- **UK Contacts for Department, College, and University**

SECURITY: PHISHING, SPAM, AND HOAX EMAILS

UKITS will never send an email requesting any personal information such as passwords or Social Security Numbers. If an email looks suspicious, it can be forwarded to isthisemailsafe@uky.edu, and copy Kevin.Veach@uky.edu for review and to send a notice to the department. Report known fraudulent emails and spam email advertisement by forwarding them to spam@uky.edu with the beginning word SPAM in the Subject line, and copy Kevin.Veach@uky.edu to alert the department.

The following are indications of phishing attempts, and hoax emails:

- Directly requesting personal information (bank account, social security number, etc)
- Non-UK email links outside of <http://www.uky.edu>.
- Requesting the user to perform actions outside of normal business procedures.
- The From address isn't a UK email address.
Even if the From address is a UK email address, the From address can be spoofed to be anyone's address.
- The To: and From: address are the same.

Phishing emails can contain the following:

1. Generic greeting (send to multiple people)
2. Sense of urgency or consequence (ex. close an account or other threat)
3. Poor grammar
4. Request private information (ex. credit card number, password, etc..)
5. Suspicious link or fake email address
6. Graphics, titles, known business names or other ways can make an email appear more legitimate.

More Information on phishing emails is available at the following address:

- **UK Phishing Email Training**
<https://www.uky.edu.its/files/Phishing%20email%20training.pdf>

SECURITY: PHISHING EMAILS DISGUISED AS ZOOM MEETING REQUESTS

Phishing emails disguised as Zoom meeting requests have been received at UK, tempting recipients to click email links. If unsolicited Zoom meeting request emails are received from unknown email addresses, do not click the email links.

Unsolicited Zoom meeting requests from known senders should be verified before clicking email links. The “From” address can be spoofed to appear to be from known addresses.

SECURITY: PHISHING EMAILS INDICATING “FROM” ADMINISTRATORS

Spam emails with the Subject “Are you on campus (first name)” have been received at UK, but originate from a GMAIL account.

Unsolicited emails should be verified through valid UK email addresses, and not a email reply.

SECURITY: TWO FACTOR AUTHENTICATION

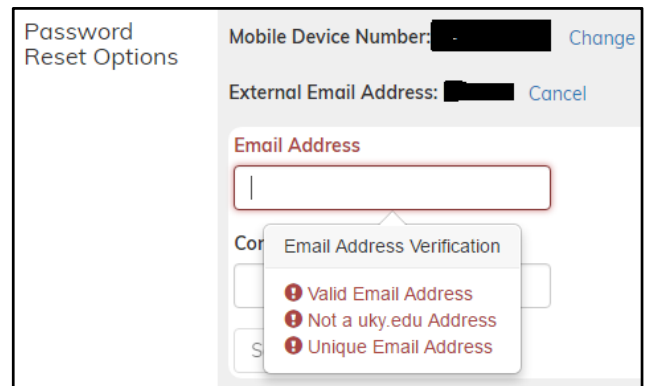

Two factor authentication adds a second code to access an account for added protection. This code could be

1. Texted to your phone
2. Emailed to another account
3. A telephone number called and spoken over the phone

Without the second of a 2 factor authentication completed, the account cannot be accessed. These are often used during a password reset for accounts.

Examples of accounts with 2 factor authentication include:

- UK Email
- Google
- Dropbox
- Facebook
- Apple

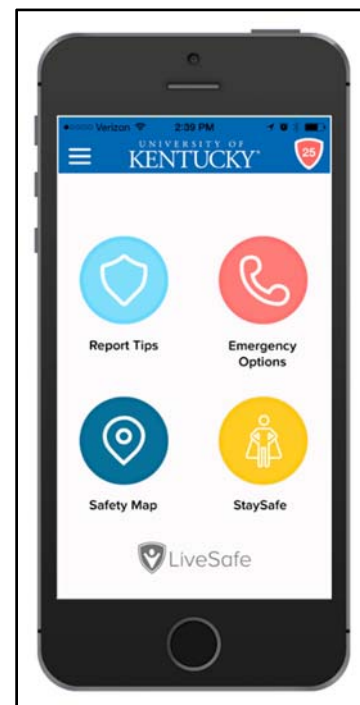

SECURITY: INTERNET ACCESS BLOCKING FOR DMCA NOTICES

Internet access will be blocked for computers receiving downloading or sharing copyrighted material (ex. movies, books, etc...) Digital Millennium Copyright Act (DMCA) notices until appropriate steps are taken to restore network access. A DMCA takedown notice is given to remove access to copyrighted works. Typical complaints include links to copyrighted material or downloading copyrighted content. UK has been notified of several computers with network access downloading copyrighted movies. Each computer on the network has unique identifiers (IP address, computer name, network adapter address, date/time stamps, etc..) that can be used to identify responsible parties. All DMCA unblock requests must go through the UKITS Service Desk (218-HELP).

SECURITY: LIVESAFE SMARTPHONE APPLICATION

LiveSafe is a smartphone application for safety at the University of Kentucky. Some of the features include:

- Two way communication with UK Police
- Share information about potential crimes
- Report GPS-tagged information with text, pictures, video, and audio that can be submitted anonymously.
- Virtually walk your friends, co-workers, and families to their home, office, classroom or vehicle with SafeWalk

UK LiveSafe is available as a free download for iPhone (iTunes) and Android (Google Play).

1. Search for and download "LiveSafe" from the Google Play or the Apple App Store.
2. Select "U. of Kentucky" as your school.
3. Sign up with your name and info.

More information is available at <http://www.uky.edu/EM/LiveSafe.html> .

SECURITY: FERPA

The Family Educational Rights and Privacy Act (FERPA) protects the privacy and confidentiality of personally identifiable information. Personally Identifiable Information means data that includes:

- Name of the student, students parent, or other members
- Student's campus, home, or email address
- Personal identifier, as social security number, student number or Link Blue ID
- List of personal characteristics or other information which would make the student's identity easily traceable
- Computers storing personal information should do so in highly encrypted folders.

More information on FERPA is available at the following websites:

FERPA & Privacy

<http://www.uky.edu/registrar/ferpa-privacy>

Family Education Rights & Privacy Act (FERPA) Training

http://www.uky.edu/registrar/sites/www.uky.edu.registrar/files/FERPAUKWorkshop-Presentation_2016_new.pdf

SECURITY: WINDOWS 7 END OF SUPPORT IN 2020

In the Microsoft Support Lifecycle, Microsoft has set Windows 7 end of extended support to be January 14, 2020. After January 14, 2020, Microsoft will no longer provide automatic fixes, updates and online technical assistance for Windows 7. Although antivirus and security software can help protect Windows 7 computers after January 2020, Windows 7 computers will no longer receive security updates after this date.

SECURITY: RANSOMWARE

Ransomware is an emerging threat that encrypts data on infected computers, and demands payment to unencrypt files. Ransomware often uses sophisticated encryption is used with no known un-encryption software.

Backing up files to a web location is critical with increasing risks of ransomware. Office365 email accounts for faculty and staff have OneDrive online cloud storage. OneDrive has 1 tb of online storage space for documents, and can be increased when near the 1tb limit.

The following can help guard against ransomware:

- Backup data files.
 - OneDrive cloud storage is available with 1 tb of data storage space to UK faculty and staff (<http://outlook.com/owa/uky.edu>). Data can be backed up in folders to indicate the date (ex. OneDrive\Backup\1-24-2017).
- Update operating systems, software and firmware on computers
 - Instructions to configure Windows Updates automatic update feature
 - <https://support.microsoft.com/en-us/help/306525/how-to-configure-and-use-automatic-updates-in-windows>
- Don't click on untrusted email links.
 - Look at link addresses, before going to them. Hovering the mouse over the link will identify the address. If a link doesn't appear when hovering over the address, the address can be copied and pasted into Notepad to view it.
- Install, configure, update, and scan files using antivirus applications
 - Microsoft EndPoint antivirus is downloadable from UK Downloads website (<https://download.uky.edu>).
 - Right click the green System Center 2012 Endpoint Protection icon in the taskbar > Open > Settings tab to configure options.
- Enable System Restore and create a restore point in the operating system. You may be able to restore a known clean state of the computer.
 - Control Panel > System > System Protection tab > Create button beside "Create a restore point..."

