   Courses on American Law and Courts

Field Two – Comparative Politics

Field Three – International Relations

Field Four – Theory/Methodology
   PS 240 or 372, 441G, 442G, 545, 572
   *Note: PS 391, 395, 490, and 492 also meet this disciplinary requirement, although the fields will vary depending on the topic.

Other Courses

Choose six hours of PS courses (including 1-6 hours of PS 399) or approved courses from outside political science (see list below)............................................................. 6

From Outside the Major Department

Choose 15 hours outside political science from the list below. You must take at least 6 hours from one department and 6 hours from another department. Special topics courses and other offerings related to the concentration may be substituted, subject to the approval of the Director of Undergraduate Studies ........................................ 15

Total Minimum Hours Required for Degree .............................. 120

*Course used towards completion of a UK Core Requirement

Minor in Political Science

The minor in political science requires a prerequisite course (PS 101) and 18 hours of course work at the 200 level or above to be distributed as follows:

1. Six hours of 200 level courses, three hours of which must be either PS 210, PS 212, or PS 235.
2. Four other courses, at least three of which must be at the 400 or 500 level.

PSYCHOLOGY

The undergraduate curriculum in psychology includes courses in the major content areas of psychology. The program provides course work emphasizing the fundamental concepts and techniques of this basic behavioral science. In addition to course work, the program provides for experience in conducting and analyzing laboratory and field research.

Bachelor of Arts with a major in PSYCHOLOGY

120 hours (minimum)

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the major requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the
major. See the complete description of College requirements for a Bachelor of Arts degree on page 113.

**UK Core Requirements**

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

From Outside the Major Department
- Choose 14 hours outside Psychology at the 300+ level. 200+ level courses used to satisfy College requirements can also be counted here ........................................ 14

**Other Major hours:** ........................................... 26

**Electives**

Choose electives to lead to the minimum total of 120 hours required for graduation .......................................... 5

**Total Minimum Hours Required for Degree** .................. 120

*Course used towards completion of a UK Core Requirement.

**This requirement is fulfilled for students who have completed a 3-credit introductory psychology course at an accredited college or university, or who have scored a 3 on the Advance Placement Psychology Test.

**Bachelor of Science with a major in PSYCHOLOGY**

**120 hours (minimum)**

Any student earning a Bachelor of Science (BS) degree must complete a minimum of 60 hours in natural, physical, mathematical, and computer science. Please note: with the exception of PSY 215, PSY 216, PSY 312, PSY 456, and PSY 565, courses with a PSY prefix are generally not accepted towards fulfilling this 60-hour requirement. Therefore, be sure to keep this requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Science degree, including a specific listing of courses applicable to the 60-hour requirement, on pages 113-114.

**UK Core Requirements**

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

I. **Intellectual Inquiry in Arts and Creativity**
   Choose one course from approved list ......................... 3

II. **Intellectual Inquiry in the Humanities**
   Choose one course from approved list ......................... 3

**Premajor Requirements**

*PSY 100 Introduction to Psychology .............................. 4
or
*PSY 11* ...................................................... 3

Minor in Psychology
The minor in psychology requires a minimum of 19-20 hours to include the following:

1. Prerequisite courses
PSY 100 Introduction to Psychology or equivalent .................................................. 3-4
PSY 215 Experimental Psychology ................................................................. 4

2. All of the following courses:
PSY 311 Learning and Cognition .................................................. 3
PSY 312 Brain and Behavior ................................................................. 3
PSY 313 Personality and Individual Differences .................................. 3
PSY 314 Social Psychology and Cultural Processes .......................... 3

B.A. or B.S. with a major in
RUSSIAN STUDIES

The requirements for the B.A. and B.S. with a major in Russian Studies are listed under in this A&S section under Modern and Classical Languages, Literatures and Cultures.

SOCIOLGY

Sociology emphasizes the study of human behavior and basic social processes. The discipline provides excellent preparation for careers in a variety of occupations and professions including planning and community development, law, public relations and advertising, personnel administration, private business and government administration, health and human services, family relations, criminal justice fields, and others.

Students may major or minor in sociology. The department offers a Bachelor of Arts and a Bachelor of Science through the College of Arts and Sciences. Students may also complete a second major or minor in sociology even though they are enrolled in other colleges. In addition, students seeking certification in social studies education at the secondary level through the College of Education may also emphasize sociology in their programs.

Courses offered by the department cover a wide range of topics and issues. Areas such as social inequalities, work, organizations, economy, globalization, family, community, environment, crime, law and deviance comprise a large part of the curriculum. Students may also pursue special readings courses and experiential education placements or internships through the department.

Bachelor of Arts with a major in
SOCIOLOGY

120 hours (minimum)
Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the major requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Arts degree on page 113.

UK Core Requirements
See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

I. Intellectual Inquiry in Arts and Creativity

Major in Statistics

The minor in statistics is aimed specifically at social and life science students, as well as students in the traditional mathematical sciences. A minimum of 17 hours of course work is required to complete the minor, as follows:

### Track 1

- STA 291 Statistical Methods ........................................ 3
- STA 295 The Art and Practice of Probability .................. 3
- STA 322 Statistical Methods in Nonparametric Inference and Survey Sampling ........................................ 4
- STA 422G Basic Statistical Theory II ............................ 4

### Track 2

- STA 320 Introductory Probability ................................ 3
- STA 321 Basic Statistical Theory I ................................. 3
- STA 322 Statistical Methods in Nonparametric Inference and Survey Sampling ........................................ 4
- STA 422G Basic Statistical Theory II ............................ 4

plus one relevant course from the student’s area (3 credit hours) to be approved by the Department of Statistics.

**INTERDISCIPLINARY MINORS**

### African American Studies

The minor in African American Studies provides students with an opportunity to examine the contributions of established academic disciplines towards the understanding of African peoples, particularly those peoples in the New World. It also provides a framework for research and analysis of issues which focus on African American experiences in artistic, literary, historical, and sociopolitical environments. The minor requires 21 hours of study as follows:

1. AAS 200 Introduction to African-American Studies
2. AAS 400 Special Topics in African-American Studies
3. AAS 401 Independent Reading and Research in African-American Studies
4. A at least six hours of course work in the humanities (as approved by the African American Studies Committee).

### American Studies

American studies draws together diverse disciplines to examine the historical and contemporary forms and issues of our national life. The program in American Studies takes as its field of study any peoples, cultural expressions and social institutions, however or whenever identified as “American.” Program curricula link faculty, courses, and students across a range of humanities, arts, and social science departments.

The minor centers on two interdisciplinary seminars on selected topics in American studies. Students electing the minor are also encouraged to take a range of elective courses to complement their major. The minor in American Studies prepares students for further graduate or professional training, or for work in education, government, or business.

The minor requires 18 hours of study as follows:

1. AC 301 Topics in American Culture
2. AC 401 Perspectives in American Culture
3. Four additional courses (12 hours) from the following list of approved courses. No more than two courses (or six hours) may be taken in any one discipline:

   - Art History: A-H 342
   - Anthropology: ANT 221, ANT 342, ANT 470G, ANT 527, ANT 534
   - English: ENG 310, ENG 480G
   - Geography: GEO 320, GEO 321, GEO 322, GEO 490G
   - History: HIS 260, HIS 261, HIS 265, HIS 350, HIS 351, HIS 460, HIS 461, HIS 463, HIS 464, HIS 465, HIS 466, HIS 467, HIS 572, HIS 573, HIS 574, HIS 575, HIS 576, HIS 577, HIS 578, HIS 579, HIS 580, HIS 581, HIS 582, HIS 584, HIS 585, HIS 586, HIS 596
   - Linguistics: LIN 317
   - Music: MUS 206, MUS 222, MUS 300, MUS 301, MUS 506
   - Philosophy: PH 514
   - Sociology: SOC 340, SOC 534

For further information, contact Associate Professor Joanne Melish, 1727 Patterson Office Tower, (859) 257-1014.

### Appalachian Studies

This minor offers the student with serious interests in Appalachian regional studies an opportunity to pursue a minor concentration to complement a major in one of the university’s professional or liberal arts programs. This interdisciplinary program enables students to comprehend more fully the history, social structure, and culture of the region – its people, its problems, and its future.

The minor in Appalachian Studies requires 18 hours of course work to include the following:

1. APP 200 Introduction to Appalachian Studies
2. Choose fifteen hours of Appalachian Studies courses. These courses must be chosen from the list below, or approved by the Director of Appalachian Studies:

   - STATISTICS

The Department of Statistics at the University of Kentucky is concerned with three essential functions: teaching, research, and consulting in statistics.

The department does not offer an undergraduate degree, but students may elect to include statistics as part of a topical major or to minor in statistics. The program in mathematical sciences also includes several statistics courses. The Master of Science and the Doctor of Philosophy degrees are offered.

Research is being actively pursued in statistical theory and methods, both parametric and nonparametric, linear models, inference, stochastic processes, applied probability, and biostatistics.

Consultation on statistical analysis and interpretation of data is provided to research workers on and off the campus. Particular attention is paid to the consulting needs of graduate students.

**Minor Requirements**

- Students complete an additional 15 hours in sociology, at least 3 of which must be at the 400 level or above and must include one of the following six-hour blocks:
  - SOC 302 (or PSY 215) and SOC 303 (or PSY 216)
  - SOC 304 and SOC 305
  - SOC 302 (or PSY 215) and SOC 304

**Total Minimum Hours: 6**

### STATISTICS

The Department of Statistics at the University of Kentucky is concerned with three essential functions: teaching, research, and consulting in statistics.

The department does not offer an undergraduate degree, but students may elect to include statistics as part of a topical major or to minor in statistics. The program in mathematical sciences also includes several statistics courses. The Master of Science and the Doctor of Philosophy degrees are offered.

Research is being actively pursued in statistical theory and methods, both parametric and nonparametric, linear models, inference, stochastic processes, applied probability, and biostatistics.

Consultation on statistical analysis and interpretation of data is provided to research workers on and off the campus. Particular attention is paid to the consulting needs of graduate students.
Environmental Studies

Environmental considerations permeate almost every facet of modern life, and concern for “the environment” is practically universal as we approach the twenty-first century. The minor in Environmental Studies is designed to provide students with the opportunity to become conversant in a range of environmental topics, whether as private citizens in their daily lives or as professional members of corporate, government, legal, medical, and educational circles.

The minor draws on topics and perspectives from the natural and physical sciences, the social sciences, and the humanities to underscore the interdisciplinary nature of environmental issues and problems. Students taking the minor are encouraged to integrate the program with their major study focus in order to gain a competitive advantage in grappling with environmental topics.

The minor in Environmental Studies requires 18 hours of course work including the following:

1. ENS 200 Introduction to Environmental Studies

2. Six hours chosen from the following list of sociocultural perspectives:
   - ANT 375 Ecology and Social Practice
   - GEO 235 Environmental Management and Policy
   - GEO 550 Sustainable Resource Development and Environmental Management
   - PS 391 Special Topics in Political Science
   - SOC 343 Political Sociology (Subtitle required)
   - SOC 534 Sociology of Appalachia
   - SOC 735 Topical Seminar in Social Inequalities

3. Six hours chosen from the following list of science and technology perspectives:
   - FOR 205 Forest and Wildland Soils and Landscapes
   - FOR 340 Forest Ecology
   - FOR 350 Silviculture
   - GEO 230 Weather and Climate
   - GLY 341 Landforms
   - GLY 385 Hydrogeology
   - BIO 325 Ecology
   - BIO 300 Special Topics (Subtitle required)
   - ENS 395 Independent Work

4. ENS 400 Senior Seminar (Subtitle required)

*For other acceptable courses, consult the Director of the Environmental Studies Program.

At least six of the twelve elective hours must be at the 300-level or above.

Elective courses must be drawn from outside the student’s major.

Alternative elective courses may be approved by the Environmental Studies Program Director.

For further information, contact Professor Ernest J. Yanarella, 1659 Patterson Office Tower, (859) 257-2989, e-mail: ejyana@email.uky.edu.

Indian Culture

This minor is designed to allow students to develop a more profound understanding of Indian culture. The curriculum is strongly interdisciplinary, encompassing courses in linguistics, anthropology, English, geography, mathematics, philosophy, political science, and sociology. Students completing the minor will possess: (1) an ability to read Sanskrit (vital for comprehending Indian culture); (2) a well-rounded, multidisciplinary understanding of the culture and geography of India and of contemporary Indian society and politics; and (3) a high degree of preparedness to pursue careers in business or teaching that require knowledge of Indian society and its traditions.

The minor in Indian Culture requires 18 hours of course work, as follows:

1. CGS 500 Cognitive Science in Theory and Practice

2. Fifteen credits from among the following:
   - *ANT 332 Human Evolution
   - BIO 375 Behavioral Ecology and Sociobiology
   - BIO 535 Comparative Neurobiology and Behavior
   - BIO 550 Comparative Physiology
   - BIO 556 Communication Biology
   - COM 350 Language and Communication
   - CS 373 Logic and Theory of Computing (may not be combined with PHI 520)
   - CS 463G Introduction to Artificial Intelligence
   - *CS 521 Computational Sciences
   - CS 536 Situated Computing
   - CS 575 Models of Computation (may not be combined with PHI 520)
   - LIN 210 History of the English Language
   - LIN 211 Introduction to Linguistics I
   - LIN 212 Introduction to Linguistics II
   - LIN 319 Historical Linguistics
   - LIN 509 Semantics and Pragmatics
   - LIN 512 Analysis of English Syntax
   - *LIN 513 Teaching English as a Second Language
   - LIN 515 Phonological Analysis
   - LIN 516 Grammatical Typology
   - LIN 517 Special Topics in Linguistics (Subtitle required)
   - PHI 320 Symbolic Logic I
   - PHI 361 Biology and Society
   - PHI 520 Symbolic Logic II (may not be combined with CS 375, 575, or 675)
   - PHI 560 Philosophy of Scientific Method
   - PHI 565 Philosophy of Language
   - PHI 575 Philosophy of Mind
   - *PSY 223 Developmental Psychology
   - PSY 311 Learning and Cognition
   - PSY 312 Brain and Behavior
   - PSY 427 Cognitive Processes
   - PSY 456 Behavioral Neuroscience
   - PSY 552 Animal Behavior
   - PSY 562 Advanced Topics in Cognitive Psychology (Subtitle required)
   - PSY 564 Advanced Topics in Learning (Subtitle required)
   - PSY 565 Advanced Topics in Neuroscience (Subtitle required)
   - *PSY 566 Advanced Topics in Social Psychology (Subtitle required)
   - SOC 343 Political Sociology (Subtitle required)
   - SOC 534 Sociology of Appalachia
   - SOC 735 Topical Seminar in Social Inequalities (if appropriate)
   - BIO 325 Ecology
   - ENS 300 Special Topics (Subtitle required)
   - ENS 395 Independent Work

*Only by approval of the Director of Cognitive Science.

For more information, visit the Cognitive Science Web site at: [http://web.as.uky.edu/cogsci/](http://web.as.uky.edu/cogsci/); or contact Professor David Westneat, 101 Morgan Biological Sciences Building, Department of Biology, (859) 323-9499, biodfw@uky.edu.

Environmental Studies

Environmental considerations permeate almost every facet of modern life, and concern for “the environment” is practically universal as we approach the twenty-first century. The minor in Environmental Studies is designed to provide students with the opportunity to become conversant in a range of environmental topics, whether as private citizens in their daily lives or as professional members of corporate, government, legal, medical, and educational circles.

The minor draws on topics and perspectives from the natural and physical sciences, the social sciences, and the humanities to underscore the interdisciplinary nature of environmental issues and problems. Students taking the minor are encouraged to integrate the program with their major study focus in order to gain a competitive advantage in grappling with environmental topics.

The minor in Environmental Studies requires 18 hours of course work including the following:

1. ENS 200 Introduction to Environmental Studies

2. Six hours chosen from the following list of sociocultural perspectives:
   - ANT 375 Ecology and Social Practice

Indian Culture

This minor is designed to allow students to develop a more profound understanding of Indian culture. The curriculum is strongly interdisciplinary, encompassing courses in linguistics, anthropology, English, geography, mathematics, philosophy, political science, and sociology. Students completing the minor will possess: (1) an ability to read Sanskrit (vital for comprehending Indian culture); (2) a well-rounded, multidisciplinary understanding of the culture and geography of India and of contemporary Indian society and politics; and (3) a high degree of preparedness to pursue careers in business or teaching that require knowledge of Indian society and its traditions.

The minor in Indian Culture requires 18 hours of course work, as follows:
College of Arts and Sciences

1. Sanskrit Language Courses (6 hours)
   - LIN 520 Sanskrit I .................................................. 3
   - LIN 521 Sanskrit II .................................................. 3

2. Twelve hours of courses on India from anthropology, English, geography, linguistics, mathematics, philosophy, political science, sociology, and independent studies in India. Students choose from the following courses:
   - ANT 327 Culture and Societies of India ......................... 3
   - GEO 330 Geography of the Indian Subcontinent ............. 3
   - GEO 365 Special Topics in Regional Geography (Subtitle required) .................................................. 3
   - GEO 565 Topics in Geography ........................................ 3
   - LIN 395 Independent Work ......................................... 3
   - MA 330 History of Mathematics ................................... 3
   - PHI 343 Asian Philosophy ........................................... 3
   - PS 420G Governments and Politics of South Asia ............. 3
   - SOC 380 Globalization: A Cross-Cultural Perspective ..... 3

   Students in the Indian Culture minor program will be encouraged to participate in a study program in India in the course of their undergraduate education.

   For further information, contact Professor Suleiman Darrat, 1073 Patterson Office Tower, (859) 257-7037; e-mail: s.darrat@uky.edu.

Islamic Studies

The interdisciplinary minor in Islamic Studies provides the opportunity to study the culture, language, literature, religion, history and philosophy of Muslims peoples throughout the world from antiquity to the present. Students will acquire a rounded understanding of Islamic culture, the ability to interpret information and news from the Middle East and elsewhere in an independent way, with understanding of the issues from the perspective of the Muslim countries, and will be prepared to pursue careers that require a knowledge of Islamic civilization.

1. Minor Requirements (6 hours)
   - AIS 328 Islamic Civilization I ..................................... 3
   - AIS 330 Islamic Civilization II ..................................... 3

2. Minor Electives (12 hours)
   - AIS 101 Elementary Modern Standard Arabic .................. 4
   - AIS 102 Elementary Modern Arabic ................................ 4
   - AIS 201 Intermediate Modern Standard Arabic ................. 3
   - AIS 202 Intermediate Modern Standard Arabic ................ 3
   - HIS 247 History of Islam and Middle East Peoples, 500-1250, A.D. ................................................................. 3
   - HIS 248 History of Islam and Middle East Peoples, 1250 to the Present .............................................................. 3
   - AIS 301 Colloquial Arabic I ........................................... 3
   - AIS 302 Colloquial Arabic II .......................................... 3
   - AIS 331 Classical Arabic Literature (in English) ............. 3
   - AIS 338 Women and Islam ............................................. 3
   - AIS 340 Fundamentalism and Reform in Islam .................. 3
   - AIS 395 Independent Work in Arabic/Islamic Studies .......... 1-3
   - AIS 440 Introduction to the Quran .................................. 3
   - AIS 442 Arabic Reading I ............................................. 3
   - AIS 443 Arabic Reading II ............................................. 3
   - AIS 435 Topics in Islamic Studies: (Subtitle required) ....... 3

   For further information, contact Professor Masamichi Inoue, Director, Japan Studies Program, (859) 257-7024 or (859) 257-3761; e-mail: m.sinoue@uky.edu.

Jewish Studies

The interdisciplinary minor in Jewish Studies provides students with the opportunity to become acquainted with the culture, language, literature, religion, history, and philosophy of the Jewish people from antiquity to the present. The minor in Jewish Studies requires 18 hours of coursework as follows:

1. Required Courses
   - HIS 324 Jewish Thought and Culture I: From Ancient Israel to the Middle Ages .................................................. 3
   - HIS 325 Jewish Thought and Culture II: From the Expulsion from Spain to the Present ........................................... 3

2. Elective Courses
   - HIS 101 Elementary Hebrew ......................................... 4
   - HIS 102 Elementary Hebrew ......................................... 4
   - HIS 201 Intermediate Hebrew ....................................... 3
   - HIS 202 Intermediate Hebrew ....................................... 3
   - HIS 236 The Jewish Experience in America ...................... 3
   - HIS 327 Women in Judaism ........................................... 3
   - HIS 495 Independent Study in Judaic Studies ................... 3
   - PHI 504 Islamic and Jewish Philosophy and the Classical Tradition ................................................................. 3
   - CLA 390 Backgrounds to and Early History of Christianity to 150 CE ................................................................. 3
   - HIS 330 A History of Western Religious Thought (I) ........... 3
   - HIS 332 The Holocaust .................................................. 3
   - ENG 270 The Old Testament as Literature ......................... 3
   - HIS 425 Topics in Judaic Studies (Subtitle required) ........... 3
   - And other courses with significant Judaic studies content, as approved by the Director, to a maximum of six credit hours.

   For further information, contact Professor Jeremy D. Popkin, Director of Jewish Studies Program, 1725 Patterson Office Tower, (859) 257-1415; or e-mail: popkin@uky.edu.

Latin American Studies

The minor in Latin American Studies provides instruction and broad exposure to the society and culture of Latin America. The minor requires a minimum of 18 credit hours to be distributed as follows:

Preminor Requirements

1. LAS 201 Introduction to Latin America ......................... 3
2. plus one of the following courses:
   - HIS 206 History of Colonial Latin America, 1492 to 1810 ............... 3
   - HIS 207 History of Modern Latin America, 1810 to Present .......... 3

Minor Requirements

A minimum of 12 credit hours distributed evenly over the following four subject areas:

1. Language Skills (three hours beyond second-year Spanish)
2. Prehistory and History (three hours)
3. Contemporary Latin American Societies (three hours)
4. Literature and the Arts of the Americas (three hours)
The College of Business and Economics was established at the University of Kentucky in 1925 as the College of Commerce. The name was changed to College of Business and Economics in 1966. The name was changed again in 1996 to the Gatton College of Business and Economics.

The objective of the instructional programs in the Gatton College of Business and Economics is to prepare the student for a lifelong career in business, government, or research and teaching. The programs are structured to provide each student an opportunity to acquire a background in the basic areas of the arts and sciences, to obtain a broad knowledge of business and economics, and to study in depth one or more fields of special interest.

Accreditation

The Gatton College of Business and Economics is a member of the AACSB – the Association to Advance Collegiate Schools of Business, which accredits undergraduate programs in accounting, business administration, and economics as well as master’s programs in accounting and business administration. The programs of the college enjoy the Association’s full accreditation.

Undergraduate Programs in Business and Economics

The University of Kentucky grants the following degrees in the Gatton College of Business and Economics:

- Bachelor of Business Administration
- Bachelor of Science in Accounting
- Bachelor of Science in Business and Economics

Students pursuing the Bachelor of Business Administration may select from these majors: Analytics, Finance, Management, and Marketing.

ADMISSION POLICY

Admission to the University is sufficient for lower-division admission to the Gatton College of Business and Economics for students with less than a junior standing. However, lower-division admission to the college or any admission to the University does not guarantee upper-division admission to one of the degree programs in the Gatton College of Business and Economics. In general, admission depends upon the qualifications and preparation of the applicants, as well as the availability of the resources for maintaining quality instruction.

Upper-division admission into a degree program is necessary in order to be granted a baccalaureate degree from the Gatton College of Business and Economics. Students who have attained a 3.0 or higher cumulative grade-point average overall and in the premajor component required of all students in the Gatton College of Business and Economics and have completed 60 semester hours of college-level credit will be assured admission.

Annually the Gatton College of Business and Economics will review the admission requirements and determine the cumulative grade-point average (Annual Admission GPA), if any, that would be acceptable below the 3.0 standard. The Annual Admission GPA (both overall and in the premajor component) will be no lower than 2.5 (see “Appeal Process” below for special circumstances). This GPA will be made available in the Undergraduate Resource Center of the Gatton College of Business and Economics by October 15 of each year. This GPA will be effective the following May 1 for any student applying for upper-division admission to the Gatton College of Business and Economics, regardless of the time of his/her enrollment in the University.

To be considered for upper-division admission to any of the undergraduate degree programs offered by the Gatton College of Business and Economics, an applicant must fulfill the following requirements:

1. Enrollment in the University of Kentucky. (Students are considered for acceptance by the college only after acceptance by the University of Kentucky.);
2. Completion of 60 semester hours with a minimum cumulative grade-point average of 3.0 or the current Annual Admission GPA, whichever is lower;
3. Completion of the premajor component required of all students within the Gatton College of Business and Economics with a minimum grade-point average of 3.0 or the minimum current Annual Admission GPA, whichever is lower. In addition, students must complete the Microsoft Office Certification requirements. B&E 102, B&E 103, and B&E 104 are fulfilled upon passing the Microsoft Certified Application Specialist Exams in Word, PowerPoint, and Excel. For more information about testing at the Gatton College, visit: http://gatton.uky.edu/Undergraduates/ (The courses meeting the premajor requirements are listed under “Graduation Requirements” below);
4. Submission of an application form to the Gatton College of Business and Economics. The application is available on the Web at: http://gatton.uky.edu/Undergraduates/.

Applications from students outside the University of Kentucky seeking admission to the Gatton College of Business and Economics, whether for upper-division or lower-division status, must be received by the University Admissions Office no later than April 15 (first summer session); May 15 (second summer session); August 1 (fall semester); and December 1 (spring semester).

Students enrolled in other UK colleges on campus should apply for admission prior to the priority registration period. (The appropriate deadlines are listed in the University calendar for approved times to change major).

Lower-division students enrolled in the Gatton College of Business and Economics should apply for upper-division admission to the college during the semester they are completing the premajor course work. The application for upper-division admission should be made before the priority registration period for the upcoming semester.

Lower-division students in the college who are missing no more than two premajor courses will be permitted to complete these courses simultaneously with enrollment in restricted course work if they are otherwise eligible. Eligibility is determined by attainment of junior standing and the minimum cumulative and premajor grade-point standings. This privilege will be granted for one semester only.

Students not admitted to an upper-division program in the Gatton College of Business and Economics should be aware that others may be
given preference for enrollment in the restricted upper-division courses offered by the Gatton College of Business and Economics.

Enrollment in restricted Business and Economics courses numbered 300 or above will be limited to:

1. Upper-division Business and Economics students;
2. Lower-division Business and Economics students who are missing no more than two premajor courses and are otherwise eligible for upper-division status. (This privilege will be granted for one semester only);
3. Non-Business and Economics students who are registered for specific programs requiring Business and Economics courses;
4. Other students or categories of students with specific permission of the department offering the course.

In the event of capacity limitations, enrollment preference would be made in the above order.

An applicant from a non-English speaking country is required to take the Test of English as a Foreign Language (TOEFL) and must have a minimum score of 550 in order to be considered for admission. (An equivalent score from another English proficiency test similar to TOEFL may be allowed upon request.)

Appeal Process

Students with a GPA below the Annual Admission GPA and who have completed all premajor requirements may appeal for admission into the Gatton College of Business and Economics. If the Appeals Committee feels that there is persuasive evidence that personal, academic or professional circumstances have affected a student’s grades and that the student shows promise for successful completion of a degree in the Gatton College of Business and Economics, acceptance may be granted. Materials and information necessary for the appeals process are available in the Undergraduate Resource Center. The deadline for the submission of the appeals is generally 45 days prior to the beginning of the semester; however, appeals materials are not accepted for the first summer session.

Dean’s List

Students who have a term grade-point average of 3.6 or greater will appear on the Dean’s List.

Probation and Academic Suspension

The following rules apply to students in the Gatton College of Business and Economics.

1. No student with a cumulative GPA of less than 2.0 will be enrolled in the Gatton College of Business and Economics. Any student who fails to maintain a cumulative GPA of 2.0 will be suspended from the Gatton College of Business and Economics and will not be readmitted until this GPA is 2.0 or greater. No probationary notice will be given.
2. Any student enrolled in the Gatton College of Business and Economics who achieves a GPA of less than 2.0 in any semester will be placed on probation.
3. Any student on probation who fails to achieve a 2.0 semester GPA will be dropped from the Gatton College of Business and Economics and will not be readmitted until he or she has obtained a semester GPA of 2.0 or greater for one semester and the student’s cumulative GPA is 2.0 or greater.
4. Students who are suspended twice from the Gatton College of Business and Economics will not be readmitted.

Scholarships

The Gatton College of Business and Economics awards scholarships at the freshman and upper-division levels. A small number of scholarships are available to freshmen based upon merit. Most upper-division scholarships require application in the spring. The application is available at: http://gatton.uky.edu/Undergraduates.

DIVISIONS

VON ALLMEN SCHOOL OF ACCOUNTANCY

The faculty in the Von Allmen School of Accountancy is committed to providing the best possible educational experience for students. The faculty has both breadth and depth of training and experience in public accounting, industry, government and regulated industries, and previous classroom experience.

DEPARTMENT OF ECONOMICS

The Department of Economics provides theoretical and applied courses in widely diverse areas including urban problems, labor, monetary economics, international economics, comparative economic systems, and economic history.

SCHOOL OF MANAGEMENT

Analytics

This degree program focuses on Business Analytics, which involves an organization’s integrated use of technological and quantitative methods to process data and gain insights in the course of making decisions. The objective of Business Analytics is to help an organization reach decisions leading to actions that yield strong performance and sustained competitiveness in the context of today’s turbulent, fast-paced, global business environment. The major covers application areas such as information systems, operations, and supply chain management.

Finance

The Area of Finance offers a variety of courses, both to students who concentrate their studies in finance and to those who desire additional knowledge in various financial areas. Such areas include financial management, security analysis and portfolio management, capital market theory, banking and institutions, and real estate.

Management

The faculty in the Area of Management brings extensive academic and practical experience to the classroom. Course offerings cover an array of management areas such as human resources, organizational behavior, and strategic management policy.

Marketing

The faculty in the Area of Marketing has extensive experience in industry and government and includes individuals with interests and training in all areas of marketing. Aspects of marketing such as research, retailing, promotion, personal selling and strategy are covered in marketing course work.

GRADUATION REQUIREMENTS

All students in the Gatton College of Business and Economics must fulfill the UK Core requirements as outlined in the UK Core section of this Bulletin, the premajor requirements, the College core requirements, and major requirements. Additionally, students must fulfill the College requirements listed below.

College Requirements

To graduate from the Gatton College of Business and Economics, a student must have a total of 120 credit hours (exclusive of lower division military science courses, physical education service courses, and performance-type courses) with a 2.0 grade-point standing. Students are required to earn at least 50 percent of their business credit hours required for the business degree at the University of Kentucky. A minimum GPA of 2.00 is required in all courses taken at the University of Kentucky used to satisfy the College core. Additionally, a minimum GPA of 2.00 is required in all courses taken at the University of Kentucky used to satisfy upper division departmental requirements.

Students must complete WRD 203, Business Writing; WRD 203 may also fulfill the Graduation Writing Requirement.

Each student’s undergraduate curriculum must include at least 60 earned credit hours of courses outside the Gatton College of Business and Economics. Up to nine semester hours of economics and up to six semester hours of statistics
may be counted toward the number of earned credit hours outside the Gatton College of Business and Economics.

**UK Core Requirements**

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

1. Intellectual Inquiry in Arts and Creativity
   Choose one course from approved list ............................. 3

2. Intellectual Inquiry in the Humanities
   Choose one course from approved list ............................. 3

3. Intellectual Inquiry in the Social Sciences
   Choose one course from approved list ............................. 3

4. Intellectual Inquiry in the Natural, Physical, and Mathematical Sciences
   Choose one course from approved list ............................. 3

5. Composition and Communication I
   CIS/WRD 110 Composition and Communication I ...... 3

6. Composition and Communication II
   CIS/WRD 111 Composition and Communication II ...... 3

7. Quantitative Foundations
   MA 123 Elementary Calculus and its Applications or MA 113 Calculus I .............................................. 3-4

8. Statistical Inferential Reasoning
   Recommended:
   STA 210 Making Sense of Uncertainty:
   An Introduction to Statistical Reasoning ............ 3

IX. Community, Culture and Citizenship in the USA

Choose one course from approved list ............................. 3

X. Global Dynamics

Choose one course from approved list ............................. 3

**Subtotal: UK Core Hours .......... 30-31**

**Premajor Requirements**

Students must complete 25-27 credit hours taken from the following courses:

- *CIS/WRD 110 Composition and Communication I* ............................. 3
- *CIS/WRD 111 Composition and Communication II* ............................. 3
- *ACC 201 Financial Accounting I* ......................................... 3
- *ACC 202 Managerial Uses of Accounting Information* ............................. 3
- *ECO 201 Principles of Economics I* ......................................... 3
- *ECO 202 Principles of Economics II* ......................................... 3
- *STA 291 Statistical Methods* ............................................... 3
- *MA 123 Elementary Calculus and Its Applications* ............................. 6
- or
- *MA 113 Calculus I* .............................................................. 4
- *B&E 102 Microsoft Office Specialist – Word* ............................. 0
- *B&E 103 Microsoft Office Specialist – PowerPoint* ............................. 0
- *B&E 104 Microsoft Office Specialist – Excel* ............................. 0

**Subtotal: Premajor Hours .......... 25-27**

* ***CIS/WRD 110, CIS/WRD 111, and MA 123 may also be used toward partial fulfillment of UK Core requirements.***

**Policy on Experiential Education**

Gatton College of Business and Economics’ faculty work with the James W. Stuckert Career Center to provide students with the opportunity to intern in a business-related field. The College allows a student to apply toward graduation up to six credit hours (pass/fail option only) of EXP 396/internship credit earned at the University of Kentucky. The maximum credit hours each semester that can be applied toward graduation for EXP 396/internship credit is three. Credits earned for other internship courses throughout the University are included in the three hours per semester and the six hour maximum for graduation credit. For further information, visit: [www.uky.edu/CareerCenter/](http://www.uky.edu/CareerCenter/).

---

**Advising**

The Undergraduate Resource Center (235 Gatton College of Business and Economics Building) coordinates the academic advising of business students. The staff of the Undergraduate Resource Center can assist with general information, admission decisions, and the applicability of credit toward degree requirements.

### MINORS

**NOTE:** In addition to completing the minor requirements, students must complete at least six hours in each minor with courses that are not counted for any other academic program in the College.

#### Minor Residency Requirement

At least half of all upper division classes used to complete each minor must be earned from the Gatton College.

### Minor in Economics

- ECO 201 Principles of Economics I | 3
- ECO 202 Principles of Economics II | 3
- ECO 401 Intermediate Microeconomic Theory | 3
- ECO 402 Intermediate Macroeconomic Theory | 3
- Three additional economics courses at the 300-level or above | 9

Students must take at least six hours of upper-division classes from the Gatton College (50 percent of the upper-division requirement for a minor).

#### Minor in Business

**NOTE:** This minor is not available to students pursuing a major in the Gatton College of Business and Economics. Students should note that some courses in the minor have CS 101 as a prerequisite. Further, MA 113 (or MA 123) is a prerequisite for STA 291, a preminor requirement. STA 291 is a prerequisite for FIN 300, a minor requirement. Students who choose AN 300 must complete MA 113 or MA 123/162.

Students wishing to complete a minor in Business must complete the following:

#### Preminor Requirements

- ACC 201 Financial Accounting I | 3
- ACC 202 Managerial Uses of Accounting Information | 3
- ECO 201 Principles of Economics I | 3
- ECO 202 Principles of Economics II | 3
- STA 291 Statistical Methods | 3

Students must complete the preminor requirements prior to taking any course in the minor requirements.

Students must take at least six hours of upper-division classes from the Gatton College (50 percent of the upper-division requirement for a minor).

#### Minor Requirements

- AN 320 Business Computing Systems or AN 300 Analyzing Business Operations | 3
- FIN 300 Corporation Finance | 3
- MGT 301 Business Management | 3
- MGT 300 Marketing Management | 3

### Minor in International Business

To earn the minor in International Business, complete the following:

#### Prerequisite

- Complete the College premajor with a grade-point standing meeting the Annual Admission GPA, plus
- FIN 300 Corporation Finance | 3
- FIN 300 Marketing Management | 3

#### Course Component

Complete 15 hours of course work, including:

- MGT 309 Introduction to International Business | 3
- *AEC/ECO 471 International Trade* | 3
- FIN 423 International Finance | 3
- MGT 435 International Marketing | 3

*ECO 401 is a prerequisite for AEC/ECO 471.*

Students must take at least nine hours of upper-division classes from the Gatton College (50 percent of the upper-division requirement for a minor).

### GRADUATE PROGRAMS

The Gatton College of Business and Economics offers the following graduate degrees through the Graduate School at UK: (1) Master of Science in Accounting, (2) Master of Business Administration, (3) Ph. D. in Business Administration, (4) Master of Science in Economics, and (5) Ph.D. in Economics. Additional information may be obtained from the Associate Dean for Faculty, Research, and Administration, Gatton College of Business and Economics, and from *The Graduate School Bulletin*.
The College of Communications and Information Studies consists of the Department of Communication, the School of Journalism and Telecommunications, and the School of Library and Information Science. The Department of Communication educates its students in interpersonal, small group, mass, health and organizational communication, and communication theory and research. Graduates pursue a variety of career paths in areas such as corporate communication, health communication, personnel, education, media, and government. The journalism area within the School of Journalism and Telecommunications educates its students for professional careers in the media as writers, editors, and broadcasters. The integrated strategic communication area within the School prepares students for careers as professionals in the allied areas of advertising, public relations, and direct response communication. The media arts and studies area within the School of Journalism and Telecommunications educates its students in telecommunications technology, management, programming, research, audio-video production, and the societal consequences of electronic media. The School of Library and Information Science provides students with the basic knowledge and skills required to function effectively in beginning professional positions in various types of libraries and information-providing agencies.

Accreditation

Majors in the School of Journalism and Telecommunications have national accreditation from the Accrediting Council on Education in Journalism and Mass Communications (ACEJMC).

Undergraduate Programs in Communications and Information Studies

The University of Kentucky grants the following degrees in the College of Communications and Information Studies:

- Bachelor of Arts
- Bachelor of Science

Students pursuing either the Bachelor of Arts or the Bachelor of Science select from these majors: communication, integrated strategic communication, journalism, and media arts and studies. Students may also select a minor in communication and a minor in media arts and studies. Students may not double-major within the School of Journalism and Telecommunications; students majoring in integrated strategic communication or journalism may not minor in media arts and studies. University requirements for a double major stipulate that each major be in a separate department (see the Graduation Requirements section of this Bulletin). No student may take more than 40 hours within the School to complete a degree.

Scholarships and Financial Aid

The College of Communications and Information Studies has several opportunities for students to obtain scholarship funding. The college awards four scholarships to incoming freshmen and two scholarships each to rising juniors and seniors each academic year. The School of Journalism and Telecommunications awards nearly $45,000 in aid from various scholarship funds annually. The Department of Communication also has funding available for students. Generally, the deadline for scholarship applications is early in the spring semester to award funding for the following academic year. For specific information on scholarships, contact the department office, or the Office of Student Services in 105 Grehan Building.

ADMISSION POLICY

Admission to the University is sufficient for admission to the College of Communications and Information Studies as a premajor for students who have completed less than 45 semester hours. An application must be filed with the college in order for a student to be considered for admission as a premajor or major. However, admission as a premajor does not guarantee admission as a major in one of the degree programs in the College of Communications and Information Studies. In general, admission as a major depends upon the qualifications and preparation of the applicant, as well as the availability of resources for maintaining quality instruction. Additionally, depending on the timing of admission into the major program, students may not have access to major classes until subsequent semesters.

Upper-division admission into a degree program is necessary in order to be granted a baccalaureate degree from the College of Communications and Information Studies.

Transfer Students

The School of Journalism and Telecommunications is accredited by the Accrediting Council on Education in Journalism and Mass Communication (ACEJMC). Under ACEJMC guidelines, no more than 12 hours of journalism and mass communications courses from a student’s previous institution(s) may be counted toward a degree in journalism, integrated strategic communication or media arts and studies at the University of Kentucky.

Admission to Degree Programs

In order to be admitted to any of the four undergraduate majors (communication, integrated strategic communication, journalism, and media arts and studies) offered by the College of Communications and Information Studies, an applicant must fulfill the following requirements:

1. Enrollment in the University of Kentucky (Students are considered for acceptance by the college only after acceptance by the University.);
2. Completion of 45 semester hours of course work;
3. Minimum of 2.6 cumulative grade-point average;
4. Completion of premajor requirements of the program to which application is made. Students majoring in Communication, Journalism, and Integrated Strategic Communication must attain a minimum grade-point average of 3.0 on all premajor courses. Media arts and studies majors must attain a minimum grade-point average of 2.6 in the premajor.*;
5. Completion of UK Core areas I, II, III, IV, V, VI, VII and VIII;
6. Submission of an application form.

*For the journalism premajor requirements, the student’s grade in JOU 204 counts double in figuring the premajor grade-point average.
No student will be allowed to test out of any Journalism, Integrated Strategic Communication, or Telecommunication course. A student taking a similar course from another institution would still be allowed credit should the course meet criteria similar to the University of Kentucky course.

Students meeting these requirements will be designated as majors or as students with upper-division standing in the program to which admission is granted. Any student not meeting one or more of these requirements may be granted premajor status.

In the admission considerations, when personal, academic, professional, or intellectual circumstances tend to discount lower academic scores, admission may be granted if there is other persuasive evidence of both the capability and motivation to undertake successfully a program in the College of Communications and Information Studies.

Annually, the College of Communications and Information Studies faculty will review the minimum standards required for admission to the college. Any change in requirements will be implemented at the beginning of the academic year (fall semester) and will be in effect for the entire academic year. If the standards are to be changed, the Dean of the College of Communications and Information Studies will submit the proposed change by February 1 to the University Senate Council for approval, with prior circulation to the University deans and directors.

Admissions Process

Applications from students outside the University of Kentucky seeking admission to the College of Communications and Information Studies, whether for lower-division or upper-division status, must be received by the University of Kentucky Admissions Office no later than April 1 (for summer sessions), August 1 (for fall semester) and December 1 (for spring semester).

Students enrolled in other UK colleges on campus may apply for admission during the first week of fall and spring semesters, or prior to the priority registration period. The appropriate deadlines are listed in the University calendar as approved times to change majors.

Each applicant bears the responsibility to see that the application contains all the requested materials.

Automatic acceptance: Assuming all else is in order, applicants with a 2.6 or above undergraduate grade-point average will be accepted. Once accepted, each student will be assigned a major advisor by the appropriate department office.

Admission based upon departmental review: Students who do not meet one or more of the requirements for admission, but who feel that this is due to extenuating personal, academic, professional, or intellectual circumstances, must describe these circumstances in detail in a separate letter of appeal. These circumstances will be considered by the Admissions Committee of the appropriate program. The applicant will be informed in writing of the committee’s decision, which also will be forwarded to the college’s Office of Undergraduate Studies.

Enrollment in Upper Division Courses

Enrollment in College of Communications and Information Studies courses numbered 300-599 will be limited in order of priority to:

1. majors and minors in College of Communications and Information Studies degree programs;
2. non-College of Communications and Information Studies students who are registered for specific programs requiring College of Communications and Information Studies courses;
3. other students or categories of students with the express permission of the department offering the course (departments may choose to declare certain courses as open enrollment courses).

GRADUATION REQUIREMENTS

To earn either the Bachelor of Arts or the Bachelor of Science degree in the College of Communications and Information Studies, each student must (1) complete 120 hours of course work (excluding courses lower than the 100 level, courses with an R designation, physical education service courses, and/or EXP 396 credits) with a grade-point average of at least 2.0 and (2) complete at least 42 hours in upper division courses (300 or above). No more than 60 hours may be taken within the college.

Other requirements include UK Core, premajor requirements, field of concentration (24-27 hours of major work and 15-18 hours of cognate courses earned outside the college as defined by the units), and a minimum of six hours of free electives.

Bachelor of Arts Degree Requirements

Students who pursue the B.A. within the College of Communications and Information Studies must fulfill the following requirements.

UK Core: Students must complete all areas of the UK Core program. (See UK Core section in this Bulletin for a detailed explanation of requirements.)

College B.A. Requirements

1. Language. Complete one of the following sequences:

   Option A: Successful completion of the fourth college semester of one foreign language. (Note: This may be accomplished by scoring at this level on a placement test for previous work in the foreign language.)

   Option B: Complete a set of two courses dealing with the nature and structure of language, language behavior, or comparative languages. This set shall be comprised of one course from Group I below, and one course from Group II. (Courses counted as meeting this option may not be counted in the major or field of concentration.)

Group I: LIN/ENG 211.

Group II: ENG 210, ENG/LIN 212, ENG/LIN 310, LIN 317, LIN 318, ANT/LIN 319, ENG/LIN 512, ANT/ENG/LIN 515, ANT/ENG/LIN 516, LIN 517.

2. Statistics: STA 210

Major Requirements

Students must complete the departmental requirements for one of the four majors (communication, integrated strategic communication, journalism, and media arts and studies).

Subtotal: College B.A. Hours ................. 9-17

Bachelor of Science Degree Requirements

Students who pursue the B.S. within the College of Communications and Information Studies must fulfill the following requirements:

UK Core: Students must complete all areas of the UK Core program. (See UK Core section in this Bulletin for a detailed explanation of requirements.)

College B.S. Requirements

1. Mathematics, statistics and computer science: Complete nine credits in mathematics and/or computer sciences beyond the UK Core requirement. At least three hours must be in statistics.

2. Science Courses. Complete a minimum of 60 hours of science courses, with not more than 12 hours within the College of Communications and Information Studies. These courses must be approved by an advisor in the College of Communications and Information Studies and may be from the areas of mathematics, statistics, computer science, physical sciences, biological sciences, social and behavioral sciences, as well as from appropriate professional fields.

Subtotal: College B.S. Hours ................. 60

Academic Advising

Premajor (freshman and sophomore) advising in the College of Communications and Information Studies is under the jurisdiction of the Office of Student Services, 105 Grehan Building. Premajor advisors are Cathy Hunt, Director of Student Services, and the Assistant Director of Student Services. Either can be reached at (859) 257-4839.

During advance registration periods, the college will advise premajors through individual advising sessions with college and department staff. Between advance registration periods, including registration at the beginning of each term, one faculty or staff member from each academic unit will be available to advise premajors.

When students are admitted to the upper-division of the college, they are assigned a faculty advisor from their major program.
B.S. or B.A. with a major in COMMUNICATION
The major in communication provides students with the knowledge and skills necessary to design, manage, and evaluate communication processes involving individuals, groups, and the public. Graduates develop strong oral, written, and interpersonal communication skills as well as an advanced ability to analyze and critique messages, behaviors, and media.

Majors typically plan their upper-division course work around five identified career paths: corporate communication, health communication, human communication, interpersonal relationships, and mass communication. Students also can tailor their own unique program of study to meet specific needs. Careful planning with the student’s advisor is necessary.

Communication majors are encouraged to participate in educational activities beyond regular course offerings. The department has an excellent internship program which offers the opportunity for work with employers in corporate, government, and public service agencies. In addition, students may elect to do independent study work with individual faculty on special topics or projects. All majors are encouraged to participate in a variety of student organizations providing extracurricular activities designed to enhance the academic experience and career opportunities. For students who qualify, the department sponsors an Honors Society.

Degree Requirements
Each student completes the following:

College Requirements
See “College B.A. Requirements” or “College B.S. Requirements” on page 174.

UK Core Requirements
See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

I. Intellectual Inquiry in Arts and Creativity

Major Requirements
COM 351 Introduction to Communication Theory .......... 3
COM 365 Introduction to Communication Research Methods ............................................. 3
Fifteen additional credits of COM courses at the 300-level or above, of which at least nine credits must be at the 400- and/or 500-level.

Cognate (15 hours)
Students must complete fifteen hours in courses related to a Career Path (exclusive of COM courses) at the 300-level or above, as approved by student’s academic advisor.

Subtotal: Major Hours .................................. 42

TOTAL HOURS: ........................................ minimum of 120

Suggested Career Paths
Corporate Communication
Required COM Electives
Fifteen hours of approved upper-division COM courses, two of which must be:
COM 325 Introduction to Organizational Communication ........................................... 3
COM 525 Organizational Communication .................... 3

Cognate Area
Courses in sociology, marketing, management, journalism and telecommunications are often chosen for this cognate.

Health Communication
Required COM Electives
Fifteen hours of approved upper-division COM courses, two of which must be:
COM 452 Studies in Interpersonal Communication .......... 3
and either
COM 571 Health Communication ................................ 3
or
COM 591 Special Topics in Communication
(Subtitle required) ........................................ 3

Cognate Area
Courses in sociology, psychology, behavioral science, philosophy, journalism and telecommunications, marketing and management are often chosen for this cognate.

Human Communication
Required COM Electives
Fifteen hours of approved upper-division COM courses.

Cognate Area
Courses in sociology, political science, journalism and telecommunications, marketing and management are often chosen for this cognate.

Interpersonal Communication
Required COM Electives
Fifteen hours of approved upper-division COM courses, two of which must be:
COM 452 Studies in Interpersonal Communication .......... 3
and either
COM 462 Intercultural Communication ................................. 3
or
COM 581 Studies in Small Group Communication ............ 3

Cognate Area
Courses in sociology, psychology, family studies, journalism and telecommunications are often chosen for this cognate.

Mass Communication
Required COM Electives
Fifteen hours of approved upper-division COM courses, two of which must be:
COM 449 Social Processes and Effects of Communication ............................................. 3
COM 453 Mass Communication and Social Issues .......... 3

Cognate Area
Courses in sociology, political science, journalism and telecommunications, marketing and management are often chosen for this cognate.

Minor in Communication
Any student wishing to minor in communication must meet college selective admission requirements (45 credits completed, 24 credits in UK Core courses, COM 101 and have a 2.6 cumulative grade-point average). The student must file an application for the minor in the Department of Communication Office and have approval from the department chair for COM courses selected to complete the minor.

1. COM 101 Introduction to Communications ............ 3
2. COM 287 Persuasive Speaking ............................... 3
3. Two courses (six hours) from the following:
   COM 249 Mass Media and Mass Culture ............... 3
   COM 252 Introduction to Interpersonal Communication ........................................... 3
   COM 281 Communication in Small Groups .......... 3
   COM 325 Introduction to Organizational Communication ........................................... 3
4. COM 351 Introduction to Communication Theory .... 3
   COM 365 Introduction to Communication Research Methods ........................................ 3

B.S. or B.A. with a major in INTEGRATED STRATEGIC COMMUNICATION
The Integrated Strategic Communication major offers students professional preparation for careers in the allied areas of advertising, public relations, and direct response communication. Through course work, students develop conceptual command of these allied areas and also build expertise in one area through the PATH option they select. The major stresses a strategic approach to communication initiatives and is designed to build analytical and critical thinking skills as well as writing and presentation skills.

ISC graduates enjoy highly diverse career destinations. Agencies specializing in advertising, public relations, and direct response along
with the media and communication technology industries, corporations, nonprofit organizations, and regulatory/consumer protection agencies need employees who have the skills developed by the ISC graduate.

ISC students are encouraged to expand their course work with activities unique to the major. Grehan Associates is a student-run full-service communications agency where students meet clients’ advertising, public relations, and direct response needs. The American Advertising Federation and Public Relations Student Society of America chapters offer both leadership and networking opportunities. A dynamic, professionally-oriented internship program insures that students gain hands-on experience with communications, government, or nonprofit agencies or with corporations or the media. Students are also encouraged to work with The Kentuckian, the Kernel, WRFL and WUKY.

Degree Requirements

Each student completes the following:

College Requirements
See “College B.A. Requirements” or “College B.S. Requirements” on page 174.

UK Core Requirements
See the UK Core section of this Bulletin for the complete UK core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

I. Intellectual Inquiry in Arts and Creativity
Choose one course from approved list 3

II. Intellectual Inquiry in the Humanities
Choose one course from approved list 3

CIS/WRD 111 Composition and Communication II 3

VII. Quantitative Foundations
Choose one course from approved list 3

VIII. Statistical Inferential Reasoning
STA 210 Making Sense of Uncertainty: An Introduction to Statistical Reasoning 3

B.S. or B.A. with a major in JOURNALISM

The journalism major prepares students for leadership roles in rapidly changing media by requiring a strong core of journalism courses within the rich context of a liberal arts education. Courses are designed to foster analytical and critical thinking skills and to teach students to communicate effectively with a mass audience.

Founded in 1914, the journalism program has full national accreditation by the Accrediting Council on Education in Journalism and Mass Communications. Alumni include Pulitzer Prize winners, Nieman fellows and nationally known journalists.

Journalism majors learn about media law, ethics and history, and about the media’s role in an increasingly diverse society. The program emphasizes hands-on learning. Students select either a print or electronic emphasis in their professional skills courses. Majors choosing a print emphasis have the opportunity to write for a daily newspaper. Students who select the electronic track gain on-air experience at the university radio station and report, anchor, videotape and produce a newscast aired on a local cable channel.

Graduates are prepared for jobs as reporters and editors for print, broadcast and online media, and for positions as assignment editors, producers, managing editors, publishers and new media entrepreneurs. Courses are also offered for students interested in specialized careers such as sports reporting, business writing, arts criticism or graphic design.

All majors are encouraged to supplement their course work with media experience at the Kentuckian, the independent daily student newspaper; the Kernel, the student yearbook; WUKY, the university’s public radio station, or WRFL, the student-run radio station. In addition, students are expected to take advantage of the school’s internship program.

Degree Requirements
Each student completes the following:

College Requirements
See “College B.A. Requirements” or “College B.S. Requirements” on page 174.

UK Core Requirements
See the UK Core section of this Bulletin for the complete UK core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

JOU 404 Advanced TV News: JAT News ...................... 3

Major Electives
Nine hours of upper division electives in JOU, ISC or MAS, in-
cluding three hours from reporting/writing courses ap-
proved by student’s advisor.

Portfolio
Portfolio required for graduation.

Field of Concentration
Breadth will be ensured in students’ programs by at least 18
credit hours of upper division courses taken outside the School
of Journalism and Telecommunications. These courses typi-
cally are chosen from areas such as economics, philosophy,
history, languages, literature, political science, psychology,
sociology, or the sciences. These 18 hours should involve
concentrated study in one field. This does not mean that all such
courses must be in a single department, but they should be
united under a topic heading such as “international relations,”
“American government,” or “political behavior.”

Subtotal: Major Hours ........................................ 42
TOTAL HOURS: .................................. minimum of 120
Note: Of a student’s total course work for a bachelor’s
degree, 80 of the 120 hours required for graduation must be in
courses other than journalism or mass communications. (Ac-
creditation standards require at least 65 semester hours in
basic liberal arts and sciences.)

B.S. or B.A. with a major in
MEDIA ARTS AND STUDIES

The media arts and studies major offers stu-
dents a liberal arts program covering a range of
issues related to electronic mass communication
and electronic personal communication. In addi-
tion, students interested in message production
or telecommunications management can opt to
integrate selected professional or skills-based
courses into their program of study.

Socio-cultural media courses address the his-
torical, political and social aspects of telecommunications. Media industry courses examine organ-
izational, economic, and/or technological di-
ensions of telecommunications systems and the
interrelations among these factors. These courses may center on mass communication issues, interactive communication issues, or both.

Media production courses cover the tradi-
tional telecommunications areas of audio and
video production and the more recent develop-
ments in multimedia and Web page design and
production.

All media arts and studies majors will take
advantage of the experiential learning opportu-
nity provided by a formal internship. The School
of Journalism and Telecommunications has an
excellent internship program which offers the
opportunity to work with a wide variety of
employers, including companies oriented to the
 provision of voice, data, and/or video products
and services. In addition, students may pursue
special interests in media arts and studies through
independent study with any of the media arts and
studies professors.

Degree Requirements
Each student completes the following:

College Requirements
See “College B.A. Requirements” or “College B.S. Requi-
rements” on page 174.

UK Core Requirements
See the UK Core section of this Bulletin for the complete
UK Core requirements. The courses listed below are (a)
recommended by the college, or (b) required courses that also
fulfill UK Core areas. Students should work closely with
their advisor to complete the UK Core requirements.

I. Intellectual Inquiry in Arts and Creativity

MAS 390 Special Topics in Media Production (Subtitle required) .............................................. 3
MAS 412 Video Production II .................................... 3
MAS 422 Multimedia II .......................................... 3
MAS 432 Audio Production ...................................... 3

Cognate Area: All majors must fulfill the field of concentra-
tion or cognate area requirement by taking a minimum of 12
hours outside the major at or above the 300 level in courses
related to their media arts and studies interest.

Subtotal: Major Hours ........................................ 42
TOTAL HOURS: .................................. minimum of 120

Note: Of a student’s total course work for a bachelor’s
degree, 80 of the 120 hours required for graduation must be in
courses other than professional media-based communica-
tions. Accreditation standards require that (of these 80 hours) at
least 65 semester hours be in basic liberal arts and sciences.

Minor in Media Arts and Studies
Any student wishing to minor in media arts and
studies should file an application with the
School of Journalism and Telecommunications
after meeting the following requirements:
Complete either MAS 101 or MAS 201
Complete 45 hours of university course work with a
cumulative grade-point average of 2.6
Students cannot register for upper-level media
arts and studies courses until they have met the
above requirements and have been accepted into
the media arts and studies minor program. After a student has been accepted as a minor, he or she will be assigned a faculty advisor.

The minor in media arts and studies requires a minimum of 21 hours to include the following:

1. MAS 101 Introduction to Media and Culture ........ 3
2. MAS 201 Communication Technologies and Society ........................................... 3
3. Fifteen credits of additional course work with MAS prefix; six of the credits must be from among social-cultural media studies group of courses.

Note: Students should recognize that most upper-division media arts and studies courses have specific prerequisite courses that must be taken and plan their programs accordingly.

M.S. in LIBRARY SCIENCE

The School of Library and Information Science began in 1933 as the Department of Library Science within the College of Arts and Sciences. Sixty years later, in 1993, the College of Library and Information Science merged with the College of Communications to form the College of Communications and Information Studies. The college consists of a School of Library and Information Science, a School of Journalism and Telecommunications, and a Department of Communication. The school offers one of approximately 50 master’s programs in library and information science in the United States and Canada that are accredited by the American Library Association.

The School of Library and Information Science provides students with the basic knowledge and skills required to function effectively in beginning professional positions in various types of libraries and information-providing agencies. It contributes to the advancement of both the theory and practice of librarianship through systematic and continuing research and publication and provides continuing public service to individuals, libraries, professional organizations and related institutions to the end of promoting effective and efficient information services.

The School of Library and Information Science maintains flexibility and openness to change through the participation of faculty, students, and administration in the decision-making process. The student body of about 220 has its own organization, LISSO, the Library and Information Science Student Organization, which represents students in school deliberations. Students may sit on committees and share in the development of the school. The student organization participates in orientation programs, publishes a blog, and sponsors social activities throughout the year. The diversity of the students, in terms of geography and interests and backgrounds, helps to create an atmosphere in which change and improvement in the program can take place.

The libraries of the University, William T. Young, M.L. King and the branch libraries, constitute the major "laboratory" facility for library and information science students. They are supplemented by other libraries in the area including those at the Lexington Theological Seminary, the Veterans Administration Medical Center, the Lexington Public Library, several nearby public libraries and the State Department for Libraries and Archives in Frankfort.

Accreditation

The master’s program in library and information science is accredited by the American Library Association.

Graduate Program in Library and Information Science

The University of Kentucky grants the following degrees in the School of Library and Information Science:

- Master of Science in Library Science
- Master of Arts

ADMISSION REQUIREMENTS AND PROCEDURES FOR GRADUATE STUDY

The School of Library and Information Science offers graduate degrees only. For complete information on the M.A. and the M.S.L.S. degree programs and admissions procedures, consult The Graduate School Bulletin and the School of Library and Information Science Bulletin. The former can be found at www.graduate.uky.edu and the latter can be found at www.library.uky.edu/CommInfoStudies/SLIS.

Admission

The admissions philosophy of the school is to admit students who are capable of satisfactory academic performance and who show promise of being able to function as competent and effective librarians and information managers. A basic requirement for admission is an undergraduate degree in any discipline (from an accredited institution) with a grade-point average of at least 3.0 on the 4.0 scale. In addition the applicant should present Graduate Record Examination scores, (a) on the General Test taken before October 1, 2002, of 450 or higher on the verbal section and of 400 or higher on the quantitative section or on the analytical section; (b) on the Graduate Test taken on or after October 1, 2002, of 450 or higher on the verbal section and of 400 or higher on the quantitative section or on the analytical writing section.

While these admission standards are important, the school does try to remain flexible to account for individual developmental differences and strengths.

There are no specific library science prerequisites for admission into the School of Library and Information Science. Students are urged not to take a minor in library science as undergraduates but to concentrate on other subject area majors and minors and obtain a broad liberal arts background. Electives in computer science are often very helpful.

Application must be made both to the School of Library and Information Science and The Graduate School. For information about applying to The Graduate School, go to: w w w . g r a d s c h o o l . u k y . e d u / ProspectiveStudents/prospective.html. For information about applying to the School of Library and Information Science, go to: www.uky.edu/CIS/SLIS/admissions. An applicant to the school must submit all materials by the deadlines set by the school, which are included with the information at Admissions. Applicants may enter the program in the spring, fall or summer. Send questions or inquiries to: ukslis@uky.edu.

Previous students must apply for readmission if they were not enrolled during the semester prior to that for which admittance is sought.

Financial Aid

Financial aid and scholarship information specific to library and information science is limited to graduate students and is too detailed and changes too often to warrant inclusion in this Bulletin. Information is available on the school’s Web site.

Advising

Upon admission to the master’s program, students are assigned a faculty advisor. Advisor assignments are based, when possible, on student interest and preference.

University of Kentucky Undergraduates

The School of Library and Information Science does not offer any formal program of study on the undergraduate level.

GRADUATE PROGRAMS

The College of Communications and Information Studies offers the following graduate degrees: (1) Master of Arts in Communication, (2) Ph.D. in Communication, (3) Master of Science in Library Science, and (4) Master of Arts (Library Science). Additional information may be obtained from the Associate Dean for Graduate Studies for the College of Communications and Information Studies and from The Graduate School Bulletin.
Sharon P. Turner, D.D.S., J.D., is Dean of the College of Dentistry

The College of Dentistry offers the Doctor of Dental Medicine (D.M.D.) degree and six post-doctoral programs. The mission of the College of Dentistry is to improve oral health and general health through teaching, research, and service. The mission is supported by collaborative engagement and by networking with community and academic partners to promote oral health literacy and reduce health disparities within Kentucky and beyond.

The College educates health professionals to become active citizen leaders who are conscious of their personal and professional responsibilities in a global society. The College values diversity within its community, which includes diversity of thought and experience, in order to promote a humanistic approach to education, patient care, and community service. The College of Dentistry and all of its programs are accredited by the Commission on Dental Accreditation of the American Dental Association.

For further information on the D.M.D. and post-doctoral programs, refer to the College of Dentistry Bulletin at: www.mc.uky.edu/dentistry.

Admission – Doctor of Dental Medicine (D.M.D.)

The College seeks to enroll individuals whose academic preparation, personal qualities, and other qualifications suggest that they will experience success in the curriculum and afterwards in the dental profession. Currently 40 resident applicants and 17 nonresident applicants are admitted to the entering class each year.

The College will consider for admission any individual who can demonstrate the ability to perform the skills listed in the College’s Technical Standards policy. The specific standards are included in the College Bulletin and Student Handbook. Applicants are not required to disclose the nature of their disability(ies) to the Admissions Committee; however, any applicant with questions about these technical standards is strongly encouraged to discuss the issue with the Admissions Office before the interview. Upon the request of an applicant or a student, reasonable accommodations will be provided.

Predental Preparation

The College strongly recommends that applicants gain a broad liberal arts education with a solid foundation in the sciences. Information on prerequisite course work may be obtained at: www.mc.uky.edu/dentistry. Gaining admission is a competitive process and completing a baccalaureate degree prior to matriculation is an expectation. Prospective dental students should contact the Office of Admissions and Student Affairs early in their undergraduate careers for guidance. The College will work with students to advise them on ways to become competitive applicants. The College also works closely with the UK Pre-Dental Society. For more information, call (859) 323-6071.

Application Process

An application for admission may be obtained from the American Association of Dental Schools Application Service (AADSAS). Candidates for admission are encouraged to apply early to receive the strongest consideration. The AADSAS electronic application becomes available on June 1. You may contact AADSAS at:

www.adea.org
(202) 789-7201
AADSAS
1400 K Street NW, Suite 1100
Washington, D.C. 20005

The College uses a “rolling admissions system” whereby applicants are interviewed beginning in late August, the first offers of admission are made on December 1, and the Admissions Committee continues to interview applicants until the class is filled. The membership of the entering first-year class is usually confirmed by mid-March. Candidates who apply early in the admissions cycle are at a distinct advantage over those who wait much later to submit their AADSAS application. The Office of Admissions and Student Affairs can provide applicants information and sound advice to insure that they complete the process in a timely way.

Letters of Evaluation

Three letters of evaluation must be included in each candidate’s admission credentials from individuals who are able to provide information regarding the applicant’s potential for success in the dental curriculum. Two letters should come from faculty members and/or preprofessional advisors. The third letter may come from another faculty member, a dentist or someone else who knows the applicant well and can provide an assessment of the individual’s academic qualifications, personal qualities and potential. A preprofessional committee evaluation of a candidate may be substituted for the three letters. Applicants must forward the letters to AADSAS when they submit their packets; hard copy letters of evaluation sent to the Office of Admissions and Student Affairs will not be connected to the application.

Dental Admission Test

Every applicant must take the Dental Admission Test (DAT). The DAT scores are considered, along with a candidate’s academic record and other criteria, in the admissions decision. The exam is offered nationwide by computer through Prometric Testing Centers. The DAT results should not be more than two years old and the highest set of scores will be used. Information on the DAT is available by contacting the American Dental Association at:

www.ada.org
(312) 440-2689
Dental Admission Testing Program
American Dental Association
211 East Chicago Ave.
Chicago, IL 60611-2678

College of Design

Michael Speaks, Ph.D., is Dean of the College of Design. David Biagi, M.Arch., is Director of the School of Architecture. Ann Whiteside-Dickson, M.S., is Director of the School of Interior Design.

The College of Design strives to be a leading force in the world of design, dedicated to building a spirited and collegial environment where excellence is celebrated.

