The College of Communications and Information Studies consists of the Department of Communication, the School of Journalism and Telecommunications, and the School of Library and Information Science. The Department of Communication educates its students in interpersonal, small group, mass, health and organizational communication, and communication theory and research. Graduates pursue a variety of career paths in areas such as corporate communication, health communication, personnel, education, media, and government. The journalism area within the School of Journalism and Telecommunications educates its students for professional careers in the media as writers, editors, and broadcasters. The integrated strategic communication area within the School prepares students for careers as professionals in the allied areas of advertising, public relations, and direct response communication. The telecommunications area within the School of Journalism and Telecommunications educates its students in telecommunications technology, management, programming, research, audio-video production, and the societal consequences of electronic media. The School of Library and Information Science provides students with the basic knowledge and skills required to function effectively in beginning professional positions in various types of libraries and information-providing agencies.

**Accreditation**

Majors in the School of Journalism and Telecommunications have national accreditation from the Accrediting Council on Education in Journalism and Mass Communications (ACEJMC).

**Undergraduate Programs in Communications and Information Studies**

The University of Kentucky grants the following degrees in the College of Communications and Information Studies:

- Bachelor of Arts
- Bachelor of Science

Students pursuing either the Bachelor of Arts or the Bachelor of Science select from these majors: communication, integrated strategic communication, journalism, and telecommunications. Students may also select a minor in communication and a minor in telecommunications. Students may not double-major within the School of Journalism and Telecommunications.

University requirements for a double major stipulate that each major be in a separate department (see Academic Requirements section of this Bulletin). No student may take more than 40 hours within the School to complete a degree.

**Scholarships and Financial Aid**

The College of Communications and Information Studies has several opportunities for students to obtain scholarship funding. The college awards four scholarships to incoming freshmen and two scholarships each to rising juniors and seniors each academic year. The School of Journalism and Telecommunications awards nearly $16,000 in aid from various scholarship funds annually. The Department of Communication also has funding available for students. Generally, the deadline for scholarship applications is early in the spring semester to award funding for the following academic year. For specific information on scholarships, contact the department office, or the Office of Student Services in 105 Grehan Building.

**ADMISSION POLICY**

Admission to the University is sufficient for admission to the College of Communications and Information Studies as a pre-major for students who have completed less than 45 semester hours. An application must be filed with the college in order for a student to be considered for admission as a pre-major or major. However, admission as a pre-major does not guarantee admission as a major in one of the degree programs in the College of Communications and Information Studies. In general, admission as a major depends upon the qualifications and preparation of the applicant, as well as the availability of resources for maintaining quality instruction. Additionally, depending on the timing of admission into the major program, students may not have access to major classes until subsequent semesters.

Upper-division admission into a degree program is necessary in order to be granted a baccalaureate degree from the College of Communications and Information Studies.

**Transfer Students**

The School of Journalism and Telecommunications is accredited by the Accrediting Council on Education in Journalism and Mass Communication (ACEJMC). Under ACEJMC guidelines, no more than 12 hours of journalism and mass communications courses from a student’s previous institution(s) may be counted toward a degree in journalism, inte-
Admission to Degree Programs

In order to be admitted to any of the four undergraduate majors (communication, integrated strategic communication, journalism, and telecommunications) offered by the College of Communications and Information Studies, an applicant must fulfill the following requirements:

1. Enrollment in the University of Kentucky (Students are considered for acceptance by the college only after acceptance by the University.);
2. Completion of 45 semester hours of course work;
3. Minimum of 2.6 cumulative grade-point average;
4. Completion of premajor requirements of the program to which application is made. Students must attain a minimum grade-point average of 3.0 on all premajor courses*;
5. Completion of the University Studies Program requirements I (Math), II (Foreign Language), III (Inference), IV (Written Communication) and VII (Social Sciences), plus six more hours from VI (Natural Sciences) and/or VIII (Humanities);
6. Submission of an application form.

*For the journalism premajor requirements, the student’s grade in JOU 204 counts double in figuring the premajor grade-point average.

Students meeting these requirements will be designated as majors or as students with upper-division standing in the program to which admission is granted. Any student not meeting one or more of these requirements may be granted premajor status.

In the admission considerations, when personal, academic, professional, or intellectual circumstances tend to discount lower academic scores, admission may be granted if there is other persuasive evidence of both the capability and motivation to undertake successfully a program in the College of Communications and Information Studies.

