Academic Minors

A minor is a structured group of courses that leads to considerable knowledge and understanding of a subject, although with less depth than a major. Some employers consider minors desirable, and the corresponding major requirements at the University may stipulate a minor. Some students choose to complement their major program with a minor in a related field or even in an entirely different field of interest. Students interested in pursuing an academic minor should contact their college student services office and the department responsible for the minor program for guidance and advising. Please note that undergraduate students can only complete a minor in addition to and as a complement to a major. The University does not award stand-alone minors.

A complete listing of all academic minors at the University of Kentucky may be found at the following link under the “Minor Sheets” tab: http://www.uky.edu/registrar/major-sheets. Students and advisors can also use the “What If” function in APEX to view minor requirements.
