Letters of Evaluation

Two letters should come from science faculty members. The third letter should come from a dental practitioner that the candidate has shadowed. A preprofessional committee evaluation of a candidate may be substituted for the three letters. Applicants must forward the letters to AADSAS when they submit their packets; hardcopy letters of evaluation sent to the Office of Admissions and Student Affairs will not be connected to the application.

Dental Admission Test

Every applicant must take the Dental Admission Test (DAT). The DAT scores are considered, along with a candidate’s academic record and other criteria, in the admissions decision. The exam is offered nationwide by computer through Prometric Testing Centers. The DAT results should not be more than three years old and the highest set of scores will be used. Information on the DAT is available by contacting the American Dental Association at: www.adea.org/

College of Dentistry

The College of Dentistry offers the Doctor of Dental Medicine (D.M.D.) degree and six postdoctoral programs. The mission of the College of Dentistry is to improve oral health and general health through teaching, research, and service. The mission is supported by collaborative engagement and by networking with community and academic partners to promote oral health literacy and reduce health disparities within Kentucky and beyond.

The College educates health professionals to become active citizen leaders who are conscious of their personal and professional responsibilities in a global society. The College values diversity within its community, which includes diversity of thought and experience, in order to promote a humanistic approach to education, patient care, and community service. The College of Dentistry and all of its programs are accredited by the Commission on Dental Accreditation of the American Dental Association.

For further information on the D.M.D. and post-doctoral programs, refer to the College of Dentistry Bulletin at: dentistry.uky.edu/

Admission – Doctor of Dental Medicine (D.M.D.)

The College of Dentistry seeks to enroll individuals whose academic preparation, personal qualities, and other qualifications suggest that they will experience success in the curriculum and afterwards in the dental profession. Currently, the College admits 40 Kentucky residents and 25 non-residents into its four-year curriculum leading to the Doctor of Dental Medicine (D.M.D.) degree.

The University of Kentucky College of Dentistry will consider for admission any applicant who demonstrates the ability to perform or learn to perform the skills listed in the College’s Technical Standards policy. The College’s Academic Performance Committee will monitor each student’s demonstration of such knowledge and skills; specific standards are included in the College Bulletin and Student Handbook. Applicants are not required to disclose the nature of their disability(ies) to the Admissions Committee; any applicant with questions about these technical standards is strongly encouraged to discuss the issue with the Admissions Committee Chair before the interview. Upon the request of an applicant or a student, reasonable accommodations will be provided. The ability to meet the following standards is a requirement for admission to the University of Kentucky College of Dentistry.

Predental Preparation

Prospective applicants are encouraged to contact the Office of Admissions and Student Affairs early in their undergraduate careers for guidance on admission requirements. The College desires applicants who have the requisite academic preparation to meet the challenges of a rigorous curriculum. In addition to earning a bachelor’s degree, these individuals should complete courses in both science and non-science subject areas to increase their likelihood of success in the dental program. Although many applicants each year major in the biological and natural sciences, students who pursue studies in other majors also are invited to apply for admission. The criteria considered by the Admissions Committee include the quality of the applicant’s pre-professional preparation, Dental Admission Test (DAT) scores, knowledge of and exposure to the dental profession, letters of recommendation, a commitment to service and other relevant factors. Timing is always an important element in the application process. The College will work with students to advise them on ways to become competitive applicants. For more information, call (859) 323-6071.

Application Process

The University of Kentucky College of Dentistry is a member of AADSAS (American Association of Dental Schools Application Service). Candidates for admission are encouraged to apply early to receive the strongest consideration. The AADSAS electronic application becomes available in early June. To apply and obtain further information on the AADSAS application, visit: www.adea.org/

The College uses a “rolling admissions system” whereby applicants are interviewed beginning late August, the first offers of admission are made on December 1, and the Admissions Committee continues to interview applicants until the class is filled. The membership of the entering first-year class is usually confirmed by early February. Candidates who apply early in the admissions cycle are at a distinct advantage over those who wait much later to submit their AADSAS application and other credentials. The Office of Admissions and Student Affairs can provide applicants information and sound advice to insure that they complete the process in a timely way.

Stephanos Kyrkanides, D.D.S., Ph.D., is Dean of the College of Dentistry.
