I. **Overview and Purpose of the Investment Policy**

This policy applies to the investment of operating funds of the University of Kentucky and its affiliated corporations. Endowments and trust funds are covered by separate policies. Additionally, bond proceeds are invested pursuant to investment guidelines in bond documents and are not subject to this policy. The purpose of this policy is to outline a philosophy that will guide the management of the investment assets toward the desired results. It is intended to be sufficiently specific to be meaningful, yet flexible enough to be practical.

This investment policy is set forth in order to:

a. Define and assign the responsibilities.
b. Establish a clear understanding of the investment goals and objectives of the operating fund assets.
c. Offer guidance and limitations regarding the investment of operating fund assets.
d. Establish a basis of evaluating investment results.
e. Manage the operating fund assets according to industry best practices and applicable laws.

The investment policy shall be formally reviewed annually and at such times as desired by the Treasury Investment Advisory Group (Advisory Group) and Treasury Staff, as defined in section II. Any modifications to the policy shall be approved by the Advisory Group.

II. **Delegation of Authority and Roles & Responsibilities**

**Delegation of Authority**

Pursuant to procedures set forth in AR 8:3, the Executive Vice President for Finance and Administration (“EVPFA”) has delegated to the Treasurer the responsibility for the custody, investment and disbursement of University funds in accordance with applicable laws and established policies and procedures. The Treasurer shall establish additional specific written procedures and policies for the administration of the operating fund investment program, which are consistent with the approved investment policy and fulfill the fiduciary responsibility to the University. No person may engage in an investment transaction except as provided under the terms of this policy and the procedures established by the Treasurer.

**Treasury Staff**

The treasury staff (“Staff”) includes the Treasurer, the Assistant Treasurer, Treasury & Debt Analyst and employees in the Treasury Services department. Staff shall manage the daily operating fund investments and prepare analysis and recommendations for the Treasury Investment Advisory Group. Staff shall prepare assessments of investment balances and performance.

When selecting investments to purchase for staff managed funds, as defined in Tiers I and III below, a standard selection process shall be utilized. See Appendix 1 for more information regarding the selection process.
University Financial Services may retain the services of a qualified investment manager(s) to invest funds pursuant to this policy. In collaboration with the Treasury Investment Advisory Group (Advisory Group), the Staff may appoint, monitor and evaluate external investment managers for the investment of Tier III funds defined in section III below. The Staff will provide updates to the Advisory Group on manager appointments, terminations, and the ongoing monitoring and evaluation of existing managers, at each meeting and at other times as requested by the Advisory Group. See Appendix 1 for more information regarding the selection process for external investment managers.

**Treasury Investment Advisory Group**

The Treasury Investment Advisory Group (Advisory Group) consists of the EVPFA, Treasurer, Chief Investment Officer and Assistant Treasurer. The Advisory Group will meet periodically as needed to review operating fund investments and to advise Staff on investment allocations. Staff will prepare investment reports and make recommendations to the Advisory Group.

**III. Investment Objectives and Structure**

The primary investment objective is to achieve and maintain a high degree of safety and liquidity. The secondary objective is to maximize investment income taking into consideration investment risk constraints and liquidity needs. Investments shall be made in a manner that seeks to balance these goals for the overall portfolio.

**Safety of Capital**

Investments shall be undertaken in a manner that seeks to ensure the preservation of capital in the overall portfolio. Credit risk shall be minimized by limiting investments to the types of securities described in section IV; pre-qualifying the financial institutions, broker/dealers, and advisors; and diversifying the investment portfolio so that potential losses are minimized. Total portfolio management will seek to ensure capital losses are avoided, whether from securities defaults or erosion of market value.

Investment risk can result from changes in credit quality underlying a security, issuer defaults, market price changes or temporary liquidity problems. In order to reduce investment risk while attaining market average rates of return, the investment portfolio shall be diversified with respect to the type of securities in the portfolio; the concentration of investments held by any financial institution; and the length of maturities of investments.

Interest rate risk, the risk that the market value of securities fall due to changes in general market rates shall be minimized by structuring the portfolio so that securities mature to meet cash flow requirements, thereby avoiding the need to sell securities before maturity. Operating funds held in Tier I, II, or III, discussed below, shall be invested primarily in securities maturing less than three years, money market
mutual funds or similar investment pools.

**Liquidity**

The investment portfolio shall maintain sufficient liquidity to meet all operating requirements that may be reasonably anticipated. This is accomplished by structuring the portfolio so that securities mature concurrent with cash needs. Cash flow forecasts, based on reasonable knowledge of future fiscal events and historical fiscal trends, shall be developed and maintained by Staff. Investment maturities shall be based on these forecasts so that cash may be available to meet anticipated expenditures.

Since all cash needs cannot be anticipated, the portfolio shall consist largely of securities with active secondary or resale markets. A portion of the portfolio shall be placed in money market mutual funds or investment pools which offer same-day liquidity.

As indicated on the table below, Tiers I and II will serve to meet daily liquidity needs. The total of Tier I and Tier II shall have a minimum of 60 days cash for day-to-day operating liquidity. When calculating the days cash on hand, expenses shall be based on the consolidated prior fiscal year average operating expense per day. Additionally, the Debt Management Committee shall set targeted cash levels for Tiers I-III on an annual basis by establishing an approved days cash on hand target range for the total cash and investments to be held in Tiers I-III. See Debt Policy for further details.

