APPENDIX 1 - Selection of Investments and Investment Managers	12
APPENDIX 2 - Kentucky Uniform Prudent Management of Institutional Funds Act	14

I. Overview and Purpose of the Investment Policy

This policy applies to the investment of operating or non-endowed funds of the University of Kentucky and its affiliated corporations. Endowments and trust funds are covered by separate policies. Additionally, bond proceeds are invested pursuant to investment guidelines in bond documents and are not subject to this policy. The purpose of this policy is to outline a philosophy that will guide the management of the operating cash and investments toward the desired results. It is intended to be sufficiently specific to be meaningful, yet flexible enough to be practical.

This investment policy is set forth in order to:

- a. Define and assign the responsibilities.
- b. Establish a clear understanding of the investment goals and objectives of the operating fund assets.
- c. Offer guidance and limitations regarding the investment of operating fund assets.
- d. Establish a basis of evaluating investment results.
- e. Manage the operating fund assets according to industry best practices and applicable laws.

The investment policy shall be formally reviewed annually and at such times as desired by the Operating Fund Investment Committee (“OFIC”) and Treasury Staff, as defined in section II. Any modifications to the policy shall be approved by the OFIC.

II. Delegation of Authority and Roles & Responsibilities

Delegation of Authority

Pursuant to procedures set forth in AR 8:3, the Executive Vice President for Finance and Administration (“EVPFA”) has delegated to the Treasurer the responsibility for the custody, investment and disbursement of University funds in accordance with applicable laws and established policies and procedures. The Treasurer shall establish additional specific written procedures and policies for the administration of the operating fund investment program, which are consistent with the approved investment policy and fulfill the fiduciary responsibility to the University. No person may engage in an investment transaction except as provided under the terms of this policy and the procedures established by the Treasurer.

Treasury Staff

The Treasury Staff (“Staff”) includes the Treasurer, the Assistant Treasurer/Training and Policy Director, the Debt and Liquidity Senior Director, the Senior Debt and Liquidity Analyst and employees in the Treasury Services department. Staff shall manage the daily operating fund investments and prepare analysis and recommendations to the OFIC. Staff shall prepare assessments of investment balances and performance.

When selecting investments to purchase for staff managed funds, as defined in Tiers I and III below, a standard selection process shall be utilized. See Appendix 1 for more information regarding the selection process.

University Financial Services may retain the services of a qualified investment manager(s) to invest funds pursuant to this policy. In collaboration with the OFIC, the Staff may appoint, monitor and evaluate external investment managers for the investment of Tier III funds defined in section III below. The Staff will provide updates to the OFIC on manager appointments, terminations, and the ongoing monitoring and evaluation of existing managers, at each meeting and at other times as requested by the OFIC. See Appendix 1 for more information regarding the selection process for external investment managers.

Operating Fund Investment Committee

The Operating Fund Investment Committee (“OFIC”) consists of the EVPFA, Treasurer, Chief Investment Officer, Assistant Treasurer/Training and Policy Director and Controller. The OFIC will meet periodically as needed to review operating fund investments and to advise Staff on investment allocations. Staff will prepare investment reports and make recommendations to the OFIC.

III. Investment Objectives and Structure

The primary investment objective is to achieve and maintain a high degree of safety and liquidity. The secondary objective is to maximize investment income taking into consideration investment risk constraints and liquidity needs. Investments shall be made in a manner that seeks to balance these goals for the overall portfolio.

Safety of Capital

Investments shall be undertaken in a manner that seeks to ensure the preservation of capital in the overall portfolio. Credit risk shall be minimized by limiting investments to the types of securities described in section IV; pre-qualifying the financial institutions, broker/dealers, and advisors; and diversifying the investment portfolio so that potential losses are minimized. Total portfolio management will seek to ensure capital losses are avoided, whether from securities defaults or erosion of market value.

Investment risk can result from changes in credit quality underlying a security, issuer defaults, market price changes or temporary liquidity problems. In order to reduce investment risk while attaining market average rates of return, the investment portfolio shall be diversified with respect to the type of securities in the portfolio; the concentration of investments held by any financial institution; and the length of maturities of investments.

Interest rate risk, the risk that the market value of securities fall due to changes in general market rates shall be minimized by structuring the portfolio so that securities mature to meet cash flow requirements, thereby avoiding the need to sell securities before maturity. Operating funds held in Tier I, II, or III, discussed below, shall be invested pursuant to Section IV of this policy and duration shall be appropriate for each Tier.

Liquidity

The investment portfolio shall maintain sufficient liquidity to meet all operating requirements that may be reasonably anticipated. This is accomplished by structuring the portfolio so that securities mature concurrent with cash needs. Cash flow forecasts, based on reasonable knowledge of future fiscal events and historical fiscal trends, shall be developed and maintained by Staff. Investment maturities shall be based on these forecasts so that cash may be available to meet anticipated expenditures.

Since all cash needs cannot be anticipated, the portfolio shall consist largely of securities with active secondary or resale markets. A portion of the portfolio shall be placed in money market mutual funds or investment pools which offer same-day liquidity.

As indicated on the table below, Tiers I and II will serve to meet daily liquidity needs. The total of Tier I and Tier II shall have a minimum of 60 days cash for day-to-day operating liquidity. When calculating the days cash on hand, expenses shall be based on the consolidated prior fiscal year average operating expense per day. Additionally, the Debt Management Committee shall set targeted cash levels for Tiers I-III on an annual basis by establishing an approved days cash on hand target range for the total cash and investments to be held in Tiers I-III. See [Debt Policy](#) for further details.

