2.0 GENERAL OVERVIEW

2.1 Intent and Scope

This Request for Proposal (RFP) is issued to solicit proposals from qualified, experienced, financially sound and responsible Offerors for delivery and management of a comprehensive, voluntary benefits program that will be offered to employees and retirees of the University of Kentucky. The successful offeror shall be responsible for providing a voluntary benefits program that has the capacity to provide, at minimum, the following benefits/insurance products (“Voluntary Benefits”).

Voluntary Benefits
- Accident
- Automobile
- Homeowners/Renters
- Universal Life
- Long-Term Care
- Short-Term Disability
- Cancer & Specific Disease
- Supplemental LTD
- Pet Insurance
- Legal Services

Vision Coverage (mostly self-administered by the University ad considered “core” benefit)

Dental Coverage (mostly self-administered by the University ad considered “core” benefit)

In addition, the successful offeror will be authorized to solicit proposals for the specified products (“Specified Products”) listed below on behalf of the University, utilizing expertise / consulting / contract and vendor management / and administrative support as appropriate. It is the University’s expectation of the successful offeror to be resourceful, transparent and able to achieve the greatest quality, value and service for the University related to these products, and to work as a strategic business partner. The products include: A) life insurance related products which are often bundled to achieve the greatest value; B) stop-loss insurance for the University’s self-insured health plans (currently employee and student health plans).

Specified Products
- Basic Term Life (employer paid core benefit)
- Basic AD&D (employer paid core benefit)
- Optional Life (employee paid voluntary benefit)
- Dependent Life (employee paid voluntary benefit)
- Optional AD&D (employee paid voluntary benefit)
- Health Plans Stop-Loss (employer and employee shared cost of health plan provision)

It is the University’s intent to offer the Voluntary Benefits and employee-paid Specified Products listed above to its employees on a no-cost basis to the University.

Some of the above Voluntary Benefits and Specified Products are offered to University employees with set premiums based on specific factors such as age at the time of the policy issuance. These premiums are locked in for a period of time or indefinitely as long as the employee continues to pay the premiums for the product.

The successful offeror shall propose appropriate methods by which these current products may be offered, without financially penalizing employees or reducing the benefits of the proposed Voluntary Benefits program and or certain Specified Products.

The University of Kentucky’s Voluntary Benefits Program and Specified Products shall be designed and managed as an independent Contractor to the University with minimal assistance from the University’s HRB Department. The individual employees, who elect to participate, shall be responsible for the premium costs associated with the any of voluntary benefits selected by the employee. The University shall be responsible for any applicable employer paid products. Premiums will be paid via a payroll deduction.

The successful offeror will provide an automated benefits enrollment system in support of the Voluntary Products/Specified Products that interfaces or links easily with the University systems. The University reserves the right to put all Voluntary Benefit/Specified Products offerings on its benefit administration system. Should the University put all Voluntary Benefit/Specified Products offerings on its administration system, the successful offeror agrees to proportionately share in the cost of such system, partnering with the University in such a way as to present the most effective method of communicating and maximizing the value of, employee engagement in, and understanding of the Core Benefits as well as Voluntary Benefits/Specified Products for a well-rounded and user-friendly benefits package presentation.

The successful offeror will agree to provide the maximum degree of support to UK in providing services and will respond to requests from UK promptly and responsively. The successful offeror will promptly bring to UK’s attention those problems which they are unable to resolve to the satisfaction of any UK employee.

In addition to 20,000 University employees, approximately 400 former UK Community College System Employees, who now work for the Kentucky Community and Technical College System (KCTCS), and approximately 400 Central Kentucky Management Services (CKMS, a UK affiliate) employees are eligible for participation. KCTCS maintains a separate payroll from UK and will provide the successful Offeror with eligibility information and coordinate premium deductions.
Other organizations which are affiliated with the University enterprise may also be added to the total number of people eligible for benefits based on contractual language with the affiliates to cover their own costs. This is to inform of potential size and changes to overall pool of benefit eligible people as well as administrative complexities.

The Scope is further detailed in Section 7.1.

