Coal Resources of the Upper Elkhorn No. 3A Coal (Lower Bed) in Eastern Kentucky

Jeffrey A. Esterle, Ernest E. Thacker, Gerald A. Weisenfish, and John K. Hiett

This map shows the distribution of coal resources of the Upper Elkhorn No. 3A Coal (Lower Bed) in Eastern Kentucky. The map includes geological data and is based on a comprehensive analysis of coal resources in the region. The map is designed to help understand the distribution and potential of coal resources for further exploration and extraction.

Map Features:
- Geographic coverage of Eastern Kentucky
- Legend for coal resource data categories
- Color-coding for coal thickness categories
- Geographical boundaries of counties
- Title and authorship information

Map Preparation:
- Created using GIS software
- Incorporates geological data
- Includes geological layers

Acknowledgments:
This work was supported in part through grants from the U.S. Geological Survey and by the Kentucky Geological Survey through the Kentucky Department of Mines and Minerals.
