Professional education programs at the University of Kentucky are guided by the theme, *Research and Reflection for Learning and Leading*. The vision of the unit is to become one of the nation’s best public professional education units with emphasis on research, reflection, learning, and leading in service to the Commonwealth, the nation, and the world.

The professional education unit “endeavors to expand the knowledge of teaching and learning processes across a broad educational spectrum. The unit fosters a culture of reflective practice and inquiry within a diverse community of students, faculty, and staff. As part of a research-extensive university, the unit prepares professionals for a variety of roles in educational settings and community agencies and provides leadership in the improvement of the education, health, and well-being of citizens in the Commonwealth, the nation, and the world.”

Ninety-eight percent of unit faculty members have attained the highest degrees possible in their fields. The unit provides candidates with access to state-of-the-art technology. Each building is equipped with computer laboratories and “smart” classrooms to keep candidates and faculty in pace with the latest technological advances in education. In addition to preparing excellent teachers, the College of Education is the chief educator preparation officer for the UK educator preparation unit.

**Educator Preparation at UK**

The educator preparation unit of the University of Kentucky includes programs in the colleges of Arts and Sciences, Agriculture, Food and Environment, Arts and Sciences, Communication and Information, Education, Fine Arts, Health Sciences, and Social Work that prepare professionals for careers in public education. The dean of the College of Education is the chief educator preparation officer for the UK educator preparation unit.

The theme of the educator preparation unit is *Research and Reflection for Learning and Leading*. The vision of the unit is to become one of the nation’s best public professional education units with emphasis on research, reflection, learning, and leading.

The mission for the UK educator preparation unit is as follows: the Educator Preparation Unit at the University of Kentucky endeavors to expand the knowledge of teaching and learning processes across a broad educational spectrum. The unit fosters a culture of reflective practice and inquiry within a diverse community of students, faculty, and staff. As part of research-extensive university, the unit prepares professionals for a variety of roles in educational settings and community agencies and provides leadership in the improvement of the education, health, and well-being of citizens in the Commonwealth, the nation, and the world.

**Accreditation**

The Professional Education Unit for the University of Kentucky is accredited by the National Council for Accreditation of Teacher Education (NCATE), and all professional educator programs are approved by the Kentucky Education Professional Standards Board (EPSB).

**Relationship with the Kentucky EPSB**

All University of Kentucky educator preparation programs, initial or advanced, have been approved by the Kentucky Education Professional Standards Board (EPSB), in accordance with Kentucky statutes and regulations. In addition to overseeing all educator preparation programs approved for operation in Kentucky, the EPSB also issues, renews and revokes all Kentucky educator licenses (certificates). Kentucky educator certification regulations are updated in an ongoing basis. For the most up-to-date information about educator certification, refer to the EPSB website at: [www.kyepsb.net/](http://www.kyepsb.net/).

**Financial Aid/Scholarships**

The College of Education awards scholarships to both undergraduate and graduate students. Information and application forms are available in 166 Taylor Education Building. The deadline for scholarship applications is **February 15**. Graduate students should also contact the Director of Graduate Studies in their department for information about any targeted scholarship funds. The College of Education also administers the Kentucky Minority Educator Recruitment and Retention scholarship program (MERR) for the Kentuck Department of Education. Minority students applying for MERR funds must be Kentucky residents. MERR forms are available in 166 Taylor Education Building. Kentucky residents who are enrolled in a teacher certification program may also apply for funds from the Kentucky Higher Education Assistance Authority (KHEAA). Students applying for funds through the KHEAA teacher scholarship program must include a completed FAFSA need analysis data form with their applications. Funds are awarded first to students fully admitted to a teacher education program, in order of the greatest financial need. Both KHEAA and MERR teacher scholarship awards are forgivable on a semester by semester basis when the candidate teaches in Kentucky public schools. Award recipients who do not teach in Kentucky public schools must pay back the awards, with interest.

**Undergraduate Programs in Education**

The University of Kentucky grants the following degrees in the College of Education:

- Bachelor of Arts in Education
- Bachelor of Science in Education

Students pursuing one of the following majors earn a Bachelor of Arts in Education degree: early childhood education, interdisciplinary study, middle level education, or secondary education. Students selecting a major in secondary education must specialize in either English or social studies.

Students pursuing one of the following majors earn a Bachelor of Science in Education degree: health promotion, kinesiology (teacher certification or exercise science), interdisciplinary early childhood education, special education, and STEM education.

Persons holding a bachelor’s degree from a regionally accredited institution, with a minimum overall GPA of at least 2.75, or a 3.0 in their last 30 hours of the degree, may pursue initial educator preparation at the undergraduate level by following any of the certification programs described in this Bulletin. If these persons also wish to earn a UK bachelor’s degree, all UK degree requirements must be met. All educator preparation students at the University of Kentucky are expected to meet the requirements for “Admission, Retention and Completion from Teacher Education Programs” as described below.

**Undergraduate Certificate in Education**

The University of Kentucky grants the following undergraduate certificate in the College of Education:

- Leadership Studies
Graduate Programs in Education

Graduate Degrees and Certificates

The University of Kentucky offers the following graduate degrees for education:

- Master of Arts in Education
- Master of Science (Kinesiology and Health Promotion)
- Master of Science in Education
- Master of Science in Education (Interdisciplinary Early Childhood Education)
- Doctor of Education (Ed.D.)
- Doctor of Philosophy (Ph.D.)
- Interdisciplinary Doctor of Philosophy (Ph.D. in Education Sciences)

- Rank II (32 hour) and Rank I (30 hour) Programs in Professional Education

Graduate Programs Leading to Advanced Educator Licensure

The University of Kentucky offers graduate programs leading to advanced educator licensure in Literacy, Computer Science in Instructional Systems Design, Library Science, School Psychology, and School Leadership. Approved Teacher Leader programs at the master’s level are also available in Special Education, Interdisciplinary Early Childhood Education, and Educational Leadership.

UK Graduate Certificates

The University of Kentucky offers graduate certificates in: Assistive and Rehabilitation Technology; Autism Spectrum Disorders; Career, and Civic Life (C3) Teaching & Learning; Distance Education; Executive Educational Leadership; High Performance Coaching; Instructional Coaching; International Education; Leadership for Deeper Learning; Next Generation Teaching & Learning; Rehabilitation Counseling; Research Methods in Education; School Technology Leadership; Sport, Fitness, and Recreation Management; and Teaching in Culturally and Linguistically Diverse Classrooms.

Graduate Programs Leading to Initial Educator Licensure

The following graduate level initial educator certification programs are available at the University of Kentucky: 1) graduate alternative certification program leading to certification in moderate/severe disabilities, grades P-12; 2) graduate level alternative certification program leading to initial certification in World Languages: Chinese, Japanese, French, German, Russian, Spanish; 3) master of arts in education with initial certification in secondary education, grades 8-12, English, mathematics, science (biology, chemistry, earth science, or physics), social studies; 4) Master of Science in Career and Technical education with initial certification, grades 5-12 (option in agriculture education); 5) master of science in communication disorders with initial certification, grades P-12; 6) certification program in school psychology, grades P-12; and 7) master of arts in teaching world languages (with options in Chinese, Japanese, French, German, Latin, Russian, and Spanish), grades P-12; 8) graduate program leading to initial certification in Learning and Behavior Disorders; 9) graduate program leading to initial certification in Interdisciplinary Early Childhood Education; and 10) Master of Science in Library Science leading to certification as a School Media Librarian.

For more information about programs, please visit the College of Education website at: http://education.uky.edu/.

Graduate Alternative Certification Programs Leading to Initial Educator Licensure

Graduate Alternative Certification Programs leading to initial educator licensure are offered in the area of Moderate and Severe Disabilities P-12. Students who wish to enroll in a Graduate Alternative Certification Program must be employed in one of the participating school districts, and must meet the College of Education Admission, Retention and Completion standards, and the standards of the UK Graduate School. Graduate Alternative Certification Programs are three-year programs, including the Kentucky Teacher Internship Program. Additional alternative certification programs are under development and may become available at any time. Contact the Office of the Associate Dean for Academic and Student Services for more information.

Special Facilities and Services

The Education Library provides a wide range of education materials, with over 400 journals and 100,000 books, plus children’s literature and Kentucky state-approved textbook collections. In addition, major education databases are available through the library’s website at: http://libraries.uky.edu/educ.

The College’s newly-formed Kentucky P20 Innovation Lab: A Partnership for Next Generation Learning gives students the chance to be part of transforming education to energize and empower today’s students, who were born into a digital age. The Innovation Lab charges college students to play an active role in creating pathways that will lead to a love of learning for generations to come.

The Center for Educator Preparation Information Systems provides database and information system support for the College of Education. In addition, persons associated with the center engage in projects to make information system technology more accessible to educator preparation programs nationally and in the Commonwealth.

The Instructional Technology Center provides media services to students, faculty, and programs of the College of Education. Services include computer classrooms, computer hardware and software support, presentation technology, circulation of nonprint teaching materials and audiovisual equipment; a materials preparation laboratory; graphic, photographic, and recorded media; and facilities for working with films and electronic media. The staff is available to assist with a wide range of technology-related activities.

The mission of the Office of Student Engagement, Equity and Diversity is to enhance the academic experience of College of Education students through the development and management of co-curricular activities. The office partners with different units within the College of Education with the following goals: maintain a supportive and inclusive environment for College of Education students from the time of their enrollment through graduation; intellectually connect and engage students with all aspects of the College’s programs and initiatives, the Lexington community, and beyond; create a vibrant community of discipline-specific student organizations that can provide all students with mentoring and support in their pursuit of professional careers and certificates; develop multiple paths for students to follow in pursuing personal, educational, leadership and professional goals; and provide opportunities for all students to participate in, experience and embrace diversity. All programs and activities supported by the Office of Student Engagement, Equity and Diversity are geared towards success of all students, regardless of race, nationality, gender, sexual orientation, geographical location, religion, and disability.

The mission of the Institute for Educational Research is to support faculty in identifying significant education and policy issues; encouraging individual, collaborative and interdisciplinary inquiry; locating external funding sources; preparing grant proposals and providing post-award management services.

The Office of Higher Education Research and Development conducts research on questions on higher education that are important to Kentucky. Research results are shared with the Council on Postsecondary Education and other institutions in Kentucky.

