Services are tailored to meet the needs of individual students based on their specific disabilities and are designed to assist students in developing the skills necessary to advocate for their individual learning and living needs. The services provided through the Disability Resource Center include, but are not limited to, determining needed accommodations, consulting about strategies, coordinating student services, assisting with campus and housing accommodation arrangements, and providing information about other available campus resources that may be of benefit to the student with a disability. The office registers all on campus emotional and service animals, as well as service animals in training. The Disability Resource Center also works with academic departments to provide accommodated testing on an as needed basis.

Students with permanent disabilities include individuals with physical conditions, medical and chronic health disorders, learning disabilities, attention deficit/hyperactivity disorder (ADHD), communication disorders, and other neurological or psychological disorders (i.e., seizure disorders, migraines, depression or anxiety disorders, brain injuries, etc.). Students with temporary disabilities include those who are recovering from surgery or who are being treated for temporary medical conditions (sprained ankle, broken leg, etc.). All students must provide current documentation of their disability and the need for accommodations before services can be provided.

In order to receive accommodations, students with disabilities are required to self-identify by registering with the Disability Resource Center. Eligibility for accommodations is based on proof of the disability and the need for accommodations. This will usually be in the form of a medical statement or report, or a psychological evaluation, or other related assessment from a qualified professional in the relevant field (such as a medical doctor, psychologist, psychiatrist, etc.). OFFICE FOR INSTITUTIONAL DIVERSITY
The University of Kentucky prepares students for meaningful and responsible engagement within and across diverse communities. Through its own example and engagement, the University strives to improve the climate for diversity throughout Kentucky, a commitment given special importance and emphasis by shared history. The composite effect of work with students in classrooms, residence halls, offices, laboratories, clinics, libraries, and public places should be to enable them to develop a more enlightened worldview; attain a deeper understanding of and commitment to authentic democratic values and social justice; embrace a greater commitment to service and leadership for the common good; exhibit greater cultural knowledge and competence; and facilitate Kentucky’s success in the global economy.

The Office for Institutional Diversity has a primary responsibility to advance the University’s commitment to embracing difference and promoting increased knowledge of diversity and its significance as a fundamental value of the campus community. Of equal importance is its mission to enhance academic support services to help ensure the academic success and personal development of all students, but especially those students from backgrounds that have been historically underrepresented on the University campus.

Martin Luther King Jr. Cultural Center
Established on the University of Kentucky campus in 1987 as the Martin Luther King Jr. Cultural Center, this much-visited campus venue has been a vital resource, providing year-round programs and activities that have focused on the importance of cultural awareness and cross-cultural understanding. The center offers a relaxed and affirming atmosphere that enhances the recruitment and retention of students from diverse backgrounds. Now in its third decade of operation, the center has evolved into an education resource facility where all students, as well as faculty and staff of the university can engage each other through cross-cultural exploration and intellectual exchange.

Increasingly, research has shown a vitally positive link between intercultural engagement and student success. As a result, the King Center has sharpened its focus on diversity education and increased its support of the academic enterprise. In addition to cultural/educational programs consisting of lectures, concerts, artistic performances, film/video screenings and workshops, faculty involvement in the center has increased through the establishment of the Scholar-in-Residence (SiR). During his/her two-year assignment, the faculty SiR helps to situate many center programs and activities within the academic/intellectual realm, and engages students, faculty and staff in meaningful exploration and intellectual discourse. Check the King Center website for programs and scheduling details at: www.uky.edu/mlkc

Mission
The mission of the King Center is threefold: (1) to advance the university’s strategic goal of achieving a more diverse and inclusive campus environment, (2) to support increased retention of undergraduate students who are generally underrepresented in the student body, and (3) to enhance student achievement by helping students to have a more engaged, productive and fulfilling undergraduate experience. To these ends, our goals are to foster intercultural competence, promote respect and passion for the pursuit of quality education, and to help prepare students for productive and responsible engagement in a global society.

Values
It is a truism that education transcends the traditional classroom setting and takes place whenever and wherever individuals engage each other sincerely and open-mindedly in earnest pursuit of knowledge and deeper understanding. MLK Center programs and activities support this educational process through embrace of certain values, which include the following.

- **Truth and Integrity:** We seek truth and promote honesty and integrity in every manner of engagement, in information we disseminate, and in daily interactions.
- **Creativity and Resourcefulness:** We search continually for fresh ideas and innovative ways of designing and implementing programs, and in making full and productive use of valuable resources.
- **Respect and Acceptance:** People of different perspectives, experiences, and world outlook enrich the UK campus and the living/learning experience. King Center programs and activities embrace these differences with respect as we celebrate the enormous diversity of the human experience.

Center for Academic Resources and Enrichment Services (CARES)
CARES offers academic support services and enrichment opportunities that enhance the student’s undergraduate experience. The overall program goals are to increase the retention and graduation rates of students traditionally underrepresented in post-secondary education, including African American, Latino, and Native American students and students receiving the William C. Parker Scholarship.

The Center’s services and programs include tutoring, study groups, academic planning and monitoring, career exploration and networking opportunities, personal development workshops, graduate school information and preparation, and the Freshman Summer Program (FSP), a six-week academic enrichment program.

