The Agricultural Economics program enables graduates to pursue careers in agribusiness and food industries, international marketing and trade, or farm management and production. Opportunities are also available in public policy for agriculture and rural America and environmental economics. These career opportunities may be found in both the private and public sectors. Economic theory is applied to problems concerning the production, marketing, and distribution of agricultural and food products and also to public policy and natural resource and environmental issues facing rural communities.

Agricultural Economics students choose one of two options—Option A: Agricultural Economics, and Option B: Agribusiness Management and Food Marketing.

Graduation Requirements
To earn the Bachelor of Science in Agricultural Economics, the student must have a minimum of 120 credit hours with at least a 2.0 grade-point average in one of the two program options. A student must earn a minimum grade of C in each of the four agricultural economics courses required in the major. A minimum of 45 credit hours must be from upper division courses (300 and above). Remedial courses may not be counted toward the total hours required for the degree. In addition to UK Core requirements, students must complete college, departmental and support requirements.

UK Core Requirements
See the UK Core section of the 2015-2016 Undergraduate Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

I. Intellectual Inquiry in Arts and Creativity
Choose one course from approved list ......................................................... 3

II. Intellectual Inquiry in the Humanities
Choose one course from approved list ......................................................... 3

III. Intellectual Inquiry in the Social Sciences
ECO 101 Contemporary Economic Issues or course from approved list ......................................................... 3

IV. Intellectual Inquiry in the Natural, Physical, and Mathematical Sciences
Choose one course from approved list ......................................................... 3

V. Composition and Communication I
CIS/WRD 110 Composition and Communication I ...................................... 3

VI. Composition and Communication II
CIS/WRD 111 Composition and Communication II ...................................... 3

VII. Quantitative Foundations
MA 123 Elementary Calculus and Its Applications or
MA 113 Calculus I .................................................................................... 4

VIII. Statistical Inferential Reasoning
STA 296 Statistical Methods and Motivations ............................................... 3

IX. Community, Culture and Citizenship in the USA
GEN 100 Issues in Agriculture, Food and Environment .................................. 3

X. Global Dynamics
Choose one course from approved list ......................................................... 3

UK Core hours ......................................................................................... 31

Graduation Composition and Communication Requirement (GCCR)
AEC 306 Technical Communication in Economics .................................. 2

Graduation Composition and Communication Requirement hours (GCCR) ......................................................... 2

OPTIONS

Option A: Agricultural Economics
This option provides a program of study for students interested in careers in rural public policy analysis, rural economic development, natural resource and environmental economics, cooperative extension, or a more individualized program.

Premajor Requirements
ECO 201 Principles of Economics I ................................................................. 3
ECO 202 Principles of Economics II ............................................................... 3
MA 113 Calculus I .................................................................................... 4

OR
MA 123 Elementary Calculus and Its Applications and
MA 162 Finite Mathematics and Its Applications ........................................... 7
STA 296 Statistical Methods and Motivations ............................................... 3
ECO 391 Economic and Business Statistics .................................................. 3

Subtotal: Premajor hours ............................................................................. 16-19

Major Requirements
Notes: Students must have a C or higher in ECO 201 to enroll in the core classes and a C or higher in ECO 201 and MA 123 to enroll in AEC 303. Students must receive a grade of C or better in each of the following four agricultural economics courses required for graduation:

AEC 302 Agricultural Management Principles .......................................... 4
AEC 303 Microeconomic Concepts in Agricultural Economics ..................... 3
AEC 305 Food and Agricultural Marketing Principles .................................... 3
AEC 306 Technical Communication in Economics ...................................... 2
AEC 490 Quantitative Methods and Price Analysis ....................................... 3

Plus, after completing AEC 302 or AEC 303 or AEC 305:
AEC 301 Career Readiness for Agricultural Economics ............................... 1

Plus one of the following:
AEC 395 Independent Research in Agricultural Economics
AEC 396 International Studies in Agricultural Economics
AEC 399 Experiential Learning in Agricultural Economics .......................... 1-3

Plus 12 additional hours in the major
(at least 3 hours at 400+ level) .................................................................... 12

Subtotal: Major hours .................................................................................. 31
