

**To: Senate Council**  
**From: SREC**  
**RE: Request to review and revise SR 3.1.0 and SR 3.1.1**

**Proposal:** SREC requests that Senate Council refer SR 3.1.0 and SR 3.1.1 to SAASC for review and revision of the requirements for enrollment in undergraduate courses.

**Rationale:** These sections of the Senate Rules which date back to the 1970's, shown below, are not consistent with current practice. The following clarification on how the registration system handles status, classification, and pre-requisites was given by Don Witt on February 17, 2016:

“Glad to help clarify: the system does check the status, classification, and any required pre-requisites for any course. The key point though is that each department in each college has an appointed person who manages all of their course and schedule building – therefore, it is up to each department if they enforce the status and pre-req checking...”

Therefore, all Departments have the option to enforce 3.1.0 or not, with the exception of status for graduate students, etc. In fact, this is a decision made every semester several weeks after the schedule is built by the Department. This practice is not consistent with 3.1.1.

In light of the well-established current practice, SREC made the interpretation that the reference to undergraduate classification in these sections is meant to convey the academic level of the content of the course material, and not be a block to enrollment of otherwise qualified persons. SREC requests that these sections reflect current practice.
