Radon is a naturally occurring, radioactive gas.

- It cannot be seen, smelled or tasted.
- It may seep into your home from the rocks below.
- It is the second leading cause of lung cancer.

**TEST YOUR HOME • KNOW YOUR LEVEL**
For a radon test kit, contact the Kentucky Radon Program at (502) 564-4856.

Certain types of rock have higher levels of radon:
Radon is a problem in many areas in Kentucky, including Bracken County.

![Map of Kentucky showing levels of radon](image)

(Soft colors show different rock types)

High radon can occur even in a least or mild danger area.

**Smoking and radon:**
Breathing radon is dangerous, but it is even more harmful when you also breathe tobacco smoke.
Radon Testing:

Blue dots show homes already tested for radon.

More homes in Bracken County need to be tested.

To Do List:

✅ TEST your home for radon.
✅ TALK with a health care provider about your results.
✅ FIX your home if the level is high.
   Call a certified radon professional.
✅ ASK people to smoke outside.
✅ TELL your loved ones about the dangers of radon and tobacco smoke.

TEST YOUR HOME • KNOW YOUR LEVEL
