

PR 3

Office of the President
May 8, 2015

Members, Board of Trustees:

UNIVERSITY RESEARCH PROFESSORSHIPS

Recommendation: that the Board of Trustees approve the naming of Professors Rebecca Dutch (Molecular and Cellular Biochemistry), Lance E. De Long (Physics and Astronomy), Suzanne Segerstrom (Psychology) and Dong-Sheng Yang (Chemistry) as University Research Professors for 2015-16.

Background: In April 1976, the University Senate recommended to the President the establishment of one-year Research Professorships and that priority be given to the goal of establishing permanent Research Professorships as funds became available. At its meeting in May 1976, the University of Kentucky Research Foundation voted to support one-year Research Professorships to be activated in the fall 1977. The Board of Trustees named the first Research Professors at its meeting in March 1977.

The purpose of the University Research Professorships is to enhance and encourage scholarly research productivity, provide an opportunity for concentrated research effort for selected faculty members, recognize outstanding research achievement by members of its faculty, emphasize its research function, and to publicize its research accomplishments in order that the research function of the University be appropriately recognized and understood.
