Which aspects of the course were most helpful? Why?

Comments
I feel that the topic of this course will greatly aid me in my career journey.
Everything
Dr. Lane is the best professor at the college of Communications
the content of the course is extremely beneficial and i can see myself using this information in the future
I liked how we had reflections rather than discussion boards. I think reflections help understand the material better. I also like how Dr. Lane creates his powerpoint, theres not too little or too much.
I felt that Dr. Lane's lectures were by far some of the best content that I have experienced through online lectures this semester. Many courses gradate towards Echo360 or lecture recordings, which are difficult to pay attention to and retain information for. Dr. Lane was very consistent with class meetings on Zoom, which in the end, I have really appreciated.
This topic this course covers is very important and useful.

Which aspects of the course would you change? How and Why?

Nothing
the due dates of some assignments so we have 24 hours to do something instead of making them due right after class
I didn't really like the final project. I thought the presentation part was confusing. I also didn't like the simulation analysis.
The "Un–Essay" Final Term Project – honestly, the concept of it is great. I love how it encourages students to express their knowlegde and what they have learned to their best ability. However, I kinda just felt it a little too complex and quite confusing. I honestly really struggled with knowing all of it's requirements.
I would try to mix negotiation and conflict reloutuion together more instead of doing them separately, it sort of felt like I was taking 2 classes throughout the semester.

Dr. Lane is a great instructor. He is easy to connect with and very compassionate. This is the second class I took with him, this time intentionally. He really cares about the success of his students and I have always felt supported and heard in his classes.
Everything
Overall best professor that the college of Communications has to offer. He is understanding, professional, friendly, intelligent, I mean what more could you ask for in a professor. I wish I could have taken more of his courses but I guess three will have to do.
I loved Dr. Lane. You can tell he genuinely cares for his students and their well–being. He grades fairly and truthfully. He responds to emails quickly and is always encouraging students to come to office hours.
Explained things very well, was ALWAYS there to help.
Dr. Lane evidently cares about his students deeply, and he makes himself very available and approachable to address students' needs. He also goes above and beyond with his PowerPoint's slides!
Dr. Lane knows what he is talking about, he is also very likable and cares about me.

Comments
Nothing
I personally think Dr. Lane is a phenomenal teacher. I have been more than satisfied with him and his class. He is by far one of the best teachers within the college of Communications
N/A
Nothing, one of the best professors I have had at UK
There were multiple times I showed up to Dr. Lane's office hours and he was not there. He also has very high expectations and his feedback is somewhat vague.

DL1C: What elements of the course (including technology) contributed to your learning?

Comments
I preferred the fully online portion of this course because I was taking all my other courses online, so instead of traveling for a one hour class like we were at the beginning of the semester, at the end we didn't have to do that.
Idk
It made me a better technology user
I liked not going to campus during these times.
For me, I enjoyed being able to honestly sleep in until 9:00 AM and not having to rush to campus to make it on time to class, as it was at 9:30 AM for me while also living off campus.
There weren't really any, this is a class that needs to be in person.

DL2C: What elements of the course (including technology) did not contribute to your learning, if any?

Comments
Online learning has always presented a challenge for me because I do best when I am in person with a lot of structure for my day.
Idk
I felt like there was not really a connection between myself and the class.
I can get distracted easily, and I found myself often getting distracted and struggling to retain information through even meetings on Zoom. (I felt this in all classes though.)
A lot of this class involves interaction. and group work, which is very difficult to do over zoom, especially with a small class.
