Which aspects of the course were most helpful? Why?

Comments
Dr. Lane is great about sharing the slides, which really helps when I need to go back and check information. He is also great about expounding upon main concepts covered in the class. It really helped to facilitate understanding.
The ratio of student-led discussion to teacher-led discussion was the most helpful. For myself, I generally tend to think of things as being black and white, but incorporating student-led readings and topics reminds me that simply isn't always true. There are many nuances in the training and consulting world and individualized plans, ideas, and discussions are necessary to generating a well-rounded understanding of the content. Then, having Dr. Lane interject and steer the conversation or answer questions was really helpful to providing a framework and best practices for the field.
Formatting and organization; training project

Which aspects of the course would you change? How and Why?

Comments
The only thing I would have liked would have been a little less reading required when assignments are due. Otherwise, I wouldn't change anything.
I would like for assignments to be open a little earlier. I believe assignments were probably restricted so that we would have all of the content we needed before starting them, but I am an over-planner and would have enjoyed getting to work on assignments a little earlier.
N/A

Which aspects of the instructor Derek Lane were most helpful? Why?

Comments
It is evident that Dr. Lane is an expert in his field and is invested in every single one of his students. Having an instructor with REAL WORLD experience in the field is so beneficial to the instruction of the course. In all honesty, when it comes to any question or misunderstanding of this field, I would look to Dr. Lane before I would perform a internet or book search. Dr. Lane's demeanor was also extremely helpful during this course. He is calm, yet excited to teach this content and he always encourages students even when they have misunderstood the topic or assignment. He is a reasonable human who care about people, and I think that is extremely difficult to find in professors nowadays.
He was caring and willing to help at any point.
He is very responsive and always willing to meet with you if you need help.

Which aspects of the instructor DerekLane would you change? How and Why?

Comments
None. Simply one of the best professors I have had at UK.
none

DL1C: What elements of the course (including technology) contributed to your learning?

Comments
I live 75 miles away, so it was nice not to have to drive to Lexington for the one class.
The only benefits was the ability to sit comfortably at home. Dr. Lane made it to where this course wasn't affected by the fact that it was online, but I personally don't prefer online courses.

DL2C: What elements of the course (including technology) did not contribute to your learning, if any?

Comments
Occasional wifi issues that cause the Zoom windows to freeze.
I have terrible internet, I always felt like I was interrupting someone (delays/Zoom issues), other techy-annoyances.
