Radon is a naturally occurring, radioactive gas.

- It cannot be seen, smelled or tasted.
- It may seep into your home from the rocks below.
- It is the second leading cause of lung cancer.

**Radon** is a problem in many areas in Kentucky, including Martin county.

**Certainty types of rock have higher levels of radon:**

For a radon test kit, contact the Kentucky Radon Program at (502) 564-4856.

**Smoking and radon:**

Breathing radon is dangerous, but it is even more harmful when you also breathe tobacco smoke.
In Martin County:

Blue dots show homes already tested for radon.

More homes in Martin County need to be tested.

To Do List:

- TEST your home for radon.
- TALK with a health care provider about your results.
- FIX your home if the level is high. Call a certified radon professional.
- ASK people to smoke outside.
- TELL your loved ones about the dangers of radon and tobacco smoke.

TEST YOUR HOME • KNOW YOUR LEVEL

For a radon test kit, contact the Kentucky Radon Program at (502) 564-4856.