The Biodynamics Laboratory is a multidisciplinary facility housed in the Center for Biomedical Engineering. Faculty and students from Kinesiology and Health Promotion, Biomedical Engineering, Sports Medicine, Athletic Training, Minimally Invasive Surgery, and other related fields use high-speed videography, electromyography, and force measures to understand human movement.

The Pediatrics Exercise Physiology (PEP) Laboratory is one of only a handful of facilities in the world designed specifically to serve the needs of pediatrics patients. The PEP-Lab will provide a state-of-the-art facility and resources for testing, physical training, and analysis of pediatric populations for research and clinical investigations.

The UK Body Composition Core Laboratory (BCCL) is a human-based laboratory facility specifically designed to provide state-of-the-
art body composition analysis for research and clinical investigations.

The Collaborative Center for Literacy Development (CCLD), 120 Quinton Court, Suite 200, was established by the Kentucky General Assembly in 1998 to make available training in literacy for educators and to promote literacy development. The Center focuses on six requirements laid out in Senate Bill 186, to: provide professional development and coaching for classroom teachers to implement reliable research-based reading models; establish a demonstration and training site for early literacy at each of Kentucky’s public universities; collaborate with public and private post-secondary institutions to provide quality pre-service and professional development in early reading instruction; assist districts located in areas with low reading skills to assess and address identified literacy needs; identify models of reading instruction supported by research; and develop and implement a clearinghouse for information about reading models. The CCLD works to improve achievement for students pre-school through adulthood.

General Information

Students who wish to be recommended for any state educator licensure (certification) must meet the requirements of the Kentucky Education Professional Standards Board, and the University of Kentucky Senate.

Students desiring to be recommended for initial certificates in a major must be admitted to the Teacher Education Program associated with that major. The number of students admitted to any UK teacher education program each year depends upon the availability of resources for maintaining quality instruction.

Admission to a teacher education program is highly selective and may be competitive. Meeting minimum requirements for application does not guarantee admission.

Students will be recommended for degrees only upon completion of approved degree programs. Students who have not been admitted to a teacher education program will not be permitted to enroll in courses requiring Teacher Education Program admittance.

ADMISSION, RETENTION AND COMPLETION FROM TEACHER EDUCATION PROGRAMS

Changes in Rules Governing Admission to Teacher Education Programs

Starting in fall 2012, the rules for admission to all teacher education programs in Kentucky have changed. All candidates for admission to any initial teacher education program are required to show an overall GPA of at least 2.75, or a 3.0 GPA in the last 30 hours taken (semester inclusive). Also, all candidates for admission to any initial teacher education program will need to demonstrate successful completion of the Praxis® Core Academic Skills for Educators tests in reading, writing, and mathematics. Graduate students may substitute passing scores on the GRE for admission to teacher education.

A student must be admitted, retained in, and successfully complete a state-approved teacher education program in order to receive a teaching certificate. The components of an approved teacher preparation program include: 1) an earned bachelor’s degree from a regionally accredited institution of higher education, 2) completion of approved teaching subject matter field(s), 3) successful completion of state mandated testing, 4) completion of a teacher preparation program, including student teaching, 5) and verification by program faculty that all applicable standards have been met.

The College of Education Certification Program Faculties, the College of Education Director of Academic Services and Teacher Certification, and the University Registrar are charged with the responsibility to monitor a student’s progress through the teacher preparation program, and to recommend to the Kentucky Education Professional Standards Board (EPSB) that a successful candidate be awarded a state teaching license (certificate).

SECTION 1: Overview

A student must be admitted, retained in, and successfully exit from a state-approved educator preparation program in order to receive a teaching certificate. The components of an approved teacher preparation program include:

1. an earned bachelor’s degree from a regionally accredited institution of higher education,
2. completion of approved teaching subject matter field(s), e.g., approved majors, major equivalencies, minors, or support areas, as specified by the candidate’s chosen program faculty,
3. completion of an educator preparation program, including the final clinical experience, e.g., student teaching,
4. and verification by program faculty that all applicable standards sets have been met.

The College of Education Educator Preparation Program Faculties, the College of Education Director of Academic Services and Teacher Certification, and the University Registrar are charged with the responsibility to monitor a student’s progress through the education preparation program, and to recommend to the Kentucky Education Professional Standards Board (EPSB) that a successful candidate be awarded a state teaching certificate.

SECTION 2: Continuous Assessment

1. A candidate’s progress through all educator preparation programs is continuously monitored, assessed, and reviewed. The first continuous assessment point is admission to the educator preparation program (TEP). In addition to the general requirements for admission to educator preparation (TEP) listed below, candidates should carefully review the specific requirements of their individual programs.

2. Candidates for admission to educator preparation (TEP) must have completed at least 30 semester hours, or, if pursuing state teacher certification as a certification-only student or a graduate student, must have earned a bachelor’s degree from a regionally accredited institution of higher education.

3. Candidates for admission to educator preparation (TEP) must demonstrate academic achievement by earning a minimum overall GPA of 2.75, or a GPA of at least 3.0 in the final semesters which include the last 30 hours of coursework. Candidates
Candidates for admission to educator preparation (TEP) must demonstrate aptitude for teaching by presenting three letters of recommendation from individuals who can attest to the candidate’s potential success in teaching.

Candidates for admission to educator preparation (TEP) must demonstrate that they have reviewed and understand dispositions for teaching. At UK, these dispositions are encoded in the UK Functional Skills and Dispositions Standards Set. The UK Functional Skills and Dispositions are listed below:

- a. The candidate communicates appropriately and effectively
- b. The candidate demonstrates constructive attitudes
- c. The candidate demonstrates ability to conceptualize key subject matter ideas and relationships
- d. The candidate interacts appropriately and effectively with diverse groups of colleagues, administrators, students, and parents in educational settings
- e. The candidate demonstrates a commitment to professional ethics and behavior.

Candidates must present artifacts that demonstrate their ability to meet standards. In addition to items specified by the candidate’s program faculty, the candidate must provide documentation of the following skills:

- a. Critical Thinking,
- b. Communication,
- c. Creativity, and
- d. Collaboration.

For those programs requiring educator preparation-related courses as a prerequisite for admission to educator preparation (TEP), candidates must complete these courses with a grade of C or better.

Candidates must undergo a formal interview with their educator preparation program faculty in which they will have the opportunity to discuss the artifacts that demonstrate their ability to meet standards, and engage in a dialog concerning their qualifications for admission to educator preparation (TEP).

Section 2B: Testing Requirements for Admission to Educator Preparation Programs (TEP)

1. All candidates for admission to a teacher education program at UK must demonstrate successful completion of the following pre-professional skills assessments of basic knowledge administered by the Educational Testing Service with the corresponding minimum scores:
   - a. The Praxis® Core Academic Skills for Educators: Mathematics test, with a minimum score of 150
   - b. The Praxis® Core Academic Skills for Educators: Reading test, with a minimum score of 156
   - c. The Praxis® Core Academic Skills for Educators: Writing test, with a minimum score of 162

2. Candidates for admission to a graduate level initial teacher education program (TEP) may demonstrate basic skills in the following manner.
   - a. Completion of the Praxis® Core Academic Skills for Educators tests: as in 1) a-c; or
   - b. Successful completion of the Graduate Record Exam (GRE) with the following corresponding scores:
     - i) Required minimum GRE scores for tests taken prior to August 1, 2011
       - (1) Verbal with a minimum score of 450
       - (2) Quantitative with a minimum score of 490
       - (3) Analytical Writing with a minimum score of 4.0
     - ii) Required minimum GRE scores for tests taken on or after August 1, 2011
       - (1) Verbal with a minimum score of 150

3. Recency Requirements for Testing: Candidates using the GRE must present GRE scores that are no older than five years. Candidates using the Praxis® Core Academic Skills for Educators (CORE) must present scores no older than 10 years. These recency requirements, adopted by the Kentucky Educational Professional Standards Board correspond to the rules of the Educational Testing Service.

Section 2C: Second Assessment Point – Retention of Candidates in Educator Preparation Programs

1. The progress of candidates who have been admitted to an educator preparation program is continuously monitored. A retention review may be conducted at any time by the educator preparation program faculty, but is required no later than the semester prior to the final clinical experience, e.g., student teaching. In addition to the general requirements for the retention review listed below, candidates should continue to carefully review the specific requirements of their individual programs.

2. If at the time of admission to educator preparation (TEP), a professional growth plan was prepared for the candidate, progress on implementing the professional growth plan will be reviewed, and the plan will be updated as necessary.

3. Some of the items which are monitored in the retention review are:
   - a. Whether a candidate continues to earn grades of C or better in professional education classes;
   - b. Whether a candidate continues to maintain a 2.75 minimum GPA overall, or a minimum 3.0 GPA in the final semesters, including the last 30 hours;
   - c. Whether a candidate has demonstrated improved competence with the skills of communication, critical thinking, creativity, and collaboration;
   - d. Whether a candidate has demonstrated improved competence with the College of Education Functional Skills and Dispositions;
   - e. Whether a candidate continues to demonstrate adherence to the EPSB Professional Code of Ethics;
   - f. Whether adequate progress is being made toward meeting all required standards sets; and
g. Whether adequate progress is being made toward completing subject matter coursework requirements for the candidate’s chosen educator preparation program. If a review of the candidate’s subject matter coursework identifies any problem areas, a professional growth plan will be developed to address the problems. Or, if the candidate already has a professional growth plan, it will be amended to include attention to subject matter coursework problems. (See Section 2, item 3)

4. Continued progress through the educator preparation program will be contingent on the results of the midpoint retention review. Following a retention review, candidates may be continued in good standing in the program, cautioned about identified problems which have been included in the professional growth plan, placed on probation in the program, or dropped from the program.

a. If a candidate is placed on probation in the educator preparation program following a retention review, the time and conditions of the next review will be identified and communicated to the candidate by the Director of Academic Services and Teacher Certification.

b. If a candidate is dropped from the educator preparation program following a retention review, the Director of Academic Services and Teacher Certification will notify the candidate of this action. Candidates who have been dropped from an educator preparation program following a retention review may take no further professional education coursework in the program. (See Section 7, Appeals for additional information)

5. Admission to the Final Clinical Experience, e.g., Student Teaching. Admission to the final clinical experience, e.g., student teaching, requires a successful retention review and recommendation by the program faculty that the candidate be allowed to student teach.