The Board of Trustees authorized the establishment of the Hospital Quasi-Endowment Fund\(^1\) and the University Operating Quasi-Endowment Fund\(^2\), permitting operating funds to be invested in the Endowment investment pool, defined as Tier IV below. When determining amounts to be invested, the Advisory Group shall ensure the approved minimum cash targets are maintained and that the funds will not be needed to support operations for more than 10 years. Consideration shall also be given to market conditions and other financial circumstances. The total of any such funds invested, including existing Tier IV funds, shall not exceed 35% of the overall operating cash and investments contained in Tiers I through III below at the time of investment. Additionally, the maximum amount that can be added to the University Operating Quasi-Endowment Fund within a fiscal year is $75,000,000.

**Tiered Investment Structure**

The investment structure for University operating funds shall be divided into Tiers based on expected

To date, $225,000,000 has been transferred to the quasi-endowment for investment in the Endowment investment pool.

\(^2\) The Board of Trustees established the University Operating Quasi-Endowment Fund and authorized transfers subject to (1) liquidity targets approved by the Debt Management Committee; (2) a total operating quasi-fund investment limitation of 35%; and (3) an annual maximum contribution of $75,000,000 as set forth in the Operating Fund Investment Policy.

Treasury Staff shall utilize a standard process when selecting operating investments to purchase and hiring external investment managers.

Money Market Funds and other investments to be made through the brokerage platform of the primary depository bank shall be selected based on the following process, which is consistent with that used by the Commonwealth of Kentucky’s Office of Financial Management:

- Fund/strategy has been in existence for at least 5 years
- Fund/strategy only invests in underlying securities which would be allowable under University Operating Investment policy if invested in directly
- Review portfolio to ensure there are not underlying investments that would be undesirable holdings
- Compare the net yields to those of similarly classified funds/investments

The selection of operating investments and external investment managers that do not follow the selection process outlined above shall be based on agreed upon procedures with the University’s Chief Procurement Officer and the Office of Legal Counsel.

(1) Subject to the intent of a donor expressed in a gift instrument, an institution, in managing and investing an institutional fund, shall consider the charitable purposes of the institution and the purposes of the institutional fund.
(2) In addition to complying with duty of loyalty imposed by law other than in KRS 273.600 to 273.645, each person responsible for managing and investing an institutional fund shall manage and invest the fund in good faith and with the care an ordinarily prudent person in a like position would exercise under similar circumstances.
(3) In managing and investing an institutional fund, an institution:
(a) May incur only costs that are appropriate and reasonable in relation to the assets, the purposes of the institution, and the skills available to the institution; and
(b) Shall make a reasonable effort to verify facts relevant to the management and investment of the fund.
An institution may pool two (2) or more institutional funds for purposes of management and investment.

Except as otherwise provided by a gift instrument, the following rules apply:

(a) In managing and investing an institutional fund, the following factors, if relevant, shall be considered:
   1. General economic conditions;

   3. The expected tax consequences, if any, of investment decisions or strategies;

Unless stated otherwise in the gift instrument, the assets in an endowment fund are donor-restricted assets until appropriated for expenditure by the institution. In making a determination to appropriate or accumulate, the institution shall act in good faith, with the care that an ordinarily prudent person in a like position would exercise under similar circumstances, and shall consider, if relevant, the following factors:
(a) The duration and preservation of the endowment fund;
(b) The purposes of the institution and the endowment fund;
(c) General economic conditions;

273.615 Delegation of management and investment functions.
(1) Subject to any specific limitation set forth in a gift instrument or in law other than KRS 273.600 to 273.645, an institution may delegate to an external agent the management and investment of an institutional fund to the extent that an institution could prudently delegate under the circumstances. An institution shall act in good faith, with the care that an ordinarily prudent person in a like position would exercise under similar circumstances, in:

(1) If the donor consents in a record, an institution may release or modify, in whole or in part, a restriction contained in a gift instrument on the management, investment, or purpose of an institutional fund. A release or modification may not allow a fund to be used for a purpose
other than a charitable purpose of the institution.

(2) The court, upon application of an institution, may modify a restriction contained in a gift instrument regarding the management or investment of an institutional fund if the restriction has become impracticable or wasteful, if it impairs the management or investment of the fund, or if, because of circumstances not anticipated by the donor, a modification of a restriction will further the purposes of the fund. The institution shall notify the Attorney General of the application, and the Attorney General shall be given an opportunity to be heard. To the extent practicable, any modification shall be made in accordance with the donor’s probable intention.

(3) If a particular charitable purpose or a restriction contained in a gift instrument on the use of an institutional fund becomes unlawful, impracticable, impossible to achieve, or wasteful, the court, upon application of an institution, may modify the purpose of the fund or the restriction on the use of the fund in a manner consistent with the charitable purpose expressed in the gift instrument. The institution shall notify the Attorney General of the application, and the Attorney General shall be given an opportunity to be heard.

(4) If an institution determines that a restriction contained in a gift instrument on the management, investment, or purpose of an institutional fund is unlawful, impracticable, impossible to achieve, or wasteful, the institution, sixty (60) days after notification to the Attorney General, may release or modify the restriction, in whole or part, if:

(a) The institutional fund subject to the restriction has a total value of less than fifty thousand dollars ($50,000);