This is accomplished by creating a community in which students are encouraged to exchange ideas and explore the interdisciplinary connections that exist between the various practices of design. Through this approach, the college educates, trains and prepares students for leading roles in an innovation-driven economy.

The college also serves as a hub for promoting groundbreaking research. By partnering with manufacturers, energy providers, and researchers, the college is not only increasing the intellectual capital of Kentucky, but also applying design thought to global challenges.

Degree Programs in Design

The University of Kentucky grants the following degrees in the College of Design:

- Bachelor of Arts in Architecture
- Bachelor of Arts in Interior Design
- Master of Architecture
- Master of Arts in Interior Design
- Master of Historic Preservation

SCHOOL OF ARCHITECTURE

The School of Architecture at the University of Kentucky has achieved a national reputation for excellence through the commitment of its faculty and the spirit, talent and dedication of its students. The School of Architecture is fully accredited by the National Architectural Accrediting Board (NAAB).

The architecture studio is the foundation of the program. Studios provide a social and curricular framework for the architecture student. Representational skills such as drawing, model making, and computer modeling are practiced rigorously as essential skills for design. In addition to the design studio, students study building technology; materials and structural systems; digital fabrication techniques; the history, theory, and criticism of architecture; and the ethical and professional principles of a successful architecture practice.

Students also learn contemporary processes such as prototyping to solve problems, and innovate new solutions. Prototypes, three-dimensional physical models, are created with digital design and fabrication tools and technologies such as CNC milling, 3-D printing, and laser-cutting. Prototypes can be created quickly allowing students to propose solutions; examine results; redefine problems; and propose new solutions. In the School of Architecture, prototyping has come to define a new model of design research in which the focus is not so much on the creation of a final design but rather on the creation of design knowledge itself.

The four-year Bachelor’s degree in architecture qualifies students for careers in architectural offices, building construction, development and public agencies. To become a licensed architect in Kentucky and other states, the graduate must complete a two-year Master of Architecture program. Both degree programs are offered at the University of Kentucky.

Accreditation

In the United States, most state registration boards require a degree from an accredited professional degree program as a prerequisite for licensure. The National Architectural Accrediting Board (NAAB), which is the sole agency authorized to accredit U.S. professional degree programs in architecture, recognizes three types of degrees: the Bachelor of Architecture, Master of Architecture, and Doctor of Architecture. A program may be granted a 6-year, 3-year, or 2-year term of accreditation, depending on the extent of its conformance with established educational standards.

Doctor of Architecture and Master of Architecture degree programs may consist of a pre-professional undergraduate degree and a professional graduate degree that, when earned sequentially, constitute an accredited professional education. However, the pre-professional degree is not, by itself, recognized as an accredited degree.

University of Kentucky School of Architecture offers the following NAAB accredited degree programs:

- Bachelor of Arts in Architecture (133 undergraduate credits)
- Master of Architecture (pre-professional degree + 57 graduate credits)

Admissions Procedures

Admission into the School of Architecture Bachelor of Arts in Architecture program is regulated through a selective admission procedure. The most significant part of the admission procedure consists of the Architecture Admission Requirement, which is designed to identify an applicant’s innate ability in regard to spatial perception, visual memory, creativity, and logic.

Candidates not currently enrolled at the University of Kentucky must file a University application with the Office of Undergraduate Admission.

Candidates must also apply for admission to the School of Architecture by March 1. Applications may be obtained from: www.uky.edu/design/architecture_admissions.

Freshman candidates are required to file a University application, with necessary supporting documents, with the Office of Undergraduate Admission and University Registrar by March 1 for Fall Semester admission.

Candidates will be admitted in order of priority on the basis of the following criteria:

1. A potential for general academic achievement as indicated by the high school grade-point average and national college admission test scores (ACT or SAT).
As a rule, freshmen applying to the School of
Architecture must meet the minimum academic
standards required for all freshmen applicants for
admission to the University. However, if the
Architecture Admission Committee finds clear
indications of probable success in architecture
from its review of the further evidence pertaining
to a candidate who does not meet these minimum
criteria, an exception may be made to this rule.
Any such exception would require formal recom-
mendation of the School of Architecture Admis-
sion Committee and approval of the Associate
Dean for Administration.

For fall admission, applicants must register for
and take the American College Test (ACT) or the
Scholastic Aptitude Test (SAT) on or before the
December test date.

2. The probability of success in a profes-
sional program in architecture as predicted by
“The Architecture Admission Requirement.”

3. Other indications of their aptitude and
motivation as may be available (e.g., a portfolio
of work, references, experiences in building con-
struction or related fields).

4. Comparative measures of aptitude and
motivation derived by the Architecture Admis-
sion Committee from supplementary tests (e.g., a
case study project assignment) and, in certain
cases of indecision, and circumstances permitting,
personal interview.

The portfolio requirement will be sent out
upon completion of a School of Architecture
application, in the first week of November.

The Architecture Admission Portfolio is due
on or before February 1.

Transfer candidates from educational pro-
grams other than those in architecture will be
required to observe the same application dead-
lines and portfolio submission procedures (when
applicable) as those set out above for freshmen.
Please note that this deadline is earlier than
that for general admission of transfer stu-
dents to the University.

Candidates will be considered in order of
priority on the basis of the following criteria:

1. The indication of general academic perfor-
"mance as reflected by the cumulative col-
legeate grade-point average, and the indications of
specific interests and aptitudes as reflected by
grades in certain critical disciplines (e.g., art
history, art studio, foreign languages, freehand
drawing, history of ideas, mathematics, philoso-
phy, social history).

As a rule, the minimum academic standard
acceptable to the Admission Committee will be
a cumulative grade-point average of 2.0 on a 4.0
scale, or an average of C in all previous college
work. However, if the Architecture Admission
Committee finds clear indications of probable
success in architecture from its review of the
further evidence pertaining to a candidate who
does not meet these minimum criteria, an excep-
tion may be made to this rule. Any such exception
would require formal recommendation of the
School of Architecture Admission Committee
and approval of the Director of Admissions.

2. The probability of success in a profes-
sional program in architecture as predicted by
“The Architecture Admission Portfolio.” Any
applicant who is successful on “The Architec-
ture Admission Portfolio” but who has a univer-
sity grade-point average of less than 2.0 will not
be accepted to begin work in the School of
Architecture. However, a one-year deferment of
admission may be granted pending grade im-
provement to at least 2.0. This requirement may
be waived by the School of Architecture Program
Director under extraordinary circumstances.

3. Other indications of their aptitude and
motivation as may be available (e.g., a portfolio
of work, references, experiences in building con-
struction or related fields).

4. Comparative measures of aptitude and
motivation derived by the Architecture Admis-
sion Committee from supplementary tests (e.g., a
home project assignment) and, in certain
cases of indecision, and circumstances permitting,
personal interview. Students who have been
admitted to and have completed some
professional courses within the School of Archi-
tecture and have withdrawn from the university
for a period of three years or more, or who have
not taken professional courses within the School
of Architecture but remain in the university for
a period of two years or more, may not reenter
the program without the consent of the Dean of
the College of Design, which would be given only
under extraordinary circumstances.

Transfer candidates from N.A.A.B. accred-
ited degree programs in architecture are
required to file application with the Office of
Undergraduate Admission and University Reg-
istrar by April 1 for Fall Semester admission.
Please note that this deadline is earlier than
those for application to the University in
general.

Candidates will be considered in order of
priority on the basis of the following criteria:

1. The indication of general academic suc-
cess and success in a professional program in
architecture as reflected by the cumulative col-
legeate grade-point average, and indications of
specific aptitude and skill development as re-
lected by grades in architecture or environmental
design courses.

As a rule, the minimum academic standard
acceptable to the Admission Committee will be
a cumulative grade-point average of 2.0 on a 4.0
scale, or an average of C in all previous college
work. However, if the Architecture Admission
Committee finds clear indications of probable
success in architecture from its review of the
further evidence pertaining to a candidate who
does not meet these minimum criteria, an excep-
tion may be made to this rule. Any such exception
would require formal recommendation of the School of
Architecture Admission Committee and approval of the Director of the School of Architecture.

2. The probability of success in a profes-
sional program in architecture as predicted by
review of their portfolio of work in architecture.
The portfolio should be brought or mailed, to-
gether with return postage and mailing labels
directly to:

School of Architecture
Admission Committee
117 Pence Hall
University of Kentucky
Lexington, KY 40506-0041

3. A review of least three letters of refer-
ence addressed to the Admission Committee
from referees such as previous teachers of
architectural practitioners or related profession-
als for whom the candidate may have worked.

The candidate’s portfolio and letters of refer-
ence should be received by the committee by
April 1 for Fall Semester admission.

4. In cases of uncertainty, and circumstances
permitting, personal interview. Based on the
above criteria, the Admissions Committee will
determine entering placement in the program.
This placement may be at a level lower than the
applicant had achieved at his or her previous
institution.

Master of Architecture Candidates

Master of Architecture candidates from the
University of Kentucky and other NAAB accredi-
ted degree programs are required to file a
University application with the Graduate School
with supporting documents by January 15. In
addition, a School of Architecture application is
due on the same date.

Candidates will be admitted in order of priority
on the basis of the following criteria:

1. A potential for academic achievement as
indicated by college GPA and national college
admission test score (GRE);

2. A portfolio of undergraduate work; and,

Scholarships

The College of Design offers merit-based schol-
arships to undergraduate students. There is no
application required to be eligible for scholar-
ships, all students are automatically considered.
Thanks to the generosity of our alumni and
friends, over seventy five thousand dollars in
scholarships are awarded to our students each
year.

All graduate applicants are automatically con-
sidered for merit-based scholarships. Approxi-
mately two hundred thousand dollars in merit-
based scholarships, awards, and stipends are
awarded to College of Design graduate students
every year. Scholarships and awards can range
from $9,000 to full tuition. Because financial
resources are limited, applicants are encouraged
to seek out other sources of funding. To learn more about graduate scholarships, visit the Graduate School Web site: www.research.uky.edu/gs/StudentFunding/fellowships.html.

Advising
Advising in the School of Architecture is conducted through meetings with Student Services staff. The Student Services staff has knowledge of the College’s programs and is ready to help students navigate and build their educational plans.

CURRICULUM
The University’s UK Core requirements complement the architecture course work. This program comprises liberal arts and science courses required of all students at the University of Kentucky.

The School of Architecture in the College of Design administers the program curriculum, and the University of Kentucky Board of Trustees grants degrees. The curriculum consists of 133 credits for the undergraduate degree and 57 credits for the graduate degree for a total of 190 credits in six years.

The curriculum conforms to the following outline:

<table>
<thead>
<tr>
<th>Hours</th>
<th>I. Undergraduate UK Core requirements</th>
<th>30</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>II. Core program requirements</td>
<td>76</td>
</tr>
<tr>
<td></td>
<td>III. Undergraduate elective courses</td>
<td>27</td>
</tr>
<tr>
<td></td>
<td>IV. Graduate core program requirements</td>
<td>33</td>
</tr>
<tr>
<td></td>
<td>V. Advanced elective courses</td>
<td>15</td>
</tr>
<tr>
<td></td>
<td>VI. Master’s Project</td>
<td>9</td>
</tr>
<tr>
<td></td>
<td>TOTAL</td>
<td>190</td>
</tr>
</tbody>
</table>

The above distribution of credit assumes that the UK Core requirements in mathematics and a foreign language have already been met prior to admission to the program, an assumption supported by historical student data. It also assumes that the Humanities section is to be met by approved core program courses in the History and Theory of Architecture (ARC 212 and ARC 213).

Graduation Writing Requirement
Students satisfy the Graduation Writing Requirement with ARC 314, required in the Major Requirements.

Graduation Writing Requirement Hours: ……3

SCHOOL OF INTERIOR DESIGN

The School of Interior Design is the premier interior design program in the state of Kentucky. Graduates of the program practice across the United States and have been recognized at the highest level of the profession.

Through studio, classroom and real-world assignments, interior design students learn to solve complex organizational problems associated with work, place, experience, and performance. These professional skills prepare students to handle the aesthetic and technical aspects of projects, communicate with clients, and manage business and logistical requirements.

Students are also provided the opportunity to interact with regional, national and international interior design professionals through internships, study abroad experiences, lectures by noted speakers, and field experiences.
Graduates from the School of Interior Design begin their careers in a variety of settings including interior design firms, architecture firms, corporations, and public institutions. Students may also pursue graduate post-professional education in specialized areas of Interior Design.

**Accreditation**

The School of Interior Design is a professional degree program accredited by the Council for Interior Design Accreditation (CIDA). This accreditation ensures professional training for entry into the practice of interior design and the educational foundation that will allow for professional testing (NCIDQ), certification, or licensure at the individual state level.

---

**BACHELOR OF ARTS IN INTERIOR DESIGN**

In addition to UK Core requirements, Interior Design students must complete the following:

- 81 credit hours of major requirements
- 18 credit hours of professional support electives
- 3 hours of free electives
- electives required to meet minimum credit hour standard for graduation.

**UNDERGRADUATE ADMISSION PROCEDURES**

**Admission into the Major**

Students who want to major in Interior Design must first be admitted into the School of Interior Design.

**Freshman Candidates**

1. File a University application with the Office of Undergraduate Admission and the University Registrar by February 1 for fall admission in the year which the student wants to begin the program. For fall admission, applicants must register for and take the American College Test (ACT) or Scholastic Aptitude Test (SAT) on or before the December test date.

2. Apply for admission to the School of Interior Design. The Major Admission Application Form and requirements are available on the college Web site at: [www.uky.edu/design/index.php/info/category/admissions/](http://www.uky.edu/design/index.php/info/category/admissions/).

3. Submit an essay as required by the Major Admission Application Form. The essay will require applicants to express in both written and visual format the rationale for their interest in the Interior Design profession and what steps they have taken to make an informed decision regarding their choice for a major.

4. The Major Admission Application Form with essay must be received on or before March 1 in the year the student wants to begin the program.

**Transfer Students without Interior Design Credit**

Transfers candidates from educational programs other than interior design will be required to observe the same application process and deadlines as outlined for freshmen. Please note that the deadline is earlier than that for general admission of transfer students to the University.

**Major Admission Selection Process**

Candidates will be admitted to the major in order of priority based on demonstrated potential for academic achievement at the freshman level as indicated by high school grade-point average, ACT/SAT scores, and the required essay. Additional consideration will be given to the student’s demonstrated participation in extracurricular, service, or work activities that show evidence for potential development of characteristics that will assist them in succeeding in the profession. Acceptance will be on a comparative and competitive basis and limited to the number of students the School of Interior Design is able to accommodate in studio. Notification of acceptance in the major will permit registration into the freshman studio, ID 121, fall semester of the same year. Admission will not be deferred.

**Transfer Students with Design Credit**

Students who have university credit in design course work from an accredited professional program (CIDA, NAAB, etc.) who want to transfer into the School of Interior Design must make application for admission to the major. The application process includes:

1. File a University application with the Office of Undergraduate Admission and the University Registrar to be received by March 1 for fall admission. Request an official transcript of college course work to be received by University of Kentucky Admissions by April 1. Please note that this deadline is earlier than those for application to the University in general.

2. Submit a portfolio of student work completed in the university from which they are transferring. If the applicant wants the portfolio returned, the portfolio should be submitted with return packaging and mailing labels provided. The School of Interior Design will return the portfolio by C.O.D.

3. The Transfer Admission Application Form, portfolio, and transcript should be in one package, submitted no later than May 1 for fall term admission in the same year, and delivered to:

**College of Design**

### Major Requirements
- ID 101 Introduction to Interior Design .............................. 1
- ID 102 The Interior Design Profession .............................. 1
- ID 121 Interior Design, Planning and Programming I .................. 5
- ID 122 Interior Design, Planning and Programming II .................. 5
- ID 162 History and Theory of Interior Environments II ................. 3
- ID 221 Interior Design Studio I ........................................... 5
- ID 222 Interior Design Studio II ........................................... 5
- ARC 111 Introduction to History and Theory ............................. 3
- ID 234 Environmental Theory .............................................. 3
- ID 263 Introduction to Digital Media ...................................... 3
- ID 264 Color Theory and Interior Space .................................... 3
- ID 275 Interior Construction Systems ...................................... 3
- ID 321 Interior Design Integrated Studio (taken twice) ...................... 10
- ID 346 Professional Practice Preparation ................................... 3
- ID 365 Interior Design Finish Materials .................................... 3
- ID 366 Lighting Design and Theory .......................................... 3
- ID 375 Interior Material and Construction: Detailing ....................... 3
- ID 421 Interior Design Senior Thesis I ..................................... 5
- ID 422 Interior Design Senior Thesis II ..................................... 5
- ID 466 Interior Design Professional Practice .............................. 3
- Art History Course ............................................................ 3
- ID 421 Interior Design Senior Thesis I ..................................... 5

**Subtotal: Major hours:** 81

### Professional Support Required Options

The following Professional Support groupings were established to introduce students to key influences on the interior design profession from a multidisciplinary perspective. Courses from all four professional support groups are essential in fulfilling CIDA requirements. Specific courses will be selected with the approval of the student’s faculty advisor.

#### Professional Support Group 1 – Workplace-Related Courses
- Total of six (6) credit hours selected from SOC, PSY, COM, MKT, ECO.

#### Professional Support Group 2 – Global and Cultural Issues
- Total of three (3) credit hours selected from SOC or ANT.

### Professional Support Group 3 – Sustainability, Environmental, and Wellness Issues
- Total of three (3) credit hours selected from ES, SOC, GEO, BIO, ANT.

### Professional Support Group 4 – Design
- Total of six (6) credit hours which may be fulfilled with any combination of elective or seminar courses from the College of Design.

**Subtotal: Professional Support:** 18

### Total Minimum Hours Required for Degree: 132

### Interior Design Undergraduate Program Overview

#### Semester 1
- **Hours:** 5
  - ID 121 Interior Design, Planning and Programming I .................. 5
  - ID 101 Introduction to Interior Design ................................... 1
  - ID 161 History and Theory of Interior Environments I .................. 3
  - CIS/WRD 110 Composition and Communication I ........................ 3
  - UK Core – Creativity and the Arts ......................................... 3
  - **TOTAL:** ................................................................. 15

#### Semester 2
- **Hours:** 5
  - ID 122 Interior Design, Planning and Programming II .................. 5
  - ID 102 The Interior Design Profession ..................................... 1
  - ID 162 History and Theory of Interior Environments II .................. 3
  - UK Core – Natural/Physical/Math Sciences ................................ 3
  - UK Core – Global Dynamics .............................................. 3
  - **TOTAL:** ................................................................. 15

#### Semester 3
- **Hours:** 5
  - ID 221 Interior Design Studio I ........................................... 5
  - ARC 111 Introduction to History and Theory ............................. 3
  - CIS/WRD 111 Composition and Communication II ........................ 3
  - ID 264 Color Theory and Interior Space .................................... 3
  - ID 263 Introduction to Digital Media ...................................... 3
  - **TOTAL:** ................................................................. 17

#### Semester 4
- **Hours:** 5
  - ID 222 Interior Design Studio II ........................................... 5
  - ID 275 Interior Construction Systems ...................................... 3
  - ID 234 Environmental Theory .............................................. 3
  - UK Core – Social Sciences .................................................. 3
  - **TOTAL:** ................................................................. 17

#### Semester 5
- **Hours:** 5
  - ID 321 Interior Design Integrated Studio .................................. 5
  - ID 365 Interior Design Finish Materials .................................... 3
  - ID 364 Interior Environmental Control Systems .......................... 3
  - Professional Support ....................................................... 3
  - ID 346 Professional Practice Preparation ................................... 3
  - **TOTAL:** ................................................................. 17

#### Semester 6
- **Hours:** 5
  - ID 321 Interior Design Integrated Studio .................................. 5
  - ID 375 Interior Material and Construction: Detailing ....................... 3
  - ID 366 Lighting Design and Theory .......................................... 3
  - Professional Support ....................................................... 3
  - Professional Support ....................................................... 3
  - **TOTAL:** ................................................................. 17

#### Semester 7
- **Hours:** 5
  - ID 421 Interior Design Senior Thesis I ..................................... 5
  - Professional Support ....................................................... 3
  - Professional Support ....................................................... 3
  - Art History Course ........................................................... 3
  - UK Core – U.S. Citizenship .................................................. 3
  - **TOTAL:** ................................................................. 17

#### Semester 8
- **Hours:** 5
  - ID 422 Interior Design Senior Thesis II ..................................... 5
  - ID 466 Interior Design Professional Practice .............................. 3
  - Professional Support ....................................................... 3
  - UK Core – Statistical/Inferential Reasoning ................................ 3
  - Elective ................................................................. 3
  - **TOTAL:** ................................................................. 17

**Total Credit:** 132
The College of Education prepares students for professional careers in the field of education and human services. In addition to producing excellent teachers, College of Education graduates have gone on to excel in numerous other professional fields. Ninety-eight percent of the college faculty have attained the highest degrees possible in their fields. The College provides students with access to state-of-the-art technology. Each building is equipped with computer laboratories and new “smart” classrooms to keep students and faculty in pace with the latest technological advances in education.

Whether a student’s interest is teaching, administration, school or counseling psychology, coaching, or special education, a degree from the UK College of Education means that he/she will be prepared for a rewarding career and a lifetime of influence on the lives of others.

Educator Preparation at UK

The educator preparation unit of the University of Kentucky includes programs in the colleges of Agriculture, Communications and Information Studies, Education, Fine Arts, Health Sciences, and Social Work that prepare professionals for careers in public education. The dean of the College of Education is the chief educator preparation officer for the UK educator preparation unit.

The theme of the educator preparation unit is Research and Reflection for Learning and Leading. The vision of the unit is to become one of the nation’s 20 best public professional education units with emphasis on research, reflection, learning and leading.

The mission for the UK educator preparation unit is as follows: the Educator Preparation Unit at the University of Kentucky endeavors to expand the knowledge of teaching and learning processes across a broad educational spectrum. The unit fosters a culture of reflective practice and inquiry within a diverse community of students, faculty, and staff. As part of a research-intensive university, the unit prepares professionals for a variety of roles in educational settings and community agencies and provides leadership in the improvement of the education, health, and well being of citizens in the Commonwealth, the nation, and the world.

Accreditation

The Professional Education Unit for the University of Kentucky is accredited by the National Council for the Accreditation of Teacher Education (NCATE), and all professional educator programs are approved by the Kentucky Education Professional Standards Board (EPSB).

Relationship with the Kentucky EPSB

All University of Kentucky educator preparation programs, initial or advanced, have been approved by the Kentucky Education Professional Standards Board (EPSB), in accordance with Kentucky statutes and regulations. In addition to overseeing all educator preparation programs approved for operation in Kentucky, the EPSB also issues, renews and revokes all Kentucky educator licenses (certificates). Kentucky educator certification regulations are always in a state of change. For the most up-to-date information about educator certification, refer to the EPSB Web site at: [www.kyepsb.net/](http://www.kyepsb.net/).

Financial Aid/Scholarships

The College of Education awards scholarships to both undergraduate and graduate students. Information and application forms are available in 166 Taylor Education Building. The deadline for scholarship applications is February 15. Graduate students should also contact the Director of Graduate Studies in their department for information about any targeted scholarship funds. Kentucky residents who are enrolled in a teacher certification program may also apply for funds from the Kentucky Higher Education Assistance Authority Teacher Scholarship program (KHEAA). Students applying for funds through the KHEAA teacher scholarship program must include a completed FAFSA need analysis data form with their applications. Funds are awarded first to students fully admitted to a teacher education program, in order of the greatest financial need. The College of Education also administers the Kentucky Minority Educator Recruitment and Retention scholarship program (MERR) for the Kentucky Department of Education. Minority students applying for MERR funds must be Kentucky residents. Both KHEAA and MERR teacher scholarships awards are forgivable on a semester by semester basis when the candidate teaches in Kentucky public schools. Award recipients who do not teach in Kentucky public schools must pay back the awards, with interest. KHEAA and MERR forms are available in 166 Taylor Education Building.

Undergraduate Programs in Education

The University of Kentucky grants the following degrees in the College of Education:

- Bachelor of Arts in Education
- Bachelor of Science in Education

Students pursuing one of the following majors earn a Bachelor of Arts in Education degree: early elementary education, middle school education, secondary education, or special education (learning and behavior disorders). Students selecting the major in secondary education may specialize in one of the following: English, mathematics, science (biology, chemistry, earth science, physical science or physics), or social studies.

Students pursuing health promotion, kinesiology (teacher certification or exercise science), special education (interdisciplinary early childhood education and moderate and severe disabilities) earn the Bachelor of Science in Education degree.

Persons holding a bachelor’s degree from a regionally accredited institution, with a minimum overall GPA of at least 2.50 may pursue initial educator preparation at the undergraduate level by following any of the certification programs described in this Bulletin. If these persons also wish to earn a UK bachelor’s degree, all UK degree requirements must be met. All educator preparation students at the University of Kentucky are expected to meet the requirements for “Admission, Retention and Exit from Teacher Education Programs” as described on pages 187-188 of this Bulletin.

Graduate Programs in Education

Graduate Degrees and Certificates

The University of Kentucky offers the following graduate degrees for education:

- Master of Arts in Education
- Master of Science (Kinesiology and Health Promotion)
- Master of Science in Education
- Master of Science in Family Studies (Early Childhood Education)
- Doctor of Education (Ed.D.)
- Doctor of Philosophy (Ph.D.)
- Interdisciplinary Doctor of Philosophy (Ph.D. in Education Sciences)
- Rank II (32 hour) and Rank I (30 hour) Programs in Professional Education
Graduate Programs Leading to Advanced Educator Licensure

The University of Kentucky offers graduate programs leading to advanced educator licensure in Reading and Writing, Computer Science in Instructional Systems Design, English as a Second Language, Library Science, Communication Disorders, School Psychology, and School Leadership.

UK Graduate Certificates

The University of Kentucky offers graduate certificates in Middle and Secondary Reading and in Distance Education. (Candidates must hold a valid teaching certificate to enter the Graduate Certificate Program in Middle and Secondary Reading.)

Graduate Programs Leading to Initial Educator Licensure

The following graduate level initial educator certification programs are available at the University of Kentucky: 1) stand-alone certification program in special education/learning and behavior disorders, grades P-12; 2) master of science program leading to certification in moderate/severe disabilities, grades P-12; 3) master of arts in education with initial certification in secondary education, grades 8-12; 4) master of arts in education with initial certification, grades 5-12 in business and marketing education; 5) master of science in career and technical education with initial certification, grades 5-12 (options in agriculture education and family and consumer sciences education); 6) master of science in communication disorders with initial certification, grades P-12; and 7) certification program in school psychology, grades P-12.

For more information about programs, please visit the College of Education Web site at: www.uky.edu/education/.

Graduate Alternative Certification Programs Leading to Initial Educator Licensure

Graduate Alternative Certification Programs leading to initial educator licensure are offered in the areas of Moderate and Severe Disabilities P-12, Middle School Education 5-8, and Secondary Education 8-12. Students who wish to enroll in a Graduate Alternative Certification Program must be employed in one of the participating school districts, and must meet the College of Education Admission, Retention and Completion standards, and the standards of the UK Graduate School. Graduate Alternative Certification Programs are three-year programs, including the Kentucky Teacher Internship Program. Additional alternative certification programs are under development and may become available at any time. Contact the Office of the Associate Dean for Academic and Student Services for more information.

Special Facilities and Services

The Education Library provides a wide range of education materials, with over 400 journals and 100,000 books, plus children’s literature and Kentucky state-approved textbook collections. In addition, major education databases are available through the library’s Web site at: www.uky.edu/Libraries/educ/.

The College’s newly-formed Kentucky P20 Innovation Lab: A Partnership for Next Generation Learning gives students the chance to be part of transforming education to energize and empower today’s students, who were born into a digital age. The Innovation Lab charges college students to play an active role in creating pathways that will lead to a love of learning for generations to come.

The Center for Educator Preparation Information Systems provides database and information system support for the College of Education. In addition, persons associated with the center engage in projects to make information technology more accessible to educator preparation programs nationally and in the Commonwealth.

The Instructional Technology Center provides media services to students, faculty, and programs of the College of Education. Services include computer classrooms, computer hardware and software support, presentation technology, circulation of nonprint teaching materials and audiovisual equipment; a materials preparation laboratory; graphic, photographic, and recorded media; and facilities for working with films and electronic media. The staff is available to assist with a wide range of technology-related activities.

The Literacy Clinic provides diagnostic and instructional services. Reading and language arts materials, children’s literature, professional texts and journals, and other reference materials are available. Tutors are recommended, based on availability.

The Office of Diversity and Equity, 128 Taylor Education Building, (859) 257-1229, serves to “reach” minority students currently enrolled in the College, to become aware of their concerns, to provide needed support, and to encourage participation in activities and programs of particular interest to education majors. The office also works with local and adjacent school districts to implement Future Educators of America clubs, collaborates with Bluegrass Community and Technical College in identifying students who are interested in teaching, participates in campus-wide minority recruitment and retention activities, and builds community awareness of the need for minority teachers through participation in various projects.

The Institute on Education Reform coordinates the efforts of the College of Education to implement the Kentucky Education Reform Act (KERA). The Institute has three major goals: to stimulate research related to the implementation and effectiveness of KERA initiatives; to serve as a clearinghouse for information related to education reform in Kentucky; to provide staff development for teachers and administrators; and to redesign College of Education professional preparation programs to prepare graduates for the restructured schools of Kentucky.

The University of Kentucky Council on Economic Education works with classroom teachers to identify graduate courses, in-service programming, and seminars to help teachers integrate economic concepts into the school curriculum.

The Office of Educational Research and Development provides technical support to faculty and staff involved in research and proposal development, particularly as these enhance the College’s participation in the Kentucky Education Reform Act (KERA), assists in follow-up studies of graduates, and assists with internal studies and evaluations of programs.

The Policy Analysis Center for Kentucky Education (PACKE) conducts research on policy issues related to education and evaluates implemented policies and programs.

The Office of Higher Education Research and Development conducts research on questions on higher education that are important to Kentucky. Research results are shared with the Council on Postsecondary Education and other institutions in Kentucky.

The Biodynamics Laboratory is a multidisciplinary facility housed in the Center for Bioengineering. Faculty and students from Kinesiology and Health Promotion, Biomedical Engineering, Sports Medicine, Athletic Training, Minimally Invasive Surgery, and other related fields use high-speed videography, electromyography, and force measures to understand human movement.

The Pediatrics Exercise Physiology (PEP) Laboratory is one of only a handful of facilities in the world designed specifically to serve the needs of pediatrics patients.

The UK Body Composition Core Laboratory (BCLL) is a human-based laboratory facility specifically designed to provide state-of-the-art body composition analysis for research and clinical investigations.

The Collaborative Center for Literacy Development (CCLD), 120 Quinton Court, Suite 200, was established by the Kentucky General Assembly in 1998 to make available training in literacy for educators and to promote literacy development. The Center focuses on six requirements laid out in Senate Bill 186, to: provide professional development and coaching for classroom teachers to implement reliable research-based reading models; establish a demonstration and training site for early literacy at each of Kentucky’s public universities; collaborate with public and private post-secondary institutions to provide quality pre-service and professional development in early reading instruction; assist
districts located in areas with low reading skills to assess and address identified literacy needs; identify models of reading instruction supported by research; and develop and implement a clearinghouse for information about reading models. The CCLD works to improve achievement for students pre-school through adulthood.

The School Psychology Clinic, 641 Maxwell Court, (859) 257-1381, provides diagnostic assessment, intervention and consultative services to assist children, adolescents, college students, and adult learners with psychological and educational concerns. The clinic is also organized to provide supervised training for graduate students in school psychology at the University of Kentucky. Referrals and requests for services are accepted from parents, teachers, counselors, and others, as well as from school systems, community agencies and organizations.

The Counseling Psychology Services Clinic, 251 Dickey Hall, (859) 257-4159, is operated by the Department of Educational, School, and Counseling Psychology. The CPS Clinic provides individual, couples, family, parent-child, and group counseling. Diverse populations are welcomed: personal, career, and interpersonal issues can be addressed. The CPS Clinic serves as a training facility for advanced-level masters and doctoral students who are supervised by licensed psychologists. Fees for the CPS Clinic operate on a sliding scale to allow the greatest number of individuals in Lexington and the surrounding counties to be served.

The Center for Traumatic Stress Research, 251 Dickey Hall, (859) 257-9338, is a multi-service psychological trauma center dedicated to providing specialized counseling services to trauma survivors. The Center offers short-term psychotherapy to individuals of all ages, critical incident stress debriefings, and assessment and evaluation of posttraumatic symptomatology for litigation and/or disability claims. The Center also serves as a training clinic for graduate students in Counseling Psychology.

General Information

Students who wish to be recommended for any state educator licensure (certification) must meet the requirements of the Kentucky Education Professional Standards Board, and the University of Kentucky Senate.

Students desiring to be recommended for initial certificates in a major must be admitted to the Teacher Education Program associated with that major. The number of students admitted to any University of Kentucky Teacher Education Program is determined by the availability of resources for maintaining quality instruction.

Admission to a teacher education program is highly selective and may be competitive. Meeting minimum requirements for application does not guarantee admission. Students will be recommended for degrees only upon completion of approved degree programs. Students who have not been admitted to a teacher education program will not be permitted to enroll in courses requiring Teacher Education Program admittance.

ADMISSION, RETENTION AND EXIT FROM TEACHER EDUCATION PROGRAMS

A student must be admitted, retained in, and successfully exit from a state-approved teacher education program in order to receive a teaching certificate. The components of an approved teacher preparation program include: 1) an earned bachelor’s degree from a regionally accredited institution of higher education, 2) completion of approved teaching subject matter field(s), 3) successful completion of state mandated testing, 4) completion of a teacher preparation program, including student teaching, 5) and verification by program faculty that all applicable standards have been met.

The College of Education Certification Program Faculty, the College of Education Director of Academic Services and Teacher Certification, and the University Registrar are charged with the responsibility to monitor a student’s progress through the teacher preparation program, and to recommend to the Kentucky Education Professional Standards Board (EPSB) that a successful candidate be awarded a state teaching license (certificate).

Continuous Assessment in Teacher Education Programs

A student’s progress through all teacher preparation programs is continuously monitored, assessed, and reviewed. In addition to typical evaluation processes that occur as part of their course work and field placements, students will be assessed a minimum of three times during their program by representatives of their respective program faculty.

The three assessments will occur upon entry into the Teacher Education Program, at a midpoint in the program (no later than the semester prior to student teaching), and as students exit the program following student teaching. Assessments will include, but are not limited to: (a) appropriate scores on approved standardized tests, (b) review of grades via inspection of transcript, (c) personal and professional skills assessed during interviews with program faculty when taking campus based courses, and during field experiences, (d) portfolio documents, and (e) continued adherence to the Kentucky Professional Code of Ethics.

Following admission to a Teacher Education Program, if problems have been identified at any assessment point, program faculty will determine a plan for addressing the problems and implement the plan including feedback and direction to the student. In addition, if specific strengths are recognized during these assessments, the student will be commended.

Standards for Admission to a Teacher Education Program

1. Candidates for admission must have completed at least 60 semester hours, or, if pursuing initial certification as a post-baccalaureate graduate or graduate student, must have earned a bachelor’s degree from a regionally accredited institution of higher education. Early Elementary Education majors may apply to the Teacher Education Program after completing 45 hours.

2. Candidates for admission must demonstrate academic achievement by earning a minimum overall GPA of 2.50. In addition, post-baccalaureate graduate and graduate level students must demonstrate a minimum 2.50 GPA in the teaching subject matter field(s). Students seeking admission to a Master’s Degree initial certification program must also satisfy UK Graduate School admissions standards.

3. Candidates for admission must certify their knowledge of the Kentucky Professional Code of Ethics and must sign a statement acknowledging character and fitness review.

4. Candidates for admission must demonstrate aptitude for teaching by presenting three letters of recommendation from individuals who can attest to the candidate’s potential success in teaching.

5. Candidates must present an Admissions Portfolio. Although the contents of the portfolio will vary by program, it will include at least the following: “best piece” sample(s) of writing in the subject matter field(s); evidence of experience with students and/or community; and a written autobiography or resume.

6. Candidates for admission must demonstrate an acceptable level of skills in written communication. This will be assessed through an on-demand writing task at the time of the interview. In lieu of an on-demand task, program faculty may require that the candidate demonstrate having earned a minimum grade of B in a college-level written composition course.

7. Candidates for admission must demonstrate an acceptable level of skills in oral communication. This will be assessed by the program faculty at the time of the admissions interview. In lieu of assessing oral communication skills at the time of the interview, the program faculty may require that students have earned at least a B in a college level public speaking course.

8. Candidates for admission must present acceptable scores on one of the following standardized tests:
   - ACT – with minimum composite score of 21.
SAT – minimum composite score of 1500 required for tests taken after March 2005. Prior to March 2005, 990 (combination of Verbal and Quantitative). A minimum grade of B on a college level written composition course must accompany the SAT scores. Composition courses normally used to fulfill this requirement include ENG 101, ENG 102, ENG 104, ENG 105, ENG 305, or an equivalent course from another institution. Advanced Placement English used to fulfill the UK Core writing requirement may also be used.

GRE – Applicants whose GRE scores reflect the new Analytic Writing test must have at least a combined score of 800 on the Verbal and Quantitative portions of the GRE, in conjunction with an Analytic Writing score of 4. For prior version of GRE, minimum composite score of 1200 (combination of Verbal, Quantitative, Analytic). A minimum grade of B on a college level written composition course must accompany the GRE scores. Composition courses normally used to fulfill this requirement include ENG 101, ENG 102, ENG 104, ENG 105, ENG 305, or an equivalent course from another institution. Advanced Placement English used to fulfill the UK Core writing requirement may also be used.

PRAXIS I Reading Test – (173 paper or 320 computer), Mathematics (173 paper, 318 computer), and Writing (172 paper, 318 computer).

Rules which accompany the standardized testing requirements are as follows:

- No standardized test scores older than eight years can be used to meet this requirement.
- GRE scores may be used only by students who hold a bachelor’s degree.
- Students may retake subtests in multipart tests.
- Students seeking entrance to a graduate degree initial certification program must meet both the graduate school rules regarding the GRE, and College of Education rules for certificate program standardized testing.
- For those programs requiring EDP 202 as a prerequisite for admission to teacher education, students must complete EDP 202 with a grade of C or better.

Retention of Candidates in Teacher Education Programs

The progress of candidates who have been admitted to a teacher education program is continuously monitored. Some of the items which are monitored are: (a) whether a student continues to earn grades of C or better in professional education classes, (b) whether a student continues to maintain 2.50 minimum GPAs overall, 2.50 in the professional education component as defined in the student’s program description, and 2.50 in all required subject areas, (c) whether a student continues to demonstrate adherence to the EPSB Professional Code of Ethics, and (d) whether adequate progress is being made in building the Working Portfolio.

If problems are identified, program faculty will determine a plan for addressing the problems and implement the plan including feedback and direction to the student.

Prior to the student teaching semester, each candidate will be asked to provide evidence in the form of the Working Portfolio to demonstrate the acquisition of skills related to teaching in the chosen subject field, and to document progress in any identified problem areas. Each candidate’s portfolio will be reviewed by the appropriate program faculty, and continued progress through the program will be contingent on the results of this midpoint review.

Admission to student teaching requires a successful retention review and recommendation by the program faculty that the candidate be allowed to student teach.

All teacher certification candidates are encouraged to complete the required state-mandated examinations prior to beginning student teaching.

Exit from Teacher Certification Programs

All candidates for completion of a teacher education program must continue to meet all standards for admission and retention at the time of exit.

At exit all teacher certification candidates must present an Exit Portfolio for review by the appropriate program faculty. The exit portfolio will be organized by Kentucky New Teacher Standards and will include a mix of items selected by the candidate and required by the particular program faculty.

The program faculty must certify that a review of the Exit Portfolio, and other pertinent documents has demonstrated that the candidate has met all of the Kentucky New Teacher Standards as a prerequisite to recommending the candidate for a teaching license.

Prior to exit from the teacher certification program all candidates must achieve required cut-off scores on all Kentucky state mandated teacher certification tests.

State Mandated Testing and the Kentucky Teacher Internship

Successful completion of the examinations required by the Kentucky Education Professional Standards Board is a precondition for the granting of a teaching license (certificate).

Upon being recommended by the College of Education for a Kentucky Teaching License (Certificate), a candidate will be issued a Kentucky Letter of Eligibility for the Kentucky Teacher Internship Program. Upon employment in a Kentucky P-12 school, the candidate will receive a one-year license to practice as a fully qualified intern teacher. After successfully completing the internship year, the candidate will be eligible for a regular Kentucky Professional Teaching License (Certificate). An exception to this rule are the Kentucky Alternative Certification Programs. In these programs, the Kentucky Teacher Internship is part of the program, which allows candidates, upon completion of the program, to be recommended for a full professional educator license (certificate).

Information concerning licensure in other states is available from the College of Education office of Academic Services and Teacher Certification.

Admission and Graduation for Secondary Education Students Not Seeking Admission to a Teacher Certification Program

1. All students pursuing a secondary education major without teacher certification must be admitted to advanced standing as described in items 2 - 4 below.

2. To be admitted to advanced standing, a student must have completed at least 60 semester hours.

3. Students must demonstrate academic achievement by earning a minimum overall GPA of 2.50 at the time of applying for advanced standing. At the time of graduation, students must demonstrate not only a minimum overall GPA of 2.50, but also a minimum GPA of 2.50 in the teaching subject matter field(s).

4. All requests for admission to advanced standing must be reviewed by appropriate faculty advisors. Students not recommended for advanced standing by an appropriate advisor are ineligible to continue in or graduate from College of Education programs.

Calculation of GPAs for Admission to Initial Certification Programs

GPA Rules

All candidates for admission to a UK initial teacher certification program must have earned an undergraduate cumulative GPA of at least 2.50.

In addition, candidates for admission to a graduate level initial certification program, i.e., secondary programs, career and technical education, must have earned in their subject area fields a GPA of at least 2.50.

Master’s degree initial certification programs require a cumulative GPA of 3.0 for all graduate work prior to admission to the program.

UK cumulative GPAs are figured using the rules of the UK Registrar.
Undergraduate initial certification programs require a UK cumulative GPA of 2.50 calculated after the completion of at least twelve semester credit hours.

All courses used to satisfy subject matter certification requirements are used to calculate subject matter GPAs. Verification of subject matter GPAs require the use of any applicable non-UK transcripts for information about grades, credit hours and quality points.

Master’s degree initial certification programs require an undergraduate degree with an overall GPA of 2.50, but do not require a UK cumulative GPA prior to admission.

Post bachelor’s degree initial certification programs require an undergraduate degree with an overall GPA of 2.50, but do not require a UK cumulative GPA prior to admission.

**Determination of GPAs for Admission to Initial Certification Programs**

If the initial certification program requires a UK GPA, the GPA would be calculated using the rules of the UK Registrar.

If the initial certification program does not require a UK GPA, the required cumulative GPA of at least 2.50 is taken directly from the transcript that shows the award of the Bachelor’s degree.

If an initial program requires review of the graduate GPA, all graduate courses taken on all transcripts are used to calculate the graduate GPA of at least 3.0.

Candidates for admission to a post-baccalaureate graduate initial certification program with less than a 2.50 cumulative GPA may establish a UK undergraduate GPA for the purposes of admission to the program.

Subject area GPAs are calculated using all courses included on the candidate’s approved subject area course listing form.

Questions regarding the College of Education Admission/Retention/Exit policy should be directed to:

Office of Academic Services and Teacher Certification
166 Taylor Education Building
University of Kentucky
Lexington, KY 40506-0001
(859) 257-7971
www.uky.edu/education/

**General Rules for Student Teaching**

A student may enroll in student teaching in one of the educator preparation programs provided he or she has:

1. been admitted and retained in the appropriate teacher education program;
2. maintained a grade-point standing of at least 2.50 in (a) subject matter area(s) as defined by the program, (b) professional education, (c) related studies, and (d) overall;
3. completed all professional education courses except student teaching;
4. completed a minimum of 75 percent of the required subject matter courses;
5. applied and been accepted for student teaching two semesters prior to the one in which student teaching is to be done;
6. completed the required national and state criminal background check with no criminal background identified;
7. been accepted by the school system and supervising teacher where he or she plans to do student teaching;
8. scheduled no more than 3 hours of college work to be carried during student teaching with no classes scheduled to interfere with the student teaching assignment; and,
9. presented evidence of having had a specified physical examination.

10. P-12 certification programs require student teaching in more than one grade level.

**Policy on Intensive Field Experiences**

The University of Kentucky College of Education is committed to preparing candidates for the teaching profession who are effective, reflective decision-makers. To that end, and in order to meet state certification regulations and national accreditation requirements, teacher candidates complete an array of carefully planned field experiences. These experiences are systematically integrated into the teacher education program curriculum.

In order to ensure high-quality experiences, the College has established a network of clinical sites where candidates complete field placements. These sites are part of the university’s extended campus known as the university clinical/field network. Sites are selected at the program level (i.e., by the program faculty that governs the curriculum for the particular certification area). Selection decisions are made using specific criteria that are directly linked to program goals, accreditation standards, and certification requirements.

All teacher candidates are expected to complete their intensive field experiences (referred to as practicum and student teaching) in these approved clinical sites.

**Character and Fitness Reviews**

All students seeking admission to, retention in, or completion of a UK educator preparation program, must complete a state mandated character and fitness review. In addition, students with records of misconduct beyond simple traffic violations must provide complete documentation of this misconduct utilizing written procedures available in the office of Academic Services and Teacher Certification. Records of misconduct will be available for use by program faculties in making decisions about admission, retention and completion of the program. Students must also complete any state-mandated background checks, which may include a national check of FBI records. By Kentucky statute, persons with records of serious legal misconduct are ineligible for student teaching, state teaching licensure, or employment in the public schools. Students are responsible for completing all required background check procedures in a timely manner so that decisions about their movement through the program may be made.

**Appeals**

Candidates who are denied admission to an educator certification program, not retained in the program, or denied completion of the program, may appeal the decision of the program faculty.

The first appeal is for the program faculty to reconsider its initial decision. Candidates must request a reconsideration within 30 days of the date on the letter of denial. The request for reconsideration must be presented to the program faculty chair, who will call a meeting of the program faculty to review the original decision. The program faculty chair will notify the Director of Academic Services and Teacher Certification of the faculty’s decision, and the Director will notify the candidate in writing.

If the program faculty does not alter its initial decision, the candidate may appeal to the College of Education standing committee on Undergraduate Admissions and Standards or the College of Education standing committee on Graduate Admissions and Standards. Candidates wishing to appeal to one of these admissions and standards committees must present their request for committee review to either the Associate Dean for Academic and Student Services or the Associate Dean for Research and Graduate Studies. The Associate Dean will assemble the necessary materials, call the committee together to hear the appeal, and inform the candidate of the committee’s decision. The Associate Dean will also notify the Director of Academic Services and Teacher Certification so that student records may be updated. For purposes of admission, retention or completion of educator certification programs, the decision of the admissions and standards committee is final.

**Standards and Standards Sets in Educator Preparation Programs**

All College of Education programs are standards-based, requiring candidates to meet these standards before completing an educator preparation program. Candidates are assessed on these standards at the three continuous assessment points: admission to the program, prior to final practicum experiences, and at program completion.

There are three core sets of standards required for completion of all College of Education educator preparation programs. They are: Interdisciplinary Early Childhood Education Standards
The Department of Educational, School, and Counseling Psychology offers coursework leading to provisional and standard certification and licensure in the Commonwealth of Kentucky, by the Education Professional Standards Board and the Kentucky Board of Psychology respectively. The UK counseling and school psychology doctoral programs are fully accredited by the American Psychological Association (APA), and the doctoral and specialist degree programs in school psychology are approved by the National Association of School Psychologists (NASP) and the National Council for the Accreditation of Teacher Education (NCATE).

Educational Leadership Studies

The Department of Educational Leadership Studies seeks to improve the quality of American education through improved training and competence of administrators. The department is particularly mindful of its obligation to supply the needs of Kentucky for high quality administrators in public schools and educational agencies. Advanced programs are offered to meet certification requirements for elementary, middle, and secondary principals, supervisors of instruction, and superintendents of schools.

Educational Policy Studies and Evaluation

The Department of Educational Policy Studies and Evaluation provides a unique opportunity for students who wish to develop the knowledge, judgment, and research skill required to address educational issues with flexibility and imagination. Students are offered the resources of historical, sociological, philosophical, and comparative analysis; knowledge of current educational issues; expertise in evaluation research; and the opportunity to learn skills necessary to evaluate the significance of studies that bear on policy. The department offers advanced degrees only.

Kinesiology and Health Promotion

The Department of Kinesiology and Health Promotion offers undergraduate courses and degree programs in kinesiology (physical education) and health promotion. Students are encouraged to take one 1-credit physical education class each semester during the first two years of college.

The Physical Education University Service Program offers beginning instruction in both individual and team activities. Individual skill instruction is available in weight training, conditioning and fitness, golf, racquet sports, gymnastics, swimming, scuba diving, aerobic running and swimming, and dancing. Instruction in such team activities as basketball, soccer, volleyball, and softball is also available. In addition, intermediate...
and advanced courses in many of the activities are offered.

The kinesiology program is designed for students interested in teaching as well those interested in the application of knowledge and skills in kinesiology and health promotion in commercial settings. Students desiring teacher certification will complete one or more of the programs in kinesiology and health promotion described in this Bulletin. The department also offers a non-teaching certification kinesiology program in exercise science.

The purpose of health promotion is to promote quality of life for all people. This area of study is interdisciplinary, extending into biology, psychology, sociology, and medicine. Health promotion generally focuses on the whole individual, including social and emotional dimensions, not just the physical. The primary focus of course work in health promotion is on teacher certification. Opportunities for health educators exist in community agencies, adult fitness programs, and health education programs in industry and business. The department offers a minor in health promotion that does not lead to teacher certification.

Special Education and Rehabilitation Counseling

The Department of Special Education and Rehabilitation Counseling offers three different programs of study at the undergraduate level: (1) interdisciplinary early childhood education; (2) learning and behavior disorders; and (3) moderate/severe disabilities.

The department offers graduate level programs leading to initial educator certification in learning and behavior disorders, moderate/severe disabilities, and interdisciplinary early childhood education. Students may also pursue the masters degree in rehabilitation counseling, and graduate advanced preparation in a variety of special education topics.

DEGREE PROGRAMS IN THE COLLEGE OF EDUCATION

B.A. in Education with a major in EARLY ELEMENTARY EDUCATION

Requirements for Program

The Early Elementary Education Program is aligned with the New Teacher Standards of the Kentucky Education Professional Standards Board, and the national standards for elementary education approved by the National Council for the Accreditation of Teacher Education.

The model for the early elementary education program presumes a collaborative relationship between school and university personnel focused on ensuring a high level of individual attention to the mentoring and socialization of teacher candidates. The faculty recognizes that this is a labor-intensive process, requiring sustained time and effort by all parties. Work in early elementary education must be guided by two principles: first, a commitment to continuous improvement based on reflection, evaluation, and on-going research; second, a commitment to peer collaboration as a source of professional growth for teacher candidates as well as school and university faculty.

To receive the B.A. degree in Early Elementary Education, students must: (1) complete the UK Core requirements; (2) complete the program related studies courses; and (3) complete the professional education component.

Continuous Assessment

1. Admission to the program is based on a selective admission process that generally occurs after students have completed 60 hours of university course work. All students are expected to meet the standards and rules for Admission, Retention and Exit from the Teacher Education Program as set forth in the section “Admission, Retention and Exit from Teacher Education Programs” on pages 187-188.

2. Assessment at the Point of Entry to the Early Elementary Education Program. At the point of entry students must present an admission portfolio which includes the following: a) a “best piece” sample of writing which demonstrates ability to research a topic in some depth; b) evidence of multicultural/cross-cultural experience with written reflection on the experience; c) evidence of having completed 30 hours of community service with early elementary age children, including a written reflection on the experience; d) evidence of having completed 20 clock hours of field experience in an elementary school, supervised by a qualified person; and, e) a written autobiography. Also at the time of entry, students will be required to complete an on-demand writing task.

3. On-Going Assessment: Assessment During the Professional Introduction Semester. Assessment of progress in the Professional Introduction semester includes assessment strategies specific to individual courses, but also includes an overall “Professional Introduction Portfolio.” This portfolio is intended to be an extension of the admissions portfolio, adding the following exhibits: a) philosophy of education statement (this will be modified as candidates move through the program); b) “best piece” samples from course work that show evidence of content knowledge, pedagogical content knowledge, and effective practice (given the students’ level of experience); and c) evidence of competence in instructional applications of technology and systems of information management.

4. Assessment of Progress in the Professional Block. This includes assessment strategies specific to individual methods courses that confirm content as well as pedagogical knowledge. It also includes some additional assessments. At the beginning of the semester, students’ Professional Introduction Portfolios are reviewed and placement needs are discussed. Once the semester begins, students are observed throughout the semester by their supervisor and are assessed using an observation form which directly reflects the New Teacher Standards. Students also submit videotapes of themselves teaching and an analysis of these as well as other lessons they have taught. The supervisors provide feedback on these lessons as well. The faculty also reviews students’ Professional Development Plans. Each student develops a Professional Development Plan (PDP) in cooperation with UK faculty and school-based faculty. The PDP includes reflections on the student’s strengths and areas that need further work. This document serves as a planning tool for student teaching. Students also continue the development of their teaching portfolio, adding information that demonstrates competence on tasks related to the New Teacher Standards for each Professional Block course.

5. Assessment During the Student Teaching Semester. Students are assessed in a variety of ways during this semester. Student assignments include: observations reports, developing a thematic unit, critiquing their own teaching using videotapes, completing two solo weeks, and further developing their teaching portfolios.

Statement on Student Teaching

Students in the early elementary education program complete 16 weeks of student teaching, concentrating on the ages in grades P-5. (See the section on “Student Teaching” on page 189 for additional information on student teaching.)

UK Core Requirements

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

I. Intellectual Inquiry in Arts and Creativity

Choose one course from approved list ......................... 3

II. Intellectual Inquiry in the Humanities

Choose one course from approved list ......................... 3

III. Intellectual Inquiry in the Social Sciences

Choose one course from approved list ......................... 3

IV. Intellectual Inquiry in the Natural, Physical, and Mathematical Sciences

Choose one course from approved list ......................... 3

VII. Quantitative Foundations

MA 111 Introduction to Contemporary Mathematics ......................... 3
B.S. in Education with a major in
HEALTH PROMOTION
(Teacher Certification Program)

Requirements for Program

The Department of Kinesiology and Health Promotion offers undergraduate courses and degree programs in kinesiology (physical education) and health promotion. These programs support the UK educator preparation unit's theme of Research and Reflection for Learning and Leading. The process of reflective decision-making is embedded in the departmental philosophy that students learn best through experiencing. The Health Promotion Program is guided by the standards of the American Association of Health Education (AAHE) and the Kentucky New Teacher Standards.

The health promotion program ensures an understanding of and knowledge about the structure of the health promotion discipline through the content and methodology courses in sexuality education, drug education, human health and wellness, nutrition, and program planning in health education. The purpose of health promotion is to promote quality of life for all people. This area of study is interdisciplinary, extending into biology, psychology, sociology, and medicine. Health promotion generally focuses on the whole individual, including social and emotional dimensions, not just the physical.

The B.S. in Health Promotion requires completion of the following: (1) the UK Core requirements; (2) specified course work in Program Related Studies and Professional Education; and (3) the health promotion major. Students wishing to pursue certification both in health and kinesiology must follow the kinesiology program described.

Continuous Assessment

1. All students in the health promotion program are expected to meet the standards and rules for Admission, Retention, and Exit from Teacher Education Programs as set forth in the section “Admission, Retention and Exit from Teacher Education Programs” on pages 187-188.

2. The health promotion program stimulates higher performance goals for high-performing students by offering several modes of performance. Examples are: (a) skills in performing physical activities; (b) skills in writing and oral presentations in theory courses; (c) computer technological skills in some courses; and (d) leadership skills demonstrated by high-performing students who serve as class leaders, peer tutors, and/or assistant instructors.

3. After admittance to the program, students not only must maintain a 2.50 GPA, they must continue to exhibit desirable professional characteristics to remain in the program. Students who demonstrate a lack of commitment, effort, professional behavior, knowledge, or teaching skills may be removed from the program until these characteristics are demonstrated.

Statement on Student Teaching

Students who are majoring in Health Promotion will enroll in:

KHP 371 Student Teaching in Health Education 12

UK Core Requirements

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

*These courses require admission to the Teacher Education Program.
**B.S. in Education with a major in INTERDISCIPLINARY EARLY CHILDHOOD EDUCATION**

**Requirements for Program**

Early Childhood Education is an interdisciplinary program which will prepare educators to work with children birth through age five, in public pre-primary classes and non-public institutions including day care, private preschool, and private kindergarten. The program is approved by the Kentucky Education Professional Standards Board to prepare graduates to seek a state teaching certificate in Interdisciplinary Early Childhood Education.

The faculty of the Interdisciplinary Early Childhood Education program are associated with the Department of Special Education and Rehabilitation Counseling. The faculty believe that teaching young children involves viewing children holistically, using structured behavioral approaches. They recognize that viewing children holistically requires considering all of the various settings of children’s environment (e.g., home, school, and neighborhood) as well as the reciprocal relationship between any two of the following variables: the immediate context the child is active in, the individual child, and all aspects of the child’s environment (including people). In the Interdisciplinary Early Childhood Education program, students will learn to apply behavioral principles for purposes of developing curricula, assessing child behavior, planning, implementing, and monitoring interventions, and assisting families. The program is guided by the standards of the National Association for the Education of Young Children, and the Division of Early Childhood of the Council For Exceptional Children.

To receive the B.S. degree in Education with a major in Interdisciplinary Early Childhood Education, students must: (1) complete the UK Core requirements; (2) complete the major requirements; and (3) complete requirements for the Interdisciplinary Early Childhood Education major, including required student teaching experiences and other practica. To be state-certified, candidates must also successfully complete all state-mandated testing requirements.

**Continuous Assessment**

1. All students in the interdisciplinary early childhood education program are expected to meet the standards and rules for Admission, Retention, and Exit from Teacher Education Programs as set forth in the section “Admission, Retention and Exit from Teacher Education Programs” on pages 187-188.

2. **Assessment at the Point of Entry to the IECE Program.** The admission process provides the first point for formal assessment of the competencies outlined in the Initial Certification Program Folio for the program. Students who apply for admission must (a) meet the require-ments for admission to the Teacher Education Program, and (b) be able to articulate their philosophy of teaching and document their experiences with young children in an initial portfolio and an entrance interview.

3. **On-going Assessment.** Once a student is admitted to the program, he/she meets with an advisor to plan the remainder of the program. Prior to the student teaching semester, the student must present a portfolio that documents his/her progress toward meeting program competencies.

4. **Exit Assessment.** At the exit assessment, students must document that they have met all program competencies through a final review of their portfolio and the successful completion of student teaching in an appropriate school placement for young children with and without disabilities.

**Statement on Student Teaching**

Student teaching in the Interdisciplinary Early Childhood Education program is 16 weeks. Students will enroll in:

IEC 411 Student Teaching in Interdisciplinary Early Childhood Education

**Degree Requirements**

Students in Interdisciplinary Early Childhood Education must complete the following:

1. Complete the UK Core requirements.
2. Complete all degree requirements with a minimum grade-point average of 2.5 (required for teacher certification).
3. Complete the required curriculum in the major program.
4. All students majoring in Interdisciplinary Early Childhood Education must apply and be admitted to the professional Teacher Education Program in order to complete the program.

**UK Core Requirements**

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

I. **Intellectual Inquiry in the Humanities**
   Choose one course from approved list

II. **Intellectual Inquiry in the Social Sciences**

Subtotal: Premajor Hours ........................................ 23

All students in Interdisciplinary Early Childhood Education must apply, and be admitted to, and be retained in a Teacher Education Program (TEP), and complete a state approved university teacher training program in Early Childhood Education to be able to apply for certification. Students who are interested in certification in Early Childhood Education need to meet with a certification officer in the College of Education prior to completing 60 semester hours to discuss state certification and TEP requirements. A minimum 2.5 cumulative GPA is required to be eligible to apply for admission to TEP. TEP applications will be reviewed for students who have completed, or will complete during the semester in which they apply, 60 semester hours, including EDP 202, EDS 375, FAM 255, and FAM 256 with a grade of C or better.

B.S. in Education with a major in KINESIOLOGY (Teacher Certification Program)

Requirements for Program
The Department of Kinesiology and Health Promotion offers undergraduate courses and degree programs in kinesiology (physical education) and health promotion. These programs support the UK educator preparation unit’s theme of Research and Reflection for Learning and Leading. The process of reflective decision-making is imbedded in the departmental philosophy that students learn best through experiencing. The kinesiology program is guided by the standards of the National Association for Sport and Physical Education (NASPE), and the Kentucky New Teacher Standards.

The kinesiology program ensures an understanding of and knowledge about the structure of the physical education and dance disciplines through the content courses of anatomy, physiology, kinesiology, exercise physiology, and nutrition. Application of this knowledge is demonstrated in physical education and dance activities to ensure discipline knowledge for teaching.

The B.S. in Kinesiology requires completion of: (1) the UK Core requirements; (2) specified course work in Program Related Studies and Professional Education; and (3) one of the kinesiology plans. All kinesiology students are encouraged to complete Plan 1, which includes majors in kinesiology and health promotion, so that on graduating they will be qualified to pursue state teaching certification in physical education and health, grades P-12.

Continuous Assessment
1. All students in the kinesiology program are expected to meet the standards and rules for Admission, Retention, and Exit from Teacher Education Programs as set forth in the section “Admission, Retention and Exit from Teacher Education Programs” on pages 187-188.

2. The kinesiology program stimulates higher performance goals for high-performing students by offering several modes of performance. Examples are: (a) skills in performing physical activities; (b) skills in writing and oral presentations in theory courses; (c) computer technological skills in some courses; and (d) leadership skills demonstrated by high-performing students who serve as class leaders, peer tutors, and/or assistant instructors.

3. After admittance to the program, students not only must maintain a 2.50 GPA, they must continue to exhibit desirable professional characteristics to remain in the program. Students who demonstrate a lack of commitment, effort, professional behavior, knowledge, or teaching skills may be removed from the program until these characteristics are demonstrated.

Statement on Student Teaching
Students who are majoring only in kinesiology will enroll in:

KHP 369 Student Teaching in Physical Education ........ 12

Students who are completing a major in both kinesiology and health promotion will enroll in:

KHP 369 Student Teaching in Physical Education ........ 6
KHP 371 Student Teaching in Health Education ............ 6

In this situation, student teaching time will be divided between the high school, middle school, and elementary grades, with student teaching supervision occurring cooperatively between the kinesiology and health promotion faculty.

UK Core Requirements
See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

B.S. in Education with a major in KINESIOLOGY

(Non-Teacher Certification Program)

Requirements for Program

The Department of Kinesiology and Health Promotion offers undergraduate courses and degree programs in kinesiology (physical education) and health promotion. The kinesiology program (non-teacher certification) leads to employment opportunities in the athletics and sports industries. The kinesiology program is guided by the standards of the National Association for Sport and Physical Education (NASPE).

The B.S. in Kinesiology requires completion of: (1) the UK Core requirements; (2) specified course work in program related studies, professional kinesiology requirements, education course requirements; (3) practicum in recreation; and (4) specified course work in exercise science.

Continuous Assessment

1. The kinesiology program stimulates higher performance goals for high-performing students by offering several modes of performance: (a) skills in performing physical activities; (b) skills in writing and oral presentations in theory courses; (c) computer technological skills in some courses; and (d) leadership skills by high-performing students are often used in classes through class leaders, peer tutors, and/or assistant instructors.

2. Students must maintain a 2.0 GPA for retention in and exit from the program with a bachelor’s degree. After 60 hours, students must be admitted to advanced standing. Students who demonstrate a lack of commitment, effort, professional behavior, knowledge, or disciplinary skills, or who have not maintained the necessary GPA overall and in the major courses may be removed from the program and the college.

UK Core Requirements

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

B.A. in Education with a major in LEARNING AND BEHAVIOR DISORDERS (LBD)

Requirements for Program

Two undergraduate programs are offered in special education: learning and behavior disorders (LBD) and moderate and severe disabilities (MSD). Both of these programs support the UK educator preparation unit’s theme of Research and Reflection for Learning and Leading. Special education teachers are prepared to assess, plan, and teach based on what they learn from their students and to conduct continuous self-reflection in order to improve their teaching. The standards and competencies on which the LBD and MSD programs are based are those prescribed by The Council for Exceptional Children and The Kentucky New Teacher Standards.

The B.A. program in Learning and Behavior Disorders, P-12, prepares students to teach individuals with disabilities (including learning disabilities, emotional/behavioral disorders, mild mental disabilities, other health impaired, and physical disabilities) in primary through twelfth grades. Advising early in the B.A. program is essential in order to complete the requirements in a timely fashion.

Continuous Assessment

1. All students in the LBD program are expected to meet the standards and rules for Admission, Retention and Exit from the Teacher Education Program (TEP) as set forth in the section “Admission, Retention and Exit from Teacher Education Programs” on pages 187-188.

2. Assessment at the Point of Entry to the LBD Program. The admission process provides the first point for formal assessment of the competencies outlined in the LBD program. Students applying for admission must: (a) meet the requirements for TEP admission; (b) have successfully completed a special education survey course (EDS 375) and practicum (EDS 357); (c) be able to articulate, orally and in writing, their philosophy of teaching and their experiences with persons with disabilities; and (d) prepare an acceptable extemporaneous writing sample. Entry level assessments will be conducted by program faculty representatives through analysis of TEP application materials, portfolio entries, and an entrance interview.

3. On-going Assessment. Once a student is admitted to the TEP, he/she meets with an advisor from the LBD program faculty to plan the remainder of the program. Prior to the student-teaching semester, the student must present a portfolio that documents his/her progress toward meeting program competencies in the courses completed up to that point. Mid-point assessments will be conducted by program faculty representatives through analysis of transcripts, and portfolio entries, as well as performance in practica courses.

4. Exit Assessment. At the exit assessment, students must document that they have met all program competencies. Exit assessments will be conducted by program faculty representatives through a formal analysis of transcripts, student portfolios, and student teaching evaluations. In addition each student must earn passing scores on the required PRAXIS exams.