6. State Mandated Examinations for Teacher Certification. The Kentucky Education Professional Standards Board (EPSB) requires that all applicants for a state teaching certificate present passing scores on the appropriate required PRAXIS 2 examinations. Although taking and passing the Kentucky mandated PRAXIS 2 examinations is not a requirement for completion of an educator preparation program at UK, candidates are encouraged to complete the required state-mandated examinations prior to beginning student teaching so that the process of applying for and receiving a state teaching certificate can proceed in a timely manner. Candidates are encouraged to consult with their program faculties for advice on taking the required PRAXIS 2 examinations.

Section 2D: Third Assessment Point – Completion of Educator Preparation Programs

1. The progress of candidates who have been admitted to an educator preparation program is continuously monitored. Each program faculty will conduct a completion review of all candidates, typically at the end of the final clinical experience, e.g., student teaching.

2. All candidates for completion of an educator preparation program must continue to meet all standards for admission and retention at the time of program completion, including GPA requirements.

3. Candidates must have completed the subject matter requirements for his/her chosen educator preparation program.

4. Candidates must have successfully completed all professional education requirements for his or her program, including successful performance in the final clinical experience, e.g., student teaching.

5. At program completion, all candidates must present final evidence for review (typically this includes required and optional artifacts that demonstrate attainment of standards) in the format designated by the candidate’s program faculty.

Section 3B: GPA Rules for Admission to a Graduate Level Educator Preparation Program

Admission to a graduate level educator preparation program shall require the following: A bachelor’s degree or advanced degree awarded by a regionally accredited college or university with a cumulative grade-point average of 2.75 on a 4.0 scale.

OR a grade-point average of at least 3.00 on a 4.0 scale in the final semesters that include the last thirty (30) hours of either undergraduate or graduate credit completed. This information will be taken directly from the most recent original transcript(s) supplied by the candidate. Candidates intending to use this “3.0 minimum GPA in the final semesters that include the last 30 hours of coursework” option should consult with their program faculty chair and the departmental Director of Graduate Studies concerning the use of this option for gaining admission to the UK Graduate School.

Section 3C: Rules for Using of the “Final Semesters That Include the Last 30 Hours of Credit” Option

If the candidate uses the “final semesters that include the last 30 hours of credit” option, the following procedure shall be used to calculate the last 30 hours GPA. The completed quality hours and quality points for each of the final terms that include the last 30 hours of credit shall be identified. The last 30 hours GPA shall be calculated using the statistics from the entire terms encompassing the last 30 hours. This means that in some instances, the number of hours used to calculate the last 30 hours GPA will be greater than 30.

Section 3D: GPA Rules for Retention and Completion

Candidates must maintain a minimum overall GPA of at least 2.75 for retention in the program. Candidates who used the “final semesters that include the last 30 hours of credit” rule for admission to the program may continue to calculate whether a 3.0 minimum GPA is being maintained at the time of the retention review (normally the two semesters prior to student teaching). Candidates who do not meet this requirement may not student teach.

Candidates must maintain a minimum overall GPA of at least 2.75 for completion of an educator preparation program. Candidates who used the “final semesters that include the last 30 hours of credit” rule for admission to the program may continue to calculate whether a 3.0 minimum GPA is being maintained at the time of the final completion review. Candidates who do not meet this requirement will not be considered to have completed the program, and may not be recommended for a state teaching certificate.
Section 3E: The Rule of “No Grade Less Than C in Professional Education Courses”
Candidates may have no grade less than C in any course defined in the program as being a part of the professional education component. Any professional education grades less than C must be retaken prior to the final clinical experience, e.g., student teaching.

Section 3E.1: Special case of the rule “no grade less than C” for the Elementary Education Undergraduate Program.
In addition to the rule in Section 3E, candidates in the Elementary Education Program must earn no grade less than “C” in both University of Kentucky Undergraduate Bulletin headings of Program Related Studies and Professional Education Requirements.

Section 3F: Special GPA Rule Requiring a 2.75 GPA in Program Sub Areas
Some programs require that candidates earn and maintain a 2.75 GPA in the majors, minors, support areas, and professional education course sequences as specified in the program curriculum description as approved by the UK Senate. The application of this rule means that candidates must demonstrate these 2.75 GPAs at the time of admission, retention, and completion of the program.

Programs that use the special GPA rule are as follows:
- All STEM educator preparation programs, e.g., Mathematics Education, Science Education (all areas) and Computer Science Education.

SECTION 4: Standards and Standards Sets in UK Educator Preparation Programs

Section 4A: All UK Educator Preparation Programs Are Standards-based
All UK educator preparation programs are standards-based, requiring candidates to meet these standards before completing the program. Candidates are assessed on these standards at the three continuous assessment points: admission to educator preparation (TEP), prior to final practicum experiences e.g., student teaching, and at the program completion.

Section 4B: There Are Three UK Required Core Standards Sets
There are three core standards sets required for completion of all UK educator preparation programs. They are:
- Interdisciplinary Early Childhood Education Standards (IECE), or Kentucky Teacher Standards (whichever is appropriate for the candidate’s program.)
- College of Education Functional Skills and Dispositions
- College of Education Technology Standards

Section 4C: Discipline (Subject) Specific Standards Also Required
In addition to these three core standards sets, each candidate must demonstrate mastery of the subject specific standards set(s) associated with their individual program.

SECTION 5: Policies on Clinical Experiences, Including the Final Clinical Experience, e.g., Student Teaching

Section 5A: General Policy on Intensive Clinical Experiences
The University of Kentucky College of Education is committed to preparing candidates for the teaching profession who are effective, reflective leaders and decision makers. To that end, and in order to meet state teacher certification regulations and national accreditation requirements, educator preparation candidates complete an array of carefully planned clinical experiences. These experiences are systematically integrated into the educator preparation program curriculum. In order to ensure high quality experiences, the College has established a network of clinical sites where candidates complete clinical placements. These sites are part of the university’s extended campus known as the university clinical/field network. Sites are selected at the program level (i.e., by the program faculty that governs the curriculum for the particular educator preparation program). Selection decisions are made using specific criteria that are directly linked to program goals, accreditation standards, and certification requirements. All candidates are expected to complete their intensive clinical experiences, e.g., practica and the final clinical experience, e.g., student teaching in these approved clinical sites.

Section 5B: General Rules for the Final Clinical Experience, e.g., Student Teaching
A student may enroll in student teaching in one of the educator preparation programs provided he or she has:
1. been admitted to and retained in an education preparation program;
2. maintained a grade-point standing of at least 2.75 overall or a minimum 3.0 GPA in the final terms that include the last 30 hours of coursework;
3. completed all professional education courses except the final clinical experience, e.g., student teaching;
4. completed a minimum of 75 percent of the required subject matter courses;
5. applied and been accepted for the final clinical experience, e.g., student teaching;
6. completed the required national and state criminal background check with no criminal background identified;
7. been accepted by the school system and supervising teacher where he or she plans to do the final clinical experience, e.g., student teaching;
8. scheduled no more than 3 hours of college work to be carried during the final clinical experience, e.g., student teaching with no classes scheduled to interfere with the student teaching assignment; and
9. presented evidence of having had a specified physical examination.

SECTION 6: Code of Ethics and Character and Fitness Reviews
All students seeking admission to, retention in, or completion of a UK educator preparation program must complete a state mandated character and fitness review. In addition, students with records of misconduct beyond simple traffic violations must provide complete documentation of this misconduct, utilizing written procedures available in the office of Academic Services and Teacher Certification. Records of misconduct will be available for use by program faculties in making decisions about admission, retention, and completion of the program. Students must also complete any state-mandated background checks, which may include a national check of FBI records. By Kentucky statute, persons with records of serious legal misconduct are ineligible for student teaching, state teacher certification, or employment in the public schools. Students are responsible for completing all required background check procedures in a timely manner so that decisions about their movement through the program may be made.

SECTION 7: Appeals
1. The progress of all candidates in educator preparation programs is continuously reviewed and assessed at least three times: at the points of admission, retention, and completion of program. Candidates who are denied admission to an educator preparation program, not retained in the program, or denied completion of the program may appeal the decision of the program faculty. There are two grounds on which a candidate may appeal an unfavorable continuous assessment review: 1) a candidate may appeal if he/she has clear evidence that his/her rights to equal opportunity or due process were violated during the review process (i.e., evidence of discrimination on the basis of race, gender, sexual orientation, age, etc.) or 2) a candidate may appeal if there is new and substantial evidence pertaining to his/her review that was not available for Program Faculty consideration at the time the candidate applied and/or was reviewed (test scores were late or missing; transcripts were inaccurate, etc.). These are the only two grounds on which an appeal may be filed.
Interdisciplinary Early Childhood Education (IECE)

1. Designs/plans instruction
2. Creates/maintains environments
3. Implements instruction
4. Assesses and communicates learning results
5. Reflects/evaluates professional practices
6. Collaborates with colleagues/families/others
7. Engages in professional development
8. Supports families
9. Demonstrates implementation of technology

Kentucky Teacher Standards (KTS)

1. The teacher demonstrates a current and sufficient academic knowledge of certified content areas to develop student knowledge and performance in those areas.
2. The teacher designs/plans instruction that develops student abilities to use communication, apply core concepts, become self-sufficient individuals, become responsible team members, think and solve problems, and integrate knowledge.
3. The teacher creates a learning climate that supports the development of student abilities to use communication skills, apply core concepts, become self-sufficient individuals, become responsible team members, think and solve problems, and integrate knowledge.
4. The teacher introduces/implements/manages instruction that develops student abilities to use communication skills, apply core concepts, become self-sufficient individuals, become responsible team members, think and solve problems, and integrate knowledge.
5. The teacher assesses learning and communicates results to students and others with respect to student abilities to use communication skills, apply core concepts, become self-sufficient individuals, become responsible team members, think and solve problems, and integrate knowledge.
6. The teacher uses technology to support instruction; access and manipulate data; enhance professional growth and productivity; communicate and collaborate with colleagues, parents, and the community; and conduct research.
7. The teacher reflects on and evaluates specific teaching/learning situations and/or programs.
8. The teacher collaborates with colleagues, parents, and other agencies to design, implement, and support learning programs that develop student abilities to use communication skills, apply core concepts, become self-sufficient individuals, become responsible team members, think and solve problems, and integrate knowledge.
9. The teacher evaluates his/her overall performance with respect to modeling and teaching Kentucky’s learning goals, refines the skills and processes necessary, and implements a professional development plan.
10. The teacher provides professional leadership within the school, community, and education profession to improve student learning and well-being.