After ransomware strikes

- Remove the computer from the internet.
Disconnect from Wi-Fi, and unplug network cables from the computer.
 - Research the ransomware for removal instructions on another computer.
Although ransomware can encrypt hard drives, some tools may be available to access the data.
 - Work with restored files from a known good backup.
OneDrive can store online version of files.
 - If a time frame is given for ransomware payment, resetting the BIOS data/time can help give additional time when the computer isn't connected to the internet.
-

SECURITY: SCRUB DATA OR DESTROY HARD DRIVES BEFORE SURPLUSING

It is important for data to be scrubbed or hard drives destroyed before recycling or sending equipment to surplus. Even though files have been deleted from the hard drive or the hard drive formatted, software still exists to recover deleted files.

The following are examples of software to purge or scrub data from computer hard drives:

- **Kill Disk** – www.killdisk.com
- **DBAN tool** – www.sourceforge.net/projects/dban/
- **Burn for Mac** – www.thenextwave.com/burnHP.html

The Notice of Computer Equipment Electronic Storage Device Cleaning Form needs to be completed, when sending a computer to surplus.

Notice of Computer Equipment Electronic Storage Device Cleaning Form
<https://www.uky.edu/hr/sites/www.uky.edu.hr/files/eForms/computerclean.pdf>

SECURITY: ENCRYPT FILES/FOLDERS WITH PERSONAL INFORMATION

Sensitive data need to be encrypted to improve security. Windows includes the BitLocker encryption program with the following operation systems:

- Ultimate and Enterprise versions of **Windows Vista and Windows 7**
- Pro and Enterprise versions of **Windows 8 and 8.1.**
- Pro, Enterprise and Education versions of **Windows 10.**
- **Windows Server 2008** and later

BitLocker can be used on a variety of media, including USB thumb drives, internal and external hard drives, and other devices.

BitLocker can be applied to individual files, whole folders or the entire hard drive.

- Be cautious when encrypting files or the entire hard drive. The data or entire drive may not be accessible because
 - Computer becomes bad, and the key or computer hardware is different.

- The data becomes corrupt (ex. hardware associated error on the storage, virus)

Encrypt a file or folder

1. Open File Explorer
2. Right mouse button click on a file or folder.
3. Select Properties.
4. Click the Advanced button.
5. Checkmark Encrypt contents to secure data.
6. Click OK.
7. Click Apply, and OK on the file or folder properties.

Decrypt a file or folder

1. Open File Explorer
2. Right mouse button click the file or folder.
3. Select Properties.
4. Click the Advanced button.
5. Uncheck "Encrypt contents to secure data."
6. Click OK
7. Click Apply, And OK on the file or folder properties.
8. The file or folder will be turn from black to grey, indicating

**Please note: If the file or folder is copied or emailed to another person or computer, encrypted files will only be accessible with the proper credentials.

**Encrypted file names are grey, compared to the black text of normal files.

When sending a file or folder to another person or computer, the encrypted content needs to be unencrypted before copying or attaching the file. After the file is attached to an email or copied to the destination, the file or folder can be re-encrypted.

When BitLocker encrypted files become corrupt, a BitLocker encrypted file specialist may be needed.

More information on BitLocker is available at:

<https://en.wikipedia.org/wiki/BitLocker>

SECURITY: UK CONFIDENTIALITY AND DATA SECURITY GUIDELINES FOR ELECTRONIC DATA

The following guidelines help minimize risk associated with electronic data:

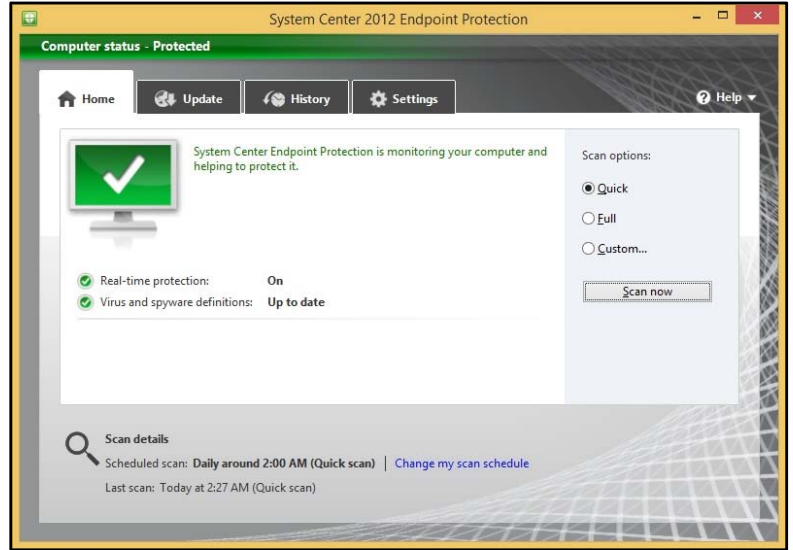

Confidentiality and Data Security Guidelines for Electronic Data

<https://www.research.uky.edu/ori/ORIForms/D105-Electronic-data-policies.pdf>

SECURITY: IMPROVE SECURITY WITH ANTIVIRUS

Antivirus applications help protect computer data from malicious software that can corrupt data. It is always recommended to make backups of data that are stored elsewhere. A good location to store backups is the OneDrive 1 tb space (ex. Backups – Date). Microsoft Endpoint Protection antivirus software for Windows 7, 8, and 8.1 is available for download from the University of Kentucky Software Downloads website at <https://download.uky.edu>.

Computers with Windows 10 installed can use Windows Defender for antivirus. Microsoft Endpoint Protection antivirus isn't compatible with Windows 10.

DEPARTMENT IT NEWS: EQUIPMENT INVENTORY

This year 267 pieces of computer related equipment is on inventory.

- Paul Anderson Tower - 1
- Wethington building – 17
- Garrigus – 220
- Barnhart – 2
- Dairy Hoop Shed – 6
- Dairy Office Classroom – 2
- Beef Unit/Nutrition Facility – 1
- Beef Unit/Intensive Research – 5
- Nutritional Feed Center – 1
- Sheep Unit/Service Complex – 2
- Swine Unit/Headquarters – 1
- Princeton Research & Educational Center– 7

DEPARTMENT IT NEWS: OFF CAMPUS EQUIPMENT FORMS

Off Campus Equipment Report Form need to be completed for UK computer equipment used off campus. The Off Campus Equipment Report Form is available at <http://www.uky.edu/eforms/forms/offcamp.pdf>. After completing the form, email it to Kevin.Veach@uky.edu or put it in Kevin’s mailbox.

Please note:

- The Off Campus Equipment Report form requires the signature of the Department chair.
- Sheila keeps the original for department records.

