Radon is a naturally occurring, radioactive gas.

- It cannot be seen, smelled or tasted.
- It may seep into your home from the rocks below.
- It is the second leading cause of lung cancer.

**Are you in danger from RADON in McCracken County?**

TEST YOUR HOME • KNOW YOUR LEVEL

For a radon test kit, contact the Kentucky Radon Program at (502) 564-4856.

Certain types of rock have higher levels of radon:
Radon is a problem in many areas in Kentucky, including McCracken County.

High radon can occur even in a least or mild danger area.

Smoking and radon:
Breathing radon is dangerous, but it is even more harmful when you also breathe tobacco smoke.
Radon Testing:

- Blue dots show homes already tested for radon.
- More homes in McCracken County need to be tested.

To Do List:

- **TEST** your home for radon.
- **TALK** with a health care provider about your results.
- **FIX** your home if the level is high. Call a certified radon professional.
- **ASK** people to smoke outside.
- **TELL** your loved ones about the dangers of radon and tobacco smoke.
