Proposed Suspension of Graduate Certificate: Maternal and Child Health

This is a recommendation that the University Senate approve the suspension of admission into an existing graduate program: Certificate in Maternal and Child Health, in the Department of Epidemiology in the College of Public Health.

Rationale:

The certificate has had continuous low enrollment and there are limited available resources for it to continue. There are two students in the program and they will continue to be advised regarding electives in order to finish out the certificate.

Best-

Margaret
