Students interested in health care have a variety of academic options. The Human Health Sciences (HHS) baccalaureate program was created to address the need for a well-prepared health care work force. Graduates of this program will have a strong foundation in competencies necessary to deliver high quality health care in an interprofessional, dynamic environment. This program is not intended to replace traditional pathways to health care careers; instead, it is intended to offer a unique alternative for those who seek careers in health care and the health professions. Specifically, the degree offers eight options for students interested in future graduate or professional study: Athletic Training, Audiology, Dentistry, Occupational Therapy, Optometry, Pharmacy, Physical Therapy, and Physician Assistant programs.

**Admission**

Admission into the Human Health Sciences baccalaureate program is highly competitive. The following factors will be taken into consideration as part of the admissions decision:

- high school GPA (preference given to those with an unweighted high school grade-point-average of 3.5 or higher);
- ACT or SAT scores (preference given to those with a 28 ACT or composite SAT equivalent or higher);
- service and volunteerism;
- shadowing and observation of healthcare professionals;
- cultural experiences as well as leadership roles;
- completion of program application and interview process.

The Human Health Sciences program employs a holistic admissions model in which all aforementioned values are weighed equally along with an interview experience. The program priority application deadline is April 1 of each year and will include a personal statement. A rolling admissions process shall be utilized until the cohort is filled. Interviews will be conducted to allow student finalists to demonstrate their non-academic skills.

**UK Core Requirements**

See the UK Core section of the 2019-2020 Undergraduate Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

The Human Health Sciences baccalaureate program has selected specific UK Core courses that also meet major requirements. Students may choose their own UK Core approved course in areas where a specific one is not listed (e.g., Arts and Creativity, Humanities, etc.).

I. Intellectual Inquiry in Arts and Creativity

Choose one course from approved list ................................................................. 3

II. Intellectual Inquiry in the Humanities

Choose one course from approved list ................................................................. 3

III. Intellectual Inquiry in the Social Sciences

PSY 100 Introduction to Psychology ................................................................. 4

IV. Intellectual Inquiry in the Natural, Physical, and Mathematical Sciences

CHE 105 General College Chemistry I and CHE 111 General Chemistry I Laboratory ................................................................. 5

V. Composition and Communication I

CIS/WRD 110 Composition and Communication I ........................................... 3

VI. Composition and Communication II

CIS/WRD 111 Composition and Communication II ......................................... 3

VII. Quantitative Foundations

MA 137 Calculus I With Life Science Applications ........................................ 4

VIII. Statistical Inferential Reasoning

Choose one course from approved list ................................................................. 3

IX. Community, Culture and Citizenship in the USA

Choose one course from approved list ................................................................. 3

X. Global Dynamics

Choose one course from approved list ................................................................. 3

Required Courses for the Major

For Dentistry, the course is HHS 450 Introduction to Dentistry (3 credits). For
Track Related Major Requirements
The Dentistry and Physician Assistant options require an additional major course. For
Physician Assistant, the course is HHS 450 Introduction to Dentistry (3 credits). For
Physician Assistant, the course is HHS 450 Introduction to Medicine (2 credits).

All HHS degree seeking students are required to complete ten courses totaling 31
Prerequisite Courses Recommended But Not Required
The Dentistry, Pharmacy and Physical Therapy options have courses that are
recommended, but not required. Students will be encouraged to take these courses,
although taking these courses may extend their program. However, students complet-
ing the prerequisite recommended courses are traditionally more competitive for
admission to future graduate and professional programs.

Required Core Courses – Non-HHS
These courses are intended to support students’ preparation in the sciences and
better prepare them for healthcare careers or entry into professional degree programs.

Prerequisite Courses Unique to Each Option
These courses are consistent with the prerequisite requirements for each option
program (Athletic Training, Audiology, Dentistry, Occupational Therapy, Optom-
etry, Pharmacy, Physical Therapy, and Physician Assistant). Students will be advised
accordingly to ensure they have met the course requirements for their program of
interest.

Required Core Courses – Non-HHS
These courses are intended to support students’ preparation in the sciences and
better prepare them for healthcare careers or entry into professional degree programs.

Prerequisite Courses Recommended But Not Required
The Dentistry, Pharmacy and Physical Therapy options have courses that are
recommended, but not required. Students will be encouraged to take these courses,
although taking these courses may extend their program. However, students complet-
ing the prerequisite recommended courses are traditionally more competitive for
admission to future graduate and professional programs.

Track Related Major Requirements
The Dentistry and Physician Assistant options require an additional major course. For
Physician Assistant, the course is HHS 450 Introduction to Medicine (2 credits).

General Electives
The University has many courses that add to the students’ course of study. Students
will be advised accordingly.