College of Education Skills and Dispositions

1. Communicates appropriately and effectively
2. Demonstrates constructive attitudes
3. Demonstrates ability to conceptualize key subject matter ideas and relationships
4. Interacts appropriately and effectively with diverse groups of colleagues, administrators, students, and parents in educational settings
5. Demonstrates a commitment to professional ethics and behavior

College of Education Technology Standards

1. Integretes media and technology into instruction
2. Utilizes multiple technology applications to support student learning
3. Selects appropriate technology to enhance instruction
4. Integrates student use of technology into instruction
5. Addresses special learning needs through technology
6. Promotes ethical and legal use of technology disciplines

Applying for Kentucky Educator Licenses

The University of Kentucky offers programs for most initial and advanced professional educator licenses (certificates) issued by the Kentucky Education Professional Standards Board (EPSB). EPSB license requirements are subject to change by the EPSB at any time. UK candidates for Kentucky professional educator licenses must submit all required application materials to Academic Services and Teacher Certification, 166 Taylor Education Building, Lexington, KY 40506-0001. Recommendations to the EPSB that an educator license be issued are based upon a final audit of all program completion requirements.

GRADUATION REQUIREMENTS

To graduate from the College of Education, a student must: 1) complete all specific program requirements as listed in this Bulletin; and 2) meet all requirements of the College of Education admission/retention/completion policy.

Because most students are pursuing both a UK degree and a state educator license (certificate), it is extremely important that advisors are consulted frequently to be sure that the best selection of courses is made to meet both requirements.
DEPARTMENTS IN THE COLLEGE OF EDUCATION

Curriculum and Instruction

The Department of Curriculum and Instruction offers both undergraduate and graduate programs. Undergraduate programs prepare teachers for early elementary, middle school, and secondary levels. Graduate programs include: advanced degrees in teaching at elementary, middle, and secondary levels; preparation for teaching at the college/university level; and preparation for instructional design roles in business and industry.

Educational, School, and Counseling Psychology

The Department of Educational, School, and Counseling Psychology offers courses work leading to provisional and standard certification and licensure in the Commonwealth of Kentucky, by the Education Professional Standards Board and the Kentucky Board of Psychology, respectively. The UK counseling and school psychology doctoral programs are fully accredited by the American Psychological Association (APA), and the doctoral and specialist degree programs in school psychology are approved by the National Association of School Psychologists (NASP) and the National Council for the Accreditation of Teacher Education (NCATE).

Educational Leadership Studies

The Department of Educational Leadership Studies seeks to improve the quality of educational organizations through improved training and competence of leaders. The department is particularly mindful of its obligation to supply the needs of Kentucky for high quality leaders across a range of P20 organizations. Programs are offered at the Masters, Education Specialist, and Doctoral levels to meet a wide range of educational leadership needs as well as to meet specific requirements for a graduate certificate in school technology leadership, teacher leader endorsement, and certification for principals, supervisors of instruction, and superintendents of schools.

Educational Policy Studies and Evaluation

The Department of Educational Policy Studies and Evaluation provides a unique opportunity for students who wish to develop the knowledge, judgment, and research required to address educational issues with flexibility and imagination. Students are offered the resources of historical, sociological, philosophical, and comparative analysis; knowledge of current educational issues; expertise in evaluation research; and the opportunity to learn skills necessary to evaluate the significance of studies that bear on policy. The department offers advanced degrees only.

Kinesiology and Health Promotion

The Department of Kinesiology and Health Promotion (KHP) offers undergraduate courses and degree programs in physical and health promotion education or exercise science. Students are encouraged to take one 1-credit physical education class each semester during the first two years of college.

The KHP Life Fitness program offers beginning instruction in both individual and team activities. In this program students have the opportunity to learn individual and team sports skills and/or improve their level of fitness. Currently 32 different courses are offered each year and over 1,200 students participate in the program. The classes are taught by members of the KHP Department and Department Graduate Teaching Assistants who possess expertise in the areas of health and physical education. Individual skill instruction is available in weight training, conditioning and fitness, golf, racquet sports, gymnastics, swimming, scuba diving, aerobic running and swimming, and dancing. Instruction in such team activities as basketball, soccer, volleyball, and softball is also available. In addition, intermediate and advanced courses in many of the activities are offered.

The kinesiology program is designed for students interested in teaching as well those interested in the application of knowledge and skills in kinesiology and health promotion in commercial settings. Students desiring teacher certification will complete one or more of the programs in kinesiology and health promotion described in this Bulletin. The department also offers a non-teacher certification kinesiology program in exercise science that many students pursue to prepare them for graduate programs within the medical and health field such as Physical or Occupational Therapy, Medical or Physician Assistant, Pharmacy, and also Dentistry.

The purpose of health promotion is to promote quality of life for all people. This area of study is interdisciplinary, extending into biology, psychology, sociology, and medicine. Health promotion generally focuses on the whole individual, including social and emotional dimensions, not just the physical. The primary focus of course work in health promotion is on teacher certification. Opportunities for health educators exist in community agencies, adult fitness programs, and health education programs in industry and business. The department offers a minor in health promotion that does not lead to teacher certification. The department also offers a minor in Coaching.

Early Childhood, Special Education, and Rehabilitation Counseling

The Department of Early Childhood, Special Education, and Rehabilitation Counseling offers three different initial certification programs at the undergraduate level: (1) interdisciplinary disability studies; (2) interdisciplinary early childhood education; and (3) special education.

The department offers graduate level programs leading to initial educator certification in learning and behavior disorders, moderate/severe disabilities, and interdisciplinary early childhood education. Students may also pursue the masters degree in rehabilitation counseling, and graduate advanced preparation in a variety of special education topics.

STEM Education

The Department of Science, Technology, Engineering, and Mathematics (STEM) Education offers an undergraduate degree in STEM Education. The department also offers a Masters of Science degree in STEM Education. Our mission is to engage in scholarship, teaching, and service that is innovative and contributes to improving the quality of P20 science, technology, engineering, and mathematics education in the Commonwealth, the nation, and the world.

DEGREE PROGRAMS IN THE COLLEGE OF EDUCATION

B.A. in Education with a major in EARLY ELEMENTARY EDUCATION

Requirements for Program

The Early Elementary Education Program is aligned with the New Teacher Standards of the Kentucky Education Professional Standards Board, and the national standards for elementary education approved by the National Council for the Accreditation of Teacher Education.

The model for the early elementary education program presumes a collaborative relationship between school and university personnel focused on ensuring a high level of individual attention to the mentoring and socialization of teacher candidates. The faculty recognizes that this is a labor-intensive process, requiring sustained time and effort by all parties. Work in early elementary education must be guided by two principles: first, a commitment to continuous improvement based on reflection, evaluation, and on-going research; second, a commitment to peer collaboration as a source of professional growth for teacher candidates as well as school and university faculty.

To receive the B.A. degree in Early Elementary Education, students must: (1) complete the UK Core requirements; (2) complete the program related studies courses; and (3) complete the professional education component.

Continuous Assessment

1. Admission to the program is based on a selective admission process that generally occurs after students have completed at least 45 hours of university course work. All students are expected to meet the stan-
2. Assessment at the Point of Entry to the Early Elementary Education Program. At the point of entry students must present an admission portfolio which includes the following: a) a “best piece” sample of writing which demonstrates ability to research a topic in some depth; b) evidence of multicultural/cross-cultural experience with written reflection on the experience; c) evidence of having completed 30 hours of community service with early elementary age children, including a written reflection on the experience; and, d) a written autobiography. Also at the time of entry, students will be required to complete an on-demand writing task.

3. On-Going Assessment: Assessment During the Professional Introduction Semester. Assessment of progress in the Professional Introduction semester includes assessment strategies specific to individual courses, but also includes an overall “Professional Introduction Portfolio.” This portfolio is intended to be an extension of the admissions portfolio, adding the following exhibits: a) philosophy of education statement (this will be modified as candidates move through the program); b) “best piece” samples from course work that show evidence of content knowledge, pedagogical content knowledge, and effective practice (given the students’ level of experience); and c) evidence of competence in instructional applications of technology and systems of information management.

4. Assessment of Progress in the Professional Block. This includes assessment strategies specific to individual methods courses that confirm content as well as pedagogical knowledge. It also includes some additional assessments. At the beginning of the semester, students’ Professional Introduction Portfolios are reviewed and placement needs are discussed. Once the semester begins, students are observed throughout the semester by their supervisor and are assessed using an observation form which directly reflects the New Teacher Standards. Students also submit videotapes of themselves teaching and an analysis of these as well as other lessons they have taught. The supervisors provide feedback on these lessons as well. The faculty also reviews students’ Professional Development Plans. Each student develops a Professional Development Plan (PDP) in cooperation with UK faculty and school-based faculty. The PDP includes reflections on the student’s strengths and areas that need further work. This document serves as a planning tool for student teaching. Students also continue the development of their teaching portfolio, adding information that demonstrates competence on tasks related to the New Teacher Standards for each Professional Block course.

5. Assessment During the Student Teaching Semester. Students are assessed in a variety of ways during this semester. Student assignments include: observations reports, developing a thematic unit, critiquing their own teaching using videotapes, completing two solo weeks, and further developing their teaching portfolios.

Statement on Student Teaching

Students in the early elementary education program complete 16-18 weeks of student teaching, concentrating on the ages in grades P-5. (See the section on “Student Teaching” above for additional information on student teaching.)

UK Core Requirements

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

I. Intellectual Inquiry in Arts and Creativity

Choose one course from approved list

II. Intellectual Inquiry in the Humanities

Choose one course from approved list

III. Intellectual Inquiry in the Social Sciences

Choose one course from approved list

IV. Intellectual Inquiry in the Natural, Physical, and Mathematical Sciences

Choose one course from approved list

V. Composition and Communication I

Graduation Composition and Communication Requirement hours (GCCR)
B.S. in Education with a major in
HEALTH PROMOTION
(Teacher Certification Program)

Requirements for Program

The Department of Kinesiology and Health Promotion offers undergraduate courses and degree programs in kinesiology (physical education) and health promotion. These programs support the UK educator preparation unit’s theme of Research and Reflection for Learning and Leading. The process of reflective decision-making is embedded in the departmental philosophy that students learn best through experiencing. The Health Promotion Program is guided by the standards of the American Association of Health Education (AAHE) and the Kentucky New Teacher Standards.

The health promotion program ensures an understanding of and knowledge about the structure of the health promotion discipline through the content and methodology courses in sexuality education, drug education, human health and wellness, nutrition, and program planning in health education. The purpose of health promotion is to promote quality of life for all people. This area of study is interdisciplinary, extending into biology, psychology, sociology, and medicine. Health promotion generally focuses on the whole individual, including social and emotional dimensions, not just the physical.