- Kevin Veach will keep a copy for computer inventory
 - A copy will be sent to those overseeing University inventory for Ebars labeling of “Off Campus”.
-

DEPARTMENT IT NEWS: NEW PROCEDURES FOR LOST EQUIPMENT

Lost equipment reports need the following performed to be removed from inventory:

- Short memo indicating what happened to the equipment that indicates if any University proprietary, employee, or student information that could potentially be exposed.
 - Complete a Lost Equipment Report
 - Send the memo and Lost Equipment Report to me.
 - The chair signs off on the equipment status
 - The memo and Lost Equipment Report form is sent to Andrew Gehring for removal from Ebars inventory.
-

DEPARTMENT IT NEWS: DEPARTMENT VIDEO CAMERA

The department has the following video camera with high definition 4K capability

- N025033 Panasonic HC-VX981K video camera

Features:

- Night shot (color and black/white)
 - Wi-fi connect to another device/camera for video in video effect.
 - Record video in timed pictures
 - Record pictures with the camera.
-

DEPARTMENT IT NEWS: VIDEO CAMERA/SOUND SYSTEM USAGE

Video camera usage:

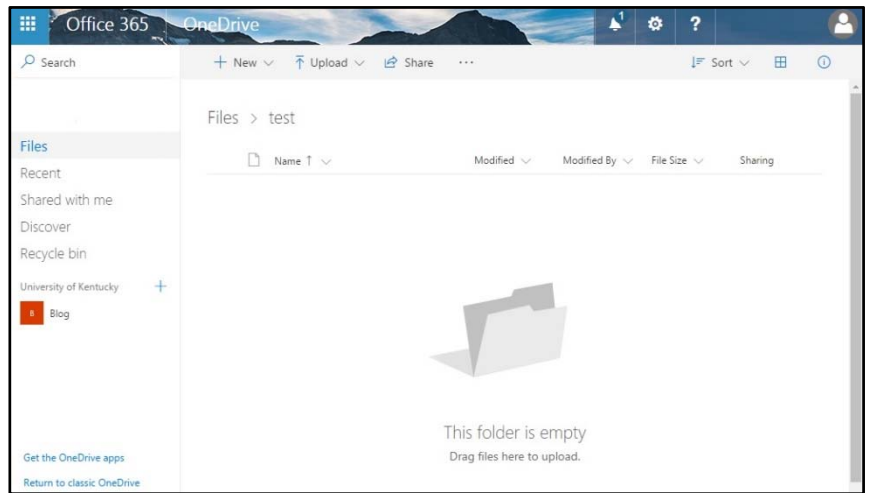

- ASC 771 classroom seminar recordings
- Department presentations
- 4-H recording to help with presentation
- Farm recordings
- Recordings of lab or farm equipment use
- Faculty recordings

Please complete the video camera checkout worksheet on the Garrigus 913 door, if the camera wishes to be checked out.

DEPARTMENT IT NEWS: ONEDRIVE DATA STORAGE

OneDrive is a online data storage and collaboration tool. UK has a signed Business Agreement with Microsoft that covers HIPAA and FERPA. OneDrive data can be shared with individuals, and different permissions assigned (read only, modify). The following are instructions to access OneDrive:

1. Using a web browser, login to the website
<http://outlook.com/owa/uky.edu> with your Link Blue@uky.edu and email password.
2. In the upper left corner, select the 9 square box icon, and choose OneDrive.
3. Folders can be created to sort data.
4. Files can be uploaded to OneDrive using the Upload icon above the list of files.
5. Files or folders can be shared by right clicking on the file/folder, choose Share, entering the person to share, and select permissions (Edit or View only).
6. Microsoft data files can be created with OneDrive, using New > file type.
7. When creating or editing OneDrive Office data files, you have the option to edit the file using the online program or full program with all capabilities.
Excel file > Edit Workbook > Edit in Excel or Edit in browser (online program).
8. When working with Microsoft Office files created or edited on OneDrive, changes to files are automatically saved, although it is best to perform a save when editing is completed.

DEPARTMENT IT NEWS: SYNCHRONIZE FOLDERS WITH ONEDRIVE FOR BUSINESS CLOUD STORAGE

The OneDrive for Business sync client enables computers to synchronize documents on several devices with cloud storage.

OneDrive for Business sync client instructions for Windows computers

<https://www.una.edu/its/docs/OneDriveforBusiness/Installing%20One%20Drive%20for%20Business%20for%20Windows.pdf>

OneDrive for Business sync client instructions for Mac

<https://support.office.com/en-us/article/Get-started-with-the-new-OneDrive-sync-client-on-Mac-OS-X-d11b9f29-00bb-4172-be39-997da46f913f>

Instructions on how to enable OneDrive to sync only certain folders is available at the following address:

<http://www.howtogeek.com/222817/how-to-configure-onedrive-to-sync-only-certain-folders-in-windows-10/>

The above links are helpful when all data stored on OneDrive doesn't need to be synced to local storage.

DEPARTMENT IT NEWS: TWITTER ACCOUNT

Starting June 2017, the Department has a Twitter account to increase web presence at <https://twitter.com/UKAnimalFoodSci>. Since June 2017, the account has the following statistics:

- 350 Tweets
- 386 Likes
- 30 followers

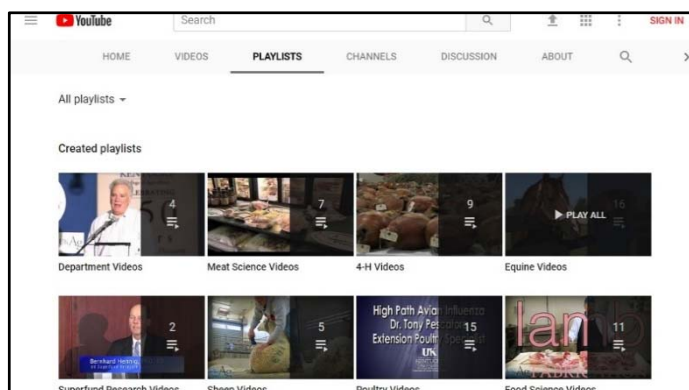

Facebook posts are automatically duplicated on Twitter to reduce the amount of time required to administer the site. Long web addresses are automatically converted into a shortened URL.

Several Department Twitter posts have been shared to College, Extension Offices, and other outside entities.

DEPARTMENT IT NEWS: YOUTUBE CHANNEL

The YouTube video channel for the department is available at the following address: <https://www.youtube.com/user/UKAnimalFoodSciences/>. Videos are separated into department sections, and are from the Ag Communications YouTube channel at <https://www.youtube.com/user/UKAgriculture>.

Several department videos have been uploaded for use on web pages.

DEPARTMENT IT NEWS: YOUTUBE STATICS

Top viewed videos include the following (taken 12/31/2018):

Beef

Rank	Views	YouTube Title
1.	109,824	DEMO OF HOW TO PALPATE COW
2.	53,985	Grazing Alfalfa - Part 1/2
3.	44,249	HOW TO PLACE A CIDR DEVICE IN A COW
4.	34,049	HOW TO GET A BLOOD SAMPLE FROM TAIL HEAD NECK
5.	19,096	Grading Feeder Cattle

Dairy

Rank	Views	YouTube Title
1.	466,152	Milking procedures for Maximum Milk Quality
2.	53,985	Grazing Alfalfa - Part 1/2

3.	23,344	Virtual Dairy Farm Tour - Tim Elkins Part 1 of 2
4.	17,517	Procedures for Milk Sampling and Weighing
5.	14,848	Sleeping Cows on Compost Bedded Pac

Equine

<u>Rank</u>	<u>Views</u>	<u>YouTube Title</u>
1.	2,630	Madison's "see blue." Story: Studying in the Horse Capital of the World
2.	1,781	UK Alum Proud to Show Off His Home in Breeders' Cup Broadcasts
3.	1,319	What can we learn from horses?
4.	778	Eastern Tent Caterpillars - Growing Kentucky, May 2009
5.	551	Equine Farm & Facilities Expo

Food Science

<u>Rank</u>	<u>Views</u>	<u>YouTube Title</u>
1.	806,952	How to Cure a Country Ham
2.	669,946	Beef Retail Fabrication
3.	176,626	Pork Fabrication - Retail Cuts
4.	108,673	Sheep Fabrication - Retail Cuts
5.	4,907	Meat Processing Facility in Eastern Kentucky

Poultry

<u>Rank</u>	<u>Views</u>	<u>YouTube Title</u>
1.	102,322	Composting Chicken Manure

