Radon is a naturally occurring, radioactive gas.

- It cannot be seen, smelled or tasted.
- It may seep into your home from the rocks below.
- It is the second leading cause of lung cancer.

**TEST YOUR HOME • KNOW YOUR LEVEL**
For a radon test kit, contact the Kentucky Radon Program at (502) 564-4856.

Certain types of rock have higher levels of radon:
Radon is a problem in many areas in Kentucky, including Knott County.

High radon can occur even in a least or mild danger area.

**Smoking and radon:**
Breathing radon is dangerous, but it is even more harmful when you also breathe tobacco smoke.
For a radon test kit, contact the Kentucky Radon Program at (502) 564-4856.
For more information about the maps, contact BREATHE at (859) 257-7028.

TEST YOUR HOME • KNOW YOUR LEVEL

To Do List:

☑ TEST your home for radon.
☑ TALK with a health care provider about your results.
☑ FIX your home if the level is high. Call a certified radon professional.
☑ Ask people to smoke outside.
☑ Tell your loved ones about the dangers of radon and tobacco smoke.