Annually, the College of Communications and Information Studies faculty will review the minimum standards required for admission to the college. Any change in requirements will be implemented at the beginning of the academic year (fall semester) and will be in effect for the entire academic year. If the standards are to be changed, the Dean of the College of Communications and Information Studies will submit the proposed change by February 1 to the University Senate Council for approval, with prior circulation to the University deans and directors.

Admissions Process

Application for admission to the College of Communications and Information Studies, whether premajor or major, must be received no later than April 1 for the summer session, August 1 for the fall semester, and October 1 for the spring semester. Normally such application will be made prior to the satisfactory completion of 60 semester hours of college-level courses. Subsequent transfer between majors will be permitted only upon application to and acceptance by the academic unit offering that major.

Each applicant bears the responsibility to see that the application contains all the requested materials.

Automatic acceptance: Assuming all else is in order, applicants with a 2.6 or above undergraduate grade-point average will be accepted. Once accepted, each student will be assigned a major advisor by the appropriate department office.

Admission based upon departmental review: Students who do not meet one or more of the requirements for admission, but who feel that this is due to extenuating personal, academic, professional, or intellectual circumstances, must describe these circumstances in detail in a separate letter of appeal. These circumstances will be considered by the Admissions Committee of the appropriate program. The applicant will be informed in writing of the committee’s decision, which also will be forwarded to the college’s Office of Undergraduate Studies.

Enrollment in Upper Division Courses

Enrollment in College of Communications and Information Studies courses numbered 300-599 will be limited in order of priority to:

1. majors and minors in College of Communications and Information Studies degree programs;
2. non-College of Communications and Information Studies students who are registered for specific programs requiring College of Communications and Information Studies courses;
3. other students or categories of students with the express permission of the department offering the course (departments may choose to declare certain courses as open enrollment courses).

Graduation Requirements

To earn either the Bachelor of Arts or the Bachelor of Science degree in the College of Communications and Information Studies, each student must (1) complete 120 hours of course work (excluding courses lower than the 100 level, courses with an R designation, physical education service courses, and/or EXP 396 credits) with a grade-point average of at least 2.0 and (2) complete at least 42 hours in upper division courses (300 or above). No more than 60 hours may be taken within the college.

Other requirements include University Studies, premajor requirements, field of concentration (24 hours of major work and 15-18 hours of cognate courses earned outside the college as defined by the units), and a minimum of six hours of free electives.

Bachelor of Arts
Degree Requirements

Students who pursue the B.A. within the College of Communications and Information Studies must fulfill the following requirements:

University Studies: Students must complete all areas of the University Studies Program. (See University Studies Program section in this Bulletin for a detailed explanation of requirements.)

College B.A. Requirements

1. Language. Complete one of the following sequences:
   Option A: Successful completion of the fourth college semester of one foreign language. (Note: This may be accomplished by scoring at this level on a placement test for previous work in the foreign language.)
   Option B: Complete the University Studies Requirements in a foreign language and a set of two courses dealing with the nature and structure of language, language behavior, or comparative languages. This set shall be comprised of one course from Group I below, and one course from Group II.
   (Courses counted as meeting this option may not be counted in the major or field of concentration.)
   Group I: LIN/ENG 211.
   Group II: ENG 210, ENG/LIN 212, ENG/LIN 310, LIN 317, LIN 318, ANT/LIN 319, ENG/LIN 512, ANT/ENG/LIN 515, ANT/ENG/LIN 516, LIN 517.
2. Statistics. Complete one course in statistics (e.g., STA 200, 291, 370)

Major Requirements

Students must complete the departmental requirements for one of the four majors (communication, integrated strategic communication, journalism, and telecommunications).

Subtotal: College B.A. Hours .......... 15

Bachelor of Science
Degree Requirements

Students who pursue the B.S. within the College of Communications and Information Studies must fulfill the following requirements:

University Studies: Students must complete all areas of the University Studies Program. (See University Studies Program section in this Bulletin for a detailed explanation of requirements.)