Statement on Student Teaching

Student teaching in the LBD program is sixteen weeks in LBD classrooms. Students split the sixteen weeks evenly between an elementary school placement and a secondary (middle school or high school) placement.

Special Education/LBD Certification (P-12)

UK Core Requirements

See the UK Core section of this Bulletin for the complete UK core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

TOTAL HOURS ................................................................ 120
B.A. in Education with a major in MIDDLE SCHOOL EDUCATION

Program Description

The Middle School Teacher Education Program supports the UK educator preparation unit’s theme of Research and Reflection for Learning and Leading. The program emphasizes the development of professionally trained specialists in teaching early adolescents. As such, the program models team teaching and collaborative learning. Active learning experiences are emphasized, as are real-world connections. Throughout the program, students are encouraged to consider their present position and make plans for improvement. Students are urged to gather data continuously and to use this data in planning effective instruction. Students are required to provide questions for reflection when writing lessons they do not teach and to provide reflective summaries as part of lesson plans which are delivered to students. Students are provided time and resources to revise and improve curricular materials they develop within the program. Students assess their own progress through the program’s curriculum, preparing them for the continuous self-assessment required of practicing professionals.

To receive the B.A. degree in Middle School Education, students must: (1) complete the UK Core requirements; (2) complete all required program-related studies and the professional education course sequence; and (3) complete the content area requirements in each of two areas of specialization. Available content specialization areas are: English and Communication, Mathematics, Science, and Social Studies.

Continuous Assessment

1. All middle school education students are expected to meet the standards and rules for Admission, Retention and Exit from Teacher Education Programs as set forth in the section “Admission, Retention and Exit from Teacher Education Programs” on pages 187-188 of this Bulletin.

2. Assessment at the Point of Entry to the Middle School Program. The admission process provides the first point for formal assessment of the competencies outlined by the standards documents which guide the middle school education program. Basic skills standards must be met and students must be making satisfactory progress towards professional and content area proficiency in order for students to win admission.

3. On-going Assessment. Once a student is admitted to the program, he/she meets with an advisor to plan the remainder of the program. The focus of this initial advising session is to begin a professional development plan which ensures that all standards will be met by program exit.

4. Exit Assessment. At the exit assessment, students must show competency in all relevant standard areas. This is done through a final review of the eligibility portfolio, review of information provided by the cooperating teacher and university supervisor, and documentation of remediation of any weaknesses noted at the formal review in the methods semester.

Statement on Student Teaching

Student teaching in middle school education is 16 weeks. Middle school certification requires students to be certifiable in two academic subject areas, which requires two student teaching placements. Students seeking Middle School certification will register for:

EDC 349 Student Teaching in the Middle School ...... 12

UK Core Requirements

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

Professional Education Courses (40 hours)

The National Middle School Association (NMSA) describes six broad areas of competence for middle grades teachers. These areas are: (1) early adolescent development, (2) middle grades curriculum, (3) middle grades instruction, (4) middle grades school organization, (5) families and community relations, and (6) middle grades teaching roles. With the support of a liberal arts foundation provided by the UK Core requirements and the content area knowledge provided by the requirements detailed above, the professional education requirements of the program endeavor to provide a firm foundation in each of these six areas.

*EPD 202 Human Development and Learning .................. 3
*EPD 203 Teaching Exceptional Learners in Regular Classrooms ...................................................... 3

*EP 301 Education in American Culture ......................... 3

All of the following courses require admission to the teacher education program:

*EDC 317 Introduction to Instructional Media ................. 1
*EDC 329 Teaching Reading and Language Arts
(EDC 329 is a prerequisite to EDC 330) .......................... 3
*EDC 341 Middle School Curriculum
and Instruction (spring only) ........................................ 3
*EDC 330 Designing a Reading
and Language Arts Program for the Middle School (fall only) .................. 3
*EDC 343 The Early Adolescent Learner:
Practicum (fall only) ...................................................... 3

*Special Methods Courses in TWO Areas of Specialization (fall only) ............................................. 6

Choose from:

EDC 345 Teaching Mathematics in the Middle School
EDC 346 Teaching Social Studies in the Middle School
EDC 347 Teaching English and Communication in the Middle School
EDC 348 Teaching Science in the Middle School
EDC 349 Student Teaching in the Middle School ... 12

*These courses include clinical and/or field hours.

Note: EDC 330, EDC 343, and the two methods classes will be taken as a block in a fall semester.

Content Area Courses (24-34 hours)

Students wishing to become certified in middle school (grades 5-9) must select two of the following content areas of specialization. Course requirements, particularly in the areas of English and Communication and Mathematics, have been prioritized to reflect prerequisite knowledge. Students should plan course work in these areas with the assistance of an advisor.

English and Communication (29-30 hours)

Required (15 hours)

COM 252 Introduction to Interpersonal Communication ......................... 3
EDC/ENG 509 Composition for Teachers (fall only) .... 3
ENG/LIN 513 Teaching English as a Second Language (fall only) .................. 3

*Special Methods Courses in TWO Areas of Specialization (fall only) ............................................. 6

Select three courses from the following section:

Focused Literary Studies (9 hours)

CLA 261 Literary Masterpieces of Greece and Rome .... 3
ENG 333 Studies in a British Author or Authors
(Subtitle required) ....................................................... 3
ENG 336 Studies in an American Author or Authors
(Subtitle required – other than non-fiction) .................. 3
ENG 340 Shakespeare ..................................................... 3
ENG 481G Studies in British Literature
(Subtitle required) ....................................................... 3

*Special Methods Courses in TWO Areas of Specialization (fall only) ............................................. 6

Select one course from each of the following sections:

Literature and Identity (3 hours)

ENG 232 Literature and Place ........................................... 3
ENG 233 Literature and Identities ..................................... 3
ENG 234 Introduction to Women’s Literature .............. 3
ENG 264 Major Black Writers ........................................ 3

Language and Multilingual Society (2-3 hours)

ENG 301 Style for Writers .............................................. 3
ENG/LIN 310 American English ...................................... 3
College of Education

LIN 317 Language and Society
Subtitle required – any subtitle

ENG/LIN 211 Introduction to Linguistics

ENG/LIN 514 TESL Materials and Methods (prereq ENGLIN 513)

CD 277 Introduction to Communication Disorders

CD 520 Introduction to Manual Communication

Writing and Media (3 hours)

ENG 207 Beginning Workshop in
Imaginative Writing (Subtitle required)

ENG 281 Introduction to Film

ENG 336 Studies in an American Author or
Authors (Subtitle required – non-fiction)

ENG 401 Special Topics in Writing (Subtitle required)

COM 249 Mass Media and Mass Culture

Performing Arts (3 hours)

Performance/Production:

TA 126 Acting I: Fundamentals of Acting

TA 150 Fundamentals of Design and Production

TA 350 Topics in Theatre (performance-based topics)

TA 396 Summer Theatre

Or students can select one course from Theatre Studies:

TA 350 Topics in Theatre (theatre studies-based topics)

Mathematics (24-25 hours)

The requirements for students choosing mathematics as a content area of specialization are based on standards developed by the National Council of Teachers of Mathematics, KERA Goals and Academic Expectations, and the Core Content for Assessment. The NCTM standards for middle grades include four common threads (reasoning, communication, problem solving, and connections) as well as content area standards of number, computation and estimation, probability, statistics, algebra, geometry, and measurement. Kentucky’s Goals and Academic Expectations and the Core Content for Assessment focus mathematics instruction on seven core areas: number, mathematical procedures, mathematical structure, measurement, space and dimensionality, change, and data.

Required:

MA 201 Mathematics for Elementary Teachers

MA 202 Mathematics for Elementary Teachers

CS 101 Introduction to Computing I

or

CS 115 Introduction to Computer Programming

STA 291 Statistical Methods

MA 310 Mathematical Problem Solving for Teachers

MA 241 Geometry for Middle School Teachers

MA 162 Finite Mathematics and Its Applications

MA 123 Elementary Calculus and Its Applications

or

MA 113 Calculus I

Science (32-36 hours)

The content area preparation required for students in the middle school education program is based on the standards adopted by the National Science Teacher’s Association as well as Kentucky’s Core Content for Science Assessment and the New Teacher Standards. It is important that science teachers have strong content preparation in the sciences. This is needed to communicate modes of scientific inquiry, select appropriate learning experiences, guide students in their early scientific efforts, and help students apply scientific knowledge and skills in their daily lives.

Required: (32-36 hours)

BIO 102 Human Ecology

BIO 103 Basic Ideas of Biology

BIO 111 General Biology Laboratory

PHY 160 Physics and Astronomy for Teachers

PHY 120 How Things Work

CHE 104 Introductory General Chemistry

CHE 105 General College Chemistry I

CHE 111 Laboratory to Accompany
General Chemistry I

GLY 160 Geology for Teachers

Any GLY course

Select two lecture courses from the following (6-10 hours):

BIO 150 Principles of Biology I

BIO 152 Principles of Biology II

BIO 208 Principles of Microbiology

*CHE 107 General College Chemistry II

*CHE 113 Laboratory to Accompany General Chemistry II

CHE 108 Introduction to Inorganic, Organic and Biochemistry Without Laboratory

GLY 150 Earthquakes and Volcanoes

GLY 130 Dinosaurs and Disasters

GLY 220 Principles of Physical Geology

AST 191 The Solar System

PHY 211 General Physics

PHY 213 General Physics

*If CHE 113 is taken with CHE 107, an additional lecture course must be taken to fulfill this requirement.

Social Studies (33 hours)

The middle school social studies content area teacher preparation program is guided by two principles: first, a commitment to continuous improvement based on reflection, evaluation, and on-going research; second, a commitment to peer collaboration as a source of professional growth. The program is guided by the National Council for Social Studies document, Expectations of Excellence, and the Kentucky New Teacher Standards.

Area 1 – World Regional Geography and Cultural Anthropology (9 hours)

Section 1

Choose at least one:

GEO 222 Cities of the World

GEO 160 Lands and Peoples of the Non-Western World

Section 2

Choose at least one:

ANT 241 Origins of Old World Civilization

ANT 220 Introduction to Cultural Anthropology

Section 3

Choose at least one:

ANT 242 Origins of New World Civilization

ANT 340 Development and Change in the Third World

GEO 260 Geographies of Development in the Global South

GEO 455 Economic Geography

GEO 172 Human Geography

Area 2 – World History (9 hours)

Section 1: Pre-Modern History

Choose at least one:

HIS 206 History of Colonial Latin America, 1492-1810

HIS 229 The Ancient Near East and Greece to the Death of Alexander the Great

HIS 230 The Hellenistic World and Rome to the Death of Constantine

HIS 247 History of Islam and Middle East Peoples, 500-1250 AD

HIS 536 Intellectual and Cultural History of Russia to 1800

HIS 295 East Asia to 1800

HIS 370 Early Middle Ages

HIS 371 Later Middle Ages

HIS 501 Fourth-Century Greece and the Hellenistic World

HIS 510 Medieval Law

HIS 511 Barbarians

HIS 512 Carolingian Empire

HIS 513 Medieval Institutions Since the Mid-10th Century

Section 2: Modern History

Choose at least one:

HIS 207 History of Modern Latin America, 1810 to Present

HIS 562 Modern Mexico

HIS 563 The History of Women in Latin America

HIS 248 History of Islam and Middle East Peoples, 1250 to the Present

HIS 254 History of Sub-Saharan Africa

HIS 534 Russia in the 19th Century

HIS 296 East Asia Since 1600

HIS 593 East Asian History Since World War II

HIS 503 A History of the Roman Empire

Area 3 – American History (6 hours)

Section 1

Choose at least one:

HIS 260 African American History to 1865

HIS 265 History of Women in America

HIS 404 U.S. Women’s History to 1900

HIS 507 U.S. Labor History

HIS 361 American Indian History to 1838

HIS 362 American Indian History Since 1838

Section 2

Choose at least one:

HIS 240 History of Kentucky

HIS 460 Colonial America to 1763

HIS 461 The American Revolution, 1763-1789

HIS 462 The New Republic, 1789-1820

HIS 463 Expansion and Conflict, 1820-1860

HIS 464 Civil War and Reconstruction, 1860-1877

Area 4 – Sociology, Political Science and Economics Electives (9 hours)

Section 1: Required

ECO 201 Principles of Economics I

Section 2

Choose at least one:

PS 240 Introduction to Political Theory

PS 458 American State and Local Government

PS 461G Civil Liberties

PS 463G Judicial Politics

Section 3

Choose at least one:

SOC 235 Inequalities in Society (prereq: SOC 101)

SOC 335 Sociology of Gender (prereq: SOC 101)

SOC 334 Sociology of Families (prereq: SOC 101)

Electives

Electives for 120 total credit hours chosen with the help of an advisor.

TOTAL HOURS: 120
B.S. in Education with major in
MODERATE/SEVERE DISABILITIES

Requirements for Program

Two undergraduate programs are offered in special education: learning and behavior disorders (LBD) and moderate and severe disabilities (MSD). Both of these programs support the UK educator preparation unit’s theme of Research and Reflection for Learning and Leading. Special education teachers are prepared to assess, plan, and teach based on what they learn from their students and to conduct continuous self-reflection in order to improve their teaching. The standards and competencies on which the LBD and MSD programs are based are those prescribed by The Council for Exceptional Children and The Kentucky New Teacher Standards.

The B.S. in Education program in Moderate/Severe Disabilities (MSD) requires completion of: (1) the UK Core requirements; (2) specified course work in Related Studies and Professional Education; and (3) specified course work in the special education and MSD area of specialization. Students graduating from the certification program the program obtain a single Kentucky teacher certificate in MSD (grades P-12). Graduates are qualified to teach in classes for students with functional mental disabilities (grades P-12). It is possible to complete this certificate program in four years. In addition to the undergraduate program, an initial certificate in MSD (grades P-12) is offered at the graduate level (See the University of Kentucky Graduate School Bulletin).

Continuous Assessment

1. All students in the MSD program are expected to meet the standards and rules for Admission, Retention, and Exit from Teacher Education Programs as set forth in the section “Admission, Retention and Exit from Teacher Education Programs” on pages 187-188.

2. Assessment at the Point of Entry to the MSD Program. The admission process provides the first point for formal assessment of the competencies outlined in the Initial Certification Program Folio for the program. Students who apply for admission must: (a) meet the requirements for admission to the Teacher Education Program; (b) have successfully completed a special education survey course and practicum; and (c) be able to articulate their philosophy of teaching and document their experiences with persons with disabilities in an initial portfolio and an entrance interview.

3. Ongoing Assessment. Once a student is admitted to the program, he/she meets with an advisor to plan the remainder of the program. Prior to the student teaching semester, the student must present a portfolio that documents his/her progress toward meeting program competencies in the courses completed.

4. Exit Assessment. At the exit assessment, students must document that they have met all program competencies through a final review of their portfolio and the successful completion of student teaching in a public school placement for students with MSD.

Statement on Student Teaching

Student teaching in the MSD program is 16 weeks and consists of eight weeks in an elementary placement and eight weeks in a middle or secondary placement for students with MSD.

UK Core Requirements

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

I. Intellectual Inquiry in Arts and Creativity
Choose one course from approved list ............................. 3

II. Intellectual Inquiry in the Humanities
Choose one course from approved list ............................. 3

III. Intellectual Inquiry in the Social Sciences
Choose one course from approved list ............................. 3

IV. Intellectual Inquiry in the Natural, Physical, and Mathematical Sciences
Choose one course from approved list ............................. 3

V. Composition and Communication I
CIS/WRD 110 Composition and Communication I ........ 3

VI. Composition and Communication II
CIS/WRD 111 Composition and Communication II ........ 3

VII. Quantitative Foundations
Any approved MA course .......................................... 3

VIII. Statistical Inferential Reasoning

TOTAL HOURS .......................... 120

B.A. in Education with a major in SECONDARY EDUCATION

Option: English Education

Requirements for Program

This B.A. includes completion of an approved plan in the academic specialty teaching of English. The approved major in the academic specialties for teaching is entitled “English major for secondary education,” to distinguish it from the A&S major and minor. No certification is awarded with the B.A. Students desiring to go on to Master’s with initial certification must apply to The Graduate School and apply to the Secondary English Program Faculty in the spring of their senior year.

To receive the B.A. degree, students must: (1) complete the UK Core requirements; (2) complete the requirements for one of the content area plans for secondary English education; (3) attain a grade-point average of at least 2.5 overall, in major, in minor, and in support area; and (4) complete 100 hours of fieldwork with-adoles-
Statement on Student Teaching

There is no student teaching required for completion of the Secondary English Education major. Student teaching occurs as part of the Masters in Education with initial certification.

UK Core Requirements

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

I. Intellectual Inquiry in Arts and Creativity

EDC/ENG 509 Composition for Teachers ................................................ 3
The certification program in secondary mathematics education, grades 8-12, extends and enhances the conceptual framework of the College of Education by providing the opportunities and experiences necessary for beginning teachers to reflect on the perspective of the schools and the profession. Indeed, the National Council of Teachers of Mathematics (NCTM), the principal professional organization for the mathematics education program, has for the past decade promoted teaching that fosters the development of students’ abilities to explore, conjecture, and reason logically, as well as the ability to use a variety of mathematical methods to solve non-routine problems. Teaching to meet this goal requires a great deal of reflective decision making, because what students learn depends to a large extent on how it has been learned. This certification program strives to blend the learning of mathematics with the learning of pedagogy.

**Continuous Assessment**

1. All secondary education majors must be admitted to advanced standing after completing 60 hours. Advanced standing requires (a) a 2.50 minimum GPA overall, and (b) review by a program faculty advisor for secondary mathematics education.

2. Because certification occurs through the Masters in Education including certification (MIC), students should be aware that they will need to be formally admitted to the MIC program. Admission/Retention/Exit regulations for all teacher certification programs are specified in the section “Admission, Retention and Exit from Teacher Education Programs” on pages 187-188.

3. Oral and written communication skills of applicants for the MIC program in mathematics education will be assessed at the time of the interview, and through the entrance portfolio.

4. At exit from the secondary mathematics education major, grades 8-12, students will:
   a. demonstrate understanding of mathematical concepts and procedures and the connections among them;
   b. use multiple representations of mathematical concepts and procedures;
   c. reason mathematically and solve mathematical problems;
   d. communicate mathematics effectively at different levels of formality; and
   e. use historical, cultural, and contemporary perspectives in mathematics discourse.

**Statement on Student Teaching**

There is no student teaching required for completion of the secondary mathematics education, grades 8-12, major. Student teaching occurs as part of the Masters in Education with certification.

**UK Core Requirements**

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core requirements.

I. Intellectual Inquiry in Arts and Creativity

Program Related Studies (15 hours)

EDC 362 Field Experiences in Secondary Education...

The approved major in secondary education with certification, grades 8-12, major. Student teaching occurs as part of the Masters in Education with certification.
The Secondary Science Education program addresses the content area requirements of Kentucky’s New Teacher Standards, National Research Council’s National Science Education Standards, and the National Science Teachers Association Guidelines. The program encourages the understanding and development of major concepts within a specialty area as well as an understanding of the interconnectedness of the sciences. Students are encouraged to apply mathematics to investigations of science, including analyses of data. It is intended that students relate the concepts of science to contemporary, historical, technological and societal issues. As future science teachers, students will need to locate resources, design and conducting inquiry-based and open-ended investigations, interpret findings, communicate results and make judgments based upon evidence. Specifically, the program encourages the teaching of science through a problem-solving, inquiry-based approach.

**Continuous Assessment**

1. All secondary education majors must be admitted to advanced standing after completing 60 hours. Advanced standing requires (a) a 2.50 minimum GPA overall, and (b) review by a faculty advisor for Secondary Science Education.

2. Because certification occurs through the Masters in Education including certification (MIC), students should be aware that they will need to formally admitted to the MIC program. Admission/Retention/Exit regulations for all teacher certification programs are specified in the section “Admission, Retention and Exit from Teacher Education Programs” on pages 187-188.

3. Oral and written communication skills of applicants for the MIC program in secondary science education will be assessed at the time of the interview, and through the entrance portfolio.

4. Admission to the Masters in Education with certification is competitive. At the time of application to the science education program, applicants will be evaluated on the basis of GPA, GRE scores, graded and on-site writing tasks, verbal communication, quality of references, commitment to teaching, social awareness, educational experiences with diverse learners, 14-18 year olds, and multicultural experiences, and quality of work in the sciences.

**Statement on Student Teaching**

There is no student teaching required for completion of the secondary science education major. Student teaching occurs as part of the Masters in Education with initial certification.

EDC 362 Field Experiences in Secondary Education

**Majors and Minors (54-72 hours)**

**Plans for Majors, Minors, and Supporting Subjects**

Candidates may choose to be certified in one of two science areas, 1) biological science, or 2) physical science. Biological science candidates must have a biological science major for secondary education and follow one of the biological science plans. Physical science candidates must have a chemistry major for secondary education, earth science major for secondary education, physical science major for secondary education, or physics major for secondary education and follow one of the physical science plans.

**Plans for Biological Science Candidates**

**Plan 1**

Major (33 hours in biological science) plus: (A) a supporting non-certifiable minor of (21 hours) in mathematics, OR (B) a supporting non-certifiable minor in one of the other sciences. The science fields from which the minor may be chosen include chemistry, earth science, and physics.

**Plan 2**

Major (33 hours in biological science) with two 12-hour supporting subjects. The 12-hour blocks of supporting subjects may be chosen from two of the following fields: chemistry, earth science, physics, or mathematics.

**Plan 3**

Major (33 hours in biological science) and four supporting subjects. Students selecting Plan 3 will complete a major in biology and take a total of 24 semester hours from chemistry,
earth science, physics, and mathematics, with a minimum of three semester hours in each field.

### Plans for Physical Science Candidates

#### Plan 1
Major (33 hours in either chemistry, earth science, or physics) plus: (A) a supporting minor (21 hours) in mathematics, or (B) a supporting minor in one of the other sciences. The science fields from which the minor may be chosen include biology (non-certifiable), chemistry, earth science, and physics, and mathematics (non-certifiable).

#### Plan 2
Major (33 hours in either chemistry, earth science, or physics) with two 12-hour supporting subjects. The 12-hour blocks of support-subjects may be chosen from two of the following fields: biology, chemistry, earth science, physics, or mathematics. Courses from the major may not be applied to the support-subjects requirement.

#### Plan 3
Major (33 hours in either chemistry, earth science, or physics) and four supporting subjects. Students selecting Plan 3 will complete a total of 24 semester hours from biology, chemistry, earth science, physics, and mathematics, with a minimum of three semester hours in each field. Courses from the major may not be applied to the support-subjects requirement.

#### Plan 4
Students will complete a physical science for secondary education major. The physical science major consists of 21 hour minors in chemistry, earth science, and physics. Minors from each field must be included in the physical science major.

### Major Requirements

All majors for secondary science education require a minimum of 33 hours.

### Biological Science Major for Secondary Education (33 hours)

- BIO 151 Principles of Biology Laboratory I ....................................................... 2
- BIO 325 Ecology ................................................................. 4
- BIO 304 Principles of Genetics or ABT 360 Genetics ........................................... 3-4

#### Upper Level Botany Course
- BIO 351 Plant Kingdom ................................................................. 4

#### Upper Level Zoology Course
- BIO 350 Animal Physiology (highly recommended) ........................................... 4
- BIO electives (chosen with aid of advisor)

#### Recommended for Major
- BIO 315 Introduction to Cell Biology .............................................................. 4

### Chemistry Major for Secondary Education (33 hours)

#### Required Support Courses
- MA 113 Calculus I ................................................................. 4
- MA 114 Calculus II ................................................................. 4
- PHY 211/213 General Physics ................................................................. 10
- or
- PHY 231/232 General University Physics ......................................................... 10

- PHY 241/242 General University Physics Laboratory ........................................... 10
- GLY 220 Principles of Physical Geology ......................................................... 4
- BIO 150 Principles of Biology I ................................................................. 3
- BIO 151 Principles of Biology Laboratory I ....................................................... 2

#### Recommended Support Courses
- AST 191 The Solar System ................................................................. 3
- MA 213 Calculus III ................................................................. 4

#### Recommended for Major
- CHE 105 General College Chemistry I .............................................................. 3
- CHE 107 General College Chemistry II ............................................................. 3
- CHE 111 Laboratory to Accompany General Chemistry I .................................... 2
- CHE 113 Laboratory to Accompany General Chemistry II .................................... 2
- CHE 230 Organic Chemistry I ................................................................. 3
- CHE 231 Organic Chemistry Laboratory I ......................................................... 2
- CHE 232 Organic Chemistry II ................................................................. 3
- CHE 233 Organic Chemistry Laboratory II ......................................................... 2
- CHE 226 Analytical Chemistry ................................................................. 3-4
- BCH 401G Fundamentals of Biochemistry ......................................................... 3
- CHE 440G Introductory Physical Chemistry ......................................................... 4

#### Additional courses selected with aid of advisor.

### Earth Science Major for Secondary Education (33 hours)*

#### Required Support Courses
- MA 123 Elementary Calculus and Its Applications .............................................. 4
- or
- MA 113 Calculus I ................................................................. 3-4
- CHE 105 General College Chemistry I .............................................................. 3
- CHE 107 General College Chemistry II ............................................................. 3
- CHE 111 Laboratory to Accompany General Chemistry I .................................... 1
- CHE 113 Laboratory to Accompany General Chemistry II .................................... 2
- PHY 211/213 General Physics ................................................................. 10
- or
- PHY 231/232 General University Physics ......................................................... 10

- PHY 241/242 General University Physics Laboratory ........................................... 10
- BIO 150 Principles of Biology I ................................................................. 3
- BIO 151 Principles of Biology Laboratory I ....................................................... 2

#### Required for Major
- CHE 105 General College Chemistry I .............................................................. 3
- CHE 107 General College Chemistry II ............................................................. 3
- CHE 111 Laboratory to Accompany General Chemistry I .................................... 1
- CHE 113 Laboratory to Accompany General Chemistry II .................................... 2
- CHE 230 Organic Chemistry I ................................................................. 3
- CHE 231 Organic Chemistry Laboratory I ......................................................... 2
- CHE 232 Organic Chemistry II ................................................................. 3
- CHE 233 Organic Chemistry Laboratory II ......................................................... 2
- CHE 226 Analytical Chemistry ................................................................. 3-4
- CHE electives (chosen with aid of advisor)

### Physical Science Major for Secondary Education (33 hours)

#### Required Support Courses
- MA 113 Calculus I ................................................................. 4
- MA 114 Calculus II ................................................................. 4
- BIO 150 Principles of Biology I ................................................................. 3
- BIO 151 Principles of Biology Laboratory I ....................................................... 2

#### Recommended Support Courses for Major
- MA 213 Calculus III ................................................................. 4
- or
- MA 214 Calculus IV ................................................................. 3

#### Note: Students should note that earth science is generally taught in Kentucky at the eighth grade level. In many states it is taught at the ninth grade level; therefore, secondary OR middle school certification could be required. You must decide the level of certification that fits your needs. If you plan to teach in Kentucky, you may want to follow either of the following options: 1) obtain science certification through the middle school program or 2) obtain earth science certification through the secondary education program. Currently, the Kentucky Department of Education is allowing secondary science teachers to teach science in the 7th and 8th grades without having middle school certification. The option for secondary certification provides more extensive content preparation in earth science.

### Required for Physical Science Major

#### Chemistry:
- CHE 105 General College Chemistry I .............................................................. 3
- CHE 107 General College Chemistry II ............................................................. 3
- CHE 111 Laboratory to Accompany General Chemistry I .................................... 3
- CHE 113 Laboratory to Accompany General Chemistry II .................................... 3
- CHE 230 Organic Chemistry I ................................................................. 3
- CHE 231 Organic Chemistry Laboratory I ......................................................... 3
- CHE 232 Organic Chemistry II ................................................................. 3
- CHE 233 Organic Chemistry Laboratory II ......................................................... 3
- CHE 226 Analytical Chemistry ................................................................. 3-4

#### Physics:
- AST 191 The Solar System ................................................................. 3
- AST 192 Stars, Galaxies and the Universe ......................................................... 3
- PHY 211/213 General Physics ................................................................. 10

B.A. in Education with a major in
SECONDARY EDUCATION
Option: Social Studies Education

Requirements for Program
This B.A. includes completion of an approved plan in the academic specialty teaching social studies. The approved majors and minors in the academic specialties for teaching are entitled “history major for secondary education,” etc., to distinguish them from the Arts & Sciences majors and minors. No certification is awarded with the B.A. Students desiring to go on to Master’s with Initial Certification must apply to The Graduate School and apply to the Secondary Social Studies Education Program Faculty in the spring of their senior year.

To receive the B.A. degree, students must: (1) complete the UK Core requirements; (2) complete one of the secondary social studies education plans; (3) attain a grade-point average of at least 2.50 overall and in the major/minor/support areas; and (4) complete 100 hours of fieldwork with adolescents through the required three hour course:

EDC 362 Field Experiences in Secondary Education .... 3

Following completion of the secondary social studies major, students will demonstrate the following: (1) an effective understanding of American society, its past and contemporary situation, and its place in the larger world; (2) an ability to apply social science concepts and use inquiry and interpretive skills; (3) a historical perspective; (4) a multicultural and global perspective; and (5) an ability to learn from participation in the community (from local to global) affairs and service. Students should consider experiences such as study abroad and internships in governmental and social agencies, as well as course work, in preparation for social studies teaching.

Continuous Assessment
1. All secondary education majors must be admitted to advanced standing after completing 60 hours. Advanced standing requires: (A) 2.50 minimum GPA overall; (B) 2.50 minimum GPA in course work leading to completion of Plan I or Plan 2; and (C) review by program faculty advisor for secondary social studies education.

2. Because certification occurs through the Masters in Education including certification (MIC), students should be aware that they will need to be formally admitted to the MIC program. Admission/Retention/Exit regulations for all teacher certification programs are specified in the section “Admission, Retention and Exit from Teacher Education Programs” on pages 187-188.

3. Oral and written communication skills of applicants for the MIC program in social studies education will be assessed at the time of the interview, and through the entrance portfolio.

4. Admission to the Masters in Education with initial certification is competitive.
   a. Students are reminded that they will be teaching about the whole world; somewhere in the 66 hours they should have at least one course about each world region. Students are strongly urged to complete the 12-hour campus-wide International Studies Concentration or one of the 12-hour plus foreign language World Regional/Foreign Language Concentrations.
   b. Students also need to be prepared to teach U.S. history from an interdisciplinary perspective and a multicultural perspective. Students are strongly urged to take 12 hours as an American Studies Emphasis, with at least one course in the humanities and at least two courses dealing with diversity in the U.S.
   c. Students need breadth and depth. Students are strongly urged to take nine hours in two of the subjects in their support area. Courses may double-count in UK Core in Plan I or 2 and in the 12-hour blocks.

Statement on Student Teaching
There is no student teaching required for completion of the secondary social studies education major. Student teaching occurs as part of the Masters in Education with certification.

UK Core Requirements
See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

I. Intellectual Inquiry in Arts and Creativity
Choose one course from approved list ....................... 3

II. Intellectual Inquiry in the Humanities
Choose one course from approved list ....................... 3

III. Intellectual Inquiry in the Social Sciences
Choose one course from approved list ....................... 3

IV. Intellectual Inquiry in the Natural, Physical, and Mathematical Sciences
Choose one course from approved list ....................... 3

V. Composition and Communication I
CIS/WRD 110 Composition and Communication I ...... 3

VI. Composition and Communication II
CIS/WRD 111 Composition and Communication II ...... 3

VII. Quantitative Foundations
Choose one course from approved list ....................... 3

VIII. Statistical Inferential Reasoning
Choose one course from approved list ....................... 3

IX. Community, Culture and Citizenship in the USA
Choose one course from approved list ....................... 3

X. Global Dynamics
Choose one course from approved list ....................... 3

UK Core Hours ............................................. 30

Program Related Studies (3 hours)
EDC 362 Field Experiences in Secondary Education .... 3

Majors and Minors (66-72 hours)
Students must complete Plan 1 or 2 in history and social sciences for secondary education.

Plan 1
Major in history (36 hours) with a minor (21 hours) in anthropology, economics, geography, political science, psychology, or sociology, and a support area (15 hours) which includes one course from each of the social sciences not chosen as minor.

Plan 2
Major (at least 30 hours) in anthropology, economics, geography, political science, psychology, or sociology, with a minor (21 hours) in history and a support area (15 hours) which includes one course from each of the social sciences not chosen as major.

History Major for Secondary Education
(36 hours)
Required (18 hours)
HIS 104 A History of Europe Through the
Mid-Seventeenth Century ...................................... 3
HIS 105 A History of Europe From the
Mid-Seventeenth Century to the Present ................... 3
HIS 108 History of the United States Through 1876 .... 3
HIS 109 History of the United States Since 1877 ...... 3
HIS 301 History Workshop:
Introduction to the Study of History ....................... 3
HIS 499 Senior Seminar for History Majors
(Subtitle required) .................................................. 3

Twelve of the other 18 credits must be history courses numbered 300 to 599. There must be some chronological diversity, with at least six hours of U.S. history above the 100 level and at least nine hours in history of other regions of the world, which will give the student the broad background necessary to teach World Civilization ........................... 18

History Minor for Secondary Education
(21 hours)
Required (12 hours)
HIS 104 A History of Europe Through the
Mid-Seventeenth Century ...................................... 3
HIS 105 A History of Europe From the
Mid-Seventeenth Century to the Present ................... 3
HIS 108 History of the United States Through 1876 .... 3
HIS 109 History of the United States Since 1877 ...... 3

Plus nine hours which will give students a broad preparation for teaching U.S. History and World Civilization. At least six hours should be at the 300 level or above ...... 9

Anthropology Major for Secondary Education (33 hours)
Required (6 hours)
ANT 220 Introduction to Cultural Anthropology ....... 3
ANT 230 Introduction Biological Anthropology ....... 3

Anthropological Theory (9 hours)
ANT 301 History of Anthropological Theory ........... 3
ANT 433 Social Organization ............................... 3

One of the following: ANT 338, 429, 430G, 450, 525, 526, 532 ................................................. 3

Research Methodology (3 hours)
ANT 490 Anthropological Research Methods ........... 3

Option I – Regional Specialization (6 hours)
Two courses from the same culture area, one ethnology and one culture history.

Ethnology courses are: ANT 221, 324, 428G, 431G, 534.

Culture history courses are: ANT 241, 242, 320, 322, 342, 555.
Option 2 – Cross-Cultural Comparison (6 hours)
Two ethnology courses, each representing a contrasting area.
Ethnology courses are: ANT 221, 428G, 431G, 534.

Subdisciplinary Breadth (6 hours)
One course in archaeology and one in physical anthropology.

Senior Tutorial Seminar
ANT 582 Senior Integrative Seminar ..................... 3

Anthropology Minor for Secondary Education (21 hours)
Required (6 hours)
ANT 220 Introduction to Cultural Anthropology ...... 3
ANT 230 Introduction to Biological Anthropology .... 3
Select one course from each of the four areas and one elective (15 hours)

1. Archaeology
ANT 240 Introduction to Archaeology .................. 3
ANT 242 Origins of New World Civilization ............. 3
ANT 320 Andean Civilization ................................ 3
ANT 322 Ancient Mexican Civilizations ................. 3

2. Area Studies
ANT 221 Native People of North America ............... 3
ANT 324 Contemporary Latin American Cultures ...... 3
ANT 327 Culture and Societies of India .................. 3
ANT 428G Contemporary Cultures and Societies in Southeast Asia ........................................ 3
ANT 431G Cultures and Societies of Sub-Saharan Africa .................. 3

3. Physical Anthropology
ANT 332 Human Evolution .................................. 3
ANT 333 Contemporary Human Variation ............... 3

4. Social and Cultural Anthropology
ANT 301 History of Anthropological Theory ............ 3
ANT 338 Economic Anthropology ......................... 3
ANT 401 Gender Roles in Cross-Cultural Perspective .................................................. 3
ANT 433 Social Organization ................................ 3
ANT 525 Applied Anthropology ................................ 3
ANT 526 Psychological Anthropology ................. 3
ANT 532 Anthropology of the State ...................... 3

Economics Major for Secondary Education (30 hours)
Required (12 hours)
ECO 201 Principles of Economics I ....................... 3
ECO 202 Principles of Economics II ..................... 3
ECO 401 Intermediate Microeconomic Theory ......... 3
ECO 402 Intermediate Macroeconomic Theory .......... 3
For breadth, select five from the following list and, for depth, ECO 499, Seminar in Economics (Subtitle required) for three credits (18 hours)
ECO 412 Monetary Economics .............................. 3
ECO 463 Analysis of Business Conditions ................. 3
ECO 465G Comparative Economic Systems ............. 3
ECO 467 American Economic History ...................... 3
ECO 471 International Trade ................................ 3
ECO 473G Economic Development ...................... 3
ECO 477 Labor Economics ..................................... 3
ECO 479 Public Economics ................................... 3
ECO 499 Seminar in Economics (Subtitle required) .... 3

Economics Minor for Secondary Education (21 hours)
Required (6 hours)
ECO 201 Principles of Economics I ....................... 3
ECO 202 Principles of Economics II ..................... 3
Select for breadth any five of the courses listed for the major, excluding ECO 401 and 402 (15 hours)

Geography Major for Secondary Education (36 hours)
GEO 130 Earth’s Physical Environment ................ 3
GEO 172 Human Geography ................................ 3
GEO 152 Regional Geography of the World or GEO 160 Lands and Peoples of the Non-Western World ............................ 3
GEO 300 Geographic Research ............................ 3
GEO 305 Elements of Cartography ....................... 3
GEO 310 Quantitative Techniques in Geography ...... 3
For breadth take at least one regional course and one thematic course in geography numbered at the 300 level or above (six hours)
Core Requirements
Select a minimum of 12 hours of courses within geography numbered at the 200 level or above (12 hours)

Geography Minor for Secondary Education (21 hours)
GEO 130 Earth’s Physical Environment ................ 3
GEO 172 Human Geography ................................ 3
GEO 152 Regional Geography of the World or GEO 160 Lands and Peoples of the Non-Western World ............................ 3
GEO 300 Geographic Research ............................ 3
GEO 305 Elements of Cartography ....................... 3
GEO 310 Quantitative Techniques in Geography ...... 3
Nine additional hours in geography at the 200 level or above (nine hours)

Political Science Major for Secondary Education (30 hours)
Required
PS 101 American Government ................................ 3
Select two (six hours)
PS 210 Introduction to Comparative Politics ............ 3
PS 212 Culture and Politics in the Third World .......... 3
PS 235 World Politics ............................................ 3
PS 240 Introduction to Political Theory ................. 3
PS 372 Introduction to Political Analysis ............... 3
Plus a minimum of 21 additional semester hours, of which at least 15 must be at the 300 level or above. In order to expose the student to the various subfields of political science, the combination of courses selected must include at least one course in each of the subfields 1, 2, and 3 below, as well as one course in another subfield (21 hours)

1. Theory and Methodology
PS 240 Introduction to Political Theory ................. 3
PS 372 Introduction to Political Analysis ............... 3
PS 441G Early Political Theory ......................... 3
PS 442G Modern Political Theory ....................... 3
PS 545 American Political Thought ..................... 3

2. Comparative Government
PS 210 Introduction to Comparative Politics ............ 3
PS 212 Culture and Politics in the Third World .......... 3
PS 411G Comparative Government– Parliamentary Democracies I ...................................... 3
PS 412G Comparative Government– Parliamentary Democracies II ..................................... 3
PS 417G Survey of Sub-Saharan Politics ................ 3
PS 419G The Governments and Politics of Eastern Asia .................................................. 3

Select three (six hours)
PS 427 East European Politics .............................. 3
PS 428G Latin American Government and Politics .................................................. 3
PS 429G Government and Politics in Russia and the Post-Soviet States .................................................. 3

3. International Relations
PS 235 World Politics ............................................ 3
PS 431G National Security Policy ......................... 3
PS 433G Politics of International Economic Relations .................................................. 3
PS 436G International Organization ....................... 3
PS 437G Dynamics of International Law .................. 3
PS 439G Special Topics in International Relations (Subtitle required) .................................................. 3
PS 538 Conflict and Cooperation in Latin American Relations .................................................. 3

4. Political Process
PS 470G American Political Parties ......................... 3
PS 472G Political Campaigns and Elections ................ 3
PS 473G Public Opinion ......................................... 3
PS 474G Political Psychology .................................. 3
PS 475G Politics and the Mass Media ....................... 3
PS 476G Legislative Process .................................... 3
PS 479 Women and Politics .................................... 3
PS 480G Government and the Economy ................... 3
PS 484G The American Presidency ......................... 3
PS 571 Interest Groups ........................................... 3

5. Public Administration
PS 489G The Analysis of Public Policy ...................... 3
PS 580 The Budgetary Process ................................ 3

6. Public Law and Judicial Behavior
PS 461G Civil Liberties .......................................... 3
PS 463G Judicial Politics ........................................ 3
PS 465G Constitutional Law ................................... 3

7. State and Local Government
PS 456G Appalachian Politics ................................ 3
PS 458 American State and Local Government ....... 3
PS 557 Kentucky Government and Politics ............ 3

Note: The subfield designation for PS 391, PS 395, and PS 492 varies with the topic covered. Check with the department for current offerings relevant to social studies.

Political Science Minor for Secondary Education (21 hours)
Required
PS 101 American Government ................................ 3
Select two (six hours)
PS 210 Introduction to Comparative Politics ............ 3
PS 212 Culture and Politics in the Third World .......... 3
PS 235 World Politics ............................................ 3
PS 240 Introduction to Political Theory ................. 3
PS 372 Introduction to Political Analysis ............... 3
Twelve additional hours, of which at least nine must be at the 300 level or above.

Breadth requirement: same as for major; select one course from subfields listed for the major (12 hours)

Psychology Major for Secondary Education (30 hours)
Required (13 hours)
PSY 100 Introduction to Psychology ....................... 4
PSY 315 Personality and Individual Differences .......... 3
PSY 314 Social Psychology and Cultural Processes .... 3
PSY 533 Abnormal Psychology ................................ 3

Select one (3 hours)
PSY 331 The Psychology of Adjustment .................. 3
PSY 448 Applied Social Psychology ....................... 3
PSY 449 Interpersonal Processes ......................... 3
DEGREE PROGRAMS OUTSIDE THE COLLEGE OF EDUCATION

B.A. with a major in ART EDUCATION

The requirements for K-12 art education are listed in the Fine Arts section of this Bulletin.

COMMUNICATION DISORDERS

The undergraduate and graduate programs in communication disorders are now part of the Department of Rehabilitation Sciences in the College of Health Sciences. Prospective students should refer to the Health Sciences section of this Bulletin.

B.M.M.E. with a major in MUSIC EDUCATION

The requirements for K-12 music education are listed in the Fine Arts section of this Bulletin.

BACHELOR OF SCIENCE IN CAREER AND TECHNICAL EDUCATION

Requirements are listed in the College of Agriculture and School of Human Environmental Sciences section of this Bulletin.

Undergraduate Initial Educator Licensure Programs for Persons Already Holding a Bachelor’s Degree

The College of Education offers undergraduate programs leading to initial certification in early elementary education and middle school education for candidates who already hold a bachelor’s degree from a regionally-accredited institution of higher education. These expedited programs are designed to take advantage of candidates’ age and life experiences and to shorten the time required for program completion. They do not lead to a UK bachelor’s degree. Documents describing these programs are available from Academic Services and Teacher Certification, 166 Taylor Education Building, or from the Department of Curriculum and Instruction, 335 Dickey Hall. All College of Education Admission, Retention and Exit to Teacher Education Programs rules apply to these programs. In addition, candidates must adhere to policies relating to field placements and character and fitness reviews. Interested persons are encouraged to see an advisor before enrolling in any courses associated with these programs.
The College of Engineering offers programs leading to undergraduate and graduate degrees in computer science and the following engineering disciplines – biosystems, chemical, civil, computer, electrical, materials, mechanical, and mining. Graduate training in biomedical engineering is also offered through the Colleges of Engineering and Medicine. The College also offers a highly multidisciplinary master of science in manufacturing systems engineering to address the growing need for enhancing manufacturing productivity and quality.

Creative accomplishment in the career of an engineer or computer scientist depends upon an education that stresses major ideas and fundamental concepts of engineering rather than specific technologies. The academic programs in engineering provide a sound background in the mathematical, physical and engineering sciences blended with the social sciences and humanities to ensure both a thorough education in engineering and a liberal education. Such an approach provides the best preparation for the engineer or computer scientist who must envisage and develop the technologies of the future and deal with scientific advances at present unknown.

The various curricula in the College of Engineering are broad, so that no student is limited to a narrow field of specialized knowledge but receives sufficient technical depth to provide a sound preparation for a professional career.

The first engineering degree from the University of Kentucky was granted in 1890. Since that time over 21,000 degrees have been awarded in the undergraduate program. The Department of Chemical Engineering has approved an optional program in pre-biomedical engineering. Biomedical engineering is primarily the application of engineering principles to the solution of medical problems.

The Department of Chemical Engineering has approved an optional program in premedicine or predentistry. Students majoring in chemical engineering may arrange through their advisor to take courses that will satisfy the degree requirements for this program.

In response to industry requests, the College of Engineering and the Gatton College of Business and Economics have joined to offer a coordinated Bachelor of Science in Engineering and Masters of Business Administration. The intense five-year program may require summer courses to remain on track to complete the engineering part in four years. The MBA will be taken during a student’s fifth year of study beginning in July and finishing the following June. In addition, students in the program will be required to complete a study abroad program designed specifically for the engineering/business student. This program will be conducted immediately upon completion of the MBA course requirements and the majority of costs will be paid by the program. Students earning a 3.25 or better GPA and having completed their junior year will be identified and will receive a letter asking them to apply for the program. Admission is highly competitive and is limited to 15 students. Selection is based on past academic performance, communication skills, and commitment to the program.

For engineering students interested in manufacturing, the University offers a dual-degree program. This program allows students pursuing a Bachelor of Science in Engineering in any of the fields of engineering, chemical engineering, materials engineering, and mechanical engineering to concurrently enroll in the M.S. in Manufacturing Systems Engineering. The BSEE/ MSMSE or BSME/MSMSE dual-degree programs can be completed in five years. Students in the program can participate in intensive summer courses in Lean Manufacturing. Students in the program are strongly encouraged to be Co-op students or to do industry internships to supplement their course work with industry experience. During their junior year, students should apply to the Graduate School for admittance into the dual-degree program.

Graduate programs in the engineering fields of study are listed in The Graduate School section of this Bulletin.
ADMISSION POLICY

The minimum entry requirement for admission into the College of Engineering is:

- ACT math score of 23 or higher, or the SAT equivalent.

Four alternative admission routes include:

1. 3 or above on the Calculus AB portion of the Advanced Placement Exam;
2. Eligibility to enter MA 110 based on the UK Math Department Placement Exam;
3. Completion of or the equivalent of MA 110 with a grade of C or higher;
4. Completion of or the equivalent of MA 109 and MA 112 with a grade of C or higher.

Newly admitted pre-engineering or pre-computer science students are allowed to choose an open major for one semester (12 credit minimum) called General Engineering. All students must select a program before the end of their first semester, preferably when they register for classes for their second semester.

Application must be made for admission to a specific pre-engineering program. However, subsequent transfer between programs will be permitted and may be accomplished by applying and satisfying the appropriate specific criteria.

All undergraduate degree programs are divided into pre-engineering and engineering. Pre-engineering is broadly defined as the first two years of a program, while engineering is broadly defined as the last two years of the program. Every student must be admitted to engineering standing in a specific program prior to graduation.

Engineering Standing Admission

Admission to engineering standing in a degree program is necessary in order to be granted a baccalaureate degree in engineering or computer science. Specific departmental requirements for admission to engineering standing are noted below. The same criteria are applied to transfer students with the equivalence of courses determined by the Director of Undergraduate Studies. A student must apply to the specific department for admission to engineering standing. *Note:* The cumulative grade-point average includes all listed college-level work taken at the University of Kentucky or elsewhere.

Students can request qualification for engineering standing after completing the required set of standing courses in the first three semesters of the published curriculum in their chosen program. Each program can specify its engineering standing requirements, but no program may specify a GPA higher than 2.50 for engineering standing.

Requirements by a program for engineering standing may include many items, such as courses counted in first three semesters, repeat options allowed, number of applications for engineering standing allowed, restrictions on taking upper-level courses, minimum course grades, etc. A student should refer to the UK Bulletin and the undergraduate advisor in their program of choice to identify the specific requirements.

**Biosystems Engineering:** Completion of a minimum of 35 semester hours acceptable towards the degree in biosystems engineering with a minimum cumulative grade-point average of 2.50. Completion of CIS/WRD 110, MA 113, MA 114, MA 213, CHE 105 and PHY 231 with a minimum cumulative GPA of 2.5 in these courses. University repeat options may be utilized as appropriate. Students who do not meet these GPA requirements may request consideration based upon departmental review if both of these GPA values are 2.25 or greater.

**Chemical Engineering:** Completion of CHE 105, CHE 107, CHE 111, CHE 113, MA 113, MA 114, MA 213, PHY 231, PHY 241, CIS/WRD 110 with a minimum cumulative grade-point average of 2.50 in these courses. Completion of CHE 200 with a grade of C or better. University repeat options may be applied as appropriate.

**Civil Engineering:** Completion of CE 106, CE 120, CE 211, CHE 105, CHE 107, EM 221, CIS/WRD 110, MA 113, MA 114, MA 213, PHY 231, PHY 241 with a minimum cumulative grade-point average (GPA) of 2.50 in these classes and a C or better in each of them as well as 45 or more semester credit hours. University repeat options may be utilized. Students who do not meet this GPA requirement may request consideration based upon departmental review if this core GPA is 2.25 or greater. Students are limited to two applications for engineering standing.

**Computer Engineering:** Completion of a minimum of 35 semester hours acceptable towards the degree in engineering with a minimum cumulative grade-point average of 2.50. Completion of MA 113, MA 114, MA 213, PHY 231, CHE 105, and CIS/WRD 110 with a minimum cumulative GPA of 2.50. Completion of EE 211, EE 280, CS 115 and CS 215 with a minimum cumulative GPA of 2.50 in these courses. University repeat options may be utilized as appropriate. In addition, the Electrical and Computer Engineering Department will not permit a third admission into any of these courses.

**Electrical Engineering:** Completion of a minimum of 35 semester hours acceptable towards the degree in engineering with a minimum cumulative grade-point average of 2.50. Completion of MA 113, MA 114, MA 213, PHY 231, CHE 105, and CIS/WRD 110 with a minimum cumulative GPA of 2.50. Completion of EE 211 and EE 280 with passing grades. University repeat options may be utilized as appropriate. In addition, the Electrical and Computer Engineering Department will not permit a third admission into any of these courses. Students who do not meet these GPA requirements may request consideration based upon departmental review if both the two GPAs are 2.25 or greater and they receive a C or better in both EE 211 and EE 280.

**Materials Engineering:** Completion of CHE 105, CHE 107, CHE 111, CHE 113, MA 113, MA 114, MA 213, PHY 231, PHY 241, CIS/WRD 110 with a minimum cumulative grade-point average of 2.50 in these courses. Completion of MSE 201 with a grade of C or better. University repeat options may be applied as appropriate.

**Mechanical Engineering:** Mechanical Engineering students must have completed at least 35 semester credit hours applicable to the degree program with a minimum cumulative GPA of 2.50. In addition, completion of ME 101, CIS/WRD 110 and CIS/WRD 111 or (transfer equivalent courses), CHE 105, MA 113, MA 114, MA 213, PHY 231 and PHY 241 with a minimum cumulative GPA of 2.50 in these courses.

Transfer students who have received more than 35 hours transfer credit in the degree program will be considered without the inclusion of ME 101. A student may exercise one of his/her official University repeat options to improve this grade-point average.

Written request, for exception to the allowed number of repeats, should be submitted to the Director of Undergraduate Studies. In no case will there be an exception made to the minimum acceptable grade-point averages listed above.

**Mining Engineering:** Completion of a minimum of 35 semester hours acceptable towards the degree in mining engineering with a minimum cumulative grade-point average of 2.50. Completion of CIS/WRD 110, MA 113, MA 114, MA 213, CHE 105 and PHY 231 with a minimum cumulative GPA of 2.50 in these courses. University repeat options may be utilized as appropriate. Students who do not meet these GPA requirements may request consideration based upon departmental review if both of these GPA values are 2.25 or greater.

**COMBINED DEGREE PROGRAM**

The College of Engineering has transfer agreements with several institutions throughout the state. Some of these institutions offer a “3/2” year dual degree program. Other academic institutions choose to offer this option to their students without benefit of a formal agreement. These programs enable students to enroll in a pre-engineering curriculum for the first three years at
their respective schools and then transfer to the College of Engineering for the final two years. Upon completion, they receive two degrees, one from the school at which they originally enrolled and the other a Bachelor of Science in the appropriate field of engineering from the University of Kentucky.

COOPERATIVE EDUCATION PROGRAM

The nationally recognized engineering co-op program provides students the opportunity to gain practical work experience before graduation. By alternating semesters of academic study with semesters of salaried, full-time career-related employment, a full year of engineering work experience can be presented on a graduate resume. Students who wish to participate in the Cooperative Education program in the College of Engineering should contact the Director of Cooperative Education.

To be eligible for this program, students should have a minimum grade-point average of 2.5. In addition, students should be making sufficient progress in their curriculum prior to the first work tour, which should begin after the sophomore year has been completed. Students will remain on a full-time, continuing student status while they are at work by registering for a one-hour, pass/fail course. The grade, assigned by the director, is based on both a work report written by the student and an evaluation completed by the immediate supervisor. Six months of the year’s co-op experience counts toward total experience required to sit for the Professional Engineer exam in Kentucky.

The Cooperative Education program contributes significantly to the student’s academic motivation, career preparation, and success with job offers upon graduation. One-third of our students and nearly 100 employers nationwide participate in the UK program.

CONTINUING EDUCATION AND EXTENSION

The College of Engineering recognizes the rapid changes occurring in modern engineering technology. Students in engineering are made aware of the need to continue their studies after graduation. One of the ways to keep abreast of advances in engineering is for graduates and other engineering practitioners to participate in continuing education programs now available through the engineering colleges throughout the country.

The responsibilities of the Technology Exchange Program within the Kentucky Transportation Center, the Lean Manufacturing Program within the Center for Manufacturing at the University of Kentucky and the staff of the former Office for Informational Services and Technical Liaison (OISTL), now administratively housed in the Department of Mining Engineering, are to:

1. create and manage appropriate intensive noncredit technical courses of interest to and needed by practicing engineers;
2. develop appropriate video-based courses and materials to be of interest to practicing engineers. Such activity includes taping, live satellite uplinking, and two-way video/audio of engineering-related courses and activities, Web-based instruction; and,
3. provide assistance in extension activities with other college and University units to be of assistance to engineers throughout the state.

SCHOLARSHIPS

The College of Engineering awards merit-based scholarships to incoming freshman and transfer students as well as to students already enrolled in the College. Freshman scholarship applications are due January 15; transfer scholarship applications are due April 15 for students incoming in the fall, and November 15 for students incoming in the spring; and continuing student applications are due April 15. Awards are made for the upcoming academic year; no new awards are made for the spring semester for freshmen and continuing students.

For further information, visit www.engr.uky.edu/scholarships.

ENGINEERING DEAN’S LIST

Students enrolled in the College of Engineering can make the Engineering Dean’s List for a fall or spring semester by meeting the following requirements during the semester:

- 3.6 or better semester GPA;
- 12 or more credit hours;
- no E, I or F grades;
- no grades out; and
- no more than 3 hours pass/fail.

MINIMUM REQUIREMENTS FOR GRADUATION

NOTE: The following graduation requirements apply to engineering programs only. Separate graduation requirements currently apply to the Computer Science program as described in the corresponding section.

To be awarded a Bachelor of Science degree in any field of engineering, a student must:

1. complete the University and College requirements relating to writing and the UK Core.
2. complete a minimum of 128 hours, exclusive of those earned in freshman college algebra and freshman college trigonometry, with a cumulative standing of not less than 2.0 on a 4.0 scale. In all departments the course requirements exceed this 128 hour minimum.
3. be admitted to engineering standing in an engineering program for at least the final semester, and complete the requirements of that program.

4. complete a minimum of 24 credit hours of departmental courses at or above the 300 level.
5. complete all departmental courses and technical electives with a cumulative standing of 2.0 or higher.
6. complete any additional departmental graduation requirements that may be listed below.

Additional Departmental Graduation Requirements

In the B.S. program in Civil Engineering, the student must earn a C or better in each CE prefix course, except that a maximum of one D is permitted in a CE prefix course numbered 400 or higher. In addition, a C or better must be earned in EM 221 and EM 302.

In the Mining Engineering Department, the student must have earned a grade of C or better in the following courses that are valuable for sale operation of mines: MNG 341, Mine Ventilation; MNG 551, Rock Mechanics; MNG 591, Mine Design Project I; and MNG 592, Mine Design Project II.

Second Bachelor’s Degree Requirements

A student who has earned a bachelor’s degree in the College of Engineering may earn a second bachelor’s degree by meeting the following three conditions on the work applicable to the second degree:

1. The student must have been admitted to engineering standing in the program leading to the second degree at least for the final semester, or equivalent terms, prior to the completion of the degree requirements, and must be enrolled as a student in that degree program during the final semester or term.
2. The student must complete a minimum of 15 credit hours of departmentally approved courses at or above the 300 level.
3. To earn a second degree, a student must complete all degree requirements in that program.

ACADEMIC ADVISING

Sophomores, juniors, and seniors are advised jointly by faculty and professional staff in the department of the student’s major. Professional staff provide academic advising and support services to entering freshman students through the Freshman Advising Center.

It is the students’ responsibility to satisfy University and College requirements with consultation from their advisor.

PROBATION AND ACADEMIC SUSPENSION

Students should refer to the Academic Requirements section of this Bulletin for information concerning the College of Engineering’s probation and academic suspension rules.
BACHELOR OF SCIENCE IN BIOSYSTEMS ENGINEERING

Biosystems engineering provides an essential link between the biological sciences and the engineering profession. This linkage is essential for the development of production and processing systems involving biological materials that preserve our natural resource base. Students have the latitude to develop an area of specialization relating to bioenvironmental engineering, food and bioprocessing, machine systems, or controlled environment engineering. The curriculum is also ideal preparation for those students wanting to pursue a graduate or professional degree in biomedical engineering or veterinary medicine through pre-biomedical engineering and pre-veterinary medicine options.

Engineers completing this program of study find employment in industries related to the production and processing of biological products. Opportunities include placement with manufacturers, consulting firms, or state and federal regulatory agencies. Biosystems engineers may work in the areas of biomedical/biotechnology engineering; environmental engineering; agricultural equipment; heating, ventilation and refrigeration equipment; food processing industries; livestock equipment and housing or greenhouse structures; and bioenergy.

The program educational objectives of the biosystems engineering program are based on the intellectual and professional development of our students such that after graduation they will be able to:

- design systems, components, and/or processes for advancement of agricultural, biological, or environmental systems; and
- secure employment and advance in careers in industry, government, consulting firms, or academia. Successful careers begin with employment in their chosen field or admission to graduate and professional programs, continue with steady advancement, and include professional development.

Degree Requirements
Each student must complete the following:

UK Core Requirements
See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

I. Intellectual Inquiry in Arts and Creativity
Choose one course from approved list ............................. 3

II. Intellectual Inquiry in the Humanities
Choose one course from approved list ............................. 3

III. Intellectual Inquiry in the Social Sciences
Choose one course from approved list ............................. 3

IV. Intellectual Inquiry in the Natural, Physical, and Mathematical Sciences
CHE 105 General College Chemistry I .......................... 3
CHE 111 Laboratory to Accompany General Chemistry I ........................................ 1

V. Composition and Communication I
CIS/WRD 110 Composition and Communication I ....... 3

VI. Composition and Communication II
CIS/WRD 111 Composition and Communication II .......... 3

VII. Quantitative Foundations
MA 113 Calculus I .................................................... 4

VIII. Statistical Inferential Reasoning
Choose one course from approved list ............................. 3

IX. Community, Culture and Citizenship in the USA

*To be selected from the UK Core requirements in consultation with the academic advisor. A minimum of 15 credits in the humanities and social sciences are required.

***A minimum of 12 hours are to be taken in addition to the 9 core hours selected by the student. The technical electives allow the student an opportunity to concentrate or gain depth in one or more of the various specialty areas of biosystems engineering. The technical electives must be selected from the courses listed below and approved by the student’s academic advisor. Other courses may be considered, each on its individual merit. In selecting technical electives, students must concentrate their work in one or more of the professional areas of biosystems engineering. These areas include: bio-environmental engineering, food and bioprocess engineering, machine systems/automation engineering, controlled environment engineering, and pre-biomedical engineering. Pre-veterinary medicine students typically specialize in controlled environment engineering or pre-biomedical engineering. Interested students are encouraged to contact the Director of Undergraduate Studies for the Biosystems Engineering program to discuss technical elective sequences.

Degree Requirements

The following curriculum meets requirements for the B.S. in chemical engineering provided the student satisfies the graduation requirements listed earlier.

Each student must complete the following:

UK Core Requirements

See the UK Core section of this Bulletin for the complete UK core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

I. Intellectual Inquiry in Arts and Creativity

CME 455 Chemical Engineering Process Design I .......................... 3

II. Intellectual Inquiry in the Humanities

Choose one course from approved list ........................................ 3

III. Intellectual Inquiry in the Social Sciences

Choose one course from approved list ........................................ 3

IV. Intellectual Inquiry in the Natural, Physical, and Mathematical Sciences

CHE 105 General College Chemistry I ........................................ 3
CHE 111 Laboratory to Accompany General Chemistry I..................... 1

V. Composition and Communication I

CIS/WRD 110 Composition and Communication I .......................... 3

VI. Composition and Communication II

BACHELOR OF SCIENCE IN CHEMICAL ENGINEERING–PADUCAH

In addition to the program on the Lexington campus, students can pursue a B.S. degree in chemical engineering through the College’s Extended Campus Program in Paducah, Kentucky. The Paducah program uses the same curriculum as the main campus, but provides the opportunity for students to complete all B.S. degree requirements without having to relocate to Lexington.

Consistent with the Vision and Mission statements, the chemical engineering program at the University of Kentucky, including the Extended Campus in Paducah, strives to meet the following specific educational objectives:

- prepare our graduates to successfully pursue careers in engineering practice and/or academia;
- provide a broad education as a foundation for life-long learning; and
- equip our graduates with the ability to carry out problem-solving strategies in engineering.

The Paducah chemical engineering program collaborates with West Kentucky Community and Technical College to provide the basic math and science courses, as well as the general studies course requirements. Murray State University faculty members teach upper-level non-engineering courses on the Paducah campus. On-site UK chemical engineering faculty members and jointly-appointed Murray engineering faculty members teach the upper-division engineering courses. Program admission, course registration, student advising and other student services can be completed at the Paducah site.

Degree Requirements

The following curriculum meets the requirements for a B.S. in civil engineering, provided the student satisfies the graduation requirements listed earlier.

Each student must complete the following:

UK Core Requirements

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

**BACHELOR OF SCIENCE IN CIVIL ENGINEERING**

Joint-Degree Program Offered by Western Kentucky University (WKU) and the University of Kentucky (UK)

As part of the “Strategy for Statewide Engineering Education in Kentucky,” adopted July 17, 2000 by all the chief executive officers of Kentucky universities and endorsed by the Kentucky Council on Postsecondary Education (CPE), the vision was expressed that “access to undergraduate engineering education will expand primarily through the creation of joint programs managed by multiple postsecondary institutions.” In response, WKU and UK now jointly offer an ABET-accredited baccalaureate degree in civil engineering on the WKU campus in Bowling Green, Kentucky. By CPE definition, a joint-degree program is “a program that is mutually sponsored by two or more institutions leading to a single credential or degree, which is conferred by both or all participating institutions. All institutions share responsibility for all aspects of the program’s delivery and quality.”

The joint civil engineering program is one of only four such joint-degree programs in Kentucky; the others include a joint-degree program between WKU and UK in mechanical engineering, between WKU and the University of Louisville (UL) in electrical engineering, and between Murray State University and UL in electrical and telecommunications engineering.

The WKU/UK joint programs emphasize a project-oriented educational approach. Courses are provided by both WKU and UK faculty. Students are required to complete a minimum of 16 credit hours of engineering course work taught by UK engineering faculty. At present, the UK contribution is provided primarily by distance delivery via interactive television. The curriculum of the joint civil engineering program is under the direction of a joint program faculty, with equal representation from each participating institution. The curriculum for entering students requires 135.5 credit hours, with the General Studies component based on the requirements of WKU. Students who complete the program will receive a B.S. degree conferred jointly by WKU and UK. Under the terms of the agreements between the degree-awarding institutions, WKU provides basic administrative support for students in the joint-degree program, including admission services, registration, and student finan-
cial aid. In addition, academic advising, laboratory and equipment support, and library and media resources are supplied by WKU.

The civil engineering curriculum approved within UK is listed below. The joint program faculty are responsible for on-going review of the curricular requirements.

