Ms. Hoskins:

Because of resources, change in direction of the Department of Kinesiology and Health Promotion, and administrative problems associated with the Kinesiology Business option, the Kinesiology Business option is being dropped. Official paperwork to accomplish this end has been submitted and there are no expected objections which can be foreseen. The request to drop the program has built into it ample time for all students, currently enrolled in the program, to complete their degree by the end of the school year 2007.

The department and College of Education advisors are no longer accepting students into this program. We request that you make the widest possible dissemination of this advising change to all central advising personnel. Select classes will no longer be taught after the summer of 2004. A concerted effort is being made to get all students we advise through these courses.

Your attention to this notice and its dissemination will be greatly appreciated by the Department and those students who might be affected. If you have additional questions please contact myself or Dr. Steve Parker for more information.

Sincerely,

A handwritten signature in cursive script that reads "John Hall".
