Survey comments were:
1. This would be a wonderful opportunity. Great idea. Please e-mail me future info.
2. I think this is an excellent opportunity. I would be most interested in evening classes.
3. I would be very interested if this could coincide with my work schedule.
4. I would need more information to be able to answer the questions accurately. I would be very interested if it would help me advance to Medical Technologist.
5. I would like to find out if my 2 yrs at Cumberland Valley for Radiologic Technology can be applied for any credits at Southeast Community College.
6. I have started taking classes to earn a Bachelor Degree through Allied Health in Hazard.
7. The reason for not attending full-time is because I work at my job full-time.
8. I work full-time; could not attend full time courses – would like off-site campus or SEE courses.
9. I’m a PRN employee; I would hope that I could participate.
10. I would be interested in knowing how this would be given – evenings/# of days/per week/any home study or on-line opportunities. As a working parent, these options would be very important.
11. Please send additional information if/when the degree becomes available.
12. I think this would be a great program for people who work full-time.
13. WOW! This would be great!
14. I am extremely excited about the potential for this program. I have struggled since my transition into management to maintain a course load with my job duties. This program offers the ability to participate in continuing my education with class offerings that are pertinent to my job.
15. I am working on the evening degree BBA in management. Will this new degree be an evening or day? I would consider pursuing both degrees.
16. I would like to see these courses/degree offered via night courses to accommodate the working student.
17. Please bring classes to the Leslie Co. Site via T1, This would be a tremendous help.
18. This sounds great!
19. I have heard of internet courses for these degrees. Would this be possible for this degree? Also, are there off-site campus locations that could be attended without driving to Lexington?
20. I like the idea of this so that I can still work full-time, sleep when I need to and still have time to study at home and upgrade my degree.
21. I prefer #4 (i.e., distance learning) – due to single motherhood with 3 children, I have to work full-time for financial reasons.
22. I’ll take any additional classes that would further improve my knowledge in respiratory care and continual education.
23. I am currently enrolled at Mountain State University for a BS and would be interested in this degree.
24. As the major bread winner, this would have to be done on a part-time basis. Would UK accept all classes taken previously?
25. I think this is a good idea.
26. I think this would be wonderful, however distance learning would be crucial due to so many working day and especially night shifts full time and living 1.5 hours away from campus – like myself.
27. Please contact me at ……….Austin, KY
28. Excellent idea! – will strive to bridge graduates of our program (AAS) to yours (Somerset)
29. I think it would be a great idea. I am really interest in going further with my education.
30. Great idea for ……health care providers
31. If a night school program would be available, I would like very much to a part of this program.
32. I think your program would be an asset to our students that graduate with an AAS.
33. I think this would be an excellent opportunity, I hope to see this offered soon.
34. I think this would be an excellent opportunity to further my education in respiratory.
35. This will be a great opportunity.
36. Depends on the number of courses I would be required to take and the cost of each college hour.
