AHEAD at UK for Homeschooled Students

What: UK hosts an Annual Home Education Appreciation Day (AHEAD@UK) for homeschooled students. Designed for homeschooled juniors and seniors and their families, this event allows attendees to learn about the UK experience and hear from graduates of homeschooling who have thrived on our campus. The Office of Enrollment Management offers a campus tour, advising meetings, information sessions (generally on scholarships, financial aid, Honors, Education Abroad, Living-Learning, etc.), a student panel and a meal.

Where: UK Campus. Specific time for Colleges to meet with these students is arranged by the Office of Admission.

When: July/August

Set up/What to expect: Arrangements will be made with each College by the Admission Office representative in charge of the event regarding how many students/parents they can expect, as well as the majors the students are interested in, and what time they will arrive to meet with advisors.

Advisor’s Role: Fielding questions from students/parents, sharing information about your major(s), and other information specific to your College.

Preparation: Be prepared with information on the majors the students have expressed an interest in, as well as scholarship information, opportunities for involvement, etc.
