Internet/Web-based: Yes
Interactive Video: No
Hybrid: No

1. How does this course provide for timely and appropriate interaction between students and faculty and among students? Does the course syllabus conform to University Senate Syllabus Guidelines, specifically the Distance Learning Considerations? The timely and appropriate interaction between students and the faculty and among students will be provided via the following communication tools: online discussion forum, instant video conferencing, and emails.

2. How do you ensure that the experience for a DL student is comparable to that of a classroom-based student’s experience? Aspects to explore: textbooks, course goals, assessment of student learning outcomes, etc. Course materials, goals, and assignments are designed to be delivered electronically. Therefore, all students (in-class and distance learning) students will receive the same course materials, have the same learning goals, and be given the the same assignments.

3. How is the integrity of student work ensured? Please speak to aspects such as password-protected course portals, proctors for exams at interactive video sites; academic offense policy; etc. A password-protected course portal will be provided to all students. The individual or team-based assignments will be checked for plagiarism. The exam will be open book and requires students to log into the course portal and answer the exam questions online. No proctor is required for the online exam. Academic offense will be handled according to the University policy.

4. Will offering this course via DL result in at least 25% or at least 50% (based on total credit hours required for completion) of a degree program being offered via any form of DL, as defined above? This course will be offered as a 100% online course during the spring semester.

If yes, which percentage, and which program(s)? This course will be offered as a 100% online course during the spring semester. It is an intro course for the Clinical Leadership and Management program.

5. How are students taking the course via DL assured of equivalent access to student services, similar to that of a student taking the class in a traditional classroom setting? Student services and learning support resources at the University and College will be introduced at the first course session and their contact information will be listed on the course portal for later reference.

6. How do course requirements ensure that students make appropriate use of learning resources? The students are asked to provide reflective statements about the online learning materials as class assignments.

7. Please explain specifically how access is provided to laboratories, facilities, and equipment appropriate to the course or program. This course requires the students to have the access to personal devices and the internet in order to complete course material. Information including location and hours of computer labs around campus will be provided to students who do not have the access to personal computers.
8. How are students informed of procedures for resolving technical complaints? Does the syllabus list the entities available to offer technical help with the delivery and/or receipt of the course, such as the Information Technology Customer Service Center (http://www.uky.edu/UKIT)? The information technology support at the University (UKIT), the College (chshelpdesk@uky.edu), and at the course portal sit will be introduced to the students and their contact information will be provided and listed on the course portal site.

9. Will the course be delivered via services available through the Distance Learning Program (DLP) and the Academic Technology Group (ATL)? NO

If no, explain how student enrolled in DL courses are able to use the technology employed, as well as how students will be provided with assistance in using said technology. No. The students in this course will be provided with online video tutorials about how to use the course portal. As mentioned previously, the IT support recourse will be provided and introduced.

10. Does the syllabus contain all the required components? YES

11. I, the instructor of record, have read and understood all of the university-level statements regarding DL.

**Distance Learning Form**

This form must accompany any submission of a new/course change form that requests distance learning delivery. This form may be required when changing a course already approved for DL delivery.

**Instruction/Definition:** For the purposes of the Commission on Colleges Southern Association of Colleges and Schools accreditation review, distance learning is defined as a formal educational process in which the majority of the instruction (interaction between students and instructor as well as communication) is conducted remotely using any form of electronic delivery or technology.

https://iweb.uky.edu/curricularproposal/Form_NewCourse.aspx?Notif=5624B3F46FE50710E100800080A3B9... 8/10/2016
A number of specific requirements are listed for DL courses. The department proposing the change in delivery method is responsible for ensuring that the requirements are satisfied at the institutional course level. It is the responsibility of the instructor to have read and understood the university-level assurances regarding an equivalent course or program (available at [https://www.uky.edu/DTC/newform.ajl](https://www.uky.edu/DTC/newform.ajl)).

**Course Number and Prefix:** CJM 120-201

**Curriculum and Instruction**

1. How does the course provide for timely and appropriate interaction between students and faculty and among students? Does the course syllabus conform to University Syllabus Considerations, specifically the Distance Learning Considerations?  
   - The timely and appropriate interaction between students and the faculty and among students will be provided via the following communication tools: online discussion forum, instant video conferencing, and emails.

