

BAE 402/403 Deliverable Requirement

Your senior design project will be archived. In order to ensure that the correct files are archived, you are required to have the following documents on the coursefolders drive, in your team's folder at the end of BAE 403. If any of these files are missing, you will receive an I in the course.

They will remain in a folder named after your team. For this reason, it would be very helpful for you to use this list as your actual file names. Thanks!