College B.S. Requirements

1. Mathematics, statistics and computer science: Complete nine credits in mathematics and/or computer sciences beyond the University Studies requirement. At least three hours must be in statistics.
2. Science Courses. Complete a minimum of 60 hours of science courses, with not more than 12 hours within the College of Communications and Information Studies. These courses must be approved by an advisor in the College of Communications and Information Studies and may be from the areas of mathematics, statistics, computer science, physical sciences, biological sciences, social and behavioral sciences, as well as from appropriate professional fields.

Subtotal: College B.S. Hours .......... 69
Academic Advising
Premajor (freshman and sophomore) advising in the College of Communications and Information Studies is under the jurisdiction of the Office of Student Services, 105 Grehan Building. Premajor advisors are Cathy Hunt, Director of Student Services, and Mimi Haley, Assistant Director of Student Services. Either can be reached at (859) 257-4839.

During advance registration periods, the college will advise premajors through individual advising sessions with college and department staff. Between advance registration periods, including registration at the beginning of each term, one faculty or staff member from each academic unit will be available to advise premajors.

When students are admitted to the upper-division of the college, they are assigned a faculty advisor from their major program.

B.S. or B.A. with a major in COMMUNICATION

The major in communication provides students with the knowledge and skills necessary to design, manage, and evaluate communication processes involving individuals, groups, and the public. Graduates develop strong oral, written, and interpersonal communication skills as well as an advanced ability to analyze and critique messages, behaviors, and media.

Majors typically plan their upper-division course work around four identified career paths: corporate communication, health communication, interpersonal relationships, and mass communication. Students also can tailor their own unique program of study to meet specific needs. Careful planning with the student’s advisor is necessary.

Communication majors are encouraged to participate in educational activities beyond regular course offerings. The department has an excellent internship program which offers the opportunity for work with employers in corporate, government, and public service agencies. In addition, students may elect to do independent study work with individual faculty on special topics or projects. All majors are encouraged to participate in a variety of student organizations providing extracurricular activities designed to enhance the academic experience and career opportunities. These include the Communication Student Association, and, for those who qualify, a Department Honors Society.

Degree Requirements
Each student completes the following:

College Requirements
See “College B.A. Requirements” or “College B.S. Requirements” on page 142.

University Studies Requirements Hours
See “University Studies Program” on pages 70-74 for the complete University Studies requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill University Studies areas. Students should work closely with their advisor to complete the University Studies Program requirements.

Courses marked with an asterisk (*) may also be used to satisfy University Studies requirements.

   COM 350 Language and Communication .............. 3
3. Three courses (nine hours) from COM courses at the 400-level or above.

B.S. or B.A. with a major in INTEGRATED STRATEGIC COMMUNICATION

The Integrated Strategic Communication major offers students professional preparation for careers in the allied areas of advertising, public relations, and direct response communication. Through course work, students
develop conceptual command of each allied area and also build expertise in one area through the PATH option they select. The major stresses a strategic approach to communication initiatives and is designed to build analytical and critical thinking skills as well as writing and presentation skills.

ISC graduates enjoy highly diverse career destinations. Agencies specializing in advertising, public relations, and direct response along with the media and communication technology industries, corporations, nonprofit organizations, and regulatory/consumer protection agencies need employees who have the skills developed by the ISC graduate.

ISC students are encouraged to expand their course work with activities unique to the major. Grehan Associates is a student-run full-service communications agency where students meet clients’ advertising, public relations, and direct response needs. The American Advertising Federation and Public Relations Society of America student chapters offer both leadership and networking opportunities. A dynamic, professionally-oriented internship program insures that students gain hands-on experience with communications, government, or nonprofit agencies or with corporations or the media. Students are also encouraged to work with The Kentucky Kernel, the Kernel, WRFL and WUKY.

A 300+ level course in the Department of Philosophy dealing with social or professional ethics, such as PHI 330.

**Note:** 15 additional credit hours of upper division courses will be required in the School of Journalism and Telecommunications. In consultation with his or her advisor, each student should design a field of concentration which helps develop an area of in-depth, specialized knowledge. This specialized knowledge should complement each student’s career goals fully. The ISC major’s academic advisor will help identify current and emerging career areas. For each of these career areas, a select group of courses will be recommended for their value in furthering career interests.

Many of these courses are from the disciplines of psychology, sociology, English, and philosophy. Selected marketing courses are also recommended. Students should be aware that entrance into these courses is highly competitive and may preclude being able to include a specific marketing course in the field of concentration designed.