Degree Requirements

Freshman Year

**Fall Semester**
- CE 175 Freshman Experience ........................................ 2
- AMS 163 CADD for Architecture .................................... 3
- MATH 126 Calculus I .................................................. 4.5
- GEOL 111/113 Physical Geology & Lab .......................... 4
- HIST 119 or 120 Western Civilization ......................... 3

Total ............................................................................... 16.5

**Spring Semester**
- CE 160/161 Surveying I & Lab .................................... 4
- MATH 227 Calculus II .................................................. 4.5
- PHYS 250/251 Physics I/Lab .......................................... 4
- COMM 161 or 145 Public Speaking .............................. 3
- ENG 100 Freshman English ......................................... 3

Total ............................................................................... 18.5

- CE 316 Equipment & Methods .................................... 3
- CE 331 Transportation Eng [4] .................................. 3
- ENG 300 Junior English ............................................. 3
- CE 412 Foundation Engineering ................................. 3
- CE Technical Elective ................................................ 3

Total ............................................................................... 18

Senior Year

**Fall Semester**
- CE 351 Intro to Environmental Eng ....................... 3
- CE 461 Hydrolgy ...................................................... 3
- CE Technical Elective ................................................ 3
- CE 400 Senior Design Seminar ............................... 1
- Category B-II Humanities Elective ............................ 3
- Category C Soc & Behav Sci Elective ....................... 3

Total ............................................................................... 16

**Spring Semester**
- CE 498 Senior Project ............................................... 3
- CE Technical Elective ................................................ 3
- Category B - II Humanities Elective .......................... 3
- Category C Cultural Elective ..................................... 3

Total ............................................................................... 15

CE Technical Elective (Typical Offerings)

**Fall Semester**
- CE 491 UK - CE Selected Topics ............................ 3
- CE 383 Structural Steel Design ................................. 3
- CE 416 Construction Administration ......................... 3
- CE 426 Adv. Construction Materials ......................... 3
- CE 476 Highway Construction .................................. 3
- CE 480/481 Surveying III & Lab ............................... 3

[1] EM 221 UK - Statics may be substituted for EM 222 with written permission from the student’s advisor.
[2] SFTY 171 Safety and First Aid is recommended. However, students may take any course in category F.
[3] CE 373 UK - Structural Analysis may be taken to complete this requirement.
[4] Students must have “major” status to enroll. Students with “premajor” status will not be able to enroll.
[5] Structures design elective may be fulfilled by completing one of the following options:
   (a) CE 482 WU - Elementary Structural Design
   (b) CE 483 UK - Elementary Structural Design;
   or
   (c) CE 384 Reinforced Concrete Design.
   If option (b) is chosen, CE 383 Structural Steel Design must also be taken, which counts as a technical elective.
[6] ECON 202E (Microeconomics for Engineers) is recommended. However, any section of ECON 202 may be taken.
[7] A 2-course sequence in 4 different Civil Engineering areas is required. The curriculum already includes a 2-course sequence in Structures, Geotechnical Engineering, and Construction. Therefore, each student must select one of their technical electives to cover an additional area such as Surveying, Materials, Environmental Engineering, Hydrology, or Transportation. See section “2-Course Sequence Requirement” in the CE Student Handbook for more information.

**Spring Semester**
- CE 491 UK - CE Selected Topics ............................ 3
- CE 492 Structural Steel Design ................................. 3
- CE 493 Construction Administration ......................... 3
- CE 494 Construction Materials ............................... 3
- CE 495 Highway Construction .................................. 3
- CE 496 Surveying III & Lab ...................................... 3

Program Educational Objectives

Computer engineering involves modeling, design, implementation, testing, evaluation and integration of computer hardware and software to create computing systems. Computer engineers use both hardware concepts from electrical engineering and system software concepts from computer science. Graduates will be well prepared to work in areas such as digital logic design, computer organization/architecture and design, algorithm design and analysis, embedded systems, compilers, and operating systems. Elective options in the curriculum offer preparation in software engineering, databases, dependable systems, networking and communications, VLSI, graphics, image processing, visualization, artificial intelligence, and control systems. The program is offered through a partnership between the Department of Electrical and Computer Engineering and the Department of Computer Science.

The program educational objectives related to expectations of program graduates include the following:

- Graduates of the program employed in industry will demonstrate, within five years after graduation, professional advancements, such as technical accomplishments, supervisory responsibilities, or other recognitions of their contributions.
- Graduates of the program who continue their formal education will, within five years after graduation, receive advanced degrees, complete specialized training, or receive professional certifications.
- Graduates of the program will appreciate the preparation received in the program as it relates to their careers and their roles in society.

Degree Requirements

Each student must complete the following:

UK Core Requirements

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

I. Intellectual Inquiry in Arts and Creativity

Supportive Elective* is to be chosen from any University course, excluding more elementary versions of required courses, such as precalculus mathematics or PHY 211.

†Technical elective may be selected from upper-division engineering, mathematics, statistics, computer science, psychology, or other technically-related fields excluding more elementary version of required courses. EE 490 and EE 491 fulfill the technical elective, senior design and the Graduation Writing Requirement. To be selected in consultation with academic advisor.

Recommended EE/CS Technical Electives:
EE 490 and EE 491 fulfill the technical elective, senior design and the Graduation Writing Requirement. To be selected in consultation with academic advisor.

EE/CS Technical Electives:
EE 490 and EE 491 fulfill the technical elective, senior design and the Graduation Writing Requirement. To be selected in consultation with academic advisor.

BACHELOR OF SCIENCE IN COMPUTER SCIENCE

The computer science program of study prepares students to identify computational problems, to design, implement, and analyze algorithmic solutions, and to build software for a variety of applications. Through required and elective courses students are exposed to the foundations and practice of computing and algorithms, software engineering, programming languages, operating systems, graphics and multimedia, scientific computing and numerical analysis, databases, artificial intelligence and networks.

The program’s educational objective is to equip graduates to succeed in their chosen career path. Specifically, within three to five years after graduation:

• Those employed in industry or entrepreneurial endeavors will demonstrate professional advancement through expanded leadership responsibility, significant technical accomplishment, or other recognition of their contributions.

• Those who continue their formal education will achieve an advanced degree or other technical certification.

Grades will appreciate the preparation received in the program as it relates to their chosen careers, to their role as educated citizens in a global society, and to continued learning.

Choose 12 credit hours of the following:
MA 214 Calculus IV or any 300-level or higher classes selected from computer science, electrical engineering, mathematics, or the College of Business and Economics

Subtotal: Technical Electives 12

Electives (Non-Technical and Free Electives)
Two courses must be in areas other than computer science, science, engineering, or mathematics. Any remaining electives should be selected to meet the minimum total of 128 hours required for graduation

Subtotal: Electives minimum of 6

TOTAL HOURS 128

Curriculum

First Semester Hours
CS 100 The Computer Science Profession 1
CS 115 Introduction to Computer Programming 3
CS/MA 321 Introduction to Numerical Methods 3
MA 113 Calculus I 4
UK Core [C] 3

Second Semester Hours
CS 215 Introduction to Program Design, Abstraction, and Problem Solving 4
Natural Science Elective [N] 3
MA 114 Calculus II 4
UK Core – Statistical/Inferential Reasoning [U] 3

Sophomore Year

First Semester Hours
CS 216 Introduction to Software Engineering 3
EE 280 Design of Logic Circuits 3
MA 213 Calculus III 4
PHY 231 General University Physics 4
PHY 241 General University Physics Laboratory 1
CS/EE 380 Microcomputer Organization 3

Second Semester Hours
CS 275 Discrete Mathematics 4
CS/EE 380 Microcomputer Organization 3
PHY 232 General University Physics 4
PHY 242 General University Physics Laboratory 1
STA 281 Probability and Statistics Using Interactive Computer Techniques 3
UK Core [U] 3

Junior Year

First Semester Hours
CS 315 Algorithm Design and Analysis 3
CS/MA 321 Introduction to Numerical Methods 3
UK Core [U] 3
ENG 2XX Writing Intensive Course 3
Elective [E] 3

Second Semester Hours
CS 375 Logic and Theory of Computing 3
Computer Science Elective [C] 3
Technical Elective [T] 3
UK Core [U] 3
Natural Science Elective [N] 3
Elective [E] 3

Senior Year

First Semester Hours
CS 470G Introduction to Operating Systems 3
Computer Science Elective [C] 3
Technical Elective [T] 3
UK Core [U] 3
Elective [E] 3

Second Semester Hours
CS 499 Senior Design Project 3
Computer Science Elective [C] 3
Technical Electives [T] 6
Elective [E] 3

[U] – Select to satisfy the UK Core areas Arts & Creativity, Humanities, Social Sciences, Citizenship, Global Dynamics.

[N] – Any natural science course excluding more elementary versions of completed required courses.

[C] – Computer Science Elective – include 300-level and above computer science courses with two to be selected from: CS 335, CS 405G, CS 441G, CS 450G and CS 463G.

[T] Technical Elective – include any 300-level and above courses in computer science, electrical engineering, mathematics and business and economics. MA 214 is also an acceptable technical elective.

[E] – Elective – including one Free Elective and Non-Technical Elective. At least two of the electives (6 credits) cannot be in computer science, mathematics, science or engineering. Note: At least 128 credit hours; a foreign language requirement.

Minor in Computer Science
The minor in computer science requires a minimum of 20 hours of course work in CS, to include the following:
CS 115 (3), CS 215 (4), CS 216 (3), CS 275 (4), CS 315 (3), or equivalent, plus three additional hours of upper-division courses (300 or higher) in computer science. A GPA of at least 2.5 across these courses is required. At least 10 of the credit hours required to complete the minor must be earned at the University of Kentucky.

BACHELOR OF SCIENCE IN ELECTRICAL ENGINEERING

The electrical engineering undergraduate degree program seeks to produce graduates who are trained in the theory and practice of electrical and computer engineering and are well prepared to handle the professional and leadership challenges of their careers. The program allows students to specialize in high performance and embedded computing, microelectronics and nanotechnology, power and energy, signal processing and communications, high frequency circuits and fields, and control systems, among others.

The following objectives relate to expectations for program graduates while in the early stages of their careers. The EE program objectives are:

• Graduates of the electrical engineering program employed in industry will demonstrate, within five years after graduation, professional advancements, such as technical accomplishments, supervisory responsibilities, or other recognitions of their contributions.

• Graduates of the electrical engineering program who continue their formal education will, within five years after graduation, receive advanced degrees in electrical engi-
neering or other fields, complete specialized training, or receive professional certifications.

- Graduates of the electrical engineering program will appreciate the preparation received in the program as it relates to their careers and their roles in society.

The electrical engineering undergraduate program has identified curriculum tracks as recommended groups of courses for undergraduate students interested in a particular area of electrical engineering.

Each track consists of a list of three recommended electives (typically EE Technical Electives) and possibly a required lab elective. A student will be considered to have completed a track if these course requirements have been satisfied with a grade of C or better.

Students are not required to participate in a track. Tracks are intended for students as a guide of classes to take in a particular area. Student transcripts will not explicitly mention completion of a track. However, any student completing a track will receive an official recognition of this completion from the department.

The current set of tracks are:

**Electric Power and Energy**
EE Technical Electives EE 537 and EE 538, and one of the following: EE 518, EE 531, or EE 539. Also, EE 416G as a Lab Elective.

**Signals and Systems**
Any three of the following EE Technical Electives: EE 511, EE 512, EE 513, EE 521, EE 586. Also, EE 422G as a Lab Elective.

**Digital Systems**
EE Technical Electives EE 582 and EE 584, and one of the following: EE 585, EE 586, EE 587, EE 589. Also, EE 281 as a Lab Elective.

**High Frequency Circuits and Fields**
EE Technical Electives EE 521 and EE 522, and one of the following additional: EE 523, EE 525, EE 527.

**Degree Requirements**
Each student must complete the following:

**UK Core Requirements**
See the UK Core section of this Bulletin for the complete UK core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

1. Intellectual Inquiry in the Arts and Creativity

*Supportive elective is to be chosen from any University courses, excluding more elementary versions of required courses, such as precalculus mathematics or PHY 211.
The educational objectives of the materials engineering undergraduate program are as follows:

- Produce graduates with an understanding of materials science and engineering who can function independently as professionals in the practice of engineering or as successful members of related graduate and professional programs.
- Produce graduates who can use their materials science and engineering education to continue their careers with steady advancement and professional development.

Degree Requirements

The following curriculum meets requirements for the B.S. in Materials Engineering, provided the student satisfies the graduation requirements listed earlier. Each student must complete the following:

**UK Core Requirements**

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

I. Intellectual Inquiry in Arts and Creativity

*Supportive elective is any university course, excluding more elementary versions of required courses, such as precalculus mathematics or PHY 211.

**BACHELOR OF SCIENCE IN MECHANICAL ENGINEERING**

The training of the mechanical engineer is the broadest among the several fields of engineering. The mechanical engineer uses the techniques of mathematics combined with a specialized knowledge of the thermal and energy sciences, solid and fluid mechanics, and the properties of materials. This information is supplemented by an understanding of manufacturing processes, the design and control of systems, and the economics of the technological community.

Our graduates will be able to apply knowledge of mathematics, science and mechanical engineering to the solution of problems, particularly in the areas of thermodynamics and energy systems; heat transfer; fluid mechanics; mechanical systems and controls; mechanical design; finite element methods and computer-aided graphics; manufacturing; instrumentation; and experimental method.

Consistent with the Vision and Mission statements of the University of Kentucky and the College of Engineering, the undergraduate program in mechanical engineering will prepare our graduates for successful practice or academic pursuits in mechanical engineering. Our educational objectives are:

1. Our graduates will practice mechanical engineering in a variety of fields as professionals and/or be recruited to graduate and professional schools in their career paths.
2. Our graduates will communicate effectively, work in diverse teams, address the challenges of a global society, and exhibit leadership, ethics, and creativity in their work places.
3. Our graduates will value continuing education and professional growth by supporting or participating in professional societies, licensure programs, short courses, or other professional development activities.

**Degree Requirements**

Each student must complete the following:

Subtotal: Technical Electives: 9

Statistical/Inferential Reasoning
To be chosen from the approved list of courses in the Statistical/Inferential Reasoning area of the UK Core requirements.

Subtotal: Statistical/Inferential Reasoning: 3

Supportive Elective Hours
The supportive elective can be any course that carries college credit and is not a more elementary version of a required course. For example, college algebra would not be satisfactory because it is more elementary than the required calculus courses. The student completing 3 co-op tours (EGR 399) may count the co-op experience toward the supportive elective.

Subtotal: Supportive Elective: 3

TOTAL HOURS: 136

Curriculum

Freshman Year
First Semester
ME 101 Introduction to Mechanical Engineering 3
CHE 105 General College Chemistry I 3
MA 113 Calculus I 4
CIS/WRD 110 Composition and Communication I 3
UK Core – Global Dynamics* 3

Second Semester
ME 151 Manufacturing Engineering 3
CHE 107 General College Chemistry II 3
MA 114 Calculus II 4
CIS/WRD 111 Composition and Communication II 3
UK Core – Humanities* 3

Sophomore Year
First Semester
PHY 231 General University Physics 4
PHY 241 General University Physics Laboratory 1
MA 213 Calculus III 4
CS 221 First Course in Computer Science for Engineers 2
ME 205 Computer Aided Engineering Graphics 3
UK Core – Social Sciences* 3

UK Core – Statistical/Inferential Reasoning* 3

Junior Year
First Semester
ME 310 Engineering Experimentation I 3
MA 344 Mechanical Design 3
ME 325 Elements of Heat Transfer 3
ME 340 Introduction to Mechanical Systems 3
Mathematics Elective 3

Second Semester
ME 411 ME Capstone Design I 3
ME 411 ME Capstone Design II 3
Technological Electives 3
Supportive Elective†† 3
UK Core – Creativity and the Arts* 3

Senior Year
First Semester
ME 411 ME Capstone Design I 3
ME 311 Engineering Experimentation II 3
ME 440 Design of Control Systems 3
ME 501 Mechanical Design with Finite Element Methods 3
Technical Elective††† 3

Second Semester
ME 412 ME Capstone Design II 3
Technological Electives 3
Supportive Elective††† 3
UK Core – Critical Thinking and the Arts* 3

*B to be selected from UK Core courses in consultation with the academic advisor.
**To be selected from the UK Core approved courses for Statistical/Inferential Reasoning in consultation with the academic advisor.
††Technical Electives – see list above.
†††The supportive elective is to be chosen from any University course, excluding more elementary versions of required courses, such as precalculus mathematics or PHY 221.

BACHELOR OF SCIENCE IN MECHANICAL ENGINEERING – PADUCAH

In addition to the program on the Lexington campus, students can pursue a B.S. degree in mechanical engineering through the College’s Extended Campus Program in Paducah, Kentucky. The Paducah program uses the same curriculum as the main campus, but provides the opportunity for students to complete all B.S. degree requirements without having to relocate to Lexington.

Consistent with the Vision and Mission statements of the University of Kentucky, the mechanical engineering program at the UK Extended Campus in Paducah strives to meet the following educational objectives:

- Our graduates will have the technical skills needed to begin engineering practice or to continue their education. These will include the knowledge of how to design and conduct experiments, mathematics and analytical skills, principles for the design of components and systems, as well as a familiarity with software tools common to the field.
- Our graduates will have the broad education and communication skills needed for a variety of career options, and an appreciation of the need for lifelong learning to maintain their competency.
- Our graduates will have an understanding of the social and ethical responsibilities of engineers, and the impact that engineers have in environmental and societal issues.

The Paducah mechanical engineering program collaborates with West Kentucky Community and Technical College to provide the basic math and science courses, as well as the general studies course requirements. Murray State University faculty members teach upper-level non-engineering courses on the Paducah campus. On-site UK mechanical engineering faculty members and jointly-appointed Murray engineering faculty members teach the upper-division engineering courses. Program admission, course registration, student advising and other student services all can be completed at the Paducah site.

Degree Requirements
The curriculum requirements for the B.S. degree in mechanical engineering in Paducah are identical to those on the Lexington campus. Refer to those degree requirements for the Paducah degree program. Not all the technical electives listed for the Lexington program will be available in Paducah. The student must satisfy the College graduation requirements listed earlier.

BACHELOR OF SCIENCE IN MECHANICAL ENGINEERING

Joint-Degree Program Offered by Western Kentucky University (WKU) and the University of Kentucky (UK)

As part of the “Strategy for Statewide Engineering Education in Kentucky,” adopted July 17, 2000 by all the chief executive officers of Kentucky universities and endorsed by the Kentucky Council on Postsecondary Education (CPE), the vision was expressed that “access to undergraduate engineering education will expand primarily through the creation of joint programs managed by multiple postsecondary institutions.” In response, WKU and UK now jointly offer an ABET-accredited baccalaureate degree in mechanical engineering on the WKU campus in Bowling Green, Kentucky. By CPE definition, a joint-degree program is “a program that is mutually sponsored by two or more institutions leading to a single credential or degree, which is conferred by both or all participating institu-
tions. All institutions share responsibility for all aspects of the program’s delivery and quality.”

The joint mechanical engineering program is one of only four such joint-degree programs in Kentucky; the others include a joint-degree program between WKU and UK in civil engineering, between WKU and the University of Louisville (UL) in electrical engineering, and between Murray State University and UL in electrical and telecommunications engineering.

The WKU/UK joint programs emphasize a project-oriented educational approach. Courses are provided by both WKU and UK faculty. Students are required to complete a minimum of 16 credit hours of engineering course work taught by UK engineering faculty. At present, the UK contribution is provided primarily by distance delivery via interactive television. The curriculum of the joint mechanical engineering program is under the direction of a joint program faculty, with equal representation from each participating institution. The curriculum for entering students requires 135 credit hours, with the General Studies component based on the requirements of WKU. Students who complete the program will receive a B.S. degree conferred jointly by WKU and UK. Under the terms of the agreements between the degree-awarding institutions, WKU provides basic administrative support for students in the joint-degree program, including admission services, registration, and student financial aid. In addition, academic advising, laboratory and equipment support, and library and media resources are supplied by WKU.

The mechanical engineering curriculum of the joint program is listed below. The joint program faculty are responsible for ongoing review of the curricular requirements.

**TOTAL HOURS**

Each student’s transcript must have at least 16 hours of credit in the major taught by a UK faculty member.

UK faculty are scheduled to deliver the following courses to the ME Joint Program: EM 221, EM 313, ME 321, ME 344, ME 416, and a range of technical electives: ME 498 (Fa) or 499 (Sp).

Check the ME Student Handbook for the latest institutional course offering plan, including technical electives and a list of suitable Mathematics electives.

*Review the WKU Undergraduate Catalog for the current policies concerning the foreign language course.

Consult the WKU Undergraduate Catalog and ICAP for category B, C, E, and F electives. Categories A and D are covered by the plan of study shown.

**BACHELOR OF SCIENCE IN MINING ENGINEERING**

Mining engineering requires the broadest knowledge of sciences and other fields of engineering in its practice after graduation. The curriculum below prepares the student for a career in the field of mining.

The objectives of the undergraduate program in mining engineering take into consideration the intellectual and personal development of students so that after graduation they will be able to:

- Advance in their careers, adapting to new situations and emerging problems, through the application of general purpose engineering skills and the core technical disciplines, analytical procedures, and design practices of the mining engineering profession.
- Function ethically in a variety of professional roles such as mine planner, designer, production manager, mineral processing engineer, consultant, technical support representative and regulatory specialist with emphasis on the mineral industries of Kentucky and the surrounding region.
- Pursue advanced degrees in mineral-related fields and also those fields that support the mineral industries such as business and law.
- Utilize professional skills such as effective communication, teamwork, and leadership.
- Demonstrate an understanding of the critical role mining engineers play in society with respect to health, safety, and the environment in tangible ways such as achieving professional licensure.

Visit our Web page at: www.engr.uky.edu/mng.

**Degree Requirements**

Each student must complete the following:

**UK Core Requirements**

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

*XThe Mineral Processing Technical Elective is to be chosen
between MNG 575, Coal Preparation Design, and
MNG 580, Mineral Processing Plant Design.

**Courses recommended as technical electives are listed
below. These courses must be chosen with the approval of
the student’s advisor to ensure that the curriculum includes
sufficient engineering design content.

Technical Electives: Of the two technical electives in the
undergraduate program, students are required to select at
least one from departmental courses. The remaining course,
chosen with the approval of the student’s advisor, can be
used to fulfill specific educational goals.

MNG 511 Mine Power System Design
MNG 531 Advanced Blast Design and Technology
MNG 541 Computer Design of Mine Ventilation Systems
MNG 561 Mine Construction Engineering I
MNG 563 Simulation of Industrial Production Systems
MNG 572 Advanced Coal Preparation
MNG 580 Mineral Processing Plant Design
MNG 581 Geostatistics
MNG 599 Topic in Mining Engineering
BAE 438G Fundamentals of Groundwater Hydrology
CE 471G Soil Mechanics
CE 541 Intermediate Fluid Mechanics
GLY 450G Sedimentary Geology
GLY 585 Hydrogeology
PLS 501 Reclamation of Disturbed Land
The College of Fine Arts was established in September 1976 and includes the Department of Art, the Department of Theatre, the School of Music, the program in Arts Administration, and the Otis A. Singletary Center for the Arts.

Accreditation

Department of Art

The Department of Art is accredited by the National Association of Schools of Art and Design (NASAD).

School of Music

The School of Music is accredited by the National Association of Schools of Music (NASM).

Undergraduate Programs in Fine Arts

The University of Kentucky grants the following degrees in the College of Fine Arts:
- Bachelor of Arts
- Bachelor of Fine Arts
- Bachelor of Music
- Bachelor of Music in Music Education

Students pursuing the Bachelor of Arts may select from these majors: art education, art history, art studio, music (successful audition required), theatre, or arts administration.

Students pursuing the Bachelor of Fine Arts select art studio.

Students pursuing a music degree select the Bachelor of Music with a major in music performance or the Bachelor of Music in Music Education. A successful audition is required.

The college also offers several graduate programs, which are described in The Graduate School Bulletin.

Departmental Minors

Students from any college may choose to have an interdisciplinary minor in the arts, or to minor in art history, art studio, music (music theory and history or performance), or theatre. Requirements for these minors may be found under the departmental listings.

Financial Aid

Department of Art

The University of Kentucky Department of Art and the Office of Institutional Diversity will award the William C. Parker Scholarship in the Visual Arts to an incoming African-American freshman student majoring in art studio, art education, art history, or arts administration. For more information on this four-year scholarship and other smaller departmental scholarships, contact the Art Department, 207 Fine Arts Building, University of Kentucky, Lexington, KY 40506-0022. Or call (859) 257-8151.

School of Music

The School of Music has a number of performance based grants-in-aid and scholarships. Talented singers and instrumentalists should contact the School of Music, Office of Outreach and Recruiting for further information. Call (859) 257-1808 or write c/o 105 Fine Arts Building, University of Kentucky, Lexington, KY 40506-0022.

Department of Theatre

A modest number of scholarships are available from the Department of Theatre. For further information, call (859) 257-3297. Or visit the Web at: www.uky.edu/FineArts/Theatre/.

Requirements for the Bachelor of Arts Degree

Students who wish to pursue the Bachelor of Arts degree within the College of Fine Arts must fulfill the following requirements:

University Requirements

All students must fulfill UK Core requirements. Students should work closely with advisors in selecting courses in each area.

College Requirements

1. Students must complete at least 120 hours of course work or its equivalent with a grade-point average of at least 2.0. Of these hours, 39 must be at or above the 300 level.

2. Students in music and students in art history (major or minor) must 1) satisfy a four-semester sequence in one language by passing the fourth semester or by demonstrating equivalent competence, or 2) pass the third semester course in one language and the second semester course in a second language or demonstrate equivalent competence.

3. Students must complete a major program.

Requirements for a Major

The major – selected from art education, art history, art studio, music, theatre, or arts administration – must include at least 45 credit hours. Among these 45 hours students must include the following:

1. At least six hours of premajor work.

2. At least 18 hours at or above the 200 level in a departmental or school program.

3. At least 9 hours in work related to but outside the major department.

In addition, students must complete the departmental or school requirements that have been established. Specific major requirements are outlined in detail under the appropriate department and school sections which follow.

Requirements for the Bachelor of Fine Arts Degree

The University and College requirements for the B.F.A. are the same as the B.A. requirements outlined above.

Requirements for the Bachelor of Music in Music Performance and in Music Education

These requirements are outlined with other program requirements under the School of Music.

Academic Advising

Advising is conducted through formal meetings with each student every semester to review individual curricular plans and progress towards degree. Lower-division advising (freshman and sophomore standing) is conducted by professional advisors in the Office of Student Affairs, 204 Fine Arts Building. Upper-division students (junior and senior standing) are assigned to faculty advisors/mentors in their major programs.
DEPARTMENT OF ART

Requirements for the B.A. with a major in ART EDUCATION

Art Education majors who wish to be recommended for a state teaching certificate must complete the requirements for the major in Art Education and the requirements for admission, retention, and completion of a UK educator preparation program (see pages 187-188 of this Bulletin).

The Art Education Program Faculty, the College of Education Director of Academic Services and Teacher Certification, the University Registrar, and in the case of graduate level programs, the UK Graduate School Dean, are charged with the responsibility of monitoring a student’s progress through educator preparation programs. The Director of Academic Services and Teacher Certification recommends to the Kentucky Education Professional Standards Board (EPSB) that a successful candidate be awarded a state educator license (certificate).

Continuous Assessment in the Art Education Program

Students’ progress through the art education programs is continuously monitored, assessed, and reviewed. In addition to regular evaluation in conjunction with their program course work and field placements, students will be assessed three times in their art education program:

1. Teacher Education Program (TEP). Students who desire to declare an Art Education major will demonstrate their progress in the Foundations Program and commitment to advanced undergraduate study through an application to the TEP. In this application, students must demonstrate that they have earned at least 60 credit hours and meet the criteria put forth by the College of Education by filling out the College of Education TEP application form. Upon meeting these criteria, applicants then have a portfolio review and interview with art education faculty to determine entry into the program.

The TEP criteria include:
   • Total academic record. A minimum overall grade-point average of 2.5 is required.
   • Performance on required tests measuring proficiency in writing, reading and math.
   • Record of completed preprofessional course work, experiences, and awards.

2. Mid-Level review. No later than the semester prior to student teaching, students will demonstrate that they meet the criteria put forth by the art education faculty by submitting the materials required for review by the art education faculty.

3. Student Teaching. The final assessment is made by the two cooperating public school teachers who supervise the student, and by the observation assessments of the University student teaching supervisor.

Area of Concentration in Art

1. ART 191 Art Professions .................................... 2
2. A-S 201 Art Studio Foundation Seminar ................ 1
3. Two Art History courses at
   or above the 300 level ...................................... 6
4. All of the following courses:

State Mandated Testing and the Kentucky Teacher Internship

Successful completion of the examinations required by the Kentucky Education Professional Standards Board is a pre-condition for the granting of a teaching license (certificate). See www.kyepsb.net/ for the current list of PRAXIS examination requirements for P-12 Art certification.

Upon being recommended for a Kentucky Teaching License (certificate), a candidate will be issued a Kentucky Letter of Eligibility for the Kentucky Teacher Internship Program. Upon employment in a Kentucky P-12 school, the candidate will receive a one-year license to practice as a fully qualified intern Art teacher. After successfully completing the internship year, the candidate will be eligible for a regular Kentucky Professional Teaching License (certificate).

Information concerning licensure in other states is available from the office of Academic Services and Teacher Certification in the College of Education.
College of Fine Arts

Requirements for the B.A. with a major in ART HISTORY

The B.A. offers art history majors courses in the Western tradition, African and Asian art, methodology and theory, and advanced courses with more focused topics that present differing approaches to the discipline. A major in art history focuses on the development of the visual arts within a broad liberal arts tradition. The program equips majors with skills in visual analysis, art historical research, problem solving, critical thinking, and writing, as well as with direct experience with the art object.

Graduates with a B.A. in art history will have received a solid liberal arts education with a strong emphasis on writing, the acquisition of at least one foreign language, and critical thinking, useful for virtually any career path. The degree helps prepare majors for arts-related careers in gallery and museum work or arts organizations at the community or state level. Majors may choose to pursue further post-graduate studies, leading to careers in research and/or field work, teaching, arts administration, and curatorial work in a museum.

The major in art history must include the following:

College Requirements
Music, Theatre and/or Arts Administration .......................... 6
plus 39 hours at 300-level or above

Subtotal: College Required Hours ............... 6

UK Core Requirements
See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

NOTE: Students majoring in Art History may use no more than six credit hours of courses within the Department of Art to fulfill UK Core Requirements.

I. Intellectual Inquiry in Arts and Creativity
A-S 102 Two-Dimensional Surface or A-S 103 Three-Dimensional Form ......... 3

II. Intellectual Inquiry in the Humanities
A-H 106 Renaissance Through Modern Art ................. 3

III. Intellectual Inquiry in the Social Sciences
Choose one course from approved list ...................... 3

IV. Intellectual Inquiry in the Natural, Physical, and Mathematical Sciences
Choose one course from approved list ...................... 3

V. Composition and Communication I
CIS/WRD 110 Composition and Communication I ....... 3

VI. Composition and Communication II
CIS/WRD 111 Composition and Communication II ....... 3

VII. Quantitative Foundations
Choose one course from approved list ...................... 3

VIII. Statistical Inferential Reasoning
Choose one course from approved list ...................... 3

IX. Community, Culture and Citizenship in the USA
A-H 360 Visual Culture of Politics ............................. 3

X. Global Dynamics
Choose one course from approved list ...................... 3

Premajor Requirements

Select two of the following A-H courses:
A-H 103 World Art .............................................. 3
A-H 105 Ancient Through Medieval Art .................... 3
A-H 106 Renaissance Through Modern Art ................. 3

plus
A-S 102 Two-Dimensional Surface or A-S 103 Three-Dimensional Form ......... 3

ART 191 Art Professions .............................................. 1

Subtotal: Premajor Hours .......................................... 10

Major Requirements

Performance Review
When majors have completed nine hours of art history at the 300 level or above, their performance is reviewed by the art history faculty for purposes of undergraduate and career advising. Students with a grade-point average below 2.5 in the major will confer with their advisor and together develop a strategy for improving and completing successfully their degree work.

Foreign Language
To satisfy the requirement students must: 1) satisfy a four-semester sequence in one language pertinent to primary or secondary sources for art historical scholarship (German or French recommended) by passing the fourth semester, or 2) pass the third semester course in one language and the second semester course in a second language, or 3) demonstrate equivalent competence.

Subtotal: Foreign Language .......................... 12-19

Art History
Twenty-four hours of art history are required beyond the premajor requirements. Of these, the following are specified:

At least one course from four of the five following groups ........................................ 12

The four courses from these groups are designed to introduce students to major developments in the history of art. Students will develop skills in art historical analysis, research methods, writing, and problem solving.

Non-Western Art
A-H 307 Ancient Near Eastern and Egyptian Art ..... 3
A-H 308 Studies in African Art (Subtitle required) .... 3

Ancient and Medieval Art
A-H 312 Studies in Greek Art (Subtitle required) .... 3
A-H 313 Studies in Roman Art (Subtitle required) .... 3
A-H 323 Studies in Medieval Art (Subtitle required) .... 3

Renaissance and Early Modern Art
A-H 334 Studies in Renaissance Art (Subtitle required) ...... 3
A-H 335 Studies in Early Modern Art, 1500-1700 (Subtitle required) .......... 3

18th and 19th Century Art
A-H 339 Studies in Art 1700-1840 (Subtitle required) ....... 3
A-H 340 Studies in Art 1840-1914 (Subtitle required) ....... 3
A-H 342 Studies in American Art (Subtitle required) ....... 3

Plus:
A-H 555 Methods in Art History ......................... 3

The art history program also offers a topical course offered on a variety of subjects:
A-H 415G Topical Studies in Art History (Subtitle required) ........................................ 3

Subtotal: Major Hours ........................................... 24

Electives
Successful completion of nine hours in work related to, but outside, the Art Department. With the approval of an advisor, students are encouraged to select courses in aesthetics (PHI 592), anthropology, architectural history, art studio, arts administration, art professions, classics, history, history of film, history of interior design, history of theatre, literature, music, philosophy, and most particularly foreign language – especially German, French, or other languages relevant to special program or regional studies. In addition, students must choose six hours of free electives.

Subtotal: Electives ............................................. 15

TOTAL HOURS: .................................................. 120

Minor in Art History

Students from any college may choose to minor in art history. This minor requires at least 18 hours of course work.

1. Select two of the following A-H courses:
A-H 103 World Art
A-H 105 Ancient Through Medieval Art
A-H 106 Renaissance Through Modern Art

2. At least nine hours of work in art history at the 300 level or above

3. At least one course in art studio
Requirements for the B.A. with a major in ART STUDIO

NOTE: The B.A. in Art Studio as listed below has been provisionally approved; formal approval is expected in Fall 2011.

The main thrust of the B.A. is the pursuit of a broad liberal arts education that extends beyond the purview of the Art Studio curriculum. This degree is available to students wishing to focus in a single medium or a combination of the following media: ceramics, digital media, drawing, fiber, painting, photography, printmaking, and sculpture.

The major in art studio must include the following:

College Requirements
Music, Theatre and/or Arts Administration .................... 6
plus 39 hours at 300-level or above
Subtotal: College Required Hours .............................. 6

UK Core Requirements
See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

NOTE: Students majoring in Art Studio may use no more than three credit hours of courses meeting Major Requirements to fulfill UK Core Requirements.

I. Intellectual Inquiry in Arts and Creativity
Choose one course from approved list .......................... 3

II. Intellectual Inquiry in the Humanities
A-H 105 Ancient Through Medieval Art .......................... 3
or
A-H 106 Renaissance Through Modern Art .................... 3

Requirements for the B.F.A. with a major in ART STUDIO

NOTE: The B.F.A. in Art Studio as listed below has been provisionally approved; formal approval is expected in Fall 2011.

The B.F.A. program will allow for development of studio practice at a more focused, sophisticated, and preprofessional level. This degree is available to students who demonstrate special abilities through a B.F.A. portfolio review of work in the visual arts no earlier than the student’s fifth semester of college art study (60 credit hour minimum). Applicants must have completed all art studio premajor and studio core requirements prior to application. A student’s program of study may focus on a single medium from the following media: ceramics, digital media, drawing, fiber, painting, photography, printmaking, and sculpture.

Students seeking the Bachelor of Fine Arts in art studio must complete the following:

Premajor Foundation Exhibition
Each first-year student in the Foundation Program must participate in an annual exhibition to occur late each spring semester. Students will submit one work of their own selection from the first year's work for the exhibition, present it professionally, and provide an accompanying artist's statement. Participation in this exhibition is required and is tracked in A-S 001, Foundation Exhibition.

Major Requirements

B.F.A. Entrance Portfolio
B.A. Art majors may apply for the B.F.A. degree. The procedure to apply for entry into the Art Studio B.F.A. major consists of a mandatory portfolio review juried by Art Studio faculty. If the quality of the portfolio is not deemed sufficient, students may reapply.

The portfolio will be juried from actual works of art presented in a professional format. The selected works should demonstrate the student's advanced level of study, current proposed direction, and strong evidence that the student can succeed in creating a coherent body of work for a solo exhibition. Students will be present during the review to answer questions regarding formal, technical and conceptual elements of their work. In addition to the in-person review, students will submit an artist's statement and documentation of work presented during the review.

1. ART 191 Art Professions (2 credit hours required)
2. A-S 201 Art Studio Foundation Seminar (1 credit hour)
3. ART 291 B.F.A. Studio Practicum (2 credit hours required)
4. Thirty-six credit hours of studio courses at or above the 300 level, according to the student's committee-approved plan of study. A part of this 36 credit hour requirement, majors are to complete one course from each of the following categories: the sophomore year (or equivalent):}

STUDIO CORE
Category One Options (3 credit hours)
A-S 310 Painting I
A-S 320 Printmaking I
A-S 350 Fiber I

Category Two Options (3 credit hours)
A-S 355 Introduction to Sculpture
A-S 370 Ceramics I

Category Three Options (3 credit hours)
A-S 380 Black and White Darkroom Photography
A-S 345 Web Design
A-S 346 Digital Video
A-S 348 Circuits & Bits: Introduction to Hardware and Software Topics in Arts

At least 9 hours of art history at or above the 300 level
6. A-S 490 Senior Seminar (1 credit hour; taken during the final semester of study)
7. Participation in a Graduating Seniors' Exhibition, reviewed by a faculty committee
8. At least 9 hours in work related to but outside the major. Choice of this related work must be approved by the student's advisor. Courses which are used to fulfill UK Core requirements may also be used to fulfill this related work, when appropriate.
9. Students are required to complete a minimum of two semesters at the University of Kentucky following admission into the B.F.A. program.

Subtotal: Major Hours ................................................. 60

Electives
Students must complete 9 hours of free electives.

Subtotal: Electives ..................................................... 9

TOTAL HOURS: ..................................................... 120

Minor in Art Studio

NOTE: The minor in Art Studio as listed below has been provisionally approved; formal approval is expected in Fall 2011.

Students from any college may choose to minor in art studio. They may choose between a broad-based introduction to studio arts or a more focused concentration in a specific medium such as ceramics, drawing, intermediation, fiber, painting, photography, printmaking, or sculpture. All prospective minors should seek advice from an Art Studio faculty member.

To earn a minor in Art Studio, students must complete the following:

1. ART 191 Art Professions (2 credit hours required)
2. One course chosen from the list below:
   A-S 102 Two-Dimensional Surface ................................. 3
   A-S 103 Three-Dimensional Form ............................... 3
   A-S 130 Drawing .................................................... 3
   A-S 200 Digital Art, Space and Time .......................... 3
3. One course in Art History .......................................... 3
4. At least twelve hours in studio at the 200 level or above (with a minimum of nine hours at or above the 300 level)

Subtotal: Minor Hours ................................................. 20

Only three hours from courses taken to fulfill a requirement in another major or minor can be used to meet the requirements of the minor in Art Studio. Students must take at least nine hours of classes at the 200 level or above from the UK Art Studio program.

School of Music

Requirements for the B.A. with a major in MUSIC

Admission to the B.A. program in music is granted only after the successful completion of an audition in the student's performance area.

The major in music must include the following:

College Requirements
Art, Theatre and/or Arts Administration ................................ 6
plus 39 hours at 300-level or above

Subtotal: College Required Hours .................................. 6

UK Core Requirements

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

I. Intellectual Inquiry in Arts and Creativity
Choose one course from approved list ................................ 3

II. Intellectual Inquiry in the Humanities

## Requirements for the BACHELOR OF MUSIC with a major in Music Performance

Admission to the Bachelor of Music program in music performance is granted only after the successful completion of an audition in the student’s performance area.

To earn a Bachelor of Music degree in music performance, a student must complete 120 credit hours and have a grade-point standing of at least 2.0. At the conclusion of the sophomore year and before continuing in music performance at the upper division level, each student must perform before the music performance faculty for approval. Each student must also present a full recital during the senior year.

Students in music performance must complete the following:

## UK Core Requirements

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

### I. Intellectual Inquiry in Arts and Creativity
Choose one course from approved list

### II. Intellectual Inquiry in the Humanities

Students in music performance must choose one of the following concentrations:

### Concentration in an Instrument

1. All music majors must pass a piano proficiency examination and should schedule, in consultation with their advisor, a suitable course each semester until this requirement is completed. Students with little or no prior piano study should normally expect to complete the piano proficiency examination by the end of four semesters of study | 4 or as needed |

3. Conducting: MUS 358

4. Electives

5. Senior Recital: the successful completion of a solo recital must be completed for graduation.

**Subtotal: Instrument Concentration**........ 28

### Concentration in Piano

1. All music majors must pass a piano proficiency examination. Piano majors work toward this goal as part of their keyboard study

2. Music Theory: MUS 370, 372, and choice of MUS 572 or 573

3. Piano Literature: MUS 522

4. Piano Pedagogy: MUS 566

5. Conducting: MUS 358

6. Electives

7. Senior Recital: the successful completion of a solo recital must be completed for graduation.

**Subtotal: Piano Concentration**............. 30

### Concentration in Organ

1. All music majors must pass a piano proficiency examination. Organ majors work toward this goal as part of their keyboard study

2. Piano – one credit course MUP 101, MUP 201, each repeated once

3. Music Theory: MUS 370, 372, and choice of MUS 572 or 573

4. Organ Literature: MUS 521

5. Conducting: MUS 358

6. Electives

7. Senior Recital: the successful completion of a solo recital must be completed for graduation.

**Subtotal: Organ Concentration**............. 30

### Concentration in Voice

1. All music majors must pass a piano proficiency examination and should schedule, in consultation with their advisor, a suitable course each semester until this requirement is completed. Students with little or no prior piano study should normally expect to complete the piano proficiency examination by the end of four semesters of study | 4 or as needed |

2. Music Theory: MUS 370, 372, and choice of MUS 572 or 573

3. Foreign Language – Select two languages from Italian, French, or German and pass the third semester course of one language (or demonstrate equivalent competence) and the second semester course of another language (or demonstrate equivalent competence); or from these same three languages, pass the second semester course of one language (or demonstrate equivalent competence), the second semester course of a second language (or demonstrate equivalent competence) and the first semester of a third language (or demonstrate equivalent competence) | 0-19 |

4. Foreign Language Vocal Diction: MUS 120 (four semesters)

5. Vocal Solo Literature: MUS 520

6. Conducting: MUS 358

7. Opera Workshop: MUC 196 (two semesters)

8. Movement for Singers: MUC 197

9. Opera Practicum: MUC 198 (two semesters)

10. Electives

11. Senior Recital: the successful completion of a solo recital must be completed for graduation.

**Subtotal: Voice Concentration**............. 20-48

**TOTAL HOURS:**........................................... 120
Requirements for the BACHELOR OF MUSIC IN MUSIC EDUCATION

The major in music education is the joint concern of the School of Music in the College of Fine Arts and the Department of Curriculum and Instruction in the College of Education. Admission to the program is granted only after the successful completion of an audition in the student’s performance area. In addition to completing the required courses, the student must present a half-recital or the equivalent on the major instrument or in voice during or after the sixth semester of study.

Music education majors who wish to receive a teaching certificate must meet the certification requirements of the College of Education, as well as the requirements for the College of Fine Arts. To qualify for student teaching and state teacher certification, a student must be officially admitted into the Teacher Education Program. Certification also requires successful completion of the NTE/Praxis II and a one-year paid internship. Additional information on TEP, NTE/Praxis II, certification, and internship is outlined in the "College of Education" section of this Bulletin.

UK Core Requirements

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

I. Intellectual Inquiry in Arts and Creativity
   Choose one course from approved list ......................... 3

Music Requirements – Major Performance Areas

Depending on the area of interest, the student must select one of the major performance areas below:

Major Performance Area – Vocal

A. Diction: MUS 120 (two semesters) ......................... 2

B. All music majors must pass a piano proficiency examina-
   tion and should schedule, in consultation with their
   advisor, a suitable course each semester until
   this requirement is completed. Students with little
   or no prior piano study should normally expect to
   complete the piano proficiency examination by the
   end of four semesters of study. Music Education ma-
   jors should pass the piano proficiency examination
   at least two semesters before student teaching. ....................... 4 or as needed

C. Music Education: MUS 262, 264, 360, 361, 362 ......................................................... 15

D. Secondary Instruments: choose three of the following:
   MUC 157, MUC 158, MUC 161, MUC 163 ......................................................... 3

Subtotal: Vocal Performance Area .................. 24

Major Performance Area – Keyboard

A. All music majors must pass a piano proficiency examina-
   tion. Keyboard majors work towards this goal as part
   of their keyboard study. Music education majors should
   pass the piano proficiency exam at least two semesters
   before student teaching.

B. Minor Performance: MUP 102, 202 ....................... 3

A voice proficiency test must be passed prior to student teaching.

C. Pedagogy and Literature—select one of the
   following: MUS 522, 523, 566 ................................. 3

D. Music Education: MUS 262, 264, 360, 361, 362 ........................................... 15

E. Secondary Instruments—choose three of the following:
   MUC 157, MUC 158, MUC 161, MUC 163 ......................................................... 3

Subtotal: Keyboard Performance Area .................. 24

Major Performance Area – Woodwinds, Brass, Strings, Percussion

A. All music majors must pass a piano proficiency examina-
   tion and should schedule, in consultation with their
   advisor, a suitable course each semester until
   this requirement is completed. Students with little
   or no prior piano study should normally expect to
   complete the piano proficiency examination by the
   end of four semesters of study. Music Education ma-
   jors should pass the piano proficiency examination
   at least two semesters before student teaching. ....................... 4 or as needed

B. Secondary Instruments

   from MUC 158, 161, and 163, plus one hour of
   MUC 157 ................................................................ 6

   Percussion majors: take two hours each of MUC 158,
   161, and 163 ................................................................ 6

   C. Music Education: MUS 263, 265, 360, 363, 365 ......................................................... 15

Subtotal: Woodwinds, Brass, Strings, Percussion Performance Area .................. 25

TOTAL HOURS: .............................................................. 120

Minor in Music

Students from any college may complete a minor in music, selecting either an emphasis in theory/history or performance. Such a minor consists of at least 18 hours of course work in music. In the theory/history emphasis, six to nine hours of music theory, six to nine hours of music history, and three hours of music performance are required. In the performance emphasis, eight hours of performance instruction, four hours of appropriate ensemble, and six hours of music history or theory are required. A successful audition is required for private performance study in the designated area (level of performance expectation is that of entering freshman music major). The course requirements are as follows:

Minor in Music: Music Theory and History

1. Music Theory (six to nine hours)
   Students should choose from:
   MUS 174 Theory for Non-Music Majors .................. 3
   MUS 170/171 Theory I: Elementary Aural and Written Theory ......................................................... 4
   (Theory placement examination or MUS 174 is a prerequisite)
   MUS 172/173 Theory I: Elementary Aural and Written Theory ......................................................... 4
   (MUS 170/171 are prerequisites)

2. Music History (six to nine hours)
   Students should choose from:
   MUS 100 Introduction to Music ................................ 3
   MUS 201 Music in Western Culture to 1700 ................ 3
   MUS 202 Music in Western Culture, 1700 to Present ... 3
   MUS 203 History of Music I .................................... 3
   MUS 206 American Music ....................................... 3
   MUS 220 Symphonic Music .................................... 3
   MUS 221 Survey of Vocal Music: Opera, Art Song, Choral Music ......................................................... 3
   MUS 300 History of Jazz ............................................. 3
   MUS 301 Appalachian Music .................................... 3
   MUS 302 History of Music II ..................................... 3
   MUS 303 History of Music III .................................... 3
   MUS 330 Music in the World (Subtitle required) ........ 3

3. Performance (three hours)
   Students may choose class or private performance instruc-
   tion (one to two hours) or ensemble (one to two hours).
Minor in Music: Performance

1. Performance Study (12 hours)
Performance instruction (eight hours) – four semesters, sequential enrollment in MUP courses at appropriate level; two hours per semester.

2. Music History and Theory (six hours)
Courses to be chosen from the following:
MUS 174 Theory for Non-Music Majors ................................................................. 3
MUS 172/173 Theory I: Elementary Aural and Written Theory ............................ 4
MUS 170/171 Theory I: Elementary Aural and Written Theory (Theory placement examination or MUS 174 is a prerequisite)..... 4
(MUS 170/171 are prerequisites)
MUS 100 Introduction to Music ................................................................. 3
MUS 201 Music in the Western Culture to 1700 ........................................... 3
MUS 202 Music in the Western Culture, 1700 to Present .............................. 3
MUS 203 History of Music I ........................................................................... 3
MUS 206 American Music ............................................................................ 3
MUS 220 Symphonic Music ................................................................. 3
MUS 221 Survey of Vocal Music:
Opera, Art Song, Choral Music ................................................................. 3
MUS 300 History of Jazz ........................................................................... 3
MUS 301 Appalachian Music .................................................................. 3
MUS 302 History of Music II .................................................................... 3
MUS 303 History of Music III .................................................................... 3
MUS 330 Music in the World (Subtitle required) .......................................... 3

Note: Some variation in the above courses is possible, with written approval from the Director of Undergraduate Studies, School of Music. The availability of the minor in music performance is dependent on sufficient time within the appropriate instructor’s designated teaching load.

DEPARTMENT OF THEATRE

The University of Kentucky Department of Theatre is grounded in the belief that theater is a fundamental cultural necessity that enriches all who participate in it.

Our B.A. degree program emphasizes the interaction of practice and theory and is geared toward students who are interested in theatre as a part of a liberal arts education. Students create a program that is unique to their interests and strengths, with freedom to choose between three categories of electives to complete a truly individualized course of study.

The Department of Theatre is oriented toward a multicultural world-view, interdisciplinary collaborations and civic responsibility through Engagement and Service-Learning. Theatre courses emphasize the truly inclusive nature of the art form, which encompasses performance, literature, design, history, artistic community, and intellectual rigor.

Requirements for the B.A. with a major in THEATRE

The major in theatre must include the following:

College Requirements
Art, Music and/or Arts Administration .................................................... 6
plus 39 hours at 300-level or above

Subtotal: College Required Hours .................................................. 6

UK Core Requirements
See the UK Core section of this Bulletin for the complete
UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

NOTE: Students majoring in Theatre may use no more than three credit hours within the theatre major requirements to fulfill UK Core Requirements.

Related Experience/Electives
Students must complete nine hours of course credit related to but outside the College of Fine Arts.

Subtotal: Related Experience/Electives ............................................... 9

TOTAL HOURS: ................................................................................. 120

Minor in Theatre

Students from any college may choose to minor in Theatre. This minor requires at least 21 hours of course work arranged as follows:

1. Prerequisites Hours
TA 150 Fundamentals of Design and Production ........................................ 3
TA 126 Acting I: Fundamentals of Acting ............................................. 3
When appropriate, upper level courses may be substit-uted with the approval of the student’s advisor and the chairperson of the Department of Theatre.

2. Performance/Production Experience
TA 390 Theatre Practicum (repeat three times) .................................... 3

3. Elected Theatre courses (12 hours)
Of these 12 hours, at least three hours must be at the 300 level or above.
INTERDISCIPLINARY PROGRAMS

Requirements for the B.A. with a major in ARTS ADMINISTRATION

NOTE: The B.A. with a major in Arts Administration as listed below has been provisionally approved; formal approval is expected in Fall 2011.

With the increase in the number of performing and visual arts facilities, arts councils and arts advocacy groups, there is a growing need for individuals with both artistic sensibilities and business acumen to work in these organizations. Through the arts administration program, students take classes in the disciplines of art, dance, music, and theatre, plus a wide range of courses related to the business management of nonprofit arts organizations. The program prepares students for entry-level management positions in arts organizations and for graduate study.

Admission

To be admitted into the Arts Administration Program as a major, an applicant must first:
1. be enrolled in the University of Kentucky;
2. complete 45 semester hours of course work;
3. have a minimum 2.8 cumulative grade-point average;
4. complete premajor core requirements (AAD 150, AAD 200, AAD 202, ACC 201, ECO 201, and CIS/WRD 111 with a cumulative grade-point average of 3.0; and
5. submit an application form.

Students meeting these requirements will be accepted as majors in the program. Applications for admission must be submitted before the end of the semester prior to a student taking an upper division Arts Administration course.

Students who want to be a major, but have not met one or more of the above requirements will be designated as “premajors.” There is no application procedure for students to become Arts Administration premajors. Upon their request, premajors will be assigned Arts Administration advisors and folders will be created for them.

Students in arts administration must complete the following program requirements:

College Requirements

Art, Music or Theatre
outside of AAD arts discipline ............................... 6
plus 39 hours at 300-level or above
Subtotal: College Required Hours ........................... 6

UK Core Requirements

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

NOTE: Students majoring in Arts Administration may use no more than six credit hours within the Arts Administration major requirements to fulfill UK Core requirements.

I. Intellectual Inquiry in Arts and Creativity
Choose one course from approved list ..................... 3
II. Intellectual Inquiry in the Humanities
Choose one course from approved list ..................... 3

*AAD 499 Internship in Arts Administration .......... 6

Prerequisites (9 hours)

Elected Courses

When appropriate, upper level courses may be taken under different subtitles as Directed Electives; may be repeated up to 12 credits.

Students may use a maximum of six UK Core course credits to meet major requirements.

Subtotal: Major Hours ........................................ 33

In addition to the Major Requirements, students must take 30 credits within the College of Fine Arts, outside of their Arts Administration courses. Within these 30 credits, students must complete a minor in one of the arts disciplines of Art, Dance, Music or Theatre. Additionally, no more than 24 credits may be in one arts discipline.

Directed Electives

Nine credits chosen in consultation with the student’s academic advisor from the following areas:

1. AAD 402 Topics in Arts Administration
(Subtitle required) ............................................. 3
May be repeated to a maximum of 12 credit hours when identified by different subtitles. Must be different subtitle than that used to meet Arts Administration Core Requirement.
2. Courses from the College of Business and Economics.
3. Courses from the College of Communications and Information Studies.
4. Courses from an arts discipline, such as architecture, art, dance, English, music, and theatre, outside of the student’s Fine Arts minor.

Directed electives may not be used to meet UK Core requirements.

Subtotal: Directed Electives ................................. 9

Free Electives

In addition to meeting their UK Core and major requirements, students must earn 6 credits in any area(s) of their choosing.

Subtotal: Free Electives ....................................... 6
TOTAL HOURS: ................................................. 121

Interdisciplinary Minor in the Arts

For Students outside the College

Any student whose major concentration is outside the College of Fine Arts may choose to minor in the arts, an academic program that cuts across disciplinary lines. This minor requires at least 24 hours of course work, arranged as follows:

Prerequisites (9 hours)

Elected Courses (15 hours)

Performing and/or Studio Experience

Students must have performance and/or studio experience within the college in at least one of the arts, whether or not for academic credit.

For Students within the College

Any student whose major emphasis lies within the College of Fine Arts may choose to minor in the arts by selecting at least 24 hours of course work in the College of Fine Arts (art, music, or theatre) outside the major. The minor must include at least nine hours of credit in each of the disciplines outside the major department or school. No more than six hours of course work used as "related work" for the major may be used toward the minor.
Robert J. Rabel, Ph.D., is Director of the Gaines Center for the Humanities.

The Gaines Center for the Humanities is distinctive among special programs at state universities. Designed to enrich the upper levels of undergraduate study and thereby to offer exceptional opportunities for dedicated students, the programs of the center are open on a competitive basis to any student interested in the humanities, regardless of particular major or intended profession.

Activities of the Gaines Center are developed to encourage participation by a large segment of the university population. Conferences and lectures, informal seminars and discussions are open to all those interested. While the center’s principal purpose is to enhance an appreciation of the humanities, its programs are arranged to stimulate inquiry about the relationship of the humanities to other broad areas of investigation, such as the sciences, the arts, and the professions.

The John R. and Joan B. Gaines Fellowships in the Humanities

A major feature of the Gaines Center for the Humanities is the Gaines Fellowship Program. The Gaines Fellowships are given in recognition of outstanding academic performance, demonstrated independent study, an interest in public issues, and a desire to enhance understanding of the human condition.

The fellowships are awarded in the student’s sophomore year for tenure in the junior and senior years. Renewal in the senior year is contingent upon satisfactory academic performance.

All Gaines Fellows are required to take a specially-designed, four-credit-hour seminar in the humanities (HMN 301 and HMN 302) during both semesters of the junior year. Moreover, each Fellow in the senior year completes an undergraduate thesis (HMN 497) under the supervision of three faculty members and with a credit of six to fifteen hours.

Gaines Fellows also participate in all social and cultural activities sponsored by the Gaines Center.

Eligibility

Any student enrolled at the University of Kentucky, or any student enrolled in a community college who intends to transfer to the University of Kentucky, is eligible to apply.

The Mary C. Bingham Seminar in the Humanities

Offered every other year and open on a competitive basis to any student in the third year of study, this seminar combines course work with a special four-week field trip either in this country or abroad (three credit hours). The seminar is concerned with the comparative study of a humanities subject that benefits from site analysis (e.g., cities, landscape). Conducted by a faculty member whose proposal has been selected in competition, the seminar offers up to a $1,000 summer travel scholarship to each student participant.

The Thomas D. Clark Lectureship in the Humanities

Created to bring eminent scholars and authors to the campus for an extended residency, the Thomas D. Clark Lectureship stipulates that the recipient will offer two or three public lectures to be published by the University Press of Kentucky, and will lead several sessions of a special humanities seminar related to the Lecturer’s professional field of interest. Juniors and seniors, selected on the basis of written application, participate in this seminar.

The Edward T. Breathitt Undergraduate Lectureship in the Humanities

The Edward T. Breathitt Lectureship is the first undergraduate lectureship established at an American university. It is named in honor of an eminent Kentuckian and an outstanding alumnus of the University of Kentucky whose interest in higher education has been exceptional.

The lectureship is awarded to an undergraduate student whose qualities of mind and spirit have been expressed eloquently on one or more of the basic characteristics that distinguish the humanities as fields of study. They are: form, value, memory.

Any university faculty member may nominate a qualified upper level student from any discipline. Each nominee must submit a two-page prospectus describing the lecture topic (to be of the candidate’s own choice) and a brief, tentative biography, as well as a personal resume and an additional letter of recommendation. The recipient receives a special award and an honorarium.

How to Apply

Students interested in any of these special educational opportunities should write or telephone:

Gaines Center for the Humanities
232 East Maxwell Street
University of Kentucky
Lexington, KY 40506-0344
(859) 257-1537
The University of Kentucky began offering graduate work in 1870, and awarding degrees in 1876. The Graduate School was organized as a distinct unit in 1912.

The Graduate School is concerned with advanced study and research carried on by the faculty and students of all colleges and departments. Under it, the total graduate resources of the University are merged in order to promote the achievement of knowledge in an atmosphere of free and lively inquiry.

More information is available on the Web at: www.gradschool.uky.edu/

GRADUATE DEGREES

Graduate work is offered in most colleges in the University. The following advanced degrees are conferred:

- DOCTOR OF EDUCATION
- DOCTOR OF MUSICAL ARTS
- DOCTOR OF PHILOSOPHY
- DOCTOR OF SCIENCE
- MASTER OF ARCHITECTURE
- MASTER OF ARTS
- MASTER OF ARTS IN EDUCATION
- MASTER OF ARTS IN INTERIOR DESIGN, MERCHANDISING AND TEXTILES
- MASTER OF ARTS IN TEACHING WORLD LANGUAGES
- MASTER OF BUSINESS ADMINISTRATION
- MASTER OF FINE ARTS
- MASTER OF HEALTH ADMINISTRATION
- MASTER OF HISTORIC PRESERVATION
- MASTER OF MINING ENGINEERING
- MASTER OF MUSIC
- MASTER OF PUBLIC ADMINISTRATION
- MASTER OF PUBLIC HEALTH
- MASTER OF PUBLIC POLICY
- MASTER OF REHABILITATION COUNSELING
- MASTER OF SCIENCE
- MASTER OF SCIENCE IN ACCOUNTING
- MASTER OF SCIENCE IN AGRICULTURE
- MASTER OF SCIENCE IN ATHLETIC TRAINING
- MASTER OF SCIENCE IN BIOMEDICAL ENGINEERING
- MASTER OF SCIENCE IN BIOSYSTEMS AND AGRICULTURAL ENGINEERING
- MASTER OF SCIENCE IN CAREER, TECHNICAL, AND LEADERSHIP EDUCATION
- MASTER OF SCIENCE IN CHEMICAL ENGINEERING
- MASTER OF SCIENCE IN COMMUNICATION DISORDERS
- MASTER OF SCIENCE IN EDUCATION
- MASTER OF SCIENCE IN ELECTRICAL ENGINEERING
- MASTER OF SCIENCE IN FAMILY STUDIES
- MASTER OF SCIENCE IN FORESTRY
- MASTER OF SCIENCE IN HEALTH PHYSICS
- MASTER OF SCIENCE IN INTERIOR DESIGN, MERCHANDISING AND TEXTILES
- MASTER OF SCIENCE IN LIBRARY SCIENCE
- MASTER OF SCIENCE IN MANUFACTURING SYSTEMS ENGINEERING
- MASTER OF SCIENCE IN MATERIALS SCIENCE AND ENGINEERING
- MASTER OF SCIENCE IN MECHANICAL ENGINEERING
- MASTER OF SCIENCE IN MINING ENGINEERING
- MASTER OF SCIENCE IN NURSING
- MASTER OF SCIENCE IN NUTRITIONAL SCIENCES
- MASTER OF SCIENCE IN PHYSICAL THERAPY
- MASTER OF SCIENCE IN PHYSICIAN ASSISTANT STUDIES
- MASTER OF SCIENCE IN RADIOLOGICAL MEDICAL PHYSICS
- MASTER OF SOCIAL WORK
- PROFESSIONAL MASTER OF BIOMEDICAL ENGINEERING
- SPECIALIST IN EDUCATION

The degree of Doctor of Philosophy is offered with major work in the following fields: agricultural economics, anatomy and neurobiology, animal sciences, anthropology, biology, biomedical engineering, biosystems and agricultural engineering, business administration, chemical engineering, chemistry, civil engineering, communication, computer science, crop science, economics, educational and counseling psychology, electrical engineering, English, entomology, family studies, geography, geology, gerontology, studies in higher education, history, materials science and engineering, mathematics, mechanical engineering, microbiology, mining engineering, molecular and biomedical pharmacology, molecular and cellular biochemistry, music, nursing, nutritional sciences, pharmaceutical sciences, philosophy, physics and astronomy, physiology, plant pathology, plant physiology, political science, psychology, public administration, rehabilitation sciences, social work, sociology, soil science, Spanish, statistics, toxicology, and veterinary science.

Multidisciplinary Graduate Degree Programs

There are three multidisciplinary graduate degree programs administered in the Graduate School: Biomedical Engineering, Diplomacy and International Commerce, and Public Administration. Students interested in information on these programs should contact the program directors at the addresses listed below.

Dr. David Puleo, Director
Biomedical Engineering
207 Rose Street
University of Kentucky
Lexington, KY 40506-0070

Carey Cavanaugh, Ambassador (ret.)
The Patterson School of Diplomacy and International Commerce
455 Patterson Office Tower
University of Kentucky
Lexington, KY 40506-0027

Dr. William Hoyt, Director
James W. Martin School of Public Policy and Administration
Public Administration/Health Administration
423 Patterson Office Tower
University of Kentucky
Lexington, KY 40506-0027

ORGANIZATION OF THE GRADUATE SCHOOL

The Graduate Faculty consists of the Dean of the Graduate School and all persons appointed thereto by the President of the University. As the chief University agency for the promotion of the ideals of graduate study, it determines the policies of the Graduate School and makes recommendations to the University Senate on such matters as require the approval of that body. All rules affecting graduate work and the inauguration of new graduate programs must be approved by the Graduate Faculty.

The Dean. The Dean of the Graduate School is charged with the administration of the policies adopted by the Graduate Faculty and the University Senate relating to graduate studies.

The Graduate Council is composed of 18 members and the Dean of the Graduate School, who serves as chair. There are 16 faculty representatives and two student representatives. Associate deans serve in a nonvoting, ex officio capacity.

The Graduate Council approves or disapproves proposals concerning courses offered for graduate credit, and advises and lends assistance to the Dean of the Graduate School in his execution of policies and regulations determined by the Graduate Faculty.

Directors of Graduate Studies. A Director of Graduate Studies is appointed for each program of graduate study. Among other duties, each director serves as advisor to students majoring in his or her area.
ADMISSION

Students seeking admission to a degree program in the Graduate School must hold a baccalaureate degree from a fully accredited institution of higher learning. An overall undergraduate grade-point average of 2.75 and 3.0 on all graduate work is required by the Graduate School. Individual departments may require higher grade-point averages.

All applicants for admission to degree programs in the Graduate School must submit official scores on the verbal, quantitative and analytical writing portions of the Graduate Record Examination, except programs with approved alternate requirements (Accounting, Business Administration, Health Administration, and Public Health may substitute the GMAT).

New students applying for admission must have official transcripts sent directly to the Graduate School by each institution of higher learning previously attended. A second set of transcripts should be sent to the applicant’s program of interest.

International applicants must meet the requirements listed above, as well as the English proficiency requirement; additional details are available in The Graduate School Bulletin.

Domestic applicants (U.S. citizens or resident aliens) must pay a $50 application fee; for international applicants, the fee is $65. The preferred method of payment is by credit card. Go to www.research.uky.edu/gs/gsprocedure_onlinapp.html and click on “Pay the Application Fee.” If necessary, you may pay by check or money order made payable to The University of Kentucky. The mailing address is:

The Graduate School
Office of Admissions
The Gillis Building
University of Kentucky
Lexington, KY 40506-0033

Complete applications must be submitted no later than one month before the beginning of the term the applicant intends to begin graduate work (five months for international applicants). Students should refer to the University Calendar in the front of this Bulletin for important dates.

University Scholars Program (Combined Doctoral or Master’s/Bachelor’s Degree Program)

At the University of Kentucky there are some particularly gifted and highly motivated students whose well-defined academic and career plans include graduate study. The University Scholars program offers these students the opportunity and the challenge of integrating their undergraduate and graduate courses of study in a single continuous program culminating in both a baccalaureate and doctoral or master’s degree.

Requirements for this program are listed in the Special Academic Programs section of this Bulletin.

Graduating Seniors as Part-Time Graduate Students

A senior at the University of Kentucky lacking no more than six credit hours for graduation and having an undergraduate grade-point average of at least 2.75 on all work attempted may register in a degree program in the Graduate School with the consent of his or her college dean, the Director of Graduate Studies, and the Dean of the Graduate School.

