

What Affects a Crater's Size?

Ronald Wilhelm & Jennifer Wilhelm, University of Kentucky © 2007

What affects a crater's size?

Let's Brainstorm:

Springboard off of this initial driving question and come up with your own sub-driving question concerning possible causes of a crater's size.

What is your sub-driving question?

Describe how you plan to answer your question.

Ok, now collect and analyze your data.

On a piece of butcher paper, please include the following:

1. Display your research question.
2. Display a table of your data collection.
3. Display a graph using Excel of your data collection.
4. Write your conclusions. Please consider the following. Did your data collection answer your question? What have you learned from your data analysis?
5. Write down a follow-up question.
