

[ What inspires you to give? ]

## Q&A with Steve Fisher, CHS PAS alumnus, about gratitude and giving

**What are you most grateful for in your life?** The Christian faith heritage and values that my parents and grandparents gave me.

**What are you most grateful for within the College?** I appreciate that UK was one of the first universities to establish a PA program. Otherwise I would never have ended up in Kentucky. I'm grateful for the opportunity the faculty give me to continue interacting with PA students. I'm especially thankful for the staff in the program that make everything work!

**What are you most passionate about?** I am passionate about medical missions and helping develop the next generation of PAs. I am very grateful that I can combine both of these passions in the spring break trips to Mexico. This year it will expand to include both UK and University of the Cumberlands students. This will enhance inter-program cooperation.

**What do you have planned for the holidays?** For Christmas my one-year-old granddaughter will come with my daughter and her husband for over a week. It will be the BEST Christmas ever!!
