*ISSS provides leadership and expertise in the advising and immigration needs of more than 1,600 international students, 325 international faculty and staff, and 250 exchange visitors. ISSS also administers university compliance with evolving federal regulations, supports the university and its medical center by managing global student and scholar interactions, and facilitates the well-being of all international students, faculty, staff, and scholars.*

*In addition to that, we do mentor domestic students on their capstone projects or provide them internship opportunities if they see this field as something they are interested in.*