Student Support Services (SSS) is a federally-funded TRIO program designed to provide comprehensive academic support to improve academic performance and increase retention and graduation rates. Participation in SSS requires that a student be a U.S. citizen and at least one of the following: (1) first-generation college—neither parent has a baccalaureate degree; (2) low income—according to federal guidelines; and (3) have a documented disability. When a student has been accepted into the program, all program services are free. Services offered include: individual and group tutoring (in any subject), academic planning,
personal counseling, peer mentoring, career counseling, financial aid information, study skills instruction, writing assistance, graduate school preparation, technology assistance, cultural/social activities, and limited computers, calculators, and a small resource library for check-out and on-site use. Health Colleges Institutional Diversity
As part of the network of the Office of Institutional Diversity, this office works towards promoting collaboration among administration, faculty, staff and students in earnest pursuit of UK’s diversity goals. The mission is to sustain and nurture a diverse, caring and inclusive environment for all students to achieve academic excellence. To help accomplish this vital goal, the Health Center Student Diversity Services office serves to facilitate the recruitment, retention and professional development of underrepresented students in the professional healthcare programs of Dentistry, Health Sciences, Medicine, Nursing, Pharmacy and Public Health. Throughout the year, programs, workshops and activities are planned to provide leadership on diversity issues, exposure to professional experiences and academic support to students seeking admission as well as to those already enrolled in a health professions degree. The overall goal is to help students to welcome different points of view and belief systems while examining and refining their own so that they become a more culturally competent healthcare provider.

All discussions are confidential. Individual assessment and inventories related to personality and career interests may be used to aid in self-understanding. Testing is available only upon referral by a Center staff clinician.

The Counseling Center maintains an active outreach program, offering workshops and lectures to students, faculty, staff and community audiences on a variety of college life and mental health topics. The professional staff is also available to faculty, staff and departments for consultations regarding students, personnel or programs. There is no charge for consultations or outreach presentations.

Counseling Center services are available free of charge to students paying for at least six credit hours at the University of Kentucky during the current semester. To be eligible for our services in the summer, you must meet two criteria: be enrolled at UK during the previous spring semester and preregistered for the upcoming fall semester. Additionally, students enrolled for either summer session will be eligible for Center services. Students enrolled in graduate and professional programs at the University of Kentucky are also eligible.

Limitations for Treatment
The Counseling Center offers an initial assessment to all students eligible for services. However, the Counseling Center does not have adequate resources to treat all types of psychological problems. Certain students will require more specialized or comprehensive treatment than we can offer. Those individuals will be referred to other treatment resources following an evaluation.

For information about making an appointment, call (859) 257-8701 between 8 a.m. and 4:30 p.m., Monday through Friday. Referral from another campus agency is not necessary. The Counseling Center is located in 201 Frazee Hall, next to the Student Center.

The James W. Stuckert Career Center
The Stuckert Career Center (SCC) is a comprehensive and centralized career center for undergraduate students enrolled at the University of Kentucky. The SCC’s programs are designed to help students, faculty and employers integrate occupational and employment information into educational experiences, extra-curricular activities and work. SCC staff members work with students from their first-year experience through degree completion and beyond, helping them define goals, explore career possibilities, and obtain employment related to their education and interests. The SCC collaborates with Undergraduate Studies and Advising Centers across campus to assist students who need to select or change their major as well as explore career options.

Through individual appointments and group workshops, students are assisted with self-assessment interests, life/work values, personality preference, skills and decision-making styles), career exploration, internships and shadowing experiences, resume writing, interviewing preparation and practice, job search strategies, networking with potential employers, researching salary information, and preparing for a successful transition from campus to the community.

Students are encouraged to explore careers first-hand by participating in employer informational interviews and in shadowing/observational opportunities. These experiences provide ways that students can connect with career professionals to learn more about careers of interest and develop on-going contacts with professionals in their field of interest.

To participate in field-based experiential learning opportunities for relevant professional experience, students may apply for internships and gain academic credit, or may elect to participate in noncredit positions if employers are in compliance with US labor laws. While working with business organizations, non-profit agencies, or in other settings pertinent to a student’s academic major and career goals, these experiences better prepare students to be more competitive as graduate/professional school applicants and job candidates upon graduation. Internship positions can be full-time or part-time, and are available in local, national and international settings.

The James W. Stuckert Career Center is also home to the Katherine Kemper Career Library, a 1,400 square-foot reference area which houses information in electronic and print formats and several computer stations to assist students in their career development and job searches. The SCC offers many career search and career assessment software programs: CandidCareers, CareerShift, Vault, Sigi-3 and InterviewStream. All are available when students register for Wildcat CareerLink, the SCC’s Web-based programs for students and alumni seeking 24/7 career services.

The Stuckert Career Center offers a variety of career fairs, employer information sessions and networking receptions throughout the year as students begin seeking full-time, career-related employment. Students registered with Wildcat CareerLink, have access to thousands of job/internship opportunities. Students may also apply for interviews with employers visiting campus to recruit UK graduates. For detailed information about all programs and services visit: www.uky.edu/CareerCenter

UK students may schedule an appointment by calling (859) 257-2746. Drop-in hours are available to discuss quick questions with career staff members.

**Ordering Transcripts**

The University of Kentucky provides three options for ordering transcripts:

1. **Online – By Credit Card**
   - The University of Kentucky uses the National Student Clearinghouse to process online transcript requests. This service is available 24 hours a day, 7 days a week, allows you to track your order, and ensures the security of your information and payment.    To order and pay online, go to www.getmytranscript.com and select “Order College Transcripts”.

2. **In Person**
   - You may request transcripts at the Registrar’s Office, 10 Funkhouser Building, Monday through Friday, 8 A.M. to 4:30 P.M. If you attended UK prior to 1988, these requests may take longer to process because your records are on microfilm. For all others, we can normally process your request immediately. Please bring the following with you:
     - Picture ID
     - $10.00 per transcript, payable by cash, check, money order or credit card
     - Please note: the University is closed most holidays and during the break between Christmas and New Years. If you need to request a transcript when the University is closed, you may order online (see #1 above).

Pick Up by Person Other Than Student

The University will not release a transcript to another individual unless we receive a signed statement from the student providing the complete name of the individual who will pick up the transcript. This individual must also bring a picture ID when they come to pick up the transcript.
