February 19, 2008

Health Care Colleges Council Members:

I ask the consideration and endorsement of the Health Care Colleges Council for my proposal to change the name of the College of Medicine Department of Diagnostic Radiology to the Department of Radiology.

This proposal has the unanimous endorsement of the Faculty Council (documentation enclosed). This recommendation has also been carefully considered and endorsed by the faculty and leadership of the department.

The current department name does not reflect the complexity of services and educational programs provided by the department. The proposed name, the Department of Radiology, will provide all constituencies with a more accurate understanding of the Department's missions.

I appreciate your careful consideration, and I ask your endorsement. I am of course happy to answer questions and provide clarifications.

Sincerely,

Jay A. Perman, MD
Dean, College of Medicine
Vice President for Clinical Affairs

November 7, 2007

Jay A. Perman, M.D.

Dean, College of Medicine

MN 150

Chandler Medical Center

Dear Dr. Perman,

I am writing to formally request a name change for the Department of Diagnostic Radiology. The current title does not fully represent the scope and breadth of the clinical and academic missions of the department. Specifically, the field of radiology includes both the diagnostic review and interpretation of images as well as the performance of interventional procedures such as angiography.

The current department name presents an incomplete picture of the range of radiologic services provided at the University of Kentucky (UK). The updated department name will clarify for referring physicians, patients and others that UK provides the full range of radiologic services. It will also reflect the scope of our education programs which include teaching medical students and residents both the diagnostic and interventional aspects of clinical radiology.

The faculty unanimously support changing the department name to "Department of Radiology".

Thank you for your consideration of this request.

Sincerely,

A handwritten signature in blue ink that reads "M. Elizabeth Oates MD". The signature is written in a cursive, flowing style.

M. Elizabeth Oates

Professor and Chair

Department of Diagnostic Radiology

Lexington, KY 40536-0298

Dear Dean Perman,

On behalf of UK COM faculty council, it is a pleasure to support the request put forth by Dr. Elizabeth Oates, Chair of Diagnostic Radiology, to change the Department's name to "Radiology." Council voted on this matter on 12/18/07 and unanimously approved this request.

Sincerely,

A handwritten signature in black ink that reads "Jennifer Brueckner". The signature is written in a cursive, slightly slanted style.

Jennifer K. Brueckner, Ph.D.
University of Kentucky College of Medicine

University of Kentucky Senate Academic Organization and Structure Committee

From: UK SAOSC (Sue Humphrey, Chair, Charles Fox, Robert Houtz, William Smith, David Moliterno, Dwight Denison, Timothy Sellnow, Charles Griffith, Melanie Hardin-Pierce)

To: Sheila Brothers, Office of the Senate Council

Date: November 17, 2008

The following proposals have been reviewed by the Senate Academic Organization and Structure Committee:

2) Proposed Name Change: College of Medicine, Department of Diagnostic Radiology to the Department of Radiology

Supporting documentation for the proposals was found to include appropriate approval from each department and significant rationale listed as to why these name changes should be approved. Comments by one of the reviewers:

From the Department of Diagnostic Radiology, clear evidence suggests that the existing name does not fully reflect the scope and breadth of the clinical and academic missions in the department as indicated in the Chair's letter.

The SAOSC unanimously endorses both of these proposals.