The total load of such a student may not exceed 12 credit hours. Graduate credit will be allowed for each credit hour of graduate work beyond the six or fewer credit hours needed to complete undergraduate requirements. Requirements for the undergraduate degree must be completed during the semester in which the student is allowed to register for part-time graduate work. A student applying for admission to the Graduate School under these conditions must fill out a petition form listing the course or courses to be taken in order to complete the undergraduate requirements. Petition forms are available in the Graduate School.

 Conditional Admission

Students wishing to pursue a higher degree who are temporarily ineligible for regular graduate admission status may be recommended by the Director of Graduate Studies for conditional admission status for a maximum of one full-time semester. Students should refer to The Graduate School Bulletin for further information.

Post-Baccalaureate Graduate Students (Nondegree-Seeking Students)

Students who hold a baccalaureate degree and who wish to pursue graduate study without a degree objective may apply for admission as post-baccalaureate graduate students. An overall undergraduate grade-point average of 2.5 or better and 3.0 on all previous graduate work is required by the Graduate School for admission to post-baccalaureate status. Refer to The Graduate School Bulletin for further information.

Advanced Degrees for Faculty Members

Members of the faculty, except those in the Community College System, having a rank higher than that of instructor may not be considered as candidates for degrees in the discipline in which they are employed and hold academic rank.

DUAL DEGREE PROGRAMS

The University of Kentucky offers a number of dual degree programs; such programs require separate admission to each discipline involved. Dual degree programs currently in place are: J.D./M.B.A., J.D./M.P.A., M.D./M.B.A., M.D./M.P.H., Pharm.D./M.B.A., Pharm.D./M.P.A., Pharm.D./M.P.H., Pharm.D./M.S. in Economics, B.S. in Engineering/M.B.A., and B.S. in Engineering/M.P.A. Combined study leading to both the M.D. and Ph.D. is also available. For more information on the dual degree programs, see The Graduate School Bulletin.

JOINT AND COOPERATIVE DOCTORAL PROGRAMS

Cooperative doctoral programs in education are offered between the University of Kentucky and other state universities: Eastern Kentucky University, Morehead State University, Murray State University, and Western Kentucky University. These programs permit qualified candidates to complete approximately one year of graduate work above the master’s degree at the cooperating university, and the work of each candidate is directed by a joint faculty committee from both institutions.

Cooperative doctoral programs in musicology, physics, and higher education are offered between the University of Kentucky and the University of Louisville; a cooperative program in geology between the University of Kentucky and Eastern Kentucky University; and a cooperative program in history between the University of Kentucky and Western Kentucky University. A cooperative doctoral program in rehabilitation sciences is offered between the University of Kentucky, Eastern Kentucky University, Murray State University, and Western Kentucky University. The University of Kentucky and the University of Louisville share a joint Ph.D. program in Social Work.

For more information on joint and cooperative programs, see The Graduate School Bulletin.

INDEPENDENT STUDY PROGRAMS (Correspondence Courses)

No graduate credit is given for courses taken by correspondence.

REGISTRATION AND CLASSIFICATION

All students expecting graduate credit must be enrolled in the Graduate School. Graduate students will conform to the general registration schedule of the University and may not enter later than the last allowable date set by the University Registrar.

Before registering, a graduate student must obtain his or her advisor’s approval of the proposed program.

ASSISTANTSHIPS, FELLOWSHIPS, STUDENT SUPPORT

Financial assistance is available in the form of assistantships and fellowships. An assistantship is an appointment to specified teaching or research duties. A fellowship is a non-service award made to superior students to assist in the pursuit of an advanced degree.
Assistantships

More than 1,500 teaching and research assistantships are available from departments and other units of the University. In addition to an assistantship stipend, full or partial tuition scholarships are available for most assistantship holders based on the number of hours per week in the assistantship. University-provided health insurance is offered for full-time assistants who meet the eligibility criteria.

The majority of assistantships are awarded for the academic year. Students interested in an assistantship should notify the appropriate Director of Graduate Studies by January for the next academic year; later applicants have a reduced chance of obtaining an assistantship. Most assistantship decisions are made by April for the coming academic year.

Notification of an assistantship comes from the program. Contact the Director of Graduate Studies in the program you seek to enter regarding the availability of positions or the status of assistantship offers. For more information on assistantships, visit the Web at: www.gradschool.uky.edu/fellowship/assistantships.html.

Fellowships

Non-service fellowships are available in all areas of graduate work. The majority of these fellowships include a stipend as well as a tuition scholarship and university-provided student health insurance. While many fellowships are formally awarded by the Graduate School, nominations for most fellowships are made by the program in which a student seeks to enroll.

Fellowships are awarded for the academic year. Departments make fellowship nominations by February for the next academic year, so students interested in a fellowship are strongly urged to contact the appropriate Director of Graduate Studies no later than January 15 for the next academic year. Notification of fellowship awards generally comes from the Graduate School before April 15.

Awards are sometimes offered before an applicant is officially admitted to the Graduate School; all awards offered are contingent upon admission to the program of study nominating the student. Post-baccalaureate (nondegree) students are not eligible for fellowship consideration, or for those tuition scholarships that accompany most assistantships.

For more information on fellowships, visit: www.gradschool.uky.edu/Fellowship/Fellowships.html.

Student Support

Funds are available to students enrolled in graduate programs for travel to present research at professional meetings. Application materials are available on the Web at: www.gradschool.uky.edu/fellowship/supportfunding.html.
The College of Health Sciences is one of the six health professions colleges which, with the University Hospital, constitute the health science campus of the University of Kentucky.

The College of Health Sciences is composed of the Department of Clinical Sciences and the Department of Rehabilitation Sciences.

Today health science professionals are assuming greatly expanded and increasingly complex duties and responsibilities as essential members of the health care team. They work in a variety of delivery settings and have key responsibilities for the care and health of patients, clients, and communities. The UK College of Health Sciences, established in 1966, was among the first colleges to offer programs for students interested in these rapidly developing health professions. The college strives continually to revise its offerings in keeping with society’s evolving expectations and health care needs.

Undergraduate Programs in Health Sciences

The University of Kentucky grants the following degree in the College of Health Sciences:

- Bachelor of Health Sciences

Students pursuing the Bachelor of Health Sciences may select from these majors: medical laboratory science, clinical leadership and management, and communication disorders.

ADMISSIONS PROCEDURES

Baccalaureate Programs

Baccalaureate programs in the College of Health Sciences are divided into preprofessional and professional programs. A preprofessional program is comprised of courses prerequisite to professional program content as well as UK Core requirements. Freshman and transfer students who have initially not completed prerequisites for entrance into a professional program complete only the first step of the application process – application to the University of Kentucky. Freshman applicants to the college will be admitted if they meet University entrance requirements.

A professional program is comprised of all courses and clinical experiences required for students who have applied for and have been accepted into professional programs. Consideration for admission to the college’s professional programs requires completion of prerequisite course work and completion of the professional application procedure.

Therefore, the admissions procedure for all undergraduate programs within the College of Health Sciences is a two-step process. Applicants must first be accepted by the University of Kentucky and second must apply for admission to a professional program approximately two semesters prior to completing prerequisites.

This selection procedure is necessary because of the limited space in the professional years of the health sciences programs.

Requirements for the first several years (preprofessional program) may be completed at the University of Kentucky, a community college, or another fully accredited college or university.

At the time of application to the professional program, the student should have completed the prerequisites required for application to the program he or she plans to enter, and have plans to complete all prerequisites before actual enrollment in the professional program as directed by each program.

It is essential that complete, accurate information be furnished on the application. Individuals seeking entry into the professional programs or those admitted to the programs through falsified or misleading information may be dropped from consideration or dismissed from the programs.

Persons not enrolled at the University of Kentucky must complete applications to both the University of Kentucky and the professional program. Application materials are available from:

Medical Laboratory Science
www.mc.uky.edu/clsm/

Clinical Leadership and Management
www.mc.uky.edu/clm/

Communication Disorders
www.mc.uky.edu/commdisorders/

Deadlines and specific application instructions are listed for each program in the descriptions which follow. Additional information for each program is available on their respective Web sites.

Graduate Programs

Students who want to earn advanced degrees in health sciences fields must be admitted to the University of Kentucky Graduate School. For complete information, students should refer to The Graduate School Bulletin or contact:

Graduate School Admissions
201 Gillis Building
University of Kentucky
Lexington, KY 40506-0033
(859) 257-4613

Baccalaureate Programs

College Graduation Requirements

To graduate with a Bachelor of Health Sciences degree from the College of Health Sciences, a student must (1) satisfy UK Core requirements and (2) complete a minimum of 120 semester hours, including required courses in both the preprofessional and professional programs.

Department of Clinical Sciences

B.H.S. with a major in Medical Laboratory Science

Note: The B.H.S. with a major in Medical Laboratory Science as listed below has been provisionally approved; formal approval is expected in Fall 2011.

The undergraduate Medical Laboratory Science (MLS), formally Clinical Laboratory Sciences (CLS) program prepares medical laboratory scientists who perform laboratory tests that aid the diagnosis, prevention, prognosis, and treatment of disease. MLS graduates are employed in a variety of health care settings including hospital and private laboratories, clinics, pharmaceutical companies, research institutions, the armed forces, and public health centers. In addition to performing laboratory tests, MLS graduates can serve as consultants, managers, sales and technical representatives, and educators.

Admission to the Professional Program

The MLS program has selective admissions and students are admitted to the professional program on a competitive basis. Applicants must have completed all UK Core requirements and preprofessional requirements prior to entering the program. Admission is based on cumulative grade-point average (GPA) for all courses taken at institutions of higher education (2.75 or higher on a 4.0 scale), cumulative GPA for preprofessional courses, and recommendation scores. Interviews may also be used in the admissions process. Applicants must submit an application and three recommendation forms.

The application deadline is March 1.

The Curriculum

A total of 120 credits (including 60 preprofessional program credits, preprofessional credits, and UK Core and graduation writing course credits) is required to receive the Bachelor of Health Sciences with a major in MLS degree.

UK Core Requirements

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

I. Intellectual Inquiry in Arts and Creativity

Graduate Degrees in Clinical Sciences

The Clinical Sciences graduate programs offer a unique multidisciplinary masters and doctorate programs that address the rapidly changing health care environment and selected evolving clinical science disciplines. This program of study provides the opportunity for advanced education and career enhancement for health professionals in the clinical sciences. The master’s degree provides a foundation in advanced clinical laboratory sciences. Students may specialize in Reproductive Biology, Speech-Language-Hearing, and American Speech-Language-Hearing Association certification requirements, it is necessary to complete the master’s degree. Students pursuing this program should plan on six years to complete both the Bachelor of Health Science and Master of Science programs.

Admission to the Professional Program

The Communication Disorders program has selective admissions. Applicants must have completed a minimum of 42 credit hours at the time of application. Students are admitted to the professional program on a competitive basis. Admission is based on cumulative grade-point average, ACT or SAT scores, and relevant experiences. Applicants must submit a letter of application and three references. New students are admitted only for the fall semester. The application deadline is February 1.
UK Core Requirements
See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

CD 484 Introduction to Diagnostic Procedures in Speech-Language Pathology

CD 571 Neural Bases of Speech, Language, and Hearing

CD 591 Aural Rehabilitation

EDS 375 Introduction to Education of Exceptional Children

EDS 516 Principles of Behavior Management and Instruction

*EDP 202 Human Development and Learning

*EPE 301 Education in American Culture

*These courses are optional, required for school certification.

Subtotal: Major Hours

Electives

CD 520 Introduction to Manual Communication

Electives should be chosen by the student to lead to the minimum total of 120 hours required for graduation.

TOTAL HOURS: ................................................. 120

Curriculum

Fall Semester

*CD 277 Introduction to Communication Disorders

CD 285 Applied Phonetics

CD 378 Anatomy and Physiology of Speech

CD 402 Speech and Hearing Science

CD 410 Language Development

Through the Lifespan

Subtotal: Major Hours

Electives

CD 520 Introduction to Manual Communication

Electives should be chosen by the student to lead to the minimum total of 120 hours required for graduation.

TOTAL HOURS: ................................................. 120

Spring Semester

*CD 481 Clinical Experience in Communication Disorders

CD 482 Clinical Management of Communication Disorders I

CD 483 Clinical Management of Communication Disorders II

CD 491 Aural Rehabilitation

*May be taken as a pre-Communication Disorders course prior to the junior year.

**Half of senior students take CD 481 during fall semester; the remaining half take course during spring semester.

Certification and the Master’s Degree

The Master of Science degree program in Communication Disorders is accredited by the Council on Academic Accreditation in Audiology and Speech Language Pathology.

Upon completion of the undergraduate degree and with admission to the master’s program, students complete the following courses for certification and the master’s degree.

Course Requirements Hours

CD 621 Alternative and Augmentative Communication

CD 647 Language Disorders in Developmentally Young Individuals

CD 648 Language Disorders in School-Age Populations

CD 661 Phonological Development and Disorders

CD 670 Voice Disorders

CD 674 Disorders of Fluency

CD 677 Aphasia and Related Disorders

CD 701 Research Methods in Communication Disorders

CD 710 Cognitive Communication Disorders

CD 744 Adult Swallowing and Motor Speech Disorders

CD 745 Pediatric Feeding and Motor Speech Disorders

Total Credit Hours ................................. 30

The M.S. in Communication Disorders consists of 30 didactic hours plus optional thesis or comprehensive examinations.

ASHA Certification

Applicants wishing to meet American Speech-Language-Hearing Association certification requirements must also complete the following additional clinical orientation, clinical practicum and clinical rotation experiences plus 2 hours of graduate-level electives, and optional 1-6 hours in thesis or comprehensive exams:

CD 654 Clinical Orientation in Communication Disorders

CD 657 Clinical Practicum in Speech-Language Pathology

CD 659 Clinical Rotation in Speech-Language Pathology

Students completing the thesis option also complete the following:

CD 748 Master’s Thesis Research

CD 768 Residence Credit for the Master’s Degree

Physical Therapy – Doctor of Physical Therapy

The Physical Therapy Program at the University of Kentucky offers the professional (entry level) Doctor of Physical Therapy (DPT) degree. The program is conducted at the Lexington campus and at the Center for Excellence in Rural Health campus in Hazard, Kentucky. Once accepted, the PT Program requires three successful years to completion (121 course credits) and results in the awarding of the DPT.
GRADUATE DEGREES IN HEALTH SCIENCES

Master of Science in Athletic Training

The Master of Science in Athletic Training (AT) is designed to accommodate both NATA certified athletic trainers and NATA “certification eligible” athletic trainers. Course work and clinical experiences are designed to develop skills necessary to conduct research and increase proficiency in sports injury prevention, treatment, and rehabilitation. It is a goal that graduates become: critical consumers of research and accepted clinical practices, advanced health care providers, and leaders in the clinical, educational, and research endeavors of the profession.

For more information, contact:
Carl Mattacola, Ph.D., ATC, Director
Division of Athletic Training
900 S. Limestone St., Room 206
210E CTW Building
University of Kentucky
Lexington, KY 40536-0200
(859) 323-1100 ext. 8-0860
e-mail: carlmat@uky.edu

www.mc.uky.edu/PT/

Graduate Certificate in Reproductive Laboratory Science

The College offers a Graduate Certificate in Reproductive Laboratory Science. For more information, contact:
Doris J. Baker, Ph.D., Director
Reproductive Laboratory Sciences
900 S. Limestone St., Room 126E
University of Kentucky
Lexington, KY 40536-0200
(859) 323-1100 ext. 8-0854
e-mail: dbake0@uky.edu

www.mc.uky.edu/cls/rls/certificate.html

Master of Science in Communication Disorders

The Master of Science in Communication Disorders is designed for students seeking entry-level professional preparation in speech-language pathology. Any student without an undergraduate major or equivalent in Communication Disorders should apply as a prerequisite student to complete the prerequisite course work. The curriculum incorporates course work and intensive clinical practicum experiences designed to prepare students to meet state licensure and national certification requirements. For further information, contact:
Director of Graduate Studies
Division of Communication Disorders
900 S. Limestone St., Room 120
University of Kentucky
Lexington, KY 40536-0200
(859) 323-1100 ext. 8-0557

Master of Science in Nutritional Sciences

The program is designed to develop nutrition specialists, knowledgeable in the metabolic changes that occur in normal exercise and various pathophysiological states. Opportunities for specialization are available in the areas of clinical nutrition/medical nutrition therapy, wellness and sports nutrition, molecular and biomedical nutrition, and community nutrition. Clinical Nutrition is integrated with the doctoral program in the Graduate Center for Nutritional Sciences.

The courses provide the student with in-depth knowledge of the role of nutrition in metabolism, the physiology of organ systems, and the pathophysiology of specific disease states. Elective course selections provide program focus while allowing maximum flexibility to meet individual needs. A minimum of 30 credit hours of course work is required for graduation.

For further information, contact:
Clinical Nutrition
900 S. Limestone St., Room 209
University of Kentucky
Lexington, KY 40536-0200
(859) 323-1100 ext. 8-0859

Master of Science in Physician Assistant Studies

Criteria for Admission

All applicants must have taken the Graduate Record Examination (GRE) within the last five years. Official scores of the verbal, quantitative and analytical portions of the GRE must be submitted with application.

All applicants must hold a baccalaureate degree with a minimum GPA of 3.0 from an accredited college or university. Applicants must have earned a C grade or better in the following prerequisite courses:

Prerequisite Courses
1 semester of general chemistry with laboratory
1 semester of organic chemistry with laboratory
1 semester of general psychology
1 semester of developmental psychology
1 semester of biology/zoology with laboratory
1 semester of microbiology (lab recommended)
1 semester of sociology/anthropology
1 semester of human anatomy
1 semester of human physiology
1 semester of medical terminology

Letters of Recommendation

Three (3) letters of recommendation (from academic and/or health care professionals) must be submitted from persons familiar with the applicant (for at least one year) and his/her professional goals.

Commitment

Applicants must demonstrate an understanding of and commitment to the role and responsibilities of a physician assistant.
Admission Essays
Applicants must submit an Admissions Essay according to the directions of the application for admission. The writing sample must be of graduate level quality and reflect the applicant’s commitment to primary care.

Basic Life Support
Proof of current American Heart Association certification of basic life support must be submitted at the time of interview and certification must be maintained throughout the program.

Technical Standards
All applicants must comply with the Technical Standards of the Physician Assistant Studies Program as established by the College of Health Sciences.

Interview
Competitive applicants who have complete files and who meet the minimum entrance requirements as set forth above may be granted an interview.

Health Care Experience
Health care experience is preferred, but not required.

For further information, contact:

Corrie Scott
Academic Advisor
(859) 323-1100 ext. 80546
cyscott1@uky.edu

Physician Assistant Program – Morehead, Kentucky
The College of Health Sciences offers an extension of the UK Physician Assistant Studies Program in Morehead, Kentucky. The requirements for admission are the same as in the curriculum. The purpose of the Morehead site is to enhance access to medical care for the people in rural areas of Eastern Kentucky and Appalachia, with most of the students there coming from surrounding counties. For information on eligibility requirements and applications, please contact:

Staci Mynhier
Student Affairs Officer
Physician Assistant Program
Reed Hall 430
Box 1340
Morehead, KY 40351-1689
(606) 783-2636

Master of Science in Radiological Medical Physics
This program option trains professionals involved with the application of ionizing and nonionizing radiation to the diagnosis and treatment of disease. Such individuals plan radiation treatments for cancer patients, measure output from radiation sources, calibrate and evaluate instrumentation, design radiation facilities, and control medical radiation hazards.

For further information about this program option, contact:

Janelle Molloy, Ph.D.
Division of Radiation Sciences
900 S. Limestone St., Room 208
University of Kentucky
Lexington, KY 40536-0200
(859) 257-7612
e-mail:jmo222@email.uky.edu
The Honors Program at UK serves an important function in the University’s commitment to excellence in undergraduate education. Through its special curriculum and related academic activities, the Program provides an unusual course of instruction for outstanding, highly motivated students.

Selection of Honors Students

Because the Honors Program seeks students of demonstrated high academic promise, admission to Honors is competitive. A student must complete the application form for the Honors Program. Entering students ideally have an outstanding high school grade-point average (3.75 unweighted GPA or better, as demonstrated by transcript of through at least the first half of senior year) and a documented composite score of 29 or above on the ACT or 1290 or above on the SAT. The Admissions Committee considers all aspects of an applicant’s record; a student’s test scores and GPA are only two of the factors considered. The Admissions Committee also considers the academic rigor of high school courses the applicant has taken. In addition, the Admissions Committee places great weight on the strength of the application essays, as well as the evidence they provide of motivation to accept the challenges of Honors and contribute to the program.

Students whose academic performance may vary (high GPA and lower test scores, for example) or who have talents and motivation that are not reflected in standardized testing procedures are invited to make their best case for admission to the Honors Program and to solicit recommendations from supportive teachers or supervisors.

Upper-division students at UK or transfer students with one semester or more of academic study at a college or university may apply to the Honors Program. They submit a copy of their college transcripts along with the materials requested of first-year students. All applicants must demonstrate strong academic performance at the college level (3.0 GPA or better).

The Honors Curriculum

The Honors curriculum is designed to acquaint students with major ideas and intellectual developments which have shaped the world around them. The current two multi-disciplinary tracks allow students the opportunity to intellectually explore everything from Plato’s Republic to the problem of hunger to the ethical issues raised by the use of nanotechnology to the nature of violence. However, in the coming year, the Honors Program will begin to phase in a new, more inquiry-based, interdisciplinary curriculum as it implements the University’s new Gen Ed requirements for undergraduates.

The colloquia are taught as interdisciplinary, small-format seminars. Faculty emphasize class discussion, special projects, and regular writing (free-writing, quizzes, essays, exams, and journals) to develop students’ critical thinking and communication skills, as well as encourage participatory learning styles.

Honors students are expected to maintain good academic standing to continue in the program; normally this is a cumulative GPA of 3.0 or better. In circumstances when academic performance drops below this level, the Academic Coordinator of the Honors Program will consult with the student to determine whether and by what means the student may restore performance to an acceptable level and may institute a period of probation and review.

During the junior or senior years students complete an independent project—a work of research or artistic expression, in collaboration with a faculty scholar/researcher—affording them the chance to identify a challenging topic, as well as to design, carry out, and present their individual work. Upperclass students may also enroll in a highly specialized colloquium called a proseminar or participate in special Honors travel-abroad courses, which are taught by award-winning UK faculty in a variety of disciplines.

UK Core Requirements

The Honors colloquia offer a special means of meeting the composition and communication requirements, as well as additional UK Core requirements, depending on which courses students complete.

Graduating with Honors in the Program

To graduate with a Certificate of Honors in the Honors Program and have this designation on the final UK transcript and diploma, students must complete fifteen credit hours of Honors courses, completing one of the tracks and, as needed, one or two upper-division courses from HON 301, 395, 398, a department or college honors track, the Gaines Program, the Undergraduate Research Program or another independent research project or independent study. Students must also maintain a cumulative GPA of 3.0 or better.

Special Opportunities

Students in the Honors Program have many opportunities, both in and out of the classroom, to develop and demonstrate academic excellence. The small class size and method of instruction in the colloquia foster active learning. Informal conferences, special speakers, trips, and workshops allow students to explore topics and issues not regularly considered within University departmental offerings.

Students in the program may elect to live in Patterson Hall, a study and community oriented, co-ed Honors residence hall equipped with seminar rooms and library.

Other social, service, and cultural activities organized by and for Honors students include the Honors Program Student Advisory Council or HPSC (social and service activities), and JAR, the campus literary magazine published by Honors Program students. Students may also participate in the Journal Project, for which they keep a journal during their undergraduate career, sharing the journal with a staff member, administrator, or faculty member who volunteers as an advisor.

Honors students in good standing are eligible for a number of special grants and scholarships during and at the conclusion of their undergraduate career. These include scholarships based on financial need, grants to support independent research conducted in the U.S. or abroad, scholarships to support study-travel for members of the Journal Project, the Diachun Award for students continuing studies in graduate school, and several other literary, service, and book awards.

Benefits

The greatest benefits Honors Program students enjoy are intensified intellectual development and a heightened personal awareness of the individual’s place in his or her culture. A high percentage of graduates of the Honors Program enter graduate or professional schools, and move on to successful careers.

How To Apply

For an application, contact:

Director, Honors Program  
355 Patterson Office Tower  
University of Kentucky  
Lexington, KY 40506-0027  
(859) 257-3111  
e-mail: HONPROG@uky.edu  
www.uky.edu/Honors/  
fax: (859) 257-6428

The application deadline is January 15. Contact the Honors Program for more information.
Since its establishment in 1908, the College of Law has provided programs of legal instruction, research, and service to the state and to the bar. The College of Law program is designed so that its graduates can practice their profession on a local, regional, or national level. The college is accredited by all agencies which establish standards for law schools, including the Association of American Law Schools, the American Bar Association and the bar admission authorities in all states.

The instructional program consists of a three-year general law curriculum designed to be completed in six consecutive 16-week semesters or in five semesters and two summer sessions. The program is arranged to assist each student in acquiring the skills required for the solution of modern legal problems; to make certain that he or she has an appreciation for and understanding of the legal, social, and political institutions on which the administration of justice rests; and to prepare him or her for the policy and ethical decisions which must be made in practicing law.

The Faculty

The program of the college is conducted by a full-time faculty and staff composed of 29 professors and 25 library and support personnel. They are assisted by a number of part-time and adjunct professors.

The Library

The college maintains a carefully selected law library collection of over 350,000 volumes, one of the larger law libraries in the South. It is housed in the Law Building and includes a comprehensive collection of American case and statutory materials. It contains more than 40,000 treatises and textbooks, all major legal reference works, and over 3,400 annual legal publications.

The Law Building

The College of Law occupies a handsome building of contemporary design located on the central campus. The building was planned to provide all of the special physical facilities required for a modern legal education. Facilities include "smart" classrooms; a model courtroom-auditorium; the Law Library; faculty and staff offices; offices for the Kentucky Journal of Equine, Agriculture & Natural Resources Law; the Kentucky Law Journal, the Moot Court Board, the Trial Advocacy Board, the Student Bar Association and other law student organizations; and offices for visiting scholars who come to the College of Law for research and study.

Other Facilities and Information

Since 1912 the college has published the Kentucky Law Journal, a quarterly periodical and the tenth oldest American law review. This journal is published by a student staff, and election to the staff is based on high academic achievement and proven ability to write and conduct research. Articles, notes, and comments written by legal scholars, attorneys, and students are published. The Kentucky Law Journal is subscribed to by members of the bar as well as all leading domestic and foreign libraries.

The student-run Kentucky Journal of Equine, Agriculture & Natural Resources Law has been published since 1983, originally as the Journal of Natural Resources and Environmental Law.

Practical training in trial and appellate advocacy is provided in litigation skills and clinical courses, and in co-curricular moot court and trial and appellate advocacy programs. Teams representing the college compete annually in various trial advocacy and appellate advocacy competitions.

Instruction in legal research and writing is available to all students, not only in required courses designed for this purpose, but also in a program of seminars, drafting projects and opportunities for independent study. The college operates an externship program to provide students with a variety of clinical learning experiences. In 1997, the College of Law opened a Civil Law Clinic across Limestone Street from the College, giving students the opportunity to represent low-income individuals on a variety of legal matters.

Requirements for Admission

In addition to the general requirements for admission to the University, an applicant for admission to the College of Law must meet the following requirements:

1. The applicant must have received a bachelor’s degree from an accredited institution.
2. The applicant must have taken the Law School Admission Test.
3. The applicant must have registered with the Law School Data Assembly Service and furnished the necessary transcripts which such registration requires.
Admission of Transfer Students
At a minimum, applicants for transfer from a law school should present a 2.7 average on at least 25 hours of law school work at a school accredited by the American Bar Association or the Association of American Law Schools. The Admissions Committee will consider the applicant’s law school record as well as all factors the Committee considers in an application for the entering class.

Procedure for Application
Application for admission is initiated by submitting the following to the Office of the Dean, College of Law: a completed UK law application form, which may be obtained from that office or from the College of Law Web site at: www.uky.edu/Law, and a $50 check made payable to the University of Kentucky College of Law. Candidates also may apply on-line, paying the application fee by credit card.

The Law School Admissions Test (LSAT), administered by the Law School Admission Council (LSAC), is given four times each year at testing centers throughout the country according to a schedule of dates and places published by the LSAC.

In addition to administering the LSAT, LSAC provides a transcript analysis and report for applicants, known as the Law School Data Assembly Service (LSDAS). All applicants are required to register directly with LSAC for this service, which is done at the time one applies to take the LSAT. Transcripts of prelaw work should be sent to LSAC rather than the University.

The LSAT and the LSDAS registration forms are available from the LSAC Web site at: www.LSAC.org.

Submission Dates and Deadlines
Because the Admissions Committee considers applications as they are completed, all students are urged to apply as early as possible. March 1 of the year in which an applicant expects to enter law school for the fall semester is the final deadline for receipt of the application form. March 31 is the final deadline for receipt of all supplementary materials, including LSAT scores and the LSDAS report. Applicants are urged to take the LSAT in June, October or December. The LSAT given in February is the last examination which will be accepted by the Admissions Committee. Applicants are urged to send transcripts to LSDAS no later than January 1. If transcripts are not on file with LSDAS by February 1, there is a substantial possibility that an LSDAS report will not arrive at the Office of Admissions before the March 31 deadline for receipt for materials.

College of Law Withdawal Policy
All students enrolled in the College of Law are expected to complete their degree requirements without interruption other than for regularly scheduled vacation periods. It is expected that students will complete all courses or seminars in which they are enrolled. Rules specific to withdrawal from the College of Law exist. Contact the College of Law for complete information.

PRELEGAL STUDY
While a broad, liberal arts education is generally considered to be an excellent preparation for law school, there is no fixed, comprehensive prelaw curriculum prescribed by this or any other American law school.

This fact is very important, and its implications should not be misunderstood. American legal education is not a graduate program of advanced work in a specialized course of study beginning in college; it is not a technical or scientific training that builds upon a specific preparation in basic techniques and knowledge acquired in undergraduate school. Legal education is a professional education which requires that each student develop three fundamental capacities (described below) in the prelegal experience. These accomplishments may be obtained in a variety of learning ways and academic disciplines.

First, because the basic working tools of lawyers are written and spoken words, the beginning law student must have thorough preparation in the use of the language. The importance of this requirement cannot be overrated. A fundamental knowledge of grammar and syntax, a good vocabulary, an ability to read rapidly with insight and understanding, and a facility for expressing ideas with clarity and order are all essential to success in the study and practice of law. Any prelaw student who is deficient in these abilities should immediately take additional courses in English literature and composition, seek specialized remedial assistance, and exert all efforts towards language mastery.

Second, because the primary working arenas of lawyers are social, economic, and political communities, the beginning law student must obtain a comprehensive, exploratory undergraduate experience. The law student should have a good knowledge of history (especially English and American traditions), of governmental and political processes, of social and cultural patterns and the interactions that create them, and of the ethical and spiritual credos by which men and women live.

Third, because the fundamental techniques of legally trained persons are careful ordering of facts and events, conceptual analysis and synthesis, and effective advocacy, the prelaw student should pursue a degree program in which he or she will learn to think clearly, will form sound study habits, and will have the opportunity to master the methodology and knowledge of a particular field under the guidance of experienced instructors. Generally, any undergraduate program can satisfy this requirement and help meet the other two needs outlined above. Prelaw students with definite career objectives in mind may wish to prepare for those objectives by majoring in appropriate subjects, for example: business or economics, government or political science, English literature, engineering, or the natural sciences.

Experience indicates that the poorest preparation for legal study lies in inadequate development of language skills, lack of historical and social awareness and appreciation, and failure to achieve the mastery of any academic discipline that overcomes the shallowness of vague generalization. Therefore, the prescription from this law school to the prelaw student is that he or she should invest in the broadest, deepest undergraduate education open to him or her rather than in some predetermined curriculum.

For additional information, students should obtain the current Official Guide to U.S. Law Schools, published and prepared by the Law School Admission Council and the Association of American Law Schools. This yearly publication contains material on the law and lawyers, prelaw preparation, applying to law schools, and the study of law, together with information on most American law schools. Students may order this when they register for the LSAT and LSDAS.

THE DEGREE OF JURIS DOCTOR
Students admitted to the College of Law are eligible for the degree of Juris Doctor (J.D.) upon completion of a minimum of three academic years (six full-time semesters or equivalent) of residence and 90 semester hours of courses in the College of Law with a grade-point average of at least 2.0.

All courses in the first year of law study are required as is a course in professional responsibility and an upper division writing course.

Because the study of law at the University of Kentucky is a full-time pursuit, all law students are expected to carry a full academic program (15 semester hours) and to devote their full time to the study of law. Second and third year students may work 15 hours per week for local legal employers.

For the College of Law Overview, interested students may stop by the Dean’s Office, 209 College of Law, University of Kentucky, Lexington, KY 40506-0048; or order the Overview online at: www.uky.edu/Law/. For specific information about the courses and policies of the College of Law, students should refer to the college’s Web site or contact the Associate Dean for Academic Affairs at the College of Law, (859) 257-1678. Candidates may contact the Associate Dean for Admissions at (859) 257-1678; e-mail: dbakert@email.uky.edu.
The College of Medicine offers a four-year curriculum leading to a degree of Doctor of Medicine (M.D.) and training for postdoctoral and research fellows. The University of Kentucky Hospital offers accredited postdoctoral training for interns and residents.

A curriculum in medicine has been part of the University of Kentucky since 1960. The College of Medicine is responsible for providing its students with training in related basic sciences and with clinical experience under supervision in the University of Kentucky Hospital and other affiliated facilities.

As part of the Medical Center – which also includes the University of Kentucky Hospital and the Colleges of Dentistry, Health Sciences, Nursing, Pharmacy, and Public Health – the College of Medicine strives for programs of the highest possible quality. This means selecting the best possible student body, creating an environment which fosters learning, investigation, and clinical excellence, and acquiring and keeping talented faculty and administrative staffs.

**ACADEMIC PREPARATION FOR THE STUDY OF MEDICINE**

Medical science and practice involve complex relationships between physical, biological, psychological, cultural, and environmental aspects of human behavior. In the preparation for medical school, fundamental undergraduate college training in biology, chemistry, physics and English is essential. Minimal requirements are satisfied with the equivalent of two semesters of studies in physics; two semesters in the biological sciences; four semesters in chemistry, including organic chemistry; and at least one year of English with emphasis on communication skills such as reading, writing, and speaking.

Courses in each of the science areas must include laboratory work. Students are encouraged to follow special interests which they may have in philosophy, psychology, literature, social sciences, or the fine arts.

Students are urged to demonstrate a capacity for advanced work through concentrated study of at least one subject in a major area by completing courses beyond the introductory level.

**REQUIREMENTS FOR ADMISSION**

Applicants for admission to the College of Medicine, in addition to meeting general University requirements, must meet the prerequisite requirements of the College of Medicine and be accepted by the Medical College Admissions Committee. Applicants will be required to have taken the Medical College Admission Test (MCAT) and are encouraged to have completed a baccalaureate degree program at an accredited college or university.

**SELECTION CRITERIA**

In admitting students to the College of Medicine, the University endeavors to select students who show promise of becoming excellent future physicians. Applicants are judged on the basis of their total qualifications and in comparison with other applicants.

As a state-supported school, the College of Medicine gives preference to qualified residents of Kentucky. Although well-qualified nonresidents may apply, preference is given to candidates with Kentucky ties.

Selection from among applicants who meet the general premedical educational requirements of the College of Medicine is based on a number of criteria. A high level of academic performance at the undergraduate level is extremely important. It is recognized, however, that a meaningful evaluation of student performance must consider many factors in addition to grades. For example, exposure to the health care profession is considered essential.

Scholastic aptitude as measured by the Medical College Admission Test also is considered. Since the practice of medicine involves the physician in continual relationships with people – with patients, and with other members of the health care team – applicants are also judged according to premedical evaluations, the degree of their participation in campus and community activities and organizations, and the personal characteristics that they demonstrate. Friendliness, warmth, compassion, integrity, and commitment are all essential traits of the physician.

Often the physician’s ability to communicate effectively will determine the degree of success in the diagnosis and management of a patient’s health problem and in other professional activities. Thus, consideration is given to the communication skills demonstrated by each applicant. Communication is a two-way process and involves the ability to listen perceptively, as well as to speak and write clearly.

Because the practice of medicine and the life of the medical student require a great investment of effort and demand both time and energy, it is essential that a prospective medical student meet the Technical Standards of the College of Medicine detailed online at: [www.mc.uky.edu/meded/admissions](http://www.mc.uky.edu/meded/admissions). Further, prospective applicants should be able to demonstrate that their motivation to study medicine is sufficiently strong to sustain him or her in the face of difficulties. Accepted applicants are subject to a criminal background check prior to matriculation.

**STUDENT PROGRESS**

The Student Progress and Promotion Committee is charged with monitoring student progress through the curriculum. The committee regularly reviews each student’s performance and makes recommendations on such actions as graduation, promotion, remediation, dismissal, and leaves of absence. Final authority on all matters of student progress and promotion is vested in the Dean of the College of Medicine.

Students are responsible for conforming to all rules and regulations specified by the Behavioral Standards in Patient Care, Health Science Student Professional Behavior Code, the College of Medicine Honor Code, the “Technical Standards Related to Applicant Admission and Student Performance” detailed online at: [www.mc.uky.edu/meded/student_affairs/Policies.asp](http://www.mc.uky.edu/meded/student_affairs/Policies.asp), the academic standards established in the Student Promotion rules, and the Code of Student Rights and Responsibilities for all University of Kentucky students.

**COURSE DESCRIPTIONS**

Course listings for the College of Medicine may be found under the college according to departmental and area headings.

For specific information about programs in the College of Medicine, students should refer to the [Graduate School Bulletin](http://www.mc.uky.edu/meded/GSB/2011/index.html) or the College of Medicine Bulletin.

**COMBINED MEDICAL AND GRADUATE STUDIES**

A medical student who wishes to work toward a combined medical and graduate degree (master’s or doctoral) may do so by enrolling both as a graduate student and as a medical student. Details of the combined degrees are available from basic science department chairpersons, the Associate Dean for Research and Basic Sciences, or the Office of Medical Education, College of Medicine.
Jane M. Kirschling, D.N.S., R.N., F.A.A.N., is Dean of the College of Nursing. Patricia V. Burkhart, Ph.D., R.N., is Associate Dean for Undergraduate Studies. Patricia Howard, Ph.D., R.N., C.N.A.A., F.A.A.N., is Associate Dean for M.S.N. and D.N.P. Studies. Terry A. Lennie, Ph.D., R.N., F.A.A.N., is Associate Dean for Ph.D. Studies. Suzanne Prevost, Ph.D., R.N., C.O.I., is Associate Dean for Practice and Engagement. Lynne A. Hall, Dr.P.H., R.N., is Associate Dean for Research and Scholarship.

Accreditation
The College of Nursing has had continuous accreditation since 1967. The baccalaureate degree curriculum offered by the College of Nursing is accredited by the Commission on Collegiate Nursing Education and approved by the Kentucky Board of Nursing.

Undergraduate Program in Nursing
The University of Kentucky grants the following degree in the College of Nursing:

• Bachelor of Science in Nursing

ADMISSION REQUIREMENTS
The College of Nursing enrollment is composed of four-year students, associate degree nursing graduates, and diploma nursing school graduates. Admission to the University does not guarantee admission to the College of Nursing. Preference is given to Kentucky residents.

Applicants must be in a state of good health enabling them to carry out the functions of the professional nurse. Routinely, each student will be required to obtain a rubella and rubeola titer, hepatitis B immunizations, and have an annual tuberculin test or chest x-ray. (Other immunizations may be required. Check with the College of Nursing for a current list.)

The University of Kentucky will consider for admission any applicant who demonstrates the ability to perform or to learn to perform the skills listed below. Applicants are not required to disclose the nature of any disability, but an applicant with questions about these technical requirements is strongly encouraged to discuss the issue with the dean for the particular program of study. If appropriate, and upon the request of the applicant, student or faculty, reasonable accommodations for a disability will be provided.

Students must possess aptitude, abilities, and skills in five areas:

• observation;
• communication;
• sensory and motor coordination and function;
• conceptualization, integration, and quantification; and,
• behavioral and social skills, abilities and aptitude.

Full details on these standards are available by contacting the College of Nursing.

Progression to upper-division is regulated so that the total number of full-time equivalents at the beginning of the junior year does not exceed 120.

Admission Criteria
Criteria for admission to the 4-year B.S.N. program include:

1. Freshman Student:
Students will be admitted as freshmen to a pre-nursing curriculum based on the following criteria:

a) high school grade-point average of 2.75 or above on a 4.0 scale;

b) meeting criteria for selective admission to the University of Kentucky (see the Undergraduate Admission section of this Bulletin for more information).

Consideration for admission to the professional nursing program will occur at the sophomore level for all students based on the following criteria:

a) a minimum cumulative and science grade-point average of 2.75;

b) a grade of C or better in all required pre-nursing courses;

c) completion of an approved Medicaid Nurse Aide training program;

d) the Internet-based TOEFL is required of all applicants whose first or primary language is other than English. Minimum cumulative score of 90; and at least minimum individual scores of 26 in speaking, 22 in listening, 20 in reading and 22 in writing. The requirement may be appealed by the student in extenuating circumstances.

In addition, any or all of the following information may be requested as part of the application:

e) a writing exercise based on the criteria established by the College of Nursing;

f) two letters of reference from individuals who can assess potential for success (e.g., teacher, employer). Reference forms are available by calling (859) 323-5108.

g) an interview with members of the Admissions and Progression Committee, or their designees.

Early Admission
Early provisional admission to the Professional Nursing Curriculum will be granted to graduating high school seniors who meet the criteria of a high school GPA of 3.5 or higher and an ACT composite of 28 or higher (or the equivalent SAT combined score). Students will be required to maintain a 3.25 GPA in each semester in their first year and a 3.25 GPA in science to retain guaranteed admission to the professional level. Students who meet these requirements will be granted full admission in either the fall or spring of the student’s sophomore year to the Professional Nursing Curriculum. Students not meeting those requirements will be grouped with other applicants who are considered for admission after completion of the prerequisites.

2. Transfer Student:

a) for transfer students with less than 24 hours of college credit, meeting the criteria for entering freshmen and a minimum grade-point average of 2.5 on all college work attempted as computed by the Office of Admissions;

b) for transfer students with more than 24 hours of college credit, maintaining grade-point average of 2.5 on all college work.
Seeking licensure as a Registered Nurse requires that applicants have no criminal history. In Kentucky, applicants who are convicted felons may be denied licensure. Cases are reviewed individually, upon application. Additionally, some clinical agencies require criminal background checks and drug screening for students who might be placed there for a learning activity. The agency reserves the right to deny a student permission to meet clients, based on the results of the criminal background check. If you have a criminal history, we urge you to contact the board of nursing in any state where you may seek licensure prior to enrolling in a nursing program. The regulations vary from state to state.

admission after earning a minimum of 60 college credits which include:

- English – 6 semester credits
- Natural Sciences – 6 semester credits
- Social Sciences – 6 semester credits
- Humanities – 6 semester credits
- Nursing* – 28 semester credits

*Nursing credits may be earned from regionally accredited colleges by taking the courses or by submission of a portfolio of R.N. licensure and experience to the R.N.-B.S.N. Option Coordinator.

Applicants and transcripts for admission must be submitted to the Office of Admissions according to the deadlines listed in the box above. Transfer applicants will be evaluated for fall and spring admission, according to the deadlines listed. Those accepted for admission must notify the college within 30 days, in writing, of their intent to enroll. Late applicants will be considered for admission on a space-available basis. Part-Time Study

The traditional and Second Degree Option nursing curricula were designed with co-requisites and courses taken in sequence. Therefore, students will be admitted to these options with the expectation that they will follow the prescribed nursing curriculum. R.N. students who are working toward the completion of the B.S.N. degree on a part-time basis must plan a course of study with the appropriate College of Nursing personnel or committee and may not alter that plan without prior approval from the College of Nursing.

Candidates for the degree who do not complete all requirements within a seven-year period (five years for R.N. students) after admission will have their records reevaluated and may be required to repeat or take selected courses.

Financial Aid

The college has scholarships designated for Nursing students. Inquiries should be directed to the Office of Student Services, College of Nursing.

Students may also wish to pursue funds available through hospitals and other agencies that offer financial assistance in return for a work commitment.

Academic Advising

Students who are admitted to the College of Nursing are assigned to an advisor within the college. Curriculum plans are determined in the first semester of enrollment in the college and updated each semester. Questions regarding progression through the program may be directed to the Office of Student Services, College of Nursing.

DEGREE REQUIREMENTS

BACHELOR OF SCIENCE IN NURSING

To obtain a Bachelor of Science in Nursing, students must satisfy the University requirements for graduation, including the UK Core requirements, and obtain a 2.0 grade-point average in nursing in the courses listed below. A grade of C or better must be attained in all courses required in the nursing curriculum in order to proceed to the next clinical course or to graduate. A minimum of 120 credit hours is required for graduation.

UK Core Requirements

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

I. Intellectual Inquiry in Arts and Creativity
- Choose one course from approved list

II. Intellectual Inquiry in the Humanities
- Choose one course from approved list

III. Intellectual Inquiry in the Social Sciences
- Choose one course from approved list

IV. Intellectual Inquiry in the Natural, Physical, and Mathematical Sciences
- Choose one course from approved list

V. Composition and Communication
- Choose one course from approved list

VI. Composition and Communication
- Choose one course from approved list

VII. Quantitative Foundations
- Choose one course from approved list

VIII. Statistical Inferential Reasoning
- Choose one course from approved list

IX. Community, Culture and Citizenship in the USA
- Choose one course from approved list

BSN Program Learning Outcomes
- Applies a systematic process, consistent with professional standards and evidence-based practice, to prevent illness and injury; promote, maintain, and restore client health; or support clients toward a peaceful death.
- Demonstrates leadership, responsibility and accountability in addressing health care issues.
- Demonstrates caring, professionalism, and respect in providing nursing care to diverse populations in a variety of settings.
- Demonstrates critical thinking in making independent and collaborative decisions in a complex health care system.
- Employs interprofessional communication and collaboration in providing safe, high quality care to improve client health outcomes.

SECONDDegree OPTION

NOTE: The Second Degree B.S.N. program as listed below has been provisionally approved; formal approval is expected in Fall 2011.

The College of Nursing offers the Second Degree B.S.N. (Bachelor of Science in Nursing). This option is for people who have a bachelor’s degree in a field other than nursing. It is not an accelerated B.S.N. option but a five-semester B.S.N. option.

Prerequisites for Second Degree B.S.N. Option
- Students who have earned a degree in another field may apply to complete a B.S.N. The admission requirements/prerequisites include:

**Graduate Study**

The Doctor of Nursing Practice (D.N.P.) program is a professional clinical doctorate program which focuses on development of advanced competencies for complex practice, and research utilization for the improvement of clinical care delivery, patient outcomes, and system management. Graduates will be expert in designing, implementing, managing, and evaluating health care delivery systems and will be prepared to lead at the highest clinical and executive ranks.

There are two entry points to the D.N.P. program: the post-Master of Science in Nursing (M.S.N.) entry option for those with an awarded master’s degree in nursing that are already prepared in the role of the Advanced Practice Registered Nurse (A.P.R.N.); and the post-Baccalaureate of Science in Nursing (B.S.N.) entry option. This option builds on the B.S.N. degree and prepares individuals in the population/systems role. Both options culminate with the D.N.P. degree.

**Application Deadline**

Application materials are due by **February 15** for fall admission. Applications received after this date will be considered if space is available. For additional requirements for application, including the application forms, go to: [www.mc.uky.edu/Nursing/academic/dnp/default.html](http://www.mc.uky.edu/Nursing/academic/dnp/default.html)

**M.S.N. - D.N.P. in Nursing**

Graduates of the post-M.S.N. -D.N.P. option are expected to be experts in designing, implementing, managing and evaluating health care delivery systems. Simultaneously, they will know how to manage the complex balance between quality of care, access, and fiscal responsibilities.

**Admission Criteria**

- Master’s degree in nursing from a nationally accredited program
- Graduate grade-point average of 3.3 on a 4.0 grading scale
- Satisfactory scores on the Graduate Record Examination (minimum scores of 500 on the Verbal and Quantitative portions are preferred. Analytical Writing scores are evaluated individually.
- Three references
- Personal interview(s)
- Licensure as a registered nurse in the state in which clinical will occur
- Clinical practice hours as demonstrated by certification in an advance practice nursing specialty, or previous graduate level course work (applicants who cannot demonstrate a minimum of 460 clinical clock hours of practice will be expected to complete clinical course work beyond the proposed curriculum)
- Written goal statement

*STA 570 or comparable graduate-level course within the past five years is a prerequisite to the program or can be taken during the fall of the first year; statistics is a required course prerequisite for NUR 903 (Applied Biostatistics for Outcomes Evaluation).

**B.S.N. - D.N.P. in Nursing**

The post-B.S.N. entry option builds on a student’s undergraduate degree and experience as a registered nurse and prepares the individual for the advanced practice registered nurse role in a chosen specialty. Direct care specialties include: Acute Care Nurse Practitioner, Adult Clinical Nurse Specialist, Pediatric Nurse Practitioner, Psychiatric-Mental Health Nurse Practitioner (Adult or Family), Primary Care Nurse Practitioner (Adult or Family) or population/systems focus in the Populations and Organizational Leadership specialty. Students apply to and are admitted to a particular specialty. Admission decisions are made on a competitive basis by specialty.
### Admission Criteria
- Baccalaureate degree in nursing from a CCNE or NLN accredited program
- Undergraduate grade-point average of 3.3 on a 4.0 grading scale
- Satisfactory scores on the Graduate Record Examination (minimum scores of 500 on the Verbal and Quantitative portions are preferred. Analytical Writing scores are evaluated individually.)
- Three letters of reference
- Personal interview(s)
- Licensure as a registered nurse in the state in which clinical will occur
- Clinical nursing experience prior to the first DNP clinical course
- Written goal statement

*STA 570 or comparable graduate-level course within the past five years is a prerequisite to the program or can be taken during the fall of the first year; statistics is a required course prerequisite for NUR 925 (Research Methods in Advanced Practice Nursing) and NUR 903 (Applied Biostatistics for Outcomes Evaluation).

**Related specialty science courses to be completed by nurse practitioner and clinical nurse specialist students for direct patient care.

### D.N.P. Student Outcomes

Graduates will be prepared to:
- Be expert practitioners for diverse populations and systems who engage in leadership to create practice environments that improve health care outcomes.
- Promote evidence-based innovations, technologies, and scholarship in nursing and health care delivery to improve practice.
- Synthesize scientific, theoretical, and policy data from a variety of disciplines to improve health care systems and health outcomes for individuals and populations.
- Collaborate in inter/intraprofessional networks that promote diversity and optimize care in complex health care systems.
- Create an environment that supports personal and professional development to enhance health care outcomes and life quality for populations.

The College of Nursing also offers the terminal academic degree program leading to the Doctor of Philosophy in Nursing. For more information on this program, refer to The Graduate School Bulletin at: [www.rgs.uky.edu/gs/](http://www.rgs.uky.edu/gs/)

College of Pharmacy

Timothy S. Tracy, Ph.D., is Dean of the College of Pharmacy.

The College of Pharmacy offers a professional degree program, a four year curriculum leading to the Doctor of Pharmacy (Pharm.D.). The Pharm.D. degree allows one to sit for the national licensing exam to become a licensed, practicing pharmacist. The College of Pharmacy also offers training for postdoctoral and research fellows, residency programs and graduate training (Ph.D.) in all areas of the pharmaceutical sciences through the Graduate School. The professional program is fully accredited by the American Council on Pharmaceutical Education and satisfies all educational requirements for licensure. The residency programs are accredited by the American Society of Health Systems Pharmacists (ASHP) or by ASHP in conjunction with the American Pharmacists Association.

The major goal of the College of Pharmacy is the education of competent and contemporary pharmacy practitioners who assume responsibility for achieving optimum therapeutic outcomes through the provision of rational drug therapy and who, in cooperation with other health care professionals, can favorably influence both overall health care and the individual patient’s quality of life.

ADMISSIONS OVERVIEW – PHARM.D. PROGRAM

The University of Kentucky is a public institution, and its primary mission is to educate residents of Kentucky and produce professionals who provide pharmaceutical care for its citizens. The College recognizes that a geographically and culturally diverse student body also contributes to a robust exchange of creative ideas and experiences, one that benefits all students. The UK College of Pharmacy, therefore, strives to admit a talented and diverse student body that enhances the educational process while serving the needs of the Commonwealth and the pharmacy profession.

Admission to the professional program is competitive. The number of students admitted to the Doctor of Pharmacy program depends upon the availability of resources such as faculty, clinical facilities and space for implementation of a quality educational program. Consideration for admission will be based on a holistic review of the applicant’s previous academic record, potential for academic achievement, standardized admissions test scores, assessment of communication skills, contribution to diversity, integrity, commitment, motivation, character, maturity and emotional stability. Each applicant must have the physical, mental and emotional ability to learn and accomplish those competencies required of a pharmacy practitioner, as well as the character and thought processes necessary to make professional judgments that benefit the patient.

The Admissions Committee believes the applicant should base a decision to enter the pharmacy profession on more solid reasoning than merely an interest in science courses. The applicant should research opportunities available to pharmacy graduates, services provided by pharmacists and obligations of pharmacy practitioners to the people they serve.

Work experience is not a requirement for admission. However, applicants are strongly advised to shadow a pharmacist and volunteer in a pharmacy or health care environment prior to entering a pharmacy program. Students who have prior work, shadowing or volunteer experience in a pharmacy setting generally enhance their performance during the admissions interview process and in the Pharm.D. program if later admitted.

The Admissions Committee cannot consider applications from students in other colleges of pharmacy when the applicant has previously been denied admission to the UK professional program or when the maximum number of students is already enrolled in the program.

Individuals who have been dropped for academic or other reasons applying for reinstatement in the College will have their application considered through the Academic Performance Committee, but on a competitive basis with new applicants. Students applying for admission should attempt to meet the technical standards for students in the College. These standards should be reviewed in the College Bulletin, under “Academic Progress and Promotion.”

Any student may be denied admission or permission to continue enrollment in the College of Pharmacy if, in the opinion of the faculty, the moral or ethical character of the student casts grave doubts upon his or her potential capabilities as a pharmacist. Any type of involvement in the illegal use of drugs or other illegal or unethical acts relating to the practice of pharmacy are examples of incidents which would provide cause for considering denying admission or for dismissal of a student from the College.

ACADEMIC PREPARATION – PHARM.D. ADMISSION REQUIREMENTS

A minimum of 70 semester credit hours of prepharmacy course work is required for admission. Approximately 50-60 of those hours are in required subjects; the remaining credit hours can be elective courses of your choice. Elective courses to consider are physiology, biochemistry, psychology, public speaking, medical terminology, logic, health care ethics, foreign languages, genetics, as well as courses that meet the UK UK Core requirements.

Prepharmacy courses should be completed by the end of the spring semester prior to the desired fall enrollment. Prior approval must be obtained by students wishing to take required course work after the spring semester. See the chart on page 253 for the number of semester credit hours required in each prepharmacy subject area and the exact courses as offered at UK. Students may complete the prepharmacy course work at another accredited college or university.

English Requirement for UK and Non-UK Students Interested in Pharmacy

UK students must complete the CIS/WRD requirement beginning Fall 2011. Non-UK students must take two semesters of English writing/composition. For questions about this requirement, contact the Prepharmacy Advisor at: pharmacyinfo@lsv.uky.edu.

Pharm.D. Admission Requirements: Suggested Prepharmacy Schedule

Below is a suggested two-year schedule for UK students on a prepharmacy track. For a three-year, less aggressive prepharmacy schedule, contact the Prepharmacy Advisor at: pharmacyinfo@lsv.uky.edu.

</table>

**Second Prepharmacy Year**

**Fall Semester**
- CHE 230 Organic Chemistry I ................................................. 3
- CHE 231 Organic Chemistry Laboratory I ............................. 2
- PHY 211 General Physics .................................................. 5
- ANSI 209 Principles of Human Anatomy .................................. 3
- CIS/WRD 111 Composition and Communication II ..................... 3
- Elective ............................................................................. 20
- TOTAL .................................................................................. 16

**Spring Semester**
- CHE 232 Organic Chemistry II ............................................. 3
- CHE 233 Organic Chemistry Laboratory II ............................. 2
- PHY 213 General Physics .................................................. 5
- ECO 201 Principles of Economics I ..................................... 3
- Electives ............................................................................. 5
- TOTAL .................................................................................. 18

*Students not prepared to take MA 113 (Calculus I) may substitute both MA 109 (College Algebra) and MA 123 (Elementary Calculus and Its Applications) during the fall/spring for a total of six hours of mathematics.

**Grades/Pharmacy College Admissions Test (PCAT)**

**Grades:** Please note that a grade of C or higher is required in all prepharmacy courses.

**Grades below C:** If prior to conditional acceptance, applicants are advised to repeat prepharmacy courses to earn a C average and improve their chances for admission. Most applicants will still be completing prepharmacy courses at the time admission decisions are made, however, In such cases, applicants should be advised that grades below C in any required course after acceptance will result in a review by the Admissions Committee and could cause rescinding of admission.

**Pharmacy College Admission Test (PCAT)**

In addition to completing the required prepharmacy course work, prospective students must take and submit at least one set of PCAT scores for admission consideration. The highest composite percentile score reported will be considered in the admissions process. There is no limit on the number of times the PCAT can be taken. However, the College does not consider PCAT scores over three years old or test scores from a PCAT taken in January of the year in which the applicant wishes to enter the College.

The PCAT is a standardized test designed to measure general ability and scientific knowledge in five areas: verbal reasoning, reading comprehension, biology, chemistry and quantitative ability. There is also a critical thinking essay. The PCAT is developed and administered by Harcourt Assessment, Inc., which currently offers
the exam several times per year. Test dates can vary from year to year. For more information about PCAT test dates, registration process and deadlines, contact Harcourt Assessment at: 1 (800) 622-3231 or at: www.pcatweb.info.

Structured Admissions Interview

To be considered for admission, applicants must be selected for and complete a structured interview process. Interview selection is based on information submitted during the application process. The interview itself is structured to assess the applicant’s communication skills, confidence, integrity, maturity, commitment to the field of pharmacy, motivation, character and ability to interact with others. Students selected for an interview can expect to spend about two hours interviewing. The interview may include an individual and group session with fellow applicants before a committee of faculty, practitioners and current pharmacy students.

Note: Interview dates for each admission cycle are set in late summer by the College of Pharmacy Admissions Office. Those dates may vary annually. It is strongly suggested that candidates apply at least 6-8 weeks in advance of either the Early Decision or Regular Admission application deadlines and prior to interview dates. For maximum consideration, students should apply by early October.

Rolling Admissions Process/Application Timelines

Rolling Admissions: Please note that the UK College of Pharmacy uses a rolling admissions process. The College screens applications, schedules interviews and makes acceptance decisions on a continual basis, which makes it necessary to complete the application process as early in the admissions cycle as possible. Review of applications specifically begins with Early Decision in late August/early September and runs through the Regular Decision process in January. Interviews and acceptance decisions will be made on a continual basis until the class is filled.

Early Decision (ED): Applicants are strongly encouraged to apply as early as June-August for Early Decision. Many positions in the class will be filled through the ED process, which will greatly limit available seats once the Regular Decision process begins in early January. Candidates should be advised that an early application (October) receives stronger consideration.

Required Admission Applications, Documents and Verification Process

Two separate applications and fees are required for admission to the UK College of Pharmacy:

1. PharmCAS Online Application – www.pharmcas.org

   The College of Pharmacy utilizes a centralized application service called PharmCAS (Pharmacy College Application Service). Through PharmCAS, applicants submit a Web-based application comprised of biographical data, post-secondary institutions attended, academic course history, work experience, extracurricular activities, a personal statement and official transcripts from all accredited U.S./Canadian institutions attended. PharmCAS allows students to submit a single application to apply to multiple Pharm.D. programs. Students planning to apply to enter the UK Pharm.D. program are required to utilize PharmCAS.

   College Transcripts: It is the applicant’s responsibility to arrange for PharmCAS to receive all official transcripts before application deadlines. Official transcripts must be submitted from every U.S. and English-speaking institution attended by the applicant. If fall term grades are not available until after the time of application, the candidate must arrange for official fall transcripts to be sent directly to PharmCAS as soon as possible. It is the applicant’s responsibility to submit fall transcripts, add any new courses completed since first submitting the PharmCAS application and to edit their in-progress and planned courses.

   PharmCAS Verification: PharmCAS will not begin to verify transcripts and process the application until the student e-submits their complete PharmCAS application, arranges for sealed official transcripts to be mailed to PharmCAS directly from every U.S. and Canadian postsecondary institution attended, and pays the correct PharmCAS application fee. It is not necessary to wait for the arrival of references, transcripts, fall grades, or PCAT scores to e-submit your application.

2. UK Supplemental Application – http://pharmacy.mc.uky.edu/admissions/admissions.php

   In addition to applying through PharmCAS, applicants are required to submit a UK Pharm.D. Supplemental Application and fee. The Supplemental Application is updated each June and is available at: http://pharmacy.mc.uky.edu/admissions/admissions.php

   NOTE: Deadlines for application materials vary annually depending upon requirements of the PharmCAS. For the most current listings of application deadlines and procedures, applicants should check both the PharmCAS and UK College of Pharmacy Web sites in early June before the academic year in which they intend to apply to the College.

Admission Committee Decisions/Conditional Acceptance

The Admissions Committee convenes and admission decisions are made at the conclusion of each round of interviews. Selected candidates are then “conditionally accepted” based on a holistic review of the PharmCAS and UK supplemental application. The review will include evaluation of GPA (weighing the science GPA most heavily), PCAT scores, interview performance, references, leadership/volunteer/service activities, written essays, character, contribution to diversity and an assessment of other characteristics as described under “Admissions Overview.” The total number of students admitted each year will depend upon the availability of resources.

All acceptances remain conditional until final matriculation and fall enrollment in classes.

Final Matriculation/Fall Enrollment Requirements

Before final matriculation and fall enrollment can be approved, all conditionally accepted students must submit a non-refundable tuition deposit, signed copies of specified acceptance forms, pass a criminal background check/drug screen with acceptable results, attend orientation programs and meet other enrollment requirements as set forth by the College prior to the first day of classes.

Criminal Background Check and Drug Screen: Applicants should be aware that both criminal background checks (CBC) and drug screens (DS) are becoming increasingly common requirements for participation in specific course work in the College of Pharmacy and for eventual licensure as a pharmacist. As a result, CBC/DS are now requirements for those students conditionally accepted for admission and must be completed with satisfactory results prior to matriculation to the College. Instructions for completion of CBC/DS requirements will be forwarded immediately following conditional acceptance to the College. The CBC/DS will be annual requirements for all Pharm.D. students enrolled in the College. The types of tests required as well as the cost involved are subject to change and beyond the control of the College of Pharmacy. The expense for background checks and drug screens will be borne by the individual applicant and/or student.

To view the official UK College of Pharmacy Criminal Background Check/Drug Screen Policy, visit: http://pharmacy.mc.uky.edu/admissions/UK_CBC_DS_Policy.pdf.

College of Public Health

The College of Public Health

A defining characteristic of the area of public health is its focus on population groups rather than individuals. Public health professionals are concerned with the health of communities, relying heavily on collaboration with local, state, and national entities to improve the health status of their targeted populations. With the current interest in health care reform, interest in bioterrorism preparedness, concerns over managed care, and other factors impacting the nation’s health care system, the need for highly trained public health professionals is increasing. Professionals with the Master of Public Health (M.P.H.) and/or the Doctor of Public Health (Dr.P.H.) hold important roles in a variety of public and private settings, e.g., local and state health departments, health care facilities, universities, state and national agencies, social service agencies, and community-centered health education facilities. In these positions, they can be involved directly with the development, implementation and assessment of health education/disease prevention programs, and in initiatives for improving health care services.

The College of Public Health offers the M.P.H., M.H.A., M.S. in Clinical Research Design degrees, the Dr.P.H. degree, the Ph.D. in Epidemiology and Biostatistics, and the Ph.D. in Gerontology. M.P.H. is an applied professional/graduate degree designed for highly motivated students who either have a professional degree or a substantial interest in public health. Unique sequencing of courses, community-based program activities, and field/laboratory research provide students with multiple opportunities to define their course of study. The M.P.H. also may be part of a combined degree with other professional and graduate programs such as the M.D./M.P.H. and the Pharm.D./M.P.H. The Dr.P.H. is a terminal professional degree that will prepare graduates to assume professional leadership responsibilities in local, state, national, and international public health activities. Course work will emphasize the integration and application of new knowledge and theory, and analytical, critical thinking, and problem solving skills to address the public health concerns of the Commonwealth and nation.

In addition, the College of Public Health offers one undergraduate course, CPH 201, Introduction to Public Health. The course provides the student with basic knowledge about the discipline of public health. After receiving a philosophical and political orientation to public health, students will begin to acquire functional knowledge of the strategies most often applied in public health practice.

The College also offers a Ph.D. program in Gerontology. For more information, visit the Web site at: www.mc.uky.edu/gerontology.

The Master of Public Health degree requires a minimum of 42 credit hours of study for completion. All students must complete 18 semester hours of required core course work and 15 hours of specialty work in one of the five areas of concentration. The concentrations are biostatistics, epidemiology, health behavior, health services management, and occupational/environmental health. In addition, three credit hours of field practicum, three credit hours of research and three credit hours of a Capstone Project are required.

The M.P.H. core course requirements provide a broad overview of the disciplines of public health and the basic principles of public health practice. Specialty course work develops the skills and knowledge upon which to build or enhance a career in public health. A field practicum in a community, a public health facility, a government agency or related setting will represent the culminating experience that will result in a written Capstone Project paper.

The Master of Health Administration degree program (M.H.A.) provides graduate level education to prepare students for leadership positions across the full range of health care organizations. The program and courses are structured to accommodate the schedules of both full-time and part-time students. The M.H.A. degree is offered in cooperation with several other academic units and includes subject matter experts in the six health care colleges, the College of Business and Economics, the College of Arts and Sciences, and the Martin School of Public Policy and Administration. For students entering in the fall 2011 semester, the total program consists of 54 semester hours, including a field experience and an integrative capstone. Students who have not completed undergraduate microeconomics and accounting courses must do so before taking the M.H.A. courses in these areas.