**Subtotal: Major Hours** 45

**TOTAL HOURS:** minimum of 120

The journalism major prepares students for leadership roles in rapidly changing media by requiring a strong core of journalism courses within the rich context of a liberal arts education. Courses are designed to foster analytical and critical thinking skills and to teach students to communicate effectively with a mass audience.

Founded in 1914, the journalism program has full national accreditation by the Accrediting Council on Education in Journalism and Mass Communications. Alumni include Pulitzer Prize winners, Nieman fellows and nationally known journalists.

Journalism majors learn about media law, ethics and history, and about the media’s role in an increasingly diverse society. The program emphasizes hands-on learning. Students select either a print or electronic emphasis in their professional skills courses. Majors choosing a print emphasis have the opportunity to write for a daily newspaper. Students who select the electronic track gain on-air experience at the university radio station and report, anchor, videotape and produce a newscast aired on a local cable channel.

Graduates are prepared for jobs as reporters and editors for print, broadcast and online media, and for positions as assignment editors, producers, managing editors, publishers and new media entrepreneurs. Courses are also offered for students interested in specialized careers such as sports reporting, business writing, arts criticism or graphic design.

All majors are encouraged to supplement their course work with media experience at The Kentucky Kernel, the independent daily student newspaper; the Student yearbook; WUKY, the university’s public radio station, or WRFL, the student-run radio station. In addition, students are expected to take advantage of the school’s internship and job placement programs.

All telecommunications majors will take advantage of the experiential learning opportunity provided by a formal internship. The School of Journalism and Telecommunications has an excellent internship program which offers the opportunity to work with a wide variety of employers, including companies oriented to the provision of voice, data, and/or video products and services. In addition, students may pursue special interests in telecommunications through independent study with any of the telecommunications professors.

Degree Requirements

Each student completes the following:

College Requirements

See “College B.A. Requirements” or “College B.S. Requirements” on page 142.

University Studies Requirements

See “University Studies Program” on pages 70-74 for the complete University Studies requirements. Cognate Area: All majors must fulfill the field of concentration or cognate area requirement by taking a minimum of 15 hours outside the major at or above the 300 level in courses related to their telecommunications interest.

Subtotal: Major Hours ........................................ 42

TOTAL HOURS: ................................ minimum of 120

Note: Of a student’s total course work for a bachelor’s degree, 80 of the 120 hours required for graduation must be in courses other than journalism or mass communications. (Accreditation standards require at least 65 semester hours in basic liberal arts and sciences.)

Minor in Telecommunications

Any student wishing to minor in telecommunications should file an application with the School of Journalism and Telecommunications after meeting the following requirements:

Complete either TEL 101 or TEL 201
Complete 45 hours of university course work with a cumulative grade-point average of 2.6

Students cannot register for upper-level telecommunications courses until they have met the above requirements and have been accepted into the telecommunications minor program. After a student has been accepted as a minor, he or she will be assigned a faculty advisor.

The minor in telecommunications requires a minimum of 21 hours to include the following:

1. TEL 101 Telecommunications I: Mass Communication Systems .......... 3
TEL 201 Telecommunications II: Interactive Communication Systems ........ 3
CS 101 Introduction to Computing I .......... 3
The libraries of the University, W.T. Young, the Lexington Public Library, several nearby public libraries and the State Department for Libraries and Archives in Frankfurt.

Students may take only six hours from the following courses: TEL 312, 412, 432, 442; JAT 399.

Note: Students should recognize that most upper-division telecommunication courses have specific prerequisite courses that must be taken and plan their programs accordingly.

M.S. in LIBRARY SCIENCE

The School of Library and Information Science began in 1933 as the Department of Library Science within the College of Arts and Sciences. Sixty years later, in 1993, the College of Library and Information Science merged with the College of Communications to form the College of Communications and Information Studies. The new college consists of a School of Library and Information Science, a School of Journalism and Telecommunications, and a Department of Communication. The school offers one of 58 master’s programs in library and information science in the United States and Canada that are accredited by the American Library Association.