DEPARTMENT IT NEWS: DEPARTMENT EVENTS

Please send events to promote to kveach@uky.edu in the following format:

Event:

Date:

Time: (Proposed start and end)

Description:

Location:

Link: If a link is available, a link to more information can be added

Event schedule:

Commodity group:

Events can be added to the following:

- Department Homepage Events section
- Commodity Homepage Events section
- Department Web Calendar
- Department Facebook page
- Department Facebook Calendar
- Department Twitter

DEPARTMENT IT NEWS: GARRIGUS 201, 401, 601, 801, 901 SMART CONFERENCE ROOMS

Conference rooms on the 201, 401, 601, 801, and 901 have been upgraded with equipment. The following lists capabilities of the rooms:

- Room 201 Smart Conference Room
 - Internet:** Wired/wireless internet access
 - Computer:** Dell OptiPlex computer
 - Projector:** Epson EX7220 projector with wired/wireless audio/video capabilities
 - LCD:** Toshiba TV
- Room 401 Smart Conference Room
 - Internet:** Wired/wireless internet access
 - Projector:** Epson EX7220 projector with wired/wireless audio/video capabilities
 - LCD:** Seiki 65" tv
 - Computer:** Dell OptiPlex 755
 - Input:** Logitech MK 330 wireless keyboard/mouse
- Room 601 Smart Conference Room
 - Internet:** Wired/wireless internet access
 - Wireless Presenter:** Targus Wireless Presenter w/Laser Pointer
 - Projector:** Epson EX7220 with wired/wireless audio/video capabilities
 - Computer:** Dell OptiPlex
 - LCD:** 65" Samsung large screen TV
 - Video:** Logitech HD Webcam C920 web camera
 - Microphone:** MXL AC-404 USB powered tabletop microphone
 - Input:** Logitech wireless MK710 wireless keyboard and mouse.
- Room 801 Smart Conference Room
 - Internet:** Wired/wireless internet access

Computer: Dell OptiPlex

LCD: Large screen TV

- Room 901 Smart Conference Room

Internet: Wired/wireless internet access

Computer: Dell OptiPlex 3020

LCD: 65" Vizio M652i-B2 TV

Projector: Epson PowerLite W29

Input: Logitech MK 330 wireless keyboard/mouse

Wireless Presenter: Targus Wireless Presenter w/Laser Pointer

Camera: Logitech HD Webcam C920 web camera

Microphone: MXL AC-404 USB powered tabletop microphone

DEPARTMENT IT NEWS: SOFTWARE INSTALLED ON SMART CONFERENCE ROOM COMPUTERS

Computers in the 201, 401, 601, 801, and 901 have the following software installed:

- Microsoft Office 2013 – Word, Excel, PowerPoint (compatible with Office 2016 files)
 - Adobe Acrobat XI
 - Google Chrome
 - Firefox
 - Skype
 - Echo 360 Personal lecture capture (Garrigus 401, 601, 901)
 - Zoom video conferencing software (Garrigus 401, 601, 901)
-

DEPARTMENT IT NEWS: COMMON CONFERENCE ROOM UPGRADES

Items to improve conference rooms, include the following:

- Wireless Keyboard / Mouse - Logitech Wireless MK710-Mouse/Keyboard (3 yr battery life)
 - Webcam - Logitech C920-C webcam, Full HD (1080p)
 - Microphone - MXL AC-404 USB powered tabletop microphone
 - Wireless Slide Advance/Laser - Targus Wireless Presenter w/Laser Pointer
 - USB Hub - Targus 7-Port USB 3.0 Combo Hub - 7 ports – desktop
-

DEPARTMENT IT NEWS: UK IT ACCOUNTS DEPARTMENT REQUESTS

Accounts requested requests should go through department IT for the following accounts:

- Canvas accounts
 - External email accounts
-

- Email accounts for new people in the department that haven't been assigned one (ex. visiting students, visiting faculty, etc..)
- External OneDrive access for sharing documents
- External Link Blue account to access University resources
- Drupal accounts

Send computer related account requests to Kevin.Veach@uky.edu .

DEPARTMENT IT NEWS: WHAT COMPUTER ITEMS ARE AVAILABLE FOR CHECKOUT?

The following products are available for the department to use:

- **N025033 Panasonic HC-VX981K video camera**
 - **Azden 325 ULH Wireless Sound System**
 - Allows 2 sources of input (ex. both handheld wireless mic and lavalier lapel mic)
 - **Wireless Head Mount Microphone** for use with the wireless sound system
 - **Handheld wireless mic/mic stand** – Record multiple people with a centrally located mic
 - **Lavalier microphone** – Attach to a shirt to keep the mic close to the mouth
 - **Power inverter** - Use the electric devices through car cigarette lighters.
 - **DVD Duplicator** – Read a DVD into memory and quickly create multiple duplicates (Room 910)
-

DEPARTMENT IT NEWS: DEPARTMENT SHAREPOINT SITE

A SharePoint site is available for the department that allows permission control for shared documents at <https://luky.sharepoint.com/sites/cafe/afs/>

Contact Kevin Veach (Kevin.Veach@uky.edu) if you are interested in data storage on the Department SharePoint site.

DEPARTMENT IT NEWS: SURPLUS UN-NEEDED UK COMPUTER EQUIPMENT

Equipment that is no longer needed can be prepared to reassign for use or sent to UK Surplus. The following steps are used:

- The equipment can be taken to room 107.
 - Email Kevin.Veach@uky.edu of the new location. Identify:
 - UK Property Number:
 - Equipment Name:
 - Hard drive: If the computer hard drive can be wiped/scrubbed.
 - Inventory: Scan computer equipment for 107
 - Scanning the equipment for the room will transfer the equipment in Ebars.
 - The equipment will either be re-allocate to faculty/staff/student or sent to UK Surplus.
-

COLLEGE IT NEWS: WHAT EQUIPMENT IS AVAILABLE IN GARRIGUS SMART CLASSROOMS

The following is information related to college smart classrooms:

- Garrigus B52 – Computer, projector, document camera, Echo 360 Lecture Capture capabilities to record audio and video, 2 projection screens, Zoom video conferencing software.
 - Garrigus 104 – Computer, projector, document camera
 - Garrigus 105 - Computer, projector, document camera
 - Garrigus 106 - Computer, projector, document camera
 - Garrigus 108 – Computer, projector, document camera, Zoom video conferencing software
 - Garrigus 109 – Computer, projector, document camera, Echo 360 Lecture Capture capabilities to record audio and video, Zoom video conferencing software.
-

COLLEGE IT NEWS: HOW CAN ECHO 360 BE USED IN SMART CLASSROOMS

Echo 360 can be used to record classes on a scheduled timeframe or manually record classroom presentation using the Echo 360 application.

Scheduled Echo 360 recording (Garrigus 109, B52)

- Request scheduled Echo 360 recordings through Terry Evans (Terry.Evans@uky.edu).
- Echo 360 video can be edited before publishing to the streaming video server.

Ad-hoc Echo 360 recording

- Instructions to manually record classes using Echo 360 are available at <https://www.uky.edu/acadtrain/sites/www.uky.edu.acadtrain/files/Echo360-HowToAdHoc.pdf>

Please note:

- Videos are available for 14 days after the original recording to make modifications or edits on the Echo 360 video server.
 - Any captures older than 15 days and marked as “Unavailable” (unpublished) will be deleted.
 - When manually recording to a desktop file, the file will be erased when the smart classroom computer is erased/reloaded by the Deep Freeze application.
-

COLLEGE IT NEWS: BARNHART 249 VIDEO CONFERENCE ROOM

The Barnhart 249 Video Conference Room is a dedicated room for video conferencing offering a large space for video conferencing, including large table(s) or a podium and multiple chairs for video conferencing, and equipment to communicate with a large number of conferencing people or facilities.