The Dr.P.H. is designed as a college-wide advanced degree and will require a minimum of 63 semester hours of course work beyond the master’s degree. The Dr.P.H. candidate must have a Master of Public Health, a Master of Science in Public Health, or an equivalent degree. Examples of equivalent degrees are programs related to public health, such as the Master of Arts in Communications, or the Master of Science in Nursing, along with course work equivalent to the five basic core courses in the M.P.H. curriculum. Those applications not meeting the preparation requirements will be evaluated on an individual basis.

Students will complete a curriculum spanning the five core discipline areas offered by the College of Public Health. Typically, a full-time student will require a minimum of three years beyond the master’s degree to complete the program. The program is designed to accommodate nontraditional, working, and part-time students.

The Dr.P.H. curriculum includes:

- Fifteen semester hours of required course work in the core curriculum, which consists of an advanced course in each of the five core public health areas of concentration (epidemiology, biostatistics, health services management, health behavior, occupational/environmental health, and gerontology).
- A second level advanced course in three of the five concentration areas including the course in your area of concentration.
- Fifteen hours of professional elective course work consistent with your area of concentration.
- A one-hour integrative professional colloquium in six semesters of enrollment.
- Two supervised public health field experiences.
- An integrated capstone option of either a problem-based or research-based project paper demonstrating appropriate discipline understanding.

There is an application deadline for each program; for current information, consult the College Web site at: www.mc.uky.edu/publichealth. Applicants are responsible for ensuring that their
College of Public Health

applications are complete, and applications will not be reviewed until all materials have been received.

e-mail: ukcph@uky.edu
www.mc.uky.edu/publichealth/
Social work is a profession with a two-fold mission: to help people function as well as they can within their environment and to work for improved social conditions. Social workers are involved in providing services to people in such areas as education, health, mental health, housing, public welfare, counseling, services to the aging, care for the retarded, recreation, corrections and criminal justice, family services, child welfare services, services for the physically and mentally handicapped, vocational rehabilitation and the like. This includes services designed to protect, promote or restore the well-being of people. Both universal services and services for special-needs groups are included.

Social work is not only restorative in nature, responding to human problems after the fact; there is also a strong commitment towards preventive measures. An emphasis upon institutional change within society is predicated upon the principle that society has a responsibility to protect the most vulnerable groups in its midst from falling prey to damage and injury. This expresses itself in the central thrust of the social work profession towards social justice.

The origins of social work are rooted in the ancient human impulse of altruism, the desire to care for one another’s needs. Social work became a profession around the beginning of the twentieth century through the efforts of social reformers to meet the needs of the poor, of neglected children and of exploited workers through the better organization of charities and the first “friendly visitors.” Social workers led the fight for child labor laws, more humane industrial conditions, voting rights for women and other progressive causes.

Today, professional social work as described in a publication of the National Association of Social Workers, is a “dynamic, growing profession based on knowledge drawn from the social sciences and its own research and practice. It has a code of ethics, standards for practice, and a nationwide system of accredited educational programs designed to merge the impulse to help others with the skill and knowledge needed to provide that help.”

**Program Accreditation**

Both the Bachelor of Arts in Social Work and the Master of Social Work degree programs are fully accredited by the Council on Social Work Education.

**Licensing**

Social work graduates are eligible for licensing from the State Board of Examiners of Social Work of Kentucky, PO Box 1360, Frankfort, KY 40602, as follows:

- BASW graduates for license as “social workers”
- MSW graduates for license as “certified social workers”

**Undergraduate Program in Social Work**

The University of Kentucky grants the following degree in the College of Social Work:

- Bachelor of Arts in Social Work

**THE UNDERGRADUATE PROGRAM OF EDUCATION FOR SOCIAL WORK**

The undergraduate program in social work was inaugurated in 1944. Effective July 1, 1969, its administration was transferred from the College of Arts and Sciences to the newly established College of Social Professions, which is now the College of Social Work. Freshmen and transfer students who elect social work as a major should arrange to register in the College of Social Work. Each student will be assigned a member of the faculty of the college as an advisor who will assist in the selection of courses and ensure that the requirements for the B.A. degree are met. Students who wish special information or a personal interview prior to registration may make an appointment through the Office of the Director of the Undergraduate Program of the College of Social Work.

The principal objective of the undergraduate program is to prepare students for beginning social work practice. Additionally, it prepares students for graduate professional education.

All social work majors have actual experience in the field under faculty direction. These experiences are provided in teaching-learning centers in a variety of agencies located in or adjacent to Lexington.

Courses in social work contribute to the liberal education of all students and help prepare them to be more effective citizens in a complex society in which welfare issues and programs are of increasing importance to everyone.

These courses may serve one or more of the following purposes:

1. To enrich and broaden the knowledge of social problems and social issues.
2. To help develop effective interpersonal relations.
3. To provide basic knowledge of social services to students who are preparing for careers in other helping professions (i.e., special education, rehabilitation, nursing, law, medicine).

**Advising**

Every student is assigned an academic advisor who assists them in preparing for registration each semester. Undergraduate advisors are assigned by the Director of the Undergraduate Program, 625 Patterson Office Tower, (859) 257-2350.

**Undergraduate Admission Policy**

Admission to the University of Kentucky is sufficient for admission to the College of Social Work as a premajor. Social work students receive academic advising from the College of Social Work faculty and must successfully complete the premajor course requirements before applying to the BASW degree program. The premajor course requirements are: (SW 124 and SW 222) or SW 322; PSY 100; SOC 101; and BIO 103 or BIO 110.

An application must be filed with the College of Social Work in order for a student to be considered for admission as a major. In general, admission as a major depends upon the qualifications and preparation of the applicant, as well as the availability of resources for maintaining quality instruction.

**Admission Criteria to the Bachelor of Arts in Social Work Degree Program**

In order to be admitted to the BASW degree program as a major, applicants must fulfill the following requirements:

1. Admission to the University of Kentucky (students are considered for acceptance by the College only after acceptance by the University);
2. A grade of B or better in both SW 124 and SW 222, or equivalent (or a grade of B or better in SW 322);
3. Submission of application form;
4. Minimum of a 2.5 cumulative grade-point average on all college work attempted as computed by the Registrar’s Office;
5. Ability to articulate reasons for choosing social work as a career, as evidenced in an essay;
6. A passing grade in PSY 100, SOC 101, and BIO 103 or BIO 110.

Applications for admission to the College of Social Work must be received by the Records Office of the College of Social Work (613 Patterson Office Tower) no later than May 1 for summer sessions, August 1 for the fall semester, and December 1 for the spring semester.

Individuals who do not meet the admissions criteria may submit additional materials to the College’s Admissions Committee. Admission may be granted if there is persuasive evidence of both the capability and motivation to undertake successfully the BASW degree program.

**BACHELOR OF ARTS IN SOCIAL WORK**

**Degree Requirements**

The College of Social Work requires students to earn a minimum of 120 hours for the B.A. in Social Work with a minimum grade-point average of 2.5. In addition, students must earn a grade of C or better in all professional social work core classes. Students may take additional hours in accordance with stated University policy.

In addition to fulfilling UK Core requirements, students must complete the program requirements listed below.

**UK Core Requirements**

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

I. Intellectual Inquiry in Arts and Creativity

Choose one course from approved list ........................................ 3

II. Intellectual Inquiry in the Humanities

Choose one course from approved list ........................................ 3

III. Intellectual Inquiry in the Social Sciences

SOC 101 Introduction to Sociology .......................................... 3

IV. Intellectual Inquiry in the Natural, Physical, and Mathematical Sciences

BIO 103 Basic Ideas of Biology .................................................. 3

V. Composition and Communication I

CIS/WRD 110 Composition and Communication I .................... 3

VI. Composition and Communication II

CIS/WRD 111 Composition and Communication II .................... 3

VII. Quantitative Foundations

PHI 120 Introductory Logic .................................................... 3

VIII. Statistical Inferential Reasoning

STA 210 Making Sense of Uncertainty: An Introduction to Statistical Reasoning ........................................ 3

IX. Community, Culture and Citizenship in the USA

Choose one course from approved list ........................................ 3

X. Global Dynamics

Choose one course from approved list ........................................ 3

UK Core Hours ........................................................................ 30

**Graduation Writing Requirement**

SW 470, required in the Major Requirements, fulfills the Graduation Writing Requirement.

**Graduation Writing Requirement Hours: ...... 3**

**Premajor Requirements Hours**

PSY 100 Introduction to Psychology .......................................... 4

ECO 101 Contemporary Economic Issues or

ECO 201 Principles of Economics I ............................................ 3

ANT course ............................................................................. 3

one of the following PS courses:

PS 101 American Government

PS 240 Introduction to Political Theory

PS 372 Introduction to Political Analysis

PS 458 American State and Local Government ...................... 3

SW 444 Educational Practicum I ............................................. 5

SW 450 Social Work Research .................................................. 4

SW 460 Understanding Behavior From a Socio-Cultural Perspective: Exploring Explanatory Theories ...................... 4

SW 445 Educational Practicum II ............................................ 8

SW 470 Senior Seminar ....................................................... 3

NOTE: Students must earn a grade of C or better in all Major Requirements courses.

Subtotal: Professional Social Work Major Hours .................. 47

**Social and Behavioral Sciences and Social Work Electives**

Students must complete 15 hours of upper-division courses from any of the following: anthropology, economics, family studies, political science, psychology, social work, sociology.

Subtotal: Related Electives .................................................. 15

**Electives**

Students must complete at least six hours of upper-division free elective courses and enough lower-division elective hours to lead to the minimum total of 120 hours required for graduation.

Subtotal: Free Electives ........................................... minimum of 6

**TOTAL HOURS: .................................................. 120**

**Probation, Dismissal and Reinstatement Policy**

An undergraduate social work major or graduate student may be dismissed from the College of Social Work for failure to make satisfactory progress. In the Social Work program, the college continuously monitors the progress of all social work students. Consistent with University regulations and the CSWE requirements that social work programs have policies for “terminating a student’s enrollment… for reasons of academic and professional performance,” the following rules apply in the College of Social Work.

**Academic Performance**

For students accepted to the Bachelor of Arts in Social Work (BASW) program, the rules for academic probation, dismissal and reinstatement are comparable to those established by the University for undergraduate colleges and also include criteria for student performance in required social work courses:

a. A student must earn a C or better in all social work core courses (SW 300, SW 350, SW 400, SW 421, SW 422, SW 430, SW 435, SW 444, SW 450, SW 460, SW 445, SW 470) in order to complete the major requirements and advance through sequential social work courses. A grade lower than a C will require the student to repeat that course and obtain a C or better to meet major requirements.

b. Any student who fails to maintain a cumulative UK GPA of 2.5 shall be placed on academic probation within the College of Social Work.

c. A student can be removed from academic probation when a cumulative GPA of 2.5 is obtained.

d. A student shall be dismissed from the College who fails to achieve a cumulative GPA of 2.5 or higher within two consecutive semesters of being placed on probation or fails to earn a term GPA of 2.5 or higher for any two consecutive semesters following his/her placement on academic probation.
e. A student who earns a term GPA of 2.5 or higher for each semester following placement on probation will continue in probationary status until a cumulative GPA of 2.5 or higher is obtained.

f. A student may not graduate from the College of Social Work while on academic probation.

g. Students who are on academic probation within the College of Social Work may transfer to other colleges or departments provided the students meet eligibility criteria.

h. A student who has been dismissed from the College for academic reasons and has remained outside the program for at least a semester and a summer session may petition for reinstatement. Petition for reinstatement is to be made in writing to the Dean and shall include a written statement by the student specifying why he/she should be considered for reinstatement. After consultation with the Director of Undergraduate Studies and other faculty as appropriate, the Dean may choose to accept or deny the petition. The Dean may require that the student agree to certain conditions in order to be reinstated (i.e. take additional course work, complete a writing class, obtain tutoring, etc.). The Dean shall inform the student in writing that he/she has been reinstated or reasons for denial of the petition for reinstatement. No student will be readmitted to the College via reinstatement request more than twice.

i. A student who has been dismissed for academic reasons and reinstated shall, upon reinstatement, be placed on academic probation and be subject to the academic performance expectations outlined in this policy.

COURSES FOR NONMAJORS

Students from other departments are eligible to take certain social work courses offered to enrich the content of their basic major and/or to increase their knowledge and understanding of the society of which they are a part. They may take SW 124, Introduction to Social Services; SW 222, Development of Social Welfare; SW 322, Social Work and Social Welfare; and elective social work courses.

GRADUATE PROGRAMS

The College of Social Work offers graduate curricula leading to the Master of Social Work degree and to the Ph.D. in Social Work. The Ph.D. program is offered jointly with the University of Louisville. An MSW is a prerequisite to Ph.D. admission.

Master’s applicants holding the baccalaureate degree in social work may be eligible for the 38-credit advanced standing option. Others will be considered for the regular 60-credit MSW program.

For further information, see The Graduate School Bulletin or the College of Social Work Bulletin.
ADDITIONAL LEARNING OPPORTUNITIES

There are plenty of ways students can earn credit at the University of Kentucky. To learn more, see the information below. Distance Learning Programs are administered by the Office of the Associate Provost for Undergraduate Education; all other programs are administered by the Assistant Provost for Enrollment Management.

DISTANCE LEARNING PROGRAMS

Distance Learning Programs, a unit of the Teaching and Academic Support Center (TASC), provides a wide variety of faculty and student support services to enable development and delivery of credit courses and programs throughout the Commonwealth of Kentucky and around the world, with over 10,000 enrollments annually. Distance Learning students enroll in 15 full degree programs, over 700 courses, 5 certificates and state-mandated training while residing in over 200 cities and towns in more than 100 Kentucky counties. Distance Learning Programs delivers course work in cooperation with Teaching and Academic Support Center staff, UK academic departments and colleges, and other institutions of higher education statewide and nationally. Available advanced delivery modes include online instruction, interactive video, videoconferencing, Web 2.0 technologies and hybrid models.

Specific support includes:
• online and hybrid course development and support;
• technical coordinators at interactive video and videoconferencing sites;
• extensive distance learning faculty and student support services;
• exploration of new technologies for distance learning delivery/modeling;
• strategic planning with academic units;
• support for collaborative distance learning programming;
• marketing for Distance Learning courses and programs; and
• coordination with Distance Learning Library Services.

For more information on Distance Learning Programs, call (859) 257-3377; or go to: www.uky.edu/DistanceLearning.

SUMMER SCHOOL

The University offers two summer sessions between the spring and fall semesters: a first (four week) summer session in May followed by a second (eight week) summer session beginning in June. There are also some courses with variable terms available within these two sessions. Summer School courses provide educational enrichment and give students the opportunity to accelerate their academic progress. Information regarding admission procedures and Summer School calendar dates are listed in the University Calendar at the front of this Bulletin. The Summer School Schedule of Classes can be viewed online in early December. For information about summer school, contact:

Summer School

(859) 257-8725
Course Numbering System

001-099 — No credit, non-degree and/or developmental courses;
100-199 — Open to freshmen; undergraduate credit only;
200-299 — Prerequisite sophomore classification; or consent of instructor; undergraduate credit only;
300-399 — Prerequisite junior classification; undergraduate credit only;
400-499 — Prerequisite junior classification; undergraduate credit;
400G-499G — Graduate credit for non-majors;
500-599 — Prerequisite junior classification; undergraduate and graduate credit;
600-799 — Open only to graduate students;
800-999 — Open only to students in professional colleges and to students in other colleges offering professional degrees.

R — The letter R following the course designation and number indicates a remedial course. No course designated with an R will be counted as credit toward a bachelor’s degree at the University of Kentucky.

Courses may be approved for variable credits, e.g., (1-3), (2-6), etc. In no case, however, may the total credits exceed the maximum number authorized for the course.

Repeated registration in a course may be allowed if the course description carries the statement: “May be repeated to maximum of . . . credits.” However, a student may enroll only one time in a specific course during a given semester. Courses with the same number are not considered to be the same course if different identifying titles are an integral part of the record.

Unless indicated in the course description, the number of credits for a course indicates the number of lecture or discussion or class hours.

Exceptions to the requirements for admission to courses may be made as follows:

a. Freshmen and sophomores may be admitted to courses numbered between 300 and 499, upon approval of the instructor and the dean of the student’s college. Such approval is limited to students who have demonstrated superior ability or preparation.

b. Seniors with superior ability or preparation may be admitted to courses numbered between 600 and 799, upon approval of the instructor, the dean of the student’s college and the Dean of The Graduate School.

c. Courses elected on a pass-fail basis.

James E. Hauenebieck, Associate Professor, D.D.S., Memphis, 1977
Thomas Larkin, Assistant Professor (part-time), Creighton University, Omaha, NE, 1980
Harold R. Laswell, Professor, D.D.S., Indiana, 1961; M.S.D., Indiana, 1966
Janet F. Lee, Assistant Professor (part-time), Kentucky, 1982
Stacie Maggard, Assistant Professor (part-time), D.M.D., Kentucky, 1998
Richard J. Mitchell, Associate Professor, M.S., Georgia, 1971; Ph.D., Virginia, 1975
Kenneth B. Nusbacher, Assistant Professor (part-time), D.M.D., Kentucky, 2008
Kristy A. Pepper, Assistant Professor, D.M.D., Kentucky, 2005
Gitanjali L. Pinto-Sinai, Assistant Professor (part-time), D.D.S., SUNY of Buffalo, 2001
Fonda G. Robinson, Associate Professor, D.M.D., Kentucky, 1992
Carla Rodriguez, Assistant Professor (part-time), D.M.D., Kentucky, 1981
William M. Sadler, Assistant Professor, D.M.D., Alabama, 1975
James H. Timmons, Associate Professor, D.D.S., Detroit, 1969; M.S.Ed., Kentucky, 1983
Loren Williams, Assistant Professor (part-time), D.M.D., Kentucky, 1978

**Comprehensive Care**

Patricia Nihill, Division Chief
Thomas F. Carroll, Assistant Professor, D.M.D., Kentucky, 1981
Ershel Harrison, Assistant Professor, D.M.D., Kentucky, 1981
Thomas A. McConnell, Assistant Professor, D.D.S., University of the Pacific, 1977
Patricia Nihill, Associate Professor, D.M.D., S. Illinois, 1982; M.S., Northwestern, 1991
Deborah S. Ray, Assistant Professor, D.M.D., Kentucky, 1987; G.P.R. Cert., Kentucky, 1988

**DEPARTMENT OF ORAL HEALTH SCIENCE**

Jeffrey P. Okeson, Chair
Octavio A. Gonzalez, Assistant Professor, D.D.S., Pontifical Javeriana University, Columbia, 1993; M.Sc., Pontifical Javeriana Univ., Columbia, 2002; Ph.D., Kentucky, 2010
Chifu B. Huang, Assistant Professor, M.S., Kentucky, 1990; Ph.D., 1995; Kentucky; MBA Washington, 2002

**Oral and Maxillofacial Surgery**

Larry L. Cunningham, Jr., Division Chief
Gregory A. Cobetto, Assistant Professor, D.M.D., University of Pittsburgh, 1978; G.P.R. Cert., Univ. of Colorado-Denver, 1979; Cert. Oral and Maxillofacial Surgery, Univ. of Colorado-Denver, 1982; Larry L. Cunningham, Jr., Assistant Professor, D.D.S., Texas, 1995; M.D., Texas, 1998
Joseph D. Van Sickels, Professor, D.D.S., Virginia, 1972

**Pediatric Dentistry**

Enrique Bimstein, Division Chief
Shellie A. Branson, Assistant Professor (part-time), D.M.D., Louisville, 1984; Cert. Pediatric Dentistry, Univ. of Louisville, 1986
Enrique Bimstein, Professor, C.D., Univ Nacional Autonoma De Mexico, 1970; Cert., Pediatric Dentistry Fellowship, Jerusalem, 1971; Cert., Master Educator Fellowship, Florida, 2007
Jeffrey L. Bowen, Assistant Professor (part-time), D.M.D., Kentucky, 2007; Cert. and M.S. Pediatric Dentistry, Kentucky, 2010
Charlotte Haney, Assistant Professor, D.M.D., Kentucky, 1976; Cert. Pediatric Dentistry, Kentucky, 1983
Wendy K. Humphrey Van Meter, Assistant Professor (part-time), D.M.D., Kentucky, 2003; G.P.R. Cert., Kentucky, 2004; Cert. Pediatric Dentistry, Kentucky, 2008
Rodney Jackson, Assistant Professor (part-time), D.M.D., Kentucky, 2001
Harold D. Lester, **Assistant Professor, D.M.D., Louisville, 1963**
John R. Mink, Professor, D.D.S., Indiana, 1956; M.S.D., Indiana, 1961
David A. Nash, Professor, D.M.D., Kentucky, 1968; M.S., Iowa, 1970; Ed.D., West Virginia, 1984
Hayden Phillips, Assistant Professor (part-time), D.M.D., Kentucky, 2003
Cristina V. Perez Pacheco, Assistant Professor, D.D.S., Concepcion, Chile, 1998; Cert., Clinical Pediatric Dentistry, Concepcion, Chile, 2000; Cert., Specialization in Pediatric Dentistry, Concepcion, Chile, 2002; Cert. and M.S., Orofacial Pain, Kentucky, 2011

**Adult Dentistry**

Ted P. Raybould, Division Chief
John B. Burt, Assistant Professor, D.M.D., Kentucky, 1996
Eric T. Demann, Associate Professor, D.M.D., Kentucky, 2000
Christian S. Fraley, Assistant Professor, D.M.D., Kentucky, 1996; G.P.R. Cert., Kentucky, 1997
Kathryn Haynes, Assistant Professor, D.M.D., Kentucky, 1984
Sherron Slone, Assistant Professor, D.M.D., Louisville, 1997
Daria Stone, Assistant Professor, D.M.D., Kentucky, 1995
James R. Thompson, Assistant Professor (part-time), D.M.D., Kentucky, 1978

**Oral Pathology**

Douglas D. Damm, Division Chief
Douglas D. Damm, Professor, D.M.D., Louisiana State, 1977; Cert. Oral Pathology, Emory, 1979

**Orthodontics**

G. Thomas Kluemper, Division Chief
Edgar L. Berre, Jr., Assistant Professor (part-time), D.D.S., Ohio State, 1970; Cert. Orthodontics, University of Pittsburgh, 1973
Melvin W. Dean, Assistant Professor (part-time), D.M.D., Kentucky, 1977; Cert. Orthodontics, Kentucky, 1979
James K. Hartsfield, Jr, Professor, D.M.D., South Carolina, 1981; M.S., Indiana, 1983; M.Sc., Harvard, 1987; Ph.D., South Florida, 1993
Bruce S. Haskell, Professor (part-time), D.M.D., University of Pittsburgh, 1973; Cert. Orthodontics, Univ. of Rochester, 1975; Ph.D., Physical Anthropology, Univ. of Pittsburgh, 1978
G. Thomas Kluemper, Associate Professor, D.M.D., Kentucky, 1983; M.S., Orthodontics, Michigan, 1991
Judson M. Knight, Associate Professor (part-time), D.M.D., Kentucky, 1967; Cert. Orthodontics, Kentucky, 1972

Liliana Otero, Assistant Professor (visiting), Ph.D., Javeriana University, Columbia, SA, 2008

Larry B. Sharp, Assistant Professor (part-time), D.M.D., Kentucky, D.M.D., 1985; Cert. and M.S. Orthodontics, Kentucky, 1988

C. Michael Stansbury, Assistant Professor (part-time), D.M.D., Kentucky, 1976; Cert Orthodontics, Kentucky, 1979

J. Philip Wahle, Assistant Professor (part-time), D.M.D., Kentucky, 1990; M.S., Kentucky, 1993

Public Health Dentistry

Robert E. Kovarik, Division Chief

Joanna A. Aalboe, Assistant Professor, M.S., Eastern Kentucky, 2009

Suzanna Ashby, Assistant Professor (part-time), D.M.D., Kentucky, 2010

Kelly J. Dingrando, Assistant Professor, D.M.D., Kentucky, 2005

Laura D. Hancock Jones, Assistant Professor, D.M.D., Louisville, 2003

Robert G. Henry, Associate Professor, D.M.D., Kentucky, 1981

J. David Hardison, Professor, D.M.D., Kentucky, 1980

Alan A. Kaplan, **Associate Professor**, Ph.D., Kentucky, 1975

Robert E. Kovarik, Associate Professor, D.M.D., Kentucky, 1982; M.S., Georgia, 1991

Karlf Lange, Professor (part-time), D.M.D., Louisville, 1968

M. Raymond Mathis, Assistant Professor (part-time), D.M.D., Kentucky, 1968; M.P.H., North Carolina, 1970

Judith Skelton, Associate Professor, Ph.D., Florida, 1983

Jenny L. Stigers, Associate Professor (part-time), D.M.D., Kentucky, 1984; G.P.R. Cert., Kentucky, 1986

John A. Thompson, Assistant Professor (part-time), D.M.D., Kentucky, 1971

Keith White, Assistant Professor, D.M.D., Kentucky, 1986

*Joint Appointment

**Adjunct Series

COLLEGE OF DESIGN

Michael Speaks, Dean

SCHOOL OF ARCHITECTURE

David M. Biagi, Director

David M. Biagi, Associate Professor, M.Arch., Ohio State

Clyde R. Carpenter, Professor, M.Arch., Pennsylvania

Angela Co, Instructor, M.Arch., Columbia

Anne Filson, Assistant Professor, M.Arch., Columbia

Hans Gesund, Professor, Department of Civil Engineering, College of Engineering and College of Design, D.Eng., Yale

Michael W. Jacobs, Instructor, B.Arch., Kentucky

Peyman Jahed, Instructor, A.B.D., Kentucky

Gregory Luhan, Associate Professor, M.Arch., Princeton

Andrew Manson, Instructor, M.Phil., Columbia

Michael McKay, Lecturer, M.Arch., Princeton

Kyle Miller, Instructor, M.Arch., UCLA

Wallis Miller, Charles Parker Graves Professor of Architecture, Ph.D., Princeton

David Mohney, Professor, M.Arch., Princeton

Mark J. O’Bryan, Associate Professor, M.Arch., Cornell

Nicholas Puckett, Assistant Professor, M.Arch., AAUK, London

Rives Rash, Instructor, M.Arch., Southern California Institute of Architecture

Anthony Roccoanova, Associate Professor, M.Arch., Cornell

Gary Rohrbacher, Assistant Professor, M.S.Arch., MIT

Jerzy Rozenbek, Associate Professor, M.F.A., Cinema Studies, New York University

Jason Scroggin, Assistant Professor, M.S. in Advanced Architectural Design, Columbia

Julia W. Smyth-Pinney, Associate Professor, M.Arch., Harvard

Michael Speaks, Dean, Professor, Ph.D., Duke

Elizabeth Swanson, Associate Professor, M.Arch., California-Berkeley

Bruce A. Swetnam, Kentuckiana Masonry Institute Associate Professor, B.Arch., Kentucky

Leonard F. Wojcik, Professor, M.A., Industrial Education, Eastern Kentucky

SCHOOL OF INTERIOR DESIGN

Ann Whiteside-Dickson, Director

Allison Carll-White, Professor, Ph.D., Tennessee

Joe Rey-Barreau, Associate Professor, M.S., Louisville

Terry D. Rothgeb, Associate Professor, M.A., Missouri

Ann Whiteside-Dickson, Associate Professor, M.S., Florida State

DEPARTMENT OF HISTORIC PRESERVATION

Michael Speaks, Acting Chair

Douglas Appler, Visiting Professor, Helen Edwards Abell Endowed Chair in Historic Preservation, Ph.D., Cornell

Clyde R. Carpenter, FAIA, Chair and Clay Lancaster Professor in Historic Preservation, M.Arch., Pennsylvania

Allison Carl-White, Professor, School of Interior Design, Ph.D., Tennessee

Ned M. Crankshaw, ASLA, Associate Professor, Department of Horticulture and Landscape Architecture, College of Agriculture, M.L. Arch., Iowa State

Hans Gesund, Professor, Department of Civil Engineering, College of Engineering and College of Design, D.Eng., Yale

Ted Grossardt, Kentucky Transportation Center, Ph.D., Kentucky

Gregory Luhan, Associate Professor, College of Design, M.Arch., Princeton

Wallis Miller, Charles Parker Graves Professor of Architecture, Ph.D., Princeton

David Mohney, Professor, M.Arch., Princeton

Nancy O’Malley, Assistant Director, William S. Webb Museum of Anthropology, Department of Anthropology, College of Arts and Sciences, M.A., Kansas

Karl B. Raitz, Professor, Department of Geography, College of Arts and Sciences Ph.D., Minnesota

Julie Riesenweber, Adjunct Assistant Professor, Department of Historic Preservation, M.A., Delaware

Daniel B. Rowland, Associate Professor, Department of History, College of Arts and Sciences, Ph.D., Yale

Richard H. Schein, Associate Professor, Department of Geography, Ph.D., Syracuse

Bruce Swetnam, Associate Professor, Kentuckiana Masonry Institute, B.Arch., Kentucky

Alice V. Turckington, Assistant Professor, Department of Geography, Ph.D., Queen’s University of Belfast

Robert Vece, Instructor, J.D., Kentucky, 1978

COLLEGE OF EDUCATION

Mary John O’Hair, Dean

CURRICULUM AND INSTRUCTION

Parker Fawson, Chair

Janice Almasi, Associate Professor, Ph.D., Maryland, 1993

Gary Anglin, Associate Professor, Ed.D., Indiana, 1979

Ronald Atwood, Professor Emeritus, Ed.D., Florida State, 1966

Virginia Atwood, Professor Emeritus, Ph.D., Texas, 1969

Harry V. Barnard, Professor Emeritus, Ed.D., Alabama, 1959

Ollie E. Bissmeyer, Jr., Assistant Professor Emeritus, Ed.D., Indiana, 1964

Jana Bowwma-Geerhart, Assistant Professor, Ph.D., Wisconsin-Madison, 2008

Sharon Brennan, Associate Professor, Ed.D., Kentucky, 1987

Elinor Brown, Associate Professor, Ph.D., Akron, 1998

Les Burns, Assistant Professor, Ph.D., Michigan State, 2005

Susan Cantrell, Assistant Professor, Ed.D., Kentucky, 1997

Parker Fawson, Professor, Ed.D., Brigham Young, 1989

Molly Fisher, Assistant Professor, Ph.D., North Carolina-Chapel Hill, 2009

Laurie Henry, Assistant Professor, Ph.D., Connecticut, 2007

George Hruby, Research Associate Professor, Ph.D., Georgia, 2002

Christa Jackson, Assistant Professor, Ph.D., Missouri, 2010

Willis Johnson, Professor Emeritus, Ed.D., Temple, 1975

Rebecca McNall Krall, Associate Professor, Ph.D., Virginia, 2003

Linda Levstik, Professor, Ph.D., Ohio State, 1980

Xin Ma, Professor, Ph.D., British Columbia, 1997

Christine Mallozzi, Assistant Professor, Ph.D., Georgia, 2009

Joan Mazur, Professor, Ph.D., Cornell, 1993

Nancye McClary, Assistant Professor, Ed.D., Kentucky, 2001

Jack McElroy, Professor Emeritus, Ed.D., Cincinnati, 1974

Phil Nacke, Associate Professor Emeritus, Ed.D., University of British Columbia, Canada, 2000

Kristen Perry, Assistant Professor, Ph.D., Michigan State, 2007

Opal Reynolds, Assistant Professor Emeritus, M.A., Kentucky, 1952

Rosetta F. Sandidge, Associate Professor, Ed.D., Kentucky, 1989

Christine Schnitka, Assistant Professor, Ph.D., Virginia, 2009

Margaret Schroeder, Assistant Professor, Ph.D., Texas A&M, 2006

Mary C. Shake, Associate Professor, Ed.D., SUNY at Albany, 1984

Doug Smith, Associate Professor, Ph.D., Arizona State, 1986

J. Truman Stevens, Associate Professor Emeritus, Ed.D., Virginia, 1972

Gerry Swan*, Assistant Professor, Ph.D., Virginia, 2004

Kathleen Swan, Associate Professor, Ph.D., Virginia, 2004

Robert Tannenbaum*, Adjunct Professor, Ed.D., Columbia, 1968

Mary Ann Vimont, Associate Professor, M.A., Kentucky, 1976

Jennifer Wilhelm, Associate Professor, Ph.D., Texas-Austin, 2002

Angene Wilson, Professor Emeritus, Ph.D., Ohio State, 1976

Susan Wood, Associate Professor, Ph.D., Florida, 1997

Jodelle F. Deem, Associate Professor, Ph.D., CCC-SLP, Memphis State, 1988
Lori Gonzalez, Professor, Ph.D., CCC-SLP, Florida, 1989
Ellen C. Hagerman, Clinical Assistant Professor, M.A., CCC-SLP, Northern Colorado, 1979
Jane O. Kleinert, Associate Professor, Ph.D., CCC-SLP, Kentucky, 2005
Anne L. Lattin, Clinical Instructor, M.S., Kentucky, 2009
Joneen Lowman, Assistant Professor, Ph.D., Florida State, 2003
Robert C. Marshall, Professor, Ph.D., Oklahoma, 1969
Donna Southerland Morris, Associate Professor, M.A., CCC-SLP, Eastern Kentucky, 1982

University Faculty
2011-2012 Undergraduate Bulletin
College of Medicine

Frederick C. de Beer, Dean

Anatomy and Neurobiology

Don M. Gash, Chair

Anesthesiology

Edwin A. Bowe, Chair

College of Law

David A. Brennen, Dean

Physical Therapy

Robert A. (Tony) English, Division Director

Dean P. Currier, Professor Emeritus, P.T., Ph.D., Maryland, 1971
Joan Darbee, Lecturer, P.T., Ph.D., SUNY-Buffalo, 2000
Esther Dupont-Versteegden, Associate Professor, Ph.D., University Health Science Center, San Antonio, 1995
Susan Efgen, Professor, P.T., Ph.D., Georgia State, 1984
M. Lynn English, Associate Professor, P.T., D.P.T., Simmons, 2007
Robert A. (Tony) English, Associate Professor, Ph.D., Kentucky, 2008
Anne L. Harrison, Associate Professor, P.T., Ph.D., Kentucky, 2002
Charles Hazle, Associate Professor, P.T., D.P.T., Kentucky, 2009
Deborah G. Kelly, Associate Professor, P.T., M.S.Ed., Kentucky, 1987
Patrick Kitzman, Associate Professor, P.T., Ph.D., Ohio State, 1994
Janice M. Kuperstein, Associate Professor, P.T., Ph.D., Kentucky, 2000
Scott Livingston, Assistant Professor, P.T., Ph.D., Virginia, 2007
Charles Marshall, Assistant Professor, P.T., Louisville, 2006
Arthur J. Nitz, Professor, P.T., Ph.D., E.C.S., O.C.S., Kentucky, 1984
Brian Noehren, Assistant Professor, P.T., Ph.D., Delaware, 2009

INTERNAL MEDICINE

Frederick C. deBeer, Chair
Ahmed Abdel-Latif, Assistant Professor, M.D., Ain Shams University, 1998
Shamik Aitak, Assistant Professor, M.D., University of Calcutta, 1990
Kenneth B. Ain, Professor, M.D., Brown University, 1981
Jorge Robinson Algeira, Assistant Professor, M.D., University of Concepcion, 1996
Masji Naji Mousa Al-Hasan, Assistant Professor, MMBS, University of Jordan, 2000
Paul Anaya, Assistant Professor, M.D., Baylor University, 1995
James W. Anderson, Professor Emeritus, M.D., Northwestern University, 1961
Paul Angulo, Professor, M.D., Michoacan U.of Saint Nicholas, 1987
Beth Joelene Arnold, Instructor, M.D., University of Nebraska Medical Ctr, 2007
Susanne Markesbery Arnold, Associate Professor, M.D., University of Kentucky, 1992
Razvan I. Arsenescu, Associate Professor, M.D., University of Medicine, Tg.Mures, Romania, 1994
Mukta Awasthi, Assistant Professor, M.D., University of Texas Medical, 1997
Alison LoAnn Bailey, Assistant Professor, M.D., University of Kentucky, 2001
Paula Bailey, Assistant Professor, M.D., MHA, University of Kentucky, 2000
Eric Salomon Bensadoun, Associate Professor, M.D., McGill University
Rolando Berger, Professor, M.D., University of San Carlos, Guatemala, 1974
Deirda D. Beshear, Assistant Professor, M.D., University of Kentucky, 1999
David Cornel Booth, Professor, M.D., University of Texas Hlth Sci Ctr, 1974
Antonio Bosch, Associate Professor, M.D., University of Wisconsin-Madison, 1993
Boris Boyanov Boyanovski, Professor, M.D., University of Sofia, 2000
Leslie B. Branch, Professor, M.D., University of North Carolina, 1965
Deborah J. Brandewie, Assistant Professor, M.D., University of Cincinnati, 1988
Stephen A. Brown, Assistant Professor, Ph.D., University of Kentucky, 1996
Dennis Christopher Bruummer, Associate Professor, M.D., Ph.D., University of Hamburg, 1998
James Scott Bryson, Associate Professor, Ph.D., Miami University, 1985
Ketan P. Buch, Associate Professor, M.D., Kasturba Medical College, 1991
Naushernan K. Burki, Professor Emeritus, M.D., Ph.D., King Edward Medical College, 1962
Lei Cai, Assistant Professor, M.D., Ph.D., Beijing Medical University, 1998
Leigh Ann Callahan, Associate Professor, M.D., Medical College of Ohio, 1984
Charles Larry Campbell, Associate Professor, M.D., Indiana State University, 1996
Jeffrey James Campion, Assistant Professor, Pharm.D, University of Kentucky, 2003
Jacqueline Elliot Carey, Assistant Professor, M.D., University of Kentucky, 2003
Larry Curtis Cary, Assistant Professor, M.D., University of Kentucky, 2004
Ana Lia Castellanos, Associate Professor, M.D., Universidad Nacional Autonoma de Huan- ras, 1998
Timothy Shawn Caudill, Associate Professor, M.D., University of Kentucky, 1985
Mara Deon Chambers, Assistant Professor, M.D., University of Louisville, 1993
Craig A. Chasin, Associate Professor, M.D., Upstate Medical Center, 1979
Gang Chen, Assistant Professor, Ph.D., West Virginia University, 2005
Robert W. Collins, Associate Professor, M.D., University of Kentucky, 1986
Joseph Conigliaro, Professor, M.D., MPH, Harvard-Radcliffe, 1987
Rosemarie L. Conigliaro, Professor, M.D., State University of New York, 1987
Leslie Jane Crofford, Professor, M.D., University of Tennessee-Medical, 1972
Lawrence Rajan, Assistant Professor, M.D., The Royal Col. of Surgeons, 1986
Julia Anne Popham, Associate Professor, M.D., University of Kentucky, 1990
Anne Marie Pittman, Associate Professor, M.D., St. Louis University, 1985
Barbara Anne Phillips, Professor, M.D., University of Kentucky, 1977
Robert Cutler Noble, Professor Emeritus, M.D., University of North Carolina, 1964
Nicholas J. Nickl, Professor, M.D., University of Tennessee-Medical, 1982
Brian S. Murphy, Assistant Professor, M.D., University of Louisville, 1999
Suman Jana, Associate Professor, M.D., University of Louisville, 1993
Connie W. Jennings, Assistant Professor, M.D., University of Kentucky, 1988
Bann C. Kang, Professor Emeritus, M.D., Kyung-Pook National University, 1959
Ernis G. Karoumas, Associate Professor, M.D., University of Athens, 1980
Michael Karpf, Professor, M.D., University of Pennsylvania, 1971
Philip Alfred Kerm, Professor, M.D., University of New York Medical College, 1978
Myung-Hee Kim, Assistant Professor, Ph.D., Sangmyung University Seoul, 1993
Victoria L. King, Assistant Professor, Ph.D., University of Kentucky, 1999
Alvaro Koch, Associate Professor, M.D., University of Chile, 1992
Steve S. Kraman, Professor, M.D., University of Puerto Rico-San Juan, PR, 1973
Chien-Suu Kuo, Associate Professor, M.D., National Taiwan University, 1967
Ullin W. Leavell, Professor Emeritus, M.D., Duke University, 1945
Lazaros John Lekakis, Assistant Professor, M.D., University of Athens, 1995
Zhenyu Li, Assistant Professor, Ph.D., Soochow University, 1989
Robert W. Lightfoot, Professor, Vanderbilt University, 1961
Anthony Granville Lile, Assistant Professor, M.D., University of Kentucky, 2006
Sean Michael Lockwood, Assistant Professor, M.D., University of Tennessee-Medical, 2006
Richard Paul Logfren, Professor, M.D., MPH, University of Michigan, 1978
Kristine Marie Lohr, Professor, M.D., University of Rochester, 1975
Iua Luo, Professor, Ph.D., University of Iowa, 1995
Valentina Macrini, Instructor, M.D., State Medical & Pharmaceutical University Nicolaie, 1994
Hartmut Horest Malluche, Professor, M.D., University of Johannes W Goethe, 1969
Paul Mandelstam, Professor Emeritus, M.D., Ph.D., Harvard-Radcliffe, 1950
Iwua Janina Marciniak, Professor, Ph.D., Academy of Medicine,Wroclaw, 1951
Suleiman Alfred Massarweh, Assistant Professor, M.D., University of Jordan, 1994
Hanna W. Mawad, Associate Professor, M.D., University of Damascus, 1978
Rick Raymond McClure, Associate Professor, M.D., University of Kentucky, 1983
James R. McCormick, Professor, M.D., University of Connecticut, 1972
Malkanthi I. McCormick, Professor, M.B.B.S., Open University of Sri Lanka, 1967
Kevin Thomas McDonagh, Associate Professor, M.D., Columbia Univ-Columbia College, 1971
John Wade McKeown, Professor, M.D., University of Tennessee-Medical, 1973
Katherine Marie McKinney, Instructor, M.D., Medical College of Ohio, 2005
Robert Taylor Means, Professor, M.D., Vanderbilt University, 1983
Beth A. Miller, Associate Professor, M.D., Medical College of Ohio, 1991
Ralph E. Miller, Professor Emeritus, M.D., Ph.D., Harvard-Radcliffe, 1961
Jagadish Mithyamtha, Assistant Professor, M.D., University of Kentucky, 1990
David Jon Morimoto, Professor, M.D., Medical College of Virginia, 1987
Marie-Claude Monier-Faugere, Professor, M.D., Faculte de Me decine de Marseille, France, 1987
Gregory Patrick Monohan, Assistant Professor, M.D., University of Kentucky, 2000
Eric N. Moore, Assistant Professor, M.D., University of Kentucky, 2006
Gustavo X. Morales, Assistant Professor, M.D., University of Gaoyuahui Sch of Med, 2001
Richard Scott Morehead, Associate Professor, M.D., Oral Roberts University, 1988
Andrew James Morris, Professor, Ph.D., University of Birmingham, 1988
Patrick Mosler, Assistant Professor, M.D., Johannes Liebing University of Gies, 1997
Nathan Kaufman Mullen, Assistant Professor, M.D., University of Michigan, 2004
Suman Jana, Assistant Professor, Ph.D., University of North Carolina, 2001
Stephanie E. Murphy, Assistant Professor, D.O., Lake Erie College of Osteopathic, 2006
Nicholas J. Nickl, Professor, M.D., University of Tennessee-Medical, 1982
Robert Cutler Noble, Professor Emeritus, M.D., University of North Carolina, 1964
Manikandan Panchatcharam, Assistant Professor, Ph.D., University of Madras, 2003
Rishi Saha, Assistant Professor, M.D., University of Rajasthan, 1996
Luis Roberto Pena, Associate Professor, M.D., Francisco Marroquin University, 1991
Barbara Anne Phillips, Professor, M.D., University of Kentucky, 1977
Heather Hanson Pierce, Assistant Professor, Ph.D., University of North Carolina, 1997
Anne Marie Pittman, Associate Professor, M.D., St. Louis University, 1985
Julia Ann Popham, Associate Professor, M.D., University of Kentucky, 1990
Navin Rajagopal, Assistant Professor, M.D., Ohio State University, 2000
Lawrence Rajan, Assistant Professor, M.D., The Royal Col. of Surgeons, 1986
L. Raymond Reynolds, Professor, M.D., University of Kentucky, 1971
John J. Rinehart, Professor, M.D., Ohio State University, 1970
Anna Rogozinska, Assistant Professor, M.D., Jagellonian University, 1980
Edward H. Romond, Professor, M.D., University of Kentucky, 1977
Stephanie Andreu Rose, Assistant Professor, M.D., MPH, University of Louisville, 2003
Jens Rosenau, Assistant Professor, M.D., University of Hannover, 1998
M. Sara Rosenthal, Associate Professor, Ph.D., University of Toronto, 2002
Zackary Van Roy, Assistant Professor, M.D., University of Kentucky, 2002
David W. Rudy, Associate Professor, M.D., Medical College of Virginia, 1983
Charles G. Sargent, Assistant Professor, M.D., University of Kentucky, 2001
Boutros Peter Saway, Professor, M.D., Tichreen University-Latakia, Syria, 1981
Anne E. Sayers, Assistant Professor, M.D., University of Kentucky, 2003
Ronald John Saykaly, Professor, M.D., University of California, 1969
Takako Sugama Schaninger, Assistant Professor, M.D., University of The Ryukyus, 1988
Ian Sean Scharrer, Assistant Professor, M.D., University of South Carolina, 2006
James Scherbenske, Assistant Professor, M.D., University of Oklahoma College of Med, 1982
Samuel R. Scott, Professor Emeritus, M.D., Bowman-Gray School of Medicine, 1969
Lisbeth A. Selby, Assistant Professor, M.D., Texas Tech University, 1997
Jignesh S. Shah, Assistant Professor, M.D., MPH, Seth GS Medical College, 1995
Steven E. Shedlofsky, Professor, M.D., University of Michigan, 1974
Brent J. Shelton, Professor, Ph.D., University of North Carolina, 1998
Preetha Shridas, Assistant Professor, Ph.D., Bharatiar University, 1999
Mikel Dwaine Smith, Professor, M.D., Ph.D., University of North Carolina, 1994
Sanjay K. Srivastava, Assistant Professor, M.D., Rush University, 2005
Kristen Robin Stakelin, Assistant Professor, M.D., University of Louisville, 1997
John Joseph Stewart, Instructor, M.D., Texas Tech University, 2006
Joey P. Sum, Assistant Professor, M.D., University of Kentucky, 2004
Gerald Supinski, Professor, M.D., University of Pittsburgh, 1977
Lisa R. Tannock, Associate Professor, M.D., University of Toronto, 1994
John Secord Thompson, Professor, M.D., University of Chicago, 1953
Alice C. Thornton, Associate Professor, M.D., Marshall University, 1992
Thomas Ross Tolbert, Assistant Professor, M.D., Medical College of Georgia, 1995
Dale E. Toney, Associate Professor, M.D., University of Kentucky, 1987
Chung-Jyi Tsai, Associate Professor, M.D., Sc. D., Taipei Medical College, 1984
Resat Ual, Assistant Professor, Ph.D., University of Karslruhe, 2003
Deney S Rem van der Westhuysen, Professor, Ph.D., University of Cape Town, 1973
Gary Van Zant, Professor, Ph.D., New York University, 1973
Thomas Henry Wad, Professor, M.D., University of Kentucky, 1980
Anthony Dean Weaver, Associate Professor, M.D., Vanderbilt University, 1983
Angela Korrett Webb, Assistant Professor, M.D., University of Kentucky, 2004
Jonathan C. Webb, Assistant Professor, M.D., University of Kentucky, 2005
Nancy R. Webb, Professor, Ph.D., University of Kentucky, 1996
Thomas French Whayne, Professor, M.D., University of Pennsylvania, 1963
John Keenan Wilson, Assistant Professor, M.D., University of Kentucky, 2000
Gong Y. Xie, Professor Emeritus, M.D., Shanghai Second Medical Col., 1971
Michael Han Young, Assistant Professor, M.D., University of Michigan-Ann Arbor, 1999
Khaled Mahmoud Ziada, Associate Professor, M.D., University of Cairo, 1988

MICROBIOLOGY, IMMUNOLOGY AND MOLECULAR GENETICS
Alan M. Kaplan, Chair
Claire Ann Adams, Assistant Professor, Ph.D., Heriot-Watt University, 1998
Charles T. Ambrose, Professor, M.D., Johns Hopkins University, 1955
Subbarao Bendada, Professor, Ph.D., University of Bombay, 1976
Maria Emilia Bruno, Assistant Professor, Ph.D., Rutgers State Univ-Livingston Ca, 1994
Donald A. Cohen, Professor, Ph.D., University of Cincinnati, 1979
Jeffrey Neal Davidson, Professor, Ph.D., Harvard-Radcliffe, 1976
Sarah Elizabeth D'Orazio, Assistant Professor, Ph.D., Oregon Health Sciences University, 1999
Jadwiga F. Dąbek, Assistant Professor, Ph.D., University of Medicine, 1996
Brett T. Spear, Professor, Ph.D., University of Pennsylvania, 1985
Brian Stevenson, Professor, Ph.D., State University of New York, 1989
Harold Frederick Stills, Professor, DVM, Ohio State University, 1975
Susan Calhoon Strealey, Professor, Ph.D., Cornell University, 1972
Yasushi Suzuki, Professor, Ph.D., The Uni. of Tokyo, 1982
John R. Yannelli, Associate Professor, Ph.D., Virginia Commonwealth Univ-Acad, 1982
Jayou Zhang, Associate Professor, Ph.D., University of Texas at Austin, 1989

MOLECULAR AND BIOMEDICAL PHARMACOLOGY
Philip W. Landfield Chair
Eric Michael Blalock, Assistant Professor, Ph.D., University of Kentucky, 1997
Kae Chu Chen, Associate Professor, Ph.D., University of Calif-Davis, 1983
Rolf Joseph Craven, Associate Professor, Ph.D., University of North Carolina, 1996
Donald Frank Diedrich, Professor Emeritus, Ph.D., University of Wisconsin-Madison, 1959
James W. Fleisher, Professor Emeritus, Ph.D., Loyola University of Chicago, 1958
Robert Wayne Hadley, Associate Professor, Ph.D., Michigan State University, 1987
Elisabeth Head, Associate Professor, Ph.D., University of Toronto, 1997
Cai Huang, Assistant Professor, Ph.D., University of North Carolina at Chapel Hill, 2003
Edgar T Iwamoto, Professor Emeritus, Ph.D., City College of San Francisco, 1973
David M. Kaetzel, Professor, Ph.D., University of Maryland, 1981
Michael W. Kilgore, Associate Professor, Ph.D., Texas Tech University, 1990
Philip W. Landfield, Professor, Ph.D., University of Calif - Irvine, 1971
Christopher M. Norris, Associate Professor, Ph.D., University of Virginia, 1998
Norman W. Pedigo, Associate Professor Emeritus, Ph.D., Virginia Commonwealth Univ-Acad, 1977
Michael Thomas Piascik, Professor, Ph.D., Ohio State University, 1978
Nina Platter, Associate Professor, Ph.D., Indiana University, 1992
Nada M. Porter, Associate Professor, Ph.D., University of Illinois Medical College, 1987
Qing-Bai She, Assistant Professor, Ph.D., Tsinghua Univ., 1995
Hollie J. Swanson, Professor, Ph.D., Purdue University, 1991
Oliver H. Thibault, Associate Professor, Ph.D., Bowman-Gray School of Medicine, 1993
Donna Rose Weber, Assistant Professor, Ph.D., University of Utah, 1984
Yadi Wu, Assistant Professor, Ph.D., Chinese Academy of Sciences, 2003
Ren Xu, Assistant Professor, Shanghai University, 2002
Xiuwei Yang, Assistant Professor, Ph.D., University of Manitoba, 1994

MOLECULAR AND CELLULAR BIOCHEMISTRY
Louis B. Hersh, Chair
Douglas A. Andres, Professor, Ph.D., Purdue University, 1990
Shuang Kai Chan, Professor Emeritus, Ph.D., University of Wisconsin-Madison, 1962
Young-In Chi, Assistant Professor, Ph.D., Purdue University, 1993
Trevor Paul Creamer, Associate Professor, Ph.D., University of Western Australia, 1989
Robert C. Dickson, Professor, Ph.D., University of California, 1970
Rebecca Lynn Dutch, Associate Professor, Ph.D., Stanford University, 1994
Michael Gregory Fried, Professor, Ph.D., Yale University, 1982
Tianyan Gao, Assistant Professor, Ph.D., Northwestern Univ Medical School, 1998
Matthew Shawn Gentry, Assistant Professor, Ph.D., Syracuse University, 2003
Louis B. Hersh, Professor, Ph.D., Brandeis University, 1967
Alfred S Hu, Professor Emeritus, Ph.D., University of Oregon, 1957
Jianfang Jia, Associate Professor, Ph.D., Chinese Academy of Sciences, 2000
Robert L. Lester, Professor, Ph.D., California Institute of Technology, 1956
Harry Le Vine, Associate Professor, Ph.D., Johns Hopkins University, 1975
Channing Liu, Associate Professor, Ph.D., Purdue University, 1997
Michael D. Mendenhall, Associate Professor, Ph.D., University of Wisconsin-Madison, 1985
Daniel J. Noonan, Professor, Ph.D., University of Texas at Austin, 1980
Kathleen Lynn O'Connor, Associate Professor, Ph.D., Case Western Reserve University, 1996
Sabine Oczek, Associate Professor, Ph.D., University of Dusseldorf, Germany, 1993
David W. Rodgers, Associate Professor, Ph.D., Cornell University, 1986
Kevin D. Sarge, Professor, Ph.D., North Carolina State Univ  At Ral, 1989
Steven Roger Schwarze, Assistant Professor, Ph.D., University of Wisconsin-Madison, 1998
Geng-Xian Shi, Assistant Professor, Ph.D., Peking University, 2000
H. Peter Spielmann, Associate Professor, Ph.D., University of California, 1991
Stefan Stamm, Associate Professor, Ph.D., University of Hannover, 1992
Xiaoxing Tang, Assistant Professor, Ph.D., Weizmann Institute of Science, 2003
Jens W. Tracy, Professor, Ph.D., Purdue University, 1976
Salvatore J. Turco, Professor, Ph.D., University of Pittsburgh, 1976
Thomas Clark Vanaman, Professor, Ph.D., Duke University, 1968
Craig William Vander Kooi, Assistant Professor, Ph.D., Vanderbilt University, 2004
Charles J. Waechter, Professor, Ph.D., University of Kentucky, 1971
Qingjun Wang, Assistant Professor, Ph.D., University of Illinois-Urbana, 2002
David S. Watt, Professor, Ph.D., Harvard-Radcliffe, 1972
Sidney W. Whiteheart, Professor, Ph.D., Johns Hopkins University, 1989
Bhuva Zhou, Associate Professor, M.D., Ph.D., University of Texas at Austin, 1996
Haining Zha, Associate Professor, Ph.D., University of Virginia, 1988

NEUROLOGY
Joseph R. Berger, Chair
Robert J. Baumann, Professor, M.D., Case Western Reserve University, 1965
Mertem K. Bensalem Owen, Associate Professor, M.D., University of Algiers, 1996
University Faculty

Joseph R. Berger, Professor, M.D., Thomas Jefferson University, 1974
Franca Cambi, Professor, M.D., Ph.D., University of Florence, 1979
Gregory E. Cooper, Assistant Professor, M.D., Ph.D., University of Kentucky, 1994
Michael R. Dobbs, Associate Professor, M.D., University of Kentucky, 1998
Tofic A. Fakhoury, Professor, M.D., American University In Beirut, 1985
Farjam Farzam, Assistant Professor, M.D., Universidad Central Del Caribe, 1996
Dominic B. Fee, Assistant Professor, M.D., University of Iowa, 1996
Julie A. Garwell, Assistant Professor, Ph.D., University of Kentucky, 1994
Amy E. Hessler, Assistant Professor, D.O., Southeastern Col of Osteopathic, M. 2001
Sidney A. Houff, Professor, M.D., Ph.D., Medical College of Georgia, 1979
Gregory A. Jica, Associate Professor, M.D., Ph.D., Yeshiva University, 2000
Edward Joseph Kasarskis, Professor, M.D., Ph.D., University of Wisconsin-Madison, 1974
Sachin Kedar, Assistant Professor, MBBS, All-India Ins. of Medical Science, 1998
Gulam Qutubuddin Khan, Assistant Professor, M.D., Gandhi Medical College, 1983
Aytron R. Massaro, Associate Professor, M.D., Fed. Uni. of Rio De Janeiro, 1983
Avindra Nath, Professor, M.D., C.M.C., Ludhiana, India, 1981
Kevin R. Nelson, Professor, M.D., University of Michigan, 1979
Luther Cecil Pettigrew, Professor, M.D., MPH, University of Texas Medical, 1980
William C. Robertson, Professor, M.D., Emory University, 1967
Stephen J. Ryan, Associate Professor, M.D., University of Missouri Columbia Campus, 1990
Frederick Adrian Schmitt, Professor, Ph.D., University of Akron, 1982
John T. Slevin, Professor, M.D., West Virginia University, 1975
Charles D. Smith, Professor, M.D., Tulane University of Louisiana, 1979
David A. Snowdon, Professor Emeritus, M.D., University of Minnesota, 1981
Tarvez Tucker, Associate Professor, M.D., Case Western Reserve University, 1980
Gloria H. Umberger, Assistant Professor, M.D., University of Kentucky, 2001
Erming Wang, Assistant Professor, Ph.D., Chinese Academy of Sciences, 1995

OBSTETRICS AND GYNECOLOGY

Wendy F. Hansen, Chair

James W. Akin, Assistant Professor, M.D., University of Kentucky, 1985
John R. Barton, Associate Professor, M.D., University of Kentucky, 1985
Elizabeth A. Case, Assistant Professor, M.D., University of Kentucky, 1997
Ann Louise Coker, Professor, Ph.D., University of North Carolina, 1989
Dewald C. Collins, Professor Emeritus, M.D., University of Kentucky, 1962
Thomas A. Pittman, Professor, M.D., State University of New York At Albany, 1982
Christian Norman Ramsey, Assistant Professor, M.D., University of Kentucky, 2001
Karin R. Swartz, Associate Professor, M.D., Loyola University of Chicago, 1996
Philip A. Tibbs, Professor, M.D., University of Kentucky, 1973
Michal T. Toborek, Professor, M.D., Ph.D., Medical Academy of Silesia, 1985
A. Byron Young, Professor, M.D., University of Kentucky, 1965
David M. Yurek, Professor, Ph.D., University of Southern California, 1987

ORTHOPAEDIC SURGERY

Darren L. Johnson, Chair

Brandon Thomas Bruce, Assistant Professor, M.D., Medical College of Georgia, 2003
Ryan Carter Cassidy, Assistant Professor, M.D., NE Ohio University College of Medicine, 2000
Christian Christensen, Assistant Professor, M.D., Vanderbilt University, 1992
D. Kay Clawson, Professor, M.D., Harvard-Radcliffe, 1952
Mary Lloyd Ireland, Associate Professor, M.D., University of Tennessee-Medical, 1978
Henry J. Iwinski, Professor, M.D., University of California, 1987
Srinath Kamieni, Associate Professor, M.D., University of Tennessee, 1999
Christian Lattermann, Assistant Professor, M.D., University of Hannover, 1995
Steven J. Lawrence, Associate Professor, M.D., Thomas Jefferson University, 1987
Scott Douglas Mair, Associate Professor, M.D., Duke University, 1991
Todd Alan Milbrandt, Associate Professor, M.D., University of Virginia, 1997
Scott C. Moghadamian, Assistant Professor, M.D., University of Kentucky, 2000
D. Jay Parnell, Assistant Professor, M.D., University of Kentucky, 1982
Frank C. Miller, Professor, M.D., University of Louisville, 1962
Douglas A. Milligan, Associate Professor, M.D., University of Colorado, 1982
Stephen B. Mitchell, Associate Professor, M.D., University of North Carolina, 1985
Gregory Robert Moore, Associate Professor, M.D., M.P.H., Uniformed Ser University of The HB Sc, 1983

University Faculty
Sharon E. Lock, Associate Professor, Ph.D., South Carolina-Columbia, 1990
Wanda Lovitz, Lecturer, M.S.N., Bellarmine, 1998
Regina C. Lowry, Senior Lecturer, Ph.D., Kentucky, 2007
Joanne M. Matthews, Clinical Instructor, M.S.N., Kentucky, 1998
Kathryn M. Moore, Assistant Professor, D.N.P., Case Western Reserve, 2007
Debra K. Moser, Professor, D.N.Sc., California-Los Angeles, 1992
Gia T. Mudd, Assistant Professor, Ph.D., Texas Health Science Center at Houston, 2007
Chizimuzo T.C. Okoli, Assistant Professor, Ph.D., Kentucky, 2005
Celeste R. Phillips-Salimi, Assistant Professor, Ph.D., Indiana, 2009
Mary Alice Pratt, Associate Professor Emeritus, M.Ed., Columbia, 1970
Suzanne S. Prevost, Professor, Ph.D., Texas Woman’s University, 1992
Ana Maria Quelopana, Assistant Professor, D.N.S., Universidad Autonoma de Nuevo Leon,
Mexico, 2006
Mary K. Rayens, Professor, Ph.D., Kentucky, 1993
Deborah B. Reed, Professor, Ph.D., Kentucky, 1996
Carol Riker, Associate Professor, M.S.N., Kentucky, 1974
Kay Robinson, Associate Professor Emeritus, D.S.N., Alabama-Birmingham, 1995
Graham D. Rowles,* Professor, Ph.D., Clark, 1976
Barbara A. Sachs, Professor Emeritus, Ph.D., Wayne State, 1981
Kathryn Sallee, Associate Professor Emeritus, M.N., Emory, 1971
Elizabeth G. Salt, Assistant Professor, Ph.D., Kentucky, 2009
Leslie K. Scott, Assistant Professor, Ph.D., Kentucky, 2004
Juliann G. Sebastian, Professor Emeritus, Ph.D., Kentucky, 1994
Sharon L. Sheahan, Associate Professor Emeritus, Ph.D., Kentucky, 1990
Marcia K. Stanhope, Professor, D.S.N., Alabama-Birmingham, 1981
Ruth R. Staten, Associate Professor Emeritus, Ph.D., Kentucky, 1996
Karen A. Stefaniak, Assistant Professor, Ph.D., Kentucky, 1998
Elizabeth Gressle Tovar, Assistant Professor, Ph.D., Texas Medical Branch at Galveston, 2007
Kathleen D. Wagner, Lecturer, Ed.D., Kentucky, 2006
Lee Anne Walmsley, Lecturer, M.S.N., Kentucky, 2003
Sherry Warden, Associate Professor Emeritus, Ph.D., Kentucky, 1990
J. Darlene Welsh, Assistant Professor, Ph.D., Kentucky, 2006
Jo Ann Wever, Associate Professor Emeritus, M.S.N., Kentucky, 1976
Kathy Wheeler, Assistant Clinical Professor, Ph.D., Capella-Minnesota, 2006
Carolyn A. Williams, Professor, dean Emeritus, Ph.D., North Carolina-Chapel Hill, 1969
Jessica L. Wilson, Lecturer, M.S.N., Spalding, 2000
John F. Wilson,* Professor, Ph.D., Michigan, 1977
Louise Zegeer, Professor Emeritus, M.S.N., Case Western Reserve, 1959
* Joint Appointment

COLLEGE OF PHARMACY
Timothy S. Tracy, Dean
PHARMACY PRACTICE AND SCIENCE
Aimee G. Adams, Adjunct Assistant Professor, Pharm.D., Cincinnati, 1994
Val R. Adams, Associate Professor, Pharm.D., Texas at Austin (jointly w/ UT Health Science
Center at San Antonio, 1993
Ann B. Amerson, Professor, Pharm.D., Kentucky, 1971
Heidi M. Anderson, Professor, Ph.D., Purdue, 1986
John A. Armitstead, Clinical Associate Professor, M.Sc., Ohio State, 1982
Michael C. Berger, Clinical Professor, Pharm.D., Kentucky, 2003
Karen M. Blumenschein, Associate Professor, Pharm.D., Kentucky, 1991
Sheila Botts, Assistant Professor, Pharm.D., Kentucky, 1993
Ralph E. Bouvette, Adjunct Associate Professor, Ph.D., J.D., Kentucky, 1991
Kimberley L. Brantley-Hite, Adjunct Assistant Professor, MH PHAR, Ohio State, 1989
Timothy M. Clifford, Adjunct Assistant Professor, Pharm.D., Kentucky, 1998
Peter P. Cohron, Adjunct Associate Professor, J.D., Kentucky, 1993
Aaron M. Cook, Adjunct Assistant Professor, Pharm.D., Kentucky, 2000
George A. Davis, Adjunct Associate Professor, Pharm.D., Arkansas at Little Rock 1993
Holly S. Divine, Clinical Associate Professor, Pharm.D., Kentucky, 1998
Steven P. Dunn, Adjunct Assistant Professor, Pharm.D., Virginia Commonwealth, 2004
David J. Feola, Assistant Professor, Pharm.D., Kentucky, 1997
Joseph L. Fink III, Professor, J.D., Georgetown, 1973
Jeremy Flynn, Adjunct Assistant Professor, Pharm.D., Kentucky, 1999
Thomas S. Foster, Professor, Pharm.D., Kentucky, 1973
Jimmi C. Hatton, Professor, Pharm.D., Kentucky, 1984
Carrie Johnson, Clinical Assistant Professor, Pharm.D., Kentucky, 1997
Jill R. Johnson, Assistant Professor, Pharm.D., Tennessee-Medical, 1998
Mikael Jones, Clinical Assistant Professor, Pharm.D., Florida, 2002
Shelley M. Jones, Clinical Assistant Professor, Pharm.D., Florida, 2002
Kenneth L. Kirsh, Assistant Professor, Ph.D., Indiana -Purdue, 2001
Robert J. Kuhn, Professor, Pharm.D, Texas at Austin, 1984
Matthew T. Lane, Clinical Associate Professor, Pharm.D., Kentucky, 1993
Daniel A. Lewis, Adjunct Assistant Professor, Pharm.D., Duquesne, 1999
Melanie Mabins, Clinical Assistant Professor, Pharm.D., Kentucky, 2004
Tracy Macaulay, Adjunct Assistant Professor, Pharm.D., South Carolina, 2003
Barbara L. Magnuson, Adjunct Associate Professor, Pharm.D., Kentucky, 1990
Craig A. Martin, Adjunct Associate Professor, Pharm.D., Kentucky, 1999

University of Kentucky

Bruce A. McIntosh, Associate Professor, Pharm.D., Kentucky, 1995
Tera McIntosh, Clinical Assistant Professor, Pharm.D., Kentucky, 2001
Christopher M. Miller, Clinical Assistant Professor, Pharm.D., Kentucky, 2003
Trenika R. Mitchell, Clinical Assistant Professor, Pharm.D., Mississippi, 2004
Amy Nicholas, Clinical Associate Professor, Pharm.D., Kentucky, 1997
Margaret Nowak-Rapp, Clinical Associate Professor, Pharm.D., SUNY at Buffalo, 1973
John F. Peppin, Clinical Associate Professor, DO, U of Osteopathic Med & Health Sc, 1992
Mary M. Piascik, Associate Professor, Ph.D., Ohio State, 1978
John J. Piecoro Jr., Professor, Pharm.D., Kentucky, 1978
Anne Policastri, Clinical Assistant Professor, Pharm.D., Kentucky, 1982
Robert P. Rapp, Professor, Pharm.D., Kentucky, 1970
Kenneth E. Record, Associate Professor, Pharm.D., Kentucky, 1978
Patricia E. Rippetoe Freeman, Clinical Associate Professor, Ph.D., Kentucky, 1991
Kenneth B. Roberts, Professor, Ph.D., Mississippi, 1975
Frank Romanelli, Associate Professor, Pharm.D., Kentucky, 1996
Melody Ryan, Associate Professor, Pharm.D., Kentucky, 1993
Kelly M. Smith, Associate Professor, Pharm.D., Georgia, 1993
Douglas Steinke, Assistant Professor, Ph.D., Dundee, 2001
Rachel C. Stratman, Instructor, Pharm.D., St Louis College of Pharmacy, 2005
Stephanie Sutphin, Adjunct Assistant Professor, Pharm.D., Kentucky, 1995
Jeffery C. Talbert, Associate Professor, Ph.D., Texas A & M, 1995
Daniel P. Wermeling, Associate Professor, Pharm.D., Kentucky, 1983
P. S. Winstead, Adjunct Assistant Professor, Pharm.D., Kentucky, 1999

PHARMACEUTICAL SCIENCES
Abeer Al-Ghananeem, Adjunct Research Assistant Professor, Ph.D., Kentucky, 1999
Bradley D. Anderson, Professor, Ph.D., Kansas, 1978
Younsoo Bae, Assistant Professor, Ph.D., Tokyo, 2005
Esther P. Black, Assistant Professor, Ph.D., Florida, 1997
Paul M. Bummer, Associate Professor, Ph.D., Wisconsin-Madison, 1987
Janice E. Buss, Professor, Ph.D., California San Diego, 1983
Lisa Cassis, Joint Professor, R.Ph, West Virginia; Ph.D., West Virginia, 1984
Peter A. Crooks, Professor, Ph.D., Manchester, 1970
Sylvia Daunert, Joint Professor, Pharm.D., Barcelona, 1982; Ph.D., Barcelona, 1991
Patrick, P. Deluca, Professor, Ph.D., Temple, 1963
Linda P. Dwoskin, Professor, Ph.D., Minnesota, 1983
Gregory Elliott, Assistant Professor, Ph.D., California, 2001
Gregory A. Graf, Assistant Professor, Ph.D., Kentucky, 2000
Kyung Bo Kim, Associate Professor, Ph.D., Ohio State, 1997
Wooin Lee, Assistant Professor, Ph.D., SUNY at Buffalo, 2002
Markos Leggas, Assistant Professor, Ph.D., Tennessee-Medical, 2004
Tonglei Li, Associate Professor, Ph.D., Purdue, 1999
Carrie Lifshitz, Instructor, Ph.D., Pennsylvania, 2004
John M. Littleton, Professor, M.D., London, 1970
Robert A. Lodder, Professor, Ph.D., Indiana, 1988
Charles D. Loftin, Assistant Professor, Ph.D., North Carolina, 1995
William C. Lubawy, Professor, Ph.D., Ohio State, 1972
Heidi Mansour, Assistant Professor, Ph.D., Wisconsin-Madison, 2003
Patrick J. McNamara, Professor, Ph.D., SUNY at Buffalo, 1979
Kimberly Nixon, Assistant Professor, Ph.D., Texas at Austin, 2000
Kalpana S. Paudel, Research Assistant Professor, Ph.D., Toyama Medical and Pharmaceutical,
1999
James R. Pauly, Associate Professor, Ph.D., Marquette, 1986
Todd D. Porter, Associate Professor, Ph.D., Illinois-Chicago, 1981
Jurgen Rohr, Professor, Ph.D., University of Gottingen, 1984
Vinod Shah, Adjunct Professor, Ph.D., California, 1964
Audra L Stinchcomb, Associate Professor, Ph.D., Michigan-Ann Arbor, 1995
Terry Stouch, Adjunct Associate Professor, Ph.D., Pennsylvania State, 1985
Hsin-Hsiung Tai, Professor, Ph.D., Wisconsin-Madison, 1970
Steven Van Lanen, Assistant Professor, Ph.D., Portland State, 2003
Dave Watt, Joint Professor, Ph.D., Harvard, 1972
Peter J. Wedlund, Associate Professor, Ph.D., Washington, 1981
Joe Wyse, Adjunct Assistant Professor, Ph.D., Kentucky, 1988
John Yannelli, Joint Associate Professor, Ph.D., Virginia Commonwealth, 1982
Robert A. Yokel, Professor, Ph.D., Minnesota, 1973
Chang-Guo Zhan, Professor, Ph.D., Notre Dame, 1998
Guangrong Zheng, Research Assistant Professor, Ph.D., Chinese Academy of Sciences, 2000

COLLEGE OF PUBLIC HEALTH
Stephen W. Wyatt, Dean
Linda Alexander, Associate Professor, Ed.D., Virginia, 1985

Thomas W. Harris, Vice President for University Relations
Ann A. Hays, Director of University Health Services
Leonard E. Heller, Vice President for Commercialization and Economic Development
John H. Herbst, Director of the Student Center
Judy Jackson, Vice President for Institutional Diversity
Drug-Free Policy

Policy Statement as a Drug-Free Institution

The University of Kentucky is committed to providing a healthy and safe environment for its students, faculty and staff. The University has defined conduct in relation to the unlawful possession, use, dispensation, distribution or manufacture of alcohol or illicit drugs. Conduct which is violative of this definition poses unacceptable risks and disregard for the health, safety, and welfare of members of the University community and shall result in disciplinary action up to and including suspension or termination.

