Innovative Education for the Advancement of Nurses
The Kentucky Department for Public Health Medical Needs Shelter (MNS) Training Course, Spring 2017 (7 Locations)

The Kentucky Department for Public Health Medical Needs Shelter (MNS) Training course is designed to support clinical training and information for local health department (LHD) nurses who are identified to provide nursing care in a local community MNS setting. The purpose of a MNS is to provide adequate, short term, supportive medical care during a natural or technological disaster when a person is displaced from their home or specialized facility and cannot be accommodated at a general population shelter due to their medical needs. This training course provides a “refresher” review of the policies and procedures for nursing skills that are not practiced on a routine basis in the local health department but may be provided in a MNS.

Advanced Pediatrics Update, March 27, 2017

University of Kentucky College of Nursing Continuing Education is holding its inaugural Advanced Pediatrics Update, targeting pediatric nurses from a wide variety of settings. Updates and issues critical to pediatric practice will be addressed including diabetes, immunization updates, pediatric cardiology, and medicine updates. Breakout sessions will be offered targeting areas unique to Primary Care and Acute Care settings.

Topics and Speakers include:

- Pharmacology Update, Dr. Sam Osborne, UK HealthCare
- Pediatric Forensics, Lauren Vincent, UK HealthCare
- Social Media and Legal Issues, Margaret Pisacano and Brett Short, UK
- Pediatric Simulation, Dr. Jennifer Dent, UK College of Nursing
- Dermatology, Dr. Rebecca Collins, UK HealthCare

Location: 127 Charles T. Wethington Bldg, Lexington, KY
