Hi Dave,

One other thing occurred to me to include in the breakup of the medical area council. There should be some mechanism for bringing representatives of all the medical colleges together, should an issue arise that effects them all.

We could include a statement that ...

An ad hoc meeting of all members or representatives of the medical college councils can be called by a majority vote of any of those councils. This ad hoc body may decide to vote on a recommendation on any such issue or proposal, and this recommendation will be forwarded to the Senate Council. The medical college council which calls for the meeting is in charge of convening the meeting, keeping minutes, and forwarding recommendations.

Jeannine: It was good talking with you this morning. I have taken your suggestions and included them in the attached, draft memorandum. I will share this with Mike and Ernie to get their input. Dave