The following link is to reserve Barnhart room 249 for video conferencing:

<https://warehouse.ca.uky.edu/CustomService/Reserve/ConfRoomForm.asp>

Indicate if you are connecting with:

- **Princeton**
 - **Robinson Station**
 - **Other location (include site technical settings for communicating, and a person for contact)**
-

MARKETING: UK LOGO

Brand downloads are available at <http://www.uky.edu/prmarketing/brand-downloads>. The following are examples of brand downloads available:

- University logo
- Electronic letterhead
- University of Kentucky primary lockup graphics
- PowerPoint templates

The official UK colors and fonts are the following;

Colors:

PMS Blue 286C, PMS Blue 286U
Match with CMYK:
C=100, M=84, Y=11, K=3
R=26, G=71, B=140Hex: #0033a0

The official University of Kentucky brand fonts are Mercury and Avenir. All identity-related web graphics must use these two fonts. Desktop licenses for these fonts are available from Public Relations & Marketing. [Open font alternatives](#) are Lora and Muli.

Instructions for downloading and using the fonts in PowerPoint are available at the following location:
<http://www.leapica.com/blog-how-to-embed-free-google-fonts-in-powerpoint/>

Links for Lora and Muli fonts:

- Lora <https://www.google.com/fonts/specimen/Lora>
 - Muli <https://www.google.com/fonts/specimen/Muli>
-

MARKETING: COLLEGE LOGO

Official logos, fonts, and guides for the CAFÉ and Extension graphics are available at the following location:

<http://marketing.ca.uky.edu/logos>

MARKETING: TAGLINE “IT STARTS WITH US”

The new tagline for CAFÉ is “It starts with Us”. The tagline “We Grow...” will no longer be the tagline used with official college and extension logos. Details on “It starts with Us” is available at the following web site:

<https://marketing.ca.uky.edu/guidetagline>

MARKETING: STRAGIC PLAN AND MARKETING

The objective of the Strategic Plan and marketing is focused on increasing awareness and reinforce a positive brand perception of college programs and accomplishments. additional information on the Strategic Plan and marketing is available at <https://marketing.ca.uky.edu/plan> .

UK IT NEWS: DEC. 18-22 UK WIRELESS UPGRADE

Wireless network upgrades will begin on Dec. 18 - Friday, Dec. 22. During this time, brief WiFi network outages lasting approximately 5 minutes during the upgrade. After the upgrade, new networks will appear in addition to the ukyedu network, including:

- **eduroam** - Students, faculty, and staff will connect to this network by visiting www.uky.edu/wifihelp and completing the on-boarding process. Additional encryption and security enhancements improve the security of this connection.
- **UK-Devices** - A security network that uses a pre-shared key and approval process to allow network access to devices (ex. smart tv, and other wireless devices)
- **UK-Guest** - UK visitors can self-register or be sponsored for temporary access.
- **UK-WiFi-Help** - A reference tool - Provides information on wireless network without providing internet access

The above network replace the ukyedu wireless network, which will be disabled after Spring semester 2018.

If issues are experienced after the upgrade, contact Kevin.Veach@uky.edu.

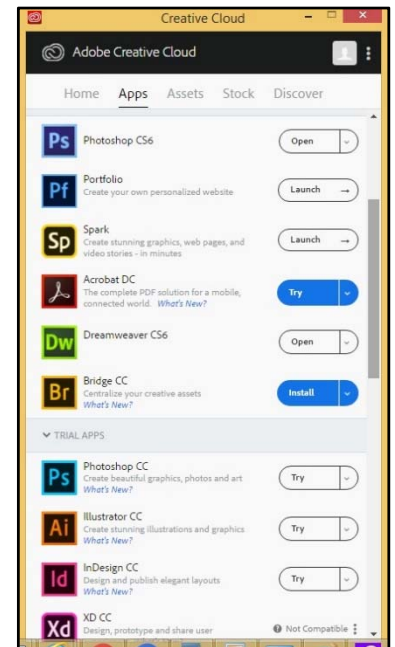

UK IT NEWS: ADOBE CREATIVE CLOUD APPLICATIONS/LICENSE

UK has several Adobe applications available for installation with Adobe Create Cloud, including:

- Photoshop (graphics and video)
- Premiere Pro (video)
- InDesign (page design and layout)
- Acrobat Pro (PDF)
- Dreamweaver (edit HTML web files)

Instructions for installing the Adobe Creative Cloud for Windows is available at http://www.uky.edu.its/files/AdobeCC_WebInstall_Windows_11.30.2017.pdf

Instructions for installing Adobe Create Cloud for Mac is available at: http://www.uky.edu.its/files/AdobeCC_WebInstall_Mac_12.1.2017.pdf

UK IT NEWS: TURNINGPOINT IN THE CLASSROOM

TurningPoint Cloud is an audience participation response system allowing the audience to participate in presentations by submitting responses to interactive questions. TurningPoint can be integrated into PowerPoint presentations for audience feedback and polling.

TurningPoint Cloud components

1. TurningPoint polling software (installed on presenters computer)
TurningPoint Cloud polling software is free from Turning Account
<https://account.turningtechnologies.com/>
2. USB receiver to receive participant responses (connected to presenters computer)
3. Handheld ResponseCard clickers or ResponseWare software (mobile phone or browser-based software) to enable responses.

TurningPoint kits containing a USB receiver and up to 60 ResponseCard clickers are available from UK Audio-Visual Services for use in classrooms and conference rooms. Faculty, staff, and teaching assistants/Graduate Assistants can request loans of TurningPoint kits at <http://www.uky.edu/ukit/avservices/av-request-form> . Please make requests in advance of the date TurningPoint will be used.

UK Audio Visual Services

312 Classroom Building or 207 Nursing Building

avrequest@uky.edu

(859) 323-6455

The ResponseWare application is free software (<https://www.turningtechnologies.com/response-solutions/responseware>), although responding with the ResponseWare applications requires a license. UK doesn't have ResponseWare application licenses. Students can find information on purchasing ResponseWare licenses at <https://www.uky.edu/acadtrain/turningpoint/students> .

- App Store <https://itunes.apple.com/us/app/responseware/id300028504?mt=8>
- Google Play
https://play.google.com/store/apps/details?id=com.turningTech.Responseware&feature=search_result#?t=W251bGwsMSwYLDEslmNvbS50dXJuaW5nVGVjaC5SZXNwb25zZXdhcmUiXQ..

Additional TurningPoint information

- User Guides and Online Training - <https://www.turningtechnologies.com/support/turningpoint-cloud>
- Getting Started Materials - <https://www.turningtechnologies.com/best-practices-higher-education/getting-started/turningpoint-cloud>

UK IT NEWS: MYVIRTUALDEN@UK

MyVirtualDen provides access to applications virtually through a computers web browser. MyVirtualDen is available at <http://apps.uky.edu/> . Please note the Citrix Receiver is needed to use MyVirtualDen.