2.2 Background Information

The University has offered Voluntary Benefits/Specified Products through a single broker/enrollment firm since 1995. The current firm provides up to three salaried employees (on and off campus depending on required workloads related to all products vendor is authorized to broker and manage) on the ground in Lexington, Kentucky, to assist new employees and current employees (Open Enrollment, anytime benefits, qualified events and new off-cycle offerings) with the evaluation and enrollment into the various Voluntary Benefits/Specified Products programs. The University typically hires approximately 250 benefits eligible employees each month. The contractor is required to staff benefits events on campus such as New Employee Orientation meetings or Open Enrollment meetings or other special events and requests by University departments/units. The dental and vision coverages are currently listed as a Voluntary Benefit, since the university does not subsidize this coverage. At some point in the future, the University could begin to subsidize these benefits and reserves the right to move them out of the voluntary benefits offering and move into a self-funded arrangement. In this case, ASO Renewals (Administrative Services Only) would be handled by the consulting firm handling the self-funded medical plan. See Attachment A for a complete book of business for an understanding of the scope and volume of work.

2.3 University Information

Since his arrival, President Eli Capilouto has set forth an ambitious agenda to extend and enhance our role as Kentucky’s land-grant and flagship research university. By focusing on infrastructure growth and improvement; creating opportunities for innovative teaching, learning, and academic excellence; fostering a robust research and creative scholarship enterprise; providing life-saving subspecialty care; empowering communities through service and outreach; and encouraging a transparent and shared dialogue about institutional priorities; the University of Kentucky will ensure a new century of promise for the people we impact.

Founded in 1865 as a land-grant institution adjacent to downtown Lexington, UK is nestled in the scenic heart of the beautiful Bluegrass Region of Kentucky. From its early beginnings, with only 190 students and 10 professors, UK’s campus now covers more than 918 acres. UK is one of a small number of universities in the United States that has programs in agriculture, engineering, a full complement of health colleges including medicine and pharmacy, law and fine arts on a single campus, leading to groundbreaking discoveries and unique interdisciplinary collaboration. The state’s flagship university consists of 17 academic and professional colleges where students can choose from more than 200 majors and degree programs at the undergraduate and graduate levels. The colleges are Agriculture, Food and Environment; Arts and Sciences; Business and Economics; Communication and Information; Dentistry; Design; Education; Engineering; Fine Arts; Graduate School; Health Sciences; Law; Medicine; Nursing; Pharmacy; Public Health; and Social Work. These colleges are supported by a modern research library system.
Research at the University of Kentucky is a dynamic enterprise encompassing both traditional scholarship and emerging technologies, and UK’s research faculty, staff and students are establishing UK as one of the nation’s most prolific public research universities. UK’s research enterprise attracted $285 million in research grants and contracts from out-of-state sources, which generated a $580 million impact on the Kentucky economy. Included in this portfolio is $153 million in federal awards from the National Institutes of Health, non-NIH grants from the Department Health and Human Services, the National Science Foundation, Department of Energy, Department of Agriculture and NASA, among others. The National Science Foundation ranks UK’s research enterprise 44th among public institutions.

With more than 50 research centers and institutes, UK researchers are discovering new knowledge, providing a rich training ground for current students and the next generation of researchers, and advancing the economic growth of the Commonwealth of Kentucky. Several centers excel in the services offered to the public. The Gluck Equine Research Center is one of only three facilities of its kind in the world, conducting research in equine diseases.

The Center for Applied Energy Research is pursuing groundbreaking discovery across the energy disciplines. CAER staff are pioneering new ways to sustainably utilize Kentucky natural resources through carbon-capture algae technology, biomass/coal to liquid products and the opening of UK’s first LEED-certified research lab to support the development of Kentucky’s growing alternative energy industry. Among the brightest examples of UK’s investment in transformative research is the Markey Cancer Center. As a center of excellence and distinction at UK, Markey’s robust research and clinical enterprise is the cornerstone of our commitment to Kentucky – fundamental to our success in uplifting lives through our endeavors and improving the general health and welfare of our state – burdened by the nation’s highest rate of cancer deaths per 100,000 people. In 2013, Markey earned the prestigious National Cancer Institute-designation (NCI) – one of 68 nationally and the only one in Kentucky.

