Radon is a naturally occurring, radioactive gas.

- It cannot be seen, smelled or tasted.
- It may seep into your home from the rocks below.
- It is the second leading cause of lung cancer.

**Are you in danger from RADON in Rowan County?**

**Certain types of rock have higher levels of radon:**
Radon is a problem in many areas in Kentucky, including Rowan County.

Test your home • Know your level

For a radon test kit, contact the Kentucky Radon Program at (502) 564-4856.

(different colors show different rock types)

High radon can occur even in a least or mild danger area.

Smoking and radon:
Breathing radon is dangerous, but it is even *more* harmful when you also breathe tobacco smoke.
For a radon test kit, contact the Kentucky Radon Program at (502) 564-4856.
For more information about the maps, contact BREATHE at (859) 257-7028.