As a recipient of federal grants and contracts, the University of Kentucky gives this notice to students, faculty and staff that it is in compliance with and shall continue to be in compliance with the Drug-Free Workplace Act of 1988 and the Drug-Free Communities Act Amendment of 1989. Students, faculty and staff are herein notified of the standards of conduct which shall be applicable while on University of Kentucky property, on University business, and/or at University sponsored activities.

Standards of Conduct

By University regulations, by federal law, by state law, and, in some instances, by local ordinance, students, faculty and staff are prohibited from the unlawful possession, use, dispensation, distribution, or manufacture of illicit drugs on University property, on University business and/or at University sponsored activities.

Under University regulations, students, faculty and staff are required to abide by state laws concerning alcoholic beverages. Basically, Kentucky laws state that if one is under the age of 21, it is unlawful to:

1. possess or consume alcoholic beverages,
2. misrepresent one’s age for the purpose of purchasing alcoholic beverages, or
3. use a fake ID in an attempt to purchase alcoholic beverages.

No matter what one’s age, Kentucky law states that it is unlawful to:

1. procure any alcoholic beverages for anyone under 21 years of age or
2. drink or to be drunk in a public place.

University campuses and buildings are considered as public places for purposes of these laws, except for a facility licensed to serve alcoholic beverages, and except for a facility used as a private residence, unless University regulations state otherwise.

Ordinances of the Lexington-Fayette Urban County Government basically parallel the state laws.

Any member of the University student body, faculty, or staff who violates these defined standards of conduct shall be subject to appropriate disciplinary action up to and including suspension and/or termination. The specifically defined standards of conduct, the disciplinary procedures, and the appropriate sanctions are detailed in the codes of student conduct and in the Administrative Regulations (AR II-1.1-4, AR II-1.1-10, AR II-1.1-11 and Human Resource Policy & Procedures Numbers 13.0 and 14.0).

In addition, it is a violation of state law to operate a motor vehicle while under the influence of any substance which may impair one’s driving ability (drugs or alcoholic beverages).

Sanctions

Under University regulation, students who violate this standard of conduct are subject to disciplinary action from a minimum of a warning to a maximum of suspension from the University. Students who reside in University Housing are subject to further disciplinary action which may vary from a warning to termination of their housing contract.

Faculty and staff are subject to disciplinary action from a minimum of a warning to a maximum of termination from University employment.

Under state and federal drug laws, the gravity of the sanction depends on the classification of the controlled substance, the particular activity involved (possession or trafficking which includes manufacture, sale and possession with intent to sell), and whether or not multiple convictions are involved.

Under Kentucky law, the most severe penalty for a drug law violation involves trafficking. On a first offense conviction, one may receive a fine of up to $10,000.00 and/or a sentence of up to ten (10) years in the penitentiary; for subsequent offenses, the penalties may be doubled.

Under federal laws, for simple possession of a controlled substance, one may be imprisoned for up to one (1) year and/or fined up to $1,000.00. For subsequent offenses, one may be imprisoned for up to three (3) years and/or fined up to $5,000.00. Under federal law, one may be fined up to $8,000,000.00 and/or may be sentenced from not less than ten (10) years up to life in prison for trafficking in drugs. For violations of other federal drug laws, one may receive life in prison or the death penalty.

Under both state and federal laws, one may suffer the loss of whatever property (house, farm) or possessions (vehicle) which one may have used in the drug trade.

Specific penalties under federal laws for trafficking in various controlled substances are outlined in Appendix A to this policy.

Sanctions for violation of state alcohol laws vary from a fine of $10.00 to $2,000.00, a sentence of forty-eight (48) hours to twelve (12) months in jail, and/or suspension of one’s operators license.

Notice of Drug-Related Conviction

In compliance with the Federal Drug-Free Workplace Act of 1988, any employee shall notify the immediate supervisor if the employee is convicted of a criminal drug offense occurring in the workplace or while on University business within five (5) days of the conviction. The University shall take appropriate sanction and remedies in accordance within its policies. The provisions of this section are applicable to students who are employees of the University. If the employee is under a federal contract or grant, the University shall notify the contracting or granting agency of the conviction and of its actions. This section of this policy is also applicable to students who receive a Pell grant (federal grant).

Health Risks

The scope and impact of health risks from alcohol and drug abuse are both alarming and well-documented, ranging from mood-altering to life-threatening, with consequences that extend beyond the individual to family, organizations and society at large. The University of Kentucky, therefore, conducts regular programs to educate its students, faculty and staff that consumption and use of drugs may alter behavior, distort perception, impair thinking, impede judgment, and lead to physical or psychological dependence.
Alcohol and/or drugs and/or drug abuse may lead to the deterioration of physical health by causing or contributing to various health conditions including but not limited to fatigue, nausea, personal injury, insomnia, pathological organ damage, some forms of cancer, pancreatitis, heart attack, respiratory depression, birth defects, convulsions, coma, and even death. Alcohol and drug abuse may also result in deterioration of mental health by causing or contributing to various conditions such as increased aggression, hallucinations, depression, disorientation, and psychosis.

A detailed list of the effects and health risks associated with the use of many specific drugs appears as Appendix B to this policy.

Alcohol consumption causes a number of marked changes in behavior. Even low doses significantly impair the judgment and coordination required to drive a car safely, increasing the likelihood that the driver will be involved in an accident.

Low to moderate doses of alcohol also increase the incidence of a variety of aggressive acts, including spouse and child abuse.

Moderate to high doses of alcohol cause marked impairments in higher mental functions, severely altering a person’s ability to learn and remember information.

Very high doses cause respiratory depression and death. If combined with other depressants of the central nervous system, much lower doses of alcohol will produce the effects just described.

Repeated use of alcohol can lead to dependence. Sudden cessation of alcohol intake is likely to produce withdrawal symptoms, including severe anxiety, tremors, hallucinations, and convulsions. Alcohol withdrawal can be life-threatening. Long-term consumption of large quantities of alcohol, particularly when combined with poor nutrition, can also lead to permanent damage to vital organs such as the brain and the liver.

Mothers who drink alcohol during pregnancy may give birth to infants with fetal alcohol syndrome. These infants have irreversible physical abnormalities and mental retardation. In addition, research indicates that children of alcoholic parents are at greater risk than other youngsters of becoming alcoholics.

Training and Counseling Resources

Continuous efforts are made to make students, faculty and staff aware of the on-campus and off-campus programs which provide information and professional services on matters related to the abuse of alcohol and drugs.

Lists of sources for information and counseling for students are published in the Kernel regularly. Students are encouraged to contact the Dean of Students and/or the Office of Residence Life for information and appropriate referral.

Counseling is provided by such areas as the Testing and Counseling Center, the Department of Counseling and Psychology in the College of Education, the Medical Student Support Services program, and an In-resident counselor in the residence halls system.

For faculty and staff the Employee Assistance Program, REFER, specifically provides information as to resources available to employees.

Other counseling, treatment, and rehabilitation services are available in the Lexington community as well as communities throughout the state in which Lexington Community College and College of Agriculture employees are located.

• Comprehensive Care Centers offer both counseling and treatment.
• In the Lexington area, the number for Alcoholics Anonymous (AA) is 859-276-2917. (Check local telephone directory for listings.)
• The Chrysalis House Inc. (859-225-9912) offers long term, half-way house residential treatment for recovering chemically dependent women.
• University of Kentucky Family Center 859-257-7755.
• University of Kentucky Employee Assistance Program (REFER) 859-257-1467.

Many other services are available and may be located by looking in the local telephone directory yellow pages under “Social Services” or “Alcohol Abuse & Addiction – Information & Treatment” or in the section at the front of the telephone directory.

Policy Review

This policy statement and any revisions thereto shall be distributed annually to students and employees. Distribution shall be the responsibility of the Provost for Student Affairs and the Associate Vice President for Human Resources.

Annual Review Policy – The Associate Provost for Student Affairs and the Associate Vice President for Human Resources shall review and interpret policies and procedures relevant to this policy statement. These two administrators shall jointly be responsible for maintaining records of the annual review of the policy statement.

1Designated a narcotic under the CSA  2Not designated a narcotic under the CSA
Policy on Residency

13 KAR 2:045.

DETERMINATION OF RESIDENCY STATUS FOR ADMISSION AND TUITON ASSESSMENT PURPOSES.

RELATES TO: KRS Chapter 13B, 164.020, 164.030, 164A.330(6)

STATUTORY AUTHORITY: KRS 164.020(8)

NECESSITY, FUNCTION, AND CONFORMITY: KRS 164.020(8) requires the Council on Postsecondary Education to determine tuition and approve the minimum qualifications for admission to a state postsecondary education institution and authorizes the Council to set different tuition amounts for residents of Kentucky and for nonresidents. This administrative regulation establishes the procedure and guidelines for determining the residency status of a student who is seeking admission to, or who is enrolled at, a state-supported postsecondary education institution.

Section 1. Definitions.

(1) “Academic term” means a division of the school year during which a course of studies is offered, and includes a semester, quarter, or single consolidated summer term as defined by the institution.

(2) “Continuous enrollment” means enrollment in a state-supported postsecondary education institution at the same degree level for consecutive terms, excluding summer term, since the beginning of the period for which continuous enrollment is claimed unless a sequence of continuous enrollment is broken due to extenuating circumstances beyond the student’s control, including serious personal illness or injury, or illness or death of a parent.

(3) “Degree level” means enrollment in a course or program which could result in the award of a:
   (a) Certificate, diploma or other program award at an institution;
   (b) Baccalaureate degree or lower, including enrollment in a course by a nondegree-seeking postbaccalaureate student;
   (c) Graduate degree or graduate certification other than a first-professional degree in law, medicine, dentistry or “Pharm. D”; or
   (d) Professional degree in law, medicine, dentistry, or “Pharm. D”.

(4) “Dependent person” means a person who cannot demonstrate financial independence from parents or persons other than a spouse and who does not meet the criteria for independence established in Section 5 of this administrative regulation.

(5) “Determination of residency status” means the decision of a postsecondary education institution that may include a formal hearing that results in the classification of a person as a Kentucky resident or as a nonresident for admission and tuition assessment purposes.

(6) “Domicile” means a person’s true, fixed, and permanent home and is the place where the person intends to remain indefinitely, and to which the person expects to return if absent without intending to establish a new domicile elsewhere.

(7) “Full-time employment” means continuous employment for at least forty-eight (48) weeks at an average of at least thirty (30) hours per week.

(8) “Independent person” means a person who demonstrates financial independence from parents or persons other than a spouse and who meets the criteria for independence established in Section 5 of this administrative regulation.

(9) “Institution” means an entity defined by KRS 164.001(12) if the type of institution is not expressly stated and includes the Kentucky Virtual University, the Council on Postsecondary Education, and the Kentucky Higher Education Assistance Authority.

(10) “Kentucky resident” means a person determined by an institution for tuition purpose to be domiciled in and a resident of Kentucky as determined by this administrative regulation.

(11) “Nonresident” means a person who:
   (a) Is domiciled outside by Kentucky;
   (b) Currently maintains legal residence outside Kentucky; or
   (c) Is not a Kentucky resident as determined by this administrative regulation.

(12) “Parent” means one (1) of the following:
   (a) A person’s father or mother; or
   (b) A court-appointed legal guardian if:
       1. The guardianship is recognized by an appropriate court within the United States;

   2. There was a relinquishment of the rights of the parents; and
   3. The guardianship was not established primarily to confer Kentucky residency status on the person.

   (13) “Preponderance of the evidence” means the greater weight of evidence or evidence that is more credible and convincing to the mind.

   (14) “Residence” means the place of abode of a person and the place where the person is physically present most of the time for a noneducational purpose in accordance with Section 3 of this administrative regulation.

   (15) “Student financial aid” means all forms of payments to a student if one (1) condition of receiving the payment is the enrollment of the student at an institution, and includes student employment by the institution or a graduate assistantship.

   (16) “Sustenance” means living expenses including room, board, maintenance, transportation, and educational expenses including tuition, fees, books, and supplies.

Section 2. Scope.

(1) State-supported postsecondary education institutions were established and are maintained by the Commonwealth of Kentucky primarily for the benefit of qualified residents of Kentucky. The substantial commitment of public resources to postsecondary education is predicated on the proposition that the state benefits significantly from the existence of an educated citizenry. As a matter of policy, access to postsecondary education shall be provided so far as feasible at reasonable cost to a qualified individual who is domiciled in Kentucky and who is a resident of Kentucky.

(2) The Council on Postsecondary Education may require a student who is neither domiciled in nor a resident of Kentucky to meet higher admission standards and to pay a higher level of tuition than resident students.

(3) This administrative regulation shall apply to all student residency determinations regardless of circumstances, including residency determinations made by the state-supported institutions for prospective and currently-enrolled students; the Southern Regional Education Board for contract spaces; reciprocity agreements, if appropriate; the Kentucky Virtual University; academic common market programs; the Kentucky Educational Excellence Scholarship Program; and other state student financial aid programs, as appropriate.

Section 3. Determination of Residency Status; General Rules.

(1) A determination of residency shall include:
   (a) An initial determination of residency status by an institution during the admission process or upon enrollment in an institution for a specific academic term or for admission into a specific academic program;
   (b) A reconsideration of a determination of residency status by an institution based upon a changed circumstance; or
   (c) A formal hearing conducted by an institution upon request of a student after other administrative procedures have been completed.

(2) An initial determination of residency status shall be based upon:
   (a) The facts in existence when the credentials established by an institution for admission for a specific academic term have been received and during the period of review by the institution;
   (b) Information derived from admissions materials;
   (c) If applicable, other materials required by an institution and consistent with this administrative regulation; and
   (d) Other information available to the institution from any source.

(3) An individual seeking a determination of Kentucky residency status shall demonstrate that status by a preponderance of the evidence.

(4) A determination of residency status shall be based upon verifiable circumstances or actions.

(5) Evidence and information cited as the basis for Kentucky domicile and residency shall accompany the application for a determination of residency status.

(6) A student classified as a nonresident shall retain that status until the student is officially reclassified by an institution.

(7) A student may apply for a review of a determination of residency status once for each academic term.

(8) If an institution has information that a student’s residency status may be incorrect, the institution shall review and determine the student’s correct residency status.
Policy on Residency

(9) If the Council on Postsecondary Education has information that an institution’s determination of residency status for a student may be incorrect, it may require the institution to review the circumstances and report the results of that review.

(10) An institution shall impose a penalty or sanction against a student who gives incorrect or misleading information to an institutional official, including payment of nonresident tuition for each academic term for which resident tuition was assessed based on an improper determination of residency status. The penalty or sanction may also include:
   (a) Student discipline by the institution through a policy written and disseminated to students; or
   (b) Criminal prosecution.

Section 4. Presumptions Regarding Residency Status.

(1) In making a determination of residency status, it shall be presumed that a person is a nonresident if:
   (a) A person is, or seeks to be, an undergraduate student and admissions records show the student to be a graduate of an out-of-state high school within five (5) years prior to a request for a determination of residency status;
   (b) A person’s admissions records indicate the student’s residence to be outside of Kentucky at the time of application for admission;
   (c) A person moves to Kentucky primarily for the purpose of enrollment in an institution;
   (d) A person moves to Kentucky and within twelve (12) months enrolls at an institution more than half time; or
   (e) A person has a continuous absence of one (1) year from Kentucky; or
   (f) A person attended an out-of-state higher education institution during the past academic year and paid in-state tuition at that institution.

(2) A presumption arising from subsection (1) of this section shall only be overcome by preponderance of evidence sufficient to demonstrate that a person is domiciled in and is a resident of Kentucky.

Section 5. Determination of Whether a Student is Dependent or Independent.

(1) In a determination of residency status, an institution shall first determine whether a student is dependent or independent. This provision is predicated on the assumption that a dependent person lacks the ability to remain in Kentucky indefinitely and therefore does not have the capacity to establish domicile as defined in Section 1(6). A determination that a student is dependent shall be one (1) step in the overall determination of whether a student is or is not a resident of Kentucky.

(2) In determining the dependent or independent status of a person, the following information shall be considered as well as other relevant information available at the time the determination is made:
   (a) 1. Whether the person has been claimed as a dependent on the federal or state income tax returns of a parent or other person for the year preceding the date of application for a determination of residency status; or
      2. Whether the person is no longer claimed by a parent or other person as a dependent or as an exemption for federal and state tax purposes; and
   (b) Whether the person has financial earnings and resources independent of a person other than an independent spouse necessary to provide for the person’s own sustenance.

(3) An individual who enrolls at an institution immediately following graduation from high school and remains enrolled shall be presumed to be a dependent person unless the contrary is evident from the information submitted.

(4) Domicile may be inferred from the student’s permanent address, parent’s mailing address, or location of high school of graduation.

(5) Marriage to an independent person domiciled in and who is a resident of Kentucky shall be a factor considered by an institution in determining whether a student is dependent or independent.

(6) Financial assistance from or a loan made by a parent or family member other than an independent spouse, if used for sustenance of the student:
   (a) Shall not be considered in establishing a student as independent; and
   (b) Shall be a factor in establishing that a student is dependent.

Section 6. Effect of a Determination of Dependent Status on a Determination of Residency Status.

(1) The effect of a determination that a person is dependent shall be:
   (a) The domicile and residency of a dependent person shall be the same as either parent. The domicile and residency of the parent shall be determined in the same manner as the domicile and residency of an independent person; and
   (b) The domicile and residency of a dependent person whose parents are divorced, separated, or otherwise living apart shall be Kentucky if either parent is domiciled in and is a resident of Kentucky regardless of which parent has legal custody or is entitled to claim that person as a dependent pursuant to federal or Kentucky income tax provisions.

(2) If the parent or parents of a dependent person are Kentucky residents and are domiciled in Kentucky but subsequently move from the state:
   (a) The dependent person shall be considered a resident of Kentucky while in continuous enrollment at the degree level in which currently enrolled; and
   (b) The dependent person’s residency status shall be reassumed if continuous enrollment is broken or the current degree level is completed.

Section 7. Member of Armed Forces of the United States, Spouse and Dependents; Effect on a Determination of Residency Status.

(1) A member, spouse, or dependent of a member whose domicile and residency was Kentucky at the time of induction into the Armed Forces of the United States, and who maintains Kentucky as home of record and permanent address, shall be entitled to Kentucky residency status:
   (a) During the member’s time of active service; or
   (b) If the member returns to the state within six (6) months of the member’s discharge from active duty.

(2) A member of the armed services on active duty for more than thirty (30) days and who has a permanent duty station in Kentucky shall be classified as a Kentucky resident and shall be entitled to in-state tuition as shall the spouse or a dependent child of the member.

(a) A member, spouse or dependent of a member shall not lose Kentucky residency status if the member is transferred on military orders while the member, spouse, or dependent requesting the status is in continuous enrollment at the degree level in which currently enrolled.

(3) Membership in the National Guard or civilian employment at a military base alone shall not qualify a person for Kentucky residency status under the provisions of subsections (1) and (2) of this section. If a member of the Kentucky National Guard is on active duty status for a period of not less than thirty (30) days, the member shall be considered a Kentucky resident, as shall the spouse of a dependent child of the member.

(4) A person’s residency status established pursuant to this section shall be reassessed if the qualifying condition is terminated.

Section 8. Status of Nonresident Aliens; Visas and Immigration.

(1) A person holding a permanent residency visa or classified as a political refugee shall establish domicile and residency in the same manner as another person.

(a) Time spent in Kentucky and progress made in fulfilling the conditions of domicile and residency prior to obtaining permanent residency status shall be considered in establishing Kentucky domicile and residency.

(2) A person holding a nonimmigrant visa with designation A, E, G, H-1, H-4 if accompanying a person with an H-1 visa, I, K, L, N, R shall establish domicile and residency the same as another person.

(3) An independent person holding a nonimmigrant visa with designation B, C, D, F, H-2, H-3, H-4 if accompanying a person with an H-2 or H-3 visa, J, M, O, P, Q, S, TD or TN shall not be classified as a Kentucky resident, because that person does not have the capacity to remain in Kentucky indefinitely and therefore cannot form the requisite intent necessary to establish domicile as defined in Section 1(6) of this administrative regulation.

(b) A dependent person holding a visa as described in paragraph (a) of this subsection, but who is a dependent of a parent holding a visa as described in subsection (2) of this section, shall be considered as holding the visa of the parent.

(c) A dependent person holding a visa described in subsection (2) of this section or paragraph of this subsection, if a parent is a citizen of the United States and is a resident of and domiciled in Kentucky, shall be a resident of Kentucky for the purposes of this administrative regulation.

(4) A person shall be a Kentucky resident for the purpose of this administrative regulation if the person graduated from a Kentucky high school and:
   (a) Is an undocumented alien;
   (b) Holds a visa listed in subsections (2) or (3)(a) of this section; or
   (c) Is a dependent of a person who holds a visa listed in subsections (2) or (3)(a) of this section.

(5) Exceppt as provided in paragraph (b) of this subsection, a person who has petitioned the federal government to reclassify visa status shall continue to be ineligible until the petition has been decided by the federal government.

(b) A person who has petitioned the federal government to reclassify visa status based on a marriage to a Kentucky resident and who can demonstrate that the petition has been filed and acknowledged by the federal government, may establish Kentucky domicile and residency at that time.
Section 9. Beneficiaries of a Kentucky Educational Savings Plan Trust.
A beneficiary of a Kentucky Educational Savings Plan Trust shall be granted residency status if the beneficiary meets the requirements of KRS 164A.330(6).

Section 10. Criteria Used in a Determination of Residency Status.
(1) A determination of Kentucky domicile and residency shall be based upon verifiable circumstances or actions.
   (a) Acceptance of an offer of full-time employment or transfer to an employer in Kentucky or contiguous area while maintaining residence and domicile in Kentucky;
   (b) Continuous physical presence in Kentucky while in a nonstudent status for the twelve (12) months immediately preceding the start of the academic term for which a classification of Kentucky residency is sought;
   (c) 1. Filing of Kentucky resident income tax return for the calendar year preceding the date of application for a change in residency status; or
      2. Payment of Kentucky withholding taxes while employed during the calendar year for which a change in classification is sought;
   (d) Full-time employment of at least one (1) year while living in Kentucky;
   (e) Attendance as a full-time, nonresident student at an out-of-state institution based on a determination by that school that the person is a resident of Kentucky;
   (f) Abandonment of a former domicile or residence and establishing domicile and residency in Kentucky with application to or attendance at an institution following an incidence to the change in domicile and residency;
   (g) Obtaining licensing or certification for a professional and occupational purpose in Kentucky;
   (h) Payment of real property taxes in Kentucky;
   (i) Ownership of real property in Kentucky, if the property was used by the student as a residence preceding the date of application for a determination of residency status;
   (j) Marriage of an independent student to a person who was domiciled in and a resident of Kentucky prior to the marriage; and
   (k) The extent to which a student is dependent on student financial aid in order to provide basic sustenance.
   (3) Except as provided in subsection (4) of this section, the following facts, because of the ease and convenience in completing them, shall have limited probative value in a determination that a person is domiciled in and is a resident of Kentucky:
      (a) Kentucky automobile registration;
      (b) Kentucky driver’s license;
      (c) Registration as a Kentucky voter;
      (d) Long-term lease of at least twelve (12) consecutive months of noncollegiate housing; and
      (e) Continued presence in Kentucky during academic breaks.
   (4) The absence of a fact contained in subsection (3) of this section shall have significant probative value in determining that a student is not domiciled in or is not a resident of Kentucky.

Section 11. Effect of a Change in Circumstances on Residency Status.
(1) If a person becomes independent or if the residency status of a parent or parents of a dependent person changes, an institution shall reassess residency status upon a request by the student or a review initiated by the institution.
   (2) Upon transfer to a Kentucky institution, a student’s residency status shall be assessed by the receiving institution.
   (3) A reconsideration of a determination of residency status for a dependent person shall be subject to the provisions for continuous enrollment, if applicable.

Section 12. Student Responsibilities.
(1) A student shall report under the proper residency classification, which includes the following actions:
   (a) Raising a question concerning residency classification;
   (b) Making application for change of residency classification with the designated office or person at the institution; and
   (c) Notifying the designated office or person at the institution immediately upon a change in residency.
   (2) If a student fails to notify an institutional official of a change in residency, an institutional official may investigate and evaluate the student’s residency status.
   (3) If a student fails to provide, by the date specified by the institution, information required by an institution in a determination of residency status, the student shall be notified by the institution that the review has been canceled and that a determination has been made.
   (4) (a) A recommendation to be issued by the hearing officer.
      (b) Making application for change of residency classification with the designated office or person at the institution; and
      (c) Notifying the designated office or person at the institution immediately upon a change in residency.
   (2) If a student fails to notify an institutional official of a change in residency, an institutional official may investigate and evaluate the student’s residency status.
   (3) If a student fails to provide, by the date specified by the institution, information required by an institution in a determination of residency status, the student shall be notified by the institution that the review has been canceled and that a determination has been made.
   (4) A recommendation to be issued by the hearing officer.

Section 13. Institutional Responsibilities.
Each institution shall:
(1) Provide for an administrative appeals process that includes a residency appeals officer to consider student appeals of an initial residency determination and which shall include a provision of fourteen (14) days for the student to appeal the residency appeals officer’s determination;
(2) Establish a residency review committee to consider appeals of residency determinations by the residency appeals officer. The residency review committee shall make a determination of student residency status and notify the student in writing within forty-five (45) days after receipt of the student appeal;
(3) Establish a formal hearing process as described in Section 14 of this administrative regulation; and
(4) Establish written policies and procedures for administering the responsibilities established in subsections (1), (2), and (3) of this section and that are:
      (a) Approved by the institution’s governing board;
      (b) Made available to all students; and
      (c) Filed with the council.

(1) A student who appeals a determination of residency by a residency review committee shall be granted a formal hearing by an institution if the request is made by a student in writing within fourteen (14) calendar days after notification of a determination by a residency review committee.
(2) If a request for a formal hearing is received, an institution shall appoint a hearing officer to conduct a formal hearing. The hearing officer shall:
      (a) Be a person not involved in determinations of residency at an institution except for formal hearings; and
      (b) Not be an employee in the same organizational unit as the residency appeals officer.
(3) An institution shall have written procedures for the conduct of a formal hearing that have been adopted by the board of trustees or regents, as appropriate, and that provide for:
      (a) A hearing officer to make a recommendation on a residency appeal;
      (b) Guarantees of due process to a student that include:
         1. The right of a student to be represented by legal counsel; and
         2. The right of a student to present information and to present testimony and information in support of a claim of Kentucky residency; and
      (c) A recommendation to be issued by the hearing officer.
(4) An institution’s formal hearing procedures shall be filed with the Council on Postsecondary Education and shall be available to a student requesting a formal hearing.
Policy on Residency

Section 15. Cost of Formal Hearings.

(1) An institution shall pay the cost for all residency determinations including the cost of a formal hearing.

(2) A student shall pay for the cost of all legal representation in support of the student’s claim of residency. (17 Ky.R. 2557; eff. 4-5-1991; Am. 22 Ky.R. 1656; 1988; eff. 5-16-1996; 23 Ky.R. 3380; 3797; 4099; eff. 6-16-1997; 24 Ky.R. 2136; 2705; 25 Ky.R. 51; eff. 7-13-1998; 25 Ky.R. 2177; 2577; 2827; eff. 6-7-1999; 749; 1238; eff. 11-12-2002; 36 Ky.R. 1083; 1951; 2033-M; eff. 4-2-2010.)

Revised Effective April 2, 2010

For further information about residency, please contact the Office of Undergraduate Admission and University Registrar, Funkhouser Bldg., University of Kentucky, Lexington, KY 40506-0054.

Policy subject to change without notice.
### A&S Arts and Sciences

#### A&S 100 SPECIAL INTRODUCTORY COURSE:
**TITLE TO BE ASSIGNED.** (1-6)
This course permits the offering at the introductory level of special courses of an interdisciplinary, topical, or experimental nature. Each proposal must be approved by the Dean of the College of Arts and Sciences. A particular title may be offered at most three times under the A&S 100 number. Students may not repeat under the same title. May be repeated to a maximum of 12 credits. Prereq: Will be set by instructor.

#### A&S 101 SPECIAL INTRODUCTORY COURSE:
**TITLE TO BE ASSIGNED.** (1-6)
This course permits the offering at the introductory level of special courses of an interdisciplinary, topical or experimental nature. Each proposal must be approved by the Dean of the College of Arts and Sciences. A particular title may be offered at most twice under the A&S 101 number. Students may not repeat under the same title. Offered pass/fail only. May be repeated to a maximum of 12 credits. Prereq: Will be set by instructor.

#### A&S 103 BASIC INSTRUCTION IN LESS COMMONLY TAUGHT LANGUAGES I (Subtitle required). (3-5)
This course provides basic instruction in a language which is less commonly taught and emphasizes the spoken language of everyday use where appropriate. Writing and the elements of grammar are gradually introduced. Students may not repeat this course under the same subtitle. Prereq: Will be set by instructor.

#### A&S 104 BASIC INSTRUCTION IN LESS COMMONLY TAUGHT LANGUAGES II (Subtitle required). (3-5)
A continuation of A&S 103. Students may not repeat this course under the same subtitle. Prereq: A&S 103.

#### A&S 203 INTERMEDIATE INSTRUCTION IN LESS COMMONLY TAUGHT LANGUAGES I (Subtitle required). (3-5)
This course provides intermediate instruction in a language which is not commonly taught. Development of speaking, listening, reading, and writing skills, as appropriate, will be stressed. Students may not repeat this course under the same subtitle. Prereq: A&S 104 in the same language or permission of instructor.

#### A&S 300 SPECIAL COURSE (Subtitle required). (1-6)
This course permits the offering of special courses of an interdisciplinary, topical, or experimental nature, and of one-time interest. Each proposal must be approved by the Dean of the College of Arts and Sciences. A particular title may be offered at most three times under the A&S 300 number, and no A&S 300 course may be given for more than six credits per semester. Open to all University students, subject to such limits or prerequisites as set by the instructor. May be repeated to a maximum of 12 credit hours under different subtitles.

#### A&S 350 PERSONAL STRENGTHS AND YOUR CAREER DEVELOPMENT. (3)
This course is designed to introduce students to the fundamentals of planning and organizing career development strategies. Emphasis is placed on identification of individual goals, assessment of talents/interests and values, exploration of career options, analysis of the job market, effective use of employment search tools (e.g., résumés, cover letters, and interviewing), and management of career pathways. Stressing the value of the arts and sciences degree in the labor market and develops job search skills that will be useful throughout life. Prereq: Sophomore standing (30+ credits) or higher.

#### A&S 500 SPECIAL COURSE (Subtitle required). (1-6)
This course permits the offering of special courses of an interdisciplinary, topical, or experimental nature, and of one-time interest. Each proposal must be approved by the Dean of the College of Arts and Sciences. A particular course may be offered at most three times under the A&S 500 number. Open to all University students, subject to such limitations or prerequisites as set by the instructor. May be repeated to a maximum of six credits under different subtitles. Prereq: As specified by the instructor.

### A-E Art Education

#### A-E 120 PATHWAYS TO CREATIVITY IN THE VISUAL ARTS. (3)
Students will be challenged to think creatively, expand cognitive development, perception, self-expression, and sensory awareness through research and rich studio experiences. Aesthetic knowledge and skills will provide students with a pathway in learning in art that integrates prior knowledge with new experiences which enhance creative learning through discovery, discussion, and collaboration.

#### A-E 200 WORKSHOP IN DESIGN EDUCATION FOR ELEMENTARY TEACHERS. (3)
A lecture-laboratory course that explores and analyzes concepts in the visual arts and examines how these concepts might be used to improve and enhance learning opportunities in the visual arts and in various disciplines for elementary students.

#### A-E 395 INDEPENDENT WORK: ART EDUCATION. (1-3)
Supervised individual research, practicum, and field experience leading to the development of art education curriculum theory, and teaching techniques appropriate for various populations and conditions. A learning contract will be submitted to both the department and to the office of the dean at the time of registration. May be repeated to a maximum of six credits. Prereq: Major and consent of instructor.

#### A-E 399 EXPERIENTIAL EDUCATION. (1-15)
Development of personally motivated and planned projects and internships in art education and interdisciplinary program activities outside the academic classroom experience, encompassing recreation, general education, adult education, special education, state programs, and group field experiences and workshops. May be repeated to a maximum of 15 credits. (Approval of Fine Arts dean required for more than six credits per semester.) Prereq: Recommendation of art faculty member and department chairman; completion of departmental learning agreement.

#### A-E 515 INTRODUCTION TO ART THERAPY. (3)
An examination of various historical and contemporary conceptions of the therapeutic function and value of art from an art education perspective. The impact of art experience on emotional, intellectual and behavioral development and rehabilitation will be explored through readings, discussions, guest lectures, and lab experiences. Lecture, two hours per week; laboratory, two hours per week. Prereq: PSY 331 and major or consent of instructor.

#### A-E 538 ADVANCED ARTS AND CRAFTS IN THE ELEMENTARY SCHOOL. (3)
Planned to give the elementary teacher an understanding of teaching methods involved in, and construction of, art activities which would enrich the classroom program.

#### A-E 545 TOPICAL STUDIES IN ART EDUCATION (Subtitle required). (3)
Intensive study and analysis of a designated topic, issue or development in the philosophy, history, or methodology of art education in community and public school settings. May be repeated to a maximum of six credits. Prereq: Art education major or consent of the instructor.

#### A-E 550 COMMUNITY ART EDUCATION. (3)
A course that focuses on the role community art organizations play in the community, and the role they play in identifying and interpreting the diverse artistic make-up of the community. This course will provide students with the tools to define, locate, and research community organizations as potential sites for art programming.

#### A-E 560 MUSEUM EDUCATION. (3)
An examination of educational techniques and practices of learning in a museum setting. The course will focus on educational theories, learning styles and techniques, audiences, educational materials and outreach strategies that will prepare students for successful professional careers in museum education.

#### A-E 576 ART IN MIDDLE SCHOOLS. (2)
Study of perceptual and aesthetic awareness in Middle School level children/adolescents. Field and practicum experiences with methods and materials appropriate to the teaching of art in the middle school. Lesson planning, curriculum design, evaluation, teaching skills, classroom safety, and multicultural activities. Included: readings, lecture, discussion, demonstration, micro-teaching laboratory and studio experiences. Prereq: Major in art education, admission to the Teacher Education Program (TEP), or consent of instructor.

#### A-E 577 ART IN SECONDARY SCHOOLS. (2)
This course provides students with an overview of the secondary school in American education and explores the history, theory, techniques and contemporary issues in teaching art in the secondary schools. Skills in the planning of multicultural activities and the teaching and evaluation of secondary art experiences are stressed. Prereq: Major in art education, admission to the Teacher Education Program (TEP), or consent of instructor.

#### A-E 578 ART IN ELEMENTARY SCHOOLS. (2)
Study of perceptual and aesthetic awareness in children. Field and practicum experiences
with methods and materials appropriate to the teaching of art in the elementary school. Multicultural activities stressed. Lesson planning, curriculum design, evaluation, teaching skills, classroom safety, multicultural activities included: lecture, demonstration, micro-teaching laboratory and studio experiences. Prereq: Major in art education, admission to the Teacher Education Program (TEP), or consent of instructor.

A-E 579 ARTS AND HUMANITIES IN ART EDUCATION. (2) Inquiry into the relationship of current philosophies of art education and aesthetics; a consolidation of art education ideas with a formation of criteria for making value judgments; the development of a personal viewpoint consistent with education and art as humanistic endeavors. Prereq: Major in art education, admission to the Teacher Education Program (TEP), or consent of instructor.

*A-E 645 TOPICAL RESEARCH IN ART EDUCATION (Subtitle required). (3) Advanced study and research of a designated topic, issue, or development in the philosophy, history, or methodology of art education in community and public school settings. May be repeated for a maximum of nine credits. Prereq: Graduate standing in department.

A-E 670 SCHOOL AND COMMUNITY ART. (3) Analysis of the social function of art; organization of school and community related programs in art; case studies of existing programs. Field experience, educational involvement. Lectures and demonstrations. Prereq: Major in Art Education or consent of instructor.

A-E 675 AESTHETICS AND DESIGN. (3) Focuses on advancing aesthetic awareness, developing an understanding of the principles of visual design and the application of aesthetic design to human-computer interaction in order to integrate an artistic approach to the examination of technological innovation.

A-E 680 HISTORY OF ART EDUCATION. (3) A-E 680 is a survey of general education practices from classical times to the present. The class will examine the teaching of art in European schools and its influence on American art education. The course will analyze the birth of American art education and significant events related to art in the schools from the 19th to the 21st century.

A-E 685 ACTION RESEARCH IN ART EDUCATION. (3) This course is built within the context of the Advance Teacher Leader program. All students in this course are expected to integrate the design elements of their curriculum contract into their activities, field experiences, research, and action research projects. Prereq: Students must be enrolled in one of the Advanced Teacher Leader Programs in Art Education to take this course or by instructor permission.

A-E 686 TEACHER LEADERSHIP IN ART EDUCATION. (3) This course is built within the context of the Advanced Preparation Programs in Teacher Leader Programs in Art Education. All candidates in this course are expected to integrate the design elements of their curriculum contract into their activities, field experiences, research, and action research projects. This course must be repeated for a minimum of two times for a total of six hours but can be repeated for more than three times for a total of nine credits. Prereq: Candidates must be enrolled in one of the Advanced Preparation Teacher Leader Programs in Art Education to take this course. Candidates must also have completed A-E 685 Action Research in Art Education as a prerequisite.

*A-E 695 INDEPENDENT WORK: ART EDUCATION. (1-3) Supervised individual research, experimental practicum, and the initiation of field programs leading to the development of new knowledge in art education theory and method. A formal learning contract between student and supervising faculty member is required. May be repeated to a maximum of nine credits. Prereq: Graduate standing in the department and consent of instructor.

A-E 748 MASTER'S THESIS RESEARCH. (0) Half-time to full-time work on thesis. May be repeated to a maximum of six semesters. Prereq: All course work toward the degree must be completed.

A-H Art History

#A-H 101 INTRODUCTION TO VISUAL STUDIES. (3) The course introduces students to the concepts and techniques of visual literacy. It explores a full spectrum of man-made visual forms encountered by contemporary Americans from architecture and works of art to graphic novels, advertisements, television programs and films, photos and the Internet.

A-H 102 INTRODUCTION TO ASIAN ART. (3) This course introduces the art of Asia, mainly focusing on China and Japan, but also examining art in other Asian countries. The course syllabus combines chronology with a thematic approach, giving a sense of historical development while examining specific cultural manifestations or media. Students will learn to identify and distinguish between works from different periods and related cultures through methods of visual analysis, as well as gain an understanding of the cultural context of Asian art. No prior experience with art history or Asian culture is expected.

A-H 103 WORLD ART. (3) An introduction to the visual arts of civilizations outside the European tradition. Students will become familiar with selected museums from cultures in Africa, Asia, the Pacific, or the Americas and be able to evaluate the development of artistic practices within a tradition or comparatively between traditions.

A-H 104 INTRODUCTION TO AFRICAN ART. (3) Study of African art in which sculpture, painting, pottery, textiles, architecture, altar arts, human adornment and performance are approached on the basis of style, iconography and function, and in relation to religious, political, market and daily contexts. This course examines the ways in which “Africa” has been conceived and deconstructs the assumptions shaping each approach. The processes (and problems) of collecting and displaying African art will be addressed throughout the course.

A-H 105 ANCIENT THROUGH MEDIEVAL ART. (3) Survey of the development of art and architecture with primary emphasis on cultures of Egypt, Western Asia, Greece, Rome, and medieval Europe.

A-H 106 RENAISSANCE THROUGH MODERN ART. (3) Historical development of Western art and architecture from the fourteenth century to the present.

A-H 307 ANCIENT NEAR EASTERN AND EGYPTIAN ART. (3) Study of the art, architecture, and material culture of the civilizations in the ancient Near East (Mesoopotamia, Assyria, Persia) and of Egypt, from Neolithic origins through the first millennium BCE. Prereq: A-H 105 recommended.

A-H 308 STUDIES IN AFRICAN ART (Subtitle required). (3) Focuses upon a particular medium, region, period or theme within African art studies. Visual materials, research, reading and discussion to address one or more of the following topics: arts by region (central, east, north, south, or west Africa, or the African diaspora), by medium (such as ceramics, performance, or architecture), by time period (such as ancient or contemporary), or by theme (such as performance, or political). May be repeated under a different subtitle to a maximum of six credits. Prereq: A-H 104 recommended.

A-H 309 CROSS-CULTURAL STUDIES IN ART (Subtitle required). (3) This topical study will investigate art originating in at least three of the following regions: Africa, Europe, North America, South America, Central America, Western Asia, and the Pacific Islands. At least two thirds of the traditions studied will be non-European. According to the subtitles, the course will focus on themes, periods, media, or theoretical issues in arts from varied cultures. May be repeated under a different subtitle for a maximum of six credits. Prereq: A-H 105 and A-H 106 recommended.

A-H 310 STUDIES IN EAST ASIAN ART (Subtitle required). (3) Depending on subtitle, a study of the art production of a particular medium, theme, period, or region in East Asia. May be repeated under a different subtitle to a maximum of six credits. Prereq: A-H 103, 105 or 106 recommended.

A-H 312 STUDIES IN GREEK ART (Subtitle required). (3) Study of the arts of Greece. According to subtitles, attention may focus on particular periods or media from Bronze Age through Hellenistic Greece in the context of political, social and intellectual developments. May be repeated under a different subtitle to a maximum of six credits. Prereq: A-H 105 recommended. (Same as CLA 312.)

A-H 313 STUDIES IN ROMAN ART (Subtitle required). (3) Study of the art and architecture of Rome. According to subtitles, attention will focus on various aspects of public or private painting, sculpture and architecture such as reflections of political, social and cultural developments in the Roman world from early Republic through the age of Constantine. May be repeated under a different subtitle to a maximum of six credits. Prereq: A-H 105 recommended. (Same as CLA 313.)

A-H 323 STUDIES IN MEDIEVAL ART (Subtitle required). (3) Considers the interrelationships of art and architecture with religion, literature, politics, and other expressive forms as they shape and are shaped by medieval patrons and artists between the fourteenth and fifteenth century C.E., according to subtitle. May be repeated under a different subtitle to a maximum of six credits. Prereq: A-H 105 recommended.

A-H 334 STUDIES IN RENAISSANCE ART (Subtitle required). (3) According to the subtitle, a study of specific developments, problems and issues pertaining to art production between 1300 and 1550. May be repeated under a different subtitle to a maximum of six credits. Prereq: A-H 106 recommended.

A-H 335 STUDIES IN EARLY MODERN ART, 1500-1700 (Subtitle required). (3) According to the subtitle, a study of specific developments, problems, and issues pertaining to art production between 1500 and 1700. Prereq: A-H 106 recommended.

A-H 339 STUDIES IN ART 1700-1840 (Subtitle required). (3) Study of specific developments, problems, and issues pertaining to art, art practice, and art theory between 1700 and 1840. May be repeated under a different subtitle to a maximum of six credits. Prereq: A-H 105 or A-H 106 recommended.

A-H 340 STUDIES IN ART 1840-1914 (Subtitle required). (3) Study of specific developments, problems, and issues pertaining to art, art practice, and art theory between 1840 and 1914. May be repeated under a different subtitle to a maximum of six credits. Prereq: A-H 105 or A-H 106 recommended.

A-H 341 STUDIES IN 20TH CENTURY ART (Subtitle required). (3) Depending on subtitle, this course examines aspects of 20th century art in its social,
political, and aesthetic contexts. May be repeated under a different subtitle for a maximum of six credits. Prereq: A-H 105 and A-H 106.

A-H 528 TOPICAL SEMINAR IN ART HISTORY (Subtitle required). (3)
In-depth study of a topic, with a particular emphasis on an artistic period, an art historical period, or an art historical theme. May be repeated up to six credits with different subtitles. Prereq: Junior standing.

A-H 529 TOPICAL SEMINAR IN ARCHITECTURAL DESIGN HISTORY (Subtitle required). (3)
According to subtitles, seminar will focus on developments, problems, or issues in architectural or design history. Subtitle required. May be repeated to a maximum of six credits when identified by different subtitles. Prereq: Junior standing.

A-H 555 METHODS IN ART HISTORY. (3)
A seminar introduction to the range of approaches scholars have historically used to study art’s history (e.g., connoisseurship, formal analysis, iconography, etc.). Exact course content may vary to emphasize historiography, current methods, or the relation of critical theory to art historical practice. Prereq: Junior standing.

A-H 592 AESTHETICS. (3)
Problems of method in aesthetics; major types of aesthetic theory. Aesthetic materials of the arts, in literature, music, and the space arts. Form and types of form. Meaning in the arts. Interrelations of the arts. (Same as PHI 592.)

A-H 598 COORDINATE STUDY. (3)
Course number for those students wishing to do advanced work on a special subject in conjunction with a regularly scheduled 300-level class not previously taken by the student. May be repeated to a maximum of six credits. Prereq: Two art history courses or consent of instructor.

A-H 603 THE ART OBJECT: (Subtitle required). (3)
Examination of original works of art on campus or in regional collections within an art historical context. May be repeated to a maximum of six credits. Prereq: Junior standing.

A-H 626 THE ARTIST IN SOCIETY: (Subtitle required). (3)
Art historical study of a topic or period with particular emphasis on artists and the social and cultural context of their roles in the production of visual art forms. May be repeated to a maximum of six credits when identified by a different subtitle. Prereq: Graduate standing.

A-H 627 INTERDISCIPLINARY APPROACHES TO ART HISTORY: (Subtitle required). (3)
Art historical study of a topic or period with particular emphasis placed on establishing the interdisciplinary connections for visual art forms. Depending on the topic, students might research in a wide variety of areas over the course of the semester, for example, literature, music, theatre, history, political science, philosophy, the classics, anthropology, etc. May be repeated to a maximum of six credits when identified by different subtitles. Prereq: Junior standing.

A-H 628 ART HISTORY AND VISUAL STUDIES TOPICAL SEMINAR: (Subtitle required). (3)
In-depth study of works of art and visual culture, the study of a specific period, geographic location, medium or theme, or the study of ideas and/or institutions related to the use of art and other forms of visual expression in society. May be repeated a different subtitle to a maximum of six credits. Prereq: Graduate standing or permission of the instructor.

A-H 629 ART HISTORY TOPICAL SEMINAR IN ARCHITECTURAL OR DESIGN HISTORY (Subtitle required). (3)
According to subtitles, seminar will focus on developments, problems or issues in architectural or design history. May be repeated to a maximum of six credits when identified by different subtitles. Prereq: Graduate standing.

A-H 748 MASTER’S THESIS RESEARCH. (0)
Half-time to full-time work on thesis. May be repeated to a maximum of six semesters. Prereq: All course work toward the degree must be completed.

A-H 768 THESES FORMULATION AND PREPARATION IN ART HISTORY. (3)
Independent study for art history graduate students to formulate and prepare master’s theses under the direction of their thesis advisor. A formal learning contract between student and thesis advisor is required. May be repeated to a maximum of six credits. Prereq: Art history graduate student completing thesis option (Option A).

A-H 780 INDEPENDENT WORK: ART HISTORY. (1-3)
Supervised and sustained individual research and interpretation in the history of art leading to the discovery and demonstration of new knowledge. A formal learning contract between student and supervising faculty member required. May be repeated to a maximum of six credits. Prereq: Graduate standing in the department, 18 credits in art history and consent of instructor.
University of Kentucky

A-S Art Studio

A-S 001 FOUNDATION EXHIBITION. (0)
An annual exhibition where all first-year Foundation students will select and exhibit one of their works created in a course at UK during their first year. Students will be required to select their own work, present it professionally, and provide an accompanying artist’s statement. The exhibition will occur each spring semester. Grade: Pass/F. Prereq or concur: A-S 101, A-S 102 and A-S 130.

A-S 101 ART STUDIO FOUNDATION SEMINAR. (1)
This course is designed to assist incoming premajors in the Art Studio area in adjusting to the academic life in the Department, College, and University. Lectures, discussions, exercises, and out-of-class assignments orient the student within the structure of the Department, introduce students to the arts-related resources at UK, including lectures and exhibitions, and help students establish professional practices in the presentation of their own art studio work.

A-S 102 TWO-DIMENSIONAL SURFACE. (3)
A broad, cross-disciplinary studio course exploring design elements and principles as the basic means of organizing two-dimensional space. Each student develops the ability to form strategies, concepts and ideas to enhance creativity and articulate personal expression.

A-S 103 THREE-DIMENSIONAL FORM. (3)
A broad, cross-disciplinary studio course exploring the elements and principles of designing in the round. Basic concepts involving three-dimensional design in visual art will be explored through discussion and the creation of spatial forms. Special emphasis will be given to the creative process in problem solving.

A-S 130 DRAWING. (3)
A broad, cross-disciplinary studio course exploring the visual language of drawing through observation. Students learn the mechanisms of visual perception, how individual components of a drawing relate to the organization of the composition as a whole. Each student develops not only observational skills rooted in traditional drawing media for realistic renderings, but also gradually builds strategies, concepts, and ideas for abstract expression.

*A-S 200 DIGITAL ART, SPACE AND TIME. (3)
This course provides fundamental instruction in digital media as a creative tool. Students will learn the basics of digital collage, video editing and sound design. An overview of historical and contemporary digital art practice will be presented as well as elements of design and composition. Four studio hours and one 30-minute lecture per week.

A-S 201 ART STUDIO FOUNDATION SEMINAR. (1)
This course is designed to assist premajors in developing the practical skills needed to create a successful, professional presentation of their work. The course will prepare students for the portfolio review required for entry into the Department’s major programs. Emphasis is placed on written, oral, and visual presentation skills. Prereq: A-S 200, A-S 215; prereq or concurrent: A-S 101; or consent of instructor.

†A-S 215 STUDIO II.
†A-S 255 STUDIO III.

*A-S 280 INTRODUCTION TO PHOTOGRAPHIC LITERACY. (3)
This course introduces students to photography through both the study of its history and the practice of making photographs. The historical portion will focus on both photographic literacy and aesthetics. The practice will take students through various styles, genres and technical aspects of the medium.

A-S 310 PAINTING I. (3)
Concentrated painting experience stressing enlargement of formal understanding and personal expression. Prereq: A-S 102 and A-S 130.

A-S 311 PAINTING II. (3)
A continuation of A-S 310. Prereq: A-S 310 and consent of the instructor.

A-S 320 PRINTMAKING I. (3)
Introductory studio experience in printmaking media and procedures relevant to individual development. Nine studio hours per week. Prereq: A-S 102 or consent of instructor.

A-S 321 PRINTMAKING II. (3)
A continuation of A-S 320. Nine studio hours per week. Prereq: A-S 320 or consent of instructor.

A-S 330 INTERMEDIATE DRAWING. (3)
Continued studio experience in two-dimensional representation and abstraction using a variety of drawing materials and processes. When offered in the fall, emphasis will be on the human figure. When offered in the spring, course content will cover a broad range of traditional and experimental subjects including landscape, still lifes, collage, and mixing words with images. May be repeated to a maximum of six credits. Nine studio hours per week. Prereq: A-S 320 or consent of instructor.

A-S 331 EXPLORATION OF HUMAN FORM. (3)
Students strengthen drawing skills through observation and in experimentation with process and strategy. Students gain a better understanding of design and composition in relationship to overall outcome of drawing and explore a range of drawing materials. Prereq: A-S 102 and A-S 130.

A-S 340 GRAPHIC DESIGN: THE FUNDAMENTALS. (3)
Students use the basic principles of design to create thumbnails, roughs, and clear, accurate comprehensives which are essential in the problem solving process. Prereq: A-S 102, A-S 103, and A-S 215.

A-S 341 GRAPHIC DESIGN: LAYOUT. (3)
This intermediate level course prepares students to create web pages. Emphasis is on creating functional and aesthetic web content within the current design parameters of the internet. Navigation strategies, directory structures and familiarity with networks is stressed. Nine studio hours per week. Prereq: A-S 340 (with a grade of B or better) and Portfolio Review.

A-S 345 WEB DESIGN. (3)
An intermediate level course designed to prepare students to create web pages. Emphasis is on creating functional and aesthetic web content within the current design parameters of the internet. Navigation strategies, directory structures and familiarity with networks is stressed. Nine studio hours per week. Prereq: A-S 200 or consent of instructor.

A-S 346 DIGITAL VIDEO. (3)
An intermediate level course in which students learn advanced video composing methods, image control and key effects in the digital world specific to the Final Cut Pro or like environments. Basic and advanced titling and graphic animation are explored as well as storyboarding, sound design and title effects. This course explores various video editing styles. Work is collaborative and individual. Nine studio hours per week. Prereq: A-S 200 or consent of instructor.

A-S 347 MULTIMEDIA (Subtitle required). (3)
An intermediate level course that allows students to explore a variety of programming environments. Programming topics may include video, audio and/or still images with net based or physical installation based output. This class builds on students’ previous experiences with digital media production and introduces programming to their tool palette. Fundamentals of computer programming are presented, supplemented by historical readings and discussions of art theory dealing with the use of digital technologies in artistic context. Nine studio hours per week. May be repeated to a maximum of nine hours when identified under a different subtitle. Prereq: A-S 200 or consent of instructor.

A-S 348 CIRCUITS & BITS: INTRODUCTION TO HARDWARE AND SOFTWARE TOPICS IN ARTS. (3)
A broad, cross-disciplinary, intermediate studio course designed to teach students custom software creation and electronics fabrication in an art environment. Technical information is presented in conjunction with art historical and theoretical issues. Students will be introduced to a skill-set needed to create interactive artworks. Prereq: A-S 200, or junior standing (or above) in the College of Design, or consent of the instructor.

A-S 350 FIBER I. (3)
Introductory studio experience to the design and fabrication of woven and non-woven fiber art in two and three dimensions; emphasis on color, structure and related aesthetic values. Nine studio hours per week. Prereq: A-S 102 or A-S 103 or consent of instructor.

A-S 351 FIBER II. (3)
Continuation of A-S 350, emphasis on developing perceptual and technical skills toward increasing aesthetic involvement with woven and nonwoven fiber and fabric. Nine studio hours per week. Prereq: A-S 350 or consent of instructor.

A-S 355 INTRODUCTION TO SCULPTURE. (3)
A broad, cross-disciplinary studio course exploring traditional and current perceptions in sculpture. Sculptural concepts will be explored through discussion and the creation of spatial forms, emphasizing conceptual growth and technical development. Special emphasis will be given to the creative process in problem solving using a variety of materials. Prereq: A-S 103 and A-S 130.

A-S 360 SCULPTURE I. (3)
Concentrated sculptural experience in a variety of media emphasizing expanded understanding of material and methods. Nine studio hours per week. Prereq: A-S 355 or consent of instructor.

A-S 361 SCULPTURE II. (3)
A continuation of A-S 360. Nine studio hours per week. Prereq: A-S 360 or consent of instructor.

A-S 370 CERAMICS I. (3)
Introductory studio experience to a variety of ceramic materials and processes. Nine studio hours per week. Prereq: A-S 103 or consent of instructor.

A-S 371 CERAMICS II. (3)
A continuation of A-S 370. Nine studio hours per week. Prereq: A-S 370 or consent of instructor.

*A-S 380 BLACK & WHITE DARKROOM PHOTOGRAPHY. (3)
A-S 380 is an introductory course in photography. Although it provides a thorough background in basic techniques that students may apply to any discipline, its primary emphasis is upon the practice of the medium as a fine art. Students receive technical instruction in camera and lens construction, exposure controls, processing of black and white negatives and prints, and presentation. Studio, nine hours per week.

Course Descriptions
A-S 381 ADVANCED BLACK & WHITE DARKROOM PHOTOGRAPHY. (3)
A-S 381 is a continuation of A-S 380. The emphasis is upon refining visual perception and basic photographic skills with an introduction to some of the more advanced techniques of black and white photography. Students receive technical instruction in the Zone System, archival processing, toning, and presentation. Studio, nine hours per week. Prereq: A-S 380 or consent of instructor.

A-S 384 COLOR PHOTOGRAPHY I. (3)
A-S 384 is an introductory course in color photography. The emphasis is upon the unique qualities of color photography relating to visual perception. Students receive technical instruction in negative and transparency film development and printing. Studio, nine hours per week. Prereq: A-S 380 or consent of instructor.

A-S 385 DIGITAL METHODS FOR PHOTOGRAPHY. (3)
An intermediate level course designed to help students integrate traditional silver-based photography processes with new digital computer imaging tools such as Adobe Photoshop or like program. Students are required to produce original photographic imagery for use in creating digital artwork output to printed material with inkjet printers. Advanced methods of input and output calibration, as well as advanced methods of image manipulation, are covered. Emphasis is placed on the aesthetics and ethics of digital photographic art and creating meaningful and effective images. Nine studio hours per week. Prereq: A-S 200 and A-S 380.

A-S 386 NONSILVER PHOTOGRAPHY I. (3)
A-S 386 is an introductory course in nonsilver photography. The emphasis is upon the unique qualities of nonsilver photography relating to visual perception. Students receive technical instruction in orthochromatic films, half-tone separations, cyanotypes, Van Dyke brown prints, and gum-bichromate prints. Studio, nine hours per week. Prereq: A-S 380 or consent of instructor.

A-S 390 TOPICAL STUDIES (Subtitle required). (3)
Studio investigation of art forms, processes, and topics not specially treated in the regular studio course of study. Topics announced in schedule book for each semester. Nine studio hours per week. May be repeated to a maximum of 12 credits when identified by different course subtitles. Prereq: To be specified as appropriate when topic is identified.

A-S 395 INDEPENDENT WORK: ART STUDIO. (1-3)
Supervised individual work in Art Studio. A learning contract will be submitted both to the department and the office of the dean at the time of registration. May be repeated to a maximum of nine credits. Prereq: Art major, senior standing, grade-point average of 3.0 within the department and consent of instructor.

A-S 396 WORKSHOP (Subtitle required). (1-6)
Workshops in a variety of media dealing with supervised investigation of Art-Studio problems. Studio, 3-18 hours per week. May be repeated to a maximum of nine credits when identified by different subtitles. Prereq: Consent of instructor.

A-S 398 COORDINATED STUDIES IN ART STUDIO. (3)
Supervised independent study in conjunction with regularly scheduled upper-division classes. Coordinate study credits may not be attached to any upper-division course in which the student is concurrently enrolled. Studio, nine hours per week. May be repeated to a maximum of nine credits. Prereq: Art major, junior standing or above, grade-point average of 3.0 in the department.

A-S 399 EXPERIENTIAL EDUCATION. (1-15)
Off-campus studio experience outside the academic environment leading to significant professional growth. A formal learning contract among student, field supervisor and the department. Studio hours per week by arrangement. May be repeated to a maximum of 15 credits. Prereq: Upper division standing; written statement of objective, recommendation of a studio faculty member and the approval of the department chairperson and the Office of Experiential Education.

A-S 490 SENIOR SEMINAR. (1)
Readings and discussions in art. Selection, preparation, and presentation of senior exhibitions and portfolios. To be taken during the student’s final semester of study. Two lecture hours per week. Prereq: Senior standing in Department of Art.

A-S 510 PAINTING III. (3)
Supervised individual development in painting. Nine studio hours per week. Prereq: A-S 311 or consent of instructor.

A-S 511 PAINTING IV. (3)
Continuation of A-S 510; emphasis on professional awareness and development. May be repeated to a maximum of six credits. Nine studio hours per week. Prereq: A-S 510 or consent of instructor.

A-S 520 PRINTMAKING III. (3)
Supervised individual development in printmaking. Nine studio hours per week. Prereq: A-S 321 or consent of instructor.

A-S 521 PRINTMAKING IV. (3)
Continuation of A-S 520; emphasis on professional awareness and development. May be repeated to a maximum of six credits. Nine studio hours per week. Prereq: A-S 520 or consent of instructor.

A-S 530 ADVANCED DRAWING. (3)
Supervised individual development in drawing. When offered in the Fall, emphasis will be on the human figure. When offered in the Spring, students may select from a broad range of traditional and experimental subjects. May be repeated to a maximum of six credits. Nine studio hours per week. Prereq: A-S 330 or consent of instructor.