2. How do you ensure that the experience for a DL student is comparable to that of a classroom-based student’s experience? Aspects to explore: textbooks, course goals, course design, blended learning outcomes, etc.  
   - Course materials, goals, and assignments are designed to be delivered electronically. Therefore, all students (in-class and distance learning) who receive the same course materials, have the same learning goals, and are assessed on the same criteria.

3. How is the integrity of student work ensured? Please speak to aspects such as password-protected course portals, proctors for exams at interactive video sites, academic honesty policy, etc.  
   - A password-protected course portal will be provided to all students. The individual or team-based assignments will be checked for plagiarism. The exam will be open book and requires students to log into the course portal and upload their work.

4. Will offering this course via DL result in at least 25% or at least 50%* (based on total credit hours required for completion) of a degree program being offered via any of the methods described above?  
   - This course will be offered as a 100% online course during the spring semester.

   *Which percentage, and which program(s)?

   This course will be offered as a 100% online course during the spring semester. It is an intro course for the Clinical Leadership and Management program.

   *As a general rule, if approval of a course for DL delivery results in 50% or more of a program being delivered through DL, the effective date of the course's DL delivery months from the date of approval.

5. How are students taking the course via DL assured of equivalent access to student services, similar to that of a student taking the class in a traditional classroom setting?  
   - Student services and learning support resources at the University and College will be introduced at the first course session and their contact information will be listed on the course portal for later reference.

**Library and Learning Resources**

6. How do course requirements ensure that students make appropriate use of learning resources?  
   - The students are asked to provide reflective statements about the online learning materials as class assignments.

7. Please explain specifically how access is provided to laboratories, facilities, and equipment appropriate to the course or program.  
   - This course requires the students to have the access to personal devices and the Internet in order to complete course materials. Information including location and hours of computer labs around campus will be provided to students.

**Student Services**

8. How are students informed of procedures for resolving technical complaints? Does the syllabus list the entities available to offer technical help with the delivery and/or the course, such as the Information Technology Customer Service Center?  
   - The Information Technology Support Center (IT Support Center, [https://www.uky.edu/ITSupport](https://www.uky.edu/ITSupport)) can assist with technical issues.
   - The information technology support at the University (ITSI), the College (ITSI, [https://www.uky.edu/ITSI](https://www.uky.edu/ITSI)), and the course portal will be introduced to the students and their contact information will be provided and listed on the course portal.

9. Will the course be delivered via services available through the Distance Learning Program (DLP) and the Academic Technology Group (ATG)?  
   - Yes
   - No

   If No, explain how students enrolled in DL courses are able to use the technology employed, as well as how students will be provided with assistance in using said technology.

   No. The students in this course will be provided with online video tutorials about how to use the course portal. As mentioned previously, the IT support resource will be provided and introduced.

10. Does the syllabus contain all the required components, below?  
    - Yes
    - No

    *Instructor's virtual office hours, if any.
    *The technological requirements for the course.
    *Contact information for Distance Learning programs (https://www.uky.edu/distancelearning) and Information Technology Services (https://www.uky.edu/ITSI) and 859-258-HELP.
    *Procedure for resolving technical complaints.
    *Preferred method for reaching instructor, e.g., email, phone, text message.
    *Maximum timeframe for responding to student communications.
    *Language pertaining academic accommodations.

\footnotesize

- Courses are typically made effective for the semester following approval. No course will be made effective until all approvals are received.
- The chair of the cross-listing department must sign off on the Signature Request Log.
- In general, undergraduate courses are developed on the principle that one semester hour of credit represents one hour of classroom meeting per week for a semester, exclusive of any laboratory meeting. This meeting, generally, represents at least two hours per week for a semester for one credit hour. (Note 5.2.1)
- You must also submit the Distance Learning form in order for the proposed course to be considered for DL delivery.
- In order to change a program, a program change form must also be submitted.

MEMO

April 20th, 2016

TO: Sharon R. Stewart, Professor and Associate Dean of Academic Affairs
FROM: Travis Thomas – Chair of Academic Affairs
RE: Academic Affairs review of New Courses: AT, CSD, MLS, PAS, CLM 120

Dear Dr. Stewart,

The Academic Affairs (AA) Committee has thoroughly reviewed your new course proposals and corresponding syllabi for AT, CSD, MLS, PAS, CLM 120. We have also reviewed your responses to reviewer inquiries for these five courses and confirm that all corrections have been made and are consistent across all courses. As a result, the Academic Affairs committee recommends approval of these courses. Thanks for the opportunity to review these proposals. Please let me know if I can help clarify anything regarding this recommendation.