- Windows Citrix Receiver
<https://www.citrix.com/products/receiver/>
- Mac Citrix Receiver
<https://www.citrix.com/downloads/citrix-receiver/mac/>
- IOS Citrix Receiver
<https://www.citrix.com/downloads/citrix-receiver/ios/receiver-for-ios.html>
- Android Citrix Receiver
<https://www.citrix.com/downloads/citrix-receiver/android/receiver-for-android.html>
- Windows Mobile Citrix Receiver
<https://www.citrix.com/downloads/citrix-receiver/windows-phone-8/receiver-for-windows-phone-8.html>

Examples of applications available through MyVirtualDen are the following:

- SAS 9.4
 - JMP 12
 - Microsoft Office 2013
 - Word
 - Excel
 - PowerPoint
 - Access
 - Publisher
 - Matlab 2014a
 - LMS Image Lab 13
 - LMS Virtual Lab 13
 - R
 - R Studio
 - SPSS 23
-

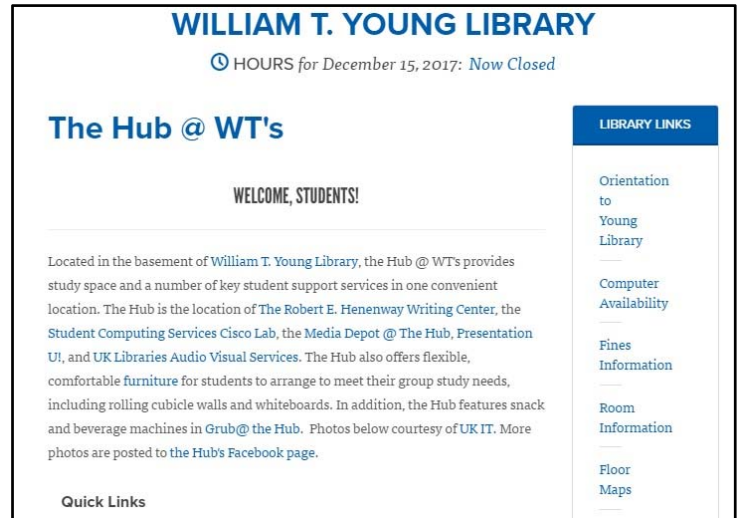

UK IT NEWS: MEDIA DEPOT @ THE HUB

Faculty, staff, and students are welcome to get help with technology to support their presentations and multimedia at the student Media Depot in the basement of the W.T. Young Library. Contact KirkLaird@uky.edu for a tour of the space for you and/or your class.

The following is available at the Media Depot @ the Hub:

- Presentation Recording Rooms

- Green Screen Recording Rooms - Mini studio, equipped with a green screen wall and tools to produce professional-grade presentations.
- Audio and Screen Capture Recording Rooms – Microphone, screen capture software, audio recording software
- Computers
 - 15 – Windows 7 computers (16 gb ram, 1 gb video cards, 27” monitors)
 - 15 – Macs 16 gb ram, 1 gb video cards, 27” monitors)
 - External hard drives are available for 3 day checkout

More information is available at the web site for Media Depot @ the Hub.

<http://www.uky.edu/ukat/mediadepot>

UK IT NEWS: AUDIO VISUAL SERVICES

Audio Visual Services provides support for multimedia technology at UK, including many classrooms. Equipment available for checkout through Audio Visual Services, includes the following:

- 6' tripod projection screens
- 8' tripod projection screens
- Audience Response Systems (TurningPoint)
- Digital Audio Recorders
- Document Cameras
- DVD or VHS players
- DVD Recorders
- Laptop Computers
- Microphones (wired and wireless models available)
- Portable PA Podiums with mic
- PA systems
- Conference Phones
- Poster easels
- Powered Speakers
- Video Cameras
- Video/Data Projectors
- Smart Carts (PC w/wireless network adapter, Data Projector, VHS/DVD Player, audio)

UK Audio Visual Services

312 Classroom Building or 207 Nursing Building

avrequest@uky.edu

(859) 323-6455

More information is available at <http://www.uky.edu/ukit/avservices>

UK IT NEWS: YOUNG LIBRARY AUDIO VISUAL SERVICES

Laptops can be borrowed at Young Library Audio Visual Services. More information is available at <https://libraries.uky.edu/avs/>

Young Library Audio Visual Services
B-67 Young Library
218-1879

UK IT NEWS: WEB CONFERENCING SOFTWARE

UK supports Skype for Business and Zoom software for web conferencing. Skype for Business and Zoom can be downloaded from <http://download.uky.edu>.

A Skype for Business tutorial is available at <https://support.office.com/en-us/article/Introducing-Skype-for-Business-e705627e-8e94-4bae-ac8b-4ccea5a9c4c0?ui=en-US&rs=en-US&ad=US>

Zoom tutorials are available at <https://support.zoom.us/hc/en-us>
<https://support.zoom.us/hc/en-us/articles/201362033-Getting-Started-on-PC-and-Mac>
<https://support.zoom.us/hc/en-us/articles/206618765-Zoom-Video-Tutorials>

UK IT NEWS: SYSTEM STATUS

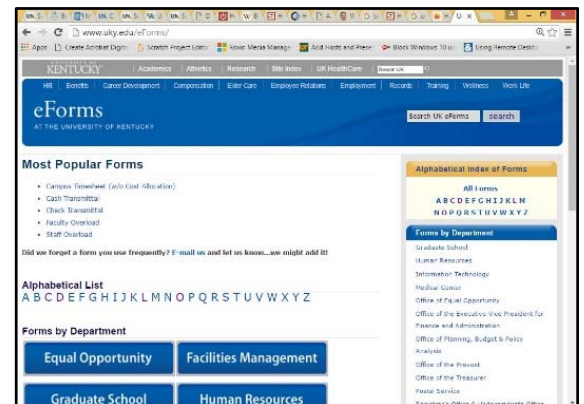

The System Status (<http://www.uky.edu/servicesdesk/systemstatus/>) web page that indicates status of communications and network access, including Canvas, email, internet, telephone, and spam status. The following are reports on 12/15 on the System Status page:

UK IT NEWS: ONLINE UK FORMS

A location that stores many forms at UK that are indexed by letter is available at <http://www.uky.edu/forms>

Examples of computer related forms that are available at this location include

- Computers - Computer Accounts Form
- Classes - Room Reservation Form
- Surplus – Surplus items or obtain items from surplus
- Computer Cleaning Forms

UK IT NEWS: SHORTEN UK WEB ADDRESSES

UK has a utility to shorten web addresses for quicker access. At the web page <http://go.uky.edu/> is a utility to make the short URL of [http://go.uky.edu/\(name\)](http://go.uky.edu/(name)) to be a quick link for a long web address. This would be helpful for shortening web addresses for printed material.

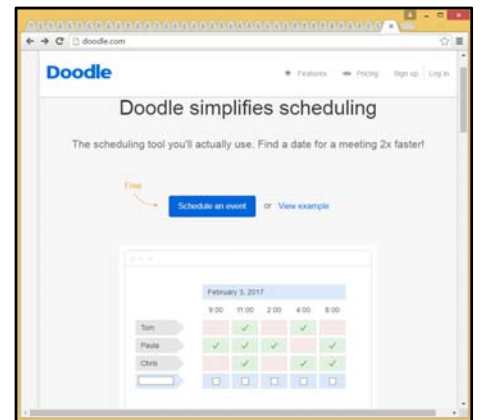

For example, <http://go.uky.edu/pre-vet> could be a short version of <http://afs.ca.uky.edu/students/pre-vet> using the “Frendly it” icon.

TECHNOLOGY NEWS: COORDINATE MEETING SCHEDULES WITH DOODLE

Doodle can simplify coordinating meetings between people. Invited participants are polled to indicate the best time and date for the meeting. Meeting coordinators can receive emails indicating responses, and are notified of times the most people can meet.

