**14. Rationale for Change(s) – if rationale involves accreditation requirements, please include specific references to that.**

The program, being new as of fall 2014, has now been reviewed by new faculty hired to develop the program. These changes were made at the suggestion of faculty and College staff in an effort to streamline the degree and conform more closely to other programs in our College (for example, the addition of a pre-major and cognate area are two areas where the ICT program deviated from other programs in the College).