The B.S. in Health Promotion requires completion of the following: (1) the UK Core requirements; (2) specified course work in Program Related Studies and Professional Education; (3) the health promotion major; and (4) completion of a university-approved minor. Students wishing to pursue certification both in health and kinesiology must follow the kinesiology program description.

Continuous Assessment

1. All students in the health promotion program are expected to meet the standards and rules for Admission, Retention, and Exit from Teacher Education Programs as set forth in the section “Admission, Retention and Completion from Teacher Education Programs”.

2. The health promotion program stimulates higher performance goals for high-performing students by offering several modes of performance. Examples are: (a) skills in performing physical activities; (b) skills in writing and oral presentations in theory courses; (c) computer technological skills in some courses; and (d) leadership skills demonstrated by high-performing students who serve as class leaders, peer tutors, and/or assistant instructors.

3. After admittance to the program, students not only must maintain a 2.75 GPA, they must continue to exhibit desirable professional characteristics to remain in the program. Students who demonstrate a lack of commitment, effort, professional behavior, knowledge, or teaching skills may be removed from the program until these characteristics are demonstrated.

Statement on Student Teaching

Students who are majoring in Health Promotion will enroll in:

KHP 371 Student Teaching in Health Education .......... 12

UK Core Requirements

Electives

Electives for 128 total credit hours chosen with the help of an advisor.

TOTAL HOURS ........................................... 128
Requirements for Program

The Department of Kinesiology and Health Promotion offers undergraduate courses and degree programs in kinesiology (exercise science and physical education) and health promotion. The health promotion program includes two tracks (health promotion non-teaching certification and health promotion teaching certification).

Students with the degree in Health Promotion non-teaching certification will be eligible to take the Certified Health Education Specialist (CHES) exam, apply to graduate schools in health education, seek employment in hospitals, health departments, worksite wellness, state or national organizations, or other similar areas.

Health promotion is the process of enabling people to increase control over, and to improve, their health. It moves beyond a focus on individual behavior towards a wide range of social and environmental interventions. The purpose of health promotion is to promote quality of life for all people. This area of study is interdisciplinary, extending into biology, psychology, sociology, and medicine. Health promotion generally focuses on the whole individual, including social and emotional dimensions, not just the physical. The Health Promotion track 2 is guided by the standards of the National Commission for Health Education Credentialing (NCHEC).

The B.S. in Education with a major in Health Promotion (non-teaching certification) requires completion of the following: (1) the UK Core requirements; (2) specified course work in Program Related Studies and Health Promotion course requirements; (3) practicum internship hours; and (4) completion of a university-approved minor.

Probation, Dismissal and Reinstatement Policy

An undergraduate health promotion major may be dismissed from the College of Education Kinesiology and Health Promotion Department for failure to make satisfactory progress. In the KHP program, the college continuously monitors the progress of all KHP students. Consistent with University regulations and the College of Education, requirements are that KHP programs have policies for terminating a student’s enrollment for reasons of academic and professional performance.

The following rules apply in the College of Education, Kinesiology and Health Promotion Department, Health Promotion major (non-teaching certification).

Academic Performance

1. All students in the health promotion track 2 will enter the major with lower-division standing.

2. Students must take KHP 230, ANA 209 and PGY 206 or ANA 109 and ANA 110, and BIO 103 to be admitted to upper division standing.

3. At 45 hours, students will have to have taken the courses listed above and have an overall 2.2 grade-point average (GPA) to be admitted to upper division standing.

4. For students in the nonteaching health promotion major (track 2), these courses will be restricted to those who have upper division standing: KHP 325, 330, 420G, 520, 509, and 590. Students who are enrolled in the minor in health promotion and students taking these courses as electives will still be allowed to enroll in the courses.

5. Students will fill out a brief application form to gain upper division status and turn this form in to their advisor. KHP advisors in the College of Education will assume responsibility to review students’ transcripts to determine if students should gain upper division status.

6. A 3-person appeals committee of Health Promotion faculty will be established to determine standards for accepting students who may have extenuating circumstances and to review appeals.

7. Once admitted to upper division status, students will be required to maintain a 2.2 GPA. Should their GPA drop below a 2.2, they would have one semester to bring their GPA up to a 2.2. If that does not occur, the student will no longer be in the program.

8. After admittance to the program, students must not only maintain a 2.2 GPA, they must continue to exhibit desirable professional characteristics to remain in the program. Students who demonstrate a lack of commitment, effort, professional behavior, and knowledge may be removed from the program until these characteristics are demonstrated.

B.A. in Education with a major in INTERDISCIPLINARY DISABILITY STUDIES

The B.A. degree in Interdisciplinary Disability Studies (IDS) prepares students for service provision through the use of evidenced-based practices; and also prepares students who may be interested in matriculating to graduate level education, in areas such as Rehabilitation Counseling and Social Work.

Applying to the Program
In the spring of their sophomore year (e.g., 45 hours), students are required to formally apply for entry into the program, requiring an admission GPA of 2.5 in the following courses: PSY 100, SW 124, EDP 202, RC 250, RC 300, PSY 223. Upper division coursework is restricted to those who have been admitted to upper division status.

Subtotal: Guided Electives ........................................... 27

**Students may enroll only in those sections with the following subtitles: Family Violence; Victimization; Mass Incarceration; Substance Use and Society.

PRACTICUM

Students in the Interdisciplinary Disability Studies program are required to complete a practicum in the community, outside of the traditional classroom setting. This ensures that students are exposed to real-life agencies, populations, situations and circumstances to which they will demonstrate skill proficiency and applied knowledge. Evening classes have been traditionally offered in Master’s of Rehabilitation Counseling programs across the nation, as many students in this field work during the day. For this reason, students taking courses at the Rehabilitation Counseling 500 level may be required to take mixed graduate/undergraduate classes in the evening.

Free Electives
Select 12 credits of free elective classes of your choice.

Subtotal: Free Electives ........................................... 12

TOTAL HOURS ........................................... 120

*Students may enroll only in those sections with the following subtitles: Sociology of Mental Health; Sociology of Disabilities; Death, Dying and End of Life Issues; Access to Health Care in the US and Global Contexts.
Requirements for Program

Early Childhood Education is an interdisciplinary program which will prepare educators to work with children birth through age five, in public pre-primary classes and non-public institutions including day care, private preschool, and private kindergarten. The program is approved by the Kentucky Education Professional Standards Board to prepare graduates to seek a state teaching certificate in Interdisciplinary Early Childhood Education.

The faculty of the Interdisciplinary Early Childhood Education program are associated with the Department of Early Childhood, Special Education, and Rehabilitation Counseling. The faculty believe that teaching young children involves viewing children holistically, using structured behavioral approaches. They recognize that viewing children holistically requires considering all of the various settings of children’s environment (e.g., home, school, and neighborhood) as well as the reciprocal relationship between any two of the following variables: the immediate context the child is active in, the individual child, and all aspects of the child’s environment (including people). In the Interdisciplinary Early Childhood Education program, students will learn to apply behavioral principles for purposes of developing curricula, assessing child behavior, planning, implementing, and monitoring interventions, and assisting families. The program is guided by the standards of the National Association for the Education of Young Children, and the Division of Early Childhood of the Council For Exceptional Children.

To receive the B.S. degree in Education with a major in Interdisciplinary Early Childhood Education, students must: (1) complete the UK Core requirements; (2) complete the premajor requirements; and (3) complete requirements for the Interdisciplinary Early Childhood Education major, including required student teaching experiences and other practica. To be state-certified, candidates must also successfully complete all state-mandated testing requirements.

Continuous Assessment

1. All students in the interdisciplinary early childhood education program are expected to meet the standards and rules for Admission, Retention, and Exit from Teacher Education Programs as set forth in the section “Admission, Retention and Completion from Teacher Education Programs”.

2. Assessment at the Point of Entry to the IECE Program. The admission process provides the first point for formal assessment of the competencies outlined in the Initial Certification Program Folio for the program. Students who apply for admission must (a) meet the requirements for admission to the Teacher Education Program, and (b) be able to articulate their philosophy of teaching and document their experiences with young children in an initial portfolio and an entrance interview.

3. On-going Assessment. Once a student is admitted to the program, he/she meets with an advisor to plan the remainder of the program. Prior to the student teaching semester, the student must present a portfolio that documents his/her progress toward meeting program competencies.

4. Completion Assessment. At the exit assessment, students must document that they have met all program competencies through a final review of their portfolio and the successful completion of student teaching in an appropriate school placement for young children with and without disabilities.

Statement on Student Teaching

Student teaching in the Interdisciplinary Early Childhood Education program is 16-18 weeks. Students will enroll in:

IEC 411 Student Teaching in Interdisciplinary Early Childhood Education ............................ 12

Degree Requirements

Students in Interdisciplinary Early Childhood Education must complete the following:

1. Complete the UK Core requirements.
2. Complete all degree requirements.
3. Complete the required curriculum in the major program.
4. All students majoring in Interdisciplinary Early Childhood Education must apply and be admitted to the professional Teacher Education Program in order to complete the program.

UK Core Requirements

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

All students in Interdisciplinary Early Childhood Education must apply, and be admitted to, and be retained in a Teacher Education Program (TEP), and complete a state approved university teacher training program in Early Childhood Education to be able to apply for certification. Students who are interested in certification in Early Childhood Education need to meet with a certification officer in the College of Education prior to completing 60 semester hours to discuss state certification and TEP requirements. A minimum 2.75 cumulative GPA is required to be eligible to apply for admission to TEP. TEP applications will be reviewed for students who have completed, or will complete during the semester in which they apply, 60 semester hours, including EDP 202, EDS 375, IEC 255, and IEC 256 with a grade of C or better.

College of Education

University of Kentucky 2019-2020 Undergraduate Bulletin 235
Continuous Assessment

1. All students in the kinesiology program are expected to meet the standards and rules for Admission, Retention, and Exit from Teacher Education Programs as set forth in the section "Admission, Retention and Completion from Teacher Education Programs".

2. The kinesiology program stimulates higher performance goals for high-performing students by offering several modes of performance. Examples are: (a) skills in performing physical activities; (b) skills in writing and oral presentations in theory courses; (c) computer technological skills in some courses; and (d) leadership skills demonstrated by high-performing students who serve as class leaders, peer tutors, and/or assistant instructors.