Sincerely,

Travis Thomas, PhD, RD, CSSD, Chair – CHS Academic Affairs Committee (2015-16)
University of Kentucky  
College of Health Sciences  
Department of Clinical Sciences  
Division of Clinical Leadership and Management

Course Number: CLM 120  
Title/Section: Careers in Clinical Leadership and Management  
Section 001  
Course Credit: 1 credit

Course Time /Place: 1 standard lecture period per week for face-to-face students and the online course is asynchronously delivered using Canvas with the instructor providing details to the registered students on how to start the class and additional communication as needed via Canvas/email.

Course Faculty: Geza Bruckner, PhD  
207 CTW - 900 S. Limestone, Lexington, KY 40536  
gbruckn@uky.edu  
859-218-0899

Office Hours: Immediately after class or by appointment for face-to-face students  
Online Office Hours: Via Adobe Connect. The time and link to Adobe Connect room will be provided here once established.  
Both groups of students are welcome to use face-to-face or Adobe Connect for office hour interaction.

(Note to Reviewers: The intent is to offer this course each semester with the first yearly offering provided in a traditional face-to-face instructional environment that is recorded. The second yearly offering is intended to be offered in an asynchronous online mode using the recorded class sessions from the previous semester. This structure is intended to effectively utilize the best guest speakers available while providing for more course/space availability for the student. The course is not intended to be offered in face to face and online formats in the same semester. For this reason, language for both instructional settings is used in this syllabus).

COURSE DESCRIPTION

Bulletin Description:  
An overview of the Clinical Leadership and Management profession(s) including aspects of professional practice, areas of specialization, professional issues and trends, and career paths and opportunities. The course will consist of assignments, lectures and interactive discussions led by faculty and visiting professionals designed to expand students' understanding of the profession(s) and to assist in educational and career planning and discernment.

Student Learning Outcomes:
The purpose of this course is to provide students with a broad understanding of the Clinical Leadership and Management profession(s) including general areas of practice responsibilities and specialization, important issues and trends, and career paths and opportunities.

Upon completion of this course, the successful student will:
1. Identify 3 careers in the field of CLM and the required or recommended education and career experiences or activities
2. Evaluate the pros/cons of a CLM career through the lens of your own life goal
3. Plan and execute a networking event for the purpose of practicing networking skills
4. Develop and present a career plan and analysis as a team

Required Readings:
2. Other learning materials will be provided through an online learning management system (Canvas).

Attendance:
Attendance and punctuality will be considered part of your grade. Tardiness is defined as arriving after the class is scheduled to begin or departure before the end of the class session. Three tardies constitute one unexcused absence. Each unexcused absence will result in a deduction of 1 point (1%) from your course grade. This does not apply to students taking the course solely online.

Course Assignments:
Course assignments consist of:
1) CLM career inventory
2) Reflection paper of a selected CLM career and your life goal
3) A networking event plan
4) A career plan and analysis

Written assignments MUST be in 12 point font, double spaced, and page margins should be 1" for top, bottom, left and right. The 3 written assignments are to be concise. Assignments MUST be a minimum of 1 pages and a maximum of 2 pages.

Summary Description of Course Assignments:
1) **CLM career inventory**: This assignment is based on information obtained from sessions on the various career options that some professionals have pursued in Clinical Leadership and Management. This paper should describe these 3 career options and what education/ experiences are needed for these careers. The paper is maximum 2-page, double-spaced.

2) **CLM Career Planning**: The students will be grouped into teams based on their
career preferences to work together on this assignment. Groups may interact in-person or electronically. This assignment is broken into 3 parts.

a. **CLM career evaluation**: The students will submit a maximum 2-page, double-spaced reflection paper, where they reflect upon their life goals, and analyze the pros and cons of a chosen CLM career.

b. **Networking**: In this assessment, students will submit a one-page document outlining a planned networking event and include information about a person who is in the CLM career of interest and would be contacted for this networking event, as well as the questions prepared to facilitate the discussion. Based on the networking plan, students will conduct an interview with a CLM professional that they identify to learn more about his or her job, daily activities, education acquired, etc.

c. **CLM career action plan**: The students will reflect upon their career evaluation and networking experiences, and set an action plan for their following 5 years of life to reach their career goals.

