

Petition to exercise the Repeat Option
(A.E.)

The student has requested to be allowed to use the repeat option. The following is a summary of points.

- The student is no longer enrolled at UK, but has previously attended UK for graduate school and post-baccalaureate work. Due to a change in family circumstances, the student had to move outside of Kentucky before the completion of post-baccalaureate work. During the time the student was enrolled they were unaware of the repeat option.
- The student acknowledges that upon changing their academic focus they were not prepared for all of the work and poor grades in Spring of 2005 were the result. They student did retake one of those courses the next semester and received good marks. However made similar mistakes in another class and received poor grades.
- After relocating, the student took the courses and did well.
- The student also acknowledges that the poor grades reflect a specific error that the student is now aware of and says that it does not reflect their abilities accurately.

The student is requesting to be allowed to exercise the repeat option and apply it to their Calculus and Chemistry marks. The student believes that doing this would help to salvage their GPA and more accurately reflect their ability.