The School of Library and Information Science provides students with the basic knowledge and skills required to function effectively in beginning professional positions in various types of libraries and information-providing agencies. It contributes to the advancement of both the theory and practice of librarianship through systematic and continuing research and publication and provides continuing public service to individuals, libraries, professional organizations and related institutions to the end of promoting effective and efficient information services. The School of Library and Information Science maintains flexibility and openness to change through the participation of faculty, students, and administration in the decision-making process. The student body of about 200 has its own organization, LISSO, the Library and Information Science Student Organization, which represents students in school deliberations. Students sit on committees and share significantly in the development of the school. The student organization participates in orientation programs, publishes a newsletter, and sponsors social activities throughout the year. The diversity of the students, in terms of geography and interests and backgrounds, helps to create an atmosphere in which change and improvement in the program can take place.

The libraries of the University, W.T. Young, M.I. King and the branch libraries, constitute the major “laboratory” facility for library and information science students. They are supplemented by other libraries in the area including those at the Lexington Theological Seminary, the Veterans Administration Medical Center, the Lexington Public Library, several nearby public libraries and the State Department for Libraries and Archives in Frankfort.

Accreditation

The master’s program in library and information science is accredited by the American Library Association.

Graduate Program in Library and Information Science

The University of Kentucky grants the following degrees in the School of Library and Information Science:

- Master of Science in Library Science
- Master of Arts

ADMISSION REQUIREMENTS AND PROCEDURES FOR GRADUATE STUDY

The School of Library and Information Science offers graduate degrees only. For complete information on the M.A. and the M.S.L.S. degree programs and admissions procedures, consult the Graduate School Bulletin and the School of Library and Information Science Bulletin. The former can be found at www.rgs.uky.edu/ and the latter can be found at www.uky.edu/CommInfoStudies/SLIS.

Admission

The admissions philosophy of the school is to admit students who are capable of satisfactory academic performance and who show promise of being able to function as competent and effective librarians and information managers. A basic requirement for admission is an undergraduate degree in any discipline (from an accredited institution) with a grade-point average of at least 2.75 on a 4.00 scale. In addition, the applicant should present Graduate Record Examination scores of 450 or higher on the verbal test and 400 or higher on the quantitative test. On October 1, 2002, a new analytical writing test replaced the analytical test as the third part of the GRE General Test. At the time of this writing the school has not decided what score will be required on the analytical writing test for admission to the master’s program. A decision will be made when sufficient experience has been gained with scores on the analytical writing test, which is expected to be toward the end of academic year 2002-2003.

While these admission standards are important, the school does try to remain flexible to account for individual developmental differences and strengths.

There are no specific library science prerequisites for admission into the School of Library and Information Science. Students are urged not to take a minor in library science as undergraduates but to concentrate on other subject area majors and minors and obtain a broad liberal arts background. Electives in computer science are often very helpful.

Application must be made both to the School of Library and Information Science and The Graduate School. Forms for both the school and The Graduate School may be obtained from the Assistant Director, School of Library and Information Science, as well as from: www.uky.edu/CommInfoStudies/SLIS; and: www.rgs.uky.edu/gs. The School of Library and Information Science form should be returned directly to the school. The Graduate School application and two copies of all official transcripts must be returned to The Graduate School no later than 30 days prior to the opening of the term in which the student wishes to enroll. Early application is, however, encouraged to allow for any delays. Students may enter the program in the summer, fall, or spring.

Previous students must apply for readmission if they were not enrolled during the semester prior to that for which admittance is sought.

Financial Aid

Financial aid and scholarship information specific to library and information science is limited to graduate students and is too detailed and changes too often to warrant inclusion in this Bulletin. Information is available in The Graduate School Bulletin, which can be found at the school’s Web site.

Advising

Upon admission to the master’s program, students are assigned a faculty advisor. Advisor assignments are based, when possible, on student interest and preference.

University of Kentucky Undergraduates

The School of Library and Information Science does not offer any formal program of study on the undergraduate level. Students who are registered as undergraduates (juniors or seniors) at the University of Kentucky may take courses at the 500 level as a general minor or as meeting the requirements for certification in Kentucky as a school librarian.

GRADUATE PROGRAMS

The College of Communications and Information Studies offers the following graduate degrees: (1) Master of Arts in Communication, including a destination master’s, (2) Ph.D. in Communication, (3) Master of Science in Library Science, and (4) Master of Arts (Library Science). Additional information may be obtained from the Associate Dean for Graduate Studies for the College of Communications and Information Studies and from The Graduate School Bulletin.