**Submission of Assignments:**
All assigned work must be completed and submitted at the beginning of class on the due date to receive full credit. Written assignments will be submitted on Canvas via the Assignment Tab. Label all submissions with your name and course number CLM 120.

**Late work:**
Late work will not be accepted for a grade unless approved by the instructor. If approved, points will be deducted for late work at the rate of 5 points (5%) of your total course grade per day. Written assignments will be submitted on CANVAS via the Assignment Tab. After one week, late work will not be accepted. Late work associated with an approved excused absence will not be penalized; due dates for submission of late work for an excused absence will be negotiated with the instructor.

**Grading:**
Students will work in groups based on their career interests and may individually or as a group interview a health administrator/professional but all students individually will be required to hand in their written assignments. Student's grades will be derived as follows:

<table>
<thead>
<tr>
<th>F-2-F &amp; online Points</th>

Notes for distance learning students: The students in the distance learning session will complete
all the same requirements online. They will complete their class assessment activities on an online learning management system (Canvas).

**Verification of Attendance for Online Content:**
For the online course, verification of pre-recorded materials will be done via Canvas.

**Grading Scale:**

<table>

**Questions Concerning Grades:**
All assignments and exams will be evaluated. Any assignment graded incorrectly or questions concerning the grading should be brought to the instructor’s attention within one week of the grade being posted/returned.

**Mid-Term Evaluation:**
Mid-term grades will be posted in myUK by the deadline established in the Academic Calendar (http://www.uky.edu/registrar/calendar). Your Reflection Paper and attendance points before mid-term will be used to determine mid-term progress.

There is no **Final Examination** for this course.

**COURSE POLICIES**

**Attendance:** See grading section above.

**Excused Absences:**
Students need to notify the professor of absences prior to class when possible. Senate Rules 5.2.4.2 defines the following as acceptable reasons for excused absences:

- a) serious illness,
- b) illness or death of family member,
- c) University-related trips,
- d) major religious holidays, and
- e) other circumstances found to fit “reasonable cause for nonattendance” by the professor.

Students anticipating an absence for a major religious holiday are responsible for notifying the instructor in writing of anticipated absences due to their observance of such holidays no later than the last day in the semester to add a class. Two weeks prior to the absence is reasonable, but should not be given any later. Information regarding major religious holidays may be obtained through the Ombud (859-257-3737), http://www.uky.edu/Ombud/ForStudents_ExcusedAbsences.php.
Students are expected to withdraw from the class if more than 20% of the classes scheduled for the semester are missed (unexcused) per University policy.

**Make-up opportunity:**
Per Senate Rule 5.2.4.2, students missing any graded work due to an excused absence are responsible: for informing the Instructor of Record about their excused absence within one week following the period of the excused absence (except where prior notification is required); and for making up the missed work. The professor must give the student an opportunity to make up the work and/or the exams missed due to an excused absence, and shall do so, if feasible, during the semester in which the absence occurred.

**Verification of Absences:**
Students may be asked to verify their absences in order for them to be considered excused. Senate Rule 5.2.4.2 states that faculty have the right to request “appropriate verification” when students claim an excused absence because of illness, or death in the family. Appropriate notification of absences due to University-related trips is required prior to the absence when feasible and in no case more than one week after the absence.

**Academic Accommodations due to Disability:**
If you have a documented disability that requires academic accommodations, please see me as soon as possible during scheduled office hours. In order to receive accommodations in this course, you must provide me with a Letter of Accommodation from the Disability Resource Center (DRC). The DRC coordinates campus disability services available to students with disabilities. It is located on the corner of Rose Street and Huguete Drive in the Multidisciplinary Science Building, Suite 407. You can reach them via phone at (859) 257-2754 and via email at drd@uky.edu. Their web address is http://www.uky.edu/StudentAffairs/DisabilityResourceCenter/.