3. After admittance to the program, students not only must maintain a 2.75 cumulative GPA, they must continue to exhibit desirable professional characteristics to remain in the program. Students who demonstrate a lack of commitment, effort, professional behavior, knowledge, or teaching skills may be removed from the program until these characteristics are demonstrated.

Statement on Student Teaching

Students who are majoring only in kinesiology will enroll in:

KHP 369 Student Teaching in Physical Education ...... 12

Students who are completing a major in both kinesiology and health promotion will enroll in:

KHP 369 Student Teaching in Physical Education ...... 6

and

KHP 371 Student Teaching in Health Education ...... 6

In this situation, student teaching time will be divided between the high school, middle school, and elementary grades, with student teaching supervision occurring cooperatively between the kinesiology and health promotion faculty.

UK Core Requirements

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

B.S. in Education with a major in KINESIOLOGY (Non-Teacher Certification Program in Exercise Science)

NOTE: At the time of publication, the following program in Kinesiology (Non-Teacher Certification Program in Exercise Science) had been provisionally approved by the University Senate; formal approval is expected in fall 2019.

Requirements for Program

The Department of Kinesiology and Health Promotion offers undergraduate courses and degree programs in kinesiology and health education. The kinesiology program (exercise science option) leads to employment opportunities in the athletics, sports and fitness industries, as well as professional programs in health fields such as Physical Therapy, Physicians Assistant, Occupational Therapy, Medicine, Dentistry, and Pharmacy. The kinesiology program is guided by the standards of the National Association for Sport and Physical Education (NASPE).

The B.S. in Kinesiology requires completion of: (1) the UK Core requirements; (2) specified course work in program related studies, professional kinesiology requirements, education course requirements; (3) practicum internship hours; and (4) specified course work in exercise science.

Continuous Assessment

1. The kinesiology program stimulates higher performance goals for high-performing students by offering several modes of performance: (a) skills in performing physical activities; (b) skills in writing and oral presentations in theory courses; (c) computer technological skills in some courses; and (d) leadership skills by high-performing students are often used in classes through class leaders, peer tutors, and/or assistant instructors.

2. Students must maintain a 2.0 GPA for retention in and exit from the program with a bachelor’s degree. Students who demonstrate a lack of commitment, effort, professional behavior, knowledge, or disciplinary skills, or who have not maintained the necessary GPA overall and in the major courses may be removed from the program and the college.

UK Core Requirements

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

I. Intellectual Inquiry in Arts and Creativity

Graduation Composition and Communication Requirement (GCCR)

KHP 300 Psychology and Sociology of Physical Education and Sport ................................................. 3

Graduation Composition and Communication Requirement hours (GCCR) ........................................... 3

Premajor Requirements

1. All students who declare exercise science as their major will be accepted with premajor status.

2. All exercise science students will be required to take a minimum of 45 credit hours and complete the following courses to be admitted into major courses (i.e., 400/500 level): ANA 209 and PGY 206 or ANA 109 and ANA 110; MA 109 or math ACT score of 25 or above; CHE 104 or 105. Upon completion of these requirements, students must have at least a 2.0 cumulative GPA to enroll in 400/500 level KHP courses (listed below).

3. Specific upper division level courses will be restricted so that only students who have been granted major status, graduate students, and students required to take the restricted courses as part of other University certificates, minors, and programs (e.g., Nutrition for Human Performance Certificate) will be allowed to enroll in those courses. The restricted classes are KHP 415, KHP 420G, KHP 445, KHP 450, KHP 473 and KHP 577.

4. A 3-person appeals committee of Exercise Science faculty will be established to determine standards for accepting students who may have extenuating circumstances and evaluate appeals to remain in the Program if students do not meet minimum major requirements. In addition, academic advisors and/or the Appeals Committee will review applications and transcripts of students transferring to the Exercise Science major (non-teacher education major). Transfer students will be required to complete the following courses (ANA 209 and PGY 206 or ANA 109 and ANA 110; MA 109 or math ACT score of 25 or above; CHE 104 or 105), complete a minimum of 45 credit hours, and maintain a cumulative 2.0 GPA prior to obtaining major status or be provided with an override by the Appeals Committee in special circumstances, and thus being able to register in KHP 415, KHP 420G, KHP 445, KHP 450, KHP 473 and KHP 577. Transfer students may complete the equivalent of the required courses at another academic institution. Transfer students are responsible for obtaining and submitting the syllabi of those courses to the academic advisor unless ex-
Students will complete a brief application form to be accepted into the major. Students who meet all premajor requirements will be admitted to the major, pending verification of all premajor requirements. Forms will be submitted to their assigned advisor. The KHP advisors in the College of Education will be responsible for reviewing students’ transcripts to determine if students have achieved major status.

6. Once admitted to major status, students will be required to maintain a 2.0 cumulative grade-point average (GPA). Students whose cumulative GPA falls below 2.0 or who have two consecutive term GPAs below 2.0 will be placed on academic probation by currently existing university rules. A student who is placed on academic probation will retain major status (and be able to enroll in restricted courses) for one semester. If the student’s cumulative GPA does not raise to 2.0 after one semester, the student will be removed from major status (thus not able to enroll in the restricted courses). Students who are placed on academic probation may take other University or unrestricted KHP courses to raise their GPA to 2.0 or higher and re-apply to obtain major status. In the case of academic probation due to an insufficient GPA, the process will involve the KHP Advisor notifying the Program Director which students do not meet the minimum cumulative GPA requirement (2.0). An academic advisor will contact the student and notify him/her of their probationary status. The student may appeal the probationary major course restriction by meeting with the Appeals Committee to state their case. Following this meeting an academic advisor or the Appeals Committee will provide a written decision for the student.

7. After admittance to the program, students not only must maintain a 2.0 cumulative GPA, they must continue to exhibit desirable professional characteristics to remain in the program. Students who demonstrate a lack of commitment, effort, professional behavior, and knowledge may be removed from the program until these characteristics are demonstrated.

**TOTAL HOURS: ........................................... 120**
1. All middle level education students are expected to meet the standards and rules for Admission, Retention and Completion from Teacher Education Programs as set forth in the section “Admission, Retention and Completion from Teacher Education Programs”.

2. Assessment at the Point of Entry to the Middle School Program. The admission process provides the first point for formal assessment of the competencies outlined by the standards documents which guide the middle level education program. Basic skills standards must be met and students must be making satisfactory progress towards professional and content area proficiency.

3. On-going Assessment. Once a student is admitted to the program, he/she meets with an advisor to plan the remainder of the program. The focus of this initial advising session is to begin a professional development plan which ensures that all standards will be met by program completion.

4. Completion Assessment. At the completion assessment, students must show competency in all relevant standard areas. This is done through a final review of the eligibility portfolio, review of information provided by the cooperating teacher and university supervisor, and documentation of remediation of any weaknesses noted at the formal review in the methods semester.

Statement on Student Teaching
Middle level certification requires students to be certifiable in two academic subject areas, which requires two student teaching placements spread across the final two semesters: 6 hours in the second-to-last semester, and 9 hours in the final semester. Students seeking Middle Level certification will register for:

EDC 549 Student Teaching in the Middle School

UK Core Requirements
See the UK Core section of this Bulletin for the complete UK core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

Program Related Studies (4 hours)
PSY 100 Introduction to Psychology

Professional Education Courses (40 hours)
The National Middle School Association (NMSA) describes six broad areas of competence for middle grades teachers. These are: (1) early adolescent development, (2) middle grades curriculum, (3) middle grades instruction, (4) middle grades school organization, (5) families and community relations, and (6) middle grades teaching roles. With the support of a liberal arts foundation provided by the UK Core requirements and the content area knowledge provided by the requirements detailed above, the professional education requirements of the program endeavor to provide a firm foundation in each of these six areas.

EDC 317 Introduction to Instructional Media
EDP 202 Human Development and Learning
EDP 203 Teaching Exceptional Learners in Regular Classrooms
EPE 301 Education in American Culture

All of the following courses require admission to the Teacher Education Program:
EDC 327 Reading in the Content Areas
EDC 330 Writing in the Content Areas
EDC 341 The Early Adolescent Learner and Methods in Middle Level Education
EDC 343 Methods and Management in Middle Level Education
SEM 345 Methods of Teaching Middle Level Mathematics
EDC 346 Methods of Teaching Middle Level Social Studies
EDC 347 Methods of Teaching Middle Level English Language Arts
SEM 348 Methods of Teaching Middle Level Science
SEM 445 Applications of Teaching Middle Level Mathematics
EDC 446 Applications of Teaching Middle Level Social Studies
EDC 447 Applications of Teaching Middle Level English Language Arts
SEM 448 Applications of Teaching Middle Level Science
EDC 520 Assessment and Accountability in Middle Level Education
EDC 549 Middle Level Student Teaching

A total of four courses – two in each of the two selected content areas – must be completed from this group.

Content Area Courses (24-30 hours)
Students wishing to become certified in middle level (grades 5-9) must select two of the following content areas of specialization.

English and Communication (24 hours)
EDC/ENG 509 Composition for Teachers
ENG 230 Introduction to Literature
ENG 330 Text and Context
ENG 251 Survey of American Literature I
ENG 252 Survey of American Literature II
EDC 504/LIS 514 Literature and Related Media for Young Adults
LIN 211 Introduction to the Study of Language
LIN 317 Language and Society

Mathematics (25 hours)
The requirements for students choosing mathematics as a content area of specialization are based on standards developed by the National Council of Teachers of Mathematics, KERA Goals and Academic Expectations, and the Core Content for Assessment. The NCTM standards for middle grades include four common threads (reasoning, communication, problem solving, and connections) as well as content area standards of number, computation and estimation, probability, statistics, algebra, geometry, and measurement. Kentucky’s Goals and Academic Expectations and the Core Content for Assessment focus mathematics instruction on seven core areas: number, mathematical procedures, mathematical structure, measurement, space and dimensionality, change, and data.

Required
MA 201 Mathematics for Elementary Teachers
MA 202 Mathematics for Elementary Teachers
MA 308 Mathematical Problem Solving
For Middle School Teachers
MA 241 Geometry for Middle School Teachers
MA 162 Finite Mathematics and Its Applications
STA 296 Statistical Methods and Motivations
MA 113 Calculus I
MA 261 Introduction to Number Theory

Science (27 hours)
The content area preparation required for students in the middle school education program is based on the standards adopted by the National Science Teacher’s Association as well as Kentucky’s Core Content for Science Assessment and the New Teacher Standards. It is important that science teachers have strong content preparation in the sciences. This is needed to communicate modes of scientific inquiry, select appropriate learning experiences, guide students in their early scientific efforts, and help students apply scientific knowledge and skills in their daily lives.

