

College of Health Sciences Statistical Support

The Office of Research & Scholarship is pleased to provide CHS faculty with robust statistical support for research projects, including grant proposals. [Stacey Slone, M.S.](#) is a UK statistician with experience in clinical trials (planning, execution & analysis), developing statistical plans, SAS programming, data manipulation, analysis, and macro creation.

To request services:

1. Go to the [Applied Statistics Laboratory](#) website and click on “Submit a Request.”
