

# ASACR 5

Office of the President  
December 12, 2022

Members, Board of Trustees:

DELETION OF DEGREE:  
COLLEGE OF ENGINEERING

Recommendation: that the Board of Trustees approve the closure of the Master of Engineering degree program within the College of Engineering effective in the Fall 2023 semester.

Background: The Master of Engineering degree program has been inactive since 2005 and was under-enrolled in the years prior. A formal request was never made official, and the closure of the program will not impact past, present or future students.

This proposal has the approval of the program faculty, the College of Engineering and the University Senate. The Provost of the university supports this recommendation.