CHE 101 Molecular Science for Citizens
CHE 105 General College Chemistry I
CHE 111 General Chemistry I Laboratory
EES 160 Geology for Teachers
EES 150 Earthquakes and Volcanoes
PHY 160 Physics and Astronomy for Teachers
PHY 120 How Things Work
PHY 130 Physics of Energy
BIO 148 Introductory Biology I
BIO 152 Principles of Biology II
BIO 155 Laboratory for Introductory Biology I
Social Studies (24 hours)
The middle level social studies content area teacher preparation program is guided by two principles: first, a commitment to continuous improvement based on reflection, evaluation, and on-going research; second, a commitment to peer collaboration as a source of professional growth. The program is guided by the National Council for Social Studies document, *Expectations of Excellence*, and the Kentucky New Teacher Standards.

TOTAL HOURS ........................................... 120

**B.A. in Education with a major in SECONDARY EDUCATION**

Option: English Education

Requirements for Program
This B.A. includes completion of an approved plan in the academic specialty teaching of English. No teacher certification is awarded with the B.A. Students desiring to go on to Master’s with Initial Certification must apply to the Graduate School and apply to the Secondary English Program Faculty in the spring of their senior year.

To receive the B.A. degree, students must: (1) complete the UK Core requirements; (2) complete the requirements for secondary English education; (3) major course work, support area, and related studies; and (4) complete 100 hours of fieldwork with adolescents through the required three hour course:
EDC 362 Field Experiences in Secondary Education .... 3

In 1996, the National Council of Teachers of English and the International Reading Association published *Standards for the English Language Arts*. This document identified six English language arts: reading, writing, speaking, listening, viewing, and visually representing. In addition, it presented an expanded definition of literacy, which reflects the ways technology and society have changed and will continue to change the ways in which we use language to communicate and to think. In order to prepare students for the literacy demands of today and tomorrow, English language arts education will need to address many different types and uses of language, including those that have traditionally been given limited attention in the curriculum. One such example is spoken language. Being literate in contemporary society means being active, critical, and creative users not only of print and spoken language but also of the visual language of film, television, photography and other media. Therefore, the content model should reflect the study of language and literacy through speech, theater, writing, and media. The English education program prepares its pre-service teachers with such a model so that their students will succeed as effective language learners and users, equipped with the skills they need to become critically literate citizens, workers, members of society, and lifelong learners.

Continuous Assessment
1. Because certification occurs through the Masters in Education including certification (MIC), students should be aware that they will need to be formally admitted to the MIC program. Admission/Retention/Completion regulations for all teacher certification programs are specified in the section “Admission, Retention and Completion from Teacher Education Programs”.
2. Oral and written communication skills of applicants for the MIC program in English Education will be assessed at the time of the interview, and through the entrance portfolio.
3. At the time of application to the English Education program at the Master’s degree level, applicants are evaluated according to the following criteria: grade-point average, quality of work in the subject content area, Graduate Record Examination scores, graded and on-site writing tasks, verbal communication, quality of references, commitment to teaching, social awareness, educational experiences with diverse learners 14-18 years old, and multicultural experiences.

Statement on Student Teaching
There is no student teaching required for completion of the Secondary English Education major. Student teaching occurs as part of the Masters in Education with initial certification.

UK Core Requirements
See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

Support Area (18 hours)
A minimum of three hours credit is required in each of the four areas: journalism, theatre, speech and fine arts, which English teachers will be qualified to teach in Kentucky. One of these areas, to be selected with the aid of an advisor, a minimum of 9 hours is required.

The following courses are recommended: courses with two asterisks (**) are highly recommended:

JOU 460 Journalism in Secondary Education ........................................... 3

EDC 362 Field Experiences in Secondary Education ................................ 3

Following completion of the secondary social studies major, students will demonstrate the following: (1) a reflective understanding of American society, its past and contemporary situation, and its place in the larger world; (2) an ability to apply social science concepts and use inquiry and interpretive skills; (3) a historical perspective; (4) a multicultural and global perspective; and (5) an ability to learn from participation in the community (from local to global) affairs and service. Students should consider experiences such as study abroad and internships in government and social agencies, as well as course work, in preparation for social studies teaching.

Continuous Assessment
1. Because certification occurs through the Masters in Education including certification (MIC), students should be aware that they will need to be formally admitted to the MIC program. Admission/Retention/Completion regulations for all teacher certification programs are specified in the section “Admission, Retention and Completion from Teacher Education Programs”.
2. Oral and written communication skills of applicants for the MIC program in social studies education will be assessed at the time of the interview, and through the entrance portfolio.
3. Admission to the Masters in Education with initial certification is competitive; completion of the Bachelors in Secondary Social Studies Education does not guarantee admission to the Masters in Education with certification program.
4. Students are reminded that they will be teaching about the whole world; somewhere in the 66 hours they should have at least one course about each world region.
5. Students also need to be prepared to teach U.S. history from an interdisciplinary perspective and a multicultural perspective.
6. Students need breadth and depth. Students are strongly urged to take nine hours in two of the subjects in their support area.

Statement on Student Teaching
There is no student teaching required for completion of the secondary social studies education major. Student teaching occurs as part of the Masters in Education with certification.

UK Core Requirements
See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

Majors and Minors (66-72 hours)
Students must complete Plan 1 or 2 in history and social sciences for secondary education.

Plan 1
Major in history (36 hours) with a minor (19-21 hours) in anthropology, economics, geography, political science, psychology, or sociology, and a support area (15 hours) which includes one course from each of the social sciences not chosen as minor.

Plan 2
Major (at least 30 hours) in anthropology, economics, geography, political science, or sociology, with a minor (21 hours) in history and a support area (15 hours) which includes one course from each of the social sciences not chosen as major.

History Major for Secondary Education (36 hours)

Required (18 hours)
HIS 104 A History of Europe Through the Mid-Seventeenth Century ............................. 3
HIS 105 A History of Europe From the Mid-Seventeenth Century to the Present ............................. 3
HIS 108 History of the United States Through 1876 ............................. 3
HIS 109 History of the United States Since 1877 ............................. 3
HIS 301 History Workshop: Introduction to the Study of History ............................. 3
HIS 499 Senior Seminar for History Majors (Subtitle required) ............................. 3

Twelve of the other 18 credits must be history courses numbered 300 to 599. There must be some chronological diversity, with at least 6 hours of U.S. history above the 100 level and at least 9 hours in history of other regions of the world, which will give the student the broad background necessary to teach World Civilization ............................. 18

History Minor for Secondary Education (21 hours)

Required (12 hours)
HIS 104 A History of Europe Through the Mid-Seventeenth Century ............................. 3
HIS 105 A History of Europe From the Mid-Seventeenth Century to the Present ............................. 3
HIS 108 History of the United States Through 1876 ............................. 3
HIS 109 History of the United States Since 1877 ............................. 3

Plus 9 hours which will give students a broad preparation for teaching U.S. History and World Civilization. At least 6 hours should be at the 300 level or above ............................. 9

Anthropology Major for Secondary Education (33 hours)

Required (15 hours)
ANT 220 Introduction to Cultural Anthropology ............................. 3
ANT 230 Introduction to Biological Anthropology ............................. 3
ANT 240 Introduction to Archaeology ............................. 3
ANT 302 Ethnographic Methods: Doing Anthropology ............................. 3
ANT 582 Seminar Integrative Seminar ............................. 3

Select a minimum of 18 hours of courses within anthropology of which 12 hours must be at the 300+ level.

Anthropology Minor for Secondary Education (21 hours)

Required (9 hours)
ANT 220 Introduction to Cultural Anthropology ............................. 3
ANT 230 Introduction to Biological Anthropology ............................. 3
ANT 240 Introduction to Archaeology ............................. 3

Select a minimum of 12 hours of courses within anthropology of which 9 hours must be at the 300+ level.

Economics Major for Secondary Education (30 hours)

Required (12 hours)
ECO 201 Principles of Economics I ............................. 3
ECO 202 Principles of Economics II ............................. 3
ECO 401 Intermediate Microeconomic Theory ............................. 3
ECO 402 Intermediate Macroeconomic Theory ............................. 3

Select a minimum of 18 hours of courses within economics numbered 300 to 599.

Economics Minor for Secondary Education (21 hours)

Required (6 hours)
ECO 201 Principles of Economics I ............................. 3
ECO 202 Principles of Economics II ............................. 3

Select a minimum of 15 hours of courses within economics numbered 300 to 599.

Geography Major for Secondary Education (36 hours)

Required (18 hours)
GEO 109 Digital Mapping ............................. 3
GEO 130 Earth’s Physical Environment ............................. 3
GEO 172 Human Geography ............................. 3
GEO 200 Orientation to Geography ............................. 3
GEO 309 Introduction to GIS ............................. 3
GEO 406 Field Studies in Geography (Subtitle required) ............................. 3

Select a minimum of 18 hours of courses within geography numbered at the 200 level or above.

Geography Minor for Secondary Education (21 hours)

Required (15 hours)
GEO 109 Digital Mapping ............................. 3
GEO 130 Earth’s Physical Environment ............................. 3
GEO 172 Human Geography ............................. 3
GEO 200 Orientation to Geography ............................. 3
GEO 309 Introduction to GIS ............................. 3

Select a minimum of 6 hours of courses within geography numbered at the 200 level or above.

Political Science Major for Secondary Education (30 hours)

Required (3 hours)
PS 101 American Government ............................. 3

Select two from the following:
PS 210 Introduction to Comparative Politics ............................. 3
PS 230 Introduction to International Relations ............................. 3
PS 240 Introduction to Political Theory ............................. 3
PS 372 Introduction to Political Analysis ............................. 3

Select a minimum of 21 hours of courses within political science of which 15 hours must be at the 300+ level. These courses should represent the various subfields in political science, including American Politics, Comparative Politics, International Relations, and Theory and Methodology.

Political Science Minor for Secondary Education (21 hours)

Required (3 hours)
PS 101: American Government ............................. 3

Select two from the following:
PS 210 Introduction to Comparative Politics ............................. 3
PS 230 Introduction to International Relations ............................. 3
PS 240 Introduction to Political Theory ............................. 3
PS 372 Introduction to Political Analysis ............................. 3

Select a minimum of 12 hours of courses within political science of which 9 hours must be at the 300+ level. These courses should represent the various subfields in political science, including American Politics, Comparative Politics, International Relations, and Theory and Methodology.