The Board of Trustees authorized the establishment of the Hospital Quasi-Endowment Fund¹ and the University Operating Quasi-Endowment Fund², permitting operating funds to be invested in the Endowment investment pool, defined as Tier IV below. When determining amounts to be invested, the OFIC shall ensure the approved minimum cash targets are maintained and that the funds will not be needed to support operations for more than 10 years. Consideration shall also be given to market conditions and other financial circumstances. The total of any such funds invested, including existing Tier IV funds, shall not exceed 35% of the overall operating cash and investments contained in Tiers I through III below at the time of investment. Additionally, the maximum amount that can be added to the University Operating Quasi-Endowment Fund within a fiscal year is \$75,000,000.

Tiered Investment Structure

The investment structure for University operating funds shall be divided into Tiers based on expected liquidity needs, return objectives and State statutes.

¹ The Board of Trustees established the Hospital Quasi-Endowment Fund and authorized transfers up to \$250,000,000 of Hospital reserve funds to the quasi-endowment in two separate actions dated March 7, 2006 and April 24, 2007. To date, \$225,000,000 has been transferred to the quasi-endowment for investment in the Endowment investment pool.

² The Board of Trustees established the University Operating Quasi-Endowment Fund on May 2, 2017 and authorized transfers subject to (1) liquidity targets approved by the Debt Management Committee; (2) a total operating quasi-fund investment limitation of 35%; and (3) an annual maximum contribution of \$75,000,000 as set forth in the Operating Fund Investment Policy. To date, \$75,000,000 has been transferred to the quasi-endowment for investment in the Endowment investment pool.

The Tiers are defined below:

Category	Manager	Liquidity/Duration	Investment/Return Objective
Tier I Cash, overnight and short-term investments	Staff/ External manager(s)	Daily	Principal preservation and liquidity

¹The University is required to deposit all receipts collected with the State Treasury within 30 days of receipt except amounts received as gifts, received from grants and endowments, or received by affiliated corporations. The receipts remitted to the State are managed by the Office of Financial Management (“OFM”).

² Operating funds invested in the Endowment Investment Pool shall be defined as the Hospital Quasi-Endowment Fund (established by the Board of Trustees in March 2006) and the University Operating Quasi-Endowment Fund (established by the Board of Trustees in May 2017).

³ Operating funds allocated for internal loans shall be utilized to help minimize the overall cost of capital for the University and provide flexibility on funding for capital projects.

Other Custodians may be utilized when deemed appropriate based on the underlying fund(s) selected for investment. All cash deposits in excess of FDIC or NCUA insurable amounts and investments maintained by any financial institution shall be collateralized. Collateralized securities shall be purchased using the delivery versus payment procedure. Collateral shall be marked to market daily.

The Custodian(s) shall provide monthly account statements and other reports as requested by University Financial Services. Staff may also establish a collateral account with the Federal Reserve Bank in the name of the University of Kentucky for collateral requirements.

Short-term and intermediate-term investments held by the Commonwealth for the benefit of the University (Tier II) are invested in the Commonwealth’s investment pools and are held in the name of the Commonwealth by the Commonwealth’s custodian. The low duration strategy investments managed by an external manager(s) (Tier III managed by external managers) are held in the University’s name by the University’s endowment investment custodian.

Financial institutions seeking to be eligible for the University’s certificate of deposit purchase program, security transactions, repurchase agreements and safekeeping agreements shall annually submit audited financial statements and regulatory reports on financial condition. Security broker-dealers will be selected by creditworthiness. These may include primary dealers of the Federal Reserve rated A1-P1 by a nationally recognized rating agency or other dealers that qualify under 200 KAR 14:011, Section 9.

All financial institutions and broker/dealers who desire to become qualified for investment transactions must supply audited financial statements, proof of National Association of Security Dealers (NASD) certification, proof of state registration and a certification of having read and understood and agreeing to comply with the University’s investment policy.

Unless stated otherwise in the gift instrument, the assets in an endowment fund are donor-restricted assets until appropriated for expenditure by the institution. In making a determination to appropriate or accumulate, the institution shall act in good faith, with the care that an ordinarily prudent person in a like position would exercise under similar circumstances, and shall consider, if relevant, the following factors:

(2) The court, upon application of an institution, may modify a restriction contained in a gift instrument regarding the management or investment of an institutional fund if the restriction has become impracticable or wasteful, if it impairs the management or investment of the fund, or if, because of circumstances not anticipated by the donor, a modification of a restriction will further the purposes of the fund. The institution shall notify the Attorney General of the application, and the Attorney General shall be given an opportunity to be heard. To the extent practicable, any modification shall be made in accordance with the donor's probable intention.

(3) If a particular charitable purpose or a restriction contained in a gift instrument on the use of an institutional fund becomes unlawful, impracticable, impossible to achieve, or wasteful, the court, upon application of an institution, may modify the purpose of the fund or the restriction on the use of the

fund in a manner consistent with the charitable purpose expressed in the gift instrument. The institution shall notify the Attorney General of the application, and the Attorney General shall be given an opportunity to be heard.

(4) If an institution determines that a restriction contained in a gift instrument on the management, investment, or purpose of an institutional fund is unlawful, impracticable, impossible to achieve, or wasteful, the institution, sixty (60) days after notification to the Attorney General, may release or modify the restriction, in whole or part, if:

- (a) The institutional fund subject to the restriction has a total value of less than fifty thousand dollars (\$50,000);
