### 2. Course: MCL 510

3. Start/End Dates: June 9th – 26th (M – F): Time: 8:30 am - 12:00 p m. daily.

4. One Time Only: Note: This year's China program is a pilot program. If we decide to continue this in the future, we may need to request these start-end dates on a reoccurring basis. For this year, we are only asking for a one time exemption.

5. Justification: We are trying something new (and exciting) for the TESL MA program this summer. We are offering a supervised internship and course work in China. I am teaching the MCL 510 class, which takes place prior to the China program. I would like to start the class in early June so that it allows us to finish by June 26th so that students are able to go on the China Program. Students leave for China on June 27th.

6. Course Load: This schedule change is for a 3 credit course. TESL/MATWL students will not be enrolled in any other course during this time period.
