Which aspects of the course were most helpful? Why?

Comments
I really enjoyed the continuous recaps of prior material. It really helped to pull everything together in a cohesive manner that allowed for real learning and the development of critical thinking skills.
The structure and organization of the course was clear. Assignments were always clearly explained and mapped onto the information being covered within the course.
Dr. Lane's enthusiasm for the material was honestly most helpful. I also loved the review at the beginning of class– it helped make sure I was remembering things from the beginning of the semester and connecting previous course content to what we were going over in class. I also really liked that the final paper was scaffolded so although there was a lot of material in the class, it never felt overwhelming or anything. It was really clear how everything we did in class would be helpful in the future. I also really loved when Dr. Lane would give us suggestions for how to teach the material to undergrads v. grad students. I felt like we were not only learning the material well, but also getting "free advice" for when we will be teaching this kind of class
Having the slides during and after each class, the completeness of the materials provided, flexibility and support of instructor
The review of previous course material in each class before learning new material is so helpful.
Everything is this class! I cannot tell how much I love this class. I hope that I can have this class earlier.

Which aspects of the course would you change? How and Why?

Comments
Honestly nothing. I normally have opinions on things to change but this class was super well organized, I learned a lot, and was never stressed to the point of panic. Dr. Lane took a class that a lot of people were anxious about and made it fun and not scary.
There was a learning curve on where the files were (handouts vs slides vs other info) but once that was over, it has been smooth sailing.

Which aspects of the instructor Derek Lane were most helpful? Why?

Comments
The instructor was extremely helpful in class and especially out of class, being available for students throughout the week. Even though the class was relatively small the extra, out of class, was extremely helpful and important to my grasping of the subject matter.
Derek is an amazing human! He made time for any student who needed help. He sat down with me via Zoom several times for hours to assist me with my project and ensure I understood the content.
Oh my goodness– everything! His enthusiasm and dedication made me excited to come to class each week and made me leave in a better mood than I had come in with. This was my favorite class I've taken at UK so far. I also loved how he answered questions. If I asked a question he didn't know the answer to he would find the answer and then send me an email with the answer, where he found it, and another way the answer relates to material. For someone who likes asking questions, having Dr. Lane as a professor was like a dream come true. It is CLEAR he wants his students to succeed. I hope I can be a third of the instructor he is one day. He really goes above and beyond to support his students.
Knowledge, enthusiasm, flexibility
Dr. Lane is truly the most responsive professor I've ever had in my graduate career. It is clear he wants all of his students to be successful and is always willing to meet to explain material or answer questions.
Dr. Lane is always friendly and patient with his students. I appreciate his help and smiles during the whole semester. He is the most helpful, intelligent, and friendly instructor that I have ever met! I am grateful to have his class this semester.
Dr. Lane does an excellent job at making students feel competent and comfortable enough to engage with the course material and creates an environment that allows students to fail and learn.

Absolutely nothing. He is wonderful.
Have him take more breaths during class – he gets very excited about this topic (which is great)
