Statement of Promotion and Tenure Expectations: STS Appointments¹

As the DOE of STS faculty will not normally emphasize research but rather teaching or service, the department does not expect that faculty member will have a publication record like that of a Regular-Title Series colleague going up for promotion. The expectations will be commensurate with the effort represented by the DOE over the course of the probationary period. The department does expect, however, that the Special-Title Series faculty member will be able to show a commitment to philosophical or pedagogical research in the form of conference and workshop presentations and publications in journals as well as books. This achievement will be primarily demonstrated by (1) external letters of assessment solicited by the unit from leading authorities in the relevant field(s) and (2) the quality, quantity and regularity of the candidate's presentations and publications (already appeared or accepted for publication).

Faculty must demonstrate that they have established an independent research agenda and show evidence of a sustainable long-term commitment to scholarly research and publication. The department also expects successful candidates to have moved beyond the specific research they conducted in their Ph.D. dissertations (as evidenced by the contents of publications and presentations).