**Academic Integrity, Cheating and Plagiarism:**
Per University policy, students shall not plagiarize, cheat, or falsify or misuse academic records. Students are expected to adhere to University policy on cheating and plagiarism in all courses. The minimum penalty for a first offense is a zero on the assignment on which the offense occurred. If the offense is considered severe or the student has other academic offenses on their record, more serious penalties, up to suspension from the University may be imposed.

Plagiarism and cheating are serious breaches of academic conduct. Each student is advised to become familiar with the various forms of academic dishonesty as explained in the Code of Student Rights and Responsibilities. Complete information can be found at the following website: http://www.uky.edu/Ombud. A plea of ignorance is not acceptable as a defense against the charge of academic dishonesty. It is important that you review this information as all ideas borrowed from others need to be properly credited.

*Senate Rules 6.3.1 (see http://www.uky.edu/Faculty/Senate) for the current set of Senate Rules)* states that all academic work, written or otherwise, submitted by students to their instructors or other academic supervisors, is expected to be the result of their own thought, research, or
self-expression. In cases where students feel unsure about a question of plagiarism involving their work, they are obliged to consult their instructors on the matter before submission.

When students submit work purporting to be their own, but which in any way borrows ideas, organization, wording, or content from another source without appropriate acknowledgment of the fact, the students are guilty of plagiarism.

Plagiarism includes reproducing someone else's work (including, but not limited to a published article, a book, a website, computer code, or a paper from a friend) without clear attribution. Plagiarism also includes the practice of employing or allowing another person to alter or revise the work, which a student submits as his/her own, whoever that other person may be. Students may discuss assignments among themselves or with an instructor or tutor, but when the actual work is done, it must be done by the student, and the student alone.

When a student's assignment involves research in outside sources or information, the student must carefully acknowledge exactly what, where and how he/she has employed them. If the words of someone else are used, the student must put quotation marks around the passage in question and add an appropriate indication of its origin. Making simple changes while leaving the organization, content, and phraseology intact is plagiaristic. However, nothing in these Rules shall apply to those ideas, which are so generally and freely circulated as to be a part of the public domain.

Please note: Any assignment you turn in may be submitted to an electronic database to check for plagiarism.

**Classroom Behavior:**
Classroom behavior should be in compliance with the student code of conduct. Full details can be viewed at: [http://www.uky.edu/StudentAffairs/Code/part1.html](http://www.uky.edu/StudentAffairs/Code/part1.html). Consistent with this policy, student behavior that detracts from the educational environment will not be tolerated. Examples of inappropriate behaviors include engaging in disrespectful or uncivil discussions, holding disruptive discussions, or sleeping. Disruptive students will be asked to leave the classroom and re-admittance is at the discretion of the instructor.

**Electronic Device Policy:**
Generally cell phone use is not permitted for any reason. All cell phones must be placed in the "off" or "silenced" position during class. If there is a situation where a student might need to be notified during a class period, please alert the instructor to this potential and carefully monitor your phone. Other electronic devices (except for computers and i-Pads) such as smartphones, i-Pods, MP3 Players, and electronic game devices should be turned off.

**Severe Weather:**
It is the policy of the University of Kentucky to keep all offices open and classes meeting as scheduled except under extraordinary conditions. If severe weather should result in changes to the university schedule, the university will follow specific procedures about when those decisions are made and how they will be announced. Details of those procedures are available at [http://www.uky.edu/PR/News/severeweather.htm](http://www.uky.edu/PR/News/severeweather.htm).
All faculty, staff and students should note that announcements regarding the cancellation of classes and closure of offices, or a delayed opening will normally be made by 6 a.m. through the local news media. The most up-to-date and complete information will be available from the UK Infoline at 859-257-5884, UK TV Cable Channel 16, or the UK Web site at http://www.uky.edu/

**Distance Learning Session Related Information**

**The course will be offered asynchronous.**
All course material for DL delivery will have the same content as the in class option. The DL course delivery will utilize Echo 360 or similar technology for lectures conducted by guest speakers.

**Technological Requirement:**
The students who register for the distance learning session of the course are required to have an access to a computer with Internet connection, a web camera, and a microphone, which allows them to access the learning materials on the course portal and conduct online text-, audio-, or video-based collaborative learning activities.

**Verification of Absences for Online Class Meeting Sessions:**
When the online session has online audio or video meetings, the verification of absences will follow the rule outline above for the regular in-class sessions.
