Which aspects of the course were most helpful? Why?

Comments
For some big projects we had to turn some in throughout the semester so it would not be all turned in at the same time. This helps for procrastinators and time management.
The exercises we completed during class were interesting and very informative. It gave me and my peers an opportunity to see the theories play out.
We were given appropriate time and help on our assignments
D.r Lane does an excellent jobs at creating resources and making them readily available to his students! This helped tremendously with the course and learning the content.
The research project, while stressful is extremely applicable to jobs.
Our professor was always there to help!

Which aspects of the course would you change? How and Why?

Comments
Nothing really.
I enjoyed the course. It was very efficient.
None, was well rounded and polished
I would not change anything
I would change the way the book project was set up. While it did add to course content, it added on a lot of stress when we were trying to complete our research.
I would change the book review project, I felt as if it was not necessary.

He was always ready to help out students, no matter what time or day it was. He had flexible hours and worked with everyone
He was flexible, always answered emails in a timely manner, and was always prepared.
Dr. Lane was always willing to meet and help any of us work through the problems we had in the course. Just having him as a resource was extremely helpful and it wasn't something I felt he had to do but he offered.
Very determined to make sure we grasped an understanding to the concepts and theories, was easygoing and kind, helped whenever any students needed it
Dr. Lane always provided positive and encouraging feedback! This was extremely helpful and refreshing because sometimes students just need to have a confidence boost regarding their school work. He also was always available for us to reach out to him with questions and concerns and replied back in a very timely manner.
He met with you and explained things until they were understood. He never seemed to be annoyed while meeting with students no matter what that circumstance was.
He was really good at repeating when we had things due so I wasn't behind.

I really don't see anything that could be changed. This was one of the best courses I have been apart of since my time at UK.
None, a great guy, i'd take another course of his in the future if optional
I would not change a thing and think more professors should take notes of his teaching styles!
