Robert Wood Johnson Foundation	Evidence for Action: Investigator-Initiated Research to Build a Culture of Health	Evidence for Action (E4A), a national program of the Robert Wood Johnson Foundation, funds research that expands the evidence base needed to build a Culture of Health. Our mission is to support rigorously designed quantitative, qualitative, and mixed methods research that yields convincing findings regarding the population health, well-being, and equity impacts of specific policies, programs and partnerships. We are especially interested in research examining the health impacts of programmatic or policy interventions that address factors outside the domain of health care services or public health practice.	933
Deadline 2 /15/2019

Massage Therapy Foundation	Research Grants	<p>Massage Therapy Foundation Research Grants are awarded to those conducting studies that seek to advance our understanding of specific therapeutic applications of massage, public perceptions of and attitudes toward massage therapy, and the role of massage therapy in health care delivery.</p> <p>The maximum award is \$30,000 for a one-year project period. This grant supports high quality, independent research that contributes to the basic science of massage therapy application, including applied research investigating massage therapy as a health/mental health treatment and/or prevention modality. The research grant is available to investigators who have experience in the relevant field of research, and are presently associated with or have secured the cooperation of a university, independent research organization, or other institution qualified and willing to function as a Sponsoring Organization for the purpose of this project.</p>	917
Deadline 3/1/2019		http://mtf.amtamassage.org/grants-and-contests/research-grants/	
Robert Wood Johnson Foundation	Clinical Scholars	<p>The Robert Wood Johnson Foundation's Clinical Scholars is a three-year national leadership development program that offers interprofessional teams of health professionals (spanning a wide range of disciplines) the opportunity to build and develop unique skills to lead teams, working with and across communities and organizations to build a Culture of Health. More often than not, health professional education and training does not provide the tools, knowledge, and skills they need to lead transformative change. Clinical Scholars is designed to address that gap by offering health professionals the training to:</p> <ul style="list-style-type: none"> • Prepare to lead transformative change focused on health equity. • Realize their unique role as both professionals and trusted members of communities. • Cooperatively work across disciplines and professions to tackle problems that emerge from complex systems in communities—problems that jeopardize the achieving of a Culture of Health. These are society's "wicked problems." <p>Maximum Project Budget: \$105,000 per team member Maximum Project Period: 3 years Awards Available: Up to 35 awards (in teams of two to five)</p>	932
Deadline 3/13/2019		https://www.rwjf.org/en/library/funding-opportunities/2019/clinical-scholars.html

Robert Wood Johnson Foundation	Interdisciplinary Research Leaders	<p>This call for applications seeks teams of researchers and community members who are committed to working together to produce community-relevant, action-oriented research to improve health and well-being. The applicant organization (the one group that will accept and distribute RWJF funds) will be represented by the team members listed on its application.</p> <p>The broad goal of the Interdisciplinary Research Leaders (IRL) program is to produce diverse interdisciplinary leaders who conduct and apply high-quality, community-engaged, action-oriented, equity-focused health research in order to drive improvements in the health of communities. Another central goal of the IRL program is to foster and support new interdisciplinary, action-oriented research collaborations that will help build the evidence base for effective community interventions to improve health for all.</p> <p>Accordingly, the program will recruit and select applicants represented by teams of three people ("IRL team"): two mid-career researchers and one community member to become IRL program fellows. IRL teams will be the grantees in this program and join together as a diverse cohort of fellows that will participate in a three-year program. During this time, fellows will receive: leadership training; opportunities to learn and apply cutting-edge research methods; expert mentoring; networking opportunities; and, both fellowship and research funds.</p> <p>With these resources, IRL fellows will be better equipped to effect change and become the next generation of leaders in population health and health equity research.</p> <p>Maximum Project Budget: \$350,000 Maximum Project Period: 3 years</p>	931
Deadline 3 /13/2019		https://www.rwjf.org/en/library/funding-opportunities/2019/interdisciplinary-research-leaders.html	
American Speech-Language-Hearing Association	Advancing Academic-Research Careers Award	<p>Recipients work in conjunction with mentors to develop mentored teaching and research plans tailored to the applicant's career stage. The plans — which propose specific teaching and research activities that will be completed under the guidance of the mentors during the eighteen-month funding period — are submitted as part of the AARC application. In support of ASHA's strategic objectives, applications that focus the mentored teaching and/or research component on the areas of clinical practice research, implementation science, and interprofessional education and interprofessional practice are encouraged. In 2018, ASHA will award up to ten grants of \$5,000 each.</p> <p>To be eligible, all applicants must have a research doctoral degree (PhD or equivalent); a full-time tenure or non-tenure track faculty appointment in a CSD department in an academic institution in the United States; primary responsibilities that include teaching and conducting research; and fewer than six years of teaching/research experience or status below the level of associate professor.</p>	820
Deadline 4 /16/2019

The Spencer Foundation	Small Research Grants Program	<p>The Small Research Grants program is intended to support education research projects with budgets of \$50,000 or less. In keeping with the Spencer Foundation's mission, this program aims to fund academic work that will contribute to the improvement of education, broadly conceived.</p> <p>Teaching, Learning, and Instructional Resources: Studies in this area would be those that will lead to better understanding and improvements in the intellectual, material, and organizational resources that contribute to successful teaching and learning. They may investigate questions that are grounded directly in teaching practice, as well as research about important aspects of child and adult learning processes and contexts that hold promise for guiding informed policymaking.</p> <p>Small Research Grant proposals are accepted 4 times per year. The next deadline is at 4:00pm CDT, November 1, 2018. The following deadlines will fall on February 1, 2019, May 1, 2019, and August 1 2019.</p>	798
Deadline 5 /1 /2019		https://www.spencer.org/small-research-grants	
Russell Sage Foundation	Social, Economic and Political Effects of the Affordable Care Act Program	<p>This initiative support social science research on the social, economic and political effects of the ACA. RSF is especially interested in funding analyses that address the extent to which the ACA has affected outcomes such as financial security and family economic wellbeing, labor supply and demand, family and children's outcomes, and participation in other social safety net programs. We are also interested in analyses of the political effects of the implementation of the law, including changes in views about government, support for future government policy changes, or the impact on policy development outside of health care.</p> <p>We do not fund research on the effects of the ACA on health care delivery or health outcomes (e.g., barriers to implementation, changes in the quality of care and health status, or trends in enrollment, access, and affordability) because these issues are priorities for other funders.</p>	844
Deadline 5 /23/2019		http://www.russellsage.org/research/funding/affordable-care-act	
National Multiple Sclerosis Society	Research Grants	<p>We welcome applications for studies related to multiple sclerosis that may serve to advance our mission of stopping MS progression, restoring function and improving quality of life, and preventing MS. The Society supports fundamental as well as applied studies, non-clinical or clinical in nature, including projects in patient management, care and rehabilitation.</p>	636