Psychology Minor for Secondary Education (20 hours)

Required (8 hours)
PSY 100 Introduction to Psychology ............................. 4
PSY 215 Experimental Psychology ............................. 4

Complete four of the five courses:
PSY 223 Developmental Psychology ............................. 3
PSY 311 Learning and Cognition ............................. 3
PSY 312 Brain and Behavior ............................. 3
PSY 313 Personality and Individual Differences ............................. 3
PSY 314 Social Psychology and Cultural Processes ............................. 3

Sociology Major for Secondary Education (30 hours)

Required (6 hours)
SOC 101 Introduction to Sociology ............................. 3

One additional SOC course chosen in consultation with your academic advisor ............................. 3

Select one (6 hours)

B.S. in Education with major in SPECIAL EDUCATION

Requirements for Program
The Special Education teacher preparation program supports the UK educator preparation unit’s theme of Research and Reflection for Learning and Leading. Special education teachers are prepared to assess, plan, and teach based on what they learn from their students and to conduct continuous self-reflection in order to improve their teaching. The standards and competencies on which the Special Education program is based are those prescribed by The Council for Exceptional Children and The Kentucky New Teacher Standards. The B.S. in Education program in Special Education requires completion of: (1) the UK Core requirements; (2) specified course work in Related Studies and Professional Education; and (3) specified course work in the Learning/Behavior Disorders (LBD) and Moderate to Severe Disabilities (MSD) areas of specialization. Students graduating from the certification program obtain two Kentucky teacher certificates in Moderate to Severe Disabilities (grades P-12) and in Learning/Behavior Disorders (grades P-12). It is possible to complete this certificate program in four years.

Continuous Assessment
1. All students in the Special Education program are expected to meet the standards and rules for Admission, Retention, and Completion from Teacher Education Programs as set forth in the section “Admission, Retention, and Completion from Teacher Education Programs”.
2. Assessment at the Point of Entry to the Special Education Program. The admission process provides the first point for formal assessment of the competencies outlined in the Initial Certification Program Folio for the program. Students who apply for admission must: (a) meet the requirement for admission to the Teacher Education Program; (b) have successfully completed a special education survey course (EDS 375) and have completed or been enrolled in initial coursework (EDS 514, EDS 526, EDS 546); and (c) be able to articulate their philosophy of teaching and document their experiences with persons with disabilities in an initial portfolio and an entrance interview. For students that have limited experience with individuals with disabilities, it is strongly recommended to be enrolled in the initial practicum when applying (EDS 301).

3. On-going Assessment. Once a student is admitted to the program, he/she meets with an advisor to plan the remainder of the program. Prior to the student teaching semester, the student must present a portfolio that documents his/her progress toward meeting program competencies in the courses completed.

4. Completion Assessment. At the completion assessment, students must document that they have met all program competencies through a final review of their portfolio and the successful completion of student teaching in multiple public school placements for students across a variety of grade levels and ability levels (i.e., LBD and MSD).

UK Core Requirements
See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

I. Intellectual Inquiry in Arts and Creativity
Choose one course from approved list .......................... 3

II. Intellectual Inquiry in the Humanities

**B.S. in Education with a major in STEMEDUCATION**

**UK Core Requirements**  
See the UK Core section of this Bulletin for the complete UK core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK core requirements.  
Gen Ed courses may overlap with content major requirements. May not overlap with content support courses.  

**I. Intellectual Inquiry in Arts and Creativity**  
Choose one course from approved list  

**II. Intellectual Inquiry in the Humanities**  
Choose one course from approved list

**III. Intellectual Inquiry in the Social Sciences**  
PSY 100 Introduction to Psychology

**IV. Intellectual Inquiry in the Natural, Physical, and Mathematical Sciences**  
Choose one course from approved list

**V. Composition and Communication I**  
CIS/WRD 110 Composition and Communication I

**VI. Composition and Communication II**  
CIS/WRD 111 Composition and Communication II

**VII. Quantitative Foundations**  
MA 113 Calculus I  
or  
MA 137 Calculus I With Life Science Applications

**VIII. Statistical Inferential Reasoning**  
STA 296 Statistical Methods and Motivations

**IX. Community, Culture and Citizenship in the USA**  
Choose one course from the approved list

**X. Global Dynamics**  
Choose one course from approved list

**UK core hours .................................................. 32**

**Graduation Composition and Communication Requirement (GCCR)**  
EPE 301 Education in American Culture

**Graduation Composition and Communication Requirement hours (GCCR) .................................. 3**

**Required STEM Education Core**

**Hours**

*SEM 110 Introduction to STEM Education ................. 2
*EDP 202 Human Development and Learning ................. 3
*EDS 516 Principles of Behavior Management and Instruction ................................................. 2
*SEM 421 STEM Methods I ........................................ 3
*SEM 422 STEM Methods II ..................................... 3
*SEM 423 Assessment in STEM Education ................. 2
*SEM 435 STEM Student Teaching in the Secondary School .................................................. 10
EDC 533 Teaching Literacy Across the Disciplines ....... 3

*Requires field experience hours.

*Required for TEP Application.

**Required STEM Core hours ..................................... 29**

**Specialization STEM Content**

**Course Work**

Choose your content area below. This will serve as your secondary major. All content courses require a C or better and at least a 2.75 GPA.

**Biology Major**

**Premajor Requirements**

### Computer Science Electives

Complete 15 hours of electives, with at least one course from each group below:

- **Mathematics Core Courses**
  - MA 113 Calculus I ................. 4
  - MA 114 Calculus II ................. 4
  - CS 100 The Computer Science Profession ............. 1
  - CS 115 Introduction to Computer Programming ........... 3
  - CS 215 Introduction to Program Design .................. 3
  - CS 216 Introduction to Software Engineering ............ 3
  - CS 275 Discrete Mathematics .................. 4
  - EE 280 Design of Logic Circuits .................. 3
  - CS 315 Algorithm Design and Analysis .................. 3
  - CS/EE 380 Computer Organization .................. 3

### Computer Science Endorsements

Choose one. May substitute a different sequence with prior faculty approval (6 hours minimum):

- MA 351 Elementary Topology I ................. 3
- MA 352 Elementary Topology Algebra II ............. 3
- OR
- MA 361 Elementary Modern Algebra I ................. 3
- MA 362 Elementary Modern Algebra II ............. 3
- OR
- MA 471G Advanced Calculus I ................. 3
- MA 472G Advanced Calculus II ............. 3

### Required Mathematics Electives

Courses at the 300 level or above with exception of MA 241; 12 hours minimum:

- MA 310 Mathematical Problem Solving for Teachers ........... 3
- MA/STA 320 Introductory Probability .................. 3
- MA 330 History of Mathematics .................. 3
- MA 341 Topics in Geometry .................. 3

**The subtitle for this course must directly relate to STEM content. Check with your advisor for verification prior to taking the course.

Minimum 120 credit hours required for graduation and Rank III certification.

### Undergraduate Certificate in Leadership Studies

The Undergraduate Certificate in Leadership Studies will allow students to demonstrate their preparedness to lead, live, and work in an interconnected and interdependent global community. Students will improve their understanding of leadership and develop the skills needed to lead in their particular field through a series of courses designed to provide a rich leadership focus.

The modern workplace demands employees who understand the foundations of leadership, can navigate organizational change, value community leadership and relationships, and who embrace ethics, diversity, and an international understanding. Students who participate in this Undergraduate Certificate in Leadership Studies will master these skills and benefit from an additional degree credential, that alongside with their major(s) and/or minor(s) demonstrates their dedication to and experiences with leadership.
The structure of the Undergraduate Certificate in Leadership Studies offers a coherently planned academic core for students who otherwise might take very few courses that have an explicit focus on leadership. The core of the Certificate consists of four distinct pillars that are complimentary to a variety or existing undergraduate programs and are reflected throughout the content of course work in the following ways:

- Understanding core concepts about leadership
- Fostering team and organizational leadership
- Embracing community leadership
- Focusing on intercultural communication skills

Leadership Studies Program of Study

The program consists of 18 credits of undergraduate study in leadership. Students will take one course from each of the four pillars and two additional elective leadership courses.

Leadership Foundations (3 credits)
CLD/EDL 402 Principles of Leadership ........................................ 3
CLD 230 Intrapersonal Leadership ............................................. 3

Organizational Change (3 credits)
EDL 571 Design Thinking in Education ...................................... 3
CLD 530 Fundamentals of Organizational Leadership ................... 3

Community Leadership and Relationships (3 credits)
CLD 430 Leading in Communities: Vision, Action, and Change .......... 3
CLD/EDL 404 Contemporary Leadership Applications .................... 3
CLD 260 Community Portraits .................................................. 3
CLD 330 Interpersonal Skills for Tomorrow’s Leaders ................. 3

Ethics, Diversity, and International Understanding (3 credits)
CLD 470 Topics in Leadership (Subtitle required) ....................... 3
CLD/EDL 403 Leadership and Communication .............................. 3
Any university-approved study abroad experience

Electives (6 credits)
Any course in the above pillars not already counted
Any approved study abroad experience (can only count 3 credits for certificate)

Approved courses include but are not limited to:
AMS 301 Leadership and Management I ................................. 3
AMS 341 Leadership and Management II ................................. 3
AMS 395 Independent Study in Leadership .............................. 1-2
COM 252 Introduction to Interpersonal Communication .............. 3
COM 281 Communication in Small Groups .............................. 3
COM 325 Introduction to Organizational Communication .............. 3
MGT 410 Analysis of Organizational Behavior ......................... 3
MGT 320 Survey of Human Resource Management .................... 3
*UK 100 University Course (Title to be assigned) ...................... 1-3
*To be taken only when subtitle is Emerging Leadership Institute.

Other Vital Elements
At least 12 credit hours must be taken for a letter grade
At least 12 credits at 200-level or above and a minimum of 6 credit hours at 300-level or above
Students must earn a C or better in each required certificate course
At least one course needs to be taken in the sister discipline (EDL or CLD)
No more than 9 credits in the certificate are used to satisfy requirements for the student’s bachelor’s degree, minor, or another certificate (exclusive of free or unrestricted electives)

For questions regarding this program, contact Program Director Dr. Jayson W. Richardson at jayson.richardson@uky.edu, or 859-379-9097.