- Doodle accounts are free
- Ability to Connect your calendar with Doodle
- Free Mobile version available

<http://doodle.com/>

TECHNOLOGY NEWS: AUTOSAVE IN MICROSOFT OFFICE PROGRAMS

The Autosave option in Microsoft Office helps from recreating documents, by automatically saving data files at an interval (ex. every 3 minutes). Instructions for enabling and setting save options (frequency) are available in the following links:

Word and Excel 2016 Autosave

<http://www.isumsoft.com/it/turn-on-and-set-autosave-in-word-excel-2016/>

PowerPoint 2016 Autosave

<https://support.office.com/en-us/article/Help-protect-your-files-in-case-of-a-crash-551c29b1-6a4b-4415-a3ff-a80415b92f99>

TECHNOLOGY NEWS: INCREASE WEB & SOCIAL MEDIA STATISTICS

The following can be used to increase web and social media statistics for use:

- Engage viewers and offer them useful, relevant content.
- Hold surveys, ask questions, connect with the audience.
- Getting feedback, analyzing and adjusting your marketing strategy.
- Increase the number of times your identification/web location is viewed by potential clients
- Use images.
 - Facebook – Images 39% more engagement
 - Twitter – Images and videos can give 200% more engagement compared to text only.
- Ask questions.
- Short, concise updates
 - Facebook – Less than 40 characters received 80% more engagement.
 - Twitter – Less than 100 characters get 17% more engagement.
- Use engaging words
 - Facebook – Where, When, Tell Us, Inspire, Submit, Deals, Discount, Warns, Amuses
 - Twitter – ReTweet, Follow, Social Media, New Blog Post, Check Out, Help, Top
 - LinkedIn – Created, Improved, Increased, Developed, Reduced, Researched
 - Google+ - Share, Promote, Increase, Create, Discover
- Focus content on your site
- When creating content, think “how would I react reading this”.
- Use great titles (ex. How I got faster instead of “Decrease”)
- Write content your visitors want to read.
- Research and identify keywords your target wants (ex. Google Trends or Google Keyword tool)
- Research content that is working vs content which isn’t. Create additional content on what is desired.
- Embed social media buttons on your website.
- Use hashtags in social media posts and updates.
- Include social media links in your email signature.
- Become online friends with people of interest (ex. county agents, industry leaders, etc...) who can share content.
- Urge people to post your website on the web or social media.
- Create social media blogs of updated content on your website.
- Online competitions can create additional views.
- Optimize web content for search (ex. Periodic Table of SEO Success Factors <https://searchengineland.com/now-updated-the-periodic-table-of-seo-success-factors-162513>)
- Link to your own content. Cross-reference pages and point to the most popular or ones to make most popular.
- Make your website mobile friendly.
- Create a mailing list (ex. Listserv that if additional people want information as a newsletter, they can subscribe). List the mailing list on websites and social media.
- Embed links to your website in your newsletter.
- Guest blog on other relevant websites, and Link to your website.
- “Like” your own posts. If your audience sees a “Like”, it can increase their likelihood of viewing the post.

TRAINING: CLASSROOM TAUGHT TECHNOLOGY WORKSHOPS AT UK

Human Resources Training & Development (<https://www.uky.edu/hr/training/calendar/2018-01>) offers classes at 106 McVey Hall, but registration is required. The following are classes currently offered:

- 1/17 Excel: Introduction (9 am – 11:30 am)
- 1/18 Photoshop: Introduction (1 pm – 4 pm)
- 1/23 Dreamweaver: Introduction (9 am – 12 pm)
- 1/23 Captivate: Enhancing Your Project (1 – 4 pm)
- 1/24 Excel: Functions and Filters (9 am – 11:30 am)
- 1/24 PowerPoint: Introduction (1:30 – 4 pm)
- 1/25 Photoshop: Advanced Editing (1 – 4 pm)
- 1/30 Dreamweaver: Designing with CSS (9 – 12 pm)
- 1/30 Captivate: Advanced Interactions (1:30 – 4 pm)
- 1/31 Excel: Charts and Graphs (9 – 11 am)
- 1/31 PowerPoint: Engaging Presentations (1:30 – 4 pm)

TRAINING: ONLINE TECHNOLOGY WORKSHOPS AT UK

Web based courses are available through the Human Resources eTraining web site at <http://www.uky.edu/HR/etraining/>. Enter your email username/password to see the classes offered.

TRAINING: DEPARTMENT WORKSHOPS

The following workshops are scheduled for the department:

- **Security: 2 Factor Authentication**
Date: Dec. 20, 1:30 pm
Location: Garrigus 109

RESOURCES FOR OBTAINING EQUIPMENT: UK EBUY

- **UK Ebuy** (<http://www.uky.edu/ebuy>)
 - Links to preferred vendors are available
 - Dell (computers) - <http://www.uky.edu/Purchasing/ebuy/dellcontact.php>
 - Software - <http://www.uky.edu/Purchasing/ebuy/software.php>
 - Apple - <http://www.uky.edu/Purchasing/ebuy/apple.php>
 - Accessories - <http://www.uky.edu/Purchasing/ebuy/periph.php>
 - Printers - <http://www.uky.edu/MPS/devicelist>
 - MoreDirect - <http://www.moredirect.com/uk>
 - CDW-G - <http://www.cdwg.com/uk>
 - Ricoh (Printers) - http://www.uky.edu/printsupplies/approveddevices_new
 - Email Kevin.Veach@uky.edu when computer equipment arrives to tag equipment with a N tag for UK Equipment Inventory with the following information:
 - Email Subject information: Tag N Equipment – Make/Model

- Email body:
 - Make/model arrived.
 - Location:
 - Equipment used for:
 - Requesting N tag and picture of equipment for minor equipment inventory
-

RESOURCES FOR OBTAINING EQUIPMENT: UK SURPLUS

UK faculty/staff/students use from a variety of sources, as the following:

- **UK Surplus** (<https://sharepoint.uky.edu/facilities/surplus/default.aspx>)
 - Can be picked up the same day, and there is no cost for equipment.
 - Equipment can be viewed/picked up at building B0017 Reynolds Warehouse #1 at 349 Scott Street, Lexington, KY
 - Examples of equipment available, include the following:
 - Computer equipment (ex. computers, screens, etc...)
 - Scientific equipment
 - Office equipment (ex. chairs, desks, typewriters, etc...)
 - After obtaining equipment from UK Surplus, immediately email Kevin Veach (Kevin.Veach@uky.edu) to scan tagged equipment for inventory location.
 - Email Subject Line indicate: UK Tag, Make/Model
 - Email body indicate:
 - UK Tag Make/Model:
 - Location:
 - Equipment used for:
 - Request verification of equipment Ebars Description compared to tag.
-

RESOURCES FOR OBTAINING EQUIPMENT: FEDERAL EXCESS

Federal Excess is equipment obtained by the government that is no longer used, and made available to use by the University of Kentucky. The person who obtains Federal Excess equipment is responsible for the equipment obtained.

UK Federal Excess (<http://www.ca.uky.edu/fm/federalexcessproperty.php>)

- Items in at the Federal Excess building can be picked up. Items on the Federal Excess web site can be delivered, which may take time, and shipping cost may apply.
- Jesse Smith at 1995 Research Farm Rd, Lexington, Ky
- Large selection of items available from on campus federal excess or items available from federal excess nationally.
- Examples of equipment available, include the following:
 - Computer equipment (ex. computers, screens, etc...)
 - Scientific equipment
 - Office equipment (ex. chairs, desks, typewriters, etc...)

- Notify Kevin Veach by email of new computer related Federal Excess equipment. In the email Subject line, indicate “Federal Equipment: Assigned identification – Description, location”. In the email body, indicate the following:
 - Identification number,
 - Make/Model
 - Serial Number:
 - Location:
 - Equipment used for:
 - Pictures requested for creating inventory sheets
-

RESOURCES FOR OBTAINING EQUIPMENT: US FEDERAL EXCESS

U.S. General Services Administration (<https://GSAXcess.gov>) provides access Federal Excess equipment from all around the U.S. Shipping Fees for transporting equipment from its location of origin may apply.

