Radon is a naturally occurring, radioactive gas.

- It cannot be seen, smelled or tasted.
- It may seep into your home from the rocks below.
- It is the second leading cause of lung cancer.

**TEST YOUR HOME • KNOW YOUR LEVEL**

For a radon test kit, contact the Kentucky Radon Program at (502) 564-4856.

Certain types of rock have higher levels of radon:

Radon is a problem in many areas in Kentucky, including Hancock County.

High radon can occur even in a least or mild danger area.

Smoking and radon:

Breathing radon is dangerous, but it is even more harmful when you also breathe tobacco smoke.
For a radon test kit, contact the Kentucky Radon Program at (502) 564-4856.
For more information about the maps, contact BREATHE at (859) 257-7028.

TEST YOUR HOME • KNOW YOUR LEVEL

To Do List:

☐ TEST your home for radon.
☐ TALK with a health care provider about your results.
☐ FIX your home if the level is high. Call a certified radon professional.
☐ ASK people to smoke outside.
☐ TELL your loved ones about the dangers of radon and tobacco smoke.

Blue dots show homes already tested for radon.

More homes in Hancock County need to be tested.
