

Request for Nonstandard Course Calendar.

Reny de Leeuw (rdele0@uky.edu)

RSD 823/824

Proposed start date: Sept 10, 2020

Proposed end date: Feb 4, 2021

This is a onetime only request

Justification: Due to not being able to finish RSD 822 and RSD 814, RSD 823/824 will have to start a month later (Sept 10), and hence will end a month later (Feb 4). (RSD 822 and RSD 814 are prerequisites for RSD 823/824). These are all preclinical courses, and the two that were slated to end at the end of the spring semester, had to be halted in March. We plan to finish these two at the beginning of the fall semester.

This will not increase the student load, as the courses will run in succession.