Examples of Federal Excess from GSAXcess include:

- Computer Equipment
 - Laboratory Equipment
 - Furniture
 - Cars
 - Tractors
 - Construction material
-

SOFTWARE DOWNLOADS FROM [HTTP://DOWNLOAD.UKY.EDU](http://download.uky.edu)

The following programs are available to be installed on UK computers from <http://download.uky.edu>:

UK SOFTWARE DOWNLOADS: WINDOWS

- **Operating Systems**
 - **Windows 10** (64 bit version)
 - **Windows 8.1 Enterprise** (32 & 64 bit versions)
 - **Windows 7 Enterprise** (32 & 64 bit versions)
 - **Mathematical/Statistical**
 - **Amos 23, 24 for Windows** - Structural equation modeling using SPSS data formats
 - **JMP 12, 13 for Windows** - Statistical Analysis Program
 - **JMP Genomics 7, 8** (64 bit) - Statistical Analysis Program
 - **Matlab** – Matrix manipulations, plotting of functions and data, implementation of algorithms
 - **SAS 9.4** (64 bit) - Statistical Analysis Program
 - **SAS 9.3** (32 & 64 bit) - Statistical Analysis Program
 - **SigmaPlot 12.3, 13** - Statistical Analysis Program
 - **SPSS 23, 24** (32 & 64 bit) – Data entry, analysis, and graphs
 - **Office**
 - **Adobe Acrobat DC** – Modify/Create/Save PDF files.
-

- **Adobe Acrobat DC Reader** – Read PDF files
- **EndNote X7, X8** – Publish and manage bibliographies
- **Microsoft Office 365 ProPlus** – Office suite including Word, PowerPoint, Excel, and more
- **Microsoft Office 2013, 2016** (32 & 64 bit) – Office suite including Word, PowerPoint, Excel, and more
- **Xcelsius 2008** – SAP Business Objects tool to develop information dashboards
- **Skype for Business 32 bit, 64 bit** – Video conferencing software
- **Qualtrics** – Online questionnaire development
- **Design**
 - **Adobe CC Core 2015**
 - **Adobe CC License Package** - Photoshop, Dreamweaver, Flash, Fireworks, Muse, Illustrator, Edge Animate, Edge Reflow, Edge Code, Media Encoder
 - **Adobe Designer 11** - Create Fillable dynamic PDF forms
- **Security**
 - **Microsoft EndPoint 2012** – Malware and virus detection/protection
- **Utilities**
 - **ArcGIS Server 10.5.1** – Geographic Information System
 - **ArcGIS Desktop 10.5.1**
 - **Cisco Unity ViewMail Addin (32 & 64 bit)** – Addin to listen to Cisco Unity voicemail in Outlook
 - **Cucilync Cisco Phone – Microsoft Lync Integration** – Lync integration with Cisco phones
 - **InformaCast** – UK alert desktop notification
 - **Cisco AnyConnect Secure Mobility Client** – Securely connect Windows 10 computers to campus resources.
 - **Oracle 10g Client** – Application and set configuration files to connect to aOracle data warehouse
 - **TSM Client 7 - 1.6.2** (64 bit) – Backup data to the TSM server
 - **TSM Client 7 - 1.6.0** (32 bit) – Backup data to the TSM server
 - **UK Set KMS Utility** – Validate software through a key management server
 - **Windows Activator (KMS)** – Activate Windows 7, 8, 8.1, and 10 downloaded from the UK Downloads website.
- **SAP Utilities**
 - **Business Objects XI 3.0 Client** – Performance management, planning, reporting, query, and analysis
 - **HANA Client** (32 & 64 bit) (v112) – Interface for connecting applications as part of the SAP HANA client software package
 - **UK SAP GUI 7.4** – Connect to the UK SAP administrative system
- **Classroom**
 - **Adobe Captivate 9, 2017** – Electronic learning tool used for demonstrations, simulations, branched scenarios, and randomized quizzes. It can also be used for screencasts, podcasts, and the conversion of Microsoft PowerPoint presentations to the Adobe Flash format.
 - **Adobe Presenter 10 (32 & 64 bit)** – Capture on screen presentations and convert them to interactive and engaging videos
 - **Adobe Presenter 11**
 - **Echo 360 Personal Capture 5.5**– Lecture recording application
 - **Kurzweil 3000 Learnstation 11.0** – Reading, writing, and study skill software.
 - **Respondus 4** – Create and manage exams on Blackboard

- **Read & Write Gold for Mac** – UK toolbar that integrates reading, writing, studying, and research support tools with common applications (Word, Google Docs, IE, Chrome, Firefox, Adobe Reader) to foster confidence, independence, and success in academia. Features word prediction, text to speech, speech to text, text to MP3 conversion, translation, screen shot reader, optical character recognition, voice notation, exporting of highlighted text, concept mapping, phonetic spell checker, picture dictionary, talking calculator, screen masking, word banks, and more.
-

UK SOFTWARE DOWNLOADS: MAC

- **Mathematical/Statistical**
 - **JMP 12, 13** - Statistical Analysis
 - **SPSS 23, 24** – Data entry, analysis, and graphs
 - **Office**
 - **Adobe Acrobat DC** – Create/Modify /Save PDF files
 - **Adobe DC Reader** – View PDF files
 - **EndNote X7, x8** - Publish and manage bibliographies
 - **Microsoft Lync for Mac** – Communicate via instant message, audio, and video calls. Create meetings, availability, and sharing capabilities.
 - **Microsoft Office 2016** - Office suite including Word, PowerPoint, Excel, and more
 - **Microsoft Office 2011**
 - **Skype for Business for Mac**
 - **Qualtrics** – Online questionnaire development
 - **Design**
 - **Adobe CC 2015 Core**
 - **Adobe CC License Package**
 - **Utilities**
 - **InformaCast** - UK alert desktop notification
 - **Cisco AnyConnect Secure Mobility Client** – Securely connect Windows 10 computers to campus resources.
 - **SAP Utilities**
 - **JDBC Drivers for Mac** – Allows Mac users to run Tableau 10 without a virtual machine.
 - **Classroom**
 - **Adobe Captivate 9** - Electronic learning tool used for demonstrations, simulations, branched scenarios, and randomized quizzes. It can also be used for screencasts, podcasts, and the conversion of Microsoft PowerPoint presentations to the Adobe Flash format.
 - **Adobe Captivate 8**
 - **Echo Personal Capture for Mac 5.5**– Lecture recording application
 - **Read & Write Gold for Mac** – UK toolbar that integrates reading, writing, studying, and research support tools with common applications (Word, Google Docs, IE, Chrome, Firefox, Adobe Reader) to foster confidence, independence, and success in academia. Features word prediction, text to speech, speech to text, text to MP3 conversion, translation, screen shot reader, optical character recognition, voice notation, exporting of highlighted text, concept mapping, phonetic spell checker, picture dictionary, talking calculator, screen masking, word banks, and more.
-

UK SOFTWARE DOWNLOADS: VIRTUAL DEN

VirtualDen Allows programs to be used online from Windows, Mac, smartphones, and tablet computers. The Citrix XenApp (Citrix Receiver) needed to run the online Virtual Den can be downloaded at <https://www.citrix.com/products/receiver/>

Software available through Virtual Den:

- Engineering Software
 - Eagle
 - LMS Imagine Lab AMESim 13 51.1
 - LMS Virtual Lab 13
 - Web Point Bridge Designer 2016
- Health Care
 - GermWare
 - HCS Medics
 - Pharmacy QS1
- Instructional Software
 - Aperio Imagescope Viewer
 - GitHub
 - IDEA
 - Mplus
 - QGIS Desktop 2_6_1
 - TeamMate Analytics
 - ArcGis
 - Arc Map
 - Arc Cat
- Microsoft Office 2016
 - Access 2016
 - Excel 2016
 - PowerPoint 2016
 - Publisher 2016
 - Word 2016
- SAP GUI myUK
 - SAP GUI myUK
- Statistics Software
 - JMP
 - JMP 12
 - R
 - R 341
 - RStudio
 - RStudio 10143
 - SAS
 - SAS 9_4
 - SAS Enterprise Guide
 - SPSS 24
 - SPSS 24

Instruction to install Virtual Den

1. Download and install the Citrix Receiver at <https://www.citrix.com/products/receiver/> .
2. Go to the website <https://apps.uky.edu/Citrix/Remote/auth/login.aspx>
3. Type your Link Blue credentials to enter.
4. Browse to the application you wish to use online.

College technology contacts are available on the next page...