A-S 540 GRAPHIC DESIGN: PUBLICATION DESIGN. (3)
Students develop innovative concepts in advertising layout and design through brochures, direct mailers, magazine and newspaper ads. Contemporary techniques in design and production emphasized. Printing techniques, and paper selection introduced as design elements. Nine studio hours per week. Prereq: A-S 341 (with a grade of B or better) and Portfolio Review.

A-S 541 GRAPHIC DESIGN: ADVANCED DESIGN. (3)
Provides opportunity for advanced study of artistic and technical solutions for graphic design problems. Prospecting for employment, working conditions, avenues for advancement, pricing work, and the legal responsibilities of the artist-designer to the client-agency discussed. Students conclude this course with the presentation of a portfolio demonstrating their ability to do quality work which meets the highest professional standards. Nine studio hours per week. Prereq: A-S 540 (with a grade of B or better) and Portfolio Review.

A-S 556 INTERMEDIA STUDIO (Subtitle required). (3)
An advanced course focusing on a specific area of Intermedia art production, i.e. video, installation, robotics, or digital techniques, emphasizing personal development of theoretical and skill-based foundation. May be repeated to a maximum of six credits when identified by the same subtitle and nine credits when identified by different subtitles. Nine studio hours per week. Prereq: A-S 200 and either A-S 346 or A-S 347 or consent of instructor, or graduate enrollment.

A-S 550 FIBER III. (3)
Supervised individual development in fiber. Nine studio hours per week. Prereq: A-S 351 or consent of instructor.

A-S 551 FIBER IV. (3)
Continuation of A-S 550; emphasis on professional awareness and development. May be repeated to a maximum of six credits. Nine studio hours per week. Prereq: A-S 550 or consent of instructor.

A-S 560 SCULPTURE III. (3)
Supervised individual development in sculpture. Nine studio hours per week. Prereq: A-S 361 or consent of instructor.

A-S 561 SCULPTURE IV. (3)
Continuation of A-S 560; emphasis on professional awareness and development. May be repeated to a maximum of six credits. Nine studio hours per week. Prereq: A-S 560 or consent of instructor.

A-S 570 CERAMICS III. (3)
Supervised individual development in ceramics. Nine studio hours per week. Prereq: A-S 371 or consent of instructor.

A-S 571 CERAMICS IV. (3)
Continuation of A-S 570; emphasis on professional awareness and development. May be repeated to a maximum of six credits. Nine studio hours per week. Prereq: A-S 570 or consent of instructor.

A-S 580 PHOTOGRAPHY III. (3)
A-S 580 is a continuation of A-S 381. The emphasis is upon advanced black and white photographic processes and continued acquisition of skills for self-expression through the medium. Students receive technical instruction in the use of different photographic films, papers, and chemicals, as well as master printing processes. Studio, nine hours per week. Prereq: A-S 381 or consent of instructor.

A-S 581 PHOTOGRAPHY IV. (3)
A-S 581 is a continuation of A-S 580. The emphasis is upon advanced black and white photographic processes and continued acquisition of skills for self-expression through the medium. May be repeated to a maximum of six credits. Studio, nine hours per week. Prereq: A-S 580 or consent of instructor.

A-S 584 COLOR PHOTOGRAPHY II. (3)
A-S 584 is a continuation of A-S 384. The emphasis is upon advanced color photographic processes and continued acquisition of skills for self-expression through the various media. May be repeated to a maximum of six credits. Studio, nine hours per week. Prereq: A-S 384 or consent of instructor.

A-S 586 NONSILVER PHOTOGRAPHY II. (3)
A-S 586 is a continuation of A-S 386. The emphasis is upon advanced nonsilver photographic processes and continued acquisition of skills for self-expression through the various media. May be repeated to a maximum of six credits. Studio, nine hours per week. Prereq: A-S 386 or consent of instructor.

A-S 596 WORKSHOP. (1-6)
Workshops in a variety of media dealing with supervised investigation of advanced art studio problems. Prereq: Consent of instructor.
A-S 610 PAINTING V. (3)
Advanced studio investigation of current ideas in painting. Exploration of contemporary and traditional procedures, materials, and issues in a context of a group discussion and review. May be repeated to a maximum of nine credits. Prereq: Graduate standing in the department and approval of the instructor.

A-S 611 PAINTING VI. (3)
Continued studio investigation of current ideas in painting, with increased concentration on critical group discussions of student work and readings in contemporary art. May be repeated to a maximum of nine credits. Studio, nine hours. Prereq: A-S 610 and consent of instructor.

A-S 620 PRINTMAKING V. (3)
Advanced studio investigation of current ideas in printmaking. Exploration of contemporary and traditional procedures, materials, and issues. May be repeated to a maximum of nine credits. Studio, nine hours. Prereq: Graduate standing in the department and consent of the instructor.

A-S 621 PRINTMAKING VI. (3)
Continued advanced studio investigation of current ideas in printmaking. Increased concentration of technical and aesthetic development in preparation for entry into the professional environment. May be repeated to a maximum of nine credits. Studio, nine hours. Prereq: A-S 620.

A-S 630 GRADUATE DRAWING. (3)
Supervised studio course in graduate-level drawing and mixed media works on paper or other two-dimensional surfaces. Emphasis will be placed on personal style, its identification, definition and further development in the context of contemporary drawing. May be repeated to a maximum of nine credits. Studio, nine hours per week. Prereq: Twelve credits in upper division studio work and consent of instructor.

A-S 646 ADVANCED INTERMEDIA STUDIO. (Subtitle required) (3)
A studio course specially designed for graduate students emphasizing sustained individual, technical and theoretical work in the area of Intermedia. May be repeated to a maximum of nine credits when identified by the same subtitle. Nine studio hours. Prereq: A-S 290 and either A-S 346 or A-S 347 or consent of instructor, or graduate enrollment.

A-S 650 FIBER V. (3)
In this supervised graduate studio course in fiber, emphasis will be placed on personal style, its identification, definition, and further development in the context of major directions in the fiber arts. May be repeated to a maximum of nine credits. Studio, nine hours per week. Prereq: 12 credits in upper division studio work and consent of instructor.

A-S 651 FIBER VI. (3)
Continued advanced studio investigation of current ideas in the fiber arts. Increased concentration on technical and aesthetic development, professional readings, and group discussion. May be repeated to a maximum of nine credits. Studio, nine hours per week. Prereq: A-S 650.

A-S 660 SCULPTURE V. (3)
In this supervised studio course in sculpture, emphasis will be placed on personal style, its identification, definition, and further development in the context of modern sculpture. May be repeated to a maximum of nine credits. Studio, nine hours per week. Prereq: 12 credits in upper division studio work and consent of instructor.

A-S 661 SCULPTURE VI. (3)
Continued advanced studio investigation of current ideas in sculpture. Increased concentration on technical and aesthetic development, professional readings, and group discussion. May be repeated to a maximum of nine credits. Studio, nine hours per week. Prereq: A-S 660.

A-S 670 CERAMICS V. (3)
In this supervised studio course in graduate ceramics, emphasis will be placed on personal style, its identification, definition, and further development in the context of direction in modern ceramics. Studio, nine hours per week. May be repeated to a maximum of nine credits. Prereq: 12 credits in upper division studio work and consent of instructor.

A-S 671 CERAMICS VI. (3)
Continued advanced studio investigation of current ideas in ceramics, increased concentration on technical and aesthetic development, professional readings, and group discussions. Studio, nine hours per week. May be repeated to a maximum of nine credits. Prereq: A-S 670.

A-S 680 PHOTOGRAPHY V. (3)
A-S 680 is a continuation of A-S 581. In this supervised studio course in graduate photography, emphasis will be placed on personal style, its identification, definition, and further development in the context of major directions in photography. May be repeated to a maximum of nine credits. Studio, nine hours per week. Prereq: A-S 581 and consent of instructor.

A-S 681 PHOTOGRAPHY VI. (3)
A-S 681 is a continuation of A-S 680. The emphasis will be upon continued advanced studio investigation of current ideas in photography with increased concentration on technical and aesthetic development, professional readings, and group discussion. May be repeated to a maximum of nine credits. Studio, nine hours per week. Prereq: A-S 680 and consent of instructor.

A-S 710 PROBLEMS IN PAINTING. (3)
Sustained individual projects focusing on problems and experimental work in the technical and theoretical aspects of painting. May be repeated to a maximum of nine credits. Studio, nine hours per week. Prereq: Twelve credits in upper division studio work and consent of instructor.

A-S 720 PROBLEMS IN PRINTMAKING. (3)
Sustained individual projects focusing on problems and experimental work in the technical and theoretical aspects of printmaking. May be repeated to a maximum of nine credits. Studio, nine hours per week. Prereq: Twelve credits in upper division studio work and consent of instructor.

A-S 730 PROBLEMS IN DRAWING. (3)
Sustained individual projects focusing on problems and experimental work in the technical and theoretical aspects of drawing. May be repeated to a maximum of nine credits. Studio, nine hours per week. Prereq: Twelve credits in upper division studio work and consent of instructor.

A-S 740 PROBLEMS IN FIBER. (3)
Sustained individual problems and experimental work in the technical and theoretical problems of fiber. May be repeated two times to a maximum of nine credits. Nine studio hours per week. Prereq: Twelve credits in upper division studio work and consent of instructor.

A-S 750 PROBLEMS IN SCULPTURE. (3)
Sustained individual problems and experimental work in the technical and theoretical problems of sculpture. May be repeated to a maximum of nine credits. Studio, nine hours per week. Prereq: Twelve credits in upper division studio work and consent of instructor.

A-S 767 M.F.A. STUDIO THESIS PROJECT. (1-6)
Independent research and preparation for the M.F.A. thesis exhibition. For the student working in a highly technical medium or process, the preparation of a correlated written thesis under close guidance will be the outcome. The student will be expected to know the standard forms for photographic records and the preparation of a professional portfolio. May be repeated to a maximum of six credits. Prereq: Normally taken during final semester for graduate study.

A-S 770 PROBLEMS IN CERAMICS. (3)
Sustained individual problems and experimental work in the technical and theoretical problems of ceramics. May be repeated two times for a maximum of nine credits. Nine studio hours per week. Prereq: 12 credits in upper division studio work and consent of instructor.

A-S 777 PROBLEMS IN INTERMEDIA. (3)
A studio course specially designed for independent graduate research emphasizing sustained individual, technical and theoretical work in the area of Intermedia. May be repeated to a maximum of nine credits. Studio, nine hours per week. Prereq: Twelve credits in upper division studio work and consent of instructor.

A-S 779 PROBLEMS IN PHOTOGRAPHY. (3)
A-S 779 emphasizes sustained individual problems and experimental work in the technical and theoretical problems of photography. May be repeated to a maximum of nine credits. Studio, nine hours per week. Prereq: Twelve credits in upper division studio work and consent of instructor.

A-S 780 PROBLEMS IN DESIGN. (3)
Sustained individual problems and experimental work in the technical and theoretical problems of design. May be repeated two times for a maximum of nine credits. Nine studio hours per week. Prereq: 12 credits in upper division studio work and consent of instructor.

A-S 793 GRADUATE STUDIO SEMINAR. (1)
A seminar especially for graduate students in the studio area, in all areas of concentration. Lectures, discussion and criticism will focus on current formal and aesthetic problems in the arts. Emphasis will be placed on the integration of concepts arising in the different fields in the visual arts. Required of M.F.A. candidates for three semesters. May be repeated to a total of three credits. Prereq: Graduate standing in the department.

A-S 795 INDEPENDENT RESEARCH. (1-3)
Advanced studio investigation of art forms, processes, and topics not specially treated in the regular curriculum. May be repeated to a maximum of nine credits. Studio, three hours per week per credit. Prereq: Twelve credits in upper division studio work and consent of instructor.

AAD Arts Administration

AAD 101 ARTS ADMINISTRATION PROFESSIONS. (1)
The primary intent of this course is to make students aware of the opportunities open to them in the field of Arts Administration, and to network with other students in the program, faculty, program graduates and working arts administrators. Course activities will include program and announcements regarding the availability of grants and awards. Students will also become aware of employment and volunteer opportunities while they are in school, and how to pursue professional positions upon graduation. Pass/fail only. Majors are required to enroll a minimum of 4 semesters.
#AAD 150 INTRODUCTION TO ARTS ADMINISTRATION. (1)
By requiring attendance at a designated arts event each week, this course introduces Arts Administration majors to the multitude of arts-related resources available on-campus and in the surrounding community. Students will also be introduced to the roles, governing structures, management practices and revenue sources of both for-profit and nonprofit arts organizations within the United States, as well as the types of jobs that are generally filled by Arts Administrators. Prereq: Pre-Arts Administration major or consent of instructor.

AAD 200 ARTS ADMINISTRATION COMMUNICATIONS. (3)
The purpose of this course is to introduce students to the primary writing styles that they will be using throughout the remainder of their arts administration courses. For example, business letters, educational program guides, print and electronic advertisements, publicity materials, sales brochures, invitations and advocacy letters, all require mastering a different writing style. Additionally, students will learn how to make effective public presentations, based upon their writing assignments. Completion of USP English requirements. Prereq. Completion of ENG 104. Enrollment restricted to AAD pre-majors during primary weeks.

*AAD 202 GRAPHIC DESIGN FOR PRINT AND THE WEB. (3)
The purpose of this course is to teach students basic design skills and then apply them to both print and web-based projects. For example, students will design print and web-based event invitations and advertisements, a logo and opening web pages for both a personal and professional site. Besides covering basic design concepts, the course will familiarize students with design-related computer applications such as Photoshop and Illustrator.

*AAD 302 WEB SITE DESIGN AND MAINTENANCE. (3)
The purpose of this course is for students to gain the basic skills that will allow them to design, build, and manage a website. Besides covering basic web design concepts, the course will familiarize students with extensible hypertext markup language (XHTML) as well as web design applications such as Dreamweaver and Fireworks.

AAD 310 MARKETING THE ARTS. (3)
The course will examine methods used by arts organizations to sell admissions to their events and to sell other arts products. Emphasis is placed on marketing concepts related to product, price, placement and promotion. Prereq: Completion of AAD 200, AAD 202 and one of the following: COM 181, COM 287, TA 225, or consent of instructor.

AAD 320 FUND RAISING FOR THE ARTS. (3)
An introduction to methods used by nonprofit arts organizations such as arts councils, museums, orchestras and theatres to raise money from sources other than selling art work or admissions to regular season events. Topics covered include raising funds from individuals, foundations, businesses and government, through such activities as annual campaigns, special events, capital campaigns, and planned giving. Prereq: Completion of AAD 200, AAD 202 and one of the following: COM 181, COM 287, TA 225, or consent of the instructor.

AAD 340 ARTS MANAGEMENT ISSUES. (3)
This course examines management issues facing arts organizations in the contemporary environment. Topics covered will include the role of artists and arts organizations in society, the differing motives behind nonprofit and for-profit corporations, freedom of expression and censorship, planning and leadership, intellectual property rights, issues related to race, class, sexuality and gender, plus other topics which may arise based on current events. Prereq: Completion of AAD 200, AAD 202 and one of the following: COM 181, COM 287, TA 225, or consent of the instructor.

AAD 350 FINANCIAL MANAGEMENT OF ARTS ORGANIZATIONS. (3)
This course provides an overview of the financial management practices used primarily by nonprofit arts organizations. It begins by examining the process of contracting an artist and a facility, and then building a budget for the resulting arts event. It then examines how arts organizations establish, track, adjust and evaluate organizational budgets. Additionally it explores governmental financial and reporting requirements unique to nonprofit arts organizations, and the annual audit process. Prereq: Completion of ACC 201, ACC 202, AAD 200, AAD 202 and one of the following: COM 181, COM 287, TA 225, or consent of the instructor.

AAD 399 ARTS ADMINISTRATION PRACTICUM. (1)
Under the supervision of a faculty member, students complete on-campus arts administration service projects. At least one of the two projects must be in service to the student’s primary art discipline’s department or school. Examples of projects might include conducting a policy campaign for an event, working on a fundraiser, producing a publication, conducting research, updating a website, etc. Pass/fail option only. Learning contract required. Prereq: Arts Administration major or consent of instructor.

AAD 402 TOPICS IN ARTS ADMINISTRATION (Subtitle required). (3)
A seminar which covers special topics in arts administration. May be repeated to a maximum of 12 credits when identified by different subtitles. Prereq: Completion of AAD 200, AAD 202 and one of the following: COM 181, COM 287, TA 225, or consent of instructor.

AAD 499 INTERNSHIP IN ARTS ADMINISTRATION. (1-12)
An internship with a university, community, state, regional or national arts organization, providing practical work experience related to arts administration. The internship is identified and conducted under the supervision of a faculty member. Students must file a learning contract with the College of Fine Arts. May be repeated to a maximum of twelve credits. Pass/fail only. Prereq: Completion of AAD 200, AAD 202 and one of the following: COM 181, COM 287, TA 225, or consent of instructor.

AAS African American Studies

AAS 200 INTRODUCTION TO AFRICAN-AMERICAN STUDIES. (3)
An interdisciplinary course which establishes the intellectual context for an examination of the African-American experience; it introduces students to the various approaches scholars use to analyze that experience. This course employs a topical framework which permits focus on issues reflecting the diversity and richness of African-American experience across geographic boundaries.

AAS 235 INEQUALITIES IN SOCIETY. (3)
Analysis of the social origins, development, and persistence of inequality in various societies. Prereq: SOC 101 or RSO 102. (Same as SOC 235.)

AAS 254 HISTORY OF SUB-SAHARAN AFRICA. (3)
A survey of the social institutions, value systems and political organization of Sub-Saharan Africa since the 16th century but with particular emphasis on the 19th and 20th centuries. (Same as HIS 254.)

AAS 260 AFRICAN AMERICAN HISTORY TO 1865. (3)
A study of the Black experience in America through the Civil War. An examination of the African heritage, slavery, and the growth of Black institutions. (Same as HIS 260.)

AAS 261 AFRICAN AMERICAN HISTORY 1865-PRESENT. (3)
This course traces the Black experience from Reconstruction to the Civil Rights Movement of the 1960’s. The rise of segregation and the ghetto and aspects of race relations are examined. (Same as HIS 261.)

AAS 263 AFRICAN AND CARIBBEAN LITERATURE AND CULTURE OF FRENCH EXPRESSION IN TRANSLATION (Subtitle required). (3)
This course treats major cultural questions concerning the exchange between Africa and the Caribbean in terms of historical, sociological, political, and literary events. No knowledge of French is required. (Same as FR 263.)

AAS 264 MAJOR BLACK WRITERS. (3)
A cross-cultural and historical approach to written and oral works by major Black authors of Africa, the Caribbean and the United States. The course includes writers such as Chinua Achebe (African), Wilson Harris (Caribbean), and Toni Morrison (USA). (Same as ENG 264.)

AAS 300 HISTORY OF JAZZ. (3)
A listening survey course covering the chronological development of jazz from its West African and European roots, through its germination in America, to the present. Emphasis will be on the various styles and functions of jazz, particularly as they have been affected by emerging social-cultural patterns during the twentieth century. (Same as MUS 300.)

AAS 320 GEOGRAPHY OF THE MIDDLE EAST AND NORTH AFRICA. (3)
A comprehensive regional overview, emphasizing cultural adaptation to desert environments. The interrelationships among religions, cultures, and the physical environment will be examined, along with the region’s position and influence in the global system. Prereq: GEO 152, GEO 160, GEO 172, or consent of instructor. (Same as GEO 328.)

AAS 336 GEOGRAPHY OF SUB-SAHARAN AFRICA. (3)
This course focuses on the cultural and environmental geographies of the subcontinent, rural landscapes and cultures and environmental problems, the historical geography of precolonial and colonial Africa, and the social geography of contemporary economic development. Prereq: GEO 130 and 152, 160, 172. (Same as GEO 336.)

AAS 360 RACE AND SPORTS IN AMERICA. (3)
This reading seminar examines the history of race and sport in America. (Same as HIS 360.)

AAS 384 BLACK THEATRE WORKSHOP. (3)
A workshop that explores the history, literature and performance of theater artists of the African diaspora. (Same as TA 384.)

AAS 400 SPECIAL TOPICS IN AFRICAN-AMERICAN STUDIES (Subtitle required). (3)
Detailed investigation of a particular topic in African-American Studies, with emphasis both on content and existing research. Topics will vary from semester to semester and are announced the preceding semester. May be repeated to a maximum of six credits when identified by a different subtitle. Prereq: Twelve hours of African-American Studies minor courses, including AAS 200.

AAS 401 INDEPENDENT READING AND RESEARCH IN AFRICAN-AMERICAN STUDIES. (3)
For African-American Studies minors. The student pursues a course of reading and research under the guidance of a staff member, completes a major research project, and takes an examination. A written contract defining the area of study is negotiated between student and instructor at the beginning of the course. May be repeated to a maximum of six credits. Prereq: African-American Studies minor, 12 hours of African-American Studies minor courses, including AAS 200.
Course Descriptions

AAS 417G SURVEY OF SUB-SAHARAN POLITICS. (3)
A survey of sub-Saharan government and politics intended to give the student broad knowledge of African politics and the conceptual African political systems, the political legacies of major European colonial powers, and problems of political development. Prereq: PS 210 or 212. (Same as PS 417G.)

AAS 420 AFRICAN-AMERICAN RELIGIOUS EXPERIENCE. (3)
This course explores and examines how African Americans shaped and fashioned their religion to meet their own peculiar needs as they responded to historical occurrences.

*AAS 431G CULTURES AND SOCIETIES OF SUB-SAHARAN AFRICA. (3)
A survey of indigenous societies and cultures of Africa south of the Sahara, with special attention to their adaptation of colonialism and post-colonial national development. Prereq: Sophomore standing or higher. (Same as ANT 431G.)

AAS 432 RACE AND ETHNIC RELATIONS. (3)
Analysis of relationships between racial and ethnic groups and the behavioral products thereof. Sources and consequences of prejudice and discrimination. Situation and prospects of minorities. Strategies of change and tension reduction. Prereq: Six hours of social science or consent of instructor.

AAS 433 TOPICS IN SOCIAL INEQUALITIES (Subtitle required). (3)
A sociological study of topics relevant to social inequalities and stratification. May be repeated under different subtitles to a maximum of six credits. Prereq: SOC 101 or RSO 102; SOC 235; and either SOC 302 or 304. (Same as SOC 433.)

AAS 471 RACE, ETHNICITY AND POLITICS. (3)
An examination of the role that race and ethnicity play in the political arena. Students will explore the nature of race, racism, and ethnic conflict, as well as their impact on political institutions and public policy. Particular attention will be given to elections, public opinion, mass media and social movements in the United States. (Same as PS 471.)

AAS 523 SOCIAL PERSPECTIVES ON RACISM AND ETHNIC PREJUDICES IN AMERICA. (2-3)
The course is designed to provide the knowledge needed to understand the dynamics of institutional racism from a broader perspective of five specific ethnic minorities in rural and urban America. Particular emphasis is placed upon planned community change and strategies pertinent to minority group communities. Students who wish to make a special, in-depth study of one of the specified content areas may take this course for one additional credit. Prereq: Consent of instructor. (Same as SW 523.)

AAS 535 ADVANCED TOPICS IN SOCIAL INEQUALITIES (Subtitle required). (3)
A sociological study of topics relevant to social inequalities and stratification. May be repeated to a maximum of six credits under different subtitles. Prereq: Graduate student status; undergraduates with consent of instructor only. (Same as SOC 535.)

AAS 550 EDUCATION IN A CULTURALLY DIVERSE SOCIETY. (3)
This course assists future educators in developing strategies to create an equitable teaching/learning environment where all students are validated, stimulated, and nurtured. Course participants explore the rationale for their current belief systems and perceptions of other cultures; investigate how and why their personal attitudes, behaviors, and expectations affect the academic and social development of children and youth, and examine contemporary educational issues. (Same as EDC 550.)

AAS 587 THE CIVIL RIGHTS MOVEMENT IN THE U.S. SINCE 1930. (3)
This course will focus on the struggle for African American equality in the U.S. during the mid-twentieth century. It will examine key civil rights issues, events, strategies, leaders and organizations on both the local and national levels. Using historical documents and documentary film presentations this course will discuss the status of race relations in America over the past fifty years. (Same as HIS 587.)

AAS 601 THEORIES, PERSPECTIVES, TRENDS AND ISSUES IN MULTICULTURAL EDUCATION. (3)
This course provides students with a critical analysis of multicultural education theories, perspectives, current issues, and trends. Students will develop the competencies needed to write scholarly literature reviews, identify areas in multicultural education needing further research studies, and submit papers for review and presentation at professional meetings. Prereq: Graduate standing, EDP 557 or consent of instructor. (Same as EDC 601.)

AAS 616 MULTICULTURAL PSYCHOLOGY. (3)
This course is designed to increase one’s sensitivity to and respect for individual differences. Models, frameworks, techniques and experiential exercises are presented to increase one’s skill level in working with persons from racially and ethnically diverse backgrounds. Prereq: EDP 600 or equivalent or consent of instructor. (Same as EDP 616.)

AAS 635 SEMINAR IN SOCIAL INEQUALITIES. (3)
This course provides a graduate-level introduction to sociological theory and research on social inequalities and stratification. It includes both classic and contemporary works on topics such as political economy, the state, domination, democracy, work, poverty, welfare, resistance, class, race, ethnicities, and gender. The course serves as a foundational course for graduate students with interests in social inequalities, and is required for Sociology graduate students seeking a specialization in this area. Prereq: SOC 650 or SOC 651 or consent of instructor. (Same as SOC 635.)

AAS 654 READINGS IN MODERN AFRICAN-AMERICAN HISTORY. (3)
Introduces graduate students to the historical literature on 20th century African-American history and major historiographical issues. (Same as HIS 654.)

AAS 656 BLACK AMERICAN LITERATURE. (3)
An in-depth study of black American literature, with concentration on major texts by black writers. (Same as ENG 656.)

AAS 657 RACE RELATIONS IN THE UNITED STATES. (3)
This seminar focuses on the African American experience in the United States from Reconstruction to the present. Using primary documents and secondary readings, this course will examine the construction of race relations and the individuals, organizations, events, and issues significant to the shaping of the black experience. (Same as HIS 657.)

AAS 720 SOCIAL WORK PERSPECTIVES ON HUMAN AND CULTURAL DIVERSITY. (2)
This second required course in the human behavior and social environment sequence builds upon the foundation of course. The focus of this course is upon the effects of discrimination and oppression experienced by diverse population groups with special attention to the effects of racism, sexism, ageism, classism and geography upon vulnerable groups; and upon institutionalized societal and cultural themes in diversity; with implications for social work practice. Prereq: SW 620 or advanced standing in the MSW program. (Same as SW 720.)

ABT Agricultural Biotechnology

ABT 101 INTRODUCTION TO BIOTECHNOLOGY. (1)
An introduction to biotechnology: historical perspectives, current applications and future directions. The course will consist of informal lectures and interactive discussions led by Biotechnology faculty and visiting professionals. The course will also orient students to the educational/career opportunities in Biotechnology and assist them in developing a focus for their individualized degree programs. Lecture, two hours per week. Prereq: First year or first semester transfer students in Agricultural Biotechnology.

ABT 201 SCIENTIFIC METHOD IN BIOTECHNOLOGY. (1)
A course designed to acquaint students with the common experimental methods used in agricultural biotechnology. Students will be presented with several case studies which demonstrate basic scientific reasoning and experimental strategies. The students will then use their understanding of basic scientific methods and agricultural systems to critically evaluate work from the current scientific literature. Each student will be required to provide a written and oral evaluation of a research project in some aspect of agricultural biotechnology. The class will provide the students with the basic skills needed for preparing their own research proposals. Prereq: ABT 101 and enrollment in the Agricultural Biotechnology degree program or consent of instructor.

ABT 301 WRITING AND PRESENTATIONS IN THE LIFE SCIENCES. (2)
The goals of this course are to expose students to current scientific literature in the life sciences, develop skills for the evaluation of primary research literature and presentations, prepare students to write an independent research proposal, and develop oral communication skills. Student participation is a key component of activities, and students are required to attend all classes and write a substantial amount of research publications, presentations, and proposals. A major part of the course involves students developing, writing, and presenting an independent research proposal in coordination with a research mentor. This course should be taken prior to ABT 395 or ABT 399, and students must identify a research mentor early during the semester. Prereq: Agricultural Biotechnology major or consent of instructor.

ABT 360 GENETICS. (3)
The basic principles of heredity as currently understood from evidence accumulated in classical, cytogenetic, molecular, and quantitative genetic experiments. Emphasis is placed on a thorough understanding of genetic principles and the relationship of genetics to all biological disciplines. Prereq: Six credits in biological sciences and one course in general chemistry. (Same as ASC/ENT 360.)

ABT 361 GENETICS LAB ONLINE. (1)
Analysis and interpretation of genetics problems using interactive computer programs. Prereq: ABT/ASC/ENT 360 (should be taken concurrently).

ABT 395 INDEPENDENT STUDY IN BIOTECHNOLOGY. (1-4)
Independent study in biotechnology under the supervision of a faculty member. May be repeated to a maximum of six credits. Prereq: Agricultural Biotechnology major and consent of appropriate instructor before registration.

ABT 399 EXPERIENTIAL LEARNING IN BIOTECHNOLOGY. (1-6)
An internship in biotechnology under the supervision of a faculty member. May be repeated for a maximum of six credits. Prereq: Consent of the instructor, chairperson for the Agricultural Biotechnology degree program and completion of a learning contract before registration.

ABT 460 INTRODUCTION TO MOLECULAR GENETICS. (3)
Molecular genetics is the study of the biochemical basis of heredity and focuses on the structure and expression of DNA at the molecular and cellular level. The course will provide a detailed understanding of the biochemical events involved in genome replication, prokaryotic and eukaryotic transcription, and translation of DNA, as well as RNA processing, recombination and the theoretical underpinnings of genetic engineering. Prereq: ABT/ASC/ENT 360 or BIO 304 or consent of instructor. (Same as ENT 460.)
ABT 461 INTRODUCTION TO POPULATION GENETICS. (3)
This survey course examines the population dynamics and equilibria of genes in nucleic acids, chloroplasts and mitochondria. Emphasis will be on biological relevance (in plants, animals, and micro-organisms), but some theoretical derivations will also be introduced. Prereq: ABT 360 (or equivalent) and one course in probability/statistics. (Same as BIO/ENT/FOR 461.)

ABT 495 EXPERIMENTAL METHODS IN BIOTECHNOLOGY. (4)
A laboratory course designed to give students the technical skills and understanding necessary to critically examine biological systems at the molecular level. The course will emphasize the principles of chemistry, biochemistry and molecular biology as applied to a model system for laboratory investigations. Laboratory, nine hours per week. Prereq: BIO 150 and AGR 360, or consent of instructor.

AC American Culture

AC 301 TOPICS IN AMERICAN CULTURE. (3)
A team-taught seminar on a selected topic in American Culture, emphasizing approaches to interdisciplinary study in this field and the ways that different disciplines, when integrated, better complement an understanding of the topic. Possible topics include: slavery, racism, women’s rights, Native Americans, the West, the South, the city and industrialization. May be repeated to a maximum of six credits.

AC 401 PERSPECTIVES IN AMERICAN CULTURE. (3)
A team-taught course on a selected topic in American Culture, emphasizing how different disciplines complement and illuminate a perspective on that period. Possible periods for study: Colonial America, the Enlightenment Age in America, the Age of Jackson, Antebellum America, Civil War and Reconstruction, the Gilded Age, America between the Two Wars, and Contemporary America. May be repeated to a maximum of six credits. Prereq: ACC 301.

ACC Accounting

ACC 201 FINANCIAL ACCOUNTING I. (3)
This course is designed to provide an introduction to financial accounting from the users' perspectives. Its primary purpose is to promote understanding of financial accounting information for decision making purposes and to focus on financial accounting’s role in communicating business results. Prereq: Successful completion of 27 semester credit hours.

ACC 202 MANAGERIAL USES OF ACCOUNTING INFORMATION. (3)
An introduction to the use of accounting data within an organization to analyze and solve problems and to make planning and control decisions. Prereq: ACC 201 or BE 161 and BE 162.

ACC 211 FINANCIAL ACCOUNTING LAB. (1)
A laboratory-based approach to introductory financial accounting applications, with the primary focus on the accounting cycle. The primary objective is to promote an understanding of how accounting information is identified, recorded, and processed for financial accounting purposes. Prereq: ACC 201. Enrollment priority will be given to accounting and finance majors.

ACC 300 FINANCIAL ACCOUNTING II. (3)
This course is designed for non-accounting majors to provide expanded study of the impact of relevant financial accounting issues on the users of financial reporting. Topics may include financial statements; income recognition; cash and receivables; inventories; operational assets; investments; intangible assets; current liabilities; long-term liabilities emphasizing leases, pensions, postretirement benefits, and bonds; financial instruments; accounting for income taxes; and owner’s equity. Not open to Accounting majors. Prereq: ACC 201 and ACC 202.

ACC 301 INTERMEDIATE ACCOUNTING I. (3)
This course is the first of a two-course financial accounting series, providing in-depth study of the accounting cycle, conceptual framework of financial accounting, valuation of balance sheet accounts, recognition of revenues, matching of expenses, and the reporting of the financial condition, operating results, and cash flows of an entity. Prereq: A grade of C or better in ACC 201 and ACC 202 or consent of the Director of the School of Accountancy.

ACC 302 INTERMEDIATE ACCOUNTING II. (3)
This course is the second of a two-course financial accounting series, providing an in-depth study of the accounting cycle, conceptual framework of financial accounting, valuation of balance sheet accounts, recognition of revenues, matching of expenses, and the reporting of the financial condition, operating results, and cash flows of an entity. Prereq: ACC 301 or consent of the Director of the School of Accountancy.

ACC 324 ACCOUNTING INFORMATION SYSTEMS. (3)
This course focuses on two major components of accounting information systems: conceptual models and physical implementation. Accounting systems are studied from an accounting cycles perspective, emphasizing the nature and relevance of accounting internal controls and the relationship of accounting systems to the functional areas of accounting. Using contemporary information technology, students analyze, design, and implement accounting systems along with relevant internal control structures. Prereq: A grade of C or better in ACC 201 and ACC 202 or consent of the Director of the School of Accountancy.

ACC 395 INDIVIDUAL WORK IN ACCOUNTING. (1-6)
Students confer individually with the instructor. Written paper usually expected and filed in chairperson's office. May be repeated to a maximum of six credits. Prereq: GPA of 3.0 in major, approval of instructor and chairperson.

ACC 399 INTERNSHIP IN ACCOUNTING. (1)
A course designed for undergraduate accounting students who, through the Accounting Internship Director, have secured full-time, salaried, career-related positions under the supervision of a sponsoring employer. Enrollment in the course constitutes full-time status. Course may be taken on a pass/fail basis only and for no more than two consecutive semesters, repeated to a maximum of three credits. Prereq: Junior standing in accounting and approval of the Accounting Internship Director.

ACC 400 AUDITING. (3)
This course examines the attest function in accounting. Emphasis is placed on audit standards and objectives, including the evaluation of internal control structures for the purpose of determining relevant auditing procedures. Prereq: ACC 301 and ACC 324 or consent of the Director of the School of Accountancy.

ACC 407 CONCEPTS OF INCOME TAXATION. (3)
A study of the federal income tax structure with emphasis upon the conceptual foundations of taxation relating to the three types of taxpayers: businesses, individuals, and estates and trusts. Prereq: Junior standing and ACC 202 or consent of the Director of the School of Accountancy.

ACC 410 NOT-FOR-PROFIT AND GOVERNMENTAL ACCOUNTING. (3)
This course examines accounting topics specific to not-for-profit entities and various governmental units. Emphasis is placed on the recording of usual transactions, form and content of reports, and analysis of external reports. Prereq: ACC 301 or consent of the Director of the School of Accountancy.

ACC 418 COST MANAGEMENT. (3)
Traditional and contemporary concepts and techniques that provide accounting information for management decision making at both strategic and operational levels. Topics include the costing of products and services; project and activity analysis; planning and control methods; and performance measurement. Prereq: A grade of C or better in ACC 201 and ACC 202 or consent of the Director of the School of Accountancy.

ACC 490 SPECIAL TOPICS IN ACCOUNTING: (Subtitle required). (3)
Readings, projects, lecture, and/or discussion to illuminate current topics of special interest or concern in accounting. May be repeated to a maximum of twelve credits. May not be repeated under the same title. Prereq: Consent of instructor.

ACC 507 ADVANCED TOPICS IN TAXATION. (3)
A study of advanced topics in taxation, including corporate taxation, accounting for income taxes, and international tax. Prereq: ACC 302 and ACC 407 or consent of the Director of the School of Accountancy.

ACC 508 CONTROLLERSHIP. (3)
A comprehensive study of the controller’s objectives, responsibilities, functions, organizational roles, etc. Prereq: ACC 418.

ACC 516 ADVANCED TOPICS IN FINANCIAL REPORTING. (3)
A comprehensive study of financial accounting and reporting issues involving business combinations, partnerships, foreign currency transactions, not-for-profit accounting and other current accounting issues. Prereq: ACC 302 or consent of the Director of the School of Accountancy.

ACC 600 INQUIRY, COMMUNICATION, AND LEADERSHIP IN ACCOUNTING. (3)
This course is designed to develop the inquiry, communication, and leadership skills that are key determinants of success for many not-for-profit, business, and accounting professionals. The course uses readings, in-class exercises, case analyses, small group work, and oral presentations as vehicles for developing these skills. Class modules focus on accounting relevant professional inquiry, oral persuasion, communication, leadership, and teambuilding skills. Class sessions will include participation by and leadership from business, not-for-profit, and accounting professionals. Prereq: Admission to MSACC program, or consent of the Director of Graduate Studies.

ACC 601 RESEARCH IN ACCOUNTING THEORY. (3)
Critical examination of accounting concepts and standards. Study of current problems and contemporary developments reflected in accounting literature and reports. Prereq: Admission to MSACC program, or consent of the Director of Graduate Studies.

ACC 603 ATTEST FUNCTION. (3)
A critical examination of contemporary professional attestation theory and practice including a comprehensive review of AICPA audit case studies, statements on audit procedure, and their application in simulated business situations. Prereq: ACC 403 and admission to MSACC program, or consent of the Director of Graduate Studies.

ACC 610 NOT-FOR-PROFIT AND REGULATORY ACCOUNTING. (3)
A study of the contemporary issues in the area of not-for-profit and regulatory accounting. Prereq: ACC 410G or consent of instructor.
AEC 101 THE ECONOMICS OF FOOD AND AGRICULTURE. (3) An introduction to the field of agricultural economics and some of the basic tools and concepts of decision making. Concepts are illustrated in terms of selected current social and economic issues including the role of agriculture in both a national and international dimension. Students who have completed ECO 201 are not eligible to take AEC 101 without the consent of the instructor.

AEC 201 INTRODUCTION TO FARM AND NATURAL RESOURCE FINANCE. (3) This course provides an introduction to basic concepts used in financial analysis that can be applied to farms and small agriculturally-related businesses. It provides an overview of basic financial statements and their role in business planning. These tools will be applied to case studies of farms, agribusiness, and forestry firms. Prereq: MA 123 and ECO 201 or ECO 202 or AEC 101.

AEC 300 TOPICS IN AGRICULTURAL ECONOMICS (Subtitle required). (1-3) Study in special topics in agricultural economics. May be repeated under a different subtitle to a maximum of 6 credits. A course may be offered twice under a given subtitle. Lecture, 1-3 hours; laboratory, 0-6 hours per week. Prereq: AEC 101, ECO 201.

AEC 302 AGRICULTURAL MANAGEMENT PRINCIPLES. (4) A comprehensive study of economic principles and management tools useful in farm and agribusiness decision making. Utilizes a systems approach to the planning, implementation, and control of the agricultural business. Specific attention to application of management and decision theory, economic principles used in decision making, and risk management strategies. Emphasis on planning the future course of the business, acquiring and managing the necessary resources, and establishing physical and financial control over the business. Lab incorporates microeconomic applications of management principles developed in lectures. Prereq: ECO 201.

AEC 303 MICROECONOMIC CONCEPTS IN AGRICULTURAL ECONOMICS. (3) Emphasis on the development of theoretical models of production and consumption economics and application of these models to problems. The importance of concepts of marginality to managers and consumers is emphasized. Role of risk and uncertainty in resource allocation is outlined. Prereq: ECO 201 and MA 113 or 123.

AEC 304 MACROECONOMIC CONCEPTS IN AGRICULTURAL ECONOMICS. (3) This course addresses the concern that U.S. farmers and the food industry are increasingly affected by macroeconomic forces and general conditions in the national economy. Interdependencies between agriculture, farm size, rural economic well-being and key macroeconomic variables including interest rates, foreign exchange rates and the rate of inflation will be examined. Prereq: AEC 101, ECO 202.

AEC 305 FOOD AND AGRICULTURAL MARKETING PRINCIPLES. (3) Analysis of the market role in determining prices and coordinating productive activities in the food and agricultural systems. Prereq: ECO 201.

AEC 309 INTERNATIONAL AGRICULTURE, WORLD FOOD NEEDS AND U.S. TRADE IN AGRICULTURAL PRODUCTS. (3) Present and projected world food/population balance by geographic regions; food production and world trade in agricultural products with an emphasis upon the implications for U.S. agriculture; an introduction to agricultural development problems of the less developed nations of Latin America, Africa, and Asia. Prereq: AEC 101 or equivalent.

AEC 311 LIVESTOCK AND MEAT MARKETING. (1) Provides students with a comprehensive look at the unique characteristics of the marketing system for livestock. Problems in both the feeder animal sector and the fed animal sector will be considered. Lecture, three hours per week for one-third of the semester. Prereq: AEC 305.

AEC 313 TOBACCO MARKETING. (1) Analysis of the structure of the production and marketing system for tobacco including institutions and public regulation. Application of marketing methods and principles to tobacco. Lecture, three hours per week for one-third of the semester. Prereq: AEC 305.

AEC 314 GRAIN MARKETING. (1) Study of production and utilization of grain by areas of the world, the marketing systems for grain, and the application of economic and marketing principles to the pricing and movement of grain. Prereq: AEC 305, AEC 321.

AEC 316 COOPERATIVE MANAGEMENT AND MARKETING. (1) This course provides knowledge about the unique features of cooperatives and their role in a market economy and examines the structure organization, finance, management, and operations of cooperative organizations. Prereq: AEC 305.

AEC 317 MARKETING HORTICULTURAL PRODUCTS. (1) This course examines the market structure and institutions associated with horticultural and nursery product markets within the context of formulating and evaluating alternative, firm-specific marketing strategies. Prereq: AEC 305.

AEC 320 AGRICULTURE PRODUCT MARKETING AND SALES. (3) This course examines marketing activities within the U.S. food system. Sector performance is considered as well as the competitive behavior of firms within various agricultural market channels. Firm level marketing principles, methods, and strategies are considered, with a special focus on developing effective sales programs for agricultural products. Prereq: AEC 305.

AEC 321 AGRICULTURAL FUTURES MARKETS. (3) The mechanics, theory, and practical application of hedging as related to agricultural commodities. The historical development of futures markets, functions of the futures markets, and the role of the speculator will also be explored. Prereq: AEC 305.

AEC 324 AGRICULTURAL LAW. (3) A study of legislation, administrative regulations, constitutions and court cases that have economic ramifications on agricultural and rural life. Prereq: AEC 101.

AEC 325 EQUINE LAW. (3) This course examines equine law from tort and contractual perspectives dealing with basics of liability, purchase and sale, entity formation, constitutional and tax issues. Following the class, students should be able to recognize when it is necessary to retain a lawyer, but are not expected to be able to act as a lawyer. Prereq: AEC 101 or ECO 201.
<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>AEC 399</td>
<td>EXPERIENTIAL LEARNING IN AGRICULTURAL ECONOMICS</td>
<td>1-6</td>
<td>A field or community-based experience in the application of economics to agricultural or rural problems. May be repeated; a maximum of six credits allowed. Pass-fail only. Credit not available for the Agricultural Economics Major Requirements. Prereq: AEC 101, nine hours in agricultural economics or economics, and permission of instructor, department chairperson, and completion of learning agreement prior to registration.</td>
</tr>
<tr>
<td>AEC 422</td>
<td>AGRIBUSINESS MANAGEMENT</td>
<td>3</td>
<td>Examines and analyzes decision-making tools and problem-solving techniques available to agribusiness managers. Provides learning experience in addressing contemporary economic, marketing and management issues through case study analyses, selected readings, and computerized business simulations. Prereq: AEC 305, FIN 300, MGT 301, MKT 300, and senior standing in Agricultural Economics.</td>
</tr>
<tr>
<td>AEC 424</td>
<td>PRINCIPLES OF ENVIRONMENTAL MANAGEMENT</td>
<td>3</td>
<td>Provides a basic knowledge of the principles of United States environmental law. Addresses the framework of the American Legal system as it applies to environmental regulation. Covers the sources of environmental law and reviews major federal environmental statutes and judicial decisions addressing specific issues. Prereq: AEC 101 or ECO 201.</td>
</tr>
<tr>
<td>AEC 425</td>
<td>TIMBER MANAGEMENT</td>
<td>4</td>
<td>The principles of sustained yield timber management, organization of the forest area, management objectives, timber valuation, regulation of the cut, and timber management plans. Lecture, three hours; laboratory, two hours. Prereq: MA 162, FOR 201, and Summer Camp (FOR 375, 376, 377, 378, and 379), or consent of instructor. (Same as FOR 425.)</td>
</tr>
<tr>
<td>AEC 441G</td>
<td>AGRICULTURAL FINANCIAL MANAGEMENT</td>
<td>3</td>
<td>Applies micro agricultural finance to farm and other agricultural business firms. Reviews elementary mathematics of finance and the objectives of financial management. Uses financial statements, cash flow analysis, financial leverage and other elements in applying the theory of capital investment for making management decisions. Prereq: FIN 300.</td>
</tr>
<tr>
<td>AEC 445G</td>
<td>INTRODUCTION TO RESOURCE AND ENVIRONMENTAL ECONOMICS</td>
<td>3</td>
<td>Economic analysis of the problems of assuring resource availability and environmental quality. Theoretical concepts and empirical tools for evaluating resource and environmental policy. Prereq: ECO 201, or consent of instructor.</td>
</tr>
<tr>
<td>AEC 471</td>
<td>INTERNATIONAL TRADE</td>
<td>3</td>
<td>This is an advanced economic course in international trade. The first part of the course covers the basics of why countries trade, what explains the pattern of trade that we observe and what are the effects of trade on welfare and the distribution of income. The second part of the course covers issues concerning trade policy and looks at the positive and normative effects of trade policy and trade agreements as well as investigating topics of current interest. While the focus of the course is on theory, students will also be exposed to many applications of the theory as a means of both explaining the economic intuition and encouraging students to analyze the world around them from an economic perspective. Prereq: ECO 401 or equivalent. (Same as ECO 471.)</td>
</tr>
<tr>
<td>AEC 479</td>
<td>PUBLIC ECONOMICS</td>
<td>3</td>
<td>An application of economic analysis to the study of the role of government. Emphasis is on the reasons for and the effects of government intervention in the economy. Topics covered include: market failure, public goods and externalities, welfare policy, voting and public choice, taxation, public debt and cost-benefit analysis. Prereq: ECO 401 or equivalent. Agricultural Economics majors may substitute AEC 303 for this prerequisite. (Same as ECO 479.)</td>
</tr>
<tr>
<td>AEC 483</td>
<td>REGIONAL ECONOMICS</td>
<td>3</td>
<td>This course presents an economic approach to the study of regions. The emphasis is on the role of spatial relationships in economic activity. Topics considered include market area analysis, location theory, economic base and input-output analysis as well as regional economic development. Prereq: ECO 202.</td>
</tr>
<tr>
<td>AEC 490</td>
<td>QUANTITATIVE METHODS AND PRICE ANALYSIS</td>
<td>3</td>
<td>An integration of current issues in Agricultural Economics with oral and written communications, problem solving, and research. Major emphasis is on a senior paper and oral presentation. Prereq: AEC 302, 303, 305, ECO 391 and senior standing in Agricultural Economics.</td>
</tr>
<tr>
<td>AEC 501</td>
<td>PRICE THEORY AND APPLICATIONS</td>
<td>3</td>
<td>This course uses calculus to develop core concepts in microeconomics and show how they can be applied to agricultural and natural resource issues. A central objective of this course is to link mathematical techniques with economic analysis to show students that calculus provides an efficient way to study producer and consumer behavior. Prereq: ECO 201 and MA 113.</td>
</tr>
<tr>
<td>AEC 510</td>
<td>INTERNATIONAL TRADE AND AGRICULTURAL MARKETING</td>
<td>3</td>
<td>A study of institutional, economic and cultural factors that influence aggregate agricultural trade and exports of individual agribusinesses. Macro issues of agricultural trade policies are examined along with elements of international marketing for agricultural products. Prereq: AEC 305 and ECO 401.</td>
</tr>
<tr>
<td>AEC 532</td>
<td>AGRICULTURAL AND FOOD POLICY</td>
<td>3</td>
<td>This course surveys a variety of current public policies that influence the agricultural and rural economies. Students are exposed to the conflicting views of those concerned with food and agricultural policy issues in an international economy. Economic principles are used to evaluate alternatives in terms of the general welfare of society. Prereq: AEC 305.</td>
</tr>
<tr>
<td>AEC 545</td>
<td>RESOURCE AND ENVIRONMENTAL ECONOMICS</td>
<td>3</td>
<td>This course builds on the principles of economics to analyze the problems in achieving an efficient allocation of resources. It provides the theoretical concepts for evaluating environmental policies and the tools necessary in the application of benefit/cost analysis. Prereq: ECO 201. (Same as NRE 545.)</td>
</tr>
<tr>
<td>AEC 580</td>
<td>SPECIAL PROBLEMS IN AGRICULTURAL ECONOMICS</td>
<td>1-3</td>
<td>Directed independent study of a selected problem. May be repeated to a maximum of six credits. Prereq: Consent of instructor, director of undergraduate or graduate studies and completion of a proposed plan of learning objectives and outcomes prior to registration.</td>
</tr>
<tr>
<td>AEC 590</td>
<td>INTRODUCTION TO QUANTITATIVE ECONOMICS</td>
<td>1</td>
<td>An introduction to mathematical approaches to economic theory. Emphasis on linear models, constrained optimization, and techniques used in comparative statics. Prereq: ECO 401 and MA 113, or consent of instructor. (Same as ECO 590.)</td>
</tr>
<tr>
<td>AEC 606</td>
<td>ADVANCED AGRICULTURAL MARKETING</td>
<td>3</td>
<td>A critical examination of objectives and results of various types of research in market organization, marketing functions, price analysis, markets over time, space and form, market information, commodity promotion programs, quality standards, and macroeconomic linkages to marketing. Prereq: AEC 624 and ECO 601 (may be concurrent).</td>
</tr>
<tr>
<td>AEC 610</td>
<td>INTERNATIONAL TRADE IN AGRICULTURAL PRODUCTS</td>
<td>3</td>
<td>This course analytically examines current empirical research in the area of agricultural trade. Prereq: ECO 601, AEC 624 and ECO 671.</td>
</tr>
<tr>
<td>AEC 620</td>
<td>ADVANCED PRODUCTION ECONOMICS</td>
<td>3</td>
<td>An advanced treatment of production economics with emphasis on flexible product and factor price situations, factor demand functions, multiple product production, and cyclical production theory. Prereq: ECO 601.</td>
</tr>
<tr>
<td>AEC 622</td>
<td>ADVANCED AGRIBUSINESS MANAGEMENT STRATEGIES</td>
<td>3</td>
<td>This course integrates knowledge of economics, econometrics, business administration, finance, accounting, marketing, decision making, and research methodology. The focus is on analytical skills and scholarly academic research. Prereq: AEC 422, ECO 601 or AEC 603, an introductory course in econometrics, or consent of instructor.</td>
</tr>
<tr>
<td>AEC 624</td>
<td>ADVANCED QUANTITATIVE METHODS IN AGRICULTURAL ECONOMICS</td>
<td>3</td>
<td>This course uses statistical tools to model agricultural and economic systems. Subjects covered include: (1) the classical linear regression model, (2) statistical hypotheses tests, and (3) estimation techniques for single and simultaneous equation models. Prereq: ECO 391 and STA 291.</td>
</tr>
<tr>
<td>AEC 626</td>
<td>AGRICULTURE AND ECONOMIC DEVELOPMENT</td>
<td>3</td>
<td>Analytical consideration of the role of agriculture in economic development in relation to overall development strategy at various stages of growth. Theoretical and policy issues of particular relevance to the agricultural development in underdeveloped agrarian economies with various resource, social, political and economic systems. Prereq: ECO 473G or consent of instructor. (Same as ECO 674.)</td>
</tr>
<tr>
<td>AEC 640</td>
<td>ADVANCED AGRICULTURAL POLICY</td>
<td>3</td>
<td>This course focuses on development of a framework to analyze alternate paradigms of the political economy. The framework focuses on the role of institutions that modify behavior of decision makers. Agricultural and food policies are evaluated in terms of the efficient use of resources and the general welfare of society. Prereq: ECO 601 or AEC 503.</td>
</tr>
<tr>
<td>AEC 645</td>
<td>NATURAL RESOURCE ECONOMICS</td>
<td>3</td>
<td>Economic analysis of natural resource use and environmental issues. Discussion of criteria for public decision making, welfare economics, market failure, benefit-cost analysis, and benefit estimation, as applied to natural resources and the environment. Prereq: ECO 590 and ECO 601.</td>
</tr>
<tr>
<td>AEC 646</td>
<td>INTEMPORAL ALLOCATION OF NATURAL RESOURCES</td>
<td>3</td>
<td>This course teaches the application of economic theory to the analysis of solutions for current and prospective natural resource problems. Such understanding will be geared toward fashioning, selecting and implementing planning associated with land, water, air, biological and other natural resources and conservation of the natural environment in serving the needs and desires of citizens. Prereq: ECO 660 and AEC 590.</td>
</tr>
<tr>
<td>AEC 653</td>
<td>LOCAL ECONOMIC DEVELOPMENT</td>
<td>3</td>
<td>The course develops the capacity to employ the theories, practices and philosophies of economic development as applied to local areas. The primary geographic focus of the course is in the rural south-east of the United States, but examples will be drawn from rural areas in other developed countries. Prereq: Graduate status in agricultural economics, public administration, economics, or consent of instructor. (Same as PA 653.)</td>
</tr>
</tbody>
</table>
AEC 661 PROGRAMMING MODELS IN AGRICULTURAL ECONOMICS. (3)
A study of some programming models useful in agricultural economics; includes an examination of the structure of the models themselves, economic interpretation of their components and their use in research in agricultural economics. Prereq: MA 416G and either AEC 620 or ECO 601.

AEC 662 QUANTITATIVE METHODS IN RENEWABLE AND NONRENEWABLE RESOURCE MANAGEMENT. (3)
Application of dynamic optimization methods to renewable and nonrenewable resource management. Includes problem formulation, mathematical problem solving, Matlab programming, simulations, and optimal policies analysis. Case examples are used to demonstrate applicability and problem formulation in finance and general and partial equilibrium. Prereq: MA 113 and MA 162 or equivalent, and AEC 661 or equivalent. (Same as FOR 662.)

AEC 691 STRUCTURE OF U.S. AGRICULTURE. (3)
This seminar will analyze the structural transformation of U.S. agriculture in the 19th and 20th centuries in the context of sociological theory. Emphasis is given to key historical transitions, changing social relations of production and state policy. Such emphases provide a framework for understanding the historical roots and future prospects for the socioeconomic problems confronting contemporary U.S. agriculture. Prereq: Graduate standing in sociology, agricultural economics or CLD or consent of instructor. (Same as CLD/SOC 691.)

AED 749 MASTER'S THESIS RESEARCH. (0)
Half-time to full-time work on thesis. May be repeated to a maximum of six semesters. Prereq: All course work toward the degree must be completed.

AED 749 DISSERTATION RESEARCH. (0)
Half-time to full-time work on dissertation. May be repeated to a maximum of six semesters. Prereq: Registration for two full-time semesters of 769 residence credit following the successful completion of the qualifying exams.

AEC 767 DISSERTATION RESIDENCY CREDIT. (2)
Residency credit for dissertation research after the qualifying examination. Students may register for this course in the semester of the qualifying examination. A minimum of two semesters are required as well as continuous enrollment (Fall and Spring) until the dissertation is completed and defended.

AEC 768 RESIDENCE CREDIT FOR MASTER'S DEGREE. (1-6)
May be repeated to a maximum of 12 hours. Prereq: Consent of adviser and chairperson of department.

AEC 769 RESIDENCE CREDIT FOR DOCTOR'S DEGREE. (0-12)
May be repeated indefinitely. Prereq: Consent of adviser and chairperson of department.

AEC 780 SPECIAL PROBLEMS IN AGRICULTURAL ECONOMICS. (1-3)
Open to graduate students who have the necessary training and ability to conduct research on a selected problem. May be repeated three times for a total of nine credits. Prereq: Consent of instructor and departmental chairperson.

AEC 790 RESEARCH WORK IN AGRICULTURE ECONOMICS. (3-9)
Independent research under the direction of a faculty member and the Director of Graduate Studies. Prereq: Successful completion of written portion of AEC qualifying exam and permission of Director of Graduate Studies.

AEC 796 SEMINAR (Subtitle required). (3)
An extended original investigation of a specific topic designed to give students experience in methods of research and an intensive study of a particular subject in the field of agricultural economics. May be repeated to a maximum of six credits under different subtitles. Prereq: Ph.D. applicant or candidate.

AED 110 INTRODUCTION TO CAREER AND TECHNICAL EDUCATION. (3)
The history, status, philosophy, and objectives of career and technical education in relation to general education. (Same as FCS 110.)

AED 362 FIELD EXPERIENCES IN CAREER AND TECHNICAL EDUCATION. (3)
Supervised experiences in schools and other agencies. Required of all Career and Technical Education majors. Includes observation, participation, experience, field trips, inspection of programs, and professional organizations. Prereq: Majors only. (Same as FCS 362.)

AED 371 ADVISING A CAREER AND TECHNICAL STUDENT ORGANIZATION. (3)
This course is designed to assist students in developing skills and competencies needed to plan, implement, advise, and evaluate a Career and Technical Student Organization as part of the total CTE program. (Same as FCS 371.)

AED 395 SPECIAL PROBLEMS IN CAREER AND TECHNICAL EDUCATION. (1-3)
A directed independent study of a selected problem in the field of career and technical education under the supervision of a faculty member. Prereq: Consent of appropriate instructor. (Same as FCS 395.)

AED 399 EXPERIENTIAL LEARNING IN CAREER AND TECHNICAL EDUCATION. (1-3)
A field based learning experience in career and technical education under the supervision of a faculty member. Student must complete a learning contract which outlines the requirements agreed to by the student for successful completion of the course. Prereq: Consent of appropriate instructor. (Same as FCS 399.)

AED 535 PRINCIPLES AND PHILOSOPHY OF CAREER AND TECHNICAL EDUCATION. (3)
Study is made of philosophy, accepted principles, and legislation affecting programs in vocational education. (Same as FCS 535.)

AED 580 FOUNDATIONS OF TEACHING CAREER AND TECHNICAL EDUCATION. (3)
Course focuses on the foundation of teacher development including: effective teacher characteristics, principles of teaching and learning, and preparation of lesson plans. Prereq: Admission into the Teacher Education Program. (Same as FCS 580.)

AED 583 DESIGNING CURRICULUM AND ASSESSMENT IN CAREER AND TECHNICAL EDUCATION. (3)
Instructional methodology course focused on analyzing the principles of teaching and learning to design curriculum, instruction, and assessment for formal and non-formal educational settings. (Same as FCS 583.)

AED 586 METHODS OF TEACHING CAREER AND TECHNICAL EDUCATION. (3)
Development of teaching competencies with emphasis on: discussion, demonstration, problem-solving, cooperative learning, service learning methods. Prereq: Admission into the Teacher Education Program and AED/FCS 580. (Same as FCS 586.)

AED 592 TEACHING EXPERIENCE IN CAREER AND TECHNICAL EDUCATION. (12)
Supervised experience in teaching Career and Technical Education. Requires observation, lesson plan development, and incorporation of effective teaching methods and strategies. Regularly scheduled seminars included as an integral part of course. Prereq: Admission into the Teacher Education Program and successful completion of AED/FCS 580 and AED/FCS 586. (Same as FCS 592.)

AED 670 ADVANCED METHODS IN TEACHING CAREER AND TECHNICAL EDUCATION. (3)
A study of the underlying philosophy and principles for organizing and advising youth organizations in career and technical education. Emphasis on activities that will enrich and motivate the instructional programs, and develop leadership, cooperation and citizenship. (Same as FCS 671.)

AED 671 YOUTH ORGANIZATIONS IN CAREER AND TECHNICAL EDUCATION. (3)
A study of the underlying philosophy and principles for organizing and advising youth organizations in career and technical education. Emphasis on activities that will enrich and motivate the instructional programs, and develop leadership, cooperation and citizenship. (Same as FCS 671.)

AED 679 ADULT EDUCATION IN CAREER AND TECHNICAL EDUCATION. (3)
Preparation for teaching adult classes in career and technical education including organization of classes, development of curriculum, and methods of teaching. (Same as FCS 679.)

AED 682 RESEARCH METHODS. (4)
Research methods and skills for communicators, educators, and leadership development programs. Topics include design and analysis, data gathering techniques, assessment tools, and issues such as the policies of information. (Same as CLD/FCS 682.)

AED 684 CURRENT TRENDS IN CAREER AND TECHNICAL EDUCATION. (3)
Directed study of current trends and significant developments in career and technical education. May be repeated to a maximum of nine credits. (Same as FCS 684.)

AED 686 INSTRUCTIONAL ASSESSMENT IN CAREER AND TECHNICAL EDUCATION. (3)
Instructional assessment of learning and achievement in Career and Technical Education middle and high school classrooms is addressed. Focus is placed on test writing, measurement and student achievement. (Same as FCS 686.)

AED 693 SUPERVISION IN CAREER AND TECHNICAL EDUCATION. (3)
This course includes practice in teaching for observation by others, student teaching, and school visiting. (Same as FCS 693.)

AED 694 THE ADMINISTRATION OF CAREER AND TECHNICAL EDUCATION. (3)
A course designed for superintendents, high school principals, and other administrators.
### AEN Agricultural Engineering

#### AEN 103 BASIC PRINCIPLES OF SURVEYING.
General use of surveying equipment, development of topographic maps, layout of engineering systems, earthwork computations, and introduction to boundary surveys for Agriculture students. This course is not available for credit to persons who have received credit in another introductory surveying course. Lecture, one hour; laboratory, three hours. Prereq: A course in trigonometry, enrollment in the College of Agriculture and/or consent of instructor.

#### AEN 220 FARM TRACTORS AND ENGINES.
Principles of selection and application of farm tractors and engines. Operating principles of internal combustion engines including carburetion, fuel injection, ignition, and lubrication. Power transmission application and efficiency are considered. Lecture, two hours per week; laboratory, two hours per week. Prereq: A course in trigonometry, enrollment in the College of Agriculture and/or consent of instructor.

#### AEN 252 FARM SHOP.
Wood and metal work, including blueprint reading, oxyacetylene and arc welding, power woodworking tools, soldering and pipe work. Lecture, one hour; laboratory, four hours. Prereq: Major in agricultural education or consent of instructor.

#### AEN 340 PRINCIPLES OF FOOD ENGINEERING.
The functional requirements and principles of operation of systems for the handling and processing of food and agricultural products. Lecture, three hours; laboratory, two hours per week. Prereq: Junior standing and completion of physics and mathematics requirement in Food Science curriculum.

#### AEN 461G BIOMETEOROLOGY.
An introduction to the impact and relationship of the atmosphere on living organisms. Emphasis on the practical application of meteorology to everyday problems within the biosphere. Weather analysis, interpretation, psychometrics of the atmosphere, and the impact of weather and climate on animals, plants and man are discussed. Lecture, two hours; laboratory, two hours per week. Prereq: BIO 150 and STA 291 or consent of instructor.

#### AEN 462 RESIDENTIAL AND COMMERCIAL IRRIGATION DESIGN.
The utilization of hydraulic principles in the design, assimilation, installation and operation of residential and commercial irrigation systems in applications which emphasize water conservation, nutrient management and environmental protection. Lecture, two hours; laboratory, two hours per week. Prereq: Consent of instructor.

#### AEN 463G AGRICULTURAL SAFETY AND HEALTH.
The course provides a comprehensive overview of major safety and health hazards in agricultural production and an overview of the basic approaches for the prevention and control of agricultural injuries and illnesses. The course is oriented toward upper class and graduate students. Prereq: AEN 220, AEN 252, and junior standing or consent of instructor.

#### AED 695 SPECIAL PROBLEMS IN CAREER AND TECHNICAL EDUCATION.
An independent work course for students interested in career and technical education. Students make individual investigations and report on special problems. (Same as FCS 695.)

#### AED 710 COLLEGE TEACHING OF AGRICULTURE, NATURAL RESOURCES AND HUMAN SCIENCES.
A course designed to assist current or future college faculty in agriculture, natural resources or human science disciplines seeking to enhance the teaching skills. Topics include theories, principles and practices associated with effective teaching and learning in higher education. Prereq: Graduate Standing in the College of Agriculture. (Same as AED 710.)

#### AED 748 MASTER'S THESIS RESEARCH.
Half-time to full-time work on thesis. May be repeated to a maximum of six semesters. Prereq: All course work toward the degree must be completed. (Same as FCS 748.)

#### AED 768 RESIDENCE CREDIT FOR THE MASTER'S DEGREE.
May be repeated to a maximum of 12 hours. (Same as FCS 768.)

#### AED 779 SEMINAR IN CAREER AND TECHNICAL EDUCATION.
A critical study of selected problems in career and technical education. May be repeated to a maximum of nine credits. (Same as FCS 779.)

#### AED 789 INDEPENDENT WORK IN CAREER AND TECHNICAL EDUCATION.
An independent work course for students who have completed a minimum of 12 semester hours of graduate work, one-half of which must have been in career and technical education. May be repeated to a maximum of nine credits. (Same as FCS 789.)

#### AED 799 RESEARCH IN CAREER AND TECHNICAL EDUCATION.