The University of Kentucky was awarded a $20 million Clinical Translational Sciences Award (CTSA) from the National Institutes of Health (NIH). As one of only 60 institutions with this research distinction, UK was awarded the CTSA for its potential in moving research and discovery in the lab into practical field and community applications. The CTSA and NCI are part of a trifecta of federal research grants that includes an Alzheimer’s Disease Center. UK is one of only 22 universities in the country to hold all three premier grants from NIH.

Established in 1957, the medical center at UK is one of the nation's finest academic medical centers and includes the University's clinical enterprise, UK HealthCare. The 569-bed UK Albert B. Chandler Hospital and Kentucky Children's Hospital, along with 256 beds at UK Good Samaritan Hospital, are supported by a growing faculty and staff providing the most advanced subspecialty care for the most critically injured and ill patients throughout the Commonwealth and beyond. Over the last several years, the number of patients served by the medical enterprise has increased from roughly 19,000 discharges to more than 36,000 discharges in 2014.

UK Chandler Hospital includes the only Level 1 Trauma Center for both adult and pediatric patients in Central and Eastern Kentucky. In addition, UK HealthCare recently opened one of the country’s largest robotic hybrid operating rooms and the first of its kind in the region. While our new patient care pavilion is the leading healthcare facility for advanced medical procedures in the region, our talented physicians consult with and travel to our network of affiliate hospitals so Kentucky citizens can receive the best health care available close to their home and never need to leave the Bluegrass for complex subspecialty care.
UK’s agenda remains committed to accelerating the University’s movement toward academic excellence in all areas and gain worldwide recognition for its outstanding academic programs, its commitment to students, its investment in pioneering research and discovery, its success in building a diverse community and its engagement with the larger society. It is all part of the University’s fulfillment of our promise to Kentucky to position our state as a leader in American prosperity.

Under the Code, a personal service contract is an agreement whereby an individual, firm, partnership or corporation is to perform certain services requiring professional skill or professional judgment for a specified period of time at an agreed upon price.

**A. Professional Service Rate Schedules:**

The GCRC has established rate schedules for certain professional services and may impact any contract established under the Code. These rate schedules are located on the GCRC website at [www.lrc.ky.gov/statcomm/Contracts/homepage.htm](http://www.lrc.ky.gov/statcomm/Contracts/homepage.htm).

**B. Invoicing of Personal Service Contracts:**

The Kentucky Model Procurement Code was recently amended to establish conditions for invoicing for fees for personal service contracts. It states, “No payment shall be made on any personal service contract unless the individual, firm, partnership, or corporation awarded the personal service contract submits its invoice on a form established by the committee.” The Government Contract Review Committee has adopted a personal service contract invoice form that must be submitted as a condition of payment. A copy of the form is located on the GCRC website at [https://www.uky.edu/hr/sites/www.uky.edu.hr/files/webform/eforms/Personal-Service-Contract-Invoice-Form_0.pdf](https://www.uky.edu/hr/sites/www.uky.edu.hr/files/webform/eforms/Personal-Service-Contract-Invoice-Form_0.pdf).

In compliance with these statutes, all printing must be provided by a contract established by the Purchasing Division.

6.29 Payment Terms

The University adheres to a strategic approach regarding payables management based on risk minimization, processing costs, and industry best practices. As such, suppliers and individuals doing business with the University will be paid based on the following protocol:

1. The University utilizes Payment Plus (e-payables) as its primary default form of payment. By enrolling in Payment Plus, suppliers can receive payments immediately (all invoices will be paid immediately upon confirmation of goods receipt and invoice). The process is electronic and the supplier receives real-time payment notices. Additional information regarding Payment Plus (and enrollment form) can be found at: https://www.uky.edu/ufs/payment-plus-supplier-enrollment-form.
2. Payments by check. Payment terms for check payments are Net-40.

3. Individuals receiving payments from the University that require ACH direct payments will only be processed under special circumstances as approved by the Controller’s office. Payment terms for ACH are Net-40.
