Congratulations!

Graduating college is an achievement worth rewarding.

Our College Graduate Program is designed to help you lease or buy a new or certified pre-owned Volkswagen.

How it works:*

When you buy or lease through Volkswagen Credit, VW will make your first month's payment—up to \$800!

up to
\$800

If you lease, there's no security deposit.

No credit history¹ required (but if you have existing credit, it must be in good standing).

Great rates even if you have no credit.

No co-signer required.

You've just finished four years (more or less) of hard work. You deserve great rates AND flexible terms, AND a cool car.

Get started.

To get started, visit your local Volkswagen dealership. You'll need to meet the following requirements:

- You graduated in the past 24 months.**
- Or will graduate in the next six months.**
- You have a full-time job.
- Or have written commitment from a future employer.

When you apply you'll also need to:

- Have three personal references.
- Be approved by Volkswagen Credit.¹

Iron out the remaining minor details with your local Volkswagen dealer and you're good to go show off your new VW.
